- g) The management informed that the case is subjudice about M/s. Slag Industries Limited, M/s Transmobile Limited and M/s Axle Products Limited. The DAC directed the management to provide relevant documents to audit on the recovery, and make efforts for recovery of remaining advances and pursue court cases.
- h) The management informed that an amount of Rs.20.652 million has been recovered. The DAC directed the management to provide the relevant documents to audit for verification and recover the remaining amount accordingly.

Audit recommends implementation of the DAC directives.

(DP No. 466, 461, 479, 459, 469, 470, 471 & 483)

9.5.4.8 Un-authorized use of jetty without agreement and non-recovery of dues – Rs 1,141.000 million

Rule 4 (3) of the Public-Sector Companies (Corporate Governance) Rules, 2013, states that, the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Pakistan Steel Mills for the year 2022-23, it was observed that PSM's Jetty was being used unauthorisedly by Port Qasim Authority (PQA) from June 01, 2016 to September 20, 2023. The PQA was liable to pay Rs 1,141.000 million on account of differential amount / Cost of Infrastructure / Annual Ground Rent of 158.37 Acres Land. The breakup is as under: -

S #	Description	Amount in Rs.
1.	Difference of Amount	894,660,550
2.	Cost of Infrastructure	151,247,000
3.	Annual Ground Rent since allocation	95,583,628
Total		1,141,491,178

Audit is of the view that use of Jetty without any agreement and non-recovery of dues shows weak internal controls and weak financial management.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The DAC directed the management to recover / adjust the amount from PQA.

Audit recommends implementation of the DAC directives.

9.5.4.9 Loss due to non-transferring of electric meters - Rs 1,006.347 million

Rule 4 (3) of the Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management did not transfer the electricity connection from industrial & commercial category to residential purpose despite the entity being non-operational since 2015 till date. The management had been paying commercial & industrial rate to KE for electricity and charging domestic rates from tenants / employees which resulted in loss of Rs 1,006.347 million from July, 2022 to June, 2023 as detailed below:

S#	Months	Total Units	Commercial & Industrial Rate	Domestic Rate	Difference	Amount (Rs)
1.	July, 2022	4,336,000	46.09167	20.50	25.59167	110,965,481
2.	August, 2022	4,525,000	55.12556	20.50	34.62556	156,680,659
3.	September, 2022	4,581,000	50.70353	20.50	30.20353	138,362,371
4.	October, 2022	4,178,000	39.83608	20.50	19.33608	80,786,142
5.	November, 2022	3,304,000	35.7218	20.50	15.2218	50,292,827
6.	December, 2022	2,937,000	32.5137	20.50	12.0137	35,284,236
7.	January, 2023	2,799,000	32.89258	20.50	12.39258	34,686,831
8.	February, 2023	2,697,000	33.34911	20.50	12.84911	34,654,050
9.	March, 2023	3,336,000	44.16352	20.50	23.66352	78,941,503
10.	April, 2023	3,685,000	41.59339	20.50	21.09339	77,729,142
11.	May, 2023	5,035,000	41.46349	20.50	20.96349	105,551,172
12.	June, 2023	5,019,000	40.90512	20.50	20.40512	102,413,297
Total		46,432,000				1,006,347,713

Audit is of the view that the management failed to arrange separate meters for residential category which resulted in payment of extra amount of Rs 1,006.347 million which reflects negligence and slackness.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that the matter will be submitted before the BoD in the next meeting. The DAC directed the management to install individual meters rather than bulk purchase on fact track basis and to provide revised reply and action of loss should be intimated.

Audit recommends implementation of the DAC directives.

9.5.4.10 Exchange loss due to delay in settlement of dues - Rs.973.114 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management did not pay the import liabilities to various parties for the last 08 to 13 years in time. The conversion rate was substantially increased with the passage of time. The management has booked an exchange loss of Rs.973.114 million due to increase in conversion rate in the financial statements.

Audit is of the view that the management delayed the payment of outstanding dues resulting in exchange loss Rs.973.114 million which reflected negligence and poor financial management.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. PSM Management made hard efforts for discharging its obligation during the last three years and paid its liability amounting to Rs 8,282 million. The DAC directed the management to show the trail and verify the contents that on what accounts liability occurred.

Audit recommends implementation of the DAC directives.

9.5.4.11 Non-production of record regarding auction of scrap material – Rs.802.160 million

Rule 4 (3) of the Public Sector Companies (Corporate Governance) Rules, 2013, states that, the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management auctioned various scrap material valuing Rs. Rs.802.160 million. However, Contract / tender file regarding scrap material dated 22-08-2023 and were not provided to Audit. Detail of items is as under:

-

S#	Contractors	Product Name	Amount (Rs)
1.	A.R. Minerals Processing Industry	SMLR / mixed waste material	38,500,000
2.	-	Used and discarded material	149,065,350
3.	-	Corroded Cobbled Plates	115,095,280
4.	Usman Trading	Converter slag with some metal	23,500,000
5.	Horizon Steel	Converter slag with some metal	401,000,000
6.	Faraz Enterprises	Converter slag with some metal	75,000,000
Total			802,160,630

Audit is of the view that the management failed to provide relevant record of scrap sales valuing Rs.802.160 million due to which Audit was unable to ascertain transparency in the relevant transactions.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that the relevant records was the custody of FIA. DAC directed to share the record with Audit.

Audit recommends implementation of the DAC directives.

9.5.4.12 Failure to protect the land - Rs.750.000 million

Rule 4 (3) of the Public Sector Companies (Corporate Governance) Rules, 2013, states that, the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that 176 plots of Gulshan-e-Hadeed Colony, Karachi was encroached valuing Rs.750.000 million as detailed below:

S#	Category	No. of Plots	Sq. ft	No. of Plots x Area x Rate	Amount (Rs)
1	C Type	111	500	111x 500 x 10,000	555,000,000
2	B Type	65	300	65 x 300 x 10,000	195,000,000
Total		176			750,000,000

Audit is of the view that management failed to safeguard the land which reflects negligence and weak monitoring mechanism.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that the matter is subjudice. The DAC directed the management to provide the court case documents and pursue the case vigorously.

Audit recommends implementation of the DAC directives.

9.5.4.13 Non-reconciliation of financial statements - Rs.403.023 million

Rule 4(3) of the Public Sector Companies (Corporate Governance) Rules, 2013 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that, entries pertaining to loan and advances and trade and other payables in the financial statements for the year 2021-22 showed huge variations amounting to Rs.403.023 million which was highlighted by the External Auditors in its Letter to Management as a Qualified opinion. The detail is as under:

(Amount in Rs.)					
S#	Head Of account	Note	Amount in Financial Statements	Amounts in General Ledger	Difference
1	Loan and advances	12	206,798	325,913	119,115
2	Trade and other payable	23	3,320,000	114,457,000	111,137,000
3	Trade and other payable	23	4,388,626,000	4,096,859,000	291,767,000
	Total		4,392,152,798	4,211,641,913	403,023,115

Audit is of the view that the huge variation of Rs.403.023 million in the financial statements created doubts about the financial affairs of PSM which needed to be justified.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management observed that there was no such variation between Financial Statement and ledger of the year 2021-22. The DAC directed the management to provide the reconciliation statement and annual accounts to audit for verification.

Audit recommends implementation of the DAC directives.

9.5.4.14 Encroachment of PSM land - Rs.351.000 million

Rule 4(3) of the Public Sector Companies (Corporate Governance) Rules, 2013 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the 11.70 acres of PSM land was encroached during the year under review valuing at Rs.351.000 million. This was in addition to already encroached upon 295 acres of PSM land. The detail was as under:

Rs.in million				
S#	Description / Name	Area (Acres)	Land Per Acre	Total Rs.
1	Mian Khan Jokhio Goth	02.00	30.000	351.000
2	Photo Goth	01.07		
3	In between Usman Farm & Sui Gas Line Deh Kotirero	03.70		
4	Near Sui Gas Line DehSanhero	04.93		
	Total	11.70		351.000

Audit is of the view that the management failed to safeguard the precious land from encroachment in presence of large number of security guards.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management apprised that letters were sent to Deputy Commissioner for removal of encroachment. DAC directed the management that the efforts should be taken for removal of encroachment. DAC expressed displeasure and directed the management to protect assets of PSM and halt any further encroachment on the land and take efforts for vacation of land.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year 2022-23 vide para(s) number 9.4.4.1 having financial impact of Rs 5,393.600 million. Recurrence of same irregularity is a matter of serious concern.

9.5.4.15 Non-recovery of Right of Way charges from KE - Rs.225.990 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management received an amount of Rs.177.755 million from K-Electric on account of Right of Way (RoW) from May 01, 1992 to December 31, 2022 of its High-Tension Electric Towers passing through PSM Main Plant land covering an area of approximately 320.63 acres. However, the management failed to recover claim of markup on delayed collections (Right of Way charges) amounting to Rs.225.990 million despite a lapse of considerable time.

Audit is of the view that non-recovery of claim of markup reflected poor financial management and weak recovery mechanism.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that an amount of Rs. 225.990 million would be adjusted from K-Electric within 03 to 04 months. The DAC directed the management expedite to recovery and provide relevant record after recovery to the audit for verification.

Audit recommends implementation of the DAC directives.

9.5.4.16 Non-vacation of land by K-Electric - Rs.219.000 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

As per meeting between CEO M/s K-Electric and PSM held on 04-02-2022, it was agreed that land measuring around 7.298 acres (approximately) against which consideration was not paid by KE will be released back to PSM by KE and rest of the land which is in the possession of KE and is paid for, its lease will be executed in favour of KE without any delay of PSM.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that a piece of PSM disputed land of 23.81 acres was held by K-Electric since 1982 at Gulshan-e-Hadeed, Karachi. It was decided in the meeting held on 04-02-2022 that 7.298 acres of land would be vacated by K-Electric, valuing at Rs.219.000 million (Rs.30 million per acre). However, despite a lapse of considerable time, land was not vacated by K-Electric.

Audit is of the view that not taking the possession of precious land from K-Electric was against the agreement.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that the land was taken back from K Electric. The DAC directed the management to provide relevant record to the audit for verification.

Audit recommends implementation of the DAC directives.

9.5.4.17 Non execution of lease agreement & non-recovery of dues from Country Club – Rs 165.882 million

Rule 4 (3) of the Public-Sector Companies (Corporate Governance) Rules, 2013, states that, the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed from that M/s Arabian Sea Country Club is operating its business on the land of PSM and availing multiple support services, but the management remained unable to recover its dues of Rs. 165.882 million as detailed below:

Description	Outstanding amount (Rs)
-------------	-------------------------

Land Rent	74,066,091
Electricity	61,452,000
Waste Water Bill	16,367,646
Right of Way charges	07,043,911
Drinking Water Bill	06,952,988
Total	165,882,636

It was also observed that first half of lease Rent period (i.e 20 years) was already expired on 31-07-2022 where revised term for the second term of 20 years could not be finalized.

Audit is of the view that the Country Club is operating its commercial business on the Land of PSM but failing in paying legitimate dues is a serious legal and financial concern. It is pertinent to mention here that no valid rental agreement is provided on the part of management which could ascertain fair rental arrangement on commercial terms and conditions

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The DAC directed the management that the efforts should be made to recover the outstanding amount and share lease agreement with audit.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit report(s) for Audit Year(s) 2021-22 vide para(s) number 8.7.4.6 having financial impact of Rs.125.332 million. Recurrence of same irregularity is a matter of serious concern.

9.5.4.18 Irregular merger of loss-making entity - Rs.160.101 million

Rule 5 (1) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the board shall exercise its power and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management dissolved and merged the Hadeed Welfare Trust (HWT) into PSM without any feasibility study. The production activities of PSM were halted since June, 2015 and had accumulated losses of Rs 206,068.347 million as on 30th June, 2022. The said merger was overburdened on the public exchequer by the way of transferring the services of 343 Nos. employees of Hadeed Welfare Trust on the payroll of PSM. Furthermore, the deficit of Hadeed Welfare Trust (HWT) was Rs.160.101 million.

Audit is of the view that merger of loss making entity was not a prudent decision on the part of management which further overburdened / increased the losses of PSM.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that the matter was decided as per Hadeed Welfare Trust deed. The De-Registration process has also been taken up with the Registrar of Trust, which is still pending. Audit contended that merger was irregular without due process of law i.e. de-

registration. The DAC directed the management to inquire into matter and provide final audited accounts, registration of trust and the revised reply.

Audit recommends implementation of the DAC directives.

9.5.4.19 Recurring loss due to non-renting of vacant spaces – Rs.100.596 million

Rule 4(3) of the Public Sector Companies (Corporate Governance) Rules, 2013 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that 355 Nos. of Houses / Flats / Commercial Units remained vacant at Steel Town, Karachi. The management sustained a recurring loss of Rs.100.596 million on vacant property as detailed below:

(Amount in Rs.)					
S#	Category	No. of Vacant Space A	Rate per month B	Amount Per month C (A*B)	Amount Per Annum D (C*12)
1.	A	37	11,000	407,000	4,884,000
2.	D	8	15,500	124,000	1,488,000
3.	E	36	17,500	630,000	7,560,000
4.	F	21	15,500	325,500	3,906,000
5.	GMB	8	75,000	600,000	7,200,000
6.	GR	20	50,000	1,000,000	12,000,000
7.	H	18	37,000	666,000	7,992,000
8.	LD	18	24,000	432,000	5,184,000
9.	LS	97	17,000	1,649,000	19,788,000
10.	G	25	38,000	950,000	11,400,000
11.	T	42	27,000	1,134,000	13,608,000
12.	M	8	17,500	140,000	1,680,000
13.	P	9	29,000	261,000	3,132,000
14.	S	7	8,500	59,500	714,000
15.	SQN	1	5,000	5,000	60,000
Total		355			100,596,000

Audit is of the view that the management failed to rent out the vacant property which resulted in a recurring loss of Rs.100.596 million which reflects negligence and slackness.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that said houses / flats were provided to the low paid employees. The DAC directed that the management to make efforts to rent out the vacant space and recovery be made from monthly salary future and provide relevant record to the audit for verification.

Audit recommends implementation of the DAC directives.

9.5.4.20 Non-auction of condemned vehicles - Rs.80.585 million

Section 4(3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that 109 vehicles of PSM valuing at Rs.80.585 million were lying non-functional / obsolete since long. (Annex-65). Resultantly, the market price of vehicles decreases due to

Audit is of the view that the management failed to auction timely resulting in depreciation and deterioration of the vehicles.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that the auction process has been commenced. Tender has been opened in December 2023. It will be decided within one month. The DAC directed to expedite auction process.

Audit recommends implementation of the DAC directives.

9.5.4.21 Loss of public money due to fraudulent activities - Rs.53.994 million

Rule 4 (3) of the Public Sector Companies (Corporate Governance) Rules, 2013, states that the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the ordinance and these rules. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that a Departmental Enquiry Committee submitted an investigation report of lost assets and fraudulent activity at Nokundi and Dalbadin Stores in Balochistan amounting to Rs.53.994 million. Subsequently, a show cause notice and charge sheet was issued to Mr. Muhammad Naeem (ADCE-IC (DIOP)), but no action was taken against the culprits till date. Detail of loss was as under:

S#	Description	Amount (Rs)
----	-------------	-------------

1.	<u>Loss in terms of assets and machineries</u>	40,455,800
	Loss in terms of assets and machineries at all DIOP Sites including Liaison Office Quetta	
2.	<u>Loss in terms of Chowkidars and other employees' salaries</u>	180,000
a.	Loss in terms of salaries regarding security guards deployed at Kulli Koh site -03 personnel	
b.	Loss in terms of salary regarding security guards Mr. Abdul Hameed, from July, 2017 till date	1,200,000
c.	Loss in terms of salary regarding security guards Mr. Nabi Bux from July, 2017	1,200,000
3.	<u>Loss Regarding the Nokundi Store Inventory</u>	6,170,117
a.	As per the location code 02-550 (680 items)	
b.	As per the location code 1080	4,788,424
Grand Total		53,994,341

Audit is of the view that the management did not safeguard the precious assets of the company and no timely action was taken against the culprits. This indicates criminal negligence on the part of management.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that a civil suit was lodged instead of criminal proceeding. The DAC directed the management to lodge a FIR against the accused employees, share dismissed notification and inquiry report with Audit.

Audit recommends implementation of the DAC directives.

9.5.4.22 Irregular appointment of security guards – Rs.49.188 million

Rule 20 of PPRA Rules, 2004, states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

According to Cabinet Secretariat (Establishment Division) letter No. 06/02/2000, the appointments on contract basis in Autonomous/Semi-Autonomous bodies, Corporation, Public Sector Companies etc can be through open advertisement in the leading and regional Newspapers indicating prescribed Academic and professional qualification, experience, age provincial/regional quotas etc.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management appointed 128 numbers of security guards (Annex-66) in various categories on a fix pay ranging from Rs 1,100 to Rs.1,167 per day without any advertisement, codal formalities and approval by the competent authority. An expenditure of Rs.49.188 million was incurred on their pay since their appointment from August, 2021 to May, 2023.

Audit is of the view that the management did not adopt the codal formalities in the appointment of Security Guards in violation of rules. Thus, expenditure of Rs.49.188 million stands irregular and unjustified.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that the relevant experience and police verification have been carried out to appoint the security guard. The DAC expressed displeasure and directed the management to follow the prescribed process and why not hiring was made through third party and on advertisement and to provide relevant record to the audit for verification.

Audit recommends implementation of the DAC directives.

9.5.4.23 Irregular / unjustified payment on account of Voluntary Separation Scheme - Rs.48.735 million

Rule 5(1) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the board shall exercise its power and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that on the directives of Honorable Supreme Court of Pakistan, the management implemented Retrenchment Scheme for the year 2019 to 2023. In addition to this, the management also introduced Voluntary Separation Scheme (VSS) for all employees and paid benefit amounting to Rs.48.735 million (Annex-67) on account of 01 month's notice pay, leave encashment and other benefits for the years 2021-23. This payment was made to those employees who were close to retirement or near to retirement.

Audit is of the view that payment under Voluntary Separation Scheme in presence of Retrenchment Scheme reflects undue favor to the employees. Thus, payment of Rs.48.735 million stands irregular and unjustified.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed the DAC that VSS option was for all employees of Pakistan Steel Mills regardless of whether they were close to retirement or near retirement. The reason was to save the steel mills from further losses by reducing the man power and salary expenditures. The management informed that no extra payment was made to the employees. Audit contended that VSS was unjustified and excess payment were made to retired or near to retirement employees. The DAC directed the management to provide justification and relevant record to the Audit for verification.

Audit recommends implementation of the DAC directives.

9.5.4.24 Irregular re-hiring of services of officers / officials on contract basis under Retrenchment Scheme - Rs.33.014 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management hired 85 officers and officials from 06.07.2021 to 30.06.2023 (Annex-68) despite the fact that retrenchment scheme was finalized w.e.f 26-11-2020.

Audit is of the view that appointment after coming into effect of retrenchment scheme was unjustified. Hence, the appointment and expenditure of Rs.33.014 million on account of pay and allowances was held irregular / unjustified.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that the retrenched employees were terminated. The DAC directed the management to provide dismissal order and relevant record to the audit for verification.

Audit recommends implementation of the DAC directives.

9.5.4.25 Irregular procurement by splitting – Rs.29.478 million

Rule 9 of PPRA Rules, 2004 states that a procuring agency shall announce in an appropriate manner all proposed procurements for each financial year and shall proceed accordingly without any splitting or regrouping of the procurements so planned. The annual requirements thus determined would be advertised in advance on the Authority's website as well as on the website of the procuring agency in case the procuring agency has its own website.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management awarded contracts/purchased groceries items i.e., wheat, rice, chicken etc. valuing at Rs.29.478 million through different purchase orders on splitting basis in violation of PPRA Rules. Detail is as under:

(Amount in Rs)	
Catering - Guest House	Food Shop
12,344,813	17,133,900
Total	29,478,713

Audit is of the view that procurement of groceries items worth Rs.29.478 million on splitting basis was held irregular.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management reply that Pakistan Steel Guest House is providing boarding and lodging facilities on semi commercial basis. Audit contended that procurements should be made as per PPRA rules. The DAC directed the management to improve the system and make compliance of the rule.

Audit recommends implementation of the DAC directives.

9.5.4.26 Loss due to non-renting out of vacant space - Rs.23.322 million

Rule 4 (3) of the Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that an area at FTC Building, Karachi was lying vacant since 01.07.2022 due to which the management failed to earn rental income of Rs.23.322 million as detailed below:

S#	Description	Monthly Rent (Rs)	Annual Rent (Rs).
1	Area at FTC Building	1,151,681	13,820,172
2	Snap Bar I & II, Steel Town	791,829	8,661,948
Total		1,943,510	23,322,120

Audit is of the view that major portion of PSM premises was lying vacant for more than one year which reflected negligence and slackness.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The DAC directed the management to provide tender documents and efforts should be made to rent out the vacant space.

Audit recommends implementation of the DAC directives.

9.5.4.27 Undue favour to the tenant party - Rs.21.600 million

Rule 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017, the Chief Executive is responsible for the management of a Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, with the Ordinance.

As per advertisement dated on 19-03-2023, License out KASHANA Building & 04 Lawns (A to D) etc.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, management published an advertisement in local newspapers for “License out KASHANA Building & 04 Lawn (A to D) at Gulshan-e-Hadeed. In response only 01 bidder participated i.e., M/s New VIP Decoration Catering Services and bid offer @ Rs. 600,000 per month. In addition, the management irregularly allotted an area/space about 941,933.41 sq. ft. for quarters and others to the same party, which was not mentioned in advertisement. The detailed allotted area is given below: -

S#	Premises	Area (sq.ft)	Approx. Capacity
1	Kashana Office Building	4,431 x 28,862 (two floor)	For office
2	Lawn-A	13,551	350 persons
3	Lawn-B	17,631	800 persons
4	Lawn-C	10,288	300 persons
5	Lawn-D	28,908	1200 persons
Extra Space			
	Open Area, Hotel and shops etc	941,933.41	Can be developed for additional Lawn/ Restaurant/ Parking

Audit is of the view that the management allotted extra space to the tenant, which was irregular and unjustified.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The DAC directed to investigate the matter. Further, directed to provide the revised reply to audit.

Audit recommends implementation of the DAC directives.

9.5.4.28 Wasteful expenditure on zonal offices – Rs.11.496 million

Finance Division’s O.M No. F.15 (13) R-14/82 dated September 05, 1982 states that the funds provided, acquired or generated by the autonomous / semi-autonomous bodies and corporations are public funds, which cannot be utilized at the sole discretion of the management. The funds should be utilized with due care and caution strictly in accordance with the prescribed rules or specific orders of the Government.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management incurred an expenditure of Rs.11.496 million on account of salaries and other expenditure pertaining to Zonal Offices (Lahore & Islamabad) without having any sales activity since December, 2015. The details are as under:

S#	Description	No. of Employees	Avg Salary / P.M	Annual Expenditure (Rs.)
1	Salaries & Allowances	21	30,000	7,560,000
2	Other Expenditure	-	-	3,936,000
Total				11,496,000

Audit is of the view that expenditure was wasteful and unjustified due to closure of operations since long reflects poor financial management

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management reply that to facilitate Chief Executive Officer, high officials of PSM, Chairman/Members Board of Directors PSM, Ministry of Industries and Production officials. Arrange their boarding, lodging messing during Islamabad visit. This Office also used as Camp Office/CEO's Secretariat, at Islamabad. The management informed that the staff is essential from security point of view. The DAC directed to settle the paras for verification.

Audit recommends implementation of the DAC directives.

9.5.4.29 Unsatisfactory performance of vendor - Rs.6.770 million

Rule 19 of PPRA-2004, states that the procuring agencies shall specify a mechanism and manner to permanently or temporarily bar, from participating in their respective procurement proceedings, suppliers and contractors who either consistently fail to provide satisfactory performances or are found to be indulging in corrupt or fraudulent practices. Such barring action shall be duly publicized and communicated to the Authority.

As per terms and conditions of the agreement between PSM and M/s. Softronics (Pvt) Ltd dated: 05-07-2021, vendor is bound to complete the work within 30 days.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the contract for up-gradation of Pakistan Steel's cloud-based ERP modules was awarded to M/s Softronics (Pvt) Ltd on 05-07-2021 amounting to Rs.5.170 million. The vendor was bound to complete the work within 30 days. However, after lapse of considerable time, its performance remained un-satisfactory with respect to updation of HR data, preparation of annual accounts and reconciliation of different heads of accounts on ERP system. This was also pointed out by the management of PSM to the MoIP dated March 03, 2023.

Audit is of the view that due to un-satisfactory performance of M/s. Softronics, PSM faced inaccuracy in data related to retrenchment of employees and non-reconciliation of its financial statements.

Thus, the total expenditure amounting to Rs.6.770 million (Rs. 5.170 million + 1.600 million maintenance cost) was irregular and unjustified.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The DAC directed that the Liquidity Damage (LD) charges be levied and performance of the Softronics should be share with audit.

Audit recommends implementation of the DAC directives.

9.5.4.30 Irregular appointment of Corporate Secretary - Rs.6.422 million

Rule14 of the Public Sector Companies (Corporate Governance) Rules, 2013 states that no person shall be appointed as Company Secretary of a Public Sector Company unless he is a,

- a. member of a recognized body of professional accountants; or
- b. member of a recognized body of corporate or chartered secretaries; or
- c. person holding master degree in Business Administration or Commerce or being a Law Graduate from a university recognized by Higher Education Commission and having at least five years relevant experience.

Govt. of Pakistan, Establishment Division vide its OM. No. 6/2/2000-R.3 dated May 06, 2000 issued policy guidelines for contract appointments for the posts in autonomous/semi-autonomous bodies, corporations, public sector companies etc. According to the Para-(iii) Vacancy should be advertised in the leading national and regional newspapers and selection should be made through regularly constituted Selection Committees / Boards.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management appointed of Mr. Muhammad Shafiq Anjum as Corporate Secretary on contract basis after superannuation and without advertisement in April 07, 2021 for 01 year, which was further extended up to December, 2023. Furthermore, his qualification was B.E which was in violation of required qualification.

Audit is of the view that the appointment on deficient qualification, without advertisement and after superannuation without approval of Prime Minister was in violation of rules. Thus, payment of salary amounting to Rs.6.422 million stands irregular and unjustified.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The DAC directed the management to provide the revised reply along with justification.

Audit recommends implementation of the DAC directives.

9.5.4.31 Irregular appointment of External Auditor – Rs.5.900 million

As per guidelines/letter dated January 02, 2002 issued by the Auditor General of Pakistan in accordance with the provisions of Section 15(1) of the Auditor General's (Functions, powers and terms and conditions of Service) Ordinance, 2001, the Auditors should be appointed in consultation with Auditor General of Pakistan and rotated after every 5 years. Instructions were issued in compliance of Finance Division's letter dated March 25, 1981.

Rule 39 of PPRA Rules, 2004, states that where needed and clearly expressed in the bidding documents, the procuring agency shall require the successful bidder to furnish a performance guarantee which shall not exceed ten per cent of the contract amount.

As per tender advertised on newspaper "Prospective firms/companies are required to submit tender fee of Rs 500 (non-refundable) in shape of pay order along with 'Technical proposal' and earnest money (refundable) equivalent of 2% of total bid value in shape of pay order along with 'Financial Proposal'.

During audit of Pakistan Steel Mill (PSM) for the year 2022-23, it was observed that the management hired the services of External Auditor, M/s Horwath Hussain Chaudhury & Co, Chartered Accountant on 20-12-2018 for the compilation of annual accounts for the year 2015-16 for Rs.0.800 million per annum.

It was further observed that Earnest money @ 2% and performance bank guarantee 10% were not obtained from the audit firm and the appointment was made without the concurrence of the Auditor General of Pakistan.

Audit is of the view that appointment of external auditors was against the rules and hence irregular.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The DAC directed the management that the compliance should be made in letter and spirit.

Audit recommends implementation of the DAC directives.

9.5.4.32 Loss due to theft of various items - Rs.4.710 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that a theft was committed of finished and unfinished Brass and Copper materials weighing 03 tons on June 04, 2021 valuing Rs.4.710 million. It was revealed that Mr. Abdul Rehman (AXEN, MERS-CMD) was the main culprit of this criminal activity. He was issued a Charge Sheet on 15-10-2021. Nor any FIR was lodged neither any legal action was taken against him despite a lapse of more than one (01) year.

Audit is of the view that the management failed to safeguard its assets and did not take any action against the accused employee, which reflects negligence and undue favor. Thus, sustained a loss of Rs.4.710 million.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that the FIR was lodged and case was pending in the Court. Further, all the recovery has been made. The DAC directed the management to provide FIR copy, dismissal order and recovery records to the audit for verification.

Audit recommends implementation of the DAC directives.

9.5.4.33 Excess payment to Consultant / Specialist Attorney – Rs.3.160 million

As per Pakistan Steel dated January 11, 2021, the Board in accordance with the relevant provisions of “Procurement of Consultancy Services Regulation, 2010” and “Public Procurement Rules 2004” declares the ongoing retrenchment, restructuring and revival process an emergency situation and approves the hiring of Specialist Attorney to oversee the whole retrenchment process against consultancy charges Rs.5.000 million.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management hired the services of Mr. Shahid Anwar Bajwa, as a Specialist Attorney / Consultant of PSM at a fee of Rs.5.000 million for retrenchment plan. However, the management paid an excess amount of Rs.3.160 million without approval of the competent authority. Detail is as under:

(Rs. in million)			
Description	Fees Agreed	Fees Paid	Excess Paid
Whole Retrenchment Process	5.000	8.160	3.160

Audit is of the view that excess payment of Rs.3.160 million without approval from competent authority was irregular / unjustified.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that the amount paid was approved from the BoD. Audit contended that excess amount paid was irregular. The DAC directed the management to provide relevant record to the audit for verification.

Audit recommends implementation of the DAC directives.

9.5.4.34 Un-due favour extended to the educational staff - Rs.2.100 million

As per section 2.33 of promotion Policy of Pakistan Steel Mills (PSM), Promotion shall be made subject to the availability of sanctioned vacant post in the next higher grade depending on the seniority and fitness of the officer.

A limited percentage of outstanding Technical Officer will also be considered for promotion to the next rank of Assistant Manager.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management promoted 14 employees of educational staff from Junior officer to Assistant Manager without having a qualified degree and relevant experience in violation of promotion policy. Further, their services were also regularized from contract to regular cadre by the management by implicating the orders of Honorable High Court of Sindh. Detail is as under: -

(Amount in Rs)					
S#	Name of Employees	Designation	Promoted	Monthly Impact	Total

1	Ms. Samina Arshad	Junior Officer	Assistant Manager	5,000	150,000
2	Ms. Naseema Khalid	Junior Officer	Assistant Manager	5,000	150,000
3	Ms. Suriya Rashid	Junior Officer	Assistant Manager	5,000	150,000
4	Mr. Javed Iqbal	Junior Officer	Assistant Manager	5,000	150,000
5	Ms. Quratulain	Junior Officer	Assistant Manager	5,000	150,000
6	Ms. Shabila Haider	Junior Officer	Assistant Manager	5,000	150,000
7	Ms. Zaibunnisa	Junior Officer	Assistant Manager	5,000	150,000
8	Ms. Mobeen Kiran	Junior Officer	Assistant Manager	5,000	150,000
9	Ms. Asma Yousuf	Junior Officer	Assistant Manager	5,000	150,000
10	Ms. Rabia Basree	Junior Officer	Assistant Manager	5,000	150,000
11	Ms. Najma Khalid	Junior Officer	Assistant Manager	5,000	150,000
12	Ms. Nayyar Qayyum	Junior Officer	Assistant Manager	5,000	150,000
13	Ms Tahira Sattar	Junior Officer	Assistant Manager	5,000	150,000
14	Mr. Rashid Amiri	Junior Officer	Assistant Manager	5,000	150,000
				Total	2,100,000

Audit is of the view that the management extended an un-due favor to the educational staff by promoting them against the promotion criteria. Resultantly, the management overburdened the exchequer by further increasing the monthly pay roll amounting to Rs.2.100 million.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that these employees were absorbed on the basis of Education staff/ Hadeed Welfare Trust deed. A Scrutiny Committee was formed to look after the matter. The favour was allowed on the recommendation of Scrutiny Committee. Audit contended that Hadeed Trust was in huge losses and absorbing its employees without due diligence was irregular. The DAC directed the management to share the all court orders, rules and relevant documents with audit for verification.

Audit recommends implementation of the DAC directives.

9.5.4.35 Loss of rental income by charging lesser rates - Rs.1.528 million

Rule 4 (3) of the Public Sector Companies (Corporate Governance) Rules, 2013, states that, the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management entered into agreement with M/s. Sindh Health Care Commission, Karachi for rent of 2nd floor of FTC Building, Karachi on April, 2022 having area of 3,050 square feet on a monthly rent of

Rs.178.45 per square feet per month, for a period of 3 years. However, the rent per sq.ft was Rs.192.374 per sq.ft according to last agreement of same premises. The management sustained a loss amounting to Rs.1.528 million on charging lesser rates as detailed below:

Name of Tenant & Area	Date of agreement	Rate per sq. ft. (Rs)	Difference in rates per sq. ft. (Rs)	Area rented (sq. ft.)	Loss (Rs.)
		1	2	3	4 (2 x 3)
M/s Sindh Health Care Commission (3,050 sq. ft)	04.07.2022 to 30.06.2025	178.450	13.924 (192.374 -178.450)	3,050	42,468
M/s Sindh Health Care Commission (10,081 sq ft)	15.03.2018 to 14.03.2023	192.374	-	-	-
Loss of rental income for 03 years (42,468*36)					1,528,855

Audit is of the view that the management extended an undue favor to the tenant by charging lesser rates which reflected poor financial management. Thus, sustained a rental loss of Rs. 1.528 million.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management stated that FTC Space 10,081 sq. ft was allotted to Sindh Health Care Commission in March, 2018 @ Rs.134 per sq. ft with increase of 7.5% yearly, which enhanced to Rs.192.37 per sq. ft in 2023 after yearly increase. The FTC Space 3050 sq. ft was also allotted to Sindh Health Care Commission in July 2022 @ Rs.178.45 per sq. ft with increase of 7.5% yearly, which has now come to Rs.191.83 per sq. ft in 2023. The DAC directed to settle the para subject to verification of tender documents and rates.

Audit recommends implementation of the DAC directives.

9.5.4.36 Loss due to theft incidents - Rs.1.198 million

Rule 4 (3) of the Public Sector Companies (Corporate Governance) Rules, 2013, states that, the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that PSM sustained a loss of Rs.1.198 million due to theft incidents of various items as detailed below:

S#	Case No.	Description	Occurrence Date	Value (Rs.)
1.	2232-D	Cable, Copper Wire etc from store building-IV	03-10-2022	39,601
2.	2276-D	04 Batteries (180 amp) from two buses token no. 1988 & 2084	31-01-2023	120,000
3.	2315-D	Gear box of Hino Vehicle of pat	21-04-2023	650,000

4.	2323-D	CCTV Camera installed at CB Petrol Pump	17-06-2023	10,000
5.	2247-D	40-45 condemned batteries from Transport Workshop	21-11-2022	56,000
6.	2279-D	Investigation into theft attempt took place at SMC-Lahore	05-02-2023	186,000
7.	2304-D	Missing of 9 mm pistol of security in the night of 08-04-2023	05-07-2023	136,875
Total				1,198,476

Audit is of the view that the management failed to protect its assets which resulted in theft of items valuing Rs. 1.198 million. This showed weak internal controls and poor monitoring mechanism.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The DAC directed the management to provide the revised reply showing the latest status.

Audit recommends implementation of the DAC directives.

9.5.4.37 Re-appointment of retrenched employee on daily wages – Rs.1.068 million

According to the Honorable Supreme Court of Pakistan Order's dated Sep. 15, 2020, the PSM Management was adopted / exercised the procedure of Retrenchment of PSM Employees in November, 2020 under Section 11-A of the Industrial & Commercial Employment (Standing Order) Ordinance 1968 to curtail the manpower of Pakistan Steel Mills as per requirement of Privatization Commission of Pakistan and to minimize the financial burdens on the Public Exchequer.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that Mr. Muhammad Rizwan (Senior Assistant), a retrenched employee, filed a Petition in the Hon'ble Court of National Industrial Relation Commission (NIRC) against the management. The petition stated that the PSM had irregularly terminated his services by the way of retrenchment and committed gross violation of law as well as directions of the BoD dated October 23, 2020 which directed to retrench 49% of workers of each category. The petitioner also stated that as per Standing Order no.14 of Industrial & Commercial Employment Ordinance, 1968, where any number of workmen are retrenched and the employer proposes to take into his employ any person within a period of one year from the date of such retrenchment, he shall give an opportunity to the retrenched workmen belonging to the category. Furthermore, the incumbent also stated that after retrenchment, a number of incumbents have been appointed / re-hired on attaining the age of superannuation by the management instead of offering the post to the retrenched employees in accordance of the above referred rule. Resultantly, the management re-appointed / re-hired his services on daily wages.

Audit is of the view that the extended an undue favour to the incumbent by way of re-appointment / re-hiring his services on daily wages at Rs.1.068 million (Rs.3,000 per day *24 days * 15 months) per annum. Thus, his re-appointment stands irregular and unjustified.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that now all retrenched employees have been terminated. The DAC expressed displeasure and directed the management to provide relevant record of rehired employees to the audit for verification.

Audit recommends implementation of the DAC directives.

9.5.4.38 Irregular promotion against Court decision

According to the judgment of Honorable Supreme Court of Pakistan (appellant Jurisdiction) in the Civil Petitions No. 326/K & 513/K of 2018, the Steel Mill is lying closed since June, 2015, but its employees are still employed in the Steel Mill and or claiming all sorts of benefits including increments, promotion and other perks and privileges. The impugned judgment challenged in the present Civil Petition for Leave to Appeal (CPLA) is also one of the examples where promotions have been allowed to the respondents who are 76 in numbers. It seems that period to the said order, the learned High Court has passed other orders in CP No. D-5326 of 2013 & CP No. D-842 of 2014, where similar promotions have been granted. We are unable to understand how when the Steel Mills itself is not operating and producing anything why the employees are employed there and from where the payments are being paid to them by way of their emoluments and other benefits as noted above. All these officers have to be attended in immediately by the Federal Government, particularly, the Secretary, MoI&P Islamabad. The learned Attorney General states that he will obtain instruction and place the same before this Court. In the meantime, we grant leave to appeal in this case and at the same time suspend the operations of the impugned judgment.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management did not implement the judgment of Honourable Supreme Court of Pakistan and instead of demotion of promoted officers in the Assistant Manager Cadre, designated the post of General Manager (Incharge Administration & Personal) to Mr.Zardad Abbasi as the officer was to be posted as OSD till the final decision of the Court.

Challenged the promotion order in Honorable Supreme Court as appeal No. 513 & 326. The Court suspended the orders of Sindh High court Karachi on March 12, 2020 and dismissed the decision of promotion case of Mr. Zardad Abbasi along with 76 others as mentioned above.

Audit is of the view that the management has failed to faithfully implement the judgment of the Hon'ble Supreme Court of Pakistan and has shown disloyalty on behalf of its favored employees.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. Management explained that matter is subjudice in Supreme Court of Pakistan. DAC pended the Para till final decision of Supreme Court. Further, to verify that Para already printed in the audit report for the year 2022-23.

Audit recommends implementation of the DAC directives.

9.5.4.39 Non-preparation / finalization of annual accounts

Section 10(1) of Public Sector Enterprises (Corporate Governance) Rules, 2013, stated that every Public Sector Company shall, within one month of the close of first, second and third quarter of its year of

account, prepare a profit and loss account for, and balance-sheet as at the end of, that quarter, whether audited or otherwise, for the Board's approval. Annual report including annual financial statements shall be placed on the Public Sector Company's website.

Section 233 of Companies Act, 2017 states that the balance sheet and the profit and loss accounts and income and expenditure account are audited by the statutory auditor of the company and auditor's report is to be attached with the annual accounts.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management of did not finalize the annual accounts for the year 2022-23 in violation of rules.

Audit is of the view that the management failed to finalize the accounts.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that Annual accounts 2022-23 have been prepared and it will be approved in the next BoD meeting. The DAC expressed displeasure and directed the management to provide the Annual Accounts to audit.

Audit recommends implementation of the DAC directives.

9.5.4.40 Non-verification of degrees / certificates

According to Establishment Division D.O No.6 (28) 2011-DG-II Mar 08, 2011, the Prime Minister directed that measures should be taken to authenticate degrees/ certificates of all Federal Government employees of the respective Ministries/ Divisions, their attached departments, subordinate offices and autonomous bodies under their administrative control.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management did not verify the degrees from concerned institutes / universities till date. The detailed are as under.

S#	Name of Employees	Designation	P.No.	Degree	Date of Joining
1	Muhammad Akram	Superintendent Engineer	821349	Electronic Engg.	04.05.1994
2	Muhammad Asghar Shaheen	A.Manager (Law)	822922	L.L.B	May, 2004
3	Quratul Ain	Assistant Manager	828041	B.Sc	01.11.2021
4	Mukhtiar Ahmed	A.Deputy Chief Engineer	817139	B.E	09.07.1989
5	Muhammad Yaseen Bhutto	Superintendent Engineer	819085	B.E	21.02.1990
6	Jawed Akhter	Superintendent Engineer	819581	B.E	22.11.1990

Audit is of the view that the management failed to verify the degrees / certificates which reflects weak internal controls and violation of rules.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The DAC expressed displeasure and directed the management to expedite the matter for degrees / certificates verification within one month.2.100

Audit recommends implementation of the DAC directives.

9.6 Pakistan Steel Fabricating Company (Pvt.) Limited

9.6.1 Introduction

Pakistan Steel Fabricating Company (Pvt.) Limited (PSFCL), a wholly owned subsidiary of the Pakistan Steel Mills Corporation (Pvt.) Limited, was incorporated on Jun 28, 1975 under the Companies Act, 1913 (now the Companies Act, 2017). The principal activity of the Company is the fabrication of steel structure, production of paints and other related activities.

9.6.2 Comments on Audited Accounts

9.6.2.1 The annual audited accounts are required to be provided to audit for review each year. Contrary to this, the management failed to provide audited accounts of the organization for the years 2016-17 to 2022-23 despite a number of reminders.

Audit requires that the annual audited accounts of the years 2016-17 to 2022-23 be provided immediately and timely finalization be ensured in future, besides, fixing responsibility for non-finalization of annual audited accounts (*Annex-2*).

9.6.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	%age of compliance
1990-91	8	7	1	708	88%
1995-96	12	10	2	151, 146	83%
1999-00	3	1	2	228, 230	33%
2003-04	6	5	1	96.4	83%
2006-07	2		2	102.2, 102.3	-
2009-10	6		6	Annex-i Item 10, 113, 113.1, 113.2, 113.3, 113.4	-
2010-11	4	3	1	11.4.4.1	75%
2013-14	5	2	3	8.8.2.1, 8.8.2.2, 8.8.3 (remainig to be discussed in PAC)	40%
2015-16	4	1	3	8.10.2.1, 8.10.3, 8.10.4.1	25%
2017-18				9.10.4.2	

2019-20	-	-			-
Total	50	29	21		58%

The overall compliance of PAC directives needed improvement.

9.6.4 Audit Paras

9.6.4.1 *Loss due to non-recovery of rent – Rs.972.943 million*

Section 5(1) of Public Sector Companies (Corporate Governance) Rules, 2017 states that the Board shall exercise its power and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Pakistan Steel Fabricating Company Ltd (PSFCL) for the years 2018-19 to 2021-22, it was noted that the management approached M/s Pakistan Steel Mills on 23 December, 2020 for vacation of transport building (4,843 Sq feet) under use of PSM since 1985 and amount of rent since then. However, the amount of rent of Rs.972.943 million (Annex-69) was not realized despite lapse of 36 years.

Audit is of the view that non-recovery of the amount despite lapse of 36 years reflected negligence of the management.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. DAC directed the management to convene a meeting between PFCL and PSM having representative from MoIP, to discuss the complete dues against each other and outcome of the same may be shared with Audit.

Audit recommends implementation of the DAC directives.

9.6.4.2 *Irregular auction of usable material – Rs.115.621 million*

Rule 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that the Chief Executive is responsible for the management of a Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, with the Ordinance. Responsibilities of CEO include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Fabricating Company Ltd (PSFCL) for the years 2018-19 to 2021-22, it was observed that the management auctioned quantity of 990 metric ton as scrap in October, 2021, despite the fact that Scrap Identification Committee had declared the material usable on 12 March, 2020. The detail is hereunder:

(Amount in Rs.)					
S#	Material / Scrap Category	Qty (MTN)	Rate of the Highest bid per Kg.	Bidder's Name	Total value

1	Heavy Girders, I-Beams, Angles and Rails etc	400	121.90	M/s Abdullah Engineering	48,760,000
2	Pipes	40	98.15	-do-	3,926,000
3	HR Sheet, Thick Plates, Billets, and Slab prices	200	135.65	Asian Salvage	27,130,000
4	Fabricated pieces (ducts, half round sheet, trusses etc)	350	102.30	-do-	35,805,000
Total		990			115,621,000

Audit is of the view that auction of the usable material neglecting committee recommendation on fitness of the items for future use was unjustified and irregular in audit.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. DAC directed the management to submit revised reply alongwith documentary evidence regarding disposal of material approval and utilization of the amount. DAC further directed that Joint Venture approval and status of the JV may also be shared with audit and MoIP.

Audit recommends implementation of the DAC directives.

9.6.4.3 Loss due to non-renting out of land - Rs.84.276 million

Rule 5(1) of the Public Sector Companies (Corporate Governance) Rules, 2017 states that the Board shall exercise its power and carry out fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Pakistan Steel Fabricating Company Ltd (PSFCL) for the years 2018-19 to 2021-22, it was observed that 70.23 acres of land were not utilized by the management since operations of company. The detail is given as under:

(acres)		
Total land	Land Utilized	Land not utilized
89.23	19 (including tenants)	70.23
Approx loss of revenue	Rs.84.276 million (70.23x100,000 per acre in a month x 12)	

Had management rented out land, the company could have earned an amount of Rs. 84.276 million in a year.

Audit is of the view that non-renting out of the land reflected negligence of the management in utilization of the assets.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.6.4.4 Non-recovery of outstanding amounts from various parties – Rs.83.874 million

As per rule 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017, the Chief Executive is responsible for the management of a Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, with the Ordinance. Responsibilities of CEO include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Fabricating Company Ltd (PSFCL) for the years 2018-19 to 2021-22, it was observed that an amount of Rs 83,874,711 was outstanding against various debtors since long. Details are as under:

(Amount in Rs.)		
S#	Description(s)	Amount
1	Advances to suppliers	57,487,387
2	Advances for Services	121,450
3	Retention Money	8,457,040
4	Marginal Against letter of Credits	1,727,834
5	Outstanding rent	13,300,000
6	Custom authorities	2,091,000
7	PSFCL's employees	690,000
Total		83,874,711

Audit is of the view that substantial amount of Rs 83,874,711 was outstanding against various parties which reflected weak financial management of the company.

The matter was reported to the management on 27-03-2023. The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023.

- a) DAC directed to submit revised reply with respect to efforts made for recovery from custom authorities and employees, updated status of Ombudsman case may be intimated to the audit and MoIP.
- b) DAC directed the management to provide record regarding recovery already made to audit for verification. Para will remain at DAC level till final recovery of the amount.
- c) DAC directed the management to provide detail regarding sale of Jet Refuller to audit for verification i.e. Advertisement in newspaper, Bids Received, Award of contract and sale proceeds.

d) DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

(DP No. 104, 108, 109 & 119)

9.6.4.5 Loss due to shortage of materials – Rs 67.733 million

Rule 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that the Chief Executive is responsible for the management of a Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, with the Ordinance. Responsibilities of CEO include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Fabricating Company Ltd (PSFCL) for the years 2018-19 to 2021-22, it was observed that management awarded works to contractors for lifting the scrap material on 21 October, 2021. However, the contractors could not lift the material as per letter of award due to shortage of material at sites (Annex-70). Detail is as under:

Amount in Rs. & Qty in KG					
S#	M/s	Qty to be lifted	Qty lifted	Short-lifted	Value (Short-lifted)
1	Faisal & Company	200,000	77,180	122,730	6,203,120
2	Abdullah Engineering	700,000	442,510	257,498	27,050,327
3	Asian Salvaging Company	550,000	247,660	302,340	34,479,775
Total					67,733,000

Audit is of the view that shortage of material at site was unjustified and reflected negligence on part of the management.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. DAC directed that management to reconcile the figures with Audit under intimation to the MoIP.

Audit recommends implementation of the DAC directives.

9.6.4.6 Irregular / unjustified procurement of steel racks – Rs 50.314 million

Rule 20 of PPRA Rules, 2004 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Pakistan Steel Fabricating Company Ltd (PSFCL) for the years 2018-19 to 2021-22, it was observed that management entered into agreements with the contractors without competitive bidding. Detail of contracts is as under:

(Rs. in million)			
S#	Description(s)	Name	Amount
1	Supplied of 1502 steel racks @ Rs. 25,000/= each	M/s Asad Trader	37.550
2	Disposed of W-Beam Guard Rail & accessories	M/s Tabani Enterprises	12.764
Total			50.314

Audit is of the view that award of works without open competitive bidding was in violation of public procurement rules, hence, held irregular.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. DAC directed to conduct inquiry at ministry level and fix the responsibility.

Audit recommends implementation of the DAC directives.

9.6.4.7 Non-achievement of business target – Rs.29.750 million

As per rule 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017, the Chief Executive is responsible for the management of a Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, with the Ordinance. Responsibilities of CEO include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and used economically, efficiently, and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Fabricating Company Ltd (PSFCL) for the years 2018-19 to 2021-22, it was observed that Board approved revenue target of Rs. 29.750 million for the year 2019-20. However, the management did not realize the target.

Audit is of the view that non-achievement of the target reflected inaction of the management.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. DAC directed the management to submit revise / fresh reply to Audit.

Audit recommends implementation of the DAC directives.

9.6.4.8 Irregular lifting of material beyond letter of work award – Rs.19.007 million

Rule 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017, the Chief Executive is responsible for the management of a Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, with the Ordinance. Responsibilities of CEO include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and used economically, efficiently, and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Fabricating Company Ltd (PSFCL) for the years 2018-19 to 2021-22, it was observed that management awarded a contract of lifting of following items to M/s Tabani Enterprises on 13-06-2018. However, the contractor lifted the material in excess of the quantity specified in work award. Detail of excess items lifted is as under;

Amount in Rs. & Qty in pieces (Nos.)						
S#	Items Description(s)	Quantity as per Letter of Award	Actual quantity lifted	Excess Quantity Lifted	Rate per unit Avg	Amount of Excess Quantity
1	W-Section	2,014	4,338	2,324	5,719.00	13,290,956
2	End Pieces	577	886	309	1,603.00	495,327
3	Channel Post	589	2,386	1,797	763.25	1,371,560
4	Lifting of material without tender					3,850,000
Total						19,007,843

Audit is of the view that excess lifting of the material / without letter of award was in violation of the public procurement rules, hence, held irregular.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023.

- a) DAC directed that management to reconcile the figures with Audit under intimation to the MoIP.
- b) DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.6.4.9 Violation of rules due to irregular / unjustified rented out premises without tendering – Rs.10.800 million

Rule 04 PPRA, 2004 of states that procuring agencies, while engaging in procurement, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value of money to the agency and the procurement process is efficient and economical. Further, clause 40 stipulates that without changing the cost and scope of work or services, the procuring agency may negotiate with the successful bidder.

During audit of Pakistan Steel Fabricating Company Ltd (PSFCL) for the years 2018-19 to 2021-22, it was observed that management entered into an agreement on 28.05.2020 for three years with M/s Pakistan Vehicle Engineering (Pvt) Ltd for renting out the Shed Spaces (Wood Craft Shop) along with office (Dispensary). The management constituted Negotiation Committee to finalize the matter and offered rent of Rs.500,000 per month, but the tenants agreed the rent of Rs.300,000 per month along with fabrication of Rs.5,000 per bowser. However, Audit observed the following irregularities;

1. The premises was rented out without open competitive bidding process

2. Rent was fixed on negotiation basis.
3. The increase of rent was 7.5% per annum instead of 10%.

Audit is of the view that renting out of space without competitive bidding and change of cost through negotiation was in violation of PPRA rules, hence, held irregular.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.6.4.10 Un-justified issued of open cheques and cash deposits into bank accounts – Rs.10.205 million

According to Finance Division letter No.F-15(13) R-14/82 dated Sep 05, 1982, the funds provided, acquired or generated by Autonomous /Semi-Autonomous Bodies and Corporations are public funds, which cannot be utilized at the sole discretion of the management. The funds should be utilized with due care and caution. Further, rule 23 of GFR states that every Government officer should realize fully that he will be held responsible for any loss sustained by the Government through fraud and negligence on his part.

During audit of Pakistan Steel Fabricating Company Ltd (PSFCL) for the years 2018-19 to 2021-22, it was observed that management made following transactions through cash / open cheques instead of the cross-cheques.
(Annex-71)

(Rs. in million)			
Provident Fund	Cash Deposits	Payments to Vendors	Total
1.339	4.933	8.866	15.138

Audit is of the view that transactions through open cheques/cash reflected control weaknesses in the organization.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. DAC directed the management to get the record verified from Audit. DAC further directed that in future all such payment should be made through crossed cheque instead of open cheque.

Audit recommends implementation of the DAC directives.

9.6.4.11 Loss of interest income to non-invested of Provident Fund – Rs.8.267 million

According to Section 218 of Companies Act, 2017,“the Employees’ contributory funds, contributory retirement funds and securities, (1) All moneys or securities deposited with a company by its employees in pursuance of their contracts of service with the company shall be kept or deposited by the company within fifteen days from the date of deposit in a special account to be opened by the company for

the purpose in a scheduled bank or in the National Saving Schemes, and no portion thereof shall be utilized by the company except for the breach of the contract of service on the part of the employee as provided in the contract and after notice to the employee concerned”.

As per rules / regulations of the employees’ provident fund of clause 15 states that the moneys of the fund shall be invested as the trustees shall from time to time.

During audit of Pakistan Steel Fabricating Company Ltd (PSFCL) for the years 2018-19 to 2021-22, it was observed that management did not invest following provident funds since May, 2019.

S#	Description(s)	Date of Profit credit into account	Amount	Balance in Rs.	Loss of Income	Discount Rate
1	One year investment	30.05.2019	20,998.250	25,655,242	-	-
2	Semi Annual Gross Profit	20.07.2019	354945	24,060,863	2,592,510	12.25
3	-do-	11.01.2020	1,247,479	16,784,821	95307	8.00
4	-do-	11.07.2020	780,056	16,639,576	551110	8.00
5	-do-	11-01.2021	412,383	14,099,204	574,561	7.00
6	-do-	17-07-2021	381,167	14,356,656	623798	7.00
7	-do-	15-01-2022	422,001	14,664,308	1594341	13.75
8	Annual Profit	31-12-2022	-	16,258,649	2,235,564	13.75
Total					8,267,191	

Audit is of the view that non-investment of funds resulted into loss of the benefits.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. DAC directed the management to submit revised reply and make efforts for activation of dormant fund and share with audit. DAC further directed that Internal fact finding may be conducted and submit report to Audit.

Audit recommends implementation of the DAC directives.

9.6.4.12 Loss due to leakage / wastage of gas – Rs.2.932 million

Rule 4(3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for the management of a Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, with the Ordinance. Responsibilities of CEO include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Fabricating Company Ltd (PSFCL) for the years 2018-19 to 2021-22, it was observed that there was liability of SSGC for December, 2019 to February, 2020 amounting to Rs. 2.932 million despite the fact that company operations were halted since 2017. Detail is hereunder;

S#	Period	Units Consumed	Gas Charges in Rs.
1	February, 2020	13193	612,297
2	January, 2020	24568	1,146,809
3	December, 2019	22904	1,096,863
Gross Payable			2,855,969
Later Payment Surcharge			76,741
Net Payable			2,932,710

Audit is of the view that consumption of gas after halting of the operation was unjustified.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. DAC directed the management to conduct internal fact-finding inquiry and share with audit and MoIP.

Audit recommends implementation of the DAC directives.

9.6.4.13 Loss due to penalties – Rs.2.281 million

Rule 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017, states that the Chief Executive is responsible for the management of a Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, with the Ordinance. Responsibilities of CEO include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Fabricating Company Ltd (PSFCL) for the years 2018-19 to 2021-22, it was observed that PSFCL paid the penalties due to non-compliance of the rules & regulation of various authorities. Detail is as under:

S #	Name of Authorities(s)	Penalty (Rs. in million)
1	SESSI imposed penalty on account of non-paying of monthly contributions	1.451
2	The management did not submit the General Sales Return from January 2019 to November 2020, due to this management paid penalty charges to the FBR.	0.230

3	Management paid penalty charges to the Security Exchange Commission of Pakistan due to non-compliance of the regulator.	0.60
Total		2.281

Audit is of the view that payment of penalties reflected negligence of the management.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. DAC directed the management to get the record verified from Audit regarding interest rate increase by the SESSI and penalties imposed by the SECP and FBR.

Audit recommends implementation of the DAC directives.

9.6.4.14 Non-finalization of annual accounts

According to Section 233 of the Companies Act, 2017, the company should finalize its annual accounts within four months after closing date of accounts for the year.

During audit of Pakistan Steel Fabricating Company Ltd (PSFCL) for the years 2018-19 to 2021-22, it was observed that contrary to above, the Annual Accounts of the company for the years 2016-17 to 2021-22 were not prepared / audited by the chartered accountant for the year under review.

Audit is of the view that non-finalization of audited annual accounts reflected weak internal controls in the company.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. DAC directed the management to complete the audit accounts at the earliest and share with audit under intimation to MoIP.

Audit recommends implementation of the DAC directives.

9.7 Pakistan Gems and Jewellery Development Company

9.7.1 Introduction

Pakistan Gems & Jewellery Development Company (PG&JDC) was incorporated in 2006 as a company limited by guarantee having share capital under Section 42 of the Companies Ordinance, 1984 (now Company's Act 2017). The registered office of the company is situated at PIDC House, Karachi. PG&JDC became operational in April 2007. The primary objective of the company is to promote and develop value added gems and jewellery products and to enhance its competitiveness internationally by facilitation, technology up-gradation, skill development, marketing and branding and to support growth of Gems and Jewellery Industry by way of supporting and facilitating business development services for the enterprises across the Gems and Jewellery value chain.

9.7.2 Comments on Audited Accounts

9.7.2.1 The annual audited accounts are required to be provided to audit for review each year. Contrary to this, the management failed to provide audited accounts of the organization for the years 2020-21 to 2022-23 despite a number of reminders.

Audit requires that the annual audited accounts of the years 2020-21 to 2022-23 be provided immediately and timely finalization be ensured in future, besides, fixing responsibility for non-finalization of annual audited accounts (*Annex-2*).

9.7.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	%age of compliance
2013-14	3	1	2	8.5.2.1, 8.5.3	33
2015-16	8	2	6	8.7.4.1, 8.7.2.1, 8.7.2.2, 8.7.2.3, 8.7.2.4, 8.7.2.5	25
2018-19	8	1	7	9.7.4.3 (Remaining to be discussed in PAC)	12.5
2019-20	-	-	-	-	-
2021-22	4	-	4	8.6.4.3 (Remaining to be discussed in PAC)	-
Total	23	4	19		17.39%

The overall compliance of PAC directives needs improvement.

9.7.4 Audit Paras

9.7.4.1 Increasing accumulated losses – Rs 1,648.160 million

Rule 5 of Public Sector companies (Corporate Governance) Rules, 2017 states that the Board shall exercise its power and carry out fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Pakistan Gems and Jewellery Development Company (PG&JDC) for the year 2020-21 & 2021-22, it was observed that the company has complete failure in generating positive operational results/operational income since many years. The position of operational failure is tabulated below:

(Rs.in million)		
Description	2021	2022
Accumulated Deficit-opening	(1,683,285,140)	Rs (1,701,639,305)
Deficit/Surplus for the year	(18,354,165)	53,479,280
Accumulated Deficit-Ending	(1,701,639,305)	(1,648,160,025)

Thus, PGJDC is not able to generate revenue for its survival and had to rely on Government Grant completely which renders its sustainability questionable.

Audit is of the view that the above scenario reflects that poor planning; monitoring and control resulted in poor performance and led to failure and sustainability issue.

The matter was reported to the management on February 24, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. The management informed that the main objectives of the company, envisaged under PC-I, were to facilitate the sector through quality assurance, technology up-gradation and skill development. Therefore, instead of viewing the financial loss having been incurred due to peculiar business model of the company, the economic impact of the intervention may be seen. DAC directed the management to submit revised reply with justification of sustaining losses.

Audit recommends implementation of the DAC directives.

9.7.4.2 Non-utilization of assets of training & manufacturing centers – Rs.77.030 million

According to Article of Association of company, the objectives of the Development Projects of PGJDC are as under:

1. Productivity growth: To ensure productivity growth through skill development, technology up-gradation, R&D and innovation
 - Establishment of Gems and Jewellery Training Manufacturing Centers
 - Establishment of Gems Testing Laboratories
 - Establishment of Assaying and Hallmarking Centers

During audit of Pakistan Gems and Jewellery Development Company (PG&JDC) for the years 2020-21 & 2021-22, it was observed that management has taken initiative of building and developing Gems and Jewellery Training and manufacturing Centers, Testing Laboratories and Gem exchanges in selected locations of the country. But due to bad governance, ill planning, poor financial management and weak financial controls, these units have become non-operational since June 30, 2019 and assets under the title of each establishment has cumulative worth of Rs.77.030 million which are subject to gradual deterioration and cumulate further losses. The detail of unexpired cost as on June 30, 2022 is as follows:

S. No.	Gems & Jewellery Establishment	No. of Units	Locations	Assets (Rs in million)
01	Training Manufacturing Centers	07	Karachi, Lahore, Peshawar, Quetta, Gilgit, Muzafarabad and Sargodha.	60.47
02	Gems Exchanges	02	Queeta & Peshawar	1.60
03	Assaying and Hallmarking Centers	02	Karachi and Lahore	14.96
Total				77.03

Audit is of the view that management failure is evident in keeping above centers operational to support export and economy. Further, non-utilization of precious economic assets reflects poor asset management and may lead to further loss to government exchequer.

The matter was reported to the management on February 24, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. The management informed that in order to attain the approved aims and objectives of the company, the assets were optimally utilized during the project period i.e 2007-2017 and as a result of interventions by PGJDC, the quality of gems and jewellery products improved and the exports were increased from USD 47.00 million (2006-07) to USD 1.18 billion in 2012-13. DAC directed the management that the matter of winding up proceeding is to be taken up with SECP and progress will be shared with Audit.

Audit recommends implementation of the DAC directives.

9.7.4.3 Non-recovery of advances / dues from various parties – Rs.18.691 million

Rule 38 of GFR provides that it is primary responsibility of the departmental authorities to see that all revenues or other debts due to government, which have to be brought to account are correctly and promptly assessed, realized and credited to the public account.

During audit of Pakistan Gems and Jewellery Development Company (PG&JDC) for the years 2020-21 & 2021-22, it was observed that various parties have long outstanding balances which were not recovered as detailed below:

S#	Description	Aging (Outstanding Period)	Amount(Rs)
1	Income Tax Refundable	Over 03 years	7,231,600
2	Advance Income Tax	Over 03 years	9,910,833
3	Advances	Over 03 years	1,391,036
4	Other receivables	Over 03 years	712,78
5	Prepayment	Up to 01 year	158,182
Total			18,691,651

Audit is of the view that due to poor pursuance and weak internal controls, an amount of Rs.18.691 million is lying outstanding and the chances of recovery are becoming remote with the passage of time, causing losses to the organization.

The matter was reported to the management on February 24, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. The management informed that the Company is dysfunctional since March 2019 and all employees to whom these advances or receivables were issued or who were responsible to settle these advances have been laid off. Further, majorly advances pertain to 45% advance paid to the Grant Thornton Consulting (Pvt) Ltd. for preparing business plan which would be settled upon completion of works. DAC directed to conduct fact-finding enquiry to asses advances released and adjusted with compliance of due standard, procedure and approval and submit report within 30 days and also share report with Audit.

Audit recommends implementation of the DAC directives.

9.7.4.4 Unjustified booking of amounts on account of deferred liability under gratuity fund scheme – Rs.12.164 million

IAS-19-Defined benefit plans (Measurement) states that the present value of an entity's defined benefit obligations and related service costs is determined using the 'projected unit credit method', which sees each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately in building up the final obligation.

During audit of Pakistan Gems and Jewellery Development Company (PG&JDC) for the years 2020-21 & 2021-22, it was observed that the management operated an unfunded Gratuity scheme without observing IFRS requirement.

Qualification remarks of Chartered Accountant in Annual Report for the year 2021 noted that the company has accounted for deferred liability under Gratuity Scheme based on completed period of service using current salary level which works out to be Rs.12.164 million in the year 2022. The aforesaid policy

of PGJDC is not in line with the requirement of IFRS (IAS-19) which requires usage of projected unit credit method to determine staff Gratuity obligation. Actuarial valuation could not be carried out by the management which raises concern about correct valuation of Gratuity obligation paid and standing as on June 30, 2022.

The matter was reported to the management on February 24, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. The management informed that the Company is making efforts for establishment of Gratuity funds account which is under process. However, the payment of Gratuity to the retired/contract expired employees is subject to release of funds from Govt. of Pakistan. DAC directed to conduct fact-finding enquiry to assess and report on recording and payment of gratuity liability in compliance of approved contractual terms.

Audit recommends implementation of the DAC directives.

9.7.4.5 Unjustified expenditure after closure of development projects - Rs.7.780 million

According to Para 10 (i) of GFR, every Public Officer is expected to exercise the same vigilance in respect of expenditure incurred from public moneys as a person of ordinary prudence would exercise in respect of expenditure of his own money.

During audit of Pakistan Gems and Jewellery Development Company (PG&JDC) for the years 2020-21 & 2021-22, it was observed that the project of Gems and Jewellery Development Company at AJK was completed on October 31, 2017 and remained non-operation since June 2019. However, the management incurred an expenditure of Rs.7.780 million on account of salary, Rent, Utilities and other charges. The details of expenditure is as follows:

Head of Account	Period	GJTMC, AJK (Rs)
Salaries & wages payable	May & June 2019	645,204
Medical claim	July 2018 - June 2019	29,866
Earned leave	July 2018 - June 2019	267,594
Rent payable	March 2019 - June 2022	5,858,719
Petty cash payable	Oct 2018 - Sept 2019	61,332
Utility bills payable (estimated)	Feb 2019 to Dec 2023	700,000
Insurance bill payable (estimated)	July 2022-June 2023	200,000
Accrued liabilities	Feb 2019 to Jun 2020	14,631
	Total	7,777,346

Audit is of the view that expenditures after the completion of the project are wasteful and unjustified.

The matter was reported to the management on February 24, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. The management informed that implementation period

of GJTTC AJK finished on 31st October 2017. Subsequently, PGJDC requested funds from PIDC to continue operations of PGJDC's Projects, including GJTTC AJK. PIDC provided funds amounting to Rs.44.360 million. Through these funds PGJDC managed to run operations of this project till February 2019. Subsequently, PGJDC became unable to continue operations of the project and closed it down. The employees were also laid off in June 2019. DAC directed that the matter of winding up proceeding is to be taken up with SECP and progress will be shared with Audit.

Audit recommends implementation of the DAC directives.

9.7.4.6 Expenditures without completion of business plan – Rs.1.180 million

Rule 4(3) of Public Sector companies (Corporate Governance) Rules 2017 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Pakistan Gems and Jewellery Development Company (PG&JDC) for the years 2020-21 & 2021-22, it was observed that the management hired the services of M/s Grant Thornton Consulting Private Ltd (M/s GT) on November 17, 2016 for the preparation of business / continuity plan. The contract was awarded for Rs.2.619 million having completion time of 02 months with deliverable of skill development program for next 20 years. However, despite lapse of 07 years, the management could not get the final version of Business Plan ready for onward submission to Ministry of Industries and Production (MoI&P) and Planning Commission for approval. The management paid expenditure of Rs.1.180 million in favour of consultant for incomplete task.

Audit is of the view that the management failure is evident in getting the Business Plan ready for approval which resulted in wasteful expenditure of Rs.1.180 million.

The matter was reported to the management on February 24, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. The management informed that payment amounting to Rs 1,178,550 was made after submission of 1st draft by the contractor. No further payments were made as PGJDC BoD did not approve the draft plan with the justification that execution of the Plan requires fresh funding however the federal government was not willing to provide any more funds to PGJDC after completion of PSDP project through which the company was raised and operated for around ten years. DAC directed to conduct fact-finding enquiry to asses' approval from Ministry of finance for Business Plan along with report on completion status, payments released and justification for non-execution. Fact finding Report is to be completed and submitted within 30 days and shared with Audit.

Audit recommends implementation of the DAC directives.

9.7.4.7 Irregular disposal of generator – Rs.0.300 million

Rule 23 of GFR provides that every Government officer should realize fully and clearly that he will be held personally responsible for any loss sustained by Government through fraud or negligence on his part.

During audit of Pakistan Gems and Jewellery Development Company (PG&JDC) for the years 2020-21 & 2021-22, it was observed that the management sold the generator without observing standard procedure of fixing standard selling price through auction which was irregular. The record reflected that Diesel Generator 30 KVA (Perkins) was purchased on June 30, 2009. The generator was kept in a rental premises @ Rs 3,000 monthly charge from October, 2017 after the closure of Gems Exchange Quetta. In July 2019, the generator was sold to M/s Zaib and Brothers at Rs 300,000 without observing auction formalities. Further, the sale was made in favour of M/s Zaib who had standing obligation of rent against the company against which sale was settled which is also irregular and unjustified.

The matter was reported to the management on February 24, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. Management informed that matter was placed before the Board on 31st May, 2019, the Board directed that matter has been already delayed and incurring continuously rental charges of Rs.3,000 and directed to sale Generator who has offered the highest price” but should not be less than present written down value of Generator. Keeping in view of above decision of Board, management sold the Generator to highest bidder i.e M/s Zaib Brothers Pvt Ltd who offered Rs.300,000. The vendor has deposited Rs.300,000 against Company Bank account. In view thereof, competitive process was followed. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.7.4.8 Non appointment of regular CEO since 2017

According to SECP Guidelines, 2015 for appointment of Chief Executive:

2. Advertisement for the Position. - (1) The Board shall initiate the appointment process, at least three months before the term of the incumbent chief executive is going to expire, by issuing a public advertisement in the print media, inviting applications for appointment against the vacant position. The advertisement shall also be posted on the website of the public sector company or that of the line ministry. Direct applications shall also be acceptable, and the fact may be specified in the advertisement.

During audit of Pakistan Gems and Jewellery Development Company (PG&JDC) for the years 2020-21 & 2021-22, it was observed that the company had been running its operations without a Chief Executive Officer since 2017. Since 2017, the key post of CEO was filled through additional or Look After charges as detailed below:

S#	Name of Chief Executive	Date of Joining	Resigned/Contract Terminated	Status
1.	Mr. Muhammad Iqbal Tabish	17-11-2017	05-08-2019	Additional Charge
2.	Mr. Rizwan Ahmed Bhatti	27-08-2019	25-10-2019	Look After Charge
3.	Mr. Shahid Iqbal Qureshi	25-10-2019	15-12-2020	Look After Charge
4.	Mr. Muhammad Shoaib Akbar	16-12-2020	15-03-2021	Additional Charge
5.	Mr. Muhammad Riazuddin	08-06-2021	01-06-2022	Additional Charge
6.	Mr Sajjad Azhar	09-09-2022	14-02-2023	Look After Charge
7.	Mr Sajjad Azhar	14-02-2023	13-05-2023	Additional Charge

Audit is of the view that in the absence of CEO, the company is incurring expenditure at the cost of Government Exchequer without producing operational and other benefits which is unjustified.

The matter was reported to the management on February 24, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. The management informed that process of appointment of regular CEO was initiated during 2019-20 but the matter could not progress further due to dysfunctionality of company, financial crunch and proposals of restructuring under consideration of Industries and Production including establishment of proposed Pakistan Gems and Jewelry Development Authority (PGJDA). DAC directed that the matter of winding up proceeding is to be taken up with SECP and progress will be shared with Audit.

Audit recommends implementation of the DAC directives.

9.7.4.9 Key Management positions lying vacant

Rule 5 of Public Sector companies (Corporate Governance) Rules, 2017 states that the Board shall exercise its power and carry out fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Pakistan Gems and Jewellery Development Company (PG&JDC) for the year 2020-21 & 2021-22, it was observed that various key management positions were lying vacant in the company since long. Detail is as under:

S#	Name of Post	Number of Post(s)	Date since of vacant post
1.	General Manager (Marketing & Quality Assurance)	01	07-04-2011
2.	General Manager, Training & Development	01	26-02-2018
3.	Chief Financial Officer	01	20-11-2017

4.	Manager Projects	01	01-05-2012
5.	Manager Accounts	01	29-09-2016
6.	Manager (Admin & HR)	01	02-07-2014
7.	Manager (Internal Audit) / CIA	01	02-10-2013
8.	Assistant Manager (Quality Assurance)	01	29-09-2016
9.	Assistant Manager (Projects)	01	29-09-2016

Audit is of the view that key management positions of the company were lying vacant for considerable period which reflects non-existence of professional working set up.

The matter was reported to the management on February 24, 2023. The irregularity was discussed in the DAC meeting held on November 29, 2023. The management informed that in the absence of full fledged CEO, lack of operational activity, acute financial crisis faced by company, completion of PSDP Projects in 2017 and full utilization of funds by 2019, only the skeleton staff was retained by PGJDC for disposing off routine matters and hence there was no need to fill management positions. DAC directed that the matter of winding up proceeding is to be taken up with SECP and progress will be shared with Audit.

Audit recommends implementation of the DAC directives.

9.8 Heavy Electrical Complex (Pvt.) Limited

9.8.1 Introduction

The Company was incorporated as a Private Limited Company on December 09, 1991, fully owned by State Engineering Corporation (Pvt.) Limited Ministry of Industries and Production, Government of Pakistan. The registered office of the company is situated at Third Floor, Software Technology Park, (STP-I), 5-A Constitution Avenue, F-5/1, Islamabad. The Company is engaged in the manufacturing and repair of power transformers.

9.8.2 Comments on Audited Accounts

9.8.2.1 The annual audited accounts are required to be provided to audit for review each year. Contrary to this the management failed to provide audited accounts of the organization for the year 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts for the year 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*Annex-2*)

9.8.2.2 The working results of the Company for the year 2021-22 as compared to the preceding years are tabulated below:

(Rs in millions)

Particulars	2021-22	% Inc/ (Dec)	2020-21	% Inc/ (Dec)	2019-20
Sales	78.19	(79.03)	372.93	68.14	221.80
Cost of sales	144.26	(66.34)	428.55	235.17	127.86
Gross profit/(loss)	(66.06)	18.78	(55.62)	(159.21)	93.94
Operating expenses					
Administrative expenses	59.79	3.57	57.73	(6.62)	61.82
Selling & distribution expenses	8.93	(20.17)	11.18	(5.25)	11.80
Operating profit/(loss)	(134.78)	8.24	(124.52)	(713.10)	20.31

Other expenses	261.04	-	0.00	0.00	0.00
Other income	94.41	1979.41	4.54	(42.96)	7.96
Financial charges	69.76	61.04	43.32	(39.52)	71.63
Loss for the year before tax	(371.18)	127.30	(163.30)	276.61	43.36
Taxation	4.23	3423.33	0.12	(96.43)	3.36
Loss after taxation	(366.95)	124.54	(163.42)	249.79	46.72

(Source: Annual Audited Accounts 2021-22)

During the year the sales of the company was decreased by 79.03% to Rs 78.19 million in 2021-22 from Rs 372.93 million in 2020-21, whereas, the Cost of Sales was decreased by 66.34% to Rs 144.26 million in 2021-22 from Rs 428.55 million in 2020-21. The decrease in sales resulted in gross loss of Rs 66.06 million to the company in 2021-22 (2020-21 – Rs 55.62 million) and the accumulated loss increased by 37% to Rs 1,213.81 million as on June 30, 2022 (2020-21 – Rs 883.058 million). These conditions, along with other matters as set forth in accounts indicate that the material uncertainty exists that may cast significant doubt on the company's ability to continue as a going concern, which required explanation.

9.8.2.3 Administrative expenses increased by 3.57% to Rs 59.79 million in 2021-22 (2020-21- Rs 57.73 million). The increase in Administrative Expenses in circumstances when sales decrease by 79.03% showed inefficient utilization of available resources and lack of control over administrative expenditures which needs justification.

9.8.2.4 The company's net loss increased by 124.54% to Rs 366.95 million in 2021-22 (2020-21 – Rs 163.42 million). The reason(s) for such continuous losses was management's inefficient operational activities. Efforts are required be made to increase the sale and rationalize the operational activities to make the corporation a viable and self-sustaining unit in the years to come.

9.8.2.5 Trade Debts decreased by 64% to Rs 106.416 million in 2021-22 from Rs 296.906 million in 2020-21. The provision for doubtful debts amounting to Rs 32.609 million appearing in previous year was written off during the year under review. Position needs clarification with regard to party wise detail of write off amount, reasons for non-recovery, in-house inquiry, if any, prior to written off approval etc.

9.8.2.6 Other Expenses of Rs 261.041 million are appearing in profit & loss account for the year 2021-22 (2020-21 – Rs Nil). The expenses included bad debts of Rs 181.789 million and loss on bank guarantee Rs 79.252 million. Both the figures related to late delivery charges and encashment

of bank guarantees by the customers due to non-completion of orders. Position needs clarification with reference to the reasons under which the orders were not completed or delayed completed.

9.8.2.7 The External Auditors issued qualified opinion on the accounts of the Board during the year under review on the basis of following points:

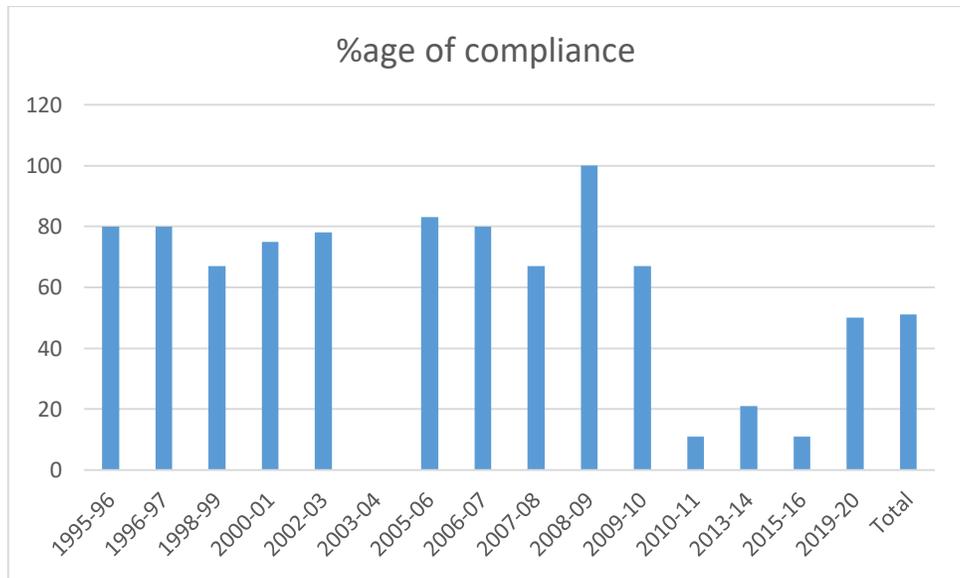

- i. According to IAS 36 ‘Impairment of Assets’ an entity should assess at each reporting period whether there is any indication that an asset may be impaired, and for an intangible asset not available for use impairment assessment should be done an impairment assessment for its plant and machinery and intangibles that are not yet available for use, despite the company incurring losses for several years. The impact of impairment of plant and machinery and intangibles is material to the Financial Statements and it cannot be quantified.
- ii. The company has recorded provision for gratuity as per management estimate instead of actuarial valuation as per requirements of IAS-19 ‘Employee Benefits’. The management estimate does not account for financial, demographic and other actuarial assumptions for the calculation of the present value of the provision against gratuity. The impact of the difference of provision form actuarial valuation cannot be quantified.
- iii. The External Auditors of the company noted that Company has trade debts amounting to Rs 106.416 million as at year ending 2022. The Company considered all its receivables as good and has not assessed any expected credit loss against these receivables which is in contravention of the requirements of International Financial Reporting Standards (IFRSs). The impact of expected credit loss or the receivable balance is material and cannot be quantified.

The management is stressed for early removal of said qualifications.

9.8.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	%age of compliance
1995-96	05	04	01	190	80
1996-97	05	04	01	169	80
1998-99	03	02	01	262	67
2000-01	04	03	01	299	75
2002-03	09	07	02	103.5,103.8	78
2003-04	05	0	05	104.2,107&107.1,107.2,104&104.1, 108.3	-
2005-06	06	05	01	132.3	83
2006-07	05	04	01	107.1	80

2007-08	03	02	01	80.2	67
2008-09	06	06	0	NIL	100
2009-10	03	02	01	132	67
2010-11	09	01	08	11.11.1, 11.11.2.1, 11.11.2.2, 11.11.2.3, 11.11.2.5, 11.11.2.6, 11.11.3, 11.11.4.1	11
2013-14	14	03	11	8.19.1, 8.19.2.1, 8.19.2.2, 8.19.2.3, 8.19.2.4, 8.19.2.5, 8.19.2.6, 8.19.2.7, 8.19.4.1, 8.19.4.3, 8.19.4.5	21
2015-16	09	01	08	8.20.1, 8.20.2.1, 8.20.2.2, 8.20.2.3, 8.20.2.4, 8.20.2.5, 8.20.2.6, 8.20.3	11
2019-20	04	02	02	7.14.2.2, 7.14.3	50
Total	90	46	44		51

Overall compliance of PAC directives was not satisfactory which needs to be improved.

9.9 National Fertilizer Marketing Limited

9.9.1 Introduction

National Fertilizer Marketing Limited (NFML) is a subsidiary of National Fertilizer Corporation of Pakistan (Pvt.) Limited (NFC). It was incorporated in 1976 under Companies Ordinance 1984 (now Companies Act 2017). The principal activity of the Company is marketing and sale of fertilizer purchased from local manufacturers and imported urea through Trading Corporation of Pakistan (Pvt.) Limited.

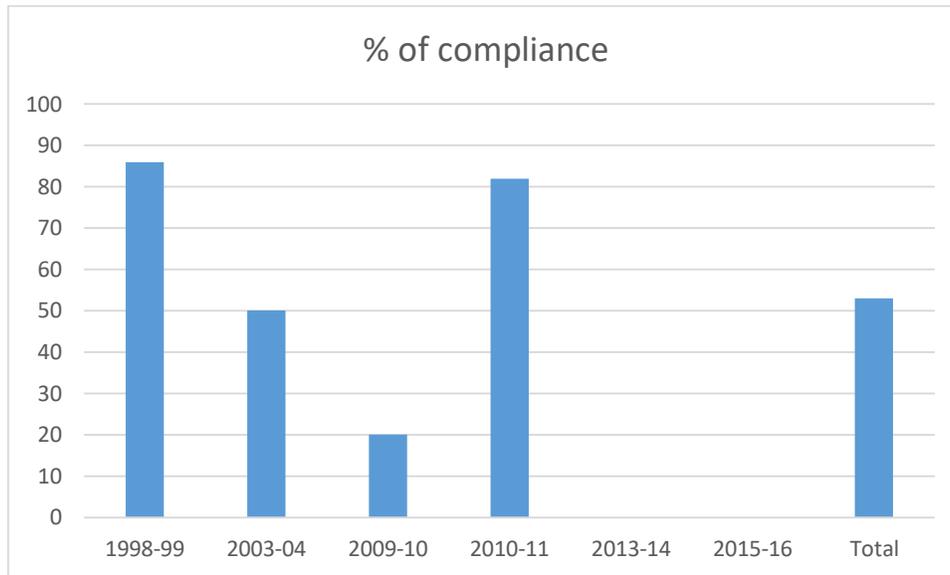

9.9.2 Comments on Audited Accounts

9.9.2.1 The annual audited accounts are required to be provided to audit for review each year. Contrary to this the management failed to provide audited accounts of the organization for the year 2018-19 to 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts for the years 2018-19 to 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*Annex-2*).

9.9.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras #	% of compliance
1998-99	07	06	01	225	86
2003-04	04	02	02	117,119.5	50
2009-10	05	01	04	139,140,141,142	20
2010-11	11	09	02	11.14.4.1,11.14.4.2	82
2013-14	01	0	01	Annexure-2	0
2015-16	06	0	06	8.23.4.1,8.23.4.2,8.23.4.3,8.23.4.4,8.23.4.5,8.23.3	0
Total	34	18	16		53

The compliance of the PAC directives was very poor which need immediate attention of the PAO.

9.9.4 Audit Paras

9.9.4.1 Loss due to incurring excess incidental charges - Rs 173.845 million

According to Ministry of Industries and Production letter dated March 17, 2022, stock handling, warehousing and labor charges (incidental charges) approved by ECC were Rs 92 per bag.

During audit of NFML for the years 2019-23, it was observed that the management incurred Rs 357.845 million at the rate of Rs 178.57 per bag on account of incidental charges i.e. stock handling, warehousing and labor charges during 2021-22. Whereas, incidental charges approved by ECC was Rs 184.00 million at the rate of Rs 92 per bag. This resulted into excess cost of Rs 173.845 million (Rs 357.845 million - Rs 184 million). The management failed to complete the task of stock handling, warehousing and sale of urea within the approved cost which resulted into loss to the company.

Due to weak internal controls and financial management, the extra cost was incurred on account of incidental charges.

Audit is of the view that the management did not complete the said task within approved cost.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends the management to state the reason(s) of incurring excess incidental charges than the approved rate of incidental charges by ECC.

9.9.4.2 Irregular award of tally, labor and security contracts to various contactors - Rs 68.983 million

According to tender documents the prospective bidder who has been black listed, shall not be eligible to participate in contract process, either individually or as a member of other bidding company.

Moreover, according to clause I of tender documents for hiring of labor and security services, it is mandatory for bidder to have NTN registration not later than January 01, 2018 and minimum turnover of Rs 1.00 million as declared in FBR in last two financial years. Further, according to clause 38(2) (viii) of Public Procurement Rules 2021, the lowest evaluated bidder shall be awarded the contract.

During audit of National Fertilizer Marketing Limited (NFML) for the years 2019-23, it was observed that the management awarded tally, labor and security contracts for in-transit urea and bulk stores to various contractors. The contracts were awarded in violation of tender documents and PPRA rules. Hence, the award of such contract was irregular. The detail is as under:

(Rs in million)

Description of contract	Name of contractor	Violation of criteria	Deficiency	Contract award date	Amount
Labor and security contracts at bulk stores	M/s Abdul Qadeer	Tender Documents	Black listed	January 19, 2022	10.736
Labor and security contracts at bulk stores	M/s Zahir Shah & Brothers	Clause-I of Tender Documents	NTN and STN registration	January 2022	30.403
	M/s Muhammad Fahad			January 2022	24.859
Tally services contract	M/s M.A.M Company	Clause 38(2) (viii)	Award of contract to second lowest bidder	December 10, 2021	2.985
	Total				68.983

Due to non-observance of provisions of the tender documents and PPRA rules, the award of tally, labor and security contracts for in-transit urea and bulk stores was irregular.

Audit is of the view that the management was required to comply with the terms of the conditions of the tender documents and PPRA rules in letter and spirit.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends the management to explain the reason(s) of awarding contracts to various contractors in violation of tender documents and PPRA rules.

9.9.4.3 Irregular hiring of labor, tally and in transit security services - Rs 30.950 million

According to rule 42 (C) (IV) of Public Procurement Rules amended up-to June 2021, repeat orders should not exceed fifteen per cent of the original procurement.

During audit of NFML, Lahore for the years 2019-23, it was observed that the management opened tender for hiring of labor, tally and in transit security services on February 18, 2022 for Wazir Mansion, Karachi and Bin Qasim ports. The contract was awarded to M/s M.A.M & Co. single participating firm. The initial period of the contract was six months i.e. February 21, 2022 to August 20, 2022. On expiry of the period, the contract period was extended for further six months twice i.e. from August 21, 2022 to

February 20, 2023 and February 21, 2023 to August 20, 2023 in violation of public procurement rules. This resulted into repeat order of more than 15% which was irregular.

Due to weak internal controls, repeat order of above 15% was placed.

Audit is of the view that the management should have not place the repeat order beyond 15%. This resulted into violation of public procurement rules.

The matter was reported to the management but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to explain the reason(s) of placing repeat order of beyond limit of 15% and inquire the matter besides fixing the responsibility on person(s) at fault.

9.9.4.4 Non recovery of cost of urea from cartage contractor due to shortage of bags during transit - Rs 3.198 million

According to clause 18 of cartage agreement with NLC dated September 01, 2022, in case the consignment is not delivered to the designated consignee within 15 days of the dispatch of the fertilizer then on 16th day of the dispatch of fertilizer the cartage contractor will be liable to pay to the company the full value thereof at TCP import price of the fertilizer.

During audit of NFML for the years 2019-23, it was observed that the management awarded cartage contract to National Logistic Cell (NLC) for dispatch of imported urea from Karachi Port Trust, Bin Qasim and Gawadar Ports to various NFML bulk stores. During dispatch of urea in 2022-23, total 420 bags of imported urea having value of Rs 3.198 million were missing during transit to various bulk stores. The management recovered only freight charges of urea whereas the full value of missing urea bags at Trading Corporation of Pakistan (TCP) import price remained unrecovered. The detail is given at Annex-72.

Due to non-observance of provision of cartage contract, full value of missing urea bags at TCP import price was not recovered from M/s NLC.

Audit is of the view that the management was required to recover the full value of missing urea bags at TCP import price but the same was not done.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends the management to explain the reason(s) of non-recovery of full value of urea bags from NLC and enquire the matter besides fixing the responsibility on person(s) at fault.

9.9.4.5 Loss due to excess delivery of 400 urea bags to dealers - Rs 2.968 million

According to NFML letter dated February 02, 2015, the respective Regional Managers shall supervise and monitor the operations of all bulk and temporary stores within their jurisdiction. The quantity, security and safety of stocks shall be ensured.

During audit of NFML for the years 2019-23, it was observed that the management dispatched 1,300 urea bags to M/s Shaheen Shah Fertilizers from its temporary store named "Zulfiqar godown" against booked quantity of 1,200 bags. Furthermore, 2,900 urea bags were dispatched to Sind Fertilizer Agency

against booked quantity of 2,600 urea bags from the same temporary store. This resulted into excess delivery of 400 urea bags amounting to Rs 2.968 million (400 bags*Rs 7420.47 = Rs 6800 import price per bag + Rs 620.47 incidental charges per bag) which was not recovered from the dealers. The inquiry committee in its findings dated July 04, 2023 established that excess urea was dispatched and recommended to recover the cost of urea from the concerned. But the same could not be recovered and resulted into loss to the company.

Due to weak internal controls and mishandling of stock, the excess quantity of urea was dispatched to the dealers and amount remained unrecovered.

Audit is of the view that the management was required to ensure that the quantity of urea was being dispatched as per order booking slip and transfer note.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends the management to explain the reasons of dispatching excess urea and non-recovery of the urea cost from the concerned.

9.9.4.6 Irregular appointment of external auditors without concurrence of Auditor-General of Pakistan - Rs 2.864 million

According to Finance Division dated March 25, 1981 and Auditor-General of Pakistan's office letter dated October 21, 2021 and subsequent letter dated October 17, 2022, in case of appointment of Chartered Accountant Firms by autonomous bodies, the concurrence from office of AGP for the same was required to be obtained by the autonomous bodies.

During audit of NFML for the years 2019-23, it was observed that the management hired the services of M/s Kreston Haider Bhimji & Co. Chartered Accountants to conduct audit for the period 2019-20 to 2022-23 without concurrence of Auditor-General of Pakistan. Thus, the payment of audit fee amounting to Rs 2.864 million was held irregular.

Non-observance of instructions of F.D and AGP was the cause of irregularity.

Audit is of the view that external audit firm was required to be hired after obtaining concurrence from Auditor-General of Pakistan.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends the management to take appropriate action to get ex-post facto approval from AGP, Islamabad.

9.9.4.7 Non-recovery of shortage of urea Rs 28.212 million

According to clause 21.1.5 and 21.1.6 of NFML Management Manual, punishment for misconduct and breach of discipline includes dismissal from service and recovery will be made from salary if any loss or damage sustained by the corporation by reasons of negligence or misconduct.

During audit of NFML for the years 2019-2023, it was observed that Mr. Muhammad Faisal Chaudhary, Assistant Manager during his posting as store incharge at Nowshera Virkan involved in shortage of 14,813 bags of urea having value of Rs 28.212 million. On January 29, 2015 an inquiry committee mentioned in its findings that Mr. Faisal Chaudhary was responsible for shortage of 14,813 bags of urea. No recovery of shortage of urea was made till date.

Due to weak internal controls, recovery was not effected from the said employee.

Audit is of the view that the management was required to recover the amount from the concerned employee in light of findings of enquiry committee.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends the management to explain the reasons(s) for non-recovery of the shortage of urea amount.

9.9.4.8 Loss due to dispatch of urea through NLC instead of Pakistan Railway - Rs 2,259.172 million

According to Pakistan Railways Divisional Office, Karachi Letter No. 03-Rates/FBU/OC/2022 dated August 30, 2022, the freight rates for transportation of fertilizer to all bulk stores of NFML were offered as follow:

From	To	Special reduced rate per ton
Karachi Port Trust (KPT) Wazir Mansion (WM) Port Muhammad Bin Qasim (PMBQ)	Eminabad	Rs 4,415
	Jhang	Rs 3,735
	Lodhran	Rs 3,190
	Kissan	Rs 3,945
	Risalpur	Rs 5,670
	Shahdad Pur	Rs 1,745

During audit of NFML for the years 2019-23, it was observed that the management dispatched 331,228 metric ton urea through NLC to six permanent bulk stores. Freight cost charged by NLC was Rs 3,566.847 million. These six permanent bulk stores were situated on Pakistan Railways track. If 331,228 metric ton urea would have been dispatched through Pakistan Railways, it would have cost Rs 1,307.674 million. Thus, dispatch of urea through NLC resulted into loss of Rs 2,259.172 million (Rs 3,566.847 million - Rs 1,307.674 million) to government exchequer.

Due to weak internal controls and financial management, urea was dispatched through costly contractor instead of Pakistan Railways.

Audit is of the view that the management was required to dispatch urea through Pakistan Railways instead of NLC to avoid extra cost.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends the management to explain the reason(s) for non-dispatching the urea through Pakistan Railways besides fixing the responsibility on person(s) at fault.

9.9.4.9 Irregular excess award of urea beyond allocated quota - Rs 33.600 million

According to para 3 of NFML letter dated November 03, 2022 and December 29, 2022, it is strictly directed that the dealer booking should not exceed the maximum limit as mentioned in these letters. In case of deviation of the orders strict disciplinary action will be taken.

During audit of NFML for the years 2019-2023, it was observed that the management notified quota for 200,000 M. ton and 194,000 M. ton urea to districts and dealers on November 03, 2022 and December 29, 2022 respectively. Scrutiny of the record revealed that the management booked and awarded 717.95 M. Ton Urea having value of Rs 33.600 million, to certain districts and dealers beyond allocated quota. The detail is given at Annex-73.

Due to weak internal controls, excess urea was awarded beyond the approved quota.

Audit is of the view that the management was required to award urea as per approved quota but the same was not done.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility.

9.9.4.10 Non-recovery of differential price from trade dealers - Rs 19.287 million

According to NFML letter dated January 30, 2023 it was directed to collect the differential amount against the booking of imported urea.

During audit of NFML for the years 2019-2023, it was observed that the management issued 5,075.50 M. Ton urea out of 194,500 M. Ton in January 2023 at old price of Rs 2,150 per bag to dealers. During the process of urea issuance to dealers, the ECC notified new price of Rs 2,340 per bag but the management did not consider it and kept on dispatching the urea at old price. Later on, it was decided to collect the differential amount of Rs 190 per bag (Rs 2,340 – Rs 2,150) from the dealers. The total differential amount was Rs 19.287 million (5,075.50 M. Ton * 20 bags per M. ton * Rs 190) which remained unrecovered.

Due to weak internal controls, the stock was sold at old price and the differential amount remained unrecovered from the dealers.

Audit is of the view that the management was required to sell the new stock at new price or the differential amount was to be recovered.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends the management to recover the differential amount from the concerned dealers/agencies.

9.9.4.11 Irregular sale of urea on credit - Rs 27.641 million

According to clause-6(iv) of agreement between dealers and NFML, for supplies lifted by dealer from company's warehouse, the dealer will pay in advance the value of the supplies by demand draft or pay order in favor of the company on a scheduled bank approved for this purpose by the company and send such demand draft or pay order to the company.

During audit of NFML for the years 2019-23, it was observed that in different regions, urea amounting to Rs 27.641 million was sold on credit till June 30, 2023. Whereas, the amount of supplies was not paid in advance by the dealers in the form of demand draft or pay order in violation of agreement. Resultantly, the management extended undue favor to certain contractors.

Due to weak internal controls, urea was sold on credit and amount was not recovered.

Audit is of the view that the management was required to take the advance payment from the dealers before delivery of urea but the same was not done.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility on person(s) at fault.

9.9.4.12 Irregular award of dealership without eligibility criteria – Rs 102.950 million

According to dealership policy, criteria for award of new dealership was to required photocopy of valid registration/dealership certificate of at least one fertilizer company other than NFML, minimum of 02 years of experience in buying/selling of fertilizers of any one or more fertilizer company and license of registration for Dealer/Vendor of fertilizer issued by the Agriculture Department of his province.

During audit of NFML for the years 2019-23, it was observed that the management awarded dealership and sold huge quantity of urea bags valuing Rs 102.950 million to various agency holders who did not fulfill the dealership eligibility criteria. The agency holders neither provided the experience certificate in buying/ selling of fertilizers' company other than NFML nor furnished the license from Provincial Agriculture Department. In the absence of above said record, award of dealership and supply of urea bags amounting to Rs 102.950 million to the dealers was held irregular. The detail is given at Annex-74.

Due to non-fulfilling the eligibility criteria, award of dealership was irregular.

Audit is of the view that the management was required to award dealership in line with the approved dealership award criteria after fulfillment of all the requirements.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility on the person (s) at fault.

9.10 Pakistan Engineering Company Limited

9.10.1 Introduction

Pakistan Engineering Company Limited (PECO) was incorporated in Pakistan on February 15, 1950 under Companies Act 1913 (now Companies Ordinance 1984) as public limited company. The Company is principally engaged in the manufacturing and sale of engineering products. The major products of the company are electricity, transmission and communication towers, electric motors, pumps and steel rolled products etc. The Company had earlier closed down all its divisions, except structure divisions, and is principally engaged in the manufacturing and sale of electricity transmission and communication towers. At present, structure, pumps, electric motors, foundry and rolling mills divisions are in operation. State Engineering Corporation (Pvt.) Limited and Rotocast Engineering Company (Pvt.) Limited hold 25% shares each, while public holds 27% shares and remaining 23% shares are held by different financial institutions and others.

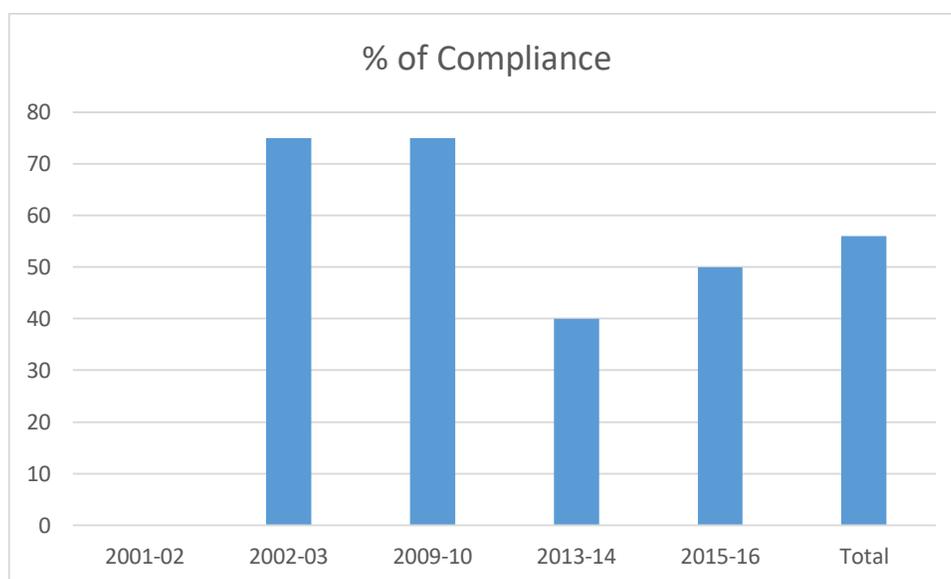

9.10.2 Comments on Audited Accounts

9.10.2.1 The annual audited accounts are required to be provided to audit for review each year. Contrary to this the management failed to provide audited accounts of the organization for the year 2017-18 to 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts of 2017-18 to 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*refer Annex-2*).

9.10.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras #	% of Compliance
2001-02	1	-	1	301	-
2002-03	04	03	01	107.3	75
2009-10	08	06	02	135.6,135.7	75
2013-14	10	04	06	8.21.4.1,8.21.4.2,8.21.4.4, 8.21.4.5,8.21.4.6,8.21.4.7	40
2015-16	02	01	01	8.21.3	50
Total	25	14	11		56

The compliance of the PAC directives was very poor which need immediate attention of the PAO.

9.10.4 Audit Paras

9.10.4.1 Unjustified payment to M/s Sufi Steel Industries – Rs 499.501 million

According to Rule-5(5)(a) of the Public Sector Companies (Corporate Governance) Rules, 2013, the principle of probity and propriety entails that company's assets and resources are not used for private advantage and due economy is exercised so as to reduce wastage. The principle shall be adhered to, especially with respect to handling of public funds, assets, resources and confidential information by directors, executives and employees and claiming of expenses.

During the audit of PECO for the year 2019-23, it was observed that a sum of Rs 499.501 million was paid to M/s Sufi Steel Industries (Pvt.) Ltd during the period August, 2019 to March, 2022 without documentary evidence i.e. contract & purchase order. Moreover, SECP conducted inquiry regarding affairs of PECO being an enlisted company and concluded that transactions between PECO and M/s Sufi Steel Industries (Pvt.) Ltd were unjustified as its owner who made a Joint venture agreement with PECO in the name of M/s Synectics Corporation was same. This indicated that PECO transferred amount of Rs 499.501 million into JV account.

Weak internal controls and non-observance rules resulted in unjustified payment.

Audit is of the view that the management was required not to make payments to M/s Sufi Steel Industries (Pvt.) Ltd without agreement.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to inquire the matter of unjustified payment and fix responsibility on the person(s) held responsible besides recovery of amount.

9.10.4.2 Default due to non-repayment of loan to National Bank of Pakistan (NBP) – Rs 111.195 million

According to clause 26th of Memorandum of Association of PECO, the objective of the company was to give any guarantee in relation to the payment of any loan, debentures, stocks, bonds, obligations or securities and to guarantee the payment of interest thereon or of dividends of any stocks or shares of any company.

During audit of PECO for the years 2019-23, it was observed that an agreement with National Bank of Pakistan was signed for availing running finance facility of Rs 108.351 million on March 31, 2015. This facility was available for five years. The management failed to repay the installment of running finance facility. Consequently, NBP filed a suit in Banking Court for recovery of loan along with interest. Banking Court decided to pay an amount of Rs 111.195 million. It was further revealed that due to nonpayment of loan PECO was declared as defaulter.

Poor financial management was the cause of non-payment of loan amount.

Audit is of the view that the management was required to pay loan timely in order to avoid default.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to inquire the matter and fix responsibility on the person(s) held responsible.

9.10.4.3 Irregular payments made in cash to different parties – Rs 53.414 million

According to clause 21(l) (Division II) of Income Tax Ordinance, 2001, no deduction shall be allowed in computing the income of a person under the head income from business for any expenditure for a transaction, paid or payable under a single account head which, in aggregate exceeds two hundred and fifty thousand rupees, made other than by a crossed cheque drawn on a bank or by crossed bank draft or crossed pay order or any other crossed banking instrument showing transfer of amount from the business bank account of the taxpayer.

During audit of PECO for the years 2019-23, it was observed that the management made payments of Rs 53.414 million under various heads in cash to different parties under various head in cash rather than through cross cheques in violation of Federal Board of Revenue Rules. Thus, the payments of Rs 53.414 million were considered irregular.

Due to weak financial controls, irregular payments were made.

Audit is of the view that the management was required to make payments through cross cheques instead of making cash payments.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to inquire the matter and fix responsibility on the person(s) held responsible besides regularization of amount.

9.10.4.4 Irregular composition of the BoD and receipt of loan – Rs 26.798 million

According to rule 5(5)(b)(i) of Corporate Governance Rules 2013, the directors and executives of a Public Sector Company do not allow a conflict of interest to undermine their objectivity in any of their activities, both professional and private and that they do not use their position in the Public Sector Company to further their private gains in a social or business relationship outside the Public Sector Company.

During audit of PECO for the years 2019-23, it was observed that a loan of Rs 26.798 million was obtained from M/s Arif Habib and M/s Rotocast Engineering during the period from March, 2019 to September, 2022. The approval of loan was granted by the Board of Directors that included the owners of the said companies. The loan amount was booked as legal and professional expenses, annual listing fee and salary of employees. Thus, due to conflict of interest of the members of BoD, loan amount was held irregular. The detail of loan is as under:

Description	Loan amount (Rs in million)
M/s Arif Habib Group	12.971
M/s Rotocast Engineering	13.827
Total:-	26.798

Due to weak administrative controls, company obtained loan from the members of BoD.

Audit is of the view that management was required to observe the CGRs in letter and spirit.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to inquire and refer the matter to SECP for appropriate decision.

9.10.4.5 Excess payment of salary to Ex-Managing Director – Rs 18.199 million

According to Agenda 2 Item No.02 of 185th Board of Directors meeting held on April 27, 2016, Board approved remuneration of Managing Director for Rs 385,000 per month. Further, according to clause i & ii of Finance Division Letter dated July 19, 2022 regarding grant of executive allowance to BS-17-22 Officers, this allowance will be admissible to all officers posted by the Establishment Division against sanctioned posts.

During the audit of Pakistan Engineering Company (PECO) for the years 2019-23, it was observed that Ex-Managing Director drawn salary more than that approved by the Board of Directors. He was paid Rs 601,720 instead of Rs 385,000 per month during the period of March, 2016 to August, 2022 and resultantly excess payment of Rs 16.904 million (Rs 216,720 x 78 months) was made. Further, an amount of Rs 0.535 million on account of executive allowance for the month of July & August 2022 and an amount Rs 0.760 million (Rs 9,750 x 78 months) as subscription fee to M/s Royal Palm was also made. Thus, the management paid excess salary and allowances of Rs 18.199 million (Rs 16.904 + Rs 0.535 + Rs 0.760 million).

Due to weak financial controls, excess payments was made.

Audit is of the view that the management was required to follow the Finance Division's instructions to avoid irregular payment.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to inquire the matter and fix responsibility on the person(s) held responsible beside recovery of irregular payment.

9.10.4.6 Irregular sale of scrap in violation of company's rules – Rs 75.968 million

According to PECO sales policy, disposal of scrap, the Board of Director will constitute a disposal committee to approve sale of machinery and scrap. After approval by the committee tender will be issued in two leading newspapers.

During the audit of PECO for the years 2019-23, it was observed that scrap valuing Rs 75.968 million was sold to various buyers during March 2021 to July 2021. It was noted that management neither constituted disposal committee to assess the condition of disposed items nor adopted competitive process in violation of company rules. Thus, sale of scrap of Rs 75.968 million was held irregular in audit.

Non observance of company's rules resulted into irregular sale of scrap.

Audit is of the view that the management was required to sell scrap after approval of disposal committee.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to enquire the matter and fix responsibility on the person(s) held responsible.

Note: The issue was also reported earlier in the Audit Report for Audit Year 2019-20 vide para number 7.20.4.10 having financial impact of Rs 8.976 million. Recurrence of same irregularity is a matter of serious concern.

9.10.4.7 Loss due to non-collection of advance Income Tax on auction – Rs 7.597 million

According to clause-236A of Income Tax Ordinance, 2001, any person making sale by public auction or auction by tender or any property of goods either belonging to or not belonging to the Government, local Government, any authority, a company shall collect advance tax computed on the basis

of sale price of such property and at the rate of 10% from the person to whom such property or goods are being sold.

During audit of PECO for the years 2019-23, it was observed that the management sold scrap of Rs 75.597 million to various buyers during March, 2021 to July, 2021. The advance tax from the buyers was not collected by the management. Thus, due to non-collection of advance tax, the Government suffered loss of Rs 7.597 million (Rs 75.597 million x 10%).

Due to weak managerial controls, public exchequer was deprived of tax amount.

Audit is of the view that the management was required to follow Government directions in order to collect advance tax.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to enquire the matter and fix responsibility on the person(s) held responsible.

9.10.4.8 Non-receipt of rent amount of office building – Rs 5.735 million

According to Rule-5(5)(a) of the Public Sector Companies (Corporate Governance) Rules, 2013, the principle of probity and propriety entails that company's assets and resources are not used for private advantage and due economy is exercised so as to reduce wastage. The principle shall be adhered to, especially with respect to handling of public funds, assets, resources and confidential information by directors, executives and employees and claiming of expenses.

During audit of PECO for the years 2019-23, it was observed that the management rented out an office building to M/s United Bank Limited (UBL) situated in Uni-Tower Karachi @ Rs 127,862 per month. The tenant was not paying rent of Rs 5.735 million since November, 2020. Thus, due to non-efforts the rent valuing Rs 5.735 million (Rs 127,862 x 38 months = 4.858 million + Rs 0.877 million) remained unrecovered.

Audit is of the view that the management was required to made efforts for early recovery of rent.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to enquire the matter and fix responsibility on the person(s) at fault besides recovery of rent.

9.10.4.9 Irregular hiring of freight services in violation of PPRA Rules – Rs 3.128 million

According to clause-12(2) of PPRA Rules, 2004, all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

During audit of PECO for the years 2019-23, it was observed that freight services contract was awarded to M/s Abbas Goods Transport Company, Lahore and made payments of Rs 3.128 million without

tender process. Thus, hiring of services and payments of Rs 3.128 million was held irregular. Detail is as under:

Sr. No.	Name of Freight Agency	Date of Payment	Payment (Rs)
1	Abbas Goods Transport Company, Lahore	31.05.2019	1.422
2	-do-	30.04.2019	0.948
3	-do-	31.07.2019	0.497
4	-do-	13.05.2019	0.261
Total:-			3.128

Dun to non-observance of PPRA rules, irregularity was occurred.

Audit is of the view that the management was required to hire the services as devised in PPRA Rules but the same was not adhered to.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to inquire the matter and fix responsibility on the person(s) at fault besides regularization.

9.10.4.10 Irregular appointment of CFO and CIA – Rs 2.55 million

According to clause-2(ii) of PECO Employment Policy and Procedure, position of Chief Financial Officer and Head of Internal Audit shall be filled with approval of Board of Directors.

During the audit of PECO for the year 2019-23, it was observed that Mr. Ali Ahmad Qureshi and Mr. Muhammad Ali were appointed as Chief Financial Officer and Chief Internal Auditor at monthly salary of Rs 150,000 & Rs 100,000 respectively on October 2018. It was noted that the appointment of these officers was made without approval of Board of Directors. Thus, the appointment and payment of salary of Rs 2.550 million to them was held irregular in Audit as detailed below:

Name	Designation	Date of appointment	Monthly Salary (Rs)	Total Payment (Rs)
Mr. Ali Ahmad Qureshi	Chief Financial Officer	October 24, 2018	150,000	1,650,000
Mr. Muhammad Ali	Chief Internal Auditor	October 26, 2018	100,000	900,000
Total:-				2,550,000

Non observance of employment policy resulted irregular appointment.

Audit is of the view that the management should recruit the officers with the approval of Board of Directors.

The matter was reported to the management but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommend to inquire the matter and fix responsibility on the person(s) at fault. Besides, the matter be got regularized from the BOD.

**9.10.4.11 Irregular appointment of Manager Accounts and Finance –
Rs 1.890 million**

According to clause-2(ii) of PECO Employment Policy and Procedure, in case of supervisors and workers, the appointment shall be made on the basis of merit and according to the company's requirement.

During audit of PECO for the years 2019-23, it was observed that the management appointed Mian Aamir Raza as Manager Accounts & Finance on October 01, 2021 at Rs 70,000 per month. Further, the appointment letter was signed by Brigadier (R) Abdul Majeed who was not employee of PECO. The said person was representative of joint venture firm i.e. M/s Synectics Corporation. The officer of joint venture firm was not authorized to appoint an employee on behalf of PECO. Thus, the appointment and payment of salary of Rs 1.890 million was held irregular. Detail is as under:

Name	Designation	Period of Stay	Monthly Salary	Total Payment
Mian Aamir Raza	Manager Accounts & Finance	Oct 21 to Dec 23	70,000	1,890,000

Weak internal controls resulted into irregular appointment and payment of salary.

Audit is of the view that the management was required to make appointment through authorized person on merit.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility on the person(s) at fault besides regularization from competent authority.

9.10.4.12 Stoppage of operational activities due to management failure

According to Rule-4(5) of the Public Sector Companies (Corporate Governance) Rules, 2013, The directors of a Board shall be persons who, in opinion of the Government, shall assist the Public Sector Company to achieve its principal objective and the Board shall accordingly exercise its powers and carry out its fiduciary duties with a sense of objective judgment and in the best interest of the company.

During audit of PECO for the years 2019-23, it was observed that the Company was established in February 15, 1950 for manufacturing and sale of engineering products. The company earned Rs 1,424.45 million from its operational activities as on June 30, 2018. Afterwards, due to management dispute between public sector and private sector Board of Directors, the operational activities remained slow and were subsequently stopped completely as on November 2020. The Managing Director terminated the key employees and made joint venture agreement with M/s Synectic Corporation to continue the operational activities but all in-vain.

Weak managerial controls caused stoppage of operational activities of the company.

Audit is of the view that the management was required to manage business activities to achieve its objectives at optimal level.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to inquire the matter and determine loss by fixing responsibility besides its recovery.

9.11 Pakistan Hunting and Sporting Arms Development Company

9.11.1 Introduction

Pakistan Hunting and Sporting Arms Development Company is a Company limited by guarantee having share capital duly incorporated under Section 42 of the Company Ordinance, 1984 on September 29, 2006. The Company obtained the requisite certificate of business under Section 146(2) of Companies Ordinance 1984 and was thus entitled to commence business with effect from April 25, 2007. The Company was formed with the primary objective to uplift, develop and build hunting and sporting sector of Pakistan for exports and commercial activities with a view to generate foreign exchange and to develop quality and capacity to eventually compete in the international market. The registered office of the Company is situated at Ground Floor, State Life Building, The Mall, Peshawar.

The Company is a subsidiary of PIDC and fully owned by the GoP and has paid-up capital of Rs 86.49 million. The Company is working under the administrative control of Ministry of Industries and Production.

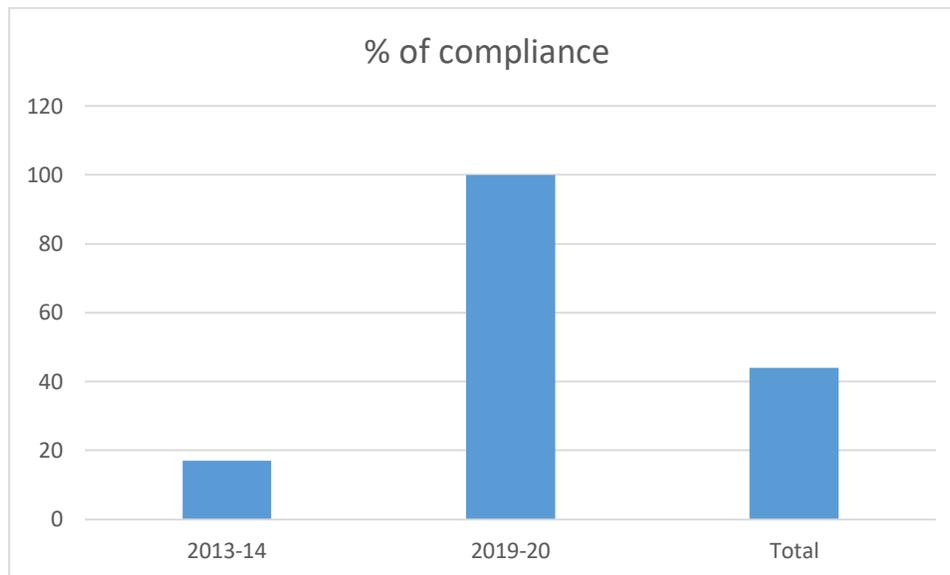

9.11.2 Comments on Audited Accounts

9.11.2.1 The annual audited accounts are required to be provided to Audit for review each year. Contrary to this, the management failed to provide audited annual accounts for the years 2019-20 to 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts of 2019-20 to 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*refer Annex-2*).

9.11.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	% of compliance
2013-14	06	01	05	8.15.2.3, 8.15.2.2, 8.15.2.4, 8.15.2.5, 8.15.2.6	17
2019-20	03	03	0	-	100
Total	09	04	05		44

Compliance of the PAC directives was very poor which requires immediate attention of the PAO.

9.11.4 Audit Paras

9.11.4.1 Non-viability of PHSADC due to failure of business plan even after utilization of heaviest funds of - Rs 86.57 million

According to Board of Directors of Pakistan Industrial Development Corporation (PIDC, a parent Company) in its 118th meeting held on October 14, 2017 approved a Business Plan amounting to Rs 148.32 million for making the PHSDAC self-reliant & sustainable.

During audit of PHSADC Peshawar for the year 2019-22, it was observed that PIDC in its 118th BOD meeting held on October 14, 2017 approved a Business Plan of the Company valuing Rs 148.32 million to make it self-reliant and sustainable. Business Plan consists of five major sources of revenue i.e. Common Facility Training Center (CFTC), Small Industrial Estate (SIE) at Dara Adam Khel, Toss Show, Export Orders and Import Substitute. An amount of Rs 86.57 million was utilized out of which Rs 46.641 million were utilized for procurement of machinery & tools and remaining amount was utilized for operational & administrative expenditure. Failure status in revenue generation from five sources of Business Plan is as under:

1. CFTC could not be established but the management procured machinery & tools valuing Rs 46.641 million earlier and placed in CFTC Peshawar.
2. Management could not purchase land for establishment of SIE in Dara Adam Khel.
3. Management failed to arrange Toss Shows during the last three years.
4. Management failed to achieve a single export order during the last three years.
5. During verification of record, the management failed to provide any evidence of import substitute.

In view of above, it was clear that Business Plan of PHSDAC had been completely failed because nil revenue could be generated from its five sources.

The failure of PC-1 and Business Plan showed weak internal and financial control of the Company.

The management in its response stated that PIDC established an "Institutional Support Fund" to assist subsidiaries. From these funds PHSDAC received Rs 86.57 million. However, delays in projects like the Dara Adam Khel Industrial Estate and COVID-19 restrictions hampered revenue generation. Export orders worth Rs 132.741 million remained unfulfilled due to NOC issues from Ministry of Defence despite directives from PAC.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigation of failure of Business Plan at Ministry level beside fixing responsibility on the person (s) at fault.

Para-2 (PHSADC – 2019-22)

9.11.4.2 Release of huge funds by PIDC against defective business plan - Rs 86.57 million and purchase of machinery before establishment of CFTC in SIE at DARRA ADAM KHEL - Rs 46.641 million

According to GFR-10 (i) Every officer incurring or authorizing expenditure from public funds should be guided by high standards of financial propriety. Among the principles on which emphasis is generally laid are that every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public moneys as a person of ordinary prudence would exercise in respect of expenditure of his own money.

During audit of PHSADC Peshawar for the year 2019-22, it was observed that PIDC Board of Directors in its 118th meeting held on October 14, 2017 approved a Business Plan of PHSDAC valuing Rs 148.32 million to make the Company self-reliant & sustainable. Audit observed following irregularities in Business Plan:

1. Before the approval of the Business Plan in October 2017, a PC-1 of Rs 66.32 million for establishing a Common Facility Training Centre (CFTC) at Small Industrial Estate (SIE) Peshawar was approved in a meeting held on February 12, 2016. The PC-1 execution period was from 2016-17 to 2018-19, with 15 Machineries & Tools procured worth Rs 38.43 million; however, PC-II, PC-III, and PC-IV were not submitted despite seven years having elapsed.
2. The business plan of PHSADC lacked feasibility study, profit concept, and revenue earning plan, making it deficient for a self-reliant and sustainable operation under Section 42 of the Companies Ordinance, 1984.
3. PIDC and PHSDAC, in a joint meeting on February 11, 2020, advised PHSDAC to create a realistic business plan, indicating that the previously approved plan from October 2017 was flawed.
4. The business plan aimed for revenue from various sources, including a Common Facility Training Center (CFTC) and Small Industrial Estate (SIE) at Dara Adam Khel, but neither were established as planned. Instead, funds were used to purchase machinery for CFTC Peshawar, causing double expenditure. Difficulties in acquiring land for CFTC in Dara Adam Khel were cited, with procurement of machinery preceding establishment.

5. Business Plan consisted of five major sources of revenue including Common Facility Training Center (CFTC), Small Industrial Estate (SIE) at Dara Adam Khel. Management did not establish SIE and CFTC in Dara Adam Khel but purchased 15 more Machineries & Tools valuing Rs 46.641 million and installed them in CFTC Peshawar instead of CFTC Dara Adam Khel. PHSDAC in its joint meeting with PIDC held on February 11, 2020 briefed the committee that procurement of land to establish CFTC in Dara Adam Khel was very difficult due to unavailability of land. However, CEO of PHSDAC was confident that once the SIE/SEZ is materialized, PHSDAC would be able to get about 5 acres' land through JIRGA. This also showed that machineries were procured before establishment of CFTC in Dara Adam Khel.

In view of above, audit is of the view that PIDC approved the Business Plan of PHSDAC on defective grounds. Further utilization of machineries & tools of CFTC Dara Adam Khel was also held unjustified.

The irregularities were occurred in Business Plan due to weak financial control of the management and lack of interest in utilization of public funds by the PIDC.

The management responded on October 3, 2023, stating that PIDC had established an "Institutional Support Fund" to aid its subsidiaries financially. PHSDAC utilized these funds to initiate its Project CFTC and Business Plan, which had distinct objectives. However, the Business Plan's implementation was hindered by PIDC's incomplete fund allocation, preventing the hiring of necessary staff. The responsibility for acquiring land for the Small Industrial Estate in Dara Adam Khel shifted from FATA Development Authority to SIDB after FATA's dissolution, delaying the establishment of CFTC. The reply was deemed inadequate as it failed to mention the proposed 3-5% surcharge outlined in the Business Plan for PHSDAC's sustainability. Additionally, the Business Plan stated that PHSDAC, not FATA, was obligated to establish the Small Industrial Estate and CFTC in Dara Adam Khel. Further as per Business Plan, PHSDAC was liable to establish Small Industrial Estate and CFTC at Dara Adam Khel instead of FATA.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating matter at ministry level and fixing responsibility.

Para-3 (PHSADC – 2019-22)

9.11.4.3 Loss due to provision of production and repair services below actual cost - Rs 56.959 million

According to rule 23 of GFR states that every Government officer should realize fully that he will be held responsible for any loss sustained by the Government through fraud or negligence on his part. Rule 26 of GFR provides that it is the duty of the departmental controlling officer to see all sums due to the Government are regularly and properly realized, assessed and duly credited to the Government account. Further PIDC and PHSDAC in its joint meeting held on February 11, 2020 advice PHSDAC to ensure proper costing of its production and also ensure that the pricing set are the correct level to transition quickly towards profitability.

During the audit of PHSADC Peshawar for 2019-22, it was found that PIDC approved a Business Plan of Rs 148.32 million in 2017 to make PHSDAC self-reliant. However, management failed to implement proper costing procedures as advised by PIDC, leading to inaccurate pricing and significant losses. They neglected to prepare essential cost calculations for each job, resulting in selling products and repair services below actual cost, causing substantial financial losses over the past three years.

The loss occurred by the company on sale of services below actual cost shows weak financial control of the management w.r.t proper costing of each product.

Audit is of the view that the management did not prepare material & labour obstructs, cost cards, prime cost, marginal cost and full cost of each job which leads to non-existence of proper costing system in company resultantly the company sustained loss of Rs 19.368 million w.r.t CFTC cost only and Rs 56.959 million w.r.t PHSDAC & CFTC both cost.

The matter was reported to the management vide letter dated September 18, 2023. The management in its reply dated October 3, 2023 did not inform regarding adoption of proper costing system of each product to evaluate cost of each job. Further 3-5% extra charges on obtaining of each job by the management did not cover the direct cost of CFTC, resultantly PHSDAC sustained loss during last three years.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to investigate the reasons of sold of services below actual cost, fix responsibility on the person (s) at fault and immediately appoint regular Chief Financial Officer (CFO) or engage Chartered Firm (CA) for proper costing of each job.

Para-5 (PHSADC – 2019-22)

9.11.4.4 Loss due to non-deduction of GST of Rs 3.920 million upon un-authorized cash receipt of sales proceeds - Rs 26.134 million

According to serial No. 23 of Government of Khyber Pakhtunkhwa Revenue Authority (Working Tariff as of March-2016) taxable Services as per second Schedule to the Khyber Pakhtunkhwa Finance Act, 2013, “Services provided by workshops for industrial construction and earth- moving or other special purpose machinery levied 15% sale tax”. Furthermore, Section 25 of the Sales Tax Act, 1990, requires businesses to keep proper records of their sales and to issue sales tax invoices for all sales transactions. Sales tax invoices must be issued for any sale of goods or services, regardless of the mode of payment. Therefore, if a company receives cash for a sale it must issue a sales tax invoice and deposit the sales tax with the Federal Board of Revenue.

During audit of PHSADC Peshawar for the year 2019-22, it was observed that the management provided different types of services to arms companies i.e. manufacturing & repairing of dies, moulds and punch plates etc. used for manufacturing of hunting arms amounting to Rs 26.134 from 2016-17 to 2021-22 without charging sale tax amounting to Rs 3.920 million (Rs 26.134 million x 15% sale tax). The company also did not issue sales tax invoices as per section 25 of Sales Tax Act, 1990.

Audit is of the view that receiving of sale proceeds in cash increased the risk of mis-appropriation. Further, due to non-deduction of sale tax on provision of services to arms companies, Government exchequer sustained a loss of Rs 3.920 million.

The matter was reported to the management vide letter dated September 18, 2023. The management in its reply dated October 3, 2023 stated that the services provided to cottage industry of small arms was exempt from sale tax. Further CFTC stakeholders obtained services on semi-finished products by paying 3-5% extra service charges, thus sale tax was not applicable. Reply was not tenable because the management failed to produce any exemption certificate from FBR on provision of tax free services. Further PHSDAC was liable to deduct sale taxes on provision of services provided by it.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter of receipt of sale proceeds in cash and non-payment of sales tax into Government treasury beside fixing responsibility.

Para-7 (PHSADC – 2019-22)

9.11.4.5 Failure of PC-1 of CFTC Peshawar resulted into non-achievement of revenue targets - Rs 24.658 million

Pakistan Industrial Development Corporation (PIDC a parent Company) in its meeting held on February 12, 2016 approved revised PC-1 for “Establishment of Common Facility Training Centre at Peshawar” valuing Rs 66.32 million. As per PC-1, revenue targets of Rs 49.762 million w.r.t Barrel making, Powder coating, CNC machining and training fee was set out w.e.f. 2016-17 to 2025-26.

During audit of PHSADC Peshawar for the year 2019-22, it was observed that PC-1 valuing Rs 66.32 million (plant & machinery Rs 42.32 million and operational expenditure Rs 24.00 million) for establishment of CFTC was approved in PIDC Board meeting held on February 12, 2016. As per PC-1, revenue targets of Rs 49.762 million w.r.t Barrel making, Powder coating, CNC machining and training fee were set out for ten years w.e.f. 2016-17 to 2025-26. Record revealed that out of total Rs 66.32 million, the management procured machinery & tool valuing Rs 38.43 million and remaining amount was utilized for operational & administrative expenses. From the record of Job orders executed during the year 2016-17 to 2021-22, it was noticed that the company could only generate revenue of Rs 1.843 million against the targets of Rs 26.499 million which was only 6.95%, this showed that PC-1 of CFTC had been completely failed.

Non-achievement of targets show weak business promotion policy and in-efficiency of the management.

Audit is of the view that the management of PHSDAC could not achieve revenue targets of Rs 24.658 million (Rs 26.501 million – Rs 1.843 million) after lapse of six years which led to failure of PC-1.

The matter was reported to the management vide letter dated September 18, 2023. The management in its reply dated October 3, 2023 stated that due to non-release of remaining operational budget of Rs 13.33

million, the Company could not hire required technical staff for running of machinery even though Company generated revenue of Rs 12.57 million in the year ended 30.6.2021.

Reply was not tenable because the management had hired all staff except the Deputy Manager (Technical) against which Mr. Arshad Mehmood was appointed as Supervisor on May 30, 2017 by creating a new post (not available in PC-1). Further, the management generated revenue of Rs 12.57 million from the business activities other than mentioned in PC-1. Only Rs 1.843 million could be generated in six years against the business activities mentioned in PC-I.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigation of non-achievement of revenue targets or defective preparation of PC-1 of CFTC besides fixing of responsibility thereof.

Para-1 (PHSADC – 2019-22)

9.11.4.6 Procurement of raw material and services valuing - Rs 9.658 million from non-tax registered suppliers resulting into non-payment of sales tax to government exchequer - Rs 1.072 million

According to Chapter II (3) Scope of tax of the Sales Tax Act 1990 “Subject to the provisions of this Act, there shall be charged, levied and paid a tax known as sales tax at the rate of 17% of the value of taxable supplies made by a registered person in the course or furtherance of any taxable activity carried on by him”. Furthermore, according to chapter III (9) scope of tax an allied matters of Khyber Pakhtunkhwa Sales tax on Services Act, 2022 “subject to the provision of this act, there shall be charged, levied, collected and paid a tax on the value of a taxable service at the rate specified in the second schedule.”

During audit of PHSADC Peshawar for the year 2019-22, it was observed from payment vouchers that the management procurement material and services of trade payables, consumables, repair & maintenance, technical services, legal/professional services, advertisement expenses, promotional material and website charges valuing Rs 9.658 million from non-sales tax registered suppliers. The supplier’s vouchers were hand written and not on proper sale tax invoices. Record further revealed that the management did not pay sales tax on procurement of these services and material.

The irregularities were occurred due to weak financial controls of the Company w.r.t compliance of sale tax act.

Audit is of the view that procurement of material and services valuing Rs 9.658 million from non-sales tax registered firms held un-justified and non-payment of sale tax, the Government exchequer sustained a loss of Rs 1.072 million.

The matter was reported to the management vide latter dated September 18, 2023. The management in its reply dated October 3, 2023 stated that PHSDAC is a non-profit earning organization and being a withholding agent, deducted taxes from all the suppliers / traders and subsequently deposited into Govt. treasury.

Reply was not tenable as the management neither procured objected material and services from sales tax registered firms nor deducted sale taxes.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to investigate the reasons of procurement of material and services from non-sale tax registered suppliers at Ministry level beside fixing responsibilities on the person (s) held responsible and corrective measures be taken under intimation to Audit.

Para-6 (PHSADC – 2019-22)

9.11.4.7 Loss due to free of cost provision of trainings - Rs 7.887 million

Pakistan Hunting and Sporting Arms Development Company is a Company limited by guarantee having share capital duly incorporated under Section 42 of the Company Ordinance, 1984 on September 29, 2006. The Company was formed with the primary objective to uplift, develop and build hunting and sporting sector of Pakistan for exports and commercial activities with a view to generate foreign exchange and to develop quality and capacity to eventually compete in the international market. To achieve the primary objects of the company, PHSADC established Common Facility Training Centre (CFTC) at Peshawar in 2016. As per PC-1 of CFTC, the CFTC will provide developing services and trainings in the field of hunting & sporting arms at cost/fee.

During audit of PHSADC Peshawar for the year 2019-22, it was observed that PC-1 for establishment of Common Facility Training Centre (CFTC) was approved in PIDC (parent department) Board meeting held on February 12, 2016. One of the source of revenue of CFTC was provision of different types of trainings in the field of hunting & sporting arms at cost/fee. Record revealed that the management provided technical trainings on CNC & Conventional Machines in CFTC free of cost.

Audit is of the view that CFTC was established to provide different types of trainings in the field of hunting & sporting arms at cost/fee but the management provided trainings free of cost due to which the Company sustained loss of Rs 7.887 million.

The matter was reported to the management vide letter dated September 18, 2023. The management in its reply dated October 3, 2023 stated that trainings were provided to the students of technical institutes and engineering universities. Reply was not tenable because CFTC was established to provide different types of trainings in the field of hunting & sporting arms at cost/fee.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to investigate the reasons of free of cost provision of trainings in CFTC and fix responsibility on the person(s) at fault.

Para-12 (PHSADC – 2019-22)

9.11.4.8 Irregular appointment of legal advisor - Rs 2.486 million

According to Rule-14(1)(g) of rules of Business 1973, the Law, Justice and Human Rights Division shall be consulted before the appointment of a legal Advisor in any division, or any Office or Corporation under the control of Federal Govt. Further according to circular dated November 11, 2003 issued by Law, Justice & Human Rights Division prior approval of Division is required for the appointment of Legal Advisor, and violation will be constituted as an act of misconduct. According to rule 20 of PP RA Rules, 2004, "Save as otherwise provided hereinafter, the procuring agencies shall use open competitive bidding

as the principal method of procurement for the procurement of goods, services and works”. Procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of PHSADC Peshawar for the year 2019-22, it was observed that the management of the Company hired the services of Mr. Bilal Durrani advocate without any concurrence from the Ministry of Law, Justice and human Rights in respect of the appointments / engagements of advocates / counsels on its panel. It was also noticed that no competitive method such as advertisement, selection criteria, past experience and knowledge of company on specific issues etc. was considered before hiring the legal advisor. The selection was made on the basis of hand collected CV, thus held irregular. Record further revealed that the Company hired the services of legal advisor on monthly retainer ship fee but the Company had no any court case since last nine years, thus the payment of Rs 2.486 million made to legal advisor on account of retainer ship fee was held un-justified.

The irregularity was occurred due to weak internal and financial controls of the company.

Audit is of the view that undue favor was extended to the advocate as no selection process was adopted, no consultation was made with Ministry of Law, Justice and Human Rights and retainer ship fee was paid on monthly basis against nil court cases, hence the payment of Rs2.486 was held irregular and un-justified.

The matter was reported to the management vide latter dated September 18, 2023. The management in its reply dated October 3, 2023 stated that legal advisor was appointed as per company act.

Reply of the management was not tenable because PHSDAC has not any legal case since last nine years. Further legal advisor could not be changed even after lapse of nine years. Moreover, legal advisor was not appointed by adopting PPRA.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to explain reasons for engagement of the advocate without any competition and concurrence of the Ministry of Law, Justice and human Rights and fix responsibility thereof.

Para-14 (PHSADC – 2019-22)

9.11.4.9 Un-authorized payment to the employees of PHSDAC from trainings budget of NAVTTC - Rs 2.457 million

According to PC-1 for “Establishment of Common Facility Training Centre (CFTC) at Peshawar” approved by Pakistan Industrial Development Corporation (PIDC, a parent company) on 12.02.2016 fixed fee for each category of trainings.

During the audit of PHSDAC Peshawar for 2019-22, it was discovered that the management organized three six-month trainings with NAVTTC but did not receive training fees. NAVTTC paid training charges of Rs 4,598,795 to PHSDAC, which was used to cover overheads and employee remuneration. Since PHSDAC employees involved in the trainings were already on the company's payroll, receiving additional remuneration from NAVTTC was deemed unjustified.

The irregularity occurred due to weak administrative and financial controls of the company.

Audit is of the view that the objected employees were on the strength and payroll of PHSADC and obtain salary from PHSADC and appointed for core activities i.e. training and provision of services in the field of hunting and sporting arms. Thus, they should not be paid from NAVTTC budget and the amount paid of Rs 2.457 was held irregular and unjustified. Audit holds that the received amounts should be adjusted against training fee of the PHSADC.

Matter was reported to the management vide latter dated September 18, 2023. The management in its reply dated October 3, 2023 stated that trainings were provided to the students of NAVTTC at fee charges which were adjusted against the remuneration of CFTC employees with the consultation of NAVTTC.

Reply of the management was not tenable as the trainings were provided by the employees of CFTC which were appointed for the training purposes and they provided trainings during official timings of PHSADC by using the company machineries and equipment, thus were not entitled for extra remuneration.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to explain the reasons for payment of remuneration to PHSADC employees from NAVTTC budget and recover the amount from involved employees under intimation to Audit.

Para-13 (PHSADC – 2019-22)

9.11.4.10 Non-appointment of regular CIA, CFO, Company Secretary and CEO

According to SECP Corporate Governance Rules 2013, the Company Board was required to appoint a regular Chief Internal Auditor, Chief Finance Officer, Company Secretary and Chief Operating Officer for the smooth functioning of a company.

During audit of PHSADC Peshawar for the year 2019-22, it was observed that the board of Directors did not appoint a regular Chief Internal Auditor (CIA), Chief Financial Officer (CFO), Company Secretary and Chief Executive Officer (CEO) since January 2, 2014 for the company. The Company is running on acting charge of these positions since long. On the other hand, company was in loss/ deficit each year accumulated upto Rs 239.879 million.

Audit is of the view that due to non-appointing of full time CIA, CFO, Company Secretary and CEO in violation of Corporate Governance Rules, the activities of the Company were badly affected resulting weak performance and accumulated loss/deficit amounting to Rs 239.879 million.

The matter was reported to the management vide latter dated September 18, 2023. The management in its reply dated October 3, 2023 stated that due to weak financial position of the Company, these statutory positions could not be filled.

Reply of the management was not tenable because extra burden of these positions was required to be borne by parent company PIDC like other employees of PHSADC.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to investigate reasons for non-appointing of regular CIA, CFO, Company Secretary and CEO of the Company, fix responsibility on the person (s) at fault and immediate corrective measures be taken in accordance with SECP rules.

Para-9 (PHSADC – 2019-22)

9.12 Pakistan Stone Development Company

9.12.1 Introduction

Pakistan Stone Development Company (PASDEC) is a public company limited by guarantee incorporated under Companies Ordinance 1984 (now Companies Act 2017). The Company is a subsidiary of Pakistan Industrial Development Corporation (Pvt.) Limited (PIDC). The registered office of the Company is situated at Islamabad Chamber of Commerce building, 2nd floor, G-8/1 Mauve Area, Islamabad.

The objective of the Company is to upgrade the supply of marble and granite in Pakistan through improved quarrying practices and support infrastructure. This involves introduction of new technologies and techniques and establishment of model quarries, upgradation of existing quarries, establishment of industrial cities and establishment of Rock Mining Training Institutes to impart quarrying skills in Pakistan.

9.12.2 Comments on Audited Accounts

9.12.2.1 The working results of the Company for the year 2021-22 as compared to previous years are given below:

(Rs in million)

	2022-23	% Inc / (Dec)	2021-22	% Inc / (Dec)	2020-21
Description					
Revenue	96.323	12	85.888	15	74.834
Cost of Sales	(65.783)	(11)	(74.036)	11	(66.956)
Gross Income/(Loss)	30.540	157	11.885	51	7.878
Administrative expense	(85.911)	7	(80.064)	8	(74.466)
Provision for doubtful debts	0	(100)	(0.687)	92	(8.270)
Impairment on receivable from projects	16.835	175	6.124	113	(46.819)
Reversal on impairment on receivable from MCR	0	(100)	19.385	0	-
Financial charges on lease	(1.327)	(4)	(1.388)	0	(0.187)
Other income	11.595	(29)	16.245	0	16.210
Net profit/(Loss)	(36.270)	34	(27.146)	74	(105.654)

(Source Annual Audited Accounts)

9.12.2.2 The core functions of the company are establishment and support of model quarries, upgradation of existing quarries and establishment of industrial cities. However, the company failed to generate revenue from their core functions which needs justifications.

9.12.2.3 Administrative expenses of Rs 85.911 million are 89% of the gross revenue of the company. The management failed to effectively manage human resource of the company. The huge administrative cost led to continuous losses of the company. This needs justification.

9.12.2.4 Trade debts include doubtful debts of Rs 66.00 million. The doubtful debts are 79% of the total trade debts. The management failed to recover their trade debts in time which resulted in loss to the company. It needs justification.

9.12.2.5 Capital work in progress of Rs 26.759 million is appearing in the accounts since last three years. Detailed break up and reasons for non-completion of civil work may be provided to audit.

9.12.2.6 The management entered into Memorandum with Italian Stone and Technology for technology transfer. Under the arrangement the Italian partner will contribute Euro 400,000 for machinery technology and trainings. Complete detail of the same may be provided to audit.

9.12.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	% of compliance
2013-14	06	0	06	8.16.1, 8.16.2.1, 8.16.2.2, 8.16.2.3, 8.16.2.4, 8.16.2.5, 8.16.4.1	0
2015-16	03	0	03	8.17.1, 8.17.2, 8.17.4.1	0
Total	09	0	09		0

Compliance of the PAC directives was very poor which requires immediate attention of the PAO.

9.13 State Engineering Corporation (Pvt.) Ltd

9.13.1 Introduction

State Engineering Corporation (Pvt.) Ltd. (SEC) was incorporated in 1973 under the Companies Ordinance 1913 (now Companies Act 2017) with a paid up capital of Rs 836 million fully subscribed by the Federal Govt. The Corporation is working under the administrative control of Ministry of Industries and Production. As at June 30, 2019, the company has fully paid up Capital of Rs 889.96 million. Moreover, the company also has Govt. Equity Fund of Rs 2,249.76 million (Rs 2,249.76 million on June 30, 2018) representing the funds available for issue of shares to GoP.

The registered office of the company is situated at Third Floor, Software Technology Park, (STP-I), 5-A Constitution Avenue, F-5/1, Islamabad. The Corporation manages and controls important segments of Engineering Industry of Pakistan. The industrial units are dealing in designing, engineering, manufacturing and supply of light, medium and heavy engineering plants and machinery.

The core objectives of the Corporation are as follows:

- To promote Industrial Self-reliance and build a sound technical/Industrial base in the country.
- To upgrade facilities for maximum possible indigenization and maintenance of technological edge over other domestic competition.
- To induct local and foreign Private Sector Partners, whenever possible, to promote joint ventures with them for achieving higher operational efficiencies.

9.13.2 Comments on Audited Accounts

9.13.2.1 The working results of the Corporation for the year 2022-23 as compared to previous years are given below:

(Rs in million)

Description	2022-23	% Inc / (Dec)	2021-22	% Inc / (Dec)	2020-21	% Inc / (Dec)	2019-20
Income							
Service charges	30.000	0	30.000	(14.286)	35.000	(36.360)	55.000
Interest income	7.748	27	6.118	90.711	3.208	(29.650)	4.560
Total income	37.748	5	36.118	(5.470)	38.208	(35.850)	59.560
Expenditure							
Operating expenses	(49.555)	39	(35.593)	(8.033)	(38.702)	(21.370)	49.220
Operating Profit/(loss)	(11.807)	2349	0.525		(0.494)		10.340
Profit/(loss) before Taxation	(17.974)	3447	0.537		(0.501)		10.490
Taxation	(2.400)	0	(2.400)	(14.286)	(2.800)	(36.360)	4.400
Profit / (loss) after Taxation	(32.144)	1625	(1.863)	(43.563)	(3.301)	(154.090)	6.090
Accumulated profit/ (loss)	(1,260.100)	3	(1,227.953)		(1,226.090)		(1,222.790)

(Source: Annual Audited Accounts)

9.13.2.2 The management failed to increase the income of the Corporation during last four years. Accumulated loss of the Corporation has grossed up to Rs 1,260.100 million over the years, continuous trend in losses raised doubts about the corporation's ability to run as a "Going Concern". The management needs to justify their huge operating expenses against the nominal revenue of the corporation.

9.13.2.3 Pay & allowances and other benefits increased by 53% from Rs 27.641 million in the year 2021-22 to Rs 42.300 million in the year 2022-23. The management needs to justify the irrational increase in pay & allowances and other benefits during the year.

9.13.2.4 The Chartered Accountant has qualified the accounts of the Corporation on the basis of non-reversal of the revaluation surplus Rs 3.492 million recorded in accounts during 2020 on the

1650 kanal land in the possession of Pakistan Atomic Energy Commission and Heavy Mechanical Complex. The management need to provide updated status of the qualification.

9.13.2.5 The Chartered Accountant has also qualified due from Associated undertaking Rs 5.885 million receivable from Heavy Electrical Complex Limited being un reconciled against payable balances shown in the financial statement of HEC. The current status of the same may also be provided to audit.

9.13.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	% of compliance
1996-97	05	04	01	163	80
1998-99	04	03	01	257	75
1999-00	06	0	06	319, 320, 321, 322, 323, 324	-

2015-16	09	0	09	8.18.1, 8.18.2.1, 8.18.2.2, 8.18.2.3, 8.18.2.4, 8.18.2.5, 8.18.2.6, 8.18.2.7, 8.18.3	0
Total	59	24	35		41

The compliance of the PAC directives was not satisfactory which need attention of the PAO.

9.14 Technology Upgradation and Skill Development Company (TUSDEC)

9.14.1 Introduction

Technology Up-gradation and Skill Development Company (TUSDEC) is a Company incorporated in January 2005 and licensed under Section 42 of Companies Act 2017. The principal activity of TUSDEC is to upgrade technology & skills of the key and strategic Industrial Clusters and connect Pakistan to the global value chain. TUSDEC is a subsidiary of Pakistan Industrial Development Corporation (Pvt.) Limited (PIDC). The principal office of TUSDEC is located at State Cement Corporation Building, Kot Lakhpat, Lahore.

9.14.2 Comments on Audited Accounts

9.14.2.1 The working results of the company for the year 2022-23 as compared to previous years are as under:

(Rs in million)

Particulars	2022-23	% Inc / (Dec)	2021-22	% Inc / (Dec)	2020-21
Income from services	135.23	(20.57)	170.24	113.68	79.67
Amortization of grant related to income	49.76	(44.45)	89.57	158.57	34.64
Total Income	184.99	(28.80)	259.81	127.29	114.31
Operating Cost	149.15	(1.06)	150.75	84.09	81.89
Project Expenses	13.35	(77.13)	58.38	79.63	32.50
Administrative and general expenses	117.58	1.15	116.24	24.23	93.57
Total Expenditure	280.08	(13.92)	325.37	55.58	209.14
Other Income	18.69	155.33	7.32	2.81	7.12
Profit/ (Deficit) before taxation	(76.41)	44.22	(52.98)	(39.60)	(87.72)
Taxation	-	-	-	-	-
Deficit for the year	(76.41)	44.22	(52.98)	(39.60)	(87.72)

(Source: Annual Audited Accounts)

9.14.2.2 The accumulated loss of the company increased from Rs 647.87 million in the year 2021-22 to Rs 655.36million in the year 2022-23. The increase in accumulated losses clearly shows weak financial management of the projects. Reasons for losses should be taken up at Ministry level and immediate remedial actions must be taken to make the loss good.

9.14.2.3 Income from services decreased from Rs 170.24 million in the year 2021-22 to Rs 135.23 million registering a decrease of 20.57%. Due to this deficit for the year increased from Rs 52.98 million to Rs 76.41 million registering an increase of 44.22%. Decrease in income from services and increase in deficit for the year indicates alarming situation for the top level management. Sincere efforts may be made for making the loss good.

9.14.2.4 An amount of Rs 504.87 million on account of merger reserves was shown as un-utilized since long. Complete detail of these reserves along with justification for non-fluctuation/ changes in these reserves may be provided.

9.14.2.5 An amount of Rs 4.38 million on account of trade receivables was considered as doubtful in the year 2022-23. This balance includes an amount of Rs 4.19 million in respect of expenses incurred by the company on behalf of Pakistan Industrial Development Corporation (PIDC) which holds 99.99% shares of the company. Strenuous efforts are required by the management for early recovery of the receivables instead of considering these as doubtful.

9.14.2.6 Stores and spares increased from Rs 10.39 million in the year 2021-22 to Rs 11.35 million in the year 2022-23 registering an increase of 9.24%. An amount of Rs 1.15 million was deducted on account of provision for slow moving items. This shows weak management and utilization of assets as new assets are being purchased despite having sufficient items in the stores. Constant increase in stores and spares without utilization of already purchased items and booking of provisions on account of slow moving items needs justification.

9.14.2.7 Short term investments invested in Faysal Bank Limited decreased from Rs 15.00 million in the year 2021-22 to Rs 10.00 million registering a decrease of 33.33%. The decrease in investment resulted into less earning of interest income. Complete detail of investments including approval of the investment from relevant forum for investing funds in Faysal Bank may be provided for ascertaining that decrease in the amount and return on investment was justified.

9.14.2.8 An amount of Rs 22.16 million was shown as tax refund due from Government in the year 2022-23. Whereas the company was allowed a tax credit equal to hundred percent of tax payable in accordance with Section 100C of the Income Tax Ordinance, 2001. Management is stressed to make recovery of tax refunds.

9.14.2.9 Cash and bank balances decreased from Rs 36.83 million in the year 2021-22 to Rs 16.92 million in the year 2022-23 registering a decrease of 54.06%. The drastic decrease in cash reserves needs immediate attention of the top tier of the management as cash reserves of only 16.00 million were left and this can create serious liquidity problems for the company in future.

9.14.2.10 An amount of Rs 801.08 million, Rs 1.53 million, Rs 0.306 million and Rs 4.46 million were returned/ transferred against the projects of Engineering Support Centers (ECS), Footwear Cluster Development (FCD), National Strategic Program for Acquisition of Industrial Technology

(NSPAIT) and Industrial Designing and Automation Centers (IDAC) respectively during the year 2021-22. Likewise, an amount of Rs 15.97 million, Rs 3.86 million, Rs 17.97 million, Rs 27.29 million, Rs 6.35 million and Rs 1.39 million against projects of ECS, FCD, NSPAIT, IDAC, SCDS and NCC were also returned/ transferred. Non-utilization of huge funds indicates the weak internal controls and least interest of the top tier of the management and requires immediate action for utilization of deferred grants. Reasons for non-utilization and return of funds may be justified.

9.14.2.11 Trade and other payables increased from Rs 38.06 million in the year 2021-22 to Rs 49.76 million in the year 2022-23 registering an increase of 30.74%. Major amounts include payables to creditors, accrued liabilities and contract liabilities. This shows that management could not pay off its liabilities during the year. Latest position of payments and outstanding liabilities may be provided.

9.14.2.12 An amount of Rs 9.11 million was shown as project liabilities in the year 2022-23. These were to be paid against projects of IDAC, NSPAIT, SCDS, GIZ, FCD and NAVTTC but liabilities were not paid off during the year. Latest position of the payments made and which are still outstanding may be provided.

9.14.2.13 Amortization of grant related to income decreased from Rs 58.38 million in the year 2021-22 to Rs 13.35 million in the year 2022-23 registering a decrease of 77.13%. The abnormal decrease in utilization of grant related to income depicted serious concerns regarding performance of the company. Management is stressed to make serious efforts to utilize the funds and to avoid such stances.

9.14.2.14 Income from services decreased from Rs 170.24 million in the year 2021-22 to Rs 135.23 million registering a decrease of 20.57% whereas operating cost decreased from Rs 150.75 million in the year 2021-22 to Rs 149.15 million in the year 2022-23 registering a decrease of 1.06% only. Disproportionate/negligible decrease in operating expenses in comparison with income from services needs immediate attention of the top level management.

9.14.2.15 Consumables expenses under the head administrative expenses increased from Rs 2.19 million in the year 2021-22 to Rs 4.41 million in the year 2022-23 registering an increase of 101.37%. Abnormal increase in these expenses needs to be clarified along with complete detail of these expenses.

9.14.2.16 Project expenses under the head administrative expenses increased from Rs 0.953 million in the year 2021-22 to Rs 3.17 million registering an increase of 232.63%. Huge increase in these expenses needs justification along with full facts and figures of the expenses.

9.14.2.17 Excess liabilities written back under the head other income increased from Rs 0.341 million in the year 2021-22 to Rs 16.13 million in the year 2022-23 registering an increase of 4,630.21%. The abnormal increase in excess liabilities written back needs to be explained along with full facts and figures of these liabilities.

9.14.2.18 Capital expenditure under the head Building/ civil work valuing Rs 42.22 million and Rs 18.46 million was incurred during the year 2021-22 against the projects IDAC and NASPAT respectively. Bill of Quantities, engineer estimates for scheduled items, interim payment certificates, final certificates along with documents indicating inclusion of these expenses in PC-I/ Project documents may be provided to the audit.

9.14.2.19 Capital expenditure under the head IT Infrastructure valuing Rs 5.00 million and Rs 2.92 million against the projects IDAC and NASPAT respectively was incurred during the year 2021-22. Detail regarding provision of these expenses in respective PC-I/ Project documents of the projects along with plan of utilization and actual utilization during the year may be shared with the audit.

9.14.2.20 Capital expenditure under the head Land was incurred during the year 2021-22 valuing Rs 127.89 million and Rs 137.03 million against the projects IDAC and Surgical respectively. Detail regarding provision of these expenses in respective PC-I/ Project documents along with detail of parties from whom these lands were procured, reasons for procurement of land and its utilization during the year may be shared with the audit.

9.14.2.21 Operational expenditure under the head Advertisement amounting to Rs 1.345 million was incurred during the year 2021-22 against the projects Footwear, IDAC, NASPAT and Surgical. Reasons for incurrence of these expenses along with provision in relevant project documents may be shared with the audit.

9.14.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	% of compliance
2010-11	01	01	0	-	100
2013-14	02	00	02	8.10.2.3, 8.10.2.4,	0

Total	5	3	02		60
--------------	----------	----------	-----------	--	-----------

The compliance of the PAC directives was very poor which needs immediate attention of the PAO.

9.15 Utility Stores Corporation of Pakistan (Pvt.) Limited

9.15.1 Introduction

Utility Stores Corporation of Pakistan (Pvt.) Limited (the Company) was incorporated on September 03, 1971 as Private Limited Company under Presidential order issued vide President Secretariat U.O dated March 26, 1971. The Corporation is registered under Companies Ordinance 1984 (now Companies Act, 2017) with its registered office at Islamabad.

The Company has paid up capital of Rs 737.73 million fully owned by the Government of Pakistan. The Company is working under administrative control of Ministry of Industries and Production. The key objectives of the Company are to:

- i. Undertake the procurement of essential consumer goods from domestic and external sources.
- ii. Ensure the availability of quality goods in adequate and regular quantities and market them at prices lower than market price, through a chain of store operations.

9.15.2 Comments on Audited Accounts

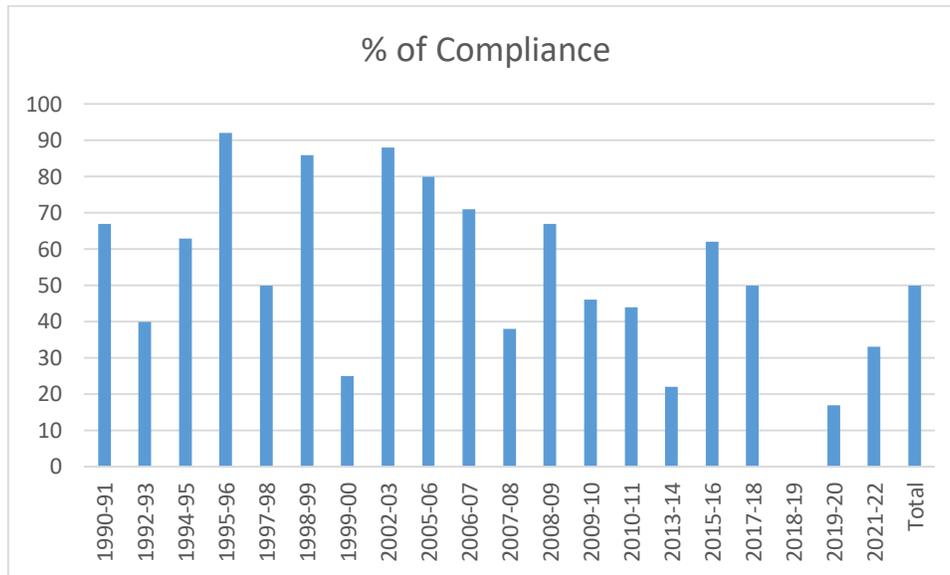

9.15.2.1 The annual audited accounts are required to be provided to Audit for review each year. Contrary to this, the management failed to provide audited annual accounts for the year 2020-21 to 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts for the years 2020-21 to 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*Annex-2*).

Overall compliance of PAC directives was not satisfactory which needs to be improved.

9.15.4 Audit Paras

9.15.4.1 Excess payment to PASSCO on account of Cost of wheat and transportation charges - Rs 485.925 million

According to Para-2 of letter dated November 08, 2019 regarding fixation of wheat incidentals of PASSCO, PASSCO sells wheat on the instructions of Federal Government and billed the cost of wheat. Cost of wheat has two parts i.e. Support price of wheat and Incidentals (actual expenses incurred on purchase and storage of wheat).

During audit of USC Zonal office, Lahore for the year 2021-22, it was observed that USC procured 150,000 M. Ton imported wheat from PASSCO and made payment as invoiced by them. PASSCO charged Rs 485.925 million higher rates of cost of wheat and transportation to USC as compared to the actual payments made to the said companies. PASSCO charged Rs 261.225 million on account of cost of wheat and Rs 224.700 million on account of transportation charges in excess of the actual payments made to the TCP and NLC respectively. Thus, USC paid excess amount of Rs 485.925 million to the PASSCO.

Description	Quantity M. Ton as per MOUs	Rate as per MOU including all costs (cost of wheat, incidental and transportation)	Cost of wheat charged to USC per M. Ton (Rs)	Cost of wheat to be charged as per invoice of TCP/ M.Ton (Rs)	Difference per M. Ton (Rs)	Excess charging
0	1	2	3	4	5 (3-4)	6 (5*1)
Cost of wheat	40,000	65,154.059	51,340.729	49,221.760	2,118.970	84,758,760
	80,000	69,039.23	55,323.000	53,833.237	1,489.760	119,181,040

	30,000	82,069.23	68,353.000	66,443.486	1,909.510	57,285,420
			175,019.729	169,502.483	5,518.24	
	Sub Total					261,225,220
Average Transportation Charges from Karachi Port to PASSCO Zones	150,000		6,893.000	5,454.000	1498	224,700,000
	Grand Total					485,925,220

(Source: MOUs, TCP Commercial Invoice and agreement provision of transportation services for shifting of Imported wheat)

Audit is of the view that management of USC had to ensure the cost of wheat and transportation cost charged by the PASSCO on actual basis.

DAC meeting was held on 01.02.2024. The management apprised the DAC that cost of Wheat was charged tentatively as per clause “C” of MOU executed between PASSCO authorities & USC. The excess payment of Rs 485.925 million would be refunded in due course and required processing time. DAC pended the para till refund of amount from PASSCO.

Audit recommends investigating the matter and fixing responsibility for making huge payment in excess of actual payment besides effecting recovery.

Para-42 (USC- 2021-23)

9.15.4.2 Mis-utilization of subsidy by the franchises - Rs 228.113 million

According to letter No. General/ZM/USC/01-A dated April 14, 2022 of Manager Franchise to all zonal managers that subsidized items sold by the franchisees will be supported by CNICs of the consumers for subsidy claim at their respective regional account offices.

During the audit of USC Zonal office Lahore for the year 2021-22, it was noted that the management sold subsidized goods to the franchises, which were supposed to be distributed to poor individuals after verifying their CNICs. However, the audit revealed a lack of compliance, as the franchises allegedly sold goods worth Rs 228.113 million without adhering to the necessary criteria. Detail is as under:

Due to weak operational management, a huge quantity of subsidized goods was sold at the sweet will of franchise’ owners.

In the absence of relevant record, an amount of subsidy valuing Rs 228.113 million was considered mis-utilized and shown undue favor extended to the franchisees.

DAC meeting was held on 01.02.2024. The management apprised the DAC that USC issued subsidized stock at normal rates, and franchisees had to sell stock at subsidized rates through USC's mobile app. The subsidy claims were to be made by franchisees based on mobile app data and by providing a copy of CNIC for each customer. However, no subsidy claims were made by any franchisee in Lahore Zone during the financial year 2021-2022. Audit contended that subsidized items were sold on normal rates and

the benefit of subsidy; given by the government, could not be reached to the general public. DAC directed for verification of record.

Audit recommends implementation of the directives of DAC.

Para-37 (USC- 2021-23)

9.15.4.3 Loss due to non-lodging insurance claims – Rs 213.444 million

According to Chapter-11 of the USC Stores Operations Manual deals with Insurance Policy. According to policy, it is necessary that all the warehouses and stores are adequately insured against the risk of fire, theft and burglary to safeguard the interest of the Corporation and avoid any financial loss. In case of any incident, the Regional Manager shall immediately lodge the FIR with the concerned Police Station and intimate to the concerned Regional Office of National Insurance Corporation (NIC) with the request to depute their surveyor. The claim to NIC was to be lodged by HO on the basis of provision of the documents by the Regional Manager within 15 days from the date of occurrence of the incident.

The audit of the USC, HO, Islamabad for the year 2021-22 revealed disparities in insurance coverage, ranging from Rs 0.5 million to Rs 20 million for different facilities. Despite a premium payment of Rs 49.42 million, 94 cases of burglary/theft from 2006 to 2022 worth Rs 213.952 million remained pending due to incomplete documentation or delayed reporting, with some FIRs not even filed within the required timeframe. Procedural lapses, including delayed reporting and FIR filing, were noted in several cases.

The position showed negligence on the part of the management i.e. delay in lodging the claim/FIR, non-completion of necessary documentation etc. due to which insurance firm was reluctant to entertain the claims.

Audit is of the view that after lapse of a considerable time, the chances are very much that the insurance company may not entertain the cases and Corporation may sustain loss of Rs 213.444 million.

DAC meeting was held on 01.02.2024. The management apprised the DAC that 34 cases of Rs 28.710 million were settled by NICTL against which an amount of Rs 22.435 million was recovered. The remaining cases were pending with NICTL and USC was actively pursuing NICTL for settlement of these pending claims.

DAC directed the management to conduct an internal inquiry on each case and share it with the Audit and Ministry. DAC further directed to pursue the cases in the court of law vigorously.

Audit recommends implementation of the directives of DAC.

Para-9 (USC- 2021-23)

9.15.4.4 Loss due to damage of goods – Rs 38.683 million

As per Clause-7.04, each case of damage must be thoroughly investigated by the Area Manager concerned and the responsibility of loss may be fixed by the Divisional Manager and submit action should be taken. The damage in the warehouse/store is the personal responsibility of the incharge.

During audit of the USC, HO, Islamabad for the year 2021-22 and 2022-23, it was observed that a large quantity of damaged goods valuing Rs 156.453 million were lying in various warehouses/stores. The Zone wise detail is as under:

S. No.	Name of Zone	Damaged/expired goods as on 30.06.2023 (Rs in million)
1	Abbottabad	9.630
2	Faisalabad	10.632
3	Islamabad	45.420
4	Karachi	3.297
5	Lahore	36.339
6	Multan	9.469
7	Peshawar	17.995
8	Quetta	14.487
9	Sukkur	9.184
	Total	156.453

The management made no efforts to replace the damaged goods from vendors.

Audit holds the view that the management was required to take timely action for the replacement of damaged stock but no action was taken which resulted into loss of Rs 156.453 million to the Corporation.

DAC meeting was held on 01.02.2024. The management apprised the DAC that vendors signed agreements for replacement of the damaged/expired stock. Damaged stock of Rs 117.77 million was returned to the suppliers leaving a balance of Rs 38.683 million. DAC settled the para upto the amount of Rs 117.7 million regarding replacement / liquidation of stock subject to verification of record by the Audit. Besides, remaining stock be replaced and verified from Audit.

Audit recommends implementation of the directives of DAC.

Para-8 (USC- 2021-23)

9.15.4.5 Irregular execution of agreements for grinding of wheat - Rs 147.450 million

According to USC head office letters dated December 29, 2020 and January 19, 2022, certain flour mills for grinding of PASSCO wheat had been prequalified for the calendar year 2021 and 2022. Zonal offices were directed to ensure transparency in the process of obtaining bids from prequalified flour mills prior to execute the final agreement for grinding of PASSCO wheat/ supply of Atta to respective zones in the best interest of the corporation.

During audit of USC Zonal office, Lahore for the year 2021-22, it was observed that management of Zonal and Regional Offices did not make compliance with the instructions of the head office and executed agreements with specific flour mills without obtaining bids of grinding charges on its own for Rs 147.450 million which was held irregular. Details of payment of grinding is given in Annex-75.

It was observed that management executed the agreements with favorite flour mills violating the instructions of the head office regarding transparency and granting undue benefit to the specific flour mills.

DAC meeting was held on 01.02.2024. DAC was apprised that regional management issued letters from time to time for depositing RTGS against PASSCO wheat allocated quota. Audit contended that security money of non-responsive flour mills was not forfeited. DAC directed for verification of record by the Audit.

Audit recommends implementation of the directives of DAC. Besides, security money of non-responsive flour mills be forfeited.

Para-56 (USC- 2021-23)

9.15.4.6 Loss due to less receipt of cost of jute bags - Rs 119.930 million

According to Rule-4 of PPRA Rules-2004, the procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of USC for the year 2021-22, it was observed that flour mills provided atta to USC as per the allocated wheat quota. According to their agreement, the mills were to adjust the cost of grinding and handling charges by keeping the empty jute bags @ Rs 100 per bag as well as 20 kg bag of atta. However, it was observed from PASSCO record that they were charging Rs 167 per empty jute bag from various mills.

Audit is of the view that USC is charging/adjusting Rs 67 per bag less amount on empty jute bag as compared to that of PASSCO resulting into loss of Rs 119.930 million (179,000 M.Ton x 10 bags per Ton x Rs 67 per bag) to the Corporation.

Due to weak operational control, management failed to get competitive rates of jute bags from the flour mills.

DAC meeting was held on 01.02.2024. The management apprised the DAC that as per MOU between PASSCO and USC, the PASSCO provided the wheat at the ratio of 40% jute bag and 60% PP bags to USC. According to retrieve formula in grinding cost of wheat, USC retrieved Rs 100 of used jute / PP Bags (100 kg), whereas the actual price of used Jute/PP Bags was Rs 96.8 with the ratio of 40% jute bag and 60% PP bags. Audit contended that PASSCO supplied wheat in PP bags only through MOU of 06.06.2022 (50,000 M.Ton). The remaining wheat was supplied in jute bags. DAC directed to internally investigate the matter and get the record verified from Audit.

Audit recommends implementation of the directives of DAC.

Para-38 (USC- 2021-23)

9.15.4.7 Mis-utilization of subsidy by the store incharges – Rs 112.193 million

According to Para-1 and 7 of USC head office order dated May 20, 2022 regarding mechanism on provision of subsidized items, the customers are allowed to buy subsidized items Atta, Sugar & Ghee after a through process involving online NADRA verification to avail subsidy in a reliable way. Further, the customers are entitled to avail authorized quantity of Atta (not more than 40kg), Ghee (not more than 5-kg) and Sugar (not more than 5-kg) on a monthly basis.

During audit of USC for the year 2021-22, it was observed that the management sold subsidized items like Atta, Ghee, Sugar and other items at rates exceeding the prescribed monthly entitlement per CNIC, with abnormal sales ranging from Rs 50,000 to Rs 1,787,246. This led to the mis-utilization of subsidy, as a substantial amount of subsidized stock worth Rs 112.193 million was sold against 582 CNICs, violating established procedures and SOPs.

Weak internal controls enabled store employees to violate the SOPs, raising question mark on the integrity of subsidized goods sales.

Audit is of the view that USC failed to prevent the repeated illegal sale of subsidized items by using same ID cards to gain financial benefits by the employees, resulting in a mis-utilization of subsidy funds of Rs 112.193 million.

DAC meeting was held on 01.02.2024. The management apprised the DAC that illegal financial benefit had been availed by the concerned stores Incharges of various Zones through black-marketing of subsidized stocks in open market instead of transparent provision of subsidy to the customers. All amount was recovered from concerned personnel. DAC directed the verification of record by Audit.

Audit recommends implementation of the directives of DAC. Besides, responsibility be fixed, disciplinary action initiated against the defaulters and necessary steps be taken to amend the software so as to avoid issuance of subsidized goods more than a specific limit against a CNIC.

Para-35 (USC- 2021-23)

9.15.4.8 Loss due to short receipt of sugar – Rs 81.022 million

According to clause-4 of contract agreement dated 19.07.2021 between USC and TCP, the cargo, in standard packing of 50 kgs bags, shall be discharged at the port and shifted directly to the transport provided by USC. The quantity shall be calculated on the basis of No. of bags. The report of tally contractor/stevedore for number of bags at discharge port point shall be final. However, KPT weighbridge will also be used to recheck the quantity. In case of any significant variation on lower/higher side, the number of bags of that particular vehicle shall be recounted. TCP shall not be responsible for any shortage/damage, once the cargo has been handed over to the USC.

During audit of USC for the year 2021-23, it was observed that USC purchased imported sugar from TCP vide Purchase Order No. 546377 dated 26.07.2021. The dispatch Report issued by Incharge Sugar showed dispatched quantity as 33,110.40 M.Ton. However, scrutiny of Goods Receipt Notes (GRNs) indicated that only 32,201.780 M. Ton of sugar was received in various regions, raising a discrepancy of

908.62 M. Ton in the received quantity. (Annex-76). This, resulted into loss of Rs 81.022 million (i.e. 908.62 M. Ton x Rs 89,170.289 per M. Ton = Rs 81,021,908).

DAC meeting was held on 01.02.2024. The management apprised the DAC that the regions reported the receipt of 32,766.52 M. Ton sugar. The difference of 147.268 M/Ton between reported quantity of 32,766.52 M/Ton and GRNs detail of 32,619.252 M/Ton was due to deduction of empty bag. DAC pended the para and directed the management to provide the record to Audit for verification.

Audit recommends implementation of the directives of DAC.

Para-30 (USC- 2021-23)

9.15.4.9 Revenue loss due to non-achievement of sales targets by stores in four quarters – Rs 2,309.378 million

According to Clause 3.07 of USC Store Operational Manual sales targets based on previous performance and on minimum sales turn over expected for each Division/Zone are fixed for each financial year. The sales targets for individual stores are also fixed by the Head Office. Furthermore, as per Clause 3.11 if a Divisional/Regional Manager/ Area Manager Incharge store fails continuously for a period of 3 months to achieve 75% of the Divisional/ Regional/ Area, store target respectively he will be asked to vacate his post.

During the audit of Utility Stores Corporation, Zonal Office, Lahore for the year 2021-22, it was observed that 54-stores of different regions failed to achieve sales target in all quarters due to which Corporation suffered revenue loss of Rs 2,309.378 million but no action had been taken against the responsible. Detail is as under:

Sr. No.	Name of Region	No. of stores	Sales target (Rs)	Actual sales (Rs)	Less sales (Rs)
1.	Lahore (South)	30	4,521,600,000	2,434,426,254	2,087,173,748
2.	Sialkot	17	765,350,000	595,316,058	170,033,942
3.	Okara	7	171,350,000	119,179,265	52,170,735
		54	5,458,300,000	3,148,921,577	2,309,378,425

(Source: Quarterly statements of profit and loss)

Audit is of the view that management of stores failed to achieve targets in all quarters which showed poor performance of Regional Offices management and caused revenue loss to the corporation.

DAC meeting was held on 01.02.2024. DAC was apprised by the management that set sales target was met, except for USC Sialkot Region due to stock unavailability and rural store locations. Overall the said Regions were in Profit. DAC directed to get the record verified from audit.

Audit recommends implementation of directives of the DAC.

9.15.4.10 Non-transparent distribution of free Atta under Prime Minister's Gift Atta for Islamabad (ICT) – Rs 909.751 million

According to Prime Minister's Office U.O No. 2(22)/OS(IA-IV) 23 dated 16.03.2023, the Prime Minister approved a scheme for the provision of free Atta (3x10 kg bags/household) during the month of Ramzan to the households residing in ICT and having poverty score upto PMT-60.

During the scrutiny of record of USC for the year 2021-22 & 2022-23, it was observed that the Prime Minister in a meeting held on 13.03.2023 approved a proposal for provision of free Atta to population upto poverty score of PMT-60 in ICT area under Ramzan Package. As per scheme, 3 bags of 10 Kg Atta were to be provided to each household residing in ICT and having poverty score upto PMT-60. Initially, free Atta bags were to be provided to the 185,984 families of Islamabad (ICT) registered with BISP under PMT-60. Accordingly, 557,952 bags of 10 kg Atta were required for distribution. Later on, MD, USC's letter dated 04.04.2023 revealed that in compliance with the PM's directions dated 25.03.2023, it was decided that if the beneficiary was not verified by BISP, then get it verified from NADRA and one bag of 10 Kg Atta will be provided initially to each family and the number of bags may be increased if required subsequently. The scheme was launched on 18.03.2023 till 16.04.2023.

As per record made available to Audit, 750,815 No. of bags costing Rs 909.751 million were distributed to 457,034 families. The detail of bags distributed is as under:

S. No.	No. of Families	No. of Bags issued to each family	Total Bags issued
1	285,725	1	285,725
2	51,230	2	102,460
3	117,910	3	353,730
4	2,028	4	8,112
5	96	5	480
6	35	6	210
7	2	7	14
8	1	8	8
9	3	9	27
10	2	10	20
11	1	12	12

12	1	17	17
Total	457,034		750,815

However, lists of families of Islamabad registered with BISP under PMT-60 and list of families verified by NADRA were not produced to Audit. In the absence of said lists, the authenticity of beneficiaries could not be verified.

DAC meeting was held on 01.02.2024. DAC was apprised that BISP and NADRA never share their data but only through an API call where USC Point of Sale System (POS) was sending CNIC of citizen through its POS for verification and in return BISP return verification status if the CNIC is found in the BISP database and fall under the required PMT score. DAC directed to verify records of 250 CNICs on test check basis from BISP.

Audit recommends implementation of directives of the DAC.

Para-25 (USC- 2021-23)

9.15.4.11 Irregular payment to the Security Services Company without agreement - Rs 58.459 million

According to Clause-4 of agreement dated July 21, 2020 with M/s Ghosia Guard & Management Services, the contract will be valid initially for one year from July 25, 2020 to July 24, 2021 starting from the effective date for this agreement and extendable at the discretion of the Managing Director USC for further two years on evaluation of the services rendered.

During the audit of Utility Stores Corporation, Zonal Office, Lahore for the year 2021-22, it was observed that a security services agreement for a period of one year was executed with M/s Ghosia Guard on July 21, 2020 which was extendable for further two years on evaluation of the services rendered. After the expiry of agreement, neither service evaluation nor a contract extension occurred, yet USC paid Rs 58.459 million (147 Guards x17 months @ Rs 23,393/month) to the security agency till December 2022.

Due to weak administrative control, management carried forward the contract without any agreement.

Thus, undue favour was extended to the security company by making the irregular payment of Rs 58.459 million without signing of any agreement.

DAC meeting was held on 01.02.2024. The management explained that after the expiry of agreement new tender was published but the same was rejected by USC Head Office and the services of existing security company were allowed till finalization of centralized tender at USC Head Office. Centralized tender was approved on 11.05.2023. Audit contended that the services of previous contractor remained continue till May 2023 (About two years) without evaluation of their services in violation of agreement. DAC directed the management to get ex-post facto approval from BOD.

Audit recommends implementation of directives of the DAC.

Para-39 (USC- 2021-23)

9.15.4.12 Non-initiating disciplinary proceedings against Store Incharges whose shortage exceeded the allowable limit - Rs 15.784 million

According to Para-2(a) of USC Head office letter No. Audit (48) HO/2013 dated 22.10.2013/3807 disciplinary proceedings were required to be initiated against those store Incharges whose shortages at the time of surprise audit or quarterly stock taking exceeded to 1% of the inventory of the stores.

During the audit of USC Regional Office, Islamabad for the year 2021-23, it was observed from the data made available to Audit that shortages of more than allowable limit of 1% of the inventory of the different stores of Rs 43.984 million were detected (Annex-77).

According to USC Head Office's above directives, the recovery of shortage of Rs 43.984 million was required besides initiation of disciplinary proceedings against the stores Incharges. However, the regional management failed to comply the directives which is indicative of weak internal controls.

DAC meeting was held on 01.02.2024. The management apprised the DAC that Rs 28.199 million had been recovered and verified by the audit. DAC pended the para with the direction to pursue the recovery of the remaining amount of Rs 15.784 million. DAC further directed to pursue the case in the court of law vigorously.

Audit recommends implementation of directives of the DAC.

Para-29 (USC- 2021-23)

9.15.4.13 Hiring of transport services from unauthorized supplier without competitive rates - Rs 40.950 million

According to Rule-4 of PPRA Rules-2004, the procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical. Further, according to USC Head Office Letter No. 431/SOS/2014 dated Aug 04, 2014, it was directed by Sr. General Manager (Operations) to all zonal managers that the period for which agreement with transporter is not finalized the arrangements may be made by them for that period but the transport must be hired from market on competitive rates not higher than the existing approved rates.

During the audit of Utility Stores Corporation, Zonal Office, Lahore for the year 2021-22, it was observed that agreement for transport arrangements from warehouse to utility stores was made with M/s Shahbaz Nasir upto March 22, 2022. Management of zonal office, Lahore initiated a tender process for a new transportation contractor on February 25, 2022, where M/s Phool Pur offered lower rates than the previous contractor but was disqualified for failing to provide earnest money as per tender requirement. The bid of 2nd lowest M/s Shahbaz Nasir was not approved by the USC head being their rates higher than market rates and other zones.

At that time, the management of zonal office was required to obtain market rates but instead, regional offices hired the services of transportation on the last approved rates in violation of instructions issued by the head. Another tender was floated on Nov 06, 2022 wherein M/s Super Shaheen offered lower

rates (i.e. Rs 2,099 to Rs 3,099) than the previous expired contract. Thus, management of regional offices paid excess transportation charges of Rs 40.950 million.

DAC meeting was held on 01.02.2024. DAC was apprised that the transport was arranged from market by the concerned I/C Warehouses on competitive rates and all the formalities were fulfilled. DAC directed to conduct an internal investigation of the matter and submit report to the Audit and Ministry.

Audit recommends implementation of directives of the DAC.

Para-52 (USC- 2021-23)

9.15.4.14 Non-recovery of shortages of goods from serving and ex-employees - Rs 28.532 million

According to Clause-3.10 (f) of Accounting Manual, the store incharge will be responsible for any shortage of stocks/cash that may be found to have occurred at the store after proper verification and checking of the store account and to be responsible to make good such losses/shortage to the Corporation.

During audit of USC Zonal office, Lahore for the year 2021-22, it was observed that various employees at different stores incurred shortages amounting to Rs 19.530 million. and subsequently left the Corporation. Sincere efforts were not made by the management resulting in the retrieval of only Rs 1.358 million, leaving a substantial outstanding shortage of Rs 18.172 million.

Similarly, shortages of goods amounting to Rs 10.360 million were made by serving employees at different stores of Lahore Zone.

Due to weak internal control management failed to recover the long outstanding recoveries from the serving and ex-employees.

Audit is of the view due to non-recovery of the shortages of goods detected against those employees at all regions, huge funds were blocked since long.

DAC meeting was held on 01.02.2024. The management apprised the DAC that recovery from serving employees has been fully made. DAC directed the management to provide evidence of recovery already made, to Audit for verification. DAC further directed to recover the amount from ex-employees from pending benefits and pursue court cases vigorously.

Audit recommends implementation of directives of the DAC.

Para-32 & 34 (USC- 2021-23)

9.15.4.15 Loss due to less receipt of jute bags from flour mills - Rs 22.537 million

According to Clause-5 (5)(a) of Public Sector Companies (Corporate Governance) Rules, 2017, the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance of the principle of probity and propriety entails that company's assets and resources are not used for private advantage and due economy is exercised so as to reduce wastage especially with respect to (i) handling of public funds, assets, resources and confidential information by directors, executives and employees; and (ii) claiming of expenses.

During audit of Utility Stores Corporation (USC) for the year 2021-22, it was observed that management allocated wheat quota to the Flour Mills for grinding and provision of atta as per prescribed criteria. USC retrieved the cost of jute bags at Rs 100 each from flour mills, while PASSCO had purchased them at Rs 319 each. As per policy of PASSCO, jute bags were re-classified in Class-B which were retained in open stock for two or three years and price of jute bag was determined Rs 167/Jute bag. USC received Rs 100 per Jute bag for 100-Kg wheat from flour mills, but actually 93 Kg wheat was filled in each bag. Accordingly, more bags were used for filling of 179,000 M.Ton wheat. Resultantly, management received less cost of jute bags of Rs 22.537 million as detailed below:

Procurement of Wheat (M.Ton)	Cost of Bags should have been received @ 93-Kgs wheat in a bag supplied to Flour Mills	Cost of Bags received @ 100-Kg wheat in a bag from Flour Mills	Difference of bags	Loss on less received of cost of jute bags @ Rs 167/bag (Rs in million)
0	1	2	3 (1-2)	4 (3 * Rs 167)
179,000	1,924,731	1,790,000	134,731	22.537

(Source: Letters of PASSCO, MOUs signed with PASSCO)

Audit is of the view that management should receive the cost of actually delivered jute bags from the flour mills to avoid the loss.

DAC meeting was held on 01.02.2024. DAC was apprised that PASSCO gave FAQ wheat in 100 kg jute bag and 50 Kg in PP bag. USC retrieved Rs 100 of each used Jute / PP Bags (100 kg), whereas the actual price of used Jute/PP Bags was Rs 96.8 with the ratio of 40% jute bag and 60% PP bags (i.e. Jute bag @ Rs167 x 40%= Rs 66.8 and PP Bag @ Rs 50 x 60% = Rs 30). Audit contested that instead of 100 kg, PASSCO had filled 93 Kg wheat in each bag due to which 134,731 extra bags were consumed but their cost was not retrieved/ adjusted by USC. DAC directed for verification of record.

Audit recommends implementation of directives of the DAC.

Para-43 (USC- 2021-23)

9.15.4.16 Irregular/ excess payment to flour mills on account of cost of atta - Rs 21.394 million

According to USC Head office letter No. 4092/W&WF/2021/4081 dated June 03, 2021, the rate of ATTA per 20-Kgs bag was Rs 1,161 which remained effective till October 01, 2021.

During the audit of Utility Stores Corporation, Zonal Office, Lahore for the year 2021-22, it was observed that management of Regional office Lahore North and South made payment of Rs 1,488 and Rs

1,379 per bag respectively to the flour mills on account of the cost of atta instead of rate of Rs 1,161 per bag of 20 Kg, notified by the head office.

Audit is of the view that management paid excess amount of Rs 21.394 million against the rate notified by the Head Office of USC (Annex-78).

DAC meeting was held on 01.02.2024. DAC was apprised that PASSCO converted indigenous wheat into imported wheat during Sep.2021 and revised the rate from Rs 51,822.73 to Rs 65,154.059 of wheat. Cost of 20 Kg bag of atta was also revised from Rs 1,161 to Rs 1,488 accordingly. The payment was made on revised imported wheat rate. DAC directed for verification of record.

Audit recommends implementation of directives of the DAC.

Para-49 (USC- 2021-23)

9.15.4.17 Non-payment of markup on LC amount to TCP due to supply of imported sugar - Rs 1,041.897 million

According to Clause 5(B)(g) of contract agreement dated 19.07.2021 between TCP and USC for delivery of imported sugar, the payment against the allocated quantity as per landed cost worked out by Finance Division, TCP or approved rates issued by the Government, should be received by TCP before opening of LC. In case the amount is not paid by USC by then, LC will be opened by TCP and all markup accrued on the unpaid amount, till receipt of payment shall be the responsibility of USC as per actual.

During audit of the accounts of USC Head Office, Islamabad for the Year 2021-22 it was observed that the management of USC and TCP signed an agreement on 19.07.2021 for the supply of imported sugar for a quantity of 50,000 M. Ton which was increased to 100,000 M. Ton vide an addendum. The management of USC failed to pay the sugar cost to TCP before LC opening, leading to a claimed markup of Rs 1,041.897 million upto 31.03.2023. However, USC management was reluctant to pay the amount of markup due to non-receipt of Rs 4,560 million from Ministry of Finance on account of subsidy.

Audit is of the view that markup would further increase and USC might sustain huge loss in this regard.

DAC meeting was held on 01.02.2024. DAC was apprised by the management that Rs 4,560 million stood receivable from Ministry of Finance on account of subsidy. The matter of non-release of subsidy amount had been taken up many times in order to clear the outstanding payments to TCP. However, USC did not own this mark-up as it occurred due to delayed releases from Finance Division. However, USC has no objection if Finance Division directly releases the payments to TCP along-with markup at Government end. DAC pended the para and directed the management to provide complete record pertaining to pursuance the case with Finance Division to audit within 30 days.

Audit recommends implementation of directives of the DAC.

Para-7 (USC- 2021-23)

9.15.4.18 Loss due to theft of store items at USC Stores/warehouses – Rs 12.713 million

The management of USC vide its letter No. 431/SOS.2021/227 dated 24.02.2021 circulated the security measures to be adopted at Zonal/Regional Offices, warehouses and stores. According to said measures, the Zonal Managers were required to ensure deployment of security guards at Zonal/Regional Offices and warehouses. The guard deployed at the roof of the warehouses must be in possession of whistle, torch, gun and mobile phone and firm alarms. Emergency lights must be arranged in addition to lights installed at each point. The Regional Managers, Incharge Warehouses must check the security measures at different timing. Ensure that CCTV system is functional at all warehouses and connected with cell phones.

During audit of the USC, HO, Islamabad for the year 2021-22, it was observed that in 21 incidents of theft/decoity at different locations, the store items of Rs 12.713 million were stolen / looted by the robbers/decoits. Although, the management had lodged FIRs with police but without any fruitful results. The management also nominated inquiry officers to investigate the incidents but the reports were still awaited. The claims were also lodged with insurance company but without any fruitful results.

Audit is of the view that due to weak internal controls, the Corporation sustained loss of Rs 12.713 million.

DAC meeting was held on 01.02.2024. The management apprised the DAC that USC has taken a proactive approach by securing insurance coverage against burglary and fire risks and out of 21 cases, 17 claims of Rs 10.917 million were settled by NICTL for Rs 10.003 million. DAC directed to provide the record of recovery already made alongwith bank statements to Audit. DAC further directed to pursue remaining cases vigorously.

Audit recommends implementation of directives of the DAC.

Para-10 (USC- 2021-23)

9.15.4.19 Non-forfeiture of bid security due to non-execution of agreements by Pre-qualified flour mills - Rs 12.500 million

According to Clause-d of Terms and Condition of Bidding documents for pre-qualification of Flour Mills for grinding to wheat, the application for pre-qualification must be accompanied with security money of Rs 500,000. As per Clause-m, Rs 500,000 security money of success full Flour Mills will be returned after completion the period of contract. Further, Clause-dd describes that in case of any deviation from SOP/ TORs, the concerned flour mills shall be subject to due penalty which may extend to suspension of quota, forfeiture of security money and black listing (temporary/permanent) as well.

During the audit of Utility Stores Corporation, Zonal Office, Islamabad for the year 2021-22 & 2022-23, it was observed that 41 flour mills were pre-qualified for grinding of PASSCO wheat and supply of Atta vide Head Office letter No. 4092/W&WF/2023/4566 dated 02.01.2023. The management executed agreements with thirty-one mills but no agreement was executed by ten flour mills. Detail is given at Annex-79.

The bid security amounting to Rs 5.00 million was to be forfeited as per terms & conditions of the bidding documents but management failed to forfeit the same.

Similarly, twenty-four (24) flour mills were prequalified vide Head Office letter dated December 29, 2020 for Lahore Zonal Office. Out of these, management executed agreements with nine flour mills but no agreement was executed by fifteen flour mills. The bid security amounting to Rs 7.500 million (Rs 500,000 x 15) was to be forfeited but management failed to forfeit the same. Detail is given at Annex-80.

Audit is of the view that bid securities submitted by pre-qualified flour mills should have been forfeited due to non-execution of agreements but the same was not done.

DAC meeting was held on 01.02.2024. DAC was apprised that pre-qualified period for supply of Atta against PASSCO wheat started from 1st January to 31st December of each year. M/s Esmail Flour Mill Islamabad, M/s Al Karim Flour Mill, Rawat, Rawalpindi and Al-Mehraj Roller Flour Mill, Kala Gujra, Jhelum had executed agreements with USC. However, remaining 7 Flour Mills did not execute agreement with USC. The security money of these 7 Flour Mills would be forfeited. Further, M/s OK FM, M/s Awami FM, M/s Qaiser FM, M/s Ramzan FM, M/s Data Foods, M/s Dayan FM, M/s Al-Hamad FM, M/s New Capital FM, and M/s Bajwa FM had executed agreements with USC. However, remaining 6 Flour Mills did not execute agreement with USC. The security money of these 6 Flour Mills would be forfeited. DAC pended the para and directed the management to provide copies of agreements of flour mills pointed out and updated status of the forfeiture of bid security of flour mills to Audit for verification.

Audit recommends implementation of directives of the DAC.

Para-23 (USC- 2021-23)

9.15.4.20 Irregular extension of transportation contract – Rs 4.899 million

According to contract agreement for transportation of stock of the consumer goods from warehouses to stores, USC Islamabad Zone, there exists no clause for extension of contract.

During audit of USC Regional Office, Islamabad for the years 2021-22 & 2022-23, it was observed that a contract for transportation of stock of consumer goods from warehouses to stores, USC Islamabad Zone was awarded to M/s Shahbaz Nasir Goods Transportation Company on 01.02.2022 for a period of one year. The contract was extended for a period of 3 months from 01.02.2023 to 30.04.2023. The contract was again extended w.e.f. 01.05.2023 till the finalization of new tender vide USC HO letter No. 327/SOS/Tender-Trans./2022/772 dated 17.07.2023.

Audit observed that no fresh contract was executed till the close of audit. An amount of Rs 4.899 million was paid to the contractor from 01.02.2023 to 30.09.2023 which was held irregular in Audit. The extension in contract tantamount to undue favour to the contractor.

DAC meeting was held on 01.02.2024. DAC was apprised by the management that before the expiry of previous contract on 31.01.2023, USC processed a tender and opened on 14.02.2023 wherein four firms participated but due to certain discrepancies, contract could not be awarded to the lowest firm. The 2nd lowest bidder was ignored due to lack in capacity of delivery while the rates of 3rd lowest vendor were high, due to which tender was scrapped. Since, the month of Ramzan was approaching (in March), it was decided to extend the existing agreement with the previous vendor. Audit argued that the technical bids of all the four participating companies were approved but later on, the contract was not awarded to the lowest firm due to non-submission of requisite documents. The 2nd lowest bidder was also not awarded the contract

due to lack of capacity which indicated that no proper technical evaluation criteria were adopted due to which the firms were technically qualified but later on contract was not awarded to the lowest firm and previous contract agreement was continued without having a clause of extension therein. DAC directed the management to justify the extension of the transportation contract for seven months even though no clause of extension of the contract was available in the agreement.

Audit recommends implementation of directives of the DAC.

Para-14 (USC- 2021-23)

9.15.4.21 Irregular retention of staff beyond sanctioned strength – Rs 93.473 million

According to Rule-5, Clause-5 (a) of Public Sector Companies (Corporate Governance) Rules, 2017, the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance of the principle of probity and propriety which entails that company's assets and resources are not used for private advantage and due economy is exercised so as to reduce wastage. The principle shall be adhered to, especially with respect to (i) handling of public funds, assets, resources and confidential information by directors, executives and employees; and (ii) claiming of expenses.

During the audit of USC for the year 2021-22 and 2022-23, it was observed that excess staff was appointed in USC HO, in different categories over and above the sanctioned strength which resulted into irregular / extra expenditure of Rs 93.473 million on pay and allowances from July 2021 to June 2022. Further, payment detail of certain staff was not produced to Audit. Moreover, the pay roll for the year 2022-23 was also not produced to Audit.

Audit is of the view that the retention of staff in USC HO beyond the sanctioned strength and payment of salary to the unauthorized staff was irregular.

DAC meeting was held on 01.02.2024. The management apprised the DAC that for smooth functioning / operations, the staff was posted / deputed at various posts in excess of approved sanctioned strength. DAC pended the para with the direction that management should revise the sanctioned strength as per the requirement with the approval of competent authority.

Audit recommends implementation of directives of the DAC.

Para-28 (USC- 2021-23)

Chapter-10

Ministry of Information, Broadcasting and National History & Literary, Heritage Division

Overview

The Ministry is responsible to release the Government information, media galleries, public domain and government unclassified non-scientific data to the public and international communities. The MoIB has jurisdiction for administrating the rules and regulations and laws relating to information, broadcasting and the press media in Pakistan.

Aims & Objectives

The goal of MIBS is “to achieve country wide media coverage for a well-informed public.”

The specific objectives are:

- To provide legal and policy framework in order to guide the operations of the media industry
- To coordinate the provision of government information to the public in order to ensure consistency and portray a positive image of government
- To interpret Government policy to the public in order to solicit their support and participation in national programmes
- To provide timely news and information to the public
- To improve the capacity of the public media in order to attain countrywide coverage
- To conduct research in media and national topical issues in order to improve the quality of media products, measure public response and influence government policy
- To facilitate the protection of copyright and related rights in order to reduce piracy and unfair exploitation of intellectual property
- To develop and manage human resources in order to enhance the performance of the ministry
- To provide effective financial management services and oversight in order to ensure accountability and transparency
- To provide administrative and logistical support services for efficient operations of the Ministry
- To establish and maintain an information management system in order to improve accessibility to information for speedy and informed decision making
- To plan, coordinate, monitor and evaluate the implementation of ministerial policies, legal framework, projects and programmes in order to ensure their effective implementation and compliance

Governing Laws and Policies

- Rule of Business 1973
- Information Policy of the Federal Government
- Copy right Act.

10.1 Pakistan Television Corporation Limited

10.1.1 Introduction

Pakistan Television Corporation Limited (PTVCL) was established as an un-quoted public limited company under Companies Act 1913 (Now Companies Act 2017) on Nov 26, 1964. All its shares are held by Government of Pakistan. There is no change in the pattern of shareholding of company since incorporation.

Aims & Objectives

The main purpose and objectives of the corporation are:

- i To provide television broadcasting services by telecasting programs of all kinds, news pictorials and documentaries, local and foreign films of all kinds and nature for the purpose of disseminating information, education and entertainment.
- ii To carry out instructions of the Government of Pakistan with regard to general pattern or policies of programs, announcements, news etc.
- iii To carry on the business of commercial advertisement by selling programs and advertising time of television stations either directly or through advertising agencies or by setting up advertising agencies or by other means.

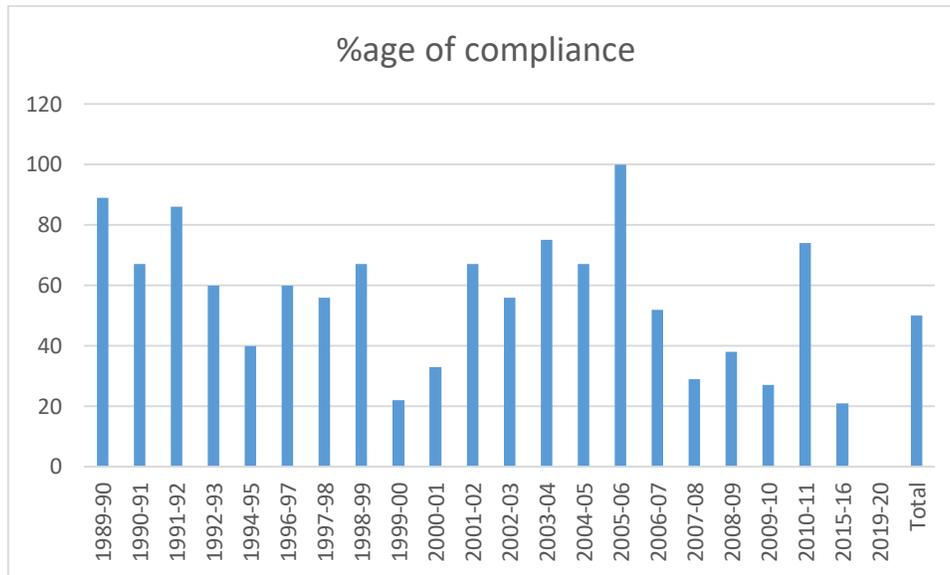

10.1.2 Comments on Audited Accounts

10.1.2.1 The annual audited accounts are required to be provided to Audit for review each year. Contrary to this, the management failed to provide audited annual accounts of the organization for the years 2019-20 to 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts of 2019-20 to 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*refer Annex-2*).

10.1.3 Compliance of PAC Directives

Overall compliance of PAC directives was not satisfactory which needs to be improved.

10.1.4 Audit Paras

10.1.4.1 Loss due to non-recovery of revenue of sport events – Rs 338.39 million

According to Rule 10(i) of the PBA Rules, the management was required to send their outstanding bills/invoices against agencies to Pakistan Broadcasting Association (PBA) supported with telecast certificate along-with the statement of bills within 15 days of the last date of each clearance period. They were also required to obtain proper acknowledgement of the receipt of these bills from the agencies.

During audit of PTVC for the year 2022-23, it was observed following sports events were telecasted on PTV Sports during the period 2022-23. Advertisement business to be transmitted during live sports events was awarded to various agencies during the said period. However, the agencies failed to clear their dues and an amount of Rs 338.39 million remained outstanding as detailed below;

(Rs in million)				
Name of Event	Telecast between	Net Income	Recovery/ Adjustment	Outstanding
Pak Tour Srilanka (Test Series)	16.07.2022 to 28.07.2022	43.40	40.10	3.30
Asia Cup	27.08.2022 to 11.09.2022	495.70	493.61	2.09
Pak Vs England (PCB)	20.09.2022 to 02.10.2022	324	293.95	30.05
English Premier League 2022	N/A	126	123.94	2.06

ICC Men's T20 World Cup 2022	16.10.2022 to 13.11.2022	1,275.90	1,075.35	200.55
PSL 2023	13.02.2023 to 18.03.2023	1,437.60	1,340.26	97.34
Pak Vs AFG	N/A	25	22	3
Total		3,727.6	3,389.21	338.39

Audit is of the view that cases for defaulting agencies should have been sent to Pakistan Broadcasting Association (PBA) for early recovery in order to avoid a huge loss of Rs 338.39 million.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that balance recovery may be made besides fix responsibility for not forwarding the case to PBA.

Para-58 (PTVC- 2022-23)

10.1.4.2 Irregular appointment of Chief Commercial Officer on bogus degree – Rs 104.347 million

According to judgment of the Supreme Court of Pakistan (case 2009 SCMR 1492) no leniency should be shown in favour of employees possessing fake/bogus degrees/certificates. Supreme Court of Pakistan recommended authorities to examine the possibility of getting registered criminal case against such employees so that in future no one should dare to commit such misconduct. Further, the authority awarding punishment of dismissal from service to an employee cannot reinstate him in service.

During audit of PTVC for the year 2022-23, it was observed that services of Mr. Muhammad Ameen Akhtar were hired as Chief Commercial Officer on contract basis w.e.f March 20, 2018 @ Rs 1,500,000 per month which was subsequently enhanced to Rs 1,950,000 per month w.e.f. 01.09.2023. Further, it was observed that his appointment was made without advertisement i.e. in violation of Supreme Court judgment and his degrees were not verified from concerned Boards / HEC. Moreover, The Board of Secondary Education Karachi has declared Matriculation certificate of officer as bogus.

It was further observed that a complaint No. IS251020-87503668 regarding bogus degree was lodged on Prime Minister Portal and Managing Director PTVC vide dated July 14, 2021 responded that relief could not be granted, if degrees found fake, bogus disciplinary action will be taken as per service rules. No action had been taken.

Thus, the appointment as well as payment of Rs 104.37 million made to him was held irregular.

The non-compliance of rules and regulations is an indicative of malafide intention, weak managerial and financial internal control.

Audit is of the view that appointment had to be made by following rules & regulations.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to explain the reasons of appointment without advertisement and having bogus degree. Inquire the matter to fix the responsibility on the person(s) at fault. Terminate his service

immediately and recover the perks drawn since his appointment in 2007 in compliance of Supreme Court Judgment.

Para-14 (PTVC- 2022-23)

10.1.4.3 Irregular extension in contract of a Security Company - Rs 241.248 million

Board of Directors in its 244th & 245th meeting held on 30.12.2020 and 04.01.2021 vide item No.12 and 13 respectively directed to advertise tender notice in newspapers inviting bids for hiring of Security Company to provide security guards for PTV offices / installations.

According to clause-42(C)(IV) of PPRA, repeat orders should not exceed fifteen per cent of the original procurement.

During audit of PTVC for the year 2022-23, it was observed that the services of security company “M/s Sigma Security Services (Pvt.) Ltd” were hired w.e.f. 01.02.2020 on monthly payment of Rs 8,935,100 (449 guards * Rs 19,900 per guard per month without GST) for one year. Further, it was noted that, with the approval of Chairman of Corporation, several advertisements were published but subsequently cancelled the tender process. Later on, an advertisement was approved by MD PTVC on 31.01.2023. Accordingly, M/s Sigma Security Services Pvt. Ltd was awarded the contract for one year w.e.f.11.05.2023. It was further observed that the management extended the contract of existing company for a period of 27 months and 9 days from 01.02.2021 to 10.05.2023 in violation of BOD directions and payment of Rs 241,247,700 (Rs 8,935,100 per month *27 months) was paid without approval of Board of Directors.

Audit is of the view that the management had to comply with the directions of BoD and not to exceed the repeat order beyond the limit of PPRA.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that the reasons of ill-planning for unnecessary delay in hiring of Security Company be explained and the placement of variation order over & above the permissible limit under PPRA may be justified. Ministry should conduct Inquiry fix responsibility.

Para-7 (PTVC- 2022-23)

10.1.4.4 Loss Due to Defective Lease Agreement with HBL - Rs 156.693 million

According to Rule 5(5) of the Public Sector Companies (Corporate Governance) Rules, 2013, the Board shall establish a system of sound internal control, to ensure compliance with the fundamental principles of probity and propriety.

During audit of PTVC for the year 2022-23, it was observed that a space of 1024-square-ft was allotted to M/s Habib Bank Ltd (HBL) for the establishment of a branch through an agreement in 1977. Banking facilities were also extended to the general public and other departments located in the vicinity. Moreover, no clause for receipt of rent/ other utilities was inserted in the agreement. A recovery notice of Rs 138.817 million against utilization of space and allied services was served to HBL, upon non receipt of response, PTVC filed a civil suit in 2017 which was dismissed in 2018 due to non-insertion clause of recovery of rent and utilities etc. in the agreement and directed HBL to start payment of rent immediately.

Although the court decided the case in 2018 yet the PTVC signed a formal agreement with the HBL on December 31, 2021, after a lapse of three years. It is worth mentioning here neither recovery of previous rent nor current rent has so far been realized.

Weak internal controls, financial & managerial failure caused non recovery of rent and corporation sustained a loss of Rs 156.693 million (Rs 138,816,600 + Rs 17,876,275).

Audit is of the view that management should have inserted recovery clause of rent in the agreement. Moreover, the management failed to recover the rent even after the decision of the court.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that recovery of the outstanding rent may be made besides fix responsibility on the person(s) at fault.

Para-17 (PTVC- 2022-23)

10.1.4.5 Loss due to extra deduction of service charges fee by K-electric on collection of TV License - Rs 133.448 million

According to the Ministry of Water and Power, vide letter dated 16.05.2016, service fee collected by electric distribution companies on collection of TV License Fee from electricity bill was reduced to Rs 1 from Rs 5 per paid bill w.e.f 01.04.2016.

During audit of PTVC for the year 2022-23, it was observed that service charges on account of TV license fee was being charged @ Rs 5.00 per bill instead of Rs 1.00 per bill by K-electric Company in violation instructions of Ministry of water and power. Consequently, excess service charges amounting to Rs 133.488 million were deducted during the period 2022-23 as detailed below:

Month	Total Consumers	TV Fee Collected (Rs)	TV Fee transfer to PTV (Rs)	KESC deducted fee @ Rs 5 per consumer bill	KESC fee @ Rs 1 per bill to be deducted by KESC	Excess fee deducted by KESC (Rs)
Jul-22	2,980,190	111,369,082	96,468,126	14,900,956	2,980,190	11,920,766
Aug-22	2,740,804	110,430,138	96,726,116	13,704,022	2,740,804	10,963,218
Sep-22	3,024,217	112,510,184	97,389,103	15,121,081	3,024,217	12,096,864
Oct-22	2,938,418	111,598,957	96,906,864	14,692,093	2,938,418	11,753,675
Nov-22	2,822,060	106,705,520	92,595,223	14,110,297	2,822,060	11,288,237
Dec-22	2,636,299	99,785,835	86,604,335	13,181,500	2,636,299	10,545,201
Jan-23	2,801,020	107,125,955	93,120,858	14,005,097	2,801,020	11,204,077
Feb-23	2,792,968	106,131,017	92,166,180	13,964,837	2,792,968	11,171,869

Mar-23	2,550,859	94,930,445	82,176,151	12,754,294	2,550,859	10,203,435
Apr-23	2,576,918	96,969,620	84,085,031	12,884,589	2,576,918	10,307,671
May-23	3,022,934	114,304,025	99,189,355	15,114,670	3,022,934	12,091,736
Jun-23	2,485,340	93,765,867	81,339,163	12,426,704	2,485,340	9,941,364
Total		1,265,626,645	1,098,766,505	166,860,140	33,372,027	133,488,113

Audit is of the view that the management did not pursue the matter with K-electric vigorously resultantly sustained a loss of Rs 133.488 million to corporation.

Non- recovery of excess deductions of service charges fee is indicative of weak managerial and internal control.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter at Ministry level for excess deduction of charges by K-electric. Besides, recover the extra amount from K-electric under intimation to Audit.

Note: The issue of excess deduction of TV license fee was also reported earlier in the Audit Report for the year 2021-22 vide Para No. 9.2.4.24 having financial impact of Rs 1,067.038 million. Recurrence of same irregularity is a matter of serious concern.

Para-42 (PTVC- 2022-23)

10.1.4.6 Irregular appointment of surplus staff - Rs 130.399 million

According to PTVC Service Rules 3.12: *Establishment* means approved staff strength indicating the designation, group, pay scale, and number of posts sanctioned for each separate unit from time to time by the Managing Director. Moreover, as a general establishment rule, available strength / holding should not exceed the sanctioned strength/rationalization.

During audit of PTVC for the year 2022-23, it was observed that management hired / appointed 66 employees of different categories and posted at PTV Lahore center in excess of the sanctioned strength. A huge expenditure of Rs 130.339 million was incurred on account of their salary and allowances annually. These appointments and payment of salary to the employees without the sanctioned strength posts was held irregular.

Audit is of the view that the services of these employees were unauthorized / irregular as they were engaged without any post. Non-compliance of sanction strength is an indicative weak internal control.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the appointment of officers/staff without sanctioned posts and fix responsibility.

Para-16 (PTVC- 2022-23)

10.1.4.7 Non recovery of cost against acquisition of Land - Rs 129.937 million

According to Public Corporate Rule-5(5) the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety, objectivity, integrity and honesty and relationship with the stakeholders.

During audit of PTVC Multan Center for the year 2022-23, it was observed that Multan Development Authority (MDA) advised to construct a boundary wall of Multan PTV center leaving a 75ft land beside the road vide letter dated 21.11.2007. Further observed that District Collector Revenue Department Multan in its meeting held on 2008 decided that PTVC may be compensated against the utilization of land. Subsequently NHA utilized the land by extending the road. Neither MDA nor NHA compensated PTVC against the cost of land even after a lapse of more than 10 years. Thus, a sum of Rs 129.937 million was still recoverable as detailed below;

- | | |
|--|-------------------|
| a. Total Land utilized by NHA | = 83 Marlas |
| b. Measurement in Square Ft per Marla | =250 sqft |
| c. Total land in Sq Ft (83x250) | = 20750 sqft |
| d. Land price per square ft. in Shujabad Road Multan | =Rs 6262 per sqft |
| e. Total price of the land (29750 x 6262) | =Rs 129,936,500 |

Audit is of the view that cost of land should be recovered as per prevailing market rates.

Non-recovery of land cost since long is indicative of a weak managerial and financial internal control.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to recover the cost of land besides fixing responsibility on the person(s) at fault.

Para-54 (PTVC- 2022-23)

10.1.4.8 Wasteful expenditure on the construction of TV tower - Rs 108.553 million

According to para 9.4 of Project Management Guidelines, the project is approved with a specific period of completion. Efforts should be made to complete the project within the stipulated period to ensure flow of benefits well in time. Due to certain reasons, if extension in the implementation period is in-avoidable to achieve the planned objectives, the Principal Accounting Officer of the Ministries/Divisions is competent to accord extension in the implementation period but within the approved cost of the project. As per the Planning Commission's Guidelines issued for the implementation of projects under PSDP grants, the project is approved with a specific period of completion. Efforts should be made to complete the project within the stipulated period to ensure the flow of benefits well in time.

During audit of PTVC for the year 2022-23, it was observed that PC-1 for a project of fabrication, erection & installation of 500 FT TV Tower at RBS Badin was approved in the year 2003-04. The contract was awarded to M/s NZ & Company at total cost of Rs 16.208 million on 14.05.2010 along with completion date of 31.12.2011. During scrutiny of record, major observations were found as detailed below:

1. The contract was awarded after laps of seven years of approval of PC-1.
2. A sum of Rs 2.541 million was paid to contractor even then he left the work and the contract was terminated on 25.03.2015, whereas, neither performance guarantee was forfeited nor the company was blacklisted.
3. Leftover work was awarded to M/s Sachal Construction Company on 21.12.2016 at a cost Rs 26.448 million but they did not start work till February 2022. Their contract was also terminated on 24.02.2022 whereas, neither their performance guarantee was forfeited nor the company was blacklisted.
4. Due to delay in construction work w.e.f. 2003-04 to 2022-23, the fresh engineering estimates @ Rs 108.553 million were submitted by the consultant M/s Sarfraz Ahmed & Associates on 28.04. 2022. Resultantly, cost increased by 92.345 million.

Thus, Corporation sustained a loss of Rs 92.345 million (Rs 108.553 million-16.208 million) due to delay in construction work.

Audit is of the view that management should have enforced risk & cost clause and blacklisted the company to avoid cost overrun.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends explaining the reason(s) for non-completion of work in time and cost overrun resulting into huge loss. Investigating the matter at administrative level besides fixing responsibility.

Para-20 (PTVC- 2022-23)

10.1.4.9 Unjustified recurring expenditures on hiring of equipment / items - Rs 49.340 million

According to rule-5(5)(a) of the Public Sector Companies (Corporate Governance) Rules, 2013, the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders.

During audit of PTVC for the year 2022-23, it was observed that various equipment i.e. Drone, Osomo & FS7 Camera, Lights Sound System, SPL Effect, JIB and Generators, etc. were hired on rental basis from market on need basis and a sum of Rs 49,340,868 was incurred during the period.

Moreover, the equipment hired on rent basis per day were of fixed asset nature and were usable for every program for longer period. Hence, the decision for hiring instead of purchasing was not justified. PTV Karachi center had incurred a sum of Rs 94,077,568 on hiring of equipment during last five years from 2017-18 to 2021.

Further probe into the matter revealed that that the rental cost of a year was more than the actual cost of the equipment as detailed below;

HIRING EQUIPMENTS (at Karachi and Lahore)	Actual cost of equipment(Rs) (approximately)	Equipment Hired on rental basis at Karachi (Rs)	Equipment Hired on rental basis at PTV-Sports	Equipment Hired on rental basis at PTV News
Sound System	75,000	7,291,794		
Camera Fs7	1,050,000	6,199,717		
Jib	883,500	3,494,841		
Spl Effect Lights	53,865	13,002,993		
Generator	335,000	4,360,120		
SMD	220,000	1,989,935		
Osomo Camera	119,999	1,835,693		
Drone Camera	378,000	2,764,595		
Lens Kit Cp-2 Hd Camera Lens 35-85	53,000	459,700		
OB With Hd Cameras	3,699	681,416		
Sd Drive	17,500	49,424		
Camera	93,000	902,000		
Floor Mounted Ac	250,000	300,000		
Total amount		43,062,228	2,003,365	4,275,275
Grand Total of Equipment hired in PTV Karachi, PTV Sports and PTV News			49,340,868	

The above analysis of rental equipment and their actual cost is of only two centers out of 09 centers of PTVC.

Audit is of the view that the management should have analyzed cost effectiveness before hiring the equipment to save public money. Consequently, corporation had to incur unjustified huge expenditure on hiring of equipment.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter in question at administrative level besides fixing responsibility.

Para-4 (PTVC- 2022-23)

10.1.4.10 Loss due to non-recovery of dramas' revenue – Rs 87.644 million

According to Rule 10(i) of the PBA Rules, the management was required to send their outstanding bills/invoices against agencies to PBA supported with telecast certificate along-with the statement of bills within 15 days of the last date of each clearance period. They were also required to obtain proper acknowledgement of the receipt of these bills from the agencies.

During audit of PTVC for the year 2022-23, it was observed that following eight dramas were procured from private parties and aired on PTV home. Further, it was observed that income generated from 08 dramas was Rs 256.311 million upto June 2023 out of which only Rs 168.666 million were recovered up to 30.09.2023, leaving balance of Rs 87.244 million as outstanding. Detail is as under:

S. No.	Name of Drama	Total Income earned upto June 2023	Total income recovered upto September 2023 (Rs)	Outstanding amount (Rs)
1	Sultan Abdul Hamid	195,017,319	119,380,542	75,636,777
2	Ghao	4,364,018	96,050	4,267,968
3	Sotaily	2,958,438	96,050	2,862,388
4	Dolly Ki Super Family	3,038,649	1,982,880	1,055,769
5	Laddu mein Haddi	7,372,222	5,738,572	1,633,650
6	Inam yafta	370,742	0	370,742
7	Mor Mohran	21,353,499	20,439,481	914,018
8	Aju aur Bhola	21,836,239	20,933,301	902,938
Total outstanding amount (Rs)		256,311,126	168,666,876	87,644,250

Audit is of the view that revenue amount from advertising agencies was to be recovered within stipulated time otherwise be reported to Pakistan Broadcasting Association (PBA) for early recovery to avoid huge loss of Rs 87.644 million.

Non recovery of revenue from advertising agencies is indicative of weak internal control.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating non-recovery of long outstanding revenue from agencies and fixing responsibility on the person (s) at fault.

Para-24 (PTVC- 2022-23)

10.1.4.11 Irregular retention of employees holding bogus degrees - Rs 46.559 million

According to judgment of the Supreme Court of Pakistan (case 2009 SCMR 1492) no leniency should be shown in favour of employees possessing fake/bogus degrees/certificates. Supreme Court of Pakistan recommended authorities to examine the possibility of getting registered criminal case against such employees so that in future no one should dare to commit such misconduct. Further, the authority awarding punishment of dismissal from service to an employee cannot reinstate him in service.

During audit of PTVC for the year 2022-23, it was observed that management retained 49 officers/officials in various cadres whose degrees/certificates were declared as bogus / fake by concerned institutions as detailed below:

S.#	Category of employees	No. of employees	Annual Salary (Rs)
1.	Retained in Services after award of punishment	17	16,017,834
2.	Re-instated after termination	11	5,219,765
3.	Cases under disciplinary action	21	19,639,666
4.	Terminated but their cases were not forwarded to FIA for recovery of illegal salary drawn	04	5,682,696
	Total	53	46,559,961

Moreover, the degrees / certificates of 1037 and 117 employees were partially verified and yet to be verified respectively.

Due to non-compliance of Supreme Court order is an indicative of managerial failure.

Audit is of the view that the management was required to terminate the services of these employees and subsequent recovery of salary thereof, but the same was not done after laps of considerable period. Thus, payment of Rs 46.559 million on account of salary was held irregular.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter for not taking timely action for verification of certificates / degrees and responsibility may be fixed on the person(s) at fault. Moreover, the services of employees of bogus degrees should be terminated and recovery of pay & allowances be effected.

Para-9 (PTVC- 2022-23)

10.1.4.12 Irregular appointment of officer as Head of Sales – Rs 22.275 million

According to clause (vi) of appointment letter dated March 20, 2020, “employment is subject to verification of educational documents and if any variance is found then the employment will stand revoked from the date of employment and will be liable to return the salaries/ benefits received.”

The Supreme Court of Pakistan in its judgment dated January 19, 1993, in Human Rights Case No: 104 of 1992 stated that recruitments, both ad hoc and regular, without publicly and proper advertising the vacancies, is violation of fundamental rights. As such, no post could be filled without proper advertisement, even on ad hoc or contract basis.

During audit of PTVC for the year 2022-23, it was observed that services of Mr. Muhammad Sarosh Butt were hired on contract basis as head of sales for PTV- center Lahore @ salary of Rs 495,000 per month on. April 01, 2020. His contract was further extended up to 31.03.2024. He was paid a sum of Rs 22.275 million (Rs 495,000 *45 month) on account of pay & allowances for the said period. Following discrepancies were found during scrutiny of his personal file;

1. Appointment was made without advertisement
2. Two transcripts of same discipline MBA having CGPA 2.53 and 3.02 issued on 15.03.1995 and 18.12.2021 respectively were submitted by the officer creating serious doubts.

Audit is of the view that hiring of the officer without advertisement and attested degree through HEC was irregular.

Non observation of rules is indicative of weak internal control.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to stop the salary and terminate the services immediately besides fixing responsibility on the persons at fault.

Para-15 (PTVC- 2022-23)

10.1.4.13 Loss due to non-recovery of TV License Fee - Rs 5,502.136 million

According to the Television Receiving Apparatus Rules 1970, the Government of Pakistan levied T.V. license fee on each and every T.V. set holder has to pay monthly T.V. license fee @ Rs 35 per domestic and Rs 60 for commercial TV set. Under Agreement 2004, the fee has to be collected through monthly electricity bills.

During audit of PTVC for the year 2022-23, it was observed that an amount of Rs 6,211.224 million on account of TV license fee @ Rs 35 and Rs 60 per domestic and commercial electric bill, respectively for the audit period was collected by PEPCO and K-electric, but only Rs 1,488.445 million was paid to PTVC leaving a balance of Rs 5,502.136 million as detailed below;

Name of Company	TV Fee Income (Rs)	TV Fee received (2022-23)	Receivable (Rs)
-----------------	-----------------------	------------------------------	--------------------

		(Rs)	
PEPCO	5,009,429,224	389,678,363	5,399,107,587
K-ELECTRIC	1,201,795,133	1,098,766,505	103,028,628
Total	6,211,224,357	1,488,444,868	5,502,136,215

Further, observed during the scrutiny of financial statements of K-electric, a liability of Rs 130.316 million towards PTVC was pending. The difference in figures is due to non-reconciliation of TV license fee with consumers of electric companies.

Audit is of the view that the management never reconciled the TV license fee with consumers of electric companies for collection of recovery is indicative of weakness of internal control.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends explaining non-reconciliation of TV license fee with electric companies as well as non-recovery of TV License Fee. Moreover, recovery should be conducted and responsibility be fixed.

Para-43 (PTVC- 2022-23)

10.1.4.14 Irregular payment of professional fee to legal advisor as co-council - Rs 7.105 million

According to office order issued by Managing Director PTVC dated April 15, 2019, professional fee for court cases for Supreme Court lawyers are as follow and will be paid in lump sum and miscellaneous expenditures will not be allowed:

S. No.	Name of court	Professional Fee for Supreme court lawyer (Rs) all-inclusive taxes	Professional Fee for high court/civil court lawyer (Rs) all-inclusive taxes
1	Supreme court cases	125,000	-
2	High court/ equivalent	100,000	70,000
3	Civil courts/NIRC/ Wafaqi Mohtasib/ Appeal/ Representation against the decision of Wafaqi Mohtasib to the President of Pakistan	40,000	35,000

During audit of PTVC for the year 2022-23, it was observed that legal councils were hired to deal various court cases and made payments to them in advance as professional fee of each case. It was further revealed that a sum of Rs 7.105 million was also paid as co-counsel against the same cases to Mr. Sultan Hayat Ranjha who was

the legal advisor of PTVC. However, his services had already been hired on retainer-ship fee @ Rs @ 440,000 per month.

The engagement of legal advisor as co-counsel with the counsels and payment of Rs 7.105 million made to him was irregular.

Audit is of the view that the dual payments to counsels and co-counsel on the same court cases were unjustified and irregular. Further, management should not have paid professional fee to legal advisor as co-counsel who was already on the payroll of PTVC.

Due to weak internal control, a loss of Rs 7.105 million was caused to the corporation.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility besides effecting recovery.

Para-10 (PTVC- 2022-23)

10.1.4.15 Irregular appointment and unauthorized allocation of vehicle to legal advisor - Rs 3.549 million

According to agenda item No: 3 of the 243rd meeting of Board of Directors dated December 07, 2020, the Board approved termination of the services of professionals / contract employees who were drawing salary above Rs 350, 000 per month.

The Supreme Court of Pakistan in its judgment dated January 19, 1993, in Human Rights Case No: 104 of 1992 stated that recruitments, both ad hoc and regular, without publicly and proper advertising the vacancies, is violation of fundamental rights. As such, no post could be filled without proper advertisement, even on ad hoc or contract basis.

During the audit of PTVC for the year 2022-23, it was observed that Mr. Sultan Hayat Ranjha was appointed as legal advisor on 10.05.2022 without advertisement. Later on, his retainer ship fee increased from Rs 200,000 to Rs 440,000 per month on 01.07.2023 without approval of BoD resulting a huge increase of 120% without justification. On the other hand, he was also drawing professional fee on case-to-case basis along with retainer-ship fee.

Further probe to the matter revealed that a vehicle bearing R. No 382 was permanently allocated to legal advisor without the terms of his contract and expenditure of Rs 2.109 million was incurred on account of POL/repair & maintenance.

Audit is of the view appointment, increase in retainer-ship fee in addition to drawing professional fee and allocation of vehicle were irregular.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility besides effecting recovery.

Para-18 & 35 (PTVC- 2022-23)

10.1.4.16 Non-recovery of long overdue receivables - Rs 1,157.097 million

According to Corporate Governance Rules 2013 (2A) (a) the business of the Public Sector Company is carried on with integrity, objectivity, due care and the professional skills appropriate to the nature and scale of its activities. Furthermore as per clause 5 (5) The Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders, in the following manner, namely:- (a) the principle of probity and propriety entails that company's assets and resources are not used for private advantage and due economy is exercised so as to reduce wastage.

During audit of PTVC for the year 2022-23, it was observed that an amount of Rs 1,157.096 million was receivables from foreign debtors ranging from 2 years to 10 years, as detailed below:

Sr. No.	Particulars	Amount (Rs)
1.	Receivable on account of foreign debtors	469,153,088
2.	Receivable from TAJ TV Mauritius	71,780,004
3.	Receivable from Government of Pakistan	18,311,477
4.	Misc. Receivable	597,852,240
Total		1,157,096,809

As evident above, the receivables were pending, but no efforts made to realize these overdue amounts.

Weak internal controls resulted into blockage of funds.

Audit is of the view that the management should accelerate its efforts to recover the amount to take up matter through respective embassies.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the reasons for not collecting the overdue amount.

Para-49 (PTVC- 2022-23)

10.1.4.17 Irregular procurement by splitting in violation of PPRA - Rs 69.272 million

According to rule 9 of PPRA, a procuring agency shall announce in an appropriate manner all proposed procurements for each financial year and shall proceed accordingly without any splitting or regrouping of the procurements so planned. The annual requirements thus determined would be advertised in advance on the Authority's website as well as on the website of the procuring agency in case the procuring agency has its own website.

During audit of PTVC for the year 2022-23, it was observed that IT Equipment valuing of Rs 69,407,572 was purchased from suppliers in piecemeal. Further it was observed that IT department did not

prepare its procurement plan just to grant favour to the selected suppliers. Consequently, procurement was considered as non-transparent.

Non observance of procurement rules is an indicative internal control.

Audit is of the view that management was required to assess the requirements of IT equipment at the start of financial year and should have advertised to get economical rates in fair and transparent manner.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating purchase on piecemeal basis besides fixing responsibility on the person(s) at fault.

Para-3 (PTVC- 2022-23)

10.1.4.18 Loss due to cost overrun of civil work at Regional Broadcast Station - Rs 44.119 million

According to the Planning Commission's Guidelines issued for the implementation of projects under PSDP grants, the project is approved with a specific period of completion. Efforts should be made to complete the project within the stipulated period to ensure the flow of benefits well in time.

During audit of PTVC for the year 2022-23, it was noted that a contract for construction of civil work at Regional Broadcast Station(RBS) Shakargarh valuing of Rs 25.929 million was awarded to M/s Ali Associates on 26.01.2007 to be completed by 11.12.2007. However, the contractor stopped the work on 28.01.2010 after 60% of work and payment of Rs 15.559 million was made. Further, the same work was re-awarded to M/s Rehmat Traders Lahore on 20.11.2013 with a completion period of 10 months i.e. 30.09.2014. Later on, the contract was extended to 2.3 years i.e. 31.12.2016, with a revised contract value of Rs 24.821 million.

During scrutiny of record, several major observations were found as detailed below:

1. Neither performance guarantee of M/s Ali Associates was forfeited nor risk and cost clause was enforced.
2. The second contractor left the work after doing 26% only of the remaining work without cogent reason and was paid an amount of Rs 6.189 million. Consequently, the contract was terminated on 13.03.2018 after lapse of 2 years of extension.
3. The leftover work was awarded to third contractor viz. M/s Sher Bacha & Brother on 22.06.2023 after revision of cost to Rs 44,119,230 against the engineer's estimate of Rs 34.216 million i.e. excess of 28.94%.

Consequently, a loss Rs 18.189 million was incurred due to excess expenditure.

Due to weak internal control, this irregularity occurred which causes cost overrun of Rs 44.119 million.

Audit is of the view that management should have enforced risk & cost clause and blacklisting the firms to avoid cost overrun.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to inquire the matter at Administrative level besides fixing responsibility on the person(s) at fault.

Para-19 (PTVC- 2022-23)

10.1.4.19 Irregular Payment to Security Company - Rs 39.856 million

According to clause 8 & 11 of terms and conditions for bidders for hiring services of security company, employees of the security company should have group insurance and the company must be registered with EOBI and Social Security institution and clause 16 the company / bidder must comply with the rates fixed by the Federal government under minimum wages ordinance and Act and shall be responsible for any deviation from the said.

According to EOBI Act, 6% contribution (5% from employers and 1% from employees (Rs 780 per employee PM) is to be paid to EOBI for their employees. Similarly, Social Security contribution is required to be paid @ 6% of the wages of their employees (having wages up to Rs 22,000 i.e. Rs 1,080 per employee PM) to the Islamabad Employees Social Security Institution.

During audit of PTVC for the year 2022-23, it was noted that services of security company i.e. M/s SIGMA security (Pvt.) ltd were hired w.e.f 01.02.2020 and 487 security personnel were deployed. It was observed that Security Company was failed to deposit EOBI and Social Security contribution of their employees as the personal registration numbers of 487 employees regarding EOBI and Social Security were not available.

Descriptions	No. of employees	Period	Total amount to be deposited by security company
EOBI @ Rs 780 (Employer contribution @ 650 Employee @ 130)	487	01.02.2020 to 30.09.2023 (44 months)	16,713,840 (487x780x44)
Social Security @ Rs 1080	487	01.02.2020 to 30.09.2023 (44 months)	23,142,240 (487x1080x44)
Total			39,856,080

Therefore, it is construed that the security staff provided to PTVC was not registered with EOBI and Social Security Institution which is a violation of the rules and regulations.

Audit is of the view that PTVC should have verified registration of security staff with EOBI and Social Security before making payment to the Security Company of Rs 39.856 million, hence held irregular.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to justify irregular payment to the security company in the absence of EOBI and Social Security registration.

Para-8 (PTVC- 2022-23)

10.1.4.20 Renewal of dubbing contract of Turkish Drama in violation of PPRA Rules - Rs 33.425 million

According to Rule-12 (2) of PPRA-2004, all procurement opportunities over two million rupees should be advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu. According to Rule-42 (c) (iv) of PPRA-2004 "Repeat orders exceeding fifteen percent of the original value of contract shall not be awarded".

During audit of PTVC for the year 2022-23, it was observed that a contract was awarded to M/s KJ Production on December 12, 2021 amounting to Rs 18.153 million @ Rs 96,050 per episode for dubbing of 189 episodes of Season-I&II of Turkish Drama "Sultan Abdul Hameed-II". Later on, the contract was extended for dubbing of 348 more episodes of Season 3, 4 & 5 on 31.10.2022 amounting to Rs 33.425 million. The contract was extended upto 184% in violation of PPRA rules.

Audit is of the view that the undue favor was granted to the firm by extending of contract beyond the permissible limit and should have been re-advertised, hence, held irregular. Violation of rules is a weak internal control.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility.

Para-30 (PTVC- 2022-23)

10.1.4.21 Non recovery of long outstanding amount on account of decreed case - Rs 26.565 million

According to clause 5 (5) of Corporate Governance Rules 2013, The Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders, in the following manner, namely:- (a) the principle of probity and propriety entails that company's assets and resources are not used for private advantage and due economy is exercised so as to reduce wastage.

During audit of PTVC for the year 2022-23, it was observed that a decree was announced in favour of PTVC by Sindh High Court (SHC) of Rs 26.565 million during the year 2010 against a defaulter media agency namely M/s Blazon and others. The M/s Blazon media agency was owned by well-known media personalities namely Mrs. Uzma Gilani & Mr. Asif Raza Mir. It was observed that no recovery of decreed amount was made even after lapse of more than thirteen (13) years. Consequently, a sum of Rs 26.565 million remained outstanding against the defaulters.

Audit is of the view that management should initiate proper proceedings to recover long outstanding amount.

Non-recovery of long outstanding amount indicated weak internal controls on managerial and financial levels.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that recovery of long outstanding amount should be made. Fix the responsibility on the person(s) at fault.

Para-6 (PTVC- 2022-23)

10.1.4.22 Loss due to low rating and non-viable morning show - Rs 24.096 million

According to rule 23 of GFR, every Government officer should realize fully and clearly that he will be held personally responsible for any loss sustained by Government through fraud or negligence on his part.

During audit of PTV Lahore center for the year 2022-23, it was observed that a program 'Morning @ Home' was broadcast against a budget of Rs 307,461 per episode for the year 2022-23. It was observed that average rating of said program remained at 0.8 which was very low as compared to other morning shows on various channels e.g. ARY and GEO etc. It was further observed that total cost incurred on the program was 67.641 million and the revenue recovered thereof was 43.547 million bearing a loss of Rs 24.094 million as worked below:

Program Name	Total Cost per episode (Rs)	Episodes on-aired	Total Cost (Rs)	Revenue generated (Rs)	Revenue recovered (Rs)	Outstanding Revenue (Rs)	Loss (Rs)
---------------------	------------------------------------	--------------------------	------------------------	-------------------------------	-------------------------------	---------------------------------	------------------

Morning @ Home	307,461	220	67,641,420	48,010,612	43,546,951	4,463,661	24,094,469
----------------	---------	-----	------------	------------	------------	-----------	------------

Thus, due to non-analysis of cost effectiveness of program, loss of Rs 24.094 million was caused to public exchequer.

Audit is of the view that management should keep the programs telecasting viability in public.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying continuity of low rating and loss making program.

Para-23 (PTVC- 2022-23)

10.1.4.23 Irregular appointments of anchor persons - Rs 23.029 million

According to the Supreme Court of Pakistan in its judgment dated January 19, 1993, in Human Rights Case No: 104 of 1992 stated that recruitments, both ad hoc and regular, without publicly and proper advertising the vacancies, is violation of fundamental rights. As such, no post could be filled without proper advertisement, even on ad hoc or contract basis.

According to para 4 of the minutes of 184th meeting of BoD dated: April 23, 2009, job applications for various categories shall be received on a regular basis for which a database was to be maintained. To further strengthen the database, advertisement would be placed on PTVC website and newspapers periodically, inviting applications.

During audit of PTVC for the year 2022-23, it was observed that twelve professionals/anchors were appointed on contract basis without advertisement during the year 2022-23 on the basis of monthly salary amounting to Rs 23.029 million (Annex-81).

Audit is of the view that the management was required to advertise in the newspapers to fetch healthy competition. Thus, appointments without following due procedure was held irregular.

Non observance of appointment's rules & regulations is indicative of weak internal control.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends explaining the reasons for the irregular appointment without advertisement besides fixing responsibility.

Para-46 (PTVC- 2022-23)

10.1.4.24 Unauthorized regularization of contract employees – Rs 22.553 million

According to Para–1(i) of Establishment Division’s letter No.F.53/1/2008-SP dated May 11, 2017, all contract/contingent Paid/Daily Wage/Project employees who have rendered a minimum of one year of service, in continuity, as on January 01, 2017 (herein after referred to as eligible employees) may apply for appointment on regular basis.

During audit of PTVC for the year 2022-23, it was observed that the services of sixty-seven contractual, daily wages employees were regularized on 15.03.2023 whose appointments were made during the period from August-2022 to December 2022. It was further observed that the services of another batch of sixty-one employees whose induction had taken place during the period 01.01.2023 to 04.08.2023 was regularized on 04.08.2023. in violation of Government instructions. Financial implication of pay & allowances of 61 employees was Rs 22.553 million per annum whereas, that of the rest of 67 employees was not provided by the management.

Audit is of the view that the management was required to comply with above directions but the same was not observed.

Non-compliance of rules & regulations is an indication of weak internal control.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter at administrative level besides fixing responsibility.

Para-56 (PTVC- 2022-23)

10.1.4.25 Irregular hiring of Law Officers - Rs 13.997 million

According to the Government of Pakistan Ministry of Law, Justice and Human Rights letter No.F.6/1/2013-LA dated 3rd June, 2015 Clause-V, every Government Department or semi Government or Public Corporate Body shall seek concurrence of the Law, Justice and Human Rights Division for engagement of Lawyer where professional fee exceeds Rs 300,000. In such case the concerned Department will send a panel of at least three Advocates for selection of one of them along with proposed professional fee for approval of Law, Justice and Human Rights Division. Any failure in doing so will render the engagement of Advocate/Counsel etc. void and no ex-post facto approval will be allowed.

During audit of PTVC for the year 2022-23, it was observed that management hired the services of various advocates for pursuing the court cases and made advance payment of Rs 13.998 million on account of legal fee without prior approval of the Ministry of Law and Justice as detailed below;

Sr. No.	Name of Advocate	Number of Cases	Court Cases Status	Legal Fee Paid (Rs)
1	Mr. Faisal Naqvi Advocate	06	Under process	6,000,000
2	M/s Surridge & Beecheno	-	Under process	1,141,954
3	Mr. Sallahuddin Advocate	04	Under process	6,000,000
4	Mr. Shahid Mehmood Khokar	01	Under process	6,000,00

5	Raja Muqsit Nawaz Advocate	03	Under process	500,000
6	Mr. Taimour Aslam Advocate	01	Under process	350,000
Total				13,997,954

Further noted that professional fee was paid in advance to above advocates without making contract agreements whereas no single case was decided/settled till completion of audit.

Audit is of the view that management did not comply with the directions of Ministry of Law, Justice and Human Rights, hence, incurring expenditure Rs 13.997 million was held irregular.

Non-observance of rules & regulations is indicative of weak internal control.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing responsibility.

Para-37 (PTVC- 2022-23)

10.1.4.26 Unjustified retention of vehicles - Rs 8.004 million

The provision of staff car alongwith driver and other support staff to the Federal Minister is the responsibility of Establishment/Cabinet Division.

During audit of PTVC for the year 2022-23, it was observed allotted four vehicles 1300cc to 3000cc to the office of the Minister Information & Broadcasting, one vehicle to focal person to PM and one vehicle to Parliamentary Secretary of I&B along with drivers. A sum of Rs 8.004 million was incurred on the operation of vehicles during the period. The provision of these vehicles by PTVC was unjustified. Detail is as under:

S. No	Vehicle No	Make	Allotted	POL Exp. (Rs)	Repair Maint (Rs)	Total Amount (Rs)
1	11-225	Toyota D/Cabin	Protocol duty with Minister's squade	1,558,098	350,714	1,908,812
2	LH-516	Honda Civic	Duty with director to Minister office	1,045,645	208,338	1,253,983
3	KD-583	Toyota Corolla	Protocol duty with Minister's office	724,535	175,606	900,141
4	JV-515	Toyota Corolla	Protocol duty with focal person to PM	641,683	289,721	931,404
5	VY-213	Suzuki Vain	Minister's office staff	1,525,929	75,860	1,601,789

6	VG-621	Toyota Corolla	Parliamentary Secretary for I&B	899,750	507,929	1,407,679
			Total			8,003,808

Audit is of the view that all Ministries / Administrative departments are allotted their own vehicles along with budget for POL and maintenance. Thus, retention of PTVC vehicles is unjustified.

Non observance of rules is an indicative of weak managerial control.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends withdrawal of the said vehicles immediately.

Para-59 (PTVC- 2022-23)

10.1.4.27 Irregular appointment of Anchors for program “Current Affairs” - Rs 7.125 million

The Supreme Court of Pakistan in its judgment dated January 19, 1993, in Human Rights Case No: 104 of 1992 stated that recruitments, both ad hoc and regular, without publicly and proper advertising the vacancies, are violation of fundamental rights. As such, no post could be filled without proper advertisement, even on ad hoc or contract basis. A per Agenda Item No: 3 of the 243rd meeting of PTVC Board of Directors dated: December 07, 2020, the Board approved termination of the services of professionals / contract employees who are drawing salary above Rs 350,000 per month.

During audit of PTV Lahore center for the year 2022-23, it was observed that three anchors were hired for program “Current Affairs” on contract basis initially for a period of three years on a monthly salary of Rs 750,000 each w.e.f. September 26.2023 without advertisement and approval of BoD. The detail of anchors as well as payment made to them is given as follows:

Sr. No.	Anchor Name	Date of Joining	Salary per month (Rs)	Total salary paid till close of audit (Rs)
1	Mr. Faheem Gohar Butt	26.09.2023	750,000	2,375,000
2	Mr. Wajahat Masood	27.09.2023	750,000	2,375,000
3	Syed Imran Shafqat	26.09.2023	750,000	2,375,000
Total				7,125,000

Audit is of the view that undue financial benefit was extended to these anchors in violation of rules and regulations. Weak financial as well as managerial internal controls led to irregular appointment.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility.

Para-29 (PTVC- 2022-23)

10.1.4.28 Unjustified hiring of DSNG van and accessories on rental basis - Rs 6.996 million

According to rule-5 (a) of the Corporate Governance Rules, the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders, in the following manner, namely:- the principle of probity and propriety entails that company's assets and resources are not used for private advantage and due economy is exercised so as to reduce wastage.

During audit of PTV Lahore center for the year 2022-23, it was observed that Program Manager (PTV) intimated that a Digital Satellite News Gathering Unit (DSNG) van along with accessories was required for Ramzan Transmission. Further observed that Executive Engineering Manager informed vide letter dated 24.03.2023 that PTVC's own Outside Broadcasting (OB) van was grounded due to disorder of Generator. Thus, a DSNG van was hired from M/s Telreel on Rs 6.996 million for the month.

Audit is of the view that hiring of DSNG van instead to repairing the generator of own vehicle was unjustified.

Weak internal control caused loss of Rs 6.996 million to the corporation.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends inquiring the matter of hiring of DSNG van on rent instead of repairing the generator and fixing responsibility.

Para-21 (PTVC- 2022-23)

10.1.4.29 Irregular appointment and payment on degree of unrecognized institution - Rs 3.85 million

According to clause-vi of appointment letter dated 28.12.2018, the verification of degree/ educational documents is mandatory from the concerned Board/ institute / university within one month from the date of joining. In case of non-compliance, services will be terminated automatically without any notice. Further as per Supreme Court of Pakistan in its judgment dated January 19, 1993, in Human Rights Case No: 104 of 1992 stated that recruitments, both ad hoc and regular, without publicly and proper advertising the vacancies, is violation of fundamental rights. As such, no post could be filled without proper advertisement, even on ad hoc or contract basis.

During audit of PTVC for the year 2022-23, it was observed that services of Mr. Rizwan Malik were hired as Regional Sales Manager at Lahore PTV center for a period of one year vide letter dated 28.12.2018, subject to authenticity / verification of his degrees by HEC. During scrutiny of his personal file, following deficiencies were found;

1. Appointment was made without advertisement
2. He joined his duties after six months of appointment letter and without submitting credential
3. Copies of BBA and MBA degrees were sent to HEC for attestation dated 03.10.2019. HEC vide its letter dated 16.10.2019 intimated that degree awarding institution i.e. Premier College of Business Administration & Economics Lahore was not recognized, therefore transcripts could not be attested.
4. His services were terminated on 17.08.2020 but after lapse of ten months

5. The salary of the officer was not released since his appointment on the recommendation of Finance department PTVC, for want of attestation of degrees from HEC. However, after the decline from HEC, he was terminated and his salary (Rs 3.85 million) was released after three months of his termination from service.

Audit is of the view that payment of salary to the employee on the degree awarded by an unrecognized institution by HEC was undue favor to him.

Unjustified payment of salary is indicative of malafide intention and internal control.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility besides effecting recovery.

Para-13 (PTVC- 2022-23)

10.1.4.30 Non deduction of Income Tax from sports experts - Rs 3.073 million

According to section 153 of Income Tax Ordinance 2001, every prescribed person making a payment in full or part including a payment by way of advance to a resident person or permanent establishment in Pakistan of non-residential person for the sale of good, and the rendering of or providing of services shall at the time of making the payment, deduct tax from the gross amount payable at the rate of 10% from active tax payer and @ 20% from person not on ATL.

During audit of PTVC for the year 2022-23, it was observed that the services of foreign players Mr. Lance Klusener and Mr. Kasturi Naidu were hired as guests for program viz. "Game on Hai" telecasted for ICC T-20 World Cup-2022 during October to December 2022. Further, it was transpired that a sum of Rs 15.364 million was paid to them but the income tax @ 20% amounting to Rs 3.073 million was not deducted as detailed below:

Sr.	Name of player/expert	Agreement period	Amount Paid in US\$ Including Taxes	Income Tax @ 20% US \$	Gross Amount in US\$	Amount Paid in Rupees Avg @ Rs 235 per US\$	Amount of tax to be deducted in Rupees
1	Lance Klusener	Oct to Dec 2022	37,500	7,500	37,500	8,812,500	1,762,500
2	Kasturi Naidu		27,880	5,576	27,880	6,551,800	1,310,360
Total			65,380	13,076	65,380	15,364,300	3,072,860

Audit is of the view that income tax was to be deducted before making the payment to the experts.

Loss to the government exchequer due to non-deduction of income tax is indicative of weak internal control.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility besides effecting recovery.

10.1.4.31 Irregular payment of POL allowance to the Deputationst - Rs 1.981 million

According to rule 5(5) of the Public Sector Companies (Corporate Governance) Rules, 2013, the Board shall establish a system of sound internal control, to ensure compliance with the fundamental principles of probity and propriety, especially with respect to handling of public funds.

During audit of the PTVC (Head office) for the year 2022-23, it was observed that official vehicles were allocated to four officers of group 7 & 8 who were posted on deputation basis in corporation. A sum of Rs 4.533 million was incurred on account of POL / repair & maintenance whereas, without entitlement. Moreover, in addition to this, these officers were also drawing POL allowance per month. Detail is below:

Sr. No	Name of officer	Allocated Vehicle No.	Period	POL and Repair & maintenance (Rs)	POL Allowance Per month (Rs)	Total PoL Allowance Paid (Rs)
1	Ms. Narita Farhan (BPS-18) (Group-8)	IDM-630		1,033,232	32,000	Rs 32,000*29 months =928,000
2	Mr. Tasawar Arfat (Group-7)	ME-680 and No. SJ.331	19.04.2022 to 31.12.2023	1,934,579	28,552	Rs 28,552*20= Rs 571,040
3	Ms. Duriyya Amir (BPS-18) Ms. NehaalFaridKhattak (Group -8 & 7)	LJ-223		1,565,410	Rs 32,320 Rs 27,924	Rs 32,320*8= Rs 258,560 Rs 27,924*8= Rs 223,392
	Total			4,533,221		1,980,992

Audit is of the view that the payment on account of POL allowance in addition to allocation of government vehicles and expenditure incurred thereon was irregular.

Allocation of vehicle as well as allowing POL allowance is an indicative of weak internal control.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility besides effecting recovery.

10.1.4.32 Overpayment on account of House Ceiling - Rs 1.205 million

According to letter of Ministry of Housing & works dated September 28th 2021, there was no rental ceiling for hiring of residential accommodation at Multan except Islamabad, and other specified stations i.e. Rawalpindi, Lahore, Karachi, Peshawar and Quetta.

During audit of PTV Multan Center for the year 2022-23, it was observed that five officers transferred from different centers to Multan center were drawing house rental ceiling based on their previous station's entitlements. This practice has been ongoing since the date of their transfer and poses a significant risk of financial mismanagement.

Audit is of the view that payment of Rs 1.206 million on account of rental ceiling to the officers transferred at Multan center was irregular.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to immediate stop payment on account of house rent ceiling to them. Recover the overpayment under intimation to audit. Responsibility be fixed who allowed to take undue benefit.

Para-41 (PTVC- 2022-23)

10.1.4.33 Non-recovery of long overdue receivables - Rs 3,889.907 million

According to Rule 10(i) of the PBA Rules, the management was required to send their outstanding bills/invoices against agencies to PBA supported with telecast certificate along-with the statement of bills within 15 days of the last date of each clearance period. They were also required to obtain proper acknowledgement of the receipt of these bills from the agencies.

During audit of PTVC for the year 2022-23, it was observed that corporation awarded business to various agencies over the period of more than 30 years, but failed to recover outstanding dues. Resultantly, the dues were accumulated to Rs 3,889.908 million, as detailed below;

(Rs in million)

Description	Current	Receivables over 01 year	Receivables over 02 years	Receivables over 03 years.	Receivables over 05 years	Receivables over 06 years	Recovery	Total
Receivables advertising agencies	79.596	764.203	157.463	1,266.280	1,697.631	307.041	382.307	3,889.908

Channel wise Receivable Position	
PTV Home	1,040.598
PTV National	148.131
PTV News	617.444
PTV Channel 3	57.505
PTV Sports	1,992.196
PTV World	6.538
Tele School	27.496
Total	3,889.908

Thus, chances of long overdue recovery were remote and a loss to that extent would be borne by the corporation.

Audit noticed that advertisement business was being awarded to various agencies having huge overdue amounts for more than 05 years.

Audit is of the view that non-recovery of such a huge amount of receivables is indicative of weak internal.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating non-collection of the long overdue amounts besides fixing responsibility thereof.

Para-60 (PTVC- 2022-23)

10.1.4.34 Loss due to shortage / missing of various equipment - Rs 1.183 million

According to rule 159 of GFR Vol-1, physical verification of all stores should be made at least once in every year under rules prescribed by competent authority, and subject to the condition that the verification is not entrusted to a person– (i) who is the custodian, the ledger, keeper, or the accountant of the stores to be verified, or who is a nominee of, or is employed under the custodian, that the ledger keeper or the accountant; or (ii) who is not conversant with the classification, nomenclature and technique of the particular classes of stores to be verified.

During audit of PTV Lahore center for the year 2022-23, it was observed that various equipment / items valuing Rs 1.184 million were found short/ missing during physical verification of fixed assets conducted as on April 30, 2023. Further, no efforts were found.

Audit is of the view that management had to safeguard its assets properly which was not done. Loss due to shortage/ missing of various equipment was incurred due to poor inventory check and weak managerial controls.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility besides effecting recovery.

Para-25 (PTVC- 2022-23)

Chapter-11

Ministry of Information Technology and Telecommunication

Overview

The Ministry of Information Technology and Telecommunication (MoITT) is the national focal Ministry and an enabling arm of the Government of Pakistan for planning, coordinating and directing efforts to initiate and launch Information Technology and Telecommunication programs and projects aimed at economic development of the country.

Aims & Objectives

The following are the functions of the Ministry of Information Technology and Telecommunications:

- Preparation of an overall integrated plan as well as the formulation of policy for the development and improvement of Information Technology and Telecommunications, including related infrastructure, in Pakistan.
- Co-ordination with the Provincial Governments, autonomous bodies, private sector, international organizations and foreign countries in respect to Information Technology and Telecommunications.
- Human resource development in the field of information technology and telecommunications.
- Promotion of information technology applications.
- Providing guidelines for the standardization of software for use within the Government.
- Planning, policy-making and legislation covering all aspects of telecommunication excluding radio and television and issuance of policy directives.
- Matters relating to the National Information Technology Board and Pakistan Software Export Board.
- All matters relating to National Telecommunication Corporation (NTC), Telecommunications Foundation (TF), Special Communication Organization (SCO), Virtual University (V.U) and Electronic Certification Accreditation Council.
- The administration of the Prevention of Electronic Crimes Ordinance 2007 and the rules made there under.
- Safeguard the interest of Government of Pakistan in entities having public shares or government equity-like PTCL, USF Co. & Information and Communication Technology R&D Co.

Governing Laws and Policies

- The Prevention of Electronic Crime Act, 2016
- Pakistan Telecommunication (Re-Organization) Act, 1996
- ETO Act
- Telegraph Act 1885
- Wireless Act
- SF Rules, 2006

- R&D Fund Rules, 2006
- Rule of Business 1973

11.1 Pakistan Software Export Board (Guarantee) Limited

11.1.1 Introduction

Pakistan Software Export Board (Guarantee) Limited was founded in Pakistan under the Companies Ordinance, 1984 on June 13, 1998, as a company limited by guarantee. It is an apex Government body mandated to promote Pakistan's IT Industry in local and international markets. PSEB facilitates the IT industry through a series of projects and programs in infrastructure development, human capital development, company capability development, international marketing, strategy and research, and the promotion of innovation and technologies to deliver high value-added services and enhance IT and IT-enabled services export from Pakistan. The registered office of the Company is situated at 2nd floor, Evacuee Trust Complex, Sector F-5/1 Islamabad. The company is wholly owned and controlled by the Federal Government through the Ministry of Information Technology.

11.1.2 Comments on Audited accounts

11.1.2.1 The working results of Pakistan Software Export Board for the year 2022-23 as compared to the previous years are as under:

(Rs in million)

Particular	2022-23	%age increase/ (Dec)	2021-22	%age increase/ (Dec)	2020-21
Amortization of deferred grant	522.30	8.22	482.63	324.44	113.71
Federal govt. grant	868.04	170.81	320.54	152.41	126.99
Amortization of deferred grant in kind	30.74	(1.60)	31.24	(1.94)	31.86
Revenue from bandwidth and related services	90.43	35.27	66.85	4.68	63.86
Registration and renewal fee	84.21	(1.70)	85.67	17.66	72.81
Other income	119.91	217.05	37.82	64.72	22.96
Total	1,715.63	67.42	1,024.75	137.11	432.19
Expenditure					
Project cost- deferred grants related to projects	522.30	8.22	482.63	324.44	113.71
Salaries, allowances and benefits	185.7	37.48	135.07	12.33	122.74
Data node bandwidth and related charges	48.99	50.78	32.49	7.19	30.31
Travelling & Conveyance allowance	7.06	14.80	6.15	-	-
Advertisement & publicity	7.04	135.45	2.99	-	-
Communication charges	18.52	270.40	5.00	-	-
Utilities	11.22	55.40	7.22	-	-
Rent, rates & taxes	60.62	156.97	23.59	57.16	15.01
Vehicle running expenses	3.89	21.94	3.19	-	-

Fee & subscription	2.18	24.57	1.75	-	-
Printing & stationery	1.48	(4.52)	1.55	-	-
Exhibition & seminars	279.69	232.45	84.13	-	-
Research studies	3.90	50.00	2.60	-	-
Repair & maintenance	6.88	(6.64)	7.37	32.55	5.56
Industries Skills & Development programs	581.05	765.43	67.14	-	-
Legal & professional charges	10.62	543.64	1.65	-	-
Depreciation	5.75	139.58	2.40	-	-
Depreciation of assets related to deferred grants	30.74	(1.60)	31.24	-	-

11.1.2.2 The total income of the board increased to Rs 1,715.63 million during the year 2022-23 as compared to Rs 1,024.75 million of 2021-22, registering an increase of 67.42% over previous year. The increase was mainly due to increase in Federal Govt. Grant, revenue from bandwidth and related services and other income by 171%, 35% and 217% respectively. The formation is still relying on government grant, efforts needs to be made to increase the revenue from its core activities to made the formation a self-reliant organization.

11.1.2.3 Accrued liabilities as on 30th June, 2023 increased to Rs 23.12 million against Rs 11.72 million in the year 2021-22. The figure is silent by means of notes, detailed breakup along with current status may be provided. Early clearance of said liability is stressed upon the management.

11.1.2.4 Trade and other payable increased from Rs 63.17 million in 2021-22 to Rs 104.56 million in 2022-23 registering an increase of 65.52% over previous year. Detailed breakup of these liabilities needs to be provided along with early clearance of liabilities.

11.1.2.5 Legal & professional charges increased to Rs 10.62 million in 2022-23 from Rs 1.65 million in 2021-22 registering an increase of 544% over previous year. The huge increase under the head needs justification.

11.1.2.6 During the year utilities expenses increased from Rs 7.22 million in 2021-22 to Rs 11.22 million in 2022-23. The Federal Government in Austerity Measures for the year 2022-23 categorically desired that the utilities expenses may be cut down by 10% at least, despite clear cut directions of the government, utility expenses increased by 55.40% in PSEB which needs to be explained.

11.1.2.7 Expenditure under the heads Advertisement & Publicity and Rent, Rates & taxes increased by 135% and 157% to Rs 7.04 million in 2022-23 (2021-22 – Rs 2.99 million) and Rs

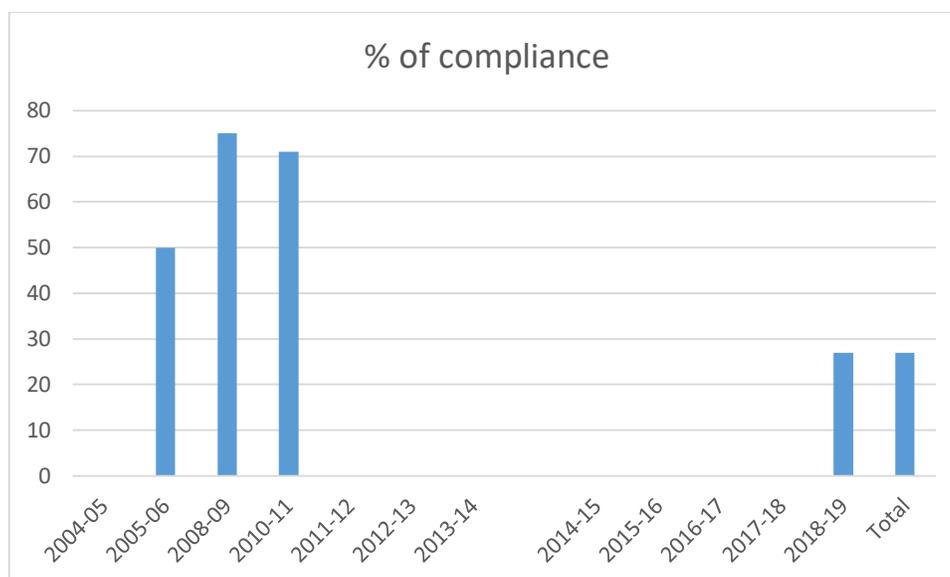

60.61 million in 2022-23 (2021-22 – Rs 23.59 million) respectively. The figure is silent by means of notes; abnormal increases under the heads need justification.

11.1.2.8 There was abnormal increase in expenditure under the head Industry Skills and Development Programs by 765% to Rs 581.05 million in 2022-23 (2021-22 – Rs 67.14 million). The figure is silent by means of notes; abnormal increase under the head needs justification with reference to benefit and beneficiaries of the programs.

11.1.2.9 Expenditure under the head Exhibition and Seminars increased by 232% to Rs 279.69 million in 2022-23 (2021-22 Rs 84.13 million). Figure is silent by means of notes; abnormal increase under the head needs clarification with regard to each Exhibition and Seminar and expenditure their against.

11.1.3 Compliance of PAC Directives

Sr. No.	Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	% of compliance
1	2004-05	01	0	01	82	-
2	2005-06	02	01	01	159	50
3	2008-09	04	03	01	147	75
4	2010-11	17	12	05	13.1.4.3, 13.1.4.5, 13.1.4.8, 13.1.4.9, 13.1.4.10,	71
5	2011-12	03	0	03	11.1.2.1, 11.1.3, 11.1.4.1	0
6	2012-13	03	0	03	11.1.2.1, 11.1.3, 11.1.4.1	0
7	2013-14	03	0	03	10.1.2.1, 10.1.3, 10.1.4.1	0
8	2014-15	09	0	09	11.1.2.1, 11.1.2.2, 11.1.2.3, 11.1.2.4, 11.1.2.5, 11.1.2.6, 11.1.2.7, 11.1.2.8, 11.1.3	0
9	2015-16	07	0	07	10.1.2.1, 10.1.2.2, 10.1.2.3, 10.1.2.4, 10.1.2.5, 10.1.2.6, 10.1.3	0
10	2016-17	04	0	04	9.1.2, 9.1.3, 9.1.4.1, 9.1.4.2	0
11	2017-18	07	0	07	12.1.2.1, 12.1.2.2, 12.1.2.3, 12.1.2.4, 12.1.2.5, 12.1.2.6, 12.1.3	0
12	2018-19	11	03	08	11.1.4.1, 11.1.4.2, 11.1.4.3, 11.1.4.5, 11.1.4.7, 11.1.4.8, 11.1.4.10, 11.1.4.11,	27
Total		71	19	52		27

Overall compliance with the PAC directives was very poor which requires immediate attention of PAO.

11.1.4 Audit Paras

11.1.4.1 Irregular execution of projects without preparation of PC-I - Rs 1,168.00 million

According to Section-10.1(v) of Guide Lines for Project Management issued by Project Wing, Planning Commission, Government of Pakistan no project under directive of any authority is started without proper preparation of PC-I/PC-II and relevant competent forum.

During audit of PSEB for the year 2021-22, it was observed that Board of Directors in its 48th Meeting held on 23rd November 2021 approved the following project involving cost of Rs 1,168.000 million.

S. No.	Name of the Project	Date on which the project was started.	Amount Approved by BOD (Rs in million)	Expenditure incurred up to March 2023 (Rs in million)
01	IT Industry Academia Bridge Program (Training to University enrolled students on latest technologies & training of the Teachers.	May 2022	418.00	109.070

02	Boot Camp for unemployed ICT Graduates	June 2022	550.00	88.943
03	Imparting of soft skills to Industry Professionals.	July 2022	200.00	-
Total: -			1,168.00	198.013

According to the project management guidelines issued by the Government of Pakistan, the above projects were required to be started after preparation of proper PC-I/PC-II but the same were started without preparation of PC-I/PC-II.

Audit is of the view that starting and execution of projects involving funds of Rs 1,168.000 million without following the guidelines issued by the Government was irregular. It is further to be added that an amount of Rs 198.013 million had been incurred up to March 2023 for the execution of the above projects which was also held irregular and needed justification.

Matter was reported to the management through AIR. Management in its reply dated 08.11.2023 stated that the projects mentioned in the audit para were not being funded from PSDP. Furthermore, the above mentioned projects were in line with the memorandum of PSEB object clause-5 and PSEB Board was empowered to approve the initiation of the said projects.

Reply is not tenable because the guidelines for Project Management issued by Project Wing, Planning Commission were required to be observed due to the reasons that all funds were provided by the government.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends to explain the reason for non-making of PC-I may be explained.

Para-23 (PSEB-2021-22)

11.1.4.2 Irregular drawl of funds from assignment account for advance payment - Rs 105.593 million

According to F. T. Rules 290, no money shall be drawn from the treasury unless it is required for immediate disbursement. It is not permissible to draw money from the treasury in anticipation of demands or to prevent the lapse of budget grants.

According to Para-8 of Finance Division letter No.F.15913)-R14/82 dated September 05, 1982 the funds provided, acquired or generated by autonomous /semi-autonomous bodies and corporations are public funds, which cannot be utilized at the sole discretion of the management. The funds should be utilized with due care and caution strictly in accordance with prescribed rules.

During audit of PSEB for the year 2021-22, it was observed that the Government of Pakistan provided funds for the execution of various PSDP funded Projects. For the purposes management was maintaining assignment accounts. Instead of actual utilization of funds for the purposes for which the funds were provided, management withdrew funds of Rs 105.593 million from treasury for making mobilization advance to various companies during the period June 2020 to June 2021. The detail of which is given below:

S.#	Name of PSDP Project	Name of company	Date	Voucher No.	Narration	Amount Advances (Rs)
01	Certification of IT Professionals	The Capital Technologies.	19-Jun-2020	CITBPV-2	20% mobilization advance issued against CMMI Training & Consultancy.	53,610,144
02	-do-	Phalia International Pvt Limited	26-Jun-2020	CITBPV-3	20% mobilization advance issued against certification /trainings of IT participants	24,500,000
03	-do-	Stepnex Services	31-Aug-2020	CITBPV-12	20% mobilization advance issued against IT certification & trainings.	24,502,500
04	Enhancing of IT Export.	Quality Assurance Institute.	18-Jun-2021	EITE BPV-5	20% advance payment issued against CMMI Level-2 Appraisal Services of 5	2,980,000
Total: -						105,592,644

According to the above provisions of rules no money was to be drawn from the treasury unless it was required for immediate disbursement. Further it was also not permissible to draw money from the treasury in anticipation of demands or to prevent the lapse of budget grants. Thus, action of the management was not in line with the provisions of rules and directives of the GoP.

Audit is of the view that drawl of funds of Rs 105.593 million in violation of rules and directives of the GOP was irregular. It is also to mention here that a period of more than 2 years the said mobilization advance was not yet been adjusted by the PSEB management.

Matter was reported to the management through AIR. Management in its reply dated 08.11.2023 stated that in exercise of power delegated by Ministry of Information Technology to Project Director vide letter No F. No 7-5/2019-ACP dated January07, 2020 and with reference to “System of Financial Control & Budgeting” vide SRO No. 285 (10/2021) of March 08, 2021, the project director had been authorized to approve payments keeping in view the requirements for smooth running of the project. Furthermore, according to Accounting Policies and Procedures Manual clause 4.2.15.1 “Payment must not be made in advance unless it is required by the agreement with the supplier and supported by a bank guarantee for the value of the advance.” In the case of the mobilization advances in question the terms of the contract dictated for the provision of such advance which PSEB secured against bank guarantee/insurance guarantee of equal value.

Reply is not tenable because the payment was made against the directives of the Finance Division.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends that the reasons for with-drawal of funds from treasury for making advance payment and non-adjustment thereof may be investigated/inquired.

Para-24 (PSEB-2021-22)

11.1.4.3 Loss of revenue income charges due to non-renewal of registration of IT companies - Rs 39.670 million

According to Section-III (16) of Memorandum of Association of Pakistan Software Export Board one of the objectives for which the company is established is to receive money, without interest, by way of penalty, fines subscriptions, entrance or membership fees, rents from members, companies or any other persons for the objects of the company and to put the same to any use deemed fit.

According to fee structure renewal charges are determined by the annual revenue earned by the respective company during last financial year as per details given below:

Rs 10, 000	Companies with annual revenue upto Rs 50 million
Rs 15, 000	Companies with annual revenue upto Rs 50-100 million
Rs 20, 000	Companies with annual revenue upto Rs 100-300 million
Rs 25, 000	Companies with annual revenue upto Rs 300-600 million
Rs 30, 000	Companies with annual revenue upto Rs 600 million

During audit of PSEB for the year 2021-22, it was noticed that as per registration policy IT companies, call centers and Free Lancers were being registered with PSEB for 01-05 years. According to available data, 7,574 IT companies were registered with Pakistan Software Export Board, out of which registration of 3,967 IT companies had expired and neither efforts from management been made to renew their registration nor the said companies renewed their registration. Due to non-renewal of registration/membership of the IT Companies, PSEB was suffering loss to the extent of Rs 39.670 million (i.e. 3967x Rs 10,000 minimum renewal charges).

Audit is of the view that management failed to optimize their main revenue source i.e. registration and its renewal fee from their members/registered companies due to non-formulating efficient and effective marketing strategy and renewal policy. Had the registration of registered member companies been timely monitored, loss of Rs 39.670 million could be avoided.

Matter was reported to the management but no reply was received.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends that reasons for non-renewal of registration of IT companies may be enquired. Exact total numbers of IT Companies, Call Centers and Free Lancers having valid registration, expired registration and closed case may also be shared with audit. Category wise renewal charges against each of

IT Companies, Call Centers and Free Lancers may be calculated and shared with Audit. Early renewal of registration may be made to avoid losses.

Para-33 (PSEB-2021-22)

11.1.4.4 Unauthorized award of study work to non-entitle firm - Rs 33.750 million

According to Request for Proposal (RFP) for conducting study on “Impact of International Certification on IT and ITes Industry” regarding Mandatory Technical evaluation criteria vide Sr. No.2 Applicant Company should have valid NTN and GST certificate issued by the competent authority. Further at least one key consultant of the applicant company must have completed CMMI Certification.

During audit of PSEB for the year 2021-22, it was noticed that a Tender No. A (01)/PSEB/2021-14 for conducting local study titled “Study on Impact of International Certification on IT Industry” was floated in the Newspaper on 26.05.2021 with closing date June 15, 2021. Two firms i.e. M/s. I-Consultant Pvt. Ltd and Lune sys Pvt. Ltd participated in the bidding process. Both of firms were technically qualified by the Technical Evaluation Committee on 15.06.2021 and afterwards financial bids were opened and M/s Lune sys Pvt. Ltd being the lowest was awarded the above said research study contract. Accordingly work order dated October 04, 2021 valuing Rs 33.750 million inclusive of all taxes was issued to the firm with delivery time of 112 days.

It was noticed that as per mandatory criteria at S. No. 2 of RFP, bidders were required to submit valid NTN and GST registration duly issued by the competent authority i.e. FBR. Whereas M/s. Lune sys Pvt. submitted online enquiry and did not show GST and NTN validation of the firm. Thus in the absence of valid GST/NTN valid certificate, the award of research study contract valuing Rs 33.750 million tantamount to undue favor to the contractor at the cost of Govt. funds and was held irregular in Audit.

Furthermore, after award of contract one of the approved CMMI consultants against Technical bids also left M/s Lune Sys Pvt. Ltd due to some business dispute. The management also approved such unauthorized change vide procurement committee meeting held on October 16, 2022. It is to be mentioned here that for change of CMMI consultant, no provision was existed in the signed agreement. Due to the very reason the progress towards completion of research study was badly affected and only two milestones could be achieved upto June 2023.

Audit is of the view that change of approved consultant in violation of technical evaluation criteria was un-authorized and tantamount to undue favor to the selected firm at public exchequer.

Matter was reported to the management through AIR. Management in its reply dated 08.11.2023 stated that a copy of (online) NTN certificate was attached as reference. Further, management replied that CMMI consultant was replaced on the request of M/s LUNESYS (Pvt.) Ltd through its letter dated July 07, 2022. The procurement committee members reviewed the request and after due deliberation to the subject matter, the procurement committee in its meeting held on October 18, 2022 allowed replacement of CMMI consultant on the condition that new entrant consultant must possess at least equal or more qualification and experience as compared to retiring consultant which was more than that of earlier.

The reply is not tenable because the management provided taxpayer profile inquiry dated October 30, 2023 instead on the date when the bidding process was done. Further the replacement of consultant was made without having any provision in technical evaluation criteria.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends to investigate the matter at appropriate level. Fix the responsibility on person(s) at fault

Para-40 (PSEB-2021-22)

11.1.4.5 Irregular transfer of funds from assignment account to other accounts - Rs 20.733 million

According to F. T. Rules 290, no money shall be drawn from the treasury unless it is required for immediate disbursement. It is not permissible to draw money from the treasury in anticipation of demands or to prevent the lapse of budget grants.

According to Controller General of Accounts Office Letter No. 574/CGA/AC-IV/I-I/2011 dated 20th June, 2012 and para-2 (VI) of the Revised Procedure for Operation of Assignment Accounts, the transfer of funds from the assignment account for deposit into chest or any bank account is completely forbidden. Moreover, as per O.M of the Finance Division (Expenditure Wing) issued vide No.F.2 (2)-BR-II/2008-695/2017, dated: 16-06-2017, Principal Accounting Officer of the concerned Ministry will ensure that no such transactions take place. In case of any deviation/violation from the prescribed procedure, the head of the organization and officers/officials of AGPR will be held responsible and a case will be forwarded to be proceeded under E&D rules against all concerned.

During audit of PSEB for the year 2021-22, it was observed that the management remained in a practice to transfer all funds on account of Medical allowance and leave encashment from Assignment Account and deposit it into other bank accounts and then incurred expenditure from those accounts even after close of the financial year. Year wise summary of funds transferred from assignment accounts to other accounts is given as under:

Financial Year	Description	Amount Transferred (Rs)
2021-22	Medical allowance	5243,898
2021-22	Leave encashment	15,489,090
Total		20,732,988

Audit is of the view that the transfer of funds from assignment account to other account is violation of Revised Procedure for Operation of Lapse-able Assignment Account which was held irregular and needed justification.

Matter was reported to the management through AIR. Management in its reply dated 08.11.2023 stated that PSEB service regulations under its chapters medical and leave regulations provide annual limits/ceilings of medical for each entitled employee for reimbursement of medical expenses and carrying forward of un-utilized balance to the succeeding years and encashment of un-utilized/carried forward balance on severance/termination of employment. Similarly, leave regulations under annual/earned leave clause provides that accumulated leave shall be en-cashed at the time of severance of employment and encashment of leave shall be made on the last basic salary drawn by the officer plus maximum entitlement of house rent as approved by the competent authority per month. Consequently, PSEB was under obligation to fulfill its commitments by paying carried forward balance of unutilized medical ceiling/limits and accumulated annual/earned leaves upon termination/severance of employment. It is important to note that PSEB operates with limited financial resources and relies on an annual government grant that lapses if not fully utilized. Given these financial constraints and the absence of alternative funding sources for settling severance benefit liabilities, PSEB included the provision for medical and accrued leave payments in its annual budget with the approval of BOD.

Reply is not tenable because the action of management was in disregard to the above quoted operating procedure for assignment account.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends to fix responsibility on the person(s) at fault. Further, irregular practice may be stopped forthwith

Para-35 (PSEB-2021-22)

11.1.4.6 Irregular appointment of Managing Director – Rs 15.358 million

According to advertisement published on May 12, 2019”, the candidates having MS degree in computer Science/Electrical/Electronic Engineering and or Master Degree in Marketing/Management /Business Administration /IT from HEC recognized university (minimum 18 years of education) along with 15 years’ relevant professional experience with minimum five years in senior leadership role.

During audit of PSEB for the year 2021-22, it was observed that the post of Managing Director was advertised twice without any cogent reason. In response of earlier advertisement dated 12.05.2019 total 49 candidates applied for the post. As per scrutiny statement of selection committee only 06 candidates met the criteria for the post whereas remaining candidates were rejected due to not meeting the criteria specified in the advertisement. The management was required to appoint and select one of them but for un-known reasons, the complete hiring process was stopped and it was decided to re-advertise the post.

The post was re-advertised on 15.09.2019 and according to advertisement the education qualification was changed from 18 years to 16 years and relevant professional experience from 15 years to 12 years with minimum five years in senior leadership role. As per their report, out of 141 applicants 25 candidates were shortlisted. The evaluation/selection committee under the Chairmanship of the then Federal Minister for Information Technology interviewed the candidates and Mr. Usman Nasir was stood 1st. Subsequently Mr. Usman Nasir was appointed as Managing Director PSEB in MP-I scale at monthly

pay package of Rs 650,510 for a period of two years vide appointment letter dated August 10, 2020. It is worth mentioning that in response of earlier advertisement dated 12.05.2019 Mr. Usman Nasir had also applied for the post and as per remarks of scrutiny short-listing committee, the said candidate did not meet the advertisement criteria as the post qualification was less than the required experience of 15 years. Further probe in to the matter, revealed that rejection of recruitment process and subsequent advertisement was tailor made only for the benefit of particular candidate by giving undue favor.

Thus, it is evident that the officer was not eligible for appointment even for short-listing as the candidates having more experience were available in the list applied for the post who were ignored.

In the light of above position, it could be concluded that the management granted undue favor to the officer by violating the merit. Thus, the appointment of the officer and payment of Salary Rs.15.358 million was held irregular in Audit.

Matter was brought to the notice of the management through AIR. Management in its reply dated 08.11.2023 stated that in order to attract larger pool of candidates with relevant experience in International Marketing, the post was re-advertise with change in required qualification from eighteen years to sixteen years, reduction in post qualification experience from fifteen (15) years to twelve (12) years and extension in applications submission deadline from fifteen (15) to thirty (30) days with approval of BOD granted in 41st BOD meeting.

The reply is not convincing because the post was re-advertise by degrading the required qualification and experience for the post of MP-I scale. Further the individual concerned had also applied for the post against first advertisement dated 12.05.2019 and at that time he was not shortlisted due to not meeting the criteria and post was re-advertised according to qualification and experience which he possessed.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends to inquiry may be conducted regarding irregular appointment. Responsibility may be fixed on the person(s) at fault.

Para-16 (PSEB-2021-22)

11.1.4.7 Irregular excess payment of house rent allowance @ 45% of the running basic to staff – Rs 6.188 million

According to Rule 3(1) of PSEB Service Regulation House Rent Allowance @ 45% of the basic pay is admissible to all employees.

Furthermore, Board of Directors in its 48th meeting held on November 23,2021 approved house rent allowance to their employees at the rate of 45% of basic pay w.e.f January 01,2022.

During audit of PSEB for the year 2021-22, it was noticed that the management granted House Rent Allowance @ 45% of running basic pay to all of their employees instead of initial basic pay as required. Accordingly, the management paid House rent allowance of Rs 6.188 million to its 37employees for a period up to June 2022.

Audit is of the view that the management made irregular payment to their employees by giving House Rent Allowance @45% at running basic pay instead of initial basic pay by violating board decision/service rules as well as Federal Government practice.

Matter was reported to the notice of the management through AIR. Management stated in its reply dated 08.11.2023 that the PSEB is giving house rent allowance to its employees as per rules and no violation has been made. PSEB is paying this allowance since its incorporation in 1998 and no objection was ever raised by Commercial auditors since then although commercial audit is carried out every year.

The reply is not tenable because as per Corporate Governance Rules -5 (11), the Board shall ensure compliance with policy directions received from Government from time to time. Further, all employees of PSEB were getting 45% of the basic pay as house rent allowance.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends investigating the matter besides affecting the recovery.

Para-26 (PSEB-2021-22)

11.1.4.8 Irregular re-employment of an officer after retirement on superannuation - Rs 5.80 million

According to Govt. of Pakistan, Establishment Division O.M.No.4/1/84-R-I, dated 02.09.1990, all Ministries/Divisions were requested to adhere to the instructions issued by the Establishment Division and not to allow any officer to continue in service beyond the age of superannuation or contractual appointment without prior approval of the competent authority i.e. prime minister. Further, as per policy guidelines for contract appointments in autonomous/semi-autonomous bodies/corporation, issued by the Government of Pakistan, Establishment Division vide O.M No. 6/2/2000-R.3, dated 6th May 2000, the post should be advertised.

During the audit of Pakistan Software Export Board (PSEB) for the year 2021-22, it was observed that Mr. Talib Hussain Baloch, Director Finance was retired from service on March 10, 2022 after attaining the age of superannuation. The officer was granted extension by the BoD in its 50th board meeting held on

March 25, 2022 on the same post and same salary drawn before retirement for a period of one year. Accordingly, he was paid an amount of Rs 5.80 million up to December 2022.

Audit observed that the re-employment of the officer after superannuation and without advertising the post was irregular as the officer was re-employed on the same post without any approval of Prime Minister. Thus payment of Rs 5.80 million on account of pay and allowances was held irregular in audit.

Matter was brought to the notice of the management through AIR. Management in its reply dated 08.11.2023 stated that the extension of the said employee beyond the age of superannuation was duly approved by the Board in its 50th Board meeting held on 25.03.2022 on the recommendation of HR in line with PSEB Service Rules vide Clause 4 of Chapter "Severance of Employment".

Reply of the management did not hold well because according to Section 5 (11) of Corporate Governance Rules 2013 the Board shall ensure compliance with policy directions received from Government from time to time. In this case Board did not comply with directives of the Government.

Further according to the service rules of PSEB the case for extension was required to be referred to the Board of Directors with full justification well in time. If approval of the Board of Directors is not received before the person has completed his/her current tenure of service, he/she will not be granted an extension and will automatically stand retired. The employees were retired from service on 10.03.2022 and board granted approval for extension on 25.03.2022 which showed that the approval of the BOD was received after the completion of his current tenure of service and he was not be granted an extension and will automatically stand retired.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends to the matter needs to be investigated at appropriate level. Fix the responsibility on person (s) at fault. Regularize the irregularity from authority.

Para-13 (PSEB-2021-22)

11.1.4.9 Irregular expenditure on account of foreign visits – Rs 2.602 million

The Government of Pakistan Cabinet Division, Islamabad vide O.M. No. F-9-148/2002-Min dated February 19, 2003 prescribe the following procedure for visit abroad for official/officers working in autonomous bodies:

- i. In case of officer of BPS-20, and above the approval of the Minister In charge will be necessary with prior clearance by the Ministry of Finance.
- ii. At the conclusion of a foreign visit, the delegation/official shall submit post visit report to the Ministry of Foreign Affairs and Economic Affairs Division within 15 days of the completion of visit.
- iii. All cases of visits abroad will require clearance from the Ministry of Foreign Affairs.

During audit of PSEB for the year 2021-22, it was observed that certain foreign visits were performed by the Managing Director and other officers of PSEB during the period under review. An amount

of Rs 2.602 million was spent on this account. It was however observed that neither the approval of the Competent Authority as mentioned above nor post visit reports on the return from visit, were submitted. Thus, the expenditure of Rs 2.602 million incurred on the foreign visits without observing the Government procedure was held irregular in Audit. It was further observed that there was no such practice in the company for obtaining approval for foreign visits from the relevant competent authorities' i.e. Ministry of Foreign Affairs and Finance Division.

Matter was brought to the notice of the management through AIR. Management in its reply dated 08.11.2023 stated that all international travel of PSEB staff had been carried out from PSEB's Self-Generated Funds with the approval of Managing Director by exercising the powers delegated to him by the BOD. Furthermore, in case of travel by the Managing Director, PSEB according to Cabinet Division's Instructions dated 26th October, 2018. Minister Incharge shall be competent to accord approval for travel of officers in BPS-20 and above and their equivalent working in Autonomous/Semi-Autonomous Bodies where no Government Grant funding is involved. In such cases, Foreign Affairs Division was duly notified and NOC sought by the Ministry of IT and Telecommunication.

Reply is not acceptable because the NOC from Foreign Affairs Divisions and proof of utilization of self-generated funds were not found attached with reply. Further management reply was also silent about submission of post visit report to the Ministry of Foreign Affairs and Economic Affairs Division which was necessary.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends to investigate the reasons of performing foreign visits in violation of the government prescribed procedure. Fix responsibility thereof.

Para-14 (PSEB-2021-22)

11.1.4.10 Irregular appointment of Director (Skills and Capacity Development) - Rs 2.906 million

According to advertisement published on April 26, 2022 the candidates having minimum 16 years of education in engineering, computer sciences or management disciplines from HEC recognized local or international university, preferably with a higher degree in management engineering management or business administration. Minimum 7 years of experience in public sector initiatives preferably building and management skills development programs or alike public sector programs. Candidate should also have ability to understand stakeholders and eco system of IT/ITES & freelance sectors in line with strategic vision of the Federal Government's ongoing initiatives.

During audit of PSEB for the year 2021-22, it was observed that the management advertised the post of Director Skills and Capacity Development on April 26, 2022. In response to advertisement, 246 applications received out of which 07 applicants were shortlisted for interview. Accordingly, shortlisted candidates were interviewed by the selection committee and finally Mr. Raza Ahmed Sukhera was appointed as Director Skills and Capacity Development till further orders vide appointment letter dated June 29, 2022 @ monthly pay package of Rs 484,430 with other benefits.

During scrutiny of record audit observed the following discrepancies:

1. The incumbent had no relevant experience; his past experience was 09 years in Ministry of IT& Telecommunication on Ignite National Technology strength as Deputy Manager Project having no sufficient experience in Managing Skill Development Program in the field of IT as required for the post. As per C.V details his experience was in the field of Internal Audit and he assisted to PSEB and MOIT in other fields. Furthermore, experience mentioned for the post of other 04 Directors appointed during the period was 08 years whereas the experience for Director Skill and Capacity was 07 years which indicate that un-due favor was extended to the officer.
2. As per offer letter, the candidate was required to get medical fitness certificate before joining which was also not done.
3. Educational degrees and certificates were also not verified thorough HEC as required from respective universities and Board.

In the light of above position, it can be concluded that the management granted undue favor to the officer by violating the merit. Thus, the appointment of the officer and payment of Salary Rs 2.906 million (6 Months i.e. up-to December 2022 x Rs 484,430) was held irregular in audit.

Matter was reported to the management through AIR. Management in its reply dated 08.11.2023 stated that the Mr. Raza Ahmed Sukhera possessed 18 years of education, and his selection was made on a 16-year of bachelor's Hons. in Business Administration earned in 2009. The incumbent holds around 14 years' experience out of which 9 years' experience is related to working at senior level at MOITT at Joint Director Policy managing public sector initiatives/ programs. He worked in Ministry as Joint Director of Policy & Sector Growth where he not only took part in public sector initiatives but also led different skills initiatives, freelancers' policy and other tasks assigned by the top management.

Reply is not tenable because no proof of his experience was attached with the reply. Further his Minimum 7 years of experience in public sector initiatives preferably building and management skills development programs or alike public sector programs. Management also did not mention the reasons for reducing the period of experience as 7 years for Director Skill and Capacity Development against 8 years for other posts of Directors.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends to inquiry showed be conducted regarding irregular appointment and responsibility be fixed thereof

Para-20 (PSEB-2021-22)

11.1.4.11 Irregular appointment of Project Manager – Rs 2.187 million

According to PC-1 of the project titled "ICT intern ship Program" the candidates for the post of Project Manager having minimum 16 years of education in Business /Project Management/information Technology /Telecom Engineering or relevant from a reputable university recognized by HEC, Project

Management Resource (PMP) certificate is plus point and with minimum of 07 years of relevant project management experience.

During audit of PSEB for the year 2021-22, it observed that the management advertised the post of Project Manager on June 23, 2021 for project titled "ICT interim ship Program". In response to advertisement 183 applications were received out of which 14 applicants were shortlisted for interview by the short-listing committee. Accordingly, the candidates were interviewed by the selection committee and finally Choudhry Asad Kamal was appointed as Project Manager vide appointment letter dated November 12, 2021 @ monthly pay package 175,000 (all inclusive), 5% annual increment would be given based on performance w.e.f 15.11.2021.

During scrutiny of record the following short-coming were noticed by audit:

1. The qualification possessed by the officer was Bachelor of Computer Science (Hons), most of the contents of his degree did not cover Project management/Information Technology/Telecom Engineering as required for the post already advertised. Furthermore, he also did not possess Project Management Resource Certificate.
2. As per C.V record he served as Manager Software Development from November 2015 to November 2021, in Posi scan Company which did not cover relevant project management experience for the post as required. Furthermore, the experience certificate did not show any credibility/authenticity as having no proper monogram of the company, complete address, contact number and other information, which created doubt about his experience.

In the light of above, it can be concluded that the officer was not eligible for the post as neither he possessed required qualification nor had relevant experience as per requirement mentioned in advertisement. The whole process of selection indicated that the management granted undue favor to the officer by violating the merit criteria. Thus, the appointment of the officer and payment of Salary Rs 2.187 million was held irregular in audit.

Matter was reported to the management through AIR. Management in its reply dated 08.11.2023 stated that the Mr. Asad Kamal possessed 16 years of education with a degree in Computer Science which falls in the relevant category of Information Technology. Hence, he met the qualification criteria. The individual worked on different research-related initiatives while working for Air University as a Research Associate from 2007 until the appointment, he worked on various technical initiatives for multiple software businesses.

Reply is not tenable because neither any proof of his experience is attached with reply nor verification of experience certificate was done. Further the management in its reply stated that the officer worked on different research-related initiatives while working for Air University as a Research Associate from 2007 until the appointment which was also not correct because as per CV, he worked for the post of Research Associate only from 2005 to 2007.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends to investigate the matter regarding appointment of irrelevant officer in violation of the given criteria

Para-21 (PSEB-2021-22)

11.1.4.12 Irregular payment of annual increment on running basic pay – Rs 1.145 million

The PSEB Board in its 48th meeting held on November 23, 2021 approved the revision of salary structure and fixed annual increment @ 10% of the initial basic pay w.e.f. January 2022 as per detail given below:

Position	Salary package limit (Rs)
CMO/CCO/CIDO/CF&AO	310345-10%-517241
Directors/Company Secretary	275862-10%-339078
Managers	173,973-10%-260179
Asstt. Managers/Coordinators	89420-10%-130065
Secretary to MD	89420-10%-130065
Assistt. Officers	67484-10%-93935
Assistants	43947-10%-62011
Receptionist	35000-10%-37,108
Clerk	30000-10%-37108
Drivers	25000-10%-37108
Naib Qasid	20000-10%-37108
Maintenance staff	18000-10%-37108

During audit of PSEB for the year 2021-22, it was observed that the management did not observed the board decision while implementing the rate of annual increment. The management granted annual increment on the running basic instead of initial basic pay. As per practice of the Govt. annual increment

was allowed at initial basic pay or at fixed prescribed rate. Thus, payment of annual increment that allowed by the management was not covered under any rules.

Therefore, payment of Rs 1.145 million on account of annual increment was held irregular in audit.

Matter was reported to the management through AIR. Management in its reply dated 08.11.2023 stated that PSEB is an autonomous body and Civil Servant Rules 1973 does not apply to PSEB. PSEB has its own Service Regulations. This was evident from the fact that annual increments provided by the Federal Government in Annual Budget every year had never been provided to PSEB employees.

The reply is not tenable because BOD approved annual increment on initial basic pay. Further the PSEB is a government funded organization on that basis approval from government was required to be obtained.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends to matter regarding un-authorize/irregular payment needs to be justified. Exact financial impact of rate of increment may be calculated since adopting such practice besides affecting recovery.

Para-27 (PSEB-2021-22)

11.1.4.13 Irregular/unauthorized payment of leave encashment - Rs 2.835 million

According to Section-8 of revised format for contract appointments circulated by Cabinet Secretariat (Establishment Division) OM No.F.10/52/95-R.2 dated 18.07.1996 all leaves at the credit of contract employee will lapse on the termination of the contract.

During audit of PSEB for the year 2021-22, it was noticed the management of PSEB paid an amount of Rs 2.835 million under the head of account of Leave Encashment at the rate of last basic salary drawn by the officer plus maximum entitlement of House Rent per month to the under mentioned contractual employees on the termination/expiry of contract.

S#	Name of employee	Designation	Amount (Rs)	Payment date
01	Muhammad Naveed	Assistant Admin Officer	40,987	27.04.18
02	Saif-ur-Rehman	Director Project	672,854	15.10.18
03	Ali Muhammad Awan	Accounts Asstt.	293,290	12.03.19
04	Tayyaba Ameer	Admin Asstt.	63,075	20.04.20
05	Abdul Khaliq	Driver	242,035	07.07.20
06	KhursheedBangash	Manager Admin & HR	818,041	26.03.21
07	HashimYasin	Asstt. Marking Officer	357,535	21.04.21

08	TehleelMumtaz	Executive Secretary	152,653	07.12.21
09	Maryum Khan	Marketing Officer	157,695	14.12.21
10	Tayyaba Ameer	Asstt Admin Officer	37,120	22.06.22
Total:-			2,835,285	

As per above referred letter of Establishment Division at the time of termination/expiry of contract the leave at the credit of above contractual employees was required to be treated as lapsed but the management paid encashment against credit balance of leave to the said employees which was a violation of directives issued by the Government and in disregard to standard terms and conditions of contract employment.

Audit is of the view that leave encashment amounting to Rs 2.835 million was paid in violation of directives of the Federal Government and was held irregular/unauthorized.

Matter was reported to the management through AIR. Management in its reply dated 08.11.2023 stated that all leave encashment was paid to PSEB employees as per rules and no violation was made. The auditors' stance by referring Establishment Division's rule is incorrect as PSEB being an autonomous body had its own service regulations and all the benefits paid to the employees were according to the law.

Reply is not tenable because the directives of Establishment Division are necessary to be observed.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends to recover the amount from the concerned employees or person(s) held responsible for making such irregular/unauthorized payment. Further calculate the total amount paid under the head leave encashment since inception to date and recover the same.

Para-37 (PSEB-2021-22)

**11.1.4.14 Irregular/unauthorized payment of medical re-imburement -
Rs 1.090 million**

According to medical regulations of PSEB all employees shall be entitled to free medical facilities in respect of themselves and members of their families. For the purposes an entitled employee may utilize his/her reimbursement for medical consultations, purchase of medicines, dental and/or ocular treatment all types (optometry excluding optical frames), and hospitalization of self and/or dependents. Limits for reimbursement of medical expenses are defined as under:

S #	Designation	Entitlement of medical re-imburement per years
01	Managing Director/ Director	As per employment contract
02	Project Managers & Senior Project Managers.	60% of one month's pay
03	Project Coordinators, Project Officers, Administrative/Accounts Officer	80% of one month's pay or Rs 17,500 whichever is higher.
04	Secretarial, clerical and other support staff	One month's pay plus Rs 5,000

Regulations further state that the call for cost of medicines shall be supported by a prescription and a cash memo and presented on prescribed form. Any amount in balance in an employee's limit will be allowed to be carried forward to the succeeding years, and would be encashed on termination of the employment.

During the audit of Pakistan Software Export Board, Islamabad for the year 2021-22 it was noticed that the management of PSEB paid an amount of Rs 1.090 million under the head medical re-imburement to the under mentioned contractual employees on the termination/expiry of contract.

S#	Name of employee	Designation	Amount (Rs)	Payment date
01	Muhammad Naveed	Assistant Admin Officer	13,688	27.04.18
02	Ali Muhammad Awan	Accounts Asstt	177,876	12.03.19
03	Tayyaba Ameer	Admin Asstt	000,836	20.04.20
04	Hashim Yasin	Asstt. Marking Officer	460,840	21.04.21
05	Tehleel Mumtaz	Executive Secretary	044,315	07.12.21
06	Nasir Khan Afridi	Director Infrastructure	392,794	09.03.22
Total:-			1,090,349	

As per medical regulations of PSEB and Medical Attendance Rules, the claim for reimbursement should be supported by Voucher/non-availability certificate duly countersigned by the "Authorized Medical Attendant". The non-availability certificate had to be issued only when it was verified that the medicines prescribed were not available in the hospital/dispensary stock. But, the management of PSEB paid an amount of Rs 1.090 million under the head medical re-imburement to the employees without necessary supporting documents at the time of termination of their contracts.

Audit is of the view that as per PSEB Medical Regulations, all employees shall be entitled to free medical facilities in respect of themselves and members of their families. Hence payment of medical reimbursement amounting to Rs 1.090 million was paid in disregard to the fundamental rules and without supporting documents was held irregular/unauthorized.

Matter was reported to the management through AIR. Management in its reply dated 08.11.2023 stated that the medical re-imburement paid to highlighted employees was the medical balance which was paid as severance benefit to the employees who resigned/deceased. The medical attendance rule referred by the auditor was not applicable to PSEB as Autonomous body. PSEB had its independent rules.

Reply is not tenable because action of management was against the provisions of PSEB own regulations.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends to recover the amount from the concerned employees and person(s) held responsible for making such irregular/unauthorized payment. Further calculate the total amount paid under the head medical re-imburement since inception to date and recover the same.

Para-38 (PSEB-2021-22)

11.1.4.15 Non-maintenance of data/record of export remittance made by member companies/call center/free lancers of PSEB

According to Section-III (24) of Memorandum of Association of Pakistan Software Export Board one of the objectives for which the company is established was to take all other action as may be required to promote the creation and growth of software development and export industry/business in Pakistan and to do all such other acts and things as may be considered incidental or conducive to the objectives or any of them.

During audit of PSEB for the year 2021-22, it was noticed that Pakistan Software Export Board (PSEB) is a government body, mandated to promote Pakistan's IT Industry in local and international market. As per record company, registered IT Companies, Call Centers and Free Lancers toward achievement of its objectives. The year wise number of member companies/call center and freelancer are given here under:

Years	Companies	Call Centres	Free Lancers	Total Members
2007-08	195	105		300

2008-09	283	213		496
2009-10	252	195		447
2010-11	112	197		309
2011-12	118	183		301
2012-13	101	158		259
2013-14	187	279		466
2014-15	150	205		355
2015-16	211	254		465
2016-17	244	200		444
2017-18	417	278		695
2018-19	491	331		822
2019-20	590	553		1143
2020-21	925	927		1852
2021-22	1423	744		2167
Total	5699	4822		10,521

In order to assess the promotion and growth of export industry/business in Pakistan, export remittance made by the member companies/call centers/ freelancers was enquired from the management during audit. In response, management provided data/figures which was shared by State Bank of Pakistan.

It is to mention here that SBP is maintaining data of export remittance at Pakistan level (Total IT & ITes companies existed in Pakistan) not particularly of PSEB member companies / call centers / freelancers. This showed that PSEB management was not maintaining its own record of export remittance made by member/registered companies/call center/free lancers. Thus the overall performance of PSEB with respect to promotion and growth of IT industry and business could not be assessed due to slackness and poor financial management. Matter was reported to the notice of the management through AIR but no reply was received.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends to explain the reasons for not maintaining separate data of export remittance made by PSEB member/registered companies/call center/free lancers. Further proper record of above `mentioned period may be maintained and shared with audit to assess the performance of the company.

Para-39 (PSEB-2021-22)

11.1.4.16 Non observance of approved standard format and non-approval of service rules from government

According to Establishment Division letter dated November 2, 2021 an autonomous body soon after its establishment, it is mandatory to frame service rules in order to run the organization in a legit manner. To facilitate and standardize the procedure Establishment Division has developed a standard format of service rules for guidance of the management for implementation in respective autonomous bodies. Apart from standard format guidance may also be sought from Estacode and other relevant compilations of rules issued by Establishment Division/Cabinet Division /Finance Division etc.

Furthermore, all autonomous Bodies /Corporations/ Organizations etc. need to submit their draft rules for approval to the competent authority as specified in their respective Act/Ordinance. However, these service rules are required to be submitted to Establishment Division for vetting/concurrence.

During the audit of accounts of Pakistan Software Export Board, Islamabad for the year 2021-22 it was noticed that the Secretary, IT& Telecom Division granted approval of Service Regulation of PSEB vide letter dated October 27,2000. Later on Ministry vide their letter dated February 2, 2010 forwarded service rules to Establishment Division for concurrence. The Establishment Division vide their letter dated January 25, 2010 informed that the service rules of PSEB do not require their concurrence.

It is worth mentioning here that company had been running their HR matter on draft and un approved rules despite lapse of more than 20 years.

Establishment Division in its letter dated November 2, 2021 strictly instructed to all autonomous Bodies /Corporations/ Organizations to frame service rules on standard format duly vetted and approved from Establishment Division.

It was observed that management failed to approve their service rules from Establishment Division. Thus, the payment of pay and allowance and other HR related expenditure were held irregular in Audit. The inefficiency on the part of management caused hindrance in the smooth affairs of the organization.

Matter was reported to the management through AIR. Management in its reply dated 08.11.2023 stated that the first service rules of PSEB were duly approved by the BOD in its 2nd meeting held on September 18, 1999. The new service rules were in process of approval.

Reply is not tenable because no approval was granted for service rules in 2nd meeting of BOD and no progress of new service rules was shown from the documents provided by the management.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends to matter needs to be investigated at appropriate level. Service rules be framed as per standard format and vetted from Establishment Division.

Para-41 (PSEB-2021-22)

11.1.4.17 Unauthorized change/replacement of trainers for execution of project

According to Para-9.1 of Request for Proposal (RFP) for IT Industry Academia Bridge Program regarding Mandatory Technical evaluation criteria vide Sr. No.7 vendor has to provide details minimum number of technical professionals available to execute trainings under this project i.e. 30 trainers against each lot on a template annexed to the RFP. The minimum qualification and experience criteria for the trainers was as follows:

16 years of education with bachelor's degree from HEC recognized local university or international university in IT/Computer Science/Software Engineering and relevant programs

Minimum three (03) years' experience in developing software, IT system architect, IT system design, Software development consultancy, software quality assurance, software business analysis, web development, cloud architect, cloud platform architect, database design, database architect, database design consultancy preferably, but not limited to the technologies listed under clause # 3.1.

During audit of PSEB Islamabad for the year 2021-22, it was noticed that for the execution of Lot#2 of IT Industry Academia Bridge Programme in the Northern Region i.e. Rawalpindi, Islamabad and Peshawar, Tender No. A (01)/PSEB/2022-12 with closing dated February 23, 2022 was floated in the Newspaper on 06.02.2022. Two Consortiums led by M/s. PTCL and PDL participated in the bidding process. M/s. PTCL was technically disqualified and M/s. PDL (Pak Datacom Limited Technically qualified by the Technical Evaluation Committee and afterwards contract was awarded to the said firm.

It was observed that against S # 7 of Mandatory Criteria M/s. PDL submitted details as per annexure to the RFP. In detail, 189 profiles of the trainers were attached out of which 97 HR were the members of the companies. The Technical Evaluation Committee evaluated the trainers/ candidates in light of above said qualification and experience and approved the trainers.

After signing of agreement on 26.04.2022, M/s Pak Datacom Limited requested the management of (Chief Industrial Development Officer), PSEB to change the training resource as mentioned in the technical proposal submitted to PSEB's project "IT Industry Academia Bridge Program" vide letter # PSEB-220503 dated 10.05.2022. The CIDO of PSEB accepted the request and out of 62 approved trainers, 57 Trainers were changed/replaced vide letter dated 12.05.2022. It is to mention here that for change of trainers, no provision existed in the signed agreement.

Audit is of the view that change of trainers without approval of technical evaluation committee in violation of contractual obligation was irregular and tantamount to undue favour extended to the selected person on the public exchequer.

DAC meeting was held on 23.01.2024 but the minutes of the meeting were awaited till finalization of this report.

Audit recommends justifying the change of trainers without approval of technical evaluation committee in violation of contractual obligation. Further, payment made to the changed/replaced trainers may be shared with audit.

Para-32 (PSEB-2021-22)

Chapter-12

Ministry of Interior

Overview

Interior Ministry is responsible for policing, emergency management, national security, registration, supervision of local governments, conduct of elections, public administration and immigration matters.

Aims & Objectives

To make Islamic Republic of Pakistan a country where rule of law reigns supreme; where every Pakistani feels secure to lead a life in conformity with his religious beliefs, culture, heritage and customs; where a Pakistani from any group, sect or province respects the culture, tradition and faith of the other, where every foreign visitor feels welcome and secure.

Polices

- National Internal Security Policy 2018-2023
- SOPs 2017
- Government Procedures 2017
- Rules of Business
- Visa Policy General
- Visa Abolition Agreements
- Visa Policy For Indian Nationals
- Private Security Companies
- Updated Arms Policy 2012

Audit Profile of Ministry of Interior

12.1 National Database and Registration Authority (NADRA)

12.1.1 Introduction

National Database and Registration Authority (NADRA) was established on March 10, 2000 by the Government of Pakistan under the National Database and Registration Authority Ordinance 2000 by merging the National Database Organization (NDO) and the Directorate General of Registration (DGR). The principal office of the Authority is situated at Islamabad. The purpose and object of the Authority is to formulate and implement policies and plans for:

- (i) The development and establishment of an improved and modernized system of registration in the Country;
- (ii) The broadening of the registration base to bring within its purview all persons and things, wherever they may be to the extent and in the manner laid down in the Ordinance; and
- (iii) The establishment and maintenance of multi-purpose databases, warehousing, networking, interfacing of databases and related facilities and services.

12.1.2 Comments on Audited Accounts

12.1.2.1 The annual audited accounts are required to be provided to Audit for review each year. Contrary to this, the management failed to provide audited annual accounts of the organization for the years 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts of 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*refer Annex-2*).

12.1.2.2 Working results of the NADRA for the years 2021-22 with those of the previous years are as under:

(Rs in million)

Particulars	2021-22	% Inc/ (Dec)	2020-21	% Inc/ (Dec)	2019-20
Turnover-net	40,340.494	38.95%	29,032.305	33%	21,867.31
Operating Expenditure	(25,590.971)	22.36%	(20,915.160)	-209%	-19,177.93
Operating Income	14,749.524	81.71%	8,117.145	202%	2,689.380
Finance Cost	(359.657)	5.43%	(341.125)	-214%	(299.63)
Other Income	2,529.321	62.07%	1,560.674	-7%	1,685.53
impairment loss on trade receivables	(163.688)	-79.10%	(783.305)		0.00
Net income before tax	16,755.500	95.89%	8,553.389	110%	4,075.282
Taxation	(854.892)	119.35%	(389.746)	-222%	(318.18)
Net income for the year	15,900.607	94.77%	8,163.643	117%	3,757.102
Actuarial gain/(loss) – Gratuity	67.029	-169.55%	(96.375)	-159%	164.38
Actuarial (loss) – Pension	(4,247.575)	442.77%	(782.574)	-53%	(1,675.42)
Total comprehensive income for the year	11,720.061	60.89%	7,284.694	-582%	2,246.062

(Source: Annual Audited Accounts for the financial year ended 30th June 2022)

In 2021-22, revenue growth stood at 39%, with operations revenues increasing from 24,685.603 million to 34,766.606 million. This was driven by a substantial rise in local operations (19,671.647 to 27,529.111) and increased international business (5,013.956 million to 7,237.495 million). Project revenue also grew positively from 4,346.701 million to 5,573.887 million, with local project revenue increasing from 3,544.745 million to 4,090.560 million and foreign project revenue rising from 801.955 million to 1,483.326 million. However, details of the factors leading to increase in revenues (Price increases in the year, revenue from new projects etc.) that contributed to the growth needs to be provided to audit. Income vouchers may also be provided on sample basis.

12.1.2.3 Operating expenditure increased by 22.36% in 2021-22. Abnormal increases in the following heads be justified:

	2021-22	2020-21	% Inc/ (Dec)
Printing	83,915,451	37,955,836	121.09%
Postage & courier	1,705,808,944	746,161,545	128.61%
Security charges	201,675,015	151,501,212	33.12%
license fee	36,122,610	4,809,372	651.09%

12.1.2.4 As per Note 08 to the financial statements, NADRA has a wholly owned subsidiary called National Technologies Limited (NTL). NADRA financial statements only shows investment of 25 million, whereas International Financial Reporting Standard 10 “Consolidated Financial Statements” which outlines the requirements for the preparation and presentation of consolidated financial statements, requires entities to consolidate entities it controls. The management should make necessary amendments or provide consolidated financial statements to audit.

12.1.2.5 The entity's payables have increased from 1,457.728 million to 2,124.198 million, reflecting a 46% growth. These payables are predominantly owed for services provided to various Provincial or Federal organizations such as NHA, Ministry of Interior, and the Government of Punjab. Audit requires the provision of contracts with these organizations to ascertain the duration for which NADRA can retain the funds collected on their behalf and to gather information about their utilization (e.g. earning interest).

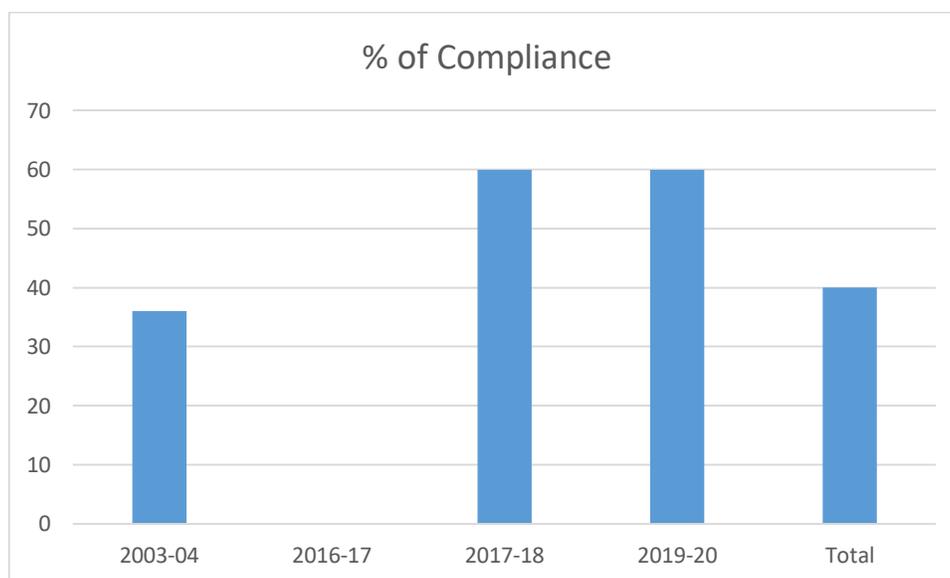

12.1.2.6 The profit and loss statement contains impairment loss on trade receivables amounting to Rs 163.688 million. The basis of creating the impairment allowance is not clear. Workings on which the figure has been arrived may be shared with audit.

12.1.2.7 The balance sheet shows Right-of-Use (ROU) assets at Rs 3,271.817 million. However, there's a lack of disclosures in line with IFRS 16. Key details such as how liquidity risk is managed, income from sub-leasing, and the nature of leasing activities need to be included for compliance and a more transparent audit.

12.1.2.8 NADRA provides bridge finance facility to run FATA-TDP ERP project. The management needs to provide evidence of directives from any competent authority which allows the bridge facility for the project. This is significant, especially in connection with the receivable of Rs 56.839 million, as indicated in Note 14.4.1.

12.1.3 Compliance of PAC Directives

Sr. No.	Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras #	% of Compliance
1	2003-04	75	27	48	11.3, 11.4, 11.5,11.6, 11.8, 11.13, 11.14, 11.15, 11.16, 11.22, 11.24, 11.25, 11.11, 11.12, 11.23, 11.25,11.26, 11.27, 11.28, 11.29, 11.30, 11.32, 11.35, 11.37, 11.44, 11.45, 11.48, 11.36, 11.38, 11.39, 11.40, 11.42, 11.54, 11.57, 11.71, 11.75, 11.46, 11.50, 11.51, 11.53, 11.54, 11.55,11.59, 11.61, 11.65, 11.67, 11.68, 11.69	36
2	2016-17	04	0	04	10.1.4.2, 10.1.4.3, 10.1.4.6, 10.1.4.7,	0
3	2017-18	10	06	04	13.1.1, 13.1.3, 13.1.4.2, 13.1.4.5, 13.1.4.8,	60
4	2019-20	15	9	6	9.1.2.3, 9.1.2.4, 9.1.3, 9.1.4.2, 9.1.4.3, 9.1.4.4,	60
	Total	104	42	62		40

The overall compliance of PAC directives was very poor. Immediate attention of the PAO was required to improve the situation.

12.1.4 Audit Paras

12.1.4.1 Irregular transfer of ARM license fee in Commercial bank (HBL) instead of Govt. Treasury worth - Rs 351.289 million

According to GFR, (Vol-1) Chapter 01 sub-clause 02-VIII Federal Consolidated Fund Public Account. 1. All revenues received by the Federal Government, all loans raised by that Government and all money received by it in repayment of any loan shall be from part of a consolidated fund to be known as the Federal Consolidated Fund. Further, as per section V, rule 7 of Treasury rules Vol-1 all moneys received by or tendered to Government officers on account of the revenues of the Federal Government shall without undue delay be paid in full into a treasury or into the Bank, and shall be included in the Federal Consolidated Fund of the Federal Government. Moneys received as aforesaid shall not be appropriated to meet departmental expenditure, nor otherwise kept apart from the Federal Consolidated Fund of the Federal Government. No department of the Government may require that any moneys received by it on account of the revenues of the Federal Government be kept out of the Federal Consolidated Fund of the Federal Government.

During audit of National Database and Registration Authority (NADRA) for the year 2022-23, it was observed from the record that the management of NADRA collected Rs 351.289 million on account of Arm License Fee on behalf of Federal Government and retained in its commercial bank account maintained in Habib Bank Limited (HBL). The said amount was deposited into Government Treasury after a gap of 15 to 30 days which was violation of rules.

Audit is of the view that retention of public money in a private commercial bank was violation of financial as well as treasury rules. The authority should remit said amount in Federal Treasury or in State Bank of Pakistan / National Bank of Pakistan within 24 hours of its receipts.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying the reasons for retention of public money in commercial bank and taking appropriate step for immediate transfer of public money into Government Treasury.

Para-1 (NADRA-2022-23)

12.1.4.2 Unjustified change in specifications of items on suppliers' request after purchase order - Rs 787.497 million

According to rule 31 (1) of Public Procurement Rules, no bidder shall be allowed to alter or modify his bid after the bids have been opened. However, the procuring agency may seek and accept clarifications to the bid that do not change the substance of the bid. According to the bidding documents, specifications for lot-1, Computer Desktop with Monitor will be mid tower casing, Intel Core i7 (9th Generation or above), 8GB DDR4 memory having storage of 3.5" 500 GB SSD HDD, Display 221" FHD and Operating system: pre-installed windows 10.

During audit of NADRA for the year 2022-23, it was observed that NADRA floated a tender in newspaper on 17th and 20th October for purchase of different items in multiple lots. Lot 01 was for purchase

of 2500 Computer Desktops with Monitors. Two bidders i.e. M/s Premier Systems and M/s Megaplus participated and both were found technically qualified. M/s Premier Systems won the financial bid which was opened on 15th December 2022. Purchase order was issued to M/s Premier Systems on 3rd February 2023. After the issuance of purchase order, the vendor requested for a change in specifications (from Dell Optiplex 5000 Tower to Dell Optiplex 7010 Tower) of the Computer Systems. The same was approved by NADRA management. Following points were observed by Audit:

- i. Change in specifications after issuance of purchase order was irregular. Change in specification at belated stage was undue favor to a particular firm which raised question on transparency in the whole process of procurement.
- ii. It was the supplier's responsibility to produce the same product for which purchase order was issued.
- iii. NADRA management did not insist for supply of same items as was committed and ordered. Further, no action was taken for the purchase of same product at supplier's risk and cost.
- iv. Delivery period was 16-18 weeks, but the relevant produced was silent about actual delivery dates and imposition of any penalty in case of late delivery.

Audit is of the view that NADRA management did not comply with procurement regulations and modified the bids after the award of the contract which was irregular. Thus, NADRA entered into irregular procurement with M/s Premier System for Computers systems worth Rs 787.497 million.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility on the person(s) at fault to avoid such instances in future.

Para-26 (NADRA-2022-23)

12.1.4.3 Non cancellation of expired arm licenses and loss to the Govt. due to non-renewal of arm licenses - Rs 300.00 million (Approx.)

According to clause 16 of Arm License Policy 2012, the license may be renewed after twelve months but before the lapse of two years of the date of expiry thereof under the orders of the licensing authority on the payment of fee. Further, if a license is not renewed within specified period, the license shall, on the expiry of the said period, stand cancelled.

During the audit of NADRA for the year 2022-23, it was observed from the record that approximately 60,000 arms licenses issued by the Federal Government were expired. Further, scrutiny of the record revealed that neither the holders of these licenses had contacted for their renewal nor were these canceled by the Authority. Due to non-renewal of these licenses, Federal Government was deprived from the potential revenue of approximately Rs 300 million.

Audit is of the view that competent authority should have taken appropriate action against defaulters who failed to renew their arms license by way of imposing penalties or cancellation of licenses.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying the reasons for non-cancellation of expired license and matter should be taken up at appropriate level regarding cancellation of licenses or penalizing the holders of these licensees.

Para-17 (NADRA-2022-23)

12.1.4.4 Non-recovery of long outstanding amount from Punjab Information Technology Board (PITB) - Rs 207.864 million

According to clause 5.1 (c) of the contract agreement signed between NADRA and PITB regarding provision of Biometric verification services. The client (PITB) shall pay the invoices due to NADRA within thirty days (plus 10 days' grace period) from the date of issuance of invoices. Further, as per clause 5.2 of said agreement, in case of delay in payment of beyond 30 days, the client shall be liable to pay late payment charges at the rate of 3% per month on any undisputed amount remaining unpaid. If the amount remained unpaid beyond 51 calendar days, NADRA shall become entitled to suspend or terminate Biometric verification services with immediate effect.

During audit of NADRA for the year 2022-23, it was observed that PITB management failed to pay an amount of Rs 207.864 million to NADRA on account of biometric verification services rendered by NADRA to PITB. Aging analysis of said amount revealed that the amount was outstanding since long.

Audit is of the view that no serious efforts were made by the NADRA management to recover long outstanding amount from PITB.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying the position regarding non recovery of long outstanding amount from PITB and the matter regarding early recovery of NADRA's dues should be taken up at higher level.

Para-4 (NADRA-2022-23)

12.1.4.5 Expenditure on non-budgeted items - Rs 185.054 million

According to Section 26 of Chapter 08 (funds, accounts and audit) of NADRA Ordinance 2000, "Budget" (1) "The authority shall, in respect of each financial year, submit for the approval of Federal Government by such date and in such form as may be specified by the Federal government a statement showing the estimated receipts and current and development expenditure and the sums which are likely to be required from the Federal government during the next financial year." As per rule Standards of Financial Propriety (10) Every officer incurring or authorizing expenditure from public funds should be guided by high standards of financial propriety. Among the principles on which emphasis is generally laid are (i) Every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public moneys as a person of ordinary prudence would exercise in respect of expenditure of his own money.

During audit of the National Database and Registration Authority (NADRA) for the year 2022-23, it was observed that NADRA incurred expenditure on buildings and machinery & equipment amounting to Rs 185.055 million in the absence of budget/approved budget. Audit noted that the same items were not budgeted in the financial year 2022-23 and upon comparison with draft financial statements for 2022-23, actual expenditure of Rs 185.054 million was pointed out. Calculations are as under:

Summary of amount spent without budget				
S#	Item	Budget (Rs)	Expenditure (Rs)	Over Spent amount (Rs)

01	Buildings	0.00	74,108,482	74,108,482
02	Machinery & Equipment	0.00	110,946,512	110,946,512
	Total			185,054,994

Audit is of the view that expenditure in the absence of budget provision was non-compliance of the NADRA Ordinance. Hence, the amount of Rs 185.054 million spent for the above items without any budget was held irregular.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends explaining the reasons for incurring expenditure without budget provision and fixing responsibility thereof.

Para 33 (NADRA-2022-23)

12.1.4.6 Irregular procurement of common use items by splitting – Rs 170.658 million

According to rule 9 of PPRA, a procuring agency shall announce in an appropriate manner all proposed procurements for each financial year and shall proceed accordingly without any splitting or regrouping of the procurements so planned. The annual requirements thus determined would be advertised in advance on the Authority's website as well as on the website of the procuring agency in case the procuring agency has its own website. According to rule-12 (2) of PPRA, all procurement opportunities over two million Pakistani Rupees should be advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

During the audit of NADRA for the year 2022-23, it was observed that the management issued a number of purchase orders amounting to Rs 89.661 million after regular short intervals for the purchase of different common use items. These items were procured from different suppliers by splitting the requirement as given below:

Type	Amount (Rs)
Electronic Equipment	7,217,629
General Equipment	6,135,910
IT Equipment	39,927,040
Misc. Items	3,788,473
Office Equipment	29,778,159
Stationery	2,864,276
Total	89,661,762

It was further observed that splitting of procurement amounting to Rs 80.977 million was also done in other items as detailed below:

Type	Amount (Rs)
Construction	8,656,367
Furniture	18,968,211
Motorbikes	1,542,100
Repair and renovation works	37,230,319
Rolls	496,000
Services	6,564,507
Vehicle parts	7,519,566
Total	80,977,070

Audit is of the view that the management was required to assess the requirement of said common-use items at the start of year as part of the annual procurement plan by adhering to the Public Procurement Rule for transparency and economy. Hence, the procurement of various items valuing Rs 170.658 million in violation of purchase procedure was considered irregular.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the splitting of purchase orders in violation of public procurement rules and fixing responsibility thereof.

Para-8 & 13 (NADRA-2022-23)

12.1.4.7 Non-recovery of long outstanding amount from Federal Board of Revenue (FBR) – Rs 64.479 million

According to clause 6 (1)(J) of contract agreement signed between NADRA and FBR regarding provision of three verification services namely Web Based XML (with Data) Services-1, Web Based XML No Data Services and Family Details service. The client (FBR) shall pay the invoices due to NADRA within thirty days from the date of issuance of invoices. Further, as per clause 6.2 of said agreement, in case of delay in payment of beyond 30 days, the client shall be liable to pay late payment charges at the rate of 3% per month on any undisputed amount remaining unpaid. If the amount remained unpaid beyond 51 calendar days, NADRA shall become entitled to suspend or terminate Biometric verification services with immediate effect.

During the audit of NADRA for the year 2022-23, it was observed that FBR management had to pay an amount of Rs 64.479 million to NADRA on account of services rendered by NADRA to FBR. Aging analysis of said amount revealed that with the passage of time, the amount was increasing. At the start of financial year 2022-23 the outstanding amount was Rs 39.088 million. However, at year end i.e. June 2023 it jumped to Rs 64.479 million.

Audit observed that NADRA management did not make significant efforts to recover outstanding dues and despite failure to pay dues by FBR, NADRA continued to provide services to FBR without interruption.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying the position regarding non recovery of long outstanding dues from FBR besides taking up the matter at higher level for early recovery of NADRA's dues.

Para-3 (NADRA-2022-23)

12.1.4.8 Unjustified Payment of salary to un-identified employees - Rs 38.782 million

According to clause 11 (C) (iv) (6) of operation manual of the project, NADRA's FM Team will manage financing of entire TA Component-3 of the project. Team comprises of three or four staff headed by Director Finance responsible for managing entire financials as well as reporting with the World Bank and NADRA. Further, staffing requirement was envisaged in a table attached in annexure 4 of project appraisal document (PAD) regarding implementation support program.

During audit of NADRA for the year 2022-23, the record of a project executed by NADRA in ex-FATA districts revealed that management charged salaries of employees working in Citizen Facilitation Centers (CFCs) of the project. The salary sheets showed payment of Rs 38.782 million to 180 employees of CFCs. No further detail about their designations, place of posting, date of appointment, CNIC No. ERP #. date of joining and qualification etc. was available with salary sheets. Hence, no conclusion could be drawn regarding these employees. Most of the salary of these employees was paid during July 2022 to January 2023 and later on discontinued which showed that these employees might be terminated from service.

The activity flow chart approved in operation manual and other official documents revealed that staff requirement had already been met, hence there was no justification of such staff and payment/charging of salary for these staff created doubt about their existence.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter of hiring of staff and subsequent discontinuation of their services with full facts and figures and Job descriptions besides providing the recruitment and personal record of these staff to Audit.

Para-25 (NADRA-2022-23)

12.1.4.9 Irregular appointment of staff without observing prescribed qualification - Rs 38.406 million

According to clause 10 of the recruitment and selection policy of the NADRA the minimum prescribed qualification for the post of Dy. Director, Director and Director General of NADRA. The Dy. Director in NADRA scale of O-8/T-8, Director in O/T-9 and Director General, O/T-10 must have Relevant Sixteen Years Education with 07 to 25 Years of experience.

During the audit of NADRA for the year 2022-23, it was observed (on sample basis) that management hired the services of 59 employees in violation of minimum prescribed qualification required for induction in NADRA. As per NADRA recruitment policy, minimum sixteen years' education was required for induction in NADRA from Dy. Assistant Director & above but these 59 employees possessed graduation or below qualification which was held irregular. Thus, payment of salary to these employees to the tune of Rs 38.406 million was held irregular.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigate the hiring of staff without observing minimum qualification requirement and fixing responsibility besides providing complete detail of payment of salaries & other benefits made to these staff.

Para 44 (NADRA-2022-23)

12.1.4.10 Irregular appointment due to unjustified favor granted to the employees - Rs 32.160 million

According to regulation 11(1) part II chapter 2 of the service regulations, 'initial appointment to post BS-17 or equivalent 'O' or 'T' pay scale, and above shall be made by the appointing authority on the recommendation of board. As per regulation 09 of NADRA services regulations, appointing authority of BS-19-20 and equivalent is "authority". As per NADRA's recruitment policy minimum 15 to 25 years' experience is required for appointment in O & T -10 grades.

During audit of NADRA for the year 2022-23, it was observed that management hired the services of Mr. Tanveer Abbas as Management Associate without having a post in approved organogram of NADRA, Management floated a tailor made advertisement in newspaper. Qualification requirement was also changed through corrigendum to enable a graduate to apply against the post. Further, maximum age was fixed as 55 years and only three years desired experience was mentioned. Immediately after the selection, the officer was granted the charge of Director (EMD), while he was not appointed against said post. Further, his salary was fixed at Rs 268,400 per month but was enhanced to Rs 384,000 within six months in November 2021 exceeding the contractual 10% annual increase limit. Currently, the officer was granted acting charge of DG RHO Multan. His monthly salary was Rs 480,000 (approx.), thus payment of Rs 5.760 million (Rs 480,000*12 months) was considered as irregular.

Similarly, the services of Brig. (R) Abdul Rehman were hired as Chief Human Resources Officer (CHRO) at monthly salary of Rs 427,097 despite lacking the relevant qualification. Further, the management overlooked its own policies by requiring only 8 years of experience in the advertisement.

There was no evidence of the creation of the CHRO position. It was also observed that the posts of CHRO and DG (HR) were of same nature and grade (O/T-10). Further, the appointment was also approved by the chairman instead of 'Authority' (Board of Directors). The officer was drawing salary of Rs 2.200 million per month. Thus, appointment of officer as CHRO and payment of salary of Rs 26.400 million (2,200,000*12) was considered as irregular and unjustified.

Audit is of the view that management granted undue favor to the officers by hiring them in non-transparent manner hence the appointment and payment of salary Rs 32.160 million (Rs 5.760 million + Rs 26.400 million) to the officers was irregular.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter of hiring of officers in non-transparent manner without vacancy position, justifying the position regarding fixation of higher salary and increment over and above the contract terms and fixing the responsibility.

Para 43 (NADRA-2022-23)

12.1.4.11 Non recovery of amount due from Home Department Sindh - Rs 30.918 million

According to clause 19.1.1 of the contract agreement signed between the NADRA and Home Department Govt. of Sindh for Computerized Arms License Issuance Management System (CALMIS) total cost of the project was Rs 290.048 million (which was later on reduced to Rs 259.048 million vide addendum – I of the project. Further as per clause 19.1.7 the amount of project was payable by the Home Department GoS in four installments.

During the audit of NADRA for the year 2022-23, it was observed that management of NADRA being consultant in Computerized Arm License Management Information System (CALMIS) of Government of Sindh discharged its responsibilities within agreed time period and handed over the project to Home Department Government of Sindh. However, Home Department, Government of Sindh failed to clear pending amount of Rs 30.918 million to NADRA. The said agreement was silent regarding imposition of any penalty in case of default in discharge of any responsibility by either party.

Audit is of the view that management failed to recover the pending amount from Govt. of Sindh (Home Department).

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying the reasons for non-collection of amount from Home Department, Government of Sindh and taking up the matter at higher level for early recovery of pending dues.

Para-2 (NADRA-2022-23)

12.1.4.12 Irregular award of work of officers' mess - Rs 27.095 million

According to clause 3 of Public procurement regulations 2008, a Procuring agency when engaged in procurement of works, shall use the standard form of bidding documents prescribed by the Pakistan

Engineering Council constituted under the Pakistan Engineering Council Act, 1975 (V of 1976). Further, as per clause 10.1 of standard forms of bidding documents 2007 (for smaller work) issued by the PEC, the bidder shall fill up the Schedule of Prices (Schedule A to Bid) indicating the unit rates and prices of the Works to be performed under the Contract. Prices in the Schedule of Prices shall be entered keeping in view the instructions contained in the Preamble to Schedule of Prices.

During audit of NADRA for the year 2022-23, it was observed that management floated a tender for shifting and establishment of officers' mess in NADRA HQ Islamabad. In response, five bidders participated and contract was awarded to M/s Frontier Works Promoters. In this regard, following irregularities were observed:

- i. Standard bidding documents approved by the PEC were not used as required under rules.
- ii. Bidding documents prepared by NADRA were ambiguous and were not cleared, as there was no option of quoting unit price of each item of work. Thus unit rate remained unattended.
- iii. In NADRA's bidding documents, two type of evaluation criteria were mentioned under clause 30 and 31. In clause 30, minimum eligibility criteria were given without any number of each condition mentioned thereupon.
- iv. The amounts quoted by the bidders were differing from the amounts mentioned in comparative statement of both bidders.

Audit is of the view that management granted undue favor to the bidder of its own choice by not using standard bidding documents in bidding process and non-mentioning evaluation marks of criteria mentioned under clause 30 of bidding documents.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to investigating the matter and fixing responsibility.

Para-19 (NADRA-2022-23)

12.1.4.13 Unjustified Favor granted to supplier due to faulty procurement process and non-obtaining of performance guarantee - Rs 21.179 million

According to PPRA S.R.O. No. 370(I)/2022 dated 25.02.2022, the procuring agencies shall use the National Standard Procurement Documents (available at PPRA's website) for national and international competitive bidding, as amended on 30th June of each Financial Year considering regularly experience feedback based on monitoring the procurement practices. As per clause 10 of standard bidding documents the performance security (of Guarantee) shall be provided to the procuring agency no later than the date specified in the letter of acceptance.

During audit of NADRA for the year 2022-23, it was observed that management floated a tender for procurement of 50 DVBRCS/VSAT Remote Terminals. M/s Supernet was declared successful bidder and a purchase order dated 20.09.2023 was issued with a delivery period of 8-10 weeks. However, the bidder failed to provide relevant goods even after the lapse of more than one year. The record revealed that

the procurement process was faulty and the bidder might not be forced to complete work order. Following discrepancies were observed in bidding process;

- a. Standard bidding form was not used by the NADRA as required under PPRA.
- b. Performance security clause was not included in bidding documents used by NADRA.
- c. Purchase order was issued on 20.09.2022 without ensuring submission of performance guarantee.
- d. The bid was valid for 90 days from the date of opening of tender (i.e. June 09, 2022). However, purchase order was issued on September 20, 2022 after 11 days of expiry of bid / price validity period. Thus the case of NADRA against the bidder was on weak grounds.
- e. Risk and cost clause was not inserted in purchase order / bidding documents.
- f. LD was not imposed on the bidder despite of his failure.
- g. The bid money had not been forfeited till December 2023. The amount of bid money was not sufficient to cover the loss sustained by NADRA.

Audit is of the view that due to faulty procurement process, the bidder could not be forced for execution and completion of contract and NADRA would suffer heavy loss due to exchange rate fluctuation. Forfeiting bid money would not compensate the heavy cost of future procurement.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to explain the reasons for non-using of standard bidding documents in procurement process, non-imposition of penalty and non-forfeiture of bid money till date. Justify the position regarding non-inclusion of risk and cost clause and non-obtaining of performance guarantee from successful bidder. Investigate the matter of delay in issuance of purchase order after expiry of bid validity period. Intimate the exact amount incurred on procurement of said items / goods.

Para-6 (NADRA-2022-23)

12.1.4.14 Irregular promotion of an officer and wrong fixation of Salary - Rs 19.200 million

As per regulations 21-A, 'the authority may promote an employee to the next higher scale or post based on such criteria and in accordance with such procedure as may be laid down by the authority from time to time in promotion policy. Further, as per regulation 21-B, 'the authority may as a special case and for reasons to be recorded in writing, promote an employee holding a technical / professional post or increase in salary, emolument, benefits etc. of his existing posts by placing the same in a higher pay scale or otherwise. A special assessment report will be drawn, countersigned and submitted to the authority in respect of employee for assistance in consideration of a special case under this regulation.

During the audit of NADRA for the year 2022-23 it was observed that Ms. Reema Aftab was appointed as Dy. Chief Commercial officer in NADRA T-9 Scales in NADRA Technologies Limited (NTL). The officer requested for promotion in next grade and the Chairman, NADRA granted her promotion in next scale. In this regard, following irregularities were observed:

1. The promotion was granted without Annual Assessment Report (AAR) and Special Assessment Report (SAR). These reports were mandatory for promotion in next scale.
2. There were only five AARs for the year 2010, 2011, 2012, 2014, 2015, 2016 and 2017 but the AARs of remaining years were not found in relevant file.
3. Promotion was made without any vacancy.
4. The officer was appointed on the basis of MBA degree obtained from 'Preston University' Islamabad but the same was not recognized by the HEC as disclosed in its letter dated October 04, 2017.
5. The officer was appointed in NTL but her promotion and posting was made by NADRA on NADRA pay scales and promotion was also approved by the Chairman, NADRA.
6. The pay of officer was re-fixation at exorbitant rate from Rs 365,000 to Rs 565,000 per month plus other usual allowances. Currently, officer was drawing salary @ Rs 1,600,000 per months (approx.). Thus, payment of salary from July 2022 to June 2023 to the incumbent of Rs 19.200 million (Rs 1,600,000 x 12) approx. was considered as irregular.

Thus, officer was granted undue favor by promoting her without considering any AAR or SAR for promotion without any vacancy and increasing salary at exorbitant rates without observing due process, which was held irregular. Further, she possessed MBA degree from an institute not recognized by the HEC.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to investigate the matter and fix responsibility.

Para 39 (NADRA-2022-23)

12.1.4.15 Irregularities in promotion and fixation of salary of an officer- Rs 18.00 million

According to regulations 21-A, 'the authority may promote an employee to the next higher scale or post based on such criteria and in accordance with such procedure as may be laid down by the authority from time to time in promotion policy. Further, as per regulation 21-B, 'the authority may as a special case and for reasons to be recorded in writing, promote an employee holding a technical / professional post or increase in salary, emolument, benefits etc. of his existing posts by placing the same in a higher pay scale or otherwise. A special assessment report will be drawn, countersigned and submitted to the authority in respect of employee for assistance in consideration of a special case under these regulations'. Chapter-6 regulation 44, required that pay at initial appointment of a persons to a post shall fixed at the minimum of the pay scale.

During audit of NADRA for the year 2022-23 it was observed that Mr. Saif ur Rehman Abbasi was promoted in T-9 Scales of NADRA. The record revealed that his promotion was made without existence of any vacancy and without determination of sanctioned strength at the time of promotion. The officer was granted exorbitant increase in salary and was fixed at Rs 377,000 per month plus other usual allowances. Currently, the officer was drawing his gross salary @ 1,500,000 per month (approx.). Furthermore, said officer was appointed as Assistant Manager in O-7 grades, however, at the time of his promotion as Deputy Manager (HR) in O-7 grade, his grade was changed from O-7 to T-8 without any justification. He was further promoted from T-8 to T-9 in 2022 and his pay was fixed

accordingly. Thus, payment of salary of Rs 18.00 million (1,500,000 x 12) during the year 2022-23 was considered as irregular and unjustified.

Audit is of the view that management granted undue favor to the officer by promoting him without considering vacancy positions and approved sanctioned strength. Further, his pay scale category was changed from 'O' to 'T', which was irregular.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility.

Para 42 (NADRA-2022-23)

12.1.4.16 Non recovery of amount due from various organizations – Rs 17.246 million

As per contract agreement signed by NADRA with its clients regarding provision of certain services, the client shall pay the invoices due to NADRA within specified time from the date of issuance of invoices. Further, in case of delay in payment of beyond specified period, the client shall be liable to pay late payment charges on any undisputed amount remaining unpaid. If the amount remained unpaid beyond 90 days, NADRA may suspend the services or terminate the contract.

During the audit of NADRA for the year 2022-23, it was observed that many clients failed to pay their dues on account of services rendered by NADRA. At the start of financial year 2022-23, the outstanding amount was Rs 6.732 million. However, at year end i.e. June 2023 it was Rs 17.246 million. The management showed undue favor to the entities by not imposing penalty on the amount stuck up and yet not paid by the clients. The detail of amount receivable from client is reproduced hereunder:

	National Rural Support program (NRSP)	Pb. Land Record Authority (PLRA)	IGP Isd XML	Higher Education Commission (HEC)	HQ-19 Div. Khawaza Khela	TOTAL
Current	2,549,833	4,077,822	0	698,500	0	7,326,155
1-31 Days Past Due	15,803	0	0	18	0	15,821
32-60 Days Past Due	3,803	0	0	0	0	3,803
63-93 Days Past Due	3,927	0	0	0	0	3,927
94-124 Days Past Due	5,681	0	0	0	0	5,681
125-365 Days Past Due	4,519,101	0	0	39,375	0	4,558,476

365+ Days Past Due	2,895	0	3,104,985	734,574	1,490,654	5,333,108
Total	7,101,042	4,077,822	3,104,985	1,472,467	1,490,654	17,246,971

Audit is of the view that no serious efforts were made by the management to recover its long outstanding amount from the clients. NADRA was continuously providing services to certain clients without any interruptions despite non-payment of outstanding dues.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying the position regarding non-recovery of long outstanding amount from the clients, imposing penalty as per provisions of relevant agreement and the matter regarding early recovery of dues should be taken up at higher level.

Para 35 (NADRA-2022-23)

12.1.4.17 Irregular payment of salary due to continuation of services beyond superannuation – Rs 16.732 million

As per regulation 8 (3) of NADRA services regulations ‘no person who has attained the age of sixty years shall be appointed to a post in the authority, provided that authority may on case to case basis, in the best interest of the authority and for reasons to be recorded in writing, appoint or retain a person in services despite his attaining the age of sixty years’. Further, as per regulation 26 (2) once entered, the date of birth shall not be altered in any event. It is also stated that, the Supreme Court of Pakistan held in its decision on 16.02.2021 in civil petition No. 4428/2019 that “the date of birth of a civil servant once recorded at the time of joining of Government service as a general principle shall be final and would not be altered except (i) there is a clerical mistake (ii) the change is sought within the period of two years” As per prevailing Government directions issued by the cabinet Secretariat vide letter dated 26.05.1999, approving authority for re-employment after the age of superannuation is Prime Minister of Pakistan.

During the audit of NADRA for the year 2022-23 it was observed that Mr. Mir Alam Khan, ERP No. 27956 was appointed in 2009 as Dy. General Manager. At that time, his CNIC showed only the year of birth as 1963. As per NADRA policy, his date of birth had to be considered as 01.01.1963 and date of superannuation as 01.01.2023. The officer vide letter dated November 07, 2022 requested for correction of his date of birth as 01.07.1963. He also filed a writ petition 93/13 of 2022 for change of date of birth. The court ordered to amend his date of birth accordingly. Instead of going into appeal in light of Supreme Court of Pakistan’s judgment dated 16.02.2021, NADRA implemented the court’s decision and employment record was corrected accordingly and communicated to the officer vide letter dated February 23, 2023. The official website of NADRA revealed that the officer was still working in NADRA as Regional Head Quetta and yet either not retired or was re-employed without approval from Prime Minister as required in such kind of instances. The gross salary of the officer was Rs 2.789 million per month. Thus, payment of salary of Rs 16.732 million (July to Dec 2023) was considered as irregular and unjustified.

Audit is of the view that the officer was performing his duties unlawfully beyond the date of superannuation and all the salary & perquisites paid after that date were irregular.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigate the matter of continuation of services or re-employment beyond the age of superannuation and fixing responsibilities on persons at fault.

Para 38 (NADRA-2022-23)

12.1.4.18 Unjustified payment of property tax to CDA - Rs 12.299 million

According to rule Standards of Financial Propriety (10) Every officer incurring or authorizing expenditure from public funds should be guided by high standards of financial propriety. Among the principles on which emphasis is generally laid are (i) Every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public moneys as a person of ordinary prudence would exercise in respect of expenditure of his own money.

During audit of NADRA for the year 2022-23, it was observed from the record that NADRA paid an amount of Rs 0.961 million to Capital Development Authority (CDA), Islamabad on account of property tax on behalf of SBP i.e. the owner of building; under occupation of NADRA. an amount of Rs 12.299 million was also paid by NADRA as property tax to different Governmental Organizations/ Departments. Audit demanded the record of rented and NADRA's owned property to assess the rationale of the payment made but the same was not produced.

Audit is of the view that payment of property tax was the responsibility of owner of the building. Thus payment of property tax by NADRA being tenant was considered as irregular and unjustified.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to state the reasons for not taking due care in the hiring process. Recover the unjustified paid taxes from the owner of the building for current and previous periods.

Para-11 (NADRA-2022-23)

12.1.4.19 Non-approval of budget from Federal Government - Rs 46,042.276 million

According to Section 26 of Chapter 08 (funds accounts and audit) of NADRA ordinance 2000, "Budget" (1) "The authority shall, in respect of each financial year, submit for the approval of Federal Government by such date and in such form as may be specified by the Federal government a statement showing the estimated receipts and current and development expenditure and the sums which are likely to be required from the Federal government during the next financial year."

During audit of the NADRA for the year 2022-23, it was observed that NADRA management had to obtain approval of the Federal Government of their budget but the same was not done. Budget Approval from the Federal Government was demanded via requisition No. 07 dated 18.12.2023 but the same was not provided till closure of the audit.

Audit is of the view that expenditure in the absence of approved budget from the Federal Government was non-compliance of the NADRA Ordinance. Hence, the expenditure worth Rs 46,042.276 million for the financial year 2022-23 was considered as irregular.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying the reasons for non-seeking approval of the budget from the Federal Government and fixing responsibility thereof.

Para 15 (NADRA-2022-23)

12.1.4.20 Irregular Expenditure on guest entertainment and repair & maintenance of vehicles – Rs 7.202 million (Approximately)

According to Petty cash SOPs approved by Director General Admin NADRA in October 2019, petty cash imprest is maintained by various departments to meet day-to-day small expenditures without involving the procurement department and going into a lengthy procurement process. Such purchases can be made through petty cash more swiftly and conveniently. It is also clarified that fixed asset items cannot be purchased out of petty cash as it requires codal formalities as per rules/SOPs. Moreover, petty cash should not be expended on the entertainment of guests/employees as a separate guest entertainment ceiling is provided to departments for the said purpose. To streamline the procedure following guidelines were issued: c) a single transaction shall not exceed Rs 5,000 and bifurcation of bills must be avoided.

During the audit of NADRA for the year 2022-23, it was observed that various departments of NADRA violated the Standard Operating Procedures of consuming petty cash and incurred expenditure on guest entertainment for which a separate ceiling had been provided to departments. Moreover, petty cash was also expended on repair of vehicles in violation of the approved SOPs. Audit checked the expenditure on a sample basis in the month of November 2022. Details are as under:

Details of Entertainment Expenditure out of Petty Cash				
S #	Bill No	Date	Expenditure Type	Amount (Rs)
1	PV-246, PV 247	08.09.2022	Entertainment	46,535
2	Ch. 7505591	25.11.2022	Entertainment	125,539
3	Ch. 7505358	11.11.2022	Entertainment	14,260
November Total				186,334
Full year 2022-23 (X12)				2,236,008
Details of Repair & Maintenance of Vehicle Expenditure out of Petty Cash				
S#	Bill No	Date	Expenditure Type	Amount (Rs)
1	Ch. 7505321	10.11.2022	Repair/Maintenance of Vehicles	150,020
2	Ch. 7505506	18.11.2022	Repair/Maintenance of Vehicles	150,620
3	Ch. 7505588	25.11.2022	Repair/Maintenance of Vehicles	56,810
4	Ch. 7505641	30.11.2022	Repair/Maintenance of Vehicles	56,390
November Total				413,840

Full year 2022-23 (X12)	4,966,080
Grand Total	7,202,088

The irregularity occurred due to violation of SOPs for expending petty cash in various departments of NADRA.

Audit is of the view that due to violation of SOPs during the expenditure, NADRA management incurred irregular expenditure of Rs 7.202 million on account of guest entertainment / vehicles repair for which a separate ceiling / budget was already available to the departments.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to explain the reasons for incurrence of entertainment & repair of vehicles expenditure from petty cash. State the reasons for violation of the SOPs. Recover guest ceiling from the departments that incurred petty cash instead utilizing of entertainment ceiling.

Para-9 (NADRA-2022-23)

12.1.4.21 Non-recovery of long outstanding dues - Rs 10.726 million

According to clause 3.1 of contract agreement signed between NADRA and SCO regarding provision of ID verification services. The client (SCO) shall pay the invoices due to NADRA within forty-five days from the date of issuance of invoices. Further, as per clause 3.2 of said agreement, in case of delay in payment of beyond 45 days, the client shall be liable to pay late payment charges at the rate of 2% per month on any undisputed amount remaining unpaid. If the amount remained unpaid beyond 90 days, NADRA may suspend the ID verification services to SCO.

During the audit of NADRA for the year 2022-23, it was observed that SCO management failed to pay Rs 10.727 million to NADRA on account of services rendered. The management showed undue favor to the SCO by not imposing penalty at the rate of 2% per month on the amount stuck up and yet not paid by the client. Despite non-payment, NADRA was continuously providing services to SCO without any interruption.

Audit is of the view that no serious efforts were made by the NADRA management to recover its long outstanding amount from SCO.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends taking up the matter at higher level for early recovery of NADRA's dues besides imposing penalty as per agreement.

Para-18 (NADRA-2022-23)

12.1.4.22 Avoidable expenditure incurred on medical reimbursement to employees for indoor treatment - Rs 28.151 million

According to Charter of Services of Sehat Sahulat Program draft dated 28th February 2021 "the program started with providing social health insurance to poor families and now its coverage has gradually been increased to other socio-economic strata of the population with district by district expansion in Punjab,

Islamabad Capital Territory (ICT), Azad Jammu and Kashmir (AJK), Gilgit-Baltistan (GB), Newly Merged Districts of Khyber Pakhtunkhwa (NMD-KP) and Tharparkar - Sindh. As of today, Federal Government and Government of Punjab, under its Quami Sehat Card, is providing free of cost health insurance to more than 10 million families. Both Governments are also working to increase the ambit to additional 25 million population of districts under its domain. In addition to it, Government of Khyber Pakhtunkhwa, under its Sehat Insaf Plus card, is providing free of cost health insurance to more than 6 million families in the province”.

During the audit of National Database and Registration Authority (NADRA) for the year 2022, it was observed that NADRA spent Rs 28.151 million on medical reimbursements for indoor treatment for its employees in Islamabad/Rawalpindi. The Government had implemented the Universal Health Insurance (UHI) Program covering 100% population of Islamabad/Rawalpindi, Punjab, KP and GB and paid billions of rupees on account of premium to the State Life Insurance Corporation of Pakistan (SLIC) and almost all the major hospitals in Public & Private sector were providing best indoor facilities to the public under UHI program. Thus, reimbursement to employees for treatment in private hospitals was wastage of government resources, as all residents were eligible for UHI benefits.

Audit is of the view that the medical reimbursement for indoor treatment should not be allowed to NADRA employees as the Federal Government had already paid premium to SLIC for residents of Islamabad/Rawalpindi. The payment of medical claims by NADRA management to its employees for indoor medical treatment was considered duplicate expenditure on public exchequer.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying the medical reimbursement for indoor treatments despite the availability of free treatment under UHI in all significant public & private sector hospitals of ICT, Punjab and KP.

Para 32 (NADRA-2022-23)

12.1.4.23 Loss due to expensive purchase of Biometric Machines - Rs 10.523 million

According to Article iv section 4.01 of general conditions ‘the recipient and the project implementing entity shall carry out their respective parts of the project a) with due diligence and efficiency b) in conformity with appropriate administrative, technical, financial, economic, environmental and social standards and practice ...

During audit of NADRA for the year 2022-23 it was observed that NADRA implemented a project in ex-FATA and procured 75 bio metric devices for facilitation centers costing Rs 18.227 million. However, record revealed that per unit cost of that device was Rs 293,991 which was higher than per unit cost of similar imported devices which were purchased during the same period @ US\$ 580, which comes to Rs 153,682 (at the \$ exchange rate of Rs 264.97). Thus, due to procurement of devices at higher rates, project sustained a loss of Rs 10.523 million (Rs 293,991 – 153682 x 75).

Audit is of the view that management of the project did not exercise due diligence while procuring Biometric devices (Thumb Digitizer).

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility.

Para-22 (NADRA-2022-23)

12.1.4.24 Irregular procurement of waiting bench - Rs 21.927 million

As per rule 12 (2) of PPRA 2004, all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

During audit of NADRA for the year 2022-23 it was observed that a NADRA implemented a project in ex-FATA and procured 460 three seater waiting bench for general public at a total cost of Rs 21.927 million without preparation of tender documents and advertisement in newspapers. Instead, the management called for quotations and selected the lowest bidder. Thus, the procurement was made in violation of procurement rules.

Audit is of the view that management violated the PPRA rules and failed to exercise due diligence and procurement was made in non-transparent manner.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility.

Para-23 (NADRA-2022-23)

12.1.4.25 Undue favor to supplier due to non-encashment of Guarantee - Rs 4.612 million

A per clause 19 of PPRA rules, 'the procuring agencies shall specify a mechanism and manner to permanently or temporarily bar, from participating in their respective procurement proceedings, suppliers and contractors who either consistently fail to provide satisfactory performances or are found to be indulging in corrupt or fraudulent practices. Such barring action shall be duly publicized and communicated to the Authority: Provided that any supplier or contractor who is to be blacklisted shall be accorded adequate opportunity of being heard.

As per purchase order issued to M/s UBC Convertec (Pvt.) Ltd dated January 19, 2023 for procurement of 40,000 paper ream, the delivery time for supply of required quantity of paper reams was within 60 days after issuance of purchase order.

During the audit of NADRA for the year 2022-23, it was observed that management issued a letter of acceptance to successful bidder i.e. M/s UBC Convertec (Pvt.) Ltd on December 12, 2022 for the supply of 40,000 paper reams and requested to submit a performance guarantee within 28 days. The bidder submitted bank guarantee of Rs 4.612 million having expiry of July 08, 2023. Accordingly, the purchase order was issued to supplier on January 19, 2023 for supply of paper reams within 60 days. The supplier only supplied 5,000 paper reams and showed its inability to supply the balance quantity vide letter dated

February 16, 2023. However, management neither forfeited the bank guarantee nor issued any letter to the supplier for early supply of the remaining paper reams till the expiry of bank guarantee i.e. July 08, 2023.

Audit is of the view that management extended undue favor to the supplier by non-forfeiture of bank guarantee.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility.

Para-5 (NADRA-2022-23)

12.1.4.26 Non-transparent hiring of officer and payment of salary - Rs 4.789 million

According to regulation 11 (5) candidate for initial appointment must possess the qualification and experience and must be within the age limit laid down for the post by the authority. According to regulations 12 (1) vacancies against all posts in any pay scale shall be filled in accordance with the same merit and provincial quotas prescribed by the Government for recruitment against posts in equivalent pay scale. Further regulation 11 (5) candidate for initial appointment must possess the qualification and experience and must be within the age limit laid down for the post by the authority. Similarly, regulation 14, required verification of the character and antecedents of the candidate, regulation 15 (4) required security clearance from relevant agency or agencies. Chapter-6 regulation 44, required that pay at initial appointment of a persons to a post shall fixed at the minimum of the pay scale.

During the audit of NADRA for the year 2022-23, it was observed that management appointed Mr. Muneeb Ashraf Cheema as Dy. Director (Legal) at a monthly remuneration of Rs 279,097 at O-8 grade of NADRA. However, following discrepancies were observed in the hiring process:

1. Original advertisement in newspaper was not made. Only computer generated advertisement print was available in relevant file provided to audit.
2. Merit list was not prepared by the HR department which showed that appointment was made in non-transparent manners.
3. At the time of hiring, no vacant position existed. Organogram of legal department and vacancy position was also not found. It showed that vacant position was not available at the time of hiring.
4. File was not complete in respect of other competitor's data sheets and documents. In a minute sheet dated 17.02.2023, four candidates were shortlisted for interview out of 84 applicants. The bio data of remaining candidates was not found in relevant file. It indicated that selection was made on pick & choose basis and merit based shortlisting was not made.
5. The salary of the officer was fixed as Rs 279,097 per month in O-8 grade while the initial salary of O-8 grade was Rs 200,000 per month plus allowances as per NADRA approved pay scale given in service regulations. No special circumstances were mentioned for offering such high salary.
6. His security verification was not made despite the fact that he was appointed on such post for the first time.
7. Maximum age limit as per criteria mentioned against the posts was 35 years but the officer's age at the time of appointment was 39 years.
8. His credentials were not verified (independently) from relevant forum i.e. HEC

Audit is of the view that appointment of officer was made in non-transparent manner by ignoring the facts mentioned above. Currently, the officer drawing monthly salary Rs 399,000 (approx.). Thus, the payment of salary & other benefits worth Rs 4.789 million (Rs 399,000 x 12) were held irregular.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the appointment of officer in non-transparent manner without having a vacant post, fixation of pay above minimum of relevant pay scale and fixing responsibility on person(s) at fault.

Para 37 (NADRA-2022-23)

12.1.4.27 Unjustified provision of non-practicing allowances despite of higher salaries - Rs 6.609 million

According to Appendix-I of NADRA services regulations defined the allowances of perquisites. According to appendix-I, in addition to basis salary as per relevant “O”/“T” scales NADRA employees will be provided / compensated with Head Quarter allowance, field allowance, conveyance allowance, house rent allowances, cash allowance and other facilities like mobile telephone, vehicles facility, hiring of house etc. however, there was no provision of providing non-practicing allowances to the officers of professional cadre e.g. lawyers, doctors, Chartered Accountants etc. or any other class of professionals.

During the audit of NADRA for the year 2022-23, it was observed that management introduced “T” pay scales with competitive remuneration packages to attract qualified professionals. The management also allocation a budget of Rs 6.609 million for non-practicing allowance (NPA) without having its provision in NADRA services regulations. The NPA policy, circulated by the chairman was without the consent of NADRA BoD. The NPA was being paid to the officers of O-7 to O-20 at the rate ranging from Rs 80,000 per month to Rs 200,000 per month. Detail of employees drawing NPA could not be acquired due to non-provision of relevant data by the management.

The provision of NPA without approval of the BoD and inclusion in terms and conditions of service of the appointees was considered as irregular and unjustified.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter for provision of NPA without approval from authority and in violation of terms and conditions of contact appointments and fixing responsibility thereof.

Para 47 (NADRA-2022-23)

12.1.4.28 Irregular appointment in non-transparent manners and payment of salary - Rs 9.611 million

According to chapter 2, regulations 9 of NADRA Service Regulations, the appointing authority of officers in BPS-19 and BPS-20 or equivalent in “O” and “T” pay scales and above is the “Authority.”

During audit of NADRA for the year 2022-23, it was observed that management floated an advertisement for hiring of Director General for its legal department. In response, only one person Mr. Tajammal Hussain Shah applied for the position. The management selected him through an interview conducted by executive committee instead of HR committee of the Board of Directors and offered contract appointment at a monthly salary of Rs 800,905. The chairman approved his hiring without the proper authority of the Board of Directors who was competent for hiring of grade 19-20 or equivalent officers. Later on, the services of officer were terminated without serving any legal notice despite the fact that his contract was renewed for three years on May 05, 2023 just 03 months before termination of contract on September 01, 2023. He drew monthly gross salary of Rs 2,100,000 approximately. Thus, due to non-transparent hiring of officer, the salary of Rs 25.200 million (Rs 2,100,000 x 12) paid to him during 2022-23 was held irregular.

Audit is of the view that appointment of officer through tailor-made criteria, interviewed by the executive committee headed by COO and two BPS-20 grade officers and approved by Chairman NADRA was irregular.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter of irregular appointment of officer in non-transparent manners without the approval of BoD and fixing responsibility.

Para 41 (NADRA-2022-23)

12.1.4.29 Non recovery of salary paid to an officer during suspension - Rs 20.050 million

As per clause 4 of civil services (efficiency and discipline) rules 1973, misconduct means conduct prejudicial to good order or service discipline or contrary to Government Servants (Conduct) Rules, 1964 or unbecoming of an officer and, a gentlemen and includes any act on the part of a Government servant to bring for attempt to bring political or other outside influence directly or indirectly to bear on the Government or any Government officer in respect of any /matter relating to the appointment, promotion, transfer, punishment, retirement or other conditions of service of a Government servant;

During the audit of NADRA for the year 2022-23 it was observed that management after going through complete inquiry procedure imposed major penalty of removal from services on Mr. Ashfaq Ahmad (D.G) vide order dated July 13, 2015. However, the officer filed a writ petition in Islamabad High Court. On the direction of Islamabad High Court, the chairman re-instated the officer for the sake of re-inquiry only. However, during re-inquiry proceedings, the officer filed another writ petition # 313/2016 in Islamabad High Court. The proceedings of fresh inquiry remained suspended due to this court case and the officer was placed on HR pool with no duty assigned to him. Later on, writ petition No. 313/2016 was

dismissed by the court on 23.05.2018, thus after dismissal of writ petition, the competent authority on recommendation of authorized officer again imposed major penalty of removal from service. The officer was paid an amount of Rs 20.05 million during suspension period on account of salary etc. The authority requested the officer to deposit 20.05 million (approx.) amount drawn by him during this period. However, no documentary evidence regarding recovery was found in the file.

Audit is of the view that NADRA management should take up the matter at appropriate level for recovery of its dues.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends explaining the reasons of non-recovery from the employee besides early recovery of amount under intimation to audit.

Para 50 (NADRA-2022-23)

12.1.4.30 Non reflection of amount of PPO Project PAK ID expenditure and revenues in ledgers

According to clause 17-D of contract dated 20th June, 2017 between NADRA and Pakistan Post Office for provision of Physical counters for Pak-ID applicants, “NADRA shall use its own resources to procure equipment, i.e. computer, camera, printer, scanner, finger print digitizer, and internet connectivity for the project”. According to Section 27 of Chapter 08 of NADRA ordinance 2000, “Accounts and Audit” (1) “The authority shall maintain complete and accurate books of accounts of its actual expenses and receipts.”

During audit of NADRA for the year 2022-23, it was observed that NADRA initiated Pakistan Post Office PAK ID Project through contract between NADRA and Pakistan Post Office dated 20th June 2017. The main objective of the project was to provide citizen registration facilities as mentioned above through designated counters in Pakistan Post offices in the country. As part of the contract dated 20th June 2017, NADRA would use its own resources to procure equipment, i.e. computer, camera, printer, scanner, fingerprint digitizer, and internet connectivity for the project. Audit observed the following:

- The ledgers of NADRA did not reflect any costs related to purchase/maintenance or replacement of equipment relating to the PPO project.
- As per agreement, PPO staff being trained on the processing of Pak ID counters, but no such costs appeared in the ledgers.
- There had been consistent shifting history of PPO counters due to low performance which had cost implications but the same was not reflected in ledgers.
- There was also revenue sharing process agreed between the two parties as per annex F of the contract but no revenue record was found in the ledgers.

The irregularity occurred due to violation of NADRA Ordinance which required the management to maintain complete and accurate books of accounts of its actual expenses and receipt.

Audit is of the view that due to violation of NADRA Ordinance; the books of accounts did not reflect any related expenditure to the PPO project.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to state the reasons for non-ensuring booking of PPO expenditure in ledgers and fix responsibility.

Para-28 (NADRA-2022-23)

12.1.4.31 Losses due to Non-charging of Sales Tax on Computerized Arms Licenses

According to Section 2(12) of Sales Tax Act 1990 “goods” include [production, transmission and distribution of electricity,] every kind of movable property other than actionable claims, money, stocks, shares and securities. Section 13 states Exemption: (1) Notwithstanding the provisions of section 3, supply of goods or import of goods specified in the Sixth Schedule shall, subject to such conditions as may be

specified by the [Federal Government], be exempt from tax under this Act. According to Letter of Government of Pakistan, Revenue Division, Federal Board of Revenue No. 3(10)/ST&FE/policy/2021(pt-II)/54486-R Islamabad dated 10th April 2023, after perusal of the aforesaid provision of law, it is transpired that all goods are chargeable to sales tax at the applicable rate of sales tax subject to the exclusion as provided in terms of section 2(12) of the sales tax act 1990, read with section 13 of the Act ibid as specified in the sixth Schedule thereon. Since, goods in question supra as pointed out by the Honorable FTO at para 9 (i) above, do not fall, the ambit of exclusion/exemption, accordingly the same are chargeable to sales tax at the applicable rate of 18%. In view of the above forgoing, computerized licenses in the form of cards, being supplied by NADRA, Islamabad to the Federal Government, and Provincial Governments, attract charge of sales tax at the standard rate.

During the audit of NADRA for the year 2022-23, it was observed that NADRA provided computerized arms licenses to the Ministry of Interior without charging sales tax contrary to the provisions of the Sales Tax Act, 1990. The licenses issued were considered as taxable goods for the purpose of sales tax. NADRA issued total licenses worth Rs 516.684 million (32,044 prohibited bore tokens valuing Rs 308.135 million and 84,536 tokens of Non prohibited bores valuing Rs 208.548 million) to the public but neither calculated nor collected the amount of tax on said licenses in violation of provisions of Sales Tax Act, 1990.

Thus by non-charging of sales tax on chargeable goods, NADRA incurred loss to the government exchequer.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying reasons for non-charging of sales tax on the provision of the computerized licenses, calculate the total tax according to the value supplied to the Government and deposit the tax into Government exchequer under intimation to Audit.

Para30 (NADRA-2022-23)

12.1.4.32 Poor project feasibility and lack of monitoring mechanism resulting in losses and damage to the reputation of NADRA

According to annex A of the contract dated 20th June 2017 between NADRA and Pakistan Post Office for the establishment of designated counters at GPOs for providing registration facilities states: following categories of ID cards will be processed through NADRA PAK-ID Web based applications at PPOs: (A). Renewal of ID card (B). Duplicate of ID card and (C). Modification of ID card.

During audit of NADRA for the year 2022-23, it was observed that NADRA initiated Pakistan Post Office PAK ID Project through contract between NADRA and Pakistan Post Office dated 20th June 2017. The main objective of the project was to provide citizen registration facilities as mentioned above through designated counters in Pakistan Post offices in the country. Audit observed the following:

- a) The project sites were selected randomly without any feasibility study or demographic survey. This is evidenced by the fact that hundreds of sites were subsequently shifted from one GPO to another. This can hurt NADRA's reputation.

- b) No monitoring mechanism had been devised by project management to check the progress.
- c) No marketing efforts were made by NADRA to market the services launched.
- d) NADRA primary ledger was thoroughly searched by audit but the expenditure in relation to the project could not be ascertained. NADRA ledgers were silent about the detailed breakup.
- e) The data of NADRA is very confidential in nature and there is a chance of data leakage by the post office staff. This may hurt NADRA's reputation.
- f) Trained staff was regularly transferred from one GPO to another by GPO office which resulted in hindering activities.
- g) Apparently, there was no need to establish physical counters if the project was considered as an extension of PAK ID services which were online services.

Audit is of the view that PPO project was started without proper feasibility and lack of monitoring mechanism which resulted into poor performance and extra administrative burden and losses.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to explain reasons for the lack of feasibility and monitoring and give a breakup of the income and expenditure (all items lines including equipment, HR, renovation etc.)

Para-27 (NADRA-2022-23)

12.2 NADRA Technologies Limited

12.2.1 Introduction

NADRA Technologies, the commercial interface for NADRA, provides a variety of products and value-added services to both national and international clients, with Identity Verification and eSahulat being the most significant domestic services. Our professional staff provides clients with objective and optimal solutions.

Vision & Mission

Our mission is to continually demonstrate a passion for the customer and provide the finest level of service. We believe in producing trustworthy and cutting-edge solutions that address today's problems and pave the way for technological advancements in the future.

12.2.2 Comments of audited Accounts

12.2.2.1 The annual audited accounts are required to be provided to Audit for review each year. Contrary to this, the management failed to provide audited annual accounts of the organization for the year 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts of 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*refer Annex-2*).

12.2.3 Compliance of PAC Directives

There were no pending PAC directives for compliance.

12.2.4 Audit Paras

12.2.4.1 Unauthorized investment of funds in Treasury Bills – Rs 3,919.561 million

According to the Finance Division O.M. No.F.4(1)/2002-BR-II dated July 02, 2003, September 06, 2004, September 22, 2005, and December 23, 2014 (a) for the sake of the safety and security of deposits, the bank/financial institutions taking a deposit should have a minimum "A" rating (long-term) as appearing on the website of the State Bank of Pakistan. (b) The process of selection of bank/(s) should be transparent therefore, before placing deposits with a bank under this new policy..." The Finance Division vide its OM No. F.4(1)/NTR/2002-666/2022 dated May 18, 2022 has withdrawn its earlier O.M. No. F.4(1)/2002-BR-II dated July 02, 2003, September 06, 2004, September 22, 2005, and December 23, 2014 and the approval accorded to any public sector entities for maintaining working balance are also hereby withdrawn.

During audit of NADRA Technologies Limited for the year upto 2021-22, it was observed that the management invested Treasury Bills at a purchase price of Rs 3,919.567 million having a face value of Rs 4,050.00 million on June 21, 2022 with a maturity date August 25, 2022 in disregard to the above referred Finance Division OM.

Audit is of the view that the investment made contrary to the clear instruction of the Finance Division was unauthorized.

The matter was reported to the management on December 05, 2023 and Principal Accounting Officer (PAO). The DAC in its meeting held on December 28, 2023 directed the management to obtain clarification from Finance Division on the matter of investment made by the company.

Audit recommends compliance of the DAC directives.

Para-1 (NTL - 2021-22)

12.2.4.2 Wasteful expenditures due to non-achievements of objectives set for the establishment of the company - Rs 1,273.781 million

According to the Memorandum of Association of NADRA Technologies Limited, there were 72 objectives to be achieved. The rationale behind the establishment of the company was to undertake surveys, development of electronic chips, software development, data warehousing, and management, business process re-engineering, documentation, and reporting in the field of information technology and graphic information system for the public and private sector, nationally and internationally to achieve a market share in the global market through Innovation & efficient utilization of Resources, generate foreign currency reserves, revitalize the IT industry, and create employment.

During Audit of NADRA Technologies Limited for the year upto 2021-22, it was noted that the management of the National Database and Registration Authority (NADRA) established a subsidiary company namely NADRA Technologies Limited in the year 2004, under the Companies Ordinance, 1984. There were seventy-two (72) objectives defined in the company Memorandum of Association.

Audit observed that management of NADRA Technologies Limited did not take any kind of practical initiative for the achievement of the objectives as defined in the Memorandum of Association of the Company since its establishment. Financial Statements for the year ended June 30, 2022, showed huge amount of expenditure incurred but the achievement of objectives were very insignificant. During the financial year 2021-22 NTL had major sources of earning from E-Shaulat project and Verisys project only. This showed that the management could not develop appropriate marketing strategies which could give it a competitive edge over the competitors in the global markets of information technology or bring a new project to the company. It is pertinent to mention here that the order/decision of the competent Authority for its needs of establishment as a subsidiary company was not shared with the audit.

Audit is of the view that non-initiative for achievements of major objectives as mentioned in the company Memorandum of Association was a serious lapse on the part of the company besides expenditure amounting to Rs 1,506.284 million incurred on operating costs out of which Rs 1,273.781 million incurred on salary & wages and traveling & conveyance respectively stands wasteful.

The matter was reported to the management on December 05, 2023 and Principal Accounting Officer (PAO). The DAC in its meeting held on December 28, 2023 directed the management to share yearly progress for achievement of objectives of NTL with Audit.

Audit recommends compliance of the DAC directives.

Para-3 (NTL - 2021-22)

12.2.4.3 Irregular investment of funds in Treasury Bills – Rs 1,501.166 million

According to Finance Division O.M. No. F.4(1)/2002-BR-II dated July 02, 2003, investment of working balances/surplus funds be made subject to fulfillment of various requirements such as investment in 'A' rating banks, competitive bidding process, investment exceeding Rs10 million shall not be kept in one bank, setting up of in-house professional treasury management functions, formation of Investment Committee, employment of qualified investment management staff, utilization of services of professional fund managers approved by SECP, annual certificate of the Chief Executive of the organization, etc.

During audit of NADRA Technologies Limited for the year upto 2021-22, it was observed that the management invested Rs 1,501.166 million having a face value of Rs 1,546.00 million on April 21, 2022 with a maturity date of July 14, 2022 in treasury bills. In disregard to the above-referred policy of the Government dated July 02, 2003, the following irregularities were also observed:

- The working balance limit was not determined with the approval of the administrative Ministry in consultation with the Finance Division.
- The funds were invested without the recommendations of the Investment Committee and the approval of the Board.
- The services of professional fund managers duly approved by SECP were not obtained.
- The CEO of the company was required to issue a certificate on an annual basis that the instructions contained in the above referred OMs are being followed in respect of working balance and surplus funds of the organization which was not done.

Audit is of the view that during the time of investment, the directions of Finance Division dated July 02, 2003, were fully applicable at the time of making investment. However, the management of NTL did not follow the said directions and invested funds against the policy which was considered as unauthorized/ irregular.

The matter was reported to the management on December 05, 2023 and Principal Accounting Officer (PAO). The DAC in its meeting held on December 28, 2023 directed the management to share yearly progress for achievement of objectives of NTL with Audit.

Audit recommends compliance of the DAC directives.

Para-4 (NTL - 2021-22)

12.2.4.4 Unauthorized expenditure of Rs 691.694 million incurred by the parent organization

According to rule-9 of General Financial Rule Volume-I, as a general rule no authority may incur any expenditure or enter into any liability involving expenditure from public funds until the expenditure has been sanctioned by general or special orders of the President or by an authority to which power has been duly delegated in this behalf and the expenditure has been provided for in the authorized grants and

appropriations for the year. According to Corporate Governance Rules, 2013 5 (5) The Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders, in the following manner, namely:- (a) the principle of probity and propriety entails that company's assets and resources are not used for private advantage and the due economy is exercised to reduce wastage.

During audit of NADRA Technologies Limited for the year upto 2021-22, it was observed that the financial statements for the year ended June 30, 2022, showed expenditures incurred by the parent organization of Rs 373.991 million and Rs 317,703 million for the year ended June 30, 2021, respectively. It is pertinent to mention here that the parent organization can not incur expenditure on behalf of a subsidiary company without prior written approval and without any legal agreement between the parties.

Audit is of the view that the incurrence of expenditure on behalf of the company by the parent organization without prior approval from competent authority and without any legal agreement with parties was unauthorized.

The matter was reported to the management on December 05, 2023 and Principal Accounting Officer (PAO). The DAC in its meeting held on December 28, 2023 directed the management that detail of services provided by the NTL to NADRA and agreement between NADRA and NTL be got verified from audit.

Audit recommends compliance of the DAC directives.

Para-10 (NTL - 2021-22)

12.2.4.5 Appointment of Chief Executive Officers of the company without approval of Federal Government

According to Cabinet Secretariat Establishment Division OM No. 6/4/96-R-3 dated September 14, 2018 and OM No. 6/4/96-R-3 dated May 10, 1997, provides that the appointment of Chief Executive/Head of Organization "Selection Board headed by the Minister Incharge to consider and recommend from a panel of three names for each vacancy" provided that, where the charge of the Ministry/Division is headed by the Chief Executive, the selection board shall be headed by the Secretary of the respective Ministry/Division and approving authority for the said appointment is the Prime Minister/Chief Executive. According to rule 5 (2) of Corporate Governance Rule 2013, "the Board shall evaluate the candidates based on the fit and proper criteria and the guidelines specified by the Commission for appointment to the position of the chief executive and recommend at least three candidates to the Government for its concurrence for appointment of one of them as chief executive of the Public Sector Company..."

During audit of NADRA Technologies Limited for the financial years upto 2021-22, it was revealed that the Chief Executive Officers of the company were appointed without approval/concurrence of Federal Government which was clear violation of above referred Cabinet Secretariat Establishment Division OM and provisions of Corporate Governance rules and was held irregular.

Audit is of the view that appointment of the Chief Executive Officer of the Company without concurrence of Federal Government contrary to the Cabinet Secretariat Establishment Division OM and the provisions of Corporate Governances rules was considered irregular.

The matter was reported to the management on December 05, 2023 and Principal Accounting Officer (PAO). Management explained in DAC meeting that chairman NADRA and CEO was the same positions and there was no need to obtained separate approval from the Govt. of Pakistan for appointment of CEO of the NTL. The DAC in its meeting held on December 28, 2023 directed the management that relevant record be got verified from audit.

Audit recommends compliance of the DAC directives.

Para-6 (NTL - 2021-22)

Chapter-13

Ministry of Housing & Works

Overview

As per Rules of Business, 1973, Ministry of Housing and Works is responsible for development of sites, construction, furnishing and maintenance of Federal Government buildings, except those under the Defense Division and Ministry of Foreign Affairs. Pak PWD, FGEHA, and PHAF are the implementing arms of Housing and Works to discharge with the assigned responsibilities. Pak PWD is responsible for construction and maintenance works (Buildings and Roads) of the Federal Government. The FGEHA is authorized to initiate, launch, sponsor and implement Housing Schemes for Federal Government Employees in major cities of Pakistan, to make and assist, as far as possible, each of them to have house at the time of retirement or earlier. PHAF is mandated to provide shelter and to reduce the housing shortfall in Pakistan.

Aims & Objectives

Ministry of Housing and Works is responsible to carry out the following functions:

1. Acquisition of Federal Government buildings, except those under the Defence Division.
2. Provision of Government owned office accommodation and residential accommodation, policy for acquisition, requisitioning and hiring of office and residential accommodation for officers and staff of the Federal Government.
3. Fixation and recovery of rent of Government owned, hired and requisitioned buildings.
4. Management of Federal lodges.
5. Land and buildings belonging to the Federation wherever situated and revenues derived there from.
6. Administration of the Federal Government Lands and Buildings (Recovery of Possession) Ordinance, 1965 (LIVof1965).
7. Matters relating to the Federal Government lands licenses to various cooperative housing societies in Karachi, except those under the Defence Division.
8. Transfer of property, other than agricultural land, registration of deeds and documents.
9. Administrative control of the National Housing Authority.
10. National Housing Policy.
11. Development of sites, construction, furnishing and maintenance of Federal Government buildings, except those under the Defence Division.
12. Coordination of civil works budget and Execution of Federal Government works.
13. Officers belonging to the Engineering Group.
14. Matters relating to the National Construction (Domestic) Limited.
15. Physical planning and human settlements including urban water supply, sewerage and drainage.

Governing Laws and Policies

- Accommodation Allocation Rules
- Allotment of Semi-Permanent Accommodation in Federal Government Hostels Rules, 2019.
- Building Codes of Pakistan

13.1 Pakistan Environmental Planning & Architectural Consultant (Pvt.) Limited

13.1.1 Introduction

PEPAC is a self-financed Company established/incorporated in 1974 through resolution to provide Town Planning, Environmental Engineering and Architectural Consultancy Services to projects initiated by the Government, Semi-Government and Autonomous Bodies.

It is registered with Securities Exchange Commission of Pakistan (SECP), Pakistan Engineering Council (PEC) and Pakistan Council of Architects and Town Planners (PCATP) and is administered by a Board of Directors, which has its Chairman; Federal Secretary to the Government of Pakistan in an ex-officio capacity. The Managing Director is the operational head of the firm. The organization has advantage of being fully under the Federal Government, yet operating as a private professional entity and competing with other private sector consultancies in the field to procure business in the market through competition generating finance from consultancy fee by clients to meet the day to day expenses/expenditures.

13.1.2 Comments on audited accounts

13.1.2.1 The working results of the Company for the year 2022-23 as compared to the previous years are given below:

(Rs in million)

Particulars	2022-23	% inc/ (Dec)	2021-22	% inc/ (Dec)	2020-21
Revenue/Professional Fee	51.593	(11.88)	58.548	(1.80)	59.624
Cost of revenue	42.307	(2.78)	43.517	(14.29)	50.772
Gross Profit / (loss)	9.286	(38.22)	15.031	69.80	8.852
Administrative Expenses	8.417	(28.61)	11.790	37.64	8.566
Distribution Cost	0.121	28.72	0.094	(35.17)	0.145
Finance Cost	0.020	(16.67)	0.024	(35.14)	0.037
Operating Profit / (loss)	0.728	(76.69)	3.123	2,902.88	0.104
Other operating income	0.403	69.33	0.238	83.08	0.13
Profit before Taxation	1.131	(66.35)	3.361	1336.32	0.234
Provision for Taxation	1.078	10.56	0.975	-	-
Profit for the year	0.053	-97.78	2.386	919.66	0.234

(Source: Annual Audited Accounts)

The revenue of the company decreased to Rs 51.593 million during the year 2022-23 as compared to Rs 58.548 million in 2021-22 registering a decrease of 11.88%. This showed poor performance

of the company especially with reference to sale of consultancy services. Reasons for decrease of revenue need to be explained.

13.1.2.2 Trade and other payables increased by 7.61% (2022-23: Rs 134.554 million – 2021-22: Rs 125.037 million) during the year 2022-23. Main increase was made in trade creditors and payable to statutory funds. Detailed aging of these liabilities along with reasons need to be explained. Audit stresses for early release of these liabilities.

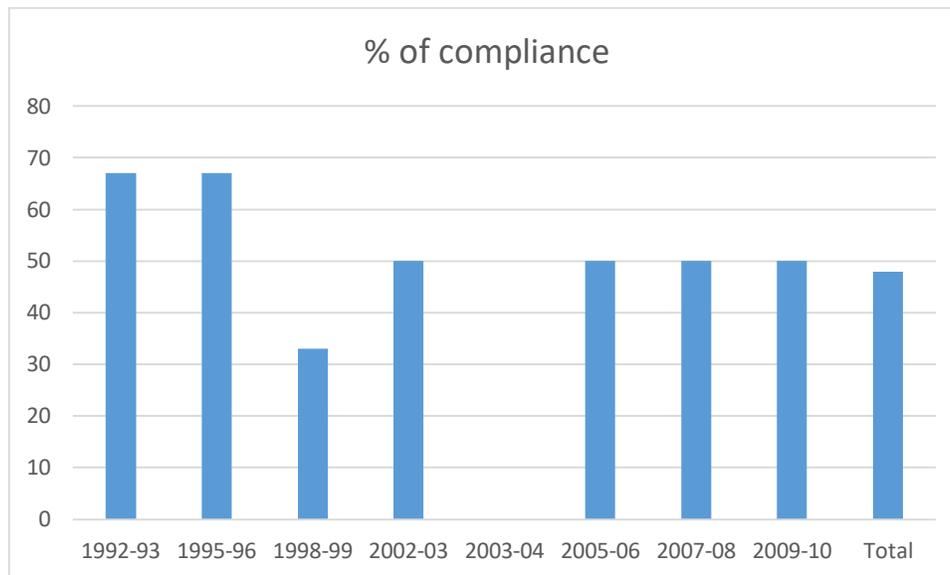

13.1.2.3 Trade debts increased by 13% (2022-23: Rs 127.28 million– 2021-22: Rs 135.22 million) during the year 2022-23. The non-recovery of trade debts may result in bad debts in the years to come. This indicated ineffective credit policy of the Corporation. Effective steps needed to be taken for early recovery and to avoid its conversion into bad debts.

13.1.2.4 Retention money receivables increased in the current year as compared to previous year i.e. Rs 21.36 million as on June 30, 2023 and Rs 18.66 million as on June 30, 2022. Break-up of retention money receivables along with reasons for non-receipt of retention money may be explained.

13.1.2.5 Physical verification of assets valuing Rs 16.35 million as on June 30, 2023 was not conducted by an independent store verifier. Value of store assets, therefore, cannot be authenticated which needs to be explained.

13.1.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No	% of compliance
1992-93	03	02	01	138	67
1995-96	03	02	01	123	67
1998-99	03	01	02	103, 104	33
2002-03	06	03	03	47 & 48, 48.4, 49	50
2003-04	02	0	02	35.3, 35.5	-
2005-06	04	02	02	54, 54.3	50
2007-08	02	01	01	41.2	50
2009-10	02	01	01	64	50
Total	25	12	13		48

Overall compliance of the PAC directives was not satisfactory especially during 2003-04, which needs to be improved.

13.1.4 Audit Paras

13.1.4.1 Irregular expenditure without approval of budget and non-submission of the annual accounts to the SECP - Rs 301.481 million

Chapter V (A) "Management and Administration" of the Articles of Association of the company requires the establishment of the BoD comprising the number of Directors shall not, in any case, be less than two. According to S. No. 08 of Section 196 of the SECP rules, powers of Directors with regard to managing the business of the company, the directors of a company will approve annual or half-yearly or other periodical accounts as are required to be circulated to the members;

During the audit of the PEPAC for the year 2019-22, it was observed that last meeting of the BOD was conducted on 17.06.2017 and thereafter no meeting was convened till expiry of the tenure of BoD in 2020. Further, management failed to prepare the budgets for the years 2017-18 to 2021-22 for approval from the PAO in the absence of the BoD.

Audit is of the view that due to non-preparation and approval of the annual budgets, the expenditure of Rs 301.481 million incurred without prior approval was irregular.

Year	Total expenditure (Rs)
2017-18	63,697,468
2018-19	63,235,991
2019-20	58,470,072

2020-21	59,678,259
2021-22	56,399,625
Total:-	301,481,415

The annual financial statements of the company were also not submitted to the SECP as the same were not approved by the BoD which was a violation of the SECP rules.

The matter was reported to the management on September 21, 2023. The management in its reply dated January 06, 2024 stated accounts would be presented to Board as and when constituted.

The reply is not convincing as BOD was not constituted since 2020 and management failed to prepare the budgets for the relevant years for approval from the PAO.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying the incurrence of the expenditure without prior approval of the budget from the PAO and intimating the reasons for non-formation of the BoD.

Para-1 (PEPAC – 2019-20-2021-22)

13.1.4.2 Unauthorized execution of the works through joint venture firms without competition - Rs 215.40 million

According to Para 12 (1) of the PPRA 2004, all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu. According to Para 15 (1) of the PPRA 2004, a procuring agency, prior to the floating of tenders, invitation to proposals, or offers in procurement proceedings, may engage in pre-qualification of bidders in case of services, civil works, turnkey projects.

During audit of PEPAC for the years 2019-22, it was observed that 05 works of Rs 215.40 million were executed through joint ventures with other firms/companies by signing MoUs without adopting the proper procedure.

The following points were observed during the audit:

1. Open tendering system as required under the PPRA was not adopted to prequalify the joint venture firms.
2. MoUs were directly signed by the acting Managing Director without approval of BoD or administrative ministry.
3. Works were obtained on the goodwill of the PEPAC and then awarded to other companies despite the availability of technical staff.
4. All Joint venture agreements were signed with M/s Zeeruk, EPCM, M/s EGC and M/s Sheher Saaz which seemed that undue favour was given to the firms.
5. Record relating to the Joint venture firms were not produced to audit.

6. All works were given to the companies/firms on the profit sharing ratios of 05: 50:25:20 to 30:70 without any proper justification, which seemed that firms were benefited at the cost of the company.
7. No Joint venture bank accounts were opened before the execution of the works and payments were made directly to the companies/firms.

Audit is of the view that works were illegally executed through the joint venture companies /firms therefore, held Irregular and violations of the PPRA 2004 rules.

The matter was reported to the management on September 21, 2023. The management in its reply on January 06, 2024 stated that PEPAC, as part of joint venture, received project awards but was lacking PCATP registration, hindering its ability to bid independently for town planning projects. Additionally, PEPAC lacked the necessary experience, bid security, performance bank guarantee, annual turnover, and required professionals for such projects. Consequently, PEPAC was unable to meet the criteria for bidding on town planning projects as a single entity.

The reply is not tenable as PPRA was not adopted to prequalify the joint venture firms prior to the execution of the works with them.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility thereof.

Para-2 (PEPAC – 2019-20-2021-22)

13.1.4.3 Non-recovery of outstanding dues from various clients - Rs 127.283 million and non-imposition of penalty on the clients for delayed payments - Rs 12.728 million

Rule 7 (2) (L) of the Public Sector Companies (Corporate Governance) Rules, 2013, stipulates that the Board shall establish appropriate arrangements to ensure to enable it to carry out its role effectively. (2) For the purpose of sub-rule (1), significant issues shall, inter-cilia, include the following, namely: - (L) failure to recover material amounts of loans, advances, and deposits made by the Public Sector Company, including trade debts and inter-corporate finances.

During audit of PEPAC for the years 2019-22, it was observed that an amount of Rs 127.283 million was outstanding against various departments as on 30.06.2023 since long but the management failed to recover the amount. Management also failed to include a penalty clause in the contract agreements, of Rs 12.728 (@ 10 % of Rs 127.283 million).

Audit is of the view that due to lack of financial control, the company sustained loss of Rs 140.011 million (Rs 127.283 + Rs 12.728 penalty).

The matter was reported to the management on September 21, 2023. The management in its reply on January 06, 2024 stated that PEPAC was mostly working on public sector projects and payments remained outstanding due to lack of funds by the Government. Further, payments were linked with deliverables which needed approvals from different forums.

The reply is not tenable as a huge amount was recoverable since long.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying non-inclusion of the penalty clause in the agreements and recover the amount involved from the departments.

Para-5 (PEPAC – 2019-20-2021-22)

13.1.4.4 Loss due to irregular creation of salaries' liability of employees - Rs 56.862 million

According to Para 09 of the General Financial Rules Vol-1, as a general rule no authority may incur any expenditure or enter into any liability involving expenditure from public funds until the expenditure has been sanctioned by general or special orders of the President or by an authority to which power has been duly delegated in this behalf and the expenditure has been provided for in the authorized grants and appropriations for the year.

During audit of PEPAC for the years 2019-22, the financial record of the company showed a pending liability of Rs 56.862 million (Rs 46.769 million and Rs 10.093 million) on account of payment of arrears of salaries to current and ex-employees respectively till May 2023.

Audit observed that out of total 93 employees, there were 39 current employees and 27 ex-employees whose salaries were pending for the last six months to two and half years. Such situation depicted that either these employees were not actually performing their duties or might be fake/ghost.

Audit is of the view management failed to curtail / reduce the staff according to the actual requirement of the company and a huge liability of Rs 56.862 million had been created which was a burden on the company.

The matter was reported to the management on September 21, 2023. The management in its reply on January 06, 2024 stated PEPAC had requested the government many times for one time grant for the clearance of the outstanding dues of the ex-employees. PEPAC staff was reduced to bare minimum and in fact lacking by technical professionals.

The reply is not tenable as more than 13 salaries were paid to the current employees whereas, dues of few ex-employees & other liabilities were also cleared during the FY 2021-22.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to justifying creation of liability of the salaries, rationalize the staff and strenuous efforts be made to make the company an ongoing concern.

Para-6 (PEPAC – 2019-20-2021-22)

13.1.4.5 Non-payment of outstanding liability of CP Fund of the employees of PEPAC – Rs 35.889 million

According to Para 24 and 27 of the CP Fund rules, 1975, every subscriber and employer shall contribute equally @ a minimum of 10 % of the pay to the fund each month.

During audit of PEPAC for the years 2019-22, it was observed that there was an outstanding liability of statutory funds amounting to Rs 35.889 million payable to the CP Fund trust of the employees.

PEPAC failed to deposit the due share of the employees' as well as the employer's contributory provident fund upto 30.06.2022.

Audit is of the view that due to non-payment of the due share of the fund, employees were deprived of the benefit of the CP Fund amounting to Rs 35.889 million.

The irregularity was occurred due to lack of internal control.

The matter was reported to the management on September 21, 2023. The management in its reply dated January 06, 2024 stated that PEPAC was hardly managing to disburse the salaries to its staff, however as and when funds would be available, CP fund contribution would be deposited.

The reply is not convincing as PEPAC management failed to pay its outstanding liability of CP fund.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends immediately deposit the amount into the CP Fund trust and disciplinary action be initiated against the individuals held responsible for non-payment of the subscriptions in-time.

Para-7 (PEPAC – 2019-20-2021-22)

13.1.4.6 Loss due to irregular payment of adhoc relief allowances - Rs 15.325 million

According to the Office Memorandums of the Finance Division of Govt. of Pakistan for federal employees issued in the year 2017 to 2019 and 2021, Public Sector Corporations and Autonomous / Semi-Autonomous Bodies which have adopted different pay scales / allowances, in case of such organizations, the revision of Basic Pay Scales-2017 @ 10% of basic pay subject to existing conditions will be allowed with the concurrence of Standing Committee of Finance Division on recommendations of the respective Board of Directors / Governors. The revision of basic pay scales -2017 to 2021 and grant of Adhoc Relief Allowance 2017 to 2018 @ 10%, 2019 @ 05 % and 2021 @ 10 % of basic pay will invariably be tagged with the financial position of the organization.

During audit of PEPAC for the years 2019-22, it was observed that Govt. of Pakistan sanctioned adhoc relief allowances for the federal Govt. employees and the same were implemented by the management of PEPAC and made payment to its employees amounting to Rs 15.325 million in the years 2017 to 2021 without approval of BOD.

Audit is of the view that payment of the adhoc relief allowances to the employees without approval of the BOD was irregular.

The matter was reported to the management on September 21, 2023. The management in its reply dated January 06, 2024 stated that BOD in 83rd meeting at agenda item No. 83.4 dated 28th January 2007 allowed Managing Director PEPAC to "adopt the Government of Pakistan's pay scales and allowances as & when announced and subsequently apprise the Board in next meeting".

The reply is not tenable as PEPAC incurred expenditure of adhoc relief allowances without approval of BOD.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying the payment of adhoc relief allowances without approval of BOD, fixing responsibility and effecting recovery from the employees.

Para-8 (PEPAC – 2019-20-2021-22)

13.1.4.7 Irregular award of contract to Sub-Consultant - Rs 11.60 million

According to rule 03 (1) of the delegation of powers of the company, Chief Executive is empowered to approve quotations, and tenders and incur expenditure on works up to Rs 5 lac.

According to notification No. 1(1) Admn-IV/PEPAC /PD/18 dated 08.10.2020, the present Deputy Managing Director PEPAC was entrusted the charge of the post of M.D just for releasing salaries to the staff.

During audit of PEPAC for the years 2019-22, it was observed that a work “Establishment of 250 bedded hospital at Skardu (Consultancy Services)” was awarded to the PEPAC at an estimated cost of Rs 11.600 million vide letter dated 12.05.2020. The work “Structural design vetting of project establishment of 250 bedded hospital Skardu” was sub-let to the sub-consultant M/s Design Inn. @ Rs 1.7 per sft vide work order dated 26.10.2020.

Audit observed the following:

1. Chief Executive/Managing Director was empowered to approve the works up to Rs 05 lac only, therefore the work was required to be got approved by the Board.
2. Comparative statement of the work was put up to the Managing Director (Muhammad Anwar Hussain Ch.) but he did not approve the work being entrusted to the look after charge of the company.
3. Eng. Nawazish Iqbal, Deputy Managing Director, entrusted charge of the post of M.D by the Ministry just for the purpose of releasing salaries of the employees therefore he was not competent to approve the said work hence considered violation of the ministry’s orders.
4. Work was awarded to the consultant M/s Design. Inn at the rate of Rs 1.7 to 03 per sft but the other firm M/s City Engineering Consultant and M/s EDFIC who offered Rs 1.75 per sft each were ignored by the management being the lowest firm.
5. The company had qualified and experienced Engineers in grades G-8 to G-12 (BPS 17 to 21) therefore was required to do the vetting of design work at their own level but instead, the work was sublet to other consultant and thus company was deprived of the revenue received from the client.

In light of above, audit is of the view that consultancy work was irregularly awarded to the dear one consultant at the cost of the company.

The matter was reported to the management on September 21, 2023. The management in its reply dated January 06, 2024 stated that structure design Engineer was not available in house therefore structural

design services were hired as per authorization given by the BOD in its 84th meeting vide agenda No. 84. The work was awarded @ Rs 1.7 per sft while bids of other bidders were more than Rs 1.7 per sft.

The reply is not convincing as the work was awarded by the Deputy Managing Director beyond his delegation of financial powers.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter of award of consultancy work of design vetting to the sub-consultant by ignoring the lowest bidder and fix responsibility.

Para-9 (PEPAC – 2019-20-2021-22)

13.1.4.8 Non-payment of liabilities of the ex-employees Rs 9.517 million and unjustified final payments to the members of the trustee's - Rs 6.326 million

According to Para 45 of the CP Fund rules, 1975, when a subscriber quits the services of the company, the amount standing at his credit in the Fund shall become payable to him.

During audit of the PEPAC for the years 2019-22, it was observed that trustees of the CP Fund invested Rs 4.00 million in the defense saving certificates in 2009-10 for a period of ten years. On maturity, a sum of Rs 12.335 million was received vide cheque dated 03.09.2019. Out of total funds received by the trust, two officers of the board of trustees, Mr. Najeeb Ur Rehman Khan, Ex-M.D and Bashir Ahmad Malik, Accountant were paid Rs 6.326 million (Rs 3.241 million and Rs 3.086 million) vide cash book Page No. 29 14.10.2019 and cheque No. 38211840 23.01.2023 respectively and remaining amount was paid as advances to the existing employees, despite of the fact that final payment liability of Rs 9.517 million of the poor ex-employees of the company was outstanding since long.

The matter was reported to the management on September 21, 2023. The management in its reply dated January 06, 2024 stated that PEPAC was hardly managing to pay the salaries of the current employees. However, liabilities of ex-employees were being cleared from time to time with surplus amount.

The reply is not tenable. The management of PEPAC ignored poor employees who were not paid their salaries since long and disbursed Rs 12.529 million to blue eyed employees by granting advances and clearing their retirement benefits.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility.

Para-10 (PEPAC – 2019-20-2021-22)

13.1.4.9 Loss due to execution of the work by Sub-letting to another firm without competition - Rs 8.970 million

According to rule 12 (1) of the PPRA 2004, all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority's website as well as in other print media or

newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu. According to rule 15 (1), a procuring agency, prior to the floating of tenders, invitation to proposals, or offers in procurement proceedings, may engage in pre-qualification of bidders in case of services, civil works, turnkey projects.

During audit of PEPAC for the years 2019-22, it was observed that the work “Consultancy Services for a feasibility study of establishment of education city of Barwand area -South Waziristan” was won by the PEPAC at a cost of Rs 8.970 million from the Higher Education Department, Govt. of Khyber Pakhtunkhwa vide approval letter dated. 16.03.2021 and agreement dated. 02.03.2021. The work was sub-let by the management to M/s Sheher Saaz (Pvt.) Ltd vide agreement dated 17.03.2021 at the profit sharing ratio of 30:70% (2,691,000: 6,279,000) respectively. A sum of Rs 2.900 million had been received from the client till date of audit i.e. 31.03.2023 against which Rs 1.080 million were paid to the sub-contractor M/s Sheher Saaz (Pvt.) Ltd.

Audit is of the view that the work was sublet to the dear one firm without any codal formalities i.e. competition by advertising in daily newspapers to achieve the most economical rates, therefore, held irregular.

The matter was reported to the management on September 21, 2023. The management in its reply dated January 06, 2024 stated that project was procured along with JV firm because not having the similar expertise, professionals required for performing the services and not having the PCATP registration.

The reply is not tenable as the work was won by PEPAC independently which was sublet irregularly in violation of PPRA rules.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends conducting a fact-finding inquiry to probe into the matter and fixing responsibility.

Para-11 (PEPAC – 2019-20-2021-22)

13.1.4.10 Irregular promotion / appointment of officers - Rs 24.861 million

According to Para 6.5 of the service rules 1975 of the PEPAC, vacancies as far as possible in each group will be filled by departmental promotions subject to the availability of departmental personnel of minimum prescribed qualifications and experience and also taking seniority, merit, suitability, efficiency and experience into consideration of which the company shall be the scale judge. According to the appointment, qualification, and experience criteria for each pay scales of the PEPAC, prescribed experience with a bachelor degree in civil and mechanical engineering from Pakistan or Middle East University was required. According to rule 6(1) (a) of schedule-II of EstaCode edition 2021, minimum length of service for eligibility for promotion to posts in various BPS shall be as follows:

For BPS 18	5 years in BS 17
For BPS 19	12 years in BS 17 and above
For BPS 20	17 years in BS 17 and above

During audit of PEPAC for the years 2019-22, it was observed that the management of PEPAC promoted five officers on the recommendations of the appraisal committee of the local officers and no officer from the Ministry or elsewhere was part of the committee to cross-check the suitability of the officers for promotion and without approval of the BOD. The detail is given at Annex-82.

No rules regarding minimum length of service for promotion of the officers from one grade to another were available resulting in to undue benefit granted to the officers due to irregular promotions.

Audit is of the view that in the absence of PEPAC's own rules regarding length of service, Government rules should have been adopted which was not done. Thus, due to irregular promotions of the officers, the company sustained a loss of Rs 24.861 million due to payment of excess pay & allowances.

The matter was reported to the management on September 21, 2023. The management in its reply dated January 06, 2024 stated that PEPAC recruitment and qualification were revised and approved by the BOD in its 84th meeting at agenda No. 84.12 and all the hiring and promotions were made accordingly. BOD authorized Managing Director with full administrative and financial powers for hiring and promotion of the employees.

The reply is not convincing as the Service Rules of PEPAC were silent regarding tenure required for promotion of the officers. Therefore, in absence of rules of PEPAC, the management was required to apply Government rules for promotions.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying appointment and promotions of the officer without fulfilling the required length of service, conduct fact-finding inquiry to probe into the matter for the irregular promotions of the officers, besides fixing responsibility and recovery of the overpaid amount from the officer concerned.

Para-12, 13, 14, 17, 18, (PEPAC – 2019-20-2021-22)

13.1.4.11 Loss due to overpayment of salaries to the project staff - Rs 4.718 million

According to the minutes of the meeting held on 20.072020 between MD PEPAC and the Director Works "Workers welfare complex (Phase-1), Adjacent to Sundhar Industrial Estate District Kasur", monthly remunerations to the staff of the project were as follow:

S. No.	Particulars	Qty.	Amount (Rs)	Total Amount (Rs)
1	Project Manger	01	80,000	80,000
2	Resident Engineer	01	65,000	65,000
3	Assistant Resident Engineer	01	60,000	60,000
4	Supervision Inspectors	09	30,000	270,000
5	Office Expense	01	35,208	35,208
	16 % PRA Tax			81,633

	7.5 % tax	38,266
	Grand Total:-	630,107

During audit of PEPAC for the years 2019-22, it was observed that consultancy services of the work “establishment of workers’ welfare complex adjacent to Sundar Industrial Estate (Phase-1) Distt. Kasur” was awarded to the PEPAC vide work order dated 25.10.2011. The record revealed that PEPAC claimed the salaries on agreed rates from the client but actually paid salaries in excess of the entitlement causing an overpayment of Rs 4.718 million.

Audit is of the view that the company sustained a loss of Rs 4.718 million on payment of excessive salaries to the employees, therefore, held irregular.

The matter was reported to the management on September 21, 2023. The management in its reply dated January 06, 2024 stated that PEPAC received Rs 16.412 million against the design work and Rs 14.860 million against the supervision fee whereas expenditures on this project were much less than the payment received therefore no loss to the company.

The reply is not tenable as the management made payment of salaries in excess of the entitlement.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter, fixing responsibility and recovery of overpaid amount from the concerned employees or the person(s) held responsible.

Para-15 (PEPAC – 2019-20-2021-22)

13.1.4.12 Loss due to overstatement of the CP Fund contribution - Rs 4.693 million

According to Para 24 and 27 of the CP Fund rules, 1975, every subscriber and employer shall contribute equally @ a minimum of 10 % of the pay to the fund each month.

During audit of PEPAC for the years 2019-22, the accounts of the CP Fund Trust of the PEPAC employees showed contributions of Rs 9.598 million from 2019-20 to 2020-21, whereas the actual contribution credited into the bank account of the trust was only Rs 4.905 million.

Audit is of the view that due to non-payment of due share of the fund, employees were deprived of the benefit of the CP Fund amounting to Rs 4.693 million.

The matter was reported to the management on September 21, 2023. The management in its reply dated January 06, 2024 stated that PEPAC was hardly managing to disburse the salaries to its staff, however as and when funds would be available, the same would be deposited into CP fund account.

The reply is not tenable as due share of CP fund contribution was not deposited into CP Fund account.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility on the person(s) at fault besides payment of due amount into the CP Fund account.

13.1.4.13 Loss due to overpayment of leave fare assistance and non-recovery of the amount from the officers/officials – Rs 4.42 million

According to clause 23 (a & b) of the revised TA rules 1983 of PEPAC, Leave Fare Assistance (LFA) is allowed to employees at the following rates:

- a) In respect of workers in scale No. 1 to 7 or those specially classified as such.
Half month's pay inclusive of cost of living allowance admissible as on the date of entitlement i.e. last day of each year's continuous service which shall be payable with earned (annual) and or casual leave equal to a minimum of 10 days for each spell of privilege which shall not be refused.
- b) In respect of Supervisory and Managerial Staff in scale No. 8, one month's pay inclusive of cost of living allowance admissible as on the date of entitlement

During audit of PEPAC for the years 2019-22, it was observed that the management paid Leave Fare Assistance (LFA) to its employees on the rates of gross salaries (pay and allowances) for the period instead of gross pay (basic pay, qualification pay and personal pay etc.) resulting into excess payment of Rs 4.42 million. Further, no leave account was maintained by the management to know the factual position of leave.

Audit is of the view that due to excess payment of the LFA to the employees, company sustained a loss of Rs 4.42 million.

The matter was reported to the management on September 21, 2023. The management in its reply dated January 06, 2024 stated that rules regarding LFA were revised by the management with the approval of the BOD and detailed working would be shared accordingly.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility for over payment of Leave Fare Assistance in violation of rules besides effect recovery.

Para-20 (PEPAC – 2019-20-2021-22)

13.1.4.14 Non-deposit of tender fee into govt. treasury - Rs 1.294 million

According to the NIT of the bidding documents, tender fee at the prescribed rates mentioned in the advertisement was required to be deposited by the bidders with the PEPAC.

During audit of PEPAC for the years 2019-22, it was observed that the management of PEPAC issued tender documents of different projects to the bidders with the condition to deposit tender fee mentioned in the NIT. However, the bank accounts of the company were silent about the receipt and deposit of the tender fee amount. Further, no tender register was maintained by the company.

Audit is of the view that due to non-deposit of tender fee, the company sustained a loss of Rs 1.294 million.

The matter was reported to the management on September 21, 2023. The management in its reply dated January 06, 2024 stated that inquiry against Mr. Shad Muhammad Dy. Manager (A&F) was under process and findings would be shared with Audit upon finalization.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter at the earliest, fixing responsibility and effecting recovery.

Para-21 (PEPAC – 2019-20-2021-22)

13.1.4.15 Non-recovery of advances from employees - Rs 1.017 million

Rule 7 (2) (L) of the Public Sector Companies (Corporate Governance) Rules, 2013, stipulates that the Board shall establish appropriate arrangements to ensure to enable it to carry out its role effectively. (2) For the purpose of sub-rule (1), significant issues shall, inter-cilia, include the following, namely: - (L) failure to recover material amounts of loans, advances, and deposits made by the Public Sector Company, including trade debts and inter-corporate finances.

During audit of PEPAC for the years 2019-22, it was observed that management paid advances of Rs 1.017 million to different employees as TA/DA and meeting expenses of purchase & services. Most of the advances were lying outstanding against employees for the last 03 to 05 years but management failed to recover the amount in the same financial year causing loss to the company.

Weak internal control led to non-recovery/adjustment of dues from the employees.

The matter was reported to the management on September 21, 2023. The management in its reply dated January 06, 2024 stated that only one person was working in the account/ finance section and he was entering the adjustment against the advances and these adjustments would be completed before closing of the financial year account of PEPAC.

The reply is not cogent as the adjustments of outstanding advances should have been made before the close of financial year, which was not done.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends recovery / adjustment of advances from the employees without further delay.

Para-24 (PEPAC – 2019-20-2021-22)

13.1.4.16 Irregular appointment of staff without advertisement and approval of the Managing Director - Rs 1.30 million

Cabinet Secretariat (Establishment Division) letter dated 6th May, 2000, (iii) (b) stipulates that vacancies should be advertised in the leading national and regional newspapers (c) selection should be made through regularly constituted Selection Committees / Board.

During audit of PEPAC for the years 2019-22, it was observed that the following staff was appointed on contract basis without advertisement and approval of the Managing Director:

Name	Designation	Appointment order dated	Pay & Allowances per month (Rs)	Total Expenditure up to March 2023(date of audit)
Engr. Waqar Ahmad, Electrical Engineer	Electrical Engineer	16.05.2022	33,342	350,162
Mr. Saqib Hussain	Resident Architect	15.07.2022	46, 804	397834
Mr. Abdul Qadir Khan	Assistant Manager (Finance)	13.07.2022	65,000	552,500
Total:-				1,300,496

Thus, the appointments and expenditure of Rs 1.300 million incurred up to 30.06.2022 was held irregular.

The matter was reported to the management on September 21, 2023. The management in its reply dated January 06, 2024 stated that inquiry against Mr. Shad Muhammad Dy. Manager (A&F) was under process and findings will be shared with Audit upon finalization.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility thereof.

Para-28 (PEPAC – 2019-20-2021-22)

Chapter-14

Ministry of Maritime Affairs

Overview

Ministry of Maritime Affairs in Islamabad is the central administrative authority of the Government of Pakistan primarily assigned to facilitate the ports and shipping industry of Pakistan by providing policy guideline to encourage port development and growth in shipping while maintaining safety standards. The Ministry is headed by the Federal Minister for Maritime Affairs assisted by the Secretary, Maritime Affairs. In Karachi Director General (Maritime Affairs) represents Ministry.

Aims & Objectives

- To formulate and implement plans and policy in conformity with International best practice to transform the ports of Pakistan into modern, competitive, user friendly and a transshipment hub of the region with hinterland connectivity.
- To encourage private ship owning under Pakistan flag by creating favourable conditions.
- To improve governance of the ports while focusing of modern and innovative approaches of land lard posts strategies.
- To maintain safety and security standards as per international Maritime Organization (IMO) Conventions with strenuous efforts aimed at maintaining world class standards of marine pollution control
- To ensure and maintain quality of Pakistani seafarers in accordance with the Standards for Training Certification and Watch-keeping (STCW) 1978 Convention.
- To promote Deep Sea Fishing of Pakistan.
- To regulate the export of Fish and Fisheries Products and also to bring a pronounced positive change in the Harbour Environment.

Governing Laws and Policies

- i. GPA Ordinance, 2002
- ii. KoFHA Ordinance, 1982
- iii. Pakistan National Shipping Ordinance, 1979
- iv. Companies Ordinance 1984
- v. PP Rules 2004.

(Rs. in million)

5	Others	56,776.213

14.1 Gwadar Port Authority

14.1.1 Introduction

Gwadar Port Authority (GPA) was established as a separate organization, after promulgation of the GPA Ordinance No. LXXVII of 2002 dated October 17, 2002, for construction, operations, management, and maintenance of Gwadar Deep Water Port.

The Government of Pakistan has adopted the landlord concept for development of Gwadar Port. This means that GPA will drive the overall development of the port and will raise the funds for development of general port infrastructure (primarily dredging of channels and construction of breakwaters), while private sector investors will be the primary source for the development of terminals and cargo handling capacity. Reputable private investors/operators will be sought on a Build–operate–transfer (BOT) basis for the design, construction and operations of the various terminals that are foreseen. In the longer term, as much as possible, different cargo types will be handled by dedicated terminals. This will allow for terminals to be developed and operated by dedicated operators who are specialized in these particular operations.

14.1.2 Comments on Audited Accounts

14.1.2.1 The annual audited accounts are required to be provided to audit for review each year. Contrary to this, the management failed to provide audited accounts of the organization for the years 1986-87 to 2022-23 despite a number of reminders.

14.1.2.2 Audit requires that the annual audited accounts of the years 1986-87 to 2022-23 be provided immediately and timely finalization be ensured in future, besides, fixing responsibility for non-finalization of annual audited accounts (*Annex-2*).

14.1.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	% age of compliance
2014-15	4	1	3	18.1.4.1, 18.1.3, 18.3.2.1	25%
2013-14	5	1	4	16.1.2, 16.1.3.1, 16.1.3.2, 16.1.3.3	20%
2015-16	5		5	17.1.4.3, 17.1.2.1, 17.1.4.1, 17.1.4.2, 17.1.4.4	0%
2016-17	5	4	1	15.1.2.1, 15.1.3, 15.1.4.1, 15.1.4.2	80%
2017-18	4	2	2	14.1.4.1, 14.1.4.3	50%
2019-20	1		1	10.1.4.1	0%
2021-22	8		8	12.1.4.5 (remainig to be discussed in PAC)	0%
Total	34	10	24		29%

The overall compliance of PAC directives needs improvement.

14.1.4 Audit Paras

14.1.4.1 *Non-utilization of the land caused blockage of fund – Rs 287.500 million*

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Gwadar Port Authority (GPA) for the year 2022-23, it was observed that the PC-I was approved for Land acquisition for establishment of Off Dock Terminal on April 2021 at cost of Rs. 287.500 million. Subsequently, the fund was released and management purchased land measuring 100 acres at Mouza Darbela Junubi, Tehsil Gwadar having cost of Rs. 287.500 million on 22nd October, 2021. It was learnt from the record that this “OFF Dock Terminal” had to be offered services for handling temporary storage and custom clearance of containers and general cargo as well as empties. It was to be provided the services for minimizing the demurrage charges and enhancement of confidence for trade and revenue generation through Gwadar Port and an off dock terminal could have been considered as an extension of the port. However, the management acquired the land of 100 acres for Off dock terminal but still no any development works have been started at the site.

Audit is of the view that management should be started development works at the land on war footing basis so the purpose of the acquiring the land could be achieved. It reflects inefficiency and bad governance of the management. Thus, management failed to utilize the peace of land as per PC-I proposed objective and the whole fund of Rs.287.500 million has been block.

The matter was reported to the management on August 03, 2023. The irregularity was discussed in the DAC meeting held on November 22, 2023. DAC directed the management to start the development works on acquired land as per PC-I objectives at the earliest.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year(s) 2022-23 vide para(s) number 14.1.4.14 having financial impact. Recurrence of same irregularity is a matter of serious concern.

14.1.4.2 *Non-mentioning rates and tariffs of the port operations by the Concession holder – Rs.58.770 million*

As per concession agreement clause 4.11 states that the parties agree the structures of rates and tariffs that shall be applicable to the entire range of port operations shall be maintained as simple and transparent as possible and reasonable. Further, the concession holder shall have the discretion to set, maintain, alter and collect the rates and tariffs in respect of services provided in terms of this agreement and to revise such tariffs in order that they are competitive within the region. The concession holder shall inform GPA of the Rates and Tariffs and revisions therein and provide such related information as may be requested by GPA.

During audit of Gwadar Port Authority (GPA) for the year 2022-23, it was observed that GPA entered an agreement with M/s China Overseas Port Holding Company Pakistan Pvt Ltd in 2013 for the operation of port activity as a port operator. Since 2013 till now, the port operator did not mention the rates and tariffs which are applicable to the entire range of the port operations. In May 2023, the port operator shared the documents which showed the revenue generated from the berthing and allied areas but the operator did not mention / share any rates and tariffs structure with GPA which could help out to reconcile / cross verification of the revenue share of GPA and gross revenue earned by the port operator. Detail of revenue earned by the operator is attached (Annex-83).

Audit is of the view that the Board and the management failed to monitor rates & tariff schedule shared / prepared by the port operator since 2013. It reflected weak internal control and bad governance to protect the interest of the GPA. Thus, GPA revenue share of Rs.58.770 million stands understated.

The matter was reported to the management on August 03, 2023. The irregularity was discussed in the DAC meeting held on November 22, 2023. DAC directed the management to verify its last three years reconciled statement of rates and tariff prepared by the port operators.

Audit recommends implementation of the DAC directives.

14.1.4.3 *Non-recovery of revenue from the Port Operator – Rs.58.768 million*

As per Concession Agreement of clause 4.10.2 states that upon the commencement of commercial operations, the concession-holder shall pay nine-percent (9%) of its Gross Revenue from the Terminal Services to GPA, every month within one week of the relevant month.

During audit of Gwadar Port Authority (GPA) for the year 2022-23, it was observed that the port operator i.e. M/s China Overseas Ports Holdings Company Pakistan (Pvt) Limited submitted the statements of the outstanding Gwadar Port Authority's Revenue share from the port operation and free zone till April, 2023 having amount of Rs 58.768 million. Detail is as under:

(Amount in Rs.)					
S#	Periods	Gwadar International Terminal Ltd	Gwadar Marine Services Ltd	Gwadar Free Zone Company Ltd	Total Outstanding Amount
1	01.01.2022 to 31.12.2022	8,015,044	7,617,617	6,494,415	22,127,076
2	01.01.2023 to 30.04.2023	32,918,890	3,489,754	233,126	36,641,770
Total		40,933,934	11,107,371	6,727,541	58,768,846

As per agreement, the port operator is bound to pay the share to GPA every month. However, operator has submitted the revenue statement till month of April, 2023 subsequently, payment is still outstanding. The operator did not make comply with terms and conditions of the agreement.

Audit is of the view that the outstanding amount from the port operator should be recovered at the earliest and the strict compliance of the agreement terms and condition should be ensured regarding realization of the GPA revenue. It reflects weak financial management. The strenuous efforts needs to be required for recovery to amounting of Rs 58.768 million from the port operator at the earliest.

The matter was reported to the management on August 03, 2023. The irregularity was discussed in the DAC meeting held on November 22, 2023. DAC directed the management to expedite the efforts for recovery of the revenue and share the record of the recovered amount with Audit for verification.

Audit recommends implementation of the DAC directives.

14.1.4.4 Non recovery of rent from the tenants – Rs.45.451 million

Rule5 (1) of the Public Companies (Corporate Governance) Rule 2013, states that the Board shall exercise its powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of the company.

During audit of Gwadar Port Authority (GPA) for the year 2022-23, it was observed that an amount of Rs.45.451 million was lying outstanding from the various tenants on account of rental charges as on 30th June, 2023. Detail is attached.

S#	Tenant's Description	Outstanding Balance of rent charges as on 30.06.2023
01.	QESCO	908,404
02	Mekran Law Chamber	652,233
03	University of Gwadar	3,897,370

04	MORE Enterprises	2,942,283
05	PNSC (container shed)	12,513,517
06	PNSC (Workshop shed)	17,476,800
07	Marine Fisheries Department MFD	1,889,475
08	Port Heath Establishment, Gwadar	817,182
09	National Logistics Cell (NCL)	801,110
10	G-Mart Cash & Carry	157,500
11	UBL ATM	277,155
12	New Gwadar International Air (NGIA) Gwadar	489,372
13	ISI (CID) Plot 10890 Sq. Ft adjacent to Bunglaw # 08	553,200
14	Lieutenant Colonel ISI Bunglow No.03	1,152,000
15	Anti Narcotics Force (ANF) Zirbar Complex	755,460
16	Balochistan Revenue Authority (BRA)	168,038
Total		45,451,099

Audit is of the view that management failed to realize the rent from the tenants on due date. It reflects weak internal control and poor monitoring of the financial management.

The matter was reported to the management on August 03, 2023. The irregularity was discussed in the DAC meeting held on November 22, 2023. The management informed the DAC that an amount of Rs.31.000 million has been recovered from the tenants. DAC recommended to get the record verified from Audit. DAC further directed to expedite the efforts for recovery of remaining amount.

Audit recommends implementation of the DAC directives.

14.1.4.5 Revenue loss due to non-payment of GPA revenue share in the foreign currency – Rs.31.647 million

According to clause 4.10.3 of Concession Agreement of the Revenue Share payments shall be made to GPA in US Dollars if the revenue accrues in US Dollars or in any currency other than rupee and in Rupee if the revenue accrues in Rupees.

During audit of Gwadar Port Authority (GPA) for the year 2022-23, it was observed that the port operator i.e. M/s China Overseas Ports Holdings Company Pakistan (Pvt) Limited intimated of revenue share to GPA regarding port facility and charges imposed to the Vessle in local currency i.e. PKR. Whereas, as per agreement the port operator had to pay the revenue share to GPA in that currency which the currency received by the operator from the shipping company of the vessle. The port operator did not share the berthing / port charges received from the vessels since inception of the concession agreement since 2013. Detail of vessel had been arrived at Gwadar port is attached.

S#	Vessle' Name	Vessel	Total charges received from the Vessel in PKR
1	MV Star Dorado	Wheat	42,129,728
2	MV Christina B	Wheat	43,105,061
3	SSI Erdogan Bey	Wheat	39,419,596
4	MV Lila Chennai	Wheat	42,245,811
5	MV V Rich	Wheat	41,419,324
6	MV Veruda	Wheat	41,048,357
7	MV Ultra Esterhazy	Urea	28,755,366
8	MV Nord Sunda	Urea	31,703,163
9	MV King Win	Urea	28,358,950
10	MV Alamo	DAP	13,454,615
Total Gross Revenue			351,639,971
GPA Share of 9%			Rs. 31.647 million

Audit is of the view that port operator did not follow / observe the terms and condition of the concession agreement. It reflects weak internal control. Thus, the realization of the revenue share by the GPA having amount of Rs. 31.647 million is unjustified.

The matter was reported to the management on August 03, 2023. The irregularity was discussed in the DAC meeting held on November 22, 2023. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.1.4.6 Violation of PPR rules by non-Execution of Integrity Pact for the Contract exceeding the prescribed limit – Rs.10.000 million

According to Clause I B-22 Instruction to bidder integrity Pact, the Bidder shall sign and stamp the form of integrity Pact provided at schedule-F to Bid in the Bidding Documents for all Federal Government procurement contracts exceeding Rupees Ten (10) million. Failure to provide such integrity Pact shall make the bidder non-responsive.

During audit of Gwadar Port Authority (GPA) for the year 2022-23, it was observed that management had executed the contracts valuing to Rs 4,611.050 million for project and rehabilitation of Fish Harbour of GPA. Further, no integrity pact was signed by the contractors and incorporated in the agreement. the details are as under:

S#	Name of Contractor	Nature of Work/ name of the project	Date of Agreement	Amount of contract Rs. (million)
1	M/s China Harbor Engg. company Ltd./ Al-Fajr International JV	Maintenance Dredging of Navigational Channel of Gwadar Port.	14 th February 2023	4,483
2	M/s RAB construction company Brewery Road, Quetta	Up gradation of Berthing facilities for Boats at Gwadar.	27 th October 2020	128.050

Audit is of the view that the management failed to comply the mandatory requirements under PPR rule 7 in all circumstances by non- executing of Integrity Pact for the Contract exceeding the prescribed of Rs.10.00 million. It reflects weak internal controls.

The matter was reported to the management on August 03, 2023. The irregularity was discussed in the DAC meeting held on November 22, 2023. The management informed the DAC that they have made the contract in accordance with the templates given by the Planning Commission and this is not a violation of PPRA Rules, 2004. DAC directed to the management to verify its contention with the Audit.

Audit recommends implementation of the DAC directives.

14.1.4.7 Non-deduction of retention money – Rs.1.500 million

Sub clause 16.1 (V) General contract conditions of the Conditions of Contract, states that the Retention money 5% shall be deducted from all Interim payment Certificate (IPCs) and will be return after completion of defect liability period, which is one year.

During audit of Gwadar Port Authority (GPA) for the year 2022-23, it was observed that the management awarded the contract to M/s R.A.B construction company valuing of - Rs.150.00 million. Further, the first running bill amounting to Rs.30.00 million dated 20th March 2023 was raised by the contractor. However, the bill payment was made without deducting the retention money of Rs.1.500 million (Rs.30 million *5%) by the management in violation of above rule.

Audit is of the view that undue favour was extended to the contractor by non-deduction of retention money, showing poor financial management and weak internal controls.

The matter was reported to the management on August 03, 2023. The irregularity was discussed in the DAC meeting held on November 22, 2023. DAC recommended the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.1.4.8 Non-recovery of charges from the Mole Traders – Rs.1.286 million

Clause 16 of agreement states that in case of non-payment of the commission amount within three days from the date of serve of the notice, the GMP/GPA shall draw the cash security deposited by the agent in favour of the GMP/GPA. The agent will in such an event make up the p the short fall of the cash, failing

which he will not be allowed to continue as Agent. In case the commission amount outstanding will exceed the amount of cash security deposit.

During audit of Gwadar Port Authority (GPA) for the year 2022-23, the basic purpose of the Mini port is to provide a space to the fishermen to sale the catch fishes through mole trader. The mole trader is registered by the GPA authority by taking security deposit, registration fee and annual registration fees. At present total 13 mole traders are working under the umbrella of the GPA at the Mini Port. The GPA authority charges commission from the mole trader on account of the business activity at the mini port. During scrutiny of the record it was observed that following mole traders were defaultes due to nonpayment of the commission to the GPA. Detail is as under;

Name of Mole Trader	Siraj Trading	Farhad Trading	Sanahullah Trading	Amjad Trading	Faisal Trading	Anas Trading	Naseeb Trading	Sagheer Trading	King Fisheries	Total amount
Outstanding Balance	95,545	18,859	15,274	125,638	311,255	246,463	290,140	7,000	176,276	1,286,450

It is evident from the above table that total 09 mole traders were defaulters and an amount of Rs 1.286 million is recoverable from them.

Audit is of the view that GPA authority should exercise the power according to the agreement terms and condition and to serve the notice to the mole traders and in case of non-payment should recover the amount from their security deposit and stop the working at the mini port until or unless dues is cleared. Thus, to make ensure the recovery of Rs.1.286 million from the mole traders should be ensured at the earliest before going to bad debts.

The matter was reported to the management on August 03, 2023. The irregularity was discussed in the DAC meeting held on November 22, 2023. DAC recommended the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.1.4.9 Non-Finalization of annual audited accounts

Section (e) of Gawadar Ordinance, 2002 states that that the auditor shall report to the Federal Government upon the Annual Balance Sheet and accounts and in their report state whether in his opinion the Balance Sheet is full and properly drawn up so as to exhibit a true and correct view of the state of the Authority's affairs, and in case they have called for any explanation or information from the Board, whether it has been given and whether it is satisfactory.

During audit of Gwadar Port Authority (GPA) for the year 2022-23, it was observed that the Board / management did not finalize the annual audited accounts for the year 2020-21 and 2022-23 after considerable lapse of time.

Audit is of the view that the management was required to finalize its annual accounts in a timely manner so that true and fair picture of the state of affairs of the organization comes to the knowledge of the federal Government and its stake holder. Thus, Non-finalization of annual accounts resulted in non-compliance of statutory requirements and failure to depict true picture of the affaire of the Federal Government.

The matter was reported to the management on August 03, 2023. The irregularity was discussed in the DAC meeting held on November 22, 2023. DAC directed the management to complete the assignment and its report be shared with the Audit and Ministry.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year(s) 2022-23 vide para(s) number 14.1.4.14 having financial impact. Recurrence of same irregularity is a matter of serious concern.

14.2 Korangi Fisheries Harbour Authority

14.2.1 Introduction

The Korangi Fisheries Harbour Authority (KoFHA) was established under Ordinance No. XVI of 1982 for making all arrangements for planning, construction, operation, management and maintenance of Korangi Fisheries Harbour for exploiting fisheries resources beyond territorial waters.

The Harbour was completed in 1992 at a cost of Rs.938.14 million including foreign component of Rs.644.24 million (US\$ 26.121 million) financed by Asian Development Bank.

14.2.2 Comments on Audited Accounts

14.2.2.1 The annual audited accounts are required to be provided to audit for review each year. Contrary to this, the management failed to provide audited accounts of the organization for the years 2015-16 to 2022-23 despite a number of reminders.

Audit requires that the annual audited accounts of the years 2015-16 to 2022-23 be provided immediately and timely finalization be ensured in future, besides, fixing responsibility for non-finalization of annual audited accounts (*Annex-2*).

14.2.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	% age of compliance
2003-04	5	4	1	180.2	80%
2010-11	5	1	4	16.1.4.1	20%
2011-12	1	1			100%
2012-13	1	1			100%
2013-14	8	1	7	16.2.2.1, 16.2.2.2, 16.2.2.3, 16.2.2.4, 16.2.2.5, 16.2.3, 16.2.4.1	13%
2014-15	3	1	2	18.2.3, 18.2.2.1	33%
2015-16	7	1	6	17.2.4.1, 17.2.4.4, 17.2.2.1, 17.2.3, 17.2.4.2, 17.2.4.3	14%
2016-17	3	2	1	15.2.2.1, 15.2.2.1	67%
2017-18	2	1	1	14.2.2.1	50%

2019-20	3		3	10.2.4.1, 10.2.4.2, 10.2.4.3	0%
2021-22	8		8	12.2.4.1, 12.2.4.3 (remainig to be discussed in PAC)	0%
Total	46	13	33		28%

The overall compliance of PAC directives needs to be improved.

14.2.4 Audit Paras

14.2.4.1 *Non-execution of works resulted in escalation of cost – Rs 4,582.000 million*

Rule 5 (1) of the Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its power and carry out fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Korangi Fisheries Harbour Authority (KoFHA) for the year 2022-23, it was observed that following projects were approved by (CDWP) in April, 2020. These projects were sponsored by Japan under the supervision of M/o Maritime Affairs (MoMA). KoFHA was the executing agency and required to initiate the project in July 2020 (as per PC-I). However, no progress was made to initiate the development works till date whereas the sponsor had already released the funds for the accomplishment of the task. Furthermore, due to delay in execution of work, cost of projects were escalated up to Rs 4,582.619 million as detailed below:

(Rs.in million)						
S #	Description	Date of Approval	Date of Completion	PC-I (Initial Amount)	PC-I (Revised Amount)	Variance in Cost
1.	Development work of the business park at Korangi Fish Harbour	15-04-2020	30-06-2023	784.000	4,301.234	3,517.234
2.	Development work of Cold Storage & Freezing Tunnels at KoFHA-	15-04-2020	30-06-2021	170.100	656.075	485.975
3.	Development work for the modification of the auction hall	15-04-2020	30-06-2021	94.510	673.920	579.410
Total						4,582.619

Audit is of the view that non-initiation of the above projects on time was poor planning and inefficiency of the management which needs to be justified.

The matter was reported to the management on November 14, 2023. The management its reply staed that execution of projects were delayed due to non-availability of funds. Moreover, updated required feasibility study and firmed-up cost estimates were submitted to MoPD&SI. Hence, projects were revised, in accordance to current market rates. The reply was not tenable as poor planning and inefficiency of the management resulted in non-execution of projects on time.

Audit recommends a fact-finding inquiry and fixation of responsibility on the person(s) at fault.

(DP No. 758,759 & 760)

14.2.4.2 Investment without competitive process – Rs.1,135.000 million

Memorandum issued by the finance division, Government of Pakistan, dated July 2, 2013, states that the process of selecting banks should be transparent. The selection of the bank(s) as well as the terms of deposits will be approved by the concerned board of directors or governing body on the basis of competitive bids from at least three independent banks.

During audit of Korangi Fisheries Harbour Authority (KoFHA) for the year 2022-23, it was observed that the management invested Rs.135.000 million in term deposit receipts (TDRs) of National Bank of Pakistan (NBP) @ 12.20% on November 26, 2019 without competitive process in violation of above rules.

Further, the management also invested Rs.1,000.000 million in Term Deposit Receipts (TDRs) of National Bank of Pakistan (NBP) for a period of one year on repeated offers as detailed below:

S#	Investment (Rs in million)	Date	Duration years	Remarks
----	-------------------------------	------	-------------------	---------

1	350	March 2021	01	Repeated Offers received at 6.90%, 7.20% & 7.50%
2	310	March 2022	01	Repeated Offers received at 11%, 11.50% & 11.7%
3	340	April 2022	01	Repeated Offers received at 12.50% & 12.90%
Total	1,000			

Audit is of the view that the management failed to observe competitive process for placement of funds which reflected imprudent decision making.

The matter was reported to the management on November 14, 2023. The management in its reply stated that investment was approved by the investment committee constituted by the Board of Directors. Moreover, the investment was made in accordance with federal government investment guidelines received from time to time. The reply was not tenable as management did not observe the Finance Division directives regarding selection of banks for placement of funds.

Audit recommends to justify the matter.

(DP No.745 & 746)

14.2.4.3 Non-payment of loan and interest - Rs.866.060 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Korangi Fisheries Harbour Authority (KoFHA) for the year 2022-23, it was observed that a loan of Rs.644.643 million was required to be paid to Asian Development Bank (ADB) in 60 installments with effect from April 1, 1995 with 6% other charges including interest service charges and an exchange risk fee. However, the management paid only 14 installments since April 1995. The loan scheduled period is about to be completed on October 1, 2024. The details of the outstanding loan is as under:

(Amount in Rs)				
S#	Description	Principal	Interest	Total
1	Initial liability	664,643,000	445,333,120	1,109,976,120
2	Total paid	179,442,000	64,478,000	243,920,000
Total		485,201,000	380,855,120	866,056,120

Audit is of the view that the management failed to manage the loan portfolio effectively and discharging the liability on time, which resulted in having cumulative loan obligations along with finance costs, exchange charges, etc. to the extent of Rs.866.06 million.

The matter was reported to the management on November 14, 2023. The management in its reply stated that non-payment of loan was because of the deep sea fishing operation was stopped which severely affected the revenue generation by KoFHA since 2006. The reply of the management was not tenable because non-payment of loan resulted in accumulation of liability and interest cost also.

Audit recommends to justify the matter.

14.2.4.4 Non-compliance of investment guidelines – Rs.745.000 million

A memorandum issued by the finance division, Government of Pakistan, dated July 2, 2013, states that the process of selecting banks should be transparent. The selection of the bank(s) as well as the terms of deposits will be approved by the concerned board of directors or governing body on the basis of competitive bids from at least three independent banks.

Sr.No. 3(e): “The working balance limit of each organization should be determined with the approval of the administrative ministry in consultation with the Finance Division. The account of this working balance may be maintained in a current or savings bank account”.

6. Before making any investment, set up in-house professional treasury management functions. Specifically, they would need to have an Investment Committee (IC) with defined investment approval authority. Transactions above the approval authority of the IC will be subject to the approval of the Board of Directors or an equivalent forum. The IC should be assisted by an Investment Management Unit employing qualified staff with at least 3–5 years of experience managing investments in debt and equity instruments.
7. The Chief Executive of the PSE/local/autonomous body will be required to issue a certificate annually indicating that the above instructions are being followed with respect to the working balance and surplus funds of the organization.

As per the Finance Division’s directives dated July 7, 2003, Section 3(c), the risk associated with keeping deposits should be diversified. Therefore, in cases where the total working balance of an enterprise exceeds Rs.10 million, not more than 50% of such balance shall be kept with one bank;

During audit of Korangi Fisheries Harbour Authority (KoFHA) for the year 2022-23, it was observed that the management made an investment of Rs 745,000,000 in Term Deposit Receipts (TDRs) in violation of the Finance Division mentioned above. The details are as under:

(Amount in Rs.)				
S#	Investment	KOFHA	CPF	Total
1	Term Deposit Receipt 22 (NBP)	356,000,000	-	356,000,000
2	Term Deposit Receipt 23 (NBP)	-	9,000,000	9,000,000

3	Term Deposit Receipt 24 (NBP)	352,000,000	-	352,000,000
4	Term Deposit Receipt 25 (NBP)	-	28,000,000	28,000,000
	Total	708,000,000	37,000,000	745,000,000

Following irregularities were observed:

1. Non-existence of a formal and approved policy document for investment.
2. Non-availability of approval regarding the working balance limit from the administrative ministry of Kofha in concurrence with the finance division.
3. Non-existence of in-house professional treasury management functions to streamline investment.
4. There is no mechanism for transactions above the approval authority of the IC will be subject to approval of the Board of Directors or an equivalent forum.
5. KOFHA has no mechanism for the Investment Committee (IC) to be assisted by an Investment Management Unit employing qualified staff with at least 3-5 years of experience managing investment in debt and equity instruments, as per federal govt. directives.
6. Non-issuance of a certificate from the Managing Director regarding compliance with instructions in respect of the working balance and surplus funds of KOFHA.
7. The whole investment was made in a single bank.

Audit is of the view that placing of funds in absence of Finance Division's directives stands irregular and unjustified.

The matter was reported to the management on November 14, 2023. The management in its reply stated that the Authority has invested at NBP which offered the highest rate of interest and secured by the sovereign guarantee. The reply was not tenable because management made investment in violation of Finance Division directives.

Audit recommends justification of the matter.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year 2022-23 vide para(s) number 14.2.4.1 having financial impact of Rs.650.000 million. Recurrence of same irregularity is a matter of serious concern.

(DP No.739 & 740)

14.2.4.5 Processing of transactions without due diligence and review – Rs.178.900 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Korangi Fisheries Harbour Authority (KofHA) for the year 2022-23, it was observed that there was no standard mechanism in the authority to examine transaction validity and accuracy, where they had the exposure of expenditures to the extent of Rs.178.899 million including advance expenses along with frequent procurement of stores, supplies and stationery related items in the

year 2022-23. Transactions were processed without due diligence and review, which raises concern about accuracy, completeness, correctness and effective transaction processing.

Audit is of the view that management failed to build and strengthen the mechanism of due diligence and review for transaction processing and ensure the safeguard of business assets while maximizing operational efficiency.

The matter was reported to the management on November 14, 2023. The management in its reply stated that the total budget and released amount under Employee Related Expenditure (ERE) and non-ERE is expended through Assignment Accounts duly maintained at National bank of Pakistan. The expenditure was booked by office of the Director General Pakistan Revenue (Sub-Office) Karachi after taking into account the relevancy and head of expenditure for which funds were released. The reply of the management was not tenable because internally managed pre-audit function was not prevalent therefore; transactions were processed without due diligence and review.

Audit recommends to establish and running effective and efficient transaction processing mechanism for complete, correct and fair transaction processing which could prevent from potential fraud and error and ensure standard reporting.

14.2.4.6 *Non-recovery of dues - Rs.101.194 million*

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Korangi Fisheries Harbour Authority (KoFHA) for the year 2022-23, it was observed that the management did not recover an amount of Rs.101.194 million on account of various heads (**Annex-84**). The brief summary is as under:

S#	Description	Amount (Rs.in million)
1.	Transport Charges	8.970
2.	Rent	74.000
3.	Water Charges	2.764
4.	Electricity charges	15.460
Total		101.194

Audit is of the view that due to poor monitoring and controls, the management failed to recover various dues.

The matter was reported to the management on November 14, 2023. The management in its reply stated that:

- a. There was no levy of any kind of charges as approved by the board or MD subject to ratification by Board of Directors. The reply was not tenable because transportation charges remained outstanding.
- b. The recovery of dues is on going process. The reply was not tenable because no recovery was made by the management.
- c. The amount reflected by the Audit includes over Rs. 12 million in electrical dues to be recovered from just one Fish Processing Plant, this defaulter has been approaching other forums to exert undue influence and pressure on the Authority's concerned section. However, management further claimed recovery of Rs. 14.5 million alongwith LPS Rs.2.102 million. The reply was not tenable because 12 million against single defaulter remained outstanding. Beside management claimed to recover Rs. 16.602 million against reported amount of Rs.15.460 million.
- d. The management informed that they recovered an amount of Rs.15 million. The reply was not tenable because an amount of Rs.59.09 million remained outstanding.

Audit recommends to recover the amount on priority basis.

(DP No.751, 753, 754 & 761)

14.2.4.7 *Un-reconciled / verified balances of supplementary grant - Rs.35.620 million*

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Korangi Fisheries Harbour Authority (KoFHA) for the year 2022-23, it was observed that the management received a grant of Rs.35.619 million from federal government vide letter dated 09-06-2022. Out of total grant, the management released an amount of Rs.5.000 million in favour of M/s Effective Solution for IP Surveillance System. However, the remaining grant of Rs.30.620 million was also utilized but remained un-reconciled / un-verified.

Audit is of the view that the management failed to reconcile the grant amounting to Rs.30.620 million which reflected negligence and slackness.

The matter was reported to the management on November 14, 2023. The management in its reply stated that reconciliation of expenditure of Assignment Account of KoFHA for Rs.30.620 million was carried out from AGPR Sub Office Karachi. The reply was not tenable because an amount of Rs.4.99 million remained un-reconciled.

Audit recommends to justify the matter.

14.2.4.8 *Line losses in electricity supply – Rs.11.130 million*

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Korangi Fisheries Harbour Authority (KoFHA) for the year 2022-23, it was observed that the management sustained losses of Rs.11.130 million on account of leakages in the electricity supply network (Annex-85).

Audit is of the view that due to the weak monitoring and control system, incidents of electricity leakages are occurring with regular and rising frequency and damaging the authority resources on a consistent basis since many years till now, which is alarming.

The matter was reported to the management on November 14, 2023. The management in its reply stated that most losses were occurred during the fault occurred in supply system. K-Electric adopted average billing method for KoFHA against power consumption during August 2022 to February 2023 due to fault of CT/PT at higher side. However, dispute with K-Electric was taken up with NEPRA for adjustment. The reply was not tenable because weak monitoring and control system resulted in loss of electricity units.

Audit recommends taking immediate corrective action to control reported leakages. Further, to recover the losses along with fixing of responsibility on the person(s) at fault.

14.2.4.9 *Loss of interest income due to placement of funds in current account -*

Rs.8.680 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Korangi Fisheries Harbour Authority (KoFHA) for the year 2022-23, it was observed that the management placed funds in the current account which resulted in a loss of potential interest income. The details of loss as on June 30, 2023 are as follows:

(Amount in Rs.)							
S #	Account No	Nature of account	Balance at start	Yearly Deposit	Yearly Withdrawals	Balance at end	Avg Holding
1	4069284635	Revenue	35,719,001.45	5,457,679	4,118,557	37,058,123.45	37,058,123.45
2	40692844626	Retention Money	7,729,551.92	4,347,155	6,782,888	5,293,818.92	5,293,818.92
						TOTAL	42,351,942.37
						Potential Interest Income (42.35 million*20.5%)	8,682,148.19

Audit is of the view that the placement of funds in the current account reflected weak financial management and negligence.

The matter was reported to the management on November 14, 2023. The management in its reply stated that KoFHA has approached NBP for conversion of current accounts into Saving Account. The reply was not tenable because deposits were still parked in current account.

Audit recommends to justify the matter.

14.2.4.10 Loss of interest income due to delay in deposit collection - Rs.5.431 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Korangi Fisheries Harbour Authority (KoFHA) for the year 2022-23, it was observed that the management invested following funds with National Bank of Pakistan (NBP). After maturity of funds, the management was required to recover the principal and interest amount in time however; it failed to recover the principal and interest amount. The delay in recovery of funds resulted in loss (Annex-86). The brief summary is as under:

(Rs in million)				
S #	Amount of investment	Rate (%)	Delay (days)	Loss due to delay in recovery
1.	310.000	11.70	14-19	1.336
2.	350.000	7.50	20	0.676
3.	340.000	12.90	43	3.419
Total				5.431

Audit is of the view that the management could not collect the deposit with interest on time. This shows weak financial management.

The matter was reported to the management on November 14, 2023. The management in its reply stated that the audit's contention regarding extended period of investment at NBP is correct however, the authority received rack (minimum) rate. The reply was not tenable because management could not produce documentary support to avoid the loss of interest income.

Audit recommends to justify the matter.

(DP No.747, 748 & 749)

14.2.4.11 Irregular execution of Supply & installation of IP Surveillance System – Rs 5.000 million

According to the decision of High Level Security Meeting between DG Rangers, Sindh and KoFHA, it was decided to establish high level surveillance and security set up including high resolution camera network (covering all possible blind spots), more street lights and installation of speed breakers, as well as control centers.

During audit of Korangi Fisheries Harbour Authority (KoFHA) for the year 2022-23, it was observed that in compliance of decision of the high-level meeting mentioned above to manage security threats at KoFHA, the management awarded a contract for supply and installation of IP surveillance system to M/s Effective Solution of Rs.5.000 million. However, the work was done with discrepancies and irregularities in comparison of bill of quantities (BoQ):

- The first component of the project was the establishment of an insulated room (cabin) with a protection sheet, which had a financial impact of Rs.2.200 million.
- The second component of the project was the procurement and installation of an IP Surveillance System, which had a financial impact of Rs.2.800 million. Following shortcomings were observed as detailed below:

S#	Insulated Cabin Room	As Per Quotation	As per Actual	Remarks
----	----------------------	------------------	---------------	---------

1	Door Panel	02 units	01 unit	-
2	Small window	01 unit	Not exist	-
3	Glass Partition wall	08 mm imported	Not verified	-
4	Operational and vigilant control centre	01	Not exist	-
IP Surveillance System				
1	DAUHA 08 Megapixel Bullet IP Camera	12 units	08 units	Mostly out of order
2	DAUHA PTZ 4 Megapixel 45X zoom	04 units	03 units	02 out of order

Audit is of the view that the management failed to execute the contract effectively and professionally along with release of payment which resulted in the above reported shortcomings. Thus, contract amounting to Rs.5.000 million stands irregular and unjustified.

The matter was reported to the management on November 14, 2023. The management in its reply stated that the firm engaged for the work had been working in big government and private sector firms, having technical expertise in providing surveillance and monitoring solutions. The reply was not tenable as management failed to execute the contract effectively and professionally.

Audit recommends investigating the matter with a view to fix responsibility on the person(s) found at fault.

14.2.4.12 Loss due to irrational encashment of investment – Rs.4.998 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Korangi Fisheries Harbour Authority (KoFHA) for the year 2022-23, it was observed that the management invested Rs.60.000 million @ 7.48% in TDR with Faisal Bank on May 01, 2018 for 03 years. On May, 2019 to avoid application of Zakat, the management encashed the investment pre-maturely which resulted in penalty of Rs.1.246 million.

Later on, the management re-invested Rs.25.000 million for waiver of penalty on account of pre-mature encashment. In case, had the management did not en-cash the investment pre-maturely, the interest income over the period of three (03) years could be Rs 4,488,000 @ 7.48%. However, the actual realization was Rs 735,823 which registered a short realization of interest income of Rs 3,752,176.

Audit is of the view that the management sustained a loss of Rs.4.998 million (Rs.3.752 million interest income & Rs.1.246 million penalty charges) which reflected imprudent decision making.

The matter was reported to the management on November 14, 2023. The management in its reply stated that the authority keeping a proactive/ preemptive approach to avoid this loss and reinvested the funds on a much higher rate of 12.15% per annum. The reply was not tenable as management did not recover earned amount of interest amounting to Rs3.752 million which was due on the investment parked at the bank.

Audit recommends to probe the matter.

(DP No.742 & 743)

14.2.4.13 *Non-preparation of annual accounts*

Clause (18) (1) of Korangi Fisheries Harbour Ordinance, 1982 states that the accounts of the Authority shall be maintained by the Authority in such forms as may be prescribed by the Auditor General of Pakistan consistent with the requirements of this Ordinance.

Section (10) of Public Sector Companies (Corporate Governance) Rules, 2017 states that every Public Sector shall, within one month of the close of first, second and third quarter of its year of account, prepare a profit and loss account for, and balance sheet as at the end of that quarter, whether audited or otherwise, for the Board's approval. Annual report including annual financial statements shall be placed on the Public Sector Company's website:

During audit of Korangi Fisheries Harbour Authority (KoFHA) for the year 2022-23, it was observed that the management failed to finalize its annual accounts since 2015. According to the above-mentioned rule, the requisite accounts (i.e., profit and loss accounts and balance sheet) were required to be prepared within one month of the close of the first, second, and third quarters and submitted to the Board for approval.

Audit is of the view that due to weaknesses in underlying accounting system have caused delay in timely preparation of accounts and timely completion of audit.

The matter was reported to the management on November 14, 2023. The management in its reply stated that formulation of BoD, KoFHA was in process and likely to be notified by 4th week of Jan 24 or early February, accordingly after its constitution, relevant approvals/ processes will be commenced to undertake the audit of accounts on war footing. The reply was not tenable as the accounts were not finalized since 2015.

Audit recommends preparation of accounts on priority basis.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year 2022-23 vide para(s) number 14.2.4.13. Recurrence of same irregularity is a matter of serious concern.

14.3 Pakistan National Shipping Corporation

14.3.1 Introduction

Pakistan National Shipping Corporation (the Holding Company), its subsidiary companies and associates (together 'the Group') were incorporated under the provisions of the Pakistan National Shipping Ordinance, 1979 and the Companies Ordinance 1984, respectively. The Group is principally engaged in the business of shipping, including charter of vessels, transportation of cargo and other related services.

14.3.2 Comments on Audited Accounts

14.3.2.1 The working results of the Corporation for the year 2022-23 as compared with the preceding years are given below:

(Rs in million)					
Particulars	2022-23	% Inc / (Dec)	2021-22	% Inc / (Dec)	2020-21
No. of Ships	12		11		11
Cargo carried by owned and chartered vessels (in million tons)	10.83	(9.5)	11.97	7.9	11.09
Operation Revenue					
Own vessels	38,317.88	142.4	15,805.60	57.21	10,053.97
Chartered vessels	4,205.51	(19.8)	5,246.51	103.41	726.38
Slot Chartered revenue	4,707.06	86.8	2,520.27	100.3	1,239.01
Total income from shipping business	47,230.45	100.4	23,572.43	96.12	12,019.37
Rental Income	265.46	11.10	239.01	8.34	220.62
Other income/other operating activities	16,549.54	212.3	5,298.93	222.57	1,642.72
Total revenue	64,045.45	120	29,110.37	109.69	13,882.70
Operating expenses					
Fleet expenses Direct and indirect	(27,469)	40.3	(19,579.58)	100	(9,786.81)
Admin expenses	(1,608.71)	32.2	(1,216.63)	17.6	(1,034.52)
Other expenses including Real Estate Expense	(557.22)	3.1	(540.54)	63.8	(329.91)

Total expenses	(30,757.87)	38	(22,282.88)	99.5	(11,168.16)
Operating profit/(loss)	33,287.58	387.5	6,827.79	127	2,999.79
Finance Cost	(1,411.03)	165.9	(530.66)	(4.83)	(557.61)
Profit/(Loss) before Taxation	31,876.55	406.2	6,297.14	157.8	2,442.19
Profit/(Loss) after Taxation	29,994.30	430.9	5,649.89	149.44	2,265.03

(Source: Annual Audited Accounts)

14.3.2.2 Total fleet expenses increased by 40% from Rs 19,579.58 million in 2021-22 to Rs 27,469 million in 2022-23, due to increases in charter hire and related expenses of foreign flag vessels, diesel, fuel and lubricants consumed, demurrage expenses and other miscellaneous expenses.

14.3.2.3 Admin expenses increased by 32% from Rs 1,216.63 million in 2021-22 to Rs 1,608.71 million in 2022-23, due to increases in workshop management, general establishment, rent/rates/taxes, scholarship and training, legal and professional charges and other misc expenses.

14.3.2.4 Finance Cost increased by 165.9 % from Rs. 530.66 million in 2021-22 to Rs 1,411.030 million in 2022-23 due to increases in mark-up on long-term financing.

14.3.2.5 Ratio Analysis:

	UOM	2023	2022	2021	Comments
Profitability ratios; The combined effects of liquidity, asset management and debt on operating results					
Profit before tax	%	58.20	22.72	19.10	Shows positive upward trend in Profit as compared to previous years.
Operating leverage ratio	%	398.94	109.34	262.46	Depicted uneven trends and huge upward trend as compared to previous year needs justification.
Return on equity	%	42.20	13.33	6.10	Shows positive upward trend as compared to previous years.
Liquidity ratios; The ability of the company to pay off its debts as they come due over the short term period					
Current ratio	%	4.07	3.38	3.71	Industry trend always lies between 1.4% and 1.6% whereas PNSC current ratio shows uneven trends, needs justification.
Activity / turnover ratios; The ability of the company to effectively manage its vessels					
Asset turnover ratio	Times	0.64	0.52	0.27	Shows positive upward trends.
Market ratios; An indication of what investors think of company's past performance and future prospects					

Price earnings ratio	Times	0.58	1.13	4.24	Shows downward trend as compare to the previous years.
Share price at year end	Rs	132.53	48.26	72.70	Share price was much high as compared with its preceding year.
Capital structure ratios; It measures the percentage of funds provided by sources other than equity					
Financial leverage ratio	Times	0.10	0.11	0.16	Shows downward trend in times as compared with its preceding years.
Debt to equity ratio	Times	0.10	0.11	0.13	Shows downward trend in times as compared with its preceding years.

14.3.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	%age of compliance
2003-04	6	5	1	181	83%
2006-07	18	17	1	189	94%
2008-09	5	4	1	212	80%
2010-11	13	13			100%
2011-12	13	2	11	22.3.2.1, 22.3.2.2, 22.3.2.3, 22.3.2.4, 22.3.2.5, 22.3.2.6, 22.3.2.7, 22.3.2.8, 22.3.2.9, 2.3.2.10, 22.3.4.1	15%
2012-13	6	2	4	22.1.2.1, 22.1.2.2, 22.1.2.3, 22.1.2.4	33%
2013-14	10	7	3	16.3.2.1, 16.3.4.2, 16.3.4.4	70%
2014-15	12	9	3	18.3.2.1, 18.3.2.2, 18.3.2.3, 18.3.3, 18.3.4.1, 18.2.4.2, 18.2.4.3, 18.3.4.4, 18.3.4.5, 18.3.4.6, 18.3.4.7	75%
2015-16	11	1	10	17.3.2.1, 17.3.2.2, 17.3.2.3, 17.3.2.4, 17.3.3, 17.3.4.1, 17.3.4.2,	9%

				17.3.4.3, 17.3.4.4, 17.4.2.1	
2016-17	10	1	9	15.3.2.1,15.3.3,15.3.4.1, 15.3.4.2, 15.3.4.3, 15.3.4.4, 15.3.4.5, 15.3.4.6,15.3.4.7	10%
2017-18	12	1	11	14.3.2.1,14.3.2.2, 14.3.2.3, 14.3.3, 14.3.4.1, 14.3.4.2, 14.3.4.3, 14.3.4.4, 14.3.4.5, 14.3.4.6, 14.3.4.7	8%
2019-20	4	2	2	10.3.4.1, 10.3.4.2	50%
2021-22	22		22	12.3.4.4, 12.3.4.12, 12.3.4.2 (remaining to be discussed in PAC)	
Total	142	64	78		45%

The overall compliance of PAC directives needs improvement.

14.3.4 Audit Paras

14.3.4.1 *Payment without opening of letter of credit – Rs 9,558.000 million equivalent to USD 43.653 million*

As per S#(h)(7) on General Terms and Conditions of SBP Annexure -1 to Circular No. 03 dated June 28, 2018, “In case of the import of plant and machinery, the foreign currency required for making payment to the machinery manufacturer or the suppliers abroad, against LC, shall be purchased by the PFI of the borrower from the inter-bank market at prevailing rates”.

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that contrary to above SBP circular management of PNSC purchased following two vessels and made payment of USD 43.653 million without opening of Letter of Credit (LC).

Name of vessel	Amount in USD
Paid for M.T Torrance	21,556,069
Paid for M.T Turin	22,096,588
Total paid price for two vessels	43,652,656

Audit is of the view that procurement of two vessels without opening of Letter of Credit (LC) is irregular.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that the law firm was established in 1969 and BoD has approved the services of law firm as desired by seller. The DAC directed the management to provide relevant documents for verification of law firm, BoD approval and payment made to law firm.

Audit recommends implementation of the DAC directives.

14.3.4.2 Irregular procurement of two vessels – Rs 9,361.000 million equivalent to USD 42.750 million

According to S#(4)(iv) of Government of Pakistan Finance Division (Budget Wing) on Specific Instructions And General Guidelines For Foreign Exchange Budget states “Proposals received after 10th May 2022 or lacking in any manner shall not be entertained. In such case, no provision will be made in the foreign exchange budget 2022-23. The responsibility for the same shall entirely rest with the entity concerned”

According to decision S#(6)(i) of meeting of the Cabinet Committee on Ports & Shipping on March, 9, 2000 “(i) The PNSC Board to be reconstituted with Secretary Petroleum and Additional Finance Secretary (Expenditure), to replace Secretary Industries and Production and Director (Finance), PNSC. The Board will have complete authority to make decisions for acquisition/deletion of vessels.”

According of Finance Division (CF Wing) letter No.6(1)CF-IV/2010-Vol.III-119, dated April, 2022 “...refer to Ministry of Maritime Affairs O.M.No.3(1)/2021-PNSC dated 25 March, 2022 on the subject ‘Public Sector Ceiling Request till 30th June, 2022’ and to convey the approval of Finance Division to allow Credit Ceiling to Rs.10.373 million to PNSC till 30th June, 2022”. “2. However, it is clarified that the Corporation will raise the required financing on its own and will be responsible for servicing and repayment of this financing facility. This will not constitute any direct or indirect liability in any form such as Government Guarantee on the part of Government of Pakistan.”

Rule 20 of PPRA Rules 2004 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

Rule 04 of the Public Procurement Rules, 2004, states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, multiple irregularities were observed in procurement two secondhand vessels at USD 42.750 million by the PNSC without obtaining fresh approval from Federal Cabinet and without utilizing the credit limit of Rs.10.373 allocated by Ministry of Finance to PNSC till 30th June, 2022 and no revised, fresh limit was allocated to PNSC.

Further it was observed that procurement was made without competitive bidding, without including 13-15 years old vessels in procurement plan 2021-22 which restricted to allow the widest competition by mentioning age in bracket i.e. from 13 to 15 years due to which only limited bidders participated in competition. Method of procurement was not adopted (single stage/ two stage – one envelope & two envelope). Date of closing, opening of technical and financial bid was not given in advertisement. No confirmation from 43 brokers were received after mailing request for bidding. Different bids were received by BoD (25 bids) & by Sale and Purchase Committee (SPC) (21 bids). Tender opening date was 04.03.2022 at 3:15, but not opened on same time nor was there any extension in due date was made. Speed of vessel was less than the required 14 knots and no inspections before and after purchase were carried out by PNSC. No evaluation report was announced on PPRA website. Tender documents were sold without cost. Third party survey was without any date, signature and stamp which were not received by courier.

Audit is of the view that management made procurement of the vessels without obtaining fresh approval from Federal Cabinet, without submitting Foreign Exchange Budget proposals on due date i.e. 10th May 2022 to Finance Division, without utilizing the credit limit of Rs.10.373 million and allocation of fresh limit from Ministry of Finance and in violation of public procurement rules.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that the procurement of vessels was undertaken vide Rule 42(d)(ii) of PP Rules 2004 as allowed by PPRA through minutes of the Tripartite Meeting held on 05 May 2010 under the Chairmanship of Managing Director (PPRA). Further approval of PNSC BoD was sought for undertaking the said procurement under Rule 42(d). The DAC was not satisfied with the stated facts of managements, hence stand the para and directed the management to refer the matter to Cabinet Division for approval through PPRA.

Audit recommends implementation of the DAC directives.

14.3.4.3 Non-recovery of dues from parties – Rs 8,072.149 million

Rule 4 (3) of Corporate Governance Rules, 2017 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that the management failed to effect recovery of an amount of Rs 8,072.149 million(Annex-87) as detailed below:

(Rs.in million)		
S#	Head of Recovery	Amount
1	Non-recovery / adjustment of advances to Contractors and Suppliers	293.039
2	Non recovery of rent from tenants	52.456
3	Non-recovery of dues from Government parties	197.133
4	Non-recovery of dues from Agents and owners	26.349

5	Non-recovery of Demurrages	4,587.000
6	Non-recovery of freight charges from various Organizations	2,164.871
7	Non-recovery of freight charges (others) from various Organizations	751.301
Total		8,072.149

Audit is of the view that the management failed to safeguard Corporation's interest as it did not recover the amount of Rs. 8,072.149 million which indicates inefficiency, weak financial management and poor internal controls within the organization.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. Management explained that out of total amount mentioned Rs. 8,072.149 million, PNSC has recovered the amount of Rs. 3,876.147 million till date which is 48% of total receivable. The DAC directed the management to provide relevant recovery documents for verification. Audit verified that Rs 3,876.147 million was recovered / adjusted out of total Rs 8,072.149 million.

Audit recommends implementation of the DAC directives.

14.3.4.4 Non-winding of business of Sargodha Shipping Company and irregular change in business of acquired company – Rs 4,760.000 million equivalent to USD 21.74 million

According to PNSC's Subsidiary Companies status:

Company Name	Status
Sargodha Shipping (Private) Limited	LPG business

Section-26(1)(A)(i) of Companies Act 2017, states that the principal line of business of the company shall be mentioned in the memorandum of association of the company which shall always commensurate with name of the company; and (ii) any change in the principal line of business shall be reported to the registrar within thirty days from the date of change.

According's to PNSC Board 386th meeting held on 19-04-2018 'Sargodha Shipping (Private) limited' for LNG Business only. However, no change is made to incorporate the LNG/LPG business in the object clauses of the Memorandum of Association of the companies. Therefore, we suggest that both companies may be used for immediate need of new project, with consent of the Board. Later on new companies may be registered for LNG/LPG business, as and when need.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that was reserved for LNG/LPG business but the management purchased the secondhand Aframax crude oil tanker vessel, M.T Eagle Turin at a price USD21.75 million and named it M/s Sargodha Shipping.

Audit is of the view that the management irregularly changed the business of Sargodha Shipping from LNG/LPG business to crude oil tanker in violation of Board decision and Companies Act, 2017.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that the Memorandum of Association of the said subsidiary company also allows to carry on the business of crude oil tanker. The DAC directed the management to provide relevant documents for verification MoA, BoD minutes of 06.06.2022, 17.05.2022 & 19.04.2018 along with working papers.

Audit recommends implementation of the DAC directives.

14.3.4.5 Non-winding of business of Lalazar Shipping Company and irregular change in business of company acquired –USD21.00 million equivalent to Rs 4,598 million

According to PNSC’s Subsidiary Companies status:

Company Name	Status
Lalazar Shipping (Private) Limited	Available for new project

Section-26(1) (A)(i) of Companies Act 2017, states that the principal line of business of the company shall be mentioned in the memorandum of association of the company which shall always commensurate with name of the company; and (ii) any change in the principal line of business shall be reported to the registrar within thirty days from the date of change.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that Lalazar Shipping (Private) Limited was reserved for purchase of new ship business but the management purchased secondhand ship Aframax crude oil tanker vessel, M.T Eagle Torrance at a price USD 21.00 million and named the purchased ship as M/s Lalazar Shipping.

Audit is of the view that the management irregularly changed the business of Lalazar Shipping from new ship business to secondhand vessel and allotted name as M.T Mardan which is not registered in PNSC and available in books of accounts.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that the Memorandum of Association of the said subsidiary company also allows to carry on the business of crude oil tanker. The DAC directed the management to provide relevant documents for verification MoA, BoD minutes of 06.06.2022, 17.05.2022 & 19.04.2018 along with working papers.

Audit recommends implementation of the DAC directives.

14.3.4.6 Irregular utilization of Foreign Exchange from different head of accounts & financial years – USD18.10 million equivalent to Rs 3,963 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that Finance Division released foreign exchange of USD 17.2 million from heads of account ‘Current Invisible’, ‘Current Import & Development Expenditure-Import’ during financial years 2021-22 & 2022-23 and SBP allocated advance payment of USD18.10 million during financial year 2022-23 to PNSC for making payment of M.T Eagle Torrance & M.T Turin (two Aframax tankers/ vessels) from M/s AET Inc. Limited, Bermuda.

Audit is of the view that the management did not utilize FE from Capital Expenditure and the same was utilized from different heads of account. The amount approved by Finance Division was USD 17.2 million and SBP as USD 18.10 million.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that the allocation and approvals were made by MoF and SBP and expenditure was incurred from Capital Budget. The DAC directed the management to provide relevant documents for verification of Capital Budget and expenditure.

Audit recommends implementation of the DAC directives.

14.3.4.7 Irregular availing of excess Long Term Finance Facility than the approved limit from a single bank - Rs.2,644 million

Rule 20 of PPRA Rules, 2004, states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

As per S#(1)(f) of SBP Instructions, Consolidated and Updated Instructions on Long Term Financing Facility (LTFF) for Imported and Locally Manufactured Plant & Machinery on Scope and Eligibility “Maximum financing of banks/DFIs to a single export oriented unit shall not exceed Rs 1.5 billion under LTFF. However, banks/DFIs may provide financing facilities as per their credit policies over and above the said maximum limit from their own sources subject to adherence of applicable Prudential Regulations.”

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that the management purchased two vessels amounting to USD 42.750 million from M/s AET Inc. and payment of USD18.100 million (USD8.6 million + USD9.6 million) was remitted from a local bank i.e. Faysal Bank Ltd which was in excess of maximum limit prescribed by SBP i.e. Rs.1.5 billion. Details are given below:

Name of Bank	Date of payment	Amount in USD	USD conversion rate	Total in PKR
--------------	-----------------	---------------	---------------------	--------------

Faysal Bank	27.07.22	8,600,000	239.9414	2,063,495,859
Faysal Bank	05.08.22	9,500,000	218.9648	2,080,165,866
Total		18,100,000		4,143,661,725
SBP maximum limit				1,500,000,000
Excess facility availed				(2,643,661,725)
% of excess facility				(176)

It was further observed that financing of amount was made without any competitive process.

Audit is of the view that the management availed excess loaning facility of Rs 2,644 million from single bank against the assigned limit of Rs.1.5 billion in violation of SBP Prudential Regulations. Besides, availing of financing facility without competitive process resulted in compromised value for money and non-transparent award of service. Audit required complete file of rates offered by all banks, loaning facility availed, copy of agreements, correspondence & approval of Faysal Bank, SBP, and Ministry of Finance.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that due process was followed for selection of Banks. The DAC directed the management to provide relevant documents of due process for verification.

Audit recommends implementation of the DAC directives.

14.3.4.8 Purchase of two vessels without Dry Docking & Special Survey due on seller – USD 9.948 equivalent to million Rs 2,178 million

Rule 20 of PPRA Rules, 2004 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

Rule 04 of the Public Procurement Rules, 2004, states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was noted that management made procurement of following two vessels at USD 42.750 million. However, audit observed that the management incurred an expenditure of USD 9.948 million on account of Dry Docking and a number of Special Surveys which were due before purchase of the vessels. Besides, 3rd Special Survey with dry docking under Condition Assessment Program (CAP), containing major surveys, was also mandatory at the age of 15 years for each vessel. Detail of the cost of Dry Docking & Special Surveys is hereunder;

(Amount in USD million)		
Name of Vessel	Eagle Torrance	Eagle Turin

Age	15 years	14.2 years
Dry docking scheduled date	26.07.2022	14.02.2023
Vessels delivered to PNSC	August, 2022	August, 2022
Cost of dry docking	1.2	1.5
Other Cost	3.674	3.574
Total cost of each vessel	4.874	5.074
Total cost of two vessels	9.948	

The breakup of main class surveys in respect of M.T Eagle Torrance due on 26.07.2022 is hereunder;

S#	Main Class Surveys	S#	Main Class Surveys
1	Annual Survey Machinery	4	Special Survey
2	Auxiliary Boiler Survey	5	Docking Survey
3	Exhaust Gas Economizer Survey	6	Annual Survey Hull

It was further observed that procurement of M.T Eagle Torrance vessel was made without renewal of following Statutory Certificates.

S#	Statutory Certificates	Expired on	S#	Statutory Certificates	Expired on
1	International Load Line	26.07.2022	6	Marpol Air	26.07.2022
2	Safety Construction	26.07.2022	7	Marpol Sewage	26.07.2022
3	Safety Equipment	26.07.2022	8	BWM Certificate	26.07.2022
4	Safety Radio	26.07.2022	9	Cargo Gear (Annual)	22.05.2022
5	Marpol Oil	26.07.2022	10	Cargo Gear (5-yearly)	12.8.2022

Audit is of the view that the management made unjustified expenditure of USD 9.948 million on account of Dry Docking and a number of Special Surveys and the factor of renewal of Statutory Certificates were not taken into account while determining the cost of the vessels. This resulted into extra expenditure by PNSC.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that conscious decision and BoD approval was made along with extension of dry docking days. The DAC directed the management to provide relevant documents to audit for verification.

Audit recommends implementation of the DAC directives.

14.3.4.9 Non-deduction of Sales Tax on account of procurement of two vessels - USD

7.268 million equivalent to Rs 1,591 million

As per Section 3 (1) (b) of Finance Act, 2022, there shall be charged, levied and paid a tax known as sales tax at the rate of 17% of the value of (b) goods imported into Pakistan.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was noted that management made procurement of two vessels i.e. M.T Turin & M.T Torrance at USD 42.750 million. However, the management did not deduct the General Sales Tax (GST) @ 17% amounting to USD 7,267,500.

Audit is of the view that non-deduction of Sales Tax caused loss to Government exchequer.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that Sales Tax provision was made in books of accounts. The DAC directed the management to provide relevant documents to audit for verification.

Audit recommends implementation of the DAC directives.

14.3.4.10 Loss due to purchase of two vessels at higher than estimated price – USD 8.75 million equivalent to Rs 1,545 million

Rule 04 of the PPRA Rules, 2004, on principles of procurements states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule 20 of PPRA Rules, 2004, on principal method of procurement states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was noted that Special Projects & Planning Division of PNSC through working papers dated 16.12.2021 recorded that Finance Division of PNSC has worked out the feasibility for the procurement of one secondhand Aframax, aged between 11-15 years, and confirmed that the project is feasible. The revenue and cost-related assumptions were verified by Commercial Division and Ship Management Division respectively, whereas life and cost-related assumptions of vessel were checked by Planning Division. Estimated cost of 15 years old vessel was USD 17 million. However, Audit observed that management procured two secondhand Aframax tanker vessels at exorbitant price. The detail of exorbitant procurement of vessels is hereunder.

Amount in USD			
Name of vessel	Actual cost	Estimated cost	Difference amount
M.T Turin	21,750,000	17,000,000	4,750,000
M.TTorrance	21,000,000	17,000,000	4,000,000

Total	42,750,000	34,000,000	8,750,000
--------------	-------------------	-------------------	------------------

Audit is of the view that procurement of the vessels was not conducted in a fair and transparent manner as it compromised value for money. Thus, the Corporation sustained loss of USD 8.75 million.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that 6th tender was floated and feasibilities of vessels were made. The DAC directed the management to provide relevant documents to audit for verification.

Audit recommends implementation of the DAC directives.

14.3.4.11 *Non-recovery of liquidated damages on late delivery of USD 4.275 million equivalent to Rs.936 million & loss of freight revenue– Rs.976 million*

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was noted that management purchased two vessels (M.T Eagle Torrance & M.T Turin) amounting to USD 42.750 million from M/s AET Inc. Ltd. on 29.06.2022. However, it was observed that the management did not effect recovery of liquidated damages (L.D) of USD 4.275 million equivalent to Rs.936 million as there was late delivery of the vessels - the vessels agreed to be delivered in June, 2022 were actually delivered on August, 2022, with a delay of three months.

Audit is of the view that non-recovery of liquidated damages on late delivery (USD 4.275 million equivalent to Rs.936 million) consequent non-operation of the vessels caused loss of freight revenue of Rs.976 million based on the calculations of total per day freight revenue of Shalamar during June,2022 [(173,505,000/16 days) = 10,844,063 x90 days = 975,965,670].

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that negotiated for purchase of two vessels was made in SPC 16 minutes of meeting and vessels were delivered in August, 2022. The DAC directed the management to provide relevant documents to audit for verification.

Audit recommends implementation of the DAC directives.

14.3.4.12 *Procurement of two vessels from other than the lowest bidder/non-participant bidder & consequent loss – Rs.770.000 million equivalent to USD 4.350 million*

Rule 38 of PPRA Rules, 2004, states that bidder with the most advantageous bid, if not in conflict with any other law, rules, regulations or policy of the Federal Government, shall be awarded the procurement contract, within the original or extended period of bid validity.

Rule 04 of the PPRA Rules, 2004, on principles of procurements states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule 20 of PPRA Rules, 2004, on principal method of procurement states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was noted that management published tender on 25.01.2022 for procurement of three Aframax crude oil tankers having age of 13 to 15 years. Out of 23 offers received, only 11 offers were evaluated technically & financially. However, it was observed that management made procurement of two vessels instead of three at USD 42.750 million (from the bidders who had not participated in the bidding process) and the same from other than the lowest bidders. The details are hereunder;

Name of Vessel	Built Year	Country of Built	Amount (USD)	Remarks
M.TBergitta	2007	Japan	18,500,000	Lowest bidder
M.TAfraparl	2007	Korea	19,900,000	Lowest bidder
Total			38,400,000	
M.T Turin	2008	Japan	21,750,000	Not participant bidder
M.TTorrence	2007	Japan	21,000,000	Not participant bidder
Total			42,750,000	
Loss (38,400,000-42,750,000)			-4,350,000	

It was further observed that management requested M/s Dan Willmott, broker for Bergitta vessel, on 03.03.2022 for submission of documents after lapse of one month of opening of financial bids on 02.02.2022. Furthermore, management did not intimate reasons of rejection of the bids to the non-responsive bidders. The technical & financial bid evaluation reports were without any signature and stamp of Procurement Committee and the same were not opened timely.

Audit is of the view that the procurement of vessels was not conducted in a fair and transparent manner. This not only compromised value for money to the agency but also reflected that the procurement process was irregular, inefficient and non-economical. Thus, the procurement was made in violation of the Public Procurement Rules and the Corporation sustained loss of USD 4.350 million.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that M.T Turin & M.T Torrence was participated in bids. Further M.T. Bergitta official price submitted vide email was US\$ 21.5 million and not 18.5 million. Afraparl vessel was not considered further due to her technical score obtained in SM Division technical evaluation in view of its all inspection i.e. Class record Inspection,

Pre Purchase Condition Survey (PPCS) and Third Party Inspection in lieu of PNSC Own Inspection. The DAC directed the management to provide relevant documents to audit for verification.

Audit recommends implementation of the DAC directives.

14.3.4.13 Irregular award of dry docking to 3rd lowest bidder - Rs.382.159 million equivalent to \$2.492 million

Rule 40 of PPRA Rules, 2004, states that save as otherwise provided there shall be no negotiations with the bidder having submitted the lowest evaluated bid or with any other bidder: Provided that the extent of negotiation permissible shall be subject to the regulations issued by the Authority. Further, rule 04 of PPRA Rules, 2004, states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner.

Rule 31 (1) & (2) of PPRA Rules, 2004, states (1) No bidder shall be allowed to alter or modify his bid after the bids have been opened. However, the procuring agency may seek and accept clarifications to the bid that do not change the substance of the bid. (2) Any request for clarification in the bid, made by the procuring agency shall invariably be in writing. The response to such request shall also be in writing.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that management published tender on 31.3.2021 for dry docking & associated repairs of Aframax oil tanker M.T. Quetta. Bid opening date was 3.5.2021, 4 bidders quoted bids. However, these bids were altered and management awarded contract to 3rd lowest bidder Dubai dry dock world as per details given below:

Amount in USD						
S#	Name of Bidder	Bids quoted	Ranked	Bids presented before LEC	Bids altered	Ranked
1	Dubai dry dock world	1,765,263	3	2,038,480	2,492,071	1
2	Colombo dockyard PLC	1,626,575	2	1,681,704	2,639,475	2
3	Oman dry dock	2,067,770	4	2,122,460	2,760,184	3
4	Zhoushan Shipyard	827,464	1	906,822	3,084,657	4
Total		6,287,072		6,749,466	10,976,387	

Audit is of the view that the management extended undue favor in awarding of contract to the 3rd lowest bidder, Dubai dry dock world at a higher cost of Rs.382.159 million in violation of PPRA Rule, 2004.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that participating shipyards in this case did not quote for certain items. In order to ensure the comparisons are fair, and does not disadvantage bidders which have quoted for all items, the highest rates offered against the said items from other yards were included to compare the bids fairly which is international practice and in accordance with terms and conditions mentioned in tender (instruction to bidders). The DAC directed the management to provide relevant documents to audit for verification. **(DP No. 233)**.

Audit recommends implementation of the DAC directives.

14.3.4.14 Significant increase in dry docking days than the actual days without approval and loss due to non-imposition of penalty - Rs.285.000 million equivalent to \$1.394 million

As per para (6.5) of Internal Control System (ICS) on Dry docking “Vessels of subsidiary companies are required to be dry-docked after approximately every thirty months (i.e. at least twice in five years) for major repairs and maintenance that cannot be performed while the vessels are operating.”

According to Clause (8) of Instructions for the Bidders on time for completion of work “Time shall be of the essence in the performance of this Contract. The Yard represents and warrants that it has no commitments which will prevent it from putting the vessel into Dry dock for completing the Work timeously and agrees that it will not undertake any such commitments. The Yard undertakes that it shall give the highest priority to the work and any Additional Work and shall not assign a higher a higher priority to any other work which may interfere with its diligent prosecution of Work and any Additional Work. Manager would have the right to increase the scope of work given in the Specifications up to 10% without allowing any increase in time originally quoted by the Contractor...., the amount of penalty specified in the instructions to bidder i.e. @US\$ 8,000/ per day for first 5 days and US\$ 14,000/, per day after first 5 days shall be deducted from contract price”.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was

observed that management published various tenders for dry docking & associated repairs of Aframax oil tanker M.T. Quetta, Shalamar & Lahore, actual days quoted and bids received was total 66 days and actual days utilized was 172 day's details given below:

S#	Vessel Name	Awarded contract to	Days in bids	Actual Days utilized	Excess days	% of excess days (3/1x100)
			1	2	3	4
1	Quetta	Dubai Dry Docking World	22	76	-54	-245
2	Shalamar	Dubai Dry Docking World	22	46	-24	-109
3	Lahore	Dubai Dry Docking World	22	50	-28	-127
Total			66	172	-106	
Penalty for 5 days @\$8,000 x 15					120,000	
Penalty for remaining days @\$14,000 x 91					1,274,000	
Total Penalty for 106 days (Amount in USD)					1,394,000	

Audit is of the view that the management utilized excess 106 days than the bid received without approval from competent authority and loss due to non-imposition of penalty of \$1.394 million in violation of terms and conditions.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that Dry Docking was extended due to reasons beyond the control of PNSC and Dubai Dry Dock Worlds both. The DAC directed the management to probe the matter and share with Audit.

Audit recommends implementation of the DAC directives.

14.3.4.15 Irregular appointment of firm for purchase of two vessels – Rs 264.769 million equivalent to USD 1.2 million

Rule 20 of PPRA Rules, 2004, states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

Rule 4 of PPRA Rules, 2004, states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that the management appointed M/s Theo Sioufas Escrows Service LLP as an escrow agent for procurement of two vessels. However, audit observed that;

1. Escrow agent was appointed without competitive bidding process.
2. P&I Club on 29.06.2022 did not communicate positive initial feedback about the firm and stated that it is a new firm. Singapore Limited Partnership, supported by Theo V. Sioufas & Co. Law Offices, stated to have a history of more than 50 years with a wide International network was newly incorporated on 09.10.2019 and registration date was 11.08.2021. No tax returns of firm were found for the years 2019 to 2022.
3. Financial worth of firm was 01 Singapore Dollar and only holding one share.
4. Minutes of 52 & 57th meeting of the Board of Directors, reflected that the Company shall open and operate necessary Joint Escrow Account in Citi Bank Singapore for the transaction(s) and necessary operating instructions be communicated to the Bank instead of that Citi Bank will no more be acting as an Escrow agent in the subject procurement.

Audit is of the view that the management appointed firm M/s Theo Sioufas Escrows Service LLP without due diligence and competitive bidding.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that the law firm was established in 1969 and BoD has approved the services of law firm as desired by seller. The DAC directed the management to provide relevant documents for verification of law firm, BoD approval and payment made to law firm.

Audit recommends implementation of the DAC directives.

(D.P No. 220)

14.3.4.16 Loss of revenue due to ocean losses - Rs.223.152 million

As per Clause 6 (l) of the Contract of Affreightment (Agreement), it is agreed that;

- (i) Ocean loss in respect of cargo carried shall not exceed 0.4% by weight of crude oil Loaded quantity as per Bill(s) of lading per voyage, compared with measurement of shore tanks at discharge port ... such computations of ocean losses shall made and settled on a voyage-to-voyage basis.

- (ii) If ocean loss on each cargo carried under this Agreement exceeds 0.4% by weight as per above clause, the Carrier shall be liable to pay the Company the cost of ocean loss in excess of 0.4% by weight and freight thereof.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed from the voyages files that due to short delivery of crude oil, various refineries charged/ deducted an amount of Rs.223.152 million on account of ocean losses (freight charges and material price on FOB value), which affected the revenues of PNSC (Annex-88).

It was further observed that contrary to above agreement terms, the management paid the amount on account of ocean losses without taking into account the permissible limit of 0.4% by weight and freight.

Audit is of the view that deduction of amounts on account of short quantity reflects poor operational management and loss to the Corporation.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. Management explained that discrepancies of cargo quantity are mainly due to mechanism adopted for measurement and gauging of shore tanks and variations in density of cargo being discharges on top at shore tanks and 17 premium point fixed out of which 3 premium points solely added for covering Ocean losses. The DAC directed the management to provide relevant documents for verification.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year 2022-23 vide para(s) number 14.3.4.24 having financial impact of Rs.25.401 million. Recurrence of same irregularity is a matter of serious concern.

14.3.4.17 Excess payment on account of procurement of two vessels – Rs.198 million equivalent to USD 0.903 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2017, states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

Rule 23 of GFR states that every Government officer should realize fully that he will be held responsible for any loss sustained by the Government through fraud or negligence on his part.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that management purchased following two vessels amounting to USD 42.750 million from M/s AET Inc. on agreed price and made payment of an amount of USD 43.653 million which resulted in excess payment of USD 0.903 million. The detail of excess amount is hereunder;

Amount in USD			
Name of vessel	Actual	Paid	Difference
M.T Eagle Torrance	21,000,000	21,556,069	-556,069

M.T Eagle Turin	21,750,000	22,096,588	-346,588
Total purchase price of two vessels	42,750,000	43,652,657	-902,657
Total excess payment in Rupees (USD 902,657 x 218.9648)			(197,650,135)

Audit is of the view that the management made excess payments of without any justification.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that SPC approved the excess payment of bunkers. The DAC directed the management to provide approval of BoD and SPC for payment of bunkers for verification.

Audit recommends implementation of the DAC directives.

14.3.4.18 Loss in chartering of foreign vessel - Rs.152.442 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board.

As per Job Description (JD), General Manager Commercial Division is required to utilize vessels in the most profitable manner, prepare and maintain vessel schedule, and ensure proper execution of the voyage, etc.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that management chartered various foreign flag vessels for the shipment of crude oil during the period July 01, 2021 to June 30, 2022 and incurred loss of Rs.152.442 million. The summary is hereunder;

(Rs. in million)		
Expenditure	Freight Income	Loss
1,510.331	1,357.888	152.442

Audit is of the view that non-commercially viable decision, poor financial management and weak internal controls. This resulted into loss of Rs.152.442 million.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. Management explained that due non availability of own tonnage PNSC charter vessel from open market at best available rates. The vessels were chartered at the competitive levels for M/s PSO under C&F arrangement to avoid any shortage of energy requirement in the country. The DAC directed the management to provide relevant documents for verification.

Audit recommends implementation of the DAC directives.

14.3.4.19 Irregular award of works without tendering - Rs.50.876 million

Rule 20 of PPRA Rules, 2004, states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

Rule 4 of PPRA Rules, 2004, states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that management awarded following works without open competitive

Rs in million		
S#	Nature of work	Amount
1	Ballast Water Tanks	1.876
2	mooring and repair berth	9
3	cargo & bunker tank cleaning	40
Total		50.876

Audit is of the view that the management awarded various works without tendering process, prior approval from Chairman and without availability of vessel at Karachi in violation of rules.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that tenders were floated and scrapped and there was short time to complete the works due to which retendering was not made. The DAC directed the management to provide relevant documents to audit for verification.

Audit recommends implementation of the DAC directives.

14.3.4.20 Loss due to non-availing of discount - Rs.47 million equivalent to US\$0.277 million

S#1 of noting on discount of M/s Dry-docks World Dubai states that “We are prepared to offer a discount of Twenty percent (20%) of the agreed final invoice amount”.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that management published tender on 23.08.2021 for dry docking & associated repairs of Aframax oil tanker M.T. Lahore, bid opening date was 30.9.2021 two bidders quoted their bids out of which M/s Dubai dry dock world was found lowest evaluated bidder worth \$2.560 million and final payment was made \$1.385 million. However, the management did not avail the 20% discount of \$0.277 million as per offer. Detail is given below:

Amount in USD			
S#	Name of Bidder	Payment made	20% Discount
1	Dubai dry dock world	1,385,000	277,000

Audit is of the view that the management incurred a loss of \$0.277 million due to non-availing of 20% discount during the year 2021-22.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that Dry Docking of MT Quetta was carried out in 02 phases. The total cost for first phase was USD 1,142,236.00, on which 20% discount amounting to USD 144,126 was fully availed. The total cost for 2nd phase was USD 260,200, on which no discount was agreed upon. PNSC has established the normal practice of including the offered

discounts while evaluation of the bids received and discount of 20% on quote received from bidders. The DAC directed the management to provide relevant documents to audit for verification.

Audit recommends implementation of the DAC directives.

14.3.4.21 *Non-recovery of Dead Freight against refineries - Rs.27.8 million*

As per Clause-1-(b) of Contract of Affreightment (COA) of PNSC with NRL, ... The dead freight shall be payable by the Company to the Carrier for the quantity determined as difference between the total quantity notified by the Company over the period of 4 months and 70,000 M.T times no. of cargoes performed during the same period. However, Carrier shall be responsible to arrange upliftment of the quantities as notified by the Company and that cargo quantities are not reduced or short loaded for vessel reasons.

As per Clause-1-(b) of Contract Of Affreightment (COA) of PNSC with PARCO, the Cargo sizes shall not be less than 70,000 metric tons (MT) on an average monthly basis subject to a negative tolerance of 0.5%, failing which dead freight shall be payable by the Company to the CARRIER on the difference between 70,000 MT less negative tolerance and the said monthly average of cargo sizes to be settled on completion of each month.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that contrary to above, the management did not receive an amount of Rs. 27.8 million (NRL = Rs.15.3 million + PARCO = Rs.12.5 million) against dead freight in respect of National Refinery Limited (NRL) and Pak-Arab Refinery Limited (PARCO). The detail of dead freight is tabulated below;

S#	Period	Quantity to be loaded as per COA (MT)	No. of Shipments	Total cargo to be loaded as per COA (MT)	Total actual cargo loaded (MT)	Difference in Quantity (MT)	Average Freight Rate (USD)	Exchange rate (Rs.)	Total amount (Rs.)
		(a)	(b)	C=(a*b)	(d)	E = (c-d)	(f)	(g)	H=(e*f*g)
1	14.05.21 to 13.09.21	70,000	10	700,000	699,000	1,000	5.937	160.609	953,535
2	14.01.22 to 13.05.22	70,000	8	560,000	550,000	10,000	7.8636	182.44	14,346,351
Total outstanding amount in Rupees against NRL (A)									15,299,886
3	21-Jul	69,650*	6	417,900	404,250.94	13,649.06	5.707	160.4	12,494,388
Total outstanding amount in Rupees against PARCO (B)									12,494,388
Total outstanding amount in Rupees (A+B)									27,794,274
<i>Note: *Quantity to be lifted (70,000 MT) – Negative tolerance of 0.5% (350 MT) = 69,650 MT</i>									

Audit is of the view that non-recovery of dead freight against refineries reflects inefficiency and poor financial management.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. Management explained that out of total amount mentioned Rs. 8,072.149 million, PNSC has recovered the amount of Rs. 3,876.147 million till date which is 48% of total receivable. The DAC directed the management to provide relevant recovery documents for verification. Audit verified that Rs 3,876.147 million was recovered / adjusted out of total Rs 8,072.149 million.

Audit recommends implementation of the DAC directives.

14.3.4.22 Irregular appointment of Internees under Management Trainee Program – Rs.19.20 million

BoD in its 413th meeting held on 24th February, 2022 determined following criteria for appointment of Internee under Management Trainee Program;

Division	Required strength of intern / MTO	Required qualification
Commercial	05	MBA (Maritime) preferably MICS, MBA (Supply Chain/Logistics), MBA (Finance)
SP&PL	03	MBA (Preferably Maritime / Finance)

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that the management appointed following two candidates as Internee / MTOs in violation of BoD decision;

S#	Name of Candidates	Degree possess	Required qualification	Division	Per Month Salary	Total Salary (two years)
1.	Bilal Anwar	BBA(Supply chain)	MBA	Commercial	40,000	960,000
2.	Ossama Ali	BE (Mechanical)	MBA	SP&PL	40,000	960,000
Total						1,920,000

Audit is of the view that appointment of the internees without following laid-down criteria of BoD reflected negligence of the management.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. Management explained that placement of Mr. Bilal Anwar holder of BBA (Supply Chain) & Mr. Osama Ali, B.E (Mechanical) was made according to respective departments as they were selected by Selection Committee on fulfilling the required advertised criteria. The DAC directed the management to provide relevant documents for verification.

Audit recommends implementation of the DAC directives.

(DP No. 75)

14.3.4.23 Loss due to less receipt of discount - \$0.107,474 million equivalent to Rs.17 million

S#1 of noting on discount by M/s Dry-docks World Dubai stated that we are prepared to offer a discount of Twenty percent (20%) of the agreed final invoice amount.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that management published tender on 31.3.2021 for dry docking & associated repairs of Aframax oil tanker M.T. Quetta, bid opening date was 3.5.2021, in its response four bidders quoted their bids. Out of four bidders M/s Dubai dry dock world was found lowest evaluated bidder worth \$2.492 million and final payment was made \$1.258 million but the management did not receive the 20% discount of \$0.252 million, as per details given below:

Amount in USD

S #	Name of Bidder	Payment made	20% Discount due	Discount received	Less receipt of discount
1	Dubai dry dock world	1,258,000	251,600	144,126	107,474

Audit is of the view that the management incurred a loss due to less receipt of \$0.107,474 million discount during the year 2021-22.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed the Committee that Dry Docking of MT Quetta was carried out in 02 phases. The total cost for first phase was USD 1,142,236.00, on which 20% discount amounting to USD 144,126 was fully availed. The total cost for 2nd phase was USD 260,200, on which no discount was agreed upon. PNSC has established the normal practice of including the offered discounts while evaluation of the bids received and discount of 20% on quote received from bidders. The DAC directed the management to provide relevant documents to audit for verification.

Audit recommends implementation of the DAC directives.

14.3.4.24 Irregular appointment of Chartered Accountant Firms - Rs.10.552 million

Rule 20 of Public Procurement Rules, 2004 states that save as otherwise provided hereinafter, the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that the management hired following two Chartered Accountant (CA) firms without competitive bidding during the year 2021-22 at Rs.10.552 million.

(Amount in “000”)			
Description	M/s Grant Thornton Anjum Rehman	M/s Yousuf Adil	Total
Statutory audit fee - the Holding Company	1,514	1,514	3,028
Audit fee – Subsidiaries	2,153	2,153	4,306
Fee for review of half yearly financial statements	530	530	1,060
Fee for review report on CCG	163	163	326
Fee for audit of the consolidated financial statements	191	191	382
Statutory certificates	-	66	66
Out of Pocket expenses	301	301	602
Sales Tax Services	388	393	782
Total	5,240	5,311	10,552

Audit is of the view that award of service contract without competitive bidding deprived the Corporation of the benefit of competitive rates and was in violation of procurement rules.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. Management explained that external auditors of the Corporation are appointed as per the rules and guidelines defined in the Companies Act-2017. The DAC directed the management to provide relevant documents for verification.

Audit recommends implementation of the DAC directives.

14.3.4.25 Loss due to desertion of crew member - USD 16,551 equivalent to Rs.2.648 million

ISM Code Cell - PNSC Bulletin No. 82 Ref. 1887-4779 dated February 14, 2009 entails measures to counter crew desertion from ships and further states that strict disciplinary action shall be taken against those found to be negligent or involved directly or indirectly in any future cases of desertions from the ships.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was observed that one PNSC ship, M.V Hyderabad, crew member, Mr. Pervez John Sohatra-Utility Hand, deserted from the vessel on 20.12.2020 at about 0415 hrs (US time) while the vessel was at Houston, USA for loading of cargo. The United States Coast Guards (USCG)/Customs detained the vessel for further investigation and required external audit / verification by BV class.

It was further observed that following expenditure of USD 16,551 was incurred on account of subsequent actions.

S#	Description	USD	Amount in Rs. (@160)
----	-------------	-----	----------------------

1	Additional security guards	12,500	2,000,000
2	BV Class ISPS Audit	4,051	648,160
Total		16,551	2,648,160

Audit is of the view that such desertion reflected that due diligence in selection of the individual in accordance with the SoPs was not exercised by the management which resulted into loss of both an amount of Rs.2.648 million and image of the Corporation.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. Management explained that PNSC filed suit of recovery of Guarantee amount PKR 1.5 million along-with reputation loss Rs. 5 million. PNSC vigorously pursued the case recovery of PKR 6.5 million with markup at the rate of 20%. The DAC was not satisfied with the reply of management and directed to pursue court case vigorously.

Audit recommends implementation of the DAC directives.

14.3.4.26 Loss due to non-charging of rent at market rate since long - Rs.1.086 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board.

Clause 9.3 of PNSC lease agreement states that the rent shall be increased by 10% annually for 10 years.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was noted that the management rented out vacant space, measuring 500 sqft. 1st floor of Old Rally Building to M/s Master Mariners Society of Pakistan @ Rs.250 per month (Rs 3,000 annually) w.e.f. 1985. However, it was observed that the tenant was continuously paying rent of Rs 3,000 annually from 1985 till-date without any formal lease agreement. Hence, due to non-revision of rent, Corporation sustained a loss of Rs.1.086 million. (Annex-89)

Audit is of the view that non-charging of rent at market rates and allotment of space without any lease agreement reflected negligence of the management in managing assets and thereby loss to the Corporation.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. Management explained that PNSC has written letter to said tenants informing him to execute lease agreement and file appropriate proceedings in the competent court of law at your sole risk and cost. The DAC directed the management to provide relevant documents for verification.

Audit recommends implementation of the DAC directives.

14.3.4.27 Irregular appointment of Senior Storekeeper on fake degree

DO letter dated March 08, 2011 of Establishment Division states that measures should be taken to authenticate degrees/certificates of all ... employees of respective Ministries/Divisions, their subordinate offices and autonomous bodies under their administrative control. ... A certificate along with list of officers whose degrees / certificates have been verified should be furnished to the Establishment Division forty five (45) days of issue of these instructions.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was noted that management appointed Mr. Tariq Shafi as Senior Storekeeper-Workshop on 16-11-2010 on contract basis. However, his B.Com degree (basis of his appointment) sent to University of Karachi for verification on December 13, 2018 was declared forged (fake) by the University on April 19, 2019. Subsequently, an Inquiry Committee was constituted on May 21, 2019. The Committee concluded that the accused employee submitted forged educational degree / certificates and also provided false declarations on his qualifications in his Employment Form.

Audit is of the view that non-verification of degree prior to appointment of the individual reflected negligence of management and favor to the individual.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. Management explained that The Competent Authority awarded him major penalty to dismissal from service by terminating his contract with immediate effect 17.11.2021. The DAC expressed its displeasure for delay in process of case.

Audit recommends implementation of the DAC directives.

14.3.4.28 Inordinate delay in finalization of procurement of two vessels

Rule 04 of the Public Procurement Rules, 2004, states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan National Shipping Corporation (PNSC) for the year 2021-22, it was noted that BoD 384th vide Minutes of Meeting held on 19.01.2018, accorded approval for purchase of two secondhand LR-1 product tankers and one secondhand Aframax crude oil tanker/LR-1 product tanker (as may be appropriate at the time of purchase of the vessel) of size and age (not over 8 years old).

However, it was observed that there was inordinate delay in finalization of procurement of two secondhand vessels. The vessels planned to be procured through (BoD resolution 19.01.2018) tender on 20th December, 2020 were actually procured through (BoD resolution 05.01.2022) advertisement 25th January, 2022. The detail of delay reflected through advertisement is hereunder:

S#	Date of tender	Reason for tender scrap
1	11.10.2020	Non-compliance of technical criteria
2	20.12.2020	Non-compliance of technical criteria
3	30.03.2021	Non-receiving of bids

4	02.06.2021	Bids received did not meet the tender requirements
5	10.09.2021	No bid was received
Delay period from 11.10.2020 to 25.01.2022 (464 days approx.)		

Audit is of the view that reflected that the process of procurement of the vessels was not conducted in a fair and transparent manner and the procurement compromised value for money and that the procurement process was not efficient and economical. Thus, the Corporation might have earned freight revenue of Rs 3,550 million, as detailed below:

Per day average freight revenue of Shalamar was Rs.7.652 million (Rs.10.844 million on June/2022 & Rs.4.459 million on July/2021 / 2). Revenue of Rs.3,550 million (Rs.7.652 x 464 days)

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The DAC directed the management to provide relevant documents for verification.

Audit recommends implementation of the DAC directives.

14.4 Port Qasim Authority

14.4.1 Introduction

Port Qasim Authority was established in 1973 under the Port Qasim Authority Act, 1973 (the PQA Act). The principal activities of the Authority are to provide services of ship movement, storage, berthage, wharfage, and towage, etc., besides, developing and managing an industrial and commercial estate within its occupied area. The location of operations and principal office of the Authority is situated at Port Muhammad Bin Qasim, Karachi.

14.4.2 Comments on Audited Accounts

14.4.2.1 The annual audited accounts are required to be provided to audit for review each year. Contrary to this, the management failed to provide audited accounts of the organization for the years 2006-07 to 2022-23 despite a number of reminders.

Audit requires that the annual audited accounts of the years 2006-07 to 2022-23 be provided immediately and timely finalization be ensured in future, besides, fixing responsibility for non-finalization of annual audited accounts (*Annex-2*).

14.4.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	% Compliance

Total	219	63	156		29%

The overall compliance of PAC directives needs improvement.

14.4.4 Audit Paras

14.4.4.1 *Irregular award of contract of Port Qasim Coal-Fired Power Project – Rs 210,585.000 million equivalent to US\$ 2.085 billion*

As per agreement between PQA and Port Qasim Power Company (Pvt), Limited Clause F:- PQA and the company desire to enter into Agreement for,(1) granting to the company of leasehold rights over PQA's identified land and seabed for construction and operation of the complex; (2) allowing the Company to construct and operate the Jetty for self-use on BOO(as defined below basis; and (3) issuing the license to abstract and desalinate sea water for the complex. Complex:- means he coal-fired electric power generation station located on the site and Company interconnection Facilities (but excluding the Power Purchaser Interconnection Facilities) having a design capacity of approximately 1320 (620×2) MW (ISO gross) to be designed, engineered, constructed, commissioned, owned, operated and maintained by the company, whether completed or at any stage in its construction, including without limitation or regard to the level of development, engineering and design documents, all energy producing equipment and its auxiliary equipment.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the managment awarded a contract for the project of 2×660 MW Coal Fired Power Plant at PQA on Built Operate Own (BOO) basis directly to M/s. Power China-Al-Mirab Capital in violation of the rules. The following points were observed:

- Management awarded contract on Built Operate Own (BOO) basis instead of Build Operate Transfer (BOT) basis in violation of PQA rules and practice as all other terminals are given in BOT basis.
- Allotment of land was made on 07-08-2015 and at the time of allotment the PDC rate was Rs.10 million per acre but management charged half of PDC on old rates of PDC i.e. Rs.2.50 million per acre which caused loss of PDC of Rs.1,000 million.

- PDC charges of the 200 acre land allotted to the Power plant were reduced to half of rate and the rate of PDC was Rs.5 million per acre which was reduced to Rs.2.50 per acre resulting loss of Rs.50 million (2.50×200=500 million).
- Fast track charges of Rs.0.5 million per acre was not charged by the PQA, which caused further loss of Rs.100 million (200 acre Rs.0.50 per acre).
- The project of 1320 MW was planned to be built, but file did not show the actual production of MW, this indicates just to purchase and hold the precious sea facing land by the foreign company.

Audit is of the view that the management in violation of the rules/policy directly awarded contract for establishment of coal basis plant on BOO basis instead of BOT basis and also extended undue favor to the contractor and received less charges of dues.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the contract was awarded by the Federal Government itself as the project pertained to CPEC. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.2 Placement of funds in violation of investment policy - Rs.73,370.000 million

According to Board Resolution No. 33/2019 dated 15.10.2019 (2) “after placement of 10% of surplus funds, remaining Funds are recommended to be invested in the ratio of 40:60 in AAA and AA rated commercial banks”. As per the Board Resolution No. 60/2020 dated 27.10.2020;

- Funds should be placed at AAA and AA rated Banks but not more than 50% of surplus Funds should be placed in AA rated Banks.
- Not more than 50% of surplus funds placed in one single bank.
- Placement of PQA Funds should not be more than 30% of Equity of any Bank’s /DFI’s.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that contrary to above the management placed surplus funds of Rs 73,370 million for one year. For the safety purpose, PQA Board redrafted its earlier policy of 2019 and approved some changes regarding placement ratio of Funds in AAA and AA banks to mitigate the risk and encouraging the portfolio investment. However, it was observed that the management while placing the Funds deviated from the investment policy and made investment beyond approved ratio.

(Rs.in million)				
Investment period	Approved Sharing Ratio (AAA/AA)	Funds Available for Investment in million	Actual Investment in AAA	Actual Investment in AA
September, 2021	50:50	5,850	5,850 (ABL) (100%)	00
December, 2021	50:50	6,750	6750 (NBP) (100%)	00
April, 2022	50:50	60,740	48,840	11,900

			(Various Banks) (80.4%)	(19.59%)
Total		73,340	61,440	11,900

Audit is of view that the management not only failed to follow the Board's approved investment policy in its letter and spirit but also extended undue favour to the selected banks by placing the Funds in AAA rating banks only.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the investment was made as per PQA investment policy. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.3 Irregular placement of Funds in violation of PQA Investment Policy - Rs.6,500.000 million

As per the Board Resolution No. 60/2020 dated 27.10.2020;

- Funds should be placed at AAA and AA rated Banks but not more than 50% of surplus Funds should be placed in AA rated Banks.
- Not more than 50% of surplus funds placed in one single bank.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that contrary to above, the management placed surplus funds of Rs 6,500 million during the year under review for the period of one year. For the safety purpose, PQA Board redrafted its earlier policy of 2019 and approved some changes regarding placement ratio of Funds in "AAA" and "AA" banks to mitigate the risk and encouraging the portfolio investment. However, it was observed that the management while placing the Funds deviated from the investment policy intact as detailed below;

(Rs.in million)				
Investment period	Approved Sharing Ratio (AAA/AA)	Funds Available for Investment	Actual Investment in AA	Actual Investment in AAA
August, 2021	50:50	6,500	6500 (Askari bank) (100%)	-

Audit is of the view that the management not only failed to follow the Board's approved investment policy in its letter and spirit but also extended undue favour by placing the Funds in AA banks only.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the investment was made as per PQA Investment policy. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.4 Irregular award of contract of manning, repair & maintenance of dredger - Rs.6,059.560 million equivalent to US\$ 35.230 million

Rule 10 (1) of the PPRA,2004 states that the procuring agency shall allow the widest possible competition by defining such specifications that shall not favour any single contractor or supplier nor put others at a disadvantage.

Rule 4 of PPRA Rules, 2004, states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management awarded the contract to M/s China Shipbuilding Trading Company Ltd (CSTC) for manning and repair and maintenance of the dredger (Indus Dolphin, Trailing Suction Hopper Dredger) at US\$ 35.230 million equivalent to Rs 6,059.56 million for the period of 05 years from August/Sep 2021 to August, 2026. Due to specific conditions of experience of dredger-7000 cum and minimum depth 15 meter, only M/s CSTC qualified for tender as this company was already engaged in performing the same services in PQA since 2012, whereas two other local organizations, participated in the bidding and were disqualified due to non-meeting specific conditions of experience.

Audit is of the view that the management ignored Pakistani firms and extended undue favour to M/s CSTC of dredger to continuously awarding the subsequent contracts not only for manning, but also for purchase of spare parts and repair & maintenance from 2012 to 2026. Thus, the contract of US\$ 35.230 million is in violation of rules.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated that the parameters of capacity of dredger and crew experience with regard to minimum dredging depth were based on PQA's actual requirement and firm meets the technical specification of tender. DAC directed the management to get the facts verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.5 Accounting manipulation of outstanding PDC and allied charges – Rs.5,090.840 million

Section 57(1) and (2) of PQA Act, 1973 regarding Audit and accounts.- The accounts of the Authority shall be maintained by the Authority in such form as may be prescribed by the Auditor General of Pakistan consistent with the requirement of the Act. The accounts of the Authority shall be audited by not less than two auditors who are chartered accountants within the meaning of the Chartered Accountants ordinance, 1961 (X of 1961), appointed by the Federal Government in consultation with the Auditor-General of Pakistan, on such remunerations, to be paid by the Authority, as the Federal Government may fix.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the provisional accounts of PQA for the year 2021-22 showed the figure of outstanding amount of Rs 4,011.817 million against PDC and Rs. 1,079.023 million against Allied charges. This outstanding of PDC and allied charges is chronic issue in PQA, which was continuously appearing since 2005-2006 in the annual accounts under the said heads till date, without any major change.

It is important to mention here that the provisional accounts show this figure continuously without change since 2005 to 2022, whereas the annual accounts certified by the chartered accountants up to 2016 show this figure at reduced amount, which means the amount of PDC and allied charges have been recovered, but contrary to that the figure of PDC and allied charges were manipulated in the certified annual

accounts of 2007, which is serious negligence on the part of the management and violation of International Standards on Auditing by the Chartered Accountants. The figure of year 2006 and 2007 are as under:

Certified annual accounts-2006 (Rupees)		
Head of account	2006	2005
(Note-9) Trade debt PDC	4,011,817,767	4,398,974,449
Allied charges	1,079,023,409	1,072,582,969

Certified annual accounts-2007 (Rupees)		
Head of account	2007	2006
(Note-9) Trade debt, PDC	1,029,854,951	282,411,773
Allied charges	1,223,540,243	974,206,186

The above tables indicate that the figures of outstanding amount have been changed in the subsequent year to clear the amount of outstanding of PDC and allied charges from the defaulted allottees. Further, the annual accounts of PQA were not certified from the chartered accountants annually since 2005, however, the same were certified from one chartered accountant for 07, 08 years simultaneously up to year 2016, still annual accounts for 07 years are pending, which is serious negligence on the part of the management. The preparation of accounts on this way raises questions on the authenticity of figures.

Audit is of the view that the management has extended undue favour to the defaulted allottees to conceal the facts in the annual accounts. The above outstanding amount had been piled up to rupees twelve billion in year 2022, as one US dollar was equivalent to Rs 60 in 2006 and Rs 200 in June 2022.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated the matter may be pended as the facts are being verified. DAC directed the management to investigate the matter and share the report with Audit within 02 months.

Audit recommends implementation of the DAC directives.

14.4.4.6 Non-deduction of tax on royalty income – Rs 4,833.522 million

According to section 3(1) of Schedule II, (98.05) of Sindh Sales Tax on Services Act, 2011 provides that the Services provided or rendered by persons authorized to transact business on behalf of others, is taxable @ 13%.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that PQA received Rs.37,180.93 million from the 12 terminal operators on account of royalty services charges during the year 2020-21 and 2021-22. However, the management did not deposit Sindh Sales Tax (SST) of Rs 4,833.522 million @ 13% to the concerned tax authority on the royalty received. PQA deducted the SST on royalty services charges only on terminal operator M/s Huaneng Fuyun Port & Shipping (Pvt.) Ltd. @ of 10% per month as per agreement. The details of royalty income (including opening balance as on 01.07.2021) are under;

(Rs. in million)							
Sr. #	Name of Terminal	Royalty Income (Rs)	SST @ 13%	Sr. #	Name of Terminal	Royalty Income (Rs)	SST @ 13%
1	FOTCO	716.882	93.194	7	(PROGAS/SSGS)	532.433	69.216
2	(PGPL)	1,744.699	226.810	8	(PQEPCPL)	5,538.299	719.978
3	PIBT)	12,958.859	1,684.651	9	(CHCS)	154.488	20.083
4	QICT)	2,850.017	370.502	10	(EETL)	7,698.182	1,000.763
5	QICT-2)	2,048.268	266.274	11	(EVTL)	1,397.206	181.636
6	LCT/FWQ)	248.220	32.268	12	(FAP)	1,293.381	168.139
Total						37,180.939	4,833.522

Audit is of the view that the management failed to deposit the SST to Sindh Sales Tax authority.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the matter is sub-judiced. DAC directed the management to pursue the case properly.

Audit recommends implementation of the DAC directives.

14.4.4.7 Irregular transfer of plots to private parties – Rs 4,334.000 million

Clause 4 of Agreement terms and conditions provides the plot shall be non-transferable to any outsider individual or company and even power of attorney shall not be acceptable. However, the plot can be transfer to a regular Employee of PQA with prior permission of the competent Authority.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that contrary to above the management allotted plots to their employees for the welfare and subsequently transferred 1,086 residential plots valuing Rs. 4,344 million (plots 1,086 x Rs 4,000,000 per plot) to private parties. The details are hereunder:

S#	Category-wise				Total plots Transferred	Period
	200	300	500	1000		
1.	147	72	18	2	239	2022
2.	119	51	19	0	189	2021
3.	64	42	6	2	114	2020
4.	130	57	22	0	209	2019
5.	186	101	45	3	335	2018
Total	646	323	110	7	1,086	

Audit is of the view, that management extended undue favor to the employees for frequent transfer of plots merely on recovering transfer fee.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed the DAC that the Board is competent and resolved to open the transfer of plots to the general public in 2006. DAC directed the management provide the relevant record to Audit for verification.

Audit recommends implementation of the DAC directives.

14.4.4.8 Non-allotment of 1,250 acre of PQA land – Rs 4,000.000 million

Federal Government made following decisions on 13.04.2021:-

- The agreement for lease of 1,250 acres of land between PQA and PTCL, shall be terminated immediately and the entire land be given back to PQA.
- PQA shall reimburse to PTCL any expenditure incurred by the latter on development of the leased land.
- PTCL shall continue to seek alternate land for establishing textile city at some other suitable site.
- Further necessary action shall be taken accordingly to effect implementation of the decision within one month.

Clause-xx of PQA's Land Allotment Policy, 2000 states that in case of failure, the allotment of plot shall be cancelled and 25% of total Peripheral Development Charges shall be forfeited.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management allotted land of 1,250 acres of land to M/s Pakistan Textile City Limited (PTCL) in 2006/2007 for boosting export of textile products. The project could not succeed due to multiple reasons. Subsequently, the matter was discussed in the Cabinet meeting on 13.04.2021. However, management did not implement the decision of the Government even after lapse of 02 years, expenditure of Rs.4,000.00 million was not refunded to PTCL and also the land was not re-allotted.

Audit is of the view that non-implementation of Government decision (non-refunding of expenditure of Rs.4 billion and non-allotment of land compromise PDC charges of Rs.50,000 million (40 million/acre*1,250 acres).

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the land has been cancelled and process of refund of amount is under consideration. DAC directed the management to implement the decision of Government and allot the land as per Policy.

Audit recommends implementation of the DAC directives.

(DP No 176 & 291)

14.4.4.9 Non-insurance of dredger – Rs 3,345.000 million

Section 166 (3) of Insurance Ordinance, 2000 provides that all insurance business relating to any public property, or to any risk or liability appertaining to any public property, shall be placed with the Company (NICL) only and shall not be placed with any other insurer.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management purchased Trailing Suction Hopper Dredger (TSHD) amounting to US \$ 36.95 million equivalent to Rs.3.345 billion under agreement dated 12 November 2012. However, it was observed that the dredger was not insured with M/s National Insurance Company Limited and management awarded contract of manning and maintenance including insurance at US\$ 35.230 million to M/s China Shipbuilding & Trading Company (CSTC), from 2015 to-date.

Audit is of the view that non-insurance and payment of insurance cost of dredger to third party was unjustified and is held irregular in Audit.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the dredger was insured by the Company (M/s CSTC) being operator and management stated that NOC would be obtained from NICL. DAC directed the management to get the dredger insured from NICL.

Audit recommends implementation of the DAC directives.

14.4.4.10 Non vacation of 74 acres of land by a company - Rs. 2,960.000 million

According to Report issued by the representatives of survey of Pakistan along with Nazir of the Court dated 21-03-2019, the land of PQA was encroached by M/s Lucky Electric Power Company (As per item No. 11 of 205 BM dated 21-01-2021).”

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that M/s Lucky Electrical Power Company Ltd (LEPC) encroached 109 acres of land of PQA. Out of this, 35 acres land was allotted as per consent of the parties before High Court of Sindh and remaining 74 acres valuing Rs 2,960.00 million could not be vacated. M/s LEPC got allotment of 250 acres of land from Government of Sindh at Deh Ghangiaro. During demarcation of land, PQA objected the demarcation and claimed that M/s LEPC has encroached 139 acres. Accordingly, PQA filed Suit No. 1917/2017 against LEPC and others in

the high court of Sindh, to cancel the lease agreement dated 22-09-2015 executed in favor of LEPCL to the extent of 139 acres (out of 250 acres comprising seashore and sea itself and within 50 yards of high water mark.) The Court granted stay order on 25-08-2017. Inspection survey was carried out from Survey of Pakistan through Nazir of the Court, which reported 109 acres of land was disputed (report dated 21-03-2019).

However, PQA accepted the offer of M/s LEPCL dated 14.09.2020 for out of court settlement. Out of 109 acres of disputed land, the land of 35 acres only were allotted to LEPCL at the PDC of Rs 40.00 million per acre. (Totaling 1,400.00 million) and PQA surrendered the land of 74 acres equivalent to Rs 2,960.00 million, despite the fact that a consent decree dated 09-06-2021 required that, “upon allotment of 35 acres land from PQA, M/s LEPCL shall vacate entire encroached land of PQA falling under 50 yards of high-water mark including encroached land of M/s Metal Investment Holding Corporation and handover its peaceful possession to Metal Investment and PQA without further delay”. However, the land was not vacated

Audit is of the view that non vacation of the land caused a loss of Rs. 2,960.00 million (Rs 40.00m/per acres x 74 acres).

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that land has been retained from the Company. DAC directed the management to arrange survey from Survey of Pakistan to confirm its actual occupancy.

Audit recommends implementation of the DAC directives.

14.4.4.11 Manning of foreign nationals on Pakistani Dredger in violation Merchant Marine Policy- Rs 2,444.310 million equivalent to US\$ 14.211 million

As per Clause 10(i) of Merchant Marine Policy 2001 states that Ships and other floating crafts including tugs, dredgers, survey vessels and other specialized crafts flying the Pakistan flag shall normally be manned by Pakistani nationals. However, in the event where no qualified or suitable Pakistani national is available for any particular job a non-Pakistani national can be employed.

Clause 14 of the contract between PQA & M/s CSTC stipulates that “the contractor will impart training (if required) to Pakistani crew during the contract period up to the level that crew could be able to operate the dredger independently.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was found that the management awarded the contract to M/s China Shipbuilding Trading Company Ltd (CSTC) for manning of the dredger (Indus Dolphin, Trailing Suction Hopper Dredger) at Rs 2,444.310 million for the period of 05 years from August 2021 to August 2026. M/s CSTC deployed foreign nationals on the Pakistani dredger of PQA, in violation of above marine policy.

As per above policy, PQA had to arrange the national human resource for running this Pakistani flagged dredger, but the management handed over this one to the foreign nationals. To avoid violation of marine policy, DG operation initiated the note to DG (Admin) for hiring of Pakistani nationals (Human

Resource) on 13-01-2021 well before 08 months from the date of expiry of the contract instead of letting the dredger to foreign crew and suggested that this would not only avoid violation of Marine Policy, but also save the foreign exchange. The HR and Admin department showed their reluctance to accept the proposal of DG (Operations) and continued to award the contract to the same contractor from whom the dredger was purchased some 10 years ago and was running the dredger with manning, repair & maintenance. Total cost of the award of contract for 05 years is Rs 6.00 billion, and such equivalent amount has been paid to the contractor from 2015 to 2021, which is almost the four times higher than the purchase price of the dredger.

It was further observed that there was an agreement with M/s CSTC in 2012 on imparting training to Pakistani nationals for running the dredger at its own within the period of contract of 03 years, but after lapse of more than 10 years, the management could not materialize imparting training to the local crew.

Audit is of the view that even after passage of 10 years of purchase of the ship (dredger) has neither trained the local crew nor has arranged local man power. This reflected negligence and non-efficient handling of the matters. Thus, the award of contract of manning of US\$ 14.211 million (Equivalent to Rs 2,444.310 million) to the foreign company/crew instead of National crew is irregular and unjustified.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that marine operation is a specialized domain for which expertise is not readily available due to which foreign crew was hired. DAC directed the management to intimated time schedule for training of locals and submit revised reply.

Audit recommends implementation of the DAC directives.

14.4.4.12 Loss of PDC income due to conversion of plots from warehouse into CFS/Industries – Rs 2,065.000 million

Section 10 of PQA Act 1978 states that the Authority shall prepare a master-plan and a phased master-programme for the development of the Port area and the plan and programme shall be submitted to the Federal Government for approval.

As per para xx and xxv of Land Allotment Policy, 2005:-

Commission of the proposed unit within the time specified in case of failure, the allotment of plot shall be cancelled and 25% of total Peripheral Development Charges shall be forfeited. The allotment of plot shall be cancelled and 10% of total PDCs of whole plot area shall be forfeited against PQA administrative charges and also annual land rent will be charged for the period the plot is retained by you.

During audit/special study of Port Qasim Authority (PQA) for the years 2017-18 to 20221-22, it was observed that the management converted warehouses and CFS to Industries through DG P&D summary to Board 216th meeting held on 08-02-2022. The management received only outstanding charges instead of cancelling the plots and re-allotment of the same on prevalent charges. Thus PQA sustained loss of PDC charges of Rs 2,065 million.

Audit is of the view that the management in violation of the act allowed conversion of allottees/transferee which is showing mismanagement for handling of the P&D Division.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated that no loss incurred from conversion of plots. DAC recommended the management to get the record verified from Audit. Audit recommends the management to conduct inquiry on conversion of plots and subsequent loss.

Audit recommends implementation of the DAC directives.

14.4.4.13 Non-payment of royalty charges on import of LNG - US\$ 11.125 million equivalent to Rs 2,025.923 million

As per Schedule 13 of the Implementation Agreement, 2007 between Port Qasim Authority and M/s Pakistan Gas Port Limited (PGPL), M/s PGPL had to pay the royalty charges as under:

1-5 years	6-10 years	11-15 years	16-20 years	21-25 years	26-30 years
US\$/Tonn	US\$/Tonn	US\$/Tonn	US\$/Tonn	US\$/Tonn	US\$/Tonn
1.90	2.375	3.325	4.090	4.855	5.624

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was noted that M/s Pakistan Gas Port Limited (PGPL) operated LNG terminal since 2011. However, the company did not deposit the royalty of the LNG imported during the period under review. The detail is as under:

Period	No of ships	Quantity imported (M.Tonn) (cm/2.18)	Royalty US\$/tonn	Amount in US\$	Rs rate against US\$ in June	Amount Rs in million
July,21 to June 22	51	3,416,083	1.90	6,490,559	204	1,298.11
Nov, 20 to June 15, 21	41	2,439,872	1.90	4,635,756	157	727.813
Total	92	5,855,955	1.90	11,126,315		2,025.923

Audit is of the view non-payment of royalty charges on import of LNG caused to the Port Authority of US\$ 11.125 million equivalent to Rs. 2,025.923 million.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed the DAC that efforts are being made to recover the amount. DAC directed the management to expedite the efforts for early recover.

Audit recommends implementation of the DAC directives.

**14.4.4.14 Non-deduction of Sales Tax and Income Tax on Services of manning contract—
Rs 1,755.260 million equivalent to US\$ 11.18 million**

According to the agreement between PQA and M/s China Shipbuilding Trading Company Ltd (CSTC) 2016, all types of taxes including income tax and sales tax was to be paid by the employer (PQA).

According to the Section 3(1) of Sindh Sales Tax on Services Act-2011, service provided by person engaged in contractual execution of work or furnishing supplies is taxable @ 13%.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management awarded contract to M/s China Shipbuilding Trading Company Ltd (CSTC) for manning of the dredger (Indus Dolphin, Trailing Suction Hopper Dredger) at US\$ 31.00 million for 05 years from @ 2016 to 2021 and at US\$ 35.23 million for the period of 05 years from August 2021 to August 2026.

The bidder had quoted US\$ 31.00 million without tax and US\$ 42.18 million with Tax. PQA accepted the option without tax and PQA itself had to deposit the income and sales tax under contract of 2016 and US\$ 35.23 million excluding sales tax of US\$ 4.932 million (Rs 848.304 million) and all other taxes. However, the file did not show that income tax and sales tax amount was deposited with the Tax Authorities. Thus, the income tax and sales tax of US\$ 11.18 million (equivalent to Rs 1,755.26 million @ Rs 157 in June 2021 x US\$ 11.18m) was not paid to the tax authorities for the contract from 2016 to 2021 and sales tax of US\$ 4.923 million (848.304 million) and income tax US\$ 4.403 million (Rs 757.316 million) @12.5 % of income under the contact from 2021 to 2026 was not being paid to the tax authorities as no evidence of tax payment was available in the file, which caused loss to the national exchequer.

Audit is of view that management extended undue favour to the contractor by agreeing to pay the taxes on his behalf to the tax authorities, which was not also deposited.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the matter was sub-judice. DAC directed the management to pursue the case properly.

Audit recommends implementation of the DAC directives.

14.4.4.15 Irregular award of contract for repair work of tugs and boats –Rs 1,714.290 million

Rule 12(2)of PPRA, 2004 states that all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

Rules 16A (1) of PPRA, 2004 states that the procuring Agency shall arrange the procurement through framework agreements of recurrent or common use items, services including maintenance services and those commodities, whose market prices fluctuate during the term of the agreement, for a maximum period of three years. (2) The procuring agency shall prepare provisional annual estimates including description, specifications, statement of requirements and quantities, based on rational demand estimates.

(3) Based on such estimate, procuring agency shall initiate the prequalification proceedings for selection of suppliers and service providers.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management incurred heavy expenditure of Rs1,714.290 million on repair and maintenance of tugs and boats during the period under review. The management was required to publish open advertisement in the newspapers and if the common use of items and maintenance services, the Rule 16A was needed to be followed, but the management neither observed the open tendering process nor prequalification of bidders for the repair and maintenance services of the Tugs and boats, which is a violation of the PPRA-2004.

The above position indicates that the management was not following the rules in true letter and spirit to avail the competitive rates from the market. Thus, expenditure of Rs 1,714.290 million incurred on account of repair and maintenance without observing PPRA Rules,2004 is held irregular and unjustified.

Audit is of the view that the management was extending undue favour to few contractors by getting the work done from them without inviting competitive rates from the market.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. Management stated that repair work was assigned to the contractors after fulfilment of codal formalities. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.16 Irregular award of conventional twin screw buoy tender contract- Rs.1,671.522 million equivalent to US \$ 9.149 million

Section IV, para 04 on “Technical Evaluation Criteria” of Tender document states that for qualifying technically minimum marks are required to be required in Each Category and overall of minimum 60 marks. Category C provides;

Category	General Experience of Supplier of One (01) Conventional Twin Screw buoy tender	Min Marks	Max marks
C	<ul style="list-style-type: none"> Min 5.0 years’ experience of construction of conventional twin screw vessel of LOA=40 meters and above. (All weather sea going class), 05 points for 05 years and for each additional year 1.0 point. 	05	10
	<ul style="list-style-type: none"> Construction of at least (03) Twin Crew Buoy Tender vessel or 3 twin screw supply vessel of LOA=40 meters or above 15 points and for every additional twin screw vessel of LOA=40 meters or above shall earn 05 points. 	15	25
	<ul style="list-style-type: none"> Construction of at least two 12 knots speed Twin Screw Conventional vessels of LOA=40 meters or above. 	10	15
	Total points/Marks	30	50

Rule 48 (2) of PPRA Rules, 2004 states that any party may file its written complaint against the eligibility parameters, evaluation criteria or any other terms and conditions prescribed in the bidding

documents if found contrary to the provisions of the procurement regulatory framework, and the same shall be addressed by the Grievance Redressal Committee (GRC) well before the proposal submission deadline. (4) In case, the complaint is filed against the technical evaluation report, the GRC shall suspend the procurement proceedings.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management floated advertisement for the supply / construction of one conventional twin screw Buoy vessel on 13.12.2020. Three firms M/s Med Marine, M/s P.T Dumas and M/s Daymen Shipyard were technically qualified by the technical Evaluation Committee on 15.10.2021 whereas financial bids were opened on 22.10.2021. M/s Med Marine being the lowest bidder was awarded the contract of new supply / construction of one conventional twin screw Buoy tender at the cost of US\$ 9.149 million. As per Technical evaluation report, M/s Med Marine secured overall 83% marks while in category C obtained 36 marks against minimum 30 marks. The Report was uploaded on PPRA website on 03.11.2021. The bidding documents revealed that M/s Med Marine was representing Eregli Shipyard of Turkey.

Moreover, it was noticed that one of the technically qualified bidder M/s P.T Dumas lodged complaint on 01.11.2021 and raised objection that M/s Med Marine through Eregli Shipyard Turkey has never built a Buoy Tender/Supply Vessel so far while the shipyard (Eregli) has produced lots of sea chemical tankers, tugs and pilot boats that are neither classified nor equivalent to Buoy Tender/Supply Vessel. As legally none of Eregli Shipyard products fall in the category of Buoy Tender so the shipyard does not meet the above mentioned technical criteria and should be given zero (0) marks in reference (i) and (ii).

Resultantly, the management constituted a Grievances Committee (GRC) to recheck the evaluation Criteria on the complaint of M/s P.T Dumas on 08.12.2021 with direction to submit the report within 15 days i.e.23.12.2021. However, it was noticed that the management issued orders of abolition of the GRC vide letter No. PQA/Marine Ops/Conservancy/2021 dated 28.02.2021 without submitting any report on the complaint. Besides, no justification of the GRC abolition was recorded in the file.

Audit is of the view that the management extended undue favour to M/s Med Marine and awarded the contract of US\$ 9.149 million equivalent to Rs. 1671.522 million) in violation of the rule 48 of PPRA 2004. Besides, abolishing GRC without its proper disposal and justification raises serious questions on the management and the undue favour given by technical evaluation committee to M/s Med Marine, a technical non-qualified bidder, cannot be ruled out.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated that as per specification, bidder was qualified and accordingly contract was assigned. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.17 Non-recovery of liquidated damages, wharfage and other charges – Rs 1,155.495 million

According to Schedule 18 of the Implementation Agreement dated October 10, 2016 between Port Qasim Authority and M/s. Huaneng Fuyun Port & Shipping (Pvt) Ltd (HFP), M/s. HFP had to pay the charges of land lease, annual maintenance charges, royalty, etc. to PQA.

During audit of Port Qasim Authority (PQA) for the year 2021-22, following irregularities were observed in case of M/s Huaneng Fuyun Port & Shipping (Pvt) Ltd;

1. Company operating at Marginal Wharf-3 & 4, and the amount of wharfage/other dues were not recovered in accordance with the agreement.

S#	Description	Period	Amount (Rs)
1.	Wharfage charges	2019-20	62.641
2.	Land rent & maintenance	Upto May, 2021	381.329
3.	Portable water	Upto April, 2021	0.633
4.	Liquidated Damages	June, 2020	543.500
Total			988.103

Furthermore, M/s Huaneng Fuyun Port & Shipping (Pvt.) Ltd, a company operating at Marginal Wharves - 3 & 4, requested for dredging services at Marginal Wharf, which was done by the PQA through the dredger Dolphin in 2020 worth Rs.167.392 million. However, the same were not paid by the company.

Audit is of the view that the management failed to enforce the contract which reflected controlled weakness.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the company is reluctant to pay the dues. DAC directed the management to pursue the case for recovery of outstanding amount from the Company.

Audit recommends implementation of the DAC directives.

(DP No.179 & 195)

14.4.4.18 Loss due to non-fulfilment of obligation on maintaining the channel at minimum required level – Rs.986.845 million

According to Clause-4.3(b)(ii)(a) of the Implementation Agreement with M/s. Qasim International Container Terminal dated August 17, 2006, PQA shall ensure a minimum draught of 13 meters available at all time. Within two years from the date of commercial operations, PQA shall ensure a minimum draught

of 14 meters, Failure by PQA to provide and maintain draught shall entitle QICT to reduce Royalty by US\$ 2.00 per Move till achievement of the target.

During audit of Port Qasim Authority (PQA) for the year 2021-22, following irregularities were observed;

1. M/s Qasim International Container Terminal (QICT) established container terminal at Port Qasim on Build, Operate and Transfer (BOT) basis under agreement dated August 17, 2006. However, PQA failed to dredge the minimum draught even after lapse of more than sixteen years of the agreement. This resulted into paying royalty at reduced rate of \$2.00 per container. The detail is as under:

QICT	Tues (Container)	Royalty to be received @ US\$ 9.00	Royalty received @ US\$ 7.00	Difference US\$	Loss (Rs)
1	567,856	5,110,704	3,974,992	1,135,712	227,142,400
2	787,731	7,089,579	5,514,117	1,575,462	315,092,400
Total	1,355,587	12,200,283	9,489,109	2,711,174	542,234,800

2. Further, management failed to provide minimum 14.5 meters of draught level under the agreement with M/s Fauji Akbar Portia (FAP). As a result, the company paid the royalty to PQA at reduced rate of US\$ 0.10 per metric ton from US\$0.65. Thus, M/s FAP refused to pay an amount of Rs.139.005 million and claimed from PQA further to return an amount of Rs.55.535 million paid in excess of amount, totaling Rs.194.54 million to be borne as loss to PQA.

3. M/s HR Wallingford & M/s Techno-Consultant International Pvt. Ltd (Joint Venture), submitted its feasibility report amounting to US\$ 268.07 million (reflecting cost of dredging on a to c options) in February, 2020, for deepening, widening & straightening of the existing navigational channel, commissioning of alternate inner navigation channel and supervision of capital dredging work. The feasibility study was submitted to the Ministry for Federal Government approval in March, 2020.

Audit is of the view that non-fulfilment of obligation on maintaining the channel at minimum required level caused recurring loss to PQA.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the implementation of

dredging project is dependent upon approval from MOMA/Federal Government. DAC directed the management to pursue the case for early approval of Federal Government.

Audit recommends implementation of the DAC directives.

(DP No. 197 & 238)

14.4.4.19 Irregular award of contracts of civil maintenance in violation of PPRA - Rs.760.000 million

Rule 16A of PPRA Rules, 2004 provides; (1) The Procuring Agency shall arrange the procurement through framework agreements of recurrent or common use items, services including maintenance services and those commodities, whose market prices fluctuate during the term of the agreement, for a maximum period of three years. (2) The procuring agency shall prepare provisional annual estimates including description, specifications, statement of requirements and quantities, based on rational demand estimates. (3) Based on such estimate, procuring agency shall initiate the prequalification proceedings for selection of suppliers and service providers.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management awarded the annual maintenance contracts of various works / services carried out by Civil and Maintenance Department of amounting to Rs.760 million in violation of above rule. The contracts were of the recurring maintenance nature and were awarded without conducting prequalification proceedings for selection of suppliers and service providers. The details are as under;

(Rs in million)			
Sr #	Name of annual maintenance Service contract	Name of Contractor	Amount
1	PQA Housing Complex	M/s Allied Business	80.00
2	PQA Roads Networks & Bridges EIZ	M/s KA & Brothers	150.00
3	Building and offices	M/s Indusmen & Co.	80.00
4	PQA Roads Networks & Bridges SWIZ	M/s Hassan & Co	150.00
5	contract of NWIZ	M/s Gulzari Associates	200.00
6	PQA Marine Structure	M/s Indusmen & Co.	100.00
Total			760.00

Audit is of the view that the award of annual maintenance contracts without prequalification process and proceedings makes all the contracts irregular.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. Management stated that the contract was awarded to the qualified bidders participated in bidding after tender. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.20 Loss due to charging less rate of royalty and non-recovery Rs.406.379 million

As per schedule 13 of the agreement between Port Qasim Authority and Pakistan International Bulk Terminal (Pvt) Ltd dated November 06, 2010, the rate of royalty was required to be paid by the Company (PIBT) as under:

S#	Years	Rate/per ton	S.No.	Years	Rate/per ton
1.	1-5	US\$ 2.27	5.	22-26	US\$ 2.7591
2.	6-11	US\$ 2.3835	6.	27-31	US\$ 2.8971
3.	12-16	US\$ 2.5026	7.	32	US\$ 3.0420
4.	17-21	US\$ 2.6278			

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management awarded the contract of coal and clinker/ cement terminal to M/s Pakistan International Bulk Terminal (Pvt) Ltd on Build Operate and Transfer (B.O.T) basis. The company was required to pay the above charges on account of royalty on per ton of coal and clinker/ cement, but the management charged the rate of royalty less than required in the subsequent years. The detail is hereunder:

Month	Quantity (M.Ton)	Royalty charged (US\$/Ton)	Royalty to be charged (US\$/Ton)	Difference (US\$/Ton)	Loss (US\$/Ton)
July – June 2021-22	8,114,641	2.27	2.5026	0.2326	1,887,465

This caused loss of US\$ 1.887 million equivalent to Rs.349.181 million (US\$ 1,887,465 x Rs.185) during 2021-22. Besides, PQA did not charge the first enhanced rate of US\$ 2.3835 per ton from 6th year of the contract and onwards, which needed to be calculated and recovered from the company.

It was further observed that due amount for the month of May and June, 2022 amounting to US\$ 309,179 equivalent to Rs.57.198 million was not received from the above Company.

Audit is of the view that charging of less rate of royalty and non-recovery caused loss to the Authority amounting to Rs.406.379 million.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated that the royalty was charged as per Implementation agreed and from the date of commencement of business and the outstanding amount was received. DAC recommended the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.21 Loss due to charging less than approved rate of wharfage to terminal operator – Rs.259.760 million

Article 6.2 of tariff agreement dated July 25, 1995, with M/s Qasim International Container Terminal (QICT) states that QICT will pay to PQA wharfage charges @ Rs. 400 per TEU (Container) handled on a weekly basis. Such payment will be subject to proportionate revision by PQA as and when the wharfage charges are altered or revised and are so notified by the Government.

As per Gazette notification dated June 17, 2010, the rates of wharfage were revised to Rs. 620 per TEU and Rs. 1,240 per FEU by the Government of Pakistan.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management charged less rate of wharfage to QICT, a terminal operator, than the rate approved in Gazette. The detail is given as under:

QICT	No. of TEUs (Containers)	Wharfage chargeable @ Rs. 620	Wharfage charged @ Rs. 440	Difference (Rs.) loss
1	567,856	352,070,720	249,856,640	102,214,080
2	787,731	504,148,479	346,602,079	157,546,399
Total	1,355,587	856,219,199	596,458,719	259,760,479

Audit is of the view that the management extended undue favour to QICT and charged wharfage rate of 1995 instead of wharfage rates of 2010 (which also needed revision as the rupee devalued significantly against dollar). Thus, PQA sustained a loss of Rs.259.760 million.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the wharfage is charged as per implementation agreement from the date of commencement of the operation. DAC directed the management to provide the relevant record to Audit for verification.

Audit recommends implementation of the DAC directives.

14.4.4.22 Enlistment of hospitals without competitive bidding – Rs.222.491 million

Rule 16A (1) of PPRA Rules, 2004 provides that the Procuring Agency shall arrange the procurement through framework agreements of recurrent or common use items, services including maintenance services and those commodities, whose market prices fluctuate during the term of the agreement, for a maximum period of three years.

Rule 20 of the PPRA Rules, 2004 states that save as otherwise provided hereinafter, the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that PQA paid an amount of Rs 222.491 million to 18 enlisted hospitals after the approvals of the Medical Committee. However, it was observed that the Authority enlisted the hospitals without any formal agreement without any competitive bidding.

Audit is of view that the management deprived the organization of competitive advantages of bidding process in violation of PPRA. Thus, the payment of Rs.222.491 million is held irregular.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed the DAC that the hospitals have

been enlisted as per PQA medical policy approved by the Board. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.23 Un-authorized conversion from Warehouse to Industry and subsequent loss on account of PDC charges – Rs.179.800 million

Section 10 of PQA Act, 1973 states that the Authority shall prepare a Master Plan and a Phased Master Programme for the development of the Port area and the plan and programme shall be submitted to the Federal Government for approval.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the Board through resolution on 16.10.2021 approved conversion (change of category) of following five allottees from Warehouse and Container Freight Station (CFS) to Industry without approval of the Federal Government i.e. Cabinet.

S#	Name Allottee/Transferee	Date of Application	Plot No.	Area	Zone
1	Mrs. Atiya Anis Hussain	17.01.2020	W2/8	02 Acres	NWIZ
2	Mr. Pirbhu Lal	05.10.2021	W1/13	01 Acre	EIZ
3	Mr. Nawal Behrumal	07.10.2021	W1/B/62	01 Acre	EIZ
4	Mr. Raja Asser Mal & Anil Kumar	27.09.2021	A-14	05 Acre	EIZ

The change of category was effected directly through the Board resolution without any recommendation of the same from PQA Planning & Development (P&D) Committee. Such change in category resulted into loss of Rs.179.800 million on account of difference in Peripheral Development Charges (PDC) leviable on North Western Industrial Zone (NWIZ) and Eastern Industrial Zone (EIZ). The details are as under;

(Amount in Rs.)					
Zone	Acres	Warehouse /acre	Industrial /acre	Difference in rate per acre	Loss
EIZ	7	40,000,000	30,000,000	10,000,000	70,000,000
NWIZ	5.49	60,000,000	40,000,000	20,000,000	109,800,000
Total Loss					179,800,000

Audit is of the view that change of category from warehouse and CFS to industry without prior approval of Federal Government and P&D Committee was in violation of PQA Master Plan, unjustified and irregular in Audit.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that conversion of plots were approved by the Board as allowed by the Ministry of Maritime. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.24 Irregular appointment of employees – Rs.136.000 million

According to Rule 8 of PQA Employees Service Regulations, 2011, all vacancies to be filled in by initial recruitment shall be on merit, advertised in leading national and local newspapers, in light of chapter-V of PQA Act, 1973, as amended from time to time.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that only 59 new employees were appointed during the Year 2021-22 on contract/regular/daily wages basis. However, while scrutiny of the Payroll it was observed that management opened 135 new ID's / recruited new employees instead of 59 employees during the Year 2021-22 on contract/regular basis. The non-provision of appointment files indicates that the appointments have been made without completion of codal formalities such as advertisement, qualification age, regional quota, sanctioned strength etc. thus, the expenditure on account of salary of Rs.136.000 million is held irregular and unjustified.

Audit is of the view that the management has violated the recruitment rules which resulted into extra financial burden and avoided open merit.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed the DAC that the 118 employees were mariners from Pakistan Navy working on deputation. DAC directed the management to provide appointment files and other record to Audit for verification.

Audit recommends implementation of the DAC directives.

14.4.4.25 Non-accountal of electricity units – Rs.122.037 million

As per para viii of general lease agreement conditions, the allottee will be required to pay services Charges i.e. water& electricity etc. on the basis of billing direct to the M&E/Civil maintenance Department, in the case of default the services will be discontinued without notice.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that there was non-accountal of electricity units amounting to Rs. 122.037 million during the year 2021-22 (**Annex-90**).

Audit is of the view that the management failed to account for the electricity units billed from K-Electric whereas short billing to its allottees /consumers on account of electricity charges consumption cannot be ruled out.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. Management stated that the consumers are billed as per agreement and no short billing is made. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.26 Irregular waiver of PDC charges - Rs.81.250 million

As per PQA Land Allotment Policy 2005:- Clause:-iv (a) The Peripheral Development Charges (PDCs) for different categories of land allotments shall be as follows:

a. South west Industrial Zone (SWIZ) - Rs.5.00 million / acre.

During audit of Port Qasim Authority (PQA) for the years 2021-22, it was observed that the PQA allotted land in half PDC in violation of the above stated rules. Furthermore, management initially allotted

land measuring 10 acres in South West Industrial Zone (SWIZ) to M/s. Marine Dynamics (Pvt), Ltd for establishing warehouse business at a rate of Rs.2.5 million per acre whereas the rate of PDC but the rate was Rs.5.00 million per acre and management extended undue favor and issued allotment letter on 29-06-2012.

Moreover, Board rectified the earlier decision and its 151st meeting held on 7th February, 2013. The land allotted vide above referred BRs fall within the boundaries of bonded warehouse/backup area of south western zone where the PDC charges are 6.5 million instead of 5.00 million per acre as mentioned mistakenly. Therefore, as per approved policy i.e. half of the PDC, the rate per acre comes to Rs 3,250,000 and not Rs.2,50,0000/- as mentioned in the subject resolutions. Board after necessary discussion the BRs on rectification approved as the Board approved both allotments that comes to an area measuring twenty five (25) acres in total to M/s. Marine Dynamic (Pvt), Ltd in South Western Industrial Zone for the establishment of Bonded Warehouse facility @ Rs. 3,250,000 per acre being occupancy value.

Audit is of the view that management in violation of the rules/policy directly allotted plot measuring 10 acres but later on 15 acres were also allotted and total 25 acres was allotted on lower rates and charged half of the PDC instead of actual which resulted loss of Rs. 81.250 million (25 acres×3.250 million per acre) to PQA.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed the DAC that the same para has already been discussed in PAC and PAC settled the para. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.27 Failure in charging outer anchorage charges from various ships - Rs.77.165 million

As per general note 0405, Gazette of Pakistan June 17, 2010, states that these charges apply to vessels using Port Qasim's Outer Anchorage area and approaches and are levied as per 0406.

0406: Rates:

• Vessels using anchorage area Outer anchorage and approaches	US\$ 0.013 per GRT per day or part thereof.
---	---

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that numerous vessels anchored at outer anchorage for many days. The management of PQA had to charge outer anchorage fees from the ships waiting for berth on the respective jetties of PQA terminals. Some instances are given below and rest of examples is attached but no outer anchorage fees was charged from the ship owners, which is violation of above Gazette notification of the Government of Pakistan.

S#	Name of Ship	Rate per GRT	GRT	Total PKR	Date of Outer Anchorage	Berthing Date	Dates Difference	Arrived late but Birthed first	Remarks
	01	02	03	04	05	06	07	08	09
01	M.T- AFRA LAUREL	0.013	57567.00	8,026,755	13/11/21	23/12/2021	40	17	It has been noticed that many

02	M.T- ATLANTIS	0.013	55898.00	5,188,452	14/10/21	18/11/2021	35	08	ships already waiting at outer anchorage for birthing but ships that notified in column 08 were arrived late and berthed earlier.
03	M.T- QIU CHI		30456.00	2,261,540	23/01/22	21/02/2022	29	08	
04	M.T- FAROS	0.013	42443	2,813,970	05/09/21	30/09/2021	25	04	
05	M.T- NORD NEPTUN	0.013	42432	2,250,593	06/09/21	26/09/2021	20	01	
06	M.T- MARVEL	0.013	24066	1,212,637	20/08/21	08/09/2021	19	02	
07	M.T- SANMAR SONGBIRD	0.013	28517	1,210,033	01/09/21	17/09/2021	16	01	
08	M.T- PACIFIC DIAMOND	0.013	28778	1,144,788	02/08/21	17/08/2021	15	01	
09	M.T- CHEMTRANS ARCTIC	0.013	41994	1,670,521	31/07/21	15/08/2021	15	02	
10	M.T- JAG LAVANYA	0.013	58374.00	2,167,309	04/06/22	18/06/2022	14	04	
11	M.T- PRESTIGIOUS	0.013	40037	1,486,493	22/07/21	05/08/2021	14	02	
12	M.T- SEA TIGER	0.013	52512	1,949,665	25/07/21	08/08/2021	14	01	
13	M.T- SCF DON		29967	953,669	29/06/21	11/07/2021	12	03	

Total Amount of above table in Rs. 32,336,425/- Total of 209 other cases of anchorage charges Rs. 44,829,110/-Grand Total: 77,165,535/-

The examination of the records provides evidence of significant instances of malpractice within the Port Qasim Authority (PQA). It seems that the management, in a calculated manner, engaged in biased conduct by bestowing unjustified privileges upon vessels that arrived subsequently, yet was granted berthing priority over vessels that had already anchored. This illuminates a troubling trend of favoritism and unethical practices that permeate the operational framework of the PQA. Such a neglect of fairness and impartiality impacts merit system of evaluation.

Audit is of the view that the management extended undue favor to the ships arrived late, but berthed before the ships already waiting at PQA outer anchorage to be berthed. Further, the management also extended favor to the ships waiting at outer anchorage by not charging anchorage fees, resulting loss of Rs. 77.165 million to the PQA.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated that the outer anchorage is liable to be charged from the ships waiting for their turn. DAC directed the management to provide the record to audit for verification.

Audit recommends implementation of the DAC directives.

14.4.4.28 Failure to pay royalty charges on import of coal - Rs.66.315 million equivalent

to US\$. 343,873

As per schedule 10 of the implementation of the agreement dated 22 April, 2015, M/s Port Qasim Electric Power Co. Ltd had to pay the royalty charges as under:

1-5 years	6-11 years	12-16 years	17-21 years	22-26 years	27-31 years	32-36 years	37-41 years	42-46 years	47-50 years
US\$/Tonn	US\$/Tonn	US\$/Tonn	US\$/Tonn	US\$/Tonn	US\$/Tonn	US\$/Tonn	US\$/Tonn	US\$/Tonn	US\$/Tonn
2.27	2.38	2.50	2.62	2.76	2.90	3.04	3.19	3.35	3.52

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that M/s Port Qasim Electric Power Co. Ltd conducting its operations since April 22, 2015. However, the management is currently receiving outdated rates of 2.27 per MT, whereas as per agreement, the rate per MT from 6-11 years entitled for the company is 2.38 per MT. The details are as under:

Period	No. of Ships	Quantity imported (M.Tonn)	Royalty US\$/Tonn	Amount in US\$	Rate of US\$ in June	Amount in Rs.
July 21 to June 22	61	3,126,114	2.38	7,440,151	192.85	1,434.83
OLD RATE OF ROYALTY CHARGES						
July 21 to June 22	61	3,126,114	2.27	7,096,278	192.85	1,368.51
Difference				343,873		66

Thus, the company did not fulfill its obligation to deposit the royalty amount of US\$.343,873/- equivalent to Rs. 66.315 million, from July 2021 to June 2022.

Audit is of the view that the management extended favor to the company, resulting in the accumulation of loss of Rs. 66.315 million. This reflected weak revenue collection.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the royalty is charged as per implementation agreement from the date of commencement of the operation. DAC directed the management to provide the relevant record to Audit for verification.

Audit recommends implementation of the DAC directives.

14.4.4.29 Irregular award of hiring of firefighting Services – Rs.62.706 million

Rule 4 of PPRA Rules, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that management floated tender for hiring of firefighting services (manpower viz. 59 Fireman, 08 HTV drivers and 03 LTV drivers) on 01.11.2021. Three bidders were technically qualified whereas M/s Elite Services, a sole proprietor, was awarded the contract at Rs.5,225,516/- per month on 28.03.2022. However, the record

reflected that M/s. Elite Services did not quote the financial rates of any item of schedule instead crossed the same page of submitted bidding documents. While a separate paper of “Schedule / BOQ-A” of the schedule rates were submitted by the bidder for financial evaluation.

Moreover, PQA Legal Department rose following observations on the award of the contract to M/s Elite Services;

- Outsourcing was to be from firefighting companies however, M/s Elite was sole proprietor.
- Profile of the bidder in bid showed that area of operation and ability of the firm was “janitorial services” which was evident from the Tax payer online verification document.
- Evaluation criteria showed the bidder should have four years “similar nature of contract experience” which was not justified from the available bidding documents.
- The bidder was generously evaluated by getting more marks.
- Recommended the case for re-examination / reevaluation to Evaluation Committee.

Audit is of the view that award of work without quoting of rates against BOQ items and by neglecting observations of legal department reflected that procurement was not fair/not transparent.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed the DAC that qualified manning was arranged from service provider. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.30 Loss of interest income due to placement of funds with 2nd highest offered rate - Rs.57.375 million

As per Board Resolution No. 60/2020 dated 27.10.2020;

- Funds should be placed at AAA and AA rated Banks but the same may not be more than 50% of surplus Funds should be placed in AA rated Banks.
- Not more than 50% of surplus funds placed in one single bank.
- All investment should be at KIBOR (+/-) rate.
- Placement of PQA Funds should not be more than 30% of Equity of any Bank’s /DFI’s.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that management placed surplus funds of Rs 6,750 million with NBP @ KIBOR plus base rate (10.62%) for the period of one year. The Samba Bank offered highest rate KIBOR plus base rate (11.47%) to PQA for the same investment made in December 2021. However, it was observed that management placed all funds in NBP and ignored the highest offered rate which resulted into loss of interest income amounting to Rs 57.375 million to PQA. The details are as under;

Investment Period	Funds Available for Investment in million	KIBOR offered rate by NBP	KIBOR offered rate by Samba Bank	% of Funds against 30% Equity NBP	% of Funds against 30% Equity Samba Bank	Loss due to difference of rate (10.62-11.47 =0.85)
December, 2021	6,750	10.62	11.47	51%	39%	57.375

Audit is of the view that the management extended undue favour to NBP which resulted into loss of interest income amounting to Rs 57.375 million to the Authority.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed the DAC the Samba Bank was at the verge of closing business due to which, investment was made with 2nd lowest bidder. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.31 Loss due to late delivery of 02 pilot boats - Rs.53.040 million equivalent to US\$ 260,000

As per terms and conditions of agreement, M/s Sanmar Denizcilik Makina Ve Ticaret as Istanbul, Turkey dated 24-03-2021 had to execute the delivery or supply of pilot boats within a time frame of 09 months.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that management imported 2 pilot boats from M/s Sanmar Denizcilik Makina Ve Ticaret as Istanbul, Turkey. The (LC) was opened on 08-04-2021, whereas, the company delivered the pilot boats on 03-02-2022, after lapse of 26 days. Consequently, the management should have received penalty charges amounting to US\$.10,000 per day. The total penalty amount for the 26 days delay is US\$.260,000 (equivalent to Rs.53.040 million). However, the management failed to recover the aforementioned amount.

Audit is of the view that non-receiving of late delivery charges reflected negligence of the management.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated that these boats were delivered within stipulated time as mentioned in the agreement and after opening of LC. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.32 Non-imposition of Liquidity Damages charges – Rs.39.862 million

As per clause 47.1 of condition of contract on Liquidated Damages (LD), "...maximum 10% of contract price stated in the Letter of Acceptance be imposed.

As per clause 43.1 & 48.2, "Special Stipulations of the Conditions of Contract", for whole of the work was 360 days, from the date of commencement and the date for completion of the project was 09th November, 2021.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management awarded contract of Package-II, "Construction of remaining water supply network in NWIZ and SWIZ" to M/s. Norrulhaq & Brothers at a total cost of Rs.398.625 million on 14.11.2020. The contract was to be completed within 360 days from November 14, 2020 to November 09, 2021. The contractor failed to complete the project within stipulated time despite granting three extensions, the project was not completed till-date.

Audit is of the view that management extended undue favour to the contractor and did not impose LD Charges amounting to Rs.39.862 million @ 10% charges of contract price on account of delayed and non-completion of the project.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. Management stated that contractor completed the work within the time extended by the management. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year 2022-23 vide para(s) number 14.4.4.15 having financial impact of Rs.93.883 million. Recurrence of same irregularity is a matter of serious concern.

14.4.4.33 Non-imposition of liquidity damages charges - Rs.39.022 million

As per clause 47.1 of conditions of contract, "...maximum of 10% of contract price stated in the Letter of Acceptance be imposed as Liquidated Damages, in case of failure to deliver the project.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management awarded following two contracts namely;

Sr#	Name of contract /Package	Name of Contractor	Cost Rs in Million	Engineer's Notice to Commence date (Period 12 months)	LD Charges @ 10%
1.	Package-I "Sewerage System" Gulshan-e-Benazir Township Scheme (GBTS)	M/s NLC Engineers	108.624	15.03.2021	10.862
2.	package-II "Water Supply System" Gulshan-e-Benazir Township Scheme (GBTS)	M/s NLC Engineers	281.605	15.03.2021	28.160
				Total	39.022

However, the contractor failed to complete the project within stipulated time whereas the management did not impose liquidated damages (LD) of Rs.39.022 million for delay in completion of the works @ maximum 10% of contract price stated in the letter of acceptance. (108.624+281.605=390.229*10%=39.022).

Audit is of the view that management extended undue favour to the contractor and did not impose LD charges amounting to Rs. 39.022 million on account of delay in completion of the works.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management and informed that project was not completed in time due to difficulties occurred during the project and extension was made as per contract. DAC directed the management to get the record (completion certificate) verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.34 *Non-charging of fast track charges from terminal operator-Rs.30.890 million*

As per Annex-2 to the PQA Land Allotment Policy, Rs.0.5 million per acre over and above the prevailing rates of Peripheral Development Charges is payable for consideration of allotment on priority / Fast Track basis.

As per Ministry of Ports & Shipping approved the its letter No.4(16)/2003-P&S-II dated 21.02.2005, letter No.4(16)/2003-P&S-II dated 02nd May, 2005 and PQA B.R # 9/2005 dated 25.01.2005, all applicants requiring land on priority basis be charged additional Peripheral Development Charges (PDC) @ of Rs.05 million per acre over and above the existing Peripheral Development Charges.

The Board further resolved that an undertaking should be furnished by the applicants of priority cases: I / We shall pay the additional Peripheral Development Charges (PDC) Rs.0.5 million per acre over and above the existing PDC in all zones of PQA.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was noted that land of 61.775 acres was allotted to M/s. Pakistan International Bulk Terminal (Pvt), Limited in NWIZ. However, the fast track basis charges of Rs.0.5 million per acre over and above the existing PDC were not charged from M/s. PIBTL.

Audit is of the view that non-recovery of charges caused loss of Rs.30,887,500 (61.775 acres x Rs.500,000 per acre as per prevailing land allotment policy).

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that due to competitive bidding process the charges of fast track could not be charged DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.35 *Irregular appointment and non-achievement of objectives by HR Consultant – Rs.28.250 million*

According to Policy guidelines of the Establishment Division, Government of Pakistan for appointment of consultant that;

- The client organization is required to ascertain as to whether or not the required expertise is available within the organization/ government. In case the expertise is available in-house, reasons for not undertaking the assignment internally may be spelled out and detailed justification.
- Selection Board headed by the Secretary of the Ministry/ Division will recommend a panel of at least three candidates in order of merit for consideration of the appointing authority.

Clause 2 of contract agreement dated October 05, 2020, if the consultant fails to complete the assignment within six (6) months or such extended period of further six (6) months he shall pay Liquidated damages (LD) @ 10% of consultancy amount.

Rule 4 of PPRA Rules, 2004, states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management hired HR Consultant, M/s HRSG, for providing following five-phase services at Rs.28.250 million on 05.10.2020 with completion date of 04.10.2021.

Phase	Description	Phase	Description
1 st	HR Audit report	4 th	Improving HR ERP system
2 nd	Job Description	5 th	Changes affecting Labour Laws
3 rd	PQA Service Rules Review		

However, it was observed that:

- a. The hiring of the contractor was irregular as the same was made without utilizing available in-house expertise and detailed justification of hiring the HR Consultant. The panel of three consultants was not submitted to concerned ministry for its approval. Besides, the award of consultancy contract was made to a single participating bidder without any market survey which was in violation of the procurement rules. Hence, contract award amounting to Rs.28.25 million is held irregular in Audit.
- b. PQA paid an amount of Rs.2.225 million on account of 1st installment of the scheduled payments. But, PQA HR Committee intimated Board on 13.10.2021 & 5.12.2022 that the reports submitted by the consultant are incomplete, irrational and illogical as the consultant failed to deliver the task. The Committee also recommended to the Board for cancellation of the contract.
- c. Further, the management did not recover an amount of Rs.2.825 million on account of Liquidity Damages (LD) as the contract was not completed on 04.10.2021.

Audit is of the view that hiring of the only participating bidder as consultant without any market survey, utilizing in-house services and subsequent non-achievement of objectives by HR Consultant was irregular in Audit. Further, non-imposition of Liquidity Damages (LD) reflected undue favour to contractor.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. Management apprised the DAC that M/s HRSG consulting Pvt was appointed for the work, which has not been completed as yet. DAC pended the para till completion of the project.

Audit recommends implementation of the DAC directives.

(DP No. 188, 212 & 214)

14.4.4.36 Procurement of multiple items through splitting - Rs.28.200 million

Rule 20 of PPRA Rules, 2004 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was found that the management incurred an expenditure amounting to Rs.28,200,385 on account of purchases under following heads through splitting up and on piecemeal basis. The detail is as under:

S#	GL #	Description	Amount (Rs)
01	1010010008	Office Equipment	2,044,753

02	1050010001	Stock of material supply (coded & non-coded)	9,522,993
03	1010010010	AC, LEDs, Laptops, computer printer, etc (other equipment)	1,440,249
04	5030200024	Sundry expenditure & hire decoration items	4,561,390
05	1010010007	furniture and fixture	10.631
		Total	28,200,385

The procurements were made during 2021-22 with a short interval of few days, months and each purchase was split up in such a way so that the prescribed limit for tendering may not be crossed in order to avoid tendering and obtaining approval of higher authority as per delegation of power.

Audit is of the view that the management made splitting of all procurement of Rs.28.200 million and avoided open competition process.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated that the purchases are made when needed by the department and on urgent basis. DAC directed the management to comply with PPRA.

Audit recommends implementation of the DAC directives.

(DP. 211 & 205)

14.4.4.37 Payment on account of dredger without rendering services – Rs. 26.738 million

Rule 5 (1) of Public Sector Companies (Corporate Governance) Rules, 2013 state that the Board shall exercise its power and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was noted that management awarded the contract to M/s China Shipbuilding Trading Company Ltd (CSTC) for manning of dredger (Indus Dolphin, Trailing Suction Hopper Dredger) for the periods from 2015 to 2021 and August 2021 to August 2026. However, dredger remained non-functional from July 05 to November 03, 2021 as per fuel consumption report, but the contractor was paid for the (4th quarter of 5th year US\$ 116,592/3=US\$ 38,864 x 4 months=US\$ 155,456 x Rs.172= Rs.26.738 m) as per payment file.

Audit is of the view that the payment was made without rendering manning services. Thus, the payment was held irregular and unjustified.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated that the payment was made to the contractor as per work performed by the dredger. DAC directed the management to get the facts verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.38 Irregular payment of manning, operation and 1st line maintenance - Rs.24.930 million

As per Clause 4 (iv) (k) of Special Conditions of Contract to Terms of Manning & Operations, in case of planned / laid-up / non-ops status of the craft for more than 30 days, by mutual consent of Employer and Contractor, manning may be reduced to half.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was noted that the PQA entered into the contract with M/s Bahria Foundation for manning, operation and 1st line maintenance of tug boat, Sohna, for a period of two years on 14-2-2019. As per payment schedule, 1st year payment was to be paid Rs.142.417 million and 2nd year of Rs.149.580 million. The boat remained under dry docking w.e.f. 16.09.2021 to 09.02.22 (almost five months). However, contrary to above, the PQA management did not reduce the manning charges to half. Thus, PQA paid excess amount of Rs.24.930 million.

Audit is of the view that excess payment of Rs.24.930 million was unjustified.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated that the payment was made as per contract during the period of high tide. DAC directed the management to provide relevant record for verification.

Audit recommends implementation of the DAC directives.

14.4.4.39 Irregular / unjustified payment on account of repair and maintenance of School – Rs.19.552 million

IB.26 (2) “Standard Forms of Bidding Documents” (Civil Works) of PEC 2007 provides; “A material deviation or reservation is one (i) which affect in any substantial way the scope, quality or performance of the Works; (ii) which limits in any substantial way, inconsistent with the Bidding Documents, the Employer’s rights or the bidder’s obligations under the Contract; or (iii) adoption/rectification whereof would affect unfairly the competitive position of other bidders presenting substantially responsive bids.”

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management awarded contract of repair and maintenance of Boy’s Primary and Secondary School at Housing Complex to M/s Glamour Construction at the cost of Rs. 42.019 million on 18.04.2022. Interim Payment Certificate (IPC-3) reflected that an amount of Rs. 19.552 million was paid to the contractor on account of “Extra Items” work done which was not part of the actual Bill of Quantity (The extra items represented 46.5% of the original cost of BOQ).

Audit is of view that payment of 46.5% of non-BOQ items and without any analysis and approvals reflected negligence of the management and was in violation of procurement rules.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated that the repair work was carried out by the contractor as per specification and some changes were made in the drawing duly approved by the competent authority. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.40 Non-deduction of Sindh Sales Tax on Services – Rs.14.306 million

As per section 3(1) of Sindh Sales Tax on Services Act, 2011, service provided by person engaged in contractual execution of work or furnishing supplies is taxable @ 13%.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was noted that M.T. Mohna, a vessel of PQA, was dry-docked at KS&EW on 16.09.2021 for repair of oil leakage and un-docked on 09.02.2022. However, out of total payments of Rs.187.878 million, PQA paid an amount of Rs.110.046 million on account of labour service charges without deducting Sindh Sales Tax @ 13% of Rs.14.306 million.

Audit is of the view that the management was liable to deduct tax at source from the contractor.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the matter is sub-judice. DAC directed the management to pursue the case vigorously.

Audit recommends implementation of the DAC directives.

14.4.4.41 Unjustified long delay of ship/vessel on anchoring showing poor performance of marine operations and non-recovery of anchoring charges – Rs.13.946 million

Rule 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that the Chief Executive is responsible for the management of a public sector company and for its procedures in financial and other matters, subject to the oversight and directions of the Board.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that from the marine operation, harbor operation record that following two ships/ vessels named “MT Afra Laurel and MV Yangze-6” arrived on outer anchorage on 23.11.2021 and 14.03.2022 were carrying HSFO and Soybeans respectively. Scrutiny of the record revealed that the MT Laurel took berthage after 40 days whereas 17 ships anchored after MT Laurel were allowed berthing by the management without recording cogent reasons. Besides, MV Yangze-6 was allowed vessel was taken on re-anchorage on 13.02.2022 just after 04 days of berthing and no cogent berthing and was observed re-anchored at outer sea for more than 70 days for the reasons best known to the management. However, PQA as evident from the record did not collect anchoring charges from the ship agent/owner. The details are as under;

S.#	Name of Ship	Name of Agent	Anchored Date	Berthage date	Sailing Date	Delay in days	GRT	Amount @ USD 0.013 (Rs 204)	Remarks
1	MT Afra Laurel	PNSC	13.11.21	23.12.21	25.12.21	40	57,567	7,184,361	The Ship allowed birthing after 17 ships.
2	MV Yangze-6	Al-Pine Marine	14.03.22	19.03.22	01.06.22	70	36426	6,762,122	After berthing, ship anchored for 70days.
Total								13,946,483	

Audit is of the view that the ships took unusual delays at outer anchoring and allowing berthing to other late anchored ships prior to the 1st anchored shows undue favour whereas not receiving the anchoring charges amounting to Rs.13.946 million is loss to the government exchequer. This modus operandi of marine operations which caused long delays in ship movement, raise many doubts on the practice of management concerned.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated that the outer anchorage is liable to be charged from the ships waiting for their turn. DAC directed the management to provide the record to Audit for verification.

Audit recommends implementation of the DAC directives.

14.4.4.42 Unjustified long delay of ship/vessel on anchoring showing poor performance of marine operations and non-recovery of anchoring charges - Rs.12.889 million

As per general note 0405, Gazette of Pakistan June 17, 2010, states that these charges apply to vessels using Port Qasim’s Outer Anchorage area and approaches and are levied as per 0406.

0406: Rates:

• Vessels using anchorage area Outer anchorage and approaches	US\$ 0.013 per GRT per day or part thereof.
--	---

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that from the marine operation, harbor operation record that a vessel named “Stratton” arrived on outer anchorage on 23.01.2022 carrying coal through agent M/s Water link. After 17days waiting on anchorage, the vessel took berthing at PIBT terminal on 09.02.2022. Scrutiny of the record revealed that the vessel was taken on re-anchorage on 13.02.2022 just after 04 days of berthing and no cogent reasons were recorded. Further, it was noticed that the vessel anchored till April 20, 2022 whereas no evidence of sailing out /date was found in the available record. Besides, PQA as evident from the record did not anchoring charges amounting Rs.12.889 million from the ship agent/owner.

Audit is of the view that the management failed to deal with ship M/s “Stratton” which anchored and re-anchored for more than 4 months without recorded cogent reasons. This model of marine operations which caused long delays in ship movement, raise many doubts on the practice of management concerned.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated that the outer anchorage is liable to be charged from the ships waiting for their turn. DAC directed the management to provide the record to audit for verification.

Audit recommends implementation of the DAC directives.

14.4.4.43 Less deduction of income tax – Rs.12.450 million

Section 149 (1) of Income Tax Ordinance, 2001, stated that every person responsible for paying salary to an employee shall, at the time of payment, deduct tax from the amount paid at the employee’s average rate of tax computed at the specified rates on the estimated income of the employee chargeable under the head “Salary”.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management made less deduction of Income Tax of Rs.12.45 million from salary of the PQA employees as under:

(Rs. in million)			
Number of employees	Tax due	Tax deducted	Short deduction
243	110.46	98.01	12.45

Audit is of the view that less deduction of Income Tax reflected negligence and loss to Govt. exchequer.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the tax was calculated properly. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.44 Construction without approval and non-provision of drawings for establishment by terminal operators - Rs.12.000 million

As per Clause-(xx) of PQA Land Allotment Policy, 2005, the drawings for the construction work duly prepared by a Licensed Architect/Engineer shall have to be submitted in quadruplicate for approval by Port Qasim Authority. Construction shall only be undertaken in accordance with terms and conditions of Implementation Agreement (IA).

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management allotted land of 25 hectares (61.775 acres) to M/s. Pakistan International Bulk Terminal Limited (PIBTL) on 05th of June, 2011 for establishment of Coal and Clinker/Cement Terminal on BOT basis at back-up area of PQA. The terminal operator carried out construction without prior permission and submission of drawing to the PQA/P&D department. Joint Survey/inspection, team of PQA visit report dated 11-01-2023 on the plot No.NW-LL/02 (measuring 61.78 acres) reported that the PIBT deviated/ unauthorizedly constructed against the drawing submitted to PSP department of PQA. Accordingly, IM department of PQA issued notice for unauthorized construction to the PIBT on 17-04-2023 (stating deviations/illegal/unauthorized constructions i.e. Storage Shed, New Mess, 02 rooms and Guard room) and also imposed penalty of Rs 12,000,503. Further, the file reflected that all the terminals at PQA have not submitted the drawings for approval.

Audit is of the view that construction without approval and non-provision of drawings for establishment by terminal operators was unjustified.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that PQA imposed and recovered penalty of Rs.12.000 million. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.45 Irregular creation of post of Data Entry Operator - Rs.11.916 million

PQA Employees Service Regulations, 2011 entails that the Basic Pay Scale (BPS) assigned to the position of computer operator is officially recognized as BPS-12.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that contrary to above following employees occupied position of Data Entry Operator (BPS-17). And received the pays and allowances corresponding to the Pay-scale/BPS-17. The detail is given as under:

(Amount in Rs)				
S#	Name	Designation	Pay Per Month	Pay per year 2021-22
01	Syed Moin Ahmed	Data Entry Operator (BPS-17)	344,164	4,129,968
02	Mr. Fawad Fateh	Data Entry Operator (BPS-17)	321,086	3,853,032
03	Mr. Muhammad Qayyym Khan	Data Entry Operator (BPS-17)	327,753	3,933,036
Total				11,916,036

Audit is of the view that the appropriate grade for the Data Entry Operator (DEO) position is BPS-12 as per PQA Regulations. Thus, the hiring and the payments are held irregular in Audit.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated that the posts were upgraded to pay scale 17 by the Board. DAC directed the management to obtain approval of the Federal Government.

Audit recommends implementation of the DAC directives.

14.4.4.46 Irregular procurement without tendering – Rs.10.000 million

Rule 20 of PPRA Rules, 2004 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management procured mooring / towing rope services under an agreement from PNSC for vessel, M.T. Mohna, amounting to Rs.10.00 million without competitive bidding.

Audit is of the view that the management extended undue favour to PNSC and made direct procurement without tendering and deprived the authority from obtaining competitive rates.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management stated that the mooring rope was purchased from PNSC under the running contract with PNSC. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.47 Expenditure on tug beyond economic repair - Rs.6.679 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management declared a tug, Sachal, as beyond economic repair (BER) on 18.11.2022, but during 2021-22, an expenditure amounting to Rs.6.679 million was incurred on account of its repair and maintenance.

Audit is of the view that the management incurred unjustified expenditure of Rs.6.679 million on the tug which was declared beyond economic repair.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed the DAC that the expenditure was incurred before declaring the vessel as beyond economic repair to keep it operational. DAC directed the management to provide relevant record to Audit for verification.

Audit recommends implementation of the DAC directives.

14.4.4.48 Loss due to extension in hiring of pilot boat contract – Rs.5.040 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that Pilot boat Lahoot was under dry docking at shipyard Karachi and was expected to be operational in January, 2022. However, PB Lahoot un-docked in the month of April, 2022 and caused delay 88 days in scheduled dry docking due to fault and mishandling of the shipyard staff. During the period management hired a pilot boat, Ocean Prince on Rs.84,000/ per day for the period of three month on 16.10.2021 for Rs.5.04 million (84,000*60 days).

Audit is of the view that due to delay in dry docking by Karachi shipyard, PQA paid an extra cost of Rs.5.040 million which was un-justified and may be calimed from shipyard.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. Management stated that extension of contract was given due to delayed repair of PQA lahoot vessel to keep smooth operation. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.49 Loss due to waiver of charges against the encroached area - Rs.4.564 million

As per article 7.5(e) of Implementation Agreement (IA) between PQA and PIBTL, PQA IM department will provide/allocate an area for establishing of temporary site office, outside the boundary of PIBTL Site (i.e. 61.775 acres).

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the management waived dues of Rs.4.564 million against the encroached area by M/s Pakistan International Bulk Terminal Limited (PIBTL). However, it was observed that contractor, M/s. China Harbour Engineering & Construction Company (CHEC) of Pakistan International Bulk Terminal Limited (PIBTL), encroached an area of 4.529 acres for the period from August, 2014 to January, 2015 (06 months). The management issued letter on 21st January, 2015 to the PIBTL to deposit the rental charges of Rs 4,564,295 against occupied area, but PIBTL did not pay the same.

Audit is of the view that management waived-off the charges irregularly.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

14.4.4.50 Loss on account of stolen vehicles - Rs.4.000 million

Rule 23 of GFR states that every government officer should realize fully and clearly that he will be held responsible for any loss sustained by government through fraud and negligence on his part.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that following vehicles of PQA were stolen.

S #	Vehicle No.	Make	Model	Est: Cost
1	AZF 071	Toyota Corolla	2013	2,000,000
2	ARQ-472	Toyota Corolla	2009	1,500,000
3	GA-5272	Suzuki Bolan	2006	500,000
Total				4,000,000

Audit is of the view that due to weak internal controls, three vehicles were stolen. Neither the insurance claims were lodged nor were efforts for the recovery of the assets made by the management.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed the DAC that all three vehicles were stolen from outside of PQA area and FIR were lodged in the nearest police station. However, internal

inquiry of two vehicles were carried out. DAC directed the management to pursue the case for recovery of vehicles and directed to ensure all the vehicles insured from NICL.

Audit recommends implementation of the DAC directives.

14.4.4.51 Non-imposition of Liquidity Damages charges - Rs.3.050 million

Clause 17(b) of MoU dated 16.12.2021 provides that delay in docking as per schedule provided by KS&EW will entitle PQA to liquidated damages @ Rs 50,000 per day (after 07 days grace period) for delay in completion of repair /works within the completion deadline agreed between the parties.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that M.T Mohna, vessel of PQA, was dry-docked at KS&EW on 16.09.2021 for repair of oil leakage and un-docked on 09.02.2022 with delay of 68 days. However, it was observed that the management did not impose LD charges amounting to Rs.3.050 million on account of delay in completion of work on M/s KS&EW.

No. of Days (due)	No. of Days (actual)	Delay period (68-7)
75	143	61

Audit is of the view that the management extended undue favour to the contractor and did not impose LD charges amounting to Rs.3.050 million on account of delay.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed the DAC that the work was completed within stipulated time. DAC directed the management to provide the record for verification.

Audit recommends implementation of the DAC directives.

14.4.4.52 Non-allotment of cancelled plots

According to Land Allotment Policy, 2005;

- The allottee shall complete / commission the proposed unit within the time specified in PQA's Land Allotment Policy, 2000. In case of failure, the allotment of plot shall be cancelled and 25% of total Peripheral Development Charges shall be forfeited.
- The allotment of plot shall be cancelled and 10% of total PDCs of whole plot area shall be forfeited against PQA administrative charges and also annual land rent will be charged for the period the plot is retained by you.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that since cancellation, the management did not make re-allotment of 193 plots which compromised revenue amounting to Rs.8,200.000 million on account of potential PDC income. The details are as under;

S#	Zone Name	No. of Cancelled Plots	Total Acres/Area	PDC Rate /Acre	Amount in Rs.
01	NWIZ	5	15	60,000,000	900,000,000
02	EIZ	171	181	40,000,000	7,240,000,000
03	SWIZ	1	1	60,000,000	60,000,000

04	SWIZ/OSP	16	04	60,000,000	240,000,000
		193	201	Total	8,440,000,000

Furthermore, the management transferred most of cancelled plots merely on the payment of cancellation charges instead of allotting a plot on current PDC charges.

Audit is of the view that the management failed to cancel the allotment of plots which reflects negligence and ill-planning.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the plots have been cancelled and would be re-allotted through advertisement. DAC directed the management to allot the plots as per policy and on the current PDC rates.

Audit recommends implementation of the DAC directives.

14.4.4.53 Non-appointment of Chief Financial Officer, Company Secretary and Chief Internal Auditor

Rule 13 of Public Sector Companies (Corporate Governance) Rules, 2013, provides that the Board shall appoint a chief financial officer (CFO), a company secretary and a chief internal auditor (CIA).

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that contrary to above the management did not appoint the mandatory officers of the company. The functions of the CFO were carried out by the PQA employee having post of Director General. The post of the CIA was held by Director Mr. Tipu Sultan whose qualification was M.A and was also serving as Company Secretary.

Audit is of the view that non-appointment on the crucial posts and getting services of the non-qualified employees on such key posts was in violation of rules and affected performance of the Board.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that Code of Corporate Governance is not applicable on PQA. DAC directed the management to seek clarification on the matter from SECP.

Audit recommends implementation of the DAC directives.

14.4.4.54 *Nomination of Board Members in violation of PQA Act*

Section 6 (1) of PQA Act 1973, states that the Board shall consist of not less than three and not more than seven members, including the Chairman, to be appointed by the Federal Government.

The Honorable Supreme Court of Pakistan defined the Federal Government, which is reproduced as under:

- "The Federal Government is the collective entity described as the Cabinet constituting the Prime Minister and Federal Ministers."
- Neither a Secretary, nor a Minister and nor the Prime Minister are the Federal Government and the exercise, or purported exercise, of a statutory power exercisable by the Federal Government by any of the, especially, in relation to fiscal matters, is constitutionally invalid and a nullity in the eyes of the law. Similarly, budgetary expenditure or discretionary governmental expenditure can only be authority by the Federal Government i.e. the Cabinet, and not the Prime Minister on his own."

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that the Board Members required to be appointed by the Federal Government were appointed by the Ministry of Maritime Affairs on the approval of the Prime Minister instead of approval of the Federal Government.

Hence, the nomination of the Members of the Board of Directors is not in line with relevant provision of the PQA Act 1973.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that Code of Corporate Governance is not applicable on PQA. DAC directed the management to seek clarification on the matter from SECP.

Audit recommends implementation of the DAC directives.

14.4.4.55 *Appointment of Board Member without considering the element of conflict of interest*

Rule 5 (5B) (i) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the directors and executives of a Public Sector Company do not allow a conflict of interest to undermine their objectivity in any of their activities, both professional and private and that they do not use their position in the Public Sector Company to further their private gains in a social or business relationship outside the Public Sector Company. If a situation arises where an actual or potential conflict of interest exists, there shall be appropriate identification, disclosure and management of such conflict of interest;

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that management appointed Mr. Mahmood Baqi Moulvi as Board member, Chairman of both Board's Planning & Infrastructure Technical Committee and Marine Ops Committee during 2021-22 without taking into account his personal and family business (Ghee and Oil Mills, Flour Mills, Rice Mills, Commodity Ventures and Warehouses) within premises of the Authority.

Audit is of the view that appointment of Board Member and Chairman of the Committees of the Board with personal and family stakes in the Authority was in violation of Corporate Governance Rules.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that Code of Corporate

Governance is not applicable on PQA. DAC directed the management to seek clarification on the matter from SECP.

Audit recommends implementation of the DAC directives.

14.4.4.56 *Non-preparation of annual accounts*

According to Section 233 of the Companies Act, 2017, the company should finalize its annual accounts within four months after closing date of accounts for the year.

During the audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that contrary to above, the annual accounts were not prepared / audited by the Chartered Accountant for the year under review.

Audit is of the view that non-finalization of audited annual accounts reflected weak internal controls and violation of rules.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that PQA finalized the audited accounts till 2016 and accounts for the years 2017 - 2021 will be completed in January, 2024. DAC directed the management to complete the reports within 02 months and submit to Audit for verification.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year 2022-23 vide para(s) number 14.4.4.35. Recurrence of same irregularity is a matter of serious concern.

14.4.4.57 *Non-implementation of Board decision causing significant increase in estimated cost of capital dredging*

Board vide Br # 16/2020 dated 21.02.2020 approved following three (3) courses of actions regarding capital dredging & maintenance of dredging;

- a) That the dredging may be arranged through M/s QICT/third party financing.
- b) That the dredging may be financed by PQA, if no financing is arranged through M/s QICT/Third party.
- c) That the dredging may be financed by PQA

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was noted that consultant M/s HR Wallingford & M/s Techno-Consultant International Pvt. Ltd (Joint Venture), submitted its feasibility report amounting to US\$ 268.07 million (reflecting cost of dredging on a to c options) in February, 2020, for deepening, widening & straightening of the existing navigational channel, commissioning of alternate inner navigation channel and supervision of capital dredging work. The feasibility study was submitted to the Ministry for Federal Government approval in March, 2020.

However, it was observed from a brief of PQA dated 16 May, 2022 submitted to the Ministry that there was an increase of about 33% over and above the estimated cost (recorded in feasibility study) US\$ 268.07 million. The details is hereunder;

(Amount in USD million)

Estimated cost	Current estimated cost	Increased cost	% increase
268.07	356.3	88.23	33%
Rs.23,822 million (88.23*270)			

Audit is of the view that significant increase in estimated cost of capital dredging reflected due to ill-planning and lack of co-ordination.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed that the implementation of dredging project is dependent upon approval from MOMA/Federal Government. DAC directed the management to pursue the case for early approval of Federal Government.

Audit recommends implementation of the DAC directives.

14.4.4.58 Non-formulation of Service Rules

Notification F.No.6/4/96-R-3 dated 02 Nov, 2021 of Establishment Division, Government of Pakistan, states that soon after an organization is established, it is mandatory to frame service rules in order to run the organization in a legal manner. All Autonomous Bodies/Corporations need to submit its draft Rules for approval to the Competent Authority as specified in their respective Act/Ordinance. However, these Rules are required to be submitted to Establishment Division for vetting /concurrence.

During audit of Port Qasim Authority (PQA) for the year 2021-22, it was observed that contrary to above, the management did not formulate Service Rules. The organization was established under PQA Act, 1973 and service matters were being dealt through PQA Employees Regulations, 2003 (Draft), PQA Employees Service Regulations, 2011 and PQA Employees Service Regulations, 2013.

Besides, PQA Board through its resolutions (BRs) has amended / revised the terms and conditions of the service [BR. No 39/2019 dated 26.11.2019 (future appointments be made on contract basis) and BR No 40/2019 dated 26.11.2019 (changes in qualification, age and experience)] without approval of Establishment Division.

Audit is of the view that non-formulation of Service Rules since establishment of the organization in 1973 reflected negligence.

The matter was reported to the management on June 06, 2023. The irregularity was discussed in the DAC meeting held on December 29, 2023. The management informed the DAC that, PQA Service Regulations are formulated and implemented in the PQA. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

Chapter-15

Ministry of National Food Security and Research

Overview

The Ministry of National Food Security & Research is mainly responsible for policy formulation, economic coordination and planning in respect of food grain and agriculture. It also includes procurement of food grains, fertilizer, import price stabilization of agriculture produce, international liaison, and economic studies for framing agricultural policies.

Aims & Objectives

A Food Secure Pakistan. To ensure a modern and efficient food production and distribution system that can best contribute towards food security and nutrition, in terms of availability, access, utilization and stability.

Governing Laws and Policies

- Rules of Business

15.1 Pakistan Agricultural Storage and Services Corporation Limited

15.1.1 Introduction

Pakistan Agricultural Storage and Services Corporation Limited (PASSCO) was incorporated on August 31, 1973 as a non-listed public limited company. It is involved in the implementation of the Federal Government's policy of support price program of food grains, equitable distribution of food commodities and maintenance of their reserve stock.

The objectives of the Corporation are to purchase, acquire, sell, supply, market, distribute, exchange, and dispose of, import, export and store agricultural commodities. The Corporation is under the administrative control of Ministry of National Food Security and Research.

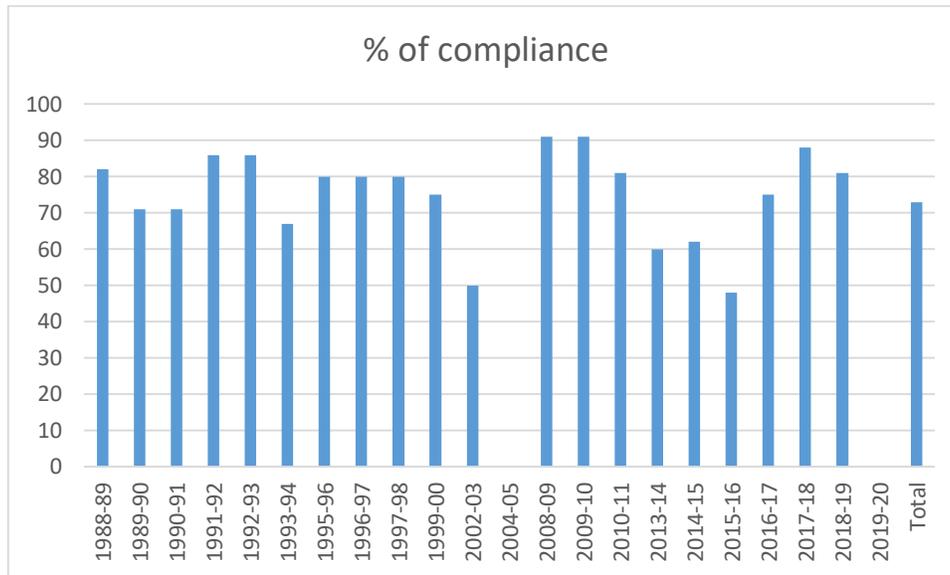

15.1.2 Comments on Audited Accounts

15.1.2.1 The annual audited accounts are required to be provided to Audit for review each year. Contrary to this, the management failed to provide audited annual accounts of the organization for the year 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts of 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*refer Annex-2*).

15.1.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	% of compliance
1988-89	11	09	02	297, 300	82

2019-20	02	00	02	12.1.4.2, 12.4.4.3	0
Total	260	191	69		73

Overall compliance of PAC directives was not satisfactory which needs to be improved.

15.1.4 Audit Paras

15.1.4.1 Non-withholding of Punjab Sales Tax (PST) from M/s National Logistic Cell - Rs 1,071.500 million

According to clause 14(2) of the Punjab sales tax on services Act 2012, the authority may require any person or class of persons whether registered or not for the purpose of this Act to withhold full or part of the tax charged from such person or class of persons on the provision of any taxable service or class of taxable services and to deposit the tax so withheld, with the government within such time and in such manner as it may, by notification in the official Gazette.

During audit of PASSCO Lahore for the year 2022-23, it was observed that the management made an agreement with M/s National Logistic Cell (NLC) for shifting of 500,000 M. Tons imported wheat from Karachi Port Trust to PASSCO designated zones on September 05, 2022 and did not withhold Punjab Sales Tax of Rs 1,071.500 million (Rs 7,145,000,000 x 15%).

Weak financial control was the cause of non-deduction of PST.

Audit is of the view that management was required to withhold PST at the time of payment to said company.

The matter was reported to the management and PAO on December 22, 2023. The management replied that according to PST rule 3(1) being a company no withholding of PST was required. The reply was not convincing as management was required to withhold the PST.

DAC in its meeting held on February 09, 2024 directed the management to seek clarification from PRA whether sales tax on services was required to be deducted while making payment to NLC.

Audit recommends compliance of DAC directives.

15.1.4.2 Non deduction of general sales tax from jute mills - Rs 396.741 million

According to Section 3(7) of Sales Tax Act 1990, the tax shall be withheld at the rate as specified in the eleventh schedule by any person or class of persons being purchasers of goods, as withholding agents for the purpose of depositing the same. As per eleventh schedule 1/5th of Sales Tax as shown on invoice is to be deducted.

During audit of PASSCO Lahore for the year 2022-23, it was observed that jute bales of 100 Kg each bag valuing Rs 11,668.852 million were purchased from various mills during April 01, 2022 to March 31, 2023. The management did not withhold GST of Rs 396.741 million (11,668.852 million x 1/5) from suppliers in violation of rules. Detail is given at Annex-91.

Non-compliance of tax rules caused non-deduction of general sales tax.

Audit is of the view that the management was required to withhold the General Sales Tax amount of Rs 396.741 million at source before making payment but the same was not done.

The matter was reported to the management and PAO on December 22, 2023. The management replied that as per Sales Tax Special Procedure (Withholding Rules) 2007 allows the supplier to charge a certain amount of tax and the rule-5, a new clause-xii of the same clearly states that “supplies made by an active payer as defined in the Sales Tax Act, 1990 to another registered person” is exempted. The reply was not convincing as sales tax @1/5th was applicable to withhold as per schedule-11 inserted in Finance Act 2019.

DAC in its meeting held on February 09, 2024 directed the management to seek clarification from FBR whether 1/5th of sales tax was required to be deducted while making payments.

Audit recommends compliance of DAC directives.

Para-40 (PASSCO- 2022-23)

15.1.4.3 Excess charging of incidentals against supply of imported wheat – Rs 195.049 million

According to Finance Division OM dated June 18, 2020 regarding fixation of wheat incidentals of PASSCO, the following are to be charged alongwith support price of wheat:

Rs in million

Sr. No.	Components of Incidentals	Amount
1.	Gunny Bags	1162.74
2.	Delivery Charges (Payable to Growers)	82.45
3.	Market Fee etc.	13.09
4.	Transportation Cost	115.84
5.	Handling Charges/Labour	28.28
6.	Storage Cost	842.72
7.	Departmental Charges	911.86
8.	Financial Charges	3665.72
Total		6822.7

During audit of PASSCO Lahore for the year 2022-23, it was observed that imported wheat of 399,999.771 M. Ton and 522,741.534 M. Ton was lifted by Sindh and Khyber Pakhtunkhwa Governments respectively. The management claimed support price and incidentals charges @ Rs 6,822.730 per M. Ton and did not exclude delivery charges, market fee, and transportation charges of Rs 211.38 per M. Ton which were not applicable on imported wheat. Thus, a sum of Rs 195.049 million (922741.30 M Ton x 211.38) was excess claimed which was held irregular.

Weak financial controls were the cause of excess charging of incidentals.

Audit is of the view that incidentals charges were required to be claimed against imported wheat after excluding delivery charges, market fee, and transportation charges.

The matter was reported to the management and PAO on December 22, 2023. The management replied that PASSCO procured and sold wheat on the instructions of Federal Government and accordingly bills are issued to wheat recipient agencies. The reply was not convincing as the incidentals of imported wheat were not approved by the Finance Division.

DAC in its meeting held on February 09, 2024, directed the management to seek clarification from Finance Division whether the incidental charges for local and important wheat would be the same or otherwise.

Audit recommends compliance of DAC directives.

Para-2 (PASSCO- 2022-23)

15.1.4.4 Loss due to damage of wheat – Rs 2,423.704 million

According to BoD direction in its 146th meeting held on March 14, 2023 to dispose of fully damaged wheat in the first phase (unfit for human consumption, as confirmed through Lab Tests), other than to flour mills/grain dealers. The sorting of damaged wheat was to be completed at the earliest and process of its sale/auction was to be taken up on top priority.

During audit of PASSCO Lahore for the year 2022-23, it was observed that 345,791 M. Ton wheat was kept in three (3) zones to meet requirements of strategic reserve, out of which 44,067.340 M. Ton was found damaged due to flood in 2022. The BoD directed to auction the damaged wheat. Approval of the Federal Cabinet was also to be obtained prior to auction of the damaged stocks. Further, probe into the matter revealed that neither the matter had been reported to Federal Cabinet for obtaining approval nor wheat had so far been disposed of. Consequently, the Corporation sustained a loss of Rs 2,423.704 million (Rs 55,000 x 44,067.340 M. Ton) due to damage of wheat. Detail is as under:

Sr. No.	Name of Zone	Stock Position as on 31.03.2023	Quantity Damaged (M.Ton) as on 31.03.2023
1	Khairpur	184,463	7,959.678
2	Hyderabad	53,445	693
3	Dera Allah Yar	107,883	35,414.620
Total		345,791	44,067.340

Non-compliance of directives of BoD resulted into loss.

Audit is of the view that had the management followed instructions of BoD as well as committee constituted by Ministry of NFS&R, the damaged wheat would have been disposed off.

The matter was reported to the management and PAO on December 22, 2023. The management replied that loss was occurred due to an unprecedented rainfall/flood in Sindh and Baluchistan. The auction of damaged wheat is under process. The reply was not convincing as a considerable time has passed but damaged wheat was not auctioned.

DAC in its meeting held on February 09, 2024 directed the management to share the inquiry report on the subject conducted by Ministry of NFS&R and implement the decision of BoD to dispose of the damage wheat at the earliest.

Audit recommends compliance of DAC directives.

Para-1 (PASSCO- 2022-23)

15.1.4.5 Loss due to shortage of 89.344 metric ton wheat - Rs 9.827 million

According to clause 32 of Wheat Procurement Policy 2021, the incharge PC-cum-RV/Godowns/Silos and his Assistant will be responsible in person and ZH/PM in administrative role will

be responsible for the security of wheat purchased/stacked at the store point. They will make proper measures to guard against the pilferage, theft, robbery and dacoity of wheat/dead stock.

During audit of PASSCO Lahore for the year 2022-23, it was observed that shortage of 89.344 M. Ton wheat amounting to Rs 9.827 million was reported by Zonal Head, Okara vide letter dated March 27, 2023 to DGM (Field). The concerned authority issued a show cause notice to Mr. Sami Ullah Jamil (PT No.19179) on March 29, 2023 for submission of a reply about the shortages as detailed below:

Sr. No.	Detail	Qty. in M. ton
1.	Imported Quantity	7739.198
2.	Dispatched	7141.316
3.	Balance as per ledger	122.752
4.	Available	33.408
5.	Shortage of wheat	89.344

Further, it was revealed that the DGM (Field) being the authorized officer later on decided to postpone the inquiry proceeding till the clearance of imported wheat stock 2021 & 2022 in order to find out actual shortage.

Weak internal controls and negligence on the part of employees caused a loss to the Corporation.

Audit is of the view that the management was required to sort out the matter at the earliest to recover the loss.

The matter was reported to the management and PAO on December 22, 2023. The management replied that an inquiry committee has been constituted to probe into the matter. Exact shortages will be determined till the disposal of whole stock. The reply was not convincing as inquiry proceeding did not start even a lapse of considerable time.

DAC in its meeting held on February 09, 2024 directed the management to recover the amount at the earliest as the management apprised that subject inquiry has been finalized.

Audit recommends compliance of DAC directives.

Para-6 (PASSCO- 2022-23)

15.1.4.6 Irregular purchase of vehicles during ban period - Rs 71.800 million

According to clause 1(i), Finance Division vide letter dated July 07, 2022, there will be complete ban on the purchase of all types of vehicles from current and development budget except utility vehicles such as ambulances, buses for educational institutions, solid waste vehicles, etc.

During audit of PASSCO Lahore for the year 2022-23, it was observed that twenty (20) new vehicles valuing Rs 71.800 million were purchased from M/s Pak Suzuki Motors Company Limited March 06, 2023 without the concurrence of Finance Division. Thus, purchase of vehicles during ban period was held irregular.

Non-compliance of Finance Division instructions caused of the irregularity.

Audit is of the view that the management was required to refer the matter to Finance Division for seeking concurrence before procurement.

The matter was reported to the management on December 30, 2023. The management replied that Cabinet Division has declared PASSCO as Autonomous Body and in the light of Memorandum and Articles of Association, the BoD was fully empowered. The reply is not convincing as Finance Division notification was applicable to all Ministries/Divisions, including autonomous bodies.

DAC in its meeting held on February 09, 2024 directed the management to get clarification from the Finance Division.

Audit recommends compliance of DAC directives.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2014-15 and 2016-17 vide paras number 13.1.4.3 and 9.1.4.14 having financial impact of Rs 18.88 million and Rs 4.989 million. Recurrence of same irregularity is a matter of serious concern.

Para-16 (PASSCO- 2022-23)

15.1.4.7 Unauthorized regularization of work charge employees – Rs 22.800 million

According to order of Supreme Court of Pakistan passed on in Human Rights Case No.104 of 1992 on December 26, 1992, the Court observed that Federal Government, Provincial Governments, Statutory bodies and Public Authorities are making initial appointments, both adhoc/regular without publicity and properly advertising the vacancies and at times by converting adhoc appointments into regular appointments. This practice is prima facie violation of Fundamental Rights (Article-18 of the Constitution) guaranteeing every citizen's freedom of profession.

During audit of PASSCO Lahore for the year 2022-23, it was observed that 76 work charge employees were regularized as Assistant Purchase Inspector (API) BPS-07 w.e.f. November 01, 2022, without the approval of Board of Directors. These employees were recruited on work charge and regularized without provision in HR Policy. Thus, the payment on account of pay and allowances of Rs 22.800 million (average pay of Rs 50,000 x 76 employees x 6 months) to these employees was irregular.

Weak internal controls and managerial failure caused the irregularity.

Audit is of the view that the management was required to make appointments after fulfilling codal formalities.

The matter was reported to the management and PAO on December 22, 2023. The management replied that Cabinet Division has declared PASSCO as an Autonomous Body. Therefore, PASSCO has formulated its own rules and regulations in shape of HR Policy duly approved by BoD. The reply is not convincing as contingent paid staff was regularized without advertisement.

DAC in its meeting held on February 09, 2024 directed the management to seek clarification from the Law and Justice Division whether the Daily Paid Labour employees eligible for regularization/induction against permanent posts without advertisement/

Audit recommends compliance of DAC directives.

Para-8 (PASSCO- 2022-23)

15.1.4.8 Loss due to shortage of Wheat at Hyderabad - Rs 11.376 million

According to para -32 of Wheat Procurement Policy 2022, the incharge PC-cum-RV/Godowns/Silos and his Assistant will be responsible in person and ZH/PM in administrative role will be responsible for the security of wheat purchased/stacked at the store point. They will make proper measures to guard against the pilferage, theft, robbery and dacoity of wheat/dead stock. They will exercise proper control and check over the functioning of Chowkidar, laborers and other personnel working at the points.

During audit of PASSCO Lahore for the year 2022-23, it was observed that a quantity of 193.059 M. Tons Wheat (Local and Imported) was found short at Hyderabad (former Sakrand project) which has not so far been recovered although recovery orders were issued on October 01, 2023. Hence, the Corporation sustained a loss of Rs 11.376 million. Detail is as under:

Sr. No.	Crop	Qty.	Rate (Rs)	Total Rs
1.	Imported 2021	68.918	61,823	4,260,717
2.	Imported 2021	42.141	61,823	2,605,283
3.	Local 2022	82.000	55,000	4,510,000
Total		193.059		11,376,000

Slackness of management resulted non recovery of loss.

Audit is of the view that the management was required to make concrete efforts for early recovery of shortage.

The matter was reported to the management and PAO on December 22, 2023. The management replied that while dispatching the damaged wheat the shortage was found. The inquiry committee was constituted to inquire the shortages. The reply was not convincing as corrective measures were not taken up.

DAC in its meeting held on February 09, 2024 directed the management to effect the recovery at the earliest.

Audit recommends compliance of DAC directives.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2014-15, 2015-16, 2017-18, 2019-20 and 2022-23 vide paras number 13.1.4.8, 12.1.4.1, 16.1.4.1, 12.1.4.3 and 15.1.4.3 having financial impact of Rs 35.10 million, Rs 23.152 million, Rs 2.448 million, Rs 12.539 million and Rs 4.190 million. Recurrence of same irregularity is a matter of serious concern.

Para-28 (PASSCO- 2022-23)

15.1.4.9 Irregular appointment of Deputy General Manager – Rs 8.973 million

According to clause (10) (a) of HR Policy of PASSCO, the joining report of newly inducted shall be accepted subject to the prior provision of academic credential duly verified by the Board/University.

During audit of PASSCO Lahore for the year 2022-23, it was observed that Mr. Shahid Ibrahim was appointed as Deputy General Manager (Accounts) (BPS-19) on July 04, 2006, without verifying his credentials. Further, it was revealed that his date of birth as per Secondary School certificate was February 18, 1966, whereas on CNIC was June 06, 1967. It was concluded that his credentials were not verified at the time of the appointment. Thus, appointment and payment of Rs 8.973 million (Rs 747,718 x 12 month) was held irregular.

Due to weak internal control, the said appointment was made in violation of rules.

Audit is of the view that the management was required to get verified the credentials completely at the time of appointment.

The matter was reported to the management and PAO on December 22, 2023. The management replied that the date of birth once recorded at the time of entry into service shall be final. The reply was not convincing as date of birth should be matched with Secondary School certificate as well as CNIC.

DAC in its meeting held on February 09, 2024 directed the management to get the date of birth rectify in record as per matriculation certificate.

Audit recommends compliance of DAC directives

Para-26 (PASSCO- 2022-23)

15.1.4.10 Excess payment of Leave Encashment to ex-Managing Director – Rs 6.373 million

According to rule – 6 of Leave Encashment Rule 2012, leave pay for the purpose of encashment of LPR shall be computed on the basis of pay and allowances reckonable towards pension as shown in the last pay certificate of a civil servant.

During audit of PASSCO Lahore for the year 2022-23, it was observed that Capt.(R) Saeed Ahmad Nawaz (BPS-21) was posted as Managing Director vide notification dated July 13, 2022. The officer retired on attaining age of superannuation vide notification dated July 20, 2023. The officer was paid leave encashment on gross pay & allowances instead of basic pay. Thus, excess payment of leave encashment of Rs 6.373 million was made to the officer which was held irregular. Detail is as under:

Leave Encashment to be paid			
Pay & Allowances	Amount (Rs)	No. of Months	Total Payable (Rs)
Basic Pay	262,190		
Qualification Pay	3,000		
Total Pay	265,190	12	3,182,280
Actual Paid			
Pay & Allowances	796,233	12	9,554,796
Excess Paid			6,372,516

Due to weak financial and managerial controls, the officer was paid excess amount of leave encashment.

Audit is of the view that the management was required to pay leave encashment as per Civil Servant Rules.

The matter was reported to the management and PAO on December 22, 2023. The management replied that the officer was eligible for encashment of LPR as per PASSCO rules and amount was paid. The reply was not convincing as the ex-MD was not an employee of PASSCO and was not eligible to withdraw leave encashment more than entitlement.

DAC in its meeting held on February 09, 2024 directed the management to recover the amount of Rs 6.373 million immediately from the person concerned and deposit into the PASSCO account within 30 days.

Audit recommends compliance of DAC directives.

Para-22 (PASSCO- 2022-23)

15.1.4.11 Loss due to shortage of wheat during annual stock taking - Rs 5.458 million

According to clause 32 of Wheat Procurement Policy 2022, the incharge PC-cum-RV/Godowns/Silos and his Assistant will be responsible in person and ZH/PM in administrative role will be responsible for the security of wheat purchased/stacked at the store point. They will make proper measures to guard against the pilferage, theft, robbery and dacoity of wheat/dead stock.

During audit of PASSCO Lahore for the year 2022-23, it was observed that 99.229 M. Ton wheat valuing Rs 5.458 million was found short as a result of physical stock taking as on March 31, 2023.

Weak internal controls were the cause of irregularity.

Audit is of the view that the management was required to recover loss on account of shortage.

The matter was reported to the management and PAO on December 22, 2023. The management replied that an inquiry committee has been constituted to probe into the matter. Exact shortages will be determined till the disposal of whole stock. The reply was not convincing as inquiry proceeding did not start even a lapse of considerable time.

DAC in its meeting held on February 09, 2024 directed the management to recover the amount at the earliest.

Audit recommends compliance of DAC directives.

Para-3 (PASSCO- 2022-23)

15.1.4.12 Irregular payment of executive allowance to ex-Managing Director – Rs 3.864 million

According to clause (iii) of Finance Division memo dated July 19, 2022 regarding grant to executive allowance, those officers posted on deputation against posts identified in (i) and (ii) above shall not be entitled to draw deputation allowance as well as any other allowance or emoluments, by whatever name called, specific to their cadre or organization. Further, according to clause (v) this allowance shall be discontinued upon officer's transfer/posting outside the posts identified in (i) and (ii) above.

During audit of PASSCO Lahore for the year 2022-23, it was observed that Capt. (Rtd) Saeed Ahmad Nawaz (BPS-21) was posted as Managing Director, vide Establishment Division notification dated July 13, 2022. The officer was not drawing executive allowance as per his LPC but the management paid this allowance in violation of Finance Division rule as the said allowance was not applicable to the employees of the organization. Resultantly, a sum of Rs 3.864 million (Rs 257,580 x 15 months) paid to the officer as executive allowance which was held irregular.

Weak internal control was the cause of irregular payment as executive allowance.

Audit is of the view that the management was required to make payment of pay& allowances according to rules and regulations.

The matter was reported to the management on December 30, 2023. The management replied that the ex-MD, had only drawn Executive Allowance instead of deputation allowance according to the notification. The reply was not convincing as Executive Allowance is only allowed in Federal Secretariat, Islamabad as mentioned in the Finance Division notification.

DAC in its meeting held on February 09, 2024 directed the management to recover the amount of Rs 3.864 million immediately from the person concerned and deposit into the PASSCO account within 30 days.

Audit recommends compliance of DAC directives.

Para-18 (PASSCO- 2022-23)

15.1.4.13 Loss to due to non-replacement of damaged Gunji Kits – Rs 3.226 million

According to para – 8 of agreement between PASSCO and M/s KSF Trizone Industries, Lahore dated February 23, 2022, the buyer shall indicate from time to time to the supplier the destinations wherein new Woven High Density Polyethylene Stack Packages (Gunji Kits) are to be delivered and quantity of Woven High Density Polyethylene Stack Packages (Gunji Kits) to be supplied at each such destination. The supplier shall be responsible where so intimated to deliver the required quantity of Woven High Density Polyethylene Stack Packages (Gunji Kits) at the destinations within Pakistan. The supplier will be responsible for safe delivery, (both quality and quantity) of new/approved Woven High density Polyethylene Stack packages (Gunji Kits) till their receipt at PASSCO destinations. The supplier will be responsible for repair/replacement of torn-out or defective Gunji Kits for a period of two years i.e. during usage.

During audit of PASSCO Lahore for the year 2022-23, it was observed that the management purchased 3,500 Gunji Kits @ Rs 189,786 each for the Wheat Crop 2022, from M/s KSF Trizone Industries Lahore vide agreement dated February 23, 2022. Out of that purchase, 939 Gunji Kits were found deteriorated during their use and vendor was asked on February 18, 2023 to replace the same. The vendor replaced 905 Gunji Kits, while 17 Gunji Kits are still pending for replacement. Consequently, the Corporation has to sustain a loss of Rs 3.226 million (17 x Rs 189,786).

Loose internal controls and not timely action taken by the management was cause of loss.

Audit is of the view that the management should replace all deteriorated Gunji Kits from supplier according to agreement but the same was not done and obliged the vendor.

The matter was reported to the management on December 30, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to explain the reasons of non-replacement of 17 Gunji Kits. Fix responsibility on the person(s) at fault.

Para-48 (PASSCO- 2022-23)

15.1.4.14 Non finalization of pending inquiries

According to para – 5(ii) major penalties, Efficiency & Discipline Rules – 2016, the minor and major penalties to be imposed, after holding a Regular Inquiry on the PASSCO serving accused employees:

During audit of PASSCO Lahore for the year 2022-23, it was observed that an inquiry committee was constituted vide office order dated November 05, 2021 to probe the difference of quantity regarding construction of plinths, supply of dunnage material & sale of bhoosa between Works Wing and Zonal

Offices for the period April 01, 2020 to March 31, 2021. The inquiry committee recommended to impose major penalties to various Zonal Heads but no action was taken till to date.

Due to weak internal controls, the management did not impose penalties.

Audit is of the view that the management was required to take action immediately in the light of the inquiry report.

The matter was reported to the management on December 30, 2023. The management replied that a regular inquiry committee was constituted on November 05, 2021 and the committee submitted report on December 08, 2021 and recommended for major penalties to be imposed. The reply is not convincing as imposed penalties were required to be recovered.

DAC in its meeting held on February 09, 2024, pended the para till finalization of inquiry decision by the MD PASSCO.

Audit recommends to take action in the light of the inquiry report.

Para-44 (PASSCO- 2022-23)

15.1.4.15 Irregular dispatch of wheat without signing of MOU with Government of Sindh – Rs 13,318.00 million

According to para-33 of Wheat Procurement Policy 2022, imported and fair average quality (FAQ) wheat in sound bardanda, correct in quality and quantity, will be handed over to authorized representative of Food Department / Agencies after proper documentation strictly in accordance with the instructions of Field Wing.

During audit of PASSCO Lahore for the year 2022-23, it was observed that Ministry of National Food Security & Research directed to provide 200,000 M. Ton imported wheat to Sindh Food Department vide letter dated April 14, 2023, subject to the fulfillment of standard terms and conditions. Further, it was revealed that 99,781.062 M. Ton imported wheat amounting to Rs 13,318.00 million was provided without signing of MOU in violation of Ministry's direction.

Non-compliance of Ministry's instruction was the cause of irregularity.

Audit is of the view that the management was required to provide imported wheat in compliance of Ministry's instruction after fulfillment of codal formalities.

The matter was reported to the management and PAO on December 22, 2023. The management replied that wheat was provided to the Government of Sindh on the direction of the Ministry of NFS&R. PASSCO tried its efforts to get signed MOU with the Food Department, Government of Sindh. The reply was not convincing as wheat was provided without the fulfillment of codal formalities.

DAC in its meeting held on February 09, 2024 directed the management to place the matter before BOD in upcoming meeting to apprise the BOD about sensitivity of the matter to avoid recurrence of such practice in future. DAC further directed to pursue Sindh Govt. for earliest realization of outstanding receivables of Rs 13.318 billion.

Audit recommends compliance of DAC directives.

Para-4 (PASSCO- 2022-23)

15.2 Pakistan Tobacco Board

14.2.1 Introduction

Pakistan Tobacco Board Peshawar came into existence in 1968 as a semi-autonomous body under the control of Ministry of Commerce. The principal activities of the Board are to regulate, control and promote the export of tobacco and related produce and to the grading standards, to undertake and assist research connected with tobacco industry, impart training in tobacco testing and generally to take measures in the interest of tobacco industry. It renders assistance for the development of new tobacco growing areas and establishment of model farms, to organize and assist special research connected with tobacco cultivation and generally to render assistance for improving tobacco production and to collect statistics on any matter relating to tobacco and tobacco industry.

14.2.2 Comments on Audited Accounts

14.2.2.1 The working results of the Company for the year 2022-23 as compared to the preceding years were tabulated below:

(Rs in millions)

Particulars	2022-23	%Inc/ (Dec)	2021-22	%Inc/ (Dec)	2020-21
INCOME					
Tobacco Cess	407.96	(1.28)	413.25	38.13	299.17
Farm produce	12.10	24.87	9.69	81.98	5.33
Profit on short term investments	317.84	78.47	178.09	-	-

Total	342.53	(79.21)	1,647.93	412.53	321.53
Surplus / (Deficit) for the year before tax	399.26	(138.30)	(1,042.59)	(772.29)	155.08
Taxation	-	-	-	-	-
Surplus / (Deficit) for the year	399.26	138.30	(1,042.59)	(772.29)	155.08

(Source: Annual Audited Accounts 2022-23)

Total income of the Board was increased by 22.54% to Rs 741.80 million during the year 2022-23 (2021-22: Rs 605.34 million). The increase was mainly due to increase in profit on Short Term Investment, which increased by 78.47% to Rs 317.84 million in 2022-23 (2021-22: Rs 178.09 million). Revenue collected from operational activities shows increase in income from Farm Produce by 24.87% to Rs 12.10 million (2021-22: Rs 9.69 million). On the other hand, there was decrease in income from Tobacco Cess by 1.28% to Rs 407.96 million in 2022-23 (2021-22: Rs 413.25 million). The management is stressed for strengthening its core activities to earn revenue. Reasons due to which, the income from Cess was decreased needs to be justified.

14.2.2.2 Other receivables increased by 94% to Rs 275.16 million as on June 30, 2023 (2021-22: Rs 142.00 million). A provision was made against doubtful debts of Rs 51.017 million in 2022-23 (2021-22: Rs 13.97 million), figures were silent by means of notes. Abnormal increase in doubtful debts during the year needs clarification along with reasons of non-recovery.

14.2.2.3 Other receivables included an amount of Rs 9.10 million due from ex-employees on account of embezzlement and Rs 4.88 million from contractor. The NAB has decided the case in favour of PTB for recovery from ex-employee. However, the ex-employees filed an appeal against that decision in Peshawar High Court, which is still pending. The management is stressed to pursue these cases and expedite the matter for early recovery. The outstanding amount against contractor needs clarification as the figure is silent by means of notes.

14.2.2.4 According to Note-11, management revalued the land and building of the Board on 25th February, 2022. The revaluation appraisal resulted in surplus of Rs 3,209.44 million and Rs 55.64 million over the book value of land and building respectively. The Board was unable to value the land situated at Jampur as the land is in occupation of illegal occupants. The Board approached to Ministry of National Food Security & Research via its letter dated 25.10.2021 to De-Notify the land and refund the amount paid to acquire the same. As the matter is still un-resolved after lapse of two years, management is stressed to expedite the case for early settlement.

14.2.2.5 Current Liabilities included accrued expenses of Rs 4.741 million as on June 30, 2023 against accrued expenses of Rs 2.143 million in 2021-22 registering an increase of more than 121%. Abnormal increase under the head needs clarification along early settlement of liability.

14.2.2.6 Contingencies and Commitment showed that the PTB is involved in three major cases which have material effect on financial position as well as the performance of the Board. The management is stressed to pursue the cases and expedite the recovery; in addition to that the financial effect needs to be evaluated and reflected in financial statements under relevant head of accounts, in case the management has sufficient claims against said cases.

14.2.2.7 Management carried out an independent revaluation of lands and buildings situated at different stations of the country through M/s SMASCO on February 25, 2022; however, expenditure booked against said activity are not appearing in the accounts, position needs clarification.

14.2.2.8 Administrative Expenses increased by 4.6% to Rs 106.599 million in 2022-23 (2021-22 – Rs 101.886 million. The figure included legal & consultant fee of Rs 2.232 million showing increasing by 107% over previous year i.e. Rs 1.078 million. The figure is silent by means of notes, abnormal increase under the head need justification.

14.2.2.9 Finance Expenses increased by 57.51% to Rs 18.047 million in 2022-23 (2021-22 – Rs 15.134 million). The figure included consultation fee of Rs 236,256 in 2022-23 (2021-22 – Rs Nil). Payment needs to be justified as the figure is silent by means of notes.

14.2.2.10 The External Auditors issued qualified opinion on the accounts of the Board during the year under review on the basis of following points:

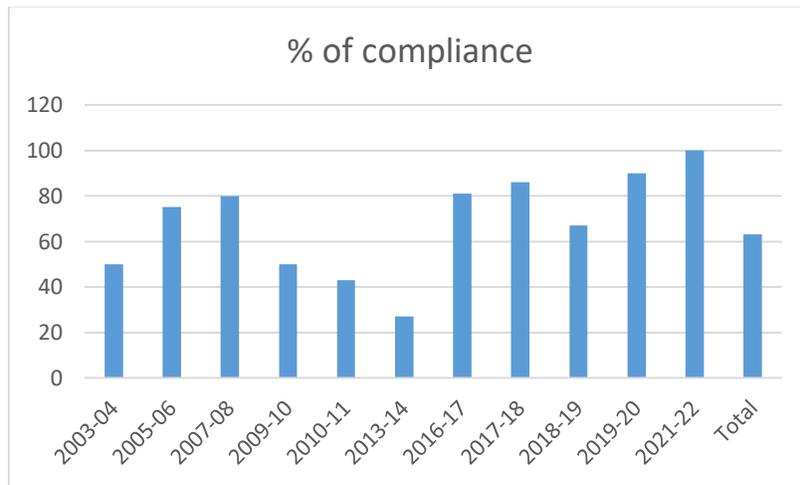

- i. Staff Retirement Benefits have been recorded as per Actuarial Valuation Report carried out as on June 30, 2022. However, no Actuarial Valuation has been carried out for staff retirement benefits as on June 30, 2023 as per IAS-19 Employee Benefits (Note-12) as a result, unable to determine any adjustment required thereon.
- ii. The Board has maintained General Provident Fund for its employees under the General Provident Fund as per Federal Government rules, while the same has not been inserted in the accompanying financial statements of 2022-23.

The management is stressed for early removal of said qualifications.

14.2.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No	% of compliance
2003-04	04	02	02	18 & 18.1, 18.2	50
2005-06	04	03	01	26	75
2007-08	05	04	01	17	80
2009-10	08	04	04	27, 28, 30, 33	50
2010-11	16	07	09	2.5.2.2, 2.5.2.3, 2.5.2.6, 2.5.2.8, 2.5.2.9, 2.5.2.10, 2.5.2.11, 2.5.2.12,	43

				2.5.4.1	
2013-14	11	03	08	4.6.2.1, 4.6.3, 4.6.4.1, 4.6.4.2, 4.6.4.3, 4.6.4.5, 4.6.4.7, 4.6.4.8	27
2016-17	16	13	03	3.6.3, 3.6.4.8, 3.6.4.1	81
2017-18	07	06	01	4.5.3	86
2018-19	09	06	03	4.6.3, 4.6.4.2, 4.6.4.3	67
2019-20	10	09	1	12.2.4.7	90
2021-22	01	01	0	-	100
Total	91	58	33		63

Overall compliance of PAC directives was very poor which needs immediate attention of PAO.

Chapter-16

Ministry of Science and Technology

Overview

The Ministry of Science and Technology concerned with Pakistan and in general, Pakistan's science policy, planning, co-ordination and directing of efforts to initiate and launch scientific and technological programs as well as projects aimed at economic development.

Aims & Objectives

The ministry is established has a sanctioned strength of 176 personnel and 17 on development side. The work is divided amongst Administration & Finance Wings and five technical wings; namely, (i) Policy & Coordination, (ii) the Planning & Development, (iii) the Technology, (iv) the International Liaison, and (v) the Electronics Wing. Efforts to consolidate achievements in the priority areas included: Human-Resource Development; Transfer of Technology from R&D Institutions and Universities to Industry; Food & Agriculture; Analytical Centers for Industrial Analysis, Industrialization, Health, Electronics, Ocean Resources, New Materials, Biotechnology, Textiles, and Pharmaceuticals.

Governing Laws and Policies

- Rule of Business 1973

Audit Profile of Ministry of Science and Technology

(Rs in million)

Classified Summary of Audit Observations

Audit observations amounting to Rs 588.084 million were raised as a result of this audit. This amount also includes recoverable of Rs 71.65 million as pointed out by the audit. Summary of the audit observation classified by nature is as under:

Sr. No.	Classification	Amount (Rs in million)
1	Non Production of record	-
2	Reported cases of fraud, embezzlement and misappropriation	-
3	Irregularities	
A	HR/Employees related irregularities	2.750
B	Procurement related irregularities	81.750
C	Management of accounts with Commercial Banks	3.045
4	Value for money and services delivery issues	-
5	Others	500.539

16.1 Pakistan Science Foundation

16.1.1 Introduction

Pakistan Science Foundation was established on February 02, 1973 under PSF Act. It is working under the Ministry of Science and Technology. The organization has no share capital and it receives development and non- development grants from the Government of Pakistan. Its office is situated at G-5/1, opposite Supreme Court Building, Constitution Avenue, Islamabad.

The Foundation is functioning as a financing agency for:

- The establishment of comprehensive scientific and technological information and dissemination Centre;
- The promotion of basic and fundamental research in the universities and other institutions on scientific problems relevant to the economic development of the country;
- The utilization of the results of scientific and technological research including pilot plant studies to prove the technical and economic feasibility of processes found to be promising on a laboratory scale;
- The grant of awards, prizes and fellowships to individuals engaged in developing processes, products and inventions of consequence to the economy of the country.

16.1.2 Comments on Audited Accounts

16.1.2.1 The working results of the Foundation for the year 2021-22 as compared to previous years are as under:

(Rs in million)

	2021-22	%Inc / (Dec)	2020-21	%Inc / (Dec)	2019-20
Income					
Grant from Fed Government	342.497	27.75	268.085	32.05	203.015
Expenditure					
Statutory Scientific function	84.240	38.55	60.799	26.66	48.000
Administrative expenses	258.099	25.42	205.782	12.77	182.471
Total expenses	342.339	28.31	266.581	31.01	203.471
Prior year adjustment	-		-		
Surplus / (Deficit) for the year	0.158	(89.48)	1.503	-	(0.456)

(Source: Annual Audited Accounts)

16.1.2.2 Management received development grant of Rs 342.497 million during the year 2021-22 as against Rs 268.085 million during the year 2020-21. However, the management utilized development grant of Rs 342.339 million that is 99.95% of whole grant. The reasons of utilization of development grant may be intimated to audit.

16.1.2.3 The management incurred Administration Expenses of Rs 258.099 million during the year 2021-22 as against Rs 205.782 million during the year 2020-21, which is increased 25.42 % during the year. The reason of abnormal increase in Administrative expenses needed justification.

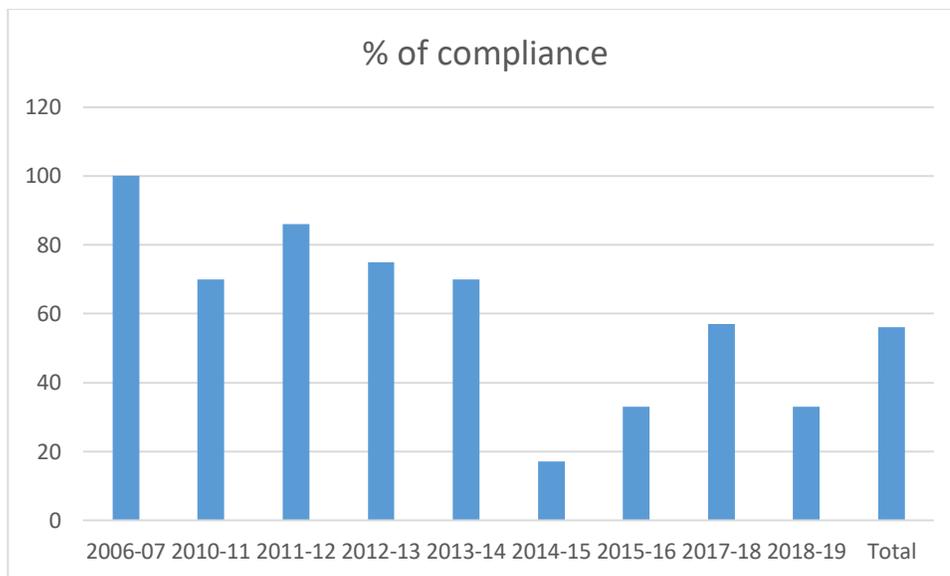

16.1.2.4 At Sr. 13 the management paid Rs 44.550 million as Rent for Residential Building during 2021-22 as against Rs 26.1880 million in previous year 2020-21 which increased 70.16 %. This increased may be needed justification.

16.1.2.5 As Sr. 4.3 the management incurred an expenses of Rs 107.452 million in Talent Framing Scheme during the year 2021-22, as against Rs 56.285 million during the year 2020-21, which is increased 90.90 %. The abnormal increased in this head may be needed explanation to audit.

16.1.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	% of compliance
2006-07	04	04	0	-	100
2010-11	10	07	03	22.1.2.3, 22.1.4.1, 22.1.2.4,	70

2011-12	07	06	01	23.1.2.2	86
2012-13	04	03	01	23.1.2.2	75
2013-14	10	07	03	15.1.2.2, 15.1.4.4, 15.1.4.5	70
2014-15	06	01	05	17.1.2.1, 17.1.2.2, 17.1.2.3, 17.1.3, 17.1.4.1,	17
2015-16	12	04	08	18.1.2.2, 18.1.2.3, 18.1.2.4, 18.1.2.5, 18.1.2.6, 18.1.4.2, 18.1.4.3, 18.1.4.4,	33
2017-18	07	04	03	19.1.2.3, 19.1.2.4, 19.1.2.5	57
2018-19	09	03	06	17.1.2.1, 17.1.2.2, 17.1.3, 17.1.4.1, 17.1.4.2, 17.1.4.5	33
Total	69	39	30		56

Overall compliance of PAC directives was not satisfactory which needs immediate attention of PAO.

16.1.4 Audit Paras

16.1.4.1 Irregular award of Project in violation of PC-1 - Rs 19.943 million

According to PC-I for Competitive Research Programme, each proposal received by PSF shall be pre-screened by PSF staff for compliance with some basic parameters of the funding programme. The proposal shall be sent to at least 02 anonymous peer reviewers for their initial scientific and commercial evaluation. Once a proposal has been passed by peer reviewers, it will be put before Technical Committee

for collective judgment of whether it should be funded by PSF or not. The proposal recommended by the Technical Committee, will be submitted to the Award Committee for a final decision/recommendation for approval. All funding decisions above Rs 8.00 million shall be finally approved by the Project Steering Committee by taking into consideration the recommendation of the Award Committee.

During the audit of Pakistan Science Foundation (PSF) for the year 2021-22, it was observed that Dr. Muhammad Yasir, Assistant Professor, Institute of Space Technology, Islamabad was awarded a Project “Development of a Novel Anti-corrosive and Anti-Fouling Amorphous Coating for Service in high Humidity and Hot Marine Environment” under the CRP 18th protocol through Institute of Space Technology, Islamabad at cost of Rs 19.943 million with completion period of 3 years on 03.06.2021.

As per record, the proposal was neither submitted for peer review nor recommended by the Technical Committee in its meeting held on 05.10.2020. The Project Award Committee approved the project budget of Rs 10.493 million on 28.01.2021 whereas, the Project Steering Committee in its meeting held on 08 & 15 March, 2021 approved the project with total cost of Rs 20 million with completion period of 3 years.

Audit is of the view that the award of project without review of 02 anonymous peer reviewers and without recommendation of the Technical Committee was against the prescribed procedure and tantamount to undue favour to Principal Investigator (PI) and award of project was irregular.

The matter was pointed out to the management on 07.06.2023. The management in its reply dated 13.07.2023 stated that in Steering Committee, the PI explained that anti corrosive and anti-fungal coating would be developed in collaboration with Chinese professors and requested to enhance the project budget to Rs 24.00 million. However, the committee unanimously increased the project cost upto 20.00 million.

The reply is not convincing as the project was processed in violation of prescribed procedure. Further, the project rejected by Technical Committee on 05.10.2020 was approved in violation of the laid down procedure.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility.

Para-1 (PSF – 2021-22)

16.1.4.2 Extra expenditure due to irregular award of work without considering the observations of peer reviewers – Rs 8.715 million

According to PC-I for Competitive Research Programme, each proposal received by PSF shall be pre-screened by PSF staff for compliance with some basic parameters of the funding programme. The proposal shall be sent to at least 02 anonymous peer reviewers for their initial scientific and commercial evaluation. Once a proposal has been passed by peer reviewers, it will be put before Technical Committee for collective judgment of whether it should be funded by PSF or not. The proposal recommended by the Technical Committee, will be submitted to the Award Committee for a final decision/recommendation for approval. All funding decisions above Rs 8.00 million shall be finally approved by the Project Steering Committee by taking into consideration the recommendation of the Award Committee.

During audit of PSF for the year 2021-22, it was observed that two projects “Upscaling and Pilot Production of Life-Saving Portable Ventilator Device” and “Molecular Mapping and Map-Based Cloning of Disease Resistance Genes and Developing New Disease-Resistant Wheat Germ Plasm” were awarded to Dr. Murtaza Najabat Ali, Associate Professor, National University of Science & Technology (NUST), Islamabad and Dr. Awais Rasheed, Assistant Professor, Quaid e Azam University, Islamabad at a total cost of Rs 14.242 million and Rs 11.181 million respectively. The projects were reviewed for technical merit, timelines, and suitability for financial assistance by Dr. Ahmed Shuja Syed, Advisor to Rector, International Islamic University, Islamabad and Mr. Muhammad Nauman Aftab, on 05.05.2020 and 26.06.2019 respectively.

Dr. Ahmed Shuja Syed advised to rationalize the budget by reducing expenses of Rs 4.00 million required for Machine Up-gradation and Software Development as dedicated machines were available in the parent institution at more than one place. Similarly, Mr. Muhammad Nauman Aftab suggested that instead of procurement of multi-mode plate reader for SNP genotyping valuing Rs 4.715 million, the samples could be to China sent for analysis and budget should be revised extensively and reduced considerably.

Audit observed that the remarks of the experts were neither pointed out on the file nor brought into the notice of any competent forum i.e. Technical Committee, Project Award Committee and Project Steering Committee and projects were awarded at the cost proposed/ demanded by P.Is.

Thus, by non-considering the review remarks of the technical expert, projects were awarded in excess of Rs 8.715 million (Rs 4.00 million + Rs 4.715 million).

The matter was pointed out to the management on 07.06.2023. The management in its reply dated 13.07.2023 stated that due to acute shortage of ventilators during COVID-19 pandemic, the main objective of the project was to develop ventilators. The project underwent several stages of review, including presentations to the Technical Committee, Project Award Committee, and Steering Committee. As regards 2nd project, the Project Award Committee endorsed CRP scrutiny committee’s recommendations to reduce the project budget from Rs 18.74 million to Rs 13.73 million. However, after final rationalization, the budget was further decreased to Rs 11.181 million by the Project Award Committee.

The reply is not convincing as observations of the experts were neither pointed out on the file nor brought into the notice of any competent forum and projects were awarded at the cost proposed/ demanded by P.Is.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and complete record pertaining to agenda items of Technical Committee, Project Award Committee and Project Steering Committee meetings be provided to Audit for verification.

Para-2 (PSF – 2021-22)

16.1.4.3 Irregular procurement of permanent equipment for project in violation of PPRA rules - Rs 6.488 million

According to PPRA Rule – 38 (B)(1)(d), the procuring agency shall consider single bid in goods, works and services if it has financial conformance in terms of rate reasonability provided that except unsolicited proposal, in case of pre-qualification proceedings single bid shall not be entertained.

During audit of PSF for the year 2021-22, it was observed that a project “Evaluation of Key Technologies ETHANOL-FUELED SOFCs Power System of Extended Sailing-Range UAV” was awarded to Dr. Majid Khan, Abdul Wali Khan University, Mardan at a cost of Rs 9.695 million on 18.06.2021 with completion period of three years and first installment of Rs 7.420 million was released on 04.06.2021.

Audit observed that in response to advertisement for procurement of Lab equipment / permanent equipment dated 09.02.2022, two bidders participated in the bid. The Technical Evaluation Committee disqualified M/s Lab Care Enterprises for not meeting technical requirements and supply order was awarded to M/s Continental World Wide Trading Company Karachi without assessing financial conformance in terms of rate reasonability. Despite successful installation on 21.06.2022, the equipment faced operational issues due to high voltage. Further, first Fiscal Report for the period 31.08.2021 to 28.02.2022, total grant received during the period was Rs 7.420 million out of which Rs 6.963 million were utilized which included Rs 6.488 million for procurement of equipment. As per fiscal report, the equipment was procured upto 28.02.2022 whereas the procurement of said equipment was initiated in February 2022 and payment was made in the month of October, 2022.

Audit is of the view that the procurement was made without observing financial conformance in terms of rate reasonability as per rules hence procurement was held irregular.

The matter was pointed out to the management on 07.06.2023. The management in its reply dated 13.07.2023 stated that the financial proposal of M/s Continental Worldwide Trading Company Karachi was less than the estimated / budgeted price despite inflation and local currency devaluation. The delay in payment was due to administrative official processes of the grantee institute.

The reply is not convincing. As per PPRA, financial conformance in terms of rate reasonability was required to be ascertained. Further, as per advertisement, opening of bid date was 01.03.2022 whereas the first fiscal report for the period from 31.08.2021 to 28.02.2022 indicated expenditure of Rs 6.488 million for the procurement of permanent equipment prior to the opening of the bids. Nothing was intimated as regards application issues due to high voltage.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to investigate the matter and fix responsibility for non-observance of PPRA rules, intimate the exact date of receipt of equipment duly supported with documentary evidence and the status regarding application issue and certificate regarding functioning of the equipment be produced to Audit for verification.

Para-3 (PSF – 2021-22)

16.1.4.4 Non-execution of project and non-surrendering of funds – Rs 19.389 million

According to Para 4.6 (Chapter 4) of Guideline for Project Management issued by Planning Commission, all unspent balances/ funds should be surrendered finally by the 15th May of the financial year.

During audit of PSF for the year 2021-22, it was observed that a Project “STEM Education through Establishment of Space Museum / Planetarium / Moon Sighting Observatory in Islamabad” was awarded to Dr. Azmat Hayat Khan, Chief Meteorologist, Pakistan Meteorological Department, Islamabad on 22.02.2021 with a budget of Rs 19.603 million and a one-year completion period. However, due to Dr. Azmat Hayat Khan's impending retirement, Dr. Khalid Mehmood, Curator of PMNH, was nominated as the Principal Investigator. Contrary to the clauses of contract agreement and award letter, funds of Rs 19.389 million released vide Cheque dated 22.06.2021 were deposited in current account No. 1376010007000 of PMNH; maintained in UBL bank instead of the designated account.

Audit observed that the project was initially approved and funds released but in 6th Steering Committee meeting held on 06.09.2022, the Committee directed to drop the research grant. However, the un-spent funds remained in PMNH current account since 22.06.2021 whereas the same should have been surrendered to the government before 31st May, 2022.

Audit is of the view that non-utilization and non-surrender of funds was a serious lapse on the part of the management. Further, keeping the funds in current account was loss to the public exchequer.

The matter was pointed out to the management on 07.06.2023. The management in its reply dated 13.07.2023 stated that the project status was on-going on 22.06.2022. Following the 6th Steering Committee directives, the project fiscal scrutiny is in progress and project will be closed on adjustment of expenditures and depositing of unutilized amount to Government treasury as soon as possible.

The reply is not convincing as the 6th Steering Committee held on 6th September 2022 directed to drop this research grant from CRP but the project was still not closed. Further, no dedicated bank account for the said project was opened.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating why funds have not been surrendered despite a year passing since the 6th Steering Committee meeting, fixing responsibility for this delay. Further, the reason for not opening of dedicated project account be intimated and the funds be deposited into Government treasury without further loss of time.

Para-4 (PSF – 2021-22)

16.1.4.5 Irregular award of project in violation of PC-1 - Rs 19.00 million

According to PC-1, grant for individual scientists/technologist working in the R&D/S&T organizations and Universities will not exceed Rs 8 million and Consortium Research Grants for addressing National Challenges and Issues awarded to joint ventures of the public sector organizations with each other or with private organizations, the limit of funding will be upto Rs 20 million.

According to Clause 4 of the contract agreement, the party shall spend funds strictly in accordance with detail shown in project budget attached as annexure A to the agreement. Any deviation in this regard

would require prior approval of the Foundation without which all un-authorized expenditure will be disallowed.

During audit of PSF for the year 2021-22, it was observed that a project “Development of Artificial Intelligence Based CADx system for Rapid Diagnosis of COVID-19 patients using Chest-X (CXR) and Computer Tomography (CT) Scans” was awarded to Dr. Ayesha Isani Majeed, Associate Professor/ Head of Department of Radiology, Pakistan Institute of Medical Sciences Hospital (PIMS)/SZABMU, Islamabad as Principal Investigator (PI) at a cost of Rs 19.00 million on 23.06.2020 with stipulated completion period of one(01) year.

Audit observed that the project was awarded to an individual as a consortium for Rs 19 million. Audit also observed that the PI published tender for procurement of X-ray Films, Hard Drive and CPU with Graphical Processing Unit for the project. M/s Medequip quoted lowest rates of Rs 15,000 for X-ray films per packet and Rs 60,000 for hard drive whereas M/s Cloud Enterprises quoted the lowest rates of Rs 410,000 for CPU with GPU. The PI issued supply order for X-ray films to M/s Medequip but did not issue supply order for hard drive. M/s Cloud Enterprises also refused to supply the CPU with GPU. The PI by floating a new tender procured hard drive and CPU with GPU from M/s Islamabad Medical Engineering at a cost of Rs 154,000 and Rs 1,496,000 respectively which resulted into loss of Rs 1,180,000 {(i.e. Rs 154,000 - Rs 60,000) + (Rs 1,496,000 - Rs 410,000)}.

It was also observed that the PI procured the equipment in May and July 2022 after the project's intended completion date of 22.06.2021. The Principal Investigator informed the Foundation that final technical and fiscal report was submitted to subject expert on 20.05.2022 whereas procurement was made in May and July 2022 which created doubt about the project's completion.

Audit is of the view that the award of project of Rs 19 million to an individual above the limit of Rs 8 million was irregular due to violation of PC-1 provisions. Further, procurement was made after submission of final technical and fiscal reports, revealing delays in project completion and failure to meet objectives within the specified timeframe.

The matter was pointed out to the management on 09.06.2022. The management in its reply dated 13.07.2023 stated that the said project involved two Co-PIs from different organizations which meet the requirements of consortium research grant. The bids received in response to earlier tender for CPU were not as per required technical requirements, therefore, new tender was floated by observing the PPRA Rules and M/s Islamabad Medical Engineering were awarded the contract being technical qualified lowest bidder. The final technical report was received and sent for evaluation to subject expert in September 2022. Therefore, the procurement of permanent equipment was done before the submission of final Technical Report and report was adopted by 30th Technical Committee held on 20.02.2023 as satisfactory.

The reply is not convincing as the project was not a consortium as functions to be performed by Co PI had not been defined in the project proposal. Further, as per technical evaluation report, M/s Cloud Enterprises had qualified for CPU with GPU but the purchase order was not given and due to delay in procurement, the project delayed.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to investigate the matter to ascertain the reasons for award of project as a consortium and why supply order for the procurement of hard drive was not issued to M/s Mediequip and CPU with GPU to M/s Cloud Enterprises at lower rates which resulted into loss of Rs 1,180,000 and fix responsibility on the person(s) at fault.

Para-5 (PSF – 2021-22)

16.1.4.6 Irregular payment of honorarium from development fund to PSF regular staff - Rs 2.75 million

According to approved PC-1 of Development Project “Science Talent Farming Scheme (STFS)” honorarium will be paid to its project staff, university mentors and Science Teachers.

As per S. No. 17 of Annex-I to Finance Division OM No. F.3(2) Exp.III/ 2006 dated 13.09.2006, the amount of honoraria should not exceed one month’s pay of the government servant concerned on each occasion. In the case of recurring honoraria, this limit applies to the total of recurring payments made to an individual in a financial year.

During audit of PSF for the year 2021-22, it was observed that PSF management paid honorarium of Rs 2.75 million from development project “Science Talent Farming Scheme (STFS)” to its regular staff in violation of the approved PC-1 of the project. The said staff was also paid honorarium from the regular budget of PSF.

Honorarium paid to the regular staff of PSF was held as irregular in Audit.

The matter was pointed out to the management on 07.06.2023. The management in its reply dated 13.07.2023 stated that as per approved PC-I, 14 posts were allocated in the STFS project. There were only two officers hired whereas the remaining 12 posts were vacant. Due to shortage of project staff, services of regular officers/officials of PSF were obtained for smooth execution of the project activities.

The reply is not convincing as honorarium was paid to 141 officers and staff whereas the total sanctioned posts of the project were 14. Further, payment of honorarium was also made to the staff from the regular budget of PSF.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends fixing responsibility on the person(s) at fault for grant of honorarium to irrelevant staff and recovering the amount from the employees concerned or the person(s) held responsible.

Para-6 (PSF – 2021-22)

16.1.4.7 Non-execution of project activities as per approved revised PC-I– Rs 82.940 million

According to activity plan of Revised PC-1 of the Development Project “Science Talent Farming Scheme (STFS)” section 6(xiv) “For developing research aptitude, STFS students will be attached with university faculty for undertaking research in science subjects viz. Physics, Chemistry, Biology/ Computer Sciences and Mathematics. Furthermore, science teachers will be selected from/nearby colleges to supplement their formal education.”

According to (Annexure VIII-A) “The selected students for STFS will be attached from very beginning i.e. from the 1st year of their selection. Each student will complete a research project in one academic year, no matter in which class or grade he/she might be. The expenditure on the research projects by the students will be borne out of the STFS funds. The students will use the laboratories of the research organizations/ academic institutions as well as expertise of the teachers and researchers”.

During audit of PSF for the year 2021-22, it was observed that as per activity plan of the development Project “Science Talent Farming Scheme (STFS)” all the 300 students of 4th batch and 300 students of 5th batch (Total 600) would participate in research projects from the 1st year of their selection supervised by the mentors/Science teacher, and PSF management.

The record revealed that only 166 and 115 students completed their research projects in 4th and 5th batch respectively while 319 students of both batches did not respond. As per activity plan of the revised PC-I, PSF management paid Rs 260,000 (@ Rs 130,000 for 1st and 2nd year) to each student. Total amount paid by PSF management to all 600 students was Rs 156.00 million.

Audit is of the view that PSF should not have paid to those students who did not participate in their research projects in the first year. Thus, an amount of Rs 82.940 million (319 students x Rs 260,000 per student) paid to the students who did not complete their research projects in both batches was held irregular in Audit.

The matter was pointed out to the management on 07.06.2023. The management in its reply dated 13.07.2023 stated that in accordance with approved PC-I, all the students of STFS 4th & 5th batch were on individual basis. Most of the students undertook research work in groups of 2-5 students per group and submitted the research report to PSF. However, some of them did not submit their research work/posters to PSF and the remaining students were being pursued to complete their research work and submit reports.

The reply is not convincing as the task had already been delayed but the research work of the students was still awaited which indicated that the students were not pursued properly from the 1st year and payments were also made to them despite the fact that they were not involved in research work.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends recovery either from the students concerned or the person(s) responsible for making payment to the students who did not start research work from the 1st year of their studies.

Para-7 (PSF – 2021-22)

16.1.4.8 Irregular payment to the failed students of the STFS project - Rs 68.9 million

According to S. No. IV of terms & conditions of bond of scholarship given at Annex-V of Revised PC-1 of the Development Project “Science Talent Farming Scheme (STFS)” in case the Student fails to qualify the course for which he/she was awarded Scholarship, the PSF/STFS reserves the right to recover all the payment received and or a penalty equal to total Scholarship amount from the Party-II. According to S. No. XIII of terms & conditions of bond of scholarship, in case the Student “fail” or obtain below satisfactory score in 1st year or 2nd year, the STFS facilities shall be withdrawn immediately.

During audit of PSF for the year 2021-22, it was observed that as per activity plan of the revised PC-1 of “Science Talent Farming Scheme (STFS)”, monetary benefits @ Rs 10,000 per month (for books/note books and some personal allowances) along with tuition fees @ Rs 10,000 per year to each student of batch-IV & V, i.e. Rs 130,000 had to be paid to each student.

The record revealed that management paid Rs 156 million (@ Rs 130,000 per student x 300 students for batch-IV& V including passed and failed). Audit observed that 247 students passed in 4th batch and the remaining 53 students’ results were not found. In 5th batch, only 88 students passed while the remaining 212 students’ results were also not found. Total number of 335 students in both batches completed their HSSC degrees while 265 students’ results were not provided by the management.

Audit is of the view that PSF should recover Rs 68.9 million (156.00 – 87.1) from 265 students in both batches who failed to complete their studies in batch-IV and V.

The matter was pointed out to the management on 07.06.2023. The management in its reply dated 13.07.2023 stated that no one of STFS students failed in F.Sc. However, some students had not submitted their result cards and STFS-PMU was pursuing the remaining students to submit result cards at the earliest.

The reply is not convincing as the results cards should have been obtained immediately after the announcement of results.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to provide the result cards of all the students to Audit otherwise recovery be made from the students who failed or did not provide their result cards without further loss of time.

Para-8 (PSF – 2021-22)

16.1.4.9 Poor execution of projects and non-appointment of project staff resulting into surrender of funds - Rs 281.652 million

According to Project Management Guideline 3.3 after the opening of Project Account, the next step should be the hiring of office space and appointment of key project staff. The appointment of project staff under the project should be made through open competition and in transparent manner. In this connection,

a recruitment committee for the selection of Project Director chaired by the Principal Accounting Officer along with members from Planning Division, Finance Division and Establishment Division already notified by the Planning Commission should be considered. Approval for the recruitment of project staff is the responsibility of Project Director. No approval is required from any forum if the TORs are provided in the approved PC-I.

During audit of PSF for the year 2021-22, it was observed that DDWP approved a project “National Technology Innovation Through Industry Research Centers and other Stakeholders Collaboration” on 10.12.2020 at cost of 1,959.496 million to be executed within 60 months. During the FY 2021-22, an amount of Rs 200 million was released on 06.11.2021 out of which an amount of Rs5.834 million could only be utilized and balance amount of Rs 194.166 million was surrendered.

Similarly, another project “Launching of STEM in Pakistan Phase-I” was approved by DDWP on 04.08.2021 at a cost of Rs 993.784 million. The budget for the FY 2021-22 was approved as Rs 180.00 million out of which an amount of Rs 90.00 million was released on 10.01.2022. However, only Rs 2.514 million were spent, leading to the surrender of the remaining balance of Rs 87.486 million.

Audit is of the view that due to failure of management to hire the services of essential staff, projects’ execution was hindered which resulted into non-achievement of projects’ objectives. Consequently, a total amount of Rs 281.652 million (Rs 194.166 million + Rs 87.486 million) was surrendered for both projects respectively.

The matter was pointed out to the management on 07.06.2023. The management in its reply dated 13.07.2023 stated that on 11.11.2021, a recruitment advertisement was released for project staff, followed by shortlisting and tests for applicants. However, the Ministry of Science and Technology stopped the process of appointment due to the non-observance of quota. Subsequently, a new recruitment case was initiated and quota was observed and the recruitment process for the said projects was completed in 2022-23.

The reply of the management is not convincing because as per standing instructions of the Government, provincial quota had to be observed which was not done which resulted into delay in recruitment, non-execution of projects and surrender of funds.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing responsibility on the person(s) at fault.

Para-9 (PSF – 2021-22)

16.1.4.10 Irregular procurement of Projects’ equipment in violation of PPRA rules - Rs 56.357 million

According to rule 12 (1) of PPRA rules 2004, procurements over five hundred thousand Pakistani Rupees and up to the limit of three million Pakistani Rupees shall be advertised on the Authority’s website in the manner and format specified by regulation by the Authority from time to time. These procurement opportunities may also be advertised in print media, if deemed necessary by the procuring agency. According to rule 12 (2), all procurement opportunities over three million Pakistani Rupees should be

advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

According to the annexure-A of project budget, all procurement over Rs 100,000 and up to the limit of Rs 2 million shall be advertised on PPRA's website in the manner and format specified by the regulation, by the Authority from time to time while that over Rs 2 million shall also be advertised in print media or Newspapers.

During audit of PSF for the year 2021-22, it was observed that the management released financial assistance for procurement of equipment for "Research Projects under International Liaison" and "Research Support Program" to different Universities/ Principal Investigators. The Universities/ Principal Investigators did not share the procurement process / record with Foundation which depicts that the procurements were made without observing Public Procurement Rules and in violation of clauses of contract agreements. Hence, the procurement of permanent equipment of Rs 56.357 million (Annex-92) made for the projects was held irregular in Audit.

Audit is of the view that the procurement of Rs 56.357 million made in violation of clauses of contract agreements was irregular.

The matter was pointed out to the management on 07.06.2023. The management in its reply dated 13.07.2023 stated that the matter of procurement was dealt in the respective grantee organization (Public Sector University or R&D institution), which were also liable to follow the GoP rules/PPRA rules in accordance with their own rules. In this connection, the fiscal reports duly vetted by their own concerned departments/officials were shared with PSF.

The reply is not convincing as the documents provided with the reply did not indicate that the procurements were made observing PPRA rules.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter for procurement of equipment in violation of procurement rules and fixing responsibility thereof.

Para-12 (PSF – 2021-22)

16.1.4.11 Irregular procurement of Projects' equipment in violation of PPRA rules - Rs 14.125 million

According to rule 13 of PPRA, the procuring agency may decide the response time for receipt of bids or proposals (including proposals for pre-qualification) from the date of publication of an advertisement or notice, keeping in view the individual procurement's complexity, availability and urgency. However, under no circumstances the response time shall be less than fifteen days for national competitive bidding and thirty days for international competitive bidding from the date of publication of advertisement or notice.

According to rule 38B (1)(d) of PPRA, the procuring agency shall consider single bid in goods, works and services if it has financial conformance in terms of rate reasonability.

During audit of PSF for the year 2021-22, it was observed that the management released financial assistance for procurement of equipment to different Universities/ Principal Investigators. The record pertaining to the following projects revealed the discrepancies as mentioned there-against:

S. No.	University	Project	Date of approval	Item	Cost (Rs in million)	Remarks
1	University of Engineering & Technology, Peshawar	Design & Structure modulation of Nano-Composite Membrane with Bi-Intersection for juice concentration. {PSF/NSFC-II/Eng/KP-UET (09)}	01.03.2018	Design and Fabrication / purchase of FO system for testing ceramic membranes	2.477 (approx.)	- Only single bidder participated who was awarded the supply order without assessment of rate reasonability as per PPRA rules. - Only fifteen days' response time was allowed for international bidding.
2	University of the Punjab, Lahore	Solar-Light-Driven Simultaneous Hydrogen Generation and Water Purification by Synergetic Adsorption and Photo catalysis {PSF/NSFC-IV/Phys/P-PU (31)}	01.12.2021	Solar Simulator and Gas Chromatograph	11.648	- LC was opened by the University.

Audit holds the view that procurement of Rs 14.125 million made in violation of procurement rules was irregular.

The matter was pointed out to the management on 07.06.2023. The management in its reply dated 13.07.2023 stated that in compliance of PPRA Rule 38B (1) (d), the fair price certificate was obtained from the concerned bidder on legal paper. Further, the advertisement was given in the daily Jang Lahore on February 20, 2022. In this case, 24 days were given for bidding due to Punjab University Central Purchase

Committee fixed dates of meeting during covid-19, the dates were slightly shifted and to put the maximum cases into early meetings.

The reply is not convincing as the rate reasonability was to be determined by the Universities concerned in the case of single bidders which was not done. Further, the response time was also in violation of the PPRA rules.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter for procurement in violation of PPRA rules and fixing responsibility thereof.

Para-13 (PSF – 2021-22)

16.1.4.12 Irregular procurement on quotation basis by splitting the demand - Rs 2.53 million

According to Rule (9) of PPRA rules, a procuring agency shall announce in an appropriate manner all proposed procurements for each financial year and shall proceed accordingly without any splitting or regrouping of the procurements so planned. The annual requirements thus determined would be advertised in advance on the Authority's website as well as on the website of the procuring agency in case the procuring agency has its own website.

During audit of Pakistan Museum of Natural History (PMNH) for the year 2021-22 it was observed that different items valuing Rs 2.53 million (Annex-93) were procured on quotation basis by splitting the demand.

Audit is of the view that irregular procurement made was by splitting the demand in violation of the rules.

The matter was pointed out to the management on 07.06.2023. The management in its reply dated 13.07.2023 stated that the material was procured from local market on demand by the various Research Divisions of PMNH time to time on competitive rates by observing the PPRA rules from different vendors/suppliers and properly installed under the supervision of PMNH scientists.

The reply is not convincing as the procurement was made in piece meal by splitting the demand in violation of PPRA rules.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter for procurements made in violation of PPRA and fixing responsibility on the person(s) at fault.

Para-14 (PSF – 2021-22)

16.1.4.13 Irregular procurement of permanent equipment for project in violation of PPRA rules - Rs 2.250 million

According to Rule-12 (1) of PPRA 2004, procurements over five hundred thousand Pakistani Rupees and up to the limit of three million Pakistani Rupees shall be advertised on the Authority's website in the manner and format specified by regulation by the Authority from time to time. These procurement opportunities may also be advertised in print media, if deemed necessary by the procuring agency. According to rule-20 of PPRA-2004, procuring agencies shall use open competitive bidding process as the principal method of procurement for goods, services and works.

During audit of PSF for the year 2021-22, it was observed that a project "Development of Inhibitors Targeting the Viral as well as Host Factors of Severe Acute Respiratory Syndrome Corona Virus-2 (SARS-CoV-2): A way forward to Develop a High Potency Treatment Therapy" was awarded to Dr. Mazhar Iqbal, TI, Professor and Deputy Chief Scientist Health Biotechnology Division, NIBGE-College PIEAS, Faisalabad at cost of Rs 9.840 million with completion period of one year.

The record revealed that Principal Investigator procured Chemistry High Vacuum System from M/s ATIS MAKINA IC VE DIS TICRET LTD STI vide supply order dated 23.07.2021 and payment of Rs 2.250 million was made to M/s Intra Link Incorporated, Islamabad from DGTP account No. 38-2 maintained with NBP Pakistan Atomic Energy Commission. The record related to procurement process of said equipment was not available in project file which showed that procurement was made without observing procurement rules. Further, there was no evidence of a separate project bank account being maintained as stipulated in the contract agreement and award letter.

Audit is of the view that the procurement was made without observing open competitive bidding process as the principal method of procurement. Thus, procurement of equipment of Rs 2.250 million was held irregular.

The matter was pointed out to the management on 07.06.2023. The management in its reply dated 13.07.2023 stated that purchase of Chemistry High Vacuum System was made through a limited tender basis. Furthermore, M/s Intra Link Incorporated, Islamabad was sole agent for Pakistan of M/s ATIS MAKINA IC VE DIS TICRET LTD STI. The receiving and disbursement of funds of PSF Project was done through a dedicated account (A/C No. 3139237376, NBP AARI Branch, Faisalabad) for PSF Projects awarded to NIBGE.

The reply is not convincing as procurement of Chemistry High Vacuum System was not made through open tender in violation of PPRA rules. Further, the bank statement showed that the dedicated account for the project was not opened.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter regarding procurement without open advertisement and fixing responsibility thereof.

Para-15 (PSF – 2021-22)

16.1.4.14 Non-appointment of a regular incumbent against the post of Director General, PMNH

Estt. Division O.M.No.1/21/76-AR. I/R-II, dated 18.06.1980, as amended vide O.M. of even number dated 10.04.1981 states the conditions for appointment on current charge basis as follow:

- (i) the arrangement should not be made for a period of less than one month and should not exceed three months. However, it may be extended by another three months with the approval of the next higher authority;
- (ii) as soon as the current charge is given, a proposal for regular appointment should be initiated and referred to DPC/CSB within a month; and
- (iii) in making current charge arrangement, the senior most officer available in the organization and present at the place where the vacancy may have occurred, if he is otherwise fit and eligible for promotion, should be considered.

According to Cabinet Division letter dated 12.07.2019, the Cabinet in its meeting held on 09.07.2019 under case No. 627/28/2019 reiterated its earlier decision whereby it had been desired that the existing practice to entrust additional charge to officers be discontinued and process to fill the vacant position in Federal Government be completed at the earliest.

During audit of PMNH for the year 2021-22, it was observed that no regular incumbent was posted against the post of Director General, PMNH since 29.04.2013 to date. The management filled the post on current charge basis from 29.04.2013 to 01.04.2017 continuously and since 02.04.2017 to date on look after basis to different officers. It was further observed that Dr. Saima Huma Tanveer was promoted in BS-20 against PASTIC promotion quota on 10.06.2021 and assigned her charge of the post of Director General PMNH on look after basis w.e.f. 26.08.2022 to date. This showed that the management failed to fill the key post on permanent basis.

Audit is of the view that filling of key post of Director General, PMNH on current & additional charge basis was contrary to the instructions of Cabinet and Establishment Division.

The matter was pointed out to the management on 07.06.2023. The management in its reply dated 13.07.2023 stated that multiple attempts were made to fill the post through advertisement in 2012, 2015, 2016 and 2021. The last advertisement was made on 13.04.2023 and selection process was in progress at PSF. The appointment of a regular incumbent against the vacant post of Director General PMNH would be made shortly.

The reply is not convincing as the post was advertised time and again but not filled since September 2012.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying the reasons / grounds due to which the appointment of the regular incumbent could not be made and the appointment of regular incumbent be made without further loss of time.

16.1.4.15 Irregular transfer of funds from non-development funds to pay off the liability of development fund – Rs 2.496 million and exchange loss of Rs 0.549 million due to delay in payment

As per general instructions given at S. No. 5 of Annex-I to Delegation of Financial Powers issued vide Finance Division OM No. F.3(2) Exp.III/ 2006 dated 13.09.2006 no re-appropriation may be made: (i) from Development to Current Expenditure and vice-versa.

During the audit of PASTIC for the year 2021-22, it was observed that SAARC Development Fund Board in its 26th meeting held in Colombo, Sri Lanka from February 10-11, 2017 approved a revised project proposal “Networking and Capacity Building of Women Entrepreneurs from SAARC Countries” including Afghanistan and Bhutan. Accordingly, a total sum of US\$ 179,369 equivalent to Rs 27,437,322 {Rs 4,155,639 equivalent to US \$ 30,000 (@ Rs 138.5213 per US\$) and Rs 23,281,683 equivalent to US\$ 149,369 (@ Rs 155.8669 per US\$)} was received on 21.03.2019 and 25.10.2019 respectively. A sum of US\$ 163,538 (equivalent to Rs 25,490,227) was spent upto 31.03.2020 leaving a balance of US\$ 12,492 (equivalent to Rs 1,947,095). The unspent funds of US \$ 12,492.04 (Rs 2,495,910) were transferred to SDF, Bhutan on 02.06.2022.

Audit observed that the unspent funds were transferred from the regular non-development budget of PASTIC for the year 2021-22.

Audit is of the view that instead of transferring the funds from the regular non-development budget, the unspent foreign exchange amount (US\$ 12,492) available in the respective account of the project should have been transferred to SDF immediately after the closure of the project which was not done which resulted into payment of unspent amount from the regular non-development budget of PASTIC in violation of Government instructions. Further, exchange loss of Rs 548,815 was also sustained by the organization.

The complete record pertaining to the Project was demanded but the same was not produced for verification.

The matter was pointed out to the management on 07.06.2023. The management in its reply dated 13.07.2023 stated that after the arrangement of Foreign Exchange Budget, equivalent to Rs 2.300 million (Non-Development) for the F.Y 2021-2022 vide MoST letter dated 16.02.2022, the payment of Rs 2,495,910 was made on 02.06.2022 after completing the procedural and codal formalities with NBP, SBP and Finance Division. Due to gradual increase in dollar rates, exchange loss of Rs 548,815 was incurred.

The reply is not convincing because instead of returning the balance available amount, the payment was made from the regular non-development budget of PASTIC.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends explaining the reasons due to which the balance amount available in the assignment account could not be returned to the donor agency.

Para-17 (PSF – 2021-22)

16.2 Pakistan Scientific and Technological Information Centre

16.2.1 Introduction

Pakistan Scientific and Technological Information Centre (PASTIC) is the premier organization established under the Pakistan Science Foundation Act, 1973 with the objectives of dissemination of scientific and technological information to the scientists, researchers, engineers, entrepreneurs, industries and citizens of Pakistan.

The organization is operating the following accounts through three funds.

1. Non Development Fund which is used for administrative expenses.
2. Reprographic and Documentation in which major source of income is reprography and documentation.
3. Development fund for strengthening and enhancement of reprographic service of PASTIC.

16.2.2 Comments on Audited Accounts

16.2.2.1 The working results of the Centre for the year 2021-22 as compared to previous years are given hereunder:

(Rs in million)

	2021-22	% Inc /(Dec)	2020-21	% Inc /(Dec)	2019-20
Income					
Government Grants- Non Development Account	209.383	12.39	186.297	6.39	175.100
Reprographic and Documentation and others	8.203	95.54	4.195	(46.27)	7.809
Total Income	217.586	14.22	190.492	4.14	182.909
Expenditure					
Non Development Account	209.106	12.24	186.297	7.07	173.980
Reprographic and Documentation	4.259	104.34	1.772	(63.98)	4.920
Depreciation	2.987	(10.84)	3.387	(7.61)	3.666
Total Expenditure	216.352		191.456	4.86	182.566
Surplus/ (Deficit) for the year	1.122		(1.102)		0.170

(Source: Annual Audited Accounts)

16.2.2.2 The management incurred expenditure of Rs 209.106 million during the year 2021-22

on employee related expenses out of total non-development expenditure of Rs 209.383 million incurred during the year, which was 99.86% of the total non-development expenditure, huge expenditure incurred during year, which needed clarification.

16.2.2.3 Total Expenses on Reprographic and Documentation of Rs 4.259 million during the year 2021-22 that is 51.92 % of total Rs 8.203 million. The management explained the utilization of reaming amount of Reprographic and Documentation, which needed justification.

16.2.2.4 An amount of Rs 0.426 million was added in intangible assets during the year 2021-22. The details of such assets may be provided.

16.2.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	% of compliance
2013-14	02	0	02	15.2.1&15.2.2.1,15.2.2.2,	0
Total	02	0	02		0

Overall compliance of PAC directives was not satisfactory which needs to be improved.

16.3 Pakistan Museum of Natural History

16.3.1 Introduction

Pakistan Museum of Natural History (PMNH) is a science center of Pakistan Science Foundation established in 1976 under the patronage of Pakistan Science Foundation, Ministry of Science and Technology (Government of Pakistan). It has four principal divisions namely Botanical Sciences Division, Zoological Sciences Division, Earth Sciences Division and Public Services Division. The first three divisions are engaged in the collection, identification and research activities pertaining to plants, animals and mineral resources of Pakistan respectively, while the latter is responsible for mass education and popularization of natural history through various displays, exhibits and dioramas. In addition, various projects such as Virtual Orientation Gallery (VOG), Biodiversity Database and Global Networking (BGN) and Focus Baluchistan have also been initiated.

Organization's main activity is to research in the field of Natural History. Material collected from field is examined in laboratory and displayed for public in museum. Organization is operating accounts through two funds i.e. Development Fund and Non-Development Fund. Development Fund is used in collection, identification and research activities pertaining to plants, animals and mineral resources, while non-development fund is used only to meet the administrative expenses.

16.3.2 Comments on Audited Accounts

16.3.2.1 The working results for the year 2021-22 as compared to previous years are given below:

(Rs in million)

	2021-22	% Inc/ (Dec)	2020-21	% Inc/ (Dec)	2019-20
Income					
Grant from the Government – Non Development	178.678	11.94	159.619	12.48	141.448
Miscellaneous Receipts	6.992	(68.22)	22.003	344.77	4.947
Total Income	185.670	2.22	181.622	2.062	146.395
Expenditure					
Non-Development expenditure	183.715	13.40	162.002	8.49	149.313
Development expenditure	3.808	(7.86)	4.133	(11.25)	4.657
Miscellaneous payments	10.039	260.59	2.784	(13.08)	3.203
Total Expenditure	197.563	16.95	168.920	7.47	157.173
Surplus/(deficit) of income over expenditure	(8.084)		16.836		(6.115)

(Source: Annual Audited Accounts)

16.3.2.2 The management incurred expenditure of Rs 197.563 million during the year 2021-22 as against of Rs 168.920 million during the year 2020-21. This increased 16.95 % which needed justification.

16.3.2.3 An amount of Rs 178.678 million during the year 2021-22 appeared in non-development increased from Rs 159.619 million from previous year. The reasons of this abnormal increase needs to be ascertained and explained.

16.3.2.4 According to Note 11 an amount of Rs 110.235 million in Pay, Overtime and other allowance during the year 2021-22 as against Rs 82.555 million in 2020-21, which increased 33.52 % needs to be explained. On the other hand the organization in loss. Hence, overtime allowance and pay of every contingent staff may be segregated in the financial statements.

16.3.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras #	% of compliance

Total	02	0	02		-

Overall compliance of PAC directives was not satisfactory which needs to be improved.

Chapter-17

Ministry of Planning, Development and Special Initiatives

Overview

To manage Pakistan's socio-economic development in a strategic and sustainable manner.

Aims & Objectives

Designing and implementing methodology for leadership for planning social and economic development. Development economic programmes designed to achieve competitiveness and leadership for national economy.

Establishing and implementing an approach to strengthen partnership with public agencies private sector and other stakeholder. Coordinating efforts to formulate and achieve development objectives plan and objective to ensure efficiency in performance.

Developing the planning and implementation capabilities of public entities, to facilitate their roles in formulating and implementing plans and strategies.

Governing Laws and Policies

- Rule of Business 1973
- Economic Development Policy of Federal Govt.

5	Others	88,639.376

17.1 National Logistics Cell

17.1.1 Introduction

National Logistic Cell (NLC) was established by the Government of Pakistan vide Notification No. 120/19/78-Min dated August 12, 1978 with main objective of providing uninterrupted logistic facilities in the country. NLC is also engaged in construction activities, infrastructure rehabilitation, and development sector, Management of Dry Ports & Border Terminals, Technical Institutes and Express Freight Train Service, toll collection and other engineering related activities. It is an attached department of Ministry of Planning, Development & Reform of Government of Pakistan.

The main objectives are as under:

- Transportation of commodities from one location to other by all available means.
- Hiring/maintenance of storage facilities.
- Carrying out construction of roads and other engineering projects
- Building of truck bodies and chassis of various makes.
- Revenue generation through toll collection.
- Management of Dry Ports and Border Terminals.
- Express Freight Train Service.

17.1.2 Comments on Audited Accounts:

17.1.2.1 The working results of the NLC for the year 2021-22 & 2022-23 as compared to the previous year are as follows:

(Rs in million)

	2022-23	% Inc/ (Dec)	2021-22	%Inc /(Dec)	2020-21
Revenue	113,948.92	81.401	62,816.10	32.554	47,389.08
Operating Costs	102,832.06	80.257	57,047.54	36.600	41,762.37
Gross Profit	11,116.86	92.715	5,768.56	2.521	5,626.71
Administrative expenses	2,125.80	26.488	1,680.63	24.905	1,345.53
Other operating Income	1,857.20	7.741	1,723.78	(67.111)	5,241.15
Operating profit	10,500.33	88.942	5,557.45	(40.114)	9,279.99
Finance costs	152.921	321.084	36.316	85.532	19.574
Net Profit	10,347.34	87.075	5,531.13	(40.271)	9,260.42
Reserves	59,347.05	20.781	49,136.25	12.725	43,589.46
Current Assets	63,146.26		53,007.12		49,104,740
Current Liabilities	41,491.90		36,186.53		29,637,896
Current Ratio	1.52		1.46		1.65

(Source: - Annual Audited Accounts)

The organization's revenue experienced a remarkable 81.401% increase in the fiscal year 2022-23. However, revenue from two specific sources witnessed a decline: rental income from freight trains decreased by 5.851%, and income from dry ports decreased by 14.251% compared to the previous financial year (2021-22). Additionally, tolling revenue showed a substantial decrease of 80.394% during the year 2021-22 as compared to the preceding year. The management is required to provide an explanation for the downward trend in revenue from the mentioned sources.

17.1.2.2 The operating cost of the NLC increase by 80.857% (Rs 102,832.06 for the year 2022-23) in comparison to the preceding year, with figures of Rs 7,047.54 for 2021-22 and Rs 41,762.37 for 2020-21. This extraordinary increase is attributed to the escalation in specific categories, namely: Cost of Construction Project (Rs 62,998.414 million), Hired mechanical transport charges (Rs 22,829.682 million), Salaries, wages, and benefits (Rs 4,632.568 million), and Vehicles and plant running expenses (Rs 7,291.859 million) during the financial year 2022-23. The substantial increase needs to be justified.

17.1.2.3 The net profit witnessed a decline of 40.271%, with figures of Rs 5,531.13 million for the year 2021-22 and Rs 9,260.42 million for the year 2020-21. The decrease in net profit during the financial year 2021-22 needs to be justified.

17.1.2.4 Retention money amounting to Rs 8,525.562 million is receivable for projects completed but not yet technically and financially closed as of June 30, 2023. The prolonged blockade of significant funds is a result of the poor execution of civil works. The management is urged to prioritize the early recovery of retention money and provide justification for the substantial amount blocked.

17.1.2.5 Trade debts stood Rs 16,525.7999 million as on 30th June, 2023 and Rs 11,574.067 million as on 30th June, 2022. The management is strongly encouraged to prioritize the early recovery of trade debts and detailed breakdown of trade debts, including aging be provided to audit.

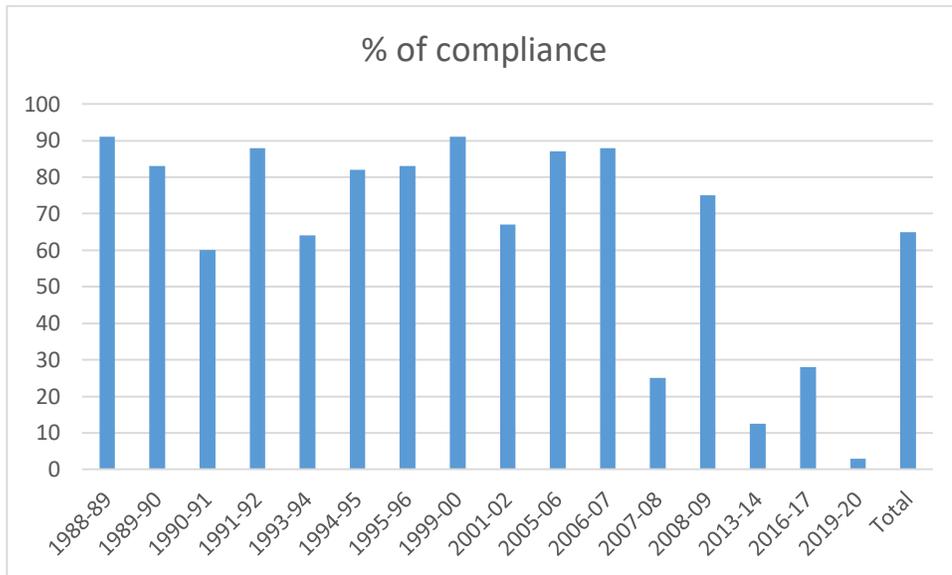

17.1.2.6 Advances, Deposits, Prepayment and other Receivables includes Rs 491.118 million as on 30th June, 2023 and Rs 251.401 million as on 30th June, 2022. The abnormal increase in other receivables requires justification, and the management is strongly urged to prioritize early recovery measures.

17.1.2.7 In the fiscal year 2022-23, the management invested Rs 482.220 million in Pakistan Investment Bonds and Rs 500 million in TDRs during the financial year 2021-22. Additionally, NLC holds cash in hand in the current account, amounting to Rs 12.278 million, and Rs 8,256.342 million in deposit accounts as of June 30, 2023. To ensure transparency in the investment process and prudence in treasury management, a complete record of investments made in each year, along with the determination of working capital balance, be provided to the audit.

17.1.2.8 Long Term Loan to wholly-owned subsidiary NLC Developer (Pvt.) Ltd stood at Rs 1,386.745 million as of June 30, 2023, as compared to Rs 1,379.358 million on June 30, 2022, and have been outstanding since February 2008. Additionally, the timing of the loan recovery is uncertain. Audit recommends expediting the early recovery of the loan from NLC Developer (Pvt.) Ltd and justifying the reasons for the long outstanding loan.

17.1.3 Compliance of PAC Directives:

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	% of compliance
1988-89	11	10	01	541	91
1989-90	23	19	04	635,640,648,650	83

Total	170	112	58		65

Overall compliance of PAC directives was not satisfactory which needs to be improved.

17.1.4 Audit Paras

17.1.4.1 Irregular procurement of steel and enhancement of rates in violation of procurement rules - Rs 3,265.951 million

According to PPRA (Public Procurement Regulatory Authority) Rule 16A, procurement of recurrent or common use items, services, and commodities through framework agreements is allowed for a maximum period of three years. The procuring agency is required to prepare provisional annual estimates, initiate prequalification proceedings, and select suppliers based on rational demand estimates. The agency can also pre-qualify new suppliers during the continuity of framework agreements. Rule 16B allows for price adjustments during contract execution in case of above-normal price volatility. The procuring agency can accept requests for price adjustment, compare prices against national or international indicators, and determine the factor or percentage for adjustment, subject to approval by the Principal Accounting Officer (PAO). The Authority is authorized to establish regulations, regulatory guides, guidelines, or templates for procurement through framework agreements.

During the audit of NLC HQ for the year 2022-23, irregularities in the procurement process of deformed steel included:

1. The management did not prepare provisional annual estimates, including description, specifications, statement of requirements, and quantities based on rational demand estimates, as required under the rules.
2. The management increased the rates of deformed steel procured from M/s Faizan Steel Mills by 175%, from Rs 108,000 to Rs 298,000 per metric ton, with the approval of the Price Variation Committee, without seeking approval for price adjustment from the Principal Accounting Officer (PAO) as required by the rules.

3. The management granted an extension in the contract with steel mills without obtaining approval from the competent forum the Officer in Charge (OIC).

Audit is of the view that the procurement through the Rule-16A Rate Running Contract, the rate enhancement, and the extension in the contract period were irregular and did not follow the necessary procedures outlined in Rule 16B of the PPRA rules.

The management replied that annual estimates were assessed by HQ Engineers, and open framework contracts undergo periodic adjustments based on market rates. The management argues that despite steel rate increases, they monitor market rates continuously and secure extensions through the DG NLC under delegated powers. The audit deems the management's explanation unacceptable, highlighting the increase in rates without considering Rule 16B and granting extensions without approval from the competent authority.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends an investigation at the administrative department level, fixing responsibility against the individuals held responsible, and regularizing the expenditure through the competent forum.

Para 16(NLC – 2022-23)

17.1.4.2 Loss due to execution of work over and above the BOQ - Rs 2,474.443 million

According to clause 51.1 of particular condition of Contract Agreement with Client (CDA), the word "qualify" is deleted in the first line and substituted with the word "quality", Para (a) is deleted and other paragraphs remarked from (a) to (e) and the word "design and" is added at the start of para (e) now para (d).

According to Engineers SOP para 35, "in case of variation between BoQs and construction drawings, the quantities will be pointed out and besides initiating Variation Orders / Deviation Order (VOs/DOs), a written consent of client be ensured if construction activity is continued".

During audit of National Logistic Cell for the year 2022-23, it was noted that the project construction of Barakahu Bypass, Islamabad acquired on design and built basis at quoted cost of Rs 6,515.078 million from Capital Development Authority.

Audit observed that the said project was executed by NLC and NESPAK being JV partner. It is pertinent to mention here that the Design and Drawing was prepared by the JV partner. On the basis of that design and drawing, BoQ was prepared of Rs 6,515.078 million. Later on, during execution the quantities of items of work increased and scope of the work enhanced to Rs 8,827.395 million. CDA vide its letter dated 22.12.2022 communicated that there was no provision of variation in contract agreement being Design & Build contract. The management of NLC issued Vo-1 dated 19.06.2023 to CDA for approval which was declined by CDA, resultantly management sustained loss of Rs 2,474.443 million

Audit is of the view that the management of NLC failed to include variation clause in the contract agreement and therefore sustained a loss of Rs 2,474.443 million.

The management, upon reporting of the issue on January 1, 2024, explained in their response dated January 10, 2024, that variation orders were communicated to the client during construction, as per the contract's Conditions. A variation order of Rs 3,257.00 million submitted on June 19, 2023 was under review by the supervising consultant and ECSP for third-party review. However, their reply was deemed unacceptable as the contract lacked clauses on variations, and no written consent from the client was obtained for these changes.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to investigate the matter regarding execution of quantities over and above BoQ, case of variation in scope of work be taken up with client through administrative ministry for approval of variations.

Para-17 (NLC – 2022-23)

17.1.4.3 Irregular procurement of tyres through splitting amounting to Rs 647.122 million resulting in a loss of - Rs 18.00 million due to purchases at a higher rate

Irregular procurement of tyres amounting to Rs 356.935 resulted in a loss of - Rs 130.00 million

Rule 178 (i) of GFR Vol – I states that except in cases covered by any special rules or orders of Government, no work should be commenced or liability incurred in connection with until Administrative approval has been obtained from the authority appropriate in each case.

According to rule-29 of PPRA 2004, procuring agencies shall formulate an appropriate evaluation criterion listing all the relevant information against which a bid is to be evaluated. Such evaluation criteria shall form an integral part of the bidding documents. Failure to provide for unambiguous evaluation criteria in the bidding documents shall amount to mis-procurement.

According to PPRA rule-9, save as otherwise provided and subject to the regulation made by the Authority, with the prior approval of the Federal Government, a procuring agency shall announce in an appropriate manner all proposed procurement for each financial year and shall proceed accordingly without any splitting or regrouping of the procurement so planned.

During the audit of NLC HQ for the year 2022-23 it was observed that management procured 10,000 tyres through three tenders, raising several concerns. Administrative approval was obtained for the purchase of 8,000 tyres, but procurement was made for 10,000 tyres. The procurement amounting to Rs 647.122 million was split into three parts to avoid the higher authority's sanction, contrary to delegation of powers. The second and third tenders, awarded to the same contractor within two months, resulted in a loss of Rs 18.00 million due to higher rates in the third tender. Disqualification of certain bidders lacked a scoring/marketing scheme, violating rules and deeming the action irregular as a vendor with no previous business record was subsequently given preference. The financial bid of an absent bidder was opened and declared the lowest, contrary to the requirement of all representatives being present, causing a loss of Rs 130 million.

Audit is of the view that the tenders were advertised without administrative approval, work was split to stay within financial limits, and a loss of Rs 18.00 million occurred due to the higher rates in the third tender. Moreover, work had to be completed in Rs 225 million. By not clear defining technical evaluation criteria in bidding documents the management deprived the organization of healthy competition and sustained a loss of Rs 130.00 million.

The management replied that a strategic approach was used in acquiring 13,000 tyres in two phases, aligning with fund availability and warranty periods. However, the audit deems the explanation untenable, emphasizing the loss sustained.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends an investigation into the matter and fixing responsibility for the alleged irregularities at the administrative level.

Para 6 & 9 (NLC – 2022-23)

17.1.4.4 Loss incurred due to the waiver of liquidated damages and payment of additional freight charges - Rs 592.30 million

According to Contract Agreement clause 20.1, if supplier fails to deliver any or all of the goods or perform the services within the time period (s) specified in the Contract after the lapse of grace period as mentioned in the clause 4.1, Purchaser/ consignee shall without prejudice to its other remedies under the Contract, shall have the right to claim liquidated damages and the Supplier shall pay to Purchaser liquidated damages with respect to those delayed goods an amount equal to 2% of the value of the goods delayed for each month of delay or part thereof until actual delivery or performance up to a maximum deduction of 10% of the Contract Cost.

According to Rule 10 (i) of GFR every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public moneys as a person of ordinary prudence would exercise in respect of expenditure of his own money.

During the audit of NLC HQ for the year 2022-23, irregularities in the procurement process of 462 vehicles of CYZ 390 HP for Logistics Services by the National Logistics Cell (NLC) from M/s Ghandhra Industries Limited were highlighted. The observations include:

1. Direct contracting with M/s Ghandhra Industries Limited for the procurement of vehicles from October 2019 to March 2022 through six different contracts, totaling 7,713.98 million.
2. The agreements on Freight on Road (FOR) basis included a provision allowing the supplier to be reimbursed for freight charges exceeding Rs 500,000, resulting in additional freight charges of Rs 300 million, providing an advantage to the contractor.
3. The vehicles were not delivered within the stipulated time, and liquidated damage charges amounting to Rs 40 million were waived off by the Director General NLC, resulting in a loss to the organization.
4. A 50% advance payment of Rs 550.5 million made to the supplier during the financial year 2022-23 remained under the use of the contractor for almost one year.

Audit is of the view that the contractor benefited from the payment of additional freight charges and the waiver of liquidated damages, resulting in a loss of Rs 592.30 million.

The management replied that the procurement of ISUZU CYZ51 390 HP was based on a comprehensive 2018-19 test and trial for future needs on motorways, CPEC routes, and cross-border TIR operations. They defended the choice of M/s GIL, the local assembler of ISUZU Japan, citing adherence to PPRA Rule 42c (vii) to promote local assembly. Excess payments for freight charges over Rs 500,000 per PM were explained as part of the contract agreement. COVID-19-related delays led to the waiver of LD charges by DG NLC, and a 50% advance payment was negotiated due to trade practices for vehicles. The audit found the management's response untenable, emphasizing that the initial agreement was on a freight on road (FOR) basis, and the clause for additional freight charges was added later. Moreover, despite supply delays, DG NLC waived the liquidated damages (LD), raising concerns about adherence to contractual terms.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends an investigation into the matter and fixing responsibility for the alleged violation of PPRA rules.

**17.1.4.5 Loss to public exchequer due to less recovery of income tax -
Rs 384.195 million**

According to section 153(1)(b) of the Income Tax Ordinance 2001, the rate of income tax deduction on specific services is 3%. While under second schedule (Exemptions & Tax Concessions) Part II (Reduction in Tax Rates) vide rule (28F), the rate of tax under clause (b) of sub-section (1) of section 153 in case of oil tanker contractor services shall be 2% for the year 2022-23.

During the audit of NLC HQ Logistics, Karachi for the year 2022-23, it was noted that the management entered into agreements with various departments for services related to freight for dry cargo, liquid cargo, and water. The management sub-let these works to 112 sub-contractors and made payments amounting to Rs 33,512.947 million during the year.

However, it was observed that the management while making payments did not deduct / less deducted the income tax of Rs 384.195 million.

Audit is of the view that income tax amounting to Rs 384.195 million at the prescribed rate of 3% on dry and 2% on liquid cargo was required to be withheld. Thus, due to less/non-deduction of income tax, the government exchequer was put to a loss of Rs 384.195 million.

The management replied that variations in tax deductions occurred due to payments including items related to Hired Mechanical Transport (HMT) contracts and timing differences were caused by funding shortages.

Reply is not acceptable because as per Income Tax Ordinance, 2001 the management was bound to deduct tax at the time of payment.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and effecting recovery from contractors or person(s) held responsible.

Para-48 (NLC – 2022-23)

17.1.4.6 Loss to public exchequer due to non-deduction of taxes – Rs 264.362 million

According to the Balochistan Finance Act (Act No. v of 2019). “Explanation - Notwithstanding the rate of 15% fixed in column 3 (rate of tax), the following reduced rate of 6%, will be applicable, for all services specified at tariff heading 9814.2000, contractor of roads and building, bridges etc. and tariff heading 9815.5000 engineering consultant.” Further, as per Rules 2(2) and (3) of the Sales Tax Special Procedure (Withholding) Rules, 2007 under S.R.O. 660(1)/2007, Islamabad, the 30th June, 2007, “A withholding agent shall deduct an amount equal to one fifth of the total Sales Tax shown in the Sales Tax invoice issued by the supplier and make payment of the balance amount to him.” Moreover, according to Article 4 (22 A) Schedule I to Stamp Act, 1899, as amended vide Balochistan Act, 1994, “Stamp duty @ 0.25% should be recovered/obtained in the shape of stamp duty on non-judicial stamp papers from contractors on the total cost of the contract at the time of award of the work.”

During the audit of NLC PD Balochistan for the year 2022-23, it was observed that the management failed to deduct BSTS @ 6% on civil works contracts, GST on supply items and stamp duty @ 0.25% in the shape of non-judicial stamp papers of the contract value which was not done. This resulted in non-realization of governmental taxes amounting to Rs 264.362 million, as detailed below.

(Rs in million)				
S. No.	Name of formation	BSTS Rs	GST	Stamp Duty Rs
1	32 Nos. of Sub-let Contracts at BCF Chaman	243.050	0	15.716
2	Payment made to suppliers for purchase of construction material.	0	5.596	0

Audit is of the view that non-deductions of sale tax at the time of payment and stamp duty at the time of agreement caused a loss of Rs 264.362 million to public exchequer.

The management replied that recent legislative amendments under the Baluchistan Finance Act 2023, effective from July 01, 2023, stipulate a reduced GST rate of 4% for construction services and a Zero Percent (0%) rate for specific government civil works contracts initiated during the financial year 2016-17 onwards. This amendment signifies a change in the tax landscape, applicable from July 2023 onwards. Importantly, this legislative change cannot be applied retrospectively to previous financial years. The reply is not acceptable because prior to 1st July 2023, the management was bound to deduct tax @ 6% and stamp duty 0.25% of contract value which was not done.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that all government taxes may be recovered and deposited in government treasury under intimation to audit besides fixing responsibility.

Note: The issue of non-recovery of stamp duty was also reported earlier in the Audit Report for the year 2022-23 vide Para No. 16.1.4.9 having financial impact of Rs 16.469 million. Recurrence of same irregularity is a matter of serious concern.

Para-31 (NLC – 2022-23)

17.1.4.7 Loss due to issuance/ recovery of material below the purchase rate – Rs 231.827 million

According to Schedule B of contracts agreements with contractors, the rates for cement and steel were fixed @ Rs 575 per bag and @ Rs 109,000 per ton, respectively. According to Financial SoPs 7.1(b) Other Construction material including scaffolding will be purchased through board of officers including project manager who will fix the price of each item after obtaining quotations from suppliers in the vicinity of each project. The prices will be reviewed quarterly.

During the audit of NLC PD Baluchistan for the year 2022-23, it was noted that the contract for the construction of building and infrastructure for the Border Crossing Facility (BCF) at Chaman was initially signed between FBR and NLC on 20.08.2019, valued at Rs 12,576.501 million. Subsequently, NLC management sublet this work to 148 subcontractors with an amount of Rs 8,090.791 million. The audit observed that different types of construction materials were issued to 46 subcontractors.

It was found that the management fixed the rate of steel below the prevailing market rates in Schedule B of the contract with subcontractors and issued the material to them which is tantamount to under-invoicing, resulting in a loss of Rs 231.827 million.

Name of contractor	CA Date	Qty. issued (Ton)	Steel issued Rate Rs	Purchase Rate (Rs)	Recovery Rate (Rs)	Difference rate Rs	Loss of (Rs)
FK Builders	16.10.2021	1,163.03	109,000	184,000	109,000	75,000	87,227,250
Ayaz Khan & Builders	21.11.2021	290	109,000	184,000	109,000	75,000	21,750,000
Shahbaz Brothers & Co	11.02.2022	52.86	109,000	184,000	109,000	75,000	3,964,500
Geo Deep Rock	10.03.2022	267.68	109,000	184,000	109,000	75,000	20,076,000
Noor Builders	01.09.2022	544	109,000	184,000	109,000	75,000	40,800,000

Ayaz Khan & Builders	11.02.2022	327.05	109,000	184,000	109,000	75,000	24,528,750
Swabi Construction	11.02.2022	113.09	109,000	184,000	109,000	75,000	8,481,750
Al Sana Enterprises	20.04.2022	82	109,000	184,000	109,000	75,000	6,150,000
Shahbaz Brothers & Co	10.10.2023	251.32	109,000	184,000	109,000	75,000	18,849,000
Total							231,827,250

Audit is of the view that the rates fixed with contractors being below the purchase rates led to loss. Further, the material issuance/ recovery rates should be charged as per purchase rates of material to the organization.

The management replied that recovery rates for store items like cement and steel were fixed at Rs 575 per bag and Rs 109,000 per ton, in accordance with the Engineer SOP and BoO approved by Project Director Balochistan in 2021. The management highlighted that despite the pointed loss of Rs 231 million against 09 sublet contracts, NLC was entitled to escalation on certain items, covering purchase expenses and adding profit to NLC's account.

The reply is not tenable as according to the agreement, the rates had to be reviewed quarterly. More importantly, there should have been a rate escalation clause in the agreement.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigation to determine the exact loss to the organization, along with the recovery of the pointed amount from the contractors or persons held responsible.

Para-30 (NLC – 2022-23)

17.1.4.8 Loss due to de-scoping the contract agreement and award of work at higher rates to other contractors - Rs 91.649 million

According to clause 4.7 (a) (4) of Engineers SOP 2022, recoveries will also be made from the contractor bills before making payment to sub-contractors (4) penalties, in accordance with contract agreement, in case of delay/ poor quality work etc. Further, clause 34(a)(5) states that on the recommendations of board proceedings, left over work will be executed by NLC Engineers itself/ through subletting at the risk and cost of sub-contractors under the conditions of agreements and final bills of the sub-contractors will be processed accordingly.

During the audit of NLC PD Balochistan for the year 2022-23, the audit identified a discrepancy in the award of work at the Border Crossing Facility (BCF) Chaman Project, where certain works (Supply & Fixing of Doors, Windows, Kitchen Cabinets, HVAC work in Passenger Terminal & Admin Center, and Sub Base/Base Course) had initially been sublet to different contractors. However, these works were later

on deleted from the scope of the original contractors and awarded to M/s Buildana Builders, M/s Iceberg, and M/s True Line Builders at higher rates. This resulted in a loss of Rs 91.649 million to the organization.

Audit is of the view that the management should have completed the work through original contractors. Due to the award of deleted work at higher rates to other contractors caused loss of Rs 91.649 million.

The management replied that the exclusion of certain works from the building Bill of Quantities (BoQs) was in line with client specifications and these works were required to be executed by specialized firms. For HVAC works, M/s Iceberg emerged as the lowest bidder and approved vendor, securing a profit for NLC, approximately 30% higher than previous contracts. The reply is not acceptable because at the time of initial award of contract the management should execute work through specialized contractors as required by the client. Furthermore, award of work at higher rates caused loss to organization.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to complete the de-scoped work at risk & cost of sublet contractors and justify as to why the deleted work was awarded at higher rates besides fixing responsibility thereof.

Para-34 (NLC – 2022-23)

17.1.4.9 Loss due to award of de-scoped work at higher rates and non-imposing of penalty - Rs 56.76 million

According to clause 4.7(a)(4) of Engineers SOP 2022, following recoveries will also be made from the contractor bills before making payment to sub-contractors (4) penalties, in accordance with contract agreement, in case of delay/ poor quality work etc. Further, clause 34(a)(5) states that on the recommendations of board proceedings, left over work will be executed by NLC Engineers itself/ through subletting at the risk and cost of sub-contractors under the conditions of agreements and final bills of the sub-contractors will be processed accordingly.

During the audit of NLC PD Balochistan for the year 2022-23, the audit identified several irregularities in the execution of external electrical works which are as follows:

- i. M/s Electrix Traders initially quoted Rs 805 million, which was approved by the DG. The contractor requested a revision due to an increase in the dollar exchange rate, and a revised quotation of Rs 885 million was accepted. The initial lowest bidders were M/s Earth Enterprises (Rs 814.625 million) and M/s FK Builders (Rs 831.310 million). The award of the contract to M/s Electrix Traders is deemed irregular, causing a loss of Rs 70.375 million.
- ii. The contractor, M/s Electrix Traders, refused to provide generators and transformers, leading to the de-scoping of work valued at Rs 267.625 million. The de-scoped work was awarded to M/s Jaffer & Co and M/s Schneider at a higher rate of Rs 297.62 million. The management did not invoke the risk & cost clause nor imposed penalties on the contractor.

- iii. The management paid the contractor Rs 133.189 million on account of mobilization advance, exceeding the approved 10% of Rs 88.5 million. Granting excess mobilization advance of Rs 44.689 million was held unauthorized.
- iv. The contractor completed only 50% of the scope of work since 08.11.2021 to date. The management had not initiated any remedial actions against the contractor.

Audit is of the view that the refusal by Electrix to fulfill its contractual obligations resulted in a delay in the project execution and a subsequent financial loss of Rs 30.00 million. The management should have imposed a penalty of 10% of the de-scoped contract amount, Rs 26.762 million (Rs 267.625 million x 10%). Therefore, the organization sustained a total loss of Rs 56.762 million (Rs 30.00 million + Rs 26.762 million).

The management replied that the procurement of Generators & Transformers awarded to M/s Electrix Traders faced delays in LC opening due to state bank restrictions. To mitigate project risks, NLC directly approached vendors and as per Engineer SOP, de-scoped works via min sheet approved by DG NLC. De-scoping resulted in increased profit margin from 33% to 54%, with a net increment of 21% in the target profit. Direct LC opening by NLC reduced overall project timelines, preventing potential delays caused by M/s Electrix. Penalty of Rs 26.76 million imposed on M/s Electrix, with delay charges of 10% to be recovered from withheld liabilities. The reply is not acceptable because the management was required to execute de-scoped work at the risk & cost of M/s Electrix Traders besides recovery of L.D charges on failure of delivery of said items.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends completing the de-scoped work at the risk & cost of sublet contractors, justifying why the deleted work was awarded at higher rates, and recovering the penalty imposed on the contractor.

Para-36 (NLC – 2022-23)

17.1.4.10 Loss due to execution of additional work amounting to Rs 44.585 million

According to Rule 10 (i) of GFR every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public moneys as a person of ordinary prudence would exercise in respect of expenditure of his own money.

As per BoQ Vol – I, “infrastructure works” includes earth work, sub base & base course, surface course & pavement, retaining walls, drains, nullah works, bridges and box culverts, terminal parking area (rigid pavement) and ancillary works. Similarly, BoQ Vol – I & II, “Civil works” includes admin center, business center, passenger terminal, SPS/ Quarantine build, customs lab, office block, watch tower, canine main building, canine unit small, toll both (single), toll both (double), bomb disposal squad etc.

During audit of NLC Baluchistan, for the year 2022-23, it was observed that the EPC contract for Border Crossing Facilities at Chaman was signed between FBR and NLC on 20-08-2019 worth Rs 12,576.501 million the NLC management hired three consultants i.e. M/s. PID, Al-Imam and M/s. Cameos for design and supervision of the project.

During the scrutiny of record, it was observed that the management executed additional works “construction of NDA-MI building” for Rs 14.993 million and “construction of subway/underpass” for Rs 68.592 million in deviation from the original BoQ due to engineering fault/ project requirements. The absence of project compliant design from the consultant led to the execution of additional work amounting to Rs 83.585 million, which was not received from the client upto the last interim payment certificate (IPC).

Audit is of the view that consultants failed to prepare the design and BOQ in alignment with project requirements, hence the management executed additional work and sustained a loss of Rs 83.585 million.

The management replied that reported matter involved additional works not initially included in the project's Bill of Quantities (BOQs), including a subway and other buildings. The management explained that the client instructed these works on March 16, 2023, with subsequent cost proposals and principal approval obtained. The additional works commenced at the site following client instructions and financial approval was pending. The management claimed entitlement to compensation for the overlooked subway/underpass, citing standard EPC project practices and client directives. However, the audit found the reply unacceptable, noting that while the additional work was executed, required financial and technical approvals from the client were not obtained.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that additional work amounting to Rs 83.285 million should be regularized and executed at the risk and cost of the consultant. Further a thorough investigation into the consultant's performance be conducted besides imposing a penalty.

Para-33 (NLC – 2022-23)

17.1.4.11 Irregular procurement of Solar Systems by splitting purchase - Rs 36.450 million and subsequent loss due to purchase at higher Rate - Rs 2.965 million

According to PPRA clause-9, Save as otherwise provided and subject to the regulation made by the Authority, with the prior approval of the Federal Government, a procuring agency shall announce in an appropriate manner all proposed procurement for each financial year and shall proceed accordingly without any splitting or regrouping of the procurement so planned. The annual requirements thus determined would be advertised in advance on the Authority's website as well as on the website of the procuring agency in case the procuring agency has its own website.

During the audit of the NLC HQ for the year 2022-23, it was observed that tenders for installing solar systems on four sites were awarded to M/s Pantera Energy, amounting to Rs 36.450 million, through a split procurement process. The audit identified following irregularities:

1. The purchase of four solar systems, amounting to Rs 36.450 million, occurred during a span of two months through the splitting of the procurement process.

2. All contracts were granted to M/s Pantera Energy at different costs for solar panels, net metering, and syncing of the generator set, resulting in a loss of Rs 2.965 million for NLC.

3. M/s Pantera Energy was the sole bidder, quoting financial bids in two contracts, leading to questions about the transparency of the entire procurement process.

Audit is of the view that the absence of an annual procurement plan contributed to the split procurement amounting to Rs 36.450 million, causing a loss of Rs 2.965 million to NLC.

The management replied that the project-specific nature of the procurement with distinct requirements for each of the four separate projects. The tenders were retendered due to previous issues, adhering to PPRA Rule 36d, ensuring transparency through wide circulation.

The audit finds this reply unacceptable, asserting that the procurement for the projects occurred in the head office through four tenders with a 25-day gap, resulting in increased rates.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends an explanation for not preparing an annual procurement plan, justification for the split procurement of solar systems, and an administrative-level inquiry. Additionally, it suggests assigning responsibility for the oversight to the person(s) at fault.

Para 3(NLC – 2022-23)

17.1.4.12 Irregular / unjustified escalation paid to the contractors - Rs 38.032 million

According to clause 1.9 of Engineers SoPs 2022 of NLC and Agreement, no escalation/de-escalation will be admitted for works of six months or less, however, if the same prevails over it and the client admits and makes payment against escalation claim to NLC, the sub-contractor would be permitted to claim the escalation against the works executed by them in the same proportion as that of quoted bid of sublet agreement and NLC's bid. Payment against escalation upto 70% will only be released upon receipt of funds from client with the approval of Dir Projects. Hand receipt for release of remaining 30% escalation will be processed with final bill to CFO through HQ Engineers NLC and payment will be made on issuance of payment authority by CFO.

During audit of NLC PD Balochistan for the year 2022-23, following irregularities in the payment of escalation claims were noticed:

- i. An amount of Rs 8.913 million was paid to M/s. Shahbaz & Brothers on account of escalation despite the absence of an escalation clause in contracts. The page carrying the escalation clause in the Contract Agreement seemed dubious due to a difference in signatures and stamps from the rest hence there was a possibility that this particular page was later replaced in the original contract agreement.
- ii. An amount of Rs 5.896 million was paid to six sub-contractors despite the absence of steel, cement, and bitumen-related work in their scope of work.
- iii. The organization received Rs 10.170 million against the escalation claim for steel and cement from the client. However, the management paid

Rs 23.222 million to sub-contractors for the same items. The management procured steel and cement itself, making the payment unjustified.

Audit is of the view that the payment of Rs 38.032 million made on account of escalation violated the terms of the contract agreement. The payment of escalation at a rate of 15% against the value of work is deemed non-adherence to the price adjustment factor outlined in the client agreement. Moreover, the payment of Rs 38.032 million was held irregular and unjustified.

The management replied that an amount of Rs 137.536 million received for escalation payment certificate (EPC) 11 followed 10 prior EPCs amounting to Rs 515.12p million. An amount of Rs 8.913 million to M/s Shahbaz & Brother and Rs 5.896 million to six subcontractors were disbursed with detailed deductions for steel, cement, bitumen, NLC profit, and 30%. A disbursement of Rs 23.222 million underwent similar deductions, all transparently documented for scrutiny. The management's reply is deemed untenable as it fails to justify the payment made to the contractor on account of escalation, especially considering the absence of an escalation clause in the agreement, the absence of relevant work in the subcontractors' scope, and excess payment for steel and cement.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying the reason for the payment made to the contractor on account of escalation, expediting the recovery from the contractor, and fixing responsibility against the person(s) at fault.

Note: The issue was also reported earlier in the Audit Report for the year 2021-22 and 2022-23 vide Para No. 14.1.4.9 and 9.2.4.24 having financial impact of Rs 15.751 million and Rs 43.210 million respectively. Recurrence of same irregularity is a matter of serious concern.

Para-35 (NLC – 2022-23)

17.1.4.13 Undue favor to contractor during award of contracts in re-tendering - Rs 27.948 million and subsequent loss of - Rs 5.730 million

According to Rule-17 of Public Procurement Rules 2004, a procuring agency, at any stage of the procurement proceedings, having credible reasons for or prima facie evidence of any defect in supplier's or contractor's capacities, may require the suppliers or contractors to provide information concerning their professional, technical, financial, legal or managerial competence whether already pre-qualified or not: Provided that such qualification shall only be laid down after recording reasons in writing. They shall form part of the records of that procurement proceeding.

During audit of NLC HQ for the year 2022-23, it was observed that the management advertised two tenders for the procurement of ICT equipment. After the technical qualification and opening of financial bids, the management annulled the tendering process, citing that the rates quoted by firms were exorbitant. Subsequently, in the re-tendering process, the contracts were awarded to other firms at higher rates, as detailed below:

Description	Awarded to	Rates offered in 1 st tender	Contract awarded at rate in re-tendering	Loss in re-tendering Rs
Supply/ Installation of Video Conference Equipment's	M/s Commtel	20,561,618	25,498,272	4,936,654
Procurement of Walki Talkie Sets	M/s Spectrum 360	1,656,565	2,450,000	793,435
Total		22,218,183	27,948,272	5,730,089

It was further observed that NLC awarded contracts worth Rs 27.948 million to M/s Commtel and M/s Spectrum 360, neither of which had participated in the previous tendering process. The annulment of the initial tender due to high rates is questioned since the contracts were eventually awarded at even higher rates. This resulted in a loss of Rs 5.790 million.

Audit is of the view that the re-tendering of the works was arranged to undue favor certain firms, resulting in a loss of Rs 5.790 million.

The management replied that procurement for Video Conference Equipment was halted due to high rates and procurement of Walkie Talkie Sets was annulled due to brand issues. However, the audit deems the explanation unacceptable, emphasizing the loss of Rs 5.790 million due to rejecting lower rates and proceeding with retendering at higher rates.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends an explanation for the reasons behind the re-tendering, an investigation into the matter, and fixing responsibility for the alleged irregularities.

Para 7(NLC – 2022-23)

17.1.4.14 Irregular appointment of employees without advertisement – Rs 29.294 million

According to rule 1(a)(2) of the NLC Policy Letter # 2006/E2/HR/NLC-4GNLXS dated 04-03-2022, it is stated that “Publication of all advertisements against the positions will be initiated at HQ NLC according to PPRA Rules.”

The Supreme Court of Pakistan in its judgment dated January 19, 1993, in Human Rights Case No: 104 of 1992 stated that recruitments, both ad hoc and regular, without publicly and proper advertising the vacancies, are violation of fundamental rights. As such, no post could be filled without proper advertisement, even on ad hoc or contract basis.

During the audit of NLC PD North for the year 2022-23, it was observed that contract appointments of 52 employees for the Barakahu Bypass Project were made without advertising the job opportunities in newspapers, which was violation of prescribed criteria and Supreme Court's orders.

Audit is of the view that the management was required to get the advertising in the newspapers to fetch healthy competition. However, no advertisement in the newspapers was published which showed that individuals of personal choice were appointed. Thus, appointments of 52 employees and payment of Rs 29.294 million during 2022-23 was held irregular.

The management replied that the appointments were necessary for the swift execution of the Barakahu Bypass Project, which had a completion period of 120 days. Due to the urgency, advertisement of vacancies was deemed unfeasible within the time constraints. Candidates were selected from a pre-existing pool advertised centrally by HQ NLC, fulfilling the urgent project requirements. Audit finds the management's response unacceptable, emphasizing that the appointments were made without project-specific advertising, violating the instructions of the NLC and the judgment of the Honorable Court.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that the management should explain the reasons for the irregular appointments without advertisement, conduct inquiry, fix responsibility, and take necessary action against the officers responsible for the violation.

Para-21 (NLC – 2022-23)

17.1.4.15 Loss due to damaged works executed by other contractors - Rs 28.135 million

According to clause 7 of Contract Agreement Nos. Bara Kahu/08/2023/PDN/NLC and Bara Kahu/28/2023/PDN/NLC, damage works during the construction/execution will be attributed to the sub-contractor who stands responsible for rectification. Further clause 6 states that the sub-contractor, awarded sensitive structure like bridges, multi stories building, electrical, mechanical and high value projects, would abide by the insurance of work as that is incorporated in the main contract of NLC as per desires of concerned Project Director. The insurance should cover all losses or damages from whatsoever cause arising from the start of work at site till the relevant taking over certificate is finalized.

During the audit of NLC PD North for the year 2022-23, concerns about subletting of work for the Barakahu Bypass Project were raised. The key observations are as follows:

1. The execution of work, specifically the pouring of concrete for 05 Nos. pre-stressed RCC Girders and transom on pier No. 10, collapsed during the process. This work was sublet to M/s Khilji Builders and M/s Haji Muhammad Latif & Co.
2. Payments amounting to Rs 57.935 million and Rs 10.306 million were made to M/s Khilji Builders and M/s Haji Muhammad Latif & Co, respectively, against the collapsed work through Running Account Receipts (RARs).
3. Re-work for the damaged portion was awarded to M/s Haji Muhammad Latif & Co and M/s Qutab Din Khan for Rs 20.781 million and Rs 7.353 million respectively, through a labor agreement with material. This re-work was executed by other contractors instead of the original contractors, resulting in a loss of Rs 28.135 million.

Audit is of the view that the management should have executed the damaged work at risk and cost of the already deployed contractors instead of awarding new contracts.

The management replied that the collapse occurred due to a truck incident after 95% of the concrete pouring was completed by M/s Khilji Builders. No payment was made for the rework as it was covered in the subcontractor's RAR. Insurance claims were finalized, and NICL is processing payment approval. Audit finds the management's response untenable, emphasizing that no documentary evidence supporting the reply was provided and the management's response does not address the contention raised by the audit.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the reasons for the non-completion of re-work through the same contractors, along with fixing responsibility for the incurred loss.

Para-23 (NLC – 2022-23)

17.1.4.16 Loss due to non-completion of scope of work by subcontractor amounting to - Rs 7.056 million

According to clause 2 (2.2) of subcontractor contract agreements states that NLC will not procure any material/stores/fixtures the timely procurement of material shall be ensured by subcontractor to avoid hamperage of work on this account. In this respect samples of all fitting/fixtures shall be got approved from the client/consultant through the Engineer-in-charge well in advance prior to incorporating in the work.

During the audit of NLC PD South for the year 2022-23, it was observed that a project for the construction of the “SIUT multi-organ transplant center & biotechnology at Kathore” was awarded by the Sindh Institute of Urology and Transplantation (SIUT). Further, it was observed that the management sublet the electrical works to M/s ZAK Associates for Rs 44.559 million and M/s R.I Associates for Rs 13.028 million, with a profit margin of 10%. Further, probe into the matter revealed that the management procured electric cables amounting to Rs 36.502 million for the said project from M/s FAST Cables Ltd due to which management sustained a loss of Rs 7.056 million as per details given below:

Item	Qty. Meter	Sub-contractor rate (Rs)	Purchase rate (Rs)	Difference (Rs)	Loss (Rs)
300 mm 2 4 core cu/pvc/swa/pvc cable	995	23,607.54	29,614	6,006.46	5,976,427
16mm ² 2 4 core cu/pvc/pvc/cable+1x10mm ² 1 core cu/pvc/cable with 50mm dia pvc class d-pipe	520	2,034.25	2,110.55	76.3	155,213
25mm ² 4 core cu/pvc/pvc/cable+1x16sqmm 1 core cable with 50mm dia pvc class-d	520	2,735.05	3,073.20	338.15	924,857
Total					7,056,497

Audit is of the view that management was required to execute the work as per the contract agreement and due to non-implementation of the contract clause the organization sustained a loss of Rs 7.056 million.

The management replied that initial cost of the cable was already included in the rates specified for the subcontractor. However, to expedite work progress on-site, the NLC decided to procure the cable, which would subsequently be deducted from the subcontractor's running account receipts (RARs) at the purchase rate of the cable. Reply of the management is not acceptable because the management was required to execute work from already deployed contractors instead of making a purchase of cable at higher rates.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends a thorough inquiry into the self-procurement of electric cables, which were originally part of the subcontractor's scope, and emphasizes the need to identify and hold responsible parties accountable for the incurred loss.

Para-45 (NLC – 2022-23)

17.1.4.17 Irregular procurement made without approved Annual Procurement Plan - Rs 85,907.122 million

Rule-8 of PPRA states that, within one year of commencement of these rules, all procuring agencies shall devise a mechanism, for planning in detail for all proposed procurements with the object of realistically determining the requirements of the procuring agency, within its available resources, delivery time or completion date and benefits that are likely to accrue to the procuring agency in future. Further, rule-9 of PPRA states that, the annual requirements thus determined would be advertised in advance on the Authority's website as well as on the website of the procuring agency in case the procuring agency has its own website.

During the audit of NLC HQ for the year 2022-23, it was observed that the management of NLC procured various items amounting to Rs 85,907.122 million for the year 2022-23 and did not upload the annual procurement plan on the authority's as well as the agency's own website.

Audit is of the view that, the management should have uploaded the annual procurement plan on the agency's own website as well as the authority's website as required under above referred rules.

The matter was reported to the management and management stated that annual requirements are based on projects and business opportunities, not directed by the Government of Pakistan (GoP). Further management highlighted the emergence of unplanned needs throughout the fiscal year, requiring immediate attention to meet urgent project demands. Procurements are contingent on project progress, with potential impacts on planned Annual Procurement Plans if projects do not materialize. The FY 2022/23 budget was approved by the NLB on August 26, 2022, and project shortlisting followed. The introduction of EPAD by PPRA is pending staff training, and future procurement plans will be uploaded through EPAD. However, the reply is deemed unacceptable due to non-compliance with the rule requiring the preparation and uploading of the annual procurement plan on the Authority's and agency's website.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to explain the reasons of non-uploading annual procurement plan on PPRA website as well as NLC's own website, besides fixing responsibility on the person(s) at fault and ensure all types of procurements must be properly planned and uploaded on site.

Para-2 (NLC – 2022-23)

17.1.4.18 Irregular procurement of steel and cement in violation of PPRA rules - Rs 2,219.369 million

According to rule-12 (2) of PPRA, all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority's website as well as in other print media or newspapers having

wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

According to rule – 20 of PPRA, save as otherwise provided hereinafter, the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

According to rule-4 of PPRA, procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of NLC PD North (Bharakahu Project) and PD South, Karachi for the 2022-23, it was observed that the management of NLC has procured steel and cement amounting to Rs 2,219,369,046 on quotation basis in violation of above referred rule.

Audit is of the view that procurement of steel and cement on quotation basis instead of open competitive bidding, deprived the organization of the benefits of competitive rates and value for money.

The matter was reported to the management and management stated that the nationally significant project, executed under emergency status, faced supply challenges necessitating local steel purchase for the Bhara Kahu Bypass. No centralized contract for steel was available, compelling the local purchase approval. The 'Execution Methodology' allowed expedited local purchases, with a board overseeing the process, actively soliciting quotes through a proper calling process for transparency. Reply is not acceptable because procurement was made through quotation in violation of the PPRA rules. Furthermore, the management could procure the steel and cement from centralized engaged firms.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to investigate the reasons for procurement on quotation basis instead of open competitive bidding process besides regularizing the matter from competent forum.

Para-22 (NLC – 2022-23)

17.1.4.19 Irregular execution of work without administrative approval and technical sanction of estimates of Rs 1,225.18 million

According to para-16 (a) of MES Regulation, 1998, no works/service will be executed without administrative and technical sanction having first been obtained from the authority appropriate in each case and without funds being available to meet expenditure on it.

According to Para-178 of GFR Vol-I, except in cases covered by any special rules or orders of the Government, no work should be commenced or liability incurred in connection with in until, administrative approval has been obtained from the authority appropriate in each case; sanction, either special or general, of competent authority has been obtained authorizing the expenditure; a properly detailed design and estimate has been sanctioned.

During audit of NLC PD (South) Karachi for the year 2022-23, it was observed that the management executed the work of “Development of Landhi Terminal” through different sub-let contractors

on market based rate. The award of contract Development of Landhi Terminal worth Rs 1,225.18 million without administrative approval and technical sanction from competent forum, in violation of above referred rules was held irregular.

Further, it was observed that DG NLC approved the said work in three phases, i.e. Phase-I amounting to Rs 478.72 million on 08.07.2022, phase-II amounting to Rs 384.04 million on 18.07.2022 and phase-III amounting to Rs 362.42 million on 20.07.2022. It is pertinent to mention here that the work was awarded and executed through sublet contractors which comes to Rs 1,225.18 million. This state of affair raised concerns about management attempting to circumvent higher authority approval which held against the rules.

Audit is of the view that the management should have taken administrative approval and technical sanction prior to execution which was not done in instance case thus execution of work without administrative approval and technical sanction was held irregular.

The matter was reported to the management and management stated that the work for the subject project was executed in separate stages, with funds, technical sanctions, and execution for each phase obtained periodically. Administrative approval and corresponding technical sanctions were secured for each phase in alignment with the progressing work. The reply is not acceptable because approval of the work sought after completing the work and no technical sanction was obtained prior to the execution of work.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that execution of work without administrative approval and technical sanction be investigated at administrative department level, besides fixing responsibility on the persons at fault.

Para-38 (NLC – 2022-23)

17.2 Pakistan Institute of Development Economics

17.2.1 Introduction

Pakistan Institute of Development Economics (PIDE) was established in 1957 by the Government of Pakistan and initially was registered under Societies Registration Act XXI of 1860.

In 1964 it was re-established as Pakistan Institute of Development Economics under the administrative control of Ministry of Education and Information vide S.R.O. 370 (K) 64 dated May 01, 1964.

Pakistan Institute of Development Economics (PIDE) has been contributing towards research and teaching in the field of development economics and its associated fields. In 2010 PIDE was declared as body corporate and degree awarding status was given through PIDE Act -2010.

Main objectives of the Institute are:

- i. To function as an agency for conducting and promoting research, surveys, seminars, conferences, experiments and demonstrations in the field of Development Economics, Islamic Economics, Economic demography and related social disciplines.
- ii. To provide facilities for training in economics and economic demographic analysis and research techniques.
- iii. Arrange to publish papers studies and such other works as are completed at the Institute or are prepared in collaboration with it or which are otherwise of substantial value to the work of the Institute.
- iv. To disseminate information and extend advice to the government and other agencies based on original research in economics and related disciplines.

17.2.2 Comments on Audited Accounts:

17.2.2.1 The working results of the Board for the year 2022-23 as compared to previous years are as under:

(Rs in million)

	2022-23	% Inc/ (Dec)	2021-22	% Inc/ (Dec)	2020-21
Revenue:					
Restricted					
Grant for PhD	5.00	0.00	5.00	0.00	5.00

Source: Annual Audited Accounts

17.2.2.2 Property & equipment-operating increased by Rs 11.201 million i.e. from 43.056 million (2021-22) to Rs 54.258 million (2022-23). An addition of Rs 1.007 million in “Furniture and fixture”, Rs 7.904 million in “Office equipment” and Rs 22.755 million in computer equipment was made during the year under review. However, Government of Pakistan vide Finance Division (Expenditure Wing) letter No. F.7(1)Exp.IV/2016-340 dated 7th July, 2022 imposed complete ban on purchase of furniture & fixture, Office and Computer equipment under austerity measures. Thus the addition in these non-current assets of Rs 11.201 million was made in violation of the of the austerity measures of Government of Pakistan, thus held irregular and needs justification.

17.2.2.3 The income from “Student fee” was decreased by 29.22% i.e. from Rs 45.576 million (2021-22) to Rs 32.257 million (2022-23). This shows that number of less students were enrolled during the year under review. The reason for decrease in enrolment of students needs to be explained.

17.2.2.4 An amount of Rs 6.220 million was shown as “Salary recoveries” against “Other income”. These recoveries were made from those employees who went for higher studies by providing a surety bond, but they did not join their duties after completion of their studies or expiry of study leaves. A complete data showing the number of such employees, total amount recoverable from them and total amount of recovery made so far from such employees may be provided for audit review.

17.2.2.5 An amount of Rs 111.898 million showing under the head of Cash at Bank as on 30.06.2023, this amount includes Rs 16.925 million kept in current account and Rs 94.972 million in saving accounts. The management did not determine the working balance limit as required vide Finance Division letter No. F.4(1)/2002-BR. II dated 02.07.2003 which states that “the working balance limit of each organization should be determined with the approval of the administrative ministry in consultation with Finance Division. The account of this working balance may be maintained in a current or saving bank account” {para-3(e)}. Resultantly, management sustained loss against the surplus funds over the required working capital which needs to be justified.

17.2.2.6 Accrued and other liabilities are showing closing balance of Rs 13.613 million as on 30.06.2023, this amount includes Rs 6.414 million as Scholarship payable (Merit bases and Bait-ul-Mal). Non-payment of huge liability to deserving students’ needs justification.

17.2.2.7 Accrued and other liabilities are showing closing balance of Rs 1.937 million against other payable as on 30.06.2023. Complete breakup along with reasons for non-payment may be elaborated for audit review.

17.2.2.8 An amount of Rs 17.260 million has been paid on account of honorarium to employees during the year under review. The complete detail along with justification of additional/ laborious work performed by the beneficiary employees which is laid down criteria for payment of honorarium, may be provided for audit review.

17.2.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	% of compliance
2013-14	08	05	03	14.2.2.2, 14.2.4.1, 14.2.4.3	63
Total	08	05	03		63

The compliance of PAC directives was not satisfactory which needs to be improved.

Chapter-18

1. Thematic Audit - POF's Inventory Management System

1.1 Introduction

Thematic Audit on the Inventory Management System (IMS) of Pakistan Ordnance Factories (POFs) for the year upto 2022-23 was planned in the 1st phase of the Audit Plan for the year 2023-24. Accordingly, a thematic audit on the subject matter was carried out by the audit team of the Directorate General, Commercial Audit & Evaluation (North), Islamabad and its results have been incorporated in this chapter.

1.2 Corporate Information

POFs Board, Wah Cantt was established under the provisions of POFs Board Ordinance, 1961. POFs are governed by the Board of Directors. POF's Board consists of four members including the Chairman. Other members are Financial Advisor Ordnance Factories (FAOF), Director Industrial & Commercial Relations (DICR) and Member Production Co-ordination (MPC).

The objective of POFs is to meet the Arms and Ammunition requirements of Pakistan Armed Forces during peace and war.

POFs main source of funding is allocation of budgetary grant by Ministry of Defence Production. In addition to this, POFs also earn revenue from export and local sales of Arms and Ammunitions and related products. For receipts from local and export's sales, POFs are operating two public accounts funds:

1. Revenue, Debt and Remittance Fund (RD&R) for Civil Sales through WIL
2. Special Deposit Fund (SDF), for Export Sales

1.3 Establishing the Audit Theme

1.3.1 Reasons of selection

During the audit of previous years of POFs, a lot of Paras pertaining to the inventory management were developed and discussed in the DAC meetings. During a meeting, DAC directed to conduct audit of inventory management system of POFs.

Accordingly, the theme of “POFs Inventory Management System” was selected for thematic audit.

The following criteria were observed while selecting the subject audit topic:

- Areas of governmental priorities
- Issues of public importance
- Audit impact

1.3.2 Purpose /Objectives

- To ascertain effectiveness of Inventory Management System in POFs
- To check whether the System is functional at all levels i.e. at each factory and other services unit level
- To physically verify the stores with the financial records
- To examine the accuracy of the inventory counting system
- To check whether procurement of store is according to actual requirement
- To determine whether the inventory recorded by the formation is actually owned by POF
- To check whether the inventory is recorded at the correct / realizable values in the Store Ledger
- To check implementation of store purchase agreements

1.3.3 Scope of Thematic Audit

The scope of this audit was to ascertain the effectiveness of Inventory Management System (IMS) in the organization.

2. Legal framework governing the Theme

The Auditor-General conducts audit subject to Article 169 and 170 of the Constitution of Islamic Republic of Pakistan, 1973, read with Sections 8 and 12 of the Auditor-General’s (Functions, Powers and Terms and condition of Service) Ordinance, 2001. The thematic audit of POF’s Inventory Management System was carried out accordingly.

Under the directions of Director General, Commercial Audit & Evaluation, Islamabad, thematic audit of POF’s Inventory Management System(IMS) was conducted during November to December, 2023 with a view to assess the effectiveness of IMS in the organization.

3. Stakeholders and governmental organization identified as directly /indirectly involved

Stakeholders directly or indirectly involved are as under:

1. Ministry of Defence Production
2. Defence Organizations (DOs) and Law Enforcement Agencies (LEAs)
3. Local and International Vendors

4. Role of Important Organizations

Ministry of Defence

MoDP is the parent ministry of POFs and the Secretary MoDP is the Principal Accounting Officer of the organizations.

Defence Organizations (DOs) and Law Enforcement Agencies (LEAs)

DOS and LEAs are the major purchasers of the products of POFs

Local and International Vendors

In addition to meeting the demands of Pakistan Armed Forces, POFs products are in services with many countries.

5. Organization's financials

Description	2022-23	% Inc/(Dec)	2021-22	% Inc/(Dec)	2020-21
Annual output /Production	30,435.58	14.10	26,675.55	30.34	20,466.05
Direct material cost	12,604.82	23.42	10,213.25	36.83	7,464.31
Direct Labor cost	5,740.94	10.54	5,193.42	18.17	4,394.92
Direct/Prime Cost	18,345.76	19.08	15,406.67	29.91	11,859.23
Overheads	29,582.91	20.98	24,453.54	4.97	23,296.71
Supplied to Army	13,833.93	(7.81)	15,006.34	10.10	13,629.63
Sales of Civil Products	12,826.41	204.67	4,209.92	(3.18)	4,348.01
Sale of store & machinery	581.75	(27.26)	799.75	30.22	614.13
Export sales	8,017.70	16.96	6,854.84	64.22	4,174.11
Finished goods stock as on 30 th June	5,697.47	1.78	5,597.67	96.28	2,851.81
Store inventory	37,992.08	(0.28)	38,100.46	9.42	34,821.06
Net capital employed	135,646.75	12.28	120,815.95	16.64	103,577.96

Net profit (Consolidated).	4,491.18	140.16	1,870.05	(22.77)	2,421.55
----------------------------	----------	--------	----------	---------	----------

Source: Annual Audit Accounts

6. Field Audit Activity

6.1 Methodology

The Thematic Audit taken up during 2023-24 with intensive application of desk audit techniques, which included examining of purchase files for inventory rates, computer generated data of inventories, Material Control (MC) Ledgers, Bin Cards and physical stocktaking. Risk assessment was carried out by performing analytical procedures and reviewing internal controls.

After collecting all relevant data, it was statistically analyzed to assess the effectiveness of the Inventory Management System (IMS) of the organization.

6.2 Audit Analysis

6.2.1 Review of Inventory Management System

Inventory Management System consists of Computerized Inventory System (CIS), Material Control (MC) Ledgers, Bin Cards, Demand Notes, Return Notes, Rate Cards, Material Abstracts and Cost cards which facilitates effective operation of the organization.

The audit team extensively studied and evaluated the components of IMS to obtain an adequate understanding of the systems. The objective was to evaluate the system and report to management with an overall purpose of improvement.

Realizing the importance of effective Inventory Management System for better visibility of material stock, quick disposal of surplus & slow moving items and ultimately effective procurement of bare minimum material. POF has gradually improved the existing inventory management system which is an extensive software application. Although, a lot of refinement is still required yet this software has helped a lot in managing stock material through effective tracking from requirement planning to receipt, usage, costing and dispatch. This software covers following modules:

- i. Provisioning
- ii. Purchase
- iii. Supplier
- iv. Stock management
- v. Accounts
- vi. Contract billing

This report mainly focuses on POFs Inventory Management System up to the year 2022-23, supported by System Generated Reports. Although, the system is at its nascent stage, after completing its two years of implementation, it started reaping multiple benefits as elaborated below;

- i. Flow of Procurement

- ii. Stock Position
- iii. Queries
- iv. Controls

i. Flow of Procurement

Process of e-procurement starts with the preparation of indent and after passing through various stages of e-bidding culminates at e-procurement by procuring LOI/Contract.

ii. Stock Position

This software is capable of providing complete layout of stock position by its name, item and aging reports etc.

iii. Queries

Software has capability to generate multiple queries e.g. overall stock status, factory-wise stock status, category-wise stock status, yearly average consumption rate and gaining reports etc.

iv. Controls

In order to address various data security challenges, multiple layers of control mechanism have been incorporated at each step in the Software. Every user at different tiers of the organization has been provided different passwords and nobody, even the official of the IT Department can infiltrate into the security domain once the user has modified its own password. Data once entered cannot be modified.

6.3 Significant Audit Observations

6.3.1 Functional status of Inventory Management System (IMS)

- In order to check functional status of IMS, Factory-wise list of all inventories (category-wise) with stock code, nomenclature, quantity, unit price and total amount were demanded.
- Detail of factories and services units/ groups not linked with IMS was also demanded.

6.3.1.1 Non-inclusion of inventory data of Services group in Inventory Management System

As per para-13 of GFR, every controlling officer must satisfy himself not only that adequate provisions exist within the departmental organization or systematic internal checks calculated to prevent and detect errors and irregularities in the financial proceedings of its subordinate officer and to guard against waste and loss of public money and store but also that the prescribed checks are effectively applied.

During Thematic Audit of POF Inventory Management System (IMS) upto the year 2022-23, it was noticed that management included POF units in Central Information system (CIS) whereas inventory status of Services Group Units such as Hospital, POFIT, Director Civil Works (DCW) and Station Engineer, showed that they were not linked with the Central Inventory Management System.

The non-inclusion/linking of inventory items of above-said service groups in IMS leads to multiple deficiencies. These include status of inventories of said units with reference to available inventory, requirement for future, obsolete items and slow moving items etc.

Audit is of the view that non-inclusion/linking of inventory of services groups of POF resulted in un-authentic figures of inventories appearing in system. Due to this flaw the comparison of inventories appearing in system and as portrayed in annual accounts was not possible.

Audit recommends updation of Inventory Management System (IMS) by including all the units of the POF maintaining its inventory in the system so that fair position of inventory of POFs could be assessed.

6.3.1.2 Un-justified by-passing/omitting the role of administrative tier

Federal Government (Ministry of Defense) vide Gazette Notification dated May 17, 2019 directed the POF Board for establishing the post of Director General- Commercial (DG-C) to work under the command of Chairman POF Board for an initial period of two years for performing the following functions:

- a. All matters related to Companies including but not limited to procurement, purchase, store, marketing, sales, human resources management and other commercial activities.
- b. All matters related to export.
- c. All matters pointed to Finance, Accounts, Budget, Audit of Companies established and owned by POFs/Government and matters ancillary thereof.
- d. Any other matter assigned by the Government.
- e. Any task specifically assigned by Chairman POF Board.

During Thematic Audit of POF Inventory Management System (IMS) up to the year 2022-23, it was noticed that Federal Government vide Gazette Notification dated May 17, 2019 established the post of Director General-Commercial (DG-C) to perform above said functions including the matters of POF stores. Record revealed that Chairman POF Board vide letter dated June 5, 2020 withdrawn/ limited the functions of DG (C) w.r.t subsidiaries companies i.e. all matters of Wah Nobel (Pvt.) Ltd, functions of accounts, HR and sale of WIL, all functions of other subsidiaries such as WBM, WCL, WCFL, Clothing, HTP, SSPPL and Export Division.

The irregularity was occurred due to non- implementation of Government directives.

Audit is of the view that the Federal Government created the post of DG (C) and notified the functions, thus, any change in approved functions by the Chairman POF Board without the approval of Government is termed as un-justified. The act affected the matters of Inventory Management.

Audit recommends to investigate the matter at ministry level beside fixing responsibility.

6.3.2 Physical existence of financial record with physical counts

- In order to compare the inventory balances appearing in system and actually available, five units (POF Filling, Fy. SAA, Fy. MAA, Fy. Sanjwal Fy. and Weapons Fy.) were selected.
- Copies of stock taking reports of CMA were also demanded.

6.3.2.1 Huge shortage/excess of inventory on spot stock taking due to inefficient store management system - Rs 85.59 million

According to Para 22 (1&4) of Factory Accounting Rules, the price store ledger is balanced daily and the balances there in are systematically agreed by the accounts office with those on Bin cards maintained by the factory so that every item is agreed twice a year. The management will be referred to where discrepancies are found and will be responsible for their adjustment. Further the balances in Bin Card must at should all time agree with actual stock and ledger balances. To ensure that ledger balances do not

fall out of line with bin cards balances. The factory management must ensure that where the physical receipt is different from the quantity shown on the vouchers, an adjustment voucher is prepared.

During physical stock count of inventories of Filling Factory with inventory appearing in system, it was noticed that seven items valuing Rs 59.22 million were found short and five items valuing Rs 26.38 million were found in excess.

The shortage and excess of inventory showed underutilization of IMS which needs up-dation with actual inventory available in stores.

The irregularity occurred due to non-conduct of physical counter check of inventories appearing in Inventory Management System (IMS) and those lying in stores.

Audit recommends linking of inventories appearing in Inventory Management System (IMS) and those lying in stores by the management for the accuracy of the system.

6.3.3 Procurement of store based on actual requirement

Following record was demanded;

- Complete break up of regular inventories, which could not be utilized during last three (3) years.
- List of obsolete/slow moving inventories with complete break up.
- List of inventories proposed for disposal with complete breakup.
- Complete breakup of inventories disposed of during last two years.
- Detail of generic (common) inventories lying in stores of different factories.
- Detail of inventories procured during last two years.

6.3.3.1 Non-identification of un-necessary procurement of store - Rs 14.38 million

The Chairman POF Board vide letter No. POF/59/CH dated 04.01.1971 issued certain policy instructions on provisioning and procurement of material/store to avoid un-necessary purchase of store. As per Clause-6 of the policy the following general guidelines are required to be considered while raising demand and/or submitting/approving purchase proposal that:

- a. the demand raised is based on approved factors and is reasonable and justified,
- b. due economy and care is exercised in formulating requirements and all available and usable assets are taken into account before placing new demands, and
- c. In demanding/purchase store some vigilance in respect of expenditure incurred is exercised as a person of ordinary prudence would exercise in respect of the expenditure of his own.

During Thematic Audit of POF Inventory Management System (IMS) upto the year 2022-23, it was observed that POF Filling Factory procured some Brass Link Single Eye valuing Rs 14.385 million through Inter Factory Demand (IFD) from 2014 to 2017 but were lying in store without utilization since procurement. Management failed to enter the procurement and utilization dates into the IMS.

Audit is of the view that the non-appearing of such type of inventory items in the system showed lack of data entry into IMS.

Audit recommends addressing of said flaw in managing data entry.

6.3.4 Accuracy of inventory counting system

Following record was demanded;

- Recording of store in cost / bin card as per purchased/ received quantity.
- Issuance and receipt of store as per demand and return notes.
- Proper addition /deletion of store on bin card and MC ledger.

6.3.4.1 Unverified inventory prices in IMS - Rs 135.06 million

According to Factory Accounting Rules, Chapter 2 - Para 25, “The receipts in the Priced Store Cum Provision Ledger will be entered from the receipt vouchers or M.I. Slips (if the receipt vouchers are not available).”

During Thematic Audit of POF Inventory Management System (IMS) up to the year 2022-23, it was noticed from the Rate Cards of Brass Mill (SAA Fy) that the management priced 13 items of inventories valuing Rs 135.06 million in its system without any source document such as Receipt Voucher, MI Slips or Contracts. In the absence of relevant supporting record/evidence, the authenticity of price, mentioned in the system, could not be considered as authentic.

The irregularity occurred due to non-availability of source documents for counter check of the prices of inventories appearing in Inventory Management System (IMS).

Audit is of the view that valuation of inventory without any basis is a serious lapse on the part of the management.

Audit recommends provision of evidence for verification of prices of inventory in IMS.

6.3.5 Ownership rights of the inventories

- Factory-wise list of inventories received but their payment still not made was demanded.
- Status of brought on charge inventories and their entry in MC ledger and bin card was checked.

6.3.5.1 Non-identification of expiry period and shelf life of inventories in Inventory Management System

Rule 4(3) of the Corporate Governance Rules, 2013 states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During Thematic Audit of POF Inventory Management System (IMS) upto the year 2022-23, it was observed that IMS had a flaw of non-reporting of the shelf life or expiry period of inventory items having limited shelf life such as chemicals, oil & lubricants, paint, cement etc.

Audit is of the view that non-identification of expiry period or shelf life of inventories having limited life leads to imperfection in the Inventory Management System (IMS) which might cause loss to the formation.

Audit recommends updation of Inventory Management System (IMS) by addressing the said flaw.

6.3.6 Evaluation of reliable/correct value of inventories recorded in the General Ledger/Annual Accounts

- Purchase prices of inventories were checked.
- Issuance of inventories for production on weighted average was verified.
- Rate cards of inventories were checked.

6.3.6.1 Non-authenticity of value of inventory reported in annual accounts of POF – Rs 2,525.27 million

Rule 89 (4) (viii) of GFR states that the head of the department and the accounts office will be jointly responsible for the reconciliation of the figures given in the accounts maintained by the head of the department with those that appear in the accounts books.

During Thematic Audit of POF Inventory Management System (IMS) upto the year 2022-23, it was observed that CMA reported inventory valuing Rs 13,951.98 million in the annual accounts against Filling Factory, SAA Factory and Brass Mill, whereas, IMS reported value of said inventory items Rs 11.673.83 million with a difference of Rs 2,525.27 million. Detail is as under:

(Rs in million)

S. No.	Name of Factory	Value of Inventories as per CMA as on 30.6.2023	Value of Inventories as per IMS as on 30.6.2023	Difference
1	Filling Factory	4,781.71	4,905.27	123.56
2	SAA Factory	5,320.74	5,313.21	7.53

3	Brass Mill	3,849.53	1,455.35	2,394.18
	Total	13,951.98	11,673.83	2,525.27

The difference in inventory items appearing in annual accounts and recorded in IMS showed lack of coordination between CMA and POF.

Audit is of the view that huge difference of Rs 2,525.27 million in inventory items record of CMA and IMS created doubt about the Inventory Management System (IMS).

Audit recommends reconciliation of record between CMA and IMS of POFs.

6.3.7 Actual deliverables fulfill the terms and condition of promised deliverables

- In order to check if inventories were utilized for the purpose purchased, relevant record was demanded.

6.3.7.1 Unjustified conversion of strategic reserves into normal reserves - Rs 4,000 million

As per Para-3 of SOPs framed for utilization of Strategic Reserves, following guidelines / parameters are laid down:

- Revolving Funds will only be utilized for procurement of raw material which will be maintained as Working (strategic) Reserves.
- Raw material will be procured in advance to lessen the effect of inflation. Financial benefits thus accrued will be passed on to Armed Forces by regulating the cost of ammunition.
- Working Reserve of raw material will only be utilized for timely supply of ammunition to Armed Forces and usages will immediately be recouped.

During Thematic Audit of POF Inventory Management System (IMS) upto the year 2022-23, it was observed that the Ministry of Finance approved Rs 4,000 million as Revolving Fund for maintenance of strategic reserves in 2013. However, the POF management with the approval of Chairman vide circulation note dated November 26,2021 converted these strategic reserve into normal reserves and utilized the maximum store without approval of Finance Division which was not justified. Furthermore, the IMS did not identify the stock code of strategic reserves separately.

Audit is of the view that IMS should show strategic reserves for which separate fund was approved and allocated by the Finance Division.

Audit recommends maintaining a separate pool of inventory items being procured from the funds allocated for strategic reserves.

6.3.7.2 Non-utilization of slow moving inventories for intended purpose - Rs 94.98 million

The Chairman POF Board vide letter No. POF/59/CH dated 04.01.1971 issued certain policy instructions on provisioning and procurement of material/store to avoid un-necessary purchase of store. As

per Clause-6 of the policy the following general guidelines are required to be considered while raising demand and/or submitting/approving purchase proposal that:

- a. the demand raised is based on approved factors and is reasonable and justified,
- b. due economy and care is exercised in formulating requirements and all available and usable assets are taken into account before placing new demands, and
- c. in demanding/purchase store some vigilance in respect of expenditure incurred is exercised as a person of ordinary prudence would exercise in respect of the expenditure of his own.

During Thematic Audit of POF Inventory Management System (IMS) upto the year 2022-23, it was observed that POF SAA Factory and Filling Factory had declared inventory valuing Rs 72.12 million and Rs 22.86 million, respectively, as slow moving. The position showed that the inventory was procured without assessing the actual requirement or the reasons well known to the management. Unnecessary procurement of inventory resulted into blockage of funds to the tune of Rs 94.98 million.

The irregularity occurred due to non-vigilance of the system in observance of inventories lying since long.

Audit recommends that the system needs to be updated by addressing the flaw of store purchased un-necessarily.

7. Conclusion

The software has elaborated the user to make inventory system much more efficient as compared to the manual system. For instance, preparation of stock ledger balance at the end of financial year takes months in manual system, whereas, similar information from system generated reports takes few hours. Other benefits include data security and backup, workload measurement, tracking and visibility of progress to the management.

The benefit of the software especially in financial terms is that the software has helped POF management reduce redundant inventory.

However, efforts have been made to prepare comprehensive software by incorporating elaborated requirements of all stakeholders, CMA should also become a part of the digital inventory management system as they still require hard copies of different digitized transactions.

8. Department Response

Replies of the management are awaited.

9. Recommendations

After having covered limited record as an audit exercise and after a series of discussions held with representatives of POF following recommendations are offered:

- A serious effort needs to be undertaken in POF for sensitization on IMS.
- Inclusion of inventories data of services groups in IMS.
- Assuring accuracy in recording of inventories with authentic evidences.
- Identification of un-necessary inventories and obsolete items.
- Identification of expiry period of inventories having shelf life.
- Assuring that correct and reliable values are reported.
- Utilization of inventories purchased for the intended purpose.
- Assuring that inventories recorded in IMS and actual available in store are same.

Chapter-19

Up-gradation of Berthing Facility for Boats at Gwadar Port Authority

1. Introduction:

Gwadar is a port city on the southwestern coast of the Pakistani province of Balochistan. The city is located on the shores of the Arabian Sea, opposite Oman. Strategically placed at the entrance of the Persian Gulf, Gwadar emerged as a key player in regional geopolitics and economic development. It has the potential to become a major trading hub connecting South Asia, the Middle East, and Central Asia. Gwadar forms the southern endpoint of the China-Pakistan Economic Corridor (CPEC), and its deep-sea port is a focal point of the project.

Gwadar miniport also known as Gwadar fish harbor is a smaller port facility adjacent to the main Gwadar Port. It was constructed by M/s. BESIX, a Belgian civil works company from 1988 to 1992, to enhance the local fisheries industry. While not as large or developed as the main Gwadar Port, the Miniport serves as a hub for the local fishing community, providing a central location for the fishermen to bring their catch for sale and distribution, as 85% of Gwadar's population relies on fisheries as their main source of income. It has facilities for handling fish and seafood, including storage and processing facilities. However, efficiency of the port was reduced due to non-up gradation of berthing facility since long. Thus, it was inevitable and imperative to invest in up gradation of the berthing facility to extend support to traders and fishermen. In this background, the Government initiated the up gradation of berthing facility for boats at Gwadar Port Authority (GPA) amounting to Rs.131.975 million. The up gradation of the miniport began in 2020. The main objective of the project was to facilitate local fish industries by providing efficient berthing and auctioning facilities. The total land area of the harbor/mini port is 37 acres (excluding 8.0 acres of jetty area). The reinforced concrete jetty (416 meters long and 64.7 meters) is resting on 1,407 numbers of tubular steel piles driven up to 30-40 meters into the sea bed. The jetty is connected to the shore through 84-meter-long earthen embankment. The whole structure is seismic resistant. Impact Audit was undertaken to assess whether the project produced results that create impact to the masses.

2. Background:

Impact audit was started from the audit year 2023-24, by office of the Auditor General of Pakistan. The aim was to evaluate the effects of initiatives or programs, focusing on identifying the outcomes directly linked to a new initiative, program, or recent change to an existing program, while isolating other contributing factors or variables. Impact audit reports will help stakeholders understand the net results of programs and initiatives more systematically. Timely action based on these reports can improve service delivery, financial management, and governance.

The up-gradation of three berths at Gwadar Harbor cum Miniport was aimed at providing safe berthing space to fishing boats and enhancing fish harbor efficiency to make it at par with the other ports of the world, thereby addressing the major grievances of the local fishermen. The project started on July 01, 2020, and was completed on June 30, 2021. During the year 2022-23, Gwadar Fish Harbor/Miniport

generated an income of Rs.34.414 million from port operations, fish marketing and auctioning activities which was higher than the targeted income of Rs.17.945 million. The quantity of fish catch per boat increased by 5% to 10% per annum and fish catch increased to 4,622 tons in 2022 as compared to 1,889 tons in year 2021. The revenue from sale of fish also increased to Rs.629.391 million in 2022 as compared to Rs. 330.555 million in 2021. This resulted in reduction of poverty through increased trade activities.

Objectives:

As per PC-1, the Financial, Socio-Economics & Sectoral objectives of the projects were;

Financial objectives

- Increase the income and enhance the livelihoods of poor fishermen households in Gwadar
- Provision of safe berthing space for fishing boats
- Offers safety to fishermen
- Provision of facilities to make handling of fish catch safe
- Creation of business opportunities
- Safe berthing and uploading of fish catch 24/7
- Enhancement of commercial activities and income opportunities for local fishermen and Port Authorities.
- Delivery of improved handling & marketing facilities to the fishermen to increase their income
- Generation of employment opportunities and full operationalization of fish harbor

Socio-Economic objectives

- Social uplift of locals by creating employment opportunities
- Provision of better marketing facilities for the fish catch 24/7.
- Poverty alleviation through trade & commerce
- Socioeconomic integration of Gwadar to the rest of the country
- Growth in the export of fish and other seafood
- Make the port self-sufficient

Sectoral objectives

- To comply with International Maritime Organization (IMO) rules, which warrant the safety of life and property at sea
- To integrate the connectivity of Gwadar port with the other ports

3. Scope and Methodology

a. Scope:

The audit's focus was confined to the evaluation of impact of up-gradation of berthing facility for boats at Gwadar port which was launched at initial cost of Rs.128.050 million for 2020-21.

b. Methodology:

The methodology of impact audit consists of qualitative and quantitative approaches based on obtaining both primary and secondary data. Following techniques were used to gather the data;

- Understanding the audit entity
- Physical visit of the Gwadar port and mini fish harbor
- Questionnaires were served to the management and discussions were held with management and their responses were gathered.
- Interviews of fishermen were conducted and their responses were recorded.
- Apart from this, other secondary data sources like websites, PC-I & IV, tender files, correspondence files, financial statements and other miscellaneous resources were used.

4. Findings (Impact Analysis of the Project/ Actual Achievements)

The berthing up-gradation facility was based on its original design capacity which was planned and approved in 1988 – 1992. By restoring the facilities to their original design capacity, the project intended to bring back the original optimal functioning state of the harbor. However, since then (1988-92), the population of Gwadar and the number of boats has increased. According to the Directorate of Fisheries Balochistan, there were 2,021 registered fishing vessels in 2014 in Gwadar which increased to 3,291 in 2022. The project facilitated in the connectivity of Gwadar port with other local and regional ports.

During the field visits following findings were observed on up-gradation:

- 4.1 The feasibility study of the up-gradation of berthing facility design was not conducted before start of the project. The matter was reported to the management in November, 2023. The management replied that the requirement of feasibility study was not mandatory for rehabilitation work. The reply was not tenable as with the feasibility study more berthing capacity could have been achieved.
- 4.2 The new rubber wooden fenders and vertical ladders were installed at existing floating pontoon to further improve the safety and protection of boats. However, capacity to accommodate the maximum number of vessels remained the same 05 boats (120 tons each) at one time, whereas the frequency of docking of boats at miniport increased over time and there was a long queue of boats waiting for their turn. This unnecessary time lag was negatively impacting the earning capacity of the fishermen as they had to wait for longer duration. The matter was reported to the management in November, 2023. The management replied that 100 boats per day were docking at the port. The reply of management was not tenable as only 05 boats could dock at one time.
- 4.3 The design capacity of fenders was not tolerant enough to handle the boats safely, further reducing the impact of the project on the livelihood of the fishermen. During the visits, it was observed that the boats parked at the miniport were pressing hard against the rubber fenders. Due to this, many boats had suffered accidents and were broken while mooring. Fishermen tried to overcome this limitation by mounting tractor tires on their vessels. Simultaneously, truck tires were also mounted as additional buffers all over the berthing area for extra protection of the boats and to avoid friction/collision. The matter was reported to the management in November, 2023. The management replied that the rubber tires were mounted on boats for extra safety protection against the collision. The reply was not tenable as the mounted fenders should have been more strengthened.

- 4.4 The up-gradation included the replacement of 35 vertical stairs with fittings costing Rs. 5.950 million as against the budgeted amount of Rs.3.500 million. However, the new stairs were already started rusting due to a lack of proper maintenance and the low-quality substandard of the stairs. The matter was reported to the management in November, 2023 but no reply was received.
- 4.5 To ensure the quality and safety of fish catch proper storage facilities were essential. However, mini port did not have a proper cold storage facility due to this fish could not be stored for longer time. The matter was reported to the management in November, 2023 but no reply was received.
- 4.6 The project was awarded to M/s R.A.B Construction Company SMC- Private Ltd amounting to Rs.128.050 million. The company neither had a valid certificate from the Pakistan Engineering Council nor possessed relevant experience in similar nature of projects. It was also observed that management incurred excess expenditure against the approved PC-I cost under the various head of accounts as detailed below:

Rs in million				
S.No.	Description	Approved PC-I cost	Actual expenditure	Excess cost
1	Wood fenders	9.100	13.650	4.550
2	Vertical stairs/ ladder with fitting	3.500	5.950	2.450
3	Replacement of fenders of existing floating pontoon	3.500	9.000	5.500
Total		16.100	28.600	12.500

- 4.7 It was also observed that the management un-authorizedly utilized an amount of Rs. 2.996 million from the head of miscellaneous charges of Rs.3.925 million for rehabilitation of workshop, office stationery and other items which were not included in the project or approved in PC-I. The matter was reported to the management in November, 2023 but no reply was received.
- 4.8 Objectives of the up-gradation of berthing facility for Boats

Objectives	Description	Audit Findings
a. Financial objectives	1. Growth in the income and enhancement in livelihoods of poor fishermen households in Gwadar	Before the project, the mini port was not capable to accommodate the vessels for berthing to its original designed capacity. After rehabilitation, business growth has resulted in enhancing the revenue of the port and livelihood

		of fishermen. As the revenue from fish catch almost doubled from Rs.330.555million to Rs.629.391million in 2022, which resulted in betterment of living condition of fishermen.
	2. Provision of safe berthing space to fishing boats	After rehabilitation the safe berthing space to fishing boats has improved however, still fishermen themselves managed the safety of their boats by mounting the giant tractor tires around the boats and at the port side to avoid accidents and breakage of ships.
	3. Offers safety to fishermen	With installation of new rubber mounted wooden fenders the safety of fishermen has improved due to less chance of accidents. It was also reported that no accident occurred in recent times.
	4. Provision of facilitates to make handling of fish catch safe	The berthing facility has a maximum capacity of providing anchorage to 05 boats at one time, so the fishermen have to wait in queue for longer time and there was no proper arrangements for storage of fish catch.
	5. Creation of business opportunities	With improved berthing facility up to 100 boats per day and the fish catch was transported to auction hall with more ease and certainty, which was subsequently transported to other ports and cities for exports and local consumption. So, it generated direct and indirect employment.

	6. Safe berthing and uploading of fish catch 24/7	The port remained operational for 24/7 hours and no major incident was reported since long.
	7. Enhancement of commercial activities and income opportunities of locals and for Port Authorities.	As earlier mentioned the Gwadar Fish harbour/miniport generated an income of Rs.34.414 million from port operations and fish marketing and auctioning activities against target of Rs.17.945 million after completion of project.
	8. Delivery of improved handling & marketing facilities to the fishermen to increase their income	It was observed that the auction hall remained operational for 24 hours. However, it lacked basic facilities of clean drinking water, washroom, cold storage etc. which needed to be improved.
	9. Generation of employment opportunities by fully operationalization of fish harbour	Though port income has increased, but the impact on fishermen remained limited due to poor law and order, absence of facilities like cold storage and other related infrastructure.
b. Socio-economic objectives	Quantifiable and non-quantifiable factors	
	1. Social uplift of locals by creating employment opportunities	Gwadar port has the potential to transform Pakistan's economy by creating jobs, attracting foreign investment and promoting trade. Even after almost a decade of initiating the development of Gwadar, only three berths of the port are operational, the volume of shipping to and from the port is negligible, and the people of Gwadar feel little change in their socio-economic conditions. Local

		communities occasionally protest over the provision of clean drinking water, and electricity. Preventing the incursion of Chinese trawlers in the territorial waters of the province and facilitating fishing. Progress on the Eastbay Expressway remained in a deadlock for months due to the concern of fishermen to build bridges that allow passage to their fishing vessels.
	2. Provision of better marketing facilities of fish catch 24/7.	The marketing facilities and auction hall were available for 24/7 and fish was also transported to up country. However, due to poor law and order conditions the fish catch was not marketed timely.
	3. Poverty alleviation through trade & commerce	As reported by the GPA the quantity of fish catch per boat increased by 5% to 10% per annum and fish catch increased to 4,622 ton in 2022 as compared to 1,889 ton in year 2021. The revenue from sale of fish also increased to Rs.629.391 million in 2022 as compared to Rs.330.555 million in 2021. This also impacted in reduction of poverty through increased trade activities.
	4. Socioeconomic integration of Gwadar with the rest of country	Most of the catch from Balochistan is sent by road to Karachi by Makran Highway to be exported to international market and some fish goes directly to Iran. The Gwadar port

		is also connected with Jiwani, Pasni, Ormara and Sonmiani in Balochistan. This helps in socio-economic integration of the port with the rest of the country. However, the poor law and order situation is major handicap.
	5. Growth in the export of fish and other seafood	According to bureau of statistics Pakistan exported Fish and fish products of US dollars.500 million during 20203. Frozen flat fish, shrimps and prawns are mainly exported from Pakistan to rest of world. Though there has been substantial increase in fish catch at Gwadar port and exports from Karachi port but there is a serious problem of poaching in Balochistan’s territorial sea with trawlers from China using banned gill nets etc. Moreover, Baloch fishermen have limited access to credit facility, ship repair workshops and other modern facilities especially presence of cold storage facility at mini port.
c. Sectoral objectives	1. To comply with international Maritime organization (IMO) rules, which warrants safety of life and property at sea	The IMO standards entail the safe management and operation of ships and for managing pollution prevention and safety of life at sea. The GPA management informed that every effort was made for compliance of the IMO rules. However, The Project was unable to offer safety of life and property to fishermen at sea and spillage of oil was also observed at the port due to smuggling of Iranian oil in unsafe containers at the port.

	2. To integrate the connectivity of Gwadar port with the other ports	The project facilitated in the connectivity of Gwadar port with other local and regional ports for exports of fish catch through Makran coastal Highway and to Iran.
d. Environmental objectives	1. No environmental harm	It was observed that there was no proper waste management system at the miniport. Apart from boats with fish catch the Audit team also observed boats with smuggled Iranian oil at the mini port. There were also instances of oil spill at the mini port which were harming the marine environment. The big trawlers on Balochistan coast with banned gill nets were also harming the aquatic life along the Balochistan coast.

5. Conclusion

The project of up-gradation of the berthing facility for boats was taken up to improve the working conditions of fishermen and to ensure the safety & protection of the fishermen operating at the Gwadar coast. However, the effectiveness of the project was not maximized as it did not offer enough safe space to most of the vessels at one time. Moreover, there was dearth of basic facilities like cold storage, proper waste management system, workshop for repair and maintenance of boats, poor law and order were affecting overall performance of the port. Despite, all these issues the overall income and fish catch at the port has increased after the rehabilitation of berths which has positively impacted the lives of fishermen.

Recommendations

- Capacity of the miniport cum harbor needs to be enhanced ensuring safety of fishermen.
- The rubber and wooden fenders might be properly fixed as per the size of boats.
- Better marketing facilities and cold storage be provided on an emergency basis.
- Focus should be on the enhancement of the income of fishermen.
- Efforts should be taken to discourage the smuggling of Iranian oil affecting coastal environment.
- Provide adequate security for fishermen and traders with improved law and order situation.
- Procurement process needed to be fair and transparent.

**AUDIT REPORT
ON
THE ACCOUNTS OF
MINISTRY OF FOREIGN AFFAIRS
AUDIT YEAR 2023-24**

AUDITOR-GENERAL OF PAKISTAN

DIRECTORATE OF AUDIT (FOREIGN & INTERNATIONAL)

CHAPTER 1

MINISTRY OF FOREIGN AFFAIRS

1.1 Introduction

Ministry of Foreign Affairs, under the Rules of Business of the Federal Government, has been assigned to formulate, implement and monitor the foreign policy and deal with the matters listed below:

1. Relations and dealings with other countries;
2. Matters (other than those handled by other Divisions) relating to;
 - (a) International organizations and bodies and their decisions.
 - (b) Agreements and treaties with other countries.
3. Diplomatic, consular, trade and other representation abroad;
4. Declaration of war upon, and the making of peace with any country;
5. Offences against the laws of nations;
6. Foreign and extra-territorial jurisdiction;
7. Negotiations for settlement of Kashmir dispute and implementation of agreements reached;
8. Administration of;
 - (a) Foreign Service of Pakistan.
 - (b) Pakistan Missions abroad.
 - (c) Security and operation of cypher communications.
9. Visits of the Heads of States and foreign dignitaries to Pakistan and the Head of the Government of Pakistan to foreign countries;
10. Matters relating to;
 - (a) Protocol and foreign representatives in Pakistan.
 - (b) Federal Government Guest Houses.
11. Preparation of policies regarding;
 - (a) Extradition to and from other countries.
 - (b) Repatriation of Pakistan nationals from abroad.
12. Foreign awards to Pakistanis;
13. Pakistan Institute of International Affairs; and
14. Coordination of all works pertaining to Economic Cooperation Organization.

Table-1 Audit Profile-Ministry of Foreign Affairs*(Rupees in millions)*

Sl. No.	Description	Total Nos.	Audited	Amount held under observation FY2022-23
1	Ministry and its Formations	137	59	2,739.211
2	Assignments Accounts(excluding FAP)	01	01	-
3	Authorities / Autonomous Bodies etc. under the PAO	02	02	-

1.2 Sectoral Analysis

Ministry of Foreign Affairs is guided by the following foreign policy objectives:

- Promotion of Pakistan as a dynamic progressive, moderate and democratic Islamic country.
- Developing friendly relations with all countries of the world, especially major powers and immediate neighbours.
- Safeguarding national security and geo-strategic interests.
- Consolidating commercial and economic cooperation with international community
- Safeguarding the interests of Pakistani diaspora abroad.
- Ensuring optimal utilization of national resources for regional and international cooperation.

To achieve these goals, the Ministry was provided a budget of approximately Rs 32.355 billion during FY 2022-23 to cater to the needs of MOFA (HQ) and 123 Missions abroad.

Pension payments for officers and staff are released only after clearance of all audit objections and other recoveries. Some cheques, especially of tax deducted at source from vendors, remain outstanding till the end of the Financial Year. There needs to be coordination between administrative section, DDO and office of Chief Accounts Officer for timely submission of cheques in state treasury. This also demonstrates non-reconciliation between different wings of the Ministry. Monthly reconciliation between administrative wing and office of Chief Accounts Officer is required for appropriate adjustments. Monthly adjustments with other ministries for payments made in Missions abroad would allow for greater transparency in expenditure and accounting.

Pakistan Community Welfare and Education Fund (PCW&EF) and Fund for Improvement of Government Owned Buildings (FIGOB) are funded through 10% surcharge on consular fees collected in Missions abroad for each of the two funds. The funds at Headquarter i.e., Ministry of Foreign Affairs, are being kept in a single account, whereas the funds are required to be kept in

two separate accounts. The extended scope of PCW&EF approved by the Prime Minister of Pakistan includes certain services like maintenance of Foreign Office Dispensary, bus service for staff of Ministry of Foreign Affairs, etc. Such utilization of fund is inconsistent with the spirit of the fund whereby it is to be used for the welfare of Pakistani Diaspora in various countries.

There have been instances where security deposits on hiring of residence for officers / officials in Missions abroad were not refunded from the landlords. Similarly, VAT paid by Pakistan Missions abroad on purchases was also not refunded from the host government. TA/DA advances were also not being adjusted for long periods of time. There is a need to develop a coordination mechanism between administration wing and office of Chief Accounts Officer for timely resolution of these issues. Despite repeated observations of audit in previous audit reports, these issues have yet to be resolved by the Ministry.

Visa fee collected by NADRA on issuance of E-visa is being remitted to Ministry of Foreign Affairs on a monthly basis but there is no verification mechanism as to how much NADRA is collecting and remitting to the MOFA. Ministry needs to develop verification and reconciliation mechanism with NADRA regarding authenticity of visa fee collected and remitted.

1.3 Classified Summary of Audit Observations

Audit observations amounting to Rs 2,739.211 million were raised as a result of this audit. This amount also includes recoverable of Rs 145.449 million as pointed out by the Audit. Summary of the audit observations classified by nature is as under:

(Rupees in millions)

Sl. No.	Classification	Amount
1	Non-production of record	34.200
2	Reported cases of fraud, embezzlement and misappropriation	0
3	Irregularities / Overpayments	0
	A- HR / Employees relates irregularities	192.365
	B- Procurement related irregularities	9.565
	C- Management of Accounts with Commercial Banks	32.066
4	Value for money and service delivery issues	27.901
5	Others	2442.777
	Total	2738.874

1.4 Brief comments on the status of compliance with PAC directives

Year of Audit Report	Total Paras	Compliance Received	Compliance not Received	Percentage of Compliance
1986-87	11	4	7	36
1987-88	5	3	2	30
1988-89	6	2	4	33
1985-86	3	1	2	33
1989-90	8	1	7	13
1990-91	13	7	6	54
1991-92	9	2	7	22
1992-93	11	8	3	73
1993-94	10	0	10	0
1994-95	9	1	8	11
1995-96	19	5	14	26
1996-97	30	11	19	37
1997-98	31	0	31	0
1998-99	65	25	40	38
OIC	7	5	2	71
SAR Mexico	28	0	28	0
1999-2000	19	0	19	0
2000-01	26	3	23	12
2001-02	25	20	5	80
2002-03	20	7	13	35
2003-04	25	8	17	32
2004-05	47	22	25	47
2005-06	34	3	31	9
2006-07	23	8	15	35
2007-08	17	6	11	35
2009-10	52	28	24	54
2010-11	47	14	33	30
2013-14	05	0	05	0
2015-16	25	1	24	4
2017-18	18	15	03	83
2018-19	45	12	33	27
2019-20	32	18	14	56
Total	725	240	485	33

The overall compliance in respect of Ministry of Foreign Affairs is low. Ministry needs to pursue vigorously to comply with PAC directives.

1.5 AUDIT PARAS

Non-Production of Record

1.5.1 Non-production of record

According to Section 14 of the Auditor-General's (Functions, Powers and Terms & Conditions of Service) Ordinance, 2001, the Auditor-General shall, in connection with the performance of his duties under this Ordinance, has the authority to require any accounts, books, papers and other documents which deal with or form the basis of or otherwise relevant to the transactions to which his duties in respect of audit extend, shall be sent to such place as he may direct for his inspection. Further, Section 14(3) of the said Ordinance states that any person or authority hindering the functions of the Auditor-General regarding inspection of accounts shall be subject to disciplinary action under relevant Efficiency and Discipline Rules, applicable to such person(s).

During audit of Embassy of Pakistan, Tehran for the FYs 2018-22, following record was not produced to Audit despite repeated requests;

S.N	Description	Period	Amount (US\$)	Amount (Rs)
1.	Grant to Pakistan Embassy International School & College Tehran	December, 2017	120,000	34,200,000

Audit is of the view that non-production of record was violation of section 14 of AGP Ordinance 2001 and raised suspicion regarding authenticity of expenditure / payments.

The matter was reported to the management in February 2023.

DAC, in its meeting held on 19.01.2024, directed for provision of record. **No further progress was reported till finalization of this report.**

Audit recommends to fix responsibility against the person(s) at fault besides provision of relevant record.

[Para-3 Tehran 2018-22]

Irregularities/ Overpayments

i) A- HR/ Employees related irregularities

1.5.2 Unauthorized payment of 10% share of Education Subsidy – Rs 60.813 million

According to Para 5.6.1 of FMMA Vol-II, Education Subsidy at Mission abroad will be admissible at 90% of actual cost of education.

During audit of Pakistan's Missions abroad for the FYs 2018-22, it was observed that various mission made 100% payment on account of Education Subsidy to the officers instead of 90% as stipulated under the rules. Hence, the missions made excess payment of Rs 60.813 for education subsidy. The detail is as under:

Sl. No.	Name of Mission	Period of AIR	AIR Para No	Amount (LC)	Amount (Rs)
1	Jakarta	2018-22	11	US\$ 6,947	1,945,160
2	Kathmandu	2018-22	07	US\$ 15,089.4	4,225,032
3	Kathmandu	2018-22	08	US\$ 21,530	6,028,400
4	Paris	2019-22	04	€ 10,350	3,156,750
5	Paris	2019-22	05	€ 149,043	45,458,115
				TOTAL	60,813,457

Audit is of the view that weak internal controls resulted in unauthorized payment of Rs 60.813 million on account of Education Subsidy.

The matter was reported to the management on April 2023.

DAC, in its meeting held on 20.12.2023, directed the management to get the record verified from Audit. No further progress was reported till finalization of this report.

Audit recommends to recover excess payments from the officers under intimation to Audit.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2017-18, 2018-19, 2019-20 & 2020-21 vide para number 2.4.13, 2.4.21, 1.1.4 & 1.1.4 respective having financial impact of Rs 47.307 million. Recurrence of same irregularity is a matter of serious concern.

1.5.3 Unauthorized expenditure on account of contingent paid staff – Rs 49.439 million

Para 11(A) (vi) of the Revised System of Financial Control and Budgeting, 2006 states that the Financial Adviser shall submit proposals for appointment of contingent paid staff to the Additional Finance Secretary (Expenditure) for approval.

During audit of Pakistan’s Missions abroad for the FY 2019-22, it was observed that the Missions appointed contingent paid staff and incurred expenditure of Rs 49.439 million on account of payment of salaries to contingent paid staff. However, appointment of such staff was unauthorized as approval was not obtained from the Finance Division. Detail is as under:

Sl. No.	Name of Mission	Period of AIR	AIR Para No	Amount (LC)	Amount (Rs)
1	London	2021-22	16	£ 104,256	38,474,064
2	Paris	2019-22	3	Rs 10,965,051	10,965,051
TOTAL					49,439,115

Audit is of the view that appointment of contingent paid staff without approval of the Finance Division was unauthorized.

The matter was reported to the management in November 2022. The management replied that the case for regularization of expenditure on contingent paid staff had already been taken up with the Ministry for approval from Finance Division.

DAC, in its meeting held on 19.01.2024, directed for regularization of unauthorised expenditure on account of contingent paid staff from Finance Division. **No further progress was reported till finalization of this report.**

Audit recommends to refer the matter to Finance Division for consideration.

1.5.4 Unauthorized inclusion of AC, heating and other allied charges in rent – Rs 13.616 million

According to Para 8.12.1 of FMMA Vol-II, it is a universal practice for landlords to assess rents of their buildings inclusive of all taxes levied by the local Government or authorities on the property. Such taxes, other than service taxes are, therefore, not payable by Missions on account of the buildings rented by them.

During audit of Embassy of Pakistan, Copenhagen for the FYs 2019-20, it was observed that mission paid rent of residential accommodation for the mission employees alongwith charges that were not admissible under the rules. Upon translation of some rental invoices in respect of Accountant, APS & Driver, it was noticed that the payments of rent were being made inclusive of AC, heating, kitchen appliances etc. The detail of inadmissible rent amounting to Rs 13.616 million is at **Annex-I**.

Audit is of the view that due to non-compliance of rule, unauthorized payment amounting to Rs 13.616 million was made on account of rent inclusive of AC, heating and other allied charges.

The matter was reported to the management in February 2023.

DAC, in its meeting held on 19.01.2024, directed the Ministry for verification of record. **No further progress was reported till finalization of this report.**

Audit recommends to recover unauthorized payment from the officials under intimation to Audit, besides provision of lease agreements.

[Para-22 Copenhagen 2019-22]

1.5.5 Inadmissible reimbursement of medical treatment charges – Rs 10.866 million

According to Para 6.31.1 (a)(b) of FMMA Vol-II, claims for reimbursement shall be submitted to the Head of Mission supported by a copy of prescription from the AMA, Bills/Cash Memos/Invoices, in original, referral letter and the list of medicines, drawn up by the official, as per revised Proforma-II.

Further, according to OM No. F3.6(1)R-10/2010-171-2011 dated 24.03.2011 issued by Ministry of Finance (Regulation Wing) in consultation with Ministry of Health, the list of chronic diseases for reimbursement of amount spent on medical treatment is provided.

During audit of Pakistan's Missions abroad for the FYs 2017-22, it was observed that various Missions incurred expenditure on account of reimbursement of inadmissible medical charges pertaining to consultation and treatment of officers. The detail is as under;

Sl. No.	Name of Mission	Period of AIR	AIR Para No	Amount (LC)	Amount (Rs)	Remarks
1	Canberra	2017-22	22	A\$ 15,450	2,827,350	treatment Stem Cell
2	Tehran	2018-22	07	US\$ 1,276	357,280	cosmetic surgery (Skin growth surgery)
3	Sydney	2017-22	06	A\$ 2,401	439,383	reimbursement cost of medical charges in respect of different officers /officials which not allowed under the rule
4	Bangkok	2018-22	08	BHT 660,252	2,295,574	Unauthorized drawl of medical examination and medicine charges
5	Berlin	2019-22	08	€ 15,536	4,738,480	irregular payment on account of medical charges
6	Berlin	2019-22	22	€684	208,197	Unauthorized payment of dental crowning
TOTAL					10,866,264	

Audit is of the view that non-compliance of rules resulted in unauthorized reimbursement of medical charges.

The matter was reported to the management in August 2023.

DAC, in its meetings held on 14.11.2023 & 19.01.2024, directed the Ministry to effect recovery of inadmissible items after verification of record. **No further progress was reported till finalization of this report.**

Audit recommends to recover inadmissible reimbursement from the officers under intimation to Audit.

1.5.6 Unauthorized payment on account of airfare – Rs 10.597 million

According to Para 10.24.1 of FMMA Vol-II, PIA service should be utilized in all cases where its services operate on part or whole of the route to the destination. In cases where travel

has to be performed by a foreign carrier for the sector not covered by PIA, the booking is required to be arranged through PIA.

According to Sl. No. 10.2.1 of FMMA Vol-II, the officers/officials will travel (i) in the case of journeys between Pakistan and foreign countries, the route approved for the particular journey (ii) In the case of journeys between one foreign country and another, the standard route for journeys between the two countries.

During audit of MOFA (HQ), Islamabad for the FY 2022-23, it was observed that Ministry/Missions paid an amount of Rs 10.597 million (Rs 6,381,851, CZK 229,249, A\$ 3,360 and US\$ 2,763) on account of airfares/cost of air tickets to various officers/officials upon their posting /transfers from MOFA (HQ) to Missions abroad and vice versa, who travelled on unapproved routes. Further, in cases where Finance Division issued conditional NOCs, the difference of airfare due to deviation of approved route and availing of non-carrier was also not recovered from the officers/officials. The details of unauthorized payment on account of cost of air tickets/airfare is at ***Annex-II***.

Audit is of the view that due to weak internal and financial controls, Ministry made excess payments on account of airfares/non-national carrier due to deviation from approved routes where NOC was granted by Finance Division.

The matter was reported to the management in December 2023.

DAC, in its meeting held on 24.01.2024, directed the Ministry to effect recovery of difference of airfare from the concerned. **No further progress was reported till finalization of this report.**

Audit recommends compliance of DAC directives.

(Para-28, 42, 45, 54, 62 & 67 MOFA (HQ), 2022-23)
(Para-14 Canberra 2017-22)

1.5.7 Excess payment of 06 days joining time DA to officers / officials – Rs 7.459 million

According to Para 10.20.7 FMMA Vol-II, only 50 percent Daily Allowance is admissible to the officials of the Mission where residential accommodation is available during joining time at the station of posting. The officials themselves are not authorized to vacate or occupy residential accommodation.

During audit of Pakistan's Missions abroad for the FYs 2017-22, it was observed that various Missions made excess payments of Rs 7.459 million (US\$ 26,543.89) to officers / officials upon their transfer from Missions to HQs. The detail is as under;

Sl. No.	Name of Mission	Period of AIR	Para No AIR	Amount (US\$)	Amount (Rs)
1	Manchester	2019-22	03	2,574	723,294.00
2	Manchester	2019-22	23	1,417.50	398,317.50
3	Sydney	2017-22	10	1,995	560,595.00
4	Dublin	2017-22	11	1,836	515,916.00
5	Dublin	2017-22	30	2,214	622,134.00
6	Khartoum	2019-22	10	8,857.39	2,488,926.59
7	Berlin	2019-22	19	5,925	1,664,925.00
8	UN New York	2020-22	21	1725	484,725.00
TOTAL				26,543.89	7,458,833.09

Audit is of the view that violation of the prescribed rules resulted into overpayment of DAs amounting to Rs 7.459 million.

The matter was reported to the management in February, 2023.

DAC, during its meeting held on 20.12.2023, directed to provide relevant record for verification. No further progress was reported till finalization of this report.

Audit recommends to recover the overpayments from officers under intimation to Audit.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2017-18, 2018-19, 2019-20, 2021-22 & 2022-23 vide para number 2.4.11, 2.4.20, 1.1.3, 2.5.5 & 1.5.6 respectively having financial impact of Rs. 43.839 million. Recurrence of same irregularity is a matter of serious concern.

1.5.8 Non-recovery of security deposit – Rs 6.877 million

According to Para 8.6.1(a) of FMMA Vol-II, Pakistani Missions abroad are required to ensure recovery of the security deposits from the landlord at the time of vacation of accommodations occupied by the officers/officials.

During audit of Pakistan's Missions abroad for the FYs 2017-22, it was observed that various Missions made payment on account of security deposit for the rented accommodation for the officers. However, upon vacancy of the premises, the officers did not refund the security deposits as required under the above mentioned rule. The details are as under;

Sl. No.	Name of Mission	Period of AIR	AIR Para No	Amount (LC)	Amount (Rs)
1	Chicago	2018-22	10	US\$ 7,000	1,960,000
2	UN New York	2020-22	24	US\$2,200	616,000
3	Paris	2019-22	29	€ 14,100	4,300,500
				TOTAL	6,876,500

Audit is of the view that weak internal controls resulted in non-recovery of security deposit from the officers.

The matter was reported to the management in August 2023.

DAC, in its meetings held on 23.11.2023 & 19.01.2024, directed the management to effect recovery in case of Chicago and get the record verified by Audit in rest of the cases. **No further progress was reported till finalization of this report.**

Audit recommends to recover outstanding amount from the officer under intimation to Audit.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2018-19, 2019-20, 2021-22 & 2022-23 vide para number 2.4.26, 1.1.10, 2.5.8 & 1.5.2 respectively having financial impact of Rs 15.041 million. Recurrence of same irregularity is a matter of serious concern.

1.5.9 Inadmissible reimbursement of medical items – Rs 5.166 million

According to Para 6.31.1 b (c) of FMMA Vol-II, multivitamins, food supplements, soap for skin disease, Dettol/Dettol soap/Dettol cream Soap, Shampoo, Sliming tonic/sliming diet, Infertility treatment etc are not medical items.

During audit of Pakistan's Missions abroad for the FYs 2017-22, it was observed that various Missions incurred expenditure of Rs 5.166 million on account of reimbursement of inadmissible medical items. The detail is as under;

Sl. No.	Name of Mission	Period of AIR	AIR Para No	Amount (LC)	Amount (Rs)
1	Canberra	2017-22	27	A\$9,430.29	1,725,743
2	Brussels	2018-22	01	€ 2,630	802,150
3	Tehran	2018-22	8	IR 16,038,636	105,855

4	Wellington	2017-22	11	NZ\$ 5184.8	886,601
5	Jakarta	2018-22	12	IDR 22.982 million	410,459
6	London	2021-22	4	£ 3,479.95	1,235,382
TOTAL					5,166,190

Audit is of the view that non-compliance of rules resulted in unauthorized reimbursement of medical items.

The matter was reported to the management in August 2023.

DAC, in its meetings held on 11.01.2024 & 19.01.2024, directed the Ministry to effect recovery of inadmissible items after verification of record. **No further progress was reported till finalization of this report.**

Audit recommends to recover inadmissible reimbursement from the officers under intimation to Audit.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2017-18, 2018-19 & 2021-22 vide para number 2.4.17, 2.4.22 & 2.5.6 respectively having financial impact of Rs 39.651 million. Recurrence of same irregularity is a matter of serious concern.

1.5.10 Unauthorized payment on account of six days enroute joining time DA – Rs 6.180 million

As per Ministry’s circular No. Rules-5/11/2012 dated 28.05.2015, “the Prime Minister has approved 06 days joining time of Ambassador at a third station, en-route their place of posting”. According to Para 10.2.1 of FMMA Vol-II, the officers/officials will travel (i) in the case of journeys between Pakistan and foreign countries, the route approved for the particular journey (ii) In the case of journeys between one foreign country and another, the standard route for journeys between the two countries.

During audit of MOFA (HQ), Islamabad for the FY 2022-23, it was observed that Ministry/Missions paid an amount of Rs 6.180 million (US\$ 16,524, DH 6,134 and SRLs 12,543.75) to various Ambassadors on account of six day’s joining time DA for spending joining time at places other than places falling on approved routes. The details are at **Annex-III**.

Audit is of the view that due to weak internal and financial controls, Ministry made unauthorized payment of enroute joining time DA to various Ambassadors.

The matter was reported to the management in December, 2023. The management replied that in some cases, approval of Finance Division for deviation of route had been obtained, however, difference of airfare and DA would be recovered.

Dakin its meeting held on 24.01.2024, directed the Ministry to recover the overpayment. Audit recommends compliance of DAC directive.

(Para-27, 37, 41, 43, 53, 55, 65 & 80 MOFA (HQ), 2022-23)

1.5.11 Unauthorized double payment of pay and allowances at MOFA (HQ) – Rs 5.838 million

According to Rule 23 GFR Vol-I, every government officer should realize fully and clearly that he will be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

During audit of MOFA (HQ), Islamabad for the FY 2022-23, it was observed that one officer and one official continued drawing their pay and allowances at MOFA (HQ) while they were posted abroad. Hence, they were drawing double payment of pay and allowances amounting to Rs 5.838 million as detailed below:

Sl. No	Particulars of payment	Amount (Rs)
1.	Mr. Mubasher Ahmed, Deputy Director posted to Parep Berlin. He relinquished the charge at MOFA (HQ) on 2.10.2020 and assumed the charge in Mission as First Secretary on 11.10.2020. He continued drawing pay & allowances from the Mission till his posting back to the HQ on 23.07.2023. His pay at Headquarters continued w.e.f. 02.10.2020 to 30.06.2023 (33 months)	4,523,505
2.	Mr. Shahid Shamoon, LDC who was posted to Embassy of Pakistan at Washington. He was relieved of his duties in the Ministry on 02.09.2021 and joined the Mission on 10.09.2021. His pay at Headquarters continued w.e.f 02.09.2021 to 30.06.2023 (27 months)	1,314,862
	TOTAL	5,838,367

Audit is of the view that payment of pay and allowances at headquarters during the posting abroad was double payment which reflected weak internal and financial controls.

The matter was reported to the management in December, 2023. The management accepted the recovery and committed to effect the same.

DAC, in its meeting held on 19.01.2024, directed the Ministry to recover the overpayment. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

(Para-29 & 72, MOFA (HQ), 2022-23)

**1.5.12 Non-recovery from officer of TA/DA due to non-submission of TA bill –
Rs 4.135 million**

According to S. No. 66 of schedule of Financial Management and Powers of Principal Accounting Officers Regulations, 2021 (i) where no TA advance was drawn: PAO has full powers to condone time barred case of TA/DA bill submission. (ii) where TA advance was drawn: TA adjustment bill should be submitted within six months of the date of performance of journey by the government servant, failing which the advance will be recovered.

During the audit of the MOFA (HQ), Islamabad for the FY 2022-23 it was observed that Ministry/Mission paid TA/DA advances amounting to Rs 4.135 million to the Mr. Yasir Iqbal Butt, counselor upon his transfer from PAREP Bangkok to C.G Toronto but the officer did not submit the TA/DA adjustment bill within the prescribed time limit. The details of TA/DA advance paid are as under:

Sl. No	Vr. No. / Date	Description	Amount (LC)	Amount (Rs)
1	50 of 3/2023 (Toronto)	70% transportation charges	US\$ 7,245	1,885,873.50
2	34 of 9/2021 (Bangkok)	Air-Ticket	Baht 272,000	1,407,784.96
3	28 of 10/2021 (Toronto)	70% inland transportation charges	US\$1,322.87	226,144.63
4	28 of 10/2021 (Toronto)	06 days joining time DA	US\$3,135	535,928.25
5	28 of 10/2021 (Toronto)	30% transit DA	US\$156.75	26,795.95
6	34 of 9/2021 (Bangkok)	Transfer grant	US\$315.29	52,480.02
TOTAL				4,135,007.31

Moreover, Chief Accounts Officer vide letter No. Ad-III/3784-Vol-II/TR5242 dated 12.05.2023 informed the Ministry that the case was time barred.

Audit is of the view that due to weak internal and financial controls, Ministry failed to get the adjustment of TA/DA bill till the date of audit.

The matter was reported to the management in December, 2023.

DAC, in its meeting held on 19.01.2024, directed the Ministry to effect recovery from the officer. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

(Para-68, MOFA (HQ), 2022-23)

1.5.13 Unauthorized payment of Disparity Reduction Allowance – Rs 4.678 million

According to Finance Division letter No. F. No. 14(1)R-3/2021-90 dated 03.03.2021, Federal government grant of Disparity Reduction Allowance (DRA) @ 25% of the basic pay of basic pay scales 2017 w.e.f. 01.03.2021. This allowance shall be admissible to civil employees in BPS 1-19 of the Federal Government (including employees of the Federal Secretariat and attached departments). Further, according to Finance Division letter No. F. No. 14(1)R-3/2021-69 dated 23.02.2022, Federal government grant of DRA @ 25% of the basic pay of basic pay scales 2017 w.e.f. 01.03.2022. This allowance shall be admissible to civil employees in BPS 1-19 of the Federal Government, (including employees of the Federal Secretariat, attached departments and subordinate offices).

During audit of Institute of Regional Studies, Islamabad for the FYs 2020-22, it was observed that the management made payment of Rs 4.678 million on account of DRA, 2021 and 2022. However, the allowance was not admissible to the employees of IRS as it is an autonomous body and not covered under the FD policy. The detail is as under;

SL. No	Brief Particular	Amount (Rs)
1	Disparity Reduction Allowance, 2021	3,900,565
2	Disparity Reduction Allowance, 2022	777,284
TOTAL		4,677,849

Audit is of the view that payment of DRA in violation of rules resulted in loss of Rs 4.678 million to the national exchequer.

The matter was reported to the management in April, 2023. The management replied that Finance Secretary is member of Board of Governors (BOG) and payment was made with the approval of BOG. The reply is not tenable as according to clarification vide para 5 (i & iii) of Finance Division OM No. 4(3)R-4/2011 dated 23.01.2024, the presence of a representative of Finance Division on the Board of an autonomus / semi autonomus / corporate bodies does not constitute consultation with Finance Division. Such consultation is required to be undertaken as per prescribed procedure. Further, pays, allowances and their revision of all government employees including those employed in autonomous / semi autonomous / corporate bodies requies prior approval of Finance Division.

DAC, in its meeting held on December 07, 2023, directed the Institute/Ministry to get the matter clarified from Finance Division and effect recovery accordingly. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

[Para-6 IRS 2020-22]

1.5.14 Unauthorized payment on account of Special Allowance – Rs 1.627 million

According to Finance Division Regulation Wing O. M. No. F. 10(2)R-3/2012 dated 06.03.2013, the federal government granted special allowance @ 20% to the employees working in the Federal Ministries/Divisions only.

During audit of Foreign Service Academy, Islamabad for the FYs 2020-22, it was observed that management made payment of Rs 1.627 million on account of 20% Special Allowance to its officials / officer. However, the allowance was not admissible to the employees of Foreign Service Academy as it is an autonomous body and not covered under the FD policy. The detail is at *Annex-IV*.

Audit is of the view that payment of Special Allowance in violation of rules resulted in unauthorized payment of Rs 1.627 million.

This reflects weak internal and financial controls.

The matter was reported to the management in February, 2023. The management in its reply stated that in accordance with the Service Rules of the Academy, which were adopted by the Board of Governors at its third meeting of BOG held on September 13, 1992, “the employees of the Foreign Service Academy are entitled to receive pay and allowances as admissible to the employees of Federal Government reviewed from time to time”.

DAC, in its meeting held on December 07, 2023, directed the Institute/Ministry to get the matter clarified from Finance Division and effect recovery accordingly. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

(Para-4, FSA 2022-23)

1.5.15 Non-initiation of action for misappropriation – Rs 1.231 million

According to Rule 23 of GFR Vol-I, every Government officer should realize fully and clearly that he would be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

During the audit of MOFA (HQ), Islamabad for the FY 2022-23, it was observed that as per official's self-explanatory note dated 20.10.2021 Mr. Aamir Khan, Accountant, confessed the misappropriation of Rs 1.231 million (€ 3,945) against him. However, no action was taken against the official by the Ministry.

Audit is of the view that non-initiation of action for recovery of admitted misappropriated amount of Rs 1.231 million was negligence on part of the Ministry.

The matter was reported to the management in December, 2023.

DAC in its meeting held on 19.01.2024 directed for recovery from the official.

Audit recommends compliance of DAC directives besides taking punitive action against the official.

(Para-86, MOFA (HQ), 2022-23)

1.5.16 Irregular excess payment of transportation charges – Rs 1.165 million

According to Annexure X of FMMA Vol-II, it has been decided that fresh quotations be called for from Pakistan Missions abroad for approval of the Ministry and concurrence of the CAO's office. In view of the above, the Missions are requested to send three quotations on the prescribed proforma. The Head of Mission will sign the proforma and record a certificate that the rates quoted by the firms are most economical, reasonable and conformity with the local market rates.

During audit of High Commission of Pakistan, Canberra for the FYs 2017-22, it was observed that the Mission made payment of A\$ 12,356 on account of transportation charges with the approval of HOM instead of the Ministry. Further, the approval accorded by the HOM was for an amount of A\$ 8,193, hence, the officer was made excess payment of Rs 1.165 million (A\$ 4,163).

Moreover, the officer was also paid A\$ 2,205 on account of transportation charges of personal effects from Karachi seaport to residence in Islamabad vide Vr. No. 75/July 2018. However, the amount for transportation charges from Karachi to Islamabad was already included in the previous bill, hence, resulting in overpayment of A\$ 2,205. Further as per FMMA-II 10.14.1(c), the inland transportation charges within Pakistan were required to be paid in Rs instead of foreign currency.

Audit is of the view that non-adherence to the provisions of FMMA resulted in irregular excess payment of Rs 1.165 million [A\$ 6,368 (A\$ 4,163+ A\$ 2,205) @ Rs 182.90].

The matter was reported to the management in August, 2023.

DAC, in its meeting held on 19.01.2024, pended the para for want of officer's response. No further progress was reported till finalization of this report.

Audit recommends regularization of expenditure and recovery of overpaid amount from the concerned officer.

[Para-20 Canberra 2017-22]

1.5.17 Unauthorised payment of pay and allowances during leave period – Rs 1.094 million

According to Finance Division (Regulation Wing) U.O No.1(1)R-4/2017 dated 03.07.2020, during leave on half Pay, the personal availing leave will be allowed half pay and no Conveyance Allowance will be allowed. Rule 9 of Revised Leave Rules, 1980, stipulates that extraordinary leave is granted without pay.

During audit of MOFA (HQ), Islamabad for the FY 2022-23, it was observed that Ministry granted LFP, LHP, EOL and medical leave to its officers/officials and paid full pay and Conveyance Allowance during leave period. This resulted in excess and unauthorized payment of Rs 1.094 million. The details of excess and unauthorized payments are at **Annex-V**.

Audit is of the view that due to weak internal and financial controls, Ministry made payment of Rs 1.094 million on account of pay and Conveyance Allowance during leave period.

The matter was reported to the Management in Decmeber, 2023. The management admitted the irregularity and committed to effect recovery.

DAC, in its meeting held on 24.01.2024, directed the Ministry to effect recovery from the concerned officers / officials. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

(Para-40, 57, 58, 63 & 69, MOFA (HQ), 2022-23)

B- Procurement Related Irregularities

1.5.18 Irregular purchase of gifts – Rs 7.286 million

According to Para XV of MOFA's letter No. Rules- 414 12017 dated 26.04.2017, where the gifts items are purchased in bulk and in advance for different occasions, either in Pakistan or abroad, itemized receipts of such purchases will be entered into a separate stock register maintained at the Mission. Such purchase of gift items in bulk should not exceed US\$4,000 in any case. This stock register should also indicate as to whom the gifts have been presented. Furthermore, PPRA Rule 9 specifies that a procuring agency shall announce in an appropriate manner all proposed procurements for each FY and shall proceed accordingly without any splitting or regrouping of the procurements so planned.

During audit of Embassy of Pakistan, Berlin for the FYs 2019-22, it was observed that the mission purchased various gift items worth Rs 7.286 million from Pakistan and Berlin through splitting. Further, the mission did not maintain stock register for receipt and distribution of gifts and there was no evidence of payment to the vendor. Moreover, in a number of cases, the payment was reimbursed to the Ambassador instead of direct payment to the vendors. The detail is at **Annex-VI**.

Audit is of the view that non-compliance of procurement rules along with other irregularities raised doubts regarding authenticity of payments as well as purchases.

The matter was reported to the management in November, 2022. The ministry in its reply stated that Mission purchased gift items individually or at times collectively on different occasions, for which the PPRA requirement was not mandatory due to the lesser amount incurred on purchase.

DAC, in its meeting held on 14.11.2023, directed the Ministry to provide copies of receipts of purchased items and copy of gift register. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2017-18, 2019-20, 2020-21 & 2022-23 vide para number 2.4.8, 1.1.14, 1.1.13, 2.5.7, 2.5.6 & 1.5.18 respectively having financial impact of Rs. 1,864.786 million. Recurrence of same irregularity is a matter of serious concern.

[Para- 36 Berlin 2019-22]

1.5.19 Doubtful expenditure on purchase of furniture – Rs 2.353 million

According to Para 2.38.4 of FMMA Vol-II, Cabinet Division vide its OM No. 4/1/2008/PPRA-RA-III dated 09.04.2008 fixed following financial limits for open tender(s) for Pakistan Missions abroad:

S. No.	Kind of Tender	Monetary Limits
1.	Open tender	US\$ 4,000 or € 3,000 & above
2.	Limited tender	Less than US\$ 4,000 or € 3,000 & above US\$ 2,000 & € 1,500
3.	Single tender	Up to US\$ 2,000 or € 1,500

During audit of Embassy of Pakistan, Berlin for the FYs 2019-22, it was observed that the mission incurred expenditure of Rs 2.353 million (€ 7,740.69) on purchase of furniture vide voucher no. 74 of June, 2020. Audit found following irregularities in the procurement process;

- i. The expenditure was made without observing procurement rules.
- ii. The payments were made without any supporting documents with the vouchers such as invoice, approval of competent authority, payees' acknowledgment etc.
- iii. In one case payment was credited to personal account No.DE58100500000630190259 of the driver, Mr. Abidullah, instead of payment to concerned firm.

The details are as under:

Sl. No	Particulars of Items Purchased	Amount (€)	Amount (Rs)	Remarks
1	Purchased office furniture items from M/S DAS ZWEITE BURO, for chancery	2,845	864,880	-No approval -No Tender called -No Invoice -No Acknowledgement of payee -No stock entry
2	Purchased office furniture items from M/S IKEA DEUTSCHL, for office use	2,095.69	637,090	-do-
3	Purchased new sofa set for Embassy residence from M/S BELLE ARTI.	2,800	851,200	This amount was credited/transferred to Bank Account No.DE58100500000630190259 maintained in the name of Mr.Abidullah, Driver of Embassy.
TOTAL		7,740.69	2,353,170	

Audit is of the view that irregularities in the procurement process rendered the authenticity of procurement doubtful.

The matter was reported to the management in November, 2022. The management in its reply stated that all the items were purchased as mentioned in the dead stock register and their photos were also attached. With regard to the account mentioned in S. No. 3 of the table, it may be noted that since the FY was about to end and the M/S BELLE ARTI was not willing to receive the amount through online transfer and the Embassy did not have a credit card, therefore, Mr. Abidullah, made the payment from his credit card and the amount was reimbursed to him.

DAC, in its meeting held on 14.11.2023, directed the Ministry to get the missing documents i.e., approval of expenditure, tender notice called, invoice, acknowledgement of payee and stock entry verified from Audit. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2017-18, 2019-20, 2020-21 & 2022-23 vide para number 2.4.8, 1.1.14, 1.1.13, 2.5.7, 2.5.6 & 1.5.18 respectively having financial impact of Rs 1,864.786 million. Recurrence of same irregularity is a matter of serious concern.

[Para- 44 Berlin 2019-22]

C- Management of Accounts with Banks

1.5.20 Discrepancies between the cashbook and bank statement – Rs 18.663 million

As per Para 5.10.1 of FMMA Vol-I, following returns and certificates should accompany monthly accounts: Bank reconciliation statement on the prescribed proforma drawn up in order to agree the bank balance as per bank's certificate with the bank balance as shown in the accounts duly signed by the head of the office.

During audit of Pakistan's Missions abroad for the FYs 2018-22, it was observed that the missions did not carry out reconciliation of cashbook with bank accounts of US\$ and € which resulted in difference of Rs 18.663 million (US\$ 24,013 & € 37,883.81). The detail is as under;

Sl. No.	Name of Mission / Period	AIR Para No	Period / Month	Balance As per		Difference (LC)	Amount (Rs)
				Cash Book (LC)	Bank Stat. (LC)		
1	Mashed 2018-22	16	Nov-2020	(US\$ 30,240)	US\$ 6,227	(US\$ 24,013)	6,843,705
2	Berlin 2019-22	2	Nov-2020	€ 46,857.44	€ 8,973.63	€ 37,883.81	11,819,496
						TOTAL	18,663,201

Audit is of the view that non-reconciliation of accounts and cashbooks demonstrated weak financial management and weak internal controls.

The matter was reported to the management in November, 2023. The management replied that concerned missions have been asked to provide reconciliation of accounts and the same will be provided to the Audit.

DAC, in its meetings held on 14.11.2023 & 20.12.2023, directed the Ministry to provide the reconciliation of accounts to Audit. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

Value for Money and Service Delivery Issues

1.5.21 Loss due to unjustified retention of Ambassador's residence – Rs 18.76 million

As per Para 8.4.1 of FMMA Vol-II, the PAC has directed the Ministry that accommodation to be vacated immediately and in no case, due to exigency of service, this period exceed beyond three months.

During audit of Pakistan Embassy, Dakar for the FYs 2015-22, it was observed that mission hired an accommodation for Mr. Ali Ahmed Arrain, Ambassador @ Rs 1.87 million (CFA 4,000,000) per month through a lease agreement dated 29.07.2020. The officer retired from the service on July 09, 2021 and vacated the residence. However, the mission retained the said accommodation till May 27, 2022, and one month vacation notice was served on 28th April, 2022. Thus, the accommodation was irregularly retained for 10 months & 18 days in violation of PAC directives against which the mission made payment of Rs 18.76 million (CFA 40,197,260).

Audit is of the view that unnecessary retention of accommodation resulted in loss of Rs 18.76 million to the national exchequer.

The matter was reported to the management in January, 2023. The management in its reply stated that the mission retained the Embassy residence with the approval and instructions of Ministry of Foreign Affairs. Accordingly, as directed by the Ministry vide email message No. MS (I)-5/50/2016 dated 28 April 2022, one (01) month vacation notice for de-hiring of Embassy Residence was served on the same date to the landlord/company with effect from 28 April 2022.

DAC, in its meeting held on 20.12.2023, directed the Mission to seek justification from HOM. No further progress was reported till finalization of this report.

Audit recommends to fix responsibility on the person(s) at fault besides ensuring compliance of PAC directives in future.

[Para-1Dakar 2015-22]

1.5.22 Loss due to retention of vacant Embassy Residence – Rs 9.141 million

As per Para 8.4.1 of FMMA Vol-II, the PAC has directed the Ministry that accommodation to be vacated immediately and in no case, due to exigency of service, this period exceed beyond three months.

During audit of High Commission of Pakistan, Wellington for the FYs 2017-22, it was observed that the mission incurred expenditure of Rs 9.141 million (NZ\$ 53,456) on rent of embassy residence for 07 months which was vacated by the ex-ambassador on his retirement. During the period of seven months, the HOC remained the Charge D' Affaires / Acting High Commissioner and the accommodation of HC remained vacant but no action for vacating the premises was taken by the management.

Audit is of the view that violation of PAC directives resulted in loss of Rs 9.141 million to the national exchequer.

The matter was reported to the management in August, 2023. The management replied that as the Ministry was competent to accord sanction for retention of a hired residential building, its conveyed approval vide fax No. MS(I)-4/26/2006 dated 22 March 2018 for retaining the Embassy Residence.

DAC, in its meeting held on 11.01.2024, directed the Ministry to explain its position before PAC. No further progress was reported till finalization of this report.

Audit recommends to fix responsibility on the person(s) at fault at under intimation to Audit.

[Para-1 Wellington 2017-22]

Others

1.5.23 Non-reconciliation of 20% surcharge of PCW&EF and FIGOB with NADRA – Rs 991.409 million

According to Para 10.1.1 of FMMA Vol-I, Pakistan Community Welfare and Education Fund (PCW&EF) is raised by levying 10% surcharge on the consular fees collected in Missions abroad. Similarly, according to Para 11.1.1 of FMMA Vol-I, the fund for Improvement of Government Owned Buildings (FIGOB) is collected as 10% surcharge on the Counselor Fees charged by our Missions for various services.

During audit of MOFA (HQ), Islamabad for the FY 2022-23, it was observed that the Ministry received Rs 991.409 million from NADRA as 20% share/surcharges on account of PCW&EF and FIGOB collected as Visa fee for Visa services provided online through POVS. The amounts so received, however, were un-reconciled, as Ministry had no record of the actual amount collected by NADRA on counselor services and the details of countries from where the collection of Counselor fees had been made. There was no mechanism of reconciliation with NADRA and Missions abroad regarding collection of Consular receipts through online and 10% share of surcharge each for PCW&EF and FIGOB. Detail is at *Annex-VII*.

Audit is of the view that in absence of the required record/details and reconciliation mechanism, the figures of the amounts being received from NADRA on account of 20% surcharges were unauthentic and could not be verified as actual amount.

The matter was reported to the management in December, 2023. The management replied that matter had been taken up with NADRA for reconciliation and same would be shared with Audit.

DAC, in its meeting held on 19.01.2024, directed the Ministry to take up the matter with NADRA to resolve the reconciliation issue. In case of non-cooperation of NADRA, the para would be shifted to NADRA (Ministry of Interior). No further progress was reported to this office till finalization of report.

Audit recommends compliance of DAC directive.

(Para-2, MOFA(HQ), 2022-23)

1.5.24 Non-refund of PCW&EF and FIGOB to Pakistan's Missions – Rs 991.409 million

According to PCW&EF Rules laid at Sl. No. 10.1.1 of FMMA Vol-I, PCW&EF was introduced vide MOFA's O.M. No. 4/11/81 Con-I, dated 08-10-1981. The fund is raised by levying 10% surcharge on the consular fees collected in Missions abroad for various community welfare activities. Similarly, according to Sl. No. 11.1.1 of FMMA Vol-I, FIGOB was introduced vide Ministry's O.M. No. 1978-AS(A) / 93 dated 18-04-1993. It is collected as 10% surcharge on the Counselor Fees charged by our Missions for various consular services. The surcharge thus

collected is accounted for separately. Its account has to be kept in a separate Bank Account. Expenditure from out of these funds can be made under the rules framed by the Ministry of Foreign Affairs.

During audit of MOFA (HQ), Islamabad for the FY 2022-23, it was observed that the Ministry received Rs 991.409 million from NADRA as 20% share on account of PCW&EF and FIGOB collected as Visa fee for Visa services provided online through POVS. However, Ministry was retaining this amount in the HQ instead of refunding the same to the missions as a result of which the missions could not utilize the funds for intended purposes.

Audit is of the view that retention of 20% surcharge of PCW&EF and FIGOB at MOFA(HQ) was irregular and unjustified.

The matter was reported to the management in December, 2023. The Ministry replied that matter had been taken up with NADRA authorities and progress would be shared with Audit when finalized.

DAC, meeting was convened on 19.01.2024, directed the management to explain its position before PAC. No further progress was reported till finalization of this report.

Audit recommends that the entire amount received from NADRA authorities on account of 20% surcharge may be remitted back to the concerned Missions.

(Para-8, MOFA (HQ), 2022-23)

1.5.25 Unjustified retention of consular receipts – Rs 97.168 million

According to Rule 7(1) of FTR, all moneys received by or tendered to Government officers on account of the revenues of the Federal Government shall without undue delay be paid in full into a treasury or into the Bank, and shall be included in the Federal Consolidated Fund of the Federal Government. Moneys received as aforesaid shall not be appropriated to meet departmental expenditure, nor otherwise kept apart from the Federal Consolidated Fund of the Federal Government. No department of the Government may require that any moneys received by it on account of the revenues of the Federal Government be kept out of the Federal Consolidated Fund of the Federal Government.

During audit of Embassy of Pakistan, Berlin, for the FYs 2019-22, it was observed that the mission deposited consular receipt amounting to Rs 97.168 million (€ 319,633) pertaining to July 2018 to June 2019 into its Imprest (Euro) Account on 08.07.2019. This was in violation of rules as the mission was required to deposit the consular receipt into the government exchequer at the earliest, instead of retaining the same for almost a year.

Audit is of the view that keeping government funds out of government account was a serious lapse and irregularity on part of the Mission authorities.

The matter was reported to the management in November, 2022. The management in its reply stated that consular receipt could not be submitted on time due to omission, resulting in the non-deposit of consular fee in the imprest account in a timely manner. However, at the end of the year the consular fee was submitted.

DAC, in its meeting held on 14.11.2023, directed the Ministry to furnish 01-year bank statement of consular receipts account of the Mission. DAC further directed that for future compliance of monthly transfer of consular receipt in imprest account be ensured. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

[Para-13 Berlin 2019-22]

1.5.26 Non-refund of VAT from the host governments – Rs 64.695 million

According to Para 8.12.2 of FMMA Vol-II, Missions in Pakistan are exempted from all taxes other than service tax viz Conservancy and Water Taxes on reciprocal basis. Our Mission should also be exempted from such taxes.

During audit of Pakistan’s Missions abroad for the FYs 2017-22, it was observed that various missions made payment on account of various items / services and paid an amount of Rs 64.695 million on account of VAT but the same was not claimed from the host government. . Detail is as tabulated below:

Sl. No.	Name of Mission	Period of AIR	AIR Para No.	Amount (LC)	Amount (Rs)
1	Sydney	2017-22	5	A\$ 7,468.74	1,426,305
2	Sydney	2017-22	15	A\$ 3,267.47	623,997
3	Canberra	2017-22	6	A\$ 34,200	6,532,200
4	Kathmandu	2018-22	4	NR 4,074,761.90	8,557,000
5	Bangkok	2018-22	14	Bhat 1,019,416	8,155,329
6	Singapore	2019-22	19	S\$ 124,936.66	26,111,762
7	Berlin	2019-22	39	€ 43,568	13,288,240
TOTAL					64,694,833

Audit is of the view that due to non-adherence to the rules, no claim for refund of VAT amounting to Rs 64.695 million was made which resulted into loss of government exchequer.

The matter was reported to the management in April, 2023.

DAC, in its meetings held on 20.12.2024& 19.01.2024, directed the Ministry to get the record of VAT refund verified from Audit. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

1.5.27 Suspicious transaction from FIGOB fixed deposit account – Rs 26.440 million

According to Rule 13 of GFR Vol-I, in the discharge of his ultimate responsibilities for the administration of an appropriation or part of an appropriation placed at his disposal, every Controlling officer must satisfy himself not only that adequate provisions exist within the departmental organization for systematic internal checks calculated to prevent and detect errors and irregularities in the financial proceedings of its subordinate officers and to guard against waste and loss of public money and stores, but also that the prescribed checks are effectively applied. For this purpose, each Head of the Department will get the accounts of his office and those of the subordinate disbursing officers, if any, inspected at least once in every FY by a Senior Officer not connected with the account matters to see whether satisfactory arrangement exists for systematic and proper maintenance of Account Books and other ancillary records concerned with the Initial Accounts.

During audit of Embassy of Pakistan, Berlin for the FYs 2019-22, it was observed that an amount of Rs 26.440 million (€ 87,000) was appearing in the cashbook as invested in fixed deposit account. This amount was being regularly reflected in cash book and was being reconciled on monthly basis till December 2020. However, from January 2021 onward, the amount of fixed deposit neither was appearing in the cash book of FIGOB as fixed deposit nor on the receipt side of FIGOB as received back.

Audit is of the view that improper recording of funds raised suspicion of misappropriation of funds.

The matter was reported to the management in November, 2022. The mission in its reply stated that the said amount along with other funds arranged from PAREP Seoul was expended on the necessary repair/maintenance work at the Embassy Residence. From February 2016 till December 2020, the amount was being erroneously mentioned as fixed deposit account in Mission's Cashbook record of FIGOB Account which was later rectified in the Missions record.

DAC, in its meeting held on 14.11.2023, directed the Ministry to get the record verified from Audit. No further progress was reported till finalization of this report.

Audit recommends the compliance of DAC directives.

[Para-42 Berlin 2019-22]

1.5.28 Unjustified retention of surcharge on account of PCW&EF / FIGOB – Rs 19.43 million

As per Rule 7(1) of FTR, all moneys received by or tendered to Government officers on account of the revenues of the Federal Government shall without undue delay be paid in full into a treasury or into the Bank, and shall be included in the Federal Consolidated Fund of the Federal Government. Moneys received as aforesaid shall not be appropriated to meet departmental expenditure, nor otherwise kept apart from the Federal Consolidated Fund of the Federal Government. No department of the Government may require that any moneys received by it on account of the revenues of the Federal Government be kept out of the Federal Consolidated Fund of the Federal Government. Similarly, according to Para-4 of GFR Vol-I, all transactions to which any officer of Government is a party in his official capacity must be brought to account without delay.

During audit of Embassy of Pakistan, Berlin for the FYs 2019-22, it was observed that the mission deposited two identical amounts of Rs 9.710 million (€ 31,963.31) i.e. total of Rs 19.430 million pertaining to the period July 2018 to June 2019 to FIGOB and PCW&EF accounts respectively on 08.07.2019. The same amounts were credited / transferred to imprest account on 10.07.2019 and 12.07.2019, i.e. in the same month. Hence, collection of 10% surcharges each on FIGOB and PCW&EF for the period July 2018 to June 2019 was not transferred to the respective accounts at that time but after a period of one year.

Audit is of the view that keeping government funds out of government account was a serious lapse and irregularity on part of the Mission authorities.

The matter was reported to the management in November, 2022. The management in its reply stated that the 10% of each PCW&EF and FIGOB accounts were deposited at the end of June 2019, which were credited in July 2019 by the bank.

DAC, in its meeting held on 14.11.2023, directed the Ministry to furnish one year bank statement of consular receipt account of the mission. DAC further directed that future compliance of monthly transfer of consular receipts in Imprest account should be ensured. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

[Para-14 Berlin 2019-22]

1.5.29 Non-refund of loan to FIGOB account – Rs 17.190 million

According to Para 11.4.1(ii) of the FMMA, Vol-I, the authority competent to approve any expenditure beyond the competency of the HOM from FIGOB / PCW & EF will continue to be the Foreign Secretary. Further, according to Para 11.3.5 of *ibid*, the surplus (FIGOB) should be invested in interest bearing fixed deposit.

During audit of Consulate General of Pakistan, Sydney for the FYs 2017-22, it was observed that the mission took a loan amounting to Rs 17.190 million (A\$ 90,000 @ Rs 191) from the FIGOB account during the FY 2021-22. The loan obtained from FIGOB was still outstanding at the close of audit. The detail is as under;

Withdrawal date	Description	Amount (A\$)	Amount (Rs)
17.11.2021	FIGOB	50,000	9,550,000
08.06.2022	FIGOB	40,000	7,640,000
TOTAL		90,000	17,190,000

Audit is of the view that non-adherence to the relevant rules resulted in irregular loan from FIGOB and loss in terms of profit on the fixed deposits.

The matter was reported to the management in August, 2023. No further progress was reported till finalization of this report.

DAC, in its meeting held on 19.01.2024, directed for refund of loan to FIGOB.

Audit recommends compliance of DAC directives.

[Para-17 Sydney 2017-22]

1.5.30 Unjustified expenditure on rent due to inordinate delay in construction of office / residential complex – Rs 181.17 million

As per Para 10(i) of GFR Vol-I, every officer incurring or authorizing expenditure from public funds should be guided by high standards of financial propriety. Every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public moneys as a person of ordinary prudence would exercise in respect of expenditure of his own money.

During audit of Embassy of Pakistan, Kathmandu for the FYs 2018-22, it was observed that a 32 Kanal open plot was purchased by the Embassy of Pakistan, Kathmandu in 1984 for US\$ 458,496 with the approval of Government of Pakistan. In 2008, the Government of Pakistan approved the proposal for the construction of chancery and residence complex on the said land at a cost of US\$ 4.71 million. The Mission was provided Rs 30 million from FIGOB of PAREP Riyadh and Muscat (Rs 15 million from each). As per MOFA letter No Acct.Admn. 22/2022 dated 23 August 2012, there was shortfall of funds required for the project despite the fact that there were sufficient funds of US\$ 944,119.50 in the FIGOB account of the mission. However, no further progress was reported in this regard as the construction of the said complex was yet to start. Resultantly, the Mission made payment of Rs 181.17 million on rent of office as well as residential buildings since 2018 only which was held unjustified by the Audit. The details are as under:

Sl.	Year	A03402	A03403

No.		Rent of office Building	Rent Residence
1	2018-19	10,414,950	22,773,293
2	2019-20	14,567,910	30,120,079
3	2020-21	15,398,680	32,810,873
4	2021-22	16,432,395	38,651,551
TOTAL		56,813,935	124,355,796
GRAND TOTAL		181,169,731	

Audit is of the view that despite provision of sufficient funds, inordinate delay in construction of residential / official complex resulted in unjustified expenditure of Rs 181.17 million on rent.

The matter was reported to the management in April, 2023. The management in its reply stated that the matter is already under consideration with the Ministry. However, as per audit observation Mission will again take up the case with the concerned authorities in Ministry for construction of the Chancery and residential buildings.

DAC, in its meeting held on 20.12.2023, pended the para with the direction to construct building and take up the matter with Inter Ministerial Committee (IMC). No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives besides fixing responsibility for the slack performance in construction of residential / office complex.

[Para-20 Kathmandu 2018-22]

1.5.31 Non-deposit of collection on account of Prime Minister Flood Relief Fund 2022 – Rs 11.012 million

According to Para 3.6.1 & 2 of FMMA Vol. II, all funds lying with Pakistan Missions Abroad, which are not required to be disbursed within a period of one month, shall be promptly repatriated to Pakistan.

During audit of Pakistan High Commission, Nairobi for the FYs 2019-22, it was observed that the mission opened bank account bearing No.0365096005 for Prime Minister's Flood Relief Fund, 2022 and collected Rs 11.012 million for flood affectees. However, the amount collected for flood relief was retained in the mission instead of repatriating the same to Pakistan.

Audit is of the view that retention of funds amounting to Rs 11.012 million was in violation of rules and resulted in non-utilization of funds for the prescribed purpose.

The matter was reported to the management in March, 2023. The management replied that in Kenya transfer of charity money is not legal. As per policy, charity funds cannot be transferred without state's instructions. The mission is pursuing the matter with bank and other concerned departments. The amount will be transferred to the State bank of Pakistan accordingly.

DAC, in its meeting held on 19.01.204, directed the Ministry for verification of record. No further progress was reported till finalization of this report.

Audit recommends to transfer the subject funds at the earliest under intimation to Audit.

[Para-13 Nairobi 2019-22]

1.5.32 Irregular expenditure on transportation of dead bodies – Rs 10.509 million

As per Rule 205 of FTR Vol-I, a Government officer entrusted with the payment of money shall obtain for every payment he makes, including repayment of sums previously lodged with the Government, a voucher setting forth full and clear particulars of the claim and all information necessary for its proper classification and identification in the accounts. Every voucher must bear, or have attached to it, an acknowledgment of the payment signed by the person by whom, or in whose behalf, the claim is put forward. The acknowledgment shall be taken at the time of payment.

During audit of Embassy of Pakistan, Berlin for the FYs 2019-22, it was observed that the mission paid an amount of Rs 10.509 million (€ 34,568) on account of transportation and funereal charges for the dead bodies to various firms without obtaining necessary documents such as airway bills, original invoices, bifurcation of charges. The details of expenditure are at **Annex-VIII**.

Audit is of the view that payment without obtaining required documents/record rendered the authenticity of expenditure doubtful.

The matter was reported to the management in November, 2022. The management in its reply stated that in some cases, due to urgency of sending the dead body and our unique culture of ensuring early burial, all documents in original, may not have been acquired and copies placed in the record

DAC, in its meeting held on 14.11.2023, directed the Ministry to provide airway bill to Audit. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

[Para-34 Berlin 2019-22]

1.5.33 Excess deductions of consular receipts – Rs 8.076 million

According to Para 11.1 of FMMA, Vol-II, "The Fund for Improvement of Government Owned Building (FIGOB) and Pakistan Community Welfare and Education Fund

(PCW&EF) are collected as 10% surcharges (for each fund) on the Counselor Fees charged by our Missions. Share of both funds in the gross counselor receipt can be calculated as per following formula:

$$\text{Gross receipt} * 20/120$$

During audit of Consulate General of Pakistan, New York for the FYs 2020-22, it was observed that the mission credited excess amounts of consular receipts to PCW&EF and FIGOB accounts than prescribed under the rules. The details of excess deductions are at ***Annex-IX***.

Audit is of the view that weak internal controls resulted in excess deduction from consular receipts in violation of rules.

The matter was reported to the management in March, 2023. The management in its reply stated that the amount shown under “gross receipt” was in fact net consular receipt. Furthermore, the gross consular receipt included NADRA processing charges that were divided evenly between PCW&EF and FIGOB Account.

DAC, in its meeting held on December 07, 2023, directed the Ministry to provide documentary evidence in support of Ministry’s stance for Audit verification. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

[Para-01 CG New York 2020-22]

1.5.34 Doubtful drawl from the bank account – Rs 6.226 million

According to Para 2.19.1 of FMMA Vol-II, a government officer entrusted with the payments of money should obtain for every payment a voucher setting forth full and clear particulars of the claim, acknowledgement of the payee, and all information necessary for its proper classification and identification in the accounts.

During audit of Embassy of Pakistan, Tehran for the FYs 2018-22, it was observed that the mission debited Rs 6.266 million from Habib Bank, Dubai in July 2010 but the same was not reflected in cash books of the Embassy, rather it was reflecting in the bank reconciliation

statements. No action was taken by the mission to clear the disputed amount despite lapse of 13 years.

Audit is of the view that in the absence of supporting documents, the authenticity of expenditure could not be ascertained.

The matter was reported to the management in February, 2023. The management replied that the matter was 13 years old with no record available regarding the action to be taken to settle the disputed amount.

DAC, in its meeting held on 19.01.2024, directed the Ministry for reconciliation of accounts. No further progress was reported till finalization of this report.

Audit recommends to investigate the matter and share the result of reconciliation with Audit.

[Para-12 Tehran 2018-2022]

1.5.35 Irregular transfer of funds from imprest account to PCW&EF and FIGOB accounts – Rs 5.01 million

According to Para 10.1.1 of FMMA Vol-I, Pakistan Community Welfare and Education Fund (PCW&EF) was introduced 1981. The fund is raised by levying 10% surcharge on the consular fees collected in Missions aboard. The surcharge thus collected is accounted for separately. Its account has to be kept in a separate Bank Account. Expenditure from out of this fund can be made under the rules framed by the Ministry of Foreign Affairs.

During audit of Embassy of Pakistan, Berlin for the FYs 2019-22, it was observed that the mission transferred an amount of Rs 5.01 million (€ 16,500) from its imprest account to Mission's FIGOB and PCW&EF accounts i.e., € 8,250 in each account, on 02.07.2020 without any details and justification.

Audit is of the view that transfer of funds from mission's imprest account to mission's FIGOB and PCW&EF account without any details and justification was irregular.

The matter was reported to the management in November, 2022. The management in its reply stated that the amount was deposited from Mission's Imprest to the Mission's PCW&EF and FIGOB's accounts, as 10% surcharge on monthly consular fee at the end of June 2020. However, the amount was transferred by the bank on 02.07.2020.

DAC, in its meeting held on November 14, 2023, directed the Ministry to provide details of the reconciliation of the amount which resulted in payment of transfer of € 16,500 to PCW&EF and FIGOB accounts. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

[Para- 45 Berlin 2019-22]

1.5.36 Irregular payment to law firm for translation of legal documents – Rs 4.133 million

According to Rule 9 of GFR Vol-I, as a general rule no authority may incur any expenditure or enter into any liability involving expenditure from public funds until the expenditure has been sanctioned by general or special orders of the President or by an authority to which power has been duly delegated in this behalf and the expenditure has been provided for in the authorized grants and appropriations for the year.

As per Sl. No. 31 of schedule of Financial powers delegated to the PAO under the Financial management regulations 2021, the PAO is vested with full powers in consultation with Law & Justice Division.

During audit of Embassy of Pakistan, Bangkok for the FYs 2018-22, it was observed that the mission hired a legal firm, Mr. Charoenrit Hardjiang, for translation of legal documents pertaining to prisoners and paid an amount of Rs 4.133 million (BHT 526,500). However, the mission did not obtain approval of MoFA for expenditure from PCW&EF and did not obtain concurrence from Law and Justice Division as required under the rules. The detail is as under:-

Sl. No.	Particulars	Vr. No	Amount BHT	Amount Rs
1	Thai version of prisoner's documents translated into English @ 500 BHT per page.	31 of October 2018	128,000	1,004,800
2	Thai version of prisoner's documents (797 pages) translated into English @. 500 BHT per page.	31 of June 2020	398,500	3,128,225
TOTAL			526,500	4,133,025

Audit is of the view that incurrence of expenditure without observing codal formalities rendered the expenditure irregular.

The matter was reported to the management in March, 2023, but no reply was received till finalization of this report.

The management was requested to convene DAC meeting on 06.04.2023 and subsequently reminders on 12.05.2023, 25.08.2023, 18.09.2023, 24.11.2023, 28.11.2023, 04.12.2023 and 14.12.2023. However, no response was received till finalization of this report.

Audit recommends to refer the matter to the competent forums for consideration.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2018-19, 2019-20, 2020-21, 2021-22 & 2022-23 vide para number 2.4.2, 2.4.1, 1.1.16, 3.2.10, 3.2.9, 2.5.32 & 1.5.25 respectively having financial impact of Rs. 196.510 million. Recurrence of same irregularity is a matter of serious concern.

[Para-11 Bangkok 2018-22]

1.5.37 Irregular expenditure on Pakistan day celebration from Sumptuary Allowance – Rs 3.560 million

According to Para 4.21.12 of FMMA Vol-II, holding of National Day Receptions and Large Lunches/Dinners or receptions of routine nature out of Sumptuary Allowance is not allowed.

During audit of Embassy of Pakistan, Kathmandu for the FYs 2018-22, it was observed that the mission utilized an amount of Rs 3.560 million (US\$ 12,704.72) on Pakistan day reception and UN day from sumptuary allowance head which was not admissible as per above referred rule. Details are at *Annex-X*.

Audit is of the view that incurrence of expenditure on Pakistan day reception and Eid-ul-Fitar reception from sumptuary allowance and entertainment allowance was violation of rules.

The matter was reported to the management in August, 2023. The management replied that the expenditure was incurred on the National day reception of Pakistan with the approval of Ministry. However, the expenditure incurred by the Head of Mission, on the eve of Eid-ul-Fitr was permissible under the limit/powers of the HOM.

DAC, in its meeting held on 20.12.2023, directed to provide Ministry's approval to Audit for verification. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

[Para-19 Kathmandu 2018-22]

1.5.38 Irregular maintenance of welfare account – Rs 3.462 million

As per Para 5(4) of Chapter-IV of Cash Management and Treasury Single Account Rules 2020, Government offices that are fully funded through the Federal Government budget by using either local or foreign sources, including project and program loans and grants, shall operate their bank accounts through treasury single account system and no cash operation shall be allowed outside the treasury single account. Assignment accounts, sub-assignment accounts and revolving fund accounts shall be used in case of local currency or foreign currency funding requirements. Further as per Para(2) of chapter-IV of Cash Management and Treasury Single Account Rules 2020, Monies that have been appropriated through the Federal Government budget and have been transferred to scheduled bank accounts by Government offices shall be reverted to the non-food account No.1 of the Government by the 30th June 2020, as non-tax receipt of the Government.

During audit of Institute of Regional Studies, Islamabad for the FYs 2020-22, it was observed that the management was maintaining a welfare bank account with an unspent amount of Rs 3.462 millions on 30.6.2022. However, the account was being maintained without approval from Finance Division which rendered the maintenance of account irregular.

The matter was reported to the management in April, 2023. The management in its reply stated that the approval of the BoG for opening bank account was obtained and subsequently would be intimated to Finance Division for their approval.

DAC, in its meeting held on December 07, 2023, directed the Ministry to provide the authority and sources under which welfare fund was created. DAC further directed to provide evidence to the fact that IRS has furnished the approval of BOG to the Finance Division. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

[Para-5 IRS 2020-22]

1.5.39 Irregular payment of honorarium to employees of private firms from PCW&EF and FIGOB – Rs 2.970 million.

As per rules laid at Chapter No. 10 and Chapter No.11 of FMMA Vol-I, the basic purpose of Pakistan Community Welfare and Education Fund (PCW&EF) is the Welfare of Pakistan Community abroad and those availing Consular services in Pakistan. There is no provision in rules for grant of honorarium to employees of private firms from PCW&EF funds.

Finance Division's O.M No F 2(9) R-3/85 dated 18th March, 1987 states that a competent authority may sanction the grant of the honorarium from the general revenues to a Government servant for doing certain work.

During the audit of MOFA (HQ), Islamabad for the FY 2022-23 it was observed that Ministry made payment of Rs2.970 million out of PCW&EF account as honorarium to 198 Security and Janitorial staff of the private firms/companies working in the Headquarters which was in violation of rules. The private companies/firms were hired for provision of security and janitorial services under separate contracts. Further, the amount was drawn in cash and acknowledgments for receipts of honorarium were also not available on record. The details are as under:

Sl. No.	Particulars	Company/firm	Amount Paid
1	Payment of honorarium to 98 Security Guards @ Rs. 15,000 per head	M/S Safety & Security Co Rawalpindi.	1,470,000
2	Payment of honorarium to 35 janitorial staff hired for Agha Shahi Block/building @ Rs.15,000	M/S Outriders	525,000
3	Payment of honorarium to 45 janitorial staff hired for SYK building @ Rs.15,000	M/S Baber and Umer Pvt Ltd	675,000
4	Payment of honorarium to 20 janitorial staff hired for PBFH @ Rs.15,000	M/S Best Mansol Services Pvt Ltd	300,000
TOTAL			2,970,000

Audit is of the view that payment of honorarium to the employees of private firms/companies without any rules provision was unauthorized.

The matter was reported to the management in December, 2023. The Ministry replied that as per PCW&EF rules, it could be used for comprehensive welfare activities of Ministry's staff. The security and janitorial staff was low paid and thus honorarium was paid.

DAC, meeting was held on 19.01.2024. DAC directed the Ministry to explain the position to the PAC. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

(Para-12, MOFA (HQ), 2022-23)

CHAPTER 2 MINISTRY OF COMMERCE

2.1 Introduction

Under the Rules of Business of the Federal Government, Ministry of Commerce has been assigned the functions of trade and commerce between provinces and with other countries including trade agreements with other countries and promotion of International Trade. Commercial wings functioning in Pakistan Missions abroad play an important role in promoting international / bilateral trade and thus earning substantial foreign exchange. These trade wings fall under the audit jurisdiction of DG Audit (F&I). The major functions of the Ministry are as under;

- i. Commercial intelligence and statistics;
- ii. Trade marks;
- iii. Organization and control of Chambers and Associations of Commerce and Industry;
- iv. Tariff (protection) policy and its implementation;
- v. Law of insurance, regulation and control of Insurance Companies, actuarial work, insurance of war, riot and civil commotion risks and life insurance but excluding health and unemployment insurance for industrial labour and post office insurance.
- vi. Export promotion;
- vii. Anti-dumping duties, countervailing and safeguard laws;
- viii. Management of EDF / EMDF with representation of Textile Industry Division on their Boards; and
- ix. Management of Trade Development Authority of Pakistan (TDAP).

2.2 Classified Summary of Audit Observations

Audit observations amounting to Rs 31.301 million were raised as a result of this audit. Summary of the audit observations classified by nature is as under:

(Rupees in millions)

Sl. No.	Classification	Amount
1	Non-production of record	-
2	Reported cases of fraud, embezzlement and misappropriation	-
3	Irregularities / Overpayments	
	A- HR / Employees relates irregularities	5.746
	B- Procurement related irregularities	-
	C- Management of Accounts with Commercial Banks	-
4	Value for money and service delivery issues	-
5	Others	25.555
	Total	31.301

ii)

2.3 Brief comments on the status of compliance with PAC directives

Name of Ministry	Year of Audit Report	Total Paras	Compliance received	Compliance not received	Percentage of compliance
Ministry of Commerce	1990-91	2	0	2	0
	1992-93	1	1	0	100
	1994-95	1	0	1	0
	1995-96	3	0	3	0
	1996-97	6	2	4	33
	1998-99	6	4	2	67
	1999-00	3	3	0	100
	2000-01	3	1	2	33
	2001-02	10	5	5	50
	2002-03	1	1	0	100
	2004-05	1	0	1	0
	2005-06	9	3	6	33
	2006-07	6	4	2	67
	2009-10	21	2	19	10
	2010-11	4	2	2	50
	2013-14	1	1	0	100
	2015-16	2	-	2	0
	2017-18	2	-	2	0
	2018-19	1	-	1	0
TOTAL		83	29	54	35

The overall compliance in respect of Ministry of Commerce is comparatively low.

2.4 AUDIT PARAS

Irregularities / Overpayments

A- HR / Employees related irregularities

2.4.1 *Unauthorized payment of Overtime Allowance to local based driver – Rs 2.371 million*

According to Para 5.14.1, 2, 3, 4 of FMMA Vol-II, overtime Allowance and night duty allowance to Pak-based drivers and dispatch riders is admissible at US\$ 1 per hour subject to maximum of US\$ 6 per day. In addition, a certificates that officials claiming overtime allowance have actually earned it by working overtime, the period claimed in overtime bill has been checked and found correct and overtime allowance was added into gross pay for income deduction should be recorded on the overtime bill by the controlling officer.

Moreover, Rule 10(v) of GFR stipulates that the amount of allowances granted to meet expenditure of a particular type should be so regulated that the allowances are not on the whole a source of profit to the recipients.

During audit of Embassy of Pakistan Bangkok for the FYs 2018-22, it was observed that overtime allowance amounting to Rs 2.371 million (BHT 480,000) was paid to the Driver, Mr. Orachun Ketsup.

The official concerned invariably receiving overtime allowance for maximum possible hours on daily basis. Further, the drive was receiving BHT 10,000 per month on regular basis which showed that the Mission had compensated him by making this allowance a part of his monthly income. Overtime allowance was claimed almost for all Saturdays and some Sundays. No cogent reason/justification was provided by the controlling officer to substantiate his claims of overtime making this whole process suspicious. The details are at ***Annex-XI***.

Audit is of the view that the facility of overtime was misused and due diligence was not exercised which resulted in unjustified payment of overtime allowance to concerned official.

The matter was reported to the management in March, 2023 but no reply was received.

The management was requested to convene DAC on 04.01.2024 & 16.01.2024 but no response was received till finalization of this report.

Audit recommends recovery of unjustified overtime amount. Audit further, recommends that payment of overtime be rationalized on the basis of actual duty performed by the drivers.

[Para-04 Bangkok 2018-22]

2.4.2 *Non-adjustment of TA / DA on Transfer – Rs 1.404 million*

According to Para 10.7.2 of FMMA Volume-II, no advance shall in future be paid for travel expenses to any officials on transfer from headquarters to Missions abroad or Mission to headquarters or from Mission to Mission. As per Serial No. 66 of Financial Management and Powers of Principal Accounting Officers Regulations, 2021, where T.A advance was drawn, TA adjustment bill should be submitted within six months of the date of performance of journey by the government servant, failing which the advance will be recovered.

During audit of Embassy of Pakistan, Bangkok for the FYs 2018-22, it was observed that TA / DA advance on transfer was paid to Mr. Ghulam Nabi Kamboh, Counsellor (T&I) vide Vr. No. 49/10 of October, 2019 amounting to Rs 1.404 million (US\$ 1,563.85). However, certificates of adjustment from the office of Chief Accounts Office are still pending.

Audit is of the view that due to non-adjustment of TA/DA advances, authenticity of the claims / payment to the officer could not be ascertained.

The matter was reported to the management in March, 2023 but no reply was received.

The management was requested to convene DAC on 04.01.2024 & 16.01.2024 but no response was received till finalization of this report.

Audit recommends early adjustment or recovery of the amount of advances besides avoiding such instances in future.

[Para-19 Bangkok 2018-22]

2.4.3 Non-recovery of security deposit – Rs 1.989 million

According to Para 8.6.1(a) of FMMA Vol-II, Pakistani Missions abroad are required to ensure recovery of the security deposits from the landlord at the time of vacation of accommodations occupied by the officers/officials. Needless to say that the cost of the cleaning or breakage must be borne by the occupant and not by the state.

During audit of Pakistan’s Missions broad for the FYs 2018-22, it was observed that the mission made payment on account of security deposit for the rented accommodation for the officers. However, upon vacancy of the premises, the officers did not deposit the security deposits as required under the above mentioned rule. The details are as under;

Sl. No.	Name of Mission	Period of AIR	AIR Para No	Amount (LC)	Amount (Rs)
1	Chicago	2018-22	1	US\$ 4,700	1,339,500
2	Manchester	2019-20	5	£ 1,800	649,800
TOTAL					1,989,300

Audit is of the view that weak internal controls resulted in non-recovery of security deposit from the officers.

The matter was reported to the management in March, 2023.

The management was requested to convene DAC meeting on 04.01.2024 & 16.01.2024 but no response was received till finalization of this report.

Audit recommends to recover outstanding amount from the officer under intimation to Audit.

Others

2.4.4 Non-repayment of loan obtained from other missions for construction of embassy residence – Rs 25.555 million

According to Para 11.4.1 (iii,iv,v,vi) of FMMA Vol-I, the following instructions of the Competent Authority regarding the utilization of funds under FIGOB / PCW & EF are issued for implementation in the Missions accordingly, the borrowing Mission will repay the actual amount, received on transfer from the lending Mission, without any mark up until and unless any such clear directions are given from the Ministry in this regard.

During Audit of Embassy of Pakistan Bangkok for the FYs 2018-22, it was observed that the commercial wing has not paid their due share of Rs 25.555 million (US\$ 89,669) to clear the loan obtained from different Pakistan's Missions abroad for the construction of Embassy of Pakistan, Bangkok. The loan was not fully repaid even after lapse of more than 12 years.

Audit is of the view that non-refund of loan resulted in poor financial management on part of the Mission.

The matter was reported to the management in March, 2023 but no reply was received.

The management was requested to convene DAC on 04.01.2024 & 16.01.2024 but no response was received till finalization of this report.

Audit recommends that outstanding loan be paid without any further delay.

[Para-23 Bangkok 2018-22]

3.1 Introduction

The Defence Division is responsible for policy and administrative matters pertaining to the Defence of the Federation and three Armed Forces. It also deals with administrative & financial matters pertaining to Survey of Pakistan. The responsibility in respect of international negotiations, agreements and purchases of defence equipment along with allied accessories are also being handled by this Division.

Functions of Defence Division as per Rules of Business, 1973 are:

1. Defence of the Federation or any part thereof in peace or war including:
 - a. Army, naval and air forces of the Federation and any other armed forces raised or maintained by the Federation; and armed forces which are not the forces of the Federation but are attached to or operating with any of the armed forces of the Federation;
 - b. Army, naval and air force works;
2. Civilian employees paid from the Defence estimates.
3. (i) Defence matters pertaining to treaties and agreements with other Governments except those relating to purchase of stores; and
(ii) Matters regarding military assistance to foreign countries.
4. Stores and stationery for the Defence Services, other than those dealt with by the Defence Production Division.
5. Administration of National Guards Act, 1973.
6. International Red Cross and Geneva Conventions in so far as they effect belligerents.
7. Military awards and decorations.
8. Welfare of ex-servicemen.
9. Cantonment areas including:
 - a. The delimitation of such areas;
 - b. Local Self-Government in such areas, the constitution of local authorities for such areas and the functions and powers of such authorities; and
 - c. The regulation of housing accommodation (including control of rent) in such areas.
10. Acquisition or requisitioning of property for Defence Services; imposition of restrictions upon the use of lands in the vicinity of such property and of works of Defence.
11. Pardons, reprieves and respites, etc. of all personnel belonging to the Armed Forces.

12. Survey of Pakistan.
13. Administrative and budgetary control of Federal Government Educational Institutions (Cantonments/Garrisons) Directorate and its Institutions.
14. Administration of Military Lands and Cantonments Group.
15. National Maritime policy.
16. (i) Matters relating to security of resources of the Maritime Zones of Pakistan including protection of human life and property.
(ii) Pakistan Maritime Security Agency.
17. (i) National coordination of maritime activities.
(ii) National Maritime Affairs Coordination Committee.
18. Marine surveys and elimination of dangers to navigation.
19. Promotion of maritime disciplines.
20. International aspects:
21. Matters arising out of the implementation of law of the Sea pertaining to Maritime Affairs.
22. International negotiations, agreements and treaties (excluding those handled by other Divisions).
23. Liaison with International Sea Bed Authorities and other International Agencies in the Maritime field.
24. Pakistan Space and Upper Atmosphere Research Commission.

3.2 Classified Summary of Audit Observations

Audit observations amounting to Rs 6.672 million were raised as a result of this audit. Summary of the audit observations classified by nature is as under:

(Rupees in millions)

Sl. No.	Classification	Amount
1	Non-production of record	-
2	Reported cases of fraud, embezzlement and misappropriation	-
3	Irregularities / Overpayments	
	A- HR / Employees relates irregularities	-
	B- Procurement related irregularities	-
	C- Management of Accounts with Commercial Banks	-
4	Value for money and service delivery issues	-
5	Others	6.672
	Total	6.672

iii)

3.3 Brief comments on the status of compliance with PAC directives

Name of Ministry	Year of Audit Report	Total Paras	Compliance received	Compliance not received	Percentage of compliance
Ministry of Defence	1985-86	1	0	1	0
	1986-87	3	0	3	0
	1989-90	2	2	0	100
	1990-91	2	1	1	50
	1994-95	1	0	1	0
	1998-99	2	0	2	0
	2000-01	1	0	1	0
	2001-02	6	4	2	67
	2004-05	2	0	2	0
	2005-06	5	4	1	80
	2006-07	6	5	1	83
	2009-10	7	6	1	86
	2017-18	2	1	1	50
	TOTAL	40	23	17	57.5

The overall compliance in respect of Ministry of Defence is not satisfactory.

3.4 AUDIT PARAS

Others

3.4.1 Non-refund of VAT from the host governments – Rs 4.697 million

According to Para 8.12.2 of FMMA Vol-II, Missions in Pakistan are exempted from all taxes other than service tax viz Conservancy and Water Taxes on reciprocal basis. Our Mission should also be exempted from such taxes.

During audit of Consulate General of Pakistan, Sydney for the FYs 2017-22, it was observed that various items / services were procured involving VAT of Rs 4.697 million which was not claimed from the host governments. Details are as under:

Sl. No.	Name of Mission	Period of AIR	AIR Para\ No	Amount (Rs)	Remarks
1	Sydney	2017-22	13	3.629 million	The detail is at <i>Annex- XII</i> .
2	Bangkok	2018-22	7	1.068 million	The detail is at <i>Annex- XIII</i> .
TOTAL				4.697 million	

Audit is of the view that due to non-adherence to the rules, no claim for refund of VAT amounting to Rs 4.697 million was made which resulted into loss of government exchequer.

The matter was reported to the management in August, 2023 but no reply was received.

The management was requested to convene DAC on 04.01.2024 & 16.01.2024 but no response was received till finalization of this report

Audit recommends to prepare detailed working of claimable amount of VAT and immediately recover the same from the tax authorities of the host country.

3.4.2 Unauthorized payment on account of repair of vehicle – Rs 1.146 million

According to Finance Division O.M. No. F.3(2)Exp-III/2006, dated 03.09.2006, the heads of Missions are authorized to incur expenditure US\$ 2,000 at any one time to one or any number of vehicles used by the Pakistan Missions abroad.

During the audit of Embassy of Pakistan, Berlin for the FYs 2019-22, it was observed that the mission incurred expenditure of Rs 1.146 million (€ 3,674.89 @ Rs 311.84) on repair of vehicle. However, the mission got the car repaired in excess of prescribed limit without approval of the Finance Division. Hence, the entire expenditure was held unauthorized.

Audit is of the view that due to weak internal and financial controls, mission incurred expenditure beyond the prescribed financial limits without approval of the Finance Division.

The matter was reported to the management in November, 2023 but no reply was received.

The management was requested to convene DAC on 04.01.2024 & 16.01.2024 but no response was received till finalization of this report.

Audit recommends to refer the matter to Finance Division for consideration.

[Para-1 Berlin 2019-22]

CHAPTER 4 MINISTRY OF INFORMATION, BROADCASTING AND NATIONAL HERITAGE

4.1 Introduction

Ministry of Information, Broadcasting and National Heritage comprises of the following divisions:

Information and Broadcasting Division

National Heritage Division

According to Rules of Business 1973 (Schedule – II) Section 16 & Section 25 the mandate of Ministry is as follows:

Information and Broadcasting Division

- i. Policy relating to internal publicity on national matters including the administration of the provisions of the Post Office, Act, 1898, and section 5 (1) (b) of the Telegraph Act, 1885, in so far as they relate to the Press.

- iii. Production of films on behalf of Government, its agencies, Government controlled Corporations, etc.
- iv. Press relations, including delegations of journalists and other information media.
- v. Provision of facilities for the development of newspapers industry.
- vi. (i) Policy regarding government advertisement; control of advertisement and placement; (ii) Audit of circulation of newspapers.
- vii. Administration of the Newsprint Control Ordinance, 1971.
- viii. National Anthem
- ix. Liaison and coordination with agencies and media on matters concerning Government policies and activities.
- x. Administration of the Information Group.
- xi. External Publicity.
- xii. Pakistan National Centres.
- xiii. (i) Administration of- (a) Pakistan Broadcasting Corporation Act, 1973; (b) Associated Press of Pakistan (Taking Over) Ordinance, 1961; and (c) Pakistan Electronic Media Regulatory Authority. (ii) Matters relating to- (a) The Pakistan Television Corporation; and (b) Omitted vide SRO No.48 (1)/2016 dated 26.1.2016. 2 (c) Shalimar Recording and Broadcasting Company.
- xiv. Training facilities for Radio and Television personnel.
- xv. Special Selection Board for selection of Press Officers for posting in Pakistan Missions abroad.
- xvi. Omitted vide SRO1088(I)/2011, (4-14/2011-Min-I) dated 09.12.2011.

- xvii. Establishment of tourists centers abroad.
- xviii. Administration of the Newspapers Employees (Conditions of Service) Act, 1973(LVIII of 1973).
- xix. (i) National Institute of Folk and Traditional Heritage of Pakistan (Lok Virsa). (ii) Pakistan National Council of Arts.
- xx. Cultural pacts and protocols with other countries.
- xxi. Omitted by SRO No.48(1)/2016 dated 26.1.2016
- xxii. Federal Land Commission.

National Heritage Division

- i. International agreements and assistance in the field of archaeology, national museums and historical monuments declared to be of national importance.
- ii. Quaid-e-Azam Papers Wing.
- iii. Pakistan Academy of Letters.
- iv. National Language Authority, Urdu Dictionary Board and Urdu Science Board.
- v. National and other languages used for official purposes.
- vi. Quaid-e-Azam Academy.
- vii. Aiwan-i-Iqbal and Iqbal Academy Pakistan.
- viii. Quaid-e-Azam Mazar Management Board (QMMB).
- ix. Quaid-e-Azam Memorial Fund.
- x. Omitted vide SRO 634(1)/2016 (F.No.4-2/2016-Min-I) dated 22.7.2016
- xi. Naming of institutions in the name of Quaid-e-Azam and other high and distinguished personages.
- xii. National Book Foundation.
- xiii. National Library of Pakistan.

4.2 Classified Summary of Audit Observations

Audit observations amounting to Rs 15.743 million were raised as a result of this audit. Summary of the audit observations classified by nature is as under:

(Rupees in millions)

Sl. No.	Classification	Amount
1	Non-production of record	-
2	Reported cases of fraud, embezzlement and misappropriation	-
3	Irregularities / Overpayments	
	A- HR / Employees relates irregularities	-
	B- Procurement related irregularities	-
	C- Management of Accounts with Commercial Banks	-
4	Value for money and service delivery issues	-
5	Others	15.743
	Total	15.743

iv)

4.3 Brief comments on the status of compliance with PAC directives

Name of Ministry	Year of Audit Report	Total Paras	Compliance received	Compliance not received	Percentage of compliance
Ministry of Information, Broadcasting and National Heritage	1986-87	2	0	2	0
	1989-90	3	2	1	67
	1996-97	2	0	2	0
	1998-99	3	0	3	0
	1999-00	2	2	0	100
	2001-02	7	3	4	43
	2003-04	4	2	2	50
	2004-05	4	2	2	50
	2005-06	3	0	3	0
	2006-07	3	0	3	0
	2009-10	6	2	4	33
	TOTAL	39	13	26	33.33

The overall compliance in respect of Ministry of Information and Broadcasting is unsatisfactory.

4.4 AUDIT PARAS

Others

4.4.1 *Non-refund of VAT from the host government – Rs 8.512 million*

According to Para 8.12.2 of FMMA Vol-II, Missions in Pakistan are exempted from all taxes other than service tax viz Conservancy and Water Taxes on reciprocal basis. Our Mission should also be exempted from such taxes. [MOFA No. HQ-46/67/57, dated 19-9-1957]

During audit of High Commission of Pakistan, Singapore for the FYs 2019-22, it was observed that the missions made payment on account of various items / services and paid an amount of Rs 8.512 million on account of VAT but the same was not claimed from the host government.

Audit is of the view that due to non-adherence to the rules, no claim for refund of VAT amounting to Rs 8.512 million was made which resulted in loss of government exchequer.

The matter was reported to the management in April, 2023 but no reply was received till finalization of this report.

The management was requested to convene DAC on 04.01.2024 & 16.01.2024 but no response was received till finalization of this report.

Audit recommends to take up the matter with host governments for refund of VAT.

[Para-06 Singapore 2019-22]

4.4.2 *Irregular excess payment of security deposit and brokerage charges – Rs 5.902 million*

According to Para 8.6.1(a) of FMMA Vol-II 2019, missions are advised to carefully examine all draft lease agreements and negotiate with landlords to soften such hard terms and conditions, if not exclude them altogether. In this regard, the following should serve as a guideline:

- a. Advance Rent Six Months
- b. Brokerage Charges 05% of Annual Rent.
- c. Security Deposit Equivalent of one month's rent.

Missions will, in future, seek Ministry's approval for inclusion of such clauses in lease agreements where the charges exceed the above limits.

During audit of High Commission of Pakistan, Singapore for the FYs 2019-22, it was observed that the mission paid security deposit equivalent to two months' rent instead of one month rent for the hiring of residential accommodation for various employees. Similarly, in one case, the mission made excess payment of brokerage charges, no approval for payment of excess security deposit and brokerage charges was sought from the Ministry. Detail is at *Annex-XIV*.

Audit is of the view that payment of security deposit over and above the allowed limit was in violation of rules.

The matter was reported to the management in April, 2023. No further progress was received till finalization of this report.

The management was requested to convene DAC on 04.01.2024 &16.01.2024 but no response was received till finalization of this report.

Audit recommends to refer the matter to competent forum for regularization besides avoiding such instances in future.

[Para-8 Singapore 2019-22]

4.4.3 Unauthorized excess expenditure on repair of official vehicle – Rs 1.329 million

According to Finance Division O.M. No. F 3(2)Exp-3/2006 dated 13.09.2006, the head of Mission is only authorized to repair maintenance of transport upto US\$ 2000 any one time or any number of vehicle used by Pakistan Mission Abroad.

During audit of Embassy of Pakistan, Berlin for the FYs 2019-22, it was observed that the mission incurred an expenditure of Rs 1.329 million (€ 4,261) on account of repair of staff car. However, the expenditure was in excess of permissible limit of US\$ 2,000.

Audit is of the view that weak internal controls resulted in excess expenditure on repair of vehicle.

The matter was reported to the management in November, 2022 but no reply was received till finalization of this report.

The management was requested to convene DAC on 04.01.2024 &16.01.2024 but no response was received till finalization of this report.

Audit recommends to refer the matter to Finance Division for consideration besides avoiding such instances in future.

[Para-1 Berlin 2019-22]

CHAPTER 5 MINISTRY OF INTERIOR

5.1 Introduction

The Ministry of Interior has been assigned the responsibility of maintaining law and order in the country. It also regulates the working of various security identity cards and passports. The Ministry of Interior consists of the one Division, i.e. Interior Division.

The departments attached with Ministry are;

- i. Central Jail Staff Training Institute
- ii. Civil Armed Forces
- iii. Directorate General Civil Defence
- iv. Federal Investigation Agency
- v. Immigration & Passports
- vi. Islamabad Capital Territory
- vii. National Police Foundation
- viii. National Response Centre for Cyber Crimes

The autonomous bodies of the Ministry of Interior are;

- i. National Alien Registration Authority
- ii. National Database and Registration Authority
- iii. National Police Academy

5.2 Classified Summary of Audit Observations

Audit observations amounting to Rs 3.660 million were raised as a result of this audit. Summary of the audit observations classified by nature is as under:

(Rupees in millions)

Sl. No.	Classification	Amount
1	Non-production of record	-
2	Reported cases of fraud, embezzlement and misappropriation	-
3	Irregularities / Overpayments	
	A- HR / Employees relates irregularities	-
	B- Procurement related irregularities	3.660
	C- Management of Accounts with Commercial Banks	-
4	Value for money and service delivery issues	-
5	Others	-
	Total	3.660

v)

5.3 Brief comments on the status of compliance with PAC directives

Name of Ministry	Year of Audit Report	Total Paras	Compliance received	Compliance not received	Percentage of compliance
Ministry of Interior	2006-07	1	0	1	0
	2015-16	1	0	1	0
	2017-18	1	0	1	0
	TOTAL	3	0	3	0

The overall compliance in respect of Ministry of Interior is Nil.

5.4 AUDIT PARAS

Irregularities / Overpayments

B- Procurement related irregularities

5.4.1 Irregular award of work due to splitting – Rs 2.277 million

As per PPRA Rule 20, the procuring agency shall use open competitive bidding as a principal method of procurement for the procurement of goods, services and works. Furthermore, PPRA Rule 9 specifies that a procuring agency shall announce in an appropriate manner all proposed procurements for each FY and shall proceed accordingly without any splitting or regrouping of the procurements so planned.

According to Para 2.38.4 of FMMA Vol-II, Cabinet Division vide its OM No. 4/1/2008/PPRA-RA-III dated 09.04.2008 fixed following financial limits for open tender(s) for Pakistan Missions abroad:

Sl. No.	Kind of Tender	Monetary Limits
1.	Open tender	US\$ 4,000 or Euro 3,000 & above
2.	Limited tender	Less than US\$ 4,000 or Euro 3,000 & above US\$ 2,000 & Euro 1,500
3.	Single tender	Up to US\$ 2,000 or Euro 1,500

During audit of Consulate General of Pakistan, Manchester for the FYs 2019-22, it was observed that the mission awarded repair and renovation contract of NADRA office to M/s Ali Interior for Rs 2.277 million (£ 6,415). However, the award of work was irregular as the management split the procurements to avoid open tender. The detail is as under;

Sl. No	Vr # & Date	Particular	Amount (£)	Amount (Rs)
1	15 of 09.03.2020	50% advance for renovation work	1,500	532,500
2	33 of 18.03.2020	Repair and renovation work	1,500	532,500
3	27 of 29.04.2020	Electrical & wood work	2,300	816,500
4	55 of 29.06.2020	Civil work done in NADRA office	880	312,400
5	47 of 25.06.2020	Door fitting & paint work	235.00	83,425
TOTAL			6,415	2,277,325

Audit is of the view that non-compliance of procurement rules along with other irregularities raised doubts regarding authenticity of payment as well as purchase.

The matter was reported to the management in February, 2023 but no reply was received till finalization of this report.

The management was requested to convene DAC on 04.01.2024 & 16.01.2024 but no response was received till finalization of this report.

Audit recommends to refer the matter to competent forum for consideration besides avoiding such instances in future.

[Para-1 Manchester 2019-22]

5.4.2 Irregular payments to officers instead of vendor / agency – Rs 1.380 million

According to Para 157 of FTR Vol-I, cheques drawn in favor of Government officers and departments in settlement of Government dues shall always be crossed 'A/c payee only – not negotiable. As per Para 2.9.1 of FMMA Vol-II, a Head of Mission shall be responsible to the Chief Accounts Officer for acceptance of the validity of a claim against which he has permitted withdrawal, and for evidence that the payee has actually received the sum withdrawn.

During audit of Consulate General of Pakistan, Manchester for the FYs 2018-22, it was observed that the mission made payments of Rs 1.380 million (£ 3,920.52) for procurement of items to Mr. Faisal Javed Manager NADRA instead of direct payments to the agency, company or vendor through crossed cheques in violation of rules. The detail is as below;

Sl. No.	Vr. No.& Month	Item	Amount (£)	Amount (Rs)
1	02 of 02.06.2020	Renovation materials	800.00	281,600.00
2	03 of 02.06.2020	Renovation materials	1631.52	574,295.04
3	07 of 10.06.2020	Renovation materials	645.34	227,159.68
4	60 of 29.06.2020	Purchase of office table	230.40	81,100.80
5	53 of 16.10.2020	Purchase of Laptop	613.26	215,867.52
TOTAL			3920.52	1,380,023.04

Audit is of the view that payment for procurement of items to the officers instead of vendors raised suspicion regarding authenticity of payment / purchases.

The matter was reported to the management in February, 2023 but no reply was received till finalization of this report.

The management was requested to convene DAC on 04.01.2024 & 16.01.2024 but no response was received till finalization of this report.

Audit recommends to refer the matter to Finance Division for consideration.

(Para-3, Manchester, 2018-22)

CHAPTER 6 MINISTRY OF RELIGIOUS AFFAIRS & INTERFAITH HARMONY

6.1 Introduction

The Ministry of Religious Affairs and Interfaith Harmony is responsible for Muslim pilgrims' visits to India for Ziarat and to Saudi Arabia for Umra & Hajj and the welfare and safety of pilgrims. The main activities also include research-based Islamic studies, holding of conferences, seminars, training, education of Ulema & Khateebis and exchange of visits of scholars of Islamic learning with foreign and international institutions. The Ministry also performs activities like Management of Ruet-e-Hilal, Dawah, and infants and minor adoption laws. There are six subordinate offices working as Directorates of Hajj of this Ministry and two autonomous bodies, i.e., Council of Islamic Ideology and Pakistan Madrassah Education Board.

Following functions have been assigned to the Ministry as per the Rules of Business, 1973:

- i. Pilgrimage beyond Pakistan; Muslim pilgrims' visits to India
- ii. Ziarat and Umra
- iii. Welfare and safety of pilgrims and zairines
- iv. Administrative control of the hajj Directorate at Jeddah and dispensaries in Makkah and Medina
- v. Islamic studies and research, including holding of seminars, conferences, etc on related subjects
- vi. Training and education of Ulema and Khatibs, etc.
- vii. Error-free and exact printing and publishing of the Holy Quran
- viii. Exchange of visits of scholars of Islamic learning and education, international conferences / seminars on Islamic subject and liaison with foreign and international bodies and institutions
- ix. Ruet-e-Hilal
- x. Tabligh
- xi. Council of Islamic Ideology
- xii. Observance of Islamic Moral Standards
- xiii. Donations for religious purposes and propagation of Islamic ideology abroad
- xiv. Development of policies, arrangement for the proper collection, disbursement and utilization of Zakat and Ushr funds and maintenance of their accounts

- xv. Maintenance of liaison with Pakistani Missions abroad for collection of Zakat and other voluntary contributions from Pakistan citizens and others residing outside Pakistan.

6.2 Classified Summary of Audit Observations

Audit observations amounting to Rs 3,858.368 million were raised as a result of this audit. Summary of the audit observations classified by nature is as under:

(Rupees in millions)

Sl. No.	Classification	Amount
1	Non-production of record	-
2	Reported cases of fraud, embezzlement and misappropriation	40.703
3	Irregularities / Overpayments	-
	A- HR / Employees relates irregularities	48.343
	B- Procurement related irregularities	694.959
	C- Management of Accounts with Commercial Banks	322.172
4	Value for money and service delivery issues	-
5	Others	2,752.191
	Total	3,858.368

vi)

6.3 Brief Comments on the Status of Compliance with PAC Directives

Brief comments on the status of compliance with PAC directives

Name of Ministry	Year of Audit Report	Total Paras	Compliance received	Compliance not received	Percentage of compliance
Ministry of Religious Affairs & Inter-faith Harmony	1986-87	4	1	3	25
	1987-88	1	0	1	0
	1988-89	1	0	1	0
	1989-90	3	0	3	0
	1994-95	1	1	0	100
	1996-97	7	1	6	14
	2000-01	7	2	5	29
	2002-03	9	6	3	67
	2003-04	13	12	1	92
	2004-05	3	3	0	100
	2005-06	2	1	1	50
	2006-07	4	4	0	100
	2015-16	3	0	3	0
	2017-18	3	1	2	33
	TOTAL	61	32	29	52

The overall compliance in respect of Ministry of Religious Affairs & Interfaith Harmony is moderate.

6.4 AUDIT PARAS

Fraud/Embezzlement & Misappropriation

6.4.1 *Embezzlement in remittances – Rs 12 million*

According to Para 23 of GFR, every Government officer should realize fully and clearly that he would be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that an amount of Rs 12 million (SRLs 271,508.88) was remitted by the office of Chief Accounts Officer, Ministry of Foreign Affairs, Islamabad on 24.08.2021 on account of regular monthly recoupment for the month of June, 2021. The remittances were credited in the bank account of the Directorate General, maintained with Bank Al Riyadh, on 28.08.2021. However, the said amount was not accounted for as receipt in the Cash Account for the month of August, 2021. Rather the amount was transferred by Mr. Muhammad Kaleem, AAO on 29.08.2021 to another Bank Account bearing No.163-138-862-9942 titled Madinah Income Account maintained with the same bank. There from the entire amount was transferred to the personal bank account of Mr. Muhammd Kaleem, AAO. Moreover, the officer tempered the bank statements of the Directorate General to conceal the embezzlement.

Audit is of the view that embezzlement of Rs 12 million in remittances resulted in loss to the government exchequer.

The matter was reported to the management in August, 2022. The management replied that disciplinary proceedings under E&D Rules had been initiated and an FIR had been lodged with FIA. Concerned Revenue Authorities had also been approached for attachment of property of Mr. Muhammad Kaleem, the then AAO.

DAC, in its meeting held on 30.11.2022, directed the Ministry to vigorously pursue the matter with concerned authorities for effecting recoveries from the person(s) responsible. DAC further directed DG Hajj, Jeddah to draft a well worded letter to bank in consultation with Director Audit (F&I), CAO and JS Hajj, to get answers of following questions: -

i) What instructions were issued from OPAP office to bank at the time of opening of account?

ii) What was the track of transactions through which Rs12 million were embezzled?

No further progress was reported till finalization of this report.

Audit recommends to pursue the case with the concerned authorities to ensure recovery of embezzled amount besides sharing the outcome of investigation with Audit.

(Para-1 SAR DG Hajj Jeddah 2018-21)

6.4.2 *Misappropriation in food charges deducted from Moavineen – Rs 21.141 million*

According to Rule 23 of GFR Vol-I, every Government officer should realize fully and clearly that he would be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from

fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that Office of Pilgrim Affairs of Pakistan (OPAP) decided during hajj 2019 that the moavineen and Seasonal Duty Staff of MORA&IH would be provided food against the payment of SRL 15 per day. As per the the procedure, the moavineen were to be paid full DA while they would deposit food charges to Accommodation &Transport team for onward payment to food supplier. Subsequently OPAP deducted SRL 15 per day at source from the payment of DA of moavineen. However, there was no evidence for payment of this amount to food suppliers or its deposit in any of the official accounts of the Directorate General Hajj Jeddah. The detail is as under:

Sl. No	Vr. No. & Month	DA for the period	Amount of DA Paid (SRLs)	Amount of Food charges deducted (@ (SRL 15 per day)	Amount of Food charges deducted (Rs)
1	PWF-30 of 8/2019	30 June 2019 to 15 July 2019	250,561	22,860	1,257,300
2	PWF-37of 8/2019	16 July 2019 to 31 July 2019	948,297	92,040	5,062,200
3	PWF-38 of 08/2019	1st August 2019 to 17 August 2019	1,610,786	141,495	7,782,225
4	PWF-39 of 08/2019	16 August 2019 to 31 August 2019	1,158,323	123,540	6,794,700
5	PWF-48 of 08/2019	1st Sep 2019 to 14 Sep, 2019	174,270	4,440	244,200
TOTAL				384,375	21,140,625

Audit is of the view that weak financial and managerial controls resulted in misappropriation of funds amounting to Rs 21.141 million.

The matter was reported to the management in August, 2022. The management replied that disciplinary proceedings under E&D Rules had been initiated, an FIR had been lodged with FIA and concerned Revenue Authorities had been approached for attachment of property of Mr. Muhammad Kaleem, the then AAO.

DAC in its meeting held on 30.11.2022 directed the Ministry to pursue and expedite the inquiry and other actions with FIA and other departments for effecting recovery from the officers/officials responsible. No progress reported till finalization of this report.

Audit recommends compliance of DAC decision.

(Para-2 SAR DG Hajj Jeddah 2018-21)

6.4.3 Embezzlement from Pilgrim Welfare Fund – Rs 7.820 million

According to Rules 23 of GFR Vol-I, every Government officer should realize fully and clearly that he would be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that M/s Al-MATBAKH AL-NOOR, a catering company, refunded an amount of Rs 7.820 million (SRLs 164,800) on account of less serving of meal to the Directorate General. The refunded amount was deposited by the caterer firm vide cheque No. 56 dated 12.11.2019, drawn on Al Rajih Bank, Ajyad Makkah Branch in PWF account of the Mission. The Assistant Accounts Officer utilized this amount for his own benefit by tempering supporting receipts of credit entry in the cash book to adjust the cash available with him as deposit of recovery from different sources as detailed below.

Sl. No.	Details	Amount (SRLs)	Amount (Rs)
1	Cash Received from MDC	149,000	7,070,268
2	Auction amount from Lost & Found Cell	1,013	48,068

3	Recovered from Shah Faisal	3,480	165,131
4	Wheel Chairs	1,400	66,432
5	Receipt of unidentified cash from Lost & Found cell	210.61	9,994
6	Cash in chest	9,696.39	460,108
TOTAL		164,800	7,820,001

Audit is of the view that embezzlement of Rs 7.82 million from Pilgrim Welfare fund resulted in loss to the public exchequer.

The matter was reported to the management in August, 2022. The management replied that disciplinary proceedings under E&D Rules had been initiated, an FIR had been lodged with FIA and concerned Revenue Authorities had been approached for attachment of property of Mr. Muhammad Kaleem, the then AAO.

DAC in its meeting held on 30.11.2022 directed the Ministry to pursue and expedite the inquiry and other actions with FIA and other departments for effecting recovery from the officers/officials responsible. DAC further directed that embezzlement pointed out by Audit in this para may also be included in inquiry already initiated with regard to Para-1 and 2 of this Audit Report. No progress reported till finalization of this report.

Audit recommends compliance of DAC decision.

(Para-3 SAR DG Hajj Jeddah 2018-21)

6.4.4 *Embezzlement in cash receipt – Rs 3.465 million*

According to Rule 23 of GFR Vol-I, every Government officer should realize fully and clearly that he would be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the Directorate General received cash amounting to Rs 3.465 million (SRLs. 63,000) as refund from M/s Madina Accommodation Group and was taken on receipt side of the Cash book for the month of March, 2019. At the close of the month, the same amount was reflected as closing balance of cash in hand. However, this closing balance was not reflected as opening balance for next month i.e., April, 2019. Neither any proof of expenditure from the receipt nor deposit of the same in the bank was available.

Audit is of the view that embezzlement of Rs 3.465 million from the cash receipt resulted in loss to the government exchequer.

The matter was reported to the management in August, 2022. The management replied that the embezzlement had also been proposed to be included as a charge in ongoing disciplinary/criminal proceedings against the official.

DAC in its meeting held on 30.11.2022 directed the Ministry to pursue and expedite the inquiry and other actions with FIA and other departments for effecting recovery from the officers/officials responsible. DAC further, directed that embezzlement pointed out by audit in this para may also be included in inquiry already initiated with regard to para-1 and 2 of this Audit Report. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC decision.

(Para-4 SAR DG Hajj Jeddah 2018-21)

Irregularities/Overpayments

A-HR/Employees Related Irregularities

6.4.5 Unjustified retention of cash in hand – Rs 27.173 million

According to Para 2.2.2 of FMMA Vol-II, no money shall be drawn from the bank unless it is required for immediate disbursement. It is not permissible to draw money from the bank in anticipation of demands or to prevent the lapse of Budget Grants.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the Directorate General drew cash ranging from SRLs 432,786.38 to SRL 494,055.06 from PWF Account. This amount was retained by the mission for a period of one year (November, 2019 to November 2020) without any requirement/justification. The detail is as under:

S. No	Period/Month	Expenditure during the month (SRLs)	Cash in Hand (SRLs)	Cash in Hand(Rs)
1	November, 2019	30,406.63	494,055.06	27,173,000.00
2	December, 2019	8,940.00	463,648.43	32,919,038.53
3	January, 2020	12,707.00	454,708.43	32,284,298.53
4	February, 2020	588.53	442,001.90	31,382,134.90
5	March, 2020	Nil	441,412.90	31,340,315.90
6	April, 2020	Nil	441,412.90	31,340,315.90
7	May, 2020	4,120.65	441,412.90	31,340,315.90
8	June, 2020	1,265.87	437,292.25	31,047,749.75
9	July, 2020	3,240.00	436,026.28	30,957,865.88
10	August, 2020	6,535.73	432,786.38+ 6,535.76	31,191,869.10
11	September, 2020	Nil	432,786.38	30,727,832.98
12	October, 2020	Nil	432,786.38	30,727,832.98
13	November, 2020	Nil	432,786.38	30,727,832.98

Audit is of the view that retention of PWF amounting to Rs 27.173 million for over a year was unjustified.

The matter was reported to the management in August, 2022. The management replied that Hajj Operation necessitated holding of sufficient cash in hand to meet urgent need during Hajj Season. However, the amount reflected as cash in hand was not in the knowledge of management. It was revealed only after the scrutiny process of the accounts was started by OPAP itself. The AAO, willfully, hide a huge amount of cash pertaining to Hajj 2019 and kept it with him.

DAC, in its meeting held on 30.11.2022, viewed the lapse is seriously and stated that it was responsibility of the management to see the retention of cash in hands of accountant throughout the year. DAC directed the Ministry to link the case with other cases of embezzlement to ascertain any misuse of funds and issue directions that in future no unnecessary cash would be drawn. No progress was reported till finalization of this report.

Audit recommends compliance of DAC decision.

(Para-9 SAR DG Hajj Jeddah 2018-21)

6.4.6 *Unauthorised payment to employees from PWF – Rs 17.466 million*

According to Pilgrim Welfare Fund Rules, 1990, the funds from PWF can only be utilized for direct and exclusive benefit of the pilgrims. There is no rule provision for payment of food charges to the employees of office of Pilgrim Affairs Pakistan, Jeddah.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the mission incurred an expenditure of Rs 17.466 million (SRL 246,000) on account of food charges to the employees of OPAP out of PWF. However, there was no provision in the rules to allow payment from this fund for the benefit of pilgrims. The expenditure was incurred during the months of October, 2018 and August, 2019, as detailed below:

Sl. No.	Vr & Period	Particulars	Amount (SRLs)	Amount (Rs)
1	PWF-4 of 10/2018	Paid food charges to 22 employees of Office of Pilgrim Affairs of Pakistan, Jeddah	99,000	7,029,000
2	PWF-18 of 8/2019	Paid food charges to 28 employees of Office of Pilgrim Affairs of Pakistan, Jeddah	147,000	10,437,000
TOTAL			246,000	17,466,000

Audit is of the view that payment of food charges to the employees of OPAP from PWF was in violation of rules, thus, unauthorised.

The matter was reported to the management in August, 2022. The management replied that the fund allocation was used to incentivize the OPAP staff in the wake of intense Hajj operation which demanded continuous extra duty hours even on holidays. Payment of Food charges was not a new phenomenon, rather, was being paid since last many years.

DAC, in its meeting held on 30.11.2022, directed that the amount may be got regularized from Finance Division as per Rule 4(xv) of PWF Rules 1990. DAC further directed that a proper mechanism under rules may be prepared for payments to employees of OPAP for overtime in future. No progress was reported till finalization of this report.

Audit recommends compliance of DAC decision besides halting the practice of payment of food charges to the staff of OPAP out of PWF forthwith.

(Para-5 SAR DG Hajj Jeddah 2018-21)

B-Procurement Related Irregularities

6.4.7 Procurement of assets and services in violation of procurement rules and payment in cash – Rs 148.728 million

According to Para 2.38.4 of FMMA Vol-II, Cabinet Division vide its OM No. 4/1/2008/PPRA-RA-III dated 09.04.2008 fixed following financial limits for open tender(s) for Pakistan Missions abroad:

S. No.	Kind of Tender	Monetary Limits
1.	Open tender	US\$ 4,000 or € 3,000 & above
2.	Limited tender	Less than US\$ 4,000 or € 3,000 & above US\$ 2,000 & € 1,500
3.	Single tender	Up to US\$ 2,000 or € 1,500

Further according to Para 157 of FTR provided that crossed cheque be issued to the vendor/third party rather than payment made in cash.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the mission made various procurements worth Rs 148.728 million (SRLs 2,704,144) in violation of procurement rules. Further, in most cases the payment to the vendor was made in cash instead of crossed cheques. The detail is at **Annex-XV**.

Audit is the view that procurement of assets without observing procurement rules raised suspicions on authenticity of procurements and payments made thereof.

The matter was reported to the management in August, 2022. The management replied that a proper tender was floated but no bid was received except for rent a car/vehicle. Further, there was a tendency in the Saudi market not to submit bids rather sell articles on cash/instant payment basis. However, best value for money principle was ensured even during these cash procurements.

DAC in its meeting held on 30.11.2022 directed the Ministry to provide (i) copies of tendering documents relating to procurement made for Hajj 2018 (ii) minutes of meeting of Purchase Committee. No further progress was reported till finalisation of this report.

Audit recommends compliance of DAC decision.

(Para-47 SAR DG Hajj Jeddah 2018-21)

6.4.8 Unauthorised cash payment on account of provision of tents – Rs 49.885 million

As per Rule 205 of Federal Treasury Rules, a Government officer entrusted with the payment of money shall obtain for every payment he makes, including repayment of sums previously lodged with the Government, a voucher setting forth full and clear particulars of the claim and all information necessary for its proper classification and identification in the accounts. Every voucher must bear, or have attached to it, an acknowledgment of the payment signed by the person by whom, or in whose behalf, the claim is put forward. The acknowledgment shall be taken at the time of payment. Further Para-157 of ibid provides that crossed cheque be issued to the vendor/third party rather than payment made in cash.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that an amount of Rs 49.885 million (SRLs 907,000) was paid in cash to M/s DELALAT International vide voucher No.PWF-

04 of 08/2019 on account of provision of tents for welfare of staff of Pakistan Hajj Medical Mission (615 personnel) in Mina/Arafat without any invoice and supporting details. Moreover, bill was not signed by D.G Hajj Jeddah.

Audit is of the view that payment for services in cash without supporting documents was in violation of rules and raised suspicion regarding authenticity of payment.

The matter was reported to the management in August, 2022. The management replied that as a routine matter, space for establishment of Tents/Camps in Mina was provided a few days before commencement of Hajj. During these days the banks in the Kingdom remained closed and the bank transactions were not possible. Also the service providers, vendors and Makatab provided space, equipment, tents and services in Mashair on payment of cost/dues. The only option available was to perform these transactions through cash payments.

DAC, in its meeting held on 30.11.2022, directed that (i) expenditure may be got regularized from Finance Division (ii) documents/vouchers in support of payments and expenditure may be provided to audit. DAC further directed to discontinue this practice and to adopt alternative payment methods like payments through apps in future. No further progress was reported till finalization of this report

Audit recommends compliance of DAC decision.

(Para-15 SAR DG Hajj Jeddah 2018-21)

6.4.9 Excess payment on account of catering charges – Rs 39.466 million

As per Para 11 of GFR Vol-I, each head of a department is responsible for enforcing financial order and strict economy at every step. He is responsible for observance of all relevant financial rules and regulations both by his own office and by subordinate disbursing officers.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the mission entered into an agreement with M/S Najmat Al Olyan for provision of meal to 4,129 Hujjajj @ SRLs 7.7 per head for approximately 302,413 meals amounting to SRLs 2,328,580. The mission had already made an advance payment of SRLs 3,003,525, but still paid the whole amount to the suppliers thus paying an amount of Rs 39.466 million (SRLs 717,757) in excess of actual to the contractor.

Audit is of the view that due to weak financial and managerial controls, the overpayment of Rs 39.466 million was made to the contractor over and above his due payment which needs to be recovered.

The matter was reported to the management in August, 2022. The management replied that the amount is reported to have been deducted/recovered. The record is being obtained from MOH&U, KSA which would be provided for verification.

DAC, in its meeting held on 30.11.2022, directed the Ministry/Mission to effect recovery and get it verified from Audit. No further progress was reported till finalisation of this report.

Audit recommends compliance of DAC directives.

(Para-12 SAR DG Hajj Jeddah 2018-21)

6.4.10 Excess payment on account of accommodation – Rs 79.683 million

According to Rule 23 of GFR, Vol-I, every Government officer should realize fully and clearly that he would be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that according to Sl. No. 2 of Receipt and Payment Ledger (Payments side), accommodation charges amounting to SRLs 105,389,600 (100,000 @ SRL 914 and 23,316 @ SRLs 600) were required to be paid for 123,316 Hujjaj at Madinah, whereas Mission paid SRLs 106,511,892.15 resulting in excess payment of Rs 79.683 million (SRLs 1,122,292).

Audit is of the view that excess payment of Rs 79.683 million on account of accommodation charges resulted in loss to the government exchequer.

The matter was reported to the management in August, 2022. The management replied that due to limited accommodation availability near Masjid Nabawi and completion from other hajj missions, OPAP could initially manage accommodation of 100,000 Hujjaj in Markazia @ 914 SRLs per Haji whereas 23,316 Hujjaj were accommodated in Non-Markazia building @ 600 SRLs Per Haji. Later on, OPAP was able to manage further accommodation in Markazia by persuading/requesting various owners/lessees and finally 108,310 hujjaj stayed in Markazia instead of 100,000, therefore, an amount of SRLs 106,511,892 was correctly paid.

DAC in its meeting held on 30.11.2022 directed the Ministry to provide evidence/record to Audit for verification. No further progress was reported till finalisation of this report.

Audit recommends compliance of DAC decision.

(Para-29 SAR DG Hajj Jeddah 2018-21)

6.4.11 Overpayment on account of provision of arrival snacks to pilgrims – Rs 35.551 million

According to Rule 23 of GFR, Vol-I, every Government officer should realize fully and clearly that he would be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that mission paid an amount of SRLs 1,427,735 on account of arrival snacks for 200,000 pilgrims. However, the actual number of pilgrims under the Government Hajj Scheme for Hajj, 2019 was 117,000 (as per record of gifts i.e. prayer mat & floor mat). Hence, the mission paid excess amount of Rs 35.551 million (SRL 592,510) on provision of arrival snacks.

Audit is of the view that overpayment of Rs. 35.551 million on provision of arrival snacks to the pilgrims resulted in loss to public exchequers.

The matter was reported to the management in August, 2022. The management replied that mission had to cater for the needs of all the Hujjaj including the Private Hujjaj from Pakistan, hence, the payments pertains to the Private Hujjaj as well.

DAC, in its meeting held on 30.11.2022, directed the Ministry to provide evidence of recovery from Hajj Group Organizers to Audit for verification within three days. No further progress was reported till finalisation of this report.

Audit recommends compliance of DAC decision.

(Para-42 SAR DG Hajj Jeddah 2018-21)

6.4.12 Unjustified expenditure on account of Haji gifts – Rs 316.509 million

According to Para 37/N of file No. 01/ACC/Hajji Gift/Hajj-2019, the payments of Hajji gifts (prayer mat, floor mat) were to be made out of the deductions made from the payments of building owners as per agreement.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the mission got manufactured Hajji Gifts from M/s Riyadh Velvet Factory, KSA and incurred an expenditure of Rs 316.509 million (SRLs 4,457,873) out of the funds of Directorate General Hajj. However, no deduction was made from the payment to the building owners as stipulated in the agreement.

Audit is of the view that expenditure on account of Haji gifts was unjustified and resulted in loss to public exchequer.

The matter was reported to the management in August, 2022. The management replied that as per agreement with the building owners, the cost of Hajji gifts were recovered from them. Final payment was made after deduction of the said gift cost.

DAC, in its meeting held on 30.11.2022, directed the Ministry to get the record of recovery of at least 10% of buildings verified from Audit and get the remaining record verified from next audit team of Directorate of Audit (F&I). No further progress was reported till finalisation of this report.

Audit recommends compliance of DAC decision.

(Para-19 SAR DG Hajj Jeddah 2018-21)

6.4.13 Unjustified expenditure on printing – Rs 26.917 million

According to the minutes of Procurement Committee meeting held on 27.05.2018, the cost for sign boards for displaying on Hujjaj’s building were to be paid by the building owners.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the mission incurred an expenditure of Rs 26.917 million (SRLs. 379,106) from PWF on account of printing of sign boards, stickers etc which was the sole responsibility of building owners. The detail of expenditure is as under:

Sl. No.	Vr. No. & Date	Particulars	Amount (SRLs)	Amount (Rs)
---------	----------------	-------------	---------------	-------------

1	PWF-35 of 10/2018	Paid to M/S Sameer Printing and Artist, Makah Mukarramah for installing sign boards on the Hujjaj Buildings for displaying their numbers, sector wise and maktab wise for guidance of Hujjaj and Moavineen.	95,680	6,793,280
2	PWF-53 of 10/2019	Paid on 07.10.2019 to M/S Sameer Painter & Artist for advertising for printing posters, Maps, stickers, signboards to be affixed on buildings/offices and on transport for Hajj -2019. (Besides Mina/Arafat Maps, panaflex were also got printed).	283,426	20,123,246
TOTALS			379,106	26,916,526

Audit is of the view that the mission incurred unjustified expenditure on account of printing causing loss to the public exchequer.

The matter was reported to the management in August, 2022. The management replied that during Hajj 2018 and 2019, SRLs 102,000 and SRLs 116,000 were recovered from the building owners.

DAC, in its meeting held on 30.11.2022, directed the Ministry to provide evidence of recovery from the building owners of at least 10% of the total buildings hired during each Hajj. No further progress was reported by the Ministry till finalization of this report.

Audit recommends compliance of DAC directives.

(Para-14 SAR DG Hajj Jeddah 2018-21)

6.4.14 Excess payment on account of meals served to Hujjaj – Rs 5.533 million

As per Para 11 of GFR Vol-I, each head of a department is responsible for enforcing financial order and strict economy at every step. He is responsible for observance of all relevant financial rules and regulations both by his own office and by subordinate disbursing officers.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the mission entered into the agreements with three different contractors for provision of meal to Hujjaj during Hajj 2019 @ SRLs 7.7 per meal. However, the mission made excess payment to the contractor as detailed below:

Group	No of Meals	Amount Due (SRLs)	Amount Paid (SRLs)	Excess Payment (SRLs)	Excess Payment (Rs)
Al-Matabakh Al-Noor	6,681 Hujjaj for 30 days for 3 meals a day =601,290	4,629,933	4,668,210	38,277	2,717,667
Shirka Hassam Al-Muali	10,501 Hujjaj for 30 days for 3 meals a day =945,090	7,277,193	7,290,160	12,967	920,657

Turkish Al-Mazaq Restaurants	10,350 Hujjaj for 30 days for 3 meals a day =932,400	7,179,480	7,206,168	26,688	1,894,848
TOTAL				77,932	5,533,172

Audit is of the view that due to weak internal and financial controls, the mission made excess payment of Rs 5.533 million to the contractors.

The matter was reported to the management in August, 2022. The management replied that payments were made according to the meals served. No excess payment was made to the contractor.

DAC, in its meeting held on 30.11.2022, directed the Ministry to provide justification for payment of excess meals and the record be got verified from next audit team of Directorate of Audit (F&I). No further progress was reported till finalization of this report.

Audit recommends compliance of DAC decision.

(Para-13 SAR DG Hajj Jeddah 2018-21)

C- Management of Accounts with Commercial Banks

6.4.15 Non-clearance of long outstanding cheques pertaining to Compulsory Hajj Dues – Rs 251.629 million

As per Para 11 of GFR Vol-I, each head of a department is responsible for enforcing financial order and strict economy at every step. He is responsible for observance of all relevant financial rules and regulations both by his own office and by subordinate disbursing officers.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the mission closed the account of Compulsory Hajj Dues (CHD) being maintained with Bank Al Jazira A/C No. 0021248455004 and new account No.1631596099941 was opened with Bank Al Riyadh in April, 2020. The closing balance of SRLs 15,027,877.94 in Al Jazira Bank account was transferred to new account on 09.04.2020. It was, however, noticed that cheques amounting to Rs 251.629 million (SRLs 4,556,850.50) issued in favour of various parties from time to time during the period from August 2017 to October 2019 were still being outstanding despite lapse of 3 to 5 years. After the closure of the account with bank Al-Jazera, all these cheques lost validity, hence, were required to be cancelled and amount taken into accounts as receipt which was not done by the management. The details of outstanding cheques are as under:

S. No	Cheque No & date	Amount (SRL)	Amount (Rs)
1	806421 dated 02.08.2017	316,000	17,452,617
2	806521 dated 03.10.2017	61,183	3,379,125
3	67786978 dated 08.10.2018	1,862,141	102,845,675
4	67786977 dated 08.10.2018	86,667	4,786,601
5	67786991 dated 08.10.2018	330,240	18,239,089
6	67786995 dated 09.10.2018	600,000	33,137,880
7	67786996 dated 09.10.2018	116,628	6,441,341
8	67787022 dated 01.08.2019	580,650	32,069,183
9	67787058 dated 23.09.2019	542,501	29,962,222
10	67787064 dated 01.10.2019	60,040.50	3,316,025
TOTAL		4,556,050.50	251,629,758

Audit is of the view that non-clearance of long outstanding cheques showed lack of financial controls and created doubt about the genuineness of the claims against which those cheques were issued.

The matter was reported to the management in August, 2022. The management replied that the vendors/companies were issued cheques against their verified claims, however, those cheques were neither presented to the said bank nor the OPAP was approached for payment even after shifting of account to the new bank. The said amount could be claimed by the vendors as these were reflected as liabilities in the OPAP account as per verified bills.

DAC, in its meeting held on 30.11.2022, directed the Ministry to contact the concerned vendors and resolve the issue. Further, the bills/claims against which those cheques were issued may be shared with audit. No further progress was reported by the Ministry till finalization of this

report.

Audit recommends compliance of DAC decision besides.

(Para-44 SAR DG Hajj Jeddah 2018-21)

6.4.16 Non-reconciliation of regular bank account – Rs 74.427 million.

As per Rule 89(4) (viii) of GFR Vol-I, the head of the department and the Accountant General will be jointly responsible for the reconciliation of the figures given in the accounts maintained by the head of the department with those that appear in the Accountant General's books. Unless in any case there are special rules or orders to the contrary, the reconciliations should be made monthly the initial responsibility resting with the Accountant General.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that reconciliation of cash book with the bank account for regular budget was being carried out in doubtful manner which may lead to embezzlement. The detail of shortcomings noticed during close examination of Cash Accounts is at ***Annex-XVI***.

Audit is of the view that non-reconciliation gives rise to the chances of misappropriation of funds. Audit is of further view that in the absence of bank reconciliation, the authenticity of expenditure could not be ascertained.

The matter was reported to the management in August 2022. The management replied that there had been a practice to prepare bank reconciliation statement, however, it might not be as per prescribed format.

DAC, in its meeting held on 30.11.2022, directed the Ministry to provide relevant documents in support of reply to audit. No further progress was reported till finalisation of this report.

Audit recommends compliance of DAC directives.

(Para-27 SAR DG Hajj Jeddah 2018-21)

6.4.17 Irregular opening of various bank accounts

As per Rule 7 of GFR Vol-I, unless otherwise expressly authorized by any law or rule of order having force of law, moneys may not be removed from the Public Account for investment or deposit elsewhere without consent of the Ministry of Finance. As per Para 2(a) of Pilgrim Welfare Fund Rules, 1990, account for PWF funds were required to be opened with National Bank of Pakistan.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that Mission was maintaining fifteen (15) bank accounts with Bank Al-Jazira and Bank Al-Riyadh instead of

National Bank of Pakistan as required under Para2(a) of Pilgrim Welfare Fund Rules, 1990. The details of Bank Accounts is at *Annex-XVII*.

Audit is of the view that opening and maintenance of bank account in violation of rules was irregular.

The matter was reported to the management in August, 2022. The management replied that opening of account with Riyadh Bank was approved by the M/o Finance in the light of requirements of Saudi Taleemat. PWF was maintained separately since it was not being accounted for by the CAO MOFA or CGA Office. Also the rules of Kingdom of Saudi Arabia and separate treatment of the receipts and payments of Hajj mandated opening the relevant accounts separately.

DAC, in its meeting held on 30.11.2022, directed the Ministry that all bank accounts may be got regularized from Finance Division and retain only those Bank accounts which are approved by the Finance Division. No further progress was reported by the Ministry till finalization of this report.

Audit recommends to refer the matter to Finance Division for consideration.

(Para-26 SAR DG Hajj Jeddah 2018-21)

Others

6.4.18 *Doubtful transfer of funds – Rs 825 million*

According to Para 23 of GFR, every Government officer should realize fully and clearly that he would be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the mission transferred an amount of Rs 825 million (SRLs 15,000,000) to M/s United Agent Account from Compulsory Hajj Dues account on 26.09.2019. However, the amount was transferred from Bank account No.0021248455004 (CHD Account) on 25.09.2019 to Bank account No.0021248455001 (Accommodation Account). Further, the abstract/page of CHD cash Book containing the correction provided by the Mission was unsigned and without any date, hence, could not be accepted as authentic.

Audit is of the view that transfer of funds to Accommodation Account instead of contractor account made the transfer of funds doubtful.

The matter was reported to the management in August, 2022. The management replied that cash book entry regarding the above indication of audit was corrected in the CHD account.

DAC, in its meeting held on 30.11.2022, directed the Ministry for provision of bank statements of CHD and Accommodation Account for the month of September, 2019 and correction made in Cash Book may be attested and a copy thereof be provided to audit. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

(Para-16 SAR DG Hajj Jeddah 2018-21)

6.4.19 Irregular borrowing from Pilgrim Welfare Fund – Rs 135.000 million

Pilgrim Welfare Fund Rules 1990 amended up to 2001, there is no rules provision for giving loan out of PWF to any other department/Account for any purpose other than welfare of pilgrims.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the mission borrowed an amount of Rs 135 million (SRLs 2.5 million) from PWF to meet operational expenses. The detail of loans taken from PWF is as under:

Sl. No.	Month	Amount of Loan (SR)	Amount of Loan (Rs)
1	July-2019	300,000	18,411,000
2	August 2019	300,000	18,411,000
3	Sept 2019	400,000	24,548,000
4	Oct 2019	400,000	24,548,000
5	Nov 2019	500,000	30,685,000
6	Nov 2020	300,000	18,411,000
TOTAL		2,500,000	135,014,000

Audit is of the view that taking of loans from PWF to meet the expenditure of regular account, was irregular and clear violation of PWF Rules. 1990.

The matter was reported to the management in August, 2022. The management replied that in order to meet the inevitable expenditure like salary of staff and other hajj related expenses and delay of remittance of regular budget, loan was taken from PWF Account.

DAC, in its meeting held on 30.11.2022, directed the Ministry to provide record of taking loans and its refund to audit for verification. No further progress was reported till finalization of this report.

Audit recommends that the matter may be referred to Finance Division for consideration.

(Para-34 SAR DG Hajj Jeddah 2018-21)

6.4.20 Variation in monthly account of the mission – Rs 61.401 million

As per Para 11 of GFR Vol-I, each head of a department is responsible for enforcing financial order and strict economy at every step. He is responsible for observance of all relevant financial rules and regulations both by his own office and by subordinate disbursing officers.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that opening balance of cash in bank for February 2020 was SRLs 1,435,142.14, whereas during the month, payments/expenditure of SRLs 297,079.80 was made, hence, remaining/closing balance of cash in bank should have been SRLs 1,138,062. However, the closing balance of cash in bank was appearing as SRLs 137,560.07. Thus, there was a difference of Rs 61.401 million (SRLs 1,000,502) in the monthly account.

Audit is of the view that variation in monthly accounts of the mission showed poor accounting practices and raised suspicions regarding expenditures.

The matter was reported to the management in August, 2022. The management replied that an amount of SAR 1,000,000 was transferred from Regular Account to the PWF Account as repayment of loans which could be verified from the Bank Statements.

DAC, in its meeting held on 30.11.2022, directed the Ministry that documentary evidence for drawl of loan, refund of loan and recording of loan recoupment on the expenditure/payment side of the main statement of that month i.e February, 2020 may be provided to Audit. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC decision.

(Para-11 SAR DG Hajj Jeddah 2018-21)

6.4.21 *Non-refund of amount from accommodation account into DG Hajj Regular Account – Rs 38.210 million*

As per Para 11 of GFR Vol-I, each head of a department is responsible for enforcing financial order and strict economy at every step. He is responsible for observance of all relevant financial rules and regulations both by his own office and by subordinate disbursing officers.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the mission issued a cheque amounting to Rs 38.210 million (SRL 694,720) for hiring of an accommodation in Madinah during Hajj 2018. However, due to dispute between the mission and building owner, bank was directed to stop the payment to the party. However, the party approached Saudi Arabia Monetary Authority (SAMA) and got the payment released from Regular Account bearing Bank Account No. 002124855002 of the Directorate General maintained with Al-Jazira Bank. Later on, the cheque issued from accommodation account was cancelled and taken in cash book of accommodation account as receipt in October, 2018. However, the amount withdrawn from the Regular Account was not refunded to the D.G Hajj Jeddah official account.

Audit is of the view that due to weak financial and managerial controls mission made payment out of regular account instead of accommodation account.

The matter was reported to the management in August, 2022. The management replied that the reconciliation exercise was in process to check inter-account transfers for the period under review. On completion of the exercise, the amount would be transferred to the Account to which it was due. On the other hand, budget was released yearly in the Regular Account, thus any payment due would have to be authorized afresh in each case with the release being made by the MORA & IH or Finance Division.

DAC, in its meeting held on 30.11.2022, directed the Ministry to transfer the amount of SRLs 694,720 to the regular budget account. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

(Para-21 SAR DG Hajj Jeddah 2018-21)

6.4.22 *Irregular credit to regular account instead of PWF – Rs 28.607 million*

As per Para 11 of GFR Vol-I, each head of a department is responsible for enforcing financial order and strict economy at every step. He is responsible for observance of all relevant financial rules and regulations both by his own office and by subordinate disbursing officers.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the procurement committee initially allocated 10,000 Hujjaj to M/s Zoqi and Zoqi for provision of food and full payment

was made to the caterer electronically. However, after formation of sectors, the caterer was allocated sector 3 having 8573 Hujjaj for provision of food, which resulted in excess payment of Rs 28.607 million (SRLs 520,132). On the Mission's request for refund of excess payment, the caterer refunded the excess amount through cheque No.00000293 dated 17.10.2018. However, the said amount was deposited into Regular Account No. 1631388629940 instead of PWF account on the contention that OPAP was suspended like all other Missions for two months.

Audit is of the view that credit of refunded amount into regular account instead of PWF was irregular.

The matter was reported to the management in August, 2022. The management replied that the reconciliation exercise was in process to check inter-account transfers for the period under review. On completion of the exercise, the amount would be transferred to the Account to which it was due. On the other hand budget was released yearly in the Regular Account. Thus any payment due would have to be authorized afresh in each case with the release being made by the MORA & IH or Finance Division.

DAC, in its meeting held on 30.11.2022, directed the Ministry to transfer the amount of SRLs 520,132 to the PWF account. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC decision besides avoiding such instances in future.

(Para-31 SAR DG Hajj Jeddah 2018-21)

**6.4.23 Irregular payment to the contractors in cash instead of crossed cheque –
Rs 1,644.247 million**

According to Rule 2.2.2 of FMMA Vol-II, no money shall be drawn from the bank unless it is required for immediate disbursement. It is not permissible to draw money from the bank in anticipation of demands or to prevent the lapse of Budget Grants. As per Rules 157 & 158 of FTR, payments to corporate or local bodies, firms & private persons should be made through crossed cheques/bank orders.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the mission made payments of Rs 1,644.247 million (SRLs 26,792,358) in cash in violation of Federal Government Treasury Rules. There was no proper record maintained by the D.G Hajj Jeddah regarding cash withdrawn and its disbursement as well as no receipt adjustment was found on record against such cash withdrawal. The detail of cash withdrawals is at ***Annex-XVIII***.

Audit is of the view that payment to the contractor in cash instead of crossed cheque was in violation of rules, thus, irregular. Such payments also raised doubts regarding authenticity of payments.

The matter was reported to the management in August, 2022. The management replied that cash management issues were systemic for the PWF, Accommodation and Compulsory Hajj Dues Accounts. These accounts could not be treated like regular budget account on which FMMA, Treasury Rules, GFR etc were applicable.

DAC, in its meeting held on 30.11.2022, directed the Ministry to get the cash payments regularized from the Finance Division and relevant documents in support of expenditure and receipts may be provided to audit. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC decision besides halting the practice of cash payment forthwith.

6.4.24 *Doubtful transfer of funds from regular account to Pakistan House Madinah account – Rs 13.607 million*

According to Para 15 of GFR Vol-I, every one whose duty it is to prepare and render any accounts or returns in respect of public money or stores is personally responsible for their completeness and strict accuracy and their dispatch within the prescribed date.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that as per bank statement of regular account for January 2019, an amount of Rs 13.607 million (SRLs 221,722) was transferred to bank account No. 1631388629942 (Pakistan House Madinah) on 26.06.2019. The details and purpose of transferring the amount was not mentioned.

Audit is of the view that insufficient reporting of transfer of funds raised doubt regarding authenticity of such transfer.

The matter was reported to the management in August, 2022. The management replied that the amount of SRLs 221,722 was transferred to Pakistan House Madinah Income Account as payment on account of rent of office buildings since OPAP used the space of Pakistan House during Hajj season.

DAC, in its meeting held on 30.11.2022, directed the Ministry to provide the following information and record to Audit: -

- i) A statement showing expenditure incurred from rental amount.
- ii) Detail of signatories of the Pakistan House Madinah Account.
- iii) Delegation of power for maintenance of Account, from Ambassador.

No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

6.4.25 *Variation in balances in cash in hand and cash at bank – Rs 6.119 million*

According to Para 15 of GFR Vol-I, every one whose duty it is to prepare and render any accounts or returns in respect of public money or stores is personally responsible for their completeness and strict accuracy and their dispatch within the prescribed date.

During audit of DG Hajj, Jeddah for the FYs 2018-21, following discrepancies in balances of Ferbruary, 2019 were noticed:

- i. The main statement of January 2019 was showing closing balance of cash in hand as SRLs 99,720.05 whereas main statement of February, 2019 showed that opening balance of cash in hand was SRLs 50,019.60. Hence there was a difference of Rs 3.050 million (SRLs 49,701) in both the statements.
- ii. The main statement of January 2019 was showing closing balance of cash at bank as SRLs 1,862,941.60 whereas main statement of February, 2019 showed that opening balance of cash at bank was SRLs 1,912,941.60. Hence there was a difference of Rs 3.069 million (SRLs 50,000) in both the statements.

Audit is of the view that variation in balances showed weak accounting practices and raised suspicion regarding authenticity of accounts / payments.

The matter was reported to the management in August, 2022. The management replied that the closing balance of January, 2019 was same as opening balance of February, 2019 in the relevant cash accounts.

DAC, in its meeting held on 30.11.2022, directed the Ministry to provide detailed reply with all relevant supporting documents i.e cash deposit slips, bank reconciliation statements etc. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC directives.

(Para-37 SAR DG Hajj Jeddah 2018-21)

6.4.26 Discrepancies in Pilgrim Welfare Fund account

As per Para 11 of GFR Vol-I, each head of a department is responsible for enforcing financial order and strict economy at every step. He is responsible for observance of all relevant financial rules and regulations both by his own office and by subordinate disbursing officers.

During audit of DG Hajj, Jeddah for the FYs 2018-21, Audit observed following discrepancies in PWF account;

1. A cheque bearing No. 67304913 dated 11.10.2018 valuing SRL 113,018 on account of payment for balance amount of building hired for welfare staff Madinah was being shown as outstanding in bank reconciliation statement from October, 2018 to September, 2019. This was neither shown as outstanding in reconciliation statement nor shown as paid/cleared in the bank statements.
2. In June, 2019, an amount of SRLs 20,000 vide cheque No. 13 dated 24.06.2019 was granted as advance for airport to Mr. Baidar Bakhat but adjustment was not available.
3. Bank reconciliation statement for July 2019 showed that an amount of SRLs 530,437 was wrongly credited by the bank whereas according to bank statements, no such amount was credited by both banks.
4. According to bank reconciliation statement of August 2019, an amount of SRLs 2,667,631 was added in bank balance as amount wrongly deducted by the bank. As per bank statements no such amount was found.
5. According to bank reconciliation statement of September, 2019, an amount of SRLs 1,577,852 was added in bank balance as amount wrongly deducted by the bank. As per bank statements no such amount was found.
6. In September 2018, expenditure in bank column of cash book was recorded as SRLs 6,256,567.76 whereas actually it calculated to SRLs 6,109,492.76, thus, there was over booking of expenditure to the tune of SRLs 147,075.
7. Cash book for March 2019, revealed that an amount SRLs 500,000 was drawn vide cheque No. 67304920 dated 14.03.2019 from Bank Al Jazira. The record i.e cash book showed that out of that an amount of SRLs 50,000 was taken as cash on receipt side of

the cash book during March, 2019 and the balance cash of SRLs 450,000 was deposited in Bank al Riyadh No. 1631464579940 (PWF Account). This deposit needed confirmation from the bank. However, this amount could not be verified from the Bank statements.

Audit is of the view that weak internal and financial controls resulted into discrepancies in PWF account.

The matter was reported to the management in August, 2022. The management replied that:

- i. The amount was credited back to PWF Account in October-2019. The Cheque was neither paid, nor cashed or replaced.
- ii. Previously the adjustments were not being approved in the name of individuals rather their individual adjustments were watched over by the AAO and adjustments were made on the basis of account heads and period concerned without reference to the incurring personnel; therefore, specific record against each money issue to personnel, was not available.
- iii. The bank statement when matched with the cash book reveals that multiple entries in the bank, representing proper transfers to companies etc. for concerned service/ provision, were not entered in the Cash Book and at the end by the then AAO, who wrote the Cash Book, just fictitiously made the wrong credit by bank entry to make the Closing Balances of the Bank and Cash Books to match.
- iv. As regards the Para 3, 4, 5, 6, 7 that a scrutiny committee was previously formed that checked the bank entries, however, these situations required the remaking of cash books for the months pointed out by the Audit which was akin to substantive audit requiring a lot of effort and time. The exercise for the pointed out months would be undertaken and final results would be intimated to audit in due course of time.
- v. The Cash was deposited in the Riyadh Bank on 14-03-2019.

DAC, in its meeting held on 30.11.2022, directed the Ministry to get the record verified in case of Sl.No.1 & 2 and directed to investigate the matter in case of Sl. Nos 3 to 7 and share the outcome with Audit. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC decision.

(Para-23 SAR DG Hajj Jeddah 2018-21)

6.4.27 Discrepancies in accommodation account

As per Para 11 of GFR Vol-I, each head of a department is responsible for enforcing financial order and strict economy at every step. He is responsible for observance of all relevant financial rules and regulations both by his own office and by subordinate disbursing officers.

During audit of DG Hajj, Jeddah for the FYs 2018-21, following discrepancies in accommodation account were observed;

1. An amount of SRLs 441,595 was credited on 26.06.2020 to accommodation account maintained with Bank Al Riyadh but the amount was not taken as receipt in the cash book.

2. Another amount of SRLs 4,905,281.47 was credited on 09.04.2020 to accommodation account in Bank Al Riyadh but the amount was not taken as receipt in the cash book.
3. Cash book was showing negative balance from September, 2019 to March, 2020 (-SRLs 415,176.20).

Audit is of the view that weak internal and financial controls resulted in discrepancies in accommodation account.

The matter was reported to the management in August, 2022. The management replied that:

1. No entry in the Bank Statement for Jun/2020 was available for SRLs 441,595. However, an amount of the equal value was transferred through cheque from Regular Account to Accommodation Account in June/2021, and was not recorded in cash book by the then AAO.
2. At the time of transfer of Bank Account, the balance amount of SRLs 4,905,281.47 was transferred from Bank, Al Jazeera to Riyad Bank. Since, the same cashbook was continued, therefore, the amount was not taken on credit side.
3. The actual corresponding bank balance was not negative. However, due to the separation of accounts sometimes the payments of one account are paid from the other bank account but were reflected in the actual cash book which were then cleared after inter-account transfer.

DAC in its meeting held on 30.11.2022 directed the Ministry to:

Provide Bank reconciliation statement of accommodation account for the month of June, 2021.

Provide Bank reconciliation statement of accommodation account for the months of April and May, 2020 (Al-Riyad and Aljazera Banks)

Proper justification for negative balances in cash book may be shared with Audit.

No further progress was reported till finalization of this report.

Audit recommends compliance of DAC decision.

(Para-24 SAR DG Hajj Jeddah 2018-21)

6.4.28 *Non-framing of accounting procedures and non-vetting of PWF Rules*

According to Para 5 (d & e) of the Controller General of Accounts Ordinance, 2001, the Controller General shall lay down the principles governing the internal financial control for Government departments in consultation with the Ministry of Finance and the Provincial Finance departments as the case may be and render advice on accounting Procedure for new schemes, programs or activities undertaken by the Government concerned. As per Para 25 of GFR Vol-I, all Departmental regulations in so far as they embody orders or instructions of a financial character or have important financial bearing should be made by or with the approval of the Ministry of Finance.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that Ministry of Religious Affairs and Interfaith Harmony created a Pilgrim Welfare Fund in 1980. However, the Accounting Procedures for the fund was not prepared contrary to above mentioned rules provision. Further, the Pilgrim Welfare Funds Rules 1990 have also not been vetted by the Finance Division.

Audit is of the view that in the absence of approved Accounting Procedures and vetting of Pilgrim Welfare Funds Rules by the Finance Division, the maintenance of record and incurrance of expenditure from PWF was irregular.

The matter was reported to the management in August, 2022. The management replied that the case would be taken up with CGA and M/o Finance for vetting of PWF Rules.

DAC in its meeting held on 30.11.2022 directed the Ministry to expedite the vetting of PWF rules from Finance Division and framing of accounting procedure in consultation with the CGA. No further progress was reported finalization of this report.

Audit recommends compliance of DAC decision.

(Para-25 SAR DG Hajj Jeddah 2018-21)

6.4.29 *Non-reconciliation of remittances to the mission*

As per Rule 89(4) (viii) of GFR Vol-I, the head of the department and the Accountant General will be jointly responsible for the reconciliation of the figures given in the accounts maintained by the head of the department with those that appear in the Accountant General's books. Unless in any case there are special rules or orders to the contrary such as those contained in paragraph 90, the reconciliations should be made monthly the initial responsibility resting with the Accountant General.

During audit of DG Hajj, Jeddah for the FYs 2018-21, it was observed that the figures of remittances sent by MORA to DG Hajj Jeddah during the period 2018-2021 and those recorded by the Mission did not match with each other. The details of amounts remitted and received are as under:

Remittance sent by MORA			Remittances accounted for by DG Hajj, Jeddah		Difference (SRL)	Difference (Rs)
Sl. No.	Period	Amount Remitted (SRLs)	Period	Amount Remitted (SRLs)		
1	Hajj 2018	738,019,655	Hajj 2018	772,064,882	34,045,227	1,872,487,485
2	Hajj 2019	689,626,158	Hajj 2019	914,237,540	224,611,382	12,353,626,010

3	Hajj 2020	151,222,616	Hajj 2020	205,434,440	54,211,824	2,981,650,320
---	-----------	-------------	-----------	-------------	------------	---------------

Audit is of the view that due to weak internal and financial controls the figures of remittances sent by MORA, there was variation in the amount sent by MORA and received by the mission.

The matter was reported to the management in August, 2022. The management replied that during Hajj the MORA & IH sends remittances but the left over balance from previous years is also authorized to be used for Hajj, when both are taken into account the total balance exceeds the amounts accounted for in the expenditure statements.

DAC in its meeting held on 30.11.2022 directed the Ministry for reconciliation of remittance between Ministry and D.G Hajj, Jeddah within 06 days. No further progress was reported till finalization of this report.

Audit recommends compliance of DAC decision.

(Para-41 SAR DG Hajj Jeddah 2018-21)

**AUDIT REPORT
ON
THE ACCOUNTS OF
SOCIAL SAFETY NETS
(FEDERAL GOVERNMENT)
AUDIT YEAR 2023-24**

AUDITOR-GENERAL OF PAKISTAN

DIRECTORATE GENERAL AUDIT (SOCIAL SAETY NETS)

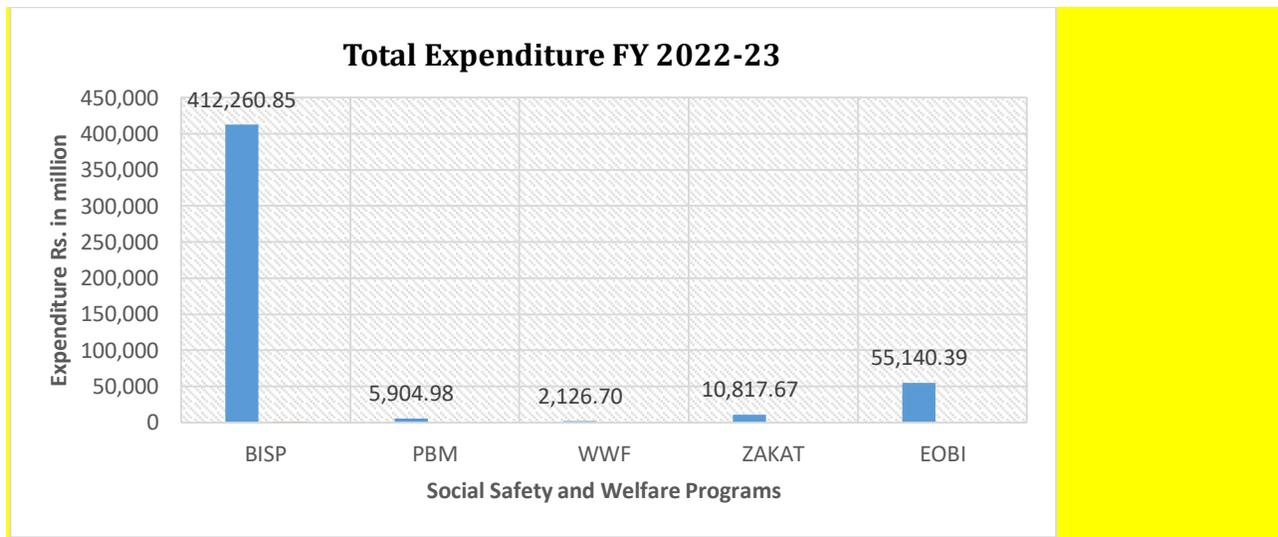

CHAPTER 1

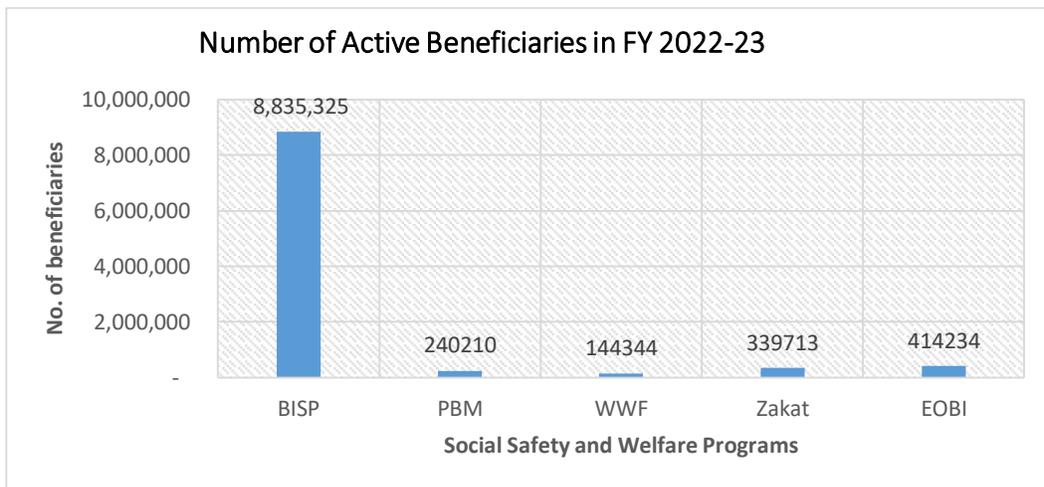

SOCIAL PROTECTION SECTOR ANALYSIS

1.1 Introduction

Social Protection sector is the emerging sector of the state, with increased budgetary allocations over the years. Universal access of the poor and marginalized sector to the basic necessities of life including proper food, clothes and housing facilities is the basic goal of this sector. Various federal and provincial governments have introduced Social Safety programs. Starting from 1967, the Provincial Employees Social Security Scheme was introduced as first social protection measure in Pakistan. Currently, Benazir Income Support Programme (BISP), Pakistan Poverty Alleviation Fund, Workers Welfare Fund (WWF), Employee Old Age Benefit Institution (EOBI), Pakistan Bait-ul-Mal (PBM) and Central/Provincial/District Zakat Funds are the main social protection institutions/funds catering both chronic and transient poor population for reducing poverty. The beneficiaries registered with these programs are increasing gradually.

The total expenditure of these programs in FY 2022-23 was Rs. 486,250.59 million. Details of expenditure and number of beneficiaries registered with these social protection programs are given in the graphs below:

In order to enhance the coverage of Social Protection programmes, so as to reduce the poverty in all its forms the current government has streamlined the Conditional Cash Transfers and established appropriate graduation programs. For this purpose, Poverty Alleviation Coordination Council was created with the following aims i) to synergize the efforts of various organizations working for poverty alleviation in public and private sector, ii) to develop a framework for improving the implementation plans for capacity building and performance enhancement of subject organizations. Poverty Alleviation and Social Safety Division has also been established to effectively administer all Social Protection Programs throughout the country, through one window operation. Moreover, *Ehsaas* Program has been initiated which implies a multi-dimensional approach to reduce poverty effectively. The major initiatives under *Ehsaas* Program include *Kafalat* program, Under-graduate Scholarships, *Ehsaas Nashonuma* and establishment of *Sehat Insaf* Card for free medical treatment to around eight million families all over the country.

1.2 Sectoral Analysis

Following are the organizations under Social Protection Programs to counter poverty by graduating the poor out of poverty and making them self-sufficient.

1.2.1 Benazir Income Support Programme

BISP is a flagship federal cash transfer Social Safety Net initiative of Government of Pakistan. Its long-term objectives include meeting the targets set by Sustainable Development Goals (SDGs) to eradicate extreme & chronic poverty and empowerment of women through establishment of comprehensive social protection. BISP has a nationwide presence with headquarter in federal capital and six zonal/regional offices at provincial capitals, Azad Jammu & Kashmir and Gilgit-Baltistan. There are also 34 divisional and 385 District offices all across the country. Since inception of this program till 30.06.2023, Rs. 1,671,797 million was disbursed under different cash transfer programs and total number of beneficiaries now stands at Rs. 8.83 million. BISP uses Poverty Score Card under NSER, where a score of PMT 32 (New Survey) makes the beneficiary eligible for this cash transfer program. BISP has following programs:

- ▶ **Unconditional Cash Transfers (UCT)** provides minimum income support package (Rs. 2,000 monthly) to those rated poor on Poverty Score Card.
- ▶ **Conditional Cash Transfer Programs** which include *Waseela-e-Taleem* to facilitate primary education.
- ▶ **Nutrition Nashonuma Program** provides women cash stipends, specialized nutritious food, immunizations, antenatal and postnatal checkups, health awareness sessions and tackling stunting in children across 15 most stunted districts in the country.
- ▶ **Under-graduate Scholarships Program** started in 2019 provides a total number of **200,000 scholarships** with 70,000 scholarships each year with a 50% scholarships quota is reserved only for girls.

BISP started in 2008 with the aim to reduce poverty and making beneficiaries self-sufficient to prevent them from falling below the poverty line. In FY 2022-2023, Rs. 274,096 million was disbursed as Unconditional Cash Transfer, Rs. 40,575 million was disbursed for Conditional Cash Transfer Program i.e., *Waseela-e-Taleem* and Rs. 20,661 million and Rs. 8,615 million were disbursed for *Ehsaas Nashonuma* and Under-graduate scholarships program, respectively.

BISP has developed the database of its beneficiaries in Management Information System through multiple surveys by participation of both public and private sector. To track down the financial status of the beneficiaries being covered by the BISP programs over the long period of time, it is very important to update the beneficiaries' data after shorter periods to check the economy, efficiency and effectiveness of the program. Latest Survey report (National Socio-economic Registry) was completed during the financial year 2021-22. Moreover, data integration across the multiple social safety organizations remains an issue because auditors have reported deficiencies in beneficiaries' record in these MIS.

To become a productive and robust vehicle to deliver services to the poorest, BISP still has to plug the identified gaps as reported in the recent audit report. Though efforts have been made to improve the payment mechanism and currently Biometric Verification System is operational, still instances of fraud and embezzlement have been reported from different regions of the country. This speaks for inadequate inbuilt controls in the payment mechanism. That is why the Complaint Monitoring System needs to be more effective for timely remedial measures to address recipients' concerns. Delayed and incomplete reconciliation process among BISP, Banks and Post Offices are potential grey areas. In addition to this, retention of undisbursed funds by the banks is against the terms of agreements.

1.2.2 Pakistan Bait-ul-Mal

Pakistan *Bait-ul-Mal* (a welfare fund) established in 1992 by PBM Act, 1991. PBM is significantly contributing towards poverty alleviation through its various poorest of the poor focused services and providing assistance to the poor and needy persons, as per eligibility criteria approved by *Bait-ul-Mal* Board irrespective of their gender, cast, creed and religion through its establishment at the district level. A person to be eligible for PBM program should have monthly

household income less than Rs. 17,000. During FY 2022-23, PBM has disbursed an amount of Rs. 5,905 million through its following core projects/schemes:

- **Individual Financial Assistance** caters poor, widows, and orphans for medical treatment, education and general assistance.
- **School for Rehabilitation of Child Labour (SRCLs)** are working for the rehabilitation of the bonded child labour and provide them primary education. PBM has established 159 National Centre's for Rehabilitation of Child Labour countrywide since 1995.
- **Women Empowerment Centers (WEC)** works for the skill-development i.e. cutting, sewing, knitting, computers and embroidery along with other trades to women and provide free training to widows, orphans and poor girls in different skills. There are 160 WECs operating across the country.
- **Pakistan Sweet Homes/Dar-ul-Ehsaas** are for the orphan children where they get free food, medical treatment, boarding and lodging and free education. There are 51 Sweet Homes now called *Dar-ul-Ehsaas* across the country.
- **Orphan Widow Support Program** for families having orphan child, preferably girls, launched in four districts Abbottabad, Peshawar, Gujrat and Okara. This program has launched in replacement of 4 closed *Dar-ul-Ehsas* 247 children in those districts.
- **Panagahs** Under the vision of Prime Minister, PBM launched the program of *Panagahs* (5 in Islamabad, 1 in Mardan, 1 in Abbottabad, 5 in Karachi, 1 in Quetta, 1 in Gawadar, 1 in Qilla Abdullah, 1 in Lasbella and 1 in Skardu) during the FY 2022-23.
- **Ehsas Koe Bokha na Soay** Under the vision of Prime Minister, PBM launched the Program of 12 *Ehsas Koe Bokha na Soay* food vehicle (4 in Peshawar, 4 in Lahore, 2 in Islamabad and 2 in Faisalabad)

1.2.3 Workers Welfare Fund

Workers Welfare Fund (WWF) was established under Workers Welfare Fund Ordinance, 1971 for providing low cost housing and other welfare amenities to the industrial labour. Initial contribution of Rs. 100 million was made by the Federal Government and further resources were to be raised by the private sector. The main objective of WWF is to finance housing schemes for the industrial workers which include construction of houses, flats and development of plots, establishment of health facilities like hospitals, wards and dispensaries and education facilities like secondary and higher secondary schools, technical institutes and industrial homes in all major industrial cities. Provision of death grant to the widow/legal heir of the deceased workers and marriage grant for the marriage of daughters of workers is also provided. Total budget for the FY 2022-2023 was Rs. 2,126.701 million.

During audit of financial year 2022-23, significant number of irregularities were reported. There were cases of payments of fees to un-registered schools, provision of allowances to the

employees of WWF without approval of Finance, non-deduction of Income Tax at source on account of fee paid directly to the Institutions and payment of gratuity in addition to Contributory Provident Fund. In addition to this, in WWB, Punjab and Khyber Pakhtunkhwa there was cases of mis-procurement, non-deposit of tax timely to taxation authorities, non-obtaining of utilization reports from schools and losses due to non-letting out properties of Board.

1.2.4 Zakat

Zakat plays an important role in poverty alleviation. Apart from support to the poor and needy, it helps in re-distribution of wealth which curtails unemployment and reduces chances of economic recession. Zakat funds are utilized for assistance to the needy, indigent, poor, orphans, widows, handicapped and disabled for their subsistence or rehabilitation. These poor segments of society are provided Zakat funds either directly through respective Local Zakat Committee or indirectly through institutions i.e. educational, vocational, social institutions and hospitals, etc.

The subject of Zakat stands devolved to the provinces and federal areas. Poverty Alleviation and Social Safety Division (Zakat Cell) has been assigned the task of collection and disbursement of Zakat funds to the Provinces/Federal Areas till next NFC Award under the Council of Common Interests approved formula. *Mustahiqeen* should have income less than Rs. 670 per head in a household. A total amount of Rs. 10,817.666 million was collected during FY 2022-23 and distributed in lump sum amongst the Provinces/Federal Areas.

Auditors during the Audit of FY 2022-2023 found the issues of exemptions granted without declarations/on invalid declarations and non-distribution of Zakat on revised population census 2017.

1.2.5 Employees' Old-age Benefits Institution

EOBI Act, 1976 was enforced w.e.f. 01.04.1976. The statute intends to provide security and benefits to the old-age employees of industries, commercial or other organizations covered under it. EOBI provides an Old-Age Pension, Invalidity Pension, Old-Age Grant and Survivor's Pension to eligible beneficiaries. The purpose of EOBI is to achieve the objective of Article 38(C) of the Constitution, by providing compulsory social insurance.

In provision of pension grant, significant number of incidences of payments on dubious/wrong date of births, wrong de-credit, double re-credit of pensions, multiple pensions on one link claim number and pension awarded at excess rates have been noticed. Moreover, there are instances of non-recovery of contributions from defaulting employers and cases of mis-procurement. Total expenditure on pension payments during financial year 2022-23 was Rs. 51,000 million.

1.3 Conclusion

Social Protection Programs are often fragmented and duplicated, because each program has been working on its own and under different ministries, whereas inter-ministerial coordination is weak. The Social Safety Nets Institutions do not have clear division of responsibilities in terms of target groups and have their own eligibility criteria for rating an individual as poor so they have their own database. Due to lack of data sharing and correspondence among different programs and ministries, beneficiaries are being covered by multiple programs which lead to decrease in overall efficiency and effectiveness of Social protection Sector in achieving the targets of poverty alleviation and self-sustainability in beneficiaries. Poverty Alleviation and Social Safety Division is acting as the administrative head of these programs. Still, EOBI is under Ministry of Overseas Pakistanis and Human Resource Development. To make the Social Safety nets result oriented it is very important to use a single criterion of poverty measurement in line with the national definition of poverty and develop a single database for all programs which should be re-evaluated after appropriate number of years to track down the progress made by each program. Cash transfer programs may be time barred to reduce the dependency syndrome in beneficiaries while the core program should include Poverty Graduation Schemes through skill enhancement and subsequent asset transfer and micro-financing to make the beneficiaries self-sufficient. It is also desired that there may be segregation of duties among social protection sector and development of key performance indicators along with the proper monitoring and evaluation mechanism. Moreover, there is a need for early establishment of financial rules and autonomous funds of formations/commissions under administrative control of Ministry of Human Rights and Ministry of Overseas Pakistanis and Human Resource Development. Additionally, policies must be designed and approved from competent authority for disbursement of cash transfers and other benefits to be provided in disasters/emergencies such as earth-quake, flood etc.,

In short term, there may be a policy level intervention to resolve the issues of cumbersome delivery mechanism, limited funding, ineffective targeting and low coverage to create the time value of money and make the social protection sector efficient and effective in-service delivery.

CHAPTER 2

BENAZIR INCOME SUPPORT PROGRAMME

2.1 Introduction

A. The Government of Pakistan launched BISP in July 2008 with an immediate objective to eradicate poverty and to evaluate the status of marginalized and under privileged sections of society, especially women, through establishment of comprehensive Social Protection Net. Accordingly, the Benazir Income Support Programme Act, 2010 was passed by the parliament to provide a basis for regulation and establishment of an autonomous Social Safety Net Authority to coordinate the design and implementation of targeted programs for the poor. The purpose of the program is to:

- Enhance financial capacity of the poor and their dependent family members;
- Formulate and implement comprehensive policies and targeted programs;
- Reduce poverty and promote equitable distribution of wealth, especially for the low-income groups.

The President of Pakistan is Chief Patron and the Prime Minister is Executive Patron of BISP, while a Special Assistant on Poverty Alleviation and Social Safety to the Prime Minister of Pakistan, with the status of Federal Minister, manages its operations as Chairperson with the help of a Board constituted by the President on the advice of the Prime Minister.

Key powers and functions of the Board are as under:

- To approve the budget of the program prepared by the management;
- To take decisions on the financial aspects of the program;
- To monitor the program in a transparent manner;
- To make regulations and approve policies and manuals in order to carry out the purposes of the Ordinance;
- To approve criteria of eligible families for financial assistance under the program;
- To present annual progress reports to the Council and consider recommendations.

B. Comments on Budget & Accounts (Variance Analysis)

Budget allocated to the Benazir Income Support Program for the Financial year 2022-23 was Rs. 412,633 million, out of which the Program incurred an expenditure of Rs. 412,261 million resulting in savings of Rs. 372.146 million which is 0.1% of the Final Budget.

(Rs. in millions)

Grant No	Grant Type	Original Grant/ Appropriation	Supplementary Grant/ Appropriation	Final Grant/ Appropriation	Actual Expenditure	Excess/ (Savings)	% age Excess/ (Saving)
26	Current	412,633,000	-	412,633,000	412,260,854	(372,146)	(0.10)

C. Sectoral analysis on the achievements against targets under MTBF

The performance indicators, targets and achievements for the FY 2022-23 by BISP is tabulated below:

Outputs	Selected Performance Indicators	Targets	Achievements
Unconditional cash transfer	Number of beneficiaries (In thousand)	9,000	8,835
Waseela-e-Taleem program	Number of beneficiaries (In thousand)	9,115	7,775
NSER	Number of Households (In thousand)	32,500	36,763
Under-graduate Scholarship	Number of students (In thousand)	102	102

Table 1: Audit Profile of Benazir Income Support Program

(Rs. in millions)

Sr. No.	Description	Total Nos	Audited	Expenditure audited (FY 2022-23)
1	Formations	40	09	412,260.854
2	Assignment Accounts (excluding FAP)	01	01	412,260.854
3	Foreign Aided Projects (FAP)	06	06	187,452.160

2.2 Classified Summary of Audit Observations

Audit observations amounting to Rs. 11,564.177 million were raised as a result of audit. This amount also includes recoverable of Rs. 1,980.479 million as pointed out by the audit.

Table 2: Overview of the Audit observations

(Rs. in millions)

Sr. No.	Classification	Amount
1	Reported cases of fraud, embezzlement and misappropriation	47.840

2	Irregularities	5,631.587
A	HR/ Employees related irregularities	226.372
B	Procurement related irregularities	48.842
C	Management of accounts with commercial banks	5,076.098
D	Financial Management	280.275
3	Value for money and service delivery issue	1,029.188
4	Others	4,855.562

2.3 Brief comments on the status of compliance with PAC Directives

Year of AR	PAC Status	No. of Actionable points	Compliance	Non-compliance	% Compliance
2011-12	Held	3	2	1	66.67
2012-13	Held	8	-	8	-

2022-23	Not Held	-	-	-	-

2.4 AUDIT PARAS

Fraud and Embezzlement

2.4.1 Fraudulent withdrawals on account of Tirah IDPs program by unauthorized / ineligible persons – Rs. 30.040 million

Regulation No. 12(i) of BISP Financial Regulations 2017, states that every officer incurring or authorizing expenditure from public funds should be guided by high standards of financial propriety among the principles on which emphasis is generally laid. Every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public moneys as person of ordinary prudence would exercise in respect of expenditure of his own money.

BISP Board approved to pay one-time relief to ever married woman of Internally Displaced Persons (IDPs) of Tirah Valley.

Audit observed that 1,502 unauthorized and ineligible persons were allowed to withdraw an amount of Rs. 30.040 million @ Rs. 20,000 per person through fraudulent enrollment which was otherwise approved for IDPs of Tirah Valley. These 1,502 persons were not in the Tirah 'one-off enrollment' list of BISP, however, upon reviewing the data, these unauthorized names were found in the payment list shared by bank with BISP during the period March 2022 to September 2022.

Details of 1,502 transactions were provided to the BISP management in digital form. However, a list of CNICs is attached at **Annexure-II**.

Audit held that the wrong withdrawals of Rs. 30.040 million were made due to negligence on the part of BISP management and the bank which needs to be recovered.

The initial audit observation was issued on August 30, 2023. The management replied that the data of eligible beneficiaries of Tirah IDPs program was shared with the bank with the instruction to enroll/disburse only these beneficiaries @ Rs. 20,000 per beneficiary. However, it seems that the bank has also enrolled beneficiaries of Phase-2 of Covid program @ Rs. 20,000. The matter is being further investigated as well as taken up with the bank for clarification. Detailed response on the matter will be shared with audit later.

The matter was discussed in the DAC meeting held on 06.12.2023. The forum directed BISP management that recovery be made from the bank and responsibility be fixed.

Audit recommends that the matter be investigated to fix the responsibility and to find out reasons for such lapses, besides recovery of objected amount within 30 days.

{Para No.37 of AIR of BISP HQrs for the Audit Year 2023-24}

Irregularity and non-compliance

2.4.2 Irregular refund of Rs. 2,854.87 million by HBL to government of Sindh without any acknowledgement and reconciliation of difference amount - Rs. 4,210.58 million

A per decision of Sindh Cabinet in its meeting held on 21.03.2023, cash transfer of Rs. 2000 each under the Flour Relief Scheme shall be paid to 7.8 million families approx. of Sindh Province with BISP's PMT score in the range upto 60.

Accountant General Sindh Karachi released an amount of Rs. 12,072 million directly into BISP Shock Responsiveness Account C-3 maintained at HBL, CDA Civic Centre, G-6 Markaz, Islamabad on account of Wheat Flour Subsidy vide authority dated March 31, 2023.

Audit observed that HBL vide letter dated June 27, 2023 authorized Chief Manager, Banking Service Corporation, State Bank of Pakistan to debit its current account number 020211000620034 maintained with SBP as a contra credit to Finance Department, Govt. of Sindh (Non-food Account No.1) an amount of Rs. 2,855 million in lieu of unutilized amount of Wheat Flour Subsidy. Audit further observed as under:

- i. Confirmation/ acknowledgement of credit of such amount in Government of Sindh Exchequer was not found on record.
- ii. The amount was refunded without proper reconciliation of accounts. Difference of Rs. 4,210.58 million (upto May 2023) was yet to be reconciled as detailed below:

(Rs. in millions)

A	Total amount of Wheat flour subsidy credited by GoS	13,581.00
B	Total Bank charges approved by BISP upto May 2023	41.44
C	Services charges rate (inclusive of 13% FED) = 0.006441	
D=B/C	Total withdrawals as per approved service charges	6,434.11
E=B+D	Total amount utilized	6,475.55
F=A-E	Remaining amount unutilized	7,105.45
G	Amount credited to the Govt. of Sindh	2,854.87
H=F-G	Difference amount yet to reconciled	4,210.58

The initial audit observation was issued on 30.08.2023. The management replied that the audit of Sindh Wheat Flour Subsidy program does not come under the purview of Federal Audit as the cash assistance under the program was disbursed through funds provided by Government of Sindh and that too were directly transferred in the main account of BISP maintained by HBL for Cluster-3, without involving Federal Treasury.

The reply was not acceptable as funds were disbursed from the account operated by BISP and closing balances were refunded after the approval of BISP management.

The matter was discussed in the DAC meeting held on 29.11.2023. The forum directed BISP management that reconciled accounts alongwith verified proof of amount credited into Sindh Government Treasury be provided to audit authorities.

Audit recommends early compliance of DAC directive.

{Para No.11 of AIR of BISP HQrs for the Audit Year 2023-24}

2.4.3 Anomalies in targeting/eligibility related data of seed subsidy shared by NITB and identified by Government of Sindh – Rs. 2,773.86 million

Para 5 of the approved summary of ECC of Cabinet vide case no.ECC-30/04/2023 dated 25.01.2023 regarding “Subsidy of Wheat Seed (Rabi 2022-23)” provides that targeting/eligibility related grievances to be dealt by Government of Sindh at every forum, whereas, payments related grievances will be dealt by the BISP as per relevant provisions of the contract signed with partner bank.

The Crisis Management Cell of Agriculture Supply & Prices Department, Government of Sindh vide letter dated 10.02.2023 conveyed the decision of Sindh Government to BISP that “the amount will be reimbursed @ 5000/acre of verified wheat area sown 2022-23. Accordingly, the office of Accountant General Pakistan Revenues authorized an amount of Rs. 839 million for placement in the assignment account of BISP vide Authority dated 23.03.2023 as additional budget ceiling through Technical Supplementary Grant approved by ECC of the Cabinet.

Audit observed anomalies in targeting/eligibility related data of seed subsidy shared by NITB / identified by government of Sindh as listed below:

- i. In 1,469 cases, the master sheet did not provide the GPS location of the land against which payment of Rs. 29.55 million was made.
- ii. 115,807 farmers were paid an amount of Rs. 2,675 million against only 16,459 GPS locations despite accuracy of upto 6 decimals (4 decimals are accurate upto 15 meter).
- iii. *Payment of Rs. 55.690 million was made to 2,706 farmers from 1300 households (as per NSER data) and in 412 cases payment was made to both spouses*
- iv. Seed subsidy payments amounting to Rs. 13.615 million were made to 486 farmers from districts out of Sindh Province as per NSER survey.

- v. Age of 21 farmers, as per BISP database, was from 4-17 years.

Details were provided by the audit team to BISP management in digital form.

Audit held that the above anomalies can only be confirmed by detailed audit of land holding record which was the basis of targeting/eligibility for cash transfers of seed subsidy, which cannot be dealt with during BISP audit.

The initial audit observation was issued on 30.08.2023. The management replied that as per decision of ECC of the Cabinet vide case no.ECC-30.04.2023 dated 25.01.2023, BISP was assigned the task to make disbursements to affected farmers identified and verified by Government of Sindh and shared with BISP by NITB. BISP was not involved in identification/targeting of the beneficiaries and it was clearly mentioned in the said decision of ECC that targeting/eligibility related grievances will be dealt by Government of Sindh at every forum.

The reply was not acceptable as BISP, being a payment authority, was required to perform necessary pre-audit checks before releasing payments to beneficiaries.

The matter was discussed in the DAC meeting held on 06.12.2023. The BISP apprised the DAC forum that BISP was not involved in the process of development of Application Programming Interface (API) with National Information Technology Board (NITB). Moreover, the BISP was only assigned the task by Cabinet to make disbursements to affected farmers identified and verified by Government of Sindh and shared with BISP through NITB. Audit, however, stressed that as per approved summary, BISP was asked to help develop an API for collecting data of the affected farmers by NITB. Audit further emphasized that BISP, as payment authority, was required to complete all codal formalities/necessary pre-audit checks before releasing payments. DAC directed that the observation be referred to the government of Sindh for corrective action and outcome be reviewed in next DAC meeting.

Audit recommends that a detailed verification of the land holding records be carried out besides rectification of anomalies pointed out by audit.

{Para No.8 of AIR of BISP HQrs for the Audit Year 2023-24}

2.4.4 Unauthentic withdrawals of Cash Transfers from out of districts/province from ATMs located at remote districts – Rs. 839.719 million

Clause 2(g)(vi) of Appendix-C Payment solutions to the contract states that onus of any fraudulent activity either due to low quality BVS hardware, saving of biometric images, or any fraudulent activity relating to BVS will squarely rest with the Financial Institution (FI).

BISP disbursed an amount of Rs. 274,096 million, Rs. 40,575 million and Rs. 50,419 million as Unconditional Cash Transfers, Conditional Cash Transfers and Emergency Flood Relief Cash Transfers respectively amongst 10.430 million beneficiaries during the financial year 2022-23.

Audit observed that 19 Automated Teller Machines (ATMs) located in remote districts across the country were used for withdrawals of Cash Transfers of beneficiaries belonging to 22-72 other districts per

ATM. Details of 80,000 transactions have been provided to BISP management by the audit team in digital form, whereas summary of transactions is as under:

(Rs. in millions)

Sr. no.	ATM ID	ATM District	Number of other districts	Out of district beneficiaries' amount
1	5057	Shaheed Benazirabad	72	186.506
2	1669	Jamshoro	67	69.0985
3	0071	Jacobabad	66	30.0575
4	0095	Jacobabad	58	16.9795
5	0076	Mirpur Khas	56	59.8515
6	0093	Bhakkar	56	108.833
7	1674	Rahim Yar Khan	55	7.626
8	0433	Sanghar	54	67.949
9	1648	Zhob	52	45.725
10	0285	Jaffarabad	50	10.4445
11	0101	Muzaffargarh	49	44.725
12	0091	Dadu	46	50.26
13	0068	Bhakkar	44	30.2405
14	0141	Lodhran	42	36.6845
15	0079	Kambar Shahdad Kot	40	5.6435
16	0160	Rahim Yar Khan	34	4.751
17	0203	Charsadda	30	16.7715
18	0066	Umer Kot	22	37.498
19	0698	Shikarpur	22	10.0745
Total				839.719

Audit held that out of district withdrawals of Cash Transfers from BVS devices/ATMs of beneficiaries belonging to 22 to 72 districts created serious doubts about withdrawals made by actual beneficiaries.

The initial audit observation was issued on 30.08.2023. The management replied that ATM withdrawals for payment represent a common occurrence, primarily designed to assist beneficiaries who have migrated. It is important to note that there are no district-check restrictions or controls placed on ATM withdrawals.

The matter was discussed in the DAC meeting held on 06.12.2023. The forum directed BISP management to probe the matter and conduct field verification of 2% cases on sample basis amounting in total to Rs. 839.719 million and recover the amount as pointed out.

Audit recommends implementation of DAC directives.

{Para No.43 of AIR of BISP HQrs for the Audit Year 2023-24}

Note: The issue was reported earlier also in the Audit Report for the Audit Year 2022-23 vide para no. 2.4.7 having financial impact of Rs. 107.406 million. Recurrence of same irregularity is a matter of serious concern.

2.4.5 Delay in de-crediting of funds from beneficiaries Accounts and interest earned by banks thereon on government funds – Rs. 793.518 million

Clause 6.4.1(a) of the Contracts with Banks states that if a BISP beneficiary does not perform any activity i.e. withdrawal from LMA or transferred to linked BB saving account for six months or any other period as subsequently approved by the BISP Board, the bank shall block his/her LMA and de-credit amount available in the LMA. Clause 8.1(a)(i) of the Contracts with Bank Alfalah and HBL further states that the Bank shall make it a routine to regularly deposit all de-credited Funds including forced de-credited funds in the Government Treasury in accordance with Clause 6.4.1(c) on weekly basis, i.e., on every Monday, if not a holiday, without any failure or delays (next working day in case of holiday). In case, the Bank fails to transfer de-credited Funds in the Government Treasury in accordance with above, the Bank shall be liable to penalty on the retained de-credited Funds in BISP main account @ one-year KIBOR Offer Rate per day. Such amount shall be adjustable out of services charges claim of the Bank.

Bank Alfalah and HBL de-credited an amount of Rs. 4,155.217 million during the financial year 2022-23.

Audit observed that the banks had not blocked the accounts of 119,000 beneficiaries despite no activity occurring in these accounts for six months. The de-credited activity involving an amount of Rs. 3,506 million was delayed upto 967 days after the date of last withdrawal from the beneficiaries' accounts. The interest earned on average KIBOR comes to Rs. 793.518 million. Details showing date of decredit, last withdrawal and calculation of interest amount based on average KIBOR were provided to the BISP management by the audit team in digital form.

Audit held that non-de-crediting of beneficiaries' accounts and subsequent non-deposit of de-credited amount into Government Treasury was a loss to the exchequer which also enhanced the risk of fraudulent withdrawals.

The initial audit observation was issued on 30.08.2023. The management replied that automated de-crediting service used earlier by the banks only considered last withdrawal activity for calculating de-crediting period, and the period in which account balance was nil was also counted in the de-crediting period. Banks were, therefore, asked to update de-crediting service so that the de-crediting period may be calculated correctly. The Audit has also calculated the de-crediting period and interest amount on the basis of last withdrawal activity without considering the date of next deposit.

The reply was not acceptable as audit had pointed out cases with delays of more than one year.

The matter was discussed in the DAC meeting held on 06.12.2023. The forum directed BISP management to internally review the reasons for late de-credit of funds by banks, to recover the financial cost in respect of the period in which the amount was retained by Bank and not de-credited and share progress to audit in the next DAC. DAC further directed the BISP management to bound the banks for automated de-credit of funds in future.

Audit recommends early implementation of DAC directive.

{Para No.32 of AIR of BISP HQrs for the Audit Year 2023-24}

Note: The issue was reported earlier also in the Audit Reports for the Audit Year 2019-20, 2021-22 and 2022-23 vide para no. 2.5.10, 2.4.3 and 2.4.3 respectively having financial impact of Rs. 3,638.5 million. Recurrence of same irregularity is a matter of serious concern.

2.4.6 Irregular transfer of Emergency Cash Disbursement to both spouses instead of one benefit per family – Rs. 681.650 million

Para 4(a) of the summary no. NDMA's U.O No. 3(2)/2022-Summary-NDMA/Fin dated 15.08.2022 duly approved by the Prime Minister of Pakistan and Economic Coordination Committee (ECC) of the Cabinet dated 18.08.2022 and 30.04.2022 respectively provides that one benefit per family amounting to Rs. 25,000 will be provided to ever married women of the family. In case of ever married women is not available, the preference will be given to ever married men of the family.

Moreover, Clause 4.1 of the agreement for data validation of the National Socio-Economic Registry was executed between BISP and NADRA on 11.12.2019 for a minimum contract price of Rs. 225 million states that NADRA shall provide the services to BISP in accordance with Appendix A to the Agreement. Para 3(a&c) of Appendix A defining scope of the agreement provides that NADRA shall carry out validation of 6 x fields i.e. (CNIC Number, Name, Father/Husband Name, Gender, Date of Birth, Marital Status) of NSER data with national Database using its own resources and infrastructure. Moreover, NADRA will provide, CNIC number of spouse/Father name and present addresses for only sample household heads having PMT score required to declare them as beneficiaries for ground verification.

BISP disbursed an amount of Rs. 69,221.650 million amongst 2,768,866 beneficiaries under the initiative-Emergency Cash Disbursement to Affectees of Flash Floods-2022 during the financial year 2022-23.

Scrutiny of 2/3rd available spouse relationship available in NSER database (in most of cases NADRA validated the family relation) revealed that in 27,266 cases, both spouses of the family were accommodated through release of emergency cash disbursement to them. Details were provided to the BISP management in soft form.

Audit held that an excess amount of Rs. 681.650 million was disbursed in violation of Cabinet decision.

The initial audit observation was issued on 30.08.2023. The management replied that the BISP never use Spouse relationship in NSER Roster, as these relationships are not up to mark, that's why BISP shared complete list of CNICs to NADRA for eligibility ranking for single benefit after checking spouse and other validation checks. Moreover, NADRA never provide Spouse CNIC during any ranking.

The reply was not acceptable as BISP management did not take measures to block payment to both spouses, as validated spousal information of BISP beneficiaries was already available with BISP in NSER dataset which constituted a violation of directives of Cabinet. Moreover, no evidence of sharing of list of CNICs by BISP to NADRA for eligibility ranking for single benefit after checking spouse and other validation checks was produced to audit.

The matter was discussed in the DAC meeting held on 06.12.2023. The BISP apprised the DAC that NADRA was approached and requested to provide information regarding spouse relationship of flood beneficiaries so that benefit could be extended as per policy, however, NADRA did not respond. DAC directed BISP management to produce the record of correspondence with NADRA to audit authorities. DAC further directed that responsibility for non-compliance of Cabinet decision be fixed.

Audit recommends that record of correspondence with NADRA be produced, responsibility for non-compliance of Cabinet decision be fixed besides recovery of amount from person(s) at fault.

{Para No.1 of AIR of BISP HQrs for the Audit Year 2023-24}

2.4.7 Doubtful registration of pregnant women due to low child-birth registration ratio – Rs. 424.90 million

Para 5 of agreement between BISP and WFP regarding “implementation of Health & nutrition Conditional Cash Transfer Program to prevent stunting” signed on 16.12.2021 states that the funds earmarked as ‘Benefits’ are to be transferred to eligible beneficiaries as per their entitlements, either in-kind or services. Upon project closure, WFP will return any unutilized funds earmarked as ‘Benefits’ to BISP along with associated operational costs.

World Food Programme (WFP) registered 123,884 pregnant women overall during the period from 24.07.2020 to 31.10.2022 in Nashunuma Nutrition Program.

Audit observed as under:

- i. No child baby registration against 26,328 registered pregnant women (21% of total) was found in the record of Nashunuma Nutrition Program provided by BISP upto 30.06.2023.

- ii. An amount of Rs. 82.636 million was disbursed as cash transfers amongst such 26,328 pregnant women on an average basis upto 30.06.2023. Whereas the total cost of SNF charged by WFP against such beneficiaries on an average basis was Rs. 324.264 million.

Audit held that non-reporting of child against registered pregnant women despite lapse of considerable time makes the early registration of pregnant women as doubtful. Moreover, an expenditure of Rs.424.90 million incurred on such beneficiaries was held as doubtful.

The initial audit observation was issued on 30.08.2023. The management replied that out of the total shared data of 26,368 pregnant women, only 6,803 cases of pregnant and lactating women were enrolled in FY 2022-23. Among 26,368 total enrolled pregnant women, status of 14,232 pregnancies was marked, like 7,620 pregnancies were not successful (abortion, death, miscarriage etc) and 6,612 were marked delivered successfully. Further follow up of 1,549 cases was with field officials and updated regularly.

The reply was not acceptable as the complete status of 26,368 enrolled pregnant women with respect to their pregnancy status along-with documentary evidence has not been provided to audit despite lapse of more than 2 months after 30.06.2023.

The matter was discussed in the DAC meeting held on 06.12.2023. The forum directed BISP management to provide a revised reply and verify updated reasons of 14,232 pregnancies on sample basis from Audit authorities. DAC further directed to get the status of the remaining 12,136 pregnant women verified and intimate the results to Audit authorities and recovery be effected from beneficiaries where registration of Pregnant women were made on the basis of fake pregnancies.

Audit recommends implementation of DAC decision.

{Para No.20 of AIR of BISP HQrs for the Audit Year 2023-24}

2.4.8 Irregular opening of BB Wallet Saving Accounts and dubious withdrawals of Cash Transfers from beneficiaries' accounts – Rs. 355.698 million

Clause 6.2.1(i) of the contract with banks states that each beneficiary shall be required to bring her own SIM registered and verified in her name/CNIC, at the time of opening of linked BB Savings account of that beneficiary. The HBL shall be responsible to confirm that the SIM is biometrically verified in the name/CNIC of the beneficiary. The mobile number so confirmed/ verified shall be shared with BISP.

The management of BISP provided a list of 128,911 beneficiaries whom BB Saving/wallet accounts were opened by HBL with the mobile number of beneficiaries. An amount of Rs. 355,698,024 through 28,521 transactions was withdrawn from beneficiaries accounts through Branchless Banking during the financial year 2022-23.

Audit observed the following irregularities:

- i. Correct mobile numbers used for opening of BB Saving accounts of beneficiaries were not provided during audit.
- ii. An amount of Rs. 21.1 million was withdrawn from the accounts of 1,976 beneficiaries of Balochistan province during the financial year 2022-23 through Branchless Banking/transfer to BB Saving accounts. During Field verification of audit of Regional Office Balochistan Quetta, on sample basis, beneficiaries confirmed to Audit that neither they had opened their BB saving accounts nor they received their due financial assistance/Cash transfers. Details are provided in **Annexure-III A**.
- iii. Complaints from 2271 beneficiaries involving an amount of Rs. 25.208 million were received in BISP Central Zonal Office Sindh regarding fraudulent withdrawals of BISP Cash transfers from their accounts through Branchless Banking/BB Saving Accounts. Details are provided in **Annexure-III B**.

Audit held that BB saving accounts were opened and withdrawals of Rs. 355.698 million made during the financial year 2022-23 without the knowledge of the beneficiaries which makes the entire list of withdrawals dubious.

Initial audit observations were issued to the management of BISP HQs, Regional Office Balochistan Quetta and BISP Central Zonal Office Sindh on 30.08.2023, 21.09.2023 and 03.11.2023 respectively. The BISP HQs replied that the data of saving accounts provided through MIS indicated that the cell/phone numbers given against each saving account were unique and no duplication found. The management added that cases of 9337 saving accounts received from Audit were also cross verified with MIS record.

The management of Regional Office Balochistan Quetta replied that BISP had not received any complaint from any beneficiary with respect to non-opening of their BB saving account with HBL.

The management of BISP Central Zonal Office Sindh replied that the issue pertained to BISP HQ Islamabad for implementation in case of non-compliance by the partner bank as per contract.

The reply was not acceptable as physical verification on sample basis was carried out in the presence of Assistant Director, BISP.

The matter was discussed in the DAC meeting held on 06.12.2023. The forum was apprised that all saving accounts are opened against unique phone/cell numbers. Management also shared the data with Audit authorities for necessary verification. However, Audit authorities raised concerns that wrong mobile phone numbers were provided by the management of BISP during audit. DAC directed that the revised mobile numbers of all 128,911 beneficiaries be provided to audit authorities. Moreover, sample field verification be conducted on sample basis (2% of the population) and recovery of amount be made on the basis of sample field verification.

Audit recommends that the matter be referred to FIA for strict action against culprits and recovery of misappropriated amount.

2.4.9 Expected loss to Government exchequer due to change in Indirect Support Cost (ISC) rate for BISP contribution after signing of contracts with WFP – Rs. 264.986 million

Article IV(4) of the expansion agreement between the World Food Programme and Benazir Income Support Programme executed on 16.11.2021 provides that the operational cost to WFP will be comprised of (i) WFP's operational cost and (ii) its partners' cost who will be involved in the Project implementation. To ensure Full-Cost Recovery, WFP will retain a percentage, as Indirect Support Costs (as defined in WFP Rules and Regulations), as detailed in the Budget attached hereto as Annex II. Annex-II further provides ISC as 2.85% of total cost (whereas ISC was 6% in pilot project as per agreement dated 28.02.2020).

Article III (6) was added through addendum no. 2 to the expansion and pilot agreement dated 01.06.2023 which states that Indirect Support Cost (ISC) rate is calculated at 4.0 percent of the total BISP contribution for both pilot and expansion phase grants in line with WFP's Rules and Regulations.

Audit observed as under:

- i. The total ISC of both pilot and expansion agreements as per original contract was Rs. 1,291.259 million.
- ii. The total ISC of both pilot and expansion agreements after change by an addendum comes to Rs. 1,556.246 million.

Audit held that change in the ISC rate (through addendum no. 2) 27 months and 17 months after signing of agreements of pilot and expansion phase respectively has resulted in expected loss of Rs.264,986,061 (Rs.1,556,245,537– Rs.1,291,259,476) to Government exchequer.

The initial audit observation was issued on 30.08.2023. The management replied that the assertion that the rate of ISC had been increased was not correct. In-fact the rate of ISC was decreased by fixing it @ 4% in the Addendum. The ISC rate was 4% for all the government contributions as per WFP's universal principle. However, the ISC was calculated mistakenly @ 6% in the initial budget with BISP but was charged, again mistakenly, @ 2.8%. The correction was made in the addendum by fixing it @ 4%. If BISP and WFP would go as per initial approved budget, BISP/ GoP would sustain much more loss to the public exchequer.

The reply is not acceptable as change in ISC (full cost recovery) through addendum had increased the ISC by Rs.264.986 million.

The matter was discussed in the DAC meeting held on 06.12.2023. The forum was apprised that the WFP had a standard method of calculating ISC and there was no difference in ISC mentioned in amount in pilot and expansion agreement and 4% ISC rate agreed upon with WFP through an addendum. DAC directed BISP management to verify the calculations of ISC from audit authorities to the extent that there was no difference in financial impact after revision of ISC rate @ 4% through an addendum.

Audit recommends that the contract may be executed as per its original terms and conditions agreed upon by both the parties.

2.4.10 Failure to maintain POS-Beneficiary ratio and non-imposition of Penalty – Rs. 254.950 million

Section 6.6 of the contract between Banks and BISP provides that Bank shall disburse cash grant through more than one distribution channels in each district of a cluster. At least one BVS touch point (BVS ATM, sub-agent/agent BVS enabled branch etc.) shall be provided for each 500 beneficiaries per Tehsil and at least one BVS touch point shall be provided in each Union Council”.

Clause 8.1(e) of the contract further states that penalty of PKR 25,000 (Rupees Twenty Five Thousand) per deficient BVS Touch Point per tehsil as per Clause 6.6(i) shall be deducted from service charges at any point.

BISP had more than 9 million of beneficiaries all over Pakistan during FY 2022-23, for which 8,408 POS were required to be in place for smooth and speedy disbursement of funds.

Audit observed that out of 16,914 POS required for the following Zone/Regions of BISP, only 6,716 POS were active or functional during the financial year 2022-23 resulting into a deficiency of 10,198 POS. Details are as follows:

Region	Qtr / Year	Para No. of AIR	No. of POS required	No. of POS Provided (functional)	Deficiency
BISP Central Zone, Lahore	Third	4	8408	3027	5381
BISP Central Zone, Karachi	Fourth	5	4294	1284	3010
BISP Regional / Central Zonal Office, Muzaffarabad	2022-23	7	206	180	26
BISP Central Zone, Quetta	2022-23	3	903	390	513
BISP Regional Office KPK	Fourth	1	2573	1385	1188
Central Zonal Office Gilgit	2022-23	12	530	450	80
Total			16914	6716	10198

Audit held that BISP did not deduct penalty from service charges of bank which resulted loss to Government exchequer Rs. 254.950 million (10,198 x 25,000).

The initial audit observation was issued to the managements of above mentioned BISP Central/Regional/Divisional offices in the months of August and September 2023. The managements replied that imposition of penalty was a mandate of BISP HQ, therefore, Regional/Divisional offices had no capacity to take any action in that regard.

The reply was not satisfactory as the departments did not address the observations raised in the audit para.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that management of BISP may deduct penalty from service charges of the bank by clearly communicating to banks the amount and type of penalty deducted by the BISP.

Note: The issue was reported earlier also in the Audit Reports for the Audit Year 2019-20 and 2020-21 vide para no. 2.5.11 and 2.5.6 respectively having financial impact of Rs. 344.625 million. Recurrence of same irregularity is a matter of serious concern.

2.4.11 Non-payment of second installment of assistance package to beneficiaries living along Line of Control (LoC) of Azad Jammu & Kashmir - Rs. 252 million

BISP Board in its 56th meeting held on 01.08.2022 vide agenda no. 13 decided that the Second installment of Rs 12,000 will be disbursed to those beneficiaries, who received 1st installment till 31st March, 2022. This installment will be disbursed from the budget of financial year 2022-23.

The management of BISP disbursed an amount of Rs 252 million among 21,000 families living on the LOC after verification as first installment during January to June 2020.

Audit observed, during audit of BISP Regional Office Muzaffarabad, that the management of BISP did not pay the second installment to the beneficiaries till date.

Audit held that non-payment of 2nd Installment to the beneficiaries of LoC was the violation of Board decision which deprived the beneficiaries living along Line of Control from financial assistance.

Initial audit observation was issued to the management of BISP Regional Office Muzaffarabad on 03.11.2023. The management replied that the matter had been taken up with quarter/Wing concerned of BISP HQ, for guidance and to resolve the issue as per approved policy. Once the response was received, it would be shared with Audit shortly.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that responsibility for non-compliance be fixed and decision of BISP Board be implemented in letter and spirit.

{Para No.2 of AIR of BISP Central Zonal Office Muzaffarabad Audit Year 2023-24}

2.4.12 Inadmissible payment of honorarium to BISP employees – Rs. 224.39 million

According to Appendix 4 of GFR Vol-II, read with para 41 of GFR Vol-I, the amount of honorarium should not exceed one month pay of the government servant concerned on each occasion. In case of recurring honoraria, this limit applies to the total of recurring payments made to an individual in a financial year.

Benazir Income Support Program (BISP) paid an amount of Rs. 224.387 million as honorarium to BISP Employees during the Financial Year 2022-23. Details are provided in **Annexure-IV**.

Audit observed as under:

- i. All BISP employees were paid honoraria equal to two (02) month basic pay during the month of May, 2023.
- ii. Again, during the month of June, 2023, honorarium equal to One (01) month basic pay was paid to all employees of BISP.
- iii. F&A, CT, CCT and NSER Wings were again paid special honorarium equal to One (01) month basic pay in addition to the above honorarium during the same month i.e. June, 2023.

Audit held that honorarium paid to the employees beyond entitlement was unauthorized resulting in loss to the government.

The initial audit observation was issued on 30.08.2023. The management replied that Section 14(2) of BISP Act provides that "the Secretary shall have full powers to incur expenditure or re-appropriate funds, subject to any general or specific instructions of the Board". Moreover, Regulation No.46 of BISP Financial Regulations-2018 provides that "the Secretary may make such payments as are deemed to be necessary in the interest of program in accordance with Section 10(d) and Section 14(2) of the Act.

The reply was not acceptable as BISP Board approval for more than one month pay (upto five basic pays) as honoraria was not shown to audit.

The matter was discussed in the DAC meeting held on 29.11.2023. The forum was apprised that the payment was fully covered under the applicable regulatory and legal framework of BISP in terms of Section 10(d) and 14(2) of BISP Act 2010 and Regulation No.46 of BISP Financial Regulations-2018. However, Audit stressed that employee benefits should be defined in clear terms under BISP regulations and should be linked with performance and targets. The para involved a huge amount, so DAC pend the para for discussion in the next DAC meeting.

Audit recommends to recover the inadmissible payments made on account of honorarium to the BISP employees.

{Para No.68 of AIR of BISP HQrs for the Audit Year 2023-24}

2.4.13 Irregular payment of Tuition Fees and Scholarship to the students not in the original approved awardee list – Rs. 114.503 million

Para 3.11 of revised Operations and Payment Manual provides that if a Scholarship Awardee declines the award or otherwise becomes ineligible, the Financial Aid Office of the Higher Education Institution (HEI) may recommend the award of the scholarship to the next student placed on the waiting list (if a waiting list is available) in compliance with the following conditions:

- a. No scholarship payment (tuition or stipend) has been made to the student(s) who have declined or become ineligible. In cases, where such a payment has been made, the university will be responsible for obtaining the refund.

- b. The academic performance of the waiting list student(s) is satisfactory and the student(s) are eligible for promotion to next term / semester.

HEC finalized list of 10,000 students for Batch-III after selection of students by Institutional Scholarship Award Committee (ISAC) of the respective universities.

Audit observed that HEIs accommodated 922 students in total that were not in the original finalized list of 10,000 students of Batch-III as summarized below:

(Rs. in millions)

Reasons provided by HEC	No. of students	*Amount paid	Remarks
No reason provided	195	26.483	
CNIC Updated	117	8.727	Names not found in original awardee list
Updated	19	3.952	Awardee CNIC not found in original list
Waiting List	591	75.340	Reasons of change of students and waiting list showing names of such students duly approved by the respective ISAC was not provided
Total	922	114.503	

*on the basis of payment details of 4931 students provided

Audit held that the authenticity of selection of these 922 students could not be ascertained without production of minutes of ISAC of respective universities and completion of all missing information.

The initial audit observation was issued on 30.08.2023. The management replied that hard record of ISACs minutes and recommended awardees' list of HEIS are available, which may be verified on sample basis.

The reply was not satisfactory as no record in support of reply was provided.

The matter was discussed in the DAC meeting held on 29.11.2023. The forum directed the CI Wing of BISP to intimate reasons of inclusion of 195 students that were not included in original finalized list and to get the record verified from Audit in respect of the remaining 727 students. DAC further directed the management to ensure that no further release would be made without proper documentation.

Audit recommends implementation of DAC decision.

{Para No.28 of AIR of BISP HQrs for the Audit Year 2023-24}

2.4.14 Irregular payments of Unconditional Cash Transfers (UCT) to the spouses of government employees and pensioners– Rs. 89.890 million

The Federal Cabinet and BISP board approved various profiling checks for exclusion of beneficiaries from Regular BISP UCT Program. One of the approved profiling checks includes “Government employee (self)” & “Government employee (spouse).

BISP Board approved the pension policy and allowed payment of Cash Transfers to pensioners getting pension less than Rs. 30,000 per month.

Audit observed that 2235 Spouses of Government employees and 704 Spouses of Government Pensioners (that were drawing pension more than 30,000 per month) from Grade 1 to Grade 20 were drawing UCT payments during the FY 2022-23. A total amount of Rs. 83.554 million and Rs. 6.336 million was disbursed by BISP to spouses of Government employees and pensioners respectively. Summary is as follows:

(Rs. in millions)

Spouses of Govt. Employees benefiting from Cash Transfers			Spouses of Pensioners benefiting from Cash Transfers		
Grade	Count	Amount	Grade	Count	Amount
Contract Employee	1	0.032	-	-	-
Grade 01	152	5.167	Grade 01	4	0.036
Grade 02	407	16.277	Grade 02	3	0.027
Grade 03	128	4.504	Grade 03	1	0.009
Grade 04	79	2.787	Grade 04	4	0.036
Grade 05	366	13.619	Grade 05	33	0.297
Grade 06	38	1.452	Grade 06	7	0.063
Grade 07	198	7.329	Grade 07	66	0.594
Grade 08	12	0.525	Grade 08	12	0.108
Grade 09	95	3.329	Grade 09	46	0.414
Grade 10	36	1.442	Grade 10	19	0.171
Grade 11	63	2.456	Grade 11	44	0.396

Grade 12	27	0.932	Grade 12	63	0.567
Grade 13	8	0.284	Grade 13	23	0.207
Grade 14	98	3.432	Grade 14	122	1.098
Grade 15	263	9.578	Grade 15	71	0.639
Grade 16	42	1.551	Grade 16	56	0.504
Grade 16 Non Gazat.	161	6.879	Grade 16 Non-Gazat.	76	0.684
Grade 17	21	0.618	Grade 17	27	0.243
Grade 17 Non-Gazat.	13	0.527	Grade 17 Non-Gazat.	8	0.072
Grade 18	15	0.437	Grade 18	8	0.072
Grade 19	11	0.374	Grade 19	9	0.081
Grade 20	1	0.027	Grade 20	2	0.018
Total	2,235	83.554		704	6.336

Audit held that an amount of Rs. 89.890 million was disbursed amongst 2939 spouses of Government Employees and Pensioners, that were inadmissible and therefore recoverable.

The initial audit observation was issued on 30.08.2023. The management replied that the matter will be taken up with concerned departments/CGA for verifying the government employment status of these beneficiaries. All the beneficiaries mentioned have been blocked temporarily in BISP database.

The reply was not acceptable because proof of the temporary blockage of status of such beneficiaries was not provided to audit.

The matter was discussed in the DAC meeting held on 29.11.2023. The forum directed BISP management to constitute a Committee for devising a mechanism for identification of spouses and expedite efforts to recover the amount.

Audit recommends that responsibility for improper profiling be fixed besides recovery of amount.

{Para No.35 & 36 of AIR of BISP HQrs for the Audit Year 2023-24}

Note: The issue was reported earlier also in the Audit Reports for the Audit Year 2019-20, 2021-22 and 2022-23 vide para no. 2.5.1, 2.4.6, 2.4.26 and 2.4.9 respectively having financial impact of Rs. 23,689.497 million. Recurrence of same irregularity is a matter of serious concern.

2.4.15 Irregular withholding of service charges by HBL in advance without authorization of BISP – Rs. 72 million

Clause 6.2.1 (a) (i) of the contract between BISP and HBL provides that HBL shall open and maintain Accounts (current account) for BISP's cash initiative and BISP main accounts is meant only for receipt, transfer and disbursement of BISP funds and cannot be used for any other purpose whatsoever.

Only BISP related funds shall be deposited and transferred from this account(s). Even service charges paid to the HBL shall not be deposited in the BISP's main account(s).

Furthermore, Clause 17.1(a) of Special conditions of contract signed with HBL states that the rate of service charge is 0.57% (in Pak Rupees) of cash withdrawal per BISP beneficiary, including operational and admin costs and excluding all applicable indirect taxes for Cluster No.3. Clause 19.1 further states that BISP shall pay the service charges on withdrawal per BISP beneficiary on actual basis after deducting applicable taxes at source, as per actual.

Accountant General Sindh Karachi released an amount of Rs. 12,072 million directly into BISP Shock Responsiveness Account C-3 maintained at HBL, CDA Civic Centre, G-6 Markaz, Islamabad on account of Wheat Flour Subsidy 2013 vide authority dated 31.03.2023.

Audit observed that HBL withheld and transferred from the BISP main account Rs.72 million as advance service charges without the approval of BISP and also tax at source could not be deducted by BISP. Audit further observed that only service charges amounting to Rs. 41,442,118 was approved by BISP till 30.05.2023.

Audit held that advance deduction of service charges of Rs. 72 million by HBL was irregular because as per agreement with bank, BISP shall pay service charges on withdrawal of amount by beneficiary as per specified rate subject to deduction of sales tax.

The initial audit observation was issued on 30.08.2023. The management replied that the audit of Sindh Wheat Flour Subsidy program doesn't fall under the purview of Federal Audit as the cash assistance under the programme was disbursed through funds provided by the Government of Sindh and that too were directly transferred to the main account of BISP maintained by HBL for Cluster-3, without involving Federal Treasury.

The reply was not acceptable as funds were disbursed from the BISP account.

The matter was discussed in the DAC meeting held on 29.11.2023. The forum observed that by deduction of advance service charges, HBL committed violation of the contract signed with BISP. DAC directed BISP management to calculate the actual amount admissible on account of service charges and recover financial cost on the amount retained by HBL from its subsequent payments. The DAC directed the management to submit a compliance report in the next meeting of DAC.

Audit recommends implementation of DAC decision.

{Para No.11of AIR of BISP HQrs for the Audit Year 2023-24}

2.4.16 Mis-procurement of services for validation of Child Registration Certificate (CRC) under WeT Program - Rs. 48.842 million

Rule-42 (f) iv of PPRA regarding Direct Contracting with State-Owned Entities provides that a procuring agency may engage in direct contracting with state-owned entities subject to the condition that the procuring agency shall devise a mechanism for determining price reasonability to ensure that the prices offered by the state-owned entities are reasonable for the award of the contract.

BISP signed an extension of agreement for Data Validation of NSER data with NADRA on 15.01.2020 for the verification of the B-form fields for the purpose of WeT enrollments. As per extended agreement, the following fields shall be added to the table appearing in Clause 2: “Child Name, Child DOB, Gender and Mother CNIC against provided CNIC of CCT of Waseela-e-Taleem Program.”

Audit observed that the management of the BISP procured different services from NADRA without specifying any appropriate fora to determine the price reasonability. Audit further observed that in original contract the NADRA was required to verify 6 field of NESR Data for Rs. 9 per CNIC. Whereas in extended agreement dated 15.01.2020, the NADRA agreed to verify only 4 fields of Child CRC at the same rate of Rs. 9 per CNIC. A sum of Rs. 48,842,496 was paid to NADRA against Child CNIC Data Validation for BISP (April-22 to May-23).

Audit held procurement of services without specifying any appropriate fora to determine the price reasonability as mis-procurement.

The initial audit observation was issued on 30.08.2023. The management replied that the referred addendum was an extension of the existing contract, originally used for NSER data validation. It involved the addition of extra fields to the existing set, which naturally increased the total number of fields to be validated. The CCT Taleemi Wazaif Program specifically utilizes a subset of fields from the larger set validated by NADRA. The NSER and CCT Taleemi Wazaif Program share the same contract and CCT Taleemi Wazaif uses only certain fields needed for their beneficiary validation under the same contract. The child registration certificate verification service, under the Taleemi Wazaif Program works as a framework service and the same rate is charged for verification of one or all values.

The matter was discussed in the DAC meeting held on 06.12.2023. The forum directed that a fact-finding inquiry be carried out and outcome be shared in the next DAC.

Audit recommends that the matter may be probed.

{Para No.47 of AIR of BISP HQrs for the Audit Year 2023-24}

2.4.17 Overpayment to the farmers on account of re-imburement of Seed Subsidy in Sindh Province – Rs. 45.493 million

The ECC of the Cabinet vide case no.ECC-30/04/2023 dated 25.01.2023 considered the summary submitted by Ministry of Poverty Alleviation and Social Safety Division regarding “Subsidy of Wheat Seed (Rabi 2022-23) and approved the proposal as contained in para 5 of the summary. Furthermore, The Crisis Management Cell of Agriculture Supply & Prices Department, Government of Sindh vide its letter no.1(1)CMC/Flood/2022/54 dated 10.02.2023 convey the decision of Sindh Government to BISP that “the amount will be reimbursed @ 5000/acre of verified wheat area sown 2022-23.

The office of Accountant General Pakistan Revenues authorized an amount of Rs. 839 million for placement in the assignment account of BISP vide its authority dated 23.03.2023 as additional budget ceiling through Technical Supplementary grant approved by ECC of the Cabinet.

Audit observed that a sum of Rs. 45.487 million was overpaid to 2,896 farmers due to miscalculating payments at the rate of Rs. 5,000 per acre of owned land area instead of verified wheat area.

Audit held that overpayment to the farmers amounting to Rs. 45.487 million was a violation of Cabinet/ Govt. of Sindh decision.

The initial audit observation was issued on 30.08.2023. The management replied that the seed subsidy payments were initiated in Mar-2023 and at first all necessary controls were in place to process payments to farmers of Sindh, but due to shortage of time, one of the controls was not properly implemented. However, on identification and recommendations all the necessary controls were implemented along with other necessary actions being taken. Moreover, responsibility was fixed, and action was taken against the responsible individual. For recovery, BISP already requested the Govt. of Sindh to take necessary action to recover overpaid amount.

The reply was not satisfactory as no recovery had been made till the finalization of this audit report.

The matter was discussed in the DAC meeting held on 6.12.2023. The management informed the DAC that responsibility has already been fixed and the concerned employee of BISP has been suspended. Furthermore, the Government of Sindh has been approached for recovery of the overpaid amount. DAC directed BISP management that matter of recovery of overpaid amounts be expedited with the Government of Sindh.

Audit recommends that overpaid amount should be recovered besides fixing responsibility against person(s) at fault.

{Para No.6 of AIR of BISP HQrs for the Audit Year 2023-24}

2.4.18 Irregular payment against children of Nashonuma Nutrition Program after first quarter without provision of B-forms – Rs. 22.364 million

Para 5.1 of SOP for payment mechanism under Nashonuma Nutrition Program provides that the Target Population will be referred to the registration counter for verification of their eligibility status in the programme. In case of child registration, the child will be registered on the information provided by the mother in the first quarter. However, the mother will be required to provide the B-Form of child to be issued by NADRA for verification of child linked with enrolled family in the subsequent quarter. No further process will be initiated, in case of non-eligibility of the visitor.

BISP utilized an amount of Rs. 20,661 million on Nashonuma Nutrition Program during the financial year 2022-23.

Audit observed that 9,752 mothers got 2nd payment against a child amounting to Rs. 44,728,500 without provision of B-form of Child in subsequent quarter.

Audit held that an average amount of Rs. 22,364,250 (44,728,500/2) was paid to beneficiaries as 2nd payment without provision of B-forms of children which was a violation of SOP for payment mechanism under Nashonuma Nutrition Program.

Initial audit observation was issued on 30.08.2023. The management replied that 714 B-forms were obtained from the field and remaining were due in coming quarter. The check for 1st payment in the application was for 90 days, after which the next payment could be generated. Moreover, children cannot be facilitated without B-form in the second quarter, however, application gave relaxation for 2 quarters to children where parents had applied for the B-form.

The reply was not acceptable as the relaxation for two quarters was against the approved SOP for payment mechanism under Nashonuma Nutrition Program.

The matter was discussed in the DAC meeting held on 06.12.2023. The forum directed BISP management to provide a revised reply and recovery be effected from the beneficiaries where B-forms are not available after allowable time. The process of recovery be completed within one month time.

Audit recommends implementation of DAC decision besides production of B-forms to audit for verification.

{Para No.19 of AIR of BISP HQrs for the Audit Year 2023-24}

2.4.19 Non-recovery of embezzled amount – Rs. 17.800 million

Clause 6(xiii) of the banking agreement with Banks states that Bank shall be fully and solely responsible for any wrong doings of their super agents/agents/sub agents and their partners under agreement/ agency agreement including any attempt to force the beneficiary to select either of the option of cash withdrawal or fund transfer as well as denial of service; shall be subject to strict penalties, recoveries, compensations to aggrieved beneficiaries, agent permanent blockage, disciplinary action against the super agents/agents/sub agents or as per BISP instructions. Clause 6(xiv) further states that Bank shall be fully responsible for deduction or embezzlement by a BB agent and shall have to compensate the beneficiary or deposit the embezzled amount in the government treasury as per BISP's instructions, as well as backlist the BB Agent.

BISP disbursed an amount of Rs. 274,096 million, Rs. 40,575 million and Rs. 50,419 million as Unconditional Cash Transfers, Conditional Cash Transfers and Emergency Flood Relief Cash Transfers respectively amongst 10.430 million beneficiaries during the financial year 2022-23.

Audit observed that an amount of Rs. 17.800 million was embezzled through fake biometric/auto withdrawals during disbursement of Regular and Flood funds from 924 beneficiaries' LMA-2 accounts maintained at HBL and BAFL, which was not recovered till the close of audit.

Details are as follows:

(Rs. in millions)

Formation Name	FY	Para No. of AIR	No. of Cases / ATMs Involved	Fraudulent Amount not recovered	Remarks
BISP HO	2022-23(Flood Punjab)	40	458	11.450	ATM & POS
Zonal Office Karachi	2022-23 (Flood)	2	35	0.875	ATM
Zonal Office Karachi	2022-23 (Flood)	2	33	0.579	POS
Zonal Office Karachi	2022-23 (Regular)	6	82	1.483	ATM & POS
Zonal Office Lahore	Regular	6	24	0.301	POS
Zonal Office Lahore	Regular	6	24	0.274	ATM
Zonal Office Muzaffarabad	Regular	8&9	15	0.160	POS
RO Quetta	Regular	13	55	0.551	POS
Zonal Office Peshawar	Regular	3	36	0.295	ATM
Zonal Office Peshawar	Regular and Flood	4	146	1.649	POS
Zonal Office Gilgit Baltistan	Regular	5	16	0.186	POS
	Total		924	17.800	

The initial audit observation was issued to BISP HQs on 30.08.2023. The management replied that Regional Office, Punjab in liaison with relevant Bank/HBL took up the case to investigate the matter, ensure compliance on the part of the Bank as per Agreement, and recovery of all the embezzled amount. The Bank desired to ensure all complaints through PCMS. Through consistent follow-up, complaints have been uploaded by field formations in PCMS shared with the bank for further necessary action to effect recovery and rectification.

The Regional Offices replied that most of the cases were forwarded to BISP HQs, Islamabad for proper follow up and recovery, and remaining cases were under necessary preliminary inquiries, the outcome of which will be shared with Audit.

The matter was discussed in the DAC meeting held on 06.12.2023. The forum directed the management to expedite the process of recovery of the embezzled amount and share the updated status in the next meeting.

Audit recommends that fraudulent amount may be recovered from the culprits and be paid to the beneficiaries.

{Para No.40, of AIR of BISP HQrs for the Audit Year 2023-24}

Note: The issue was reported earlier also in the Audit Reports for the Audit Year 2019-20 and 2021-22 vide para no. 2.5.1 and 2.4.2 respectively having financial impact of Rs. 79.115 million. Recurrence of same irregularity is a matter of serious concern.

2.4.20 Late deposits of Rs. 282.073 million of Government receipts into Government treasury by HEC and earning of interest thereof – Rs. 15.289 million

Para 4.5(a) of revised Operations and Payment Manual regarding reconciliation processes states “payments reconciliation by Higher Education Commission (HEC) for funds received in sub-assignment account and onwards transferred to HEIs and Students. Disbursement by concerned Universities and withdrawal by the students. All undisbursed funds will be credited to Govt. Treasury, if not withdrawn within One Year”.

118 Higher Education Institutions (HEIs) refunded an amount of Rs. 282.073 million to HEC during the financial years 2021-23.

Audit observed that HEC retained such funds for upto 356 days before depositing them into Government treasury. The interest of Rs. 15.289 million was earned on these funds by HEC at the average KIBOR rate. Details are provided in **Annexure-V**.

Audit held that retention of unutilized funds by HEC to earn interest instead of its timely deposit into Government Treasury was irregular and the interest amount earned was recoverable.

The initial audit observation was issued on 30.08.2023. The management replied that refunds are received in small tranches from HEIs to HEC whereas, comprehensive reconciliation with the respective universities are carried out before surrendering the amount to the Government Treasury. Therefore, HEC bears responsibility of depositing the amount in the Treasury received from HEIS which is an agreed procedure with the BISP.

The reply was not acceptable as timely refund of government receipts and the reconciliation of amounts are two different activities, and government receipts cannot be withheld on the pretext of reconciliation of accounts.

The matter was discussed in the DAC meeting held on 29.11.2023. The DAC observed that according to the rules all the amounts refunded by HEIs to HEC were to be promptly deposited into government treasury. DAC directed that the matter of late deposit of Government receipts by HEC be dealt with as per applicable Federal Government rules.

Audit recommends that interest earned by HEC on government funds (similar to the cases of HEIs that have opened Saving Accounts) may be refunded into Government Treasury, besides timely deposit of refund amount in future.

{Para No.31 of AIR of BISP HQrs for the Audit Year 2023-24}

2.4.21 Irregular payments of WeT Cash transfers due to change in tagging of same Child ID with different mothers – Rs. 14.075 million

Section-III(C)(x) of the Operation Manual of Taleemi Wazaif provides that B-form will be verified through NADRA database and information available in NADRA's database will be replaced with the information provided by the beneficiary. When child B-Form is entered during enrolment, it should be verified and accepted through NADRA in real-time.

BISP disbursed an amount of Rs. 40,575 million as Taleemi Wazaif under WeT Conditional Cash Transfers program during the financial year 2022-23.

Audit observed changes in tagging of same Child ID with different mothers, in 2,312 cases, over the period of time. An amount of Rs. 12.855 million was released against such child IDs as Taleemi Wazaif under WeT Conditional Cash Transfers program. Audit further observed that against the same 435 Child IDs, funds of Rs.1.22 million were released to different mothers during the last two financial years despite verification of B-forms of these Children by NADRA.

Audit held that release of Taleemi Wazaif funds, amounting to Rs. 14.075 million, against incorrectly tagged Child IDs was irregular/doubtful.

The initial audit observation was issued on 30.08.2023. The management replied that children were enrolled in Taleemi Wazaif program on the basis of B-form duly verified by NADRA. Data provided by Audit was examined and found that all identified mothers' information was updated on their request and validated through NADRA.

The reply indicates that the management has accepted the audit observation to the extent that single child was tagged with more than one mother.

The matter was discussed in the DAC meeting held on 6.12.2023. The management informed that all identified mothers were updated on the request of children's mother and B-Form numbers of all children are duly verified by NADRA. DAC directed BISP management to take up the case with NADRA for clarification and outcome be shared with Audit authorities. DAC further directed BISP that 50 B-forms on sample basis be provided to audit authorities for verification.

Audit recommends implementing DAC decision besides recovery of incorrectly paid amounts to beneficiaries.

{Para No.14 of AIR of BISP HQrs for the Audit Year 2023-24}

2.4.22 Doubtful payment of Group Life Insurance claims to BISP beneficiaries - Rs.10 million

BISP provided Group Life Insurance (GLI) coverage to its beneficiaries under Group Life Insurance Agreement with State Life Insurance Corporation of Pakistan (SLICP) to cover the lives of

breadwinners of its beneficiaries' families since January, 2011. Under this scheme, the dependents (Widows / mothers/children) of deceased were compensated with Rs. 100,000 in case of natural or accidental death of breadwinner.

SLICP communicated to BISP that 19212 bread winners in total were paid compensation claims @ Rs 100,000 each over the contract period.

Audit observed that BISP HQ issued a reminder to the BISP Regional Office Quetta dated 22.06.2022 to expedite the verification process of GLI cases. It was noticed from the record that the BISP Regional Office Quetta verified only 155 cases who received these claims while 18 confirmed that they did not receive any claim and 82 are yet to be verified.

Details are at **Annexure-VI**.

Audit held that in the absence of verification, the authenticity of payments made could not be verified.

Initial audit observation was issued to the management of BISP Regional Office Quetta on 21.09.2023. The management replied that all concerned Deputy Directors/ Assistant Directors were directed to get verified all pending 82 Group Life Insurance (GLI) cases at the earliest. However, it would be difficult to trace them at a belated stage.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that the pending cases should be verified at the earliest and disciplinary action should be taken against the person responsible for delay in verification process.

{Para No.10 of AIR of BISP Regional Office Quetta Audit Year 2023-24}

2.4.23 Irregular cash transfers of Wheat Flour Subsidy to both spouses – Rs. 5.648 million

The Government of Sindh Food Department vide letter dated 21.03.2023 conveyed the decision of Sindh Cabinet in its meeting held on 21.03.2023 as “it was decided that approximately 7,810,482 families (preferably through women or incase women are not available than through man) with PMT score in the range upto 60, shall be eligible for cash transfer of Rs. 2000/family under the relief scheme”.

Accountant General Sindh vide authority dated 31.03.2023 deposited an amount of Rs. 12,072 million directly into BISP Shock Responsiveness Account C-3 maintained at HBL, CDA Civic Centre, G-6 Markaz, Islamabad on account of Wheat Flour Subsidy 2013.

Audit observed during scrutiny of available spouse relationship in NSER database (in most of cases NADRA validated the family relation during desk survey) maintained by BISP that in 2,824 cases, both spouses of the family were accommodated through release of Wheat Flour Subsidy cash transfer to them.

Audit held that an excess amount of Rs. 5.648 million was disbursed in violation of Sindh Cabinet decision.

BISP replied that the audit of Sindh Wheat Flour Subsidy program doesn't come under the purview of Federal Audit as the cash assistance under the programme was disbursed through funds provided by Government of Sindh and that too were directly transferred in the main account of BISP maintained by HBL for Cluster-3, without involving Federal Treasury.

The reply was not acceptable as the ineligible families were selected by the BISP management.

The matter was discussed in the DAC meeting held on 29.11.2023. The forum directed BISP management to constitute a committee for devising a mechanism for identification of spouses. Moreover, recover the amount within one month.

Audit recommends that responsibility for non-compliance be fixed besides recovery of objected amount.

{Para No.13 of AIR of BISP HQrs for the Audit Year 2023-24}

2.4.24 Irregular payment of honorarium to employees of other departments from BISP budget- Rs. 1.982 million

Clause 14(2) of Chapter VII of BISP Act, 2010 states that the Secretary shall have full powers to incur expenditure or re-appropriate funds, subject to any general or specific instructions of the Board”.

Audit observed that the management of Benazir Income Support Program paid an amount of Rs. 1,982,010 as honorarium (Rs. 1,216,600 and Rs. 765,410 to AGPR, PWD, NTC and Police department employees) @ two month's basic pay during the month of May and June-2023 are as follows:

(Rs. in millions)				
Sr. No.	Name of Department	Number of Employees	Month	Amount of Honorarium
01	NTC	02	05/2023	0.199
02	PWD (EM)	03	05/2023	0.260
03	PWD (Civil)	08	05/2023	0.655
04	Security Staff/Police	02	05/2023	0.102
05	Pak PWD & NTC	13	06/2023	0.475
06	AGPR Islamabad	04	06/2023	0.199
07	Police Security Office (CP Office)	03	06/2023	0.092
Total				1.982

Audit held as under:

- i. No general or specific instructions for payment of honorarium were given by the BISP Board.
- ii. There is no provision for Honorarium paid to other than BISP employees in the Employees Services Rules and BISP Act, 2010.
- iii. There was no proof available on record to substantiate that the above employees had not received honorarium from their own departments.

The initial audit observation was issued on 30.08.2023. The management replied that the payment was fully covered under the applicable regulatory and legal framework of BISP in terms of Section 10(d) and 14(2) of BISP Act 2010. Moreover, Regulation No.46 of BISP Financial Regulations-2018 provides that “the Secretary may make such payments as are deemed to be necessary in the interest of program in accordance with Section 10(d) and Section 14(2) of the Act.

The reply was not acceptable as there was no provision under the Employees Services Rules and BISP Act 2010 for payment of honorarium to employees other than BISP employees. Moreover, non-payment certificates/ affidavit from parent offices for such employees were not produced to audit.

The matter was discussed in the DAC meeting held on 29.11.2023. The management apprised the DAC that the government employees pointed out by Audit did not receive any amount from their respective departments. DAC directed BISP management to provide a certificate in this regard from their parent offices that no honorarium was paid to the said staff.

Audit recommends that non-payment certificate/affidavit from their parent offices should be provided to audit otherwise recovery be effected.

{Para No.13 of AIR of BISP HQrs for the Audit Year 2023-24}

2.4.25 Non-establishment of the BISP Council

Section 8 of the Benazir Income Support Programme Act, 2010, states that there shall be a Council of the Programme with the President of Pakistan as its Chief Patron and the Prime Minister as its Chief Executive. The Council shall comprise highly reputable, distinguished and well accomplished national and international individuals who shall be appointed by the Chief Patron on the advice of the Executive Patron. The Chairperson shall be the ex-officio Member of the Council.

Audit observed that the Benazir Income Support Programme Council has not been established despite lapse of 13 years.

Audit held that non-establishment of the Council was the violation of the BISP Act.

The Initial audit observation was issued on 30.08.2023. The management replied that after establishment of new Federal Government, appointment of new Chairperson and approval of Council Regulations will be put up through summary for the Prime Minister (Executive Patron) and President of Pakistan (Chief Patron).

The matter was discussed in the DAC meeting held on 06.12.2023. The management explained that efforts are being made for establishment of BISP Council, for which one of the prerequisites is approval of

draft Council Regulations. The case regarding approval of said Regulations is already under process. The DAC directed the management to pursue the matter for early establishment of BISP council and progress be shared with audit in next DAC.

Audit recommends compliance of DAC directive.

{Para No.64 of AIR of BISP HQrs for the Audit Year 2023-24}

CHAPTER 3

PAKISTAN BAIT-UL-MAL

3.1 Introduction

A. Pakistan Bait-ul-Mal (a welfare fund) established in 1992 by PBM Act, 1991 (amended 2002 & 2016) under the umbrella of Ministry of Social Welfare & Special Education. The mission of the PBM is to provide social protection to the poor and marginalized segments of the society. All the programs of Pakistan Bait-ul-Mal are funded through “Grant-in-Aid” provided by Government of Pakistan. The Pakistan Bait-ul-Mal is administered by the Board which is constituted by the Federal Government. All administrative and financial powers under the Act are exercised by the Managing Director who is appointed by the Federal Government.

According to Section 4 of PBM Act, 1991, the money in the Bait-ul-Mal shall be utilized for the following purposes:

- Provide financial assistance to destitute and needy widows, orphans, invalid, infirm and other needy persons;
- Rendering help for rehabilitation of the persons specified in clause (a) in various professions or vocations;
- Provide assistance to children of the deserving persons for educational pursuits;
- Provide residential accommodation and necessary facilities to the deserving persons;
- Provide free medical treatment to indigent sick persons and set up free hospitals, poor houses and rehabilitation centers and give financial aid to charitable institutions, including industrial homes and other educational institutions established specially for poor and needy;
- Provide stipends to educated youth during training before their employment in jobs;
- Provide stipends and financial assistance to brilliant but poor students who cannot afford to acquire higher technical or medical education abroad for lack of money;
- Sponsor and promote self-employment scheme; and
- Any other purpose approved by the Board having regard to the aims and objects of the Bait-ul-Mal.

B. Comments on Budget & Accounts (Variance Analysis)

Statement of Accounts of Bait-ul-Mal Fund for the year 2022-23 was as under:

(Rs. in millions)

Particulars	Amount
-------------	--------

Total Budget	5,905.00
Total Disbursements	5,904.98
Balance (Lapsed)	0.02

Budget of Formations Audited:

(Rs. in millions)

Sr. No.	Name of Formation	FY(s)	Receipts / Budget	Expenditure	Excess / Saving
01	PBM Provincial Office Lahore	2022-23	1,125.04	1,235.751	-111.711
02	PBM Provincial Office Multan	2022-23	587.409	629.915	-42.506
	Total		1,712.449	1,865.666	-154.217

C. Sectoral analysis on the achievements against targets agreed under MTBF

The performance indicators, targets and achievements for the FY 2022-23 by PBM is tabulated below:

Output	Selected performance indicators	Targets	Achievement
Provision of financial assistance related to health and education through Individual Financial Assistance	Number of beneficiaries of individual financial assistance general	8,000	4,391
	Number of beneficiaries of individual financial assistance medical	49,000	13,719
	Number of beneficiaries of individual financial assistance education	6,860	5,769
	No. of beneficiaries of Panagah	8,760,000	10,230,627

Table: Audit Profile of Pakistan Bait-ul-Mal

3.4 AUDIT PARAS

Irregularity and non-compliance

3.4.1 Irregular transfer of funds from Sub-Assignment Account to operational accounts – Rs. 1,370.236 million

Para 1(xv) of Asaan Assignment Account Procedure (Local Currency), 2020 state that Cash withdrawal or transfer of funds to any bank account is not allowed except employees related deductions like Pension contribution, Provident Fund and GP Fund, etc. These deductions shall be made as per Rules/Policy Guidelines/ Procedure of the relevant offices. Payment shall be made only through crossed cheque to contractors, vendors, suppliers, employees, etc.

According to para 3 (vi) and (vii) of Pakistan Bait-ul-Mal head office Islamabad letters No.PBM/A.D.(B&F)/2021-22/2827 dated 06-08-2021 and No.PBM/A.D.(B&F)/2022-23/5018 dated 25-07-2022 “Funds may not be transferred from sub-assignment account to another bank account”.

The management of Pakistan Bait-ul-Mal Provincial/Regional Office transferred funds of Rs. 1,370.236 million from the Sub-Assignment Accounts maintained with National Bank of Pakistan to commercial bank accounts during the financial year 2022-23.

Details are as follows:

(Rs. in millions)

Sr. No.	Formation Name	Para No. of AIR	Amount transferred from Assignment Account
1	PBM Provincial Office, Lahore	9	1,112.386

2	PBM Regional Office, Multan	6	257.850
	Total		1,370.236

Audit observed that the funds were transferred from the Assignment Account to operational account without the approval of Finance Division.

Audit held that transfer of funds from (sub) Assignment Account to operational accounts, to avoid the lapse of fund, was irregular and unauthorized.

The initial audit observations were issued to the management of PBM PO Lahore and Multan on 24.08.2023 and 18.09.2023 respectively. The management of PBM PO Lahore replied that no objection was raised for such a disbursement procedure by both the AGPR and the PBM Head Office. The management of PBM PO Multan replied that the amount in question was transferred to the Admin Account for further transfer into the salary accounts of the staff.

The replies were not acceptable as para 3 (vii) of Pakistan Bait-ul-Mal head office Islamabad letter No.PBM/A.D.(B&F)/2022-23/5017 dated 25-07-2022 states that “Funds may not be transferred from sub-assignment account to another bank account”.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that the funds irregularly withdrawn from Assignment Accounts should be deposited into the government treasury from now on besides taking disciplinary action against the person(s) at fault.

Note: The issue was reported earlier also in the Audit Report for the Audit Year 2022-23 vide para no. 3.4.1 having financial impact of Rs. 1,180.341 million. Recurrence of same irregularity is a matter of serious concern.

3.4.2 Non-refund of unspent balances on the account of IFA– Rs. 522.313 million

As per DAC directives dated 27.02.2020 on the Audit Report of PBM for the year 2018-19 “the entire amount recovered from hospitals be deposited in Government Treasury and record thereof be verified from audit”.

Section 23 (03) of Public Finance Management Act 2019 states that “Every grant approved by the National Assembly for financial year and every other authority or sanction issued under this Act in respect of financial year, shall lapse and cease to have any effect at the closed of that financial year.

Para 01 (iv) of the revised procedures for operation of Assignment Accounts of Federal Government states that assignment account will be part of consolidated fund. Amounts remaining unspent at the close of financial year will appear as savings under the respective budget grant surrendered in time. Unspent ceiling/balance in assignment accounts will not be carried forward in the next financial year.

The managements of Pakistan Bait-ul-Mal Provincial Office, Lahore and Multan issued funds to different hospitals and educational institutions on account of IFA (medical) and IFA (education) The hospitals and educational institutions refunded back the un-utilized amounts to Provincial Offices of Lahore and Multan as detailed below:

(Rs. in millions)

Formation Name	Para No. of AIR	FY	No. of Hospitals /Institutions	Amount refunded
PBM PO Lahore	1	2021-22	48	304.476
-do-	-do-	2022-23	45	167.021
PBM PO Multan	1	2022-23	39	50.816
Total				522.313

Audit observed that the management of Pakistan Bait-ul-Mal Lahore and Multan kept the said funds in their respective IFA Accounts and did not refund the amount of Rs.522.313 million into government treasury.

Audit held that the amount of Rs. 522.313 million was required to be refunded into government treasury as surplus balances of the respective financial year instead of keeping it into respective IFA Bank Accounts of PBM Provincial offices.

The initial audit observations were issued to the managements of PBM PO Lahore and Multan on 24.08.2023 and 18.09.2023 respectively. In response the managements in general replied that the unspent balances were utilized as per instructions/authorization of PBM Head Office, Islamabad.

The reply was not acceptable as it was a violation of section 23 (03) of Public Finance Management Act 2019.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that the refunded balances may be deposited in Govt. treasury.

Note: The issue was reported earlier also in the Audit Reports for the Audit Year 2019-20 and 2021-22 vide para no. 4.5.8 and 3.4.2 respectively having financial impact of Rs. 411.39 million. Recurrence of same irregularity is a matter of serious concern.

3.4.3 Un-authorized re-appropriation of funds - Rs. 162.38 million

According to Rule 12 of GFR, Volume-I, “A controlling officer is responsible to watch that the funds allotted to the spending units, are expended in the public interest upon the object, which the money was provided”.

Reference letter No. PBM/AD (B&F)/ 2021-22/2827 dated 06.08.2021 states that funds/ budget may not be transferred/re-appropriation from one project to another project without the approval of competent authority. The utilization of funds should be made under the project/ head for which the fund/budget is allocated and the same should be reflected in the books of Accounts.

Management of PBM PO Lahore utilized funds amounting to Rs.162.38 million during period 2021-22 against re-appropriation of funds under different head of accounts.

Audit observed that the expenditure was incurred by re-appropriation of funds without the approval of the competent authority as detailed below:

(Rs. in millions)

Sr. No.	From project	To	Amount
1	IFA Rs.3.295 million, DUEs Rs.47 million, EKBNS Rs. 112.084	SSRCL Rs.69.5 million, WECs Rs.7 million, Ehsas Kadah, Rs.12.2 million, Admn, Rs. 73.68 million.	162.38

Audit held that it reflects negligence on part of the management.

Initial audit observation was issued on 24.08.2023. The management replied that re-appropriation under different head of accounts was forwarded to PBM Head Office Islamabad for approval of competent authority, PBM Head Office conveyed approval that concerned Director is fully competent to approve the re-appropriation under major, and minor heads. In this regard the said re-appropriation has been approved for your kind verification.

The reply was not acceptable as the re-appropriation was done after the close of financial year.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that an inquiry may be initiated for fixation of responsibility.

(Para 6 of PBM PO Lahore)

3.4.4 Disbursement of Individual Financial Assistance (IFA) to Government Servants - Rs. 28.108 million

Individual Financial Assistance (IFA) policy of Pakistan Bait-ul-Mal provides that the Government servants (including those on contract and their family members are not eligible to apply for the IFA.

Employees serving in public sector organizations, corporations, autonomous bodies are also not eligible to apply.

The management of PBM issued cheques to 14,747 beneficiaries under IFA Programs during FY 2022-23.

Audit observed that the Individual Financial Assistance (IFA) was being disbursed to 176 beneficiaries amounting to Rs. 28,108,833 who were Government Employees. By providing IFA to these employees the other eligible poor person deprived from the due benefits. Details are given at **Annexure-VII**.

Audit held that IFA benefits shall be allocated to deserving persons as per policy of PBM. The management shall trace such cases through MIS by upgrading and coordination with other organizations.

The initial audit observation was issued on 28.08.2023. The management replied that PBM relies on investigation reports from the concerned Assistant Directors of relevant districts which help assess the financial status of applicants and their eligibility for assistance. Moreover, in compliance of audit observation, PBM management has requested to CGA & AGPR to provide a web interface for data sharing and cross-verification of employment status of an applicant to avoid duplication in future.

The reply was not acceptable as the verification process was carried out by PBM employees and that led to disbursement to ineligible persons.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that rules/policies/orders must be followed while disbursing the amount and a mechanism may be devised in order to avoid such a practice in future and a fact finding may be initiated against a person(s) held responsible.

{Para No. 28 of AIR of PBM HQ}

3.4.5 Non-surrender of PBM IFA Recovery/Balance at Year End

As per Para 01 (iv) of the revised procedures for operation of Assignment Accounts of Federal Government states that assignment account will be part of consolidated fund. Amounts remaining unspent at the close of financial year will appear as saving under the respective budget grant surrendered in time. Unspent ceiling/balance in assignment accounts will not be carried forward in the next financial year.

The management of Pakistan Bait-ul-Mal maintained a bank account in National Bank of Pakistan, Islamabad for recovery from IFA project and having balance of Rs. 34,816,050 as on 30.06.2022.

Audit observed that the management of PBM, Islamabad recovered an amount of Rs. 359,826,356 from different hospitals which was re-used during the Financial Year 2022-23. IFA recovery account shows a balance of Rs. 34.816 million at the close of the financial year.

Audit held that IFA recovery along with closing balance was required to be surrendered and deposited into Federal Government treasury.

The Initial audit observation was issued on 24.08.2023. The management replied that matter regarding implementation of TSA-II (Treasury Single Account System) in PBM has taken up with the Finance Division through the Poverty Alleviation and Social Safety Division vide letter No. PBM/AD (Accounts-I)/2022-23/3107 dated: 24-02-2023. The outcome of the matter was still awaited and would be shared with audit when received.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that closing balance of IFA Recovery be deposited to Government Treasury.

{Para No.9 of AIR of PBM Head Office Islamabad Audit Year 2023-24}

CHAPTER 4

MINISTRY OF OVERSEAS PAKISTANIS AND HUMAN RESOURCE DEVELOPMENT

4.1 Introduction

A. The Ministry of Overseas Pakistanis and Human Resource Development oversees matters concerning Overseas Pakistanis and human resource development in Pakistan. According to Rules of Business, 1973 following functions are assigned to allied departments/ offices:

1. National policy, planning and coordination regarding manpower development and employment promotion for intending overseas workers.
2. Preparation of short and long-term programs for manpower development and employment promotion abroad.
3. Research into problems of overseas Pakistanis; promotion and coordination of measures best suited to resolving them and motivating Pakistani citizens abroad to strengthen their links with the mother country.
4. Policy for linkages between the training of workers/labour force with the latest requirements abroad.
5. Linkage of training imparted at training institutes like National Training Bureau, Pakistan Manpower Institute, etc. with the efforts for increase in manpower export through Overseas Employment Corporation and Bureau of Emigration and Overseas Employment. This would also include close coordination and linkage with the Community Welfare Attaches abroad.
6. Welfare of Pakistani emigrants abroad and their dependents in Pakistan.
7. Periodic assessment, review and analysis of manpower resources and employment requirements overseas.
8. Administrative control of Overseas Pakistanis Foundation.
9. Special Selection Board for selection of Community Welfare Attaches for posting in Pakistan Missions abroad.
10. Administration of:
 - a) Emigration Ordinance, 1979;
 - b) Control of Employment Ordinance, 1965;
 - c) Workers Welfare Fund Ordinance, 1971;
 - d) Companies Profits (Workers Participation) Act, 1968;

e) Employees' Old Age Benefits Act, 1976 including supervision and control of the employees' old age benefits institutions.

11. Administrative control of:

a) Overseas Employment Corporation; and

b) Bureau of Emigration and Overseas Employment.

12. Foreign Employment and Emigration.

13. Administration of the Industrial Relations Act, 2012 and keeping a watch on labour legislation from international perspective, coordination of labour legislation in Pakistan and the Industrial Relations Commission.

14. Dealing and agreements with international organizations in the fields of Labour and Social Security.

B. Comments on Budget & Accounts

Statement of Receipts/ Budget allocated and expenditure for the FY(s) 2021-23 is as under:

(Rs. in millions)

S. No.	Name of Formation	FY(s)	Receipts/ Budget	Expenditure
1	EOBI HQ, Karachi (RO Faisalabad Central, Lahore South & Adj Authority at Karachi	2022-23	62,182.497	55,140.390

4.4 AUDIT PARAS

Employees' Old-age Benefits Institution

Irregularity and non-compliance

4.4.1 In-admissible Old Age Pension awarded on dubious/wrong date of births – Rs. 2,798.985 million

Section 22(1) of EOB Act states that an insured person shall entitled to a monthly old-age pension at the rate specified in the schedule. Provided that: (a) he is over sixty years of age, or fifty-five years in the case of a woman; (b) contributions in respect of him were paid for not less than fifteen years. Provided further that the age specified in clause (a) will be reduced by five years in the case of an insured person employed in the occupation of mining for at least ten years immediately preceding retirement.

EOBI disbursed an amount of Rs. 47,183 million as benefit payments to 414,234 Insured Persons (IPs) during the financial year 2022-23.

Audit observed that, in 5131 cases, old age pension (pension code 1) was awarded on invalid date of births (different from date of birth mentioned on CNIC duly validated by Bank during KYC through NADRA at the time of account opening) to make the IPs eligible for pension benefits before their entitlement for old age pension. Details of a few cases on sample basis are at **Annexure-VIII**, whereas complete details of 5132 cases were provided to the EOBI management in soft form by the audit team.

Audit held that an amount of Rs. 2,798.985 million on an average basis (Rs. 5,000 per month) was paid to such IPs over the period of time before their entitlement for old age pension with respect to age which was inadmissible and loss to the EOBI.

The initial audit observation was issued on 13.10.2023. The management replied that the EOBI had accurately processed and rightly awarded the pension cases. Moreover, 2,166 records out of 5,132 cases were before the establishment of NADRA. However, the regional offices examined 2,435 out of the 5,131 cases (47%) reported by the audit regarding inadmissible of old age pension awarded on dubious/wrong date of births. The Institution processes the cases of old age pension after the examination of copy of

CNIC/NIC, Employer's age proof certificate and copy of matric certificate (Where Applicable). The record is available for verification by Audit.

The reply was unsatisfactory as evidence in support of reply, such as a birth certificate, matriculation certificate, Service book, CNIC/NIC was not provided.

The PAO was requested to a convene DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends the matter should be investigated. Moreover, the payment of old age pension to those beneficiaries who are less than 60 and 55 years of age in cases of male and female respectively may be stopped and recovery of inadmissible amount may be effected.

{Para 2 of AIR of EOBI HQ for the Audit Year 2023-24}

4.4.2 Non-recovery of arrears of contribution – Rs. 2,475.161 million

Para No.05.11 of EOBI Operating Manual states that all the Regional Heads have been invested with the powers of Assistant Collector (Grade-1) to recover the arrears of contributions as arrears of land revenue.

EOBI collected an amount of Rs. 4,000.50 million as Contribution from Employers & Insured Persons during the financial year 2022-23.

Audit observed that, as per EOBI provided report, a sum of Rs. 2,475.161 million was outstanding against defaulting employers (after VR-8 issuance) on account of contributions for the financial year 2022-23.

Details are as follows:

(Rs. in millions)

Circle/ Region	No. of VRs	Amount
B&C-I	1481	490.389
B&C-II	655	1,101.936
B&C-III	728	882.836
Total	2864	2,475.161

Audit held that non-recovery of arrears of contribution has a loss to EOBI.

The initial audit observation was issued on 13.10.2023. The management replied that the number VR-08 issued by the B&Cs during the period was 4,184. Similarly, the amount of contribution was Rs.2,908

million instead of Rs.2,475 million. The recovery status of demands issued in the year 2022-23 from the 39 Regional Offices, were: Out of Rs. 2,908.68 million an amount of Rs. 1,096 million were recovered, Rs. 439.71 were in litigation, Rs. 14.97 million amount was reduced by courts, Rs. 8.04 million pertained to closed units and EOBI was pursuing the recovery of balance amount of Rs. 1,349.93 million vigorously.

The reply was not satisfactory as no record in support of recovery made and reasons of non-recovery was provided.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that the arrears of contribution be recovered within 60 days.

{Para 17 of AIR of EOBI HQ for the Audit Year 2023-24}

Note: The issue was reported earlier also in the Audit Reports for the Audit Year 2020-21, 2021-22 and 2022-23 vide para no. 4.5.3, 4.4.1 and 4.4.2 respectively having financial impact of Rs. 8,041.386 million. Recurrence of same irregularity is a matter of serious concern.

4.4.3 Pending recoveries from Employers - Rs. 69.347 million

Para 05.11 of EOBI Operating Manual states that all the Regional Heads have been invested with the powers of Assistant Collector (Grade-1) to recover the arrears of contributions as arrears of land revenue. The notice under Section 81 will be served. After service of notice and expiry of 15 days from the date of service of notice, the Assistant Collector should order u/s 83 for attachment and sale of moveable property of the defaulter. A copy of warrant shall be endorsed to the B&C Department, Head Office for information. If the defaulter fails to pay the dues within stipulated time, recovery thereof shall be effected as arrears of land revenue.

The management of EOBI Regional Office Faisalabad (Centre) issued demand notices under the Land Revenue Act, 1967 (W.P.ACT XVII of 1967) to 191 employers during the financial year 2022-23.

Audit observed that the management of EOBI-Regional Office Faisalabad (Centre) identified 191 employers having more employees than the registered IPs during surprise visit as a result of which 52 employers paid their due contribution. However, an amount of Rs. 69.347 was pending from the remaining employers.

Audit held that due to the non-recovery of the due amount from employers the Institution suffered a loss.

The initial audit observation was issued on 31.10.2023, however no response was received.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that recoveries should be made from the respective employers within 60 days.

{Para 8 of AIR of EOBI RO (Centre) Faisalabad}

4.4.4 Non-recovery of loss sustained by EOBI during non-updation of facilitation system – Rs. 33.527 million

According to Section 3(2) of EOBI Contribution Rules, 1976 contribution falling due at the end of the month, to which they relate, shall be paid not later than 15th of next following month.

EOBI installed a facilitation system to facilitate the Employers for payment of contribution through generation of auto voucher with a purpose to ease the process of payment, reconciliation and to maintain a track of the employer in the system including exact number of Insured Persons. EOBI fixed/locked the rate of contribution in the system @ 780 per month/per insured person during the period 2021-22 (based on minimum wages of Rs.13,000).

Audit observed, in case of, EOBI Regional Office Lahore, as under:

- i. Rate of contribution during the period 2021-22 is Rs.1,050 per month/per IP on the basis of minimum wage of Rs.17,500.
- ii. 08 Establishments having 10,348 IPs were willing to deposit contribution @ Rs.1,050 but failed due to EOBI system error.

Audit held that EOBI sustained loss of Rs.33.526 million (10,348*270*12) during 2020-21 due to non-recovery of difference accrued through facilitation system. Details are at **Annexure-IX**.

The initial audit observation was issued on 24.08.2023. The management replied that the issue related to EOBI Head Office in Karachi.

The reply was not satisfactory as the department did not address the observation raised in the audit para.

DAC in its meeting held on 28.09.2023 pended the para with the direction to the management to share progress report detailing recovery of arrears & the pendency including notices issued thereof with Audit. It further directed to expedite the matter & pursue vigorously.

Audit recommends implementation of DAC decision.

{Para 12 of AIR of EOBI RO Lahore}

Note: The issue was reported earlier also in the Audit Report for the Audit Year 2021-22 vide para no. 4.4.2 having financial impact of Rs. 1,513.517 million. Recurrence of same irregularity is a matter of serious concern.

4.4.5 Unauthenticated spouse relation in cases of survivor's benefits paid to the survivors – Rs. 20.381 million

Section 22B(2) of EOBI Act provides that in the case of the death of an insured person who had become entitled to old age pension before his death, the surviving spouse shall, if the spouse had married

the deceased person before he had attained the minimum age prescribed for old age pension, receive a life pension equal to the pension of such person.

EOBI disbursed an amount of Rs. 47,183 million as benefit payments to 414,234 Insured Persons (IPs) during the financial year 2022-23.

Audit observed, on sample basis, that survivor's benefits amounting to Rs. 20.381 million were paid to those 208 survivors during the FY 2022-23 whose spouse relation was found doubtful as matched with the CNIC of the spouses fetched by Benazir Income Support Program during survey. Details are given at **Annexure-X**.

Audit held that survivor pension paid without verification of spouse relation from NADRA was not justified and remained unauthenticated.

The initial audit observation was issued on 13.10.2023. The management replied that the regional offices examined 148 out of 208 cases (67%) pointed out by the audit. These cases were processed on the basis of survivor's CNIC, Nikah Nama and FRC issued by NADRA and record is available for verification. However, the Regional Offices have been directed to track the remaining 60 cases with the instructions to stop payment in such cases till verification of record.

The reply was not acceptable as no documentary evidence such as CNIC of beneficiary, CNIC of the spouse, Nikah Nama and FRC issued by the NADRA was provided.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that Marriage/ Family Registration Certificate duly validated from NADRA may be produced to audit for verification. Moreover, an Service Level Agreement (SLA) may be executed with NADRA for validation of family/spouse relation of all cases before granting survivor pensions.

{Para 5 of AIR of EOBI HQ}

4.4.6 Provision of more than on type of benefits awarded against same 'Link Claim Number' – Rs. 14.994 million

Section 22B(1) of EOB Act states that in the case of the death of an insured person while in insurable employment but after he had completed not less than thirty six months insurable employment, the surviving spouse, if any, shall be entitled to a life pension equal the minimum pension.

EOBI disbursed an amount of Rs. 47,183 million as benefit payments to 414,234 Insured Persons (IPs) during the financial year 2022-23.

Audit observed, on a test check basis, that two survivor pensions (pension code 5) at full rate were awarded to 294 beneficiaries by linking them with single 147 'link claim numbers', which was incorrect and unjustified.

Details are given at **Annexure-XI**.

Audit further observed that an average amount of Rs. 14.994 million was paid to such 147 beneficiaries' by incorrect linkage of their claim numbers with 'link claim numbers' of their spouses which was irregular.

Audit held that due to incorrect linkages, the chances of in-admissible pension being awarded could not be ruled out.

The initial audit observation was issued on 13.10.2023. The management replied that the regional offices had examined the cases pointed by the audit and found that 121 cases are correctly tagged linked claim numbers and 59 cases were incorrect tagged link claim numbers. The detail summary is as follows:

S. No.	Description	No. of Cases
1	Correctly tagged linked claim numbers	121
2	Incorrectly tagged linked claim numbers which are corrected by the region in the system	59
3	First time benefit case (Not Conversion Cases)	56
4	File being traced	58
Total		294

Photocopies of Processing sheets & copy of NIC/CNIC of beneficiaries were placed in file for the perusal and verification of audit authorities.

The reply was not acceptable as no supporting evidence of correctly tagged linked claim numbers and correction made was provided to audit.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that the matter may be justified and record may be corrected otherwise inquiry may be conducted to fix responsibility and amount of inadmissible pension paid may be recovered.

{Para 4 of AIR of EOBI HQ}

4.4.7 Recoverable amount against payments of benefits at excess rates to one or both wives of same Insured Person – Rs. 8.86 million

Section 22B(2) of EOB Act provides that in the case of the death of an insured person who had become entitled to old age pension before his death, the surviving spouse shall, if the spouse had married the deceased person before he had attained the minimum age prescribed for old age pension, receive a life pension equal to the pension of such person.

EOBI disbursed an amount of Rs. 18,436 million as benefit payments to survivors under pension code 05 during the financial year 2022-23.

Audit observed that benefit payments were made to one or both wives of same Insured Person under pension type "survivor pension" at unequal or excess rates. An excess amount of Rs. 8.86 million approx. was paid to such 36 survivors of 18 Insured Persons upto 30.06.2023 as detailed in **Annexure-XII**.

Audit held that the unequal or excess amount paid to the survivors was irregular and recoverable.

The initial audit observation was issued on 13.10.2023. The management replied that the Institution thoroughly examined all 36 survivors' pension cases. 04 cases (Sr. No. 12, 13, 25 & 26) of survivor pension were found to be paid at excess rate. The same were stopped and recovery was initiated. The total recoverable amount was Rs. 449,225. (04) Survivor Pension Claims at S. No. 2, 10, 18 & 36 were erroneously generated for the same widow while awarding the pension. But amounts were never disbursed to those accounts and are marked inactive since generation. (03) instances at S. No. 07, 22 & 23 of tagging of wrong Linked Claim with Survivor Claims, thus showing two widows. It has now been corrected in the system. Two (02) instances at S. No. 27 & 28 of less pension paid to the Survivors. The total Amount less paid to be disbursed is Rs. 131,750. The same will be disbursed in due course of time and accordingly intimate. All other survivor benefits payments have been awarded correctly.

The reply was not acceptable as neither the proof of the initiation of recovery nor the correction of wrong tagging was provided.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that the matter may be inquired and excess amount paid should be recovered.

{Para 1 of AIR of EOBI HQ}

4.4.8 Unjustified provision of two survivor pensions under pension code 5 to same person – Rs. 5.288 million

Section 28(1&2) of EOBI Act states that an insured person shall not be paid for the same period more than one of the benefits provided for this Act. Where an insured person is entitled to more than one benefit under this Act, he shall be given the higher of such benefits.

EOBI disbursed an amount of Rs. 18,436 million as benefit payments to survivors under pension code 05 during the financial year 2022-23.

Audit observed that 13 survivors were getting 2 survivor pensions each at a time (cut-off date is 30.06.2023), which was unjustified and irregular. An extra amount of Rs. 5.288 million on an average basis was paid to them. Details are at **Annexure-XIII**.

The initial audit observation was issued on 13.10.2023. The management replied that 13 widows were receiving 02 Survivor Pensions (26 files) out of whom 04 widows' both files (total 08 files) had been tracked. After the examination of these 08 files, it was found that three widows were getting two survivor pensions on behalf of two husbands due to remarriage before the age of superannuation. In one case (Iqbal Bibi), the beneficiary was drawing Survivor pension after her husband died vide claim no QBW11418, and also receiving Estate pension with claim no QBW12410 after death of her son, Jamil. However, the said Estate pension was awarded under code no 5 instead of code 6. The files in remaining cases (09 cases) were not traceable yet being old record and due to shifting of some files to other Regions. The regions concerned have been directed to track record with the instructions to stop payments in such cases till verification of record as per regulations.

The reply was not acceptable as no evidence in support of reply was provided to audit.

Audit recommends that the matter may be justified otherwise matter may be inquired and amount of inadmissible pension paid may be recovered.

{Para 7 of AIR of EOBI HQ}

4.4.9 Survivor pensions awarded on doubtful deaths of Insured Persons – Rs. 4.96 million

Section 22B(1-3) of EOB Act relating to Survivors' Pension states that: (1A) In case of death of an insured person, while not in insurable employment but after he had completed five years insurable employment, the surviving spouse, if any, shall be entitled to a life pension equal to the minimum pension. (2) In the case of the death of an insured person who had become entitled to old-age pension or invalidity pension before his death, the surviving spouse, shall, if the spouse had married the deceased person before he had attained the minimum age prescribed for old-age pension, receive life pension equal to the pension of such person.

EOBI disbursed an amount of Rs. 18,436 million as benefit payments to survivors under pension code 05 during the financial year 2022-23.

Audit observed, on a test check basis, that in 53 cases, survivor pensions were awarded to spouses of deceased persons whose deaths were found suspected/doubtful as matched with spouse relation in BISP survey data and their dates of opening of accounts by banks which are found after the dates of their reporting death as per EOBI record. Details are given at **Annexure-XIV**.

Audit held that payment of survivor pension amounting to Rs. 4.96 million during the financial year 2022-23 without confirmation/verification of their deaths from NADRA was doubtful.

The initial audit observation was issued on 13.10.2023. The management replied that 29 out of 53 files (55%) were examined and found that the cases were processed on the basis of copy of death certificates, issued by concerned department, along with copies of Nikah Nama and FRC as applicable. The record of 29 original files was available for verification. The files in remaining 24 cases were not traceable yet being old record. The regions concerned have been directed to track record with the instructions to stop payments in such cases till verification of record as per regulations.

The reply was not acceptable as no evidence in support of the reply was provided to the audit.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that death certificates and Family Relation certificates duly validated from NADRA may be provided to the audit for verification. Moreover, an Service Level Agreement (SLA) should be executed with NADRA for validation of death of all cases before granting survivor pensions.

{Para 6 of AIR of EOBI HQ}

4.4.10 Double payment of re-credits to pensioners due to wrong de-credits– Rs. 2.864 million

Para 5.3 of agreement between EOBI and Bank Alfalah states that EOBI shall provide to BAFL soft data electronically, containing claim numbers, names, CNIC numbers of pensioners, concerned BAFL Branches and amount to be disbursed to them every month. Para 5.5 further states that EOBI hereby absolves BAFL from any responsibility or liability in respect of any fault, delay, mistake and negligence on the part of EOBI's staff, unless the same is due to in default by BAFL, of its obligation under this agreement.

EOBI re-credited an amount of Rs. 1,854.752 million during the financial year 2022-23 as per EOBI CBA-MIS of EOBI.

Audit observed that in 68 cases, double payments of re-credits were made to the pensioners during the financial year 2022-23 due to wrong payments of double de-credits, which was not in the knowledge of EOBI as it was neither included in the recoverable statement nor found in the amount recovered in the MDA account under the description 'EOBI dup arrears cases 010223, 020223 & 030223'. Details are given at **Annexure-XV**.

Audit held that an amount of Rs. 2.864 million was excess deposited into the accounts of pensioners which needs to be recovered.

The initial audit observation was issued on 13.10.2023. The management replied that the error first occurred in a few months notably June 2022 and July 2022 whereby the BAFL pushed de-credit data in certain cases twice in successive months instead of only once which remained unnoticed. However, when it occurred during January and February, 2023, contrary to assertion in the Para, the error was identified by Internal Audit, EOBI and necessary recoveries were initiated. The payroll was now being run after checking de-credited data of previous months. As such, no such errors were reported from the month of May, 2023 onwards. It was reiterated that the reason for not appearing of twice re-credited amount in the description 'EOBI dup arrears cases 010223, 020223 & 030223' was that it was a recovery of the excess amount at the instructions of IT department of EOBI.

The reply was not acceptable as the objected cases were not provided in the list of recoverable amount identified by EOBI.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends to inquire the matter to find out reasons of double re-credit, to avoid such lapses in future besides recovery of objected amount. Moreover, since audit calculation is based on current financial year only i.e., the amounts wrongly de-credited and double recredited in the financial year 2022-23, the exact amount of excess payment to pensioners may be calculated which was wrongly de-credited in previous year(s) and double recredited in the current financial year 2022-23.

{Para 13 of AIR of EOBI HQ}

4.4.11 Loss due to delay in de-credited amount from MDA account to MIA account on daily basis – Rs. 1.486 million

Para 6 of the 3rd Supplemental to banking Services agreement signed between EOBI and Bank Alfalah dated 11.04.2023 states that “BAFL shall be responsible to transfer the de-credit amount from Main Disbursement Account (MDA) to Main Investment Account (MIA) manually on daily basis. Report of the said transfer shall be shared on the same day. Para 1 of said agreement further states that “the parties agree that with effect from 3rd August 2022, the terms of the Agreement shall stand extended for a further period of twenty-four (24) months.”

Bank Alfalah de-credited an amount of Rs. 1,036.750 million during the financial year 2022-23 as per EOBI CBA-MIS of EOBI.

Audit observed that the de-credited amount from the pensioners accounts was not transferred by Bank Alfalah from MDA account (Interest Free Account) to MIA account on daily basis during the period from 03.08.2022 to 30.06.2023. Details are at **Annexure-XVI**.

Audit held that delay in transfer of de-credited amount from MDA to MIA was a violation of agreement and resulted in loss of interest to EOBI amounting to Rs. 1.486 million.

The initial audit observation was issued on 13.10.2023. The management replied that the bank did not transfer the amount of De-credit from MDA to MIA account as per the agreement on daily basis which caused loss of interest to EOBI. The matter has already been reported to the bank and requested to clarify the observation of Government audit and refund the amount of interest to MIA account at the earliest.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends to calculate the exact delayed amount and recovery of interest amount thereof.

{Para 41 of AIR of EOBI HQ}

Note: The issue was reported earlier also in the Audit Report for the Audit Year 2021-22 vide para no. 4.4.4 having financial impact of Rs. 870.734 million. Recurrence of same irregularity is a matter of serious concern.

4.4.12 Conflict of Interest due to presence of employees of EOBI as members of sub-committees of Board of Trustees (BoT)

Rule 5 of the Prevention and Management of Conflict of Interest Act, 2017 states that a Public Servant shall not render advice or make a decision or participate in the making of a decision related to the exercise of an official power, duty or function if such person knows, or reasonably should know, that, in the rendering of such advice or making of such decision, he would be in a conflict of interest or apparent conflict of interest.

The Board of Trustees (BoT) of EOBI constituted its sub-committees over the period of time to perform the specified role. The committees include HR Committee, Investment Committee, Fixed Income Committee and Audit Committee.

Audit observed presence of employees of EOBI in such sub-committees as members instead of secretary/convener.

Audit held that employees of EOBI were part of management and the BoT and sub-committees were the overseeing authorities over the activities performed by the management, so the presence of employees in sub-committees as members was a conflict of interest. Moreover, such employees of EOBI also got meeting attending fees @ Rs. 25,000 per meeting amounting to Rs. 1.7 million during the year, which was an extra burden on EOBI exchequer.

The initial audit observation was issued on 13.10.2023. The management replied that sub-committees are constituted by the Board on the recommendation of President who is Federal Secretary Ministry of OP&HRD. The Director-General level officers, who are Civil Servants and not the employees of EOBI, are included as members in these sub-committees. Except HR committee the departmental representative i.e., employees of EOBI (below the rank of DGs) are included as Secretaries who are not the members of these sub-committees. Hence, there is no conflict of interest. However, the observation of Audit upto the extent of the HR committee was duly noted and will be placed before the Board for their advice/rectification, if deemed fit.

The reply was not acceptable as the civil servants on deputation at the disposal of EOBI were serving as employees of EOBI.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that presence of employees of EOBI in sub committees as members and drawing benefits thereof should be reconsidered and sub committees be reconstituted as per spirit of the Prevention and Management of Conflict of Interest Act, 2017.

{Para 42 of AIR of EOBI HQ}

Pakistan Real Estate Investment & Management Company (Pvt) Limited (PRIMACO)

Irregularity and non-compliance

4.4.13 Non-encashment of bank and performance guarantees/non-recovery of mobilization advance - Rs. 1,077.343 million

In 80th BoD meeting which was held in 22 November, 2021, it was unanimously decided that since M/s Mughals Pakistan Pvt. Ltd, the Contractor of Hotel Project & Business complex at Lahore has neither submitted a request for further extension of time nor fulfilled the contractual obligations, therefore, no extension of time (EOT) be granted and the contract stands expired with effect from 22nd October, 2021. The Board further resolved that PRIMACO management shall encash the financial guarantees (bank guarantees for mobilization advance & performance guarantees) after proper homework & analysis of the relevant documents from all angles so as to ensure their successful encashment in a timely manner. The

Board also resolved that necessary liquidated damages be imposed on the contractor as per relevant contract clauses.

Pakistan Real Estate Investment & Management Company (PRIMACO) obtained bank guarantees against mobilization advance amounting to Rs. 714.972 million from M/s Mughal Pakistan (Pvt.) Ltd. along with performance guarantee from United Insurance Company amounting to Rs. 362.371 million for the construction of EOBI Hotel & Business Complex Project at Lahore as per detail given below:

(Rs. in millions)

Sr. No.	Bank	Guarantee No.	Expiry	Amount
1	Habib Metropolitan Bank Ltd.	HMBL/LG/2/46/1500309/2021	19.12.2021	360.507
2	Askari Bank Ltd.	2011LG20004012	21.12.2021	354.466
3	United Insurance Co. of Pakistan Ltd.	UIC/D/P003/0000101631/0520 /117	19.08.2022	362.371
Total				1,077.343

Audit observed that despite lapse of 20 months since the BoD decision, the management of PRIMACO failed to recover mobilization advance and encashment of bank guarantees and performance guarantee. The management had not imposed any liquidated damages on the contractor till close of audit.

The initial audit observation was issued on 28.08.2023. The management replied that the matter was pending in litigation and PRIMACO was contesting both cases in court of law.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that necessary action may be taken for early recovery from the contractor.

{Para 20 of AIR of PRIMACO for the year 2022-23}

Workers Welfare Fund Islamabad

Irregularity and non-compliance

4.4.14 Non-deduction of Income Tax at Source on the fee paid directly to the Institutes by Worker Welfare Fund – Rs. 26.780 million

Section 47 of Income Tax Ordinance, 2001 states that any scholarship granted to a person to meet the cost of the person's education shall be exempt from tax under this Ordinance, other than where the scholarship is paid directly or indirectly by an associate. As per withholding Income tax Regime guidelines, the rate of Income tax is 05% of the amount of services rendered.

Worker Welfare Fund Islamabad released an amount of Rs. 363.243 million directly to educational Institutes during the financial year 2022-23 on account of workers' and Employees of WWF children education fee.

Audit observed that income tax at source amounting to Rs. 26.780 at the rate of 05% was not deducted by WWF from the service charges paid to the Institutes as fees of the students studying in such Institutes.

Detaila are as follows:

(Rs. in millions)

Sr. No.	Nature of Payment	Total Fee Paid	Income tax deduction @ 5%
01	Worker's children payment under Payment	133.669	6.683
02	Worker's children payment Post Payment	190.990	9.550
03	Panel School Payment	179.868	8.993
04	Employees children payment	31.065	1.553
	Total	535.593	26.780

Audit held that non-deduction of income tax from payments made to Institutes resulted in loss to government revenues.

The initial audit observation was issued on 25.09.2023. The management replied that withholding tax is being deducted from the bills submitted by the educational institutes directly to WWF, except for those institutes which are exempted from withholding tax. However, withholding tax cannot be deducted from fee challans submitted by the workers / employees of WWF in which payments are being made on case to case basis. Educational institutes deposit withholding tax directly to FBR.

The reply was not acceptable as no evidence / document for deduction and deposit of income tax was available.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that income tax may be recovered and deposited into Govt. treasury.

{Para No. 14 of AIR of WWF Islamabad for the Audit Year 2022-23}

4.4.15 Placing of un-registered school on panel of WWF and payment of Fee and other charges without verification of 'Workers' - Rs. 19.463 million

Eligibility criteria for institution and student of Worker Welfare Board approved by Governing body from time to time provide that Educational Institution means: (i) Cadet Colleges/Public Schools being run by the Federal or a Provincial Government. (ii) All Public and private colleges recognized by the Federal/ Provincial Government. (iii) All Public/Private Universities Colleges recognized by the HEC. (iv) All engineering colleges universities registered with HEC as well as PEC.

Worker Welfare Fund Islamabad made payment of Rs. 172.140 million during the financial year 2022-23 to certain private educational institutes on account of tuition fee, hostel messing, transport and stipend charges. Six Schools remained on the panel of WWF and their claims were directly received in WWF Secretariat and payment thereof was made directly to these schools.

A sum of Rs. 19.463 million was paid to School of Excellence Islamabad from Workers Welfare Fund Islamabad on account of fee and other charges. Audit observed that this institute was not recognized/ registered with Private Educational Institutes Regularity Authority (PEIRA). Furthermore, the status of Workers against whom the payment was made was also not verified by the management of Fund.

Audit held that undue favour was given to the school and payment made to school was not justified.

The initial audit observation was issued on 25.09.2023. The management replied that competent authority had constituted a fact finding committee to probe into the irregularities / discrepancies in payments made to M/s Allied School and International School of Excellence. The outcome of report should be forwarded to Audit Section as and when received.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends to inquire the matter for fixation of responsibility against person(s) responsible beside verification of all payments and status of workers.

{Para No. 27 of AIR of WWF Islamabad for the Audit Year 2022-23}

4.4.16 Payment of Gratuity in addition to Contributory Provident Fund (CPF) – Rs. 4.707 million

Finance Division Office Memorandum No.F.15(3)R-14/84 dated 16.10.1984 states that the payment of 'gratuity' cannot, therefore, be made part of the CPF Scheme, and as such it should not be paid in addition to CP Fund contribution. All such autonomous/Semi-autonomous bodies and corporations etc.

under the administrative control of ministries/divisions, where the pension scheme does not exist that the payment of 'gratuity' in addition to Contributory Provident Fund is not allowed to their employee on quitting the service.

Worker Welfare Fund, Islamabad adopted both schemes i.e., payment of Gratuity and Contributory Provident Fund.

Audit observed that the Workers Welfare Fund paid an amount of Rs. 4.707 million as Gratuity and Rs. 8.467 million as Contributory Provident Fund to its employee, namely Mr. Arshad Mehmood Ex-Computer Programmer during financial year 2022-23.

Audit held that the payment of Gratuity in addition to Contributory Provident Fund was irregular.

The initial audit observation was issued on 25.09.2023. The management replied that the WWF (Employees Service) Rules, 1997, duly notified by the Ministry of Labour, Manpower and Overseas Pakistanis have due concurrence of Establishment and Finance Division vide Notification No. S.R.O.1193 (I) 97 dated 15.11.1997. The Rules ibid has existence of CP Fund and Gratuity in Chapter-15 and 17 of the rules.

The reply was not considerable as the payment was made in violation of the instructions issued by Finance Division.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends seeking clarification from Finance Division, besides discontinuation of the additional stream of CP Fund.

Note: The issue was reported earlier also in the Audit Reports for the Audit Year 2021-22 vide para no. 4.4.18 having financial impact of Rs. 7.733 million. Recurrence of same irregularity is a matter of serious concern.

{Para No. 02 of AIR of WWF Islamabad for the Audit Year 2022-23}

4.4.17 Loss to WWF due to theft of VTIs Assets - Rs. 3.523 million

Governing Body of WWF, Islamabad in its 149th meeting (agenda item no.2) held on 27-07-2021 decided to confirm the transfer/ handing over of four vocational institutes to Punjab and one to Khyber Pakhtunkhwa.

Workers Welfare Fund operated four Vocational Training Institutes in different cities of Punjab. The Institutes are non-functional since many years.

Audit observed that Assets of Workers Welfare Fund valuing Rs. 3.523 million were found stolen from VTI Jhang (Boys) which results in loss to Workers Welfare Fund^[d2].

Audit held that loss to the Fund established for the welfare of Workers was not justified resulting in loss to government.

The initial audit observation was issued on 25.09.2023. The management replied that FIR was lodged by the department in connection with the theft incident. The same was being pursued with the police department for recovery of the lost assets.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends for inquiry for fixation of responsibility against person(s) responsible besides recovery of amount.

{Para No. 11 of AIR of WWF Islamabad for the Audit Year 2022-23}

4.4.18 Irregular and un-justified payments to school on account of fee beyond registration- Rs. 3.330 million

Eligibility criteria for institution and student of Worker Welfare Board approved by Governing body from time to time provides that Educational Institution means: (i) Cadet Colleges/Public Schools being run by the Federal or a Provincial Government. (ii) All Public and private colleges recognized by the Federal Provincial Government. (iii) All Public/Private Universities Colleges recognized by the HEC. (iv) All engineering colleges universities registered with HEC as well as PEC.

Worker Welfare Fund Islamabad made payment of Rs. 22.00 million to M/s Al-Kaiynaat School on account of tuition fees, transport and stipend charges etc. during the financial years 2021-23. The school was provisionally registered with PEIRA upto middle level (class i to viii).

Audit observed that a sum of Rs. 3.330 million was paid to M/s Al-Kaiynaat School on account of tuition fee and transport charges etc. against students claimed by the institution studying in class 9th and 10th.

Detail is at **Annexure-XVII**.

Audit held that the amount paid against the students studying in classes beyond the registered level was unjustified.

The initial audit observation was issued on 25.09.2023. The management replied that a fact-finding committee has been constituted by the competent authority to probe into the irregularities / discrepancies in payments made to M/s Al- Kaiynat school. The outcome of report shall be forwarded to Audit as and when received.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends inquiring the matter for fixation of responsibility against person(s) at fault besides recovery of amount.

{Para No. 17 of AIR of WWF Islamabad for the Audit Year 2022-23}

Worker Welfare Board Khyber Pakhtunkhwa

Irregularity and non-compliance

4.4.19 Loss due to non-lending of vacant floors of WWB Khyber Pakhtunkhwa Building located at Phase-V Hayatabad Peshawar- Rs. 28.317 million

Section 11-C (a)(i) of the Workers Welfare Ordinance, 1971 provides that, a Board, for discharge of its functions under this ordinance, shall as soon as may be after its constitution, make and carry into effect a scheme regulating or providing for the regulation of matters connected with allotment, cancellation of allotment and fixation of rent of the houses financed by the money allocated from the Fund, and their maintenance and repairs.

The office of Workers Welfare Board, Khyber Pakhtunkhwa shifted in the newly constructed building at Phase-5 Hayatabad Peshawar on 01.10.2021.

Audit observed that the space of the building allocated for rental purposes was not rented out by WWB Peshawar till the close of financial year 2021-22. Details are as follows:

Project/Building	Floor	Area Occupied	Vacant area
WWB KPK Office Building located at Phase-V Hayatabad Peshawar	2 nd Floor	Vacant	23,306
	3 rd Floor	Vacant	23,306
	4 th Floor	11,653	11,653
	5 th Floor	11,653	11,653
Total vacant area			69,918
Loss=69,918*45=3,146,310*09 months (01.10.2021 to 30.06.2022)			28,316,790

Audit held that non-renting out of vacant space resulted in loss of Rs. 28.317 million to the WWB Peshawar.

The initial audit observation was issued on 27.03.2023. The management replied that efforts were being made to rent out the vacant floor to the public sector organization in the light of the KP Workers Welfare Board, Peshawar and the space of 5th floor consisting of 11653 sft covered areas @ Rs. 45 per sft Rs. 524,385 per month was rented out w.e.f 01.11.2022.

DAC meeting was held on 15.08.2023. The forum directed the management to complete the due course of action under PPRA rules 2004 within three months for allotment of vacant floors of the WWB's building.

No further progress was reported till the finalization of Audit Report.

Audit recommends pursuing the matter vigorously for early lending out of building allocated for rental purposes.

{Para 4 of WWB Peshawar for the Audit Year 2022-23}

4.4.20 Non-deduction of Income Tax at source on account of tuition fee paid directly to the Universities– Rs. 21.795 million

Section 47 of Income Tax Ordinance 2001, states that any scholarship granted to a person to meet the cost of the person's education shall be exempt from tax under this Ordinance, other than where the scholarship is paid directly or indirectly by an associate. Furthermore, as per withholding Income tax Regime guidelines amended from time to time through Finance Act, the rate of Income tax is 06% of the amount of services rendered.

Worker Welfare Board Khyber Pakhtunkhwa Peshawar released an amount of Rs. 363.243 million directly to 46 universities/colleges during the financial year 2021-22 on account of worker's children education fee.

Audit observed that income tax at source @ 6% amounting to Rs. 21.794 million was not deducted by WWB from the service charges paid to the universities against fees of the students.

Audit held that non-deduction of income tax at source was loss to the Government exchequer.

The initial audit observation was issued on 27.03.2023. The management replied that payment of scholarship to the students is being made to the concerned universities / colleges on account of actual expenditure incurred on the education of the workers children. According to the Section 47 of Income Tax Ordinance 2001 any scholarship granted to a person to meet the cost of the person's education shall be exempt from tax, other than where the scholarship is paid directly or indirectly by an associate.

DAC meeting was held on 15.08.2023. The DAC directed the management to produce exemption certificates, to be obtained from universities concerned, to Audit within one-month time. In case no exemption certificate is provided by any of the university, the amount of income tax be deducted / adjusted from future payments / claims of the university (s).

Audit recommends early compliance of DAC directive.

{Para 1 of WWB Peshawar for the Audit Year 2022-23}

4.4.21 Non-deposit of deducted Income Tax to tax authorities resulting in loss on account of surcharge and double payment of withholding tax – Rs. 12.274 million

Withholding Income Tax Regime guidelines amended from time to time through Finance Acts, provides that the time of deposit of Income tax deducted at source is, in cases other than Federal/Provincial Government is within 7 days from the end of each week ending on every Sunday.

Worker Welfare Board account bearing number 001309305005 maintained at Bank of Khyber showed a debit amount of Rs. 16.335 million without any cheque number and voucher.

Audit observed that the amount of Rs. 16.335 million was deducted by tax authorities on 23.11.2021 through Banker Cheque in lieu of non-deposit of Income tax deducted at source by management of Worker Welfare Board Peshawar during the financial years 2013 to 2016.

Audit held that WWB Peshawar had suffered a loss of Rs. 12.274 million due to non-deposit of income tax at source by the management as the debited amount of Rs. 16.335 million included:

- i. Surcharge of 5.370 million which was imposed by tax authorities.
- ii. An amount of Rs. 6.904 million which was paid/returned by WWB to the universities against withholding tax before the withdrawal of amount by tax authorities through banker cheque.

The initial audit observation was issued on 27.03.2023. The management replied that KP WWB has already taken notice by conducting the inquiry to carry out fact finding of the issue and to nominate the person at fault vide letter N. WWB /1-11/6007-11 dated 30.12.2021. The outcome of the inquiry will be shared with audit.

DAC meeting was held on 15.08.2023. The DAC pended the para with the direction to the management to finalize the fact finding within 15 days and share the report with Audit. It further directed to take up the matter with FBR for recovery of surcharge amount.

Audit recommends implementation of DAC decision.

{Para 2 of WWB Peshawar for the Audit Year 2022-23}

4.4.22 Payment of gratuity in addition to Contributory Provident Fund (CPF) – Rs. 8.440 million

Finance Division Office Memorandum No.F.15(3)R-14/84 dated 16.10.1984 states that the payment of ‘gratuity’ cannot, therefore, be made part of the CPF Scheme, and as such it should not be paid in addition to CP Fund contribution. All such autonomous/Semi-autonomous bodies and corporations etc. under the administrative control of ministries/divisions, where the pension scheme does not exist that the payment of ‘gratuity’ in addition to contributory provident fund is not allowed to their employee on their quitting the service.

Worker Welfare Board, Khyber Pakhtunkhwa Peshawar adopted both schemes i.e., payment of Gratuity and Contributory Provident Fund.

Audit observed that WWB paid an amount of Rs. 9.562 million as Gratuity and Rs 8.440 million as Contributory Provident Fund during the financial year 2021-22 to its employees as detailed below:

(Rs. in millions)

S.No	Name of Employees	Gratuity Amount	CPF Amount
1	Bakht Bibi	0.4686	0.4907
2	Zahid Hussain	0.5052	0.4358

3	Akbar Dad	0.4058	0.3985
4	Amanullah	0.2832	0.1236
5	Awal Hayat	0.5808	0.5826
6	Naeema Begum	0.3217	0.2766
7	Noor Zada	0.6284	0.7587
8	Razia Begum	2.0421	3.0636
9	Sajjad ul Haq	2.5203	0.4142
10	M Nazakat	0.4945	0.5369
11	Qaiser Shah	0.3086	0.3137
12	Niaz Muhammad	0.4324	0.4620
13	Rahim Qasim	0.5698	0.5830
	Total	9.5615	8.4401

Audit held that the payment of Gratuity in addition to Contributory Provident Fund was irregular.

Initial audit observation was issued on 27.03.2023. The management replied that the employees of KP WWB had no pension facility and Contribution Provident Fund and Gratuity was being paid to the employees of Workers Welfare Board, Peshawar in the light Workers Welfare Fund Employees Service Rules 1997 duly approved by the Governing Body, hence there is no irregularity involved.

DAC meeting was held on 15.08.2023. The DAC pended the para and decided to link the fate of para with that of similar para highlighted in the AIR 2022-23 related to Workers Welfare Fund vide DAC meeting dated 18.01.2023. It was decided that the opinion from Finance Division for WWF would equally be applicable on all other Boards including KP WWB.

Audit recommends seeking an early clarification from Finance Division, besides discontinuation of the additional stream of CP Fund.

{Para 12 of WWB Peshawar for the Audit Year 2022-23}

Note: The issue was reported earlier also in the Audit Report for the Audit Year 2021-22 vide para no. 4.4.26 having financial impact of Rs. 6.260 million. Recurrence of same irregularity is a matter of serious concern.

4.4.23 Payment of scholarships to the dependents of government employees – Rs. 7.114 million

Eligibility criteria for disbursement of welfare measures out of Worker Welfare Fund provides that the worker must be covered under definition of workman as prescribed in Industrial Relations Act (IRA). Minimum three years cumulative service is required to avail education facility.

Worker Welfare Board, Khyber Pakhtunkhwa, Peshawar released an amount of Rs. 7.114 million on account of stipend and fees against the names of 22 students during the financial year 2021-22.

Audit observed that the said payments were made to the dependents of government employees, which was not justified. Details are at **Annexure-XVIII**.

Audit held that the payment of welfare measures to the dependent of government employees was irregular and created doubt about their status as workman under the rules.

The initial audit observation was issued on 27.03.2023. The management replied that the name mentioned in audit para and their units were covered in the SOPs approved the Workers Welfare Fund, Islamabad. There are a number of scrutiny process involved and after completing all the pre-requisite and approval of the committee and subsequent approval of the Competent Authority (Chairman, WWB), the payment of scholarship is released to the concerned eligible students through their concerned universities / colleges.

DAC meeting held on 15.08.2023. The DAC pended the para with the direction to the management to ascertain that there is no overlapping period of government service viz-a-viz factory worker period.

Audit recommends that eligibility of the objected workers be re-determined and appropriate action be taken accordingly.

{Para 22 of WWB Peshawar for the Audit Year 2022-23}

4.4.24 Irregular maintenance of ten (10) Banks Accounts instead of Treasury Single Account by WWB KPK

Section 30 (02) (d) of Chapter-V of Public Finance Management Act, 2019 provides for placement of all public moneys into the treasury single accounts.

Further, Section 2(s) of Public Finance Management Act, 2019 provides that "public moneys" mean the moneys forming part of the Federal Consolidated Fund and the Public Account of the Federation.

The management of Worker Welfare Board, Peshawar maintained ten (10) Bank accounts in Bank of Khyber (BoK) and United Bank Limited (HBL).

Audit observed that Worker Welfare Board did not operated with one single treasury account as per the directions of Finance Division.

Details are as follows:

S. No.	Name of Bank	Account No	Nature
01	BoK Saddar Road Peshawar 0013	SDA-1823-00-01	DOE Education
02	-do-	1320303001	DOE CPF Account
03	-do-	1192	Establishment Acc.

04	-do-	8985-04	Dev Account
05	-do-	09282-00-07	Main Receipt Acc.
06	-do-	11049-003	Welfare Account
07	UBL Tahkhal Payan Peshawar	000244304366	CPF Saving Account
08	-do-	000246468983	Security Account
09	BOK Saddar Road Branch	9373006	Technical Education
10	-do-	001309305005	Scholarship Account

Audit held that operating 10 bank accounts, instead of one single account, without concurrence of the Finance Division was irregular.

The initial audit observation was issued on 27.03.2023. The management replied that it is maintaining single bank account in the BoK being a Provincial Government entity where the main Collection Accounts are maintained in the name of Secretary Labour / Chairman, WWB. All the funds are received from the Workers Welfare Fund, Islamabad in the said account and similarly the internal receipts from the KP WWB, Peshawar are also received in the same bank account from where the funds are released to the other expenditure account maintained in the same bank.

DAC meeting held on 15.08.2023. The DAC pended the para and directed the management to seek opinion of Finance Division in the matter through Workers Welfare Fund.

Audit recommends that instructions of Finance Division may be complied with.

{Para 24 of WWB Peshawar for the Audit Year 2022-23}

Punjab Workers Welfare Board

Irregularity and non-compliance

4.4.25 Payment of gratuity in addition to Contributory Provident Fund (CPF) - Rs. 7.602 million

Finance Division Office Memorandum No.F.15(3)R-14/84 dated 16.10.1984 states that the payment of 'gratuity' cannot, therefore, be made part of the CPF Scheme, and as such it should not be paid in addition to CP Fund contribution. All such autonomous/Semi-autonomous bodies and corporations etc. under the administrative control of ministries/divisions, where the pension scheme does not exist that the

payment of 'gratuity' in addition to contributory provident fund is not allowed to their employee on their quitting the service.

Punjab Workers Welfare Fund, Lahore adopted both schemes i.e., payment of Gratuity and Contributory Provident Fund.

Audit observed that Punjab WWB, during the financial year 2022-23, paid a sum of Rs. 7.602 million as Gratuity and Rs. 3.826 million as Contributory Provident Fund to its employees as detailed below:

(Rs. in millions)

Sr #	Name of Employee	Gratuity Payment	CP Fund Payment	Total Payment
1	Mr. M. Hanif	2.577	0.993	3.57
2	Waris Ali	4.789	0.066	4.855
3	Ijaz ur rehman	0	2.671	2.671
4	Abdul Rehman	0	0.096	0.096
5	Khalid Pervaiz	0.236	0	0.236
Total		7.602	3.826	11.428

Audit held that payment of Gratuity in addition to Contributory Provident Fund was irregular.

The initial audit observation was issued on 24.08.2023. The management replied that accounting procedure is in process and expected to be approved in due course of time from Finance Department, Punjab.

DAC meeting was held on 28.09.2023. The forum pended the para and directed the management to expedite and take following steps in the matter:

- i. Appointment of Fund Manager/constitution of Investment Committee.
- ii. Formulation of Investment Rules/Policy.
- iii. Preparation of Accounts Manual & Audited Annual Accounts.
- iv. Regular audit of annual account.

Audit recommends seeking an early clarification from Finance Division, besides discontinuation of the additional stream of CP Fund.

{Para No.05 of AIR of Punjab Workers Welfare Fund Lahore Audit Year 2023-24}

Note: The issue was reported earlier also in the Audit Reports for the Audit Year 2021-22 vide para no. 4.4.29 having financial impact of Rs. 4.325 million. Recurrence of same irregularity is a matter of serious concern.

4.4.26 Loss to Punjab Workers Welfare Fund due to subletting of complex by lessee without permission - Rs. 1.20 million

Clause 11 of Lease agreement between Ministry of Science and Technology, Government of the Pakistan and Punjab Worker Welfare Board, Lahore dated 14th September, 2001, states that the lessee shall not sublet or assign the complex or any of its portion etc. without prior written consent of the lessor.

The Punjab Workers Welfare Board entered into lease agreement with the Information Technology and Telecommunication Division on 14th September, 2001 for twenty years lease of its property known as M.A Jinnah Technical Institute, Raiwind Road Lahore.

Audit observed that the lessee had subletted the portion of property to Habib Bank Limited (HBL) to open bank branch without prior permission of Lessor.

Audit held that Punjab Workers Welfare Fund did not claim the rental income from bank and canteen premises and sustained loss of approximately Rs. 1.2 million during 2022-23.

The initial audit observation was issued on 24.08.2023. The management replied that Punjab Workers Welfare Fund had taken up the matter with the management of COMSATS University Islamabad, Lahore Campus, Lahore vide letter dated 07.09.2023.

DAC meeting was held on 28.09.2023. The DAC pended the para with the direction to make recovery from Lessee within a month.

Audit recommends early compliance of DAC directive.

{Para 11 of AIR of Punjab WWB for the Audit Year 2022-23}

Workers Welfare Board Balochistan

Irregularity and non-compliance

4.4.27 Non-recovery of amount on account of sale of Plots / Quarters in labour colonies - Rs. 39.889 million

Rule-23 of GFR states that every government officer should realize fully and clearly that he will be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

Workers Welfare Board Balochistan Quetta had sold 1404 houses / flats on installments during previous years.

Audit observed that the management of Workers Welfare Board Balochistan failed to collect due installments from the allottees and a sum of Rs. 39.892 million was due, however the same could not be recovered. Details are as follows:

(Rs. in millions)

Sr. No	Name of colony	Amount outstanding
1	Workers City Quetta By Pass	7.101
2	Labour Colony Bypass	0.760
3	Workers City Hub	22.725
4	Labour Colony Dukki	1.432
5	Labour Colony Khuzdar	1.256
6	Old Workers City Nava Killi	1.985
7	New Workers City Nava Killi	3.251
8	New Labour Colony Loralai	1.094
9	Old Labour Colony Loralai	0.288
Total		39.892

Audit held that non recovery of outstanding amount resulted in loss to Workers Welfare Board.

The initial audit observation was issued on 06.10.2023. The management replied that against an amount of Rs. 39,889,840 on account of recovery against the allottees of above labour colonies, a sum of Rs. 2,921,538 has been recovered during the period of 01/07/2023 to 30/09/2023. Notices are regularly served to defaulters (individually) after every quarter, however, efforts will be more accelerated for early recovery of outstanding amount within shortest possible time.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that the outstanding amount may be recovered from defaulters.

Note: The issue was reported earlier also in the Audit Report for the Audit Year 2021-22 vide para no. 4.4.31 having financial impact of Rs. 48.517 million. Recurrence of same issue / irregularity is a matter of serious concern.

{Para No. 7 of AIR of WWB Balochistan for the Audit Year 2022-23}

4.4.28 Irregular hiring of security services without open competition and tendering - Rs. 19.411 million

Rule 12 of Public Procurement Rules, 2004 provides that procurement over Five hundred thousand Pakistani Rupees and up to the limit of Three million Pakistani Rupees shall be advertised on the Authority’s website in the manner and format specified by regulation by the Authority from time to time. These procurement opportunities may also be advertised in print media, if deemed necessary by the procuring agency. Provided that the lower financial limit for advertisement on Authority’s website for open competitive bidding shall be the prescribed financial limit for request for quotations under clause (b) of rule 42.

Workers Welfare Board Balochistan, Quetta hired services of M/s Silver Arrows for security of WWB Head Office and 12 Workers Model Higher Secondary Schools for the financial year 2022-23.

Audit observed that security services amounting to Rs. 19.411 million were hired through quotations instead of inviting open tenders for obtaining most competitive rates.

Audit further observed that Income Tax @ 6% amounting to Rs. 1.079 million was not also deducted from the firm. Details of payment made during the financial years 2021-23 are as follows:

(Rs. in millions)

Sr. No	Year	Amount
1	Head Office 2022-23	1.421
2	Schools 2021-23	17.990
	Total	19.411

Audit held that procurement by avoiding open tender negated healthy and fair competition and resulted in loss to government. Moreover, non-deduction of Income tax was loss to the govt. exchequer.

The initial audit observation was issued on 06.10.2023. The management replied that quotations among reputed firms were invited and most competitive and advantageous rate of M/s Silver Arrow Security Services (Pvt.) Ltd was approved at Rs. 26,600 per school for a period of three months. This rate

includes the wages fixed by government plus tax and company's profit. No other extra charges were included in it.

The reply was not acceptable as the services of security firm were hired without calling open tender.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that inquiry be conducted for fixation of responsibility against person(s) at fault.

{Para No. 12 of AIR of WWB Balochistan for the Audit Year 2022-23}

4.4.29 Purchase of uniform and notebooks without calling open tender - Rs 19.241 million

Rule 12 of Public Procurement Rules, 2004 provides that procurement over Five hundred thousand Pakistani Rupees and up to the limit of Three million Pakistani Rupees shall be advertised on the Authority's website in the manner and format specified by regulation by the Authority from time to time. These procurement opportunities may also be advertised in print media, if deemed necessary by the procuring agency. Provided that the lower financial limit for advertisement on Authority's website for open competitive bidding shall be the prescribed financial limit for request for quotations under clause (b) of rule 42.

Workers Welfare Board Balochistan procured uniform items and notebooks amounting to Rs. 14.521 million and Rs. 4.720 respectively during financial year 2021-22.

Audit observed that procurement was made through quotations instead of inviting open tenders for obtaining most competitive rates.

Audit held that procurement made without calling open tenders and without preparation of annual procurement plan was mis-procurement.

The initial audit observation was issued on 06.10.2023. The management replied that in the open tendering procedure nearly 40 to 45 days are involved for advertisement in the press/PPRA website and processing the offers and obtaining the approval. To avoid wastage of precious time of the students, the method of inviting quotations after exploring the market, was adopted and lowest/economical rates were considered. Had the office adopted open tendering process, the academic session of the students would have been delayed in completing all the procedure mentioned above.

The reply was not acceptable as violation of PPRA Rules was accepted.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that inquiry be conducted for fixation of responsibility against person (s) responsible.

{Para No. 11 & 17 of AIR of WWB Balochistan for the Audit Year 2022-23}

4.4.30 Doubtful payments to employees on account of salaries without any record of appointment and joining of duty- Rs 13.521 million

In terms of Rule-23 of GFR Vol-I, every government officer should realize fully and clearly that he will be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

Audit observed from the record of salaries paid to employees of WWB that in the month of March 2022 and onward certain new employees were entered in the payroll and their salaries were started thereon, however no record of appointments was available with the management. A sum of Rs. 13.521 million was drawn by these persons as salaries during the financial year 2021-23. Details are at **Annexure-XIX**.

Audit held that inclusion of employees in Payroll and start of salaries without any availability of record relating appointment etc. made the whole process doubtful.

The initial audit observation was issued on 06.10.2023. The management replied that appointment letters and duty arrival reports of all the new officers and officials listed in the pay roll were available. The same were not provided during audit because the relevant files were not readily available at the time of audit. Now the relevant record could be verified.

The reply was not acceptable as no record was verified from audit.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends to investigate the matter for fixation of responsibility against the person(s) responsible besides recovery of amount.

{Para No. 58 of AIR of WWB Balochistan for the Audit Year 2022-23}

Note: The issue was reported earlier also in the Audit Report for the Audit Year 2021-22 vide para no. 4.4.38 having financial impact of Rs. 34.711 million. Recurrence of same irregularity is a matter of serious concern.

4.4.31 Payment of Gratuity in addition to Contributory Provident Fund (CPF) – Rs. 8.044 million

Finance Division Office Memorandum No.F.15(3)R-14/84 dated 16.10.1984 states that the payment of 'gratuity' cannot therefore, be made part of the CPF Scheme, and as such it should not be paid in addition to CP Fund Contributory. All such autonomous/Semi-autonomous bodies and corporations etc. under the administrative control of ministries/divisions, where the pension scheme does not exist that the payment of 'gratuity' in addition to Contributory Provident Fund is not allowed to their employee on quitting the service.

Workers Welfare Board, Quetta adopted both schemes i.e. payment of Gratuity and Contributory Provident Fund.

Audit observed that the Workers Welfare Board paid an amount of Rs. 8.044 million as Gratuity and Rs. 7.886 million as Contributory Provident Fund to its employees during financial year 2021-23. Details are as follows

(Rs. in millions)

S#	Name & Designation	Gratuity	CP Fund	Net Amount
1	Afzal Hameed (AD Works)	7.105	3.110	10.215
2	Khuda-E-Rahim (Driver)	0.402	0.036	0.439
3	Shakeela Yousuf W/O Muhammad Yousuf (Naib Qasid)	0.298	0.170	0.468
4	Umme E Asma (Arabic Teacher)	-	0.716	0.716
5	Abdul Rahim (Arabic Teacher)	-	0.358	0.358
6	Ghulam Hussain (Chowkidar)	0.238		0.238
7	Ghulam Hussain (Chowkidar)	-	1.325	1.325
8	Liaquat Ali (Senior Teacher)	-	1.217	1.217
9	Shoaib Ahmed S/O Muhammad Yahya (Mali)	-	0.648	0.648
10	Jalal Ud Din (Driver)	-	0.135	0.135
11	Saima Faiz (JET)	-	0.171	0.171
	Total	8.044	7.886	15.930

Audit held that irregularity occurred due to non-observance of instructions issued by Ministry of Finance, which has resulted in undue burden on the Fund.

The initial audit observation was issued on 06.10.2023. The management replied that payment of Gratuity and Contributory Provident Fund (CPF) to the employees of this Board is made as per WWF (Employee Service) Rules, 1997 and approval of Governing Body WWF Islamabad. No payment is made to any employee in violation of prevailing rule and decision of Governing Body WWF Islamabad. A letter has been sent to WWF Islamabad who is the funding agency of Workers Welfare Board regarding financial advice in the matter as soon as the reply received the same will be share with the audit and policy will be compiled in letter and spirit.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that the matter be referred to Finance Division for opinion and the instructions of Finance Division be adopted.

Note: The issue was reported earlier also in the Audit Report for the Audit Year 2021-22 vide para no. 4.4.33 having financial impact of Rs. 4.859 million. Recurrence of same irregularity is a matter of serious concern.

{Para No. 28 of AIR of WWB Balochistan for the Audit Year 2022-23}

4.4.32 Non-deduction of Sales Tax from consultant's payments - Rs. 2.368 million

The Balochistan Sales Tax on Services Act, 2011 states that services provided by technical, scientific and engineering consultants are subject to deduction of Sales Tax @ 15%

Workers Welfare Board Balochistan, Quetta awarded consultancy contracts of Initial Environment Examination to M/s Infrastructure Consulting Engineering (ICE Consultant) on 23.09.2022.

Audit observed that a sum of Rs. 15.792 million was paid to the consultant, M/s Infrastructure Consulting Engineering (ICE Consultant), during the period under audit, however sales tax amounting to Rs. 2.369 million was not deducted while making payments.

Audit held that non-deduction of sales tax resulted in loss to government treasury.

The initial audit observation was issued on 06.10.2023. The management replied that the above project was sponsored by the Federal Ministry (Overseas Pakistanis and Human Resources Development). Moreover, this Board had adopted PPRA Rules, therefore the deduction of provincial taxes like Balochistan Sale Tax (BSTS) were not applicable on this Board. Besides, the Consultant (M/S ICE), did not include the rate of BSTS in their lowest bid, therefore said deduction was not made from him.

The reply was not acceptable as the sales tax was required to be charged.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends an inquiry for fixation of responsibility, recovery and deposit of amount in government treasury as well as adoption of remedial measures to avoid reoccurrence of such irregularity in future.

{Para No. 31 of AIR of WWB Balochistan for the Audit Year 2022-23}

4.4.33 Non-recovery of rent of flats handed over to Balochistan Institute of Nephrology Quetta

Section 11-C (a)(i) of the Workers Welfare Ordinance 1971 provides that subject to the provision of this ordinance, a Board, for discharge of its functions under this ordinance, shall as soon as may be after its constitution, make and carry into effect a scheme regulating or providing for the regulation of matters connected with allotment, cancellation of allotment and fixation of rent of the houses financed by the money allocated from the Fund, and their maintenance and repairs.

Worker Welfare Board Balochistan, Quetta handed over 42 flats to Balochistan Institute of Nephrology Quetta (BINUQ) for further allotment to its staff in 2015.

Audit observed that no rent was recovered from the residents of the Quarters since 2015 which resulted in loss to millions of rupees to Workers Welfare Board. Monthly house rent against 42 employees approximately of Rs. 681,225 was being deposited in WWB prior to handing over the flats/quarters. The same could not be collected for nine years. Details are as follows:

S. No.	Category of Staff Residence	Nos. of Flats/Bungalows
1	BS-18 & 19	02
2	BS-15 to 17	04
3	BS-11 to 14	12
4	BS 01-10	24

Audit held that non-recovery of rent from allottees resulted in loss to Workers Welfare Board.

The initial audit observation was issued on 06.10.2023. The management replied that numerous letters were written / sent to Chief Executive Officer BINUQ to deposit the rent of bungalows and flats occupied by the staff of BINUQ, but no reply received from quarter concern till date of this reply. The matter was taken up with Secretary Health Department, Balochistan, but no response was received from their end. Again, a letter to both the offices mentioned above has been written, by this Board. In case they do not responds this letter then this Board will be compelled to get the bungalows vacated from BINUQ employees through District Administration.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends to recover the rent amount.

{Para No. 20 of AIR of WWB Balochistan for the Audit Year 2022-23}

4.4.34 Appointments against posts reserved for promotions

Governing Body Workers Welfare Fund in its 145th meeting held on 17.08.2020 approved the revival of following posts;

Teaching and non-teaching staff for WMHS Pishin and Nokandi (42 each)	84
Workers Model HSS Kingri	32
Workers Model HSS Eastern By Pass Quetta	33
Post vacant due to death/retirement	11

Total	160
-------	-----

Workers Welfare Board, Balochistan, Quetta made appointments during FY 2022-23 in Workers Model High/Higher Secondary Schools.

Audit observed that the appointments were made by ignoring the quota and many appointments were made against the promotion quota. Some of the instances of irregular appointments in excess than quota is as follows:

Name of Post	No. of posts for initial appointment	No. of persons appointed	Excess appointments
Principal (B-18)	0	02	02
V. Principal (B-17)	0	03	03
Sr. Teacher (B-17)	0	04	04
Senior Subject Specialist (B-17)	14	0	-
Sr. Librarian (B-17)	02	0	-
Computer Instructor	14	08	-
SST Science	13	03	-
SST General	0	04	04
Office Assistant	02	03	01
Librarian	05	03	-
Lab Assistant	0	06	06
PTI	08	07	-
Sr. Clerk	02	01	-

Jr. Teacher	12	21	09
Drawing Teacher	15	12	-
Arabic Teacher	13	12	-
Junior Clerk	06	09	03

Audit held that appointments made against the posts reserved for promotion quota was not justified and irregular.

The initial audit observation was issued on 06.10.2023. The management replied that only those official/officers were promoted who fulfilled the pre-required, length of service and seniority basis. After filling the promotion quota remaining posts were advertised for initial appointments. Copies of promotion orders were available for verification by audit authorities.

The reply was not acceptable as the management did not produce any documentary evidence related to initial appointments and promotions before and after appointments.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that the matter be inquired for fixation of responsibility.

{Para No. 43 of AIR of WWB Balochistan for the Audit Year 2022-23}

Overseas Pakistanis Foundation

Irregularity and non-compliance

4.4.35 Purchase and payment of land through suspected fake Power of Attorney - Rs. 32,586 million

Rule-23 of GFR states that every government officer should realize fully and clearly that he will be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

Overseas Pakistanis Foundation (OPF) and Tariq & Siraj Associates entered into an agreement through Siraj-ul-Mulk on 27.06.1994 for procurement of land to develop a Housing Colony at Zone-5 named as OPF Housing Colony, Islamabad. OPF agreed to purchase a minimum of 3,000 Kanals from the seller (Tariq & Siraj Associates) in six Mozas i.e., Herdo Gehr, Jandala, Khatril, Peja, Pind Malkan and Ladhiot. The seller agreed to sell this land at Rs. 55,000 per Kanal as follows:

- i. 395 Kanal and 13 Marlas mutated in the name of OPF vide No. 511.
- ii. 11 Kanal and 17 Marlas were mutated vide mutation No. 512.

iii. 5 Kanal 10 Marlas + 6 Kanal 17 Marlas were acquired vide mutation No. 601.

Audit observed that OPF management finalized the deal on the basis of a Power of Attorney which was suspectedly fake. OPF paid the following amounts for purchase and acquisition of land:

(Rs. in millions)

Description	Land procured	Price per kanal	Total Price
Purchase price per Kanal (Zone-V Islamabad)	407 Kanals and 10 marlas	0.055	22.413
Current Market value (Zone-V Islamabad)	407 Kanals and 10 marlas	8.000 approx.	32,564.000

Audit held that OPF was not able to secure the government interest resulting in probable loss of Rs. 32.586 million (Rs. 22.413 million already paid + Rs. 32,564 million Current Market Value) due to negligence and non-verification of attorney/documents at the time of purchase of land.

The initial audit observation was issued on 24.08.2023. The management replied that OPF has requested NAB authorities to investigate the matter and also filed a review appeal in the Honorable Supreme court of Pakistan.

DAC meeting was held on 15.09.2023. The management apprised the forum that the matter is pending in Supreme Court of Pakistan including FIA & NAB. DAC pended the para till outcome of the case from respective courts.

Audit recommends that the matter be pursued vigorously by the management.

{Para No. 9 of AIR of OPF Head Quarters Islamabad for the Audit Year 2022-23}

4.4.36 Non-recovery of plot/surcharge price from defaulter allottees- Rs. 837.949 million

Para-2 of Terms & Conditions of allotment approved by the OPF management states that the allottee shall pay the cost of land according to the schedule as provided, shall be payable as determined by the management of OPF from time to time and in keeping with the amenities provided to the allottees. Surcharge @ 16% per annum will be charged on all delayed payments. If you fail to deposit two (2) consecutive installments, your allotment may be liable to cancellation. If any amount remains in arrears and the payment is not made despite the notices, the management shall have the right to cancel the allotment, assume possession of the plot and forfeit 10% of the price of plot plus other dues. The decision of the Management in this behalf shall be final.

Overseas Pakistanis Foundation (OPF) created and allotted plots in various schemes at different locations of the country. Details are as follows:

S. No.	Scheme		Created Plots		Allotted Plots		Vacant Plots	
			Residential	Commercial	Residential	Commercial	Residential	Commercial
01	Phase-I, Lahore		1,779	99	1,762	98	17	01
02	Phase-I Extension, Lahore		549	19	544	19	5	0
03	OPF Greens, Lahore		56	0	53	0	3	0
04	OPF Town, Lahore		164	36	71	1	93	35
05	Zone-V, Islamabad	Plots	2,542	216	2,006	17	536	199
		Country Homes	198	0	47	0	151	0
		Apartments	120	0	38	0	82	0
		Apartments Plots	04	0	0	0	04	0
06	Gujrat		210	66	210	66	0	0
07	Larkana		430	24	430	24	0	0
08	Dadu		404	13	404	0	0	13
09	Peshawar		741	74	741	68	0	6
10	Mirpur (AJK)		2,880	187	2,612	120	268	67
11	Turbat		366	54	366	54	0	0
Total			10,443	788	9,284	467	1159	321

Audit observed that receivable price of plots, development charges and surcharge amounting to Rs. 837.949 million were not received / recovered from Overseas Pakistanis against 324 plots. Detail of outstanding amount is as follows:

(Rs. in millions)

S. No.	Particulars	Price of Plots	Development	Amount (Rs)
1	Price of Plot + Surcharge on Price of Plot	51.256	286.192	337.448
2	Development Charges + Surcharge on Development Charges	137.292	363.209	500.501
Total				837.949

Audit held that non-recovery of plot/surcharge price from the overseas Pakistanis resulted in loss to the OPF fund.

The initial audit observation was issued on 24.08.2023. The management replied that OPF had issued notices to the allottees for the clearance of outstanding dues however, due to the appeal filed by some allottees in court of law against development charges and surcharge, OPF was facing difficulties in collection of dues. Despite the above, efforts were underway to collect the outstanding dues from the allottees.

DAC meeting was held on 15.09.2023. DAC pended the para and directed the management of OPF to pursue the court cases vigorously and expedite the outcome thereof.

Audit recommends implementation of DAC decision.

{Para No. 1 of AIR of OPF Head Quarters Islamabad for the Audit Year 2022-23}

4.4.37 Non-recovery from allottees of OPF schemes - Rs. 694.241 million

Para-1,2,18 & 20 of the approved terms & conditions of allotment provides that the allottee shall pay the cost of Apartment/country home according to the provided schedule as determined by the management of OPF from time to time. Surcharge @ 16% per annum will be charged on all delayed payments. If allottee fails to deposit two (2) consecutive installments, the allotment may be liable to cancellation. If any amount remains in arrears and the payment is not made deposit the notices, the management shall have the right to cancel the allotment, assume possession of the plot and forfeit 10% of the price of plot plus other dues. The decision of the OPF Management in this behalf shall be final.

Overseas Pakistanis Foundation (OPF), Islamabad allotted farm-houses (OPF Greens), apartments at OPF Valley Zone-V, Islamabad and country homes at OPF Valley Zone-V, Islamabad as per approved terms & conditions.

Audit observed that the management had not recovered an amount of Rs. 694.241 million from 72 defaulter allottees of farm-houses, apartments and homes. Details are as follows:

(Rs. in millions)

Sr. No.	Property Name	Para No. of AIR	Total Allotted	No. of defaulters	Recoverable amount
1	Farm-Houses / OPF Greens Raiwind Road, Lahore	2	53	24	447.510
2	Apartments at OPF Valley Zone-V, Islamabad	3	38	23	41.196
3	Country Homes, at OPF Valley, Zone-V, Islamabad	4	47	25	205.535
Total			138	72	694.241

Audit held that OPF sustained a loss of Rs. 694.241 million due to non-recovery from defaulters.

The initial audit observation was issued on 24.08.2023. The management stated that recovery had been made and efforts are underway to recover the entire outstanding payments, at earliest.

DAC meeting was held on 15.09.2023. DAC pended the para with the direction to management to get the recovered amount verified from Audit. It further directed to expedite efforts for recovery of remaining amount. Otherwise, cancellation of allotments may be expedited or pursued.

Audit recommends implementation of DAC decision.

Bureau of Emigration & Overseas Employment

Irregularity and non-compliance

4.4.38 Non-receipt of verification fee from intended Emigrants- Rs. 146.546 million

According to Para 11.2 of PC-I titled "Registration of intending emigrants via biometric verification system linked with NADRA", the project shall generate revenue amounting to Rs. 77.82 million annually at the rate of Rs 200 per verification from intending emigrants on the account of "Biometric Verification Service" linked with NADRA.

Bureau of Emigration and Overseas Employment registered a total number of 732,730 intending emigrants during the financial years 2021-23.

Audit observed that verification fee on account of biometric verification was not collected from the intending emigrants as detailed under:

(Rs. in millions)

Sr. No.	Protector of Emigrants	No of Emigrants upto May 2023	Verification Fee per Emigrants	Loss Revenue
1	Karachi	129,727	200	25.945
2	Rawalpindi	170,311	200	34.062
3	Lahore	103,623	200	20.725
4	Peshawar	101,431	200	20.286
5	Quetta	3,433	200	0.687
6	Multan	51,197	200	10.239
7	DG Khan	34,774	200	6.955
8	Sialkot	58,067	200	11.613
9	Malakand	80,167	200	16.033
Total		732,730	200	146.546

Audit held that non-implementation of revenue aspect of the Project resulted in loss of Rs. 146.546 million.

The initial audit observation was issued on 18.09.2023. The management replied that export of manpower from Pakistan had witnessed a downward trend after 2015 due to various reasons which includes Gulfization Policy of GCC Countries, imposition of dependent fee and VAT etc. In light of the above, when the export of manpower is going down, efforts to promote the manpower export from Pakistan needs to be carried out. High emigration cost is another factor that the government is focused on to reduce. Moreover, according to Sustainable Development

Goals 10.7, recruitment cost needs to be reduced to the maximum level. Therefore, imposition of new fee is not possible, therefore, Rs. 200/- per verification fee from intending emigrant on account of Biometric Verification Service is not possible in current scenario.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that the management may look into the matter and share outcome in the DAC meeting.

{Para No. 1 of AIR of Bureau of Emigration and Overseas Employment Audit Year 2022-23}

4.4.39 Less payment of 'profit commission' to Bureau by State Life Insurance Corporation and resultant loss – Rs. 19.578 million

According to Para 12 of Emigrant Group Insurance Contract signed by the Bureau of Emigration and State Life Insurance Corporation (SLIC) on 09.12.2010, the corporation shall pay the profit commission to the Bureau within three months after the end of each contract year based on the working of the profit and loss account. In event of the Income being in excess of the Outgo, in any profit and loss account, the corporation shall pay to the Bureau a profit commission of 92.5% of such excess (profit).

The Profit Commission Statement for the year 2020 available on record was analysed by the audit team.

Audit observed that the State Life Insurance Corporation added a sum of Rs. 21.166 million in Outgo side under the head 'Loss carried forward from the year 2019'. As a result less profit (Income – Outgo) was shown in accounts and accordingly, less commission was paid to Bureau to the tune of Rs. 19.578 million.

Audit held that less profit commission paid by SLIC resulted in loss to the Bureau.

The initial audit observation was issued on 18.09.2023. The management replied that the Bureau is already working on this matter.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends to recover the amount from SLIC.

{Para No. 5 of AIR of Bureau of Emigration and Overseas Employment Audit Year 2022-23}

4.4.40 Issuance of licences to Overseas Employment Promoters without approval of the Federal Government

Section 12 (2) of Emigration Ordinance 1979, states that on receiving an application under sub-section (1), the Federal Government may, after such inquiry as it may deem necessary, grant the license applied for on such terms and conditions, if any, and on payment of such fee and furnishing such security, as may be prescribed, or withhold such license, and the decision of the Federal Government shall be final.

Section 11A of Emigration Rules 1979 provides that an Overseas Employment Promoter shall establish an office in the premises approved by the Federal Government. He shall not shift his office or open more than two branch offices or shift the same except with the permission of the Federal Government and on the payment of fee of five thousand rupees.

Bureau of Emigration and Overseas Employment (BE&OE) issued 318 licences to various Overseas Employment Promoters (OEPs) during the years 2021-23 with the approval of Ministry of Overseas Pakistanis and Human Resource Development (OP&HRD). Similarly, the Bureau had transferred OEP Licence/Change of Jurisdiction of 13 OEPs during the same period with the approval of the Ministry.

Audit observed that the Overseas Employment Promoters were granted licences without approval of ‘federal government’ as defined in the honourable Supreme Court of Pakistan’s judgment dated 18.08.2016.

Audit held that the licences were issued to OEPs without the approval of federal government which was violation of Emigration Ordinance 1979, as approval of the Cabinet forum being federal government was required to be obtained.

The initial audit observation was issued to the management on 18.9.2023. The management replied that the matter pertained to Ministry of Overseas Pakistan and Human Resource Development and may be taken up with the Ministry.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting was not convened by the PAO till the finalization of this report.

Audit recommends that licences to OEPs may be issued with the approval of federal government only.

{Para No. 10 &11 of AIR of Bureau of Emigration and Overseas Employment Audit Year 2022-23}

CHAPTER 5

POVERTY ALLEVIATION AND SOCIAL SAFETY DIVISION

5.1 Introduction

A. The Division of Poverty Alleviation and Social Safety was established to implement the umbrella initiative, Ehsaas. Launched on March 27, 2019, the objective of Ehsaas is to reduce inequality, invest in people, and lift lagging districts. Ehsaas is about the creation of a ‘welfare state’ by countering elite capture and leveraging 21st century tools – such as using data and technology to create precision safety nets; promoting financial inclusion and access to digital services; supporting the economic empowerment of women; focusing on the central role of human capital formation for poverty eradication, economic growth and sustainable development; and overcoming financial barriers to accessing health and post-secondary education. The functions of the Division are as follows:

- i. The program’s principles and approaches center on tapping whole-of- government multi-

- sectoral collaboration of solutions;
- ii. Ensuring joint federal-provincial leadership; and main-streaming the role of the private sector through an approach which will provide a level playing field on the one hand and foster locally-relevant innovation on the other, to create jobs and promote livelihood in quick-win areas.
 - iii. The program's premise is grounded in the importance of strengthening institutions, transparency and good governance.
 - iv. The program is for the extreme poor, orphans, widows, the homeless, the disabled, those who risk medical impoverishment, for the jobless, for poor farmers, for laborers, for the sick and undernourished; for students from low-income backgrounds and for poor women and elderly citizens. This plan is also about lifting lagging areas where poverty is higher.

B. Comments on Budget & Accounts

(Rs. in millions)

S. No.	Name of Office	FY(s)	Budget Allocated	Expenditure
1	PASSD, Islamabad (Zakat Cell)	2022-23	10,817.666	10,817.666

C. Sectoral analysis on the achievements against targets agreed under MTBF

The performance indicators, targets and achievements for the FY 2022-23 by Ministry of Human Rights is tabulated below:

Outputs	Selected Performance Indicators	Planned Target	Targets Achieved
Mainstreaming the Poverty Alleviation and Social Protection Services	Number of assets to be transferred to poor households	14,651	Details were not provided to Audit
	Number of livelihood beneficiaries to be trained	59,389	
	Number of beneficiaries to be received Interest Free Loan	76,465	

Table: Audit Profile of PASS DIVISION

(Rs. in millions)

5.4 AUDIT PARAS

Central Zakat Administration/Fund

Irregularity and non-compliance

5.4.1 Release of funds on the basis of 1998 census instead of 2017 census resulting in depriving beneficiaries of Khyber Pakhtunkhwa and Balochistan Province – Rs. 256.54 million

Section 9(1) of Zakat and Ushr Ordinance 1980, provides that the Central Zakat Council shall prepare budget for each financial year and may, from the Central Zakat Fund, make disbursements and transfer funds to Provincial Zakat Fund in such form and manner as may be prescribed and as would help

in ensuring satisfaction of the needs of the needy and the poor throughout the country, as far as possible, on a uniform basis.

The Council of Common Interests (CCI) in its meeting held on 8.11.2012 approved formula which was based on 1997 population census as under:

- a. 7% of the Total collection be retained by the federal government for federal areas i.e. ICT (35.14% of 7%), FATA (46.29% of 7%) and GB (18.57% of 7%).
- b. The remaining 93% be distributed amongst provinces in accordance with the formula in vogue prior to 2008 i.e., Punjab 57.36%, Sindh 23.71%, KPK 13.82% & Balochistan 5.11%.

Council of Common Interest (CCI) in its 45th meeting held on 12th April 2021, approved the Final results of Sixth Population & Housing Census-2017.

Audit observed that the PASS Division moved summary for distribution of Zakat amongst Federation and Provinces amounting to Rs. 6,190.370 million on 13.07.2021 to Prime Minister of Pakistan. The share was calculated on the basis of decision of CCI in its meeting held on 8.11.2012.

Audit held that since the Sixth Population census of 2017 was approved by CCI on 12.4.2021, therefore the calculation of distribution of Zakat amongst Provinces was required to be revised on the basis of 2017 census. Non-revision of calculation resulted in depriving beneficiaries of Khyber Pakhtunkhwa, Sindh and Balochistan amounting to Rs. 256.54 million. Details are provided in **Annexure-XX**.

Initial audit observation was issued on 09.10.2023. The management replied that CCI is a constitutional forum to decide the inter-provincial matters at Federal level. The CCI in its meeting held on 8.11.2012 decided a mutually agreed Zakat distribution formula on Population Cum Poverty basis on the pattern of the NFC award. The same formula is in vogue to date as all the Federating units are comfortable with their allocated share.

DAC meeting was held on 08.01.2024. The DAC directed the management to follow up with Finance Division to revise the NFC in accordance with census 2017.

Audit recommends that Zakat funds may be released on the basis of approved 2017 census and provinces of Khyber Pakhtunkhwa, Balochistan and Sindh may be compensated in future releases with the objected amount.

Note: The issue was reported earlier also in the Audit Report for the Audit Year 2022-23 vide para no. 6.4.4 having financial impact of Rs. 146.804 million. Recurrence of same irregularity is a matter of serious concern.

{Para No. 3 of AIR of CZF Islamabad for the Audit Year 2022-23}

Zakat Collection/Deduction Offices

Irregularity and non-compliance

5.4.2 Irregular exemption granted from Zakat without obtaining declarations (CZ-50) - Rs. 161.927 million

Rule 14 of Zakat Collection and Refund Rules, 1981 states, that for recording the deductions of Zakat in respect of the Provident Fund balances, at the time of the final settlement and of non-refundable advances, ZCOs shall maintain a separate folio for each quarter in the Zakat Deduction/Refund Register, wherein the necessary details will be entered at the time of the final settlement and that of the drawal of non-refundable advance. First Schedule of the Zakat and Ushr Ordinance 1980 describes that Zakat shall be deducted in case of non-refundable advance, 2.5% of the amount drawn or, in case of final settlement, 2.5% of the balance standing to the credit of the subscriber as on the Valuation Date.

Zakat Collection Offices were required to deduct Zakat as per rules and procedure provided in the Zakat Collection and Refund Rules.

Audit observed that, out of such 12 ZDAs, the management of the following 10 deducting agencies did not deduct Zakat amounting to Rs. 161.927 million from Saving Bank Accounts on 1st of Ramazan, at the time of encashment/ maturity of Government Securities and at the time of payments of non-refundable advances/final payment of Provident Fund. Details are as follows:

(Rs. in millions)

Sr. No.	Name of ZCO	Para No. of AIR	No. of account holders / employees	FY(s)	Amount of Zakat Exempted
1.	Askari Commercial Bank Limited, Aabpara Branch) Islamabad	1 & 2	43	2022-23	54.503
2.	HBL, G-9 Branch, Islamabad	1 & 3	159	2021-23	39.619
3.	NSC, Johar Town, Lahore	5	140	2022-23	24.783
4.	SBP, Head Office, Karachi	2 & 4	568	2017-22	26.202
5.	Meezan Bank, Gulberg Branch, Lahore	4	40	2021-23	7.931
6.	ABL, Garden Town, Lahore	2	20	2021-23	5.332
7.	NBP, Main Branch, Lahore	2	37	2020-23	2.091
8.	Pakistan Railways Accounts Lahore	1 & 2	51	2020-23	0.789
9.	International Islamic University	3	25	2020-23	0.342
10.	General Post Office (GPO) Lahore	2	11	2018-23	0.335

	Total	161.927
--	--------------	----------------

Audit held that non-deduction of Zakat resulted in loss to Zakat Fund.

The Initial audit observations were issued to the management of respective ZCOs. It was replied that the objected declarations were available for audit verification. However, the management of Pakistan Railways Accounts Lahore and General Post Office (GPO) Lahore replied that employees were exempted on submission of CZ-50.

The replies were not acceptable as original declarations or notarized copies were not provided.

The Initial audit observations were issued to the managements of Askari Commercial Bank Limited Aabpara Branch Islamabad, HBL G-9 Branch Islamabad, NSC Johar Town Lahore and National Bank of Pakistan Main Branch Lahore on 21.8.2023, 26.9.2023, 28.8.2023 and 28.8.2023 respectively, but no response was received from the management concerned.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting had not been convened by the PAO until the finalization of this report.

Audit recommends that justification for non-deduction of Zakat be provided otherwise amount of Zakat be recovered and deposited in Central Zakat Fund.

Note: The issue was reported earlier also in the Audit Report for the Audit Year 2019-20 and 2020-21 vide para no. 6.5.1 and 5.5.3 respectively having financial impact of Rs. 66.371 million. Recurrence of same irregularity is a matter of serious concern.

5.4.3 Irregular grant of exemption from deduction of Zakat by accepting invalid declarations/received after valuation date - Rs. 6.653 million

Rule 20 (1) of Zakat (Collection and Refund) Rules, 1981 describes that Zakat shall not be deducted in respect of the assets of a person claiming exemption on ground of faith and fiqah under the first proviso to sub section (3) of section 1 of the Ordinance, provided he files with the ZCO a declaration, on the form CZ-50 or an attested true copy thereof, within a period not less than thirty days preceding the valuation date.

Zakat Collection Offices were required to deduct Zakat as per rules and procedure provided in the Zakat Collection and Refund Rules.

Audit observed that, out of such ZDAs, the management of the following deducting agencies granted Zakat exemptions amounting to Rs. 6.653 million from Saving Bank Accounts, encashment/maturity of Government Securities and at the time of payments of non-refundable advances/final payment of Provident Fund without receiving declarations on form CZ-50 thirty days before valuation date. Details are as follows:

(Rs. in millions)

Sr. No.	Name Of ZCO	Para No. of AIR	No. of accounts holder / employees	FY(s)	Amount of Zakat exempted
1	State Bank of Pakistan (SBP) Head Office Karachi	3	170	2017-22	3.654
2	International Islamic University (IIU) Islamabad	1	195	2020-23	2.520
3	ZCO Pakistan Railways Accounts (Workshop) Lahore	3	15	2020-23	0.340
4	HBL, G-9 Branch, Islamabad	5	3	2021-23	0.139
Total					6.653

Audit held that grant of exemption against declarations which were not received thirty days before valuation date was irregular and loss to Zakat fund.

The initial audit observations were issued to the management of respective ZCOs. The management of International Islamic University (IIU) Islamabad replied that it was noted for future compliance. All the photocopies of declarations were attested by the Notary public and could be verified. The management of Pakistan Railways Accounts (Workshop) Lahore replied that the Zakat deduction stamps were considered from the 1st Ramazan (not less than thirty days preceding the valuation date) and the Zakat submission dates were mentioned on the stamp papers.

The replies were not acceptable as original record was not produced to audit to authenticate the claim of management.

However, the Initial audit observations were issued to the managements of SBP Karachi and HBL G-9 Branch Islamabad on 27.03.2023 and 26.09.2023 respectively, but no response was received from the management.

The PAO was requested to convene a DAC meeting vide letters dated 01.12.2023, 13.12.2023 and 29.12.2023. However, the meeting was not convened by the PAO till the finalization of this report.

Audit recommends that amount of Zakat be recovered and deposited in Central Zakat Fund besides adoption of remedial measures to avoid reoccurrence of such irregularity in future.

Note: The issue was reported earlier also in the Audit Report for the Audit Year 2021-22 vide para no. 5.4.3 having financial impact of Rs. 6.11 million. Recurrence of same irregularity is a matter of serious concern.

AUDIT REPORT

OF FEDERAL GOVERNMENT
AUDIT YEAR 2023-24

AUDITOR-GENERAL OF PAKISTAN

DIRECTORATE GENERAL AUDIT (CLIMATE CHANGE & ENVIRONMENT)

Chapter 1

Earthquake Reconstruction & Rehabilitation Authority (ERRA)

1.1 Introduction

A. The earthquake of 8th October 2005 caused severe damage and massive loss of life and assets in the province of Khyber Pakhtunkhwa and the State of Azad Jammu & Kashmir. Immediately after the earthquake, the Federal Relief Commission was established on 10.10.2005 to mobilize all resources and coordinate relief activities. Thereafter, on 24.10.2005, the Government of Pakistan established Earthquake Reconstruction and Rehabilitation Authority (ERRA), as an autonomous organization for post disaster damage assessment and reconstruction & rehabilitation of the affected areas. The Authority was established in pursuance of Earthquake Reconstruction and Rehabilitation Authority Ordinance, 2006 (Ordinance No. XXVIII of 2006). The said Ordinance was re-promulgated as Ordinance No. XI of 2007. Later on, the Parliament passed an Act called as “Earthquake Reconstruction and Rehabilitation Authority Act 2011” which was published in the Gazette of Pakistan on 14.03.2011.

ERRA is performing its functions in five earthquake affected districts of Khyber Pakhtunkhwa (Abbottabad, Mansehra, Battagram, Shangla and Kohistan) through Provincial Earthquake Reconstruction and Rehabilitation Agency (PERRA) and four Districts of Azad Jammu and Kashmir (Muzaffarabad, Bagh, Rawalakot and Poonch) through State Earthquake Reconstruction and Rehabilitation Agency (SERRA).

B. Comments on Budget and Accounts of audited entities (Variance Analysis)

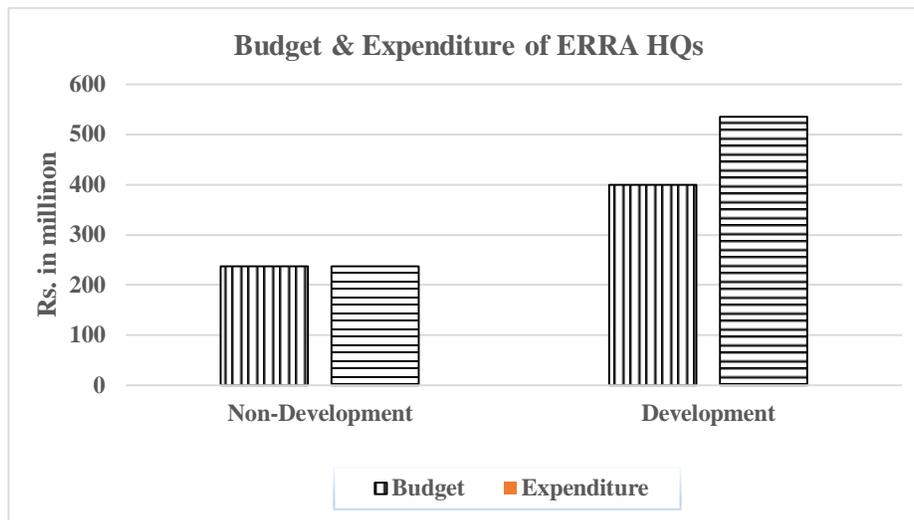

(Rs. in million)

Name of Entity	Expenditure Head	Budget	Expenditure	Savings/Excess
ERRA HQs	Non-Development	236.882	236.882	-
	Development	400.000	535.863	(135.863)

Source: annual financial statements

Note: Excess expenditure includes payments made from ERRA Fund A/C Rs. 107.109 million, Rs. 18.385 million received as 1/3rd share of salaries of PERRA employees from provincial government and Rs. 10.369 million paid from PERRA retention money account.

The graphical representation of budget and expenditure of ERRA (HQs) is as under:

The entire payments of development and non-development expenditure of PERRA, SERRA & other field offices in Khyber Pakhtunkhwa and Azad Jammu and Kashmir are centralized and are processed and paid through Finance Wing of ERRA HQs.

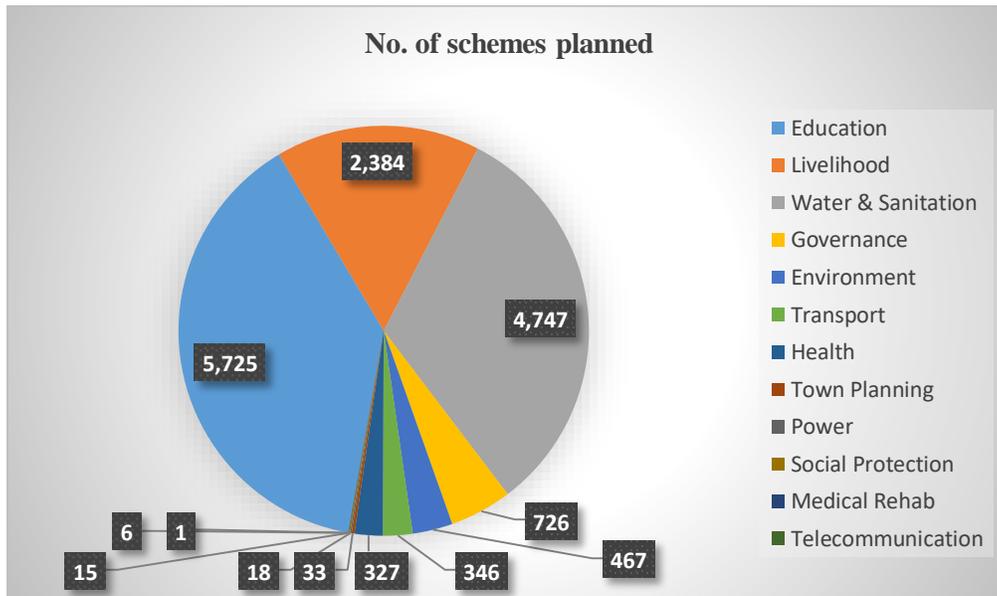

C. Sectoral Analysis

ERRA was established with the objective to plan, coordinate, monitor and regulate reconstruction and rehabilitation activities in the earthquake affected areas of Azad Jammu and Kashmir and Khyber Pakhtunkhwa. In the rehabilitation stage, under its Rural Housing Reconstruction Program, ERRA provided financial compensation to more than 28,000 urban residents for construction of houses. The total amount disbursed among the affectees for reconstruction of houses in rural part of earthquake affected areas was Rs. 71.95 billion¹².

In the reconstruction phase, a total of 14,795 projects / schemes in twelve (12) sectors were planned to be reconstructed / rehabilitated in earthquake affected areas by reconstructing the lost and destroyed facilities while following highest standards of reconstruction and rehabilitation with the obligation to “Build Back Better”.

The graphic presentation of number of schemes planned by ERRA in different sectors is as under:

¹² ERRA Financial Statements 2021-22

Since the inception of ERRA till 30th June 2023, 11,070 schemes in these sectors have been completed and handed over to the end users. Sector wise detail of all completed projects is given at Para No. 1.4.7 of this report.

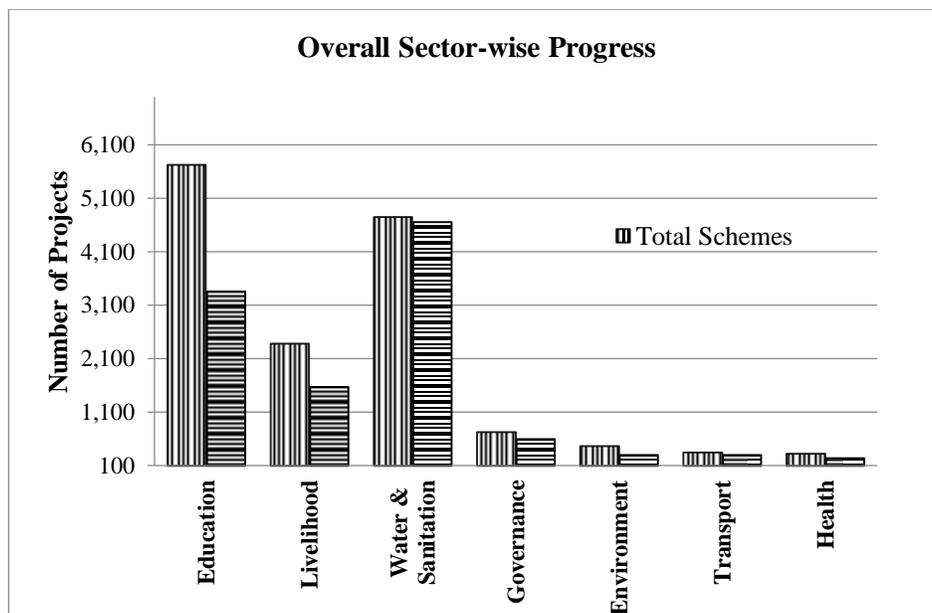

However, during the financial year 2022-23, no major expenditure on the reconstruction / rehabilitation of ongoing projects / schemes was incurred due to financial constraints. The status of schemes completed in 12 sectors was almost same as earlier i.e. till 30th June 2022. The overall sector-wise progress / achievement of ERRA as on 30.06.2023 is as under:

Sr. No.	Sectors	Total Projects	Completed Projects	Outstanding Projects
1.	Education	5,725	3,355	2,368
2.	Livelihood	2,384	1,571	813
3.	Water & Sanitation	4,747	4,651	95
4.	Governance	726	591	135
5.	Environment	467	298	168
6.	Transport	346	302	42
7.	Health	327	240	87
8.	Town Planning	33	31	2
9.	Power	18	15	3
10.	Social Protection	15	11	4

11.	Medical Rehab	06	04	2
12.	Telecommunication	01	01	0
Total		14,795	11,070	3,719

Source: data provided by ERRA

The above table reveals that out of total 14,795 projects, 11,070 have been completed till June 2023 and 3,719 schemes are still outstanding. The graphical presentation of the planned and completed projects in major sectors is as under:

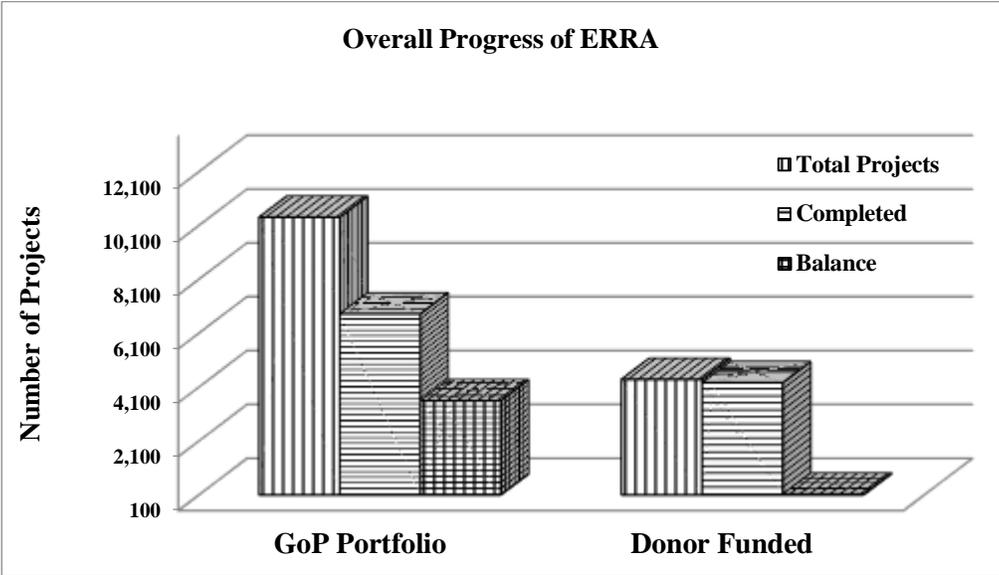

The ongoing and completed projects / schemes also include the schemes completed by ERRA (GoP funds) and donors funded schemes. The bifurcation of projects / schemes i.e. GoP funded and Donors funded with achieved level of progress is as under:

Source of funding	Total Projects	Completed	Rationalized	Balance	Percentage of completion
GoP Portfolio	10,408	6,810	1,083	2,515	66%
Donors	4,387	4,260	103	24	97%
Total	14,795	11,070	1,186	2,539	75%

Source: data provided by ERRA

The above table indicates that the completion percentage of donors funded projects was 97% as compared to the GoP funded projects which was only 66%. Further, ERRA could achieve overall progress of 75% since its inception in 2005 till 30th June 2023. Graphical representation is as under:

City Development Projects

In addition to above projects / schemes, four (04) City Development Projects i.e. New Balakot City Development Project (NBCDP) in Khyber Pakhtunkhwa and Muzaffarabad City Development Project (MCDP), Bagh City Development Project (BCDP) and Rawalakot City Development Projects (RCDP) in Azad Jammu and Kashmir were also executed by ERRA. Reconstruction of government facilities, road networks, water facilities, sewerage networks and other miscellaneous works were included in the respective City Development Projects (CDPs).

Land for New Balakot City Development Project (NBCDP) was acquired for Rs. 1.43 billion and work for construction was awarded to M/s Mumtaz Construction Company at a cost of Rs. 2,432.614 million on 25.06.2007. An amount of Rs. 2,966.571 million (development Rs. 2,822.115 million and operational Rs. 144.456 million) had been spent on NBCDP upto the financial year 2019-20. At present, the project is stalled and ERRA is required to take concrete measures to reinstate the project to ensure that the expenditure incurred does not go waste.

Total funding available for Azad Jammu and Kashmir Urban Development Program was USD 353 million, out of which USD 300 million (85% foreign component) was made available through a preferential buyer credit of EXIM Bank of China and USD 53 million (15% local component) was made available by Government of Pakistan through PSDP allocation as counterpart funding. The program was launched during December 2009.

Although, the City Development Projects in Azad Jammu and Kashmir have been physically completed, however, the financial closure is in process and final bills of the projects after ascertaining the recoveries pointed out by audit are required to be adjusted, besides, adjustment of mobilization / secured advance and financial assistance granted to the contractors.

Table-I Audit Profile of Earthquake Reconstruction & Rehabilitation Authority (ERRA)**(Rs. in million)**

1.2 Classified Summary of Audit Observations

Audit observations amounting to Rs. 2,397.317 million have been raised in this report pertaining to ERRA. Recovery amounting to Rs. 2,292.442 million has been pointed out in the audit observations. Summary of the audit observations classified by nature is as under:

Table -II Overview of Audit Observations**(Rs. in million)**

<i>Sr. No.</i>	<i>Classification</i>	<i>Amount</i>
<i>1.</i>	<i>Financial Management</i>	<i>2,382.343</i>
<i>2.</i>	<i>Public Service Delivery / Performance</i>	<i>--</i>
<i>3.</i>	<i>Irregularities</i>	<i>14.974</i>
<i>A</i>	<i>HR / Internal Control Weaknesses</i>	<i>14.974</i>

1.3 Brief comments on the status of compliance with PAC directives

Since inception of ERRA, fourteen (14) audit reports on the accounts of ERRA have been published, out of which Audit Reports pertaining to the year 2006-07, 2009-10 and 2010-11 to 2017-18 were discussed in the PAC meetings held from time to time. Current status of compliance with PAC directives for reports discussed so far is given below:

Sr. No.	Audit Report	PAC held on	Number of Audit Paras			Compliance		
			discussed in PAC	Settled by PAC	Directives issued	Received	Awaited	%
1.	2006-07	15.12.2008	44	09	35	32	01	98
2.	2009-10	19.10.2019	49	49	00	00	00	--
3.	2013-14	04.05.2016	74	16	58	34	15	70
4.	2010-11 to 2017-18	13.08.2021	15	07	08	00	08	0
5.	2010-11 to 2017-18	20.10.2021	15	08	07	02	05	29
6.	2010-11 to 2017-18	11.02.2022	15	07	08	06	02	75

The ERRA is required to fully implement the remaining PAC directives especially the PAC directives pertaining to Audit Reports of 2010-11 to 2017-18 where the compliance is relatively low.

1.4 AUDIT PARAS

Financial Management

1.4.1 Non deposit of Income Tax into Government Treasury – **Rs. 2,027.881 million**

According to section 153(1)(c) of Income Tax Ordinance 2001, every prescribed person making a payment in full or part including a payment by way of advance to a resident person on the execution of a contract, including contract signed by a sports person but not including a contract for the sale of goods or the rendering of or providing services, shall, at the time of making the payment, deduct tax from the gross amount payable. And according to Para 38(a) of ERRRA Accounting Procedure, crossed cheques on account of recovery of income tax deducted at source from the suppliers / contractors etc. shall be forwarded by the DDO to the respective Income Tax Commissioner / Income Tax Officer.

Earthquake Reconstruction & Rehabilitation Authority (ERRA) deducted an amount of Rs. 2,027.881 million as income tax from payments made to various contractors during the financial years 2011-12 to 2016-17. The detail is as under:

(Rs. in million)

Sr. No.	Particulars of Projects	Financial Year	Amount of income tax
1.	Muzaffarabad City Development Project (MCDP)	2012-2017	1039.452
2.	Bagh City Development Project (BCDP)	2012-2017	600.797
3.	Rawalakot City Development Project (RCDP)	2012-2017	171.731
4.	Kuwait Fund for Development Projects	2012-2017	69.76
5.	Saudi Fund for Development Projects	2012-2017	118.269
6.	Islamic Development Bank Projects	2012-2017	27.872
Total		--	2,027.881

During the audit of ERRRA for the financial year 2022-23, it was observed that an amount of Rs. 2027.881 million was shown as Income Tax deductions from various contractors during the financial years 2011-12 to 2016-17. However, the deducted amount was not deposited into Government Treasury in accordance with provisions of Income Tax Ordinance, 2001.

Audit held that non-deposit of income tax into Government treasury resulted into loss to the Government.

Initial observation was issued on 21.11.2023. The management replied that the matter has already been taken-up with Government Adjuster/ Additional Secretary Finance. As the tax liability is "Govt. to

Govt.” payments, it has been proposed that the tax liability of the project may be adjusted through book adjustments. However, the case is still under process.

DAC meeting was held on 20.12.2023. The DAC directed that case should be taken up with Finance Division for arrangement of funds to settle unpaid tax liabilities.

Audit recommends that amount of income tax may be deposited in Government treasury.

(Para No. 01 of AIR 2022-23 ERRa HQs)

1.4.2 Non-deposit of profit into government treasury – Rs. 247.014 million

As per Para 26 of ERRa Accounting Procedure, the receipts if any generated by the Authority shall be the receipts of the government and shall be deposited in the government treasury on the same day, and if received after banking hours, on the next working day.

Earthquake Reconstruction & Rehabilitation Authority (ERRa) maintained National Income Daily Account at National Bank of Pakistan Foreign Office Branch for the purpose of ERRa Fund.

During audit of ERRa for the financial year 2022-23, it was observed that an amount of Rs. 247.014 million was earned as profit on the amounts retained in the National Income Daily Account maintained for ERRa funds with National Bank of Pakistan. However, the amount of profit was not deposited into Government treasury. Details are as under:

(Rs. in million)

Sr. No.	Date	Principal Amount	Interest amount paid by Bank
1.	09.07.2022	1,198.441	55.509
2.	14.01.2023	1,255.072	85.123
3.	15.07.2023	1,233.087	106.382
Total		3,686.600	247.014

Audit held that non-deposit of profit into Government Treasury was against the provision of Para-26 of ERRa Accounting Procedures - 2006.

Initial observation was issued on 11.10.2023. The management replied that the process of amendment in Para 26 of ERRa Accounting Procedure is in process. Finance Division and Law & Justice Division had agreed to the proposed amendment. However, the matter is still under process in the office of Auditor-General of Pakistan.

DAC meeting was held on 20.12.2023. The DAC directed that the case may be taken up with office of Auditor-General of Pakistan and outcomes be shared with audit authorities.

Audit recommends that the queries and observations raised by the office of the Auditor-General of Pakistan on the case may be addressed by ERRA at the earliest so as to conclude the matter as per law and rules.

(Certification Audit ERRA, 2022-23, ML Para No. 5)

1.4.3 Loss to the Government due to investment in National Income Daily Account at lower interest rates – Rs. 78.914 million

According to Section 15(1) of Earthquake Reconstruction & Rehabilitation Authority Act 2011, there shall be established a fund for reconstruction and rehabilitation to be known as the ERRA Fund which shall vest in and be utilized by the authority to meet the expenses and carry out the objectives of this Act.

Earthquake Reconstruction & Rehabilitation Authority (ERRA) maintained National Income Daily Account at National Bank of Pakistan for the purpose of ERRA Fund. The closing balance in the bank account as on 30.06.2023 was Rs. 1,255.072 million.

During audit of ERRA for the financial year 2022-23, it was observed that interest rate paid by National Bank of Pakistan was much lower than the policy rates notified by the State Bank of Pakistan. Moreover, National Bank of Pakistan was not increasing the interest rates in consonance with increase in policy rates announced from time to time.

Audit held that low interest rates paid by the National Bank of Pakistan and accepted by the Authority resulted a loss amounting to Rs. 78.914 million to the Government. Details are as under:

(Rs. in million)

Date	Balance Principal Amount	Interest rate offered by NBP per annum (%)	Interest amount paid by NBP	SBP rate as per Monetary Policy Statement	Difference in interest rate applied by NBP (%)	Loss due to low interest rate paid by NBP
(1)	(2)	(3)	(4)	(5)	(6)	(7)
09.07.2022	1,198.441	9.26%	55.509 (2)*(3)	15.00%	5.74% (5)- (3)	34.374 ((2)*(6)/2)
14.01.2023	1,255.072	13.56%	85.123	16.00%	2.44%	15.283
15.07.2023	1,233.087	17.25%	106.382	22.00%	4.75%	29.257
Total	3,684.600	--	247.014	--	--	78.914

Initial observation was issued on 11.10.2023. The management replied that ERRA never negotiated with National Bank of Pakistan regarding interest/profit rates of National Income Daily Account as ERRA opened just a bank account not invested the funds. Therefore, question regarding loss to the government did not arise.

The reply of the management was not satisfactory as the management placed the funds in saving account without in-house deliberation to get the interest rates as notified by the State Bank of Pakistan.

DAC meeting was held on 20.12.2023. The DAC directed that matter should be taken up with the National Bank of Pakistan for increase in the interest rates as per SBP policy so as to maximize the profit on the Fund and prevent the loss being suffered by the government due to low interest rates.

Audit recommends that the management may take up the matter with NBP to enhance the interest rates in line with the policy rates announced by State Bank of Pakistan.

(Certification Audit ERRA, 2022-23 ML Para No. 3)

1.4.4 Non-deposit of Education Cess into Government Treasury - Rs. 10.987 million

According to section 2(3) of the Azad Jammu and Kashmir Education Cess Act 1975, there shall be levied a Cess known as Education Cess chargeable at the rate of 5% on the amount of income tax/ super tax assessed and payable by the assesses except Government employees and all employees of autonomous bodies and Semi-Government bodies and banks. Further, Section 3 provides that responsibility of collection of education cess shall lie upon the authority which disburses the salaries or recovers any amount or releases anything, upon which education cess is liable. If an authority, responsible collection of education cess, fails to recover from him as penalty a sum not exceeding the amount of education cess not so recovered, in addition to the amount of the cess recoverable by such collecting authority.

Earthquake Reconstruction & Rehabilitation Authority (ERRA) deducted an amount of Rs. 10.987 million as Education Cess from payments to various contractors during the financial years 2010-11 to 2016-17. Details are as under:

(Rs. in million)

Sr. No.	Financial Year	Education Cess not deposited	Penalty due to non-deposit of Education Cess
1.	2010-11	0.106	0.106
2.	2011-12	0.217	0.217
3.	2012-13	2.292	2.292
4.	2013-14	0.546	0.546

5.	2014-15	2.344	2.344
6.	2015-16	4.088	4.088
7.	2016-17	1.393	1.393
Total		10.987	10.987

During the audit of ERRA for the financial year 2022-23, it was observed that the amount deducted as education cess was not deposited into Government Treasury in accordance with provisions of *Azad Jammu and Kashmir Education Cess Act 1975*. Further, non-deposit of education cess may result in accretion of penalty amounting to Rs.10.987 million.

Audit held that non-deposit of education cess resulted into loss to the government revenues. Moreover, non-deposit of education cess may result in the penalty as per Section 2(3) of *Azad Jammu and Kashmir Education Cess Act 1975*.

Initial observation was issued on 21.11.2023. The management replied that according to *AJK Education Cess Act and Rules 1975*, Education Cess is the levy of AJ&K Government and same has been conveyed to ERRA vide letter dated 30.04.2012.

DAC meeting was held on 20.12.2023. The DAC directed that Education Cess deducted under Section 2(3) of *Azad Jammu and Kashmir Education Cess Act 1975* be deposited into government treasury.

Audit recommends that education cess deducted under section 2(3) of *Azad Jammu and Kashmir Education Cess Act 1975* and may be deposited into Government treasury in order to avoid penal action from tax authorities.

(Para No. 02 of AIR 2022-23, ERRA HQs)

1.4.5 Non-deposit of Tajweed-ul-Quran Trust Cess into Government Treasury – Rs. 6.560 million

According to section 6(i) of the *Azad Jammu and Kashmir Tajweed-ul-Quran Trust Act 2014*, Tajweed-ul-Quran Cess shall be levied on the revenue recoverable in Azad Jammu and Kashmir for the Trust Fund at various rates determined by the Government. The Government shall have the authority to determine the rate of Tajweed-ul-Quran Cess. The government shall be able to change the rate from time to time depending on the situation.

Earthquake Reconstruction & Rehabilitation Authority (ERRA) deducted Tajweed-ul-Quran Cess amounting to Rs. 6.560 million from payments to various contractors during the financial years 2010-11 to 2016-17. The detail is as under:

(Rs. in million)

Sr. No.	Financial Year	Amount
---------	----------------	--------

1.	2010-11	0.071
2.	2011-12	0.071
3.	2012-13	1.568
4.	2013-14	0.302
5.	2014-15	1.494
6.	2015-16	2.621
7.	2016-17	0.433
Total		6.560

During the audit of ERRA for the FY 2022-23, it was observed that the deducted amount as Tajweed-al-Quran Cess was not deposited into Government Treasury in accordance with provisions of Azad Jammu and Kashmir Tajweed-ul-Quran Trust Act 2014.

Audit held that non-deposit of Tajweed-al-Quran Cess resulted into loss to the government revenues.

Initial observation was issued on 21.11.2023. The management replied that the matter regarding deposit of Tajweed-al-Quran cess has already been conveyed to ERRA vide letter dated 30.04.2012.

DAC meeting was held on 20.12.2023. The DAC directed the management that Tajweed-ul-Quran Trust Cess deducted under section 6(1) of Tajweed-ul-Quran Trust Act 2014 be deposited into government treasury.

Audit recommends that amount deducted as Tajweed-ul-Quran Trust cess may be deposited into government treasury.

(Para No. 04 of AIR 2022-23, ERRA HQs)

Public Service Delivery / Performance

1.4.6 Non-convening of ERRA Council meetings

According to section 8(1) of Earthquake Reconstruction & Rehabilitation Authority (ERRA) Act 2011, there shall be established the Earthquake Reconstruction and Rehabilitation Council which shall consist of the following members, namely:

(a)	Prime Minister of Pakistan	Chairperson
(b)	Prime Minister of Azad Jammu and Kashmir	Member

(c)	Chief Ministers of Punjab, Khyber Pakhtunkhwa, Sindh and Balochistan	Members
(d)	Chief Minister, Gilgit Baltistan	Member
(e)	The Federal Minister for Finance or Advisor to the Prime Minister on Finance as the case may be; and	Member
(f)	Deputy Chairman, Planning Commission	Member
(g)	Chairman of the Authority	Member
(h)	Deputy Chairman of the Authority	Member
(i)	Two members each from the National Assembly and the Senate to be nominated by the Speaker and Chairman respectively in consultation with the Leaders of the house	Members

Further, according to Section (9) of ERRA Act 2011, the Council shall provide policy guidelines and approve the policies, plans, programmes, projects and schemes, submitted by Chairman or the Board. Further, according to section 14(2) of ERRA Act 2011, Council shall meet once in three months or as often as the Chairman of the Council may direct.

Earthquake Reconstruction & Rehabilitation Authority (ERRA) Council was established in pursuance of Section 8(1) of ERRA Act, 2011.

During audit of ERRA for the financial year 2022-23, it was observed that ERRA Council meetings were not being held regularly as required under the Act.

It was also observed that 13th ERRA Council meeting was held in 2011, whereas the next meeting was held after 10 years i.e. 2021 and since then, no meeting was held.

Audit held that non-convening of ERRA Council meeting was not justified resulting in lack of strategic guidance for the organization.

Initial observation was issued on 21.11.2023. The management replied that due to busy schedule of Prime Minister of Pakistan, it was difficult to conduct ERRA Council meeting after every three months as it pertains to availability of Prime Minister.

DAC meeting was held on 20.12.2023. The DAC directed that management should pursue the matter to convene ERRA Council meetings as per provisions of ERRA Act, 2011.

Audit recommends that ERRA Council meetings may be convened as per provisions of ERRA Act, 2011.

(Para No. 07 of AIR 2022-23 ERRA HQs)

1.4.7 Non-completion of ERRA projects and schemes as planned/ conceived

According to Article 5 of ERRA Act 2011 and Clause 1.3 of ERRA Operational Manual, the ERRA shall be responsible for all reconstruction, rehabilitation and early recovery programmes and projects in affected areas.

Government of Pakistan established Earthquake Reconstruction and Rehabilitation Authority (ERRA) on 24.10.2005 with the objective to plan, coordinate, monitor and regulate reconstruction and rehabilitation activities in the earthquake affected areas. A total of 14,795 projects / schemes in 12 sectors were planned to be reconstructed / rehabilitated.

During audit of ERRA for the financial year 2022-23, it was observed that since inception, ERRA has incurred huge operational expenditure but the planned targets could not be achieved despite lapse of more than 18 years. The sector-wise progress / achievement of targets as on 30.06.2023 is as under:

Sr. No.	Sector	Projects	GoP Portfolio	Donor / Sponsor
1.	Education	5,725	3,931	1,794
2.	Health	327	148	179
3.	Governance	726	633	93
4.	Transport	346	130	216
5.	Livelihood	2,384	2,381	3
6.	Town Planning	33	31	2
7.	Environment	467	467	0
8.	Power	18	0	18
9.	WATSAN	4,747	2,665	2,082
10.	Telecommunication	1	1	0
11.	Social Protection	15	15	0
12.	Medical Rehabilitation	6	6	0
Total		14,795	10,408	4,387
A	Completed Projects	11,070	6,815	4,261
B	Balance Portfolio of projects	2,539	2,515	24

Further, in addition to the above schemes, New Balakot City Development Project (NBCDP) was conceived during 2007 and land for the project was acquired for Rs. 1.43 billion. The construction work was awarded to M/s Mumtaz Construction Company on 25.06.2007 for a cost of Rs. 2,432.614 million. An amount of Rs. 2,966.571 million (Rs. 2,822.115 million for development and Rs. 144.456 million for operational purposes) was incurred on the project up to the financial year 2019-20. However, the work is stalled since 2014 and was not resumed till finalization of this audit report i.e. February 2024 resulting in non-achievement of the objective as well as time and cost overrun.

Audit held that non-completion of schemes/projects by ERRA resulted in time and cost overrun.

Initial observation was issued on 21.11.2023. The management replied that due to financial crunch faced by ERRA, the schemes could not be completed in time.

DAC meeting was held on 20.12.2023. DAC directed that management should look into the matter and outcomes be shared with audit authorities.

Audit recommends that management may look into the matter and a mechanism may be devised for the early completion of projects and achievements of the overall targets.

(Para No. 15 of AIR 2022-23, ERRA HQs)

HR / Internal Control Weaknesses

1.4.8 Un-authorized draw of PM Secretariat Allowances – Rs. 12.766 million

According to Cabinet Division letter No. 2-31-88-Min-II dated 17.08.1999, the PM Secretariat Allowance and electricity & fuel subsidy was allowed to the employees of the President Secretariat and the Prime Minister's office on the Public side whose PAOs were the Principal Secretary to the President and the Principal Secretary to the Prime Minister respectively.

The Cabinet Division vide memorandum No. 4-9/2013-Min-I dated 14.06.2013 de-linked the Public Affair Wing from the Prime Minister's Office and transferred it to the Parliamentary Affair Division. The Cabinet Division vide letter No. 4-13/2005-Min-I, dated 29.04.2014 clarified that ERRA was established through Act as an autonomous / body corporate, and ERRA was not part of the Prime Minister's Office. However, for the purpose of co-ordination, ERRA is administratively attached with Prime Minister's Office. The Authority has not been mentioned in the Schedule-II and III of Rules of Business, 1973 being not under administrative control of any Division of the Federal Secretariat.

Earthquake Reconstruction and Rehabilitation Authority (ERRA) paid an amount of Rs. 12.766 million to the employees as PM Secretariat Allowance, fuel allowance, fuel charges etc. during the financial year 2022-23. Details are as under:

(Rs. in million)

Sr. No.	Particulars	Amount
1.	PM Secretariat Allowance	8.631
2.	Fuel Allowance	1.863
3.	Utility Charges etc.	2.272
Total		12.766

During audit of ERRA for the financial year 2022-23, it was observed that ERRA made payment of PM Secretariat allowances to its employees unauthorizedly in violation of Government instructions / clarification as ERRA was not a part of PM Secretariat.

Audit held that payment of inadmissible allowances resulted in loss to the Government.

Initial observation was issued on 21.11.2023. The management replied that ERRA was established under Act of Parliament as an autonomous body and administratively attached with Prime Minister Office. Hence it does not make any effect on the status of ERRA as already declared by Government of Pakistan, P.M Secretariat Notification dated 24.10.2005 and Finance Division Regulation Wing letter dated 17.12.2005. Thus the ERRA status is same as was on 24.10.2005. It was further replied that Prime Minister is the Minister in-Charge of ERRA and all Parliamentary affairs and all summaries for the Prime Minister, Federal Cabinet and ECC of the Cabinet are authorized by Prime minister as Minister in Charge.

Reply of the department was not satisfactory because the Authority has not been mentioned in the Schedule-II and III of Rules of Business, 1973 being not under administrative control of any Division of the Federal Secretariat.

DAC meeting was held on 20.12.2023. Due to divergent view points of the management and audit authorities, no conclusive recommendations were agreed upon. DAC decided to discuss the para in the next DAC meeting.

Audit recommends that payment of PM Secretariat allowance may be stopped and amount paid beyond entitlement of emoluments may be recovered from the concerned staff.

Note: The issue was also reported earlier in the Audit Report for the Audit Year 2022-23 vide Paras No. 3.4.3 having financial impact of Rs. 17.564 million. Recurrence of same irregularity is a matter of serious concern.

(Para No. 16 of AIR 2022-23 ERRA HQs)

1.4.9 Irregular payment of Honorarium – Rs. 2.208 million

According to Appendix 4 of GFR Vol-II, read with para 41 of GFR Vol-I, the amount of honorarium should not exceed one month pay of the Government servant concerned on each occasion. In case of recurring honoraria, this limit applies to the total of recurring payments made to an individual in a financial year.

Earthquake Reconstruction & Rehabilitation Authority paid honorarium amounting to Rs. 3.956 million during the financial year 2022-23.

During audit of ERRA for the financial year 2022-23, it was observed that ERRA paid an amount of Rs. 3.498 million on account of honorarium (equivalent to two month basic pay) to its employees, exceeding their entitled limit of Rs. 1.749 million (one month basic pay). This resulted into overpayment of Rs. 1.749 million.

Further, the Authority paid Rs. 0.458 million as honorarium to the employees of Finance Division who were not entitled to receive honorarium from ERRA. Details are attached at **Annexure-II**.

Audit held that payment of excess amount than entitlement i.e. Rs. 1.749 million to Authority employees and the payment of Rs. 0.458 million to employees of Finance Division was inadmissible and irregular.

Initial observation was issued on 21.11.2023. The management replied that ERRA Board is empowered to accord sanction for payment of Honorarium to employees upto six months basic pay once in a financial year. Therefore, ERRA Board in its 32nd meeting accorded sanction for payment for two month's basic pay, which is according to the rules. Furthermore, officials mentioned at Sr. No. 1 to 5 of audit Para, were involved to ERRA related affairs and honorarium was paid accordingly upon the sanction of ERRA Board.

Reply of the department was not satisfactory because according to GFR Vol-I, the amount of honorarium should not exceed one month's basic pay of the Government servant concerned on each occasion.

DAC meeting was held on 20.12.2023. Due to divergent view points of the management and audit authorities, no conclusive recommendations were agreed upon.

Audit recommends that excess amount may be recovered.

Note: The issue was also reported earlier in the Audit Report for the Audit Year 2022-23 vide Paras No. 3.4.1 having financial impact of Rs.7.101 million. Recurrence of same irregularity is a matter of serious concern.

(Para No. 09 of AIR 2022-23 ERRA HQs)

Chapter 2

National Disaster Risk Management Fund (NDRMF)

2.1 Introduction

A. National Disaster Risk Management Fund (NDRMF) was established in December 2016 to generate and consolidate resources and invest in a comprehensive risk reduction and mitigation strategy to reduce the impact of disasters in a proactive manner. NDRMF is a government-owned not-for-profit organization registered with the Securities & Exchange Commission of Pakistan under Section 42 of Companies Act, 2017. The Fund is established as a non-banking financial intermediary with a corporate structure aiming to provide funding through matching grants of upto 70% for a range of structural and non-structural interventions carried out through a variety of stakeholders including UN Agencies, NGOs as well as public sector departments.

NDRMF held a key role in implementing, coordinating and monitoring Disaster Risk Reduction (DRR) activities in the country. The Fund is responsible for awarding, managing and guiding investments meant to reduce risk and vulnerabilities that are associated with climatic change and natural hazards. The objective of the Fund is to focus on primary and critical level disaster planning, preparedness, pre-disaster mitigation and early warning systems.

At present, the administrative control of NDRMF rests with the Ministry of Planning, Development & Special Initiatives.

B. Comments on Budget and Accounts (Variance Analysis)

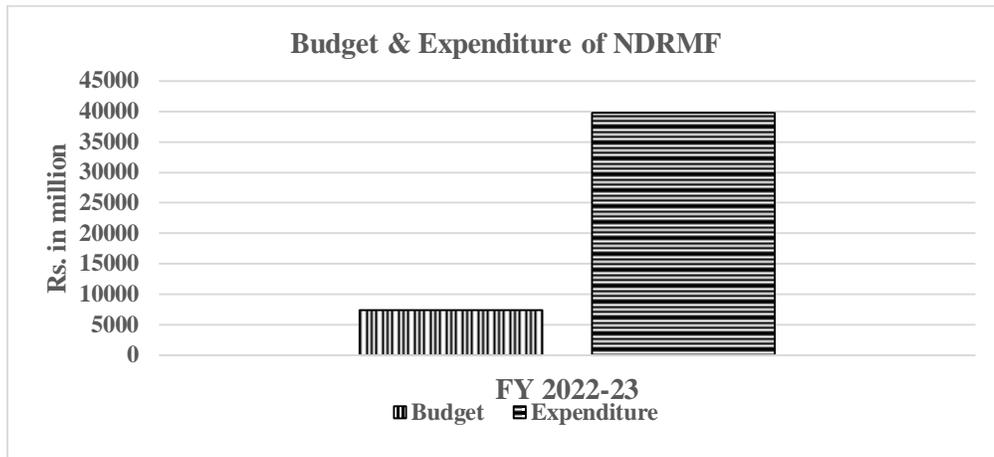

(Rs. in million)

Financial Year	Budget	Expenditure
2022-23	7,379.60	39,742.198

Source: Approved budget from NDRMF 33rdBoD meeting

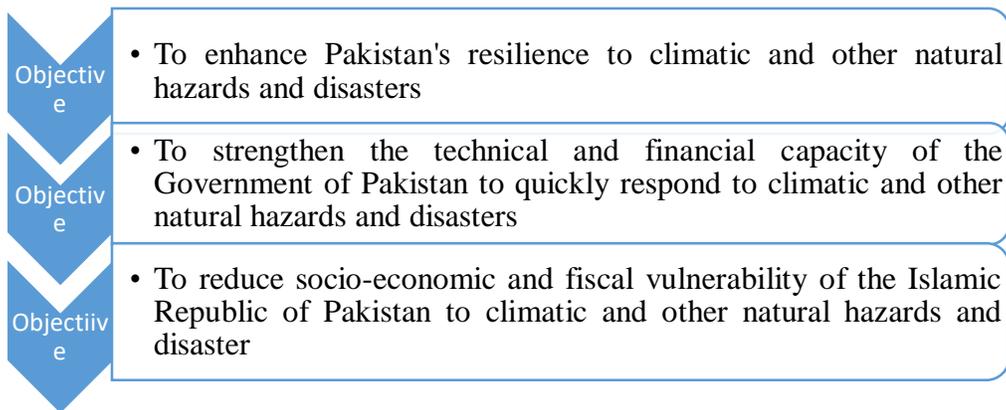

The expenditure for the FY 2022-23 includes an amount of Rs. 35.371 billion (USD 150.00 million) allocated to Benazir Income Support Program (BISP) for distribution of cash grants to 1.415 million affectees of flood 2022.

The graphical representation of budget and expenditure of NDRMF for the financial year 2022-23 is as under:

C. Sectoral Analysis

National Disaster Risk Management Fund (NDRMF) is the key agency to generate resources for Disaster Risk Reduction (DRR) activities in the country. The objectives of the NDRMF as per Article of Association¹³ are as under:

The resources pooled under the National Disaster Risk Management Fund (NDRMF) are dedicated to support the implementation of the National Disaster Management Plan (NDMP) 2012-2022 and National Flood Protection Plan-IV (NFPP-IV) 2015-2025. The Fund is required to finance projects relevant to the specified targets, however, phase-based interventions are finalized based on imminent needs and demands.

Details of NDRMF funds

¹³ Article of Association Para 1 (III)

Initial financing of NDRMF was made through a loan of \$200 million by the Asian Development Bank (ADB) and grants of USD 3.400 million by the Government of Australia. The overall position of Loan/Grants received, disbursements, expenditure and balances available by 30.06.2023 is as under:

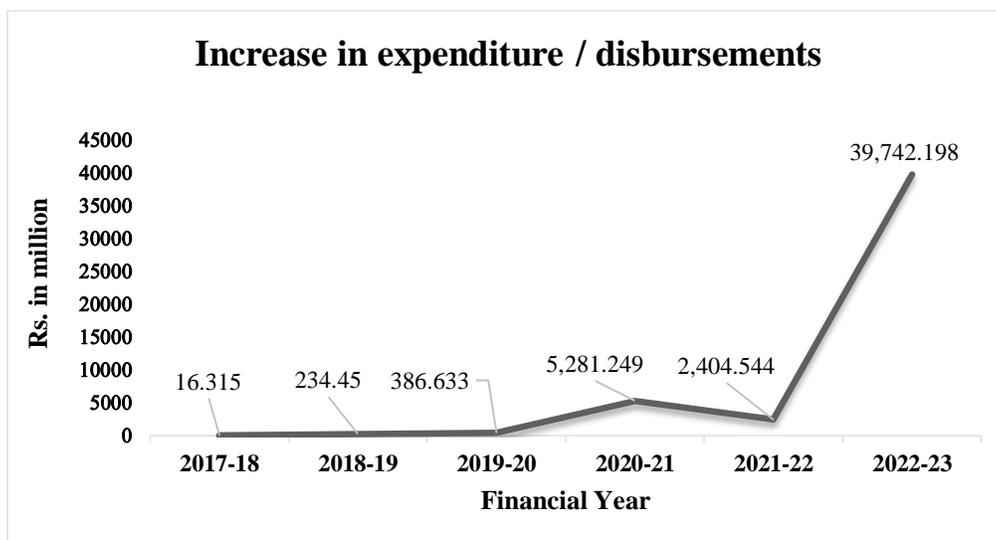

(Amount in million)

Sr. No.	Donor	Loan /Grant No.	Loan / Grant Status USD	Total funds received from Donors/GoP (PKR)	Disbursement made by NDRMF (PKR)	Closing balance as per Cashbook as on 30 th June, 2023 (PKR)

Source: Statement provided by NDRMF

Details of expenditure / disbursements

The increase in expenditure/disbursement of NDRMF since its establishment to 30.06.2023 is reflected as under:

Note: The sharp increase in expenditure/disbursement for the FY 2022-23 was due to allocation of an amount of Rs. 35.371 billion (USD 150.00 million) to BISP for distribution of cash grants to 1.415 million affectees of flood 2022.

Major Schemes / Projects of NDRMF

Major schemes / projects conceived by NDRMF are as under:

(Rs. in million)

Sr. No.	Name of Project /Scheme	FIP	Total Cost
1.	Promoting Integrated Mountain Safety in Northern Pakistan (PIMSNP)	Agha Khan Foundation	834.600
2.	Disaster Preparedness Support Plan for Emergency Rescue Services	Rescue-1122 Khyber Pakhtunkhwa	613.850
3.	Rehabilitation of HajipurGujran Flood Protection Bund from RD 0+000 To RD 37+750	Punjab Irrigation Department	500.570

4.	Building resilience by strengthening the community through inclusive Disaster Risk Management	Muslim Aid	400.850
5.	Recoupment of damaged T-head Spur along AganiAkil Loop Bund	IRR Sindh	389.800
6.	Rehabilitation of Old DegNullah from Deg Diversion Channel to Q.B Link Canal	Punjab Irrigation Department	385.440
7.	Providing stone apron, stone pitching, and earth along LS Bund Work Dadu Division	IRR Sindh	300.766
8.	Multi-Hazard Vulnerability Risk Assessment (MHVRA)	NDMA	277.700
9.	From Vulnerability to Resilience (V2R)	Pakistan Red Crescent Society	228.100

2.2 *Classified Summary of Audit Observations*

Audit observations amounting to Rs. 174.336 million and USD 0.064 million have been raised in this report pertaining to NDRMF. Recovery amounting to Rs. 57.439 million has been pointed out in the audit observations. Summary of audit observations classified by nature is as under:

Table –II *Overview of Audit Observations*

<i>Sr. No.</i>	<i>Classification</i>	<i>Amount in million</i>	
		PKR	USD
1.	<i>Financial Management</i>	116.897	0.064
2.	<i>Public Service Delivery / Performance</i>	57.439	--

2.3 **Brief comments on the status of compliance with PAC directives**

The Directorate General Audit (CC&E) started auditing and reporting National Disaster Risk Management Fund (NDRMF) since financial year 2016-17. No Audit Report has been discussed in PAC meeting so far.

2.4 AUDIT PARAS

Financial Management

2.4.1 Loss due to investment of Endowment Fund at lower interest rates - Rs. 132.575 million

According to Para 3 (2) of National Disaster Management Fund Rules-2016, Endowment Fund shall be invested in a portfolio or through a third party, a) in Government Securities at a fixed or variable rates of interest; b) the National Savings Schemes of the Federal Government at a fixed or variable rate of interest c) a scheduled bank that has a minimum credit rating of AA and is approved by the Board.

National Disaster Risk Management Fund (NDRMF) invested funds amounting to Rs. 13,995.80 million in 12-months MTB during the year 2022 at an interest rate of 11.50%.

During audit of the NDRMF for the financial year 2022-23, it was observed that during the currency of investment, the State Bank of Pakistan in 2022 raised the policy interest rate multiple times up to 16%, however NDRMF failed to take into the account the increase in policy rates and did not reinvest the funds at the increased interest rates as notified by the SBP from time to time.

An analysis made by the NDRMF revealed that had NDRMF chosen to prematurely withdraw the funds from MTBs and had reinvested the funds at the increased interest rates, it would have earned a profit of Rs. 1,777.820 million instead of Rs. 1,645.246 million which was realized from MTBs. This resulted into a loss of profit amounting to Rs. 132.575 million to NDRMF. Details of the working is at **Annexure-III**.

It was also observed that the matter related to loss was discussed in 34th Board of Directors (BoD) meeting, however, no action was taken to make good the loss suffered by NDRMF.

Audit held that non-investment of funds at the notified interest rates resulted in loss of profit to the Fund.

Initial observation was issued on 01.11.2023. The management replied that NDRMF achieved the highest profit rate of 22.79% from investment in MTBs during the period December 2022 to December 2023.

The reply of the management was not acceptable because audit had highlighted loss of profit on invested funds during the period December 2021 to December 2022, whereas the department's response highlighted the period December 2022 to December 2023. Further, the NDRMF had miscalculated its loss of profit. The reported figure indicates a loss of Rs. 101.792 million, while the actual loss due to low interest rates was Rs. 132.575 million.

DAC meeting was held on 22.01.2024. DAC directed the management of NDRMF to get the relevant record verified from audit authorities within one month to establish its stance.

Audit recommends implementation of DAC decision.

(FAP Audit Report 2022-23, NDRMF, OS No. 9)

2.4.2 Loss due to non-utilization of Australian Grant – USD 63,075 (Rs. 15.105 million)

Government of Australia through ADB committed funds amounting to USD. 3.362 million for Multi Hazard Vulnerability Risk Assessment (MHVRA) under Grant No. 0519-PAK dated 2.12.2016.

National Disaster Risk Management Fund (NDRMF) utilized an amount of USD 3.298 million out of total grant committed by donor.

During audit of NDRMF for the financial year 2021-22, it was observed that NDRMF could not fully utilize the funds within the grant closure date i.e. 31.05.2022. The grant closure date was extended to 31.12.2022, however the grant could not be utilized by the Fund even within the extended period. Consequently, the unutilized amount of USD 63,075 (PKR 15,105,447) was transferred back to the donor upon the expiry of revised closure date.

Audit held that non utilization of grant money was serious lapse on the part of management resulting in loss to government amounting to USD. 63,075 equivalent to Rs. 15.105 million.

Initial observation was issued on 01.11.2023. The management replied that NDRMF in collaboration with M/o NHR&C, prepared a project proposal for strengthening the health system covering the entire country. Accordingly, a PC-I was prepared and submitted to CDWP under Emergency Assistance for Fighting the Covid-19 pandemic. However, the PC-I faced deferral by CDWP on 10.01.2022, after raising key observations. Consequently, in line with CDWP comments and upon the request of the Minister M/o PD&SI, the matter was referred to NDRMF. The NDRMF Board, Chaired by the Deputy Chairman Planning Commission on 10.03.2022, recommended cancellation of the loan.

The reply was not satisfactory because the available grant funds were not utilized and were subsequently transferred back to the donor, resulting in a loss to the government.

DAC meeting was held on 22.01.2024. DAC directed the management of NDRMF that record/correspondence regarding requests made to the donor for extension in time of Grant and the decline of request by the donor be produced to audit authorities for verification.

Audit recommends implementation of DAC decision.

Note: The issue was also reported earlier in the Audit Report for the Audit Year 2022-23 vide Para No. 1.4.8 having financial impact of USD 0.838 million. Recurrence of same irregularity is a matter of serious concern.

(FAP Audit Report 2022-23, NDRMF, OS No. 12)

Public Service Delivery / Performance

2.4.3 Non-recovery from Pakistan Poverty Alleviation Fund (PPAF) due to cancellation of grant implementation agreement -Rs. 57.439 million

According to Section 13.3 of Grant Implementation Agreement (GIA), the Pakistan Poverty Alleviation Fund (PPAF), in the event of termination of Agreement by the NDRMF, shall transfer the entire amount granted under the Agreement.

National Disaster Risk Management Fund (NDRMF) signed a Grant Implementation Agreement (GIA) on 25.11.2019 with the Pakistan Poverty Alleviation Fund (PPAF) for the project "Building Resilience to Disasters and Climate Change" with a total cost of Rs. 823.984 million. The project completion date was 24.05.2021.

During the audit of the NDRMF for the financial year 2022-23, it was observed that the PPAF could achieve only 9.99% physical progress up to May 2023. Consequently, the agreement was cancelled by NDRMF on 08.05.2023.

It was further observed that an amount of Rs. 57.439 million was disbursed to PPAF in FY 2019-20, out of which Rs. 42.560 million remained unspent with the PPAF. However, no recovery of disbursed amount was made till date of audit i.e. October, 2023.

Audit held that non-completion of the project resulted in non-achievement of objectives of the DRR. Besides, the amount meant for disaster risk management in the country was held up with PPAF resulting in non-availability of funds for other projects related to DRR.

Initial observation was issued on 01.11.2023. It was replied that NDRMF is vigilantly engaged with the FIP for the recovery of amount. However, the matter is in dispute and at arbitration stage, therefore that may take time to reach to amicable solution.

DAC meeting was held on 22.01.2024. DAC directed that an inquiry be conducted by CFAO of the Ministry with the ToRs i.e. (i) Signing of GIA with FIP without due diligence (ii) workout actual loss to the Fund in terms of interest rate and commitment charges and (iii) fix responsibility. DAC further directed that comprehensive and conclusive inquiry report be submitted to PAO within one month.

Audit recommends implementation of DAC decision.

(FAP Audit Report 2022-23, NDRMF, OS No. 10)

2.4.4 Non-compliance with the directives of BoD and HR Committee regarding restructuring of NDRMF

According to the minutes of the 6th and 7th meetings of the HR Committee, specific instructions were issued to the NDRMF management to prepare draft proposal for downsizing the organization with the primary objective of reducing the salaries and recurrent costs to half of the estimated budget for the fiscal year 2022-23. Furthermore, the management was tasked to formulate Key Performance Indicators (KPIs) for each position for conducting performance appraisals up to the managerial level.

NDRMF in its 33rd BOD meeting held on 29.11.2022 directed the Human Resource Committee and NDRMF management to come up with a unanimous proposal in consultation with the donors/lenders for making the organization qualitative, resourceful, and more operational in terms of project portfolio and place it before the Board for consideration and final approval by 31.01.2023.

During the audit of NDRMF for the financial year 2022-23, it was observed that neither the downsizing and restructuring of NDRMF was carried out nor any proposal was submitted to the Board of Directors (BoD) within the specified timeframe to restructure the organization and reduce the recurring costs.

Audit held that inaction on part of the management led to non-restructuring of the organization and non-reduction in the recurring costs of the Fund.

Initial observation was issued on 01.11.2023. The management replied that in compliance to the BOD's directions, NDRMF management has taken substantial steps in consultation with donors, lenders and partners.

The reply was not satisfactory as the Board decisions regarding downsizing, reducing salaries, controlling recurrent costs and formulating Key Performance Indicators (KPIs) for performance appraisals were not followed and implemented.

DAC meeting was held on 22.01.2024. DAC directed that updated progress on the restructuring of NDRMF be provided during next DAC meeting.

Audit recommends implementation of DAC decision.

(FAP Audit Report 2022-23, NDRMF, OS No. 03)

Chapter 3

National Disaster Management Authority (NDMA)

3.1 Introduction

A. *National Disaster Management Authority* (NDMA) was established under the National Disaster Management Act, 2010. The Authority functions under the supervision of National Disaster Management Commission (NDMC) which is headed by the Prime Minister of Pakistan. NDMA manages the whole Disaster Management Cycle (DMC) which includes Preparedness, Mitigation, Risk Reduction, Relief and Rehabilitation.

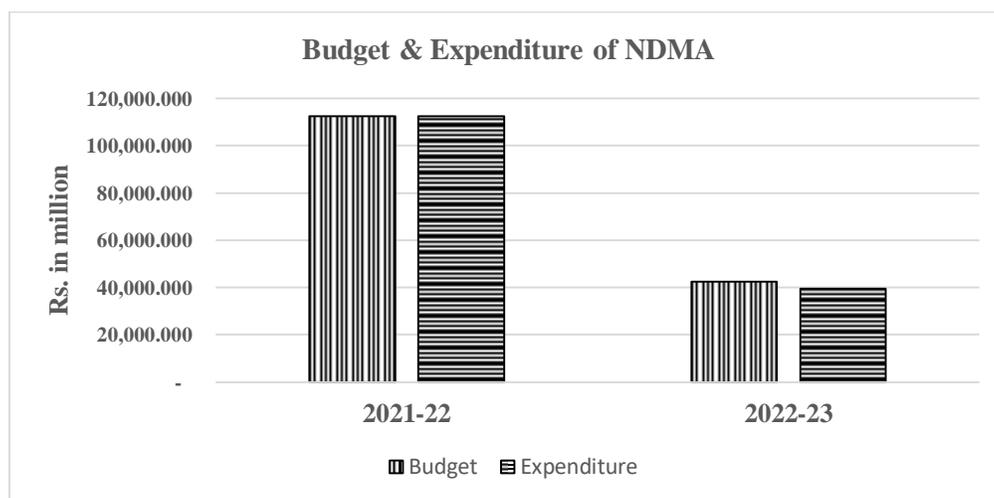

B. Comments on Budget and Accounts (Variance Analysis)

(Rs. in million)

Financial Year	Budget	Expenditure	Savings
2021-22	112,437.155	112,434.356	2.799
2022-23	42,347.419	39,498.689	2,848.730

Source: budget and expenditure statements

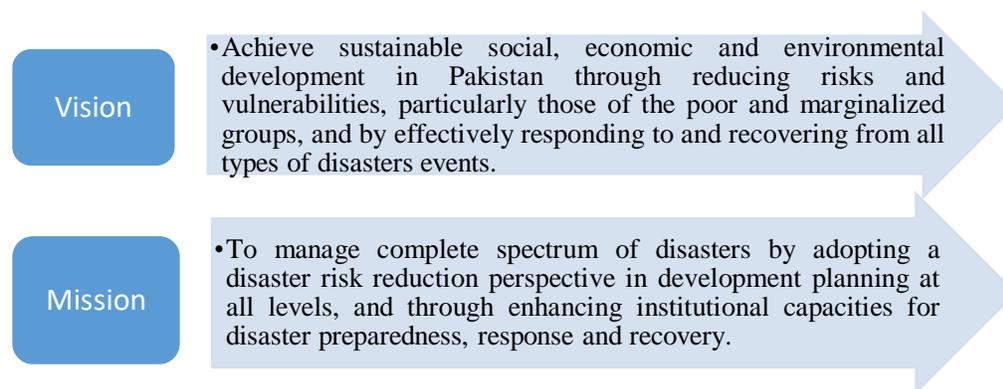

The graphical representation of budget and expenditure of NDMA is as under:

The major reason for decrease in budget and expenditure of NDMA in financial year 2022-23 was due to the allocation and corresponding expenditure on procurement of COVID-19 vaccine and Karachi Transformation Plan (KTP) during financial year 2021-22.

C. Sectoral Analysis

The NDMA aims to develop sustainable operational capacity to undertake disaster related activities by the relevant agencies. The vision and mission statement of NDMA defines its core objectives as under:

NDMA act as Secretariat of National Disaster Management Commission to facilitate implementation of Disaster related strategies. The main objectives of NDMA are as under:

- Map all the hazards in the Country and conduct risk analysis on a regular basis.
- Develop guidelines and standards for national and provincial stakeholders regarding their role in Disaster Risk Management.
- Ensure establishment of DM authorities and Emergency Operations Centers at provincial, district and municipal levels in hazards-prone areas.
- Provide technical assistance to federal ministries, departments and provincial DM authorities for disaster risk management initiatives.
- Organize training and awareness raising activities for capacity development of stakeholders, particularly in hazard-prone areas.
- Collect, analyze process, and disseminate inter-sectoral information required in an all hazards management approach.
- Ensure appropriate regulations are framed to develop disaster response volunteer teams.
- Create requisite environment for participation of media in DRM activities.
- Serve as the lead agency for NGOs to ensure their performance matches accepted international standards e.g., the SPHERE standards.
- Serve as the lead agency for international cooperation in disaster risk management. This will particularly include information sharing, early warning, surveillance, joint

training and common standards and protocols required for regional and international cooperation.

- Coordinate emergency response of federal government in the event of a national level disaster through the National Emergency Operations Center (NEOC)

Disaster / Emergency situations handled by NDMA are as under:

- Earthquake on 31 January 2018 (20km East of Bela, Balochistan& Hindukush Region)
- Shimshal Valley likely GLOF Situation.
- Margalla Hills Fires – March & May 2018.
- KotliSattian Forest Fire – May 2018.
- Islamabad Sunday Market Fire incidents in July 2018.
- Heat wave in Sindh – May 2018
- Monsoon Season – 2018.
- Covid-19
- Locust Combat Operation

In addition to above, NDMA has started to circulate and upload on its official website for general public, the alerts / updates issued by Pakistan Meteorological Department to all stakeholders in the country. In addition, the Daily Situation Report (DSR) is also circulated to stakeholders summarizing the cumulative disaster relief activities, water level in Dams/ reservoirs and rivers flow situation report by Flood Forecasting Division. Further, the Annual Report indicating the progress of NDMA was regularly being prepared and published on the NDMA’s website.

On the other side, the National Disaster Management Commission (NDMC) which is the strategic body to oversee the affairs of NDMA had a total of four (04) meetings since inception and no meeting was held after 28.03.2018. Moreover, the internal audit wing is not established in NDMA resulting in non-generation of internal audit reports and periodic review of internal controls within the organization. The physical verification of stores and stock also needs to be carried out on periodical basis, as the Authority is maintaining warehouses containing huge quantities of relief related items including medical equipment, PCR kits, food items and non-food items etc.

3.3 Brief comments on the status of compliance with PAC directives

The Directorate General Audit (CC&E) started auditing and reporting NDMA since 2015-16. PAC meeting on Audit Reports for the audit year 2015-16 to 2017-18 was held on 22.11.2021, wherein fifteen (15) Audit Paras were discussed. Current status of compliance with PAC directives for report discussed so far is given below:

Audit Report	Number of Audit Paras			Compliance		
	Discussed in PAC	Settled by PAC	Directives issued	Compliance Received	Awaited	Percentage of compliance
2016-17	15	09	06	00	06	00
2017-18	10	09	01	01	00	100%
2020-21 (Covid-19)	06	05	01	01	00	100%

The NDMA is required to implement the PAC directives pertaining to Audit Report of 2016-17.

3.4 AUDIT PARAS

Financial Management

3.4.1 Unauthorized expenditure from National Disaster Management Fund for non-specified purposes - Rs 143.097 million

According to Section 29 (5) of National Disaster Management Act 2010, the National Disaster Management Fund (NDMF) shall be administered by the National Authority towards meeting the expenses for emergency preparedness, response, mitigation, relief and reconstruction.

National Disaster Management Authority (NDMA) incurred an expenditure amounting to Rs.143.097 million on repair of vehicles, POL, TA/DA and miscellaneous operational expenditure out of National Disaster Management Fund (NDMF).

During audit of NDMA for the financial year 2022-23, it was observed that the National Disaster Management Fund (NDMF) was used for non-specified purposes and the amount meant for relief activities was unauthorizedly spent on POL, repair of vehicles and TA/DA expenses. The breakup of unauthorized payments from NDMF are as under:

(Rs. in million)

Sr. No.	Particulars	Amount
1.	Repair of Transport	40.152
2.	POL	57.406
3.	Miscellaneous operational expenditure by survey teams.	9.000
4.	TA/DA	36.539
Total		143.097

Audit further observed that regular budget for operational expenditure was separately provided to NDMA to meet the expenses related to POL, repair of vehicles, TA-DA and other operational expenditure. Therefore, incurrence of expenditure on the above activities was not authorized from NDMF.

It was also observed that the DAC meeting held on 09.03.2023 had decided to deposit the amount drawn from National Disaster Management Fund on account of payment to employees. However, in violation of the DAC decision, the Authority continued the practice of drawal of operational expenses from NDMF.

Audit held that expenditure on non-specified purposes out of NDMF account was un-authorized and contrary to the provisions of the NDMA Act resulting into unauthorized use of funds meant for relief and rehabilitation of affectees.

Initial observation was issued on 24.11.2023. The management replied that Section 29 (5) of the NDM Act 2010 allow the National Disaster Management Fund (NDMF) to cover expenses related to emergency preparedness, response, mitigation, relief and reconstruction. NDMA classifies its vehicles into staff cars and operational vehicles with operational vehicles specifically utilized for disaster-related activities across the country. Consequently, the expenditures was incurred for activities directly associated with disaster relief, response and reconstruction.

The reply was not satisfactory because NDMF cannot be utilized for the purposes other than specified in the Act. Further, regular budget for operational expenditure was separately provided to NDMA and the said expenditure was required to be incurred from the annual budgetary allocation.

DAC meeting was held on 29.12.2023. The DAC directed for obtaining ex-post facto approval of the competent authority of the said expenditure.

Audit recommends that the NDMF may be used for authorized purposes only and the amount may be refunded to the Fund.

Note: The issue was also reported earlier in the Audit Report for the Audit Year 2021-22 vide Para No. 3.4.10. Recurrence of same irregularity is a matter of serious concern.

(Para No. 38 of AIR 2022-23 NDMA)

3.4.2 Loss due to investment of NDMA Funds at lower interest rates – Rs. 800.690 million

According to Section 29 of National Disaster Management Act 2010, the Federal Government may, by notification in the official gazette, constitute a fund to be called the National Disaster Management Fund for meeting any threatening disaster situation or disaster.

National Disaster Management Authority (NDMA) maintained National Income Daily Account with National Bank of Pakistan (NBP) for the purpose of National Disaster Management Fund (NDMF). The closing balance in the bank account as on 30.06.2023 was Rs. 34,965.937 million.

During audit of NDMA for the financial year 2022-23, it was observed that interest rate paid by NBP was much lower than the policy rates notified by State Bank of Pakistan from time to time. Moreover, NBP had not increased the interest rates in consonance with increase in policy rates.

Audit held that low interest rates paid by the National Bank of Pakistan resulted in loss to the Authority amounting to Rs. 800.690 million. Details are as under:

(Rs. in million)

Date	Balance Principal Amount	Interest rate paid by NBP per annum	Interest paid	SBP policy rate	Difference in interest rate (less paid)	Loss
09.07.2022	32,420.865	11.19%	1,813.723	15.00%	3.81%	617.842

14.01.2023	30,572.554	14.80%	2,262.956	16.00%	1.20%	182.848
Total			4,076.679			800.690

Initial observation was issued on 24.11.2023. The management replied that matter is under process with NBP for higher interest rate as per SBP Policy.

DAC meeting was held on 29.12.2023. The DAC directed NDMA to take-up matter with NBP to apply the interest rates as per the SBP policy.

Audit recommends implementation of DAC decision.

(Para No. 25 of AIR 2022-23 NDMA)

3.4.3 Loss to government due to non-utilization of foreign grant – USD. 0.197 million

According to Section 2.01 of the Grant Agreement (Grant No. 0844-PAK) entered between Islamic Republic of Pakistan and Asian Development Bank on 16.09.2022 for Pakistan flood 2022 emergency response project, ADB agreed to make available an amount of three million Dollars (\$ 3,000,000) to the recipient from ADB's Asia Pacific Disaster Response Fund resources on terms and conditions set forth in the grant agreement.

Further, according to Section 3.04 of the Grant Agreement, the recipient shall not use the proceeds of the Grant, or allow the proceeds of the Grant to be used, for any expenditures incurred after the Grant closing date which is six months after the date of grant agreement i.e., 16.09.2022.

National Disaster Management Authority (NDMA) had utilized USD 2.802 million (equivalent to Rs. 775.192 million) out of total grant at the closing date.

During NDMA for the financial year 2022-23, it was observed that NDMA was not able to fully utilize the grant within specified time and an amount of USD 197,068.11 was expired being unutilized.

Audit held that inaction on part of NDMA resulted in loss of grant money meant for rehabilitation of the flood affectees 2022.

Initial observation was issued to management on 27.10.2023. Management replied that an unspent balance of USD 197,039.66 could not be consumed due to exchange rate distortions and supply chain disruptions in the local/international market during 2022.

The reply of the management was not acceptable because failure to maximize the utilization of the granted funds is serious lapse on the part of management of NDMA.

The DAC in its meeting held on 16.11.2023 directed that matter of extension of the completion date of foreign grant may be taken up with donor/EAD within 15 days.

Audit recommends implementation of DAC decision.

(Para No.03 of Financial Attest Audit Report of NDMA, FY 2022-23- ADB Grant No. 0844-PAK)

3.4.4 Un-authorized opening and operating of bank account without prior approval of Finance Division- Rs. 304.899 million

According to Rule 4 (1) of Cash Management (Treasury Single Account) Rules, 2020, no Government office shall open, operate or maintain a bank account for any purpose, except in accordance with the Act and these rules.

Further, according to Section 23 (2) Public Finance Management Act, 2019, no authority shall transfer public moneys for investment or deposit from government account including the assignment accounts to other bank account without prior approval from the Federal Government.

National Disaster Management Authority (NDMA) disclosed an amount of Rs. 304.899 million as cash receipts and Rs. 4.934 million as cash payments out of bank account titled “NDMF Disaster Risk Reduction Capacity Building” in the financial statements during the financial year 2022-23. The details are as under:

(Rs. in million)

Sr. No.	Particulars	Amount
Receipts		
1.	Serena Hotel Islamabad	20.000
2.	Asian Disaster Preparedness Center (ADPC)	6.000
3.	Kuwait embassy	278.899
Total		304.899
Expenditure		
1.	Capacity building- hiring of staff	4.934

During audit of NDMA for the financial year 2022-23, it was observed that NDMA opened a new bank account titled “NDMF Disaster Risk Reduction Capacity Building” during the financial year 2022-23 and received donations from different sources. However, approval of the Finance Division for opening and operating of the bank account was not obtained.

Audit held that opening and operation of bank account without approval of Finance Division was un-authorized and irregular.

Initial observation was issued to management on 27.10.2023. Management replied that Accounting Procedure of NDMF A/c empowers PAO NDMA to open more than one bank account in any scheduled bank which shall be opened with approval of National Authority. Further, it is clarified that NDMA did not open a new account, rather created a sub-account to park the funds specifically donated by national / International agencies.

The DAC in its meeting held on 16.11.2023 directed that NDMA’s stance may be shared with the

Finance Division and clarification in this regard may be solicited within 15 days.

Audit recommends implementation of DAC decision within 15 days.

(Para No.10 of Financial Attest Audit Report of NDMA, FY 2022-23)

3.4.5 Over payment to vendor on supply of food packs - Rs. 124.841 million

According to S.R.O. 1636(1)/2022 dated 30.08.2022 issued by Federal Board of Revenue (FBR) "the Federal Government exempted for a period of ninety days, the import and supply of the goods as certified by the National Disaster Management Authority or a Provincial Disaster Authority for relief operation for flood affectees, from the whole of the sales tax."

National Disaster Management Authority (NDMA) paid an amount of Rs. 1442.048 million to M/S Canteen Stores Department (CSD) on account of supply of food packs for flood affectees during the financial year 2022-23.

During audit of NDMA for the financial year 2022-23, it was observed that the supplier had included General Sales Tax (GST) in the invoices/bills, whereas, GST was exempt on supply of goods for relief operations for flood affectees. However, NDMA paid the entire amount which was inclusive of GST, thereby overpaid an amount of Rs. 124.841 million to M/S CSD. The details are as under:

(Rs in million)

Sr. No.	Voucher No.	Cheque No.	Date	Amount Exclusive of GST	Amount Inclusive of GST	Over payment
1.	108	86764787 & 87565916	30.09.22 & 18.11.22	454.535	502.191 (482.103 +20.087)	47.655
2.	416	87566032	21.12.22	862.672	939.858	77.186
Total						124.841

Audit held that over payment to vendor on account of GST resulted in loss of Rs. 124.841 million to government.

Initial observation was issued on 24.11.2023. The management replied that M/s Canteen Stores Department (CSD) is registered with the Federal Board of Revenue (FBR) and is exempted from "Sales Tax Withholding." Therefore, the advance deduction or withholding of sales tax for payments to M/s CSD is not applicable. As such, no excess payments was made to M/s CSD.

The reply was not acceptable because payments were made without deducting the GST amount claimed by the supplier which resulted into overpayment.

DAC meeting was held on 29.12.2023. The DAC directed to recover the overpaid amount from M/s CSD for depositing into government treasury.

Audit recommends implementation of DAC decision within 30 days.

(Para No. 32 of AIR 2022-23 NDMA)

3.4.6 Non-deduction of Sales Tax on Services- Rs. 28.498 million

According to Section 3 (1) of the Islamabad Capital Territory (Tax on Services) Ordinance 2001, there shall be charged, levied and paid a tax known as sales tax at rates specified in column (4) of Table-1 of the Schedule to this Ordinance of the value of the taxable services.

National Disaster Management Authority (NDMA) paid an amount of Rs. 203.809 million to M/S Nasrullah Khan & Company on account of transportation of goods and labour charges during the financial year 2022-23.

During audit of NDMA for the financial year 2022-23, it was observed that the contractor had included/added sales tax on services @ 16% and @18% in invoices. However, while making payment to contractor, ICT Sales Tax on Services amounting to Rs. 28.498 million was not deducted by NDMA. Details are attached at **Annexure-IV**.

Audit held that non deduction of ICT Tax on services was violation of the Ordinance and rules which resulted in loss of Rs. 28.498 million to government revenue.

Initial observation was issued on 24.11.2023. The management replied that Sales Tax on services has been deducted and deposited into Government Treasury.

DAC meeting was held on 29.12.2023. The DAC directed to provide documentary evidence for verification so as to establish the recovery of Sales Tax on Services.

Audit recommends implementation of DAC decision within 15 days.

(Para No. 33 of AIR 2022-23 NDMA)

Procurement

3.4.7 Irregular award of contract to National Logistic Cell - Rs 1,899.00 million

According to Rule 42 (f-iii & iv) of Public Procurement Rules 2004 (Direct Contracting with State Owned Entities), in case there are more than one organizations or bodies eligible to perform the works or render the services, the procuring agency shall hold competition amongst them through limited tendering (notifications) without any advertisements, however, giving reasonable time for submission of their applications or proposals. The procuring agency shall devise a mechanism for determining price reasonability to ensure that the prices offered by the state owned entities are reasonable for award of the contract.

National Disaster Management Authority (NDMA) awarded direct contract to National Logistic Cell (NLC) for construction of National Emergency Operation Centre (NEOC) building. The contract agreement amounting to Rs. 1,899.00 million between National Disaster Management Authority (NDMA) and National Logistic Cell (NLC) was signed on 20.03.2023. The detail of payments made to NLC during financial year 2022-23 are as under:

(Rs in million)

Sr. No.	Detail	Vendor	Voucher No.	Date	Cheque No.	Amount Paid
1.	IPC No 01	NLC	584	07.04.2023	94539365	281.041
2.	IPC No 02	NLC	611	19.04.2023	94539417	181.096
3.	IPC No 03	NLC	628	23.05.2023	94539437	113.214
4.	IPC No 04	NLC	633	26.05.2023	94539443	75.445
5.	IPC No 05	NLC	645	16.06.2023	94539458	547.371
6.	IPC No 06	NLC	655	27.06.2023	94539470	124.557
Total						1,322.726

During audit of NDMA for financial year 2022-23, it was observed that notice for invitation of bids was issued on 20.02.2023 to M/s NLC, M/s FWO and M/s Railcop with the instruction to submit bid latest by 27.02.2023 which was further extended upto 01.03.2023. Only one bidder i.e. M/s NLC submitted the bid which was accepted and contract was awarded on the basis of single bid. However, no mechanism was established for determining price reasonability to ensure that the prices offered by M/s NLC (single bidder) were reasonable for award of the contract in violation of Rule of 42(f-iv) of public procurement rules.

Audit held that award of construction work of NEOC building without determining the price reasonability of the cost offered through single bid was not justified.

Initial observation was issued on 31.10.2023. The management replied that contract was awarded under Rule 42 (f-iii & iv) of Public Procurement Rules 2004 (Direct Contracting with State Owned Entities) and Section-32 of NDM Act 2010. Further, ample response time was given with extension upto 1st March 2023.

The reply was not satisfactory as no mechanism was established for determining price reasonability to ensure that the prices offered by NLC were reasonable.

DAC meeting was held on 29.12.2023. DAC directed to provide documentary evidence of mechanism adopted by management to determine the price reasonability of rates quoted by NLC in light of rule 42(f-iii & iv).

Audit recommends implementation of DAC decision.

(Para No. 14 of AIR 2022-23 NDMA)

3.4.8 Mis-procurement of kerosene heaters and mats for flood affectees 2022 - Rs. 222.592 million

According to Rule 4 of Public Procurement Rules, 2004, procuring agencies, while engaging

in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

National Disaster Management Authority (NDMA) procured kerosene heaters and mats amounting to Rs. 222.592 million during financial year 2022-23 for flood affectees 2022 out of ADB grant. The details are as under:

(Rs. in million)

Sr. No.	Name of Items	Name of Vendor	Qty.	Unit Price	Total Cost
1.	Kerosene Heater	M/s Majid Traders	7,167	10,350.00	74.178
2.	Bubble Mats	M/s International Business Services	43,000	3,451.50	148.414
Total					222.592

During audit of NDMA for financial year 2022-23, it was observed that NDMA published tender notice in newspapers on 22.11.2022 and last date for bid submission was 28.11.2022 thereby allowing response time of only seven (07) days, on plea of emergency. However, the procured items were neither issued nor utilized and were lying un-utilized in warehouse as on 30th June, 2023.

It was further observed that NDMA had neither prepared annual procurement plan at the start of the year nor uploaded the same on PPRA website and thus procurements were made without any planning in violation of procurement rules.

Audit held that procurement on emergency basis by reducing response time without any immediate requirement resulted in non-competitive procurement and deprived the government of competitive rates.

Initial observation was issued to management on 27.10.2023. It was replied that due to exchange rate fluctuations, acute shortage of dollars, distortions and supply chain disruptions in the local/international market and due to holidays in China, Competent Authority granted extension in delivery time on request of firms. Due to late delivery of items, winter season had passed, therefore, items could not be delivered to flood affectees.

The reply of the management was not acceptable because sufficient response time was not allowed to achieve competitive bidding process. Further, items procured on emergency basis were not issued till date which shows items were unnecessary purchased.

The DAC in its meeting held on 16.11.2023 directed NDMA to conduct assessment in flood affected areas and point-out most vulnerable and un-attended flood-hit affectees. It was also directed by the DAC that ADB and EAD may also be intimated regarding the provision of the relief items to affectees of other hydrometric event, because most of the flood-2022 affectees had received humanitarian

assistance. DAC also directed that need-Assessment report may be shared with the Audit authority comprising list of vulnerable affectees along-with delivery status of the relief items procured out of ADB Funds.

Audit recommends implementation of DAC directives.

(Para No.01 of Financial Attest Audit Report of NDMA, FY 2022-23-ADB Grant No. 0844-PAK)

Public Service Delivery / Performance

3.4.9 Non-holding of National Disaster Management Commission meetings on regular basis for strategic guidance on disaster management in Pakistan

According to Section 4 (1) of National Disaster Management Act, 2010, the National Commission shall meet as and when necessary and at such time and place as the Chairperson of the National Commission may think fit.

Further according to agenda item 1(a) of National Disaster Management Commission meeting held on 28.03.2018, the members showed concerns and hoped that the meetings of the Commission will be held on annual basis.

National Disaster Management Commission (NDMC) held its last meeting on 28.03.2018.

During audit of NDMA for the financial year 2022-23, it was observed that NDMC had held only 05 meetings in total and the last meeting of the Commission was held 28.03.2018. Details of the meetings held so far are as under:

Sr. No.	NDMC meetings	Dates of meetings
1.	First meeting	05.03.2007
2.	Second meeting	03.01.2009
3.	Third meeting	19.08.2010
4.	Fourth meeting	21.02.2013
5.	Fifth meeting	28.03.2018

Audit held that non-conducting of regular meetings of NDMC was not justified leading to delay in review and approval of issues of strategic and national importance. The issue assumes more importance keeping in view the fact that Pakistan faced earthquakes, pandemic in shape of Covid-19 and successive floods in last few years and the strategic guidance from NDMC was not available.

Initial observation was issued on 13.10.2023. The management replied that NDMA management tried their level best to secure availability of the Prime Minister of Pakistan by moving summaries for NDMC meeting. However, the meeting of the Commission could not be materialized.

DAC meeting was held on 29.12.2023. The DAC directed NDMA to pursue the matter for holding the NDMC meeting.

Audit recommends implementation of DAC decision.

(Para No. 06 of AIR 2022-23 NDMA)

3.4.10 Un-authorized issuance of flood relief items to Turkiye/ Syria procured out of ADB Grant – Rs. 552.599 million

According to Schedule-I of Grant Agreement entered between Asian Development Bank (ADB) and Islamic Republic of Pakistan “the project consist of activities relating to provision of life preserving services for communities affected by monsoon flood 2022 disaster”. Grant Agreement between ADB and Islamic Republic of Pakistan for 3 million Dollars (\$3,000,000) was signed on 16.09.2022 for emergency response against Flood 2022 in Pakistan.

NDMA procured winterized tents and blankets out of ADB Grant during financial year 2022-23 for flood affected people of Pakistan. The details are as under:

(Rs. in million)

Sr. No.	Name of Items	Quantity	Unit Price	Name of Vendor	Total Cost
1.	Winterized tents	7,167	62,500	M/s Usman Traders	447.937
2.	Blankets	43,000	2,434	M/s Fazaldin Trade Solicitors	104.662
Total					552.599

During audit of NDMA for the financial year 2022-23, it was observed that in contravention of the provisions of the grant agreement and the stated purposes, the winterized tents and blankets procured out of ADB Grant for flood affectees of Pakistan were dispatched to Turkey and Syria

Audit held that the ADB Grant was specifically meant for activities relating to provision of life preserving services for communities affected by monsoon flood 2022 disaster. Therefore, the utilization of grant for other purposes was unjustified and deprived the flood affectees 2022 in the country.

Initial observation was issued to management on 27.10.2023. Management replied that the relief items (tents, blankets) procured out of ADB grant had to be diverted to the earthquake affected population of Turkiye / Syria due to very tight timeline of relief operation given by the Prime Minister and has also been recouped/re-stocked for the purpose grant was made.

The DAC in its meeting held on 16.11.2023 directed to take-up the matter with the ADB for concurrence and acceptance of the use of flood relief items for other purposes based upon vulnerability. After that completion report of the project may also be shared with the Audit authorities.

Audit recommends implementation of DAC decision.

(Para No.02 of Financial Attest Audit Report of NDMA, FY 2022-23, ADB Grant No. 0844-PAK)

3.4.11 Non-recovery of Liquidated Damages charges from supplier – Rs. 28.762 million

According to Clause 6 of the contract agreement, if supplier fails to deliver any or all of the goods or perform the services within the time period(s) specified in the work order, purchaser/consignee shall without prejudice to its other remedies under the contract, shall have the right to claim liquidated damages and the supplier shall pay to purchaser as liquidated damages.

Further, according to Clause 8 (c) of the contract agreement, the time for delivery of the stores as stipulated in the work order shall be taken as the essence of the contract.

National Disaster Management Authority (NDMA) paid an amount of Rs. 1,060 million to M/s H. Sheikh Noor-Ud-Din & Sons Pvt. Ltd. during the financial year 2022-23 on account of procurement of 2,000,000 mosquito nets. As per work order issued to the supplier, the delivery was required to be completed on 26.08.2023. Due to non-delivery of the mosquito nets on time, NDMA deducted an amount of Rs. 3,127,000 as liquidated damages (LD) at the rate of Rs. 0.2 percent per day of delay.

During audit of NDMA for the financial year 2022-23, it was observed that total LD charges which were required to be deducted amounted to Rs. 31.890 million, whereas, an amount of Rs. 3.127 million only was deducted which resulted in less recovery of Rs. 28.762 million LD charges from the supplier. Details are at **Annexure-V**.

Audit held that less deduction of LD charges resulted in loss to the public exchequer.

Initial observation was issued on 13.10.2023. The management replied that 2.00 million mosquito nets were purchased for the flood-affected. A quantity of 0.502 million nets were delivered on the same day i.e. 26.08.2022 while balance quantity of 1.497 million were scheduled for delivery by 14.09.2022 due to a daily production capacity of 0.100 million. Further, liquidated damages of Rs. 3.127 million (@ 0.2% per day) were deducted and recovered from the vendor for late delivery beyond the deadline.

DAC meeting was held on 29.12.2023. The DAC decided that NDMA shall examine the case of the supplies delivered beyond the agreed delivery time and grant / notify Extension of Time (EoT) after recording proper reasons and justification.

Audit recommends implementation of DAC decision.

(Para No. 01 of AIR 2022-23 NDMA)

3.4.12 Non-Conducting of Independent Third Party Audit of Donor Assistance for Flood Relief 2022

According to Prime Minister Office, Islamabad letter No 3(1)/DS(Cab)/2022(559) dated 8th September 2022, “To ensure full transparency and accountability of donor assistance received for flood relief and rehabilitation 2022, the Prime Minister is pleased to direct that independent Third Party Audit by reputed chartered accountancy firms shall be arranged both by federal and provincial implementation agencies, in consultation with the respective donors”.

National Disaster Management Authority (NDMA) received ADB grant amounting to USD 3.00 million for flood affectees 2022 (Grant No. 0844-PAK) and incurred expenditure amounting to USD 2.802 million (equivalent to Rs. 775.192 million) out of total grant during financial year 2022-23.

Further, NDMA also received other donations amounting to Rs. 304.898 million for flood 2022 affectees and incurred expenditure amounting to Rs 4.934 million out of these donations during financial year 2022-23. Details are as under:

(Rs. in million)

Sr.No.	Description	Amount
1.	Donation received from Serena Hotel Islamabad	20.000
2.	Donation received from Asian Disaster Preparedness Center (ADPC)	6.000
3.	Donation received from Kuwait Embassy	278.898
Total		304.898

During audit of NDMA for the financial year 2022-23, it was observed that independent third party audit from reputed chartered accountancy firm of the donations/grants received for flood 2022 was not carried out by NDMA.

Audit held that non-arrangement and carrying out of independent third party audit from chartered accountancy firm was violation of directions of Prime Minister’s office.

Initial observation was issued on 24.11.2023. The management replied that the grant was mentioned in the Annual Financial Statement (AFS) of NDMA for the Financial Year 2022-23 and the same was audited by the certification audit team from the O/o the Directorate General Audit (Climate Change & Environment), Islamabad.

The reply was not acceptable because independent third party audit from chartered accountancy firm was required to be carried out in compliance of the instructions of Prime Minister’s office.

DAC meeting was held on 29.12.2023. DAC directed NDMA to arrange third party audit of the funds in respect of ADB Grant for flood-2022.

Audit recommends implementation of DAC decision.

(Para No. 24 of AIR 2022-23 NDMA)

Chapter 4

Ministry of Climate Change and Environmental Coordination

Islamabad

4.1 Introduction

A. The Government of Pakistan in exercise of the powers conferred by Articles 90 and 99 of the Constitution of Islamic Republic of Pakistan constituted the Ministry of National Disaster Management to handle the functions retained at the federal level after the 18th Amendment. The new Ministry was envisaged to act as a reporting agency for international /national commitments and coordinate to enable provinces to develop their capacities to effectively handle their responsibilities.

The Ministry of National Disaster Management was later renamed as Ministry of Climate Change owing to the magnitude and recurrence of climate change related disasters, such as consecutive floods of 2010, 2011 and 2012. The Ministry of Climate Change has been vested with the mandate to comprehensively address disaster management along with spearheading national climate change initiatives related to adaptation and mitigation. The Ministry of Climate Change was renamed as Ministry of Climate Change and Environmental Coordination vide Cabinet Secretariat (Cabinet Division) Government of Pakistan Memorandum dated 20.04.2023.

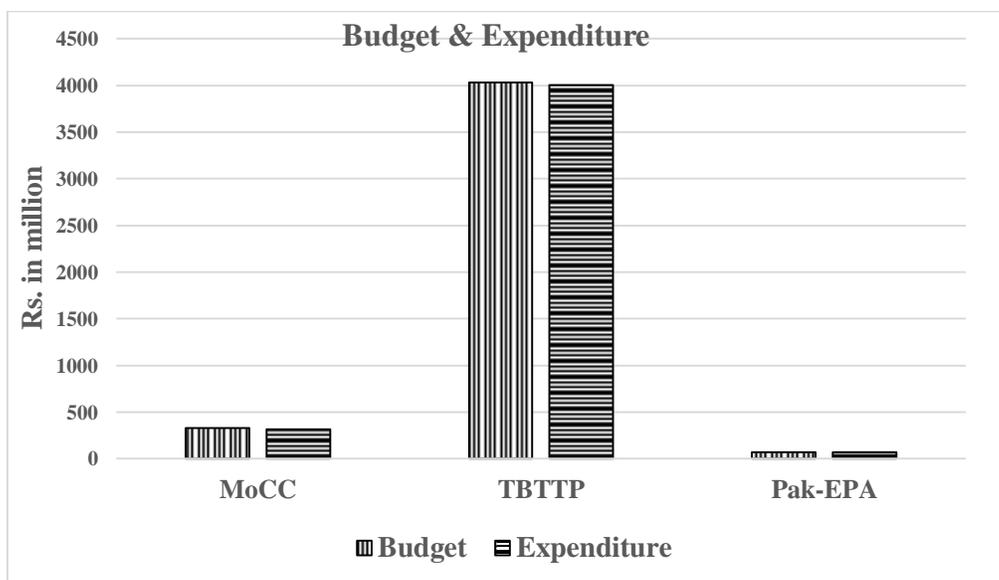

B. Comments on Budget and Accounts of audited entities (Variance Analysis)

C. Sectoral Analysis

The subject of environment and climate change has attracted the attention of policy makers worldwide in the last few decades. Due to drastic changes in the global climate and emerging threats, the governments around the world are focusing on policies and plans to mitigate risks as well as invest in different ventures for sustainable development.

According to Long Term Climate Risk Index (CRI), Pakistan was ranked amongst the top ten most climate change affected countries during 2000-2019¹⁴. The country is prone to a number of hazards such as floods, earthquakes, droughts, glacial lake outburst flood (GLOF) and landslides etc. In past, Pakistan has witnessed massive human, structural and financial losses e.g. the consecutive floods during 2010 to 2014 have resulted in monetary losses of over USD 18 billion with 38.12 million people affected, 3.45 million houses damaged and 10.63 million acres of crops destroyed. Agricultural sector growth dropped from 3.5% to 0.2% between 2009 and 2010 due to 2010 flood. Similarly, 1,200 people died in Karachi during unprecedented heat wave in 2015¹⁵.

In the aftermath of monsoon season 2022, massive rains and flash floods caused widespread damages impacting over 33 million people in Pakistan while the provinces of Sindh and Balochistan have been the most affected, all other provinces and regions were also affected at varying scales with massive damage to infrastructure and livelihood¹⁶. Hundreds and thousands of peoples were displaced with over 6.500 million homes washed away / damaged.

Pakistan is party to a number of regional and international environmental agreements and forums e.g. UNFCCC, UNCCD, Cartagena Protocol, Nagoya Protocol, CITES, IPBES, Ramsar Convention, Malé

¹⁶ <http://paistanconsultehuston.org/prime-ministers-flood-relief-fund-2022>

Declaration on Trans-boundary Air Pollution, SACEP, SAARC, UNEP, UN Habitat, UNICEF, UNCSD, GLOBE etc. Ministry of Climate Change works as a focal federal institution to fulfill international obligations under various multilateral environmental agreements (Conventions, Protocols and Treaties etc.) to establish National Environmental Quality Standards and facilitate & harmonize environmental standards, laws, acts and policies at national level.

Attached Departments of Ministry of Climate Change and Environmental Coordination(MoCC&EC)

The Ministry of Climate Change carries out its functions through various attached departments as under:

PSDP allocation for FY 2022-23 & major projects / programs of MoCC

Under the Federal PSDP 2022-23 for Climate Change Division, the total allocation was Rs. 9,500.00 million.¹⁷ The utilization of the funds and major PSDP projects / programs of MoCC are tabulated below:

(Rs. in million)

Sr. No.	Name of Project	Funds released during 2022-23	Utilization up to 30.06.2023
1.	Capacity Building on Water Quality Monitoring & SDG (6.1)	22.990	21.911
2.	Climate Resilient Urban Human Settlement Unit	16.659	15.415
3.	Up-scaling of Green Pakistan Programme (Revised)	4,031.000	4,005.630

Source: Funds and expenditure statements provided by MoCC

Ten Billion Tree Tsunami Program (TBTP) is a major ongoing project of Ministry of Climate Change in terms of budget and expenditure. An analysis of physical performance of forestry component of TBTP for the financial year 2019-20 to 2022-23 is as under:

(Figures in million)

Moreover, the Ministry has undertaken a number of foreign funded projects relating to a variety of issues concerning environment. The projects are detailed as under:

Sr. No.	Title
1.	Glacial Lake Outburst Flood (GLOF-II)
2.	Transforming the Indus Basin with Climate Resilient Agriculture and Water Management
3.	Pakistan Snow Leopard & Ecosystem Protection Program (PSLEP)
4.	National Ozone Unit

Source: <http://www.mocc.gov.pk>

Plans and Policies

The Ministry of Climate Change and Environmental Coordination (MoCC&EC) has formulated various policies/programs related to climate change and environmental issues. These include:

- i. National Action Program to Combat Desertification in Pakistan (2002)
- ii. National Environment Policy (2005)
- iii. National Water Policy (2005)
- iv. National Wetland Policy (2007)
- v. Drinking Water Policy (2009)
- vi. National Rangeland Policy (2010)
- vii. National Sanitation Policy (2012)
- viii. National Forest Policy (2016)

- ix. National Electronic Vehicle Policy (2019)
- x. National Climate Change Policy (2021)
- xi. National Biodiversity Strategies and Action Plan 2017-2030.

Source: <http://www.mocc.gov.pk>

Organizational Management and Governance

A sound organizational management and governance play a vital role in accomplishment of desired objectives. The findings of this report and previous audit reports indicate that the Government in Pakistan successfully installed a comprehensive governing framework related to environment and climate change. However, full benefits are still to be achieved due to non-operationalization and non-functioning of a number of important forums e.g. Pakistan Climate Change Authority. Moreover, key posts including Deputy Inspector General (Forest), Deputy Directors and Deputy Conservator were not filled. Non-appointment of key staff is likely to hamper the implementation of policies related to forest and achievement of stated objectives and targets related to environment and climate change in the country.

MoCC&EC executed a number of development schemes, however, the monitoring and evaluation of the schemes could not be carried out properly. The post of Chief Finance & Accounts Officer (CF&AO) could not be created even during financial year 2022-23 which was a violation of the PFM Act having consequences towards efficient financial management practices. Similarly, the post of Chief Internal Auditor was also not created in the Ministry depriving the management to install, review and update effective internal control mechanism.

Implementation

Ministry of Climate Change and Environmental Coordination is the apex policy making body which formulates policies related to environment and Climate Change. The implementation of these policies, programs and projects is the responsibility of a variety of implementation agencies at federal, provincial and district levels. These implementing agencies mainly include provincial Agriculture, Forest, Livestock, Fisheries & Irrigation Departments as well as the Federal & Provincial Environmental Protection Agencies. The cross-cutting nature of activities spanning over a number of agencies at various level of the government makes it difficult to effectively coordinate and follow-up the plans and program.

4.3 *Brief comments on the status of compliance with PAC directives*

The Directorate General Audit (CC&E) Islamabad started auditing and reporting Ministry of Climate Change and Environmental Coordination Islamabad since 2018-19. Ten (10) Paras pertaining to the Audit Report of MoCC&EC for the Audit Year 2019-20 were discussed in the PAC meeting held on 25.11.2021. Current status of compliance with PAC directives for report discussed so far is given below:

	Number of Audit Paras	Compliance
--	------------------------------	-------------------

Audit Report	Discussed in PAC	Settled by PAC	Directives issued	PAC Directives fully implemented	PAC Directives partially implemented	Percentage
2019-20	10	03	07	05	02	85%

The Ministry is required to fully implement the remaining PAC directives.

4.4 AUDIT PARAS

Financial Management

4.4.1 Loss due to non-utilization of foreign grant – USD 848,669 (Rs. 186.165 million approx.)

According to Grant Agreement between Islamic Republic of Pakistan and International Bank for Reconstruction and Development, an amount of USD 7.814 million was allocated as Readiness Fund (REDD+ Readiness Preparation Grant) of the Forest Carbon Partnership Facility.

The REDD+ Project utilized an amount of USD 6.965 million till closure of the project i.e. 30.11.2023.

During audit of REDD+ Project for the financial year 2022-23, it was observed that out of the total grant (USD 7.814 million), Project management claimed and received an amount of USD 7.590 million through withdrawal applications during the period 2015-16 to 2022-23. Resultantly, an amount of USD 224,024 remained unclaimed till closure of the project.

It was further observed that out of claimed / received amount, only an amount of USD 6.965 million was utilized, leaving an amount of USD 624,645 (PKR 137.023 million) unutilized which was returned back to the donor.

Audit held that non-utilization of grant was serious lapse on the part of management resulting in loss to government amounting to USD 848,669 (USD 224,024 + USD 624,645) equivalent to Rs. 186.165 million. {USD 848,669.71 x Rs. 219.36 (exchange rate for the returned amount of Rs. 137.023 million)}

Initial observation was issued on 14.11.2023. The management admitted that the grant amount could not be fully utilized by the closing date due to various reasons i.e. high variation in dollar conversion rates, COVID-19, frequent transfers of NPDs/Secretary MoCC and non-approval of some of the planned activities by the NPD.

The management was requested to convene DAC meeting vide letters dated 14.11.2023 and 28.11.2023. However, the meeting was not convened by the PAO till finalization of this report.

Audit recommends that inquiry may be conducted by the controlling Ministry for fixing responsibility for non-utilization of the committed grant resulting in loss to the Government.

(Para No.1 of Financial Attest Audit Report of REDD+, FY 2022-23)

4.4.2 Loss due to non-declaration of MACF as non-profit organization – Rs. 28.459 million

According to Section 2, Clause 36 of Income Tax Ordinance 2001, non-profit organization means any person other than an individual, which is established for religious, educational, charitable, welfare or development purposes, or for the promotion of an amateur sport, formed and registered under any law as a non-profit organization and approved by the Commissioner for specified period, on application made by such person in the prescribed form and manner, accompanied by the prescribed documents and, on requisition, such other documents as may be required by the Commissioner.

Mountain Area Conservancy Fund (MACF) working under Ministry of Climate Change was established and registered in 2003 as company, as not-for-profit organization under Section 42 of Companies Ordinance,

1984. MACF maintained three bank accounts and funds amounting to Rs. 785.348 million was available on which profit of Rs. 134.861 million was earned during the financial year 2022-23.

During the audit of Ministry of Climate Change and Environmental Coordination (MoCC&EC) for the financial year 2022-23, it was observed that:

- i. MACF management did not applied for declaration of MACF as non-profit organization resultantly MACF was not included in 2nd schedule of Income Tax Ordinance 2001 and therefore, was not exempted from deduction of withholding tax.
- ii. The banks deducted an amount of Rs. 28.459 million on account of withholding tax on the profit / interest earned on the funds despite the fact that the entity being a non-profit organization was exempt from withholding tax. Details are as under:

(Rs. in million)						
Sr. No.	Account No.	Title of Account	Bank Name	Opening Balance	Profit earned	Withholding tax deducted
1.	0604591481001773	MACF	MCB ENERCON Building G-5/2 Islamabad	773.884	132.988	28.185
2.	2006308107		Silk Bank F-10 Markaz Islamabad	1.305	0.213	0.029
3.	2005176247		-do-	10.159	1.660	0.245
Total						28.459

Audit held that due to inaction on the part of the management, the MACF could not be included in 2nd schedule of Income Tax Ordinance and declared non-profit organization. Resultantly, banks withheld Income Tax on profit earned. This caused MACF a loss of amounting to Rs. 28.459 million.

Initial observation was issued on 24.07.2023. The management replied that in 29th Board Meeting of MACF held on 03.05.2023, it was proposed to engage a Legal Adviser but this item was not discussed as the board decided that, the available MACF amount may be equally transferred to the Biodiversity Funds established by KP and GB after fulfilling the required legal process and procedures.

The reply was not satisfactory as loss sustained to MACF due to non-declaration as non-profit organization since inception.

DAC meeting was held on 14.11.2023. The DAC directed the management to take up matter with FBR and submit report thereof within 30 days.

Audit recommends implementation of DAC decision within 30 days.

Note: The issue was also reported earlier in the Audit Report for the Audit Year 2022-23 vide Para No. 2.4.6 having financial impact of Rs. 13.922 million. Recurrence of same irregularity is a matter of serious concern.

(Para No. 7 of AIR 2022-23, MoCC&EC)

4.4.3 Non-utilization of Clean Environment Fund and non-investment of the surplus money of Company – Rs. 11.164 million

According to Clause III of Memorandum of Association, 'Clean Environment Fund' was established to regulate, conserve and sustainably manage natural resources under the Federal Government's jurisdiction and provide technical, financial and institutional assistance. Additionally, the CEF aims to establish and maintain analytical Geographic Information System (GIS) labs, promote research for sustainable environmental protection and collaborate with environmental NGOs and civil society for awareness and advocacy.

Further, according to Section IV(10) of Memorandum of Association (MoA) of Clean Environment Fund, in order to achieve its object, the company shall exercise the power to invest the surplus moneys of the company not immediately required in such a manner as may from time to time be determined by the company.

The Clean Environment Fund (CEF) operating under the Pakistan Environmental Protection Agency (Pak-EPA), was established in 2015 as a not-for-profit organization under Section 42 of the Companies Ordinance, 1984. In June 2016, an initial fund of Rs. 6.790 million was deposited into CEF account. During the period from June 2016 to May 2019, additional funds amounting to Rs. 4.374 million were received through donations and fines. The total fund with CEF as on 30th May 2019 was Rs. 11.164 million as per available bank statement.

During the audit of Pak-EPA for the financial year 2021-22 and 2022-23, it was observed as under:

- i. There was no record and bank statement available with the management to ascertain the exact amount in the Fund as on 30.06.2023.
- ii. The available funds with CEF were not being utilized to achieve the stated objectives.
- iii. On one hand the available funds with CEF remained unutilized, while on the other hand, the unutilized funds were not invested in profitable opportunities to earn profit on the parked funds.
- iv. The management did not applied for declaration of CEF as non-profit organization resultantly CEF was not included in 2nd schedule of Income Tax Ordinance 2001 and therefore, was not exempted from deduction of withholding tax.

Audit held that non utilization of CEF for intended purposes and non-investment of the parked funds resulted in loss to the Government.

Initial observation was issued on 25.08.2023. Management replied that CEF is currently dormant and notification has not been issued in respect of members for Board of Directors (BoDs). Upon reactivation of the Fund, the same will be got included in 2nd schedule under Income Tax Ordinance 2001. The surplus amount of the fund will be invested in accordance with the decision / approval of Board of Directors (BoD).

The PAO was requested to convene DAC meeting vide letters dated 14.09.2023, 10.10.2023 and 30.10.2023. However, the meeting was not convened by the PAO till finalization of this report.

Audit recommends that the CEF may be operationalized as conceived and surplus funds may be invested as required under MoA.

(Para No. 7 of AIR 2022-23, Pak-EPA)

Public Service Delivery / Performance

4.4.4 Non-achievement of plantation targets under TBTP and non-plantation of 1,227.14 million plants

According to Para 4 of PC-I of Ten Billion Tree Tsunami Program (TBTP), funds amounting to Rs. 109,380 million were earmarked under forestry component for the period 2019-20 to 2022-23. Further, according to Para 11.6, the programme will be funded by Government of Pakistan, co-financed by Provincial Governments and Planning Commission will release funds in a bi-annual manner.

Ministry of Planning Development & Special Initiatives (M/o PD&SI) released funds amounting to Rs. 24,052.800 million to TBTP under forestry component during financial year 2019-2023.

During Audit of National Strategic Support Unit of Ten Billion Tree Tsunami Program (NSSU-TBTP), Islamabad for financial years 2022-23, it was observed that:

- i. During the period from 2019 to 2023, against the target plantation of 3,296.00 million plants, only 2,068.86 million plants were actually planted. As a result, 1,227.14 million plants could not be planted. Details are as under:

(Figures in million)

Sr. No.	Province/ Territory	No. of plants (planted/ regenerated/distributed)			
		Target as per PC-I (2019-23)	Achievement (2019-23)	Remaining Target	%age of Achievement
1.	Punjab	466.00	329.47	136.53	71%
2.	Sindh	1,000.00	794.76	205.24	79%
3.	KP	1,000.00	695.58	304.42	70%
4.	Balochistan	100.00	17.37	82.63	17%
5.	AJK	560.00	161.68	398.32	29%
6.	GB	170.00	69.99	100.01	41%
Total		3,296	2,068.86	1,227.14	63%

- ii. Further, beside plantation, various other allied activities were also provided in the Umbrella PC-I for Sindh, KP, Balochistan, AJK and GB regions. However, the targets related to allied activities were also not met by these regions during the duration of PC-I i.e. 2019-2023. Details are at **Annexure-VI**.
- iii. During the financial year 2022-23, 50% of the positions at NSSU and PSSUs remained vacant. Details are at **Annexure-VII**.
- iv. Key positions of Deputy Project Director Wildlife, Media & Communication and Manager GIS remained unfilled at NSSU.
- v. PSSUs remained non-functional and key positions of Regional Project Directors (RPDs) in Forestry and Wildlife were vacant since the inception of programme.

Audit held that failure to plant 1,227.14 million trees and the non-achievement of targets for allied activities led to non-achieving the objectives of the Ten Billion Tree Tsunami Programme (TBTTP). Further, non-appointment on key positions hindered the implementation and oversight of forestry and wildlife initiatives under the programme.

Initial observation was issued on 10.08.2023. The management replied that as per the Umbrella PC-I, Rs. 64,099 million was allocated for the forestry component for financial year 2019-2023. However, only Rs. 24,052 million (37.5%) were released to executing agencies. Despite the partial funding, the program has achieved 63% of its plantation targets, marking a significant success.

DAC meeting was held on 14.11.2023. The DAC directed to take up the matter with Mo PD&SI and Ministry of Finance regarding non-achievement of targets due to non-release of funds in accordance with PC-I. The matter may also be brought to the notice of ECNEC.

Audit recommends implementation of DAC decision.

(Para No. 12 of AIR 2022-23, TBTTP)

4.4.5 Non-carrying out proper geo-positioning of plantation sites to ascertain plantation progress under TBTTP

According to Annex III of PC-I of Ten Billion Tree Tsunami Program (TBTTP), Geographic Information Systems (GIS) Lab will be established at National Strategic Support Unit (NSSU) Islamabad with main objective of GIS based monitoring system through establishing the hardware and software tools. GIS Lab will help in evidence-based monitoring of on ground plantation progress and development of National Geo-Database for Forestry & Wildlife.

National Strategic Support Unit of Ten Billion Tree Tsunami Program (NSSU-TBTTP) under the MoCC&EC established a GIS Section at NSSU Islamabad for progress review and monitoring. Details of GIS data maintained by NSSU is as under:

Sr. No.	Provinces	Total No. of Sites 2019-23 as Forestry section NSSU	2019-2022 as per GIS Section			
			Reported Data by PMUs	Data on GIS format	Data not available on GIS Format	Monitored Sites by NSSU
1.	Punjab	3,290	2,575	2,560	15	108
2.	Sindh	1,013	956	956	-	71
3.	Khyber Pakhtunkhwa	10,157	10,099	8,305	1,794	434
4.	Balochistan	408	326	326	-	64
5.	Gilgit	5,897	3,847	3,747	100	264
6.	AJ&K	2,071	1,523	1,512	11	227
Total		22,836	19,326	17,406	1,920	1,168

During Audit of NSSU-TBTTP Islamabad for financial years 2022-23, it was observed as under:

- i. A total of 22,836 plantation sites for the Forestry Component were reported to NSSU-TBTTP from all provinces between FY 2019-20 to 2022-23. However, PMUs reported only 17,406 plantation sites during the same period in GIS format. The GIS format data for 5,430 sites (22,836 - 17,406) was not submitted by the Project Management Units (PMUs).
- ii. During financial year 2019-22, physical monitoring was conducted for only 1,168 sites, representing 6% of the total reported 19,326 GIS-integrated plantation sites.
- iii. No database for TBTTP wildlife component activities was developed in GIS system.
- iv. An amount of Rs. 37.00 million was allocated in the PC-I for purchase of various essential equipment i.e. computer server, GPS devices, imaging drone with HD camera and sensors, 3D LIDAR sensor, android application development tools, ArcGIS software products, high-resolution satellite imagery, as well as resources for printing and forest atlas preparation. However, these essential equipment had not been procured till date of audit viz November 2023.

Audit held that non-obtaining of GIS format based data of 5,430 plantations sites and non-development of wildlife component database was serious lapse on the part of management which resulted into lack of proper evidence based physical monitoring.

Initial observation was issued on 10.08.2023. The management replied that the non-availability of GIS format data for 1,794 sites in KP was due to security reasons. Physical monitoring was conducted in AJK, GB, Balochistan, and KP for FY 2020-21 and 2021-22. A wildlife geo-database existed for spatial activities such as national parks. The GIS analysts utilized free software like QGIS, ILWIS, and MAVERICK which not only successfully completed activities but also saved a significant amount of financial resources for the Government of Pakistan.

The reply of the management was not satisfactory because no documentary evidence for actual monitored sites was provided. Further, data from TBTTP indicated only 6% monitoring rate which was not justified. Moreover, no supporting documentation or certificate regarding the availability of GIS format data for wildlife activities and the analysis of non-overlapping project activities was provided.

DAC meeting was held on 14.11.2023. The DAC directed that the matter may be placed before the PSC for deliberation specifically on the issue of (1) GIS format data availability and analysis, (2) physical monitoring of forestry and wildlife component activities and (3) GIS Lab equipment, procurement of high resolution satellite imagery for Pre & Post plantation analysis, forest atlas preparation and printing etc. The outcome of the same may be presented in the next DAC meeting.

Audit recommends implementation of DAC decision within 30 days.

(Para No. 17 of AIR 2022-23, TBTTP)

4.4.6 Non-achievement of Provincial Wildlife Components under Ten Billion Tree Tsunami Program

According to Para 4 of PC-I of Ten Billion Tree Tsunami Program (TBTTP), an amount of Rs. 15,593 million was earmarked under wildlife component. Further, according to Para 11.6, the program will be funded by Government of Pakistan, co-financed by Provincial Governments and Planning Commission will release funds in a bi-annual manner.

Federal Governments released funds amounting to Rs. 318.358 million to Provincial Wildlife Departments during financial year 2022-23 for wildlife activities under the Ten Billion Tree Tsunami Program (TBTP).

During Audit of National Strategic Support Unit of Ten Billion Tree Tsunami Program (NSSU-TBTP), Islamabad for financial years 2022-23, it was observed that:

- i. The Provincial Wildlife Departments did not initiated various activities/targets as provided in work plan/PC-I. Details are as under:

(Rs. in million)

Sr. No.	Name of Province/Territory	No. of activities not initiated	Annexures
1.	AJ&K	2	VIII (a)
2.	GB	12	VIII (b)
3.	Punjab	6	VIII (c)
4.	Balochistan	14	VIII (d)
5.	Sindh	21	VIII (e)
6.	KP	10	VIII (f)

- ii. Provincial Wildlife Department Sindh could not utilize released funds on Wildlife activities due to non-finalization of rules and regulations.
- iii. An amount of Rs. 858.280 million was released to Provincial Wildlife Department Punjab (Rs. 712.041 million revalidated from previous financial years and Rs. 146.239 million released during FY 2022-23). However, the department could utilize funds amounting to Rs. 221.215 million while the balance amount of Rs. 637.065 million (Rs. 110.285 million and Rs. 526.780 million) remained un-spent and un-released at spending level.

The targets of wildlife component could not be initiated and funds could not be utilized, however NSSU did not take up the matter for corrective measures and achievement of the planned targets.

Audit held that non-initiation of wildlife activities resulted into non-achievement of planned targets of the program.

Initial observation was issued on 10.08.2023. The management replied that TBTP will ensure that all activities were expedited and completed by the executing agencies to achieve intended outcomes of the program.

DAC meeting was held on 14.11.2023. The DAC directed TBTP to prepare a progress report on the provincial wildlife component and place it in the PSC meeting for deliberation and the outcome of the same may be shared in the next DAC meeting.

Audit recommends implementation of DAC decision within 30 days.

(Para No. 10 of AIR 2022-23, TBTP)

4.4.7 Non addressing the delays and challenges encountered in the implementation/execution of TBTPactivities

According to the decision made during the 3rd Programme Steering Committee (PSC) meeting on 22.12.2022 (Agenda item No. 6), a summary will be forwarded through the Development Wing of MoCC&EC to formalize matters before the competent forum, i.e., the Executive Committee of the National Economic Council (ECNEC). This pertains to the delays and challenges encountered in the implementation/execution of various programs/ activities under TBTP.

Ten Billion Tree Tsunami Program (TBTP) conceived various projects in the Umbrella PC-1 amounting to Rs. 10,285 million during the financial year 2019-23. Details of projects are as under:

(Rs. in million)

Sr. No.	Name of Projects	Cost as per PC-I
1.	Pollution Load Assessment Network (PLAN) project for improvement of air quality of Islamabad	500.00
2.	Development of National Parks, wetlands, ecotourism sites, safari parks etc.	3,895.00
3.	Establishment of Zoo cum Botanical Garden	3,000.00
4.	Development and Execution of Comprehensive Plan for Islamabad as a model city in terms of Horticulture Landscape	1,200.00
5.	Development & Management of Margalla Hills National Park and or Islamabad Zoo	1,690.00
Total		10,285.00

During Audit of NSSU-TBTP Islamabad for the financial years 2022-23, it was observed that management did not submit the matter to the competent forum / ECNEC with regard to delays and challenges faced during the implementation / execution of programme activities in line with PSC directions.

Audit held that non-forwarding of matter to the competent forum / ECNEC was non-adherence to the instruction issued by PSC resulting into non-addressing of delays and challenges encountered in the implementation/execution of various programs/ activities under TBTP.

Initial observation was issued on 10.08.2023. The management replied that the matter has been communicated to the Development Wing of MoCC&EC for onward deliberations with MoPD&SI.

DAC meeting was held on 14.11.2023. The DAC directed the Development Wing of MoCC&EC to take up the matter at ECNEC level and progress report may be presented in the next DAC meeting.

Audit recommends implementation of DAC decision within 30 days.

(Para No. 11 of AIR 2022-23, TBTP)

4.4.8 Non-convening of Project Steering Committee meetings of Climate Resilient Urban Human Settlements Unit

According to Para 13 of PC-I of Climate Resilient Urban Human Settlements (CRUSH), the Project Steering Committee (PSC) constitution and charter will be notified by the MoCC&EC. The PSC members will include the representatives of Federal Ministry of Finance (FAs Organization), Ministry of Planning, Development & Reforms (Chief-PP&H/PUP&P Center), all Provincial Urban Units' and the UN-Habitat (Pakistan). Moreover, the PSC will meet after regular intervals to over-view the operation and activities of the CRUSH and issue the policy guidelines to improve and augment the role of Unit towards ensuring the climate resilient urban planning and development throughout Pakistan.

Ministry of Climate Change and Environmental Coordination (MoCC&EC) initiated a PSDP scheme during the financial year 2019-20 titled 'Climate Resilient Urban Human Settlements (CRUHS)' with a total cost of Rs. 90.158 million. An amount of Rs. 15.415 million was incurred on project activities during the financial year 2022-23. The Project Steering Committee (PSC) was notified by the Ministry on 17.08.2020.

During audit of MoCC&EC for the financial year 2022-23, it was observed that PSC convened its 1st meeting on 27.01.2021, however, no meeting was convened during the financial year 2021-22 and 2022-23 till conclusion of audit i.e. August 2023.

Audit held that non-convening of regular interval meetings of PSC resulted into weak oversight of project implementation along with lack of strategic guidance required to achieve the program objectives.

Initial observation was issued on 24.07.2023. The management replied that first PSC meeting was conducted on 27.01.2021 and the second PSC meeting will be arranged in forthcoming days positively.

DAC meeting was held on 14.11.2023. The DAC directed that PSC meeting may be convened within 30 days and minutes of meeting may be shared with Audit authorities.

Audit recommends implementation of DAC decision within 30 days.

(Para No. 16 of AIR 2022-23, MoCC&EC)

4.4.9 Non convening of Annual General Meetings and Board meetings of Clean Environment Fund

According to Section 21 of Companies Act 2017, a general meeting, to be called Annual General Meeting, shall be held in accordance with the provisions of Section 132, within sixteen months from the date of incorporation of the company and thereafter, once at least in every year within a period of one hundred and twenty days following the close of its financial year.

Further, according to Rule 6 of Corporate Governance Rules 2013, the Board shall meet at least once, each quarter of a year, to ensure that it discharges its duties and obligations to shareholders and other stakeholders efficiently and effectively. In case of non-compliance, the same shall be reported to the Commission with reasons of non-compliance, within fourteen days of the end of the quarter in which the meeting should have been held.

Clean Environment Fund (CEF) working under control of Pakistan Environmental Protection Agency, Islamabad was established and registered in 2015 as company as not for profit organization under section 42 of the Companies Ordinance, 1984.

During the Audit of Pak-EPA for the financial year 2021-22 and 2022-23, it was observed as under:

- i. No Annual General Meeting (AGM) has been convened since the inception of the company in 2015 till date of the audit i.e. August 2023.
- ii. Only one Board meeting was held on 18.06.2015, and no further Board meetings have been convened till August 2023.

Audit held that non conduct of AGM and BoDs meetings was violation of rules resulting in non-achievement of purposes of the CEF.

Initial observation was issued on 25.08.2023. The management replied that Clean Environment Fund is lying dormant and Pak-EPA has made efforts to get the fund reactivated. As soon as it will be activated, the Annual General Meeting (AGM) of all the members / board of directors will be scheduled accordingly.

The PAO was requested to convene DAC meeting vide letters dated 14.09.2023, 10.10.2023 and 30.10.2023. However, the meeting was not convened by the PAO till finalization of this report.

Audit recommends that necessary steps may be taken to operationalize the Fund by convening of AGM and holding regular Board meetings.

(Para No. 6 of AIR 2022-23, Pak-EPA)

4.4.10 Non-existence of mechanism for post monitoring of environmental approvals granted by Pak-EPA

According to Rule 17(1) of Pak-EPA Review of Initial Environmental Examination & Environmental Impact Assessment Regulations, 2000, for purposes of verification of any matter relating to the review or to the conditions of approval of an IEE or EIA prior to, during or after commencement of construction or operation of a project, duly authorized staff of the Federal Agency shall be entitled to enter and inspect the project site, factory building and plant and equipment installed therein

Pakistan Environmental Protection Agency (Pak-EPA) had issued environmental approvals to the proponents to commence the projects with certain conditions. Details are attached at **Annexure-IX**.

During audit of Pak-EPA for the financial year 2021-22 to 2022-23, it was observed as under:

- i. Conditional environmental approvals of the projects were granted, however, compliance of the conditions of approval of IEE/EIA was not checked and reviewed by the Agency.
- ii. No post monitoring visits were carried out for the purpose of verification and inspection of projects.
- iii. The proponents had not submitted compliance reports of IEE and EIA conditions in respect of the approved projects.

Audit held that non-existence of a proper post monitoring mechanism of approved Initial Environmental Examination (IEEs) and Environmental Impact Assessment (EIAs) resulted in unchecked activities leading to environmental degradation.

Initial observation was issued on 25.08.2023. The management responded that due to shortage of staff in the EIA section of Pak-EPA, effective monitoring cannot be ensured. However, Pak-EPA constituted an

Environmental Monitoring Team (EMT) on 05.09.2023, aiming to fulfill post-compliance monitoring requirements for approved projects.

The PAO was requested to convene DAC meeting vide letters dated 14.09.2023, 10.10.2023 and 30.10.2023. However, the meeting was not convened by the PAO till finalization of this report.

Audit recommends that effective post monitoring may be carried out by the EPA to ensure compliance of conditions of environmental approvals, environmental laws, rules and regulations.

Note: The issue was also reported earlier in the Audit Report for the Audit Year 2022-23 vide Para No. 2.4.18. Recurrence of same irregularity is a matter of serious concern.

(Para No. 8 of AIR 2022-23, Pak-EPA)

4.4.11 Non classification of industrial units by Pak EPA

According to Rule 4 of National Environment Quality Standards (Self-Monitoring and Reporting by Industry) Rules, 2001, on the basis of the pollution level of an industrial unit, the Director General shall classify the unit into Category A, B or C for liquid effluents, and category A or B for gaseous emissions.

Further, according to Rule 3, all industrial units shall be responsible for correct and timely submission of Environmental Monitoring Reports to the Federal Agency. Rule 12 provides that the Federal Agency shall compile, analyze and manage the data contained in the Environmental Monitoring Reports with the objective, inter alia, of enforcing the National Quality Standards and developing an environmental database.

Pakistan Environmental Protection Agency, Islamabad (Pak-EPA) is a regulatory body established under Section 5 of Pakistan Environmental Protection Act, 1997 for the protection, conservation, rehabilitation and improvement of the environment and prevention and control of pollution.

During audit of Pak-EPA for the financial year 2021-22 to 2022-23, it was observed as under:

- i. Pak-EPA had not classified the industrial units into Category A, B or C for liquid effluents, and category A or B for gaseous emissions.
- ii. Industrial units were not submitting monthly, quarterly and annual environmental monitoring reports.

Audit held that non-classification of industrial units was serious lapse on the part of the management which resulted into non-compilation, analysis and development of environmental database of Islamabad Capital Territory (ICT).

Initial observation was issued on 25.08.2023. The management replied that industrial units have been categorized according to the Pakistan Environmental Protection Act 1997, distinguishing between liquid effluent and gaseous emissions. Within Islamabad Capital Territory (ICT), industrial facilities are situated in three out of five different zones. Some industries submit approved environmental compliance reports to Pak-EPA. Notices will be issued to ensure that industries submit comprehensive environmental compliance reports, inclusive of management and analysis of data. The assignment is currently in progress and will be concluded at the earliest.

The reply of the management was not satisfactory as details of all classified units operating within the territorial jurisdiction of Pak-EPA was not provided. Further, the management admitted that not all industrial units were submitting monitoring reports, leading to the non-development of an environmental database

The PAO was requested to convene DAC meeting vide letters dated 14.09.2023, 10.10.2023 and 30.10.2023. However, the meeting was not convened by the PAO till finalization of this report.

Audit recommends that classification the industrial unit may be carried out and mechanism may be developed for reporting of these unit on monthly, quarterly and annual basis besides development of environmental database.

(Para No. 9 of AIR 2022-23, Pak-EPA)

4.4.12 Improper maintenance of record of IEE and EIA projects in contravention of EPA Act, 1997

According to Section(7) of Pakistan Environmental Protection Act, 1997, the Federal Agency shall maintain separate Registers for IEE and EIA projects, which shall contain brief particulars of each project and a summary of decisions taken thereon. The registers shall be open to inspection by the public at all reasonable hours and the disclosure of information in such Registers shall be subject to the restrictions specified in sub-section (3).

Further, according to Regulation 21 of the Pakistan Environmental Protection Agency (Review of IEE and EIA) Regulations, 2000, the Agency shall maintain separate registers for IEE and EIA projects, on the format specified in Schedule VIII.

Pakistan Environmental Protection Agency (Pak-EPA), Islamabad issued Initial Environmental Examination (IEE) and Environmental Impact Assessment (EIA) approvals to the various proponents during the financial year 2021-22 and 2022-23.

During audit of Pak-EPA Islamabad for the financial year 2021-22 and 2022-23, it was observed that the record of environmental approval was maintained in soft form which did not meet the requirements of Section 7 of the EPA Act.

Audit held that non-maintenance of IEE/EIA registers was not justified resultantly the approvals granted lacked authentication and was susceptible to changes and manipulations. Moreover, due to non-maintenance of proper registers, the inspection by public was not possible.

Initial observation was issued on 25.08.2023. The management replied that separate registers have been prepared to document projects undergoing Initial Environmental Examination and Environmental Impact Assessment.

The reply of the management was not satisfactory as documentary evidence was not provided in support of reply.

The PAO was requested to convene DAC meeting vide letters dated 14.09.2023, 10.10.2023 and 30.10.2023. However, the meeting was not convened by the PAO till finalization of this report.

Audit recommends that proper registers on the prescribed form may be maintained for IEE and EIA approvals.

(Para No. 11 of AIR 2022-23, Pak-EPA)

4.4.13 Delay in processing of Initial Environmental Examination (IEE) and Environmental Impact Assessment (EIA)

According to the Rule 11 of Pakistan Environmental Protection Agency Review of Initial Environmental Examination and Environmental Impact Assessment Regulations, 2000, the Federal Agency shall make every effort to carry out its review of the Initial Environmental Examination (IEE) within forty five (45) days, and of

the Environmental Impact Assessment (EIA) within ninety (90) days, of issue of confirmation of completeness under clause (a) of sub-regulation (1) of regulation 9.

Pakistan Environmental Protection Agency (Pak-EPA), Islamabad issued Initial Environmental Examination (IEE) and Environmental Impact Assessment (EIA) approvals to the various proponents during the financial year 2021-22 and 2022-23.

During audit of Pak-EPA Islamabad for the financial year 2021-22 and 2022-23, it was observed as under:

- i. Proponents submitted several IEE/EIA cases for approval, however, approvals were delayed and not granted within the stipulated 45 and 90 days period as required under the rules. Details are at **Annexure-X**.
- ii. In several cases, the proponents had submitted EIAs for environmental approval, however, despite the passage of a considerable period, approvals were not finalized and granted till conclusion of audit i.e. August 2023. Details of such cases are at **Annexure-XI**.

Audit held that delayed processing and non-issuance of approvals within the specified time was violation of the Act.

Initial observation was issued on 25.08.2023. The management replied that the delay in processing IEE and EIA cases was due to non-provision, delayed, and incomplete provision of information. Further, capacity constraints in the EIA section also contribute to delays in the review process. Efforts are underway to address these challenges by increasing the capacity of the EIA Section through the filling of vacant positions.

The PAO was requested to convene DAC meeting vide letters dated 14.09.2023, 10.10.2023 and 30.10.2023. However, the meeting was not convened by the PAO till finalization of this report.

Audit recommends that Pak-EPA may devise a strategy keeping in view the available resources to fast-track the processing of environmental approvals and their issuance strictly within the specified period.

Note: The issue was also reported earlier in the Audit Report for the Audit Year 2022-23 vide Para No. 2.4.17. Recurrence of same irregularity is a matter of serious concern.

(Para No. 12 of AIR 2022-23, Pak-EPA)

4.4.14 Improper functioning of Pakistan Environmental Protection Agency Laboratory

According to Section 6(2)(e) of Pakistan Environmental Protection Act 1997, the Federal Agency shall establish and maintain laboratories to help in the performance of its functions under this Act and to conduct research in various aspects of the environment and provide or arrange necessary assistance for establishment of similar laboratories in the private sector.

The Pakistan Environmental Protection Agency (Pak-EPA), Islamabad, established a laboratory with two sections i.e. water and air/emission sections. The agency appointed staff and procured equipment to carry out its functions.

During audit of Pak-EPA for the financial year 2021-22 and 2022-23, it was observed that major equipment in laboratory were non-functional / non-operational. Details are as under:

Sr. No.	Name of Section in Lab/NEQS wing	Total Number of Equipment	Number of Equipment non-function / non operational
1.	Water Section	41	21
2.	Air/emission Section	38	31

Audit held that non-functional laboratory equipment compromised Pak-EPA's ability to conduct essential environmental assessments and monitoring.

Initial observation was issued on 25.08.2023. The management replied that hardware and software issues, equipment reaching the end of their shelf life, obsolescence, and non-availability of spare parts led to non-functionality. Further, the budget constraints did not allow for repair /maintenance of the equipment. The department has requested a technical grant for equipment repair and funds amounting to Rs. 20.0 million have been allocated in the financial year 2023 to address these equipment issue.

The PAO was requested to convene DAC meeting vide letters dated 14.09.2023, 10.10.2023 and 30.10.2023. However, the meeting was not convened by the PAO till finalization of this report.

Audit recommends that management may take immediate steps to ensure that the EPA lab is fully functional and operational and all necessary equipment is in place.

(Para No. 14 of AIR 2022-23, Pak-EPA)

4.4.15 Non preparation and non-publishing Annual National Environmental Report on the state of the environment

According to the Section 6(1)(d) of the Pakistan Environmental Protection Act 1997, the Pakistan Environmental Protection Agency shall prepare and publish an Annual National Environmental Report on the state of environment.

Pakistan Environmental Protection Agency (Pak-EPA), Islamabad was required to prepare and publish an annual National Environmental Report on the state of environment.

During audit of Pak-EPA for the financial year 2021-22 and 2022-23 it was observed that Pak-EPA had not prepared and published the Annual National Environmental Report on the state of environment for the period 2021-22 and 2022-23.

Audit held that due to non-preparation and non-publication of Annual National Environment Report on the state of environment, the performance of EPA could not be ascertained by the stakeholders.

Initial observation was issued on 25.08.2023. The management replied that the delay in publishing the report was due to a shortage of human resources, financial constraints, and technical limitations including lack of experts and equipment. However, efforts are underway to compile scientific data, gather necessary materials, and maintain records for the forthcoming State of the Environment (SoE) report for Islamabad Capital Territory. Pak-EPA is committed to resume the publication of SoE reports starting from 2023 onwards.

The PAO was requested to convene DAC meeting vide letters dated 14.09.2023, 10.10.2023 and 30.10.2023. However, the meeting was not convened by the PAO till finalization of this report.

Audit recommends that National Environment Report may be prepared and published by Pak-EPA on an annual basis reflecting the state of environment in Pakistan.

Note: The issue was also reported earlier in the Audit Report for the Audit Year 2022-23 vide Para No. 2.4.15. Recurrence of same irregularity is a matter of serious concern.

(Para No. 15 of AIR 2022-23, Pak-EPA)

HR / Internal Control Weaknesses

4.4.16 Non-creation of posts of CFAO and CIA in Ministry of Climate Change and Environmental Coordination

According to Section 28(1) of Public Finance Management Act 2019, to assist Principal Accounting Officers in financial management, there shall be Chief Finance and Accounts Officer (CFAO) positions in Ministries and Divisions and Financial Advisers organization shall stand disbanded. Moreover, under Section 29(1) of the Act, the position of Chief Internal Auditor (CIA) shall be created.

Ministry of Climate Change and Environmental Coordination (MoCC&EC) was allocated budget amounting to Rs. 583.61 million in different cost centers during the financial year 2022-23. Details are as under:

(Rs. in million)

Sr. No.	Description	Budget allocation
1.	Ministry of Climate Change	326.988
2.	Islamabad Wild Life Management Board (IWMB)	52.295
3.	Zoological Survey of Pakistan (ZSP)	39.109
4.	Global Climate Impact Study Center	95.088
5.	Pak Environment Protection Agency	70.130
Total		583.61

During audit of MoCC&EC for the financial year 2022-23, it was observed that the post of Chief Finance and Accounts Officer (CFAO) and Chief Internal Auditor (CIA) were not created in the Ministry as required under the PFM Act.

Audit held that non-creation of posts of CFAO and CIA was violation of PFM Act, 2019 and Financial Management and Powers of Principal Accounting Officers Regulations, 2021 leading to overall weak financial management in the Ministry.

Initial observation was issued on 24.07.2023. The management replied that MoCC&EC has taken up the matter with Finance Division for creation of the post of CFAO and CIA. Finance Division informed that Auditor General of Pakistan is responsible to take up the case for creation of posts with Finance Division. Moreover, AGP has already taken up the case of creation of posts and the same is under consideration.

DAC meeting was held on 14.11.2023. The DAC directed MoCC&EC to pursue the case for the creation of posts of CFAO and CIA with Finance Division and AGP office.

Audit recommends implementation of DAC decision.

Note: The issue was also reported earlier in the Audit Report for the Audit Year 2022-23 vide Para No. 2.4.1. Recurrence of same irregularity is a matter of serious concern.

4.4.17 Non appointment of Climate Resilient Human Settlements Specialist and Environment Friendly Urban Infrastructure Specialist

According to Annex-III of PC-I of Climate Resilient Urban Human Settlements, two (02) posts of Specialist Climate Resilient Human Settlements and Specialist Environment Friendly Urban Infrastructure were provided on contract basis.

Ministry of Climate Change and Environmental Coordination (MoCC&EC) initiated a PSDP scheme in 2019-20 titled 'Climate Resilient Urban Human Settlements (CRUHS)' with a total cost of Rs. 90.158 million for five (05) years. An expenditure of Rs. 15.415 million was incurred during the financial year 2022-23.

During audit of MoCC&EC for the financial year 2022-23, it was observed that two (02) posts of Specialist Climate Resilient Human Settlements and Specialist Environment Friendly Urban Infrastructure were vacant since 26.01.2021 and 12.02.2021 respectively.

Audit held that non-appointment of Specialist was likely to hamper the achievement of stated objectives of the project and targets related to environment and climate change in the country.

Initial observation was issued on 24.07.2023. The management replied that appointment against two posts of Specialists was initially finalized on 18.03.2020. However, subsequent to resignations effective from 26.01.2021 and 12.02.2021, the posts became vacant. These vacant posts were re-advertised along with other project posts on 26.07.2021. Despite completing the recruitment process for the remaining posts on 15.03.2022, no suitable candidates meeting the criteria outlined in PC-I were found, consequently, the posts of specialists continued to remain unfilled.

DAC meeting was held on 14.11.2023. The DAC directed that PSC meeting may be convened within 30-days and the matter be placed before the forum for deliberation. The outcome of the same may be provided in the next DAC meeting.

Audit recommends implementation of DAC decision within 30-days.

4.4.18 Irregular recruitment of officers/ officials in TBTP without screening test

According to Para 1(b) of Establishment Division O.M. No. No.F-53/I/2008-SP dated 03.03.2015, the short listed applicants, as a result of screening test, would be interviewed. The Departmental Selection Committee constituted would adjudge the applicant on the score in the test and interview. Score in the test would have 70% weightage and 30% weightage would be allocated for interview among the members of the Department Selection Committee as Chairman 40% and two members 30% each.

Further, according to amended clause 1(xiii) of Office Memorandum of Establishment Division No. F.53/1/2019-SP(Pt) dated 14.03.2019, Ministries/Divisions/Sub-ordinate Offices etc. were required to finalize the recruitments within 120 days from the date of advertisement.

National Strategic Support Unit of Ten Billion Tree Tsunami Program (NSSU-TBTP) under the Ministry of Climate Change and Environmental Coordination (MoCC&EC) advertised vacant positions on 29.09.2022. In response to advertisement, 8,801 applicants applied for the positions, out of which 144 applicants were shortlisted for interview by the scrutiny committee. Details are provided at **Annexure-XII**.

During audit of NSSU-TBTTP for financial years 2022-23, it was observed as under:

- i. The appointments were made on interview basis without conducting any screening test of the candidates.
- ii. The initial screening test for shortlisting of candidates was ruled out to fill the vacant posts on urgent basis. Advertisement for recruitment of nine (09) posts was published on 29.09.2022, however, the recruitment was not completed within 120 days as required under rules. The offer of appointment for the post of DPD Finance and Admin, Monitoring and Evaluation and Wildlife was issued on 29.03.2023, 29.03.2023 and 01.08.2023 respectively. The recruitment of remaining posts were not finalized till date audit i.e. August, 2023.
- iii. Departmental Selection Committee (DSC) comprised of 5 members instead of 3 members in violation of rules. Scrutiny of record i.e. interview sheets revealed that lump sum interview marks were awarded to the candidates instead of criteria of 40% and 30% each member as given in the rules.
- iv. Minutes of meeting of shortlisting committee showing required education and experience as per ToRs and the detail of education and experience held by the shortlisted candidates was not available on record.
- v. Sixteen (16) and twenty (20) candidates against the post of DPD Admin & Finance and Monitoring & Evaluation respectively were shortlisted for interview. However, Seven (07) and eight (08) candidates respectively appeared for interview and the remaining were absent. Moreover, the evidence of record pertaining to issuance of interview call letters i.e. Urgent Mail Service (UMS) receipts / e-mail to the successful candidate was not available.

Audit held that recruitment of candidates without adherence to recruitment policy was violation of relevant rules.

Initial observation was issued on 10.08.2023. The management replied that three positions of Deputy Directors are policy level positions, which were better assessed by interviews and not by screening tests. The recruitment process was delayed due to the change of the government and one candidate had forwarded application for his rejection, which caused delayed. The departmental Selection Committee was chaired by the Secretary, the Chair can distribute the marks equally to members of committee being the competent authority. The required experience and education of all the candidates interviewed were provided to the members of the committee during the interviews.

The reply of the management was not satisfactory as the procedure prescribed for recruitments by the Establishment Division was not followed.

DAC meeting was held on 14.11.2023. The DAC directed the department to conduct fact finding inquiry for violation of the prescribed procedure laid down by the Establishment Division and take the matter with Establishment Division. The outcome may be shared in the next DAC meeting.

Audit recommends implementation of DAC decision within 30-days.

(Para No. 04 of AIR 2022-23, TBTTP)

Procurement

4.4.19 Irregular procurement of Furniture & Fixture and Machinery items – Rs. 6.895 million

According to Rule 29 of Public Procurement Rules 2004, the procuring agencies shall formulate an appropriate evaluation criterion listing all the relevant information against which a bid is to be evaluated. Such evaluation criteria shall form an integral part of the bidding documents. Failure to provide for an unambiguous evaluation criterion in the bidding documents shall amount to mis-procurement.

Further, Rule 10(1) provides that any terms, specifications, standards, features, characteristics and requirements prescribing the technical or quality characteristics shall be generic in nature and shall not include reference to brand name, model number, catalogue number, name or origin of the country or similar classification.

Ministry of Climate Change and Environmental Coordination (MoCC&EC) initiated competitive bidding process for procurement of furniture, fixture and machinery items and incurred an expenditure amounting to Rs. 6.895 million during financial year 2022-23. Details are as under:

(Rs. in million)				
Sr. No.	Contingent Bill No.	Name of Vendor	Head of Account	Amount
1.	569	M/s Galaxy Traders	Purchase of Furniture and Fixture	2.861
2.	572	M/s Al-Hafiz Corporation, Islamabad	Purchase of Furniture and Fixture	1.087
3.	737	M/s Galaxy Traders	Purchase of Machinery	0.636
4.	570	M/s Al-Hafiz Corporation, Islamabad	Purchase of Machinery	0.198
5.	568	M/s Galaxy Traders	Purchase of Machinery	2.113
Total				6.895

During audit of MoCC for the financial year 2022-23, it was observed as under:

- i. Method of competitive bidding process i.e. single stage one envelope or single stage two envelope was not mentioned in the bidding document. Moreover, no well-defined evaluation criteria was given in the bidding document with regard to award of numbers / marks of the bid.
- ii. Brand / Model specification of items were mentioned in the bidding documents in violation of procurement rules. Specification mentioned in bidding documents is provided at **Annexure-XIII**.
- iii. Specifications of the procured items were not defined in the bidding documents, work orders and invoices. Moreover, bidders were required to quote rate in square feet(SFT) however, successful

bidders did not quoted rates in SFT and instead quoted lump sum rates which was violation of bidding document.

- iv. Neither the order to constitute the Inspection committee was available on record nor was inspection report regarding satisfactory supply and installation of items available.
- v. Delivery challans were not available on record to authenticate that the items were supplied/received in accordance with bidding documents/ work orders.

Audit held that Public Procurement Rules were not adhered resulting into irregular procurement.

Initial observation was issued on 24.07.2023. The management replied that method of competitive bidding was inadvertently omitted. Further, brand/model and specifications of items were also inadvertently mentioned in the bidding documents. Specifications for machinery equipment was not provided, instead it was mentioned to provide best quality IT equipment. Specification of furniture and fixture items was clearly mentioned in the bidding documents at schedule of requirement Sr. No. 1 to 12. It was further replied that an inspection committee was also constituted.

DAC meeting was held on 14.11.2023. The DAC directed fact finding inquiry be conducted and report thereof be submitted within 30 days. The compliance in this regard may be submitted in next DAC meeting.

Audit recommends implementation of DAC decision within 30 days.

AUDIT REPORT

ON

THE ACCOUNTS OF

POWER DIVISION, ITS ATTACHED ENTITIES AND NEPRA

AUDIT YEAR 2023-24

DIRECTORATE GENERAL AUDIT (POWER)

1. ISSUES OF THE POWER SECTOR

1.1 Piling Up of Energy Receivables

CPPA-G purchases energy from power producers on behalf of the DISCOs using the energy transmission network maintained by NTDC. The energy is then sold to the consumers by the DISCOs. Revenue earned from sale of energy is paid by the DISCOs to the power producers through CPPA-G to clear the energy payment invoices. Thus, recovery of energy charges delivered to the consumers is the central link in the power sector supply chain. Piling up of energy receivables implies that cash-shortfall is faced not only in the DISCOs but also in linked entities including CPPA-G and power generation companies. CPPA-G's receivables from DISCOs caused the circular debt burden on the power sector.

The accumulation of liability of CPPA-G comprises of different attributes. Receivables from DISCOs are one part. Other factors include receivables from the government in lieu of energy subsidy, pending receivables from K-electric and outstanding Late Payment Surcharges levied by the power generation companies on CPPA-G on account of delayed payments.

The piling of energy receivables at the end of DISCOs can be categorized into different classifications and allied causes. The DISCOs were not successful to recover 100% of the amount billed to the consumers during Financial Year causing increase in the receivables to the stated extent. Moreover, the DISCOs were maintaining a list of running and dead defaulters (consumers). These consumers of different categories (i.e. industrial, commercial and agriculture etc.) had failed to pay their energy dues over an extended period of time causing cash-shortfall as well as financial loss to the company.

Additionally, theft of energy through kunda connection, meter tempering and wrong reading etc. is also prevalent in the DISCOs. There are other systemic issues such as low recovery of dues from tube-well connections and delays in settlement of subsidy pertaining to AJK resulting in to piling up of overall receivable.

On the above lines, audit has analyzed the issue of piling up of energy receivables in the DISCOs from different aspects: broadly at a company level as well as at operation circle & consumer level, on a sample analysis basis to highlight the piling up of receivables and illustrated findings in the following paras:

1.1.1 Non-recovery on account of sale of energy from DISCOs – Rs.2,530,645.77 million

According to provision 9.6.2 of Commercial Code, CPPA-G shall communicate the failure of any Distribution Company to fully pay any monthly invoice issued by CPPA-G to Authority, the Ministry of Water and Power and the Ministry of Finance in order to assure the enforcement of the Market Rules and Commercial Code or to assure that other suitable substitute actions may be taken by these institutions.

During audit of CPPA-G, an amount of Rs.2,530,645.77 million (**Annex-A**) was receivable from distribution companies including K-Electric on account of sale of energy. Due to this huge blockage of funds, power sector was under stiff financial crunch and payments to power producers were delayed. Consequently, late payment surcharges ranging from KIBOR + 2% to KIBOR + 4% were being charged by power producers. Had this huge

amount been recovered from DISCOs, liquidity position of power sector could have been improved thereby eliminating the burden of circular debt and late payment surcharges.

Financial inefficiency resulted in non-recovery of Rs.2,530,645.77 million on account of sale of energy from DISCOs during the Financial Year 2021-22.

The matter was taken up with the management in May, 2023 and reported to the Ministry in June, 2023. The management replied that the shortfall of recovery was a recurring phenomenon on the part of distribution companies and matter was being pursued through monthly review meetings conducted under the chairmanship of Secretary Ministry of Energy (Power Division) to monitor the performance of DISCOs with reference to losses and recovery.

The DAC in its meeting held on October 09, 2023 directed the management to submit revised reply within 07 days and pended the para for next higher forum.

Audit recommends implementation of DAC's decision besides ensuring recovery from DISCOs and providing the progress thereof.

(Draft Para No.94/2023-24)

1.1.2 Non-recovery of energy dues from defaulters – Rs.877,596.31 million

According to Para-1.3 of Commercial Procedure, “the Revenue Officer and Assistant Manager are responsible for: i) implementing in conjunction with the Executive Engineer, the commercial policy laid down from time to time by the Authority through the Company ii) efficient application of billing and collection procedure”.

During audit of DISCOs, it was observed that an amount of Rs.877,596.31 million was recoverable from running and permanently disconnected (P-Disc.) energy defaulters (Government and private). In this respect, no efforts were made by the management to accelerate the recovery from defaulters. The detail is as under:

Sr. No.	Name of Formation	Draft Para No.	Amount (Rs.in million)
1.	FESCO	168, 171 & 172/2023-24	247.71
2.	HESCO	785 & 1295/2023-24	44,468.69
3.	IESCO	152/2023-24	200.06
4.	LESCO	857 & 1026/2023-24	16,100.66
5.	MEPCO	644/2023-24	64.77
6.	PESCO	385,386,569 & 1135/2023-24	8,604.36
7.	QESCO	459 & 1271/2023-24	603,354.05
8.	SEPCO	604 & 718/2023-24	198,378.48
9.	TESCO	760, 812 & 1045/2023-24	6,177.53

	Total	877,596.31
--	--------------	-------------------

(Source: Progress Report of DISCOs)

Non-adherence to Commercial Procedure resulted in non-recovery of Rs.877,596.31 million from energy defaulters up to the Financial Year 2022-23.

The matter was taken up with the management during March, 2023 & August to October, 2023 and reported to the Ministry during June, 2023 & October to December, 2023. The management replied that in some cases amount had been recovered and efforts were being made to recover the remaining amount.

The DAC in its meeting held on October 09, and December 14 to 23, 2023 directed the management to produce the record of completed actions within 15 days and effect pending recoveries. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No.1.1.1 having financial impact of Rs.653,957.57 million. Recurrence of same irregularity is a matter of serious concern.

1.1.3 Extra generation cost due to non-availability of RLNG - Rs.61,971.83 million

According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), "all losses whether of public money or of store, shall be subject to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved".

During audit of NPPMCL, it was observed that power generation plants generated 41,774.68 GWh during the 2020-21 to 2022-23. Out of total generated units 619.6 million units were generated by using costly fuel i.e., HSD due to non-availability of RLNG, which caused consumers to pay extra cost of Rs.61,971.83 million.

Non-adherence to Authority's instructions resulted in extra generation cost of Rs.61,971.83 millin due to non-availability of RLNG up to the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that due to crises of RLNG nationwide and as per the call from System Operator, the plant was operated on HSD to avoid national crises. The Company had the Annual Delivery Plan (ADP) in place for the RLNG for the period when HSD had been used, moreover, SNGPL had declared a country-wide crisis of RLNG. Audit contended that operating the plants on HSD instead of RLNG during three (03) financial years 2020-21 to 2022-23 needed to be justified with specific reasons.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to submit revised reply as per calculation of para and get the stance verified from Audit. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision.

(Draft Para No. 1303/2023-24)

1.1.4 Heavy generation loss due to poor maintenance of power plants – Rs.14,797.52 million

According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), "all losses whether of public money or of store, shall be subject to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved".

During audit of NPPMCL, it was noticed that the power plants remained out of service for 2303.99 Hrs. due to high exhaust spread on HSD fuel, condenser tube leakage and sometimes due to miscellaneous reasons. The forced outages happened due to improper / poor maintenance of the plants, resultantly 857.496 million (kWh) energy units amounting to Rs.14,797.52 million were less generated.

Poor operational management resulted in heavy generation loss of Rs.14,797.52 million due to poor maintenance of power plants up to the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that unfortunate incident on HBS (the fire on Unit Auxiliary Transformers) resulted in consumption of maximum forced outage allowance since the CoD of the Complex. However, this incident was being considered under the insurance cover, hence, losses would be mitigated. Similarly, a rotor incident at Balloki happened and resulted in to loss of forced outage consumption but this event was also under the insurance cover to indemnify the loss.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to submit revised reply showing the difference between allowed and actual forced outages and get the record verified from Audit within 15 days. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision.

(Draft Para No. 748/2023-24)

1.1.5 Loss due to late payment surcharge – Rs.12,511.709 million

According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), "all losses whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved".

During audit of NPPMCL, it was observed that an amount of Rs.34,794 million on account of gas charges was appearing as closing balance to be paid to SNGPL as on June 30, 2023. Due to non-clearance of gas charges, interest on delayed payments amounting to Rs.12,511.70 million was imposed by the Sui Northern Gas Pipeline (SNGPL). Resultantly, company had to face extra financial burden of Rs.12,511.70 million, which showed poor management and internal control weakness.

Non-adherence to the Authority's instructions resulted in loss of Rs.12,511.70 million during the Financial Years 2020-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that NPPMCL was continuously persuading CPPA-G to release funds from receivables of the company, so that overdue payments including late payment surcharge to SNGPL could be paid.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to pursue the matter with CPPA-G vigorously and payment be made to SNGPL accordingly. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision.

(Draft Para No. 750/2023-24)

1.1.6 Non-recovery of cost of energy units supplied to Power Generators (IPPs and GENCOS) – Rs.5,096.86 million

As per NEPRA Tariff, Tariff C-2 is applicable to consumers receiving supply at 11 kV or 33 kV at one point metering arrangement and having sanctioned load up to and including 5000 kW.

During audit of CPPA-G Islamabad, it was observed that an amount of Rs.5,096.86 million was recoverable from Power Generators comprising IPPs and GENCOs on account of supply back feed energy. The amount was required to be recovered / adjusted against the energy invoices of the Power Generators, which was not done.

Non-adherence to NEPRA Tariff resulted in non-recovery of Rs.5,096.86 million from the power generators during the Financial Year 2021-22.

The matter was taken up with the management in May, 2023 and reported to the Ministry in June, 2023. The management replied that out of total outstanding amount of Rs.5.097 billion as on June 30, 2022, an amount of Rs.1.465 billion had been recovered. The outstanding amounts mostly represented disputed payments by IPPs and might require adjustment of receivables against their payables.

The DAC in its meeting held on October 09, 2023 directed the management to provide the record of recovered / adjusted amount to audit for verification within 07 days. No further progress was reported till finalization of the report.

Audit recommends that the management needs to look into the matter and expedite the recovery / adjustment of cost of energy from the energy invoices of the power generators.

(Draft Para No.95/2023-24)

1.1.7 Non-recovery of outstanding energy dues from unmetered commercial consumers - Rs.3,191.82 million

According to Para-1.3 of Commercial Procedure, "the Revenue Officer and Assistant Manager are responsible for: i) implementing in conjunction with the Executive Engineer, the commercial policy laid down from time to time by the Authority through the Company ii) efficient application of billing and collection procedure".

During audit of CEO TESCO, it was observed from CP-88 A & 88 L that an amount of Rs.3,191.82 million was recoverable from 26,365 unmetered commercial consumers. The meters were not installed against these consumers to assess the actual consumption of electricity. Out of these 26,365 unmetered consumers, 18,687 consumers were permanently disconnected, however, 7,678 consumers were active and were still enjoying the unmetered facility without actual assessment of their electricity consumption.

Non-adherence to Commercial Procedure resulted in non-recovery outstanding energy dues of Rs.3,191.82 million from unmetered commercial consumers up to the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that due to military operations and law & order situation in Ex-FATA, maximum consumers had abandoned the war-torn areas and migrated to settled districts. The sites had been demolished and their tracing was a herculean task for the field formations given the lack of support by the local administration. Moreover, arrears against permanently disconnected consumers could not be recovered due to non-posting of Recovery Tehsildar as Land Record & Land Revenue Act had been extended recently, after FATA merger in the province of KPK.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to take appropriate action for recovery of outstanding amount. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision.

(Draft Para No. 758/2023-24)

1.1.8 Blockage of recovery of energy charges due to non-decision by CRC and RRC - Rs.1,897.09 million

According to Rule-5(5) of Public Sector Companies (Corporate Governance) Rules-2013, "the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders".

During audit of Eastern Circle LESCO, it was observed that energy charges of Rs.1897.09 million were not recovered from 975 consumers due to deferment by Circle Review Committee (CRC) and Regional Review Committee (RRC). However, consumers were enjoying the power facility without paying the energy charges. Due to non-decision of disputed energy charges by the CRC and RRC, the company was facing financial crunch.

In-efficient management resulted in blockage of recovery of energy charges amounting to Rs.1,897.09 million due to non-decision by CRC and RRC up to the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The management replied that an amount of Rs.567.519 million had been recovered and an amount of Rs.1,329.57 million was outstanding.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to get the recovery record in support of reply verified from Audit within 15 days and expedite pending recovery. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision.

(Draft Para No. 373/2023-24)

1.1.9 Non-recovery of energy charges from unregistered / kunda connections - Rs.1,015.37 million

According to Para-9.1(II) of NEPRA Consumer Service Manual, all theft cases would be dealt by DISCO strictly in accordance with relevant sections of Pakistan Penal Code, 1860 (Act XLV of 1860) and the Code of Criminal Procedure, 1898 (Act V of 1898). The disconnection of electricity shall be carried out immediately under the supervision of concerned Officer of DISCO by removing such facility. As per para 9.1.(III) of Consumer Service Manual, DISCO shall be authorized to recover its loss by raising a detection bill as follows provided that the maximum period of charging in such cases shall be restricted to twelve months for unregistered consumers and up to six months for registered consumers.

During audit of DISCOs, it was observed that an amount of Rs.1,015.37 million was debited against 7,510 un-registered / kunda connections under Code-888 but neither these illegal unregistered connections were regularized and brought into billing cycle, nor outstanding energy charges recovered. Moreover, legal and departmental action against these persons was also not forthcoming from record. The details are as under:

Sr. No.	Name of Formation	Draft Para No.	No of consumers	Amount (Rs.in million)
1	FESCO	164, 1128/2023-24	459	17.12
2	GEPCO	31, 362, 715/2023-24	1274	57.89
3	LESCO	370, 646/2023-24	868	94.88
4	MEPCO	306/2023-24	149	1.42
5	PESCO	1244/2023-24	4760	844.06
Total			7,510	1,015.37

(Source: CP-22A & MIS Data of DISCOs 2021-22 & 2022-23)

Non-adherence to NEPRA Consumer Service Manual resulted in non-recovery of energy charges amounting to Rs.1,015.37 million from unregistered connections up to the Financial Year 2022-23.

The matter was taken up with the management in April & November, 2023 and reported to the Ministry in October & December, 2023. The management replied that some of the amount had been recovered and efforts were being made for recovery of remaining amount.

The DAC in its meetings held on December 14, 2023 to December 23, 2023 directed the management to get the record of completed actions verified from Audit within a week and expedite the pending actions within a month. No further progress was intimated till finalization of the report.

Audit recommends the implementation of DAC's decision and legal action be taken against the culprits.

1.1.10 Non-recovery of detection charges / pending units from consumers – Rs.324.24 million

According to Para-1.3 of Commercial Procedure, “the Revenue Officer and Assistant Manager are responsible for: i) implementing in conjunction with the Executive Engineer, the commercial policy laid down from time to time by the Authority through the Company ii) efficient application of billing and collection procedure”.

During audit of DISCOs, it was observed that energy meters of domestic, industrial, agricultural & commercial categories were physically checked by the surveillance teams / metering & testing (M&T) of the companies and detection charges of 11.98 million units amounting to Rs.324.24 million on account of slowness, tempering in meters and pending units etc. were approved for recovery from the consumers, however, the same were not recovered. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	Units (in million)	Amount (Rs.in million)
1.	IESCO	153/2023-24	0.11	2.46
2.	LESCO	335/2023-24	2.14	15.92
3.	MEPCO	921/2023-24	2.04	52.44
4.	PESCO	502,555,709 & 1183/2023-24	5.41	185.53
5.	QESCO	458 & 1029/2023-24	1.44	46.96
6.	TESCO	1043/2023-24	0.84	20.93
Total			11.98	324.24

(Source: Progress Report of Detection Bill & Pending Units of DISCOs)

Non-adherence to the Commercial Procedure resulted in non-recovery of Rs.324.24 million on account of detection charges and pending units from the consumers up to the Financial Year 2022-23.

The matter was taken up with the management during March, 2023 & August to November, 2023 and reported to the Ministry during June, 2023 & October to December, 2023. The management replied that in some cases, detection charges had been recovered from consumers while efforts were being made to recover the amount in remaining cases.

The DAC in its meetings held on October 9, 2023 and December 14-23, 2023 directed the management to get the recovery record verified from audit within 15 days and expedite pending recovery. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC’s decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No.1.4.1 having financial impact of Rs.8,719.07 million. Recurrence of same irregularity is a matter of serious concern.

1.1.11 Loss due to non-recovery of electricity charges against temporary connections – Rs.88.91 million

According to Special Condition No. E-1(2) of Supply under Tariff-E of NEPRA schedule of electricity tariff, “the supply shall not be given by the Company without obtaining security equal to the anticipated supply and other miscellaneous charges for the period of temporary supply”.

During audit of DISCOs, it was observed that electricity dues of Rs.88.91 million were pending against 782 temporary connections. In contravention of special condition, the companies did not obtain security equal to the anticipated supply charges and resultantly had nothing to adjust against the outstanding dues. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of Consumers	Amount (Rs.in million)
1.	FESCO	83 & 1127/2023-24	213	22.73
2.	GEPCO	714/2023-24	146	3.58
3.	LESCO	334 & 908/2023-24	325	56.68
4.	PESCO	550/2023-24	35	1.42
5.	SEPCO	603/2023-24	63	4.50
TOTAL			782	88.91

(Source: CP-120-A of DISCOs)

Non-adherence to tariff condition resulted in loss of Rs.88.91 million due to non-recovery of electricity dues from temporary consumers up to the Financial Year 2022-23.

The matter was taken up with the management in April, 2023 & September to November, 2023 and reported to the Ministry in June, 2023 & October to December, 2023. The management replied that in some cases, recovery had been effected and efforts were being made to recover the remaining amount.

The DAC in its meeting held on August 26, 2023 and December 14-23, 2023 directed the management to get the recovery record verified from audit within 15 days and expedite the pending action within a month. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC’s decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.1.6 having financial impact of Rs.165.14 million. Recurrence of same irregularity is a matter of serious concern.

1.1.12 Non-recovery of electricity dues from consumers after court decisions in favour of DISCOs – Rs.55.01 million

According to Para-1.3 of Commercial Procedure, “the Revenue Officer and Assistant Manager are responsible for: i) implementing in conjunction with the Executive Engineer, the commercial policy laid down

from time to time by the Authority through the Company ii) efficient application of billing and collection procedure”.

During audit of FESCO & MEPCO, it was observed that 62 court cases involving an amount of Rs.55.01 million were decided in favour of the companies. The amount of decided court cases was required to be recovered from consumers, which was not done. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of Cases	Amount (Rs.in million)
1.	FESCO	91/223-24	19	2.50
2.	MEPCO	625/2023-24	43	52.51
TOTAL			62	55.01

(Source: Court Case Files of DISCOs)

Non-adherence to Commercial Procedure resulted in non-recovery of electricity dues of Rs.55.01 million from consumers after court decisions in favour of DISCOs up to the Financial Year 2022-23.

The matter was taken up with the management during April & September, 2023 and reported to the Ministry during June & November, 2023. The management replied that in few cases, recovery had been effected and efforts were being made to recover the remaining amount.

The DAC in its meeting held on August 26, 2023 and December 21, 2023 directed the management to get the record of completed action verified from Audit within 15 days and expedite recovery in remaining cases. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC’s decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.1.5 having financial impact of Rs.5,404.69 million. Recurrence of same irregularity is a matter of serious concern.

1.1.13 Loss due to excess utilization of auxiliary units - Rs.15 million

According to 2nd Revised PC-1 2019 Clause (9) "Annual operating cost based on proposed capacity utilization and source of financing". The calculated percentage for Auxiliary units' consumption approved in the said document was 1.22% from year 1 to year 5 for Havelli Bahadur Shah and the calculated percentage for Auxiliary units' consumption for Balloki 1.47% was approved.

During audit of NPPMCL, it was observed that consumption of auxiliary units for both the plants was in excess as compared to the approved auxiliary consumption per unit in 2nd revised PC-1 2019. HBS used 531.57 GWh units instead of 264.63 GWh units during the period 2020-21 to 2022-2023 and Balloki used 720.29 GWh units instead of 295.22 GWh units.

Non-adherence to Clause 9 of 2nd revised PC-I resulted in a loss of Rs.15 million due to excessive consumption of auxiliary units during the period 2020-21 to 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that tariff was based on the net output & Net Heat Rate, which already accounted for auxiliary consumption in the process of power generation. The auxiliary consumption did not impact the tariff to the consumers, as well as no loss to the Company. Audit contended that auxiliary consumption beyond the limit stipulated in PC-I needed to be justified.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to submit revised reply as per schedule/detail of para and get the record verified from Audit. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision besides inquiring the matter for fixing responsibility of loss.

(Draft Para No. 868/2023-24)

1.1.14 Loss due to connecting permanently disconnected consumers through bogus meters and non-recovery of outstanding arrears – Rs.11.47 million

According to Para-III (1) of Guidelines for enforcing the responsibility for losses sustained by the authority through fraud or negligence of individuals, 1982, "All losses, whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved." As per Para 9.1.3 of Consumer Service Manual, "DISCO shall be authorized to recover its loss by raising a detection bill provided that the maximum period of charging in such cases shall be restricted to twelve months for unregistered consumers and up to six months for registered consumers".

During audit of Operation Circle Khyber PESCO, it was observed that twenty-three (23) sites of permanently disconnected consumers were checked and found installed with bogus meters/direct connections without paying outstanding dues of PESCO amounting to Rs.11.47 million (detection charges + arrears). This state of affairs indicated that defaulter consumers were enjoying electricity facility without paying outstanding dues with the collaboration of field staff.

Non-adherence to Authority's instructions resulted in loss of Rs.11.47 million due to connecting permanently disconnected consumers through bogus meters and non-recovery of outstanding arrears up to the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that consumers had been charged for 98135 units amounting to Rs.2,944,050. FIRs were registered against permanently disconnected consumers and an amount Rs.1,073,517 was also recovered, however, the remaining payment/regularization was under process. Moreover, six (06) consumers were running out of twenty-three (23) consumers.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with documentary evidence to audit within 15 days. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.4.42 having financial impact of Rs.25.86 million. Recurrence of same irregularity is a matter of serious concern.

(Draft Para No. 572/2023-24)

Concluding Recommendations

Piling up of receivables is a potential failure for the Distribution companies. It directly affects their financial viability as a going concern. The issue is complex having multifarious factors as explained above and thus needs a multi-pronged strategy to address it. An efficient billing and collection mechanism is needed to be implemented to ensure greater efficiency in the recovery process. Furthermore, efforts are needed to expedite identified recoveries / receivable amounts.

1.2 Significant Line Losses in the Power Sector

Power is being delivered to the consumers through a power distribution network being managed by Distribution Companies (DISCOs). Certain volume of energy is lost in the distribution process and not delivered to the end-consumers. In this context, Line losses refer to the losses suffered by a distribution company in delivery of energy across its Transmission (i.e 132 kV Grid) and distribution network (11 kV Grid). Line Losses reflect the extent of a company's inability to sell energy procured from the power producers causing cash-flow constraints. Line Losses issue is a multi-faceted issue having linkages with different operational and financial activities of the company.

NEPRA has allowed certain percentage of line losses (termed as NEPRA targets), being inevitable and has included them in its tariff determination for the DISCOs. Losses up-to these permissible limits are passed on to the end-consumers in the shape of per-unit tariff. However, losses beyond NEPRA targets convert directly into financial loss of the company, affect its liquidity position and make it unable to payback its liabilities to power producers through CPPA-G.

The Distribution network or grid comprises of cluster of 11 kV feeders. At present there are 9706 feeders spread across the domain of all the DISCOs. Feeders are actually meters through which energy, once received at the grid-station, is distributed along low-tension lines to the consumers. There are two types of feeders i.e. independent feeder and general feeder. The independent feeder is installed for a single high-end commercial / industrial consumer whereas the general feeder provides energy to multiple / thousands of consumers (average varies company to company). Hence, general/mixed-load feeders indicate a specific area or locality to where electricity is being delivered. The information / data of these feeders are also a key point of calculating and analyzing line losses.

Meter reading on the feeders, installed at grid stations, is compared with the energy utilized by the consumer's meters so to work out how much of energy was dispatched and billed to the consumer of a specific

locality. If the energy units delivered through the feeders are more than the billed units, it illustrates that the line losses have taken place. High percentage of line losses against a feeder is a sound indication of over loading in that specific feeder's locality. Similarly, if feeder units are less than the units billed to the consumers, this indicates that overbilling has been done to the consumers of that locality.

On the above lines, audit has analyzed the line losses position in the DISCOs: firstly, at company level and then on sample test check basis at operational circle level & feeder level to highlight line losses, high pilferage of energy, high technical losses and operational inefficiencies, which is illustrated in the following paras.

1.2.1 Loss of revenue due to T&D losses beyond NEPRA's targets – Rs.196,384.51 million

NEPRA had fixed targets of energy losses ranging from 8.84%, 9.10%, 18.57%, 8.0%, 12.34%, 20.16%, 17.05%, & 9.21% for the Financial Year 2022-23 in respect of FESCO, GEPCO, HESCO, LESCO, MEPCO, PESCO, SEPCO & TESCO respectively.

During audit of DISCOs, it was observed that the percentage of T&D losses was more than the targets of losses set by the NEPRA. Hence, 11,609.715 million energy units valuing Rs.196,384.51 million were lost beyond the NEPRA's target. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	NEPRA Target (%)	Actual %age of Loss	Units lost beyond NEPRA target (million)	Amount (Rs.in million)
1.	FESCO	966/2023-24	8.84	15.10 to 30	211.964	6,298.34
2.	GEPCO	713/223-24	9.10	12 to 19.8	132.433	2,877.77
3.	HESCO	782 & 789/2023-24	18.57	19.90 to 100	1,418.20	1,5781.86
4.	LESCO	906/2023-24	8.00	20 to 66	747.84	14,956.78
5.	MEPCO	925/2023-24	12.34	21 to 100	124.395	3,801.53
6.	PESCO	836 & 839/2023-24	20.16	36.46	7,733.29	132,981.03
7.	SEPCO	605/2023-24	17.05	32.57	1,219.18	19,179.43
8.	TESCO	756/2023-24	9.21	11.4 to 68.6	22.413	507.77
TOTAL					11,609.715	196,384.51

(Source: Progressive CP-22A of DISCOs)

Non-adherence to NEPRA's targets resulted in loss of revenue amounting to Rs.196,384.51 million due to T&D losses during the Financial Year 2022-23.

The matter was taken up with the management during September to November, 2023 and reported to the Ministry in November to December, 2023. The management replied that NEPRA never fixed the target at feeder level however, the line losses were due to over loaded transmission lines, lengthy feeders, law and order situation,

difference in reading dates, shifting of load, duplicate source, stealing of energy, wrong coding and unrealistic NEPRA targets etc. Administrative and legal actions were being taken to reduce the line losses.

The DAC in its meeting held on August 26 and December 14-23, 2023 directed the management to provide feeder wise analysis depicting efforts taken & resources employed to curtail feeder wise line losses to audit within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.2.1 having financial impact of Rs.141,769.45 million. Recurrence of same irregularity is a matter of serious concern.

1.2.2 Energy losses on independent feeders beyond permissible limit - Rs.2,366.42 million

According to Distribution Rehabilitation Guidelines issued by the General Manager (Operation) WAPDA, Lahore on September 24, 2003, the maximum Annual Energy Losses (AEL) for HT circuit (HT Feeders) is 3% for rural/urban areas.

During audit of DISCOs, it was observed that percentage of annual progressive energy losses on 291 independent feeders remained over & above the permissible limit of 3%, which entailed loss of 79.233 million units amounting to Rs.2,366.42 million. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of feeders	Percentage (%) of losses	Units Lost beyond 3% (million)	Amount (Rs.in million)
1.	FESCO	974/2023-24	31	3.5% to 53.20%	10.019	311.95
2.	GEPCO	690/2023-24	23	3.20% to 100%	5.632	122.40
3.	HESCO	781/2023-24	21	3.15% to 100%	6.276	195.19
4.	IESCO	143//2023-24	09	4.3% to 26.5%	0.948	20.87
5.	LESCO	905/2023-24	41	4.0% to 75.0%	6.193	123.85
6.	MEPCO	897/2023-24	42	3.6% to 63.7%	3.866	118.17
7.	PESCO	837/2023-24	49	3.2% to 78.3%	36.274	1,196.68
8.	QESCO	956/2023-24	60	5.20% to 100%	5.769	132.68
9.	TESCO	757/2023-24	15	3.7% to 28.5%	4.256	144.63

Total	291		79.233	2,366.42
--------------	------------	--	---------------	-----------------

(Source: CP-22A of DISCOs for the Financial Year 2022-23)

The above analysis, done on sample selection basis, showed that independent feeder connections were being supervised inadequately by the companies entailing material financial losses. Particularly, abnormal high-end losses ranging between 3.15% to 100% were observed in GEPCO, HESCO and QESCO, which indicated high risk of energy theft and/or technical incapacitated feeder-system.

Non-adherence to Distribution Rehabilitation Guidelines resulted in energy losses amounting to Rs.2,366.42 million on independent feeders beyond permissible limit up to the Financial Year 2022-23.

The matter was taken up with the management in March to April, 2023 & October to November, 2023 and reported to the Ministry in June, 2023 & November to December, 2023. The management replied that line losses above permission limit were due to difference in reading dates, shifting of load, duplicate source and wrong coding etc., however, notices had been served to the consumers and the cases would be pursued in the light of revised NEPRA Consumers' Service Manual.

The DAC in its meeting held on August 26 and December 14 to 23, 2023 directed the management to substantiate the reply by providing feeder wise analysis with grid log sheet and respective CP-22 & 34-C within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

1.2.3 Non-saving of energy units by reducing line losses due to delay in execution of HT / LT works – Rs.197.31 million

According Paras-4.1.3 to 4.1.6 of WAPDA Distribution Rehabilitation Guidelines September 2003, "total time for approval of work, execution and preparation of completion report will be restricted to 130 days".

During audit of Project Directorate Construction GEPCO, 158 HT / LT feeders' proposals with an estimated cost of Rs.362.30 million were approved in order to reduce the distribution losses by annual saving in kWh units, improve the voltage drop and efficiency of the distribution system. The said works were initiated up to during July, 2021 to December, 2022, but could not be completed and delayed for a period ranging from 54 to 636 days beyond the stipulated period of 130 days. Had the said works been completed within stipulated period, the envisaged annual kWh units of Rs.197.31 million could have been saved.

Non-adherence to Distribution Rehabilitation Guidelines resulted in non-saving of energy units amounting to Rs.197.31 million due to delay in execution of HT / LT works during the Financial Year 2021-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The management replied that non-availability of material and shortage of staff was the main reason of delay in execution of works.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to submit work-wise detailed reasons for delay to audit within a week. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision.

1.3 Overbilling

Accuracy and reliability of consumer's billing-data is the key attribute on which the overall business of the distribution companies is based upon. In fact, the working of the whole power sector, including government subsidy calculations, CPPA-G liability pay-off etc., and all such activities were directly or indirectly linked with the source billing data. In this context, overbilling by the DISCO's represent weak internal check failures and data credibility errors in managing the billing data by the companies resulting in financial loss to the company on one hand and misreporting of facts to the allied power sector players on the other hand.

In the following paras, audit has analyzed the extent and types of overbilling practices found prevalent in the distribution companies:

1.3.1 Overbilling to consumers due to charging of abnormal excessive load factor beyond permissible limit of NEPRA – Rs.25,109.21 million

The Consumer Service Manual Annexure-V prescribed percentage of Load Factor for different types of connections.

During audit of DISCOs, it was observed that abnormal excessive percentage of load factor (above 100%) beyond the permissible limit of NEPRA was charged to different types of consumers. This scenario depicted that the excess percentage of load factor was charged in order to achieve the target of line losses. Due to abnormal excessive load factor, 877.97 million units valuing Rs.25,109.21 million were overbilled to the consumers. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	Units	Amount (Rs.in million)
1.	FESCO	1066/2023-24	279.42	9,162.42
2.	GEPCO	20, 508 & 716/2023-24	478.63	12,541.12
3.	LESCO	622/2023-24	39.50	769.38
4.	MEPCO	612 & 863/2023-24	20.79	608.39
5.	QESCO	1080/2023-24	59.63	2,027.90
Total			877.97	25,109.21

(Source: DISCOs MIS generated report 2021-22 & 2022-23)

Non-adherence to the provisions of the Consumer Service Manual resulted in overbilling of Rs.25,109.21 million to the consumers due to charging of abnormal excessive load factor during the Financial Year 2022-23.

The matter was taken up with the management in April, 2023 & August to October, 2023 and reported to the Ministry in June, 2023 & November to December, 2023. The management replied that the consumers had used the load beyond their sanctioned load and in some cases inquiry committees had been constituted.

The DAC in its meeting held on August, 26 and December 14-23, 2023 directed the management to get case to case analysis verified from audit and also directed to initiate/expedite the inquiry and submit its report to audit within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC’s decision.

1.3.2 Staggeringly abnormal refund of units due to systemic practice of overbilling (wrong reading/detection) – Rs.21,673.20 million

According to instructions issued by the Managing Director PEPCO vide letter dated December 01, 2010, “strict disciplinary action, without any exception, shall be taken against the officers and staff found involved in the over-billing”.

During audit of DISCOs, it was observed that 662.33 million units with amount of Rs.21,673.20 million were refunded / credited to 292,784 Private and Govt. consumers as a result of revision of wrong reading and detection charges through adjustment notes during the Financial Years 2019-20 to 2022-23. However, trend analysis of total units credited / adjusted to consumers, showed that A-type adjustment i.e. revision of wrong reading of 523.24 million units with amount of Rs.17,945.71 million was made, which remained up to 82.80% however, C, D, E, F & G-Type adjustment i.e revision of detection bills 138.54 million units with amount of Rs.3,727.54 million was also made and remained up to 17.20%. The detail is as under:

Units & Amount in million

Sr. No.	Name of Company	Draft Para No.	F.Y	No of Cons.	Units credited	Amount (Rs.in million)	A-Type (Revision of wrong reading)			C,D,E,F & G (Revision of detection bills)		
							units	Amount	%	units	Amount	%
1.	CEO FESCO	1020/2023-24	2022-23	89,899	116.2	3,564.54	85	2565.84	71.98	31.19	998.7	28.02
2.	Sialkot Op Circle GEPCO	510/2023-24	2020-21 to 2022-23 (03 Years)	17,793	45.81	970.35	37.43	739.7	76.23	8.38	230.65	23.77
3.	CEO GEPCO	917/2023-24	2022-23	112,929	154.45	4,054.82	102.9	2,752.54	67.88	51.53	1302.33	32.12
4.	Eastern Op Circle LESCO	679/2023-24	2019-20 to 2022-23 (04 Years)	72,163	345.87	13,083.49	297.9	11,887.63	90.86	47.44	1,195.86	9.14
Total				292,784	662.33	21,673.20	523.24	17,945.71	82.80	138.54	3,727.54	17.20

(Source: MIS Reports of DISCOs for the year 2019-20 to 2022-23)

Moreover, Special audit of debit and credit adjustments for FY 2016-17 & 2017-18 conducted by Chief Internal Audit GEPCO had already pointed out that unjustified debit / credit adjustments were made by ROs through F-Category. Despite earlier pointation of Internal Audit, adjustment of 31% units against total adjusted credit units was made through F-Category (Adjustment by Chief Internal Auditor) during the year 2022-23.

The above scenario indicates that overbilling was regular practice and at the same time neither detection nor refund policy was according to the standard procedure / practice. No departmental action was taken against the officers / officials at fault either for overbilling or refund.

Inefficient operational management resulted in staggeringly abnormal refund of units amounting to Rs.21,673.20 million due to systemic practice of wrong reading/detection charged to consumers up to the Financial Year 2022-23.

The matter was taken up with the management in August to October, 2023 and reported to the Ministry in October to December, 2023. The management replied that all the adjustments were made after proper scrutiny and approval from competent authority, however, human, arithmetic, clerical and technical errors could not be avoided. The management of GEPCO replied that an inquiry committee had been constituted with reference to PDP No.510/2023-24.

The DAC in its meeting held on December 18 - 21, 2023 did not agree with the reply of FESCO management and directed to furnish detailed revised reply to Audit within 15 days. DAC directed the management of GEPCO to expedite the inquiry in PDP No.510/2023-24 and conduct fact finding inquiry in PDP No.917/2023-24 and submit the reports to audit within a month. DAC also directed the management of LESCO to carry out Special Audit with specific TORs from Manager Internal Audit, LESCO and finalize the report within two months. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

1.3.3 Undue generation of revenue through overbilling - Rs.8,442.97 million

According to Commercial Procedure, "Revenue Officer is responsible for: i) Implementing in conjunction with the Executive Engineer, the commercial policy laid down from time to time by the Authority through the Company ii) Efficient application of billing and collection procedures".

During audit of DISCOs, it was observed that the percentages of energy losses of 1,095 feeders were in negative figures. The negative losses revealed that the units billed were in excess of units received on feeders, which was an indication of overbilling of Rs.8,442.97 million to the consumers. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of Feeders	Units Excess billed (million)	Amount (Rs.in millions)
1.	FESCO	965/2023-24	110	24.37	758.65
2.	GEPCO	691/2023-24	112	24.21	526.15
3.	HESCO	780/2023-24	98	55.70	1,732.35
4.	IESCO	144/2023-24	100	48.00	1,055.92
5.	LESCO	645 & 1006/2023-24	488	92.72	1,802.94

8.	QESCO	1031/2023-24	38	15.42	94.92
TOTAL			1,095	338.51	8,442.97

(Source: CP-22A for the year 2022-23)

The above analysis done on sample basis shows that there were significant instances where the management of respective companies had done overbilling against different feeder-regions to non-transparently reflect their line losses figures. Generally, a large number of feeders were found overbilled in DISCOs, requiring urgent internal control enforcements.

The matter was taken up with the management in March, 2023 and August to November, 2023 and reported to the Ministry in June, 2023 to December, 2023. The management replied that the negative line losses appeared due to difference in reading dates, wrong feeder coding, dual supply and shifting of load etc.

The DAC in its meetings held on October 09, 2023 and December 14-23, 2023 directed the management to substantiate the reply by providing feeder wise analysis with grid log sheets and respective CP-22 & CP-34-C within 15 days. No further progress was intimated till finalization of the report.

Audit recommends that the management needs to implement DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.3.2 having financial impact of Rs.2,225.58 million. Recurrence of same irregularity is a matter of serious concern.

1.3.4 Unjustified billing to feeders with Zero Consumers - Rs.407.342 million

According to Commercial Procedure, "Revenue Officer is responsible for: i) Implementing in conjunction with the Executive Engineer, the commercial policy laid down from time to time by the Authority through the Company ii) Efficient application of billing and collection procedures".

During audit of CEO MEPCO, it was observed that unjustified billing was made to feeders illustrating zero number of consumers with zero sanction load. The units billed on those feeders were 13.329 million units amounting to Rs.407.342 million. This mismanagement during billing process required immediate attention and needed justification.

Non-adherence to authority instructions resulted unjustified billing to feeders with zero consumer amounting to Rs.407.342 million during the Financial Year 2022-23.

The matter was taken up with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that certain feeders had been shifted from one sub division to another or from one grid to another, resulting in the allocation of new feeder codes for the same feeders. As a result, consumers who were previously billed under the old feeder code were now included in the progressive statistics, as they were moved within the Financial Year. Consequently, data from the time of relocation onward was now

associated with the new feeder codes. Audit contended that billing made to the feeders having zero number of consumers needed to be inquired.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to inquire the matter at PPMC level and inform audit about the outcome within 30 days. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision.

(Draft Para No. 923/2023-24)

1.3.5 Unjustified billing to dead defaulters- Rs.43.89 million

According to Commercial Procedure, "Revenue Officer is responsible for: i) Implementing in conjunction with the Executive Engineer, the commercial policy laid down from time to time by the Authority through the Company ii) Efficient application of billing and collection procedures".

During audit of CEO MEPCO, it was observed that undue generation of revenue was made through billing to dead defaulters. The units received were zero but units billed were 1,436,162 amounting to Rs.43.89 million. This state of affairs needed to be justified.

Non-adherence to Authority's instructions resulted in unjustified billing to dead defaulters amounting to Rs.43.89 million during the Financial Year 2022-23.

The matter was taken up with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that the consumers stealing energy through direct hooking were also included in this category. The reply was not tenable as charging of units to dead defaulters other than stealers of energy was irregular and needed to be inquired. Moreover, other suitable mechanism for billing to dead defaulter involved in theft of electricity needed to be devised.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to adopt some better way to make the recovery from kunda connections and get the record verified within 30 days. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision besides fixing responsibility.

(Draft Para No. 941/2023-24)

1.3.6 Irregular credit balances against un-registered / kunda connections – Rs.2.38 million

According to Commercial Procedure, "Revenue Officer is responsible for: i) Implementing in conjunction with the Executive Engineer, the commercial policy laid down from time to time by the Authority through the Company ii) Efficient application of billing and collection procedures".

During audit of CEO GEPCO, it was observed that negative/ credit balances amounting to Rs.2.38 million were appearing against 282 unregistered / kunda connections under code-888 without any reason/justification, which was incomprehensible. This abnormal practice was indicative that either the

excess credit afforded to kunda connections or credit given was unjustified, hence, the same warranted to be probed into, which was not done.

Non-adherence to commercial procedure resulted in irregular credit balances against un-registered / kunda connections amounting to Rs.2.38 million up to the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that the matter would be inquired case to case basis through field formations and action taken would be intimated to Audit in due course of time.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to submit revised reply to audit within a week and expedite pending actions within a month. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision.

(Draft Para No. 737/2023-24)

Concluding Recommendations

Overbilling is a significant organizational issue for the distribution companies. It negatively reflects the image of the DISCOs and reduces their credibility in the eyes of the consumers. Shortage in recoveries and different court cases were linked with this lack of reliability in the DISCOs' billing data. Ministry may make efforts to ensure that overbilling instances are controlled within operations of the respective companies.

1.4 Poor Operational Management by the Distribution Companies

Operational Management involves a comprehensive set of business activities being undertaken by the DISCOs aimed at effective maintenance / enhancement and augmentation of its distribution network infrastructure as well as efficient management of its consumer portfolio. The consumers are classified among different categories such as domestic, commercial, industrial, agriculture, bulk-supply etc. The categories have further been classified based on the load being supplied to these consumers. High energy load consumed by a customer necessitates additional charges and additional equipment for independent feeder and grid-station. Thus, due diligence in overall operational activities is necessary to manage the power sector distribution network efficiently.

Weak internal checks and inadequate operational management lead to different anomalies in the distribution network operations, causing loss to the company and adversely affect the performance of its infrastructure. For example, cases where the consumers had extended load without regularization meant that on one hand, the electricity network was overloaded and on the other hand, due charges were not being received from the consumers.

Similarly, another grey area, in operational management, was delay in non-replacement of defective meters. This lapse creates space for financial irregularities and companies the transparency of the whole billing process causing material financial loss to the company on account of inaccurate energy bills.

On the above lines, Audit has analyzed the operational management issues in the DISCOs from different aspects: broadly at company level and on sample basis at operation circle/consumer level, to highlight the irregularities, internal check lapses and financial losses being incurred by the companies, which is illustrated in the following paras:

1.4.1 Non-removal of electrical equipment and non-recovery of arrears – Rs.501,225.19 million

According to Para-3 of WAPDA’s circular dated April 15, 1998, “disconnections will be effected through removal of meters, transformers, span or any other equipment to ensure that no possibility of loop hole is left for unauthorized use of energy during the period of disconnection. The equipment after having been removed from site was required to be returned to store”.

During audit of DISCOs, it was observed that 267,436 consumers of all categories defaulted to pay energy charges of Rs.501,225.19 million. The Equipment Removal Orders (EROs) were issued but not implemented. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of cases	Amount (Rs.in million)
1	FESCO	80/2023-24	203	561.44
2	GEPCO	666/2023-24	557	10,254.83
3	HESCO	794/2024-24	1,000	9,813.71
4	LESCO	856/2023-24	26,052	19732
5	MEPCO	309/2023-24	510	494.36
6	PESCO	1243/2023-24	115	856.78
7	QESCO	1282/2023-24	238,999	459,512.07
TOTAL			267,436	501,225.19

(Source: CP-114 / Progress Reports of DISCOs)

Non-adherence to instructions resulted in non-removal of electrical equipment and non-recovery of energy charges amounting to Rs.501,225.19 million up to the Financial Year 2022-23.

The matter was taken up with the management during April, 2023 & September to November, 2023 and reported to the Ministry during June, 2023 & October to December, 2023. The management replied that efforts were

being made for implementation of EROs and recovery of arrears. Further progress would be intimated to Audit accordingly.

The DAC in its meeting held on August 26, 2023 and December 14-23, 2023 directed the management to implement EROs besides effecting recovery and produce record to audit for verification within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.1.2 having financial impact of Rs.71,898.09 million. Recurrence of same irregularity is a matter of serious concern.

1.4.2 Loss due to breach of subsidy agreement by land owners of Baluchistan - Rs.75,274.06 million

According to minutes of meeting on subsidy for tube well consumers in Baluchistan dated January 09, 2015, in case where the agricultural tube well consumers are using more than 30 horsepower electric motors, such entries will be made against their accounts, which will be jointly maintained by QESCO and the district administration.

During audit of CEO QESCO, it was observed that 27,446 agricultural consumers were using 50 hp electric motor against 30 hp, which resulted in illegal increase of load by 14.92 kW and ultimately electricity consumption increased to 8,986 units from 5,391 units. This showed that current bills of agricultural consumers increased to Rs.287,552/- from Rs.75,474/-. The impact of that illegal installation and consumption of 50 hp electric motors was Rs.75,274.06 million during FY 2022-23.

Non-adherence to the provision of subsidy agreement by land owners of Baluchistan resulted in loss of Rs.75,274.06 million up to the FY 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that many attempts were made to convince the farmers to abide by the Subsidy Agreement. The owners of tube well resisted the disconnecting campaigns launched by QESCO. The illegal enhancement of load by the consumers can only be stopped with the support of local Administration and deployment of Frontier Constabulary (F.C.) personnel with the QESCO field staff.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to pursue the matter and resolve the issue. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 1115/2023-24)

1.4.3 Non-execution / non-completion of electrification works - Rs.26,594.19 million

According to Paras-4.1.3 to 4.1.6 of WAPDA Distribution Rehabilitation Guidelines September 2003, "total time for approval of work, execution and preparation of completion report will be restricted to 130 days".

During audit of DISCOs, it was observed that an amount of Rs.26,594.19 million was allocated for execution of 4,247 electrification works comprising deposit works / village electrification / chain augmentation / hazards works / schemes & feeders since long. The works were required to be completed within 130 days but the same were still pending. No efforts were made by the DISCOs towards completion of these pending works. The slow execution of works reflected slackness and unprofessional attitude of the management. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of works	Amount (Rs.in million)
1.	FESCO	85, 90, 174, 536, 575 & 1083/2023-24	1,571	2,374.76
2.	GEPCO	280 & 668/2023-24	1,459	3,098.16
3.	HESCO	407,413,682 & 784/2023-24	57	1,416.54
4.	LESCO	289,327,447,620 & 649/2023-24	384	7,494.25
5.	MEPCO	635 & 920/2023-24	242	4,864.93
.	PESCO	297/2023-24	177	3,172.99
6.	QESCO	392,429 & 481/2023-24	17	1,233.60
7.	SEPCO	235/2023-24	330	1,318.04
8.	TESCO	193/2023-24	09	1,619.51
9.	NTDC	133/2023-24	01	1.41
TOTAL			4,247	26,594.19

(Source: Work-in-progress reports of DISCOs)

Non-adherence to WAPDA Distribution Rehabilitation Guidelines resulted in non-execution / non-completion of electrification works amounting to Rs.26,592.78 million up to the Financial Year 2022-23.

The matter was taken up with the management in March to April, 2023 & August to November, 2023 and reported to the Ministry in June, 2023 and October to December, 2023. The management replied that some of the works had been completed and remaining were under execution.

The DAC in its meeting held on August 26 and December 14-23, 2023 directed the management to get the record of completed actions verified from Audit within a week and expedite the pending actions within 60 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.4.5 having financial impact of Rs.3,457.16 million. Recurrence of same irregularity is a matter of serious concern.

1.4.4 Huge refund to consumers due to revision of reading / detection charges - Rs.21,546.18 million

According to instructions issued by the Managing Director PEPCO vide letter dated December 01, 2010, “strict disciplinary action, without any exception, shall be taken against the officers and staff found involved in the overbilling”. As per Memorandum of understanding (MOU) signed between Ministry of Water & Power and DISCOs, “adjustment / bill corrections will be rationalized / minimized to less than 0.01% of total billing”.

During audit of DISCOs, it was observed that 502.786 million energy units amounting to Rs.21,546.18 million were refunded to 114,043 consumers on account of wrong reading and detection through adjustment notes. This scenario indicated that overbilling was done to consumers in one month and same was refunded in next month on account of wrong reading. Moreover, detection bills were not charged as per detection policy and had to be revised on consumers’ complaints. This was done just to conceal the actual line losses and theft of energy. No action was taken against the officers / officials involved in credit adjustments. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No of Consumers	Units Refunded	Amount (Rs.in million)
1.	FESCO	77 & 166/2023-24	1,615	0.312	170.05
2.	GESCO	120/2023-24	2,8784	82.360	1,413.34
3.	LESCO	329, 699,909 & 934/2023-24	5,4908	384.049	19,369.63
4.	MEPCO	1285/2023-24	2,7115	35.62	564.76
5.	PESCO	1245/2023-24	868	0.435	19.22
6.	QESCO	629/2023-24	753	0.010	9.18
TOTAL			114,043	502.786	21,546.18

(Source: CP-52 (Adjustment) of DISCOs)

Non-adherence to directions/rules resulted in huge refund of Rs.21,546.18 million to the consumers due to revision of reading / detection charges up to the Financial Year 2022-23.

The matter was taken up with the management in April, 2023 & August to November, 2023 and reported to the Ministry in June, 2023 and October to December, 2023. The management replied that all the refunds were made after due verification and with the approval of competent authority. In some cases, disciplinary action was also taken against the delinquents.

The DAC in its meetings held on August 26, 2023 and December 14-23, 2023 directed the management to provide the record in support of reply to Audit for verification within 15 days and in some cases, also directed to

inquire the matter and submit its report to Audit within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.3.1 having financial impact of Rs.10,907.04 million. Recurrence of same irregularity is a matter of serious concern.

1.4.5 Irregular charging of overheads beyond permissible limit to consumers/works – Rs.9,163.29 million

According to Clause-2.5 of Consumer Service Manual 2021, the charges for installation of connection shall include 12% store handling charges and 8% installation charges. According to WAPDA Distribution Rehabilitation Guidelines Para 4.1.2 (iii) (c), cost estimation for development of HT Proposal shall be carried out according to the prevailing store issue rates (i.e. 12% in built rates) and installation charges will be taken @ 8%.

During audit of DISCOs and NTDC, it was observed that certain overheads including carriage / erection / foundation charges, consultancy charges, structure cutting charges and tree cutting charges of Rs.9,163.29 million were included in cost estimates of 4,782 works of different types comprising transmission lines, grid stations, HT/LT works, new connections and extensions of load cases etc., in addition to 12% store handling and 8% installation charges. The charging of overheads beyond the permissible limit was in contradiction to the provisions of Consumer Service Manual / WAPDA Distribution Rehabilitation Guidelines and cannot be termed as regular. The detail is as under and **Annex-B**:

Sr. No.	Name of Company	Draft Para No.	No of Works	Amount (Rs.in million)
1.	FESCO	517 & 1069/2023-24	186	383.67
2.	GEPCO	26,44,245,270 & 799/2023-24	2,239	689.44
3.	HESCO	409 & 630/2023-24	24	68.67
4.	MEPCO	653/2023-24	57	2.44
5.	PESCO	298/2023-24	2,138	231.66
6.	SEPCO	253/2023-24	112	106.88
7.	TESCO	813/2023-24	15	21.87
8.	NTDC	1174/2023-24	11	7,658.66
Total			4,782	9,163.29

(Source: Completion and Capitalization Reports of DISCOs for the year 2022-23)

Violation of the provisions of the Consumer Service Manual / WAPDA Distribution Rehabilitation Guidelines resulted in irregular charging of overheads beyond permissible limit to consumers / works amounting to Rs.9,163.29 million up to the Financial Year 2022-23.

The matter was taken up with the management during April & August to October, 2023 and reported to the Ministry in June & October to December, 2023. The management replied that overheads were charged as per SOP.

The DAC in its meeting held on August 26 and December 14-23, 2023 directed the management to submit case to case detailed revised reply justifying with Accounting Manual / NEPRA Consumer Service Manual within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

1.4.6 Unjustified refund to running consumers on account of segregation of electricity bills – Rs.9,142.32 million

According to NEPRA Consumer Service Manual Para.6.4.2, in cases where accumulated readings are recorded, segregated bills shall be prepared keeping in view the number of months for which the readings have accumulated to give slab benefit/relief to the consumers.

During audit of DISCOs, it was observed that a huge mount Rs.10,209.94 million was credited to consumers in different types of adjustments. However, data of total amounts credited to the consumers reflected that major credit of Rs.9,142.32 million was given under adjustment type-B to 293,572 consumers of various categories by segregating their electricity bills in order to provide slab benefit / relief of tariff during the Financial Years 2018-19 to 2022-23. The trend of B-type adjustment against total adjustments remained 80.18% to 99.34%. The segregation of bills was only allowed to new connections and RCO cases on their accumulated units. But, on sample basis checking of CP-75 and CP-52 revealed that huge amounts were credited to the consumers on segregation of bills of already running consumers on their accumulated units of more than 2 months without taking actions against Meter Readers, Meter Inspectors and SDOs who were responsible to record and charge the units to consumers on their actual monthly consumption. The detail is as under: -

Sr. No.	Name of Company	PDP No.	F.Y	Total amount credited without units	No of Consumers B-Type	Amount under B-Type Adjustments (without units)	% B-Type Adjustments
1	Sialkot Op Circle GEPCO	511/2023-24	2020-21 to 2022-23 (03 Years)	514.30	36,203	508.77	99.14%, 98.61 & 99.12%
2	CEO GEPCO	797/2023-24	2022-23	916.95	23,725	798.01	87.03%
3	Eastern Op Circle LESCO	680/2023-24	2019-20 to 2022-23 (04 Years)	7938.87	118,180	7,117.64	98.72%, 98.72%, 99.34% & 96.60%
4	Nankana Op Circle LESCO	700/2023-24	2018-19 to 2022-23 (05 Years)	0	3,838	46.34	0

5	Muzaffargarh Op Circle MEPCO	721/2023-24	2020-21 to 2022-23 (03 Years)	462.88	95,227	311.71	80.18%
6	Khyber Op Circle PESCO	563/2023-24	2020-21 to 2022-23 (03 Years)	376.942	16,399	359.85	95.46%
Total				10,209.94	293,572	9,142.32	

(Source: CP-52 & 75 of DISCOs for the year 2022-23)

This scenario indicated that neither actual monthly units were recorded / charged to running consumers nor any action was taken against responsables who had charged the accumulated units. Hence, this practice showed that refund of amounts without units on account of segregation of electricity bills was an undue favour extended to running consumers by allowing slab benefit. Resultantly, company sustained revenue loss to the stated extent.

Non-adherence to NEPRA Consumer Service Manual resulted in unjustified refund of Rs.9,142.32 million given to running consumers on account of segregation of electricity bills up to the Financial Year 2022-23.

The matter was taken up with the management in September to October, 2023 and reported to the Ministry in November, 2023. The management replied that segregation was carried out after fulfilling all departmental formalities and refund without units was afforded against taxes, difference of tariff and late payment surcharge on account of wrong reading and fixed charges etc. The management of PESCO replied that segregation was allowed to the deserving consumers due to shortage of meter readers and far flung / scattered area and management of GEPCO replied that an inquiry had been constituted in PDP No. 511/2023-24.

The DAC in its meeting held on December 18 - 21, 2023 directed the management to submit revised reply and get the record verified from Audit within 15 days. DAC directed the management of GEPCO to expedite the inquiry in PDP No. 511/2023-24 and submit its report to audit within a month and also directed the management of LESCO to carry out Special Audit with specific TORs from Manager Internal Audit, LESCO in PDP No. 680/2023-24 and finalize the report within two months. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

1.4.7 Non-earthing / grounding of HT/LT poles / structures of distribution system - Rs.7,813.25 million

According to Clause DDC-4 of Distribution Design Code, "the earthing of a distribution transformer, the neutral and body of the transformer should be connected to ground rods as per IEC and PSI Standards Design Specifications. Earthing of Consumer Service and its meter shall be as per design standards adopted by the Licensees; and consistent with IEC, and IEEE Standards". As per Section 12.2.4 of Chapter 12 Safety and Security of Consumer Service Manual; "the earthing systems installed shall be dimensioned and regularly tested to ensure protection from shock hazards."

During audit of DISCOs, it was observed that 2,414,019 HT / LT poles / Structures installed in distribution system remained without earthing / grounding, which showed poor performance of DISCOs. It was further observed that P&E directorate and field formations were charging contract charges in the estimates of deposit works and HT< works but contract works of earthing / grounding were not executed. The un-earthed /grounded

HT/LT Poles/Structure was one of the main reasons of increasing of fatal/non-fatal incidents on distribution system. The estimated cost for earthing /grounding of distribution system worked out to be Rs,7,813.25 million. However, its installation was not started and the lives of human and animals remained vulnerable due to the unearthed system. The detail is as under and **Annex-C**:

Sr. No.	Company	Draft Para No.	LT/HT Poles	Amount (Rs.in million)
1	FESCO	973/2023-24	93726	364.14
2	GEPCO	807/2023-24	359782	3,597.82
3	HESCO	1294/2023-24	261078	2,088.62
4	LESCO	1025/2023-24	356873	578.13
5	MEPCO	922/2023-24	486320	182.65
6	PESCO	835/2023-24	431226	86.28
7	QESCO	1027/2023-24	310562	0
8	TESCO	832/2023-24	114452	915.61
TOTAL			2,414,019	7,813.25

(Source: Correspondence with NEPRA for the year 2022-23)

Non-adherence to the provisions of NEPRA’s Distribution Design Code resulted in non-earthing / grounding of HT/LT poles / structures of distribution system valuing Rs.7,813.25 million up to the Financial Year 2022-23.

The matter was taken up with the management in October & November, 2023 and reported to the Ministry in November & December, 2023. The management replied that earthing / grounding was provided at the time of installation but with the passage of time it was deteriorated and required a fresh earthing / grounding, however, utmost efforts were being made to carry out earthing.

The DAC in its meetings held on December 14, 2023 to December 23, 2023 directed the management to investigate non-earthing / non-grounding of HT/LT Poles/ structure of distribution system despite inclusion of cost for said works in earlier estimates besides expediting the earthing / grounding works. No further progress was intimated till the finalization of report.

Audit recommends implementation of DAC’s decision.

1.4.8 Undue favour to the consumers for unauthorized extended load – Rs.2,463.37 million

According to Condition-6 of WAPDA Abridged Conditions of Supply, “in case of non-removal / non-regularization of un-authorized extended load, the supply to the consumer shall be disconnected”.

During audit of DISCOs, it was observed that 7,689 consumers of different categories extended the load of their energy connections illegally without approval of competent authority. The field formations neither disconnected the energy connections nor regularized the un-authorized extended load in violation of the above condition. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of Consumers	Amount (Rs.in million)
1	FESCO	86, 165 & 1070/2023-24	2,836	582.92
2	GEPCO	34, 350 & 665/2023-24	2,800	863.52
3	HESCO	831/2023-24	09	9.13
4	IESCO	145 & 147/2023-24	128	135.13
5	LESCO	326 & 648/2023-24	1,118	343.66
6	MEPCO	303,614 & 892/2023-24	320	174.66
7	PESCO	389,401,402,566 & 890/2023-24	294	165.21
8	QESCO	457 & 467/2023-24	128	103.89
9	TESCO	761/2023-24	56	85.25
TOTAL			7,689	2,463.37

(Source: Batch-24, 27, 29 & 46 of DISCOs)

Non-adherence to the WAPDA Abridged Condition of Supply resulted in non-recovery of Rs.2,463.37 million from consumers on account of additional security deposit, feeder rehabilitation charges and capital cost due to unauthorized extension of load up to the Financial Years 2022-23.

The matter was taken up with the management during March to April, 2023 & August to October, 2023 and reported to the Ministry in June, 2023 & October to December, 2023. The management replied that in some cases, extended load had been reduced / regularized after recovery of dues, while in remaining cases notices had been issued to the consumers.

The DAC in its meetings held on August 26, 2023 & December 14-23, 2023 directed the management to provide the record of completed action to Audit for verification within 15 days and expedite the pending action within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision besides fixing responsibility.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.4.7 having financial impact of Rs.1,801.61 million. Recurrence of same irregularity is a matter of serious concern.

1.4.9 Loss due to unjustified waiving off late payment surcharge (LPS) to government /private consumers – Rs.1,987.44 million

According to rule-6 of NEPRA Licensing (Distribution) Rules 1999, “Unless provided otherwise in the distribution license, the licensee shall charge only such tariff from the consumers, including the bulk-power consumers, as is approved by the Authority pursuant to and in accordance with the NEPRA (Tariff Standards and Procedure) Rules, 1998”.

During audit of DISCOs, it was observed that the Late Payment Surcharge (LPS) amounting to Rs.1,987.44 million were charged to government and private consumers due to delay in payment of energy dues, which were waived off lateron by the field formations. Against the LPS received from consumers, the DISCOs had to set off the supplementary charges on the delayed payments of IPPs as CPPA-G was raising the invoices against the same. The DISCOs had taken up the matter of supplemental charges with NEPRA, who had directed to adjust the same against the LPS received from the consumers. Hence, waiving off LPS up to the stated extent was unjustified. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	Amount (Rs.in million)
1.	FESCO	975/2023-24	11.45
2.	GEPCO	360 & 738/2023-24	1,165.85

3.	LESCO	621 & 1003/2023-24	778.82
4.	MEPCO	613/2023-24	31.32
TOTAL			1,987.44

(Source: DISCOs MIS generated reports 2022-23)

Non-adherence to Authority's instructions resulted in unjustified waiving off Late Payment Surcharge (LPS) of Rs.1,987.44 million to government and private consumers up to the Financial Year 2022-23.

The matter was taken up with the management during September to October, 2023 and reported to the Ministry during October to December, 2023. The management replied that LPS was rightfully waived off in accordance with the rules by adopting all codal formalities.

The DAC in its meeting held on December 14-23, 2023 directed the management to submit revised reply along with justification of waiving of LPS to government consumers and get the record verified from Audit within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

1.4.10 Non-recovery of excess expenditure on deposit works - Rs.1,696.03 million

According to Section-III-C (I) of Book of Financial Powers "Deposit Work shall be undertaken only after getting full amount of sanctioned work, estimates deposited with WAPDA, with an undertaking from the depositor to meet variation."

During audit of DISCOs and NTDC, it was observed that an expenditure of Rs.1,696.03 million was incurred on 288 deposit works in excess of estimated / deposited amount. The amount of excess expenditure was required to be recovered from the concerned sponsors but needful was not done. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of consumers	Amount (Rs.in million)
1.	FESCO	160 & 557/2023-24	111	284.71
2.	GEPCO	251 & 294/2023-24	64	1,210.69
3.	HESCO	410/2023-24	07	5.27
4.	LESCO	441 & 701/2023-24	23	53.99
5.	MEPCO	284/2023-24	33	77.85

6.	PESCO	380/2023-24	48	31.41
----	-------	-------------	----	-------

7.	SEPCO	806/2023-24	01	8.60
8.	NTDC	607/2023-24	01	23.51
Total			288	1,696.03

(Source: Consumer Service File of DISCOs for the year 2022-23)

Non-adherence to Book of Financial Power resulted in non-recovery of excess expenditure amounting to Rs.1,696.03 million on deposit works up to the Financial Year 2022-23.

The matter was taken up with the management in August and October, 2023 and reported to the Ministry in October to December, 2023. The management replied that in some cases amount had been recovered from sponsors, while in remaining cases demand notices were issued.

The DAC in its meeting held on December 14-23, 2023 directed the management to get the record of completed action verified from Audit within a week and expedite pending action within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.4.24 having financial impact of Rs.140.95 million. Recurrence of same irregularity is a matter of serious concern.

1.4.11 Non-completion of SDGs' schemes – Rs.1,673.44 million

According to Para-ii of letter No. 20 (1) PIA-I/PC/2021 dated December 28, 2022 of the Ministry of Planning, Development and Special Initiatives of Government of Pakistan, "If the project does not start functioning within 12 months of its approval or does not achieve financial close, then it will be reconsidered by the approving forum."

During audit of PESCO & FESCO, it was observed that SDGs' schemes amounting to Rs.1,673.44 million were approved from competent forum. The execution of the works was started, however, the same were not completed up to June 2023. The schemes were neither financially closed nor approval of the competent forum was sought for its continuation or otherwise.

The detail is as under;

Sr. No.	Name of Company	Draft Para No.	No. of Schemes	Amount (Rs.in million)
1.	FESCO	1132/2023-24	34	758.51
2.	PESCO	301/2023-24	570	914.3
TOTAL			604	1,673.44

(Source: Progress Report of the DISCOs for the year 2022-23)

Non-adherence to the guidelines of the Ministry of Planning, Development and Special Initiatives of Government of Pakistan resulted in non-completion of SDGs' schemes amounting to Rs.1,673.44 million up to Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that the administrative approval and funds were received in various months. The processing of estimates, procurement of material and the award of contracts was a time-consuming process, however, most of the works were completed and remaining would be completed.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with verification of completed actions within 15 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

1.4.12 Non-charging/adjustment of Fuel Price Adjustment on units debited/credited to consumers – Rs.1,384.46 million

According to notifications issued by NEPRA in respect of Fuel Price Adjustments (FPA) for F.Ys. 2020-21, 2021-22 & 2022-23, FPA shall be applicable to the respective consumers and shall be shown separately in the consumers' bills on the basis of units billed to consumers. As per Para-1.3 of Commercial Procedure, "the Revenue Officer and Assistant Manager are responsible for; i) implementing in conjunction with the Executive Engineer, the commercial policy laid down from time to time by the Authority through the Company, ii) efficient application of billing and collection procedures".

During audit of DISCOs, it was observed that 3,388.16 million units were debited to 2.106 million consumers through adjustment notes on account of detection / theft & pending units and similarly, 447.09 million units were credited to 0.307 million consumers. However, FPA was not charged on the units adjusted (Dr / Cr), which caused revenue loss of Rs.725.20 million to DISCOs and also deprived consumers from getting credit of Rs.659.26 million. It also appeared that no mechanism existed for charging the FPA on debited / credited units to consumers. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No of Consumers	Units Debited	No of Consumers	Units Credited	Amount (Rs.in million)
1.	FESCO	79 & 1017/2023-24	0.241	96.58	0.055	112.96	325.68
2.	GEPCO	45,345 & 810/2023-24	1.165	293.68	0.142	282.62	750.08
3.	PESCO	562/2023-24	0.700	106.42	0.110	51.51	308.70
Total			2.106	3,388.16	0.307	447.09	1,384.46

(Source: DISCOs MIS generated report for the year 2020-21, 2021-22 & 2022-23)

Non-adherence to NEPRA notification resulted in non-charging / adjustment of FPA amounting to Rs.1,384.46 million on units debited / credited to consumers up to the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The management of FESCO replied that FPA was being debited/credited as per prevailing practice, while GEPCO replied that inquiry committee had been constituted and PITC was directed to devise a mechanism to charge FPA. The management of PESCO replied that there was inherent limitation in MIS system.

The DAC in its meeting held on August 26, 2023 and December 14-23, 2023 directed the management of FESCO to provide the record to audit in support of reply within a week and directed the management of GEPCO to inquire the matter and submit its report to audit within a month. DAC also directed the management of PESCO to submit revised reply within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.4.2 having financial impact of Rs.4,917.95 million. Recurrence of same irregularity is a matter of serious concern.

1.4.13 Non-recovery of fixed charges from consumers due to wrong application of tariff - Rs.978.21 million

According to NEPRA's tariff conditions, B-I tariff is applicable to the industrial consumers having load up to 25 kW.

During audit of DISCOs, it was observed that 3,430 industrial consumers got their load sanctioned under B-I tariff having sanctioned load less than 25 kW, whereas their connections were running illegally under tariff B-II above the load of 25 kW. Due to non-conversion of tariff of consumers from B-I to B-II, an amount of Rs.978.21 million on account of fixed charges applicable to B-II consumers could not be recovered. Resultantly, company sustained revenue loss to the stated extent. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of consumers	Amount (Rs.in million)
1	FESCO	968, 970 & 971/2023-24	2,058	780.38
2	GEPCO	29,33 & 351/2023-24	836	73.67
3	IESCO	148/2023-24	15	2.30
4	LESCO	328/2023-24	424	106.36
5	MEPCO	311 & 654/2023-24	57	9.51
6	PESCO	403 & 568/2023-24	40	5.99
Total			3,430	978.21

(Source: Batch-24, 27 of DISCOs for the year 2022-23)

Non-adherence to NEPRA's tariff conditions resulted in non-recovery of fixed charges amounting to Rs.978.21 million from consumers due to wrong application of tariff up to the Financial Year 2022-23.

The matter was taken up with the management in March to April, 2023 & August to October, 2023 and reported to the Ministry in June, 2023 & October to December, 2023. The management replied that notices had been issued to the consumers.

The DAC in its meeting held on August 26 and December 14-23, 2023 directed the management to expedite the matter and get the record of completed action verified from audit within one month. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.4.27 having financial impact of Rs.117.33 million. Recurrence of same irregularity is a matter of serious concern.

1.4.14 Undue favour to citi housing scheme due to construction of grid station and transmission line at the cost of GEPCO - Rs.966.14 million

According to NEPRA Consumer Service Manual (CSM) dated January 2021, housing society / scheme having above 20 MW load would be provided with dedicated grid station and associated transmission line. As per NEPRA CSM revised June, 2020, housing society having load 15 MW and above would be provided with dedicated grid station and associated transmission line.

During audit of GSC GEPCO, it was observed that an agreement for supply of power to Citi Housing Scheme Gujranwala (Phase-I, Phase-I extension and Phase-II) with 22,492 kW (22.49 MW) load was made in July 2020. As per agreement, the sponsor had to pay 25% grid sharing cost to GEPCO at the time of approval of electrification and 25% would be recovered from individual applicants / plot owners at the time of sanctioning of individual connections. Since, the load of the said housing scheme was more than 20 MW, hence, it was liable to be provided with dedicated grid station and associated transmission line by recovering the full cost from sponsor, which was not done. Instead, GEPCO assumed construction of grid station and associated transmission line with an estimated amount of Rs.966.14 million at the cost of the Company, which was tantamount to undue favour to the said housing scheme. The work orders for the construction of both the works issued to the contractors and works were under way as on August 2023.

Violation of NEPRA Consumer Service Manual, 2021 resulted in undue favour to Citi housing scheme due to construction of grid station and transmission line of Rs.966.14 million at the cost of GEPCO up to the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that NEPRA CSM came into practice in January, 2021 and the case for external electrification of Citi Housing Gujranwala with ultimate load of 22.492 MW was sanctioned in 2018. As per the then prevailing SOPs of WAPDA, grid station was to be constructed by GEPCO after receiving 06 Acre land from the sponsor. Audit contended that the cost of construction of grid station was needed to be recovered from the consumer as the agreement for ultimate load of the said housing society was executed on July, 2020.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to provide the record in support of its stance for verification to Audit within a week. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 220/2023-24)

1.4.15 Irregular advance charging of rehabilitation charges to housing colonies and commercial plazas and their subsequent retention – Rs.717.20 million

According to Note-(xiv) of Clause-2.6 of Consumer Service Manual, 2021," "the rehabilitation charges are applicable in case of industrial category where connection is given from Common 11 kV feeder up to 1000 kW load. In other cases, the rehabilitation charges shall be as per actual cost incurred (if any) for up gradation of system for provision of connection from Common Distribution System.

During audit of FESCO, it was observed that an amount of Rs.717.20 million was recovered from 277 consumers of housing societies and commercial plazas on account of rehabilitation charges for provision of connections from Common Distribution System. The said charges were required to be recovered as per actual cost incurred (if any), but advance estimated charges were recovered and retained by the company, which was in contradiction to the provisions of the Consumer Services Manual.

Violation of provisions of the Consumer Service Manual resulted in irregular advance charging and subsequent retention of rehabilitation charges recovered from housing colonies and commercial plaza amounting to Rs.717.20 million up to Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that estimated cost of rehabilitation charges was recovered and deposited in rehabilitation account for subsequent utilization to improve HT system.

The DAC in its meeting held on December 20 & 21, 2023 DAC did not agree with reply of the management and directed to furnish case-to-case detailed analysis depicting actual utilization of rehabilitation cost recovered from consumers. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 1068/2023-24)

1.4.16 Loss due to irregular multi credits given to consumers – Rs.662.74 million

According to instructions issued by the Managing Director PEPCO vide letter dated December 01, 2007, "MD PEPCO showed his concern over the issues of excessive billing, parking of units and pilferage of electricity. Line losses due to theft of electricity with the collusion of staff are covered by bogus billing. Staff involved in theft of electricity must be imposed punishment to create deterrence."

During audit of PESCO, it was observed that irregular multi credit adjustments of Rs.662.74 million were allowed to 23,034 consumers. The times of credit allowed to consumers ranged from 02 to 10 times. This indicated that either irregular overbilling was done, which was later credited to consumers, or undue favor was extended to consumers at the cost of PESCO and receivables were decreased illegally causing loss to the Company.

Non-adherence to the instructions resulted in loss of Rs.662.735 million due to irregular multi credits given to consumers during the Financial Year 2022-23.

The matter was taken with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that CEO had approved to investigate the matter as desired by Audit for fixing responsibility besides justification of multi credits allowed to consumers.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with documentary evidence in support of reply to audit within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision besides expediting inquiry proceedings.

(Draft Para No. 1277/2023-24)

1.4.17 Loss of revenue due to long duration electrical interruptions on feeders - Rs.658.81 million

According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended to date), "all losses whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose minute charge they were, to fix the cause of the loss and the amount involved".

During audit of DISCOs, it was observed that long duration electricity interruptions ranging from 01 to 34 hours were occurred on 876 feeders during whole the year. Due to these interruptions, not only the consumers of

the area suffered but DISCOs also sustained loss of Rs.658.81 million on account of revenue. Since, DISCOs were continuously paying capacity purchase price, market operating fees and NTDC UoS to CPPAG, hence, non-selling of available energy was a straight loss to them. The detail is as under: -

Sr. No.	Company	Draft Para No.	No of Feeders	Rupees (in million)
1	GEPCO	30, 735/2023-24	652	599.670
2	LESCO	331/2023-24	73	27.620
3	MEPCO	675/2023-24	151	31.520
TOTAL			876	658.81

(Source: DISCOs Powr Control Centre Reports & Correspondence files for the year 2021-22 & 2022-23)

Inefficient operational management resulted in revenue loss of Rs.658.81 million due to long duration electrical interruptions on feeders up to the Financial Year 2022-23.

The matter was taken up with the management in April & October, 2023 and reported to the Ministry in June & November, 2023. The management replied that distribution network consisted an overhead radial system, most of the feeders had huge length consisting of rural areas. Due to seasonal variation, windstorm and heavy rains, interruptions were inevitable and could not be avoided. However, due to extensive maintenance and rehabilitation activities, tripping was being controlled. The GEPCO management replied that an inquiry committee had been constituted to probe into the matter as highlighted in PDP No. 735/2023-24.

The DAC in its meetings held on December 14, 2023 to December 23, 2023 directed the management of GEPCO to submit feeder wise fact-finding report about the matter highlighted in PDP 30/2023-24 after vetting from G.M. (Technical), PPMC to audit and expedite the inquiry in PDP 735/2023-24 and submit its report to audit within 30 days. DAC directed the management of LESCO to submit revised reply and take disciplinary action against responsible(s) and get the record verified from Audit within 15 days. DAC directed the management of MEPCO to share the progress and get the record verified from audit. No further progress was intimated till the finalization of report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.4.41 having financial impact of Rs.28.32 million. Recurrence of same irregularity is a matter of serious concern.

1.4.18 Loss due to unauthorized consumption of auxiliary energy - Rs.524.10 million

According to the instructions issued by WAPDA dated July 17, 1982 "all losses, whether of public money or of stores, shall be subjected to preliminary investigation by the office in whose charge they were, to fix the cause of the loss and the amount involved.

During audit of Manager GSO PESCO, it was observed from monthly reports that the residential colonies, offices, markets, mosques and tube wells situated in the vicinity of various grid stations were using electricity from the auxiliary supply meant for operations of grid stations only. Neither any billing nor recovery against

unauthorized auxiliary consumption was forthcoming from the record, which resulted in loss of 17.47 million units amounting to Rs.524.10 million.

Non-adherence to instructions resulted in loss of Rs.524.10 million due to unauthorized consumption of auxiliary energy up to the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that energy meters were installed in all grid station colonies under the Circle and proper billing was being regularly made to concerned Operation Divisions. Furthermore, a certificate was also enclosed on the subject matter duly signed from concerned Divisions and no market/ mosque was fed from auxiliary supply from any grid stations of PESCO. The reply was not agreed to being not substantiated with documentary evidences.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to inquire the matter in detail depicting unauthorized consumption of energy and submit its report within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No. 202/2023-24)

1.4.19 Irregular charging of overhead charges to SDGs’ electrification works - Rs.505.54 million

According to Para-viii & Para-ix of SDG guidelines issued by Cabinet Division vide dated March 09, 2020 & dated June 13, 2022 respectively, “no administrative overhead shall be charged by any agency for execution of the SDGs’ schemes”.

During audit of DISCOs, it was observed that 3,036 village electrification schemes were executed and capitalized against the funds received from the Federal Government under Sustainable Development Goals (SDGs). The administrative overheads and store handling charges to the tune of Rs.505.54 million were charged to the said capitalized SDGs’ works, which was irregular being contrary to the clear directions of Cabinet Division. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No of Schemes	Amount (Rs.in million)
1.	GEPCO	242/2023-24	346	39.51
2.	HESCO	406/2023-24	87	5.97
3.	IESCO	224/2023-24	148	16.85
4.	PESCO	378/2023-24	2,312	430.18
5.	QESCO	529/2023-24	29	3.91

6.	SEPCO	233/2023-24	114	9.12
TOTAL			3,036	505.54

(Source: Completion and Capitalization Reports)

Violation to the SDG Guidelines issued by Cabinet Division resulted in irregular charging of overheads & store handling charges of Rs.505.54 million to SDGs' electrification works up to the Financial Year 2022-23.

The matter was taken up with the management during August to September, 2023 and reported to the Ministry during October to November, 2023. The management replied that the schemes under SDGs' program were executed as per approved PC-1 by the competent forum and administrative overhead were being charged as per SOPs/rules applicable as well as Accounting Manual of DISCOs.

The DAC in its meeting held on December 14-23, 2023 directed the management to refer the matter to Cabinet Division for regularization otherwise to exclude the cost of overheads from SDGs' works within a month. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

1.4.20 Loss due to estimated billing to industrial consumers without units and MDI – Rs.470.98 million

According to Para 6.1.3 of Consumer Service manual, "Taking snapshots of meter readings of all consumer categories is mandatory. Meter readings are taken through mobile snapshots/hand-held units to ensure correct readings. The snapshots of meter reading including net metering facility wherever applicable showing import and export units are printed on electricity bill. DISCO shall make available record of snapshots for twelve months for presenting before NEPRA, POI, Court of Law or any other competent forum if required for settlement of billing dispute raised by any consumer."

During audit of City Circle QESCO, it was observed that forty-two (42) industrial (B-2) consumers were charged with the units consumed without MDI. All these industrial consumers were running and active, which indicated that undue favor was extended to them. If load factor was applied, the said consumers were required to be billed 17.46 million units amounting to Rs.470.98 million at an average unit rate of Rs.26.98/- applicable to B-2 consumers. However, the management issued nominal bills to running industrial consumers, which resulted in loss to the company.

Non-adherence to CSM resulted in loss of Rs.470.98 million due to estimated billing to industrial consumers without units and MDI on estimated basis up to the Financial Year 2022-23.

The matter was taken up with the management in September 2023 and reported to the Ministry in November, 2023. The management replied that the billing of all industrial consumers was being taken by SDO through mobile meter reading. As per NEPRA instructions, where accurate meters were installed, the billing must be carried out on meter reading rather than load factor. Hence, no load factor was required for charging the units. Mostly consumers mentioned in the para were seasonal i.e. ice factory and cold storage etc. The crush plants were also disconnected, as per order of the Honorable Balochistan High Court.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to get the record verified from audit within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 462/2023-24)

1.4.21 Non-regularization of excess expenditures on capital works - Rs.389.92 million

As per accounting manual of PBF-I "Budget is allocated to all D&D offices from the total Budget approved by the BOD keeping aside on approved revised Budget for allocating any justifiable additional budget demand. Moreover, lack of regular analysis of actual expenditure in comparison with budget targets, may result in excessive spending being identified towards the end of the budgetary period, which may ultimately defy the whole purpose of budgetary process".

During audit of Project Directorate Construction LESCO, it was observed that an amount of Rs.1,780.00 million was allocated for execution of ELR/DOP works, against which an expenditure of Rs.2,169.918 million was incurred during the Financial Year 2022-23. However, the excess expenditure of Rs.389.92 million was not got regularized from the competent authority.

Non-adherence to Authority's instructions resulted in non-regularization of excess expenditure of Rs.389.92 million on capital works up to the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that the expenses would be reduced, once the work would be completed and converted into asset.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to submit revised reply and get the record verified from Audit within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 618/2023-24)

1.4.22 Irregular splitting of load of M/s Zamung Textile Company – Rs.385.16 million

According to NEPRA Tariff determination, "B-4 tariff is applicable for supply to industries having sanctioned load of more than 5 MW".

According to Para-2.6.6 of Consumer Service Manual, "Connection having load above 5 MW, the cost of dedicated transformer, dedicated 11 kV Feeder and dedicated Grid Station and associated transmission line shall be recovered from them".

According to Para-5.2.3 of Consumer Service Manual, "in case of extension of load, the amount of security deposit shall be updated at prevailing rates for the entire load subject to adjustment of already paid Security Deposit".

According to Para-2.8.1 of Consumer Service Manual, "DISCO shall allow more than one industrial connection at the same premises subject to (a) having different nature of industries, (b) having same tariff category.

However, different tariff category connections may be allowed subject to satisfaction of DISCO that no misuse of tariff will take place”.

During audit of Operation Circle, Khyber, PESCO, it was observed that seven (07) B-2 and one (01) B-1 connections were given to an industrial consumer namely M/s Zamung Textile Company from two general feeders at the same premises, whereas the accumulated extended load of the consumers fell under Tariff B-4. The record revealed that the consumer was using illegal extended load since long, but neither notices were issued to the consumer, nor the illegal extended load was regularized by accumulating the load of consumer by recovering the capital cost and meter security amounting to Rs.385.16 million. It was also observed from record that there was an arrear of Rs.1.68 million against the consumer and even snapshot of meter reading was not present on a single electricity bill of the consumer. This reflected that undue favor was extended to the consumer, which caused loss to PESCO.

Non-adherence to NEPRA’s instructions resulted in irregular splitting of load of M/s Zamung Textile Company and non-recovery of capital cost and meter security amounting to Rs.385.16 million up to the Financial Year 2022-2023.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that notices had been served to all the 07 consumers to regularize their illegal extended load. In the light of notices served, the consumers approached to Director (P&D) PESCO and the cases were still under process.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with documentary evidence to Audit within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No. 707/2023-24)

1.4.23 Loss due to non-recovery of capital cost from the consumers -Rs.360.21 million

According to Section-III-C (1) of WAPDA Book of Financial Powers, “deposit works shall be undertaken only after getting full amount of sanctioned work estimated deposits with WAPDA, with an undertaking from the depositor to meet any variation.”

During audit of GEPCO, it was observed that estimates of seven (07) works of different categories were sanctioned at cost of Rs.669.99 million and subsequently the same were revised to Rs.991.31 million due to increase in material cost. Accordingly, provisional revised demand notices for difference of cost amounting to Rs.360.21 million were issued to the consumers. However, neither revised cost was recovered from the consumers nor disciplinary action for delayed execution of works was taken. Hence, non-recovery of balance capital cost from the consumers resulted in loss to the stated extend.

In-efficient operational management resulted in loss due to non-recovery of capital cost of Rs.360.21 million from consumers during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that the revised demand notices had not been paid by the

consumers and connections were pending. The works would be completed after payment of revised demand notices.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to ensure recovery and get the record verified from Audit within one month. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 795/2023-24)

1.4.24 Irregular and unjustified deduction/collection of Neelum Jhelum Surcharge – Rs.342.53 million

As per the Decision of Ministry of Energy (Power Division) issued by Office Memorandum vide letter No. F No. 5/29/2016-17 dated July 02, 2018; the Neelum Jhelum Surcharge was rescinded at the achievement of COD of the whole project w.e.f December 28, 2018.

As per Para "4" of summary submitted on February 12, 2021 by Ministry of Energy (Power Division) issued by Office Memorandum vide letter No. PF No. 5/29-NJS/2020-21 dated March 24, 2021, it was decided that a) the Neelum Jhelum Surcharge already imposed on electricity consumers @ 0.10/ kWh for development of Neelum Jhelum Project may be revoked with the immediate effect. b) The NJ Surcharge collected by the DISCOs and transferred to WAPDA after December 28, 2018 i.e. the date of taking over all units of NJP. c) The NJ surcharge collected after taking over of the NJP by WAPDA may be returned to the eligible consumers/ adjusted in their forthcoming electricity bill.

During audit of CEO LESCO, it was observed that Neelum Jhelum Surcharge amounting to Rs.342.53 million was deducted from consumers up to June, 2023 in contrary to clear instructions of ECC. The amount collected from the consumers after taking over of NJP was required to be credited/adjusted to the eligible consumers, as per above ECC decision, which was not done.

Non-adherence to the ECC decision resulted in irregular and unjustified recovery of Neelum Jhelum Surcharge amounting to Rs.342.53 million up to the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that after December 2018, an amount of Rs.4,545.36 million was collected from consumers, out of which Rs.2,058.39 million was transferred to WAPDA and the remaining amount of Rs.2,486.97 million was remitted to CPPA-G. In this regard, the comprehensive reconciliation was carried out with management of Neelum Jhelum Hydro Power Company.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to get the matter resolved at an appropriate level. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 881 /2023-24)

1.4.25 Non-recovery of security deposit from industrial consumers - Rs.294.60 million

According to Consumer Service Manual 2021 Para 5.1.1 for all service connections, a demand notice for security deposit as per the rate approved by NEPRA shall be issued to the applicant for depositing the same in the designated bank branch.

During audit of CEO MEPCO, it was observed that two hundred and forty-three (243) industrial consumers were connected with energy system of MEPCO since long and did not pay their security deposit amounting to Rs.294.60 million against sanctioned load. The management was required to collect the security deposit as per rate approved by NEPRA.

Non-adherence to Authority/ NEPRA directions resulted in non-recovery of security deposit amounting to Rs.294.60 million from industrial consumers during the Financial Year 2022-23.

The matter was taken up with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that the connections were sanctioned / energized with recovery of security deposit but due to old record / connections and not having any computerized system, these were not updated in the master file. As the connections were already running, therefore, as per CSM, security amount could not be updated.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to update the security amount and get the record verified within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 939/2023-24)

1.4.26 Doubtful adjustments of units under category-F “adjustment by Internal Audit” – Rs.257.91 million

As per Data Coding Instructions, ‘F’ category is for adjustment notes by Chief Auditor WAPDA. According to Commercial Procedure Manual, Revenue Officer and Assistant Manager are responsible for implementing in conjunction with the Executive Engineer, the commercial policy laid down from time to time by the Authority through the company and efficient application of billing and collection procedures.

During audit of CEO FESCO, it was observed that debit adjustments amounting to Rs.203.952 million and credit adjustments amounting to Rs.53.953 million were passed on to consumers through adjustment under category ‘F’. The said adjustment code was allotted only to adjustments, as pointed out by Internal Audit. On the other hand, Internal Audit FESCO was lagging behind by more than one year in audit of revenue offices. This reflected that debit and credit entries amounting to Rs.257.91 million (Rs.203.952 million Dr. + Rs.53.953 million Cr.) appearing under category-F were not pointed out by Internal Audit and hence, subsequent adjustment of the same was doubtful.

Non-adherence to the Commercial Procedure Manual resulted in doubtful adjustments of units under category-F “adjustment by Internal Audit” amounting to Rs.257.91 million during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that no loss was sustained by the Company and the procedural deviations were noted for future compliance.

The DAC in its meeting held on December 20 & 21, 2023 did not agree with reply and directed the management to inquire the matter at higher level. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 1202/2023-24)

1.4.27 Non-recovery of fixed charges from consumers due to non-installation of ToU meters - Rs.226.46 million

According to schedule of tariff, domestic and commercial consumers having sanctioned load 5 kW and above would be charged fixed charges and installed ToU meters.

During audit of DISCOs, it was observed that 8,474 domestic and commercial consumers having sanctioned load 5 kW and above were running on Single/3-Phase meters instead of ToU meters. As per NEPRA's instructions, connections having sanctioned load 5 kW and above were required to be installed with ToU meters and billing be made on consumption of peak and off-peak hours, which was not done. Hence, fixed charges amounting to Rs.107.34 million were required to be recovered from consumers. Moreover, regularization of the billing was needed after installation of ToU meters by recovering the cost of Rs.119.12 million from them. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of consumers	Amount (Rs.in million)
1.	FESCO	82 & 967/2023-24	2,138	119.41
2.	GEPCO	28 & 995/2023-24	5,950	101.28
3.	MEPCO	310/2023-24	113	3.04
4.	TESCO	1049/2023-24	273	2.73
Total			8,474	226.46

(Source: CP-88A & 88L of DISCOs for the year 2022-23)

Non-adherence to schedule of tariff and NEPRA's instructions resulted in non-recovery of fixed charges million from commercial consumers due to non-installation of ToU meters involving an amount of Rs.226.46 million up to the Financial Years 2022-23.

The matter was taken up with the management in April, 2023 & August to October, 2023 and reported to the Ministry in June, 2023 & October to December, 2023. The management replied that in some cases, ToU meters had been installed.

The DAC in its meeting held on August 26, 2023 and December 14-23, 2023 directed the management to expedite installation of ToU meters and get the record verified from audit within 60 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.4.36 having financial impact of Rs.47.51 million. Recurrence of same irregularity is a matter of serious concern.

1.4.28 Non-refund of excess saving incurred on deposit work - Rs.196.92 million

According to Para-11 Clarification regarding Revised Consumer Service Manual, dated March 26, 2021 "DISCOs were required to adjust or refund the amount of unused material as per actual cost even if it is below 10%".

During audit of Project Construction Directorate, FESCO, it was observed that an amount of Rs.450.67 million was incurred on ninety (90) deposit works against estimated amount of Rs.647.60 million deposited by the sponsors. Thus, an amount of Rs.196.92 million was overcharged against the actual expenditure. The amount of excess charged/saving beyond 10% was required to be refunded to the concerned depositors upon completion of work. Hence, retaining and non-refunding the amount of receipt against deposit works since long was a clear violation of NEPRA instructions. Moreover, the saving over and above the estimated cost indicated that the estimates were not prepared according to site requirements and were unrealistic.

Non-adherence to the NEPRA's instructions and weak internal controls resulted in non-refund of excess saving of Rs.196.92 million up to the Financial Year 2022-23.

The matter was taken up with the management on October, 2023 and reported to the Ministry in November, 2023. The management replied that final position of savings to be refunded would be determined after completion/capitalization of works.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to expedite the matter within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 574 /2023-24)

1.4.29 Non-capitalization of cost of consumers' self-purchased transformer into books of account - Rs.194.65 million

As per DISCOs Accounting Manual, after completion, the assets are capitalized at the concerned Operation Division and Fixed Assets Register is updated accordingly.

During audit of Eastern Circle, LESCO, it was observed that one hundred and twelve (112) transformers of various capacities were self-purchased by the consumers and installed at sites against new industrial connections. However, the cost of these transformers amounting to Rs.194.65 million was not booked and capitalized into books of accounts. The failure to adopt the capitalization process of accounting manual could result understatement of

assets. Non-existent asset and incomplete asset record could cause a material misstatement in the financial statements.

Non-adherence to accounting manual resulted in non-capitalization of cost of consumer's self-purchased transformer valuing Rs.194.65 million into books of accounts up to the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The management replied that cost of 112 self-purchased transformers was being capitalized in books of accounts as Capital Work in Process (CWIP).

The DAC in its meeting held on December 18 & 19, 2023 directed the management to get the record of capitalization of self-purchased transformers verified from Audit within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 338/2023-24)

1.4.30 Non-recovery of risk & cost from defaulted firm – Rs.190.71 million

According to Purchase Order Clause-9 (A) iii, failure and termination “if you (manufacturer / supplier) fail to deliver the stores or any consignment thereof within specified delivery period, the purchaser shall be entitled at his option either;- iii) to cancel procurement at your risk and cost in the event of action taken under clause (ii) or (iii) above, you shall be liable for any loss which the purchaser may suffer on the account, but you shall not be entitled to any gain on repurchase made against the supply order”.

During audit of CEO MEPCO, it was observed that a purchase order of Rs.231.00 million @ Rs.192,000/- per transformer was placed upon M/s Pan Power International Pvt. Ltd. Lahore for the procurement of 1200 transformers of 50 kVA on February 08, 2021 with delivery period of 150 days. The supplier could not supply the material up to October 20, 2022 and performance bond / guarantee valuing Rs.13.51 million was forfeited. Subsequently, a purchase order amounting to Rs.424.01 million for the procurement of one thousand (1000) 50 kVA transformers @ Rs.424,010/- per T/F was placed with M/s. Pak Electron Pvt. Ltd. on May 07, 2022. This resulted in loss of Rs.190.712 million (Rs.232,010 x 822 T/F 50 kVA) to MEPCO due to increased rates and also hampered its operational activities. As M/s Pan Power International Pvt. Ltd. breached the tender conditions, hence, risk and cost amounting to Rs.190.71 million was required to be recovered from the said firm.

Non-adherence to the contractual provisions resulted in non-recovery of risk & cost amounting to Rs.190.71 million from the defaulted firm up to the Financial Year 2022-23.

The matter was taken up with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that MEPCO had filed a recovery suit in Civil Court Multan regarding the recovery of risk & cost amounting to Rs.190.30 million from M/s Pan Power International and last date of hearing was November 06, 2023.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to pursue the recovery of risk and cost case vigorously and get the record verified from Audit within 60 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

1.4.31 Wasteful expenditures due to non-completion/capitalization of abandoned works - Rs.184.75 million

Accordinging Paras-4.1.3 to 4.1.6 of WAPDA Distribution Rehabilitation Guidelines September 2003, “total time for approval of work, execution and preparation of completion report will be restricted to 130 days”. As per DISCOs Accounting Manual, A-90 Form (completion report) prepared by the Deputy Manager (Construction) is certified by the Consultants and forwarded to Project Director (Construction) for capitalization.

During audit of Project Director Construction LESCO, it was observed that an expenditure amounting to Rs.184.75 million was incurred against fifty-five (55) LT proposals and sixteen (16) deposit works for the period from 2019 to 2023 but these works had not been completed yet. Moreover, neither the said works were capitalized into books of accounts nor amounts of deposit works were refunded to the donors.

Non-adherence to WAPDA Distribution Rehabilitation Guidelines resulted in wasteful expenditure of Rs.184.75 million due to non-completion/non-capitalization of abandoned works up to Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that deposit works were under process due to pendency of NOC. As soon as NOC was provided by sponsor, the work would be completed. Moreover, efforts were being made to complete the pending LT works.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to get the record of completed actions verified from Audit within 15 days and expedite the remaining works. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.628/2023-24)

1.4.32 Non-recovery of 5% E&S charges from industrial / housing colonies consumers – Rs.164.60 million

As per Section-12, Financial Implication and Delegation of Powers (Policy) of SOP of Environmental & Social Safeguards, Resettlement Policy “minimum 5% budget of total cost of project (Grid Stations, T/Lines & Colonies) to be allocated in Environmental & Social management head of own resources as well as deposit works. 5% E&S cost shall be charged for B-III, B-IV, 400 kVA connections.

During audit of CEO LESCO, it was observed that electrification estimates of 173 industrial connections under tariff B-III & B-IV amounting to Rs.2012.46 million and 95 housing colonies amounting to Rs.1,279.53 million were approved by the Planning & Development Section of LESCO without charging 5% Environmental & Social Safeguards (E&S) charges. Hence, E&S charges amounting to Rs.164.60 million neither charged nor recovered from consumers.

Non-adherence of E&S guidelines resulted in non-recovery of E&S charges amounting to Rs.164.60 million from industrial consumers and sponsors of housing colonies up to the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that LESCO was bound to recover only those charges, which were mentioned in NEPRA Consumer Service Manual 2021. Hence 5% E&S charges were not being recovered from the industrial consumers and other consumers.

The DAC in its meeting held on December 18 & 19, 2023 directed the management that the matter of deduction of 5% E&S cost might be taken up with NEPRA and report of the same be provided to Audit. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 1078/2023-24)

1.4.33 Irregular sanction for extension of load without clearing deferred amount – Rs.162.84 million

According to Para 2.14 (ii) of Consumer Service Manual, “extension of load case shall be processed subject to the condition that no arrears/ deferred amount/ installments are pending.”

During audit of CEO PESCO, it was observed that extension of load of M/s Yaar Steel Mills was sanctioned without clearing deferred amount of Rs.162.84 million. The said sanction for extension of load was against the provisions of the Consumer Service Manual and hence, considered irregular.

Non-adherence to provision of Consumer Service Manual resulted in undue favour to consumer due to irregular sanction for extension of load without clearing of deferred amount of Rs.162.84 million during the Financial Year 2022-23.

The matter was taken with the management in May, 2023 and reported to the Ministry in December, 2023. The management replied that the deferred amount related to taxes and industry was situated in the Free Tax Zone for which the case was under trial in the court. Moreover, the consumer after energization had paid on average Rs.400 million / month. Notice had also been issued to pay the dues.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with documentary evidence within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1096/2023-24)

1.4.34 Loss due to less charging of load factor to tube well consumers – Rs.162.81 million

According to Para-9.2.3 of Consumer Service Manual, “The detection bill will be assessed on the basis of any of the following methods in the order of priority: i) Previous consumption/Billing History, ii) On the basis of future, undisputed consumption if no previous credible consumption is available. iii) No of detection units = Load x Load Factor x 730 x Months, where: - Load is the connected load or sanctioned load in kW whichever is higher Load Factor as per Annexure V (which is 50%), Months = period for charging detection bill 730 = Average No of hours in a month

During audit of City Circle, QESCO, it was observed that 5.931 million units amounting to Rs.162.81 million were less billed to tube well consumers due to less charging of load factor (CP-21C of June 2023 was selected on sample basis). Since the tube well consumers of City Circle were directly connected to the line without metering equipment, therefore, due to charging of less load factor in detection bills, QESCO was deprived of legitimate revenue.

Non-adherence to rules resulted in loss of Rs.162.81 million due to less charging of load factor up to the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in December, 2023. The management replied that as per instructions and direction of Ministry of Energy, the supply hours of agriculture consumers were reduced to 4 to 6 hours from 8 hours, hence, less units were charged to the agriculture consumers.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to get the record verified from audit within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 958/2023/24)

1.4.35 Unauthentic estimated billing to Government (Military Engineering Services) connections -- Rs.155.60 million

According to Para-6.1 of Consumer Service Manual (CSM), meter readings for all types of connections are entrusted to particular officials/ officers according to load of connections. Further, "if due to any force majeure it is not possible for DISCO to take actual meter reading, the consumer may provide meter reading snap to DISCO for carrying out actual billing or DISCO may issue a provisional bill on average basis i.e. consumption in corresponding month (s) of last year or average consumption of previous eleven months whichever is lower. In such a case, a bill along with a slab benefit will be issued as per actual meter reading upon normalization of the situation".

During audit of Operation Circle Hazara-II, PESCO, it was observed that eleven (11) government consumers (Military Engineering Services) having sanctioned load from 16 to 110 kW were being billed on estimated basis for more than two years. The meters installed at these connections were defective/ damaged and the consumers were using direct supply. The status of these meters was not changed from "active" to "defective" and 4.72 million units amounting to Rs.155.60 million were billed on estimated basis. The said billing was not made on the mechanism prescribed in the CSM and hence, cannot be termed as authentic.

Non-adherence to provisions of the Consumer Service Manual resulted in unauthentic estimated billing amounting to Rs.155.60 million to Government connections (Military Engineering Services) up to Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in November, 2023. The management replied that installation of AMR meters was in progress and after installation of meters, the question of estimated billing would be eliminated forever. Audit contended that estimated billing was in contradiction to CSM and needed investigation for fixing of responsibility.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with documentary evidence to audit within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 532/2023-24)

1.4.36 Extra benefits afforded to consumers by multiple credit adjustments in one billing cycle – Rs.147.73 million

According to Para-1.3 of Commercial Procedure, “the Revenue Officer and Assistant Manager are responsible for; i) implementing in conjunction with the Executive Engineer, the commercial policy laid down from time to time by the Authority through the Company, ii) efficient application of billing and collection procedures”.

During audit of CEO FESCO, it was observed that multiple credit of Rs.147.73 million was afforded to same consumers in one billing cycle under various adjustment categories (excluding category-B). This cast a doubt on credit adjustments and caused extra benefit of Rs.147.73 million to the consumers.

Non-adherence to NEPRA Consumer Service Manual resulted in extra benefits afforded to consumers by multiple credit adjustments amounting to Rs.147.73 million in one billing cycle during the Financial Years 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that multiple credit adjustments in one billing cycle was afforded to consumers due to correction of meter reading, exemption of taxation, revision of detection and waiving of LPS.

The DAC in its meeting held on December 20 & 21, 2023 did not agree with the reply of the management and directed to inquire the matter at Manager (Customer Services) level within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 1018/2023-24)

1.4.37 Loss due to non-billing of electric supply - Rs.125.32 million

According to Para-1.3 of Commercial Procedure, “the Revenue Officer and Assistant Manager are responsible for: i) implementing in conjunction with the Executive Engineer, the commercial policy laid down from time to time by the Authority through the Company ii) efficient application of billing and collection procedure”. Moreover, Consumer Service Manual Annexure-V prescribed percentage of Load Factor for different categories of connections.

During audit of CEO SEPCO, it was observed that 0.625 million units were charged to the consumers against 4.41 million units received on four (04) feeders having 86% loss during the year 2022-23. Resultantly, Company sustained a loss of Rs.125.32 million.

Non-adherence to the provisions of commercial procedure resulted in loss of Rs.125.32 million due to non-billing of electric supply during the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in December, 2023. The management replied that out of four feeders billing of three feeders was made after correction of feeder coding and shifting of consumers and in one case, the correction was under way.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to inquire the matter and submit its report to Audit within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 1015/2023-24)

1.4.38 Non-consolidation of load of industrial consumer and non-recovery of detection charges – Rs.124.22 million

According to consumer service manual Para.2.6.6 “If an industrial consumer having load above 2.5 MW to 5 MW the cost of dedicated transformer and dedicated 11kV feeder be recovered.” And Para 5.2.3: - “In case of extension of load, the amount of security deposit shall be updated at prevailing rates for the entire load subject to adjustment of already paid Security Deposit.”

During audit of City Circle QESCO, it was observed that two (02) Industrial (B-3) connections were granted to M/s Mehmood Agricultural Foundry on the same location. Both the connections was running on extended load and consolidated load of both the connections were 4,004 kW. However, the management did not recover the cost of independent feeder and update their meter security; instead, both the connections were running on mixed industrial feeders. Further, both the connections were involved in theft of electricity and when the consumer was served with detection bills, the consumer approached the court of law and NEPRA. NEPRA in its decision decided that the consolidated load of consumer was 2990 kW. Moreover, as per sanctioned load, an independent feeder was required to be provided at the cost of the consumer, which was not done. Hence, neither the energy connections were disconnected nor the un-authorized extended load was regularized. The consumer had also applied for a third connection with sanctioned load of 995 kW, as evident from NEPRA's decision, which was under process at Head Office level and in that case, if the third connection load of the consumer was approved, the consumer might fell under Tariff B-4, and in case of Tariff B-4, independent Grid would be required as per CSM. However, the management neither recovered meter security, capital cost and arrears (deferred amount) of Rs.124.22 million nor the illegal extended load of consumer was regularized.

Non-adherence to rules resulted in non-consolidation of load of industrial consumer and non-recovery of detection charges amounting to Rs.124.22 million up to the Financial Year 2022-23.

The matter was taken up with the management in September 2023 and reported to the Ministry in November, 2023. The management replied that detection bill was served to the consumer on account of theft of electricity but instead of paying the bill, consumer filed petition in the High Court of Baluchistan which referred the case to NEPRA for decision. NEPRA passed decision in favor of QESCO. The consumer filed an appeal against the decision in NEPRA Tribunal, which was still pending.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to pursue the matter under intimation to Audit. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 637/2023-24)

1.4.39 Non/less recovery of grid sharing charges and cost of land from consumers -Rs.80.85 million

As per Clause 2.6 sub clause (VII) and (VIII) of Consumer Service Manual, "in case of Housing Society/ Scheme/ Colony/ Multistory Building/ Commercial Plaza/ High Rise Building having ultimate load demand up to 10 MW, 100% Grid Sharing Charges including transmission line charges, 100% cost of land will be recovered @ Rs.0.855 million per MW proportionate to load".

During audit of CEO LESCO, it was observed that an amount of Rs.80.85 million was not recovered or less recovered from six (06) industrial consumers and two (02) housing societies on account of 100% grid sharing charges and cost of land @ Rs.0.855 million per MW proportionate to load. The amount was required to be recovered from industrial consumers and the sponsors of housing societies as per provisions of Consumer Service Manual, which was not done.

Non-adherence to Consumer Service Manual resulted in non/less recovery of Rs.80.85 million grid sharing charges and cost of land from industrial consumers/housing societies up to Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that NEPRA clarified vide letter dated March 15, 2022 that the industrial consumers were not required to pay grid sharing charges including transmission line charges and cost of land for the entire load in case of extension of load above 5 MW to 7.5 MW. However, these charges were only applicable for the incremental load above 5 MW up to 7.5 MW. The reply was not agreed to being not substantiated with documentary evidences.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to seek clarification from NEPRA whether in case of extension of load, grid sharing cost including transmission line charges and cost of land from industrial consumers would be recovered on entire load or incremental load and report to Audit. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 1218 /2023-24)

1.4.40 Loss due to substandard / unspecified civil works and extra expenditure on its rehabilitation - Rs.76.95 million

According to Para No 01 of Special Stipulations of work order, "the work will be carried out strictly in accordance with the approved drawings, WAPDA standard specifications and the instructions of the Engineer. According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), "all losses whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved".

During audit of GSC GEPCO, it was observed that a Tower No.33 of 132 kV Double Circuit Narowal-Pasrur T/Line was in critical condition due to erosion of soil around its feet. An estimate of Rs.2.61 million (civil + electrical)

was prepared and civil work order of Rs.1.08 million issued to M/s Munir & Co. Lahore on September 23, 2019. However, in less than one year, the said newly replaced Tower could not sustain the pressure of flash floods and collapsed on July 28, 2021. Accordingly, an estimate of Rs.11.04 million was approved for replacing the Tower No.33. Though XEN T/Line proposed an inquiry for substandard civil work, but further outcome was not forthcoming from record. Despite such a substandard work, further work orders for other works were being issued to the said firm as latest one for Rs.14.14 million was issued on July 17, 2023.

Moreover, another Tower No.34 of the said D/C T/Line and two (02) Towers No.68 & 69 of Single Circuit T/Line, were initially constructed on normal foundations instead of pile foundation despite the fact that Nala Daik was running alongside. Subsequently, in order to avoid water flow of Nala Daik, the normal foundations were replaced with Pile foundations with an estimate of Rs.63.30 million.

Substandard / unspecified civil works resulted in loss of Rs.2.61 million and extra expenditure of Rs.74.34 million (Rs.11.04 + Rs.63.30 million) on its rehabilitation up to the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that the notice was served to M/s Munir & Co. on 13-10-2023 for explaining his position and an inquiry committee had been constituted.

The DAC in its meeting held on December 18 & 19, 2023 directed to inquire the matter at PPMCL level by G.M Technical and submit its report within a month. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 219/2023-24)

1.4.41 Less recovery from consumers due to application of wrong tariff - Rs.21.79 million

According to Para-1.3 of Commercial Procedure, "the Revenue Officer and Assistant Manager are responsible for: i) implementing in conjunction with the Executive Engineer, the commercial policy laid down from time to time by the Authority through the Company ii) efficient application of billing and collection procedure".

During audit of CEO IESCO, it was observed that a consumer having reference no. 27-14631-7490596 was charged under tariff C-II whereas, the supply was used for commercial purposes as pointed out by the management. Resultantly, an amount of Rs.146.02 million was charged und tariff C-II instead of charging an amount of Rs.167.81 million under commercial tariff A-2(C), hence, an amount of Rs.21.79 million was less recovered, which was loss to the company.

Non-adherence to Commercial Procedure resulted in less recovery of Rs.21.79 million from consumers due to application of wrong tariff during the Financial Year 2022-23.

The matter was taken up with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that the connection was given as per NEPRA's decision vide dated June 17, 2021.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to get clarification from NEPRA and submit its report to Audit for verification within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1060/2023-24)

1.4.42 Irregular acceptance of material in violation of tendered technical specifications - Rs.69.62 million

According to clause-2 & 5 of Purchase Order "11 kV dropout cutout as per WAPDA Spec. DDS-49:2009 was to be supplied by the contractor and inspection of the material was to be carried out jointly by representatives of Chief Engineer (MI) Power Planning Monitoring Company (PPMC) & Chief Executive Officer (CEO) PESCO."

During audit of CEO PESCO, it was observed that a purchase order for procurement of 6,298 11 kV Dropout Cutout amounting to Rs.69.62 million was placed on M/s Vision Engineering (Pvt) Ltd, Lahore. The offered material of said supplier was rejected twice by the Inspection Committee comprising of representatives of PPMC and CEO PESCO due to non-conforming with technical specifications of the material. However, the supplier requested for local inspection instead of representative of PPMC and offered extended warranty of 3 years. Later on, the inspection clause of the Purchase Order was amended by excluding representative of PPMC from Inspection Committee and the material was accepted on the basis of test reports, which were already disapproved by PPMC. This depicted that an undue favor was accorded to the supplier by accepting material having non-conformity with tendered technical specifications by amending the respective clause.

Violation of tendered technical specifications resulted in irregular acceptance of material amounting to Rs.69.62 million during the Financial Year 2022-23.

The matter was taken with the management in November, 2023 and reported to the Ministry in November, 2023. The management replied that due to lapse of sufficient time in inspection process by CE(MI) PPMC, and urgent requirement of the item for pending developmental works amendment in inspection was made. Extended warranty for 3-year was obtained from M/s Vision Engineering Pvt., Ltd. Applicable LD would also be deducted by Finance Director, PESCO.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to inquire the matter at PPMC level within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 840/2023-24)

1.4.43 Irregular provision of new connections to defaulters having arrears - Rs.60.62 million

According to Para-1.3 of Commercial Procedure, "the Revenue Officer and Assistant Manager are responsible for: i) implementing in conjunction with the Executive Engineer, the commercial policy laid down from time to time by the Authority through the Company ii) efficient application of billing and collection procedure".

During audit of CEO HESCO, it was observed that four hundred and nineteen (419) consumers defaulted the payment of electricity dues amounting to Rs.60.62 million. However, electricity was being supplied through another connection at the same premises and with same name. The provision of new electricity connection to the defaulters without recovery of outstanding energy dues was irregular and unjustified.

Non-adherence to the rules resulted in illegal provision of new connections to energy defaulters having arrears amounting to Rs.60.62 million up to the Financial Year 2022-23

The matter was taken up with the management in October 2023 and reported to the Ministry in November, 2023. The management replied that new connections were given to the existing consumers on the same premises having separate portions according to Consumer Service Manual. However, efforts were being taken for recovery of defaulting amount.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to inquire the matter at CSD level and submit report to Audit within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 787/2023-24)

1.4.44 Irregular approval of external electrification of housing societies without independent feeder – Rs.60 million

According to GM (PE&S) WAPDA letter dated October 06, 1998, “a situation may arise when even with all rehabilitation possible the ultimate load demand up to 2500 kW is not possible to consider from the existing 11 kV feeder, then an independent feeder is the only solution at the expense of the Sponsoring Agency including the cost of the Gird-end Breaker.”

During audit of CEO PESCO, it was observed that external electrification of two (02) housing societies were sanctioned on mix feeders without recovering the cost of independent feeders amounting to Rs.60 million. As per aforementioned letter of General Manager (PE&S), the permissible limit of voltage drop is 5% and technical loss is 3.5% for granting a housing society external electrification with ultimate load demand up to 2500 kW from an existing feeder. However, PESCO approved the connections on such feeders, which were already overloaded and far beyond the permissible limit and even after rehabilitation (re-conductoring), the load of feeders did not come within the range of permissible limit of 5% for voltage drop and 3.5% for technical losses. Hence, undue favour was extended to consumers which caused financial loss to PESCO due to non-recovery of independent feeders' cost and Grid-end breakers' cost.

Non-adherence to Authority instructions resulted in irregular approval of external electrification of housing societies without independent feeder amounting to Rs.60 million during the Financial Year 2022-23.

The matter was taken with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that the maximum permissible voltage drop & AEL were 5% & 3%, however, where these parameters were hard to maintain, then existing system should be compared to the proposed facility and if substantial benefits in terms of reduction in energy & voltage drop could be achieved, the HT proposal might be carried out. It was done in both the cases as in Afzal Garden case, the Voltage drop & AEL reduced from the existing figures of 21.96% to 19.48% and 9.59% to 6.42%, where as in the Sher Ali Garden, the voltage reduced from 27.72 % to 26.71% and AEL decreased from 13.16% to 11.13%.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 1187/2023-24)

1.4.45 Unjustified charging of meter rent to consumers – Rs.50.58 million

According to Rule-6 of NEPRA Licensing (Distribution) Rules 1999, “unless provided otherwise in the distribution license, the licensee shall charge only such tariff from the consumers, including the bulk-power consumers, as is approved by the Authority pursuant to and in accordance with the NEPRA (Tariff Standards and Procedure) Rules, 1998”.

During audit of CEO FESCO, it was observed that monthly meter rent amounting to Rs.50.58 million was charged to 295,497 consumers. Furthermore, it was observed that rate of charging of meter rent was not uniform and consumers were being charged from Rs.01 to Rs.2,190. The charging of monthly meter rent to consumers was irregular, as there was no such provision in the Consumer Service Manual.

Non-adherence to NEPRA's instructions resulted in unjustified charging of meter rent amounting to Rs.50.58 million to consumers during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that the policy for charging of meter rent was applied to those connections which were installed free of cost and the matter had already been referred to BoD FESCO for necessary directions. Audit contended that charging of meter rent for indefinite period was not covered under any rules & regulations of NEPRA.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to take up the matter with NEPRA for necessary directions within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 1200/2023-24)

1.4.46 Non-recovery of cost of independent grid stations from consumers - Rs.50.00 million

According to Consumer Service Manual section 2.6 (6) and industrial consumer applying load Above 5 MW was required to provide: i) Dedicated Transformer(s), ii) Dedicated 11 kV Feeder(s) & iii) Dedicated Grid Station and associated transmission line. The consumers may be allowed extension of load beyond 05 MW from the DISCO's owned grid station subject to availability of load in the grid and capacity in the 11 kV existing dedicated feeder. In such a case the consumer will bear 100% grid sharing charges including transmission line charges and 100% cost of land proportionate to load. However, only such consumers be allowed extension of load beyond 05 MW to 7.5 MW whose connection is at least three (3) years old.

During audit of MEPCO and HESCO, it was observed that three (03) industrial consumers qualified for provision of independent grid stations due to extension of load more than 5,000 kW; however, no action was taken

for installation of independent grid station. Hence, undue favour of Rs.50.00 million was extended to the consumers due to non-recovery of the cost of independent grid stations. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of Cases	Amount (Rs.in million)
1.	MEPCO	677/2023-24	2	50.00
2.	HESCO	1291/2023-24	1	0.00
TOTAL			3	50.00

(Source: Batch-24 of DISCOs)

Non-adherence to NEPRA’s instructions resulted in non-recovery of cost of independent grid stations amounting to Rs.50.00 million from consumers up to the Financial Year 2022-23.

The matter was taken up with the management in September and October, 2023 and reported to the Ministry in November and December, 2023. The management of MEPCO replied that the connections had separate portions and their entrances were also on different roads while the management of HESCO replied that condition for 3 years old connection was relaxed by NEPRA and the case was approved by competent authority by recovering all applicable charges.

The DAC in its meeting held on December 14 to 23, 2023 directed the management of MEPCO and HESCO to inquire the matter within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC’s decision.

1.4.47 Misuse of tariff by changing nature of industry – Rs.47.75 million

According to Para-2.6.7 of Consumer Service Manual, “Steel furnaces having sanctioned load up to 5 MW will pay the cost of dedicated transform(s) and dedicated 11 kV feeder(s).” Para 7.5.1 states, “The consumer shall, in no case use the connection for the purpose other than for which it was originally sanctioned. In case of violation, the consumer is liable for disconnection and legal action.” And according to Para-7.5.2, “DISCO shall serve seven days clear notice to the consumer who is found misusing his/her sanctioned tariff. However, DISCO shall immediately change the tariff and shall determine the difference of charges of the previous period of misuse to be recovered from consumer. However, in the absence of any documentary proof, the maximum period of such charges shall not be more than two billing cycles.

During audit of Operation Circle, Hazara-II, PESCO, it was observed that an industrial consumer M/s Kunhar Flour Mill bearing A/C No.30-26731-0000300 was involved in theft of electricity and was misusing tariff because the connection was used for steel furnace purposes instead of flour mill purposes. The record also revealed that consumer was using extended load illegally and its extended load fell under B-3 Tariff instead of B-2. The consumer had a huge arrear of Rs.28.27 million as well. Although, the consumer was disconnected and the case was under trial, however, timely action of recovering independent feeder cost, updating meter security of B-3 Tariff and recovery of arrear amounting to Rs.47.75 million was not made from consumer causing revenue loss to PESCO.

Non-adherence to rules resulted in loss of Rs.47.75 million due to misuse of tariff by changing nature of industry up to June 2023.

The matter was taken up with the management in August, 2023 and reported to the Ministry in November, 2023. The management replied that the notice regarding change in the nature of industry had already been issued and after serving the notice, the connection had been disconnected. Moreover, Security of Rs.928,620/- had been adjusted and shifted to Batch-36. The case had been referred to Deputy Collector, Mansehra for recovery of arrear amount.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with documentary evidence to audit within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 503 /2023-24)

1.4.48 Non-refund / credit of excess units charged to consumers - Rs.44.23 million

According to Commercial Procedure, "Revenue Officer is responsible for: i) Implementing in conjunction with the Executive Engineer, the commercial policy laid down from time to time by the Authority through the Company ii) Efficient application of billing and collection procedures".

During audit of Operation Circle Khyber PESCO, it was observed that various energy meters were removed from consumers' sites and sent to M&T Lab for checking their accuracy / consumption data analysis. As per M&T data retrieval results, 4.713 million units were found consumed by consumers whereas the consumers were charged with 6.187 million units, hence, 1.475 million units amounting to Rs.44.23 million were excessively charged. The excess charged units were required to be refunded / credited to the concerned consumers, which was not done.

Non-adherence to Commercial Procedure resulted in non-refund / credit of excess charged units amounting to Rs.44.23 million to consumers up to the Financial Year 2022-2023.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that Manager (M&T) had been asked for provision of account number wise detail as and when the same received from, reply would be submitted to audit.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 556/2023-24)

1.4.49 Loss due to less recovery of rehabilitation charges from consumers – Rs.40.88 million

According to provision 2.6(xiv) of Consumer Service Manual, the rehabilitation charges are applicable in case of industrial category where connection is given from common 11 kV feeder up to 1000 kW as per following rate:

Description	Rate (Rs.per kW)
15 kW to 40 kW	250
41 kW to 100 kW	400
101 kW to 500 kW	1200
501 kW to 1000 kW	3000

During audit of GEPCO and LESCO, it was observed that the estimates of five hundred and thirty-four (534) new/extension of load of industrial connections were framed by calculating rehabilitation charges on slab basis instead of applied load, hence, undue benefit was given by less calculation of rehabilitation charges. Resultantly, companies sustained loss due to less recovery of rehabilitation charges amounting to Rs.40.88 million. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of Consumers	Amount (Rs.in million)
1.	GEPCO	22 & 692/2023-24	355	22.67
2.	LESCO	330/2023-24	179	18.21
TOTAL			534	40.88

(Source: Consumer Service Files for the FY 2022-23)

Violation of the provision of Consumer Service Manual resulted in loss amounting to Rs.40.88 million due to less recovery of rehabilitation charges from consumers up to the Financial Year 2022-23.

The matter was taken up with the management in April, 2023 & September to October, 2023 and reported to the Ministry in June, 2023 & October to November, 2023. The management replied that rehabilitation charges were calculated slab wise as per NEPRA CSM, 2021 and as per clarification of GM Operation, WAPDA. The reply was not tenable as the amount of the said charges was calculated on incremental slabs instead of particular flat slab of the applied load.

The DAC in its meeting held on August 26 and December 14-23, 2023 directed the management to seek clarification from NEPRA and share it with Audit expeditiously. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

1.4.50 Non-capitalization of Earthquake Reconstruction & Rehabilitation Authority (ERRA) works – Rs.38.60 million

As per paras 4.1.3 to 4.1.6 of Distribution Rehabilitation Guidelines September 2003 “total time for approval of work, execution and preparation of completion report will be restricted to 130 days.”

During audit of Operation Circle Hazara-II PESCO, it was observed from trial balance of the City Division, Mansehra that a huge amount of Rs.38.60 million was shown as work in process. When the trial balances of previous years i.e. 2019-20 to 2021-22 were scrutinized, the same figures were present there too. It was further observed that the material amounting to Rs.26.22 million was drawn for reconstruction of damages caused by disastrous earthquake on October 8, 2005 and an expenditure of Rs.12.38 million on account of contract works was also incurred. However, these works were not completed and still appearing as work in process.

Non-adherence to rules resulted in non-capitalization of ERRA works amounting to Rs.38.60 million up to June 2023.

The matter was taken up with the management in August, 2023 and reported to the Ministry in November, 2023. The management replied that request for conducting the inquiry for non-capitalization of ERRA works had been sent to the CEO PESCO Peshawar.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with findings of inquiry to audit within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 505/2023-24)

1.4.51 Irregular approval for construction of 11 kV feeder without conducting technical / feasibility study - Rs.38.53 million

As per Para-4.1.2 (ii) of Distribution Rehabilitation Guidelines “load flow studies of proposed situation of feeders (with and without capacitor) should be carried at peak load (without growth) by using FDRANA as PSS-Adept software”

During audit of CEO TESCO, it was observed that a new 11 kV Mantoi feeder with total length of 46.5 KM at South Waziristan Tribal District was initially proposed at a cost of Rs.51.49 million. However, due to paucity of funds, the approval was made for construction of fragmented portion of said new feeder up to 18.3 KM at a cost of Rs.38.53 million but no technical / feasibility studies were conducted to evaluate the viability of new feeder viz load forecasting, benefit/cost analysis and fulfillment of future expansion plans. Hence, the approval and execution of new 11 kV Mantoi feeder without technical/feasibility studies was irregular.

Non-adherence to Rehabilitation Guidelines resulted in irregular approval for construction of 11 kV feeder of Rs.38.53 million without conducting technical / feasibility study during the Financial Year 2022-23.

The matter was taken up with management in October, 2023 and reported to the Ministry in December, 2023. The Management replied that the technical study was conducted using SynerGee software indicating that the losses were within acceptable limits and the feeder was deemed feasible.

The DAC in its meeting held on December 14 & 15, 2023 observed that the feeder had been constructed for fragmented portion and the full envisaged benefits could not be reaped. DAC also directed the management to provide load flow study along with benefits achieved due to energization of fragmented feeder to audit. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 887/2023-24)

1.4.52 Irregular excess charging of installation charges on consumer's self-purchased transformers – Rs.34.46 million

According to Consumer Service Manual 2021 (Para-2.7), in cases where work is required to be carried out by DISCO and there is shortage of material; DISCO may ask the applicant to procure required material. Material procured by the applicant shall be inspected and the applicant will be charged 8% installation charges of the material cost.

During audit of DISCOs, it was observed that the consumers were overcharged with installation fees totaling Rs.34.46 million up to 23% of the estimated cost of self-purchased transformers. This excessive charging occurred because the standard 8% installation fee on the invoiced cost of self-purchased transformers was not applied, leading to higher expenses for consumers.

The detail is as under:

Sr. No.	Name of Company	Draft Para No.	Amount (Rs.in million)
1.	GEPCO	25/2023-24	9.91
2.	LESCO	372/2023-24	23.06
3.	MEPCO	639/2023-24	1.491
Total			34.46

(Source: Consumer Service Files for the FY 2022-23)

Violation of the provisions of the Consumer Service Manual resulted in irregular excess charging of installation charges amounting to Rs.34.46 million from consumers with regard to self-purchased transformers up to the Financial Years 2021-22.

The matter was taken up with the management in April, 2023 and reported to the Ministry in June, 2023. The management replied that it did not charge any irregular / excess installation charges on consumers' self-purchased T/Fs.

The DAC in its meeting held on December 14 to 23, 2023 directed the management to get the record in support of reply verified from Audit within 15 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

1.4.53 Non-adjustment of credit units retrieved by M&T to consumers – Rs.30.65 million

According to Para-4.3.2 (c) of Consumer Service Manual, data of impugned meter shall be retrieved and actual consumption as per retrieved data shall be charged to the consumer after issuing a notice to the consumer and already charged bills issued on average basis shall be adjusted.

During audit of FESCO & GEPCO, it was observed from data retrieval reports of 1,725 defective meters that 1.35 million units amounting to Rs.30.65 million were excess charged to the consumers. The excess units charged were required to be credited to the respective consumers but the same was not done, which not only caused concealment of line losses but also resulted in exaggerated recovery position. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	Amount (Rs.in million)
---------	-----------------	----------------	---------------------------

1.	FESCO	161 /2023-24	5.323
2.	GEPCO	23 & 361/2023-24	25.330
TOTAL			30.65

(Source: M&T Reports for the FY 2022-23)

Violation of the provisions of the Consumer Service Manual resulted in non-adjustment of credit units amounting to Rs.30.65 million to consumers as retrieved by M&T during the Financial Years 2019-20 to 2021-22.

The matter was taken up with the management in April, 2023 and reported to the Ministry in June, 2023. The management replied that these meters were replaced due to slowness, burning, software issues, opening of meters and display issues. The refund on the basis of retrieved data could not be relied upon and matter would be dealt with in the light of outcome of investigation at sub divisional level.

The DAC in its meeting held on December 14 to 23, 2023 directed the management to inquire the matter at CEO level and submit its report to Audit within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision besides fixing responsibility.

1.4.54 Non-recovery of capital cost from the consumer – Rs.29.32 million

As per clause 2.4.7 of Consumer Service Manual “payment of demand notices for capital cost/ connection charges and security deposits (where work is to be carried out by the sponsor or by DISCO) may be allowed in installments on request of the applicant. However, if during that period escalation in cost of material occurs, the same shall be borne by the applicant”.

During audit of CEO LESCO, it was observed that M/s. Mughal Allay applied for extension of load from 4.95 MW to 25 MW with change of name to M/s Indus Engineering (Pvt) Ltd under tariff B-IV. Subsequently, demand notice for capital cost of Rs.211.41 million was issued to the consumer. The consumer requested for installments and two (02) demand notices for Rs.100.00 million and Rs.111.405 million were issued respectively. The consumer deposited 1st installment of Rs.100.00 million on August 23, 2022 and further requested to adjust refundable balance of Rs.72.062 million of his sister concerns i.e. M/s Mughal Iron and M/s. Steel Industries Ltd. In response to his request, LESCO management issued a fresh demand notice on September 08, 2022 on account of difference of 2nd installment amounting to Rs.29.324 million (Rs.101,405,330 – Rs.72,081,693) for payment within one month. But the consumer failed to deposit the 2nd installment of Rs.29.324 million up till October, 2023. No action was taken by the management, as neither the demand notice was cancelled nor the connection was disconnected.

Non-adherence to Consumer Service Manual resulted in non-recovery of Rs.29.32 million from the consumer on account of capital cost up to the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that work had already been stopped by PD GSC. However, remaining work would start after payment of fresh demand notice.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to issue fresh demand notice to consumer with fresh rates and to get the deposited amount verified from Audit. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 998/2023-24)

1.4.55 Loss due to non-recovery of independent feeder cost from Steel Furnaces – Rs.28.373 million

According to Para-c of Secretary WAPDA letter No.863-80/DD/(R&CP)/55716 dated August 25, 2000, "The connections for all types of steel furnaces, irrespective of sanctioned load, will be given through independent feeders." As per Para 2.6.7 of Consumer Service Manual-2021, "steel furnaces having sanctioned load up to 5 MW will pay the cost of dedicated transformer(s) and dedicated 11 kV feeder(s)."

During audit of Operation Circle Hazara-II PESCO, it was observed that electricity connections of two (02) steel furnaces (M/s Muhammad Arshad and M/s Waris Ali) were sanctioned from the existing 11 kV feeders instead of dedicated 11 kV feeders. Resultantly, cost of independent feeders amounting to Rs.28.373 million could not be recovered from the said consumers.

Non-adherence to rules resulted in loss of Rs.28.373 million due to non-recovery of independent feeder cost from Steel Furnaces up to the Financial Year 2022–23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that while sanctioning of the connection of M/s Muhammad Arshad, NEPRA's instructions were not available in NEPRA's Consumer Service Manual, 2019. The reply was not tenable as in the light of prevailing directions of Authority/ NEPRA, both the connections of steel furnaces were required to be sanctioned from dedicated 11 kV feeders.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with documentary evidence to Audit within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 404 /2023-24)

1.4.56 Loss due to revision of estimate of bogus completed work - Rs.26.601 million

According to Para-10 of General Financial Rules, "every public officer is expected to exercise same vigilance in respect of expenditure incurred from public money as a person of ordinary prudence would exercise in respect of expenditure of his own money, according to canons of financial propriety and probity".

During audit of Project Construction MEPCO, it was observed that M/s Saleem Const. received 100% payment against stringing work, whereas, the contractor completed only 30% physical work at site. Subsequently, an inquiry committee was constituted to probe the matter. The inquiry committee finalized the inquiry on April 16, 2022 and recommended disciplinary action against XEN, SDO and LS. However, the recommendations of committee were not implemented. Moreover, estimate of the same work was revised, which increased its cost from Rs.30.386 million to Rs.56.988 million with a difference of Rs.26.60 million. The difference of Rs.26.60 million was required to be recovered from the delinquents.

Non-adherence to the General Financial Rules resulted in loss due to revision of estimate of bogus completed work amounting to Rs-26.601 million during the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The management replied that an inquiry committee was constituted, which submitted its findings and recommended some actions against the delinquents.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to get the record verified within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 283/2023-24)

1.4.57 Extra cost borne by GEPCO due to non-clearance / non-provision of right of way by sponsor of housing scheme - Rs.24.04 million

According to Clause-23 of supply of power agreement, "Right of Way for in and out arrangements for 132 kV transmission and 11 kV feeders shall be provided by sponsor to GEPCO without any objection. As per Clause-29, "if the sponsor is found acting in contravention of agreement or any of his acts adjudged or liable to be adjudged prejudicial to any of the clauses contained herein or any other instructions issued from time to time, GEPCO reserved the right to revoke this agreement unilaterally and is also authorized to cancel the approval regarding electrification of the said housing scheme". As per Clause-34, "sponsor shall make sure that GEPCO have complete rights to use all the roads accessible at this land and also at the land under possession of GEPCO".

During audit of GSC GEPCO, it was observed that an agreement for supply of power to City Housing Scheme, Gujranwala was made in July 2020. Construction of 132 kV in & out T/Line was the responsibility of GEPCO at its cost whereas provision of Right of Way rested with the Sponsor. Technical sanction for 0.49 km route with estimate of Rs.26.57 million was approved. Accordingly, a work order of Rs.11.59 million was issued on November 21, 2022 but the work was hampered due to RoW issue. The sponsor neither got the RoW cleared nor permitted to use its territory for route of feeding T/Line. Instead of invoking Clause-29 for annulment of agreement and cancellation of electrification approval, the GEPCO revised the profile / route plan, which caused increase in length of T/Line from 0.49 km to 0.91 km and estimated cost from 26.57 million to Rs.50.61 million. Thus, GEPCO sustained extra cost of Rs.24.04 million due to default of Sponsor in fulfilling its contractual obligations.

Non-adherence to supply of power agreement resulted in extra cost of Rs.24.04 million borne by GEPCO due to non-clearance / non-provision of right of way by sponsor of housing scheme up to the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that the 1st route of T/line was proposed through agriculture land which was not the property of City Housing Society and due to ROW, the route of the T/Line was revised. As the grid station was GEPCO's property, hence, the construction of feeding T/line was the responsibility of GEPCO. Audit contended that due to default of the sponsor in clearing RoW, GEPCO had to bear extra expenditure.

The DAC in its meeting held on December 18 & 19, 2023 directed to inquire the matter at PPMCL level by G.M Technical and submit its report within a month. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 221/2023-24)

1.4.58 Non-recovery of cost of independent feeder from consumers - Rs.23.08 million

According to NEPRA tariff determination issued vide letter dated December 24, 2020, "B-3 tariff is applicable for supply to Industries having sanctioned load of more than 500 kW up to and including 5000 kW and the supply under this Tariff shall not be available to a prospective consumer unless he provides, to the satisfaction and approval of the Company, his own Transformer, Circuit Breakers and other necessary equipment as part of the dedicated distribution system for receiving and controlling the supply, or, alternatively pays to the Company for all apparatus and equipment if so provided and installed by the Company. The recovery of the cost of service connection shall be regulated by the NEPRA eligibility criteria."

During audit of Operation Circle Muzaffargarh MEPCO, it was observed that three (03) industrial consumer bearing reference Nos. 27-15731-0719201, 27-15733-0869707 & 27-15735-0346803 were running load more than their sanctioned load without approval of the competent authority. However, notices to these consumers were not issued. Moreover, the sanctioned load required to be provided an independent feeder at the cost of the consumer, which was not done. Hence, neither the energy connections were disconnected nor the un-authorized extended load was regularized.

Non-adherence to the operational rules resulted in undue favour of Rs.23.08 million to the consumer on account of non-regularization of connection according to the sanctioned/extended load up to the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in November, 2023. The management replied that the notices were served to consumers for regularization of load. After expiry of notice time period, further action would be taken against them as per SOPs.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to expedite recovery from concerned consumers within 60 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 676/2023-24)

1.4.59 Loss due to delayed approval and execution of external Electrification work – Rs.22.36 million

According to Rule-2A(a) of public sector companies Corporate Governance Rules, 2013 “the business of the public Sector Company is carried on with integrity, objectivity, due case and professional skills appropriate to the nature and scale of its activities.

According to clause 2.10.2 of Consumer Service Manual “Time period for various steps for processing new connections applications of different categories as mentioned above in Annexure-III”.

During audit of CEO GEPCO, it was observed that the consumer paid demand notice of Rs.38.59 million on November 29, 2021 against external electrification work of Sunny Garden Housing Scheme within due date. But Chief Engineer (P&E) issued revised demand notice on August 12, 2022 amounting to Rs.22.36 million to the consumer due to increase in cost of material which was not paid by the sponsor. The consumer complained the same to Chairman BoD for non-execution of external electrification of work within the stipulated time frame mentioned in CSM (Consumer Service Manual). The matter was inquired by GEPCO and inquiry committee recommended that the delay was mainly on the part of GEPCO management due to lack of coordination among the Planning and Execution, Finance Directorate, Project Director Construction and Manager Material Management. The disciplinary actions were recommended against the delinquents of construction and planning staff / officers who failed in timely submission and approval of revised demand notice at that time, which caused undue delay to consumer. Moreover, inquiry committee recommended to redress the consumer subject to the availability of material at old rates. This act of the management deprived GEPCO from its due funds amounting to Rs.22.36 and there was no documentary evidence regarding implementation of recommendations of inquiry committee’s report.

Non-adherence to public sector companies Corporate Governance Rules, 2013 and Consumer Service Manual resulted in loss of revenue of Rs.22.36 million due to delayed approval and execution of work during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that the Chief Law Officer (CLO) GEPCO was asked on October 13, 2023 that inquiry report had not identified the delinquents for initiation of disciplinary action and inquiry report had been returned to CLO for needful action.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to re-inquire the matter expeditiously and provide its report to Audit within a month. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No. 745/2023-24)

1.4.60 Irregular payment on account of transportation of electrical material – Rs.21.436 million

According to Schedule-B to Bid (Special Condition) clause-19 “The quoted unit rate should include charges for transportation (including loading, unloading and stacking etc) of all goods/material as per BoQ.

During audit of Project Directorate GSC SEPCO, it was observed that six (6) contracts valuing Rs.219.225 million were awarded to the contractors for construction and electrical works at different locations. However, it was noticed that the bidder quoted their bids prices amounting to Rs.21.436 million exclusive of transportation charges in BoQ in violation to the special condition of the contract. Hence, transportation cost amounting to Rs.21.436 million paid to the contractors was irregular.

Non-adherence to the special condition of the contract resulted in irregular payment of Rs.21.436 million to the contractor up to the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The management replied that no payment was made separately on account of transportation to contractors beyond the BoQ/Work Order, as all the transportation of all material included in BoQ was quoted by contractors and accordingly the payment was made to the contractors as per BoQ.

The DAC in its meeting held on December 22 & 23, 2023 did not agree with stance of the management and directed to inquire the matter and submit report to Audit within 30 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 375/2023-24)

1.4.61 Non-recovery of shifting/relocation charges of 132 kV T/L from the consumer/sponsor - Rs.19.96 million

According to NEPRA/MEPCO Consumer Service Manual Clause 3.1(a), "the shifting/relocation/addition of the facility (overhead or underground) shall be carried out at the cost of the sponsoring agency and not the affected consumer(s) or MEPCO" and further as per Clause 3.1(b), "If the consumer requires the relocation of an overhead or an underground service connection for convenience, because of construction, or otherwise obstructing access to the service connection, the MEPCO shall, at the consumer's expense, relocate its service connection".

During audit of CEO MEPCO, it was observed that on the request of NAB, a work of shifting/re-routing of 132 kV transmission line ensuring over the land purchased by NAB Multan was approved with an estimated cost of Rs.19.96 million under MEPCO's own resources without recovery of cost from the consumer in violation of SoPs.

Violation of the departmental Rules and regulator's directions resulted in loss of Rs.19.96 million due to non-recovery of shifting/re-routing charges from the consumer/sponsor during the Financial Year 2019-20.

The matter was taken up with the management in September, 2020 and reported to the Ministry in October, 2020. The management replied that the work was executed under MEPCO's own resources after approval of BoD, the said work was executed under its own resources. The reply was not tenable as in the light of CSM, the said work was required to be executed at consumer's expenses.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to get the record verified from Audit within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

1.4.62 Loss due to frequent replacement of energy meters of selective consumers - Rs.18.084 million

The Manager Operation Vehari Circle MEPCO vide letter No. 6481-82 dated March 31, 2022 directed all Executive Engineers, Operation Divisions to check the consumption history, current meter, connected load, data retrieval of removed meters of all account numbers.

During audit of Operational Circle Vehari MEPCO, it was observed that 2,690 single and three phase energy meters of the selective consumers were changed through multiple Meter Change Orders (MCO) ranging from 2 times to 3 times. Neither the cost of energy meters was received from the consumers nor the said energy meters were got checked from M&T/ S&I for proper technical analysis. The replacement of meters caused loss of Rs.18.084 million to the company during the Financial Year 2022-23.

Non-implementation of the instruction of Authority resulted in replacement of energy meters of selective consumers during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that 2,690 3-Phase / Single Phase defective meters were replaced two or more times in a year w.e.f January, 2022 to January, 2023 under NEPRA Consumer Service Manual January, 2021 Clause 4.4 which mentioned that "cost of meter was to be borne by DISCO (MEPCO) in case of meter Defective / Damaged / Burnt/ Display washed / internal fault / weathering effect etc. not due to consumer's fault".

The DAC in its meeting held on December 20 & 21, 2023 directed the management to share the M&T Report to audit for verification within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

1.4.63 Unjustified approval and execution of LT Proposal works - Rs.17.93 million

As per Project Director (Construction) memo dated November 30, 2022, administrative/ technical approval, sanction is accorded with following terms & conditions "the mentioned proposals have not been prepared to beneficial to any individual consumers and it is not prepared to provide electricity to new villages/ new abadies/ housing scheme or any other work falling under the head Deposit Work."

During audit of Project Directorate Construction HESCO, it was observed that eleven (11) LT proposals/ rehabilitating proposals of Rs.17.93 million were approved and executed under the head of DOP/ELR. However, it was revealed that extension of LT lines seemed to provide the supply to the un-electrified area and provided electricity to new villages and new abadies which fell under the head of deposit works. Such extension of LT lines also led to the use of unlawful means for pilferage of electricity through use of direct hooks on LT distribution lines. Hence, LT proposals executed in violation of prevailing guidelines and used as means for new electrification were considered unjustified.

Non-adherence to Authority instructions resulted in unjustified execution of LT proposals of Rs.17.93 million during the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in December, 2023. The management replied that details of works would be obtained to dig out facts in each case.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to submit revised reply along with justifications after getting the details within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 1278/2023-24)

1.4.64 Recurring loss due to illegal electrification of New University Model Housing Society and non-recovery of arrears – Rs.11.52 million

According to Para-III (1) of Guidelines for enforcing the responsibility for losses sustained by the authority through fraud or negligence of individuals, 1982, "All losses, whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved."

During audit of Operation Circle PESCO, it was observed that a housing society namely New University Model Housing Society at Jalozei under Pubbi-II Sub-Division) was illegally energized by installing one 50 kVA Transformer, four (04) HT Structures with two single phase meters from 11 kV Sheikhan feeder with the connivance of PESCO employees. The society was established on the premises of Internally Displaced Persons (IDPs) Camp/Previously Afghan refugees camp Jalozei, where HT/LT Poles existed and were not removed by PESCO's field formation and there was also a huge arrear of Rs.11.52 million pending against the premises/area. PESCO authorities had conducted an inquiry but implementation of its recommendation was not forthcoming from record. Resultantly, PESCO faced recurring loss along with non-recovery of arrears.

Non-adherence to Authority's instructions resulted in recurring loss due to illegal electrification of New University Model Housing Society and non-recovery of arrears amounting to Rs.11.52 million up to the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that the case was investigated through inquiry No. 11725 by PESCO H/Q and disciplinary action against the officials at fault was under process in PESCO H/Q. However, Rs.3,510,620/- was paid in UBL Pabbi by the consumer. Commissioner Afghan Refugees was also approached for recovery vide letter dated December 15, 2023.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with documentary evidence in support of reply to Audit within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 552/2023-24)

1.4.65 Unjustified execution of electrification work providing undue benefits to housing schemes - Rs.8.778 million

As per guidelines the administrative/ technical approval sanction is accorded with following terms & conditions “the mentioned proposals have not been prepared to beneficial to any individual consumers and it is not prepared to provide electricity to housing scheme or any other work falling under the head Deposit Work.”

During audit of CEO HESCO, it was observed that eleven (11) LT proposals for reconductoring of Aerial Bundled Cable and other electrification work were approved by Chief Engineering (P&E) with estimated cost of Rs.8.778 million. The subject works were carried out in different housing societies/colonies under the head of ELR/DOP at company’s cost. Audit is of the view that execution of such works was required to be executed on cost deposit basis instead company’s cost which was unjustified.

Non-adherence to the instructions resulted in unjustified execution of electrification work providing undue benefits to housing schemes valuing Rs.8.778 million during the Financial Year 2022-23.

The matter was taken up with the management in October 2023 and reported to the Ministry in December, 2023. The management replied that as per NEPRA’s instruction issued in CSM, after completion of electrification works by PD Const. HESCO, the said housing schemes were energized / handed over to concerned operation formation(s), after which the metering on individual basis had been carried out by the concerned operation staff. The O&M of electrification network had been also carried out by concerned operation staff. Hence, rehabilitation works inside the housing scheme could be carried out at the expense of HESCO.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to get the stance verified in support of reply from Audit within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No. 1293/2023-24)

1.4.66 Non-recovery of capital cost and security deposit from the consumer against EOL – Rs.6.47 million

As per Consumer Service Manual Clause-2.4.7, Payment of demand notices for capital cost/ connection charges and security deposit (where work is to be carried out by the sponsor or by DISCO) may be allowed in installments on request of the applicant. However, if during that period escalation in cost of material occurs, the same shall be borne by the applicant. No mark- up shall be levied by the DISCO (DISCO to insert its name) for payment of demand notices in installments. The DISCO shall provide connection within the stipulated time period as given in Annexure-III after receipt of full payment from the consumer/applicant.

During audit of CEO GEPCO, it was observed that provisional demand notices of 03 installments of security deposit and capital cost of Rs.9.701 million were issued to the consumer M/s. Haji Siddique Gujjar and Sons Steel Furnace against EOL from 1800 kW to 3000 kW. The consumer paid only 1st installment of Rs.3.234 million within due date and remaining two installments of Rs.6.47 million were not paid within due dates. However, neither provisional DNs were canceled nor recovery of remaining cost of material and security of

Rs.6.47 million was effected from the consumer. Hence, ultimately, delayed recovery caused escalation in cost of material and system constraints due to non-regularization of EOL.

Inefficient operational management resulted in non-recovery of capital cost and security deposit from the consumer against EoL for Rs.6.47 million during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that the consumer had paid two installments of Rs.3,234,000 each and 3rd installment of Rs.3,233,000 was due for payment for which a notice had been issued on November 30, 2023. The work would be executed after complete payment of installments and connections would be energized after issuance of SCO.

The DAC in its meeting held on December 18 & 19, 2023 **directed the management to get the record of completed action verified from Audit within a week and complete the pending action within a month expeditiously.** No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 693/2023-24)

1.4.67 Non/ less recovery of capital cost from housing societies due to less assessment of ultimate load – Rs.5.918 million

The load assessment of housing societies was required to be carried out in the light of Annexure-VI of Consumer Service Manual-2021.

During audit of CEO PESCO, it was observed that the load of two (02) housing societies was sanctioned without following the load assessment criteria of NEPRA and ultimate load of these housing societies was less assessed. Resultantly an amount of Rs.5.918 million on account of capital cost was not/ less recovered from the said housing societies.

Non-adherence to provisions of the Consumer Service Manual resulted in non/ less recovery of capital cost amounting to Rs.5.918 million from housing societies due to less assessment of ultimate load during the Financial Year 2022-23.

The matter was taken with the management in May, 2023 and reported to the Ministry in December, 2023. The management replied that a load criterion was basically based on number of lights, fans, power plugs etc., so for different type of plots, assessed load would be different.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with documentary evidence to Audit within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1057/2023-24)

1.4.68 Illegal removal of transformers for illegal repairing through private workshop - Rs.5.2 million

According to instructions issued by GM (HR), PEPCO letter dated August 16, 2001 Para 2 “all DISCOs to immediately stop the repair of transformers from private workshops and SE/XEN must be made responsible for any such repair in future in their jurisdiction.”

During audit of CEO MEPCO, it was observed that a 630 kVA transformer was removed with the connivance of field staff for getting it repaired from a private workshop i.e. Transfocare (Pvt) Limited. The said workshop was raided by Manager (M&S) MEPCO alongwith local police and found that four (04) transformers of different capacities including 630 kVA one valuing of Rs.5.2 million were lying in workshop for illegal repair. Audit holds that the involvement of operation staff could not be ruled out for illegal execution of repair work. Neither FIR against concerned persons of Institute of Southern Punjab (ISP) and owner of Private repairing workshop was filed nor action against SE/XEN was taken as required under/instructions.

Non-observance of rules resulted in illegal removal of transformers valuing Rs.5.2 million for illegal repair through private workshop during the Financial Year 2022-23.

The matter was taken up with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that M/s Transfocare (Transformer Reclamation Factory) was an authorized transformers’ reclamation factory, whose registration/pre-qualification under category M-1 for repair of distribution transformer was granted by Secretary Pre-Qualification Committee Material Management MEPCO Multan on January 13, 2014.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to inquire the matter and submit its report to audit within 30 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No. 894/2023-24)

1.4.69 Loss due to unjustified execution of electrification works giving undue benefit to industrial consumers - Rs.4.47 million

According to the instructions issued by WAPDA dated July 17, 1982, “All losses, whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved.”

During audit of Project Directorate Construction HESCO, it was observed that an estimate for rehabilitation/maintenance work on branch of 11 kV Hoosri feeder was approved with cost of Rs.4.47 million on September 17, 2021 and completed in June, 2023. The subject estimate was sent to Circle Manager, M&T as it involved the shifting of 15 industrial connections. The Circle Manager, M&T visited the site and noted observation that, “The above estimate work is giving benefits to 15 industrial connection/consumers without any approval for shifting of connections & without payment of demand notice, which is unjustified, therefore, the work should be carried out under the head of deposit work”. However, work was executed under maintenance head (own source) which was unjustified and loss to the company.

Non-adherence to Authority’s instructions resulted in loss of Rs.4.47 million due to unjustified execution of electrification works giving undue benefits to industrial consumers, during the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The management replied that no undue benefit was given to industrial consumers. The estimate of 11 kV Hoosri feeder was approved under DOP after completion of all codal formalities.

The DAC in its meeting held on December 22 & 23, 2023 directed to inquire the matter by G.M. (Operation) and submit its report to Audit within 30 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 408/2023-24)

1.4.70 Illegal electrification of a private housing society - Rs.4.28 million

According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), "all losses whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved".

During audit of CEO LESCO, it was observed that a 25 kV transformer was sanctioned for electrification of a Havaily at village Kahna Nau Lahore; however, the subject land was acquired by a housing society which established a new block that was not approved for electrification by LESCO. The management of society illegally replaced 25 kVA transformer with 100 kVA transformer without obtaining the permission/approval from LESCO and provided electricity to 41 houses with the collaboration of field staff. The concerned officials failed to point out the subject irregularities which not only resulted in illegal electrification of housing society but also caused theft of electricity.

Non-adherence to the Authority's guidelines resulted in illegal electrification of private housing society amounting to Rs.4.28 million during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that 25 kW transformer was installed at village Shahzada Kahna Nau, Lahore. Subsequently, the said area was illegally electrified by the private housing society i.e. Al-Jannat Housing Scheme by replacing 25 kVA transformer with 100 kVA transformer and it also installed 15 Poles. However, with the help of police, the said transformer was removed. The FIR bearing No. 7131/22 dated September 21, 2023 was lodged against the management of the society. Moreover, disciplinary case was also recommended for illegal electrification of housing society.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to take departmental action against the responsible and get the record verified from Audit. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 842/2023-24)

1.4.71 Irregular charging of material cost after completion & energization of transmission line - Rs.4.19 million

According to GEPCO's Accounting Manual, after completion, the assets are transferred to the concerned division of GSO Circle, which in turn capitalize the asset and Fixed Assets Register is updated accordingly. In this regard, A90 Form is prepared and approved by DM GSC, certified by the Consultants and forwarded to Office of P.D GSC. AB-161 Form (Fixed Assets Cost Sheet) is prepared for each project that is being capitalized while ensuring the following points: - Account Heads are assigned to the Fixed Assets being capitalized, Quantity of Fixed Assets, amount of each asset and name of division of GSO Circle to whom fixed assets are going to be transferred etc. After issuance of debit advice(s), LPS is prepared for posting to Trial Balance and Transfer of Fixed Assets to the concerned division of GSO Circle is posted in Trial Balance.

During audit of GSC GEPCO, it was observed that a 132 kV Grid Station Gujrat Transmission Line Tee-Off point to Wazirabad Grid Station was approved with revised estimate of Rs.151.73 million and was completed and energized on July 09, 2022. Later, electrical equipment amounting to Rs.4.19 million was drawn from warehouse through SR No. 146652 in August 2022 and charged to the said already energized transmission line. Moreover, allocation order did not bear the name of the work / project against which the allocation of material was made.

Non-adherence to GEPCO's Accounting Manual resulted in irregular charging of material cost of Rs.4.19 million after completion & energization of transmission line during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that the line was only energized but not capitalized, therefore, the additional material could be charged.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to provide the record in support of reply to Audit for verification within a week. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 292/2023-24)

1.4.72 Loss due to illegal installation of transformers and poles at housing society and petrol pump – Rs.2.32 million

According to Para-III (1) of guidelines for enforcing the responsibility for losses sustained by the authority through fraud or negligence of individuals, 1982, "All losses, whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved."

During audit of CEO PESCO, it was observed that an inquiry was conducted regarding installation of illegal transformers and HT/LT poles at a housing society and petrol pump amounting to Rs.2.32 million. But implementation of the inquiry report's recommendation was not forthcoming from the record. Moreover, proper inquiry was not conducted to find out the actual reasons and extent of losses for fixing responsibility.

Non-adherence to Authority's Guidelines resulted in loss of Rs.2.32 million due to illegal installation of transformers and poles at housing society and petrol pump during the Financial Year 2022-23.

The matter was taken with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that the matter of housing society was inquired through inquiry committee and FIR was lodged against the owner. Material was in the custody of police and penalties had been imposed on PESCO employees. The matter of 50 kVA transformer was reported by the S&I and on the basis of fact-finding report and recommendations, actions had been taken against employees.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to get the record verified from Audit in support of reply within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1136/2023-24)

1.4.73 Unjustified inclusion of consultancy charges in the estimates of village electrification schemes under SDGs & CMDP - Rs.1.78 million

According to Para-4(IX) of Guidelines issued through Notification of Cabinet Division Islamabad dated June 13, 2022 for implementation of the Sustainable Development Goals (SDGs), "Expenditure shall not be incurred on purchase of equipment (if not part of scheme), vehicles, fixtures, salaries, printing of diaries/calendars/banners, holding of official meetings and dinners/parties etc. similarly, no administrative overheads shall be charged by any agency for execution of the SDGs' schemes."

In Project Directorate Construction HESCO, 183 works of village electrification schemes costing Rs.258.663 million were completed under Sustainable Development Goals (SDGs) & Chief Minister's Development Programme (CMDP) during Financial Year 2022-23. The scrutiny of estimates revealed that consultancy charges @0.64% amounting to Rs.1.78 million were included in the estimates of these works which was unjustified, as no consultant was engaged by the management.

Non-adherence to Cabinet Division's guidelines resulted in unjustified inclusion of consultancy charges in the estimates village electrification schemes under SDGs & CMDP valuing Rs.1.78 million during the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The management replied that estimates were prepared and approved as per practice in vogue by inclusion of consultancy charges being 3rd party's charges for vetting of estimates in all DISCOs. During the process of approval of estimates, the agreement for hiring of consultants could not be finalized in HESCO. The amount for inclusion of consultancy charges would be surrendered after approval of competent authority.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to show that amount of consultancy included in PC-1 and get the record verified from audit within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 414/2023-24)

1.4.74 Loss due to irregular double/triple credits to consumers – Rs.1.75 million

According to instructions issued by the Managing Director PEPCO vide letter dated December 01, 2007, “Strict disciplinary action, without any exception, shall be taken against the officers and staff found involved in the overbilling”. As per Memorandum of understanding (MOU) signed between Ministry of Water & Power and DISCOs, “Adjustment / bill corrections will be rationalized / minimized to less than 0.01% of total billing”.

During audit of Operation Circle Khyber PESCO, it was observed that irregular double/triple credit adjustments of 62,078 units amounting to Rs.1.752 million were allowed to twenty-three (23) consumers as revealed from inquiry order dated August 30, 2022. This indicated that undue favor was extended to consumers causing loss to the company.

Non-adherence to Authority’s instructions resulted in loss due to irregular double/triple credits to consumers amounting to Rs.1.75 million up to the Financial Years 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that the inquiry No. 12458 dated October 25, 2023 had already been constituted to probe into matter of double/triple credit to the consumers, inquiry committee recommended disciplinary action against 11 officers/officials. Letters of Expanation issued to all the officers/officials, which were under process. Audit would be informed and revised reply would be submitted after its decision.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with documentary evidence in support of reply to Audit within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No. 567/2023-24)

1.4.75 Non-recovery of grid sharing charges from Commercial Plaza – Rs.1.38 million

According to Clause-2.14 of Consumer Service Manual (CSM) 2021, “in case of extension of load/ reduction of load, the consumer should provide and pay payment of capital cost (if applicable) and updating of security deposit.” According to Clause-2.6.3 of Consumer Service Manual (CSM) 2021, “50% grid sharing charges @ Rs.4,474 shall be recovered from Multi-storey Building/Commercial Plaza/High Rise Building having ultimate load demand up to 10 MW.”

During audit of CEO PESCO, it was observed that load of a commercial plaza was reduced from 904 kW to 480 kW. However, capital cost amounting to Rs.1.38 million on account of 50% grid sharing charges was not recovered from the consumer. Moreover, the test report obtained at the time of reduction of load was doubtful, as details of required load was not stated in ultimate load requirement.

Violation of the provisions of the Consumer Service Manual resulted in non-recovery of grid sharing cost from commercial plaza amounting to Rs.1.38 million during the Financial Year 2022-23.

The matter was taken with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that during initial sanctioning of 904 kW for one point supply, no sharing cost was involved as per SOP of that time. Now, after reduction of load from 904 to 480 kW, tariff billing was changed from one point supply to individual billing. After energization of the reduced load, the billing would be done by

the concerned operation field on an individual basis. So, the grid sharing charges would be recovered, if any, by the operation formation.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with documentary evidence to Audit within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1056/2023-24)

1.4.76 Loss due to payment of penal interest against delayed payments for purchase of state land - Rs.1.33 million

According to Rule 5 (a) (i) of Public Sector Companies (Corporate Governance) Rules 2013, "the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders."

During audit of PMU MEPCO, it was observed that an amount of Rs.1.33 million @13.50% on account of penal interest was paid due to delay in payment of original amount of Rs.43.42 million for purchase of land for construction of 132 kV grid station Khanewal-II. Chief Engineer (Development) PMU received challan for original payment on June 10, 2021 but due to delay of BoD meetings approval for payment was accorded in 181st meeting held on January 19, 2022. The payment was made on January 22, 2022 after lapse of almost seven months. The delay on the part of management and BoD caused loss of Rs.1.33 million as penal interest due to delayed payment.

Non-observance of Corporate Governance Rules resulted in loss of Rs.1.33 million due to payment of penal interest against delayed payments for purchase of state land during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in December, 2023. The management replied that an inquiry was conducted by the management to probe the matter which concluded that no officers / officials was responsible for inordinate delay in submission of case to BoD MEPCO and delay after approval of BoD as well as execution of contract. The delay took place to complete the necessary procedural steps.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to inquire the matter and submit its recommendations to Audit within 30 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 1287/2023-24)

1.4.77 Loss due to application of wrong tariff - Rs.1.28 million

According to Rule 5(5) of Public Sector Companies (Corporate Governance) Rules, 2013, “the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders.”

During audit of CEO IESCO, it was observed that two (2) consumers were billed under wrong tariff. One consumer having reference number 25-14357-6457100 was charged under tariff B1 instead of under tariff A-2c while another consumer having reference number 28-14358-6442605 was charged under tariff D-2b instead of A-2c. Hence, an amount of Rs.1.28 million was less recovered from consumers due to wrong application of tariff.

Non-adherence to Corporate Governance rules resulted in loss of Rs.1.278 million due to wrong application tariff during the Financial Year 2022-23

The matter was taken up with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that tariff of the consumers had been changed to A-2 (C).

The DAC in its meeting held on December 14 & 15, 2023 directed the management to get the record verified from Audit within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.1102/2023-24)

1.4.78 Irregular working of private persons in operation subdivisions with the connivance of FESCO employees

According to Rule-5(5) of Public Sector Companies (Corporate Governance) Rules, 2013, “The Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders.”

During audit of CEO FESCO, it was observed that Vigilance Directorate of Power Planning and Monitoring Company (PPMC) reported working of twenty-one (21) private persons as linemen/meter readers in operational subdivisions. Moreover, a fatal accident of a private person while working on LT line was also reported by the said Directorate. This warranted a detailed inquiry of matter for taking disciplinary actions against the FESCO employees responsible for connivance with private persons but the same was not done.

Non-adherence to the provisions of corporate governance rules resulted in irregular working of private persons in operation subdivisions with the connivance of FESCO staff during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that incident of fatal accident was investigated by Standing Committee on investigation of Fatal/ Non-Fatal accidents and officers / officials held responsible were penalized according to E&D Rules. Audit contended that working of private persons in operation divisions of FESCO as reported by Vigilance Directorate of PPMCL needed to be investigated for taking strict actions against FESCO employees responsible for connivance with private persons.

The DAC in its meeting held on December 20 & 21, 2023 did not agree with the management reply and directed to investigate the matter for taking strict disciplinary actions against the official (s) / officer (s) held responsible within 30 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 948/2023-24)

1.4.79 Loss of energy due to illegal electrification by the consumers

According to Rule-5(5) of Public Sector Companies (Corporate Governance) Rules, 2013, "The Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders."

During audit of CEO IESCO, it was observed that two consumers' transformers and HT /LT poles were installed without the approval of IESCO on plotting area at Khasra No.392, 1080 etc., at Mouza Phulgharan, BharaKahu, Islamabad. FIA raided at sight and initiated an inquiry, the outcome of which was still awaited.

Non-adherence to Corporate Governance Rules resulted in loss of energy due to illegal electrification of consumers during the Financial Year 2022-23.

The matter was taken up with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that the illegal electrification was carried out by the owner of the Society / Plotting area. However, the owner of said plotting area approached C.E (P&E) IESCO for proper sanction of external electrification.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to get the record verified from Audit in support of reply within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.961/2023-24)

Concluding Recommendations

Unsatisfactory operational management constitutes an area of significant internal control lapses in the distribution companies. It entails both financial losses as well as operational in-efficiency in the power sector. Strict adherence to established standards and SoPs for tariff assessment, load management, extension of load and installation of additional equipment are needed to address the issue. Prompt action against all those responsible for the subject operational shortcomings is also required to be taken across the board. Furthermore, efforts are needed to expedite recoveries identified by Audit.

1.5 Unsatisfactory Asset Management

The companies are managing assets having worth billions of rupees. Further, every year additional assets are continuously being replaced/upgraded to meet the growing electricity demands of the country. Each entity has

a designated Material Management Department to manage the allocation and utilization of electrical equipment for different works and for their record keeping at different stores. In this context, gaps in the asset management practices are a major gray area and a significant operational challenge for the distribution companies.

The Material Management data is partially automated across the DISCOs/NTDC and use of manual forms and sheets remain entrenched in the companies. There are various anomalies in the manual record keeping processes. For example, there are differences between material issued from stores and those installed at sites. Return of surplus material to stores is commonly found wanting. The final utilization of material is not properly maintained on different occasions. Transfer of installed material from site A to site B is also based on manual records with no system-based reconciliation. Thus, there is an overall lack of transparency and accuracy in the material management process creating an environment vulnerable to irregular/illegal practices in the DISCOs/NTDC having financial implication and creating organizational in-efficiencies.

Moreover, allied aspects of asset management have entailed timely disposal of unserviceable material as well as rationalization of store items. Unnecessary purchase of material without planning and forecasting has resulted not only in blockage of company funds but also the material is losing its shelf-life and warranty without ever being put to use.

On the above lines, audit has analyzed the asset management issues in the DISCOs/NTDC from different aspects: firstly, at company level and secondly on sample basis at operation / circle level to highlight the in-efficiencies, lack of transparency, irregularities and internal control lapses incurred by the companies as illustrated in the following paras:

1.5.1 Loss due to payment of interest on delayed payment to PMLTC on account of HVDC transmission line charges – Rs.49,070.92 million

As per Section 9.4 (a) (iii) at any time following the Commercial Operations Date on or after first (1st) Business Day of each month, the Company may submit an invoice, complete in all respects, to the purchaser stating any interest payable hereunder on an amount not paid by the due and payable date, showing the calculation of such claimed interest in reasonable detail.

During audit of General Manager HVDC (NTDC) Lahore, M/s Pak Matiari-Lahore Transmission Company (PMLTC) invoiced Rs.1,338.59 million to NTDC on account of transmission charges, and Rs.47,732.33 million interest charges, which was piling up day by day. As per agreement, NTDC was responsible to pay delayed payment charges and interest charges which was Rs.49,070.92 million to PMLTC. This state of affairs showed the poor performance of the company resulting in loss to stated extent.

Non-adherence to the contract clause resulted in loss of Rs.49,070.92 million due to payment of interest on delayed payment to PMLTC on account of HVDC transmission line charges during the Financial Year 2022-23.

The matter was reported to the management in September 2023 and reported to the Ministry in November, 2023. The management replied that Interest on Account of delayed payments by PMLTC had been invoiced by NTDC to CPPA-G.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to submit the revised reply and get the record verified from audit within thirty (30) days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.6.3 having financial impact of Rs.21,956.85 million. Recurrence of same irregularity is a matter of serious concern.

(Draft Para No. 616/2023-24)

1.5.2 Loss due to damage of electrical material – Rs.9,362.04 million

According to Rule-5(5) of Public Sector Companies Corporate Governance Rules-2013, “the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders”.

During audit of DISCOs and NTDC, it was observed that electrical material comprising distribution transformers and other items valuing Rs.9,362.04 million were damaged. In most of the cases, the administrative action was neither initiated nor finalized to find out the reasons for fixing responsibility. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	Amount (Rs.in million)
1.	FESCO	585/2021-22,167,1108,1129 & 1142/2023-24	209.37
2.	GEPCO	35,36 & 353/2023-24	371.34
3.	HESCO	792/2023-24	470.94
4.	IESCO	140,146 & 228/2023-24	381.87
5.	MEPCO	938/2023-24	182.83
6.	PESCO	388,553 & 1058/2023-24	4,863.27
7.	QESCO	455 & 1113/2023-24	1012.62
8.	SEPCO	18 & 588/2023-24	1678.74
9.	TESCO	190/2023-24	5.67
10.	NTDC	560 & 579/2023-24	185.39
TOTAL			9,362.04

(Source: Progress Reports of Damages of DISCOs)

Non-adherence to the rules resulted in loss of Rs.9,362.04 million due to damage of electrical material up to the Financial Year 2022-23.

The matter was taken up with the management during March to April, 2023 & August to October, 2023 and reported to the Ministry during June, 2023 & October to December, 2023. The management replied that in some cases, inquiry committees were concluded and held no one responsible for damages, while in other cases, the inquiry committees had been constituted.

The DAC in its meeting held on August 26 & September 09, 2023 and December 14-23, 2023 directed the management to provide the revised reply case to case basis, expedite the inquiry proceedings and submit its reports to audit within a month. As regards the MEPCO, DAC directed to inquire the matter at PPMCL level and submit its report to audit within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.5.5 having financial impact of Rs.5,767.35 million. Recurrence of same irregularity is a matter of serious concern.

1.5.3 Non-return of dismantled / healthy electrical material to store – Rs.2,126.30 million

According to Para-3.1 (Section-12) of WAPDA Distribution Stores Manual, it is the responsibility of the SDO to ensure that damaged or otherwise unserviceable material is returned to the stores as soon as possible. As per Para-75 of WAPDA Accounting Manual 1978, on completion of the work, the excess material will be returned to godown or transferred to another work.

During audit of DISCOs, it was observed that electrical material valuing Rs.2,126.30 million was dismantled from various works. The dismantled material was required to be returned to store but needful was not done. No departmental action was taken against the quarter concerned for non-return of material to store. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	Amount (Rs.in million)
1.	GEPCO	244, 248, 252 & 356/2023-24	118.24
2.	HESCO	411/2023-24	12.14
3.	IESCO	151, 225 & 227/223-24	83.40
4.	LESCO	804/2023-24	9.74
5.	MEPCO	286 & 901/2023-24	95.28

6.	PESCO	381, 399, 852 & 927/2023-24	55.65
7.	QESCO	08, 391, 425, 463 & 867/2023-24	1,650.06
8.	SEPCO	234/2023-24	2.38
9.	TESCO	827, 841 & 1091/2023-24	29.97
10.	NTDC	487/2023-24	69.44
TOTAL			2,126.30

(Source: Completion Reports / A-90)

Non-adherence to Distribution Stores / Accounting Manual resulted in non-return of dismantled electrical material amounting to Rs.2,126.30 million to store up to the Financial Year 2022-23.

The matter was taken up with the management in March to June, 2023 & August to October, 2023 and reported to the Ministry in June, 2023 & October to December, 2023. The management replied that in some cases the material had been returned, while in remaining cases the material would be returned to store.

The DAC in its meetings held on September & October 09, 2023 and December 14-23, 2023 directed the management to get the record of completed action verified from audit within a week and to complete the pending action within a month expeditiously. No further progress was intimated till finalization of the report.

Audit recommends that the management needs to implement DAC's decision.

1.5.4 Blockage of funds due to non-completion / capitalization of works - Rs.554.45 million

According to Paras-4.1.3 to 4.1.6 of WAPDA Distribution Rehabilitation Guidelines September 2003, "total time for approval of work, execution and preparation of completion report will be restricted to 130 days". As per DISCOs Accounting Manual, A-90 Form (Completion Report) prepared by the Deputy Manager (Construction) / Deputy Manager (GSC) is certified by the Consultants and forwarded to Project Director (Construction) / Project Director (GSC) for capitalization.

During audit of GEPCO and HESCO, it was observed that 154 LT proposals and grid station worth Rs.554.45 million were either lying incomplete or completed but not capitalized. The said works were initiated to reduce distribution losses, improve the efficiency of transmission / operational system and extend the electricity facility to the people of respective areas. Due to non-completion / capitalization of the said works, desired benefits could not be achieved. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of works	Amount (Rs.in million)
1.	GEPCO	367/2023-24	153	177.62
2.	HESCO	722/2023-24	01	376.83
TOTAL			154	554.45

(Source: Progress Reports of DISCOs)

Non-adherence to WAPDA Distribution Rehabilitation Guidelines resulted in blockage of funds amounting to Rs.554.45 million due to non-completion / capitalization of works up to the Financial Year 2020-23.

The matter was taken up with the management September, 2023 and reported to the Ministry during October to November, 2023. The management replied that some of the works had been fully/partially completed and remaining portion of the works was pending due to non-availability of material, public hindrance and ROW problems. It was further added that 132 kV Grid station Sakhi Wahab was commissioned with one power transformer and other power transformer would be commissioned as per requirement of load.

The DAC in its meeting held on December 14-23, 2023 directed the management to expedite the matter and record of completed action be provided to audit for verification within a month. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.5.3 having financial impact of Rs.10,150.21 million. Recurrence of same irregularity is a matter of serious concern.

1.5.5 Wasteful expenditure incurred on pay and allowances of employees of defunct power plant Kotri - Rs.546.569 million

According to Rule-5(5) of Public Sector Companies Corporate Governance Rules-2013, "the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders".

During audit of GENCO Holding Company Limited, Cabinet Committee on Energy had given approval for closure of GTPS Kotri Power Plant immediately on 21st September, 2020. The employees of kotri plant were declared surplus and adjusted in HESCO. However, the employees of Kotri Power Plant took stay order from Sindh High Court despite closure of plant and 287 employees were still posted in Kotri Power Plant. A payment of Rs.546.569 million had been paid to these employees on account of pay and allowances. Hence, payment of huge expenditure on account of pay and allowances to the idle staff after the closure of power plant was wasteful.

Non-adherence to Corporate Governance Rules resulted in Wasteful expenditure of Rs.546.569 million incurred on pay and allowances of employees of defunct power plant Kotri up to the Financial Year 2022-23.

The matter, first raised with management in September 2023 and then reported to the Ministry in November 2023, revolves around GTPS Kotri employees under JPCL Management. Despite a Stay Order, they remained under the company's management, making JPCL liable for their salaries. This obligation persisted throughout the status quo and was reinforced by the Sindh High Court's stay order in C.P No: 3346/2021 dated May 27, 2021.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to pursue the court case vigorously for early finalization. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 598/2023-24)

1.5.6 Blockage of funds due to non-utilization of augmented transformers - Rs.380.00 million

As per Para-5 of Memorandum bearing No.C/78/13384-584, dated January 17, 1978, relating to irregularities in purchases of stores and equipment provides that the material is required to be purchased in view of its maximum utilization in the near future.

During audit of GSO PESCO Peshawar, 20 power transformers of various capacity valuing Rs.380.000 million were lying at various grid stations for augmentation purpose but the same were not utilized. Unnecessary retention of transformers was not only blocking the funds but also their cost was deteriorating with the passage of time.

Non-adherence to the authority's instructions resulted in non-utilization of transformers as well as blockage of funds amounting to Rs.380.000 million.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that the PESCO management had strategized the utilization of the replaced 20/26 MVA transformers for upcoming sub-projects and four 10/13 MVA transformers had been offered to other DISCOs on cost deposit basis.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised reply and provide utilization plan of transformers lying for augmentation within 15 days to audit. No further progress was intimated till the finalization of the report. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.200/2023-24)

1.5.7 Blockage of funds due to unnecessary purchase of electrical material - Rs.282.98 million

According to Para-5 of memorandum dated January 17, 1978, relating to irregularities in purchases of stores and equipment, "purchases should be made only of such items and in such quantities as are required for a specific work. In no case, should these purchases be made for storing an item for an indefinite period."

During audit of DISCOs, electrical material of different nature valuing Rs.282.98 million were lying spared/unutilized in regional/field Stores since long. Thus, Company's funds were blocked due to irrational purchase of electrical material. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	Amount (Rs.in million)
1.	MEPCO	1296/2023-24	248.016
2.	QESCO	179/2023-24	34.959
TOTAL			282.975

(Source: Stock Inventory Report of DISCOs for the year 2022-23)

Non-adherence to authority instructions resulted in blockage of funds due to unnecessary purchase of electrical material valuing Rs.282.97 million up to the Financial Year 2022-23.

The matter was taken up with the management in August & November, 2023 and reported to the Ministry in October & December, 2023. The MEPCO management replied that most of the material had been utilized. The QESCO management replied that these were slow moving items and would be utilized in due course of time.

The DAC in its meeting held on December 20 to 23, 2023 directed the MEPCO to get verify the record of completed action and expedite the balance material vigorously. As regards to QESCO, DAC directed the management to inquire the matter and submit its recommendation to audit within 30 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

1.5.8 Delay in repairing of damaged power transformers - Rs.178.00 million

According to the instructions issued by WAPDA dated July 17, 1982, "All losses, whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved".

During audit of Manager GSO PESCO Peshawar, five (05) Power Transformer of different capacities had been with manufacturers for repair since long but the said Power Transformers were not received back even after payment of 50% charges. Audit is of the view that delay in repairing of such valuable and highly desired transformers may cause financial loss as well as deterioration in the cost of precious assets.

Non-adherence to authority's instructions resulted in delay of repairing the highly valuable power transformers.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that delay in repairing of power transformers with PEL was mainly due to closure of LC by GoP; whereas on the other hand, due to ongoing privatization process of M/S HEC, the delay in repair of the said power transformers occurred which was inevitable.

The DAC in its meeting held on December 14 & 15, 2023 directed to finalize the matter within 15 days and get the record verified from audit. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No. 199/2023-24)

1.5.9 Loss due to shortage of electrical material / transformers’ parts – Rs.142.37 million

According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), “all losses whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved”.

During audit of DISCOs and NTDC, it was observed that 3,810 damaged distribution transformers of different capacities were physically checked by the inspection committee and shortage of copper winding & oil was pointed out. Moreover, shortage of electrical material was also pointed out in stock verification reports of NTDC. Hence, companies sustained loss of Rs.142.37 million due to shortage of material. Neither any departmental inquiry was conducted, nor any action taken against the responsible persons. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No of Transformers Checked	Amount (Rs.in million)
1.	FESCO	963/2023-24	483	2.67
2.	GEPCO	324, 355 & 689/2023-24	1,620	4.55
3.	LESCO	904/2023-24	247	25.79
4.	MEPCO	437, 911 & 919/2023-24	1,361	63.06
5.	SEPCO	585/2023-24	99	22.16
6.	NTDC	132 & 471/2023-24	0	24.14
TOTAL			3,810	142.37

(Source: Transformer Reclamation Workshop list of DISCOs)

Non-adherence to rules resulted in loss of Rs.142.37 million due to shortage of electrical material / transformers’ parts up to the Financial Year 2022-23.

The matter was taken up with the management in August to November, 2023 and reported to Ministry in October to December, 2023. The management replied that in some cases, recovery had been effected and inquiry was also under process.

The DAC in its meeting held on August 26, 2023 and December 14-23, 2023 directed the management to inquire the matter, expedite the recovery and get the record of completed action verified from audit within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.4.26 having financial impact of Rs.139.33 million. Recurrence of same irregularity is a matter of serious concern.

1.5.10 Loss due to missing transformers with allied material and non-recovery of fixed charges from crush machines – Rs.61.32 million

According to the instructions issued by WAPDA dated July 17, 1982, "all losses whether of public money or of Stores, shall be subjected to preliminary investigation by the officer in whose charge they were to fix the cause of the loss and the amount involved."

During audit of Operation Circle Attock IESCO, arrear of fixed charges amounting to Rs.13.88 million was outstanding against fifty-three (53) crush machines of Margalla and Sangjani Sub-Division of Attock Circle, which were disconnected on the directions of Honorable Supreme Court during 2016. However, proper EROs were not implemented to remove and return transformers and allied material amounting to Rs.47.447 million to store. It was also observed from the departmental communication that the meters, transformers and allied material of these consumers were not found on the site when the reading staff approached the site for reading of Batch No.27.

Resultantly, IESCO was put into loss of Rs.61.32 million in shape of non-recovery of arrear (fixed charges) on one hand and theft of material from the site on the other hand.

Non-adherence to authority's instruction/rules resulted in loss due to missing transformers with allied material and non-recovery of fixed charges from crush machines amounting to Rs.61.32 million up to Financial Year 2021-22.

The matter was taken up with the management in March, 2023 and reported to the Ministry in June, 2023. The management intimated that the reply would be given after checking/consulting of record.

The DAC in its meeting held on October 09, 2023 directed the management to submit revised consumer-wise reply providing detail of recovery of minimum charges and status of other actions within 07 days. No further progress was intimated till the finalization of the report.

Audit recommends that the management needs to investigate the matter at higher level for fixing responsibility upon the person(s) at fault besides insuring recovery of arrears and material.

(Draft Para No.149/2023-24)

1.5.11 Loss due to non-repair of defective power transformers - Rs.47.80 million

According to Para-5 (5) of Public Sector Companies (Corporate Governance) Rules, 2013 “the board shall establish a system of sound internal control, which will be effectively implemented at all levels within the public sector company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders.

During audit of GSO SEPCO, three (3) 31.5/40 MVA PEL make Power Transformers were tested by P&I but results of Capacitance and Dissipation Factor (C&DF) and insulation resistance became abnormal & beyond permissible limits. As a precautionary measure, these power transformers were isolated from the system in December, 2017 and March, 2021 so as to save them for possible damages. The defective Power transformers were required to be repaired so as to bring back in operation. M/s PEL offered to repair these transformers at cost of Rs.14.90 million in October, 2019 but the matter remained undecided. Later on, PEL increased its rate to Rs.14.90 million per transformer totalling Rs.44.70 million in June 2021, which was again revised to Rs.20.90 million per transformer with total cost of Rs.62.70 million. M/s PTESU offered to repair these transformers at total cost of Rs.9.885 million in August, 2021 and Rs.20.736 million during October, 2021.

Non-decision of the management regarding repair of these transformers even after elapsing a period of almost five years increased the repair cost.

Weak operational management resulted in loss due to non-repair of defective power transformers amounting to Rs.47.80 million up to the Financial Year 2021-22.

The matter was taken up with the management in March, 2023 and reported to the Ministry in June, 2023. The management replied that the case was put-up before Procurement Committee, SEPCO BOD for approval in its meeting held on November 28, 2022. Committee deferred the agenda with the directions to provide the detailed report of powers transformers purchased (LOT-wise) installed and expiry of warranty period. Subsequently attending the queries, the case was resubmitted to the Company’s Secretary on April 12, 2023 for presenting the case before Procurement Committee.

The DAC in its meetings held on September 09, 2023 directed the management to pursue the case with the BoD. No further progress was intimated till the finalization of the report.

Audit recommends that the management needs to implement DAC’s decision.

(Draft Para No.16/2023-24)

1.5.12 Extra expenditure incurred on rent of office building - Rs.36.638 million

According to Rule-5(5) of Public Sector Companies Corporate Governance Rules-2013, “the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders”.

During audit of GENCO Holding Company Limited Islamabad, rental space of 4480 square feet was available at 1st floor of Evacuee Trust Complex at the rate of Rs.90/sq ft which was revised to Rs.108.90/ sq ft.

However, GHCL signed a lease agreement of three years from January, 2017 to December 2019 with Overseas Pakistan Foundation for hiring office space for 4032 square feet area at Rs.150/sq ft which was revised from January 2020 to December 2022 at a rate of Rs.187.5/ sq ft. In this way, GHCL paid extra payment of Rs.36.638 million on account of rent of office space for GHCL by not availing the cheaper rent rates.

Non-adherence to Corporate Governance Rules resulted in extra expenditure incurred on rent of office building amounting to Rs.36.638 million up to the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in November, 2023. The management replied that office acquired at Evacuee Trust Complex was @ Rs.108 per Sqft exclusive of energy and water charges. Whereas, OPF was acquired @ Rs.187.5 per sqft inclusive of electricity, water, gas charges and huge parking space for vehicles.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised reply along with detailed justification within one month. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 600/2023-24)

1.5.13 Non-replacement of rejected material by suppliers – Rs.35.99 million

According to Clause-11 (iii) & (iv) of the Purchase Order, “if the stores are rejected, the supplier may submit stores in replacement of those rejected but re-submission will not mean extension of delivery period and on final rejection, the Purchaser shall have right either to purchase rejected goods at the cost & expenses of Supplier or to terminate the contract and recover the loss the Purchaser may thereby incurs/forfeits 10% Performance Security.”

During audit of GENCO-II, three (03) purchase orders were issued to the different suppliers for procurement of material valuing Rs.35.99 million. The said material in all three purchase orders was received in stores but the same was rejected by the inspection committees. However, in the light of provisions of purchase orders, the rejected material was neither got replaced from the suppliers nor certain punitive actions was taken against the said suppliers by the management.

Non-adherence to the provisions of Purchase Orders resulted in non-replacement of rejected material by suppliers amounting to Rs.35.99 million during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that in one case, the material had been replaced, while in remaining two cases, the banks were approached for encashment of performance guarantee, but one firm lodged a complaint to Federal Ombudsman Karachi and the case file of other firm was moved for cancellation of P.O. Further progress would be intimated to audit accordingly.

The DAC in its meeting held on December 22 & 23, 2023 **directed the management to get the record of completed action verified from audit within a week and expedite the pending actions.** No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para.765/2023/24)

1.5.14 Blockage of repairable power transformer – Rs.33.53 million

As per clause 10.2 (c) of general provision of SOP for grid system operation and maintenance, it is the primary responsibility of each employee of the NTDC&DISCOs to keep the NTDC&DISCOs system and its component apparatus/equipment in safe operating condition within their design parameters.

During audit of Technical Services NTDC, Lahore alongwith Chief Engineer TSG (North) NTDC, Lahore, 160 MVA power transformer amounting to Rs.33.53 million was manufactured in 1997 and commissioned at the Grid station Kala Shah Kaku on 28.08.1999. The said transformer was tripped on 20th June, 2010 due to damage of 132 kV red phase of 132 /11 kV transformer T4. The damaged transformer was lying in the switchyard since 2010 due to unavailability of space at repair bay of PTESU. The TSG Directorate after a lapse of 10 years conducted the physical inspection to submit the technical report on reparability of the subject damaged transformer on 09th December, 2020. As per their assessment, the transformer was repairable and the tentative cost of repair was about Rs.18.00 million excluding transportation, external accessories and other imported material of transformer etc. Furthermore, the damaged transformer had not been shifted to PTESU work shop till March, 2023.

The management totally failed to perform its duties of technical inspection to determine the actual loss even after lapse of 13 years.

Non-adherence to the instruction of SOP of grid system operation and maintenance resulted in blockage of repairable 160 MVA power transformers amounting to Rs.33.529 million up to the Financial Year 2021-22.

The matter was taken up with the management in March, 2023 and reported to the Ministry in June, 2023. The management replied that due to restrictions under Covid-19 pandemic, transformer could not be shifted to the PTESU Lahore. However, HEC Hattar had been requested to provide estimates/ quotations for the repair of the said transformer, which was still awaited. The management also appraised that inquiry was under process.

The DAC in its meetings held on August 26, 2023 directed the management to complete this inquiry within 30 days and share its result with audit. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 125/2023-24)

1.5.15 Non-return/non-write off of loss due to damages of flood and heavy wind storm - Rs.31.98 million

According to Para-III(3) of Guidelines for enforcing the responsibility for losses sustained by the authority through fraud or negligence of individuals, 1982, "When the preliminary investigation shows that the loss is not due to theft, fraud or neglect it will be written off by the competent authority in consultation with the manager Finance concerned or his local representative."

During audit of TESCO, various electrical material worth Rs.31.98 million was damaged due to flood and heavy wind storm. However, TESCO Authority neither conducted preliminary investigation / inquiries to assess the existed material on the site of damage, nor any action was taken to write off the loss.

Non-adherence to Authority Guidelines resulted in loss of Rs.31.98 million due to non-return / non-write off of loss due to damages due to flood, heavy wind storms up to the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that the matter was being taken up with concerned quarters and the progress would be shared with audit.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to inquire the matter and the appropriate action under the rules within 30 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 985/2023-24)

1.5.16 Misuse of vehicles due to attachment with Ministry/other offices and officers posted at head quarter caused unauthorized expenditure on account of POL - Rs.21.28 million

According to Corporate Governance Rules (5) The Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders. As per GM (HR) NTDC letter No. GM(HR)/DDS/AM(TPT)/1955-65 dated November 18, 2022 "NTDC vehicles allocated / attached / provided from NTDC H/Q Pool to BPS-17 & 18 officers (Working under H/Q NTDC) are hereby detached and further attached with transport pool H/Q NTDC, Lahore with immediate effect".

During audit of NTDC, twelve (12) vehicles were attached with the Ministry of Energy/other offices and thirteen (13) vehicles were attached with the officers (BPS-17 & 18) of NTDC, who were performing their duties in Head Quarter NTDC. The attachment of said vehicles was un-justified/illegal which resulted in unauthorized/irregular expenditure of Rs.21.28 million on account of POL charges. The detail is as under:

Sr. No.	Draft Para No.	Amount (Rs.in million)
1.	828 /2023-24	14.18
2.	979/2023-24	7.10
TOTAL		21.28

(Source: Vehicle Register of NTDC for the year 2022-23)

Non-adherence to rules resulted misuse of vehicles due to attachment with ministry/other offices and officers posted at head quarter caused unauthorized expenditure on account of POL amounting to Rs.21.28 million up to the Financial Year 2022-23.

The matter was taken up with the management in November, 2023 and reported to the Ministry in November & December, 2023. The management replied that being superior office and supervisory authority, vehicles were attached with Ministry of Energy (Power Division) Islamabad on temporary basis in order to meet with the exigency of work and office orders regarding detachment of vehicles from officers of NTDC were withdrawn by ab-initio by the issuing authority.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to justify attachment of vehicles under relevant rules and get its stance verified with documentary evidences from Audit within 30 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.13.27 having financial impact of Rs.29.54 million. Recurrence of same irregularity is a matter of serious concern.

1.5.17 Non-utilization of saving against completed schemes - Rs.14.92 million

According to Clause 4(vi) of Revised Guidelines for Sustainable Development Goals Achievement Program (SAP) issued through Notification of Cabinet Division Islamabad dated June 13, 2022, Savings against the schemes completed can be utilized against new schemes under SAP in the same District.

During audit of Project Directorate (Construction) HESCO, an amount of Rs.14.923 million was saved out of execution of village electrification schemes under Sustainable Development Goals against the completed schemes for the Financial Year 2020-21. These funds were required to be utilized against new schemes but the management neither utilized these funds nor surrendered. Audit maintained that the non-utilization of funds occurred due to weak internal controls and inadequate oversight mechanism for enforcing relevant rules and regulations.

Non-adherence to Cabinet Division guidelines resulted in non-utilization of saving amounting to Rs.14.92 million against completed schemes during the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The management replied that funds of village electrification schemes were allocated under SDGs during 2020-21 for District Badin against 52 schemes. Eleven schemes were incomplete due to right of way problems, the final positions of funds/savings (if any) would be worked out after completion of all schemes and savings if found would be utilized against fresh schemes.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to expedite the completion of pending schemes and get the record verified from Audit. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 405/2023-24)

1.5.18 Loss due to non-repair of defective 20/26 MVA power transformer - Rs.13.97 million

According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), “all losses whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved”.

During audit of GSO Circle SEPCO, one (1) No. 20/26 MVA Transformer (Iran) make Power Transformer became defective on 19.8.2018 at 132 kV Grid Station Pano Akil. The defective Power transformer was required to be repaired so as to bring back in operation. In August, 2020 the management decided not to get it repaired, keeping in view its previous history of damage. However, in November, 2021, the management again decided to repair the subject transformer from PTESU Workshop.

Inefficient decision making of the management caused non-shifting of transformer for repair even after lapse a period of more than four years.

Non-adherence to Authority’s instruction resulted in loss of Rs.13.97 million due to non-repair of defective power transformer up to the Financial Year 2021-22.

The matter was taken up with the management in March, 2023 and reported to the Ministry in June, 2023. The management replied that PD GSC had approached PTESU Workshop Kot Lakhpat for repair of Power Transformer and it would be repaired within one month.

The DAC in its meetings held on September 09, 2023 directed the management to initiate inquiry at management level under monitoring of CEO and submit the report to audit within 30 days. No further progress was intimated till the finalization of the report.

Audit recommends that the management needs to implement DAC’s decision.

(Draft Para No. 11/2023-24)

1.5.19 Irregular drawl of material after completion of works - Rs.13.14 million

According to Para-2.2 of Distribution Store Manual, the material in excess of requirement must not be drawn.

During audit of Project Construction GEPCO, ten (10) electrification works under the head deposit & SDG works were completed up to September, 2021 to December, 2022 and in some of the cases M/s BARQAAB Consultants had carried out physical verification and prepared A-90 (completion reports). Subsequently, electrical material amounting to Rs.13.14 million was drawn through Store requisition against the said completed works as evident from SRs and Material Site Account. Since the said works were completed, hence, drawl of material against them was irregular.

Non-adherence to GEPCO’s Accounting Manual resulted in irregular drawl of material of Rs.13.14 million after completion of works up to the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The management replied that all the XENs were directed to adjust the material of completed works drawn from store within least possible time.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to inquire the matter for fixing responsibility and submit its report within a month. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.255/2023-24)

1.5.20 Non-recovery of rent from occupants / contractor – Rs.13.00 million

According to Director (Services) PEPCO office letter dated January 19 2010, “no one is competent to accord permission for unauthorized retention of official accommodation beyond admissible period according to instructions in vogue and recovery of market rent shall be effected from the employees who retained accommodation beyond admissibility”.

During audit of DISCOs & GENCO-II, it was observed that an amount of Rs.13.00 million was recoverable from 204 occupants / contractor on account of rent of accommodation. Neither the accommodations got vacated from these occupants nor rent of Rs.13.00 million was recovered from them. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of Occupants	Amount (Rs.in million)
1.	LESCO	910/2023-24	1	1.42
2.	QESCO	05/2023-24	49	3.80
3.	GENCO-II	1093/2023-24	151	5.46
4.	NTDC	561/2023-24	3	2.32
TOTAL			204	13.00

(Source: Correspondence files of formation)

Violation of the instructions resulted in non-recovery of Rs.13.00 million on account of rent from occupants / contractor up to the Financial Year 2022-23.

The matter was taken up with the management in March to October, 2023 and reported to the Ministry during June to December, 2023. The management replied that efforts were being made for recovery of rent.

The DAC in its meetings held on December 14, 2023 to December 23, 2023 directed the management to expedite the recovery of renal charges and get the completed actions verified from audit within 60 days. No further progress was reported till the finalization of report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.13.18 having financial impact of Rs.106.14 million. Recurrence of same irregularity is a matter of serious concern.

1.5.21 Loss due to leakage of newly installed 160 MVA Auto Transformer - Rs.12.960 million

According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), "all losses whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved".

During audit of Project Directorate EHV-I NTDC Islamabad, a 160 MVA Auto Transformer T-7 was recently installed in 220 kV Grid Station NTDC Sangjani, Islamabad and commissioned on April 14, 2022. However, Chief Engineer, A.M (North) highlighted excessive oil leakage from radiator tubes since its commissioning of subject cited transformer. The oil leakage was so excessive that large number of oil drums were being topped up after every 40 days in transformer with oil valuing of Rs.12.96 million. That shows serious concerns regarding the quality of such costly transformers and required to be inquired, which was not done by the management.

Non-adherence to Authority instructions resulted in loss of Rs.12.96 million due to leakage of newly installed 160 MVA Auto Transformer at 220 kV Grid Station Sangjani up to the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in November, 2023. The management replied that the said transformer was already repaired and was allocated for installation at 220kV grid Station Sangjani to attend NTDC system constraint. During the erection activities, no leakage issue was observed and transformer was successfully commissioned on April 14, 2022 and handed over to the AM North Formation.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to get the record verified from audit in support of reply within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 726/2023-24)

1.5.22 Loss on account of abandoning the constructed tower foundation due to poor planning & coordination with Irrigation Department – Rs.12.60 million

According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), "all losses whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved".

During audit of Project Directorate EHV-I NTDC Islamabad, a Contract No. 3217 (R3)-1C Phase-II (Lot-I) Transmission Scheme for Dispersal of Power from Neelum Jhelum Hydropower Project and construction of 500 kV Double Circuit Quad Bundle Transmission Line was awarded to M/s NCL-AEL JV Lahore. Tower No. 118 was installed in Jalalpur Canal without any planning / communication with irrigation department. Though the relocation of Tower No. 118 was under discussion between NTDC and Irrigation Department, yet the contractor M/s Ghulam Rasool & Company dismantled Tower No. 118 as foundations were creating hindrance in the canal's construction activities. Due to poor Planning & Coordination with irrigation department, NTDC had to bear loss of Rs.12.60 million on account of construction of foundation.

Non-adherence to Authority Guidelines resulted in loss of Rs.12.60 million on account of abandoning the constructed tower foundation due to poor planning & coordination with Irrigation Department up to the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in November, 2023. The management replied that the Transmission Line route was finalized on February 19, 2018, with tower stacking on February 15, 2019, and construction starting February 18, 2019. No canal markers were reported by the survey team, and neither landowners nor the Irrigation Department mentioned a proposed canal. Foundation construction began on April 25 and finished on June 28, 2019, without interference. Despite ROW issues and ongoing correspondence with the Irrigation Department, no action had been taken by the irrigation authorities regarding the canal's impact on the tower's location.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to hold inquiry and get it verified from audit within fifteen (15) days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 594/2023-24)

1.5.23 Loss due to replacement of substandard Disc Insulators - Rs.11.80 million

According to Section-III (1) of WAPDA Guidelines for enforcing Responsibility for losses due to fraud, theft or negligence of individuals, 1982, All losses whether of public money or of stores shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved.

During audit of EHV-II NTDC Multan, three (03) contracts valuing Rs.11.80 million were awarded to different contractors for replacement of Electrical Equipment Manufacturing Company (EMCO) made Disc Insulators with China Make Disc Insulators for evacuation of power from wind power plants situated in Jhampir / Gharo. Chief Engineer (EHV-II) NTDC, Hyderabad reported that existing installed EMCO make disc insulators were creating problems and causing frequent tripping / break down due to the failure of 80/100 KN Fog Type Disc Insulators and replaced the inferior quality with better quality of disc insulators. Hence, NTDC sustained a loss of Rs.11.80 million due to replacement of substandard disc insulators.

Non-adherence to the authority's instructions resulted in loss of Rs.11.80 million due to replacement of substandard disc insulators during the Financial Years 2021-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in November, 2023. The management replied that the insulators for the 220 & 132kV Jhampir Substation transmission lines were procured by NTDC following PPRA rules and tested as per IEC/NTDC/WAPDA standards. Despite no specific study on trippings, environmental factors like increased pollution had caused issues. NTDC resolved quality concerns with supplier EMCO, resulting in a compensation of Rs.83,000,000 and return of faulty insulators for analysis, necessitating replacements on the transmission line.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to get the record verified from audit in support of reply within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 636/2023-24)

1.5.24 Irregular drawl of material after completion of works - Rs.10.19 million

According to Para-2.2 of Distribution Store Manual, the material in excess of requirement must not be drawn.

During audit of Project Construction Directorate FESCO, eleven (11) electrification works under the head deposit & SDG works and LT Proposals were completed and handing/taking over of work and capitalized accordingly. Completion reports (A-90s) of all works had been prepared and vetted by consultants. However, it was noticed that subsequently, electrical material amounting to Rs.10.19 million was drawn through Store Requisition against the said completed works as evident from Job Cards. Since the said works were completed, hence, drawal of material against them was irregular.

Non-adherence to FESCO's Accounting Manual resulted in irregular drawl of material amounting to Rs.10.19 million after completion of works during the Financial Years 2021-23.

The matter was taken up with the management on October, 2023 and reported to the Ministry in November, 2023. The management replied that major material was drawn before completion of works and only less/ excess material as pointed out by M/s BARQAAB had been returned/ drawn from store after completion.

The DAC in its meeting held on December 20 & 21, 2023 DAC did not agree with reply of the management and directed to inquire the matter at Technical Director level for fixing of responsibility within 30 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 537/2023-24)

1.5.25 Excess expenditure incurred after completion of Grid Station - Rs.5.69 million

According to Rule-2A (a) of public sector companies corporate Governance Rule 2013 regarding sound and prudent management “the business of the Public Sector Company is carried out with integrity, objectivity, due care and the professional skills appropriate to the nature and scale of its activities”.

During audit of GSC FESCO, 132 kV Grid Station Allied Faisalabad was completed and energized on March 29, 2023 whereas G&M Operation FESCO directed for emergent civil work for up-gradation and security of residents: i) Construction of boundary wall to separate new grid station area from residential colony, ii) Earth filling behind control house building to avoid accumulation rain water and iii) Alternate approach roads to grid. The estimate was prepared on the basis of measurement taken by Sub-Engineer Civil for above civil work worth Rs.4,947,704/-. This civil work was not included in the list of approved works by the competent authority, while the estimate was prepared only on the verbal directions of high ups. The work was done / estimate prepared on the sweet will of FESCO officer and tender was floated for above work and bidder M/s Faizan Building & Developer offered lowest rate 14.99% above BoQ worth Rs.5,689,359/-. The preparation of estimate for civil work after completion of grid station could not be admitted in audit.

Non-adherence to Corporate Governance Rules resulted in excess expenditure incurred after completion of grid station worth Rs.5.69 million during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in November, 2023. The management replied that the works were carried out for safety / efficient operation of grid station.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to inquire the matter for fixing responsibility with 30 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No. 515/2023-24)

1.5.26 Non-adjustment / regularization of surplus material installed in excess of drawl – Rs.5.18 million

According to Para-2.2 of Distribution Store Manual, the material in excess of requirement must not be drawn. As per Para-75 of WAPDA Accounting Manual, 1978, “on completion of the ‘work’, the excess material will be returned to go down or transferred to another work”.

During audit of Project Construction GEPCO, forty-three (43) completed electrical works, M/s BARQAAB Consultants had pointed out surplus installation of material valuing Rs.5.18 million in excess of actual drawn from store. This state of affairs was evident that either the surplus material was arranged from unknown sources or transferred from another work. The matter of surplus installation of material needed to be regularized / adjusted, which was not done.

Weak inventory management resulted in non-adjustment / regularization of surplus material valuing Rs.5.18 million installed in excess of drawl up to the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The management replied that material of Rs.0.98 million was returned to store leaving material of Rs.4.20 million pending.

The DAC in its meeting held on December 18 & 19, 2023 **directed the management to get the record of completed action verified from audit within a week and complete the pending action within a month expeditiously.** No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.249/2023-24)

1.5.27 Recurring loss per month due to negligence of GHCL - Rs.3.272 million

According to Rule-5(5) of Public Sector Companies Corporate Governance Rules-2013, "the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders".

During audit of GENCO Holding Company Limited, operations of Lakhra Power Plant (GENCO-IV) were suspended on 20 July 2017 due to fire incident and remained suspended till date. All the staff posted at power plant was required to be posted/adjusted to other projects of power sector. However, 59 employees of BPS 1 to BPS 17 having monthly financial impact of Rs.3.271 million were engaged with defunct project. Due to poor handling of matters by GHCL, the staff was retained and sister organizations were asked to give loan to Fluidized Bed Combustor (FBC) Lakhra. An amount of Rs.1,840.647 million was taken as loan/financial assistance from other formation/finance division for payment of salaries to idle staff of defunct power plant. This state of affairs exhibited a failure on the part of GHCL being supervisory company of all GENCOs.

Non-adherence to the Corporate Governance Rules resulted in recurring loss of Rs.3.272 million per month due to negligence of GHCL up to the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in November, 2023. The management replied that Cabinet Committee on Energy declared LPGCL Lakhra as close and defunct, resultantly, all the employees became Surplus and were adjusted in Distribution companies.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to get the record in support of reply verified from audit within one month. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 599/2023-24)

1.5.28 Loss due to transportation charges for replacement of under warranty damaged power transformer - Rs.2.35 million

According to Rule-2A (a) of public sector companies corporate Governance Rule 2013 regarding sound and prudent management, the business of the Public Sector Company is carried out with integrity, objectivity, due care and the professional skills appropriate to the nature and scale of its activities.

During audit of XEN (GSC) TESCO, Peshawar a 20/26 MVA under warranty power transformer (T-2) was damaged at 132 kV grid station Jamrud. The damaged transformer was replaced through a private company

and payment of Rs.2.35 million was made. It was the responsibility of manufacturer to get the under-warranty transformer replaced and repaired at his own cost. The incurrence of huge amount was quite unjustified and needed to be recovered from the manufacturer.

Non-adherence to rules resulted in loss due to payment of replacement charges amounting to Rs.2.35 million during Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The Management replied that the said Power Transformer was replaced with new one in an urgency situation due to malfunctioning of said Power Transformer and to restore the supply to district administration, army installations, hospitals, industrials, commercial & domestic consumers.

The DAC in its meeting held on December 14 & 15, 2023 directed the management that the under warranty damaged transformers must be replaced at the cost of contractor and in this context the provisions of contract were needed to be pursued. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 287/2023-24)

1.5.29 Double / excess drawl of electrical material – Rs.1.14 million

According to Para-4.5 (Section-8) of Distribution Stores Manual, “the Line Superintendent will use the materials on the job for which he drew and will record the consumption in his Electrical Measurement Book (EMB) / Material at Site Register (MSR) showing any materials left after the work has been completed”.

During audit of Operation Circle Sialkot GEPCO, electrical material valuing Rs.1.14 million was drawn twice / excess by field staff from stores for installation at the same site of work. This state of affairs was alarming and led to misappropriation of material.

Weak inventory controls resulted in double / excess drawl of electrical material amounting to Rs.1.14 million up to the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The management replied that excess material of Rs.0.57 million had been returned to store, in one case of Rs.0.48 million, concerned LS had died and return of material of Rs.0.09 million was under process. Moreover, an inquiry committee had been constituted on December 15, 2023.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to expedite the inquiry and submit its report to audit within a month. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 358/2023-24)

Concluding Recommendations

Unsatisfactory asset management is a significant issue prevailing in the working of the DISCOs and other relevant entities / formations. It has created an environment for mal-practices and irregularities in their business. Practical steps from senior management of entities are required, on a sustainable basis, to ensure real-time and transparent recording of assets and asset management processes. In addition, careful objective planning is needed to avoid over-stocking. Lastly, inquiries for fixing of responsibility and affecting the recoveries may be held against cases highlighted by audit to ensure improvement in the system.

1.6 Contract Mismanagement and Procurement Shortcomings

The business process of DISCOs/NTDC entailed undertaking high-value contracts throughout the year. These included large-scale procurements of electrical equipment (transformers, poles etc.), distribution network expansion / repair works, general civil works and IT purchases. Significant donor-funded contracts were also executed. Prudence in contract making was essential to ensure that the contract works were completed within timeline with due regards to desired quality.

Contract mismanagement reflected anomalies and shortcomings present in contract process starting from the bid preparation stage till the work completion point. This included instances where open competition was not observed, the bid evaluation was not transparent, reserve price assessment carried out with little research, and cartelization among contractors was not tackled properly. Once lapses occurred at the contract award stage, it led to further irregularities during work execution.

Some of the issues linked with work execution included abnormal Extension of Time approvals (EOT) and short deduction of LD charges. In such cases the EOT was processed after the completion time of the contract rendering it unjustified. Short deduction of LD charges deprived the companies from due recovery.

Delays in execution of project-works not only resulted in cost overruns but more critically constituted a business failure case for the companies whereby the companies were unable to enhance/improve their business infrastructure from the desired project works. This meant that other activities linked with infrastructure development such as control over line losses also suffered.

Additionally, contract mismanagement also included aspects of unsatisfactory equipment testing and non-renewal/acquiring of performance/bank guarantees, non-adjustment of contractor advances etc. Unsatisfactory testing led to procurement of substandard material suffering from frequent faults. Non-adjustment of advances meant high-risk of overpayment to the contractor while non-renewal of performance guarantee implied that the company had not secured its interest if the contractor defaults against the contract terms.

On the above lines, audit has analyzed the combined issue of contract mismanagement and procurement shortcomings found in the DISCOs/NTDC/ GENCOs, on a sample analysis basis to highlight the inefficiencies, lack of transparency, irregularities and internal control lapses which is illustrated in the following paras:

1.6.1 Irregular award of contract to a non-responsive/disqualified bidder - Rs.57,722.20 million

According to clause 4.2(a) of section-III of qualification criteria and requirements of prequalification documents for 765 kV D/C Dasu-mansehra-Isalmabad overhead transmission line the bidder of Lot-I was required

to have “contracts for Plant design, supply, installation, testing and commissioning of EHV (380 kV or higher voltage) overhead transmission line (OHTL), each of minimum value of US\$ 100,000,000 and with accumulative length not less than 130 KM”.

During audit of MP&M NTDC, a contract for Plant Design, Supply & Installation of 765 kV Hexa Bundle D/C Dasu-Mansehra-Islamabad transmission line (Dasu-Mansehra 157 KM) DASU-TL-01-Lot-I was awarded to M/s Sino Hydro Corporation at a contract price of total PKR 57,722.20 million (USD 23,061,109 + CNY 848,602,596 + PKR 30,304,368,141). The contract was awarded by Chief Engineer /PD Dasu and evaluated by GOPA International Energy Consultants Germany and evaluation was revised by General Manager P&CM. M/s Sino Hydro Corporation was the lowest bidder among the four (04) bidders according to bid evaluation report. During bid evaluation another firm, M/s Toper Consultants submitted a complaint to Federal Secretary, Power Division and claimed mis-representation of facts by M/s Sino Hydro Corporation. Ministry of Energy (Power Division) vide letter dated July 07, 2022 established that for Lot-I of subject contract, M/s. Sino Hydro had not executed a project worth US\$ 300 million and did not have requisite experience. Surprisingly NTDC, instead of blacklisting the bidder on mis-representation of facts, awarded the contract to a non-qualified bidder.

Non-adherence to the provision of pre-qualification criteria resulted in irregular award of contract to a non-responsive/disqualified bidder amounting to Rs.57,722.20 million during the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in November, 2023. The management replied that there was no irregular award of contract to a non-responsive/disqualified bidder as whole procurement process was done under stringent supervision of World Bank and World Bank Procurement Guidelines referred in Loan Agreement signed by GoP and World Bank. The Contract was awarded on merit and NTDC saved USD 26 Million by awarding the contract to the lowest evaluated responsive bidder. Audit contended that the said matter had also been taken up by Senate Standing Committee.

The DAC in its meeting held on December 18 & 19, 2023 pended the para till the final decision of Senate Standing Committee.

Audit recommends implementation of DAC’s decision.

(Draft Para No.592/2023-24)

1.6.2 Non-recovery of liquidated damages from contractors / suppliers – Rs.16,146.40 million

According to Clauses of the Contracts, “the rate of liquidated damages is 0.05% to 0.10% for each day of delay in completion of the works subject to a maximum of 10% of contract price”.

During audit of DISCOs, NTDC and NPPMC, it was observed that 101 contracts/purchase orders were issued to contractors/suppliers for execution of different types of works/supply of material. The contractors/suppliers could not complete the works/deliver the material within stipulated period hence, they were liable to pay the liquidated damages of Rs.16,146.40 million but the same were not recovered. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No. of cases	Amount
---------	-----------------	----------------	--------------	--------

				(Rs.in million)
1.	FESCO	421,1105 & 1281/2023-24	23	291.26
2.	GEPCO	296 & 732/2023-24	03	10.22
3.	HESCO	631/2023-24	02	4.35
4.	LESCO	315 & 1002/2023-24	12	48.93
5.	MEPCO	1283/2023-24	01	1.11
6.	PESCO	886,889,915 & 997/2023-24	25	46.63
7.	SEPCO	238 & 662/2023-24	25	47.68
8.	NTDC	134,488,546,596,755,845 & 1306/2023-24	09	926.94
9.	NPPMC	823/2023-24	01	1,4769.28
Total			101	16,146.40

(Source: Contractor Ledger of the Formations)

Non-adherence to the provisions of Purchase Orders resulted in non-recovery of LD charges from supplier amounting to Rs.16,146.40 million during the Financial Year 2022-23.

The matter was taken up with the management in March to June, 2023 & August to November, 2023 and reported to the Ministry in June, 2023 & October to December, 2023. The management stated that in some cases either the L.D. had been recovered or would be recovered while in few cases L.D. was not recoverable/EOT granted.

The DAC in its meeting held on December 14-23, 2023 directed the management to get the record of completed action verified from audit within 15 days and expedite the pending actions. The DAC directed the management of MEPCO and PESCO to inquire the matter raised in Para No.1283/2023-24 & 886/2023-24 and submit its report to audit within 30 days. DAC also directed to inquire the matter highlighted in Para No.997/2023-24 (PESCO) at C.E. (MI) PPMC level within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.6.9 having financial impact of Rs.2,738.73 million. Recurrence of same irregularity is a matter of serious concern.

1.6.3 Loss due to taking of less volume of gas from gas supplier – Rs.11,235.59 million

According to Para-10.1 of Gas Sales Agreement for Kandhkot Gas Field between Pakistan Petroleum Limited (Seller) and Central Power Generation Company Limited (Buyer), the Buyer shall accept and pay for a

minimum annual quantity of Specification Gas equal to 72.5% (Take-or-Pay) of the adjusted Annual Contract Quantity (Take-or-Pay Quantity) and if the buyer takes less than the Take-or-Pay Quantity then, it shall nonetheless pay for the Take-or-Pay Quantity.”

During audit of GENCO-II, gas taken from M/s Pakistan Petroleum Limited (PPL) remained less than the minimum Take-or-Pay Quantity as prescribed in the Gas Sales Agreement. Resultantly, M/s PPL raised invoices of Rs.11,235.59 million for the period November, 2017 to August, 2023 against GENCO-II which was straight forward loss to the company.

Violation of provisions of the Gas Sales Agreement resulted in loss due to taking of less volume of gas from gas supplier Rs.11,235.59 million up to the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that on the directions of PAC, two meetings were held in Ministry of Energy and the original claim of PPL amounting to Rs.13.461 billion was reduced to Rs.6.18 billion by Ministry of Energy under Co-Chairmanship of Secretary Power and Secretary Petroleum. The less gas off takes were due to decision of CCoE dated September 10, 2020 regarding immediate closure of CPGCL old blocks. CPGCL invoked Force Majeure clause of GSA, as soon as copy of decision was received. Audit contended that no record was provided.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to provide the record in support of reply to audit for verification within a week. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.1012/2023/24)

1.6.4 Irregular procurement of electrical material from single pre-qualified bidders through splitting quantity into lots and price matching – Rs.7,130.36 million

According to Rule-38B (1) of PPRA, “the procuring agency shall consider single bid in goods, works and services provided that except unsolicited proposal, in case of pre-qualification proceedings single bid shall not be entertained”. According to Rule-9 of PPRA, “a procuring agency shall announce in an appropriate manner all proposed procurements for each Financial Year and shall proceed accordingly without any splitting or regrouping of the procurements so planned”.

During audit of CEO FESCO, twenty-three (23) tenders for procurement of different types of electrical material were called from pre-qualified bidders by splitting quantities in lots. In response single bidders quoted rates against individual lots of the tendered quantities. Subsequently seventy-three (73) purchase orders valuing Rs.7,130.36 million were awarded to these single pre-qualified bidders through matching price of the lowest lot with other lots of the tender. The award of purchase orders was irregular as entertaining single bid of pre-qualified bidders through splitting of planned procurement was not allowed by PPRA.

Violation of provisions of PPRA rules resulted in irregular procurement of electrical material from single pre-qualified bidders through splitting quantity into lots and price matching valuing Rs.7,130.36 million during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that splitting of material into lots were permitted under PPRA Rules. Audit contended that in case of pre-qualification proceedings, entertaining single bid was prohibited under PPRA Rules.

The DAC in its meeting held on December 20 & 21, 2023 DAC did not agree with reply and directed the management to get clarification of Rule 38 B-(1) from PPRA within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1198/2023-24)

1.6.5 Cost overrun in upgradation/extension of NTDC'S SCADA & telecom system - Rs.5,411.00 million

According to PC-1 of Upgradation / Extension of NTDC'S SCADA & Telecom System approved by ECNEC on March 07, 2018 Clause 12.a "The project to be commenced during the year 2016-17 and to be completed by 2019-20".

During audit of Telecommunication NTDC, Lahore, project for Upgradation / Extension of NTDC'S SCADA & Telecom System was proposed to be completed by 2019-20 but the said project was still under progress. The cost as estimated in the original PC-I had been increased from Rs.11,638.00 million to Rs.15,168.00 million and the contract was awarded at a cost of Rs.17,049.00 million. Due to non-following the timelines, the cost of the said project increased to Rs.5,411.00 million.

Non-adherence to implementation schedule as mentioned in PC-I resulted in cost overrun amounting to Rs.5,411.00 million in upgradation/extension of the up to the Financial Years 2021-22.

The matter was taken up with the management in March, 2023 and reported to the Ministry in June, 2023. The management replied that PC-I was approved by ECNEC in March, 2018. Tender was floated in July, 2018 however, none of the bidders came out to be technically responsive. Retendering was done in May 2019, bids were opened in September, 2019, in which three bidders participated and evaluation report was submitted to ADB for concurrence in February, 2020. ADB took around 4-5 months for vetting the evaluation report and issued NOL on May 22, 2020. Consequently, after financial bid opening on June 09, 2020, the NOA was issued in January 20, 2021. Scheduled completion date is June, 2024.

The DAC in its meetings held on August 26, 2023 directed the management to conduct an inquiry for fixing responsibility and submit fact finding report duly vetting by G.M. (Technical) NTDC to audit within 30 days. FurtherFurther progress was not intimated till finalization of report.

Audit recommends that the management needs to implement DAC's decision besides fixing responsibility.

(Draft Para No.73/2023-24)

1.6.6 Irregular award of contract to a blacklisted contractor – Rs.5,077.76 million

According to clause 2.1.3 of NTDC's SOP for blacklisting of contractor, the causes and reasons to be taken into consideration for debarment blacklisting of any firm/supplier/ contractor/ consultant/ individual firm/ Bidder

if, the firm/ supplier/ contractor is blacklisted by any Government department in Pakistan, or it is established that the firm is involved in any kind of corruption or corrupt practices anywhere in the world.

During audit of MP&M NTDC, Lahore, a contract for procurement of Insulators for 500 kV D/C quad bundle transmission line from HUBCO power plant to Jamshoro sub-station (Lot- I, II & III) was awarded to M/s. Suzhou Porcelain Insulator works, China at a contract price of Rs.5,077.76 million (US\$ 17.755 million). During bid evaluation stage, it was informed by another contractor/firm that M/s. Suzhou Porcelain, China was blacklisted by State Grid Company of China due to involvement in corruption and corrupt practices. Chief Engineer Design T/Line had also informed this fact while evaluating the bid and asked General Manager P&CM to look into the matter. Despite taking into consideration, the quarter concerned totally ignored the blacklisting of contractor and awarded the contract to a blacklisted firm/contractor.

Non-adherence to the provisions of SOP resulted in irregular award of contract amounting to Rs.5,077.76 million to a blacklisted contractor during the Financial Year 2022-23.

The matter was taken up with the management in September, 2022 and reported to the Ministry in November, 2023. It was replied that NTDC checked the web link provided in the complaint letter which redirected to the webpage of State Grid Corporation of China (SGCC). However, the webpage did not reveal any information regarding blacklisted or debarred companies by SGCC. Despite the aforementioned facts, Chief Engineer MP&M NTDC inquired SGCC about blacklisting of M/s Suzhou China through official letter and Emails, but no response from SGCC received till to date.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to get the stance verified with documentary evidence from audit within 30 days. No further progress was intimated till finalization of the report.

Audit recommends to inquire the matter besides implementation of DAC's decision.

(Draft Para No.468/2023-24)

1.6.7 Non-recovery/adjustment of Liquidated Damages from Independent Power Producers (IPPs) - Rs.5,036.37 million

According to Section 9.4 (c) of PPA that each party shall have the right to set off any amounts due and payable by it to the other party under this agreement against any and all amounts then due and payable to it by the other party under this agreement. Such rights of set off shall relate only to amounts that are then due and payable to and by a party and are undisputed or have been determined to be payable by the Expert through arbitration under Article 18.

During audit of CPPA-G, Islamabad, liquidated damages of Rs.5,036.37 million on account of short fall of energy were imposed on IPPs and Government Owned Power Generation Companies.

However, neither LD charges were recovered nor the amounts set off against payables of Power Generators.

Non-adherence to PPA clauses resulted in non-recovery / adjustment of liquidated damages of Rs.5,036.37 million from Power Generators up to the Financial Year 2021-22.

The matter was taken up with the management in May, 2023 and reported to the Ministry in June, 2023. The management replied that amount would be recovered from Power Generators and got verified from audit accordingly. Further progress was not intimated till finalization of report.

The DAC in its meeting held on October 09, 2023 directed the management to submit revised reply in tabular form showing reconciliation of LDs and their recovery status to audit within 07 days. No further progress was intimated till the finalization of the report.

Audit recommends that the management needs to look into the matter besides ensuring the recovery/adjustment of LD charges from IPPs.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 3.1.8.5.9 having financial impact of Rs.3,719 million. Recurrence of same irregularity is a matter of serious concern.

(Draft Para No.100/2023-24)

1.6.8 Irregular Procurement of Energy from Tavanir without approval of NEPRA Rs.4,750.006 million

According to provision-6 of NEPRA Notification (S.R.O.549(1)/2017 dated June 22, 2017 regarding NEPRA (Import of Electric Power) Regulations,2017 decision dated August 29, 2017, no amendment in terms and conditions of the PPA, affecting the rates or their conditions, shall be made except with prior approval of the Authority.

During audit of CPPA-G, Islamabad, an amendment No.7 to the contract dated November 06, 2002 between CPPA & Tavanir, Iran for supply of 104 MW Electricity made on January 01, 2022 for extension of tariff from January 01, 2022 to December 31, 2024 pursuant to NEPRA Import of Electric Power Regulation,2017 (IEPR-2017).

Thus, electricity of Rs.4,750.006 million was procured during the year 2021-22 from Tavanir without approval of amendment No.7 from NEPRA is termed as irregular.

Non-adherence to NEPRA Import of Electric Power Regulations,2017 resulted in irregular procurement of energy from Tavanir without approval of NEPRA Rs.4,750.006 million during the Financial Year 2021-22.

The matter was taken up with the management in May, 2023 and reported to the Ministry in June, 2023. The management replied that NEPRA in principle has passed on the cost of purchase of electricity from Iran to the consumers under the relevant FCA for the relevant months. The approval of NEPRA, once approved would be provided to audit.

The DAC in its meeting held on October 09, 2023 directed the management to provide the record in support of reply to Audit for verification within seven days. No further progress was intimated till the finalization of the report.

Audit recommends that the management needs to look into the matter besides ensuring the approval of 7th amendment from NEPRA.

(Draft Para No. 109/2023-24)

1.6.9 Non-forfeiture of bank / performance guarantees / securities – Rs.4,069.37 million

As per clause 15 A (1) of the Purchase order, if the contractor fails to supply the goods within the time specified the contracting officer have the right to forfeit the security/ performance guarantee.

During audit of DISCOs, GENCO-II and PPIB, it was observed that in thirty-four (34) cases, the contractors/suppliers failed to complete the works/deliver the material within stipulated time period. Neither the bank / performance guarantees / securities amounting to Rs.4,069.37 million submitted by the contractors/suppliers were forfeited nor any action was taken against them as per contractual provisions. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No of cases	Amount (Rs.in million)
1	FESCO	514/2023-24	01	1.39
2	GEPCO	214/2023-24	06	202.68
3	HESCO	786/2023-24	03	72.00
4	LESCO	265 & 1298/2023-24	12	59.35
5	MEPCO	439 & 525/2023-24	08	76.81
6	PESCO	851/2023-24	02	8.14
7	GENCO-II	696/2023-24	01	1.71
8	PPIB	64/2023-24	01	3,647.29
TOTAL			34	4,069.37

(Source: Purchase Orders of the DISCOs)

Non-adherence to the contract/purchase order clauses resulted in non-forfeiture of bank/performance guarantees/securities amounting to Rs.4,069.37 million up to the Financial Year 2022-23.

The matter was taken up with the management during March, 2023 & August to November, 2023 and reported to the Ministry during June, 2023 & October to December, 2023. The management replied that in some cases either the performance guarantee would be forfeited of L.D. would be recovered. In few cases the matter was subjudice.

The DAC in its meeting held on December 14-23, 2023 directed the management to get the record of completed action verified from audit within 15 days and expedite the pending actions. As regard the MEPCO, DAC directed to inquire the matter at G.M. (Tech) PPMCL level within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide Para No. 1.6.17 having financial impact of Rs.753.24 million. Recurrence of same irregularity is a matter of serious concern.

1.6.10 Unjustified award of purchase orders to single bidders in violation of PPRA Rules Rs.2,656.14 million

According to PPRA Rules-4, procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule-21 of Public Procurement Regularity Authority Rules provides that the “the procurement agencies shall engage in open competitive bidding”.

During audit of CEO LESCO, twenty-seven (27) purchase orders amounting to Rs.2,656.14 million were awarded to the suppliers. However, the evaluation reports revealed that these purchase orders were awarded to the single bidders without open competition and in violation of PPRA Rules.

Violation of PPRA’s Rules resulted in unjustified award of purchase orders Rs.2,656.14 million to single bidder during the Financial Year 2022-23.

The matter was taken up with the management in October 2023 and reported to the Ministry in December, 2023. The management replied that Rule-21 of PPRA Rule, 2004 “Open Competitive Bidding” allows the procurement from single bidder if it meets the evaluation criteria expressed in the tender notice. So, all the tenders were awarded to single responsive bidders in the light of Rule-21 of PPRA 2004

The DAC in its meeting held on December 18 & 19, 2023 did not agree with reply and directed the management to get clarification of Rule 38 B-(1) from PPRA within 15 days. The DAC in its meeting held on December 18 & 19, 2023 upheld the earlier decision. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.1304/2023-24)

1.6.11 Irregular Payment to General Electric - Rs.2,445.21 million

According to National Electricity Policy 2021 para 6.2.1 Ministry of Energy (Power Division) shall be responsible, among other matters, for monitoring the implementation of the National Electricity Policy and National Electricity Plan.

During audit of Ministry of Energy, Power Division Islamabad, CPGCL GENCO-II signed a contractual service agreement with M/s GE USA in September 2017 for Gas Turbines Frame 9FA GE make installed at 747 MW CCPP Guddu. The Ministry of Energy (Power Division) directed to clear the payments of M/s GE USA against rehabilitation / maintenance of GT-14 machine. Since matter of recoveries of Rs.10.8 billion plus cost of maintenance of GT-14 amount purchase order USD 32 million was taken up by Senate Standing committee and issued serious concerns over the payment of maintenance of GT-14 in its meeting held on 22 November 2022 which was issued after the issuance of letter by Ministry of Energy, therefore, this payment of Rs.2,445.21 million (US\$ 8.54 million) was irregular and unjustified.

Non-adherence to policy resulted in irregular payment of Rs.2445.21 million (US\$ 8.54 million) to General Electric during the Financial Year 2021-22

The matter was taken up with the management in March, 2023 and reported to the in June, 2023. The management replied that this payment was part of a Contractual Service Agreement (CSA) from 2017 for maintaining

gas turbines in the 747 MW CCPP Guddu. Although payments totaling 9.6 million USD faced delays, the Board approved a payment release of USD 4,753,344 to GE for CSA and other services. CPGCL paid USD 4,423,642.130 as per the CSA.

The DAC in its meeting held on October 17, 2023 directed the management to conduct an inquiry by constituting an inquiry committee by taking senior representatives of CPGCL and PPMCL as its members and its report be shared with audit within 30 days. No further progress was intimated till the finalization of the report.

Audit recommends that the management needs to implement DAC’s decision.

(Draft Para No.116/2020-21)

1.6.12 Undue favor to contractors by approving change of manufacturers for major equipment in violation of contractual provisions – Rs.2,259.21 million

According to Bid Evaluation Reports of Contracts ADB-05-2009 and No. ADB-41-2009, “the contractors were required to provide telecommunication main equipment from M/s ABB Switzerland in construction of Bandala Substation and ABB Sweden Circuit Breakers, being preferred choice, in construction of Rohri Grid Station. As per minutes of pre-award meeting for Contract No. ADB-67R-2012 of Mansehra Substation, the change of manufacturer from the approved one in the contract agreement will not principally be changed except in case of unavoidable circumstances. As per Contract No. ADB-65(R)-2012 Package-2, in unavoidable circumstance, prior approval of the Project Manager shall be obtained by the contractor for assigning any manufacturing work to a manufacturer not named as such in the contract. As per Letter of Acceptance for Contract No. ADB-41-2009, the protection, telecommunication and control system SCADA including RTU shall be of ABB Sweden make. As per contract No. WB-07E-2020 and WB-08A-2020, there was no policy and clause to change the manufacturer of equipments.

During audit of NTDC, six (06) contracts for construction of Switchgear Plant/Substation/ Grid Station were awarded to contractors. Later on, the contractors had requested for change of manufacturers of major equipment (Annex-V) valuing Rs.2,259.21 million from that provided in contracts, which was accepted by NTDC without establishing unavoidable circumstances on the part of the contractors and without keeping in view the cost impact / variance arising thereof due to technology used / level of workmanship applied etc. Hence, the change of manufacturer was irregular. Detail is as under:

Sr. No.	Draft Para No.	Contract No.	Amount (Rs.in million)
1.	1182/ 2023-24	WB-07E-2020	1,321.74
2.	1191/ 2023-24	ADB-05-2009, ADB-41-2009, ADB-67R-2012, ADB-65R-2012 Package-2	-

3.	1225/ 2023-24	WB-08A-2020	937.47
Total			2,259.21

(Source: Contract Correspondence file)

Non-adherence to Bid Evaluation Reports, Contractual Clauses, Letter of Acceptance and minutes of pre-award meeting resulted in undue favor to the contractors by approving change of manufacturers for major equipment valuing Rs.2,259.21 million up to the Financial Year 2019-20.

The matter was taken up with the management in September 2020, August 2023 & October 2023 and reported to the Ministry in December 2020 & December 2023. The management replied that the change of manufacturers was approved in order to avoid delay in execution as the approved manufacturers were unable to supply the material within the scheduled project timelines. Further, the cost impact due to change of manufacturers was not considered as the contract was awarded on EPC basis and contractor was responsible for supply of material without any additional cost impact. Audit did not agree with the management reply as the unavoidable circumstances necessitating for change of manufacturers were not established before approval. In fact the contractor failed to comply with the contractual obligations regarding timely submitting of technical design / data of the approved offered equipments for which the employer was not responsible. Moreover, the cost impact should have been kept in view while approving change of manufacturer.

The DAC in its meeting held on April 12, 2021 and December 18 & 19, 2023 did not agree with the reply and directed the management to inquire the matter and submit its report within 30 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC's decision.

1.6.13 Non-removal of discrepancies at newly constructed grid stations - Rs.1,957.00 million

According to Rule-2A(a) of public sector companies corporate Governance Rule 2013 regarding sound and prudent management, the business of the Public Sector Company is carried out with integrity, objectivity, due care and the professional skills appropriate to the nature and scale of its activities.

During audit of DISCOs and NTDC, it was observed that the discrepancies were reported time and again at newly constructed 03 132 kV grid stations. However, these efforts were not made to get the discrepancies removed from contractors. The detail is as under:

Sr. No.	Name of Company	Draft Para No.	No of cases	Amount (Rs.in million)
1.	MEPCO	1280/2023-24	01	43.91
2.	TESCO	195/2023-24	01	1,790.09
3.	NTDC	495/2023-24	01	123.00

	Total	03	1,957.00
--	--------------	-----------	-----------------

(Source: Contract Correspondence file)

Non-adherence to instructions resulted in non-removal of discrepancies that can create complications in the smooth running of system and may cause Company’s valuable assets at risk amounting to Rs.1,957.00 million up to the Financial Years 2018-23.

The matter was taken up with the management during June to September, 2023 and reported to the Ministry in October to December, 2023. The management replied that the certain payments of the contractors were withheld and, in some cases, the discrepancies had either been removed or would be got removed.

The DAC in its meeting held on December 14-23, 2023 directed the management to get the completed action verified from audit within 15 days and expedite the completion of pending actions. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC’s decision.

1.6.14 Non-deduction of Liquidated Damages from contractor - Rs.1,449.46 million

As per Contract Agreement Section 9.3 Liquidated damages “if the seller is in breach of its obligation under Section 4.1(b) to achieve the commercial operation date by the required commercial operation date the seller shall pay the purchaser as liquidated damages as amount equal to two and half dollars (2.50\$) per kW of the contract capacity for each month thereafter until the commercial operations date is actually achieved.” Moreover, as per Act 2 Wind Project letter dated October 17, 2021 “required Commercial Operation Date was to be achieved within 15 months starting from the date of Financial Closing Date”

During audit of AEDB, Commercial Operation Date of one Wind and three Solar projects could not be achieved on the dates stipulated in the Power Purchase Agreements. Resultantly, liquidated damages amounting to Rs.1,449.46 million were required to be recovered from the respective default IPPs but the same was not done.

Non-adherence to agreement clause resulted in non-deduction of liquidated damages from contractors amounting to Rs.1,449.46 million up to Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that the imposition of LDs due to delay in achievement of Commercial Operations Date (COD) fell under the EPA signed between Project Company and CPPAG. Therefore, CPPAG was responsible for imposing and recovering the LD.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to obtain the reply and relevant documents from CPPAG and provide the same to Audit within 15 days. No further progress was intimated till the finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.762/2023-24)

1.6.15 Irregular award of contract to M/s Chint involved in collusive practice – CNY 65.86 million + Rs.172.90 million

According to Clause-3.1 (b) & 3.1 (a) (iv) of Section I, “The proposal of the bidder will be rejected if determined engaged, directly or through an agent, in corrupt, fraudulent, collusive, or coercive practice” and “collusive practice” means an arrangement between two or more parties designed to achieve an improper purpose, including influencing improperly the actions of another party.”

As per Clause-4.3 (d) of Section I, “A bidder shall not have a conflict of interest. All bidders found to have a conflict of interest shall be disqualified. A bidder may be considered to be in a conflict of interest with one or more parties in this bidding process if; they have a relationship with each other, directly or through common third parties, that puts them in a position to have access to material information about or improperly influence the bid of another bidder, or influence the decisions of the employer regarding this bidding process.

During audit of NTDC, an EPC Contract No. ADB-67-R-2012 valuing CNY 65.86 million + Rs.172.90 million for 220 kV AIS Substation Mansehra was awarded to M/s Chint Electric Company Ltd. on March 13, 2015. A probe into the award process of the said contract revealed that M/s NEIE-Holley (JV) China was also a participant among others including M/s Chint Electric Co. Ltd. China. The pre-bid clarifications sought by M/s NEIE-Holley (JV) China and M/s Chint Electric Co. Ltd. China vide their letters dated June 18, 2014 & June 19, 2014 respectively contained the same contents, clarifications, words, sequence, format and matter without any difference of a single word. The 100% identical contents of both the letters were sufficient enough to witness for collusion by both the bidders. Instead of rejecting their bids and taking appropriate action against both the bidders involved in collusive practices (corrupt practices) and conflict of interest, the contract was awarded to M/s Chint Electric Co. Ltd.

Non-adherence to the clauses of Bidding documents framed on the ADBs procurement guidelines resulted in irregular award of contract valuing CNY 65.86 million + Rs.172.90 million to M/s Chint involved in collusive practice up to the Financial Year 2019-20.

The matter was taken up with the management on September 25, 2020 and reported to the Ministry on December 29, 2020. The management replied that no pre-defined mechanism existed in the bidding documents for establishing collusion between two prospective bidders at pre-bid stage. Audit contended that 100% identical contents of letters was sufficient enough to prove collusion by the bidders for which appropriate action in the light of provisions of bidding documents should have been initiated.

The DAC in its meeting held on April 12, 2021 did not agree with the reply and directed the management to provide detailed / revised reply. The DAC in its meeting held on December 18 & 19, 2023 upheld the earlier decision. Further progress was not reported till finalization of the report. No reply was furnished till finalization of the report.

Audit recommends that the management needs to inquire the matter for not taking action against the bidders involved in collusive practice and the persons who awarded the contract to M/s Chint.

(Draft Para No.1178/2023-24)

1.6.16 Irregular award of contract due to defective bid evaluation for construction of Mansehra Grid Station – Rs.1,317.94 million

According to Clause 2.4.1 of Bidding Documents of Tender No.ADB-67-R-2012, “the bidder must have experience in the role of manufacturer, contractor, subcontractor, or management contractor for at least last 15 years prior to the application submission deadline”.

As per Clause 2.4.2, “the contractor / bidder must have within the last ten (10) years, supplied and commissioned at least two (02) substation with at least one (01) project outside his own country with experience in supply, installation, testing & commissioning of 220 kV or higher voltage substation with A.I.S plant with major equipment like auto-transformers, circuit breakers, instrument transformers, disconnectors, etc and these substations shall have been operating successfully for at least three (03) consecutive years as on bid opening date.

During audit of NTDC, an EPC Contract No.ADB-67-R-2012 valuing of Rs.1,317.94 million (CNY 65.86 million + Rs.172.90 million) for procurement of 220 kV AIS Substation Mansehra was awarded to M/s Chint Electric Company Ltd. on March 13, 2015. The scrutiny of award process disclosed that said contractor lacked general experience of almost 05 years at the time of bid closing date and was not an Engineering construction enterprise being registered as “Non-Engineering Construction” enterprise on February 04, 2010.

Non-adherence to the clauses of Bidding Documents resulted in irregular award of contract valuing of Rs.1,317.94 million due to defective bid evaluation for construction of Mansehra Grid Station up to the Financial Year 2019-20.

The matter was taken up with the management on September 25, 2020 and reported to the Ministry on December 29, 2020. The management replied that the bidder was evaluated in the light of Clauses 2.4.1 & 2.4.2 of bidding documents and post bid clarifications from the bidder. Furthermore, there was no requirement of business license to ascertain general or specific experience of bidder and the same were ascertained from the contracts mentioned / completed by the bidder. The bidder’s current commitments were also checked in the light of bidding documents and NOL issued by ADB after reviewing the BER / addressing the complaints. Audit did not agree with the reply as non-availability of complete record of evaluation / document was incomprehensible.

The DAC in its meeting held on April 12, 2021 directed the management to constitute fact finding committee and submit its report to Audit under the signature of MD NTDC. The DAC in its meeting held on December 18 & 19, 2023 upheld the earlier decision. No further progress was reported till finalization of the report.

Audit recommends that the management needs to implement DAC’s decision.

(Draft Para No.1207/2023-24)

1.6.17 Non-execution of works at the risk & cost of the contractors - Rs.1,223.37 million

According to conditions of contract Para (4) (Suspension of work), If the contract shall fail to do any such work as aforesaid required by the Engineer, the Employer shall be entitled to carry out such work by his own workmen or by their contractors and if such work is work which the contractor should have carried out at the contractor’s own cost shall be entitled to recover from the contractor the cost thereof or may deduct the same from any monies due or that become due to the contractor.

During audit of GSC TESCO, four (04) Work Orders amounting to Rs.1223.37 million were awarded to different contractors. The contractors were required to complete the work within stipulated time period. Instead of completing the work, the contractors abandoned the works at site. The remaining works were to be executed at the risk & cost of the original contractors contractually but the same was not done departmentally. Contractors were warned time and again but works were not done. Neither securities were forfeited nor firms blacklisted.

The violation of Contract Provision/Clause resulted in non-execution of work at the risk & cost of the original contract amounting to Rs.1223.37 million up to the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The Management replied that TESCO GSC Division Peshawar had already deducted the LD charges for the delay caused by the contractors.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to get the record verified from audit in support of reply. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.180/2023-24)

1.6.18 Mis-procurement on account of hiring of consultancy services through quotations/amendments in existing consultancy contracts – Rs.1,174.87million

According to Rule-20 of PPRA Rules, 2004, the procuring agencies shall use open competitive bidding as the principal method for the procurement of goods, services and works". As per Rule-42(b), A procuring agency shall engage in quotation based method of procurement only if the following conditions exist, namely:- (i) the cost of object of procurement is below the prescribed limit of one hundred thousand rupees, (ii) the object of the procurement has standard specifications; (iii) minimum of three quotations have been obtained. As per Rule-40, "Save as otherwise provided there shall be no negotiations with the bidder having submitted the lowest evaluated bid or with any other bidder".

During audit of NTDC, six (06) consultancy contracts were awarded to M/s NESPAK and BARQAAB for construction / supervision of transmission lines / grid stations. Four (04) consultancy contracts amounting to Rs.531.68 million were awarded through quotations instead of open competitive bidding and agreeing at 10% rebate after negotiation in two (02) contracts. Moreover, in two (02) consultancy contracts additional consultancy services amounting to Rs.643.19 million for other projects were acquired through amendments in existing contracts. Hence, procurement of consultancy services through quotations / negotiations / amendments in existing contracts instead of open competitive bidding was against the PPRA Rules.

Non-adherence to PPRA Rules resulted in mis-procurement on account of hiring of consultancy services amounting to Rs.1,174.87 million up to the Financial Year 2019-20.

The matter was taken up with the management on September 25, 2020 and reported to the Ministry on December 29, 2020. The management replied that BOD NTDC had given approval for award of consultancy services through quotations. Moreover, in order to save the time and cost, the services of NESPAK / BARQAAB were hired through quotations as the said firms were major consultants for power projects. This practice had been stopped now.

The DAC in its meeting held on April 12, 2021 did not agree with the management reply and directed to constitute fact finding committee and submit its report to Audit under the signature of MD NTDC. The DAC in its meeting held on December 18 & 19, 2023 upheld the earlier decision. No further progress was reported till finalization of the report.

Audit recommends that the management needs to implement DAC's decision.

(Draft Para No.1084/2023-24)

1.6.19 Inordinate delay in finalization of EOT claims of contractors / consultants – Rs.992.21 million

As per GCC Contract Clause 40.2 of section-7, the contractor shall submit to the project manager a notice of a claim for an extension of time for completion, together with particular of the event or circumstances justifying such extension as soon as reasonably practicable after the commencement of such event or circumstances. As soon as reasonably practicable after receipt of such notice and supporting particulars of claim, the employer and the contractor shall agree upon the period of such extension. According to contract clause of consultancy agreement, the consultant shall inform the client of circumstances and probable effects and the increase shall be regarded as additional services and the client shall extend the time for completion of services accordingly.

During audit of NTDC, the contractors M/s Siemens, M/s Potential Engineers (Pvt) Limited and M/s ICC (Pvt) Limited lodged EoT claims of Rs.230.43 million and Rs.299.50 million due to delayed completion of Grid Stations / Transmission Lines so that their earlier deducted LD & retention money could be released. Moreover, the consultancy firm, M/s Barqaab also lodged EoT claims of Rs.462.28 million pertaining to eleven (11) Grid Stations / Transmission Lines projects. Despite elapsing of considerable time and even after expiry of defect liability period and loan closure, the EoT claims of the said contractors / consultant could not be decided.

Inefficient contract management resulted in inordinate delay in finalization of EOT claims of Rs.992.21 million pertaining to contractors / consultant up to the Financial Year 2019-20.

The matter was taken up with the management on September 25, 2020 and reported to the Ministry on December 29, 2020. The management replied that where EoT was not granted, 10% LD was deducted. However, a few EoT cases were still under process and LD would be recovered if EoT not granted. Audit contended that the reply was incomprehensible as the inordinate delay in deciding the EOT claims even after expiry of DLP period reflected poor contract management.

The DAC in its meeting held on April 12, 2021 directed the management to submit EoT cases to BoD for early decision. The DAC in its meeting held on December 18 & 19, 2023 upheld the earlier decision. No further progress was reported till finalization of the report.

Audit recommends that the management needs to implement DAC's decision.

(Draft Para No.1210/2023-24)

1.6.20 Mis-procurement due to award of EPC contract of Rohri Grid Station to a non-responsive bidder –Rs.960.11 million

According to Qualification Criteria of Bidding Documents of 220 kV Grid Station Rohri, "The prospective bidder should have general experience of 15 years under contracts in the role of manufacturer, contractor, sub-

contractor or management contractor for at least 15 years. Further the prospective bidder should have specific experience of 10 years or more in supply, installation, testing & commissioning of 220 kV or higher voltage substations with AIS plant and have commissioned at least two substations with successful operation for at least three (03) years as on bid opening date.”

During audit of NTDC, an EPC Contract No. ADB-41-2009 for procurement of 220 kV AIS Rohri Grid Station was awarded to M/s Chint Electric Company Ltd. on January 18, 2010. As per bidding documents, the bidder should have general and specific experience of 15 & 10 years respectively. However, M/s Chint did not have required experiences due to its establishment in January 02, 2004 as evident from Business License of Enterprise Legal Entity issued by Shanghai Administrative Bureau of Industry and Commerce. This was sufficient enough to declare the said company non-responsive but the same was not done and contract was awarded to it.

Violation of provisions of Bidding Documents resulted in mis-procurement valuing of Rs.960.11 million (RMB 60.17 Million + Rs.177.23 million) due to award of EPC contract of Rohri Grid Station to a non-responsive bidder up to the Financial Year 2019-20.

The matter was taken up with the management on September 25, 2020 and reported to the Ministry on December 29, 2020. The management replied that the company was a member of Chint Group Corporation, China, which was incorporated and started its operation in 1994. The company had a vast experience of EPC contracts and dealt in design, manufacturing, supply, installation, testing and commissioning of high voltage power equipment/plant. There was no information to the contrary available with NTDC to decide otherwise at the time of award. Audit did not agree with the reply as the date of establishment of Chint Electric Company Ltd. was January 02, 2004, hence, it could not fulfill the required experience criterion.

The DAC in its meeting held on April 12, 2021 directed the management to constitute fact finding committee and submit its report to Audit under the signature of MD NTDC. The DAC in its meeting held on December 18 & 19, 2023 upheld the earlier decision. No further progress was reported till finalization of the report.

Audit recommends that the management needs to implement DAC’s decision.

(Draft Para No. 1204/2023-24)

1.6.21 Irregular award of purchase order for power transformers due to deficient bid evaluation - Rs.904.18 million

According to Bidding Documents Section-IV, Sr No. 12 of ‘Schedule of Qualification of Bidders’, “banking reference, name of banks and addresses may be given to whom references regarding finance at capability of the bidder may be made”. As per Clause-9.1 (i & iii) of Tender Conditions Section-III, “Bids are liable to be rejected forthwith if the bidder does not submit the required documents - the bid is submitted on other than the prescribed form or is incomplete or conditional. As per Form-06, “the seller accepts full responsibility and strict liability for making any false declaration, not making full disclosure, misrepresenting facts or taking any action likely to defeat the purpose of this declaration, representation and warranty. It agrees that any contract, right, interest, privilege or other obligation or benefit obtained or procured as aforesaid shall, without

prejudice to any other right and remedies available to GOP/WAPDA/GEPCO under any law, contract or other instrument, be voidable at the option of GOP/WAPDA/GEPCO.

During audit of PMU GEPCO, a tender No.STG-NCB-1 for procurement of six (06) 40 MVA Power Transformers was opened on June 29, 2022 for evaluating the bids of three (03) participants. M/s Validus Engineering Karachi JV Elsewedy Electric for Electrical Products Egypt was declared lowest responsive bidder subject to perform fresh type test in Technical & Financial Bid Evaluation Reports and Purchase Order No.STG-22-13 of Rs.904.18 million placed upon the said firm on October 12, 2022.

Scrutiny of technical / financial proposals / information along with bidding documents submitted by the said firm and bid evaluation report revealed some of the following grave discrepancies / shortcomings & irregularities: -

- The 'Bank Certificate' and 'Comfort Letter' of HBL for providing overdraft / credit facilities seemed glaringly fake being devoid of mentioning the bank branch name, address, correspondence no. & date, seal of bank, signature / name of senior bank manager except bearing on two vague stamps and signatures of officers. Moreover, M/s Validas Engineering (Pvt) Ltd was running in continuous loss and its chartered accountant showed its concern about the company's ability to continue as a going concern.
- A Joint Venture Agreement between Validus Engineering and Elsewedy Electric signed on June 21, 2022 could not be held valid as the laws governing for this JV were Egyptian instead of Pakistani.
- The Power of Attorney under the said JV had nominated M/s Validus Engineering Pvt. Ltd as partner in charge but its legality was not confirmed as neither the same was notarized by any legal authority nor its country of origin was known and only photo copy provided instead of original one.
- Another Power of Attorney for Signatory of Bid on Pakistani Stamp Paper was also provided, which appeared to be vague as a date of June 01, 2022 was stamped thereon meaning thereby that Power of Attorney was made earlier than the JV as the same was signed on June 21, 2022. Moreover, it was neither notarized by any legal authority nor any signature specimen of nominated & authorized persons and no any witnesses were mentioned thereon and a photocopy was provided instead of original one.

Even while getting approval of BoD for Notification of Award, it was certified that the performance of the said bidder remained satisfactory with GEPCO and it had not defaulted any term / condition of bidding documents in respect of any assigned work during the last year. However, this certificate was contrary to the factual position and misleading as the said firm had already defaulted by not making delivery of 05 Power Transformers under previously issued P.O No.STG-21-32 after expiry of delivery period on September 10, 2022. Now, the delivery period of both the POs (earlier issued and new one) had long been expired but not a single transformer was provided by the said firm as on August, 2023.

Procurement mismanagement resulted in irregular award of purchase order of Rs.904.18 million due to deficient bid evaluation by accepting fake bank credit confirmation letter, vague JV agreement & doubtful power of attorney during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that HBL had authenticated the comfort letter & Bank Certificate. No dispute regarding JV agreement was observed during currency of contract. As the firm had failed to supply the material, the bank had been requested vide office letter No. 4310-14 dated December 08, 2023 to forfeit the bid guarantee. The reply was not agreed to as a mis-procurement can cause considerable damage in shape of delay, time & cost overrun, which had now been proved in this instant case as the said bidder defaulted for providing the Transformer. Had the bid evaluation been made with professional due care by analyzing the information / documents as per bidding documents and past performance of the said bidder, such an untoward situation could have been avoided.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to provide the record in support of its stance for verification to audit within a week. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.240/2023-24)

1.6.22 Non-replacement of defective Porcelain Disc Insulators supplied by M/s Dalian China – Rs.874.27 million

According to the instructions issued by WAPDA dated July 17, 1982, “all losses, whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved”.

During audit of NTDC, an inquiry was conducted on disc insulators supplied by M/s Dalian under Contract No GTS-02 and WPP-08. The inquiry committee pointed out that the Fog type Disc Insulators failed during type testing but even then the same were accepted, which turned out to be defective during operation. The inquiry committee recommended that all the Disc Insulators supplied by the M/s Dalian in the said as well as other contracts including ADB-53, 65R-2012 & 3263 be got replaced. The said manufacturer had also supplied the disc insulators valuing of Rs.874.27 million (RMB 52.32 million) in contract ADB-65R-2012, hence, the same needed to be got replaced from the said firm, which was not done.

Non-adherence to the recommendations of the inquiry committee resulted in non-replacement of defective Porcelain Disc Insulators valuing of Rs.874.27 million supplied by M/s Dalian China up to the Financial Year 2019-20.

The matter was taken up with the management on September 25, 2020 and reported to the Ministry on December 29, 2020. The management replied that the engineer / project manager had not recommended any adverse action against the contractor. Audit contended that the disc insulators supplied by the said contractor under the contract ADB-53, 65R-2012 & 3263 should have been replaced as recommended by the inquiry committee.

The DAC in its meeting held on April 12, 2021 did not agree with the reply and directed the management to provide detailed / revised reply. The DAC in its meeting held on December 18 & 19 upheld the earlier decision. No reply was furnished till finalization of the report.

Audit recommends that the management needs to ensure replacement of defective disc insulators provided by M/s Dalian in all the projects by observing all the required testing procedures expeditiously.

(Draft Para No.1125/2023-24)

1.6.23 Mis-procurement due to deficient bid evaluation and accepting the bid for power transformers fraught with inconsistencies to bidding documents - Rs.786.42 million

According to IB-22.2, IB.11.1 (Ia) & IB-3A (a-7) of Bidding Documents for Tender No. ICB-24/2021-22, “all Appendices and Schedules to Bid are to be properly completed (filled-in) and signed”. The purchaser reserves the right to reject the proposal, if the qualification details are incomplete, ambiguous or the bidder is found not qualified to satisfactorily perform the contract. The Appendices should be completed as per prescribed format. As per IB-3A (a)6 (i, ii, iii), “audited financial standalone statements for last 03 years shall be submitted by the Bidder showing positive ‘Net Worth’ and minimum average annual turnover for the last 03 years not less than the bid price with Appendix - H & I by each JV partner. Information to be submitted in Appendix-J (Bank Certificate should be given by each of JV members in proportion to their financial participation) & App-K. All JV partners shall combine meet the requisite criteria with the lead partner and other partner meeting not less than 40% and 25% respectively. As per IB-3.1 (e) & Appendix-A, “comfort letter should be given by each of the JV members and certificate should be on the letter head of bank in Pakistan”. As per IB-3A (a) 1 (i,ii) & 3 (i), “in case of JV, at least any one partner should fulfill the experience pertaining to the individual’s obligations in respect of manufacturing or supplying as per JV agreement between the parties. App-F (Summary of operational experience with operational certificate) should be filled-in.

During audit of PMU GEPCO, a tender No.STG-ICB-24 for procurement of five (05) 40 MVA Power Transformers was opened on January 01, 2022 for evaluating the bids of two (02) participants. M/s. Validus Engg. JV Elsewedy Transformer Karachi was declared lowest responsive bidder subject to perform fresh type test in Technical & Financial Bid Evaluation Reports and Purchase Order No.STG-21-32 of Rs.786.42 million for procurement of six (06) power transformer placed upon the said firm on April 14, 2022.

Scrutiny of technical / financial proposals / information along with bidding documents submitted by the said firm and bid evaluation report revealed some of the following grave discrepancies / shortcomings & irregularities: -

- i. Prescribed Appendices H (Financial Data) & I (Annual Turnover Data) were neither filled-in nor provided as original with ‘ORIGINAL’ set of bids, however, in 2nd set of ‘COPY’ of bids only photocopies of unfilled appendices available.
- ii. Last three (03) years audited financial standalone statements i.e. balance sheet with notes, Profit & Loss A/cs, cash flow statements of EACH of the JV Partners dully substantiating the information / data filled-in Appendices H & I were also not provided. Appendices H & I were not filled in.

- iii. As per Appendix-J & Appen-A1, EACH of the JV members needed to provide from Scheduled Bank in Pakistan a 'BANK CERTIFICATE' to meet the working capital requirement and 'COMFORT LETTER' to provide/extend banking facility. However, only one JV partner M/s Validus Engg had provided the same.
- iv. Alteration in both the Bank Certificate & Comfort Letter was made allegedly to that specified in the prescribed formats in Appen-J & A1 by inserting the conditional paragraphs.
- v. The bank certificate and comfort letter issued by HBL in respect of M/s Validus Engineering for providing overdraft / credit facilities to the extent of Rs.1000 million to meet the working capital requirement and provision of banking facilities seemed glaringly fake due to being devoid of mentioning the bank branch name, address, correspondence no. Stamp of the bank, signature / name of senior bank manager except bearing on two vague stamps and signatures of officers even date on comfort letter was not mentioned. Moreover, the financial statements of M/s Validas Engineering (Pvt) Ltd (available in other purchase order) showed its running in continuous loss and its chartered accountant showed its concern about the company's ability to continue as a going concern.
- vi. The 05 years Manufacturer's Experience of supply record and Performance Certificate containing summary of operational experience as prescribed in Appendices E & F were not filled-in with the required data / information in relevant columns / fields. As per JV Clause 2.2 the scope of work of M/s Validus was defined as manufacturing and supply, hence, all the manufacturing and successful operating experiences of M/s Validus should have been provided instead of M/s Elsewedy. Worth mentioning here that M/s Validus had no such experiences.
- vii. The Joint Venture Agreement between Validus Engineering and Elsewedy Transformers signed on January 10, 2022 could not be held valid and acceptable as the laws governing for this JV were Egyptian instead of Pakistani.
- viii. The Power of Attorney under the said JV had nominated M/s Validus Engineering Pvt Ltd as partner in charge but its legality was not confirmed being neither notarized by any legal authority nor its country of origin was known and no date of signing mentioned thereon.
- ix. Another Power of Attorney for Signatory of Bid on Pakistani Stamp Paper was also provided, which appeared to be vague as a date of January 07, 2022 was stamped thereon meaning thereby that the Power of Attorney was made earlier than the JV as the same was signed on January 10, 2022. Moreover, no any signature specimen of nominated & authorized persons and no any witnesses were mentioned thereon.

The bid evaluation lacked immensely the due professional scrutiny as cursorily and casually declaring technical / financial position satisfactory without detailed analysis, confirming / authenticating the bidder's provided information with bidding requirements / documents was against the IB 32.1(1). Moreover, subsequently, another P.O No.STG-22-13 of Rs.904.18 million for supply

of 06 transformers was placed upon the said firm on October 12, 2022 but the supplier failed to supply the transformers and the bank was requested to forfeit its bid guarantee.

Deficient bid evaluation caused mis-procurement by accepting the bid for power transformers fraught with inconsistencies to bidding documents and issuance of Purchase Order amounting to Rs.786.42 million thereof up to the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that the information for the prescribed forms was provided by the bidders in their bid on the prescribed GEPCO format. The Bidders had submitted last 3-years audited financial statements for each of the JV-Partners. The GEPCO had received confirmations in original from HBL regarding Authenticity of Bank Certificate & Comfort Letter. The 05 years manufacturing experience of M/S Elsewedy was sufficient. The manufacturer had supplied all the Power Transformers to GEPCO and the contract had been finalized successfully. Therefore, legality of the required documents was no more required. The reply was not agreed to as Appendices H (Financial Data) & I (Annual Turnover Data) were not filled in with financial information, hence, in absence of the same, Positive Net Worth & Annual Turnover could not be confirmed. The other JV Partner M/s Elswedy did not provide Bank Certificate and Comfort Letter. The Manufacturer's Experience and Performance summary as prescribed in Appendices E & F were not filled-in with the required data / information in relevant columns / fields, which seemed deliberately as the documents attached pertained to M/s Elsewedy did not conform to the required experiences. As per JV Clause 2.2 the scope of work of M/s Validus was defined as manufacturing and supply, hence, all the manufacturing and successful operating experiences of M/s Validus should have been provided instead of M/s Elsewedy. The receipt of material can not absolve the very legality of documents provided by the bidder.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to provide the record in support of its stance for verification to audit within a week. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.239/2023-24)

1.6.24 Inclusion of deficient financial eligibility criteria in bidding documents - Rs.768.15 million

According to Financial Competence and Access to financial Resources (appendix –M) of Standard Bidding Documents for procurement of civil works Single Stage-Two Envelopes (SSTE) Bidding Procedure, “the bidder must demonstrate access to, or availability of, financial resources such as liquid assets, unencumbered real assets, line of credits, and other financial means, other than any contractual advance payments, to meet the financial requirements of the contract in the amount of his bid. As a minimum the bidder must show that his resources, in term of at least his latest years working capital and line of credits, will be adequate to cover and amount equivalent to his bid price and current work commitments”.

During audit of GSC LESCO, sixty-six (66) contracts valuing Rs.768.15 million were awarded to the contractors on the basis of evaluation of only average annual turnover as per income tax returns of last two years, which was contrary to the standard bidding documents. However, the standard bidding documents require determining the financial health of the bidder on the basis of working capital and line credits and average annual

turnover of the bidder. This showed that bidding documents of these contracts were framed in contrary to the standard bidding documents. Hence, contracts awarded to the contractors were irregular due to inclusion of deficient financial eligibility criteria in bidding documents.

Non-adherence to Standard Bidding Documents resulted in inclusion of deficient financial eligibility criteria in bidding documents amounting to Rs.768.15 million during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that as per advice of the Audit, the financial health of the contractor would be determined on the basis of Working Capital, Line Credit and Average Turnover of the contractor in future.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to submit revised reply along with justification and get the record verified from Audit within 15 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.443/2023-24)

1.6.25 Irregular award of contract by setting aside the discrepancies pointed out by Central Contract Cell (CCC) regarding qualification of bidder – Rs.732.86 million

According to MoW&P letter dated December 22, 2009, Bid Evaluation Reports of Tenders are to be reviewed and vetted by Central Contract Cell (CCC). Further, the project authority recommended award of contract subject to the scrutiny and authenticity of the evidences of qualification criteria by the consultant NTDC and CCC.

During audit of NTDC, Chief Engineer Design NTDC carried out the bid evaluation for the Tender No. ADB-05-2009 for procurement of 220 kV & 132 kV Gas Insulated Switchgear (GIS) Plant at Bandala and recommended award of contract to M/s Xian Electric Engineering Co. Ltd. China subject to scrutiny and authenticity of the evidences of qualification criteria of the said bidder by the consultant and Central Contract Cell NTDC.

The CCC pointed out severe discrepancies regarding the qualification of the said lowest evaluated bidder and did not recommend award of contract. Instead of attending the reservation of CCC, the contract was awarded to the said bidder vide BoD NTDC notification dated December 23, 2009 for an amount of Rs.732.86 million (RMB 57.581 million + Rs.36.70 million). The award of contract was irregular as the same was not substantiated with the recommendations of CCC.

Violation of directions of Ministry of W&P and recommendations of Project Authority resulted in irregular award of contract valuing of Rs.732.86 million up to the Financial Year 2019-20.

The matter was taken up with the management on September 25, 2020 and reported to the Ministry on December 29, 2020. The management replied that CCC was mandated to review the BER and the Board had authority, if considered necessary, to revert the BER and issue instructions on the basis of CCC's comments or might accord approval. Further the contract was awarded with the concurrence of ADB.

The DAC in its meeting held on April 12, 2021 did not agree with the reply and directed the management to provide detailed / revised reply. The DAC in its meeting held on December 18 & 19, 2023 upheld the earlier decision. No reply was furnished till finalization of the report.

Audit recommends that management needs to inquire the matter of irregular award of contract besides implementing DAC's decision.

(Draft Para No. 1037/2023-24)

1.6.26 Loss due to procurement of 40 MVA Power transformer at higher rates – Rs.656.37 million

According to rule-4 Principles of procurements of PPRA rules, 2004: - "Procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical."

During audit of TESCO, 40 MVA Power Transformer amounting to Rs.656.37 million was procured. A single bidder participated and offered the rate of Rs.112.200 million per transformer which was 26.16% higher than the LOI issued by MEPCO on 13th September, 2021 in which rate of the same transformer was Rs.88.300 million. TESCO management didn't observe the economy aspect while placing purchase order which caused extra financial burden of Rs.23.100 million (111.400 – 88.300). Thus, this state of affairs put the company into a loss of Rs.656.37 million.

Non-adherence to rules resulted in loss due to procurement of 40 MVA Power transformers at higher rates amounting to Rs.656.37 million during the Financial Year 2021-22.

The matter was taken up with the management in September, 2022 and reported to the Ministry in June, 2023. The management replied that bidding was held on open competition basis in which only a single bidder participated. The bid was duly evaluated and rates thoroughly analyzed in view of PPRA rule No.38. Approval was accorded when all aspects were properly considered. Reply was not tenable because power Transformer was procured at higher rate.

The DAC in its meeting held on October 09, 2023 directed the management to submit revised reply providing the detail of MEPCO and TESCO bids showing inflation CPI, LME and Dollar exchange rate effect to audit within one week. No further progress was reported till finalization of the report.

Audit recommends implementation of the DAC's decision.

(Draft Para No.111/2023-24)

1.6.27 Loss due to substandard procurement of power transformers from M/s PEL - Rs.540.00 million

According to Clause 39.2 Section-I (ITB) requires that the bidder / manufacturer having bad experience including damaging of power transformer supplied in the past is liable for rejection which is application on their bid.

During audit of GSO PESCO, thirty-one (31) No. of PEL make power transformers of different capacities were damaged during 2016-17 to 2022-23. A number of inquiries were constituted to probe into the cause of damage of Power transformers. The inquiry committees in their recommendations stated that frequent damages of PEL make power transformers were purely due to manufacturing fault and in future, there should be no procurement from M/s PEL. Due to purchase of substandard material, Company had to sustain loss of Rs.540 million.

Non-adherence to instructions resulted in loss of Rs.540 million due to procurement of substandard power transformers.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that currently eight (08) power transformers were under repair and the repair was being conducted free of cost by M/s PEL. The objected power transformers had completed their useful life during the warranty period and most of transformers were procured in 2012. The repaired transformers had been handed over to PESCO for reinstallation and were duly energized. Meanwhile the procurement of power transformers from PEL was halted. However, PEL conducted fresh type test which were approved by Chief Engineer (SS Design) NTDC. After submitting fresh type test reports by PEL, procurement from PEL was initiated like other DISCOs according to PPRA rules. Audit contended that damage of transformers due to manufacturing fault warranted detailed inquiry for fixing responsibility of loss.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to inquire the matter for fixing responsibility within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.197/2023-24)

1.6.28 Loss due to purchase of substandard material - Rs.535.86 million

According to Corporate Governance Section (5) "The Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders"

During audit of CEO IESCO, two purchase orders were placed on M/s Skypower for purchase of 1,481 transformers of 25 kVA and 50 kVA. Out of the total installed transformers, 150 distribution transformers got damaged either immediately or within 15 days. The ratio of damage within 15 days of installation was above 10% of the purchase order which was unjustified. This ratio may further increase with actual number of transformers installed at site or installed transformers are tested at full load. The matter regarding poor quality of transformers was also pointed out by Executive Engineer (E), RE-II construction division IESCO, Chakwal, Project Director, Construction, IESCO and Chief Engineer (MM).

Non-adherence to Corporate Rules resulted in loss due to purchase of substandard material Rs.535.86 million during the Financial Year 2022-23.

The matter was taken up with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that procurement was strictly done by IESCO was in conformity with the Standard Design & Specifications formulated by Standard & Specification NTDC, Lahore.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to inquire the matter and submit its recommendations to audit. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1104/2023-24)

1.6.29 Loss due to award of contract to 2nd lowest bidder caused by defective bid evaluation -Rs.530.043 million

According to Rule-5 (5) of Public Sector Companies Corporate Governance Rule 2013, “the Board shall establish a system of sound internal control, which shall be effectively implemented within Public Sector Corporate to ensure compliance with the fundamental principles of probity and propriety: objectivity, integrity and honesty and relationship with stakeholders.” According to Rule 2 (h) of the Public Procurement Rules, 2004, “most advantageous bid” means,- (i) a bid or proposal for goods, works or services that after meeting the eligibility or qualification criteria, is found substantially responsive to the terms and conditions as set out in the bidding or request for proposals document; and (ii) evaluated as the highest ranked bid or proposal on the basis of cost or quality or qualification or any combination thereof, as specified in the bidding documents or request for proposal documents which shall be in conformity with the selection techniques to be issued by the Authority.

During Thematic Audit of procurement and material management in NTDC, it was observed that M/s SiChuan YiBin Global Group Co. Ltd. (SYGG) was declared as lowest responsive bidder with quoted price of Rs.1,789.325 million against Tender No. NPP-04M(R)-2020 regarding Design, Manufacturing & Supply of complete hardware strings including Pre-RTV coated Disc. Insulators (porcelain or toughened glass) for 500 kV D/C Q/B T/Line for evacuation of power from K-2/ K-3 Nuclear Power Plants. However, the 2nd lowest bidder M/s Sediver SAS France went to NTDC Grievance Redressal Committee (GRC) against qualification of 1st lowest bidder. Resultantly, the GRC vide its report dated May, 2021, on the basis of Chief Engineer T/Line Design letter dated April 12, 2021 regarding non-conforming of authenticity of performance certificate of POWERGRID, India, declared the 1st lowest bidder non-responsive. However, in this regard, the response of 1st lowest bidder dated June 18, 2021 regarding provision of Performance Report from POWERGRID was not taken into account and contract amounting to Rs.2,319.368 million was awarded to 2nd lowest bidder M/s Sediver SAS France on July 01, 2021. Resultantly the public exchequer suffered loss of Rs.530.043 million due to award of contract to 2nd lowest bidder.

It is pertinent to mention that the procedure adopted for getting authenticity of performance certificate submitted earlier by 1st lowest bidder i.e. M/s SYGG with its bid was incorrect as authenticity of said certificate was sought from Corporate Office of POWERGRID, Dehli instead of issuing authority i.e. Regional Office of POWERGRID, Nagpur.

The said issue was also taken with NTDC by PPRA on July 15, 2021, however, outcomes in this regard was not made known to Audit. Further, the GRC report Tender against Tender NPP-04M (R)-2020 dated May, 2021 concluded with remarks that “irregularities in the bid evaluation process of have been observed.” However, neither the bidding process was annulled nor responsibility against irregularities in bid evaluation process was fixed upon delinquent (s).

Violation Public Sector Companies Corporate Governance Rule 2013 and PPRA Rules resulted in loss amounting to Rs.530.043 million due to award of contract to 2nd lowest bidder caused by defective bid evaluation up to the Financial Year 2022-23.

The matter was taken up with the management of NTDC in September, 2023 and reported to the Ministry in December, 2023. The management replied that SYGG, the lowest bidder, was disqualified for submitting a fake certificate, violating clause 35.1 of the bidding documents. Their later attempt to provide a different certificate didn't change their non-responsive status. The case is currently under investigation by FIA Lahore (Inquiry No. 70/2023). Audit contends that expeditious efforts be made to pursue the case with FIA.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to pursue the case with FIA. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision.

(Draft Para No.1159/2023-24)

1.6.30 Undue benefit extended to the contractor through allowing price adjustment - Rs.510.75 million

According to clause 70.1 of special conditions of contract, price adjustment (increase or decrease of cost) was not allowed, as the entire clause 70.1 was deleted from the contract.

During audit of (MP&M), NTDC, Lahore, a contract (No.NPP-03C-2019) of civil works for erection, stringing, testing & commissioning of 500 kV D/C quad bundle transmission line for interconnection of K-2/K-3 nuclear power plants with 500 kV S/C port Qasim-Matiari transmission line was awarded to M/s. ICC Pvt Ltd, Lahore during September, 2020. Further an amount of Rs.510.75 million was paid to the contractor on account of price adjustment (escalation) during the month of February and March, 2023. In original contract no price adjustment was allowed to the contractor. Subsequently price adjustment was allowed to the contractor with the approval of BOD during September, 2022 (after lapse of 2 years of award), which was against the interest of NTDC. This state of affairs showed that an undue benefit was extended to the contractor in shape of price adjustment.

Non-adherence to contractual provisions resulted in undue benefit extended to the contractor in shape of price adjustment amounting to Rs.510.75 million during the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in November, 2023. It was replied by the management that the amount of Rs.510.75 million, taken by audit was not correct since the actual amount is Rs.52,747,717/- (52.7 million). Moreover, the decision regarding price adjustment in NPP- 03C-2019 which was a fixed price contract, was a commercial decision. The decision of Board of Directors (NTDC) was in compliance with the guidance of Planning Commission and Pakistan Engineering Council.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to get the stance verified with documentary evidence within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.472/2023-24)

1.6.31 Irregular award of contract beyond limitation/Powers - Rs.503.76 million

According to instructions issued by Deputy Managing Director vide letter No. DMD/AD&M/ NTDC/- 9702 dated January 29, 2019: - Chief Engineer (MP &M) NTDC shall undertake henceforth all pre-award of

contract activities in all types of tenders/procurement of goods, works and services financed by International Financing institutes or through NTDC own resources having estimated value of above Rs.60 million.

During audit of Project Directorate EHV-I NTDC, it was observed from record that four (4) tenders were floated and contracts worth of Rs.503.76 million were awarded to M/s Al-Hussain Traders Contractors and Potential Engineers Pvt. Ltd by Project Director EHV-1 Lahore in violation of authority instructions which was irregular.

Non-adherence of authority instructions resulting into irregular award of contracts beyond limitation/Powers - Rs.503.76 million up to the Financial Year 2022-23.

The matter was discussed with the management in June, 2023 and reported to the Ministry in November, 2023. The contracts were awarded to different contractors after completing the codal formalities through tendering process and approval of competent authority to float the tenders beyond the limit of 60 million.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to get approval of next higher authority within fifteen (15) days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 493/2023-24)

1.6.32 Loss due to non-award of contract during bid validity period – Rs.489.70million

According to Rule-5(5) of Public Sector Companies Corporate Governance Rule 2013, “the Board shall establish a system of sound internal control, which shall be effectively implemented within Public Sector Corporate to ensure compliance with the fundamental principles of probity and propriety: objectivity, integrity and honesty and relationship with stakeholders.”

During Thematic Audit of procurement and material management in NTDC, it was observed that Technical Bid Evaluation Report for bids against Tender-TLM-11-2021 for procurement of AAAC Greely Conductor for 500 kV Double Quad Bundle Transmission Line was opened on May 27, 2021, and approved by MD NTDC on October 05, 2021. The bid validity period of the subject tender was 150 days from bid opening. Since the bid validity period was near to expire, the two (02) technically responsive bidders i.e. M/s Henan Tong-Da Cable Co. Ltd. and M/s Jiangsu Zhongtian Technology Ltd. (ZTT) were asked for extension in bid validity period but both the bidders refused to extend the bid validity period. Resultantly the bidding process was annulled on December 08, 2021 and re-tendering for procurement of said material under Tender TLM-11R-2021 was floated and contract was awarded to M/s Fast Cables having lowest evaluated landed cost of Rs.5,327.437 million. However, the landed cost of one of technically responsive bidder i.e. M/s Henan Tong-Da Cable Co. Ltd. in the previous tender, TLM-11-2021 was Rs.4,837.737 million. (calculated from the 2% bid security of bidder i.e. CNY 2.300 million at conversion rate of Rs.24 as on April 30, 2021). Resultantly loss to the tune of Rs.489.7 million was suffered to the company due to non-award of contract under TLM-11-2021 during the bid validity period. It is pertinent to mention here that an inquiry committee to probe into reasons behind inordinate delay and subsequent scrapping of tendering process for procurement of AAAC Greely Conductor vide Tender No. TLM-09M-2019 and TLM-11-2021 was constituted on January 26, 2022. However, the outcomes of the said inquiry report were not forthcoming from the record.

Non-adherence to the provisions of the Public Sector Governance Rules resulted in loss of Rs.489.7 million due to non-award of contract during bid validity period up to the Financial Year 2022-23.

The matter was taken up with the management of NTDC in September, 2023 and reported to the Ministry in December, 2023. The management replied that tenders TLM-09M and TLM-11 were floated, evaluated & processed during COVID-19 pandemic which is the reason for delay in contract award and refusal of bidders to extend bid validities owing to price volatility & market uncertainty during the pandemic, leading to scrapping of these tenders. The reply was not tenable as the NTDC hasn't achieved milestones for effective procurement.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to inquire the matter and share inquiry report with audit. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision.

(Draft Para No.1157/2023-24)

1.6.33 Loss due to non-encashment of performance/mobilization advance guarantees of the contractor - Rs.350.54 million

According to the clause 63.1 (b-ii) and 63.1(d) of general conditions of contract, "without forgoing the rights / remedies / authorities available with the employer engineer, including but not limited to (1) offsetting of any due payments under the contract (2) recovery of any cost / losses incurred (or to be incurred) by the employer for completion of works. (3) Encashment / adjustment of guarantees provided by contractor".

During audit of MP&M NTDC, a contract was awarded to M/s. ICC Pvt. Ltd against Tender No. NPP-03C-2019 and accordingly the contract agreement was signed on 22nd September, 2020. As per agreement, the contractor provided performance guarantee amounting to Rs.184.522 million and mobilization advance guarantee of Rs.166.018 million. On the basis of consecutively defaulting in execution and completion of work within the stipulated time of completion, NTDC terminated the contract on June 30, 2023. According to the contractual provisions, the performance guarantee and mobilization advance guarantee was required to be encashed immediately, but the same was not done due to negligence of the management and the guarantees were expired.

Non-adherence to the contractual provisions resulted in loss of Rs.350.54 million due to non-encashment of performance and mobilization advance guarantees up to the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in November, 2023. The management replied that BoD NTDC vide its notification dated November 03, 2023 had ratified to award the remaining work of the subject contract to M/s ICC Pvt. Ltd. again. In this regard amendment was under process and as soon as the amendment was issued, PG will be extended by the contractor and the same would be presented to Audit. Audit contended that the management failed in adhering the contractual provisions.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to submit detailed revised reply. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.544 /2023-24)

1.6.34 Irregular acceptance of material without type testing - Rs.349.82 million

According to Clause 26.1 of special conditions of contract, “all goods covered by the contract shall be subject to type testing / pre shipment inspection / Factory Acceptance Tests (FATs) in line with the requirements of relevant specifications”.

During audit of MP&M NTDC, a contract No.ADB-109-2021 (Lot-IV) for procurement of substation equipment was awarded to M/s. Grid Solution SAS, France at a contract price of Euro 2.345 million. All the material was subject to acceptable type test reports. As per requirement of contractual provisions and prevailing practice, the Factory Acceptance Tests (FATs) of the offered equipment was required to be performed after complete type test performance as per NTDC type test policy / technical specifications. However, in this case the supplier was allowed to perform online FATs before execution of type testing and on the basis of online FATs the material / equipment was received. This state of affairs clearly showed that management had extended an undue favour to contractor/supplier by relaxing the type test requirement and put the interest of NTDC at risk.

Non-adherence to contract provisions resulted in irregular acceptance of material without type testing value Rs.349.82 million during the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in November, 2023. The management replied that the online performance of FATs prior to type testing was as per NTDC type test policy 2019. Moreover, the ADB loan against subject contract was going to expire on June 30, 2023. Therefore, keeping in view the timeline of loan and on the request of contractor, this office sought approval from the Competent Authority to conduct online FATs prior to type testing subject to full responsibility of the contractor to provide compliant type test reports.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to get verified the stance with documentary evidence from Audit within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.720 /2023-24)

1.6.35 Irregular release of Liquidated Damages Charges – Rs.344.18 million

As per Clause-45.5 of Contract ADB-14-2019, “Rules of procedure for arbitration proceedings”: a) any dispute, controversy or claim arising out of or relating to the contract, or breach, termination or invalidity thereof, shall be settled by arbitration in accordance with the UNCITRAL Arbitration Rules as at present in force. b) Contracts with contractors being nationals of the Employer’s country: any dispute between the Employer and a Contractor who is a national of the employer’s country arising in connection with the present Contract shall be referred to adjudication or arbitration in accordance with the laws of the Employer’s country. In either of the above cases, the venue of the arbitration shall be Pakistan. According to clause 6 of notification of award of contract No. GS-02(R2)-2019, “the liquidated damages shall be 0.05% of total contract price per day of delay. The maximum amount of liquidated damages shall be ten percent (10%) of the contract price”.

During audit of NTDC, two (02) contracts i.e. No. ADB-14-2009 and GSO-02(R2)-2019 for Design, Supply, Installation of Static Var Compensator (SVC) at 220 kV New Kotlakhpat Grid Station and Supply of

material for steel structure were awarded to M/s ABB Consortium and M/s Arabian International Company respectively. Both the contractors failed to complete the works within stipulated time period. Resultantly, liquidated damages (LD) charges amounting to Rs.343.15 million were deducted. However, later on the said deducted liquidated charges were released to the contractors. The release of LD charges was not covered under the provisions of contract agreements. Further NTDC has to bear exchange rate loss of Rs.1.032 million due to release of LD to M/s Arabian International Company at subsequent higher exchange rate. Detail is as under:

Sr. No.	Draft Para No.	Contract No.	Name of Contractor	Amount (Rs.in million)
1.	754/ 2023-24	ADB-14-2009	M/s ABB Consortium	279.50
2.	951/ 2023-24	GSO-02(R2)-2019	M/s Arabian International Company	64.68
Total				344.18

(Source: Contract Correspondence file)

Non-adherence to provisions of Contracts Agreement resulted in irregular release of liquidated damages charges to the contractors amounting to Rs.343.15 million and loss of Rs.1.032 million due to release of LD at subsequent higher exchange rate up to the Financial Year 2022-23.

The matter was taken up with the management in June, 2023 and reported to the Ministry in November & December 2023. The management replied that LD charges were released to M/s ABB Consortium after approval of EOT from BOD whereas LD charges were released M/s Arabian International Company after grant of interim EOT and approval of final EOT was under the process of approval.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to get EOT granted to M/s ABB Consortium verified from audit within fifteen (15) days. As regard to release of LD to M/s Arabian International Company, the DAC directed the management to inquire the matter and submit report to Audit within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

1.6.36 Undue favour to supplier due to change in delivery schedule of material – Rs.314.41 million

According to Letter of Intents (LOI) issued vide No.286 dated February 09, 2022 Clause-B(b): - "Firm will submit requirements of UDIL certificate to PITC within 15 days from the date of issuance of LOI under intimation to PESCO". Further, as per Clause-F: "The time taken for improvement in samples and resubmission of drawings will not entitle the manufacturer to claim extension in delivery period on this account".

During audit of CEO PESCO, a Purchase Order No. 0701789 dated July 05, 2022 for procurement of 12,499 whole current 3-phase meters amounting to Rs.314.41 million was issued to M/s Micro Tech Industries Pvt. Ltd. The scrutiny of record revealed that the firm was bound to submit requirements for UDIL Certificate within 15 days of issuance of LOI and delay in obtaining prototype approval from NTDC would not entail in

extension of delivery period. However, firm provided the UDIL Certificate after lapse of 90 days and took 110 days in obtaining prototype approval from NTDC. Hence in the light of provisions of LOI and special conditions of the contract, 2% Bid money was required to be confiscated but contrary to this PESCO authorities extended undue favour to supplier by amending delivery schedule from “date of issuance of P.O” to “date of obtaining prototype approval”. The said amendment was in contradiction to the provisions of LOI & Special Condition of Bidding Documents which resulted in escaping supplier from confiscation of bid security/ deduction of liquidated damages.

Non-adherence to Bidding documents and Purchase Order resulted in undue favour to supplier due to change in delivery schedule of material amounting to Rs.314.41 million during the Financial Year 2022-23.

The matter was taken with the management in May, 2023 and reported to the Ministry in December, 2023. The management replied that BOD PESCO was apprised about delay in provision of UDIL certification by the supplier and amendment in delivery schedule was accorded by the competent authority. Audit contended that the management failed in adhering to the provisions of bidding documents.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with justification within 15 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.1240/2023-24)

1.6.37 Irregular award of purchase order to non-responsive bidder due to defective bid evaluation – Rs.306.22 million

According to Clause-15(iv) of General / Special Conditions for Bidding against Tender-2205/2022-23 for procurement of Three Phase Whole Current Static Meters, “the prototype approval obtained by the firm more than three years back from the date of opening of tender will not be accepted”. According to publication of Tender Notice 2276 for procurement of LT Steel Structure, “bids were called from the bidders having valid prototype approval”.

During audit of CEO FESCO, the validity of prototype approvals of two (02) bidders was expired before the time of opening of the bids. Hence, the bids of these bidders were required to be rejected but contrary to this, purchase orders bearing No.1314 and 1429 for supply of Three Phase Whole Current Static Meters and LT Steel Structure valuing Rs.280.613 million and Rs.25.611 were awarded to M/s. Intelligent Metering System and M/s. AH Associates respectively. The award of purchase orders to non-responsive bidders was against the provisions of bidding documents and hence cannot be termed as regular.

Violation of the provisions of the bidding documents resulted in irregular award of purchase orders valuing Rs.306.22 million to non-responsive bidder due to defective bid evaluation during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that both the bidders had valid prototype approvals at the time of issuance of tender documents. Audit contended that prototype approvals of the bidders had expired on bid opening date.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to get its stance verified in the light of relevant provisions of tender documents / purchase order from Audit within a week. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC’s decision.

1.6.38 Un-justified renewal of standby letter of credit (SBLC) in favour of Omini Power Pvt Ltd – Rs.242.00 million

According to Para-5 (5) of Public Sector Companies Corporate Governance Rules, 2013 “the board shall establish a system of sound internal control, which will be effectively implemented at all levels within the public sector company, to ensure compliance with the fundamental principles of probity and propriety, objectivity, integrity and honesty and relationship with the stakeholders”.

During audit of CEO HESCO, Standby Letter of Credit (SBLC) for an amount of Rs.242.00 million was renewed in favour of M/s. Omini Power Pvt Ltd. Despite the fact that an amount of Rs.368.00 million was lying pending for recovery from the said Small Power Producer (SPP). The matter for recovery for Rs.368.00 million was under arbitration. Audit held the renewal of SBLC unjustified as the amount was already recoverable from the supplier.

Non-adherence to Corporate Governance Rules resulted in un-justified renewal of standby letter of credit in favour of Omini Power Pvt. Ltd amounting to Rs.242.00 million during the Financial Year 2020-21.

The matter was discussed with the management in September, 2021 and reported to the Ministry in December, 2021. The management replied that an inquiry committee had been constituted vide office order dated November 22, 2023.

The DAC in its meeting held on December 22 & 23, 2023 upheld the decision of previous DAC wherein direction was given to inquire the matter at PPMCL level and further directed the management to share a schedule of recovery. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.611/2021-22)

1.6.39 Non-completion of work at risk and cost of the contractor – Rs.219.41 million

According to clause 35.1.b of conditions of contract, “In the event the Purchaser terminates the Contract in whole or pursuant to GCC clause 35.1(a), the Purchaser may procure upon such terms and in such manner as it deems appropriate, goods or related services similar to those undelivered or not performed, and the supplier shall be liable to the purchaser for any additional costs for such similar goods or related services. However, the supplier shall continue performance of the contract to the extent not terminated”.

During audit of MP&M NTDC, Lahore, a contract No.ADB-105R(Lot-2)2021 was awarded to M/s. Zibo Taiguang Electric Equipment China for procurement of goods at a contract price of Rs.219.41 million (US\$ 767,184.00). Subsequently the contract was terminated due to contractor’s failure to discharge contractual obligations during the month of August 2023. According to the provisions of contract performance guarantee valuing Rs.22.624 million of the contractor M/s. Zibo Taiguang Electric Equipment, China was encashed but no further action i.e. completion of work at risk and cost of the contractor was forthcoming from record.

Non-adherence to Contract Clauses resulted in non-completion of work at risk and cost of the contractor amounting to Rs.219.41 million up to the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in December, 2023. The management replied that the Performance Guarantee of the contractor has been encashed and the case for its blacklisting was under process. Furthermore, the retendering for the said material had not been initiated and subsequent claims, if any, would be lodged afterwards.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to get the stance with documentary evidence verified from audit within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1123 /2023-24)

1.6.40 Avoidable expenditure on temporary Rohri grid station due to non-execution of contract as per schedule completion period – Rs.204.97 million

According to Appendix-4 (Time Schedule) of Contract signed on January 18, 2010 for procurement of AIS Plant for 220 kV Rohri Substation (ADB-41-2009), "the completion period of the project was 420 days from the Effective Date."

During audit of NTDC, a Contract No. ADB-41-2009 for Procurement of 220 kV AIS Rohri Grid Station was awarded to M/s Chint Electric Company Ltd. on January 18, 2010 with completion period of 420 days from the effective date of contract. The said Grid Station was to be constructed for dispersal of power from 225 MW Engro Energy & 175 MW Fauji Foundation Power Plants. However, the construction work of New Grid Station Rohri could not be started in time even after award of contract. Subsequently, an expenditure of Rs.204.97 million was incurred for construction of temporary grid station. Had the construction activities for new grid stations been started in time, an expenditure of Rs.204.97 million incurred on temporary grid could have been avoided.

Project mismanagement resulted in avoidable expenditure of Rs.204.97 million on temporary Rohri grid station due to non-execution of contract as per schedule completion period up to the Financial Year 2019-20.

The matter was taken up with the management on September 25, 2020 and reported to the Ministry on December 29, 2020. The management replied that the temporary grid was constructed as per phase-I program under tight time schedule for power evacuation from powerhouses through M/s Chint; the main EPC contractor in order to avoid heavy penalties. Audit contended that instead of getting the work of new Rohri grid executed from M/s Chint, the execution of the work of temporary Rohri grid from the same contractor was incomprehensible. Moreover, there was no provision existed in PC-I for expenditure on temporary grid station.

The DAC in its meeting held on April 12, 2021 directed the management to constitute fact finding committee and submit its report to Audit under the signature of MD NTDC. The DAC in its meeting held on December 18 & 19, 2023 upheld the earlier decision. No further progress was reported till finalization of the report.

Audit recommends that the management needs to implement DAC's decision.

(Draft Para No.1038/2023-24)

1.6.41 Non-adjustment/receipt back of material given on loan basis to contractors - Rs.163.50 million

According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), “all losses whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved”.

During audit of Project Directorate EHV-I NTDC, it was observed that the electrical material valuing Rs.163.50 million was issued on loan basis to contractors under different contracts. The equipment/material was lent to contractors with the undertaking to return the same. In addition, the surplus material was also required to be returned to store. However, adjustment/ receipt back of said electrical material from contractor was not forthcoming from record even after a considerable period.

Non-adherence to guidelines resulted in non-recovery of lent electrical material from contractor Rs.163.50 million.

The matter was reported to the management in August, 2023 and reported to the Ministry in November, 2023. The management replied that the observation is a duplicate of PDP-376/2023-24 and the surplus material allocated on loan basis to contractor has been returned to the designated warehouse vide MRNs.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to get the record verified from audit in support of reply within 15 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.500/2023-24)

1.6.42 Inordinate delay in awarding of Tender/Purchase Order - Rs.133.79 million

According to Rule-5(5) of Public Sector Companies Corporate Governance Rules-2013, “the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders”.

During audit of PMU MEPCO, a tender No.65/2020 was opened on August 12, 2021 for procurement of seventy-two (72) 132 kV SF6 Gas Circuit Breakers. Two firms participated in this tender namely M/s Saddique Sons Engineers Lahore & M/s M.K Engineering Works-Shahzad Enterprises. The firms quoted bid price amounting to Rs.2.793 and 2.938 million per unit respectively. The case was presented in Procurement and Disposal Committee on January 17, 2022. The committee deferred the case for next meeting. The case was again presented in committee and recommendations of committee were awaited. Meanwhile, MEPCO management requested the firms to further extend the bid validity period but the firm refused. Resultantly, MEPCO management had to scrap the tender and floated a special tender (ICB) 02/2022 opened on May 31, 2022 for procurement of same item/material. Only M/s Saddique Sons Engineering Lahore participated in tendering process, quoted the bid price of Rs.4.367 million per unit for the same circuit breakers and purchase order was awarded to the firm. Thus, MEPCO sustained a loss of Rs.133.79 million due to BoD’s wrong decision of retendering.

Non-adherence to Corporate Governance Rules resulted in loss of Rs.133.79 million due to inordinate delay in awarding of Tender/Purchase Order during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that evaluation was carried out by 3rd party i.e. Chief Engineer (SS Design) NTDC. The first lowest bidder M/s Siddique Sons Engineering Lahore offered 132 kV Circuit breakers manufactured by M/s Jiangsu Rugao China and as per technical bid evaluation report clause No. 8, M/s Jiangsu Rugao China was debarred by African Development Bank for twenty (20) months from June 14, 2020 to February 13, 2022. Moreover, the original bid validity of the tender expired on 09.01.2022 and M/s Siddique Sons Engineering Lahore refused to extend its bid validity in view of debarment of M/s Jiangsu Rugao. Due to this reason, the contract could not have been awarded to M/s Siddique Sons Engineering Lahore. The 2nd lowest bidder was M/s M.K. Engineering – Shahzad Enterprises submitted fake 3rd party inspection report against previous MEPCO purchase. The matter was discussed in MEPCO BOD and as per legal opinion of legal advisor the tender was scrapped.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to inquire the matter by G.M. (Tech.) and submit report to audit within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.433/2023-24)

1.6.43 Loss due to rebidding for construction of Mansehra Grid Station – Rs.129.09 million

According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), "all losses whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved".

During audit of NTDC, Tender No.ADB-67-2012 for the procurement of 220 kV AIS Substation Mansehra, was declared mis-procurement by the Asian Development Bank Procurement Committee due to Non-adherence to paragraph 1.12 of ADB's Procurement Guidelines. Resultantly, NTDC gone into rebidding through Tender No. 67-R-2012 and the contract was awarded to the lowest bidder with Rs.1,317.94 million, which was 129.07 million higher than the lowest bid of Rs.1,188.85 million received in earlier Tender ADB-67-2012. Had the professional vigilance been exercised by observing the ADB's Procurement Guidelines in the process of Tender No.67-2012, NTDC rebidding could have been avoided by saving time and loss of Rs.129.09 million due to higher bid price.

Non-adherence to the ADB Procurement Guidelines resulted in loss of Rs.129.09 million due to rebidding for construction of Mansehra Grid Station up to the Financial Year 2019-20.

The matter was taken up with the management on September 25, 2020 and reported to the Ministry on December 29, 2020. The management replied that the Mansehra Grid was situated in "Seismic Zone" for which no bidder had experience and they submitted their bids as per normal drawings. The change in price was due to civil works, which had to be executed as per the site requirements i.e. Seismic Zone. Audit contended that mis-procurement declared by ADB caused rebidding for which responsibility needed to be fixed.

The DAC in its meeting held on April 12, 2021 directed the management to constitute fact finding committee and submit its report to Audit under the signature of MD NTDC. No further progress was reported till finalization of the report.

Audit recommends that the management needs to implement DAC's decision.

(Draft Para No.1194/2023-24)

1.6.44 Damaged foundations jeopardizing the towers installed at Nandipur Pusroor T/Line - Rs.100.00 million

According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), "all losses whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved".

During audit of GSC GEPCO, a 132 kV Double Circuit Nandipur - Pasrur T/Line was constructed during 2014 in order to dispersal of power from 525 MW Combined Cycle Power Plant Nandipur. GSO formation on April 17, 2023 reported that the soil and foundation work of three (03) Towers No.11, 17 & 18 installed at the said T/Line had been demolished rendering them into critical condition and exposing to near collapse. Accordingly, installation of Tubular Poles was suggested with estimated amount of Rs.100 million, which was approved by CEO with the direction to take action against SDO/XEN who did not protect the GEPCO property. However, the status of departmental inquiry for fixing the responsibility and quantifying the loss was not evident from record.

Poor project management resulted in damaged foundations jeopardizing the towers installed at Nandipur - Pusroor T/Line amounting to Rs.100 million during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that the site was visited by XEN TLC after reporting by GSO formation and he decided that the towers in questions were in healthy condition and there was no need to replace towers with poles. The GSC Formation had not conducted the work.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to share the inquiry report with audit in the light of CEO's direction to take action against SDO/XEN. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.322/2023-24)

1.6.45 Loss due to non-forfeiture of bid securities of bidders involved in corrupt and fraudulent practices – Rs.98.00 million

According to clause-19.6 (d) of Section-II: Bidding Data and Appendices, "the bid securities of the bidder (s) found involved in corrupt and fraudulent practices shall be forfeited." According to clause 1.1 of Section-IV, Part-I: General Conditions of Contract, "corrupt and fraudulent practices include *misrepresentation of facts* in order to influence a procurement process."

During Thematic Audit of procurement and material management in NTDC, it was observed that the bids of M/s Shandong Ruitai Glass Insulators Co. Ltd. China, M/s Nanjing Electric Group Co. Ltd. China and M/s Sichuan Yibin Global Group Co. Ltd. (SYGG), China against Tender No. TLM-10-2020 were rejected during bid evaluation process due to submission of false/ materially inaccurate information. Since the act of misrepresentation of facts in order to influence a procurement process fall under the ambit of corrupt and fraudulent practices, the bid securities of these bidders amounting to Rs.98.00 million were required to be forfeited. But neither bid securities of the said bidders were forfeited nor the said bidders were blacklisted/ debarred.

Violation of provisions of bidding documents resulted in loss due to non-forfeiture of bid securities of the bidders involved in corrupt and fraudulent practices valuing Rs.98.00 up to the Financial Year 2022-23.

The matter was taken up with the management of NTDC in September, 2023 and reported to the Ministry in December, 2023. The management replied that same observations were taken previously and DP-954/2020-21 had already been framed. The reply was not tenable as the said DP was not related with this observation as it was framed based on another contractor.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to inquire the matter and submit report to audit within 30 days. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision.

(Draft Para No.1216/2023-24)

1.6.46 Non-replacement of defective / out-of-order material under warranty period - Rs.97.51million

According to Clause-9 of Purchase Order, 'the supplier will furnish a warranty certificate, certifying that goods supplied conform exactly to the specifications laid down in the contract and are brand new and that in the event of the material being found defective or not conforming to the specifications / particulars governing supply at the time of delivery and for a period of 12-months from the date of completion of supply, he will be held responsible for all losses and that unacceptable goods shall be substituted with the acceptable at their expense & cost.

During audit of FESCO & MEPCO, electrical material and equipment worth Rs.713.74 million were defective / damaged under warranty period and not got replaced from the manufacturers / suppliers. The detail is as under:

Sr. No.	Company	Draft Para No.	Amount (Rs.in million)
1.	FESCO	1107/2023-24	75.91
2.	MEPCO	524, 900/2023-24	21.60
TOTAL			97.51

(Source: Purchase Order file)

Non-adherence to warranty clause of purchase order resulted in non-replacement of defective / out of order electrical material worth Rs.97.51 million under warranty period from manufacturers / suppliers up to the Financial Year 2022-23.

Audit was of the view that not getting under warranty goods replaced well in time showed unsatisfactory maintenance of Company assets by the DISCOs.

The matter was taken up with the management in August & November, 2023 and reported to the Ministry in November & December, 2023. The management replied that some of the material had been received from suppliers / manufacturers and efforts were being made to receive the remaining material.

The DAC in its meetings held on December 14, 2023 to December 23, 2023 directed the management to get the record of completed action verified from audit within a week and expedite the pending action. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC's decision.

1.6.47 Irregular award of Purchase order to black listed firm M/s Pan Power – Rs.95.53 million

As per PPRA Rule 19(b), if the bidder fails to perform contractual obligations during execution or breaches the contract due to his capability to perform or otherwise the bidder can be declared black listed and debarred for participation of public procurement for a period of not more than three years.

During audit of CEO LESCO, a tender for procurement of 200 x 15kVA transformers was opened on January 19, 2023. A single bidder M/s Pan Power international (Pvt) Ltd, Lahore participated in the bidding process and after evaluation, the purchase order amounting to Rs.95.53 million was awarded to the same supplier on April 14, 2023. Furthermore, it was revealed that a purchase order dated February 8, 2021 for supply of 50 kVA distribution transformers was awarded to the same firm but it failed to supply the ordered transformers to MEPCO. Resultantly M/s. Pan Power international Pvt Ltd Lahore was declared black listed on November 15, 2022 and was debarred for a period of three years as per PPRA Rule, 19(b) by MEPCO. Therefore, the issuance of purchase order to a black listed firm was irregular.

Non-adherence to PPRA Rules resulted in irregular award of purchase order of Rs.95.53 million to a black listed firm during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that the firm M/S Pan Power filed a writ petition in Islamabad High Court. The Court suspended the blacklisting and the order in review passed by PPRA. So, in the light of the order passed by the Islamabad High Court this office considered M/s. Pan Power (Pvt) limited in the subject tender No.2952. Audit contended that the order of black listing was cancelled not suspended.

The DAC in its meeting held on December 18 & 19, 2023 accepted the stance of audit and directed that as per the order of the High Court, the matter of black listing of firm was suspended not cancelled. The DAC further directed LESCO that matter might be inquired within 30 days and reported to audit. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

1.6.48 Mis-procurement of 11 kV Steel Pins for Steel due to collusive practice / cartelization of bidders - Rs.91.608 million

According to Rule-2 (f), Definitions, of Public Procurement Rules-2004, “corrupt and fraudulent practices” includes the offering, giving, receiving, or soliciting of anything of value to influence the action of a public official or the supplier or contractor in the procurement process or in contract execution to the detriment of the procuring agencies; or misrepresentation of facts in order to influence a procurement process or the execution of a contract, collusive practices among bidders (prior to or after bid submission) designed to establish bid prices at artificial, non-competitive levels and to deprive the procuring agencies of the benefits of free and open competition and any request for, or solicitation of anything of value by any public official in the course of the exercise of his duty”.

During audit of CEO MEPCO, a tender No.07/23 for supply of 100,000 11 kV Steel Pins for steel Cross Arms having split up into four (04) Lots each for 25000 was opened on July 27, 2022. Six firms participated, and offered their rates for different lots, M/s A.M Associated and M/s Bajwa Engineering Industries were declared as non-responsive by the Technical Evaluation Committee, after that other three firms voluntarily reduced their rates to Rs.783 per item equivalent to the rate quoted by the lowest bidder. Astonishingly, the competitors quoted the same rate, which was clearly evident of their collusive practice / cartelization to distort open competition, for which no action was taken by the management. Instead, four purchase orders amounting to Rs.91.608 million were placed upon the said firms. Had the tender not been split up into lots, the manufacturers could not have taken the advantage of their dominant position by offering collusive rates.

Non-adherence to authority instructions resulted in mis-procurement of 11 kV Steel Pins for Steel amounting to Rs.91.608 million due to collusive practice / cartelization of bidders during the Financial Year 2022-23.

The matter was taken up with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that that six (06) various firms quoted for single item (in four different lots) with different rates which showed a very healthy competition. Out of them M/s Kamran Engineering quoted lowest rate of Rs.783 each. Accordingly remaining three (03) firms voluntarily revised their tender rate as Rs.783 each by their own & accordingly the case was processed.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to get the record verified from audit within 15 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC’s decision.

1.6.49 Irregular hiring of legal services in violation of PPRA-Rules and violation of direction of the Regulator by not charging the same as part of Market Operation Fee - Rs.91.23 million

According to Rules-20 and 21 of Public Procurement Rules that open competitive bidding be used as a principal method of procurement for goods, services, and works for items costing more than five hundred thousand Rupees”.

During audit of CPPA-G, Islamabad, CPPAG incurred an amount Rs.91.23 million as legal charges for hiring legal counsel without open competitive bidding which was violation of PPRA rules 2004. This amount included all legal cost both local and international, including travelling and other costs related to legal cases.

The Regulator directed CPPA-G in determination of Market Operation Fee for the Financial Year 2021-22 to make legal fee as part of its market operation fee rather than making it a part of capacity cost bill charged to DISCOs but compliance of the same was not done.

Non-adherence to PPRA Rules resulted in irregular hiring of legal services in violation of PPRA Rules and direction of the regulator for not charging the same as part of Market Operation Fee amounting to Rs.91.23 million up to the Financial Year 2021-22.

The matter was taken up with the management in May, 2023 and reported to the Ministry in June, 2023. The management replied that CPPA-G was engaged in the local and international legal proceedings being an agent of DISCOs, the litigation charges incurred by CPPA-G on behalf of DISCOs were passed on to DISCOs in accordance with the Article III of the Power Procurement Agency Agreement (PPAA) between CPPA-G and DISCOs dated June 03, 2015. The reply was not tenable as Regulator directed CPPAG in determination of Market Operation Fee to make legal fee as part of its market operation fee rather than making it a part of capacity costs bill charged to DISCOs but compliance of the same was not done. Further, without competitive bidding, hiring of legal counsel was unjustified.

The DAC in its meeting held on October 09, 2023 directed the management to provide the record in support of reply to audit within 07 days. No further progress was reported till finalization of the report.

Audit recommends that the NEPRA needs to review its hiring policies for external counsels to ensure that these are transparent and based on objective criteria based on a competitive selection process that ensures impartiality and objectivity.

(Draft Para No.105/2023-24)

1.6.50 Loss due to procurement of HT PC Spun Poles at higher rates - Rs.86.392 million

According to clause-38-B(I&2) of PPRA Rules, the procuring agency shall consider single bid in goods, works and services if it- (a) meets the evaluation criteria, ensures compliance of specifications and other terms & conditions expressed in advertisement or bid solicitation documents; (b) is not in conflict with any provision of the Ordinance; (c) conforms to the technical specifications; (d) has financial conformance in terms of rate reasonability: Provided that except unsolicited proposal, in case of pre-qualification proceedings single bid shall not be entertained. (2) The procuring agency shall make a decision with due diligence and in compliance with general principles of procurement like economy, efficiency and value for money.

During audit of CEO GEPCO, a tender for procurement of 8000 HT PC Spun Poles through four (04) Lots was opened on March 08, 2022 and single bidders had offered their rates ranging from Rs.30,100 to Rs.30,990 per pole in each Lot. The Bid Evaluation Committee (BEC) held the rates lower by comparing them with the rates received in FESCO and SEPCO in their tenders opened on May 17, 2022 & May 11, 2022 respectively. This rate analysis was inappropriate being made with subsequent / future tenders' rates instead of considering the same on the basis of past months' rates as GEPCO's tender was opened in March, 2022 whereas FESCO & SEPCO tenders opened in May, 2022. Even the BEC did not consider the estimated market rate of Rs.21,322 per pole as assessed

by GEPCO Civil formation for the said Tender. The above scenario indicated that procurement was made at higher rates and Company was put into loss of Rs.86.392 million.

Irrational rate analysis resulted in loss of Rs.86.392 million due to procurement of HT PC Spun Poles at higher rates during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that in each Lot single bidder had participated and Purchase Orders issued after conforming technical specification, rate reasonability and after due diligence in line with PPRA Rules. The rates of components used in the manufacturing of Spun Poles i.e. Steel, Cement, Crush and Sand in which steel wire was an imported item increased up to 24.80% from last tender whereas rate of issued P. Os increased 21.92% to 24%.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to inquire the matter and submit its report to audit within a month. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1074/2023-24)

1.6.51 Irregular award of contract agreement - Rs.73.66 million

As per contract agreement clause 17 (A) (i) - "If the contractor (Supplier) fails to supply the goods within the time period, the purchaser will have the right to forfeit the security Bond/Guarantee (Performance Bond).

As per clause-4 of letter of intent dated September 24, 2021 the supplier is required to submit performance bond/Guarantee for Rs.7.36 million being 10% of value of contract agreement within 15 days i.e. October 06, 2021.

During audit of PMU FESCO, a LOI was issued to M/s. Shahzad Enterprises for the procurement of material of Rs.73.661 million. As per LOI, supplier was required to submit performance guarantee up to October 06, 2021, but the same was submitted by the supplier on June 23, 2022. Delay of fourteen (14) months in submitting performance guarantee showed irresponsible behavior by the management in procurement of important material. The management neither forfeited bid neither security nor performance guarantee valuing Rs.7.36 million from supplier. This deliberate delay in deciding the matter to cancel the LOI and forfeiture of bid security not only affected the different works of FESCO due to non-availability of said material but also caused huge financial loss to the company in form of price escalation. Resultantly the management sustained a loss of Rs.7.36 million.

Non-adherence to contract clause resulted in Irregular award of contract agreement- Rs.73.66 million during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that contract was awarded to the supplier after receipt of performance guarantee.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to inquire the matter within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.415/2023-24)

1.6.52 Loss due to irrational decision of Procurement Committee of BoD -Rs.70.00 million

According to Clauses-4(3) of Public Sector Companies (Corporate Governance) Rules, 2013, “the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Act and these rules. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently, and effectively and in accordance with all statutory obligations”.

During audit of CEO QESCO, it was observed that two (2) tenders No.1641 & 1728 for procurement of 13,090 (8090+5000) Automatic Meter Reading (AMR) meters were opened on January 10, 2022 & October 24, 2022. However, inordinate delay was observed in issuing the 1st purchase order as the same was approved by BoD on November 21, 2022 i.e after elapsing 10 months. Consequently the 2nd PO was approved on February 17, 2023 while the prices in market were rampant and per meter cost increased by Rs.14,000/-. Resultantly, the company had to bear extra cost of Rs.70 million (5000 meters x Rs.14,000 per meter), which could have been avoided if the first tender been concluded timely.

Non-adherence to the provisions of Corporate Governance Rules-2013 and PPRA-2004 resulted in loss of Rs.70.00 million due to irrational decision of Procurement Committee of BoD QESCO during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that tender T-1641 was part of procurement plan for FY 2021-2022, whereas tender T-1726 for procurement of the AMR meters was part of procurement plan for FY 2022-2023. The quoted / opened rates had been approved. As QESCO was procuring AMR meters for the first time so detail deliberations on various aspects were made by BoD. Audit contended that inordinate delay in issuing purchase orders reflected poor contract management.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to inquire the matter by C.E. PMU QESCO and submit its recommendations to audit within 30 days. No further progress was intimated till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.1079/2023-24)

1.6.53 Irregular award of contract - Rs.47.254 million

As per standard bidding documents IB. 14 clause 14.5 “the original and all copies of the bid shall be typed or written in indelible ink and shall be signed by a person or persons duly authorized to sign (in the case of copies photostats are also acceptable). This shall be indicated by submitting a written Power of Attorney authorizing the signatory of the bidder to act for and on behalf of the bidder. All pages of the bid shall be initialed and the official seal be affixed by the person or persons signing the bid”.

During audit of GSC SEPCO, a contract amounting to Rs.47.254 million was awarded to M/S Ansaries Engineers on August 16, 2018 for construction of tower foundation, piling, erection, stringing and testing of T/L feed for Bhirya Road Grid station (Lot-II). In this regard tender was floated for said work on July 19, 2018 in which

four (4) bidders participated. After technical & financial evaluation M/S Ansaries Engineering was declared the lowest responsive bidder with bid price of Rs.47.254 million by the Tender evaluation committee. However, from the forthcoming record, it was noticed that the contractor's quoted bid price seemed to be tempered/forged/overwritten which was tantamount to extending undue favour to the contractor.

Non-adherence to the authority's instructions resulted in irregular award of contract amounting to Rs.47.254 million during the financial period 2021-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The management replied that tender opened in the presence of tender opening committee and work was awarded to lowest responsive bidder. Regarding question of tempering/overwriting it was informed that after opening of bids the transparent tape was pasted on the quoted rates of all bidders to avoid the tempering of actual bid which was spread due to passage of time. It was clearly checked that the area where transparent tape pasted looked as if ink was spread there and it was different from the area where tape not pasted.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to get the stance verified from Audit within 15 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.343/2023-24)

1.6.54 Irregular award of contract to non-responsive bidder – Rs.42.43 million

According to Clause 20.1 of Section-1 (Instructions to Bidder) of Bidding Documents for Tender No. 10A-2007 for Civil Works, Erection, Testing & Commissioning of Extension Work at 500 kV Sheikhpura (Lahore) and 500 kV Gatti (Faisalabad) Substation, "Bids shall remain valid for the period specified in the Bidding Documents after the bid submission deadline prescribed by the employer. A bid valid for a shorter period shall be rejected by the employer as Non-responsive."

During audit of NTDC, award of Contract under Tender ADB-10A-2007 could not be made to M/s Potential Engineers (Pvt) as the ADB had refused to recommend the same due to deficient bid validity period i.e. 26 days. On refusal from ADB, NTDC decided to execute the said works from own resources and the contract for execution of Civil Works, Erection, Testing & Commissioning of Extension Work at 500 kV Sheikhpura (Lahore) and 500 kV Gatti (Faisalabad) Substation was awarded on March 17, 2008 to M/s Potential Engineer (Pvt) Ltd at total contract price of Rs.42.43 million. Since the M/s Potential Engineers Pvt was non-responsive in the light of Clause 20.1 of Section-1 (Instructions to Bidder) of Bidding Documents due to shorter bid validity period, the award of contract to the said bidder could not be termed as regular.

Non-adherence to the provisions of bidding documents resulted in irregular award of contract valuing Rs.42.43 million to a non-responsive bidder up to the Financial Year 2019-20.

The matter was taken up with the management on September 25, 2020 and reported to the Ministry on December 29, 2020. The management replied that the deficiency in the validity of bid was ignored under the provision of Clause 19.4 Section-I of the bidding document, specially in the context when there was no other bid having required work experience and contract was awarded on the recommendations of Chief Engineer Design

NTDC. Audit contended that the contract was awarded to a non-responsive bidder by violating the provisions of the bidding documents.

The DAC in its meetings held on April 12, 2021 did not agree with the reply and directed the management to provide detailed / revised reply. The DAC in its meeting held on December 18 & 19, 2023 upheld the earlier decision. No reply was furnished till finalization of the report.

Audit recommends that the management needs to inquire the matter regarding award of contract to a non-responsive bidder in violation of provisions of bidding documents besides implementing DAC's decision.

(Draft Para No.1196/2023-24)

1.6.55 Irregular award of contract - Rs.39.99 million

According to Rule-34 (2) of PPRA, "the procuring agency before invitation for re-bidding shall assess the reasons for rejection and may revise specifications, evaluation criteria or any other condition for bidders as it may deem necessary".

During audit of GENCO-II, a Purchase Order No. 2341 dated July 22, 2023 for supply of air inlet filters valuing Rs.39.99 million was awarded to M/s Qaim Automotive Manufacturing (Pvt) Ltd. Before award of said purchase order, two (2) tenders for procurement of the same material were scrapped due to non-conformance of tendered technical specifications by the bidders. Further, in both scrapped tenders, M/s Qaim Automotive was declared as non-responsive. However, at the time of evaluation of 3rd tender, the bid of the said bidder was accepted on the basis of same technical specifications which were already turned down.

Non-adherence to PPRA Rules resulted in irregular award of contract Rs.39.99 million during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that in both the tenders, the material offered by M/s Qaim Filters Karachi was different in grade/make against the material mentioned in the bidding documents; hence, the firm was declared technically non-responsive. In third Tender T-1328, the said bidder again participated and offered equivalent material. The said firm was declared technically responsive and P.O was issued.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to inquire the matter and submit its report within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.741/2023/24)

1.6.56 Loss due to imprudent contract management for non-award of contract to lowest evaluated bidder - Rs.39.51 million

As per para 2(H) of PPRA Rules 2004 "most advantageous bid" means;- i) A bid or proposal for goods, works or services that after meeting the eligibility or qualification criteria, is found substantially responsive to the terms and conditions as set out in the bidding or request for proposals document; and ii) Evaluated as the highest ranked bid or proposal on the basis of cost or quality or qualification or any combination thereof, as specified in

the bidding documents or request for proposal documents which shall be in conformity with the selection techniques to be issued by the Authority”

During audit of CEO TESCO Peshawar, a tender for rehabilitation of 132 kV Grid Station Razmak with an estimated cost of Rs.66.96 million was opened on January 24, 2023. M/s Mian Ghazi Enterprises was declared the lowest evaluated bidder (both in commercial and technical aspects) with a bid price of Rs.59.594 million which was 11% below the estimated cost. The evaluation committee recommended the award of contract to M/s Mian Ghazi Enterprises. However, the contract was not awarded to the lowest evaluated bidder (M/s Mian Ghazi Enterprises) and the tender was cancelled. Subsequently, the tender for same work i.e rehabilitation of 132 kV Grid Station Razmak was called for with estimated cost of Rs.66.96 million and opened on March 09, 2023. M/s Mian Ghazi Enterprises was again declared the lowest evaluated bidder with quoted bid of Rs.100.37 million which was 49.90% above the estimated cost. M/s Mian Ghazi Enterprises voluntarily reduced the amount to Rs.99.099 million (48 % above the estimated cost) and the contract was awarded to the bidder. The imprudent contract and financial management resulted in award of contract at higher rates to the extent of Rs.39.51 million which was loss to the company.

Non-adherence to PPRA rules resulted in loss of Rs.39.506 million due to non-award of contract to the lowest evaluated bidder during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that at first bidding documents/estimate were sent to 3rd party consultant for final evaluation. In response it was submitted that the rates were not justified and quality of work would be compromised, therefore, the work was retendered.

The DAC in its meeting held on December 14 & 15, 2023 observed that the contractor was initially evaluated on technical and financial basis and was declared successful. The evaluation of consultant on speculative basis could not be termed appropriate. DAC also directed the management to inquire the matter at PPMC level and submit its recommendations to audit. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.834/2023-24)

1.6.57 Unsatisfactory performance of M/s EMCO Industries Ltd due to purchase of material - Rs.34.58 million

According to PPRA Rule Section (4) Principles of Procurements. Procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process was efficient and economical.

During audit of PMU FESCO, the Disc insulators 100-KN (fog type) and 80-KN (Normal type) were procured from M/s EMCO Industries Ltd.against contract agreement No. 123 dated January 10, 2018 and contract agreement no. 165 dated June 25, 2019 and utilized on different works of FESCO. From the date of receipt of material in question to FESCO warehouse till May 27, 2022, nothing was stated from FESCO management about performance of the said material and performance guarantee was released to the supplier. The supplier requested vide its letter dated May 27, 2022 regarding performance certificate of its material, inresponse to which FESCO issued performance certificate vide letter No. 4822 dated July 19, 2022 and declared the performance of said material unsatisfactory. Due to expiry of warranty period, the said material could not be replaced form the

contractor. Despite unsatisfactory performance of material, the FESCO awarded contract dated April 15, 2022 for the same material from same supplier i.e., M/s EMCO Industries Ltd. at Rs.2.98 per unit with total contract price was Rs.34.58 million.

Non-adherence to instructions resulted in unsatisfactory performance of M/s EMCO Industries Ltd due to purchase of material Rs.34.58 million during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that Disc Insulators had been issued against different works and no complaint regarding unsatisfactory performance had so far been received.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to inquire the matter at G.M Technical level within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.417/2023-24)

1.6.58 Loss due to non-invoking of Variation Clause of Purchase Orders – Rs.33.00 million

According to clause-B-(ii) of Special Conditions for Purchase Order, "FESCO reserves the right to increase/ decrease the quantities up to 15% through variation order/ repeat order after issuance of purchase order during the currency of the contract (currency of the contract means delivery of last consignment in concerned store).

During audit of CEO FESCO, variation clause for increase of quantities up to 15% was not invoked in three (03) purchase orders for procurement of 25 kVA transformer, 200 kVA transformer and Bi-Directional 3-Phase Static Meter and additional required quantities of the said material were procured through new purchase orders at higher rates. Resultantly the company suffered loss to the tune of Rs.33.00 million due to subsequent procurement of material at higher cost.

Non-adherence to the provisions of the Purchase Orders resulted in loss of Rs.33.00 million during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that variation orders were not issued in existing purchase orders due to unsatisfactory performance of suppliers and fresh purchase orders were placed to different lowest evaluated responsive bidders.

The DAC in its meeting held on December 20 & 21, 2023 did not agree with reply of the management and directed to furnish detailed revised reply within a week. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No. 936/2023-24)

1.6.59 Unnecessary purchase of vehicles - Rs.28.82 million

According to the Section (5) of Corporate Governance Rules "The Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure

compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders.”

During audit of CEO IESCO, it was observed that six single cabin vehicles amounting to Rs.28.82 million were purchased for operations formation for maintenance purposes and were required to be allocated to the field line staff. But these vehicles were allocated to the executives instead of the line staff. Therefore, expenditure on these vehicles was un-necessary and unjustified.

Non-adherence to authority’s instructions resulted in unnecessary purchase of vehicles valuing Rs.28.82 million during the Financial Year 2022-23.

The matter was taken up with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that single cabin pickups had been allocated in IESCO Head office for important projects namely AMI (01 No) & MIRAD (03) and 01 each for Planning Directorate and PR Directorate.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to get the record verified from audit along with justification of allocation to departments. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.945/2023-24)

1.6.60 Purchase of faulty material from M/s Power Electronics (Pvt.) Ltd. - Rs.28.68 million

As per Clause-9 of Contract Agreement, “the contractor will be held responsible for all losses incurred during warranty guarantee period.

During audit of GSC FESCO, various discrepancies were observed while installation of Control Panels and Relay Panels at three Grid Station namely 132 kV Grid Station Old Thermal Power, Jhakkar, Allied and Steam Power. These discrepancies occurred due to faulty / substandard Control Panels & Relay Panels which could cause damage to Grid Stations, valuable equipment and failure of supply. The said material was purchased by FESCO management vide two (02) contract agreements i.e. 247 dated November 11, 2021 and 264 dated December 16, 2021 worth Rs.28.68 million from M/s Power Electronics Pakistan Private Limited, and discrepancies were not got removed from the manufactures as per warranty clause of Purchase Order.

Non-adherence to the Contract clause resulted in loss of Rs.28.68 million due to purchase of faulty material during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in November, 2023. The management replied that discrepancies had been rectified by the supplier before commissioning of projects.

The DAC in its meeting held on December 20 & 21, 2023 DAC did not agree with the reply of management and directed to inquire the matter at Technical Director level within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.519/2023-24)

1.6.61 Unjustified payment to the contractor for supply and placing of river run gravel against the specification of BoQ in switchyard area – Rs.25.71 million

According to Sr. No. 2(j) of Schedule 1 of BoQ of Contract No. ADB-72R-2016 (Package-I, Lot-II) for Civil Works, Erection, Testing and Commission at 220 kV Grid Stations at D.I Khan, “the contractor was required to supply and place river run gravel 40 to 50 mm sized (in 200mm thick layer) including toe wall (if required) in switchyard area as specified and as directed by the Engineer.”

During audit of NTDC, a Contract No.ADB-72R-2016 (Package-I, Lot-II) for Civil Works, Erection, Testing and Commission at 220 kV Grid Stations at D.I Khan was awarded to M/s PEL. However, the said contractor supplied and placed river run gravel of 20mm to 75mm size instead of 40 to 50 mm size at switchyard area. The supply and placing of river run gravel other than the specified and quoted size as stated in BoQ was against the provision of contract. Hence an amount of Rs.25.71 million paid in this regard was unjustified.

Non-adherence to the specifications of BoQ for supply and placing of river run gravel resulted in unjustified payment of Rs.25.71 million to the contractor at D.I Khan Substation up to the Financial Year 2019-20.

The matter was taken up with the management on September 25, 2020 and reported to the Ministry on December 29, 2020. The management replied that the contractor had completed gravel work in the light of contract by providing gravel size of 20 to 75 mm. Audit contended that according to Sr. No. 2(j) of Schedule 1 of BoQ of contract, the contractor was required to supply and place river run gravel 40 to 50 mm sized instead of 20 mm to 75 mm.

The DAC in its meeting held on April 12, 2021 did not agree with the reply and directed the management to provide detailed / revised reply. The DAC in its meeting held on December 18 & 19, 2023 upheld the earlier decision. No reply was furnished till finalization of the report.

Audit recommends that the management needs to inquire the matter besides expediting provision of river run gravel as per the size quoted in the BoQ.

(Draft Para No.1086/2023-24)

1.6.62 Irregular payment of earth filling & carriage due to deficient / unauthentic recording in Measurement Book (MB) - Rs.23.17 million

According to Conditions of Contract Clause-53 Volume-I, Instructions to Tenderers, “the engineer shall determine by a measurement the value in accordance with the contract of work done in accordance with the contract. For the purpose of measuring such permanent work as is to be measured by records and drawings the engineer’s representative shall prepare records and drawing month by month of such work and the contractor shall attend to examine and agree such records and drawings with the engineer’s representative. As per Clause-17, “the contractor shall be responsible for the true and proper setting-out of the works in relation to original points lines and levels of reference given by the engineer in writing and for the correctness of the position levels dimensions and alignment of all parts of the works. The contractor shall carefully protect and preserve all bench-marks, sight-rails pegs and other things used in setting out the works”.

During audit of GSC GEPCO, the entire civil work of 132 kV consumer Grid Station Tannery Zone, Sialkot was got completed on March 28, 2023 through M/s R&S Enterprises (JV) M. Abubakar Trader under Tender No.07/2021-22. A new contract under Tender No.12/2022-23 amounting to Rs.29.16 million (without PST) for earth filling with carriage at the said grid station was awarded to the same contractor on November 21, 2022 with date of commencement as on April 26, 2023. The scrutiny of payment of 2nd & 3rd running bill amounting to Rs.23.17 million revealed the following irregularities: -

- Both the 2nd & 3rd running bills were prepared / recorded by Sub- Engineer (BS-14) and counter checked by SDO (17) by the same person, which was against the internal checks / controls.
- At page-74 of MB No.61 (3rd running bill), the measurements for filling, watering and reaming of earth under floors with carriage were recorded but it was not mentioned in “Particulars Column” where the filling of earth was done, yet bill was pre-audited and passed for payment of Rs.5.94 million.
- Similarly, in 2nd running bill, the major measurement of 14,123.95 CUM was recorded against the “Right Side” which was totally incomprehensible as to whose & which “Right Side was filled in with earth. However, the 2nd running bill of Rs.17.23 million was checked, pre-audited and passed for payment.

Besides the above pointed out irregularities with the payment of civil work, some important documents for ascertaining the pertinence / authenticity of the awarded work were also not forthcoming from the record. It is also noteworthy that the earth filling was commenced after completion of main civil work of entire grid station instead of doing during construction. Hence, the aforementioned glaring irregularities, spoke volume against the authenticity / genuineness of the execution of earth filling work, its measurement and payment.

Poor project management resulted in irregular payment of Rs.23.17 million on account of earth filling & carriage due to deficient / unauthentic recording in measurement book during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that due to non-availability of SDO (Civil), PD (GSC) had assigned the duties of SDO (Civil) to the Sub Engineer (Civil). The measurement of earth filling was shown in particular column of MB No.61 and the Qty mentioned in Page-71 of MB No.61 of measurement 14123.95 CUM in right side of MB was correct. The Grid Layout (GLO) of Grid Station was prepared and handed over to concerned contractor & earth filling estimate was prepared according to site requirement.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to inquire the matter at PPMCL level by G.M Technical and submit its report within a month. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.215/2023-24)

1.6.63 Loss due to non-inclusion of standard clause of variation of quantity in Purchase orders in violation of National Standard Procurement Documents – Rs.20.98 million

According to directions issued by PPRA vide SRO 370 (I)/2022 dated March 02, 2022, “the procuring agencies shall use National Standard Procurement Documents for national/ international competitive bidding.

According to Clause- 40.1 of Section-II (Instruction to Bidders ITBs) of Standard Bidding Documents for Procurement of General Goods, “The Procuring Agency reserves the right at the time of contract award to increase or decrease the quantity of goods or related services originally specified in these Bidding Documents (schedule of requirements) provided this does not exceed by percentage indicated in the BDs, without any change in unit price or other terms and conditions of the Bid and Bidding Documents.

According to Clause- 40.1 of Section-III (Bid Data Sheet) of Standard Bidding Documents for Procurement of General Goods, “Percentage for quantity increase or decrease is required to be mentioned at the time of Award of Contract”.

During audit of CEO FESCO, eight (08) tenders for procurement of electrical material comprising SID Cable 2/C 10mm, 11 kV Disc Insulator, ACSR Rabbit Conductor and ACSR Osprey Conductor were floated by excluding standard clause of variation of quantity in the bidding documents/POs. This restrained the company from procurement of recurring electrical material at economical prices through Variation Orders. Resultantly the said material was procured at higher cost of Rs.20.98 million through subsequent award of new purchase orders.

Violation of direction of PPRA and provisions of national standard procurement documents resulted in loss of Rs.20.98 million due to non-inclusion of standard clause of variation of quantity in bidding documents/ PO’s during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that 15 % variation of increase/ decrease in quantity before placing of LOI/ PO was incorporated in the bidding documents. Audit contended that variation in quantity before issuance of LOI/ PO was useless and in the light of National Standard Procurement Documents of PEC, 15% variation in quantity during the currency of purchase order was required to be incorporated.

The DAC in its meeting held on December 20 & 21, 2023 DAC did not agree with the reply of management and directed to inquire the matter jointly at CEO and CFO level. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.930/2023-24)

1.6.64 Un-justified award of civil works in excess of BoQ - Rs.20.22 million

According to Central Public Works Code Para 65 “When the expenditure upon a work exceeds, or is found likely to exceed, the amount administratively approved for it by more than 10 percent, or the limit prescribed in paragraphs 60 and 61, whichever is less, a revised administrative approval must be obtained from the authority competent to approve the cost, as so enhanced”

During audit of GSO Circle QESCO, eighteen (18) civil works were completed in excess of approved BoQ value amounting to Rs.20.22 million. The BoQ value remained 60% above on average as compared to the value on which contracts were awarded. Neither justification was recorded nor comparison with other DISCOs or rate

comparison from market was conducted and merely revision of rates in noting sheet was put up for approval from CEO QESCO.

Non-adherence to CPW code para 65 resulted in un-justified award of contract in excess of BoQ amounting to Rs.20.22 million during the Financial Years 2018-19 to 2021-22.

The matter was taken up with the management in March, 2023 and reported to the Ministry in June, 2023. The management replied that estimates were framed by the Assistant Engineer (Civil) on the basis of schedule of rates 2013. After lapse of so many years the rates were increased appreciably due to hike in the prices The contractors’ quoted rates in accordance with market prevailing rates and also by adding their own premium. The Administrative approvals were accorded as per estimate; however, the final approval by the competent authority covered all aspects of case approvals.

The DAC in its meetings held on September 09, 2023 directed the management to initiate inquiry and share it with audit within 30 days. No further progress was reported till finalization of the report.

Audit recommends that the management needs to implement DAC’s decision.

(Draft Para No. 02/2023-24)

1.6.65 Loss due to award of new work order for earth filling & its carriage instead of issuing variation order / considering in revised work order- Rs.15.34 million

According to Clause-48 (1) Volume-I, Instructions to Tenderers, “the engineer shall make any variation of the form quality or quantity of the work or any part thereof that may in his opinion be necessary and for that purpose or if for any other reason it shall in his opinion be desirable shall have power to order the contractor to do and the contractor shall do any of the following:- (a) increase or decrease the quantity of any work included in the contract, (b) omit any such work, (c) change the character of quality or kind of such work, (d) change the levels lines position and dimensions of any part of the works and no such variation shall in any way vitiate or invalidate the contract but the value (if any) shall be taken into account in ascertaining the amount of the contract.”

During audit of GSC GEPCO, a contract under Tender No.07/2021-22 amounting to Rs.64.37 million (without PST) for construction of boundary wall, control house building, transformer / line / PT bays, metering room, transformer ways and roads at 132 kV consumer Grid Station Tannery Zone, Sialkot was awarded to M/s R&S Enterprises (JV) M. Abubakar Trader F/abad on December 16, 2021. In BoQ for civil works, the following two (02) items were included: -

BoQ item No with description	Qty	Rate
H-14 Filling, watering and ramming earth	435 CUM	Rs.173.51
H-15 Carriage of earth leads-5 km	435 CUM	Rs.191.16

The work was completed on March 28, 2023; however, the estimate of the work was revised due to increased / decreased quantities as per site requirement. Accordingly, a revised contract / work order amounting to Rs.75.86 million (with increase in scope of work) in continuation to the said original contract was issued on July 31, 2023. However, both the said BoQ items were excluded from the said contract and a new contract with increased quantity and rates was awarded separately with total amount of Rs.29.16 million (without PST) to the same contractor on November 21, 2022. The detail is as under: -

BoQ item No with description	Qty	Rate
H-14 Filling, watering and ramming earth	37890.08 CUM	Rs.404.704133
H-15 Carriage of earth leads-5 km	37890.08 CUM	Rs.364.951459

When the original work order was revised due to variation of decrease & increase in quantities of BoQ items then both the said BoQ items, with already awarded rates, should have been included / considered therein. Deletion of the same from the scope of original as well as revised work order and procured through another contract with increased quantity and rates from the same Contractor caused loss of Rs.15.34 million to GEPCO.

Contract mismanagement resulted in loss of Rs.15.34 million due to award of new work order for earth filling & its carriage instead of issuing variation order / considering in revised work order during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that the earth filling work was not included in the already awarded work. The work was awarded to MS R&S enterprises according to PPRRA Rules and also approved by the BoD GEPCO. The cost of work was borne by depositor and all the expenditure was the responsibility of sponsors.

The DAC in its meeting held on December 18 & 19, 2023 directed to inquire the matter at PPMCL level by G.M Technical and submit its report within a month. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.216/2023-24)

1.6.66 Loss due to issuance of tender to 2nd lowest bidder - Rs.15.08 million

As per Rule 38 of Public Procurement Rules 2004, "The bidder with the lowest evaluated bid, if not in conflict with any other law, rules, regulations or policy of the Federal Government shall be awarded the procurement contract, within the original or extended period of bid validity".

During audit of PMU FESCO, a tender for the purchase of 132 kV D/C Tower type ZM-1 along with all allied accessories under Lot-1 was awarded to M/s Siddique Sons, the 2nd lowest bidder with quoted price of Rs.1.78 million per unit instead of Associated Technologies who quoted lowest price of Rs.1.74 million per unit. As a result, the management sustained a loss of Rs.15.08 million due to purchase at higher rate by rejecting M/s Associated Technologies for minor reason i.e. price schedule not properly signed.

Non-adherence to PPRA Rules resulted in loss of Rs.15.08 million due to issuance of tender to 2nd lowest bidder during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that contract was awarded to the 2nd lowest bidder due non-responsiveness of the 1st lowest bidder and grievance of the said bidder was rejected by the Grievance Redressal Committee.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to inquire the matter within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.416/2023-24)

1.6.67 Loss due to award of contract at exorbitant rates ignoring the 2nd lowest evaluated bidder - Rs.12.41 million

As per Rule-4 of PPRA Rules 2004, Principles of Procurement; - "Procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical".

During audit of CEO TESCO, two (02) tenders for construction of protection wall between power transformers and allied Civil Works at 132 kV Grid Station Bara and for rehabilitation of residential quarters, internal roads and boundary wall at 132 kV Grid Station Bara District Khyber with estimated cost of Rs.10.990 million and Rs.7.298 million respectively were opened on February 09, 2022. M/s Nadeem Construction Company was evaluated the lowest bidder for a cost of Rs.11.539 million and Rs.6.569 million which was 5% above and 10% below respectively and the work order was awarded to M/s Nadeem construction company. However, the contractor did not take up the work and the Cash Deposit Receipt (CDR) was forfeited. The 2nd lowest bidder (M/s ASG Brothers Construction and M/s Shinwari) accepted the offer to execute the work at quoted price of Rs.13.73 million and Rs.8.759 million (25% & 20% above the BoQ) respectively. However, the contract was not awarded to the 2nd lowest bidder despite the increasing trend of material rates and without rate analysis and the work was retendered. Subsequent to retendering the contractor M/s Fida Muhammad & Sons and M/s Shinwari Construction Company was declared the lowest evaluated bidder with a quoted price of Rs.21.41 million and Rs.13.49 million which was 94.85% and 84.83% above respectively and the work was awarded. Non-award of contract to the erstwhile 2nd lowest bidder resulted in extra cost of Rs.12.41 million which was loss to the company.

Non-adherence to PPRA rules resulted in imprudent and injudicious award of contract at exorbitant rate causing loss of Rs.12.41 million to the company during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that on refusal of 1st lowest bidder, the works were retendered.

The DAC in its meeting held on December 14 & 15, 2023 observed that due diligence was not performed by the management keeping in view the raising price trend and the request of 2nd lowest bidders were ignored and subsequently the contracts were awarded at much higher rates. DAC directed the management to inquire the matter at PPMC level and get the report finalized within a month. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

1.6.68 Irregular payment to consultants due to violation of PPRA Rules - Rs.11.44 million

As per Establishment Division O.M. 4/2/90-RI dated December 05, 1990, no reemployment beyond the age of superannuation shall be allowed except in very exceptional cases for which approval of Prime Minister would need to be detained. i) The Ministries / Division are advised not to initiate cases of re-employment of Civil Servant beyond the age of superannuation unless that is considered unavoidable due to non-availability of his replacement and the importance and sensitivity of the job. ii) Engagement of retired officers as Consultants / Advisor etc. shall require prior permission of the Government in variably i.e. Establishment Division in case of retired Civilian Officer. iii) As per PPRA Rules 20 the procuring agencies shall use open competition bidding as the principal method of procurement for good services and works.

During audit of Technical Services NTDC Lahore, two (02) officers were appointed / reappointed as advisors/consultants in TSG NTDC Lahore after superannuation on contract basis without prior approval / permission of Establishment Division, Government of Pakistan.

This was against the instructions of Establishment Division, Government of Pakistan and PPRA Act. 2004, which resulted in undue nepotism / favoritism to the retired officers on the cost of Authority. As such an amount of Rs.11.44 million on account of consultancy charges had been paid to the retired officers/consultants, which was quite unjustified.

Non-adherence to Government Instruction and violation of PPRA Rules resulted in irregular hiring of consultants and unjustified payment of Rs.11.44 million for consultancy charges during the Financial Years 2017-18 and 2021-22.

The matter was taken up with the management in March, 2023 and reported to the Ministry in June, 2023. The management replied that the application of PPRA Rules as observed by audit was not relevant as PPRA Rule No. 05 clearly stipulated that "whenever these rules are in conflict with an obligation or commitment of the Federal Government arising out of and international treaty or an agreement with a State or States, or any international financial institution the provisions of such international treaty or agreement shall prevail to the extent of such conflict." Approval of Managing Director NTDC was obtained for hiring of consultants on contract basis as per the nature of job, the instant case did not fall under the category of re-employment.

The DAC in its meetings held on August 26, 2023 directed the management to provide guidelines / documents of donor and get it verified from audit within 15 days. No further progress was reported till finalization of the report.

Audit recommends that the management needs to implement DAC's decision.

1.6.69 Irregular payment to contractor - Rs.11.01 million

According to instruction of Manager Material Management HESCO Hyderabad issued vide letter No. HESCO/MMM/P&P/192/18271-78 dated April 04, 2023 to the Chief Financial Officer and Project Manager regarding withheld/Stoppage of Payment of M/s Syed's Group Hyderabad.

During audit of GSC HESCO, M/s Syed Group Hyderabad failed to supply the required cell phones within stipulated time period against purchase order No. 02-0037 dated September 08, 2022. Moreover, the said contractor also breached the contractual obligation by cancelling the performance guarantee. Subsequently, instructions were issued on April 04, 2023 vide letter No. No. HESCO/MMM/P&P/ 192/18271-78 regarding withheld/stoppage the payment to said contractor. However, payment of Rs.11.01 million was paid to the contractor against his 1st running bill on May 31, 2023 on account of another work for construction of electrical equipment foundation, cable trenches and allied work at 132 kV Grid Station at Kunri.

Non-adherence to authority instructions/directions resulted in irregular payment to contractor of Rs.11.01 million during Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in November, 2023. The management replied that the payment was made to contractor on account of work done by the contractor in accordance with terms and condition of work order /contract agreement after concurrence of Manager Material Management who had no objection to process the payment of contractor.

The DAC in its meeting held on December 22 & 23, 2023 directed to inquire the matter at CEO level and submit report to Audit within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.684/2023-24)

1.6.70 Loss due to mis-management in the tendering process - Rs.9.99 million

As per Clause 11.3 of Section-II (Instructions to Bidders) regarding documents establishing bidder's eligibility and qualifications, the documentary evidence to establish that the bidder / manufacturer has manufacturing / operational experience of material specified in this tender or of higher ratings as per Qualification & Experience Criteria mentioned in the Section-I (iv) anywhere in the field.

During audit of PMU MEPCO, a same tender for the procurement of 70 No. 11 kV Outgoing Panels 25KA, 630A under MEPCO's own resources was floated twice and opened on June 13, 2019 and August 29, 2019. In both cases, M/s. Pak Electron Limited (PEL) Lahore stand lowest offering the rate of Rs.1,168,000/- & Rs.1,400,000/- per Outgoing Panel respectively. As per bid evaluation report, award of purchase order was not made to M/s PEL by declaring it non-responsive due to un-satisfactory field performance and tenders were scrapped by the competent authority and called for re-tendering. Third time the same tender was floated and opened on September 20, 2019 and again M/s Pak Electron Limited (PEL) was 1st lowest bidder with offer rate of Rs.1,290,000/-. After evaluation, the Purchase Order amounting to Rs.105.651 million dated November 07, 2019 was issued to M/s. PEL, the same manufacture which was rejected twice due to un-satisfactory performance, at higher rates. Hence, MEPCO sustained a loss of Rs.9.99 million (Rs.1,290,000 – Rs.1,168,000 x 70 + Rs.1.45 million GST) due to mis-management in the tendering process and purchase of Outgoing Panels at exorbitant rate.

Non-adherence to the rules resulted in loss of Rs.9.99 million due to award of purchase order at higher rates ignoring the 1st lowest bidder in the first tender during the Financial Year 2019-20.

The matter was taken up with the management in July, 2020 and reported to the Ministry in November, 2020. The management replied that there were initially some issues in the 11 kV Panels supplied by M/s PEL in

MEPCO which were rectified by the firm and performance was satisfactory as per S.E. (GSO) Multan. However, no issues were highlighted by LESCO during evaluation.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to inquire the matter and submit its report to audit within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.324/2020-21)

1.6.71 Wastage of ERRA funds allocated for reconstruction of 60 KM, 33 kV Line Balakot to Naran – Rs.9.688 million

According to Para-III (1) of guidelines for enforcing the responsibility for losses sustained by the authority through fraud or negligence of individuals, 1982, "All losses, whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved".

During audit of Operation Circle Hazara-II PESCO, a 33 kV transmission line supplying electricity to Kaghan & Naran was damaged due to earthquake in 2005. A contract was awarded to M/s S.A Construction Peshawar on July 24, 2008 with estimated cost of Rs.8.228 million for reconstruction work on deposit basis through ERRA funds. The work was required to be completed within 365 calendar days which was extended up to May 21, 2010 on the plea that PESCO had not procured the accessories under ADB Loan. The contractor erected 880 HT structures without stringing of conductor and other installation. PESCO paid an amount of Rs.7.515 million to the contractor M/s S.A Construction (PVT) Peshawar for the erection of structures; however, further execution of work under the ERRA fund was stopped on the directions of Chief Engineer/Technical Director PESCO on September 28, 2021. Meanwhile Manager (MM) PESCO procured 189 KM ACSR Dog Conductor, but the material was not issued for completion of work and work remained incomplete. After ten years an inquiry committee was constituted on May 06, 2020 to probe the factual position regarding reconstruction of 60 Km 33 kV line. The committee visited the site of work and found that there were only 636 HT structures installed instead of 880 structures. Later on, a work order amounting to Rs.12.212 million was prepared by P&E in 2021 and work was completed in 2022 by bifurcating 11 kV Balakot feeder. The inquiry committee also proposed that the matter of stopping of work should further be investigated. It was pertinent to mention that the person who started and stopped the work was the same person holding charge of the posts of PD ERRA & Manager (Operation) Hazara Circle Abbottabad. The above scenario depicted that whole work was mismanaged and caused wastage of public resources.

Non-adherence to rules resulted in wastage of ERRA funds allocated for reconstruction of 60 Km, 33 kV Line Balakot to Naran – Rs.9.688 million up to the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in November, 2023. The management replied that the matter had been referred to the CEO PESCO Peshawar for conducting inquiry into the matter vide SE (ops) PESCO Hazara-II circle letter No. 12399 dated December 18, 2023. As and when the inquiry was completed, audit would be informed accordingly.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to submit revised detailed reply along with documentary evidence to audit within 15 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision and provision of inquiry report.

(Draft Para No.501/2023-24)

1.6.72 Non-clearance of punch list items and non-renewal of performance guarantee – Rs.9.310 million

According to Contract Agreement, “there is a Defect Liability Period (DLP) of 365 days during which the Contractor remains responsible for rectification of all the outstanding defects / punch list item”.

During audit of Project Directorate EHV-I NTDC, a work order was awarded to contractor to M/s Al-Hussain Traders Contractors on February 15, 2022. A MoU was signed on January 13, 2022 regarding clearance of DC grounding and DC mixing fault in 220V DC distribution with the contractor but neither the faults were cleared nor the punch list items were attended up till now. Furthermore, the performance guarantee submitted by the contractor was also expired on April 28, 2023.

Non-adherence to the contract agreement resulted in non-clearance of punch list items and non-renewal of performance guarantee up to Financial Year 2022-23.

The matter was reported to the management in June, 2023 and reported to the Ministry in November, 2023. The management replied that the observation is duplicate of PDP-495/2023-24, further the issues of DC grounding as per signed MOU on January 13, 2022 has been rectified. Final Retention Money of the contractor is available with this office, hence, no need to renew the performance guarantee.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to get the record verified from audit in support of reply within 15 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.492 /2023-24)

1.6.73 Irregular award of contract to the 2nd lowest bidder - Rs.8.83 million

As per Rule-2(f), Definitions, of Public Procurement Rules-2004, “corrupt and fraudulent practices” the action of a public official or the supplier or contractor in the procurement process or in contract execution to the detriment of the procuring agencies; or misrepresentation of facts in order to influence a procurement process or the execution of a contract, collusive practices among bidders (prior to or after bid submission) designed to establish bid prices at artificial, non-competitive levels and to deprive the procuring agencies of the benefits of free and open competition and any request for, or solicitation of anything of value by any public official in the course of the exercise of his duty.

During audit of GSC HESCO, a work order for construction of electrical equipment foundation cable trenches & extension of 11 kV Switch Room for 01 No. Transformer Bay and other allied work at 132 kV Grid Station Kohsar Hyderabad was issued to the 2nd lowest bidder i.e. M/s Zaidi's Group Hyderabad. The M/s Zaidi's Group's actually quoted bid price in the tender form was Rs.9.26 million but it was changed to Rs.8.83 million by tempering the bidding documents. Hence, the award of contract to the 2nd lowest bidder was irregular.

Non-adherence to the PPRA rules-2004 resulted in irregular award of contract to the 2nd lowest bidder valuing Rs.8.83 million during the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in November, 2023. The management replied that tender was opened on March 07, 2023 in the presence of bidder's representative, the readout price of M/s Zaidi's Group by bid opening committee was Rs.8.83 million. The contract was awarded to the lowest evaluated bidder declared by bid evaluation committee i.e. M/s Zaidi's Group Hyderabad at price of Rs.8.83 million.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to inquire the matter and submit report to Audit within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.626/2023/24)

1.6.74 Irregular award of work order for construction of transformer bay due to deficient bid evaluation – Rs.8.57 million

According to Para-2 (ii) & (iv) of advertisement for Tender No.09/2022-23, "Contractor who has completed same nature of work for the amount of Rs.3.00 million during the last five (05) years – Contractor to provide the performance certificate working with GSC GEPCO from concerned XEN's GSC GEPCO along with bid. As per Para-05 (ii) of the advertisement, "in addition to experience mentioned at Sr No.02, the bidder has to submit documents (same nature of work order) / company profile / bank statement showing 25% balance amount of work (for Tender-09) which prove that bidder has been involved in the Grid Station work for the last five (05) years and has sound financial position".

During audit of GSC GEPCO, a Tender No.09/2022-23 for construction of one (01) transformer bay along with allied works & extension of yard at 132 kV G/Station at Cantt Sialkot was opened on August 23, 2022. Scrutiny of Bid Evaluation Report and bid forms / documents submitted by the contractor revealed some of the following grave discrepancies / shortcomings & irregularities: -

- It was mentioned at Para-5.1 (iii) of Bid Evaluation Report (BER) that the firm had provided the copy of same nature of work order No.7158-61 for Rs.4.766 million issued by P.D GSC LESCO whereas no such work order was available in bidding documents submitted by the bidder. The work orders attached with the bids had not fulfilled the condition of completion of same nature of work of 03 million and within last 05 years, hence, violation of Para-2 (ii) of tender requirements was committed.
- In Para-5.1 (vii) of BER, it was observed that the firm had provided the company profile which did not demonstrate sound financial as well as technical knowledge and expertise; hence, bidding requirement at Para-05 (ii) could not be fulfilled.
- No performance certificate working with GSC GEPCO from concerned XEN's GSC GEPCO was found available with bid; hence, Para-2 (IV) of bidding requirement could not be adhered to.

Despite having such a grave departure to bidding requirements, the bidder was declared technically responsive in BER and work order amounting to Rs.8.57 million was awarded to M/s A. Rehman Construction Company Kasur on September 14, 2022.

Deficient bid evaluation resulted in irregular award of work order amounting to Rs.11.36 million to a contractor having no sound financial, technical knowledge and expertise during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that the work order No. 7158-61 was available in contractor's profile. The word "not" was wrongly mentioned due to typing mistake and the convener of BER had signed the BER without the word "not". The firm first time participated in tender, therefore, there was no need of performance certificate from GSC GEPCO.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to submit revised reply to audit within a week and if the reply was not found justified by Audit, then hold an inquiry. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.293/2023-24)

1.6.75 Loss due to substandard civil work of pile foundation of tower and extra expenditure incurred thereof - Rs.8.29 million

According to Para-1 of Special Stipulations of work order dated November 09, 2015, "the work will be carried out strictly in accordance with the drawing / design / specifications, terms and conditions as laid down in the tender documents". According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), "all losses whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved".

During audit of GSC GEPCO, a work order amounting to Rs.6.41 million for construction of pile foundations for tubular poles & ZM towers for 132 kV Sahowala – Gohadpur T/Line was awarded to M/s Zahid & Company on November 09, 2015, which was completed on January 15, 2016. After energizing the said T/Line in March 2022, the GSO division pointed out a major discrepancy of dangerously tilted foundation of one (01) SPG pole at location No.03. Accordingly, the GSC surveyed the site and proposed for installation of new SPG Pole with pile foundation at the same location with an estimated cost of Rs.7.09 million and civil work order was issued on March 03, 2023. Although disciplinary action against the then SDO Civil GSC & Civil Overseer was initiated on August 27, 2022 but outcome was not forthcoming from record. Moreover, no action was taken against the said contractor for substandard pile foundation civil work, which not only jeopardized the buildings & human life but also caused loss / wastage of Rs.1.20 million on account of construction cost of tilted foundation and extra expenditure of Rs.7.09 million to set right the bad workmanship.

Ineffective supervision of construction activities resulted in loss of Rs.1.20 million due to substandard civil work of pile foundation of tower and extra expenditure of Rs.7.09 million incurred thereof during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in October, 2023. The management replied that an inquiry committee was constituted on March 22, 2023 to probe the matter regarding slackness that caused the tilting of pile foundation constructed by M/s Zahid & Co.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to expedite the inquiry and submit its report to Audit within a month. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.218 /2023-24)

1.6.76 Undue favour to suppliers due to non-invoking risk & cost clause of purchase orders - Rs.7.32 million

According to Clause-9 (ii) of the Purchase Order, "if the supplier fails to deliver the stores of any consignment thereof within the specified delivery period, the purchaser shall be entitled to purchase the undelivered stores from elsewhere, without notice, at risk and cost of the supplier. According to Clause-11 (IV) of the Purchase Order, "on final rejection the Purchases shall have the right to purchase the rejected goods at the cost & expenses of supplier."

During audit of GENCO-II, two (02) purchase orders valuing Rs.14.19 million were awarded for supply of material to two different suppliers. However, the material valuing Rs.7.32 million was not delivered/rejected by inspection committee after inspection. Hence, as per the provision of purchase orders, the rejected/ undelivered material was required to be procured at the risk and cost of the supplier but the same was not done.

Non-adherence to the provisions of purchase orders resulted in undue favour to suppliers due to non-invoking risk and cost clause of contract amounting to Rs.7.32 million during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that in purchase order No.2097/T-1129, the firm had requested to release the partial payment against the goods/items accepted, hence, the amended P.O was issued. The rejected items were deleted by imposing penalty charges at the maximum 10% of total amount of un-accepted rejected items and remaining accepted items were taken on stock. As regards the P. O No.2345, the firm failed to execute the contract, therefore the remaining quantity of 85.5 M. Tons of Caustic Soda Liquid was got cancelled/deleted by forfeiting 10% performance security of Rs.793,260/-. Hence, performance security of undelivered material i.e. Rs.988,969/- (195,709 + 793,260) was forfeited.

The DAC in its meeting held on December 22 & 23, 2023 directed to inquire the matter at GHCL level and submit its report within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.859/2023/24)

1.6.77 Un-justified payment due to incomplete and sub-standard civil work - Rs.7.02 million

According to Corporate Governance Rules Section (5) "The Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders"

During audit of CEO IESCO, a civil work was awarded for construction of an officer's residence Cat-III. The contractor did not complete the work as per BoQ. In order to complete the remaining work, an estimate of Rs.7.02 million was made. However, an inquiry was conducted in this context wherein it was recommended that contractor was required to complete the remaining work in all aspects within the defect liability period.

Non-adherence to rules resulted in un-justified payment due to incomplete and sub-standard civil work Rs.7.02 million during the Financial Year 2022-23.

The matter was taken up with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that an inquiry was constituted to probe into the matter regarding incomplete construction of officer Residence cat-III at 132 K/V G/Station Gujar. Contractor was found guilty and had been banned. However, re-inquiry was constituted which was under process.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to pursue the finalization of inquiry process and submit its recommendations to audit. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1274/2023-24)

1.6.78 Irregular procurement of material – Rs.6.32 million

According to bidding documents and purchase order, it was specified that required material must be supplied from manufacturer Hunan XEMC Changsha Pumps works Co. Ltd, China and specification of material would not be deviated from original.

During audit of GENCO-II, a purchase order for procurement of spare parts circulating water pump was issued on March 18, 2021. But in goods declaration and commercial invoice, the name of manufacturer and specification required by employer was not mentioned. Furthermore, material was received without a warranty certificate. The acceptance of the material with such discrepancies was violation of the contractual clause and led to purchase of the substandard material which put the company into a loss to the stated extent.

Non-adherence to terms and condition resulted in irregular procurement of material valuing Rs.6.32 million during the Financial Year 2021-22.

The matter was taken up with the management in September, 2022 and reported to the Ministry in December, 2022. The management replied that in compliance to DAC's directives issued in its meeting held on December 30, 2022 to January 04, 2023, the CTO GHCL had submitted the report on February 26, 2023 and concluded that all the shipping documents were present in the file and during the study of the documents, a minor discrepancy had been found in supplier invoice and other documents as the manufacturer name was erroneously missing but Part Number and other information were present according to P.O specification. The G.D (Bill of Entry), Bill of Landing and Warranty certificate were present. The material was found new and seemed defect free.

The DAC in its meeting held on December 22 & 23, 2023 directed the management to get the compliance of DAC's directives issued in its meeting held on December 30, 2022 to January 04, 2023 verified from audit within a week. DAC in its said meeting directed the CTO GHCL to get the quality of material vetted as to whether it was up to the mark and specification or not and thereof submit report within 15 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.950/2022-23)

1.6.79 Irregular/Unjustified award of contract in violation of PPRA Rules - Rs.5.43 million

As per rule-42(B) of PPRA Rules 2020, “A procuring agency shall engage in this method of procurement only if, where the value of procurement is more than one hundred thousand Pakistani Rupee but does not exceed five hundred thousand Pakistani Rupee, the procuring agency may engage in procurement through request for three quotations from GST registered firms, original equipment manufacturers or authorized dealers, without resorting to bidding.

During audit of GSC TESCO, two (02) contracts for transportation, erection and installation of 20/26 MVA power transformer at 132 kV Grid Station Landi Kotal” and construction of 132 kV Grid Station Jamrud were awarded irregularly to M/S. Nimra & Company and M/S. Khyber International respectively on quotation basis instead of Tendering. Award of contract on quotation basis instead of open competitive bidding/ tendering process was violation of PPRA rules and needed to be justified.

Non-adherence to the PPRA Rules resulted in irregular/unjustified award of contract valuing Rs.5.43 million during the Financial Year 2022-23.

The matter was taken up with the management in September, 2023 and reported to the Ministry in October, 2023. The management replied that the work orders were placed under PPRA rules 2004 clause 42 (C) (direct contracting) to complete the work on emergent basis.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to get the emergency fora approved from the authority as per the provisions of PPRA Rules and to get the record verified from audit in support of reply within 15 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.186/2023-24)

1.6.80 Undue favor extended in appointment of Deputy Director (Tariff) - Rs.4.94 million

According to the Section 10 of NEPRA Service Rules (NSR) that appointment to the various posts shall strictly be made on an All-Pakistan in accordance with the merit and provincial/ regional quotas prescribed by the Federal Government for announced vacancies from time to time except for the posts of Director and above which shall be filled in through promotion. The posts in each grade shall be considered separately for the purposes of allocation of prescribed merit and provincial/ regional quotas for which qualified candidates are not available shall be carried forward except for the posts in NSG-1&2, which may otherwise be filled on local basis.

During audit of NEPRA, Islamabad, it was observed that Mr. Muhammad Safdar joined NEPRA in 2002 as Computer Operator. Later, in 2015, NEPRA advertised the post of Deputy Director-Tariff against which Mr. Muhammad Safdar was selected against Punjab quota which was clear violation of NEPRA Service Rules. Moreover, advertisement stated the eligibility as 10 years post qualification experience, wherein the requisite qualification was CA/CMA/MBA (Finance). Mr. Safdar did MBA from Virtual University in 2010, therefore, his post qualification experience fell short by 05 years. Later on, Mr. Muhammad Safdar was promoted to the post of Director w.e.f. May 18, 2022 despite the fact that he did not have required experience and was not recommended

by Human Resource Department of NEPRA but promoted as Director by Authority in violation of NEPRA Service Rules.

Non-adherence to National Electric Power Regulatory Authority Service Rules resulted in undue favor amounting to Rs.4.94 million extended in appointment of Deputy Director Tariff by violating Provincial Quota and then promoting him without required experience up to the Financial Year 2021-22.

The matter was taken up with management in March, 2023 and reported to the Cabinet Division in June, 2023. The management explained that it has been decided to place the reported matter before the Authority, immediately.

The DAC in its meeting held on January 16, 2024 pended the para with the direction to NEPRA to share the findings of NEPRA Authority about instant case. No further progress was reported till finalization of the report.

Audit recommends the implementation of DAC's decision.

(Draft Para No.63/2023-24)

1.6.81 Irregular conversion of single cabin pick-up into double cabin - Rs.4.15 million

According to Rule-5(5) of Public Sector Companies Corporate Governance Rules-2013, "the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders".

During audit of TESCO, two (02) purchase orders dated September 27, 2022 and October 06, 2022 respectively were issued to M/s Razmak Industries for conversion of single cabin pick up into double cabin at a cost of Rs.4.15 million (Rs.2.07 million each). The original approval for purchase of single cabin was issued from management which was not produced at the time of execution of Audit. The single cabin was normally purchased with the contention to be used in the dispensation of official field duties. However, subsequently, the single cabin vehicles were converted into double cabin to facilitate the officers instead to be used in field.

Non-adherence to Corporate Governance Rules resulted in irregular conversion of single cabin vehicle into double cabin vehicle at a cost of Rs.4.15 million during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The Management replied that the said vehicles were purchased in order to facilitate TESCO employee in the performance of their official duties. Original double cabin pickups were expensive to the tune of Rs.3 million each; hence, an alternative solution as to the requirement had to be conversion of the single cabin vehicles into double ones from a standard firm in compliance of PPRA Rules keeping in view the financial position of the company, TESCO were unable to make payment to Toyota as they demanded advance amount against double cabin.

The DAC in its meeting held on December 14 & 15, 2023 observed that initially approval was sought from competent forum for single cabin for operational purpose and subsequently the same were converted without the approval of same forum. DAC also directed the management to take approval for conversion of vehicles from original competent forum and get the record verified from audit. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.825/2023-24)

1.6.82 Loss due to sub-standard work of boundary wall - Rs.3.78 million

According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), "all losses whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved".

During audit of CEO IESCO, a work for construction of boundary wall around IESCO was awarded to M/s Gulmeer & Sons vide work order No.672-78 dated February 14, 2018 amounting to Rs.8.06 million. The work was completed by the contractor and all the payment was released after fulfilling codal formalities. Thereafter, this boundary wall of IESCO collapsed during the rainfall at monsoon in July, 2022. Therefore, work order for reconstruction of the fallen / cracked boundary wall and duct for sewerage line was awarded to M/s Behram construction company vide work order No.4958-63 dated November 18, 2022 amounting to Rs.3.78 million.

Non-adherence to Corporate Governance rules resulted in extra expenditure amounting to Rs.3.78 million due to sub-standard work of boundary wall during the Financial Year 2022-23.

The matter was taken up with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that inquiry committee was re-constituted to probe into the matter regarding collapse boundary wall, vide Director (Confidential) IESCO office order dated September 04, 2023. Proceeding of inquiry committee was underway.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to pursue the finalization of inquiry process and submit its recommendations to audit. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1275/2023-24)

1.6.83 Irregular award of contract by undue favour extended to the second lowest bidder - Rs.3.58 million

According to Clause-48(04) of PPRA Rules - Redressal of grievances by the procuring agency, "in case, the complaint is filed against the technical evaluation report, the Grievance Redressal Committee (GRC) shall suspend the procurement proceedings".

During audit of GSC MEPCO, a tender No.25/GSC (2022-23) for attending emergency work at tower location No.38 of 132 kV Transmission line from 500 kV Grid Station DG Khan – 132 kV Grid Station Shah Sadar Din (Break down) was issued. Two bidders i.e. M/s I.H. Malik and M/s AQ Construction participated and quoted Rs.3.63 million and Rs.2.80 million respectively. The bid evaluation committee (BEC) declared both the bidders technically and financially responsive. M/s A.Q Construction company was the lowest bidder but 2nd lowest bidder M/s IH Malik submitted his grievance to MEPCO Grievance Committee. The Grievance Committee observed that M/s A.Q Construction company was not technically responsive. Hence, the contract was awarded to the 2nd lowest

bidder M/s I.H Malik, which was irregular as the GRC should have suspended the procurement but they referred the case back to CEO and submitted two (02) proposals. The tender was awarded to the 2nd lowest bidder without the approval of CEO and concurrence of Technical Bid Evaluation Committee.

Non-adherence to PPRA Rules resulted in irregular award of contract amounting to Rs.3.58 million due to undue favour extended to the second lowest bidder during the Financial Year 2022-23.

The matter was taken up with management in August, 2023 and reported to the Ministry in December, 2023. The management replied that M/s. A.Q. Construction Company Kotri was technically non-responsive and there was no need to refer back the case to technical evaluation committee for concurrence. Furthermore, the work was awarded to responsive bidder after getting decision / approval from the GM (Tech) / CE (Dev) PMU MEPCO being competent authority.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to get the record verified from audit within 15 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1228/2023-24)

1.6.84 Loss due to sub-standard procurement of Isolators under Contract No. WOR-10 Lot-III - Rs.3.40 million

According to clause 2.4 Preventive Maintenance Program of SOP for grid system operation and maintenance, the responsibility of carrying out maintenance work always lies with the owner of the equipment, e.g., NTDC/DISCOs. The company is under an obligation to observe all the valid safety rules, technical rules/procedures and specifications. The specifications of maintenance work must be based on certain requirements, standards, specifications and the guidelines supplied by the manufacturer, local experience, etc.

As per Section 3, maintenance schedule and checks/tests of isolators/disconnect switches (bus bar and line) of SOP for grid system operation and maintenance should be done on yearly basis.

During audit of NTDC TSG (North) Lahore, six (6) Pinggao China make 245 kV isolators were procured under contract No. WOR-10 Lot-III amounting to Rs.3.398 million and installed in 2006 in 220 kV Grid station Nishatabad Faisalabad. As per SOP, the schedule and check test of Isolator should be done on yearly basis. Contrary to instructions, the TSG technical team visited grid station NTDC, Nishatabad Faisalabad for the inspection of isolator on July 15, 2020 after fourteen years. TSG department concluded that the six (06) isolators installed in 2006 got pre-mature degradation. In order to ensure system reliability and continuity of the electric supply, the team recommended allocation of the higher rating six (06) new isolators to the grid station.

Had the yearly inspection of grid system operation and maintenance been carried out by TSG department, the faulty isolators could have been pointed out to the manufacturer within warranty period and got replaced free of cost from the manufacturer and loss of Rs.3.40 million could have been avoided.

Non-adherence to the SOP or grid system operation and maintenance resulted in loss of Rs.3.40 due to non-replacement of faulty isolators within warranty period up to the Financial Year 2021-22.

The matter was taken up with the management in March, 2023 and reported to the Ministry in June, 2023. The management replied that as per the request of Deputy Manager 220 kV Grid station Nishatabad, Faisalabad,

the detailed inspection of 02 Line isolators and 04 Bus bar isolators installed at 220 kV Grid Station Nishatabad, Faisalabad was carried out by the CE TSG-N NTDC Lahore and it was recommended to replace the isolators.

The DAC in its meetings held on August 26, 2023 directed the management to conduct an inquiry and submit it to audit duly vetted by G.M (TS) PPMC within 30 days. No further progress was reported till finalization of the report.

Audit recommends that the management needs to implement DAC's decision besides fixing responsibility.

(Draft Para No.124/2023-24)

1.6.85 Irregular award of contract - Rs.3.330 million

As per tender document clause 17 "cutting/ overwriting/ using fluid on the bid is strictly prohibited and may tantamount to rejection of bid"

During audit of CEO MEPCO, a tender No.35/23 regarding supply of 1000 No. double arming bolts 14" three bidders/ suppliers were participated and M/s Malik & Sons was declared the lowest responsive bidder and work order awarded. During scrutiny of bidding documents, it was found that the bidder submitted bid at a cost Rs.299.00 per double arming bolts 14" but after cutting on per unit cost, it increased to Rs.333 per bolt and the same was accepted by the management in violation of the tender clause.

Non-adherence to the above rules resulted in irregular purchase order awarded to the contractor amounting to Rs.3.330 million during the Financial Year 2022-23.

The matter was taken up with the management in November, 2023 and reported to the Ministry in December, 2023. The management replied that tender was opened under single stage one envelope bidding procedure as per PPRA rule. The bid opening committee at the time of bid opening observed and noted the single line cutting on the bid whereas the same was signed & stamped by the bidder received in the sealed envelope. The tender opening committee went through the contents of the bid and no observation / objection was given by competitors / other bidders & they signed the comparative statement. The said bid is the lowest bid as well.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to inquire the matter at G.M. (Tech) PPMC level and submit its recommendations to audit within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.912/2023-24)

1.6.86 Non-award of Purchase Order to 1st lowest bidder and subsequent procurement of material having deficient shelf life from 2nd lowest bidder – Rs.2.796 million

According to Rule-36 (a), "each bid shall comprise one single envelope containing, separately, financial proposal and technical proposal (if any) and all bids received shall be opened and evaluated in the manner prescribed in the bidding document." According to description of material stated in tender documents "Chinamake material having minimum shelf life of 1.5 year" was required.

During audit of GENCO-II, Tender No. T-1287 for procurement of Sodium Hexameta Phosphate (China make having shelf life of 1.5 years), floated on single stage single envelop basis, was opened on January 01, 2021. In the said tender M/s Al-Noor Chemical Co. Karachi and M/s Atlantic Chemicals & Engineering Services, Lahore stood 1st lowest and 2nd lowest bidders respectively. However, after opening of tender, samples of the material to be offered were called from both the bidders. On the basis of sample analysis, the 1st lowest bidder was declared technically non-responsive and purchase order valuing Rs.2.796 million was issued to M/s Atlantic on June 15, 2022 with delivery period of 90 days. The said material was delivered on September 08, 2022, inspected on December 12, 2022 and taken on stock on January 18, 2023.

Audit held that the determination of technical responsiveness of bidders, through samples analysis, after opening of financial bids was irregular as the said process was not prescribed in the bidding documents. Further the material supplied by the 2nd lowest bidder was deficient of minimum required shelf life of 1.5 years as the expiry date stated in the Certificate of Analysis provided by manufacturer M/s Hubei Xingfa Chemicals Group Co. Ltd. China was September 07, 2023.

Non-adherence to the provisions of the tender documents resulted in irregular procurement of material having deficient shelf-life from the 2nd lowest bidding valuing Rs.2.796 million during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that placing of P.O to the 2nd lowest bidder was on technical grounds as the samples of demanded material of 1st lowest bidders was tested as 59% instead of 68% as per BoQ of tender whereas purity of 2nd lowest bidder was 68%, which met the requirement of BoQ.

The DAC in its meeting held on December 22 & 23, 2023 directed to inquire the matter at GHCL level and submit its report within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.694/2023-24)

1.6.87 Irregular issuance of Purchase Order to non-responsive bidder - Rs.2.76 million

According to Rule-36 (a), "each bid shall be evaluated in the manner prescribed in the bidding document." According to Annex-B to Tender No. 1320, (i) offers not in conformity with the tender specification likely to ignored/ rejected; (ii) conditional offer shall not be considered/ accepted; (iii) the tenderers must indicate the validity period, which should not be less than 90 days from the date of opening of tender; (iv) offered rates will be inclusive of all Govt taxes and will be firm and final.

During audit of GENCO-II, tender No.1320 for procurement of 45 M.T Caustic Soda was opened on May 09, 2022. The only participated bidder i.e. M/s Ittehad Chemicals Limited offered conditional price with deficient bid validity period. Hence, in the light of provisions of tender documents, the bid was required to be rejected by declaring it as non-responsive. But contrary to this purchase order No.2335 valuing Rs.2.76 million was issued to the said bidder on July 01,2022.

Violation of the PPRA Rules and provisions of the bidding documents resulted in irregular issuance of purchase order to non-responsive bidder valuing Rs.2.76 million during the Financial Year 2022-23.

The matter was discussed with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that the bid validity of the only firm M/s. Ittehad Chemicals was 15 days instead of 90 days as per bidding documents which was subsequently extended on request of CPGCL for 30 days by the firm on the grounds of frequent enhancement in the prices of electricity, RLNG and Fuel which ultimately resulted in increase of price of material. The demanded material was procured from the said firm in the best interest of company to avoid the forced shutdown, which could cause the big generation loss.

The DAC in its meeting held on December 22 & 23, 2023 directed to inquire the matter at GHCL level and submit its report within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1227/2023-24)

1.6.88 Irregular award of contract to non-responsive evaluated bidder and undue favor for alteration in quoted bid price - Rs.2.35 million

According to PPRA Rules 29 Evaluation Criteria "procuring agencies shall formulate an appropriate evaluation criterion listing all the relevant information against which a bid is to be evaluated. Such evaluation criteria shall form an integral part of the bidding documents. Failure to provide for unambiguous evaluation criteria in the bidding documents shall amount to mis-procurement.

During audit of TESCO, tender for replacement of unhealthy 20/26 MVA Power Transformer & reconstruction of power transformer foundation at 132 kV Grid Station Landi Kotal District with estimated cost of Rs.2.40 million was opened on February 09, 2022 and M/s ASG Brothers Construction who quoted price of Rs.2.35 million was the lowest bidder. However, M/s ASG Brothers Construction was declared non-responsive due to non-experience as required under Notice Inviting Tenders (NIT). Despite being declared non-responsive, the contract was awarded to M/s ASG Brothers at a cost of Rs.2.35 million, despite the fact that M/s ASG in its submitted bid had quoted "less 15%" below on total amount" which comes to Rs.2.0 million. However, the same was altered through cutting which was tantamount to forgery. Thus, undue favour was also extended to the bidder through alteration in the quoted bid for an amount of Rs.0.35 million besides award of contract.

Non-adherence to PPRA Rules resulted in irregular award of contract to non-responsive bidder and alteration of quoted bid for an amount of Rs.2.35 million during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that the work was successfully and efficiently completed in the best interest of company.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to inquire the matter at PPMC level for award of contract to non-responsive bidder and alteration in the quoted rates. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1047/2023-24)

1.6.89 Undue favour to the contractor in violation of PPRA Rules – Rs.2.12 million

As per PPRA-2004 Clause 38, “the bidder with the most advantageous bid, if not in conflict with any other law, rules, regulations or policy of the Federal Government, shall be awarded the procurement contract, within the original or extended period of bid validity”.

During audit of PMU MEPCO, supply of 11 K.V/ 132 K.V lightening arresters, two firms purchased tender documents and put their rates for supply of above material. M/s EMCO Industries Lahore put rates for Sr. 2 (i) & (ii) and M/s Mutahir Metal works Lahore put both rates in Sr. No. 01 & 02. The technical evaluation committee declared both firms as responsive bidders. In financial evaluation, the committee declared M/s EMCO Industries Lahore as the 1st lowest bidder for Sr. No. 2 and M/s Mutahir Metal works Lahore the 2nd lowest bidder. As per comparative statement, M/s Mutahir Metal works Lahore was the 1st lowest responsive bidder (Sr. No. 2 (i) & (ii) by quoting price of Rs.20.176 million) but purchase order was issued to M/s EMCO Industries Lahore at higher rate and M/s EMCO provided only 02 items at Rs.22.30 million instead of entire material as per tender and M/s Mutahir metal would have provided entire material as per tender in Rs.22.48 million. Resultantly, MEPCO sustained a loss of Rs.2.12 million in violation of PPRA Rules.

Non-adherence to PPRA rules resulted in undue favour to the contractor in violation of PPRA Rules amounting to Rs.2.12 million during the Financial Year 2022-23.

The matter was taken up with the management in August, 2023 and reported to the Ministry in December, 2023. The management replied that grievance filed by M/s Mutahir Metal Works was not genuine and the decision of financial evaluation committee was declared correct by MEPCO grievance redressal committee and consequently the contract was awarded to the most advantageous bidder and material had been delivered to MEPCO.

The DAC in its meeting held on December 20 & 21, 2023 directed the management to inquire the matter and submit its recommendations to audit within 30 days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC’s decision.

(Draft Para No.1286/2023-24)

1.6.90 Irregular procurement through quotation - Rs.2.07 million

According to PPRA Rules Definition clause-g “Emergency” means natural calamities, disasters, accidents, war and operational emergency which may give rise to abnormal situation requiring prompt and immediate action to limit or avoid damage to person, property or the environment and according to PPRA Rule C Clause-V procurement in case of emergency could be made provided that the procuring agencies shall specify appropriate fora vested with necessary authority to declare an emergency.

During audit of TESCO, four (04) 8-meter leg extension for EG type tower (single) was procured against Purchase Order dated June 17, 2020 from M/s Specialist Group of Industries Limited valuing Rs.2.07 million through quotations instead of issuing tender. It was revealed that there was no emergency that material had to be procured through quotation. Therefore, procurement of four (04) 8-meters leg extension for EG type towers was irregular as material was procured through quotations.

Non-adherence to the provision of PPRA Rules resulted in illegal procurement through quotations valuing Rs.2.07 million during the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in December, 2023. The management replied that the procurement was made in extreme emergency as Energy Department of KPK was pressing hard for earlier completion of 132 kV transmission line from 132 kV Kohat grid Station to Kacha Pakka T/Off Point. The reply was not agreed to as in case of emergency, the approval was needed to be obtained from emergency FORA.

The DAC in its meeting held on December 14 & 15, 2023 directed the management to get the emergency FORA approved from the competent authority as per provisions of the PPRA rules and get the record verified from audit. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.1053/2023-24)

1.6.91 Loss due to non-return of electrical material on loan basis by EPC contractor - Rs.1.55 million

According to Section-III (1) of WAPDA Guidelines for Enforcing Responsibility for Losses due to Fraud, Theft or Negligence of Individuals, 1982 (amended up to June 01, 2001), "all losses whether of public money or of stores, shall be subjected to preliminary investigation by the officer in whose charge they were, to fix the cause of the loss and the amount involved".

During audit of EHV-II NTDC Hyderabad, a Contract No. WB-03-2019 for the Design, Supply, Installation, Testing and Commissioning of Augmentation works at 500 kV Grid Station (New) Multan & 220 kV Grid Station Vehari was awarded to M/s Ak-AY Elektrik Dis. Turkey on turnkey basis. During the execution phase, the contractor requested for electrical material on loan basis and subsequently the material was allocated. The EPC contractor did not return the electrical material valuing Rs.1.546 million despite laps of 10 months.

Non-adherence to guidelines resulted in loss due to non-return of electrical material on loan basis by EPC contractor Rs.1.55 million up to the Financial Year 2022-23.

The matter was taken up with the management in October, 2023 and reported to the Ministry in November, 2023. The management replied that the contractor had placed the Purchase Order of the loan-based material which would be delivered to NTDC's designated Warehouse and Audit would be informed, accordingly.

The DAC in its meeting held on December 18 & 19, 2023 directed the management to pursue the matter and get the record verified from audit within sixty (60) days. No further progress was reported till finalization of the report.

Audit recommends implementation of DAC's decision.

(Draft Para No.657/2023-24)

1.6.92 Irregular hiring of services of External Auditors without concurrence of Auditor-General of Pakistan

According to guidelines / letter dated January 02, 2002 issued by the Auditor-General of Pakistan in accordance with the provisions of Section 15(1) of the Auditor-General's (Functions, powers and terms and conditions of Service) Ordinance, 2001, the auditors should be appointed in consultation with Auditor-General of Pakistan and rotated after every 5 years. Instructions were issued in compliance of Finance Division's letter dated March 25, 1981.

During audit of DISCOs, GENCOs, NTDC, PPMC, PPIB, AEDB, CPPA-G, NEPRA, NPPMC and GHCL, it was observed that the services of external auditor were hired for statutory audit of the accounts of the companies. However, concurrence for the appointment of Chartered Accountant firm from o/o the Auditor-General of Pakistan was require to be obtained which was not done. Audit was of the view that the appointment of the external auditor without the concurrence of the Auditor-General of Pakistan was irregular / unjustified.

Sr. No.	Name of Company	Draft Para No.
1.	FESCO, GEPCO, GHCL, GENCO-I, GENCO-II, HESCO, IESCO, LESCO, MEPCO, PESCO, QESCO, SEPCO, TESCO, NTDC, PPMC, PPIB, AEDB, CPPA-G, NEPRA & NPPMC	1320, 1321, 1322, 1323, 1324, 1325, 1326, 1327, 1328, 1329, 1330, 1331, 1332, 1333, 1334, 1335, 1336, 1337, 1338 & 1340/2023-24

Non-adherence to the guidelines resulted in irregular hiring of services of External Auditors without concurrence of Auditor-General of Pakistan during the Financial Year 2023-24.

The matter was reported to the management and Ministry on December 29, 2023 but no reply was received.

Audit recommends that the management needs to look into the matter for justification.

1.7 Unsatisfactory Project Management

The companies undertake different mega projects comprising of a series of sub-tasks and works. Depending upon the complexity of the project, different works were executed either through company's own project offices or through collaboration with EPC contractors for delivery of specific goods / services / tasks. Based on their projected financial outlay, PC-1 form was formally made for these projects and their approval was sought from the relevant government forum. Generally, in DISCOs/NTDC, the projects are aimed at enhancing and improving the electricity transmission / distribution system and allied assets of the companies. These projects represent the strategic milestones which were set by the government for the attainment of desired goals and outcomes in the power sector.
