FULBRIGHT 2023

“ It was 1945. World War II had drawn to a close. Millions of people had died. Dozens of countries were devastated. U.S. Senator J. William Fulbright hoped such a war would never happen again. He envisioned a program that would promote **“mutual understanding between the people of the United States and the people of other countries of the world.”** Today, the Fulbright Program forms a vital link — academic, professional, and personal — between the United States and 160 countries throughout the world. ”

About the Fulbright

Fulbright is the flagship scholarship program of the United States Department of State. The program is managed by the United States Educational Foundation in Pakistan (USEFP), which is one of 49 Fulbright Commissions located throughout the world. Established in 1950 by the Governments of Pakistan and the United States, USEFP has worked to promote mutual understanding between the people of Pakistan and the people of the United States through educational and cultural exchange.

Fulbright grantees learn about American law, politics, customs, and religious traditions as they are lived by real people. While the Fulbright experience is an important academic opportunity for each individual selected, it is also an opportunity for individuals to represent Pakistan in the U.S. and to share what they have learned on their return. Since 2005, Pakistan has had the largest Fulbright Program in the world, funded by the United States Government.

Fulbright awards fund graduate study in the United States for a Master's or PhD degree, including tuition, required textbooks, airfare, a living stipend, and health insurance. USEFP also assists with the visa process. Pakistani Fulbrighters study at top universities all over the United States.

Every effort is made to place grantees in programs best suited to their academic background and study objectives.

Eligibility

- Pakistani citizens with strong academic histories, residing (throughout the process) in Pakistan and committed to returning and serving Pakistan are welcome to apply.
- All disciplines are eligible except clinical medicine. People in the fields of energy, water, agriculture, health, education, social sciences, and environment are strongly encouraged to apply.
- Eligible Master's applicants will have a four-year Bachelor's degree or a Bachelor's and Master's combination (16 years of formal education) and PhD applicants will have Master's, M.Phil., or a comparable degree (18 years of formal education) from an accredited university.
