As per NHA General Specification 401.1.1, Classes of Concrete, the classes of concrete recognized in these specifications shall be designated: A, B, C, D1, D2, D3, and Lean Concrete. Class A1 Concrete shall be used everywhere, for non-reinforced and reinforced concrete structures, except as noted below or directed by the Engineer. Class D1, D2 or D3, concrete shall be used for pre-stressed and post-tensioned elements, as indicated on drawings.

Audit noted that CDA awarded a work "Rehabilitation and Widening of IJP Road Islamabad to M/s NLC at agreed cost of Rs 4,953.110 million on 12.08.2021 with the completion period of eighteen (18) months. The total value of work done up to 8th running bill paid to the contractor was Rs 4,153.960 million and price escalation paid up to EPC-06 was Rs 980.612 million.

Audit observed that the Authority provided the concrete class D-1 for rigid pavement for a slow lane with a quantity of 52,987.20 Cu.m (VO-6) @ Rs 15,169.56 per Cu.m involving Rs 803.792 million in which quantity of 43,136.94 Cu.m was executed up to 8th IPC. Audit further observed that the concrete class D1 was not meant for rigid pavement but only for pre-stressed and post tensioned elements. For rigid pavement, normally concrete class A1 is used which was lesser in rate and more economical. It is further added that concrete mix design and its approval and test

reports were also not available in office record. Due to execution of costly item concrete class D1 @ Rs 15,169.56 per Cu.m instead of required item concrete class A1 @ Rs 11,119.60 per Cu.m has resulted in to extra expenditure of Rs 174.702 million.

Quantity Paid	Rate Paid for Class D1	Rate to be Paid for Class A1	Difference in Rate	Amount Rs
43,136.94 Cu.m	15,169.56 per Cu.m	11,119.60 per Cu.m	4,049.96 per Cu.m	174,702,881
Total				174,702,881

Audit pointed out overpayment during November 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 21.12.2023.

Audit recommends that overpayment may be recovered from the contractor besides fix the responsibility against the person at fault.

(DP. 313)

3.4.41 Unauthorized/inadmissible payment on account of price variation due to change/revision of weightages - Rs 158.575 million

Clause 70.1(a) and (f) of Conditions of Particular Application (Part-II) regarding increase or decrease of cost provides that the weightages for each of the factors of cost given in Appendix-C to Bid shall be adjusted if, in the opinion of the Engineer, they have been rendered unreasonable, unbalanced, or inapplicable as a result of varied or additional work executed or instructed under Clause 51. Such adjustment(s) shall have to be agreed in the variation order. Appendix-C Note-2 of the contract provides that adjustment of increase/decrease shall only be admissible for the materials listed above.

Audit noted that Director Road (North) CDA, Islamabad awarded a contract for “Construction of Khayaban-e-Margallah from GT Road to Sector D-12, Islamabad Balance Work (Package-I)” to M/s FWO at an agreement cost of Rs 965.274 million on 19.05.2021 and revised contract cost of Rs 2,669.297 million after VO-3 with completion period of twelve (12) months. EOT up to 28.02.2023 was granted. The contractor received a total payment of Rs 2,212.035 million, which includes an escalation amount of RS 158.575 million until the 9th running bill in April, 2023.

Audit observed during scrutiny of the accounts record that the Project Authority has revised the fixed portion of price adjustment (Appendix-C) from 72% to 57% and weightage of POL/Diesel from 5% to 10% and included cement and steel in the specified material with 5% weightages of each and paid escalation of Rs 158,575,583 up to IPC-05 vide CV. No. 26 dated 14.09.2022.

Audit held that change/revision in fixed portion of price adjustment and addition of new materials in the specified items was unauthorized and inadmissible. Further, Note-2 under the Appendix-C of the contract clearly states that adjustment of increase/decrease shall only be admissible for the material listed in Appendix-C above. Further, the weightages of specified material were not supported with detailed calculations. This resulted in unauthorized/inadmissible payment of Rs 158.575 million on account of price variation due to unauthorized change/revision in fixed portion of price adjustment.

Audit pointed out unauthorized/ inadmissible payment in July-August 2023. The Authority replied that the weightages given in Appendix-C to Bid have been revised provisionally under the provisions of Contract specified in Clause 70.1 (f) of PCC as the scope of work enhanced abnormally as per project requirement and the weightages given in Appendix-C to Bid were found unreasonable and unbalanced therefore the same have been revised with the approval of Employer.

The reply was not accepted as the change/revision in fixed portion of price adjustment and addition of new materials in the specified items was unauthorized and inadmissible. Further, the adjustment of increase/decrease shall only be admissible for the material listed in Appendix-C above.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 04.10.2023, 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends recovery/adjustment of the unauthorized/ inadmissible payment of price variation due to change/revision of fixed portion and weightages of specified materials as per Appendix-C of the contract.

(DP. 112)

**3.4.42 Overpayment due to non-deduction of security deposit and payment of departmental charges to the contractor -
Rs 154.885 million**

As per clause 60.3 of the contract agreement for the work “Construction of 10th Avenue from IJP Road to Srinagar Highway, Islamabad.” awarded to M/s NLC (Sohan Camp Rawalpindi), retention money @10% of the amount of Interim Payment Certificate (IPC) is to be deducted. Departmental charges @ 6.5 % are to be credited to CDA against the PSDP work “Construction of 10th Avenue from IJP Road to Srinagar Highway, Islamabad”.

During scrutiny of the accounts record, Deputy Director Roads-South, Division-I, CDA Islamabad, Audit noted that the above work was awarded to M/s NLC at agreed cost of Rs 10,286,244,818 vide acceptance letter dated 03.12.2021. The work was started on 21.03.2022 and is to be completed on 20.03.2024. Total value of work done up to IPC No.02 was Rs 938,697,701.

Audit observed that despite payment of two IPCs for total work done of Rs 938,697,701, retention money of Rs 93,869,770 was not deducted from the contractor’s payments. Audit further observed that departmental charges Rs 61,015,351 (6.5% of Rs 938,697,701) which were the receipt of CDA were also paid to the contractor.

This resulted in overpayment due to non-deduction of security deposit and payment of departmental charges to the contractor of Rs 154,885,121 (Rs 93,869,770 + Rs 61,015,351).

Audit maintains that the non-recovery occurred due to weak financial controls and poor contract management.

Audit pointed out the matter in July 2023. The Authority replied that the subject project is a PSDP Project and as per AGPR office procedure, no payment would be made to the CDA directly. M/s NLC should submit return the payment against security deposit & Departmental Charges. In case of any further delay, the amount would be withheld from upcoming IPCs of M/s NLC.

The reply was not accepted because retention money was not deducted from the contractor's payments. Moreover, departmental charges which were the receipt of CDA were also paid to the contractor.

The matter was discussed in DAC meeting held on 31.01.2024 wherein CDA apprised that M/s NLC had remitted back the amount in question to CDA Main Account in October 2023. Audit contended that payments were made to the contractor as undue financial aid to avoid lapse of funds in June 2023. The recovery was also not verified by Audit. DAC directed CDA to get the recovered amount verified by Audit and streamline the issue of handling of withdrawals from assignment account in consultation and advice from the Finance Division to avoid recurrence of such irregularity in future.

Audit recommends compliance of DAC's directive.

(DP. 106)

3.4.43 Loss due to abnormal delay in auction/award of license for collection of car parking fee - Rs 152.46 million

Rule-6 of Islamabad Land Disposal Rules 2005, provides that business plots shall be leased out through open auction for one of the specific activities. Plots for any kind of commercial activity having profits as a primary aim, and include plots earmarked for shops, show rooms, markets, hotels, motels, guest houses, marriage halls, petrol/CNG filling and or service stations, sites for multi-story building meant for shops, offices, sites for multi-story parking and offices connected with industrial & commercial enterprises.

Audit noted that Municipal Administration/MCI awarded license and executed an agreement on 28.02.2020 with M/s Fazal Khan & Co. for collection of car parking fee at the plot adjacent to Centaurus Mall, Islamabad for one year at a bid cost of Rs 90.70 million per annum. The agreement duration expired on 27.02.2021 and site was taken back on 24.06.2021 from the licensee.

Audit observed that the Management since after taking over possession in June 2021 could not decide and finalize the next auction process which is generally started two to three months before completion of existing contract time. The prime location having potential revenue of millions of rupees per month was lying un-decided for more than 19 months simply for the determination of reserve price, decision for collection of revenue through stop gap arrangements, etc. Last auction process held on 13.09.2022 with highest bid amount of Rs 66.000 million was cancelled being the bid less than reserve price by 39%.

Another auction process remained un-finalized till date of Audit/November 2023. Matter was still undecided despite the lapse of more than two (02) years depriving the entity from huge revenue and the Authority has started self-collection of parking fee w.e.f. 24.02.2023. Non-initiation of auction process two (02) months before expiry of existing contract in February 2021 and non-finalization of auction process resulted in loss of Rs 152.46 million.

Audit pointed out loss in November 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 21.12.2023.

Audit recommends fixing responsibility against persons responsible for inaction besides early corrective action.

(DP. 282&283)

3.4.44 Unauthentic and delayed execution of works - Rs 150.064 million

Clause 10.2 of COC part-I provides that the performance security shall be valid until the expiry of defect liability period. As per Para 208 of Central Public Works Accounts Code, payments for all work done are made on the basis of measurements recorded in the Measurement Book (Form 23) in accordance with the rules in Para 209 of CPWA Code. The Measurement Books should, therefore, be considered as very important accounting record. Para 209(b) states that all measurements should be neatly taken down in a Measurement Book.

During scrutiny of the accounts record of Director Roads-South, CDA Islamabad, Audit noted that CDA awarded three different works and made payments, as under:

(Amount Rs)

S. No.	Name of work & Contractor	Performance security & validity	Work done Amount
1.	Providing and Laying Strom Drainage System in Sector	9,125,339 09.06.2023	60,822,702

S. No.	Name of work & Contractor	Performance security & validity	Work done Amount
	I-11/1-2, Islamabad (M/s Rawal Builders). Agreement cost of Rs 60,835,589 dated 09.09.2020		
2.	Construction of VR-I in H-11/1, Islamabad. (Remaining Portion) (M/s Bukhari Brothers). Agreement cost of Rs 12,632,013 dated 03.01.2022.	2,526,403 02.06.2023	7,651,880
3.	Construction 04 Box Culverts in Sector I- 11/2, Islamabad (M/s Lyallpur Construction Company). Agreement cost Rs 94,124,663 dated 15.09.2020.	28,237,399 14.09.2021	81,588,975
	Total	39,889,141	150,063,557

Audit observed that these works were in progress but the validity of the performance securities of Rs 39.889 million had expired. Moreover, the authenticity of executed work was not confirmed because road and drainage system works were yet not operational. Laid RCC pipes were not connected with the drainage system and tested. The works completion was delayed abnormally. Wastage of executed work without finalization and without being operational, therefore, cannot be ruled out. During execution of the work, "Construction four (04) Box Culverts in Sector I-11/2, Islamabad" excavate surplus hard rock was measured for 5,366 Cu.m which was not utilized in stone masonry work paid separately at full rate. Price adjustment of Rs 9,280,899 was paid to the contractor without detailed calculations and despite delay in completion of work.

This resulted in non-revalidation of performance security of Rs 39.889 million, unjustified payment of price adjustment of Rs 9.281 million and unauthentic execution of work of Rs 150.064 million.

Audit maintains that the matter occurred due to weak internal controls and poor contract management.

Audit pointed out the matter in July 2023. The Authority replied that extended performance securities would be obtained from the contractors. All reports/documents would be shared during verification of record. 75% stone were not serviceable rest of the stone were consumed on different locations to protect land from urban flood on the nullah. Price adjustment was paid to contractor after detailed checking by Q.S Directorate, CDA.

The reply was not accepted because the financial interest of the Authority was compromised and validity of the performance security was not revalidated. The laid RCC pipe and drainage system was not connected and not operational so far. The work completion was delayed abnormally. Price adjustment was paid to the contractor without detailed calculations and despite the delay in completion of work.

The matter was discussed in DAC meeting held on 31.01.2024 wherein DAC directed CDA in works at S. No. 1 & 3 of the above table to get the EOTs along with justification, revalidated performance securities and testing commissioning of the executed works verified from Audit. With regard to work at S. No. 2, DAC directed to encash the guarantees and complete the balance work at the risk and cost of the defaulting contractor.

Audit recommends compliance of DAC's directive.

(DP. 98)

3.4.45 Non-payment of premium by allottees resulting in loss of Rs 147.722 million and non-forfeiture of 10% of cost of premium - Rs 33.450 million

Clause 4 of offer of allotment letter provides that if any of the installments of premium is not paid as per payment schedule, the Authority reserve the right to cancel the offer of plot without any notice and 10% of the premium of the plot shall stand forfeited in favor of the CDA.

CDA Board in its meeting held on 02.06.2021 revised the payment schedule of Park Enclave Phase-III Islamabad as under:

Installment	Premium %	Existing Date	Proposed dated	Revised
1 st Instalment	20%	10.02.2021	30.06.2021	
2 nd Instalment	20%	10.05.2021	30.09.2021	
3 rd Instalment	20%	10.11.2021	31.12.2021	
4 th Instalment	20%	At the time of Possession	At the time of Possession	

Audit noted that the Estate Management Directorate-I, CDA, Islamabad launched Park Enclave Phase-III Scheme on 24.09.2020 for allotment of 984 residential plots of different categories.

Audit observed that allottees of five (05) plots did not pay any installments after down payment and nineteen (19) allottees only paid down payment and 1st installment up till June 2023, but neither the allotment was cancelled nor the 10% cost of premium of land was forfeited. Had the plot been cancelled and auctioned, the Authority could get more benefit/market price of these plots which could be Rs 147.722 million. This resulted in non-cancellation of plots of Park Enclave Phase-III on non-payment of premium by allottees resulting in loss of Rs 147.722 million and non-forfeiture of 10% of cost of premium amounting to Rs 33.450 million.

Audit holds that irregularities occurred due to non-adherence to the provision of allotment letters and ineffective implementation of the administrative and financial controls.

Audit pointed out the irregular waiver/non-recovery of delay payment charges in May 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends investigation into the matter for fixing responsibility for non-cancellation of plots on default of allottees, and corrective action in light of terms and conditions of allotment letters besides strengthening of administrative and financial controls.

(DP. 233)

3.4.46 Non-depositing of earnest money of participant bidders in CDA account - Rs 117.730 million

As per Notification dated 01.08.2021, Chairman CDA approved the rules for adopting transparency in the bidding process for various formations of CDA/MCI in the light of Public Procurement Regulatory Authority and PEC documents which included that deposit at call/earnest money should be generated only from firm accounts. The bid security of all bidders would be deposited in the CDA bank account and same may be returned after the acceptance of the contract with the successful bidder.

Audit noted that Director South Road CDA Islamabad, invited and awarded road works to various contractors during the year 2022-23.

Audit observed that during the tendering 53 bidders participated. CDRs were verified by bank only for those participants who were awarded works, whereas CDRs of remaining 47 bidders for Rs 117,730,078 (**Annexure-W**) were neither shown to Audit nor verified by respective banks. Earnest money/CDRs of unsuccessful bidders were not deposited in CDA Account as required. Irregular tendering process and non-depositing of earnest money of participant bidders in the CDA account due to non-compliance to Chairman CDA approved tendering process policy

Audit holds that the irregularity occurred due to non-adherence to rules and procedure.

Audit pointed out the matter in July 2023. The Authority replied that as per chairman, CDA approved process all the clauses were fulfilled except clause Vii, due to the reason that there is no mechanism for re-payment of earnest money to contractors if the same deposited in CDA bank account. The case was referred to the competent authority for clarification.

The reply was not accepted because a violation of procedure was made as admitted in reply.

The matter was discussed in DAC meeting held on 31.01.2024 wherein DAC observed that procedure prescribed for ensuring transparency in tendering process was violated. DAC directed CDA to get the CDRs of successful and unsuccessful bidders (as pointed out by Audit) verified from respective banks and outcome be shared with Ministry and Audit.

Audit recommends compliance of DAC's directive.

(DP. 101)

3.4.47 Unauthorized expenditure/undue payment of Covid allowance to all employees of CDA - Rs 92.040 million

As per M/o NHSRC vide letter No. 9-17/2015-Estab-III dated 20.10.2020, in the National Coordination Committee (NCC) meeting Chaired by Prime Minister of Pakistan held on 26.03.2020, it was decided to pay risk allowance to the healthcare workers performing duties related to Covid-19. Accordingly the Prime Minister approved risk allowance for the doctors/healthcare workers performing Covid relating duties.

During audit scrutiny of the accounts record/final account of CDA for the financial year 2021-22, it was noted that the CDA Management incurred an expenditure of Rs 92.040 million on account of 'Covid-19 Risk Allowance' @ Rs 1,500 for 5 months to all 12,272 employees of CDA during the year 2021-22.

Audit observed that despite clear instruction from NCC, Covid-19 allowance was paid to all employees of CDA, instead of only those directly handling Covid-19 patients, such as healthcare workers. This resulted in unauthorized expenditure/undue payment of Covid allowance to all employees of CDA for Rs 92.040 million.

Audit maintains that the irregularity occurred due to weak financial controls.

Audit pointed out the matter in June 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 04.10.2023, 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends recovery of undue covid allowance besides disciplinary action against those responsible for making the unauthorized payment.

(DP. 221)

3.4.48 Overpayment due to un-necessary and repeated provision of tower crane in approved cost breakup - Rs 82.160 million

According to Rule-I of CDA Procedure Manual Part-II, every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public funds as a person of ordinary prudence would exercise in respect of expenditure of his own money.

Audit noted that Director, Special Project Directorate CDA awarded the project “Construction of Nilore Heights” Ground+9 floors 1,876 apartments, having covered area of 2.290 million Sft. to M/s FWO through direct contracting at agreed cost of Rs 16,854.234 million (EPC basis) on 11.04.2022 with completion period of 24 months.

Audit further noted that the above project consists of 10 blocks with total covered area of 2,222,840 sft, whereas cost of tower crane was added in rates for Rs 82.160 million by taking the incorrect covered area 2,780,272 sft for twelve (12) blocks.

Audit observed that in the BOQ, the rates of items were provided floor-wise, therefore separate provision of rate for tower crane was not justifiable, which caused extra burden on public exchequer due to duplicity in the rates.

Audit maintains that the overpayment occurred due to weak oversight mechanisms.

Audit pointed out overpayment during July and August 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 04.10.2023, 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends that payment may be made to the contractor by excluding the cost of tower crane besides fix the responsibility against the officers/official responsible who did not properly evaluate the rates.

(DP. 155)

3.4.49 Irregular change in original lay out plan (LOP) without obtaining NOC and non-recovery of ROW charges - Rs 76.800 million

Section 46 of CDA Ordinance, 1960 provides that whoever contravenes any provision of this Ordinance or of any rules or regulations made or scheme sanctioned there under shall, if no other penalty is provided for such contravention, be punishable with imprisonment which may extend to six months or fine or with both and 46-B of ibid regarding disobedience of orders provides that whoever, without lawful excuse, fails or refuses to comply with any direction or order issued by the Authority under the Ordinance shall be guilty of an offence punishable under section 46. And ibid rule 49-C to initiate legal action against illegal building being constructed/erected, under section 49-C of CDA Ordinance 1960, Clause 5(1) of ICT Zoning Regulation 1992 and relevant provisions of Islamabad Capital Territory Building Control Regulations, 2020.

CDA Board in its 19th Board Meeting dated 24.12.2014, decided to impose access/right of way (ROW) charges for Housing Schemes on major road of Islamabad, i.e., Islamabad Highway, Kashmir Highway, Park Road, GT Road, IJP Road. The approved rate charges w.e.f. 24.12.2014 were as under:

S. No	Category	Rate/Amount (Rs) per Month
1	Petrol Pump/CNG Stations/Amenities	0.5% of Market Value up to a Maximum of Rs 50,000 penalty Per month
2	Housing Societies up to 400 Kanals	Rs 266,000 penalty per month
3	Housing Societies from 401 to 800 Kanals	Rs 562,000 penalty per month
4	Housing societies with 801+ Kanals	Rs 800,000 penalty per month

Audit noted that Director Housing Societies CDA, Islamabad, approved the LOP of River Garden Housing Scheme, Zone-5 Islamabad sponsored by M/s Renaissance Developers Pvt. Ltd. on 19.06.2001, of land measuring 809 kanals and 17 marla consisting of 660 plots, No objection certificate (NOC) was issued by CDA on 19.09.2007. Audit further noted the revised/ extended/as built LOP was approved by Deputy Director (HS-II) CDA on 02.04.2020 of land measuring 1,079.91 kanals and number of plots enhanced up to 1036 plots without prior approval of the revised/extended/as built LOP from the Planning Wing CDA Board.

Audit observed that the revised/extended/as-built LOP of the schemes was approved measuring 1,079.91 kanals. However, the percentage in the revised LOP was not as per CDA standard. The sponsor of the scheme converted the graveyard measuring 21.58 kanals into a playground to make up the deficiency of land under parks/open space/playground and green areas. No revision/change in the approved LOP was

permissible without approval of CDA Board but the sponsor of the scheme made many changes in the original LOP and developed commercial plots/apartments/buildings without prior approval from the CDA which was a serious violation of building by-laws and ICT (Zoning) Regulations 1992.

Audit further observed that CDA directed to M/s Renaissance Developer Pvt. Ltd. to deposit Right of Way (ROW) charges in the form of pay order in favour of DDO (Planning) CDA w.e.f. 24.12.2014 to 23.12.2022 of Rs 76.800 million penalty, but the sponsor did not deposit the ROW charges.

This resulted in irregular change in original LOP and development of commercial plots/apartments/buildings without obtaining NOC from Building Controls Section, CDA and non-recovery of ROW charges of Rs 76.800 million after lapse of eight (08) years.

Audit pointed out the recovery in February-March 2023. The Authority replied that Planning Wing, CDA obtained the requisite fee from the sponsors of the scheme.

The reply was not accepted because recovery of CDA fee as replied was not verified by Audit. However, the Authority did not reply against irregularities in the revision of LOP.

The matter was discussed in DAC meeting held on 31.01.2024 wherein DAC directed CDA to get the record, in support of due recoveries and revision of LOP as per approved procedure, verified by Audit.

Audit recommends compliance of DAC's directive.

(DP. 77)

3.4.50 Irregular expenditure due to execution of different works through splitting - Rs 136.292 million

As per Rule 5 of CDA Procedure Manual (Part-II) the delegation of power for incurring expenditure is subject to the condition that an individual item is not split up into parts merely to enable a part of the whole item for qualifying for a particular sanction. The power of incurring expenditure is not exercised except to progress a programme, a project or activity, approved by the Authority.

Rule 12 of Public Procurement Rules, 2004 provides that (1) Procurements over five hundred thousand Pakistani Rupees and up to the limit of three million Pakistani Rupees shall be advertised on the Authority's website in the manner and format specified by regulation by the Authority from time to time. These procurement opportunities may also be advertised in print media, if deemed necessary by the procuring agency: Provided that the lower financial limit for advertisement on Authority's website for open competitive bidding shall be the prescribed financial limit for request for quotations under clause (b) of Rule 42.

During scrutiny of the accounts record relating to different formations of CDA, for the financial years 2021-22 and 2022-23, Audit noted that payments were made of Rs 136.292 million, on the account of different maintenance/procurement works, as detailed below:

DP.No.	Formation/Division	Particulars of Payments	Amount in Rs in million
11	Aiwan-e-Sadr Directorate, CDA	Supply of store material, providing & fixing of floor tiles, provision of chairs, providing & installation of AC, Deep freezer, misc. electrical items, repainting of various areas and other maintenance activities etc.	79.012
127	Director Coordination, Parliament House Maintenance	Renovation, paint works, Janitorial services, wooden works, procurements	57.280

DP.No.	Formation/Division	Particulars of Payments	Amount in Rs in million
	Division (Civil & EM)	of Split AC, LED TV, illumination items, supply of store material, and furniture, etc.	
Total			136.292

Audit observed that procurements were made through quotations by splitting the works into piece meal work in order to avoid the approval of the next higher authority and open competition to achieve the best value of money.

This resulted in irregular/unauthorized expenditure of Rs 136.292 million due to splitting of works through piecemeal orders.

Audit maintains that the irregular/unauthorized expenditure occurred due to violation of rules, procedure and weak internal controls.

Audit pointed out the matter in May and July 2023, but the Authority did not reply.

The matter was discussed in DAC meeting held on 12.01.2024, wherein the management apprised that different works were carried out in Aiwan-e Sadr on emergency basis in the light of Rule 42 of Public Procurement Rules with the approval of competent forum. Execution of works through quotations is under investigation by FIA and record provided to the investigation team. DAC pended the para till the finalization of inquiry by FIA and directed the management that works/ supplies made carried out through quotations shall be physically verified and report be shared with Ministry/ Audit within one month.

Audit recommends compliance of DAC's directive.

(DP. 11&127)

3.4.51 Unauthentic execution of maintenance works without fulfilling codal formalities - Rs 687.082 million

Para 9(1) maintenance policy 2019, provides that maintenance works of Government houses as per approved S.O.P shall be undertaken through comprehensive Maintenance Work Plan only annually.

Para 6 of ibid provides that the Maintenance Directorate in the past undertake work of individual house on first come first serve basis, and no standard procedure followed. This unwanted exercise has created liabilities which were subsequently chargeable to Maintenance Grant Fund, thus unbalancing the system. The occupants are left with no other option than to either approach the office of Wafaqi Mohtasib or use other means to get their genuine complaints attended.

During scrutiny of accounts record of Directorate of Maintenance CDA for the fiscal year 2022-23, Audit noted that the Authority incurred expenditure of Rs 687.082 million on repair and maintenance of government houses and on renovation of government offices in Islamabad during the year 2022-23.

Audit observed the following discrepancies in award of work:

The works executed without a comprehensive maintenance work plan and admin approval as per criteria referred above.

No proper categorization of works done e.g. most urgent, routine maintenance, structural maintenance, renovation, etc.

No proper computerized compliant system generated so far.

No priority cases were set, no proper queue system maintained for dealing complaints.

A proper detail of works requested by allottee along with allotment letter is missing in files.

Handing/taking over or acknowledgment of completed works from end user i.e., allottee is missing.

No proper survey in decades was conducted to authenticate structural damage caused due to earth quakes, fire, flood, gutter seepages, etc.

No proper details of budget allocation, government grant, re-appropriation, and reconciliation with AGPR and Finance Wing (budget CDA) was shared with Audit.

This resulted in an unauthentic execution of works due to inefficient mismanagement practices for Rs 687.082 million.

Audit pointed out irregular award of work in October 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends necessary action against the person(s) at fault.

(DP. 274)

3.4.52 Inadmissible payment due to undue financial aid/benefit to the contractor - Rs 72.922 million

Clause 60.11-a(6) - Particular Conditions of Contract provides that the contractor shall be entitled to receive from the Employer Secured Advance against an Indemnity Bond acceptable to the Employer of such sum as the Engineer may consider proper in respect of non-perishable materials brought at site but not yet incorporated in the Permanent Works. The sum payable for such materials on Site shall not exceed 75% of the (i) landed cost of imported materials, or (ii) ex-factory/ex-warehouse price of locally manufactured or produced materials, or (iii) market price of other materials.

Audit noted that Director Works Directorate CDA, Islamabad awarded a work “Construction of Litigants Facilitation Centre for Litigants and Lawyers at G-10, Islamabad” to M/s United Engineers and contractors on 19.01.2023.

Audit observed that the Authority made payment amounting to Rs 278,512,773 on the account of Secured Advance vide 2nd Part of Secured Advance/running bill recorded at page-1 to 3 vide Measurement Book No.18686 up to 30.06.2023. Whereas, a review of the record indicated that the said payment was required to be made to the contractor to the extent of Rs 205,590,000. Moreover, the Authority allowed/granted premium 35.47% above on cost of material brought at site which was unauthorized/inadmissible. This resulted in overpayment to the contractor.

Non-adherence to rules caused overpayment due to undue financial aid/benefit to the contractor for Rs 72,922,773 as below:

Payment made (Rs 274.120 m * 35.47%) * 75%	=Rs 278,512,773
Payment to be made Rs 274,120,000 * 75%	=Rs 205,590,000
Overpayment	=Rs 72,922,773

Audit pointed out the inadmissible payment in November 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends early recovery from the contractor besides fixing the responsibility against the person(s) at fault in order to avoid such overpayment in future.

(DP. 270)

3.4.53 Irregular payments through DDO instead of direct payments to affectees under PM Assistance Package - Rs 65.940 million

Rule 388 of Federal Treasury Rules (Volume-I), Revised Edition 2019, provides that in cases in which a disbursing officer is authorized to draw cheques on the treasury or the bank, all payments in respect of works expenditure shall be made by cheques, as far as possible.

During scrutiny of the accounts record relating to the Treasury Division CDA for the financial year 2021-22, Audit noted that Treasury Division CDA Islamabad made a payment of Rs 65.940 million for the financial year 2021-22, on account of PM Assistance Package.

Audit observed that instead of making payments directly to the families of the deceased employees, payments were made to DDOs of different CDA formations. There was no evidence of receipt by the families of the deceased employees.

This resulted in irregular payments to DDOs, instead of direct payments to affectees through cheques against payment of PM Assistance Package for Rs 65.940 million.

Audit maintains that the irregularity occurred due to violation of rules and procedure and weak internal controls.

Audit pointed out the matter in May 2023. The Authority replied that Treasury Division, CDA has to issue cheques related to various formations/divisions of CDA. Treasury Division and CDA have to follow a complete procedure for the payment of affectees against PM Assistance Package. The affectees of deceased non-gazetted employees were paid PM Assistance Package after receiving a DP sheet from the concerned division. It is the responsibility of DDO and other staff of the concerned Directorate to fulfill all the codal formalities before payment against the PM Assistance Package. This may include a Succession Certificate issued by the 1st class Civil Judge of District Court, an Affidavit of Notary Public, a death certificate, a family registration certificate and Finance wing allocation.

The reply was not accepted because payments were made to DDOs instead to concerned affectees/legal heirs.

The matter was discussed in DAC meeting held on 19.01.2024. The management apprised that payment was made after fulfillment of codal formalities. Complete record has been provided to Audit for verification. Audit contended that partial record was provided. DAC directed that balance record including Succession Certificates, Affidavit attested by Notary Public and actual payee's receipts be provided to Audit for verification within seven days. DAC further directed that online payment system shall be adopted for payments in future.

Audit recommends compliance of DAC's directive.

(DP. 20)

3.4.54 Loss to Authority due to allotment of excessive plots than admissible against acquired land - Rs 60.00 million

According to CDA Land Acquisition and Rehabilitation Policy 2007 (Land Sharing Basis), (CDA Land Acquisition and Rehabilitation Regulation 2007 (Land Sharing Basis) vide SRO 304 (1)/2008 dated 06.03.2008) land will be acquired on land sharing basis, meaning a developed plot of one (01) kanal will be allotted to the affectee/land owner for every four (04) kanals of land acquired from him in the same sector.

Audit noted that the Director Land and Rehabilitation CDA Islamabad allotted forty three (43) residential plots of size 50x90 in Sector C-16 to Mr. Shahid Iqbal Rana S/o Rana Muhammad Iqbal on 05.11.2014 against the acquired land of 167 kanal 15 marla.

Audit observed that as per above land sharing policy total forty one (41) plots against 167 kanal 15 marla acquired land required to be allotted but Authority allotted forty three (43) plots against the required land. In this way, two (02) plots were allotted which was a serious irregularity on the part of the Authority. This resulted in loss of Rs 40.00 million to the Authority due to allotment of two (02) extra plots against acquired land, as calculated below:

Total plots allotted = 43
 To be allotted as per policy = 41
 Price of one kanal plot (approx) =Rs 20.00 million
 Loss (2x 20,000,000) =Rs 40.00 million

Audit further observed that CDA allotted Plot No. 05, Street No. 92, Sector D-13/3, Islamabad (01 kanal) to Mr. Muhammad Ramzan S/o Muhammad Ali against 4 kanal acquired land.

Audit observed that as per naqsha-II the area of land according to share of affectee was 02 kanals which was unauthorizedly enhanced to 04 kanals as detailed below:

Total Area/Land	Share of affectee	Total share in marlas	Share of affectee
40 Kanal – 17 Marlas (817 Marlas)	$40/817 = 0.049$	$0.049 \times 817 = 40$ Marlas	$40/20 = 02$ Kanal

This resulted in irregular allotment of a plot against on insufficient area of acquired land worth Rs 20.00 million.

Audit pointed out excess allotment of plots for Rs 60.00 million during June 2023. The Authority replied in DP. 90 that the plots were allotted on land pooling basis, as per approved policy. As regards to DP. 96, CDA responded that the matter was referred to Security Directorate, CDA for investigation.

The reply was not accepted without any documentary evidence. The outcome of the investigation in other case was also not shared.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 04.10.2023, 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends provision of required record besides sharing outcome of the investigation with Audit.

(DP. 90&96)

3.4.55 Irregular procurement without advertisement - Rs 52.363 million

Rules 12 (2) of the Public Procurement Rules, 2004, all procurement opportunities over three million rupees should be advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

Audit noted that Deputy Director, Mechanical Division, maintenance of Street Light Division, CDA, Islamabad, awarded eight (08) works over three million cost for a total of Rs 52.363 million at market rates during the FY 2022-23. Payment of Rs 22.007 million was made against these works.

Audit observed that these works were not advertised in national daily Urdu newspapers which violated the Public Procurement Rules. This resulted in irregular procurement worth Rs 52.363 million.

Audit maintains irregularity occurred in violation of rules.

Audit pointed out the irregularity in August 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 04.10.2023, 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends fixing responsibility for violation of rules besides strengthening of internal controls to avoid recurrence of such irregularity in future.

(DP. 147)

3.4.56 Unjustified allotment of residential plot to ineligible affectees - Rs 45.00 million

Para 4(2) of the Islamabad Displaced Persons Rehabilitation Policy, 1996 regarding allotment of residential plots provides that where built up property is acquired in Abadi Deh, residential plots will be allotted to the affectees notwithstanding the ownership of the land beneath the where built up property on the following criteria:

Area of BUP	Plot size
i) 300 to 499 sft	Plot of 25x50
ii) 500 sft and upwards	Plot of 30x60

The allotment will, however, be subject to the condition that the affectee did not avail any benefit against acquisition of land, if any, acquired from him, provided that where the acquired built up property is located outside Abadi Deh, residential plots will be allotted to the affectee of the built up property, as in the case of Abadi Deh, only of the land beneath is owned by the affectee himself.

Audit noted that the Director Land & Rehabilitation CDA Islamabad allotted the Residential Plot No 213 (30x70) in Sector F-11/4 to Mst. Kausar Bibi D/o Lal Hussain Shah W/o Aftab Hussain Shah on 05.04.2018 against award dated 01.10.1985 by the Deputy Commissioner CDA Islamabad on the basis of built up property against House No.90/1-3 in Bheka Seyeden acquired by the CDA from the affectees for development of sector F/11.

Audit observed that as per award list of BUP/demolished report of affectees at Serial No 112, the covered area of house of Mst. Kausar Bibi D/o Lal Hussain Shah W/o Aftab Hussain Shah was 144 sft. mentioned for built-up property which was less than minimum required area of 300 sft. to qualify for the allotment of residential plot against the compensation. Similarly Plot No. 695 size (25 x 50) was allotted to Mr. Zeeshan Ahmed S/o Abdul Rehman in Islamabad Model Village Chatha Bakhtawar on 04.10.2019 being an affectee of Village Chatha Bakhtawar against the Built-up Property (BuP) No. 2/6 S .No. 16 measuring 170 sft.

Audit further observed that after the award, the area of BUP of the affectee was unauthorizedly enhanced from 170 sft. to 379 sft. to compensate the said person who was not entitled/eligible for allotment of plot due to less area as required for allotment.

This resulted in unjustified allotment of residential plot to ineligible affectees of Rs 45.00 million (Approximately).

Audit pointed out loss to Authority during June 2023. The Authority replied that Built-up Property (BuP) award was reviewed by the then Deputy Commissioner, CDA and approved by the Member (Estate), CDA being competent authority.

The reply was not accepted because original BuP with back up details/survey reports, revenue record as well as revised BuP with relevant details and process of approval of revised BuP was not verified.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 04.10.2023, 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends provision of original BuP with back up details/survey reports, revenue record as well as revised BuP with relevant details and process of approval of revised BuP to Audit for scrutiny.

(DP. 92)

3.4.57 Deviation from the approved LOP and non-recovery on account of delay in development of the housing scheme - Rs 42.984 million

According to revised Modalities & Procedures (2020) framed under ICT (Zoning) Regulation, 1992 (As amended) for Development of Private Housing/Farm Housing scheme in Zones 2, 4 & 5 of Islamabad Capital Territory Zoning Plan. Clause-6 "Scrutiny Fee for the Detailed Schemes" provides that "a scrutiny fee at the rate scheduled in Annex-F; shall be payable through bank draft/pay order to the Authority and shall be deposited along-with the submission of detailed scheme as required by paragraph-4. The scrutiny fee is, however, subject to revision by the Authority from time to time.

Audit noted that Director Housing Society (CDA) approved the Layout Plan (LOP) of Roshan Pakistan Corporation Housing Society in Sector E-16, Zone-II, Islamabad sponsored by M/s RP Corporation Pvt. Ltd. on 06.07.2004. The scheme comprising of 1,619 kanals was approved and NOC of the scheme was issued by CDA on 11.03.2006.

During scrutiny of the available record of the Roshan Pakistan Corporation Housing Society, Audit observed that total area in Fard Jamabandi was 1,377 kanal and 10 marlas whereas the LOP of the scheme was approved by the CDA for 1619 kanals. According to Fard Jamabandi, only 861 kanals of land was owned by Roshan Pakistan Corporation Housing Society and rectification Mortgage Deed was not according to the specimen available in Modalities and Procedure of the Zoning Regulations. The development of site was entirely different from the approved LOP and the scheme does not have any proper access/approach. The Director Housing Society imposed fee/fine/penalty of Rs 42.984 million for the delay in development of scheme, extension charges, etc., in the year 2015 but the same was not recovered even after seven (07) years (up to the year 2022).

This resulted in deviation from the approved LOP and non-recovery of Rs 42.984 million.

Audit pointed out the loss in February-March 2023. The Authority replied the sponsors of the scheme deposited all the dues and other requisite fee. However, their NOC was withdrawn/revoked, but it can be reinstated upon payment of the required fee.

The reply was not accepted because reasons leading to withdrawal of NOC were not shared with Audit. The stake of the general public who paid for plots in the society was not safeguarded.

The matter was discussed in DAC meeting held on 31.01.2024 wherein DAC directed CDA to provide a comprehensive report explaining the violation of LOP, chronology/timelines of actions to be taken before NOC, notices, outcome of NAB proceedings, along with supporting record to Audit for scrutiny.

Audit recommends compliance of DAC's directive.

(DP. 74)

3.4.58 Loss due to change of plots allotted from non-developed Sector to developed Sector on the choice of the allottees - Rs 41.00 million

According to Para 3, Part-I of CDA Land Acquisition and Rehabilitation Policy, 2007 (Land Sharing Basis), land will be acquired on land sharing basis, meaning a developed plot of one kanal will be allotted to the affectee/land owner for every four kanals of land acquired from him in the same sector.

Audit noted that the Director Land & Rehabilitation CDA, Islamabad allotted seventeen (17) residential plots having sizes of (25x50) and (50x90) through computer balloting in Sector I-14 and C-16, Islamabad to legal heirs against the built-up property (BUP) and issued allotment letters. Thereafter, the above-mentioned plots were changed/deleted and further allotted in developed Sector I-12 and C-15 in lieu of already allotted plots on the choice of the allottees through corrigendum and without revision of the Layout Plan (LOP). This resulted in loss of Rs 41.00 million to the Authority (**Annexure-X**).

Audit pointed out the loss during June 2023. The Authority replied that the allotted plots in Sector I-14 were changed in Sector I-12 due to revision of LOP of Sector I-14, through open balloting.

The reply was not accepted because the original and revised LOP of Sector I-14 with justification and relevant record, as well as entitlement of the legal heirs was not produced in support of reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 04.10.2023, 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends that Authority may produce the details of all plots exchanged through corrigendum during 2021-22 along with reasons and justification besides effecting the recovery on account of difference of cost.

(DP. 93)

3.4.59 Non-accountal/recovery of available stone material - Rs 39.078 million

Item 106.2 and 106.3.1 of NHA General Specification provides that all suitable material excavated within the limits and scope of the project shall be used in the most effective manner for the formation of

the embankment for widening of roadway for backfill or for other work included in the contract. The cost of excavation of material which is used anywhere in the project shall be deemed to be included in the pay item relating to the part of the work where the material is used.

Audit noted that Director Road (North) CDA, Islamabad awarded a contract for “Construction of Khayaban-e-Margallah from GT Road to Sector D-12, Islamabad Balance Work (Package-I)” to M/s FWO at agreed cost of Rs 965.274 million on 19.05.2021 and revised contract cost of Rs 2,669.297 million after VO-3 with completion period of twelve (12) months. EOT up to 28.02.2023 was granted. The contractor was paid Rs 2,212.035 million up to 9th running bill in April 2023. Escalation of Rs 158.575 million was paid.

Audit observed that the Deputy Director Road Division No. II, Directorate of Road (North), CDA Islamabad executed and measured items of stone masonry for a quantity of 36,898.19 Cu.m and paid Rs 189.703 million in the construction of work. An item of excavation of surplus/unsuitable hard rock executed for a quantity of 68,648.99 Cu.m was also available at site which was neither stacked at site and accounted for in the Divisional Stock for further disposal nor adjusted from the items of stone masonry executed in the work. This resulted in non-accountal/stacking/recovery of stone valuing Rs 39.078 million.

Audit pointed out non-accountal/recovery in July/August 2023. The Authority replied that total cutting of hard rock was 324,071.72 Cu.m out of which a quantity of 255,257.08 Cu.m was used in formation of embankment and remaining 68,814.64 Cu.m was surplus. The contractor has not yet mobilized at the site and the stock of surplus material is also under the watch and ward of the contractor being contractual obligation as the project is not yet been handed over to Employer.

In reply the Authority admitted that there was surplus quantity of excavated stone and the accountal/recovery of the same was not made/adjusted.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 04.10.2023, 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends for accountal/adjustment of the hard rock excavated and to effect recovery.

(DP. 113)

3.4.60 Non-deduction of the earnest money of the 1st lowest Rs 759,000 and irregular award of work on negotiation basis to 2nd lowest bidder – Rs 27.500 million

Rule 38 of the Public Procurement Rules 2004 provides that the bidder with the lowest evaluated bid, if not in conflict with any other law, rules, regulations or policy of the Federal Government, shall be awarded the procurement contract, within the original or extended period of bid validity.

Rule 40 of ibid rules also provides that there shall be no negotiations with the bidder having submitted the lowest evaluated bid or with any other bidder.

Audit noted that the Executive Director, Capital Hospital CDA Islamabad awarded a contract for “Supply of three function Motorized beds on F.O.R basis for Capital Hospital” to the contractor on 10.02.2022 with agreement amount of Rs 27.500 million.

Audit observed that the financial bid was opened on 28.12.2021 in which three (03) firms were qualified and M/s Delta Plus declared 1st lowest bidder with its quoted bid of Rs 24.150 million which was 46.33% below the estimated cost of Rs 45.00 million. Audit further observed that M/s Delta Plus requested CDA Management on 31.12. 2021 to extend the delivery period to 75 days due to Christmas & New year holidays combined with Chinese New Year which was rejected by the Authority Management on 01.01.2022 and contractor was directed to visit the hospital on 03.01.2022 for execution of contractual agreement. Later on, M/s Med Engineering reduced the rates through under taking dated 01.01.2022 from Rs 34.731 million to Rs 27.500 million and authority awarded the contract to M/s Med Engineering without cancelling the bid of 1st lowest bidder M/s Delta Engineering which was certainly as a result of negotiations with the 2nd lowest bidder.

Audit is of the view that the Authority was required to cancel the bid of 1st lowest bidder deduct the earnest money and go for retendering for a healthy competition, which was not done and work was awarded through negotiation to the 2nd lowest bidder. This is a violation of Public Procurement Rules and points to lack of fair and transparent competitive tendering process. This resulted in irregular award of work on negotiation basis – Rs 27.500 million and non-deduction of the earnest money of the 1st lowest bidder Rs 759,000.

Audit pointed out irregularity in March 2023, but the Authority did not reply.

The matter was discussed in DAC meeting held on 19.01.2024. The management apprised that 1st lowest bidder applied for extension in the stipulated period for supply of motorized beds, however, due to urgency of the matter, extension was not granted and work was awarded to 2nd lowest who supplied the beds within stipulated time period. DAC was not satisfied and directed a fact finding inquiry at Ministry level within one month and report be submitted to Audit.

Audit recommends fixing responsibility against the person(s) responsible besides corrective action.

(DP. 49)

3.4.61 Overpayment on account of separate measurement of inbuilt component - Rs 25.500 million

Non-schedule contains 'Providing, installation of split type of air conditioner 1.5 tons capacity heat and cool D.C inverter (make Gree, Haier) complete in all respect for a quantity one hundred and fifty-one (151) @ Rs 167,863.27.

Audit noted that the Director Works CDA, Islamabad awarded a contract "Construction/ Establishment of ninety-three (93) District Courts in Sector G-11/4 Mauve Area Islamabad" to M/s FWO at agreed cost of Rs 1,473.033 million on 03.09.2021 with a completion period of six (06) months. The contractor was allowed a first extension of time (EOT) from 03.03.2022 to 31.08.2022 and 2nd EOT from 01.09.2022 to 30.11.2022. The contractor was last paid 8th running bill for Rs 1,468,906,850 in June 2023 recorded in MB 18744 at Pages-1 to 47.

Audit observed that a separate record measurement in IPC was made for an item of work "providing installation of copper pipe, aero flex insulation, flexible power cable, etc., (any size, any dia as per site requirement) from outdoor to indoor complete in all respect as per entire satisfaction of Engineer Incharge" for a quantity of 5,000 meter @ Rs 5,100 whereas the cost of this item was inbuilt in the above referred pay item of BOQ. Therefore, its separate payment was not admissible. This resulted in overpayment on account of separate measurement of inbuilt component of work Rs 25,500,000.

Non-adherence to rules caused overpayment due to separate measurement of inbuilt component for Rs 25.500 million.

Audit pointed out the overpayment in November 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends early recovery of the overpaid amount from the contractor besides appropriate action against the person(s) at fault.

(DP. 264)

3.4.62 Non-cancellation of plot valuing Rs 147.220 million and loss to the government due to non-deposit of taxes - Rs 3.680 million

Clause 2 of Chapter “Mode of payment” of Auction Boucher, states that in case of failure to pay the due installment and/or applicable taxes within given time period, the acceptance of bid shall stand automatically withdrawn and 10% of the total premium shall be forfeited. Clause 8 of Chapter “Mode of Payment”, provides that allottees are required to pay all applicable taxes in the prescribed manner and submit proof to the Authority within the prescribed time along with the premium, failing which acceptance of bid letter shall be withdrawn.

The provisional acceptance of Plot No. 1-P, I-12 Markaz, Islamabad, was issued on 31.08.2021, directing the successful bidder to deposit first installment amounting to Rs 130,665,725 within 30 working day i.e., up to 11.10.2021, but the bidder deposited the first installment on 12.10.2021. So the provisional acceptance was withdrawn on delay of just one day.

In another case, Audit noted that Plot No. 21-G (111.11 sq. yard) in Sector G-10 Markaz, Islamabad, was auctioned on 4-5.08.2021, for an amount of Rs 147,220,750 (Rs 1,325,000 per sq. yard).

During scrutiny of the account record of the Director, Estate Management-II, CDA, Audit observed that the successful bidder of Plot No. 21-G (111.11 sq. yard) in Sector G-10, Markaz, Islamabad, did not provide tax payment receipt of Rs 3,680,518 to the Authority. The payment of taxes was due in September 2022 and 2nd notice was served in November 2022. Consequently, provisional acceptance of the plot should have been withdrawn, which was not done rather notices were served to the bidder to submit the dues. Audit further observed that in case of Plot No. 1-P, I-12 Markaz Islamabad, allotment was cancelled due to minor delay of just one day in payment of first installment which reflects selective implementation of law by CDA. This resulted in loss of Rs 3.680 million.

Audit holds that irregularity occurred due to weak internal controls, non-adherence to the terms and conditions set by the Authority and non-uniform/selective implementation of the terms & condition of the auction brochure.

Audit pointed out non-recovery of advance tax in March 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 04.10.2023, 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends recovery of the advance tax at the earliest, fixing responsibility and disciplinary action for this negligence against the persons responsible.

(DP. 211)

3.4.63 Discrepancies in the Layout Plan (LOP) in violation of CDA by-laws

Para 7 (ii) (d) of modalities & procedure framed under ICT (Zoning) Regulation, 1992 provides that after approval of layout plan, the sponsor shall transfer to the Authority in the form annexed as Annexure "C" and free of charge, the land reserved for open spaces/parks, grave-yard, and land under right-of-way of roads, etc., in the scheme, within 45 days of the clearance of the detailed layout plan of the scheme.

According to Clause-5 of Modalities and Procedures framed under ICT (Zoning) Regulation, 1992, the planning standards may vary depending on the residential density desired to be achieved by the sponsors of the schemes. However, land use percentages must remain within the prescribed limits.

Audit noted that the Directorate of Housing Societies Planning Wing, CDA Islamabad approved the LOP of Islamabad Garden Housing Scheme Sector-E-11, Islamabad sponsored by Multi Professional Co-operative Housing Society (MPCHS) on 10.06.2005 and NOC was issued on 22.08.2005 over land measuring 811.5-Kanals.

During scrutiny of the accounts of the Islamabad Garden Housing Scheme, following discrepancies were found in the actual LOP:

The land use analysis as per actual land use percentage (%) of Public Building/Parks/open spaces areas, graveyard and roads/streets were not according to the modalities and procedure framed by the CDA.

Description	Planning Standards	Discrepancies
Open/Green Spaces/Parks	not less than 8%	3.59%
Graveyards	less than 2	1.04%
Public buildings like school, mosque dispensary, hospital, post office Community center,	not less than 4%	3.25%

As evident from letter dated 24.01.2023, all land under, Public Building/Parks/open spaces areas, graveyard and roads/streets measuring 332.80 kanals stands transferred to CDA. But after the lapse of 11 years up to 2022, the M/s Multi Professional Cooperative Housing Society did not submit certified true copy of the sanctioned mutations of measuring 332.80 kanals neither certified from Tehsildar, ICT, Islamabad up till now.

Aks Shajra showing the boundary of a Public Building/School area, Parks/open spaces areas, and graveyard duly signed by the Tehsildar with certificate on it that land in question is contiguous, compact owned and possessed were neither provided, nor transfer deed was made on legal documents in the name of CDA after the lapse of 11 years.

Audit pointed out the loss in February-March 2023. The Authority admitted audit observation and replied that Planning Wing, CDA was asking MPCHS to transfer the land under roads, public building areas in the name of CDA which had not been complied.

The matter was discussed in DAC meeting held on 31.01.2024 wherein DAC directed CDA to pursue the matter of due recoveries and transfer of public amenities land to CDA and outcome of efforts in this regard be shared with Audit.

Audit recommends compliance of DAC's directive.

(DP. 80)

3.4.64 Non-finalization of 120 inquiries against the CDA officers/officials due to corruption, misplacement of plot files and other charges

According to Establishment Division Secretary's D.O. letter dated 06.06.1981(SI-130 of ESTA Code) the following measures should be strictly observed while conducting/finalizing of the disciplinary cases:

The Inquiry Officer be carefully selected for his competence and capability to hold the inquiry. A time-limit should be prescribed for completion of the inquiry. Until the inquiry is completed, the Inquiry Officer, the accused as well as the witnesses concerned should not be permitted to proceed on leave, training course or on transfer in or outside Pakistan. A check-sheet, recording the day to day progress, should be maintained by the Inquiry Officer. The inquiry proceedings once started should be held without interruption, as far as possible, on day to day basis. On receipt of the inquiry, the case should be processed expeditiously by the Ministry concerned. It should be impressed upon the Inquiry Officer that the quality of work produced by him will reflect on his efficiency, which will be recorded in his Annual Performance Evaluation Report. The initiating officer should record his assessment of the Inquiry Officer's performance.

Audit noted that Director Security, CDA conducted one hundred twenty (120) Fact Finding Inquiries and complaints against the various wings/CDA officers/officials regarding the allotment of plots and other issues.

Audit observed that delaying tactics were being adopted to delay in finalization of formal inquiry causing undue favor/latitude to the involved officers/officials of the CDA but, also encouraging the other employees to commit such offences/irregularities in future.

Audit pointed out the non-finalization of inquiries against the CDA officers/officials in May 2023, but the Authority did not reply.

The matter was discussed in DAC meeting held on 23.01.2024. The management apprised that while assigning inquiries, the HRD section had always kept insight the instruction of the Establishment Division for adherence in letter & spirit and never deviated thereof. Once inquiries are assigned, the Confidential Cell, HRD Directorate takes upon itself the responsibilities of vigorously pursuing the same for conclusion without overstepping the time lines specified in the relevant rules/ instructions. HRD Directorate extends its support to the inquiry committees/ inquiry officers in getting access to record.

DAC directed that status of 120 inquiries mentioned in the para shall be shared with Audit within seven days. DAC further directed that detail of inquiries assigned on prescribed format including nature of inquiry, authority, inquiry committee, date of initiation, present status showing if finalized recommendations/penalties and action taken, and if not finalized reasons for non-finalization shall also be shared with Ministry and Audit. DAC further directed that inquiries be finalized before the retirement of the officers being proceeded.

Audit recommends taking necessary corrective action.

(DP. 68)

3.4.65 Illegal construction of commercial buildings by Bahria Town without approval

ICT (Zoning) Regulations 1992 and the Modalities and Procedures for development of private housing schemes empowers CDA to regulate Planning and Development of Private Housing Schemes in Zone-2 and Zone-5 of the ICT.

Section 46 of CDA Ordinance 1960 provides that whoever contravenes any provision of this Ordinance or of any rules or regulations made or scheme sanctioned there under shall, if no other penalty is provided for such contravention, be punishable with imprisonment which may extend to six (06) months or fine or with both and 46-B of ibid regarding disobedience of orders provides that whoever, without lawful excuse, fails or refuses to comply with any direction or order issued by the Authority under the Ordinance shall be guilty of an offence punishable under section 46.

Clause 5 (iii) ICT Zoning Regulation 1992 provides that any person, group of persons, organization, etc., found guilty of violating any of the provisions of the Regulation of who or which without lawful excuse fails or refuses to comply with any direction or order issued by the Authority in this behalf may be proceeded against under section 46 and 46-B of the CDA Ordinance, 1960.

Audit noted that the Director Housing Societies (CDA) approved Layout Plan (LOP) of Bahria Town Phase III-E & IV Zone-5, Islamabad sponsored by M/s Bahria Town Pvt. Ltd. on 18.12.2010.

Audit observed that in Bahria Town Phase III-E & IV Zone-5, Islamabad that approximately twenty (20) commercial building were constructed and about five (05) commercial building were under construction along Corniche Road Bahria Town Phase III-E & IV, Islamabad in sheer violation of approved LOP of the scheme approved on 18.12.2010. The said area was earmarked as linear Park

and Right of Way (ROW) of Soan Road as per the approved LOP. Moreover, M/s Bahria Town Pvt. Ltd. did not obtain NOC for development of the scheme from the Directorate Housing Societies CDA. CDA has taken no action against the M/s Bahria Town Pvt. Ltd. Phase III-E & IV. This resulted in illegal construction of commercial building without prior approval from the CDA in violation of the LOP.

Audit maintains that irregularity/violation of the LOP occurred due to lack of internal and supervisory/monitoring control of the CDA.

Audit pointed out the irregularity in March 2023. The Authority replied that the commercial building was constructed without the approval of CDA but due to efforts of CDA, Bahria Town administration submitted their scheme with relevant regularization fees.

The reply was not accepted because unauthorized construction was carried out under the nose of CDA without approval. No evidence was furnished in support of regularization process and deposit of fees as replied.

The matter was discussed in DAC meeting held on 31.01.2024 wherein DAC observed that the unauthorized construction was being carried out on ROW of Soan Road and hindering the water stream which could cause urban flooding besides environmental hazards. DAC directed CDA to enforce construction bylaws and submit a comprehensive report thereon to Ministry and Audit.

Audit recommends compliance of DAC's directive.

(DP. 76)

3.4.66 Non-maintenance of computerized data base for 5,777 commercial/industrial property worth billions of rupees

Departmental Accounts Committee (DAC) in its meeting held on 25.05.2023 while discussing para No. 3.5.40 for Audit Year 2019-20 directed CDA that the process of computerization of inventory/assets should be completed by the end of June 2023.

During scrutiny of files record of Director Estate Management-II (Commercial), CDA Audit requisitioned information and record regarding the total number of units in each sector, number of

motels, number of hotels, total number of business units, units awarded on lease basis, total number of plots and their locations whose leases have expired or nearly expired, total number of units involved in non-conforming use, number of units granted to NGOs, lease amount received and recoverable in each financial years, etc.

Audit observed that the record of total 5,777 commercial/industrial plots, as detailed below, were maintained on property ledgers and files operating since 1986 which were in deteriorated condition and partially torn. Most of the ledger sheets were not updated. In the absence of accurate information, the Management did not know the exact position regarding expired or nearly expired lease agreements, outstanding recovery period from business units, notices served to the leases and their response, etc.

Plots classification	No. of plots
Commercial	1,700
Industrial	1,950
Agro Farms	527
Government	1,600
Total	5,777

Audit maintains that due to the absence of Management Information System, CDA was unable to raise demands against outstanding dues on account of cost of land, AGR, lease extension charges and other receivable(s). Moreover, details of total cancelled plots, their present status, restoration cases were not available with Estate Management Directorate.

This resulted in non-maintenance of computerized data base for commercial property worth billions of rupees.

Audit pointed out non-maintenance of computerized data during March 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 04.10.2023, 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends fixing responsibility through a fact finding inquiry besides maintenance of computerized record of all land/plots and details of commercial/residential at the earliest.

(DP. 219)

3.4.67 Non-transfer of land under roads/streets, public building area park/open space, graveyard in the name of CDA and improper maintenance of record of private housing societies

As per provisions of ICT Zoning Regulation 1992, Para-2(b) (vi) “all land reservations made for roads and other services in such schemes shall belong to the Authority”. (f) all land reservations made for roads and utilities in such schemes shall belong to the Authority.

According to Clause-8(d) of Revised Modalities & Procedure (2020) framed under ICT (Zoning) Regulation, 1992, private housing society shall transfer the land reserved for open space/parks, graveyard and land under right-of-way of roads, etc., in the scheme, within 45 days of the clearance of the detailed LOP of the scheme. Plots under mosques, solid waste collection point and STP will not be part of 1% public building area for the purpose of transfer.

Section 46 of CDA Ordinance, 1960 provides that, whoever contravenes any provision of this Ordinance or of any rules or regulations made or scheme sanctioned there-under shall, if no other penalty is provided for such contravention, be punishable with imprisonment which may extend to six months or fine or with both and Section 46-B provides that whoever, without lawful excuse, fails or refuses to comply with any direction or order issued by the Authority under the Ordinance shall be guilty of an offence punishable under section 46.

During scrutiny of record of Director Housing Societies CDA, Islamabad, Audit observed that:

Twenty seven (27) housing societies were identified by CDA and declared as illegal/unauthorized for lacking CDA approval. . CDA did not take action against the sponsors of these schemes. The Directors Housing Societies and Building Controls did not inspect the area under CDA jurisdiction.

CDA approved the LOP of private Housing schemes but these housing schemes did not transfer and mutate land under roads/streets, public building area, park/open space, graveyard, etc., in the name of CDA.

CDA did not maintain separate ledgers of each housing scheme showing the position of revenue/receipt/fee/fine charges/penalty of each society, date of receipt of scrutiny fee of scheme along with amount received, deposit of development cost of schemes and mortgaged area with CDA.

Record did not indicate dates of processing of engineering design fee, dates of payment of inspection/monitoring fee along with amount of pay order, date of inspection of quality works by CDA, CE-Lab, date of Approval of revised LOP in case of changes in the original LOP along with the amount of extension fee.

Building Control Wing CDA did not penalize against non-conforming use in the private housing schemes. Revenue collection register i.e., pay orders received from various property owners for the completion certificates, Approval of Building Plan, scrutiny fee and detail of any other charges imposed from time to time was not prepared

Audit pointed out the matter in March 2023. The Authority replied that the housing schemes/societies already transferred land in favour of CDA prior to issuance of NOC. As regards to illegal/unauthorized housing societies, the Authority replied that Planning Wing CDA issues notices and puts efforts for stoppage of illegal activities. Periodically public notices are also issued in national dailies for awareness of the general public. Necessary ledgers would be prepared accordingly.

The reply was not accepted because CDA did not provide mutation record in support of land transferred by the housing societies. CDA bylaws authorize penal and legal action against the illegal/unauthorized housing societies. CDA record was silent about any such action initiated against illegal/unauthorized housing societies.

The matter was discussed in DAC meeting held on 31.01.2024 wherein DAC directed CDA to enforce building bylaws using powers under CDA Ordinance 1960. DAC further directed CDA to make strenuous efforts by issuing notices and taking legal action against the illegal/unauthorized housing societies. A comprehensive compliance report be shared with Ministry and Audit.

Audit recommends compliance of DAC's directive.

(DP. 71, 78 &79)

3.4.68 Irregular approval of layout plan (LOP) of private housing society

Clause-6 “Scrutiny Fee for the Detailed Schemes” of the Revised Modalities & Procedures (2020) framed under ICT (Zoning) Regulation, 1992 (As amended) for Development of Private Housing/Farm Housing Scheme in Zones 2, 4 & 5 of Islamabad Capital Territory Zoning Plan, provides that a scrutiny fee shall be payable through bank draft/pay order to the Authority and shall be deposited along-with the submission of detailed scheme.

Clause -8 of Modalities and Procedures framed under ICT (Zoning) Regulation, 1992 provides that LOP shall be approved provisionally and issued to the sponsors with a clear stamp indicating that the plan is provisionally approved for the preparation of detailed engineering design, transfer deed, mortgage deed and subsequent NOC. Strictly not to be used for marketing purposes. Objection, if any, in the layout plan will be communicated by registered post acknowledgement due, to the sponsors for rectification within a period not exceeding 30 days of issuance of communication failing which the scheme will not be processed further till removal/settlement of objections.

Audit noted that Director Housing (CDA) approved LOP of Al-Makkah City Housing Scheme Sponsored by M/s Brother Construction YK Pvt. Ltd. Vide letter dated 15.12.2020 measuring 408.43 kanals falling in Mouza Lidhiot Zone-5, Islamabad, with observations which were not responded by the Sponsor:

The sponsor may purchase land approximately 2 kanals from Japan Road up to scheme area, within forty five (45) days from the date of issuance of this letter or shall pay the cost of acquisition of land from Japan Road up to scheme area to CDA and the acquired land shall directly be transferred in the name of CDA prior NOC. But the Sponsor failed to execute Mortgage Deed on legal documents within stipulated period.

The sponsor failed to execute Transfer Deed on legal documents with stipulated period

The sponsor failed to publish public notice in the press regarding the mortgage of plots under saleable area with the Authority.

The sponsor did not get the Engineer Designs vetted from the Authority.

The Sponsor had not submitted the design of STP.

The Sponsor had not submitted the comprehensive Solid Waste Management Plan as per approved LOP of the scheme.

The sponsor had not provided test boreholes at site recommend by ERS Report.

The sponsor started the development of scheme without prior approval of engineering design in addition to submitted fine/penalty in this respect.

Audit maintains that despite above shortcomings, CDA approved LOP which was against the rules and procedure.

Audit pointed out the recovery in March 2023. The Authority replied that the concerned housing scheme has already deposited the requisite fees/penalties and nothing was outstanding on the part of sponsors.

The reply was not accepted because details/process of approval of LOP and recovery of dues was not verified in support of reply.

The matter was discussed in DAC meeting held on 31.01.2024 wherein committee directed CDA to provide the details/process of approval of LOP and record in support of recoveries made to Audit for verification.

Audit recommends compliance of DAC's directives.

(DP. 73)

3.4.69 Non-recovery of outstanding balance from Metropolitan Corporation Islamabad (MCI) - Rs 26,930.631 million

As per CDA Budget Estimates for the financial year 2021-22, duly approved by Federal Cabinet, funds are being provided by CDA to MCI on loan basis which are recoverable/ adjustable. CDA has provided loan amounting to Rs 44,142.620 million to MCI since 2016-17 to 2021-22 (up to February-2023).

During scrutiny of the accounts record relating to the Treasury Division CDA for the financial year 2021-22, Audit noted that CDA received Rs 17,211.989 million. A net amount of Rs 26,930.631 million (Rs 44,142.620 million – Rs 17,211.989 million) was outstanding against MCI. This resulted in non-recovery of outstanding balance from MCI for Rs 26,930.631 million.

Audit pointed out the matter in May 2023. The Authority replied that MCI entrusted its functions to CDA with the approval of Federal Government to carry out its functions for the ease of public doing business.

The reply was not accepted because CDA provided loan to MCI for Rs 44,142.620 million and received back Rs 17,211.989 million. A net amount of Rs 26,930.631 million was outstanding against MCI.

The matter was discussed in DAC meeting held on 19.01.2024. DAC directed the management to submit a comprehensive report on the matter to Audit within seven days.

Audit recommends early recovery/adjustment.

(DP. 27)

3.4.70 Non-adjustment/recovery of unutilized funds - Rs 2,000.00 million

Federal Cabinet accorded approval for establishing Islamabad Development Fund Limited (IDFL) in CDA on 01.12.2021. The main objective was to develop various projects including an exclusive project for overseas Pakistanis for investment in Islamabad i.e., high-rise apartments and other standalone development initiatives including Real Estate Investment Trust.

Audit noted that Treasury Division CDA released an amount of Rs 2,000.000 million as seed money/paid up capital to IDFL, pursuant to the approval of Federal Cabinet as under:

(Rs in million)

S. No.	Bank	Cheque No.	Date	Amount
1	JS Bank	1810247779	06.01.2022	1,000.000
2	HBL	1810247780	20.01.2022	1,000.000
Total				2,000.000

Audit observed that despite the lapse of one year, CDA took no step for utilization of funds. Bank statements for the reconciliation of available balances were also not obtained and available with CDA Treasury Division.

This resulted in non-adjustment/recovery of unutilized funds of Rs 2,000.00 million.

Audit pointed out the matter in May 2023. The Authority replied that Treasury Division released amount of Rs 2,000.00 million after fulfilling all formalities and approval of the Federal Cabinet and the CDA Board. Due to change of the senior Management and board members of CDA including Chairman, CDA, the work could not be executed on the projects. However, Treasury Division was not responsible for the execution of the work.

In reply, Management admitted that the projects, for which funds were released, were not executed and funds were parked without utility. Cash book and bank statement of this Account were also not available in the record.

The matter was discussed in DAC meeting held on 19.01.2024. DAC directed that a comprehensive reply shall be submitted to Ministry and Audit. DAC further directed that the matter shall be referred to CDA Board to decide future strategy and outcome be shared with Ministry and Audit.

Audit recommends that responsibility be fixed for failure in initiating and developing projects including exclusive project for overseas Pakistani for investment in Pakistan against the Management of IDFL besides adjustment/transfer back the amount in CDA Accounts.

(DP. 24)

3.4.71 Lapse of development and non-development funds - Rs 552.079 million

As per Sections 11 and 12 of Public Finance Management Act, 2019, all Ministries/Divisions, their Attached Departments and Sub-Ordinate Offices are required to sanction re-appropriation of funds and surrender the anticipated savings to the Finance Division by 31st of May each year. Accordingly, Finance Division vide O.M No. F.No.4(2)-CAO(MoF)/2021-22/563 dated 14.05.2022 requested all Principal Accounting Officers to surrender the anticipated savings on priority basis but not later than 31.05.2022 for proper utilization of funds where required.

During scrutiny of accounts record of Treasury Directorate CDA Islamabad Audit noted that an amount of Rs 5,770.936 million was received/allocated during the financial year 2021-22 against PSDP, Maintenance Grant, Deposit Works (through assignment accounts) and pay & allowances. Audit observed that CDA utilized funds of Rs 5,218.857 million leaving balance of Rs 552.079 million (as detailed below), thus stood lapsed at the closing of the financial year 2021-22. These funds were lapsed and could not be utilized towards some other development and non-development activities.

(Amount in Rs)

Description	Grants Received	Expenditure	Balance
PSDP Grant	2,787,099,000	2,271,851,923	515,247,077
Maintenance Grant	2,750,446,000	2,724,932,992	25,513,008
Lapsed Deposit Work	233,391,000	222,072,093	11,318,907
Total	5,770,936,000	5,218,857,008	552,078,992

Audit pointed out the matter in May 2023. The Authority replied that CDA received PSDP grant and Maintenance grant on quarterly basis which were credited in various lapsable assignment accounts. Maintenance grant has to be fully utilized during the financial year with the exception that few funds may be lapsed due to late presentation of assignment account cheques after 30th June and funds retained in other allowances heads which cannot be utilized as AGPR raised observations in the last days of the financial year.

The reply was not accepted because the funds were lapsed due to slackness of CDA. The responsibility of maintenance of consolidated accounts lied with Treasury Division/Accounts Directorate.

The matter was discussed in DAC meeting held on 19.01.2024. The management could not provide cogent reasons for the lapse of funds. DAC showed displeasure on the ill-preparedness of the management and directed that DG Planning and DG Services should provide a comprehensive report on PSDP and Maintenance Grant explaining reasons for lapse of funds along with relevant record to Ministry & Audit within seven days.

Audit recommends inquiry to fix responsibility for not surrendering the unutilized funds timely. CDA should devise internal controls to improve internal coordination amongst its formations/ directorate.

(DP. 19)

3.4.72 Non-recovery from different contractors - Rs 98.213 million

Rule-01(i) of CDA Procedure Manual Part-II, financial procedure provides that every officer authorized to incur expenditure from public funds is expected to exercise same vigilance in respect of expenditure from public funds as person of ordinary prudence shall exercise in respect of his own money.

Audit noted that in different Directorates of CDA, Islamabad an amount of Rs 98.213 million was required to be recovered from contractors from the payment made to the contractors during the financial year 2022-23.

Audit observed that in different divisions of CDA shortcomings/recovery were found like, cost of dismantled material, room rent, water charges, non-provision of site facilities and delay damages due to non-completion of works within a stipulated time period, non-recovery of insurance premium & non-recovery of sales tax. This resulted in overpayment/non-recovery from contractors of Rs 98.213 million (**Annexure-Y**).

Audit maintained that non-recovery occurred due to lack of effective internal financial controls.

Audit pointed out non-recovery during July and August 2023. The Authority did not reply.

DP. 16, 63, 69 was discussed in DAC meeting held on 19.01.2024. DAC directed verification of complete record including dismantled stock register, FBR notification, registration status of suppliers, court proceedings within seven days. DAC further directed that SOP for early auction of dismantled material be framed to avoid its further deterioration.

Audit recommends that Authority may recover the amount from the contractor under intimation to Audit.

(DP. 16, 63, 69, 116, 122, 125, 166, 202, 207, 242, 246, 254, 257, 269&322)

3.4.73 Non-implementation of Building Control By-laws

Section 2.17 of Zoning (Building Control) Regulations, 2005 (Ban on non-conforming uses), provides that no land or building shall be put to a non-conforming use. A non-conforming use of a residential building may render the owner and occupant of the building liable on 1st conviction to pay a fine of Rs 500,000 and in case of failure to discontinue the non-conforming use within fifteen (15) days of conviction to an additional fine Rs 5,000 for every day up to three (03) months. The owner or the occupant, as the case may be, shall be liable to be evicted from the building and the allotment deed of the plot be cancelled.

Clause 2.8.1 of Building Controls Regulations, 2020 provides that no building or structure or part thereof shall be occupied or used without obtaining completion certificate (permission to occupy) from the Authority, within three months after the expiry of initial construction period. No person shall occupy or permit to be occupied, any such building or use or permit, to be used any part affected by the erection/re-erection, if any, of such building, until the completion certificate/permission to occupy is obtained.

During scrutiny of the accounts record of Building Control Directorate, CDA, Islamabad, Audit observed the following:

1,224 notices were issued during the financial year 2021-22 to owners of the residential houses being used for non-residential purposes but penalty of Rs 612.00 million (1,224 x Rs 500,000 each) was not imposed and recovered.

In financial year 2021-22, Rs 565.102 million were received in the Directorate through One Window but details of receipts i.e., approval of completion plan, non-conforming use penalty and NOC fee for transfer of residential and commercial properties were not maintained. No authorized person was nominated by CDA Management to receive pay orders. Proper receipts books neither issued by the Management of CDA nor duly signed by an Authorized Officer. No proper DDO is present to look after revenue and receipts matters.

A number of residential apartments and commercial buildings of various societies located/situated in Islamabad were completed but the owners did not ensure approval of obtaining of completion certificates from CDA before occupation of these completed properties.

In absence of proper patrolling by the Building Inspectors, it was not possible to cater the irregularities occurring in the Private Societies of Islamabad.

Islamabad High Court in a case directed CDA that the affair of the housing societies be examined on case to case basis but compliance was not made.

Audit observed during the scrutiny of record that there was an amount of Rs 68.944 million lying with DDO in September 2021 which was not remitted to the main account of treasury.

Audit pointed out non-implementation of Building Control By-laws in April 2023, but the Authority did not reply.

The matter was discussed in DAC meeting held on 12.01.2024 wherein CDA explained that record was maintained and DDO was also in place. Cash books were being maintained. Audit contended that the record in support of reply was not verified. DAC directed that point-wise detailed revised reply be submitted and a comprehensive report be shared with Ministry & Audit regarding approval and implementation of SOPs/policies for revenue collection and its remittance into treasury. DAC further directed that consolidated reconciled statements and measures taken to rectify the deficiencies be got verified from Audit within seven days. With reference to DP. 3 and 4, DAC directed the management that the matter may be presented in the upcoming CDA Board meeting with recommendation from Building Control Committee for decision regarding sealing of buildings till issuance of completion of certificate to avoid any mishappening in future. DAC further directed to review system, strengthen controls and make sure 100% implementation/ compliance of policies. All the Directorates of CDA be aligned and survey reports and action taken be verified from Audit DAC. DAC further directed CDA to get the required record i.e., detail of court cases, detail/ breakup of illegal constructions/non-conforming use alongwith detail of detail of recovery verified from Audit within 15 days.

Audit recommends early compliance to DAC's directives.

Note: The issue was reported earlier also in the Audit Reports for Audit Years 2019-20, 2020-21 and 2022-23 vide para numbers 3.5.5 (2019-20), 3.4.5 (2020-21) and 3.4.56 (2022-23), having a financial impact of Rs 8,050.52 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 01 to 08)

METROPOLITAN CORPORATION ISLAMABAD

3.4.74 Loss of billions of rupees due to non-recovery of Property Tax from 63 private housing societies of Islamabad measuring covered area 164,202 kanals

As per Notification dated 17.12.2018 in exercise of the powers conferred by Sub-Section-5, Section-88, Chapter-X of ICT Local Government Act-2015, the Metropolitan Corporation Islamabad in its 30th Meeting held on 29.11.2018, approved Revision of “Property Tax” in Islamabad Capital Territory applicable from 01.07.2019.

During scrutiny of the accounts record relating to Property Tax recoveries of Revenue Directorate CDA for the year 2021-22, Audit noted that Director Revenue CDA did not raise demand of Property Tax against sixty-three (63) private housing societies having LOP area 164,202 kanals. Due to this, CDA was suffering loss of billions of rupees in shape of non-collection of property tax.

Audit maintains that non-recovery of Property Tax from developed housing societies was due to weak financial controls.

Audit pointed out the irregularity in May 2023, but the Authority did not reply.

The matter was discussed in DAC meeting held on 19.01.2024. The management apprised that schedule of rates of property tax from private housing societies has been submitted to the Ministry for notification. Recovery at prescribed rates would be started as and when rates are notified. DAC directed the management to provide complete record in respect of private housing societies on the format prescribed by Audit and circulated by Ministry within seven days

Audit recommends fixing responsibility against those responsible for inaction, early imposition and recovery of Property Tax besides production of information to Audit to ascertain exact amount as per following table:

Housing Society	LOP date	Total area	No. of Houses with	No. of Commercial properties	Property tax due
-----------------	----------	------------	--------------------	------------------------------	------------------

			house covered area	with covered area	
--	--	--	-----------------------	----------------------	--

(DP. 42)

3.4.75 Loss of millions of rupees on account of Property Tax due to illegal construction in E-11

As per Notification dated 17.12.2018 in exercise of the powers conferred by Sub-Section-5, Section-88, Chapter-X of ICT Local Government Act-2015, the Metropolitan Corporation Islamabad in its 30th Meeting held on 29.11.2018, approved Revision of “Property Tax” in Islamabad Capital Territory applicable from 01.07.2019. Further, as per provisions of ICT (Zoning) Regulations 1992, Islamabad Residential Sector Regulations, any development activity in ICT is to be carried out after approval/NOC from CDA.

Further, according to Section 46-A Chapter-VII of CDA Ordinance, 1960, “whoever willfully causes damage or allows damage to be caused to any property which vests in the Authority or unlawfully converts it to his own use or to that any other person shall be punishable with imprisonment for a term which may extended to one year or with fine, or with both.”

CDA has issued a list of illegal apartments and wedding halls/marques located in Sector E-11 Islamabad which includes many famous name and renowned projects running in this sector.

Audit noted that illegal constructions in the form of Multi-Storey buildings like residential buildings/apartments/commercial areas/shops and wedding halls/marques were being carried out without prior approval/NOC from CDA and are therefore unauthorized and unlawful.

Audit observed that Property Tax was not being recovered from the owners which resulted in loss of Property Tax of millions of rupees. Apart from residential and commercial plazas/building, the construction of marques/wedding halls in sector E-11 is also illegal, unlawful and unauthorized, as detailed below:

S. No.	Illegal Buildings	S. No.	Marque
1.	Fortune Empire		The Monal

S. No.	Illegal Buildings	S. No.	Marque
2.	Qurtaba Heights		The Wedding
3.	Apollo Apartments		The Millennium
4.	Margalla View Heights		Aura Grande
5.	Mehran Complex		Paragon
6.	Shaheen Apartments		Taj
7.	Mustafa Heights		Zakia's
8.	Makka Tower		Clay Oven
9.	Ahad Residencia		Blessings
10.	Capital Residencia and Fortune Residency		Khiva and The Empire

Audit pointed out the matter in May 2023, but the Authority did not reply.

The matter was discussed in DAC meeting held on 19.01.2024 wherein the management apprised that the matter of recovery of property tax from marquees and multi-storey buildings in E-11 is subjudice. DAC directed the management to vigorously pursue the case and progress be shared with Audit.

Audit recommends an investigation into the matter for fixation of responsibility against the officer(s) responsible for inaction. Further, matter may be pursued in court of law actively.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2017-18 vide para number 2.4.9, having a financial impact of Rs 1,032.00 million. The recurrence of same irregularity is a matter of serious concern.

3.4.76 Unauthentic revenue collection record and non-deposit of property tax revenue in MCI Account - Rs 2,992.686 million

As per Islamabad Capital Territory (ICT) Local Government Act, 2015, Section 87 the Property Tax, under this Act, shall be collected by MCI. The Tax collected under this section shall be distributed amongst the Metropolitan Corporation and Union Councils in such a ratio as the Government may, by notification, specify.

During the scrutiny of the accounts record of the Directorate of Revenue, CDA for the financial year 2021-22, it was noted that an amount of Rs 2,992.686 million was collected on account of Property Tax and water charges during the financial year 2021-22. Whereas, an amount of Rs 4,360.865 million was shown as recoverable.

Audit observed the following:

Revenue Directorate, CDA has collected and deposited Rs 2,992.686 million in CDA Accounts/Treasury instead of depositing the amount in MCI account.

Audit observed that there was no approved SOP in operating of Property Tax and water charges billing system by IT Directorate CDA and Revenue Directorate CDA. There is no Information Security/Access Control Policy/Data Integrity/ Monitoring and Implementation, Disaster Recovery/ Backup media, System documentation/updation of system. Bank scrolls/receipt vouchers being attached with monthly accounts. The manual ledgers of consumers were also without back up details of outstanding recoverable(s).

CDA fixed budgeted target for Property Tax/Water & Allied Charges of Rs 2,582.00 million for the year 2021-22 without backup details for such target.

The collection was being made without site surveys. Six (06) posts of Covered Area Survey Inspectors were vacant. Moreover, party-wise demand and collection register/ subsidiary ledger showing arrears with aging and new demand was not maintained.

Revenue Directorate was collecting Property Tax/Water and Allied charges from different hotels/motels without fulfilling codal formalities. In case of Marriott Hotel, G/5 Islamabad, the covered area was changed by addition/alteration several times without approval from a competent authority. Physical verification of covered area against Marriott Hotel Islamabad was

required to be done by building inspector Revenue vide letter dated 22.05.2018 which was not done. In Case of Margala Hotel, Ramada Hotel 01-H-06 and Serena Hotel, no completion certificate as well as physical inspection certificate was available in record. Revenue realized from these hotels for Rs 43.717 million was, therefore, unauthentic.

As on 30.06.2022, the collected Property Tax/Water & Allied charges of Rs 519.768 million were not transferred to CDA Main Account.

Furthermore, amount deposited into MCI account was not reconciled with the treasury.

This resulted in unauthentic revenue collection record and non-deposit of Property Tax revenue of Rs 2,992.686 million in MCI Account.

Audit maintains the irregularities occurred due to weak internal controls.

Audit pointed out the matter in May 2023, but the Authority did not reply.

The matter was discussed in DAC meeting held on 19.01.2024. In DP 34, the management apprised that actual difference was Rs 307.497 million out of which reconciliation of revenue amounting to Rs 222.497 million has been carried out. Reconciliation of remaining amount of Rs 87 million is under process. DAC directed that balance be reconciled and verified from Audit within seven days. In case of DP. 36 the management apprised that re-assessment of covered area of hotels is in progress and will be completed within one month. At present, recovery of property tax is made on the basis of available covered area. DAC pended the para and directed the management to complete re-assessment at earliest and recovery be made accordingly. In DP. 40, DAC directed the management to provide bank statements for the months of June & July 2022 to Audit for verification within seven days. With reference to DP. 43, DAC directed the management for early completion of reconciliation process and its verification from Audit within seven days.

Audit recommends compliance of DAC's directives.

Note: The issue of non-reconciliation was reported earlier also in the Audit Reports for Audit Years 2021-22 and 2022-23 vide para numbers 3.4.53 (2021-22) and 3.4.15 (2022-23), having a financial impact of Rs 4,158.063 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 34, 36, 38, 40&43)

3.4.77 Non-recovery of Property Tax from different building owners - Rs 2,874.273 million

As per letter dated 13.10.2022, and according to Section 49-A of CDA Ordinance, 1960, any sum due to the Authority or any sum wrongly paid to any person under this ordinance shall be recoverable as arrears of land revenue. Rule 26 of GFR Vol-1 provides that it is the duty of departmental officer to see that all sums due to the government are regularly assessed, demanded, realized and remitted into the national treasury.

Audit noted that Directorate of Revenue CDA, Islamabad did not recover Property Tax worth Rs 2,874.273 million from Semi Government/Institutions, private buildings owners during the year 2021-22 (**Annexure-Z**).

Audit observed that no efforts have been made for recovery of said Property Tax from these institutions during the period. This resulted in non-recovery of Rs 2,874.273 million.

Audit maintains that non-recovery was due to weak internal controls.

Audit pointed out non-recovery in May 2023, but the Authority did not reply.

The matter was discussed in DAC meeting held on 19.01.2024. In DP. 32, the management apprised that recovery of Rs 37.765 million on account of property tax from universities/ educational institution had been made. DAC directed the management that concrete efforts be made to recover the balance amount of Rs 1,669.361 million. DAC further directed that a comprehensive report on court cases and receivables be provided to Audit within seven days. In DP. 33, the management apprised that the matter of imposition of new rates of taxes had been finalized and case had been submitted to the Ministry for notification. The matter was also subjudice. As soon as the MCI House becomes functional, property tax would be imposed on Kahuta Triangle, Chak Shehzad and Murree Road. DAC directed the management that complete record showing efforts made including notified rates, details of court case be verified from Audit. In DP. 35, the management explained that property tax was regularly received from owners of the building occupied by foreign diplomats. DAC directed to get the record verified. In DP. 37, the management apprised that a huge number of notices have been served to the management of Gun & Country Club, however, the management is reluctant to pay the property tax with the plea that the case is subjudice in Supreme Court of Pakistan. DAC directed the management to pursue the court case and recovery vigorously and directions of the court be shared with Audit. In DP. 44, the management apprised that recovery of

Rs 180.00 million had been made and efforts were being made to recover balance amount of Rs 164.318 million. DAC directed the management to vigorously pursue recovery of the balance amount of Rs 164.318 million. In DP. 47, the management apprised that notices had been served to the industries and meetings with management were regularly being convened. Properties had been sealed till payment of water cess. DAC directed that detailed report (company-wise) on water bottling companies in Islamabad, mechanism for determination of sale of water, notified rates, amount received, be shared with Audit for verification within seven days.

Audit recommends recovery of the dues.

Note: The issue was reported earlier also in the Audit Reports for Audit Years 2018-19, 2019-20 and 2021-22 vide para numbers 3.4.22 (2018-19), 3.5.7 (2019-20) and 3.4.50 & 3.4.52 (2021-22), having a financial impact of Rs 6,539.663 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 32, 33, 35, 37, 44&47)

3.4.78 Non-reconciliation of expenditure and non-maintenance of cash book /proforma accounts - Rs 1,661.373 million

Para 20 of CDA Accounting Procedure Manual (Part-III) states that after verification of the cash balance, the bank balance should also be verified. A statement of accounts should be obtained monthly from the bank within three days of the closing of the cash book and a reconciliation statement prepared before the submission of the monthly account to the Accounts Directorate. The reconciliation statement should be copied out in the cash book over the signatures of the Disbursing Officer after the closing entries of the month.

Para 389 of Chapter-VII of CDA Procedure Manual Part-III provides that the Machinery Pool Organization (MPO) was established for departmental purposes. Its accounts should therefore, be maintained in such a way as should enable the organization to prepare its Pro forma Account annually, these accounts will facilitate review of financial results of the organization at the end of every year.

Para 421 further provides that Annual Proforma Accounts of the workshop will be prepared by the Deputy Director Workshop immediately after the accounts for the year have been finally closed. After approval of the Director M.P.O., these accounts will be submitted to the Director Accounts for review. Audit noted that DDO Operation and Maintenance MPO Directorate (MCI) Islamabad

compiled account for financial year 2022-23 wherein cash and cash equivalents expenditure of CDA were shown Rs 1,661.373 million, as detailed below.

(Rs in million)

Name of Division	Allocation	Expenditure
MPO (Maintenance)	556.47	544.29
MPO (Operation)	1,202.249	1,117.083
Total	1,758.719	1,661.373

Audit observed that:

The expenditure was not booked/entered in cash book. Reconciliation of the expenditure was also not carried out with the banks.

MPO Directorate MCI did not prepare Proforma Accounts as required to review the financial results of the Machinery Pool Organization for the financial year 2022-23. Workshop and carpeting works were being done without preparation and approval of Technical Sanctioned Estimate/Manufacturing Estimates and preparation of Profit & Loss Accounts.

This resulted in non-reconciliation of expenditure and non-maintenance of Cash Book /Proforma Accounts of Rs 1,661.373 million.

Audit pointed out the non-preparation of Proforma Accounts to review the financial results in August 2023. The Authority replied that the observation was noted for compliance.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 04.10.2023, 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends fixing responsibility against those responsible besides corrective action.

(DP. 190&197)

**3.4.79 Unjustified/Advance payment to the oil companies and non-adjustment there-against through vouched account -
Rs 1,022.283 million**

As per Rules 205 to 216 of Federal Treasury Rules, every Government officer entrusted with the payment of money should obtain for every payment he makes a voucher setting forth the full and clear particulars regarding the claims and all relevant information necessary for its proper identification and classification in accounts. Every voucher must bear to have attached to it an acknowledgement of payment signed by the person by whom or on whose behalf the claim is put forward.

Audit noted that Deputy Director (maintenance/operations) MPO Directorate (MCI) Islamabad made huge advance payments to Pakistan State Oil and Attock Petroleum for supply of Petrol, High speed Diesel, Light Diesel Oil and Bitumen. Advance payments through hand receipts were made during the Financial Year 2022-23 for Rs 960.052 million whereas:

Company	Item	Advance (Rs)
Pakistan State Oil	High Speed Diesel	731,465,356
	Super Petrol	56,687,588
Attock Petroleum Ltd	Bitumen	159,365,001
	Lite Diesel Oil	74,765,707
Total		1,022,283,652

Proper stock taking and inspection of stores was not maintained and consumption of material through valid requisitions was not maintained.

Adjustment of advance payments through vouched account was not made.

Comparison of rates for the supply of Light Diesel Oil and Bitumen were not obtained to achieve economical rates.

Formal fresh contract agreement with Attock Petroleum and Pakistan State oil were not showed/maintained and hence not provided to Audit to check the TORs.

Orders regarding advance payments were not forth-coming from the record.

Audit pointed out the matter in August 2023. The Authority replied that all the payments were made after approval. Adjustments of the advances were made.

The reply was not accepted because contract agreements, approval for advance payments, record of proper stock taking and physical verification reports were not provided to Audit.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 04.10.2023, 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends early adjustment of advance payment.

(DP. 194)

3.4.80 Consumption of diesel/petrol without details - Rs 788.152 million

According to Rule-I of CDA Procedure Manual Part-II, every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public funds as a person of ordinary prudence would exercise in respect of expenditure of his own money.

Audit noted that the Deputy Director (Operations), MPO Directorate (MCI) Islamabad issued diesel/petrol from G-7 and H-10 petrol pumps to CDA and MCI vehicles against indents during the financial year 2022-23 worth Rs 788.152 million.

Rs in million

Description	Allocation	Expenditure
Diesel	755.000	731.465
Petrol	79.00	56.687
Total		788.152

During scrutiny of the petrol/diesel receipt/issue register, Audit observed that there was no detail of vehicle wise monthly issuance of petrol/diesel. This resulted in consumption of diesel and petrol

worth
Rs 788.152 million without details.

Audit pointed out the issue in August 2023. The Authority replied that all the details were being maintained. Admn Directorate, CDA was responsible for fixing of ceiling and diesel/petrol was being issued accordingly.

The reply was not accepted because details/proper accountal of expenditure separately and record of issuance of petrol/diesel of each vehicle as per the authorized limit was not maintained.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 04.10.2023, 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends fixing responsibility against those responsible besides corrective action.

(DP. 196)

3.4.81 Non-recovery of hire charges of machinery and cost of premix asphalt concrete from CDA formations - Rs 495.936 million

Para 401 of Capital Development Authority Procedure Manual Part-III states that “estimated cost of job must be deposited in advance by the party concerned with the Machinery Pool Organization either in shape of special cheque or otherwise”.

Audit noted that the Deputy Director (Operation Division), MPO Directorate (MCI) Islamabad hired out machinery to various Divisions of CDA/MCI during the financial year 2022-23 without actual receipt of funds in advance.

Audit observed that MPO Operation Division raised hire charges of Rs 478.510 million against various CDA formations/divisions during the financial year 2022-23. The accounts record of the division revealed that hire charges were not recovered and settled the accounts with various CDA formations/divisions despite closure of the financial year. Audit further observed that the indents for hire of machinery was also not maintained which shows that the machinery was not used as per the requirements and needs. Thus, the chances of misuse of funds by the concerned Divisions cannot be ruled out.

Audit further noted that the Deputy Director, MPO (Maintenance), MCI Islamabad issued 1784 number batches of premix asphalt concrete to other divisions of CDA on the demand during the year 2022-23 as below:

S. No.	Formation	Total badges issued during 2022-23	Cost per badge	Amount (Rs)
1	M&R North CDA	825	9,785	8,072,625
2	M&R South CDA	529	9,785	5,176,265
3	Road III	430	9,785	4,207,550
	Total	1,784		17,456,440

Audit observed that the batches of asphalt were issued to the divisions but cost thereof was neither deposited in advance by the respective divisions, nor recovered even after completion of the jobs. This resulted in non-recovery of Rs 17.426 million.

This resulted in non-recovery/adjustment of hire charges of Rs 495.936 million (Rs 478.510 million + Rs 17.426 million)

Audit holds that non-recovery of hire charges occurred due to weak internal and financial control and inadequate oversight mechanism to make adjustment in real time.

Audit pointed out the non-recovery of hire charges of machinery in August 2023. The Authority replied that the formations concerned were already requested for adjustment of hire charges of machinery, which would be completed in due course of time.

The reply was not accepted because in the absence of recovery of hire charges, incurring of expenditure on working/running of machinery was unauthentic.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 04.10.2023, 20.10.2023, 06.11.2023, 12.12.2023, 19.12.2023 and 21.12.2023.

Audit recommends recovery of hire charges of machinery along with details of work performed with reference to engineer estimates and approvals for such deployment of machinery.

3.4.82 Non-recovery of rent and space charges - Rs 341.123 million

Rule 26 of GFR provides that it is the duty of the departmental Controlling officers to see that all sums due to government: are regularly and promptly assessed, realized and duly credited in the Public Account. They should accordingly arrange to obtain from their subordinates monthly accounts and returns in suitable form claiming credit for so much paid into the treasury or otherwise accounted for and compare them with the statements of treasury credits furnished by the Accountant General, to see that the amounts reported as collected have been duly credited in the Public Account.

Audit observed different cases of non-recovery of Annual Ground Rent (AGR), rent and space charges of Rs 341.123 million as under:

Directorate of Municipal Administration (DMA) allowed to lay Optical Fiber Cable to various telecom companies operating in Islamabad subject to payment of AGR. Audit observed that demanded notices for recovery were also not sent by the Authority from time to time. Now the Authority realized that the companies are not paying the dues and notices were issued after the lapse of many years. This resulted in non-recovery of Rs 169.072 million.

DMA could not recover Rs 3.000 million and Rs 18.700 million from M/s Jazz/Ex-Warid and PTCL, respectively in financial year 2022-23.

Lease agreement was signed between CDA and M/s ZeGrill (Monal Restaurant) on 10.03.2006 for a lease period of 15 years. DMA did not recover the monthly rentals from M/s Monal Restaurant since October 2020 @ Rs 897,591 per month. An amount of Rs 34.273 million was outstanding during last three (03) years.

M/s Ufone was allowed for utilization of space for parking for 5,838 sq. yard @ Rs 143 per sq. yard per month for Rs 10,018,008 per annum for one-year extendable subject to revision of rate. M/s Ufone was however, paying license fee against 4,379 sq. yard which caused non-recovery of Rs 116.078 million.

DMA record was being maintained manually on different business, and files are being operated in manual since 1986 which were in deteriorated conditions and partially torn. The Management was neither sure of amount deposited by different businesses in different years, nor any record for outstanding dues was forthcoming from these files.

This resulted in non-recovery of AGR, rent and space charges of Rs 341.123 million.

Audit pointed out irregularity in December 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 21.12.2023.

Audit recommends fixing responsibility against persons responsible for inaction besides early recovery.

(DP. 287, 288,302, 304, 305 & 308)

3.4.83 Loss due to non-auction/award of license for collection of car parking fee at multi-level car parking at F-7 Markaz - Rs 41.163 million and wasteful expenditure - Rs 250.00 million

Rule-6 of Islamabad Land Disposal Rules 2005, states that business plots shall be leased out through open auction for one of the specific activities. Plots for any kind of commercial activity having profits as a primary aim, and include plots earmarked for shops, show rooms, markets, hotels, motels, guest houses, marriage halls, petrol/CNG filling and or service stations, sites for multi-storey building meant for shops, offices, sites for multistory parking and offices connected with industrial & commercial enterprises.

During scrutiny of the accounts record of Municipal Administration/MCI, it was noted ‘multi-level car parking at F-7 Markaz’ was constructed/completed at the total cost of Rs 250.00 million up to December 2016.

Audit observed that the Management since after taking over possession/completion of the multilevel car parking F-7 Markaz could not decide and finalize the auction process. The prime location having potential revenue of millions of rupees per month was lying un-auctioned/un-awarded for more than six (06) years. The parking was completed at the total cost of Rs 250.00 million with a capacity of 440 vehicles/cars can be parked at a time. As per noting file, the car parking at Raja Bazar was awarded to a contractor @ Rs 5,757,157 per annum with parking capacity of 400 cars/vehicles during same period. Non-initiation of the auction process before completion of the construction works in December 2016 and non-finalization of auction process resulted in a loss of Rs 41.163 million and wasteful expenditure of Rs 250.000 million.

Audit pointed out irregularity in November 2023, but the Management did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 21.12.2023.

Audit recommends fixing responsibility against persons responsible for inaction besides early corrective action.

(DP. 286)

3.4.84 Non-recovery conservancy charges of bazars - Rs 223.889 million

As per Notification of MCI dated 18.04.2023 new rates of weekly bazaars would be charged for different sizes of stalls per month per bazar w.e.f. 01.07.2022 (as Rs 430, Rs 681, Rs 967, Rs 1,362 etc.).

Further, the subject of this notification clearly states that its revision of rates of conservancy charges of stalls of weekly bazaars.

During audit scrutiny of accounts record of Directorate Municipal Administration, MCI Audit noted that the Directorate charged stalls conservancy of H-9 bazar for only one week bazars per month i.e., Itwar, Mangal, and Juma.

Audit observed that as these bazaars are conducted on weekly basis so its rates were applicable for every week's bazars per month but the same was not done by the Management and charged Rs 430, Rs 860 etc., for different sizes of stalls per month irrespective of frequency of bazars per month in violation of above notification.

Audit further observed that 70% shops were issued to those businesses whose rates were not fixed by CDA against allotment policy of 1985 and they are selling things with market rates specially items of plastic, crockery, carpets and used shoes and charging of Rs 430 per month is already unjustified. This resulted in non-recovery of bazars conservancy charges as per rates of weekly bazaars Rs 223.889 million.

Audit pointed out non-recovery in November 2023, but the Management did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 21.12.2023.

Audit recommends fixing responsibility against persons responsible for inaction besides early recovery.

(DP. 297)

3.4.85 Non-recovery/non-depositing of outstanding dues including direct access and RoW charges - Rs 137.835 million

According to revised Modalities & Procedures (2020) framed under ICT (Zoning) Regulation, 1992 (As Amended) for Development of private Housing/Farm Housing scheme in Zones 2, 4 & 5 of Islamabad Capital Territory Zoning Plan. Clause-6 "Scrutiny Fee for the Detailed Schemes" provides that "a scrutiny fee at the rate scheduled in Annex-F; shall be payable through bank draft/pay order to the Authority and shall be deposited along-with the submission of detailed scheme as required by paragraph-4. The scrutiny fee is, however, subject to revision by the Authority from time to time.

Clause 07 (i) and (ii) (b) & (c) of Modalities and Procedures framed under ICT (Zoning) Regulation, 1992 provides that "any objection in the layout plan will be communicated by registered post acknowledgement due to the sponsors for rectification within a period not exceeding 30 days of issuance of communication, failing which the scheme will not be processed further till removal/settlement of objections and deposit of the entire development cost of the scheme with the Authority. The amount of development cost shall be assessed by the Authority on the basis of prevailing cost of development. The amount shall be deposited within 45 days of the clearance of detailed layout plan of the scheme. In case the authority is not inclined to deposit, the development cost of the scheme".

Audit noted that Director Housing (CDA) approved the Layout Plan (LOP) of Capital Enclave Housing Scheme, Mouza Lohi Bher, Zone-5, Islamabad sponsored by M/s Service Cooperative Housing Society Islamabad (SCHS) over an area measuring 552 kanals in Mouza Lohi Bher and NOC was issued in the name of M/s SCHS on 12.08.2014. Audit further noted that extended/revised/as built LOP was approved on 14.10.2020 over an area of 771.52 kanals.

Audit observed that a final show cause notice under section 49-C, 46 and 46-B of the CDA Ordinance 1960 read with clause 5 chapter-IV of the ICT (Zoning) Regulation 1992 was submitted to M/s SCHS vide letter No. CDA/PWL/HS(213)/2022/699 dated 27.01.2022 for depositing 137.835 million on account of fee/charges/penalties in the form of pay order in the name of DDO (Planning) CDA, but the perusal of record revealed that said amount has not yet been deposited completely in the name of CDA after lapsing 10 years. Audit observed that M/s SCHS started development/construction of building and sale of land/plots of the schemes without obtaining prior

approval from the CDA Authority, thus the sponsor of the schemes was liable to pay the following fee/penalties, etc., as under:

S. No.	Fee/Charges/Penalty	Amount (Rs)
1	Scrutiny Fee for Revised/Extended LOP 771.52 Kanals @ Rs 3,000	2,314,560
2	Penalty for change in approved layout plan without approval from the CDA (as per CDA Board decision dated 17.01.2012) 771.52 Kanals @ Rs 3,897 per kanal	3,006,613
3	Start of Development of work of the revised/extended LOP area of scheme prior to obtaining NOC and without approval of Engineering Designs (771.52 Kanals – 552 Kanals = 219.52 Kanals @ Rs 10,000 per Kanal)	2,195,200
4	Extension Charges for the development period of the scheme for 771.52 Kanals 1 to 10 years @ Rs 8,000 per Kanal x 10 years from 2012 to 2022	61,721,600
5	Access/ROW for 10 years (From 2012 to 2022) as per CDA Board Decision dated 24.12.2014 @ 562,000 per Month x 120 Months	67,440,000
6	Fee for inspection/ Monitoring of the Scheme 771.52 Kanals @ Rs 1,500 per Kanals	1,157,280
	Total	137,835,253

Audit is of the view that CDA has taken no legal action against the sponsor of the schemes for non-depositing the outstanding dues/ fee/fine charges/penalty. This resulted in non-recovery/non-depositing of outstanding fee/charges/penalty including direct access and ROW charges from the Capital Enclave Housing Scheme after lapsing ten (10) years Rs 137,835,253.

Audit maintains that non-recovery of fee/fine/penalties occurred due to lack of oversight mechanism for implementation of internal controls.

Audit pointed out the recovery in February & March 2023. The Authority replied that Planning Wing has obtained the ROW charges from M/s Capital Enclave Housing Scheme sponsored by M/s Service Cooperative Housing Society Islamabad (SCHS) Mouza Lohi Bher, Zone-5 Islamabad. The amount had been received and deposited in the account of DDO (Planning).

Audit recommends for early recovery from the sponsor and verified pay orders of fee/fine/penalties with documentary evidences.

(DP. 72)

3.4.86 Non-pursuance of recovery notices and consequent less realization of trade license fee - Rs 85.340 million

Section 62 of Chapter-VII and Section-91 of Chapter-XII of the Islamabad Capital Territory Municipal Bye-laws 1969, provides that “no person shall within Islamabad municipal limits can carry on any trade without taking proper license from the Director Municipal Administration, CDA”.

As per Islamabad Capital Territory Municipal Bye-Laws, 1969, Chapter XII Licensing of Trades, rules 94 and 97, Every application for a license and every license issued under these bye-laws shall be got registered by the Director in the license register prescribed for the purpose. Whoever carries on any licensable trade without obtaining a license therefore or carries on that trade during the period of suspension of a license or after the same has been revoked or the period of its validity has expired, shall be punishable with a fine which may extend to Rs 500 or in the event of a continuous breach, Rs 20 per day during which the breach continues.

According to Rule 20 of GFR “it is the duty of the departmental Controlling officers to see that all sums due to Government are regularly and promptly assessed, realized and duly credited in the Public Account. Furthermore, rule 23 of the same provides that every Government officer should realize fully and clearly that he will be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.”

Audit noted that the Directorate of Municipal Administration, MCI issued 2,350 notices to traders for illegal operations without obtaining licenses from the office of Directorate Municipal Administration, and managed to collect an amount of Rs 20,213,533 from 466, which was only 20% of the amount collected from businesses against license fees across all sectors of Islamabad.

Audit observed that out of 2,350 notices; on the contrary, Audit team surveyed different sector and approximately 16000 businesses are being operated in Islamabad (at average 800 in each sector with total of 25 sectors) Furthermore, as per Islamabad Chamber of Commerce & Industry (ICCI) there are 18,000

different businesses registered with them. However, the Directorate lacked sector-wise data on different trades being operating in Islamabad Capital Territory reason best known to the corporation.

Audit contends that the Directorate failed to take effective measures to bring various businesses into the revenue stream by issuing trade licenses and imposing fines on them. The Directorate shows inefficiency by only managing to collect trade license fee from 20% out of 2,350 traders. The relevant section produced a list of nearly 200 defaulters and information was conveyed to the magistrate two years ago, with no subsequent correspondence. This oversight resulted in the non-maintenance of records on trade licenses and a loss to the Authority due to the inadequate realization of trade license fees amounting to Rs 85,340,164 ($2,350 - 450 = 1,900 \div 2,350 = 80.85\% \times \text{Rs } 105,553,697 = \text{Rs } 85,340,164$).

Audit recommends addressing this issue with higher authorities to curb illegal business operations or legitimize them by issuing licenses with the corresponding fees.

Audit pointed out loss to Authority and non-management of trade license in December 2023, but the Management did not reply. However, the issue was also reported in Audit Reports in 2019-20 and 2020-21. The matter was discussed in DAC meeting held on 28.11.2022 wherein the management apprised that the rates of new categories are not yet notified in Gazette of Pakistan, as the traders in ICT were agitating against the new categories which were included in the Trade license categories. DAC directed the management to complete the process of computerization of inventory and notification of rates be issued before upcoming PAC meeting. Compliance of DAC's directive was not made despite reiteration of same direction in a follow-up DAC meeting held on 07.06.2023.

Audit recommends compliance of DAC's directive.

Note: The issue was reported earlier also in the Audit Reports for Audit Years 2019-20 and 2020-21 vide para numbers 3.5.40 (2019-20) and 3.5.29 (2020-21), having a financial impact of Rs 291.236 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 309)

3.4.87 Non-maintenance of accounts record of revenue receipts on self-collection basis for Rs 60.30 million and mishandling of cash receipts - Rs 18.095 million

Rule 76-77 of Treasury Rules states that moneys tendered as dues of the Government shall not pass through the hands of a departmental officer unnecessarily. Rule 7-10 *ibid*, all moneys received by or tendered to Government officers on account of revenues should be deposited in a treasury or

bank in full and without any delay. Whenever any amount in the custody of a Government officer is deposited into treasury or bank, the entry in the cash book should be compared by the Head of office with the treasury receipts/challan and attestation is to be done.

Audit noted that Municipal Administration/MCI awarded license and executed an agreement on 28.02.2020 with M/s Fazal Khan & Co. for collection of car parking fee at the plot adjacent to Centaurus Mall, Islamabad for one year at a bid cost of Rs 90.70 million per annum. The agreement duration expired on 27.02.2021 and site was taken back on 24.06.2021 from the licensee.

The Authority has reportedly made arrangements for cash collection departmentally from June 2021 for the parking at Centaurus Mall and approximately cash receipts amounting to Rs 60.30 million were collected from June 2021 to November 2023 (30 months) as Rs 18.095 million was departmentally collected during the period of 9 months (from 22.02.2023 to 24.11.2023) in this way the monthly flow of receipts come to Rs 2.010 million per month.

Audit observed that the Authority was collecting car parking fee by In-Charge from Centaurus parking since June 2021 but no separate accounts record of revenue receipts of approximate amount of Rs 60.30 million from June 2021 to November 2023 was maintained. No record of revenue receipts showing actual receipts, deposit slips, etc., was provided to Audit. Furthermore, the Authority has collected revenue of Rs 18.095 million during the period from 22.02.2023 to 24.11.2023 and defective /inadequate arrangements of cash collection and its handling left sufficient room for pilferage of revenue, briefly stated as under:

Generally, one or two officials were assigned responsibility to oversee all four (04) sites at a time. This lacked proper check over collection of receipts. Strong financial controls at the initial stage were not ensured.

Considerable amount of collection was being deposited in bank with a delay of 10-12 days. So heavy cash was retained with a single person unauthorizedly and irregularly. At this level too, no appropriate check existed.

No acknowledgment of cash collection and its handing over from one person to another for deposit in the bank exists at any stage. This enhanced the risk of pilferage.

No reconciliation of cash collection with deposited challans and certification in the cash book as per above rules was ever made.

Sites were kept un-auctioned for long time depriving the authority from competitive highest amount of revenue.

Audit pointed out irregularity in November 2023, but the Management did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 21.12.2023.

Audit recommends fixing responsibility against persons responsible for inaction besides early corrective action.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2022-23 vide para number 3.4.71 (2022-23), having a financial impact of Rs 138.662 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 284)

3.4.88 Irregular/unjustified expenditure without open tendering through splitting - Rs 39.740 million

As per rule-12 (1) of the Public Procurement Rules, 2004, procurements over five hundred thousand Pakistani Rupees and up to the limit of three million Pakistani Rupees shall be advertised on the Authority's website in the manner and format specified by regulation by the Authority from time to time. These procurement opportunities may also be advertised in print media, if deemed necessary by the procuring agency: Provided that the lower financial limit for advertisement on Authority's website for open competitive bidding shall be the prescribed financial limit for request for quotations under clause (b) of rule 42.

As per rule-12 (2) of the Public Procurement Rules 2004, all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

Audit noted that the Directorate of Municipal Administration, MCI has incurred an expenditure of Rs 29.663 million on account of decorative arrangements for opening ceremony of orange, green, blue metro bus service in Islamabad, observing black day on 27.10.2022, installation of CCTV cameras at H-9 Bazar, etc., and on arrangement/ infrastructure provided for Ramzan Sasta Bazar at G-6, G-7/2 & E-11 Islamabad' to different contractors.

Audit observed that the Management has incurred a huge expenditure of Rs 9,628,876 on the opening ceremony of green/orange/blue metro bus service in Islamabad and Rs 8,598,349 on observing black day on 27.10.2022 which is quite unjustified/higher sides on single events. Similarly, Rs 1,525,091 was paid for installation of CCTV cameras at H-9 Bazar. Further, the whole expenditure was made without preparing proper estimate based on rate analysis/ minimum three quotations and without going through any open competitive bidding process/tendering in violation of the Public Procurement Rules, 2004.

Audit observed that Director General Sanitation CDA, Islamabad accepted and awarded twenty-two (22) contracts/works to different contractors/suppliers at an agreement cost of Rs 10,079,538 during the year 2022-23 keeping the value of Rs 500,000 within the competency of Director General. In the instant case, the same contracts/works were awarded to selected contractors through quotations without calling open tenders in order to achieve competitive rates but this standard approved ruling practice was completely ignored in violation of cited rules. Subsequently, a review of the paid vouchers indicated that the Management also made payment to the extent of Rs 10.080 million to the different contractors on account of quotations work.

This resulted in irregular/unjustified expenditure without open tendering through splitting of Rs 39.740 million (Rs 29.663 million + Rs 10.080 million).

Audit maintains that the matter occurred due to weak internal controls.

Audit pointed out the irregularity in October 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 21.12.2023.

Audit recommends that responsibility be fixed against officers concerned for violation of rules besides internal controls may be strengthened to avoid recurrence of such irregularity in future.

(DP. 248&285)

CHAPTER 4

CIVIL AVIATION AUTHORITY
(AVIATION DIVISION)

4.1 Introduction

A. Pakistan Civil Aviation Authority (PCAA) is a public sector autonomous body working under the Federal Government of Pakistan Aviation Division, Cabinet Secretariat. PCAA was established on 07.12.1982 through Pakistan Civil Aviation Authority Ordinance 1982. As per Schedule-II of Rules of Business 1973, Aviation Division is responsible for administration of Civil Aviation Ordinance and development of civil aviation in Pakistan.

The purpose of establishing PCAA is to provide for the promotion and regulations of Civil Aviation activities and to develop an infrastructure for safe, efficient, adequate, economical and properly coordinated Civil Air Transport Service in Pakistan. PCAA not only plays role of the aviation regulator of the country but also performs as service provider of Air Navigation Services and Airport Services. The core functions of PCAA are therefore, ‘Regulatory’, ‘Air Navigation Services’ and ‘Airport Services’. These core functions are fully supported by various corporate functions of the organization.

The general direction and administration of PCAA and its affairs is with PCAA Board which exercises all powers, performs all functions and does all acts and things that need to be exercised, performed or done by the Authority. The Chairman PCAA Board is the Secretary of Division to which the affairs of the Authority are allocated. Presently, it is the Secretary Aviation. PCAA Executive Committee is the highest decision-making body of the Organization. It exercises such administrative, executive, financial and technical powers as delegated to it by the Authority. Director General PCAA is the Chairman of PCAA Executive Committee. The Headquarters of the PCAA are situated at Karachi.

B. Comments on Budget and Accounts (Variance Analysis)

Financial Statements of CAA for the financial year 2022-23 (Draft) disclosed the figures of budget, revenue and expenditure as follows:

Budget & Expenditure 2022-23

Rs in million

Description	Budget Allocation	Expend-iture	Excess/ (Shortfall)	Excess/ (Short-fall) %age
-------------	-------------------	--------------	------------------------	---------------------------------

Non-Development	31,939.690	33,337.150	1,397.460	4.38%
Establishment Charges	22,280.690	21,865.260	(415.430)	(1.86%)
Other Administrative Expenses	9,659.000	11,471.890	1,812.890	18.77%
Development	33,624.050	10,083.662	(23,540.388)	(70.01%)
PSDP Grant	3,184.680	2,818.802	(365.878)	(11.49%)
Annual Development Program (ADP)	30,439.370	7,264.860	(23,174.510)	(76.13%)
Grant Total	65,563.740	43,420.812	(22,142.928)	(33.77%)

Source: Utilization Reports/Draft Financial statements provided by CAA

Revenue

Rs in million

Description	Target	Actual	Excess/	Excess/
			(Shortfall)	(Short fall) %
Aeronautical	124,309.054	124,195.000	(114.054)	(0.09%)
Non-Aeronautical (Rent & Allied)	14,282.582	14,360.618	78.036	0.55%
Inspection & Services	455.722	509.565	53.843	11.81%
Return on Bank Deposits	11,500.000	13,075.620	1,575.620	13.70%
Total	150,547.358	152,140.803	1,593.445	1.06%

Source: Draft financial statements provided by CAA

Comments on 'Receipt and Expenditure Account' of CAA for the year 2022-23 are as under:

1. Against provision of Rs 30,439.370 million in the approved Annual Development Plan 2022-23, an expenditure of Rs 7,264.860 million was incurred which was Rs 23,174.510 million (76.13%) in saving. Development targets were, therefore, not achieved and the process and efforts on planning, estimation were wasted. It would certainly cause cost overruns due to high inflation rate.

2. CAA engaged M/s Grant Thornton Chartered Accountants for third party audit of the Financial Statements of CAA as at 30.06.2023 without concurrence of the Auditor-General of Pakistan as required.

C. Audit Profile of PCAA

(Rs in million)

S. No.	Description	Total	Audited	Expenditure audited FY 2022-23 (Rs in million)	Revenue/ Receipts audited FY 2022-23 (Rs in million)
1	Formations	68	16	110,427.44*	53,625.29
2	Assignment Accounts SDAs, RFAs (Excluding FAP)	04	04	2,818.802*	-

*Expenditure audited indicated against formations is inclusive of assignment accounts

Note: In addition to above, fourteen (14) formations audited during Phase-II of 2022-23 involving expenditure of Rs 3,274.891 million & revenue of Rs 40.104 million and results incorporated in this report.

4.2 Classified summary of audit observations

Audit observations amounting to Rs 541,924.758 million were raised in this audit report. This amount also includes recoverable of Rs 1,758.441 million as pointed out by the Audit. Summary of the audit observations classified by nature is as follows:

Overview of audit observations

S. No.	Classification	Amount (Rs in million)
1	Irregularities	
A	HR/Employees related irregularities	548.049
B	Procurement/award related irregularities	11,321.143
C	Execution of works, contract agreement	41,311.229
D	Management of accounts in commercial banks	144,500.156
E	Revenue management	283,704.050
2	Value for money and service delivery issues	252.700
3	Others	60,287.431
Total		541,924.758

Note: Amount of audit observations exceeds amount audited due to non-budgetary issues like award of works which involve future spending, amount covering multiple previous years of spending, multiple reckoning of monetary impact in different audit observations pertaining to same transaction, etc.

4.3 Brief comments on the status of compliance with PAC's directives

Compliance position of PAC's directives on Audit Reports relating to Civil Aviation Authority is as under:

Year	Total Paras	No. of Paras Discussed	Compliance Made	Compliance Awaited	Percentage of Compliance
1985-86	3	3	-	3	-

Year	Total Paras	No. of Paras Discussed	Compliance Made	Compliance Awaited	Percentage of Compliance

Note: Audit Reports for 2020-21, 2021-22 and 2022-23 were not discussed by PAC till the finalization of this Audit Report.

4.4 AUDIT PARAS

4.4.1 Non-recovery of outstanding dues from concessionaires - Rs 138,649.301 million

Special Conditions of License agreements, executed between PCAA and various operators/licensees provide that PCAA shall levy 5% surcharge on the amount payable to PCAA if the licensee fails to pay the dues within the due date of the bill. For the outstanding dues longer than 30 days, the PCAA shall levy additional surcharge @ six months Karachi Interbank Offered Rate (KIBOR)+ 2% of the outstanding dues per annum. PCAA reserves the right to impose penalty/fine on Licensee (licensee) in case of any violation of the terms of the license agreement that takes place during the license period.

Audit noted that Authority executed different license agreements with different concessionaires including Pakistan International Airlines Corporation Limited (PIACL) at different monthly license fees.

Audit observed that PCAA management did not recover the outstanding dues from the various concessionaires/licensees. This resulted in non-recovery of outstanding dues including surcharge of Rs 138,649.301 million (**Annexure-AA**) on 30.06.2022.

Audit maintains that non-recovery of outstanding dues was due to non-adherence to agreement clauses and weak implementation of internal controls.

Audit pointed out non-recovery in January-May 2023. The Authority replied that appropriate efforts were being made for recovery of dues from defaulters including M/s PIACL.

The reply was not tenable because Audit took the matter of non-recovery of PCAA dues from PIACL previously through (Para 4.4.1/AR 2021-22. 4.4.51/AR2019-20) but PCAA did not recover its dues.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 28.08.2023, 18.09.2023, 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends appropriate action under license agreements which include suspension of licenses of defaulters, imposition of fines and interest on the default amount, and any other methods at the disposal of CAA for recovery of the outstanding dues. If the defaulters are unable to pay the arrear amount, a settlement may be agreed upon for gradual recovery of the arrear amount in installments. Responsibility may be fixed against the negligent officials of CAA for non-recovery of dues.

Note: The issue was reported earlier also in the Audit Reports for Audit Years 2019-20, 2020-21, 2021-22 and 2022-23 vide para numbers 4.5.2 (2019-20), 4.5.5 (2020-21), 4.4.1 (2021-22), 4.4.14 (2022-23) having a financial impact of Rs 140,242.16 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 01, 08, 09,10,16,28, 30, 33,34,35,36,103,114, 198, 256, 258, 283, 315, 320, 413)

4.4.2 Massive increasing trend of doubtful debts of aeronautical and non-aeronautical dues - Rs 113,853.187 million

Recovery Cell was established based on the decision of CAA Executive Committee in its 300th meeting held on 16.05.2019. The core responsibility of Recovery Cell is to exercise zero-tolerance policy in respect of all current dues of the active parties. Recovery Cell has to ensure timely recovery of dues in co-ordination with respective Office of Prime Importance (OPI)/Directorate.

Audit noted from financial statement for the year 2022-23 that an amount of Rs 118,436.439 million was accumulated as gross aeronautical dues Trade debts and an amount of Rs 4,022,607 million was accumulated as non-aeronautical dues Trade debts as on 30.06.2023.

Audit further noted that an amount of Rs 110,436.439 million was considered doubtful out of gross aeronautical dues Trade debts Rs 118,161.478 million and an amount of Rs 3,416.748 million was considered doubtful out of gross non-aeronautical dues Trade debts Rs 4,022.607 million.

Audit observed that Recovery Cell of Directorate of Finance HQ CAA Karachi has not taken effective steps to minimize trend of doubtful debts of aeronautical and non-aeronautical dues of Rs 113,853.187 million (Rs 110,436.439 million + Rs 3,416.748 million) which was 93.245% of gross trade debts of aeronautical dues of Rs 118,161.478 million and 84.94% of gross trade debts of non-aeronautical

dues of
Rs 4,022.607 million. This resulted in massive increasing trend of doubtful debts of aeronautical and non-
aeronautical dues involving
Rs 113,853.187 million.

Doubtful debts for the financial year 2021-22 were Rs 95,800.186 million and for the financial year 2020-21 were Rs 88,076.132 million.

Audit holds that Recovery Cell of CAA, Karachi had not taken effective steps to minimize the massive increasing trend of doubtful debts of aeronautical and non-aeronautical dues of Rs 113,853.187 million.

Audit pointed out the irregularity in October 2023. The Authority replied that the CAA Recovery Cell has been constantly pursuing the matter of aeronautical and non-aeronautical dues by putting considerable efforts for clearance of outstanding dues.

The Authority admitted the audit observation. There was a massive increase in doubtful debts of aeronautical and non-aeronautical dues but concerted effort has not been witnessed from the Recovery Cell.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends taking effective steps for minimizing the massive increasing trend of doubtful debts of aeronautical and non-aeronautical dues involving Rs 113,853.187 million under intimation to audit

(DP.287)

4.4.3 Investment of surplus funds beyond the investment policy - Rs 77,000 million

As per Table-B given in CAA Employees Pension Fund Trust Investment Policy, funds can be placed in any single bank up to Rs 6,000 million (credit rating A1) and Rs 4,000 million (credit rating A1) in daily product account/investment account.

Audit noted that the Director Finance (Pension & Funds) HQ, CAA, Karachi placed surplus funds in different commercial banks for investment of Rs 77,000 million.

Audit observed that Pension & Funds Section of Finance Directorate HQ, CAA, Karachi invested Rs 7,000.00 million beyond the prescribed limit of Rs 6,000.00 million in a single bank as evident from M-01 of the file No. HQCAA/2918/518/Pension in which Sr. Assistant Director (AD) Finance (Pension) apprised and got approval from the competent authority of Para 4.2b and c of the said M-01 in the following manner:

- a. Rs 1,000 million Term Deposit Receipts (TDRs) encashed from M/s. Habib Metropolitan Bank Limited so as to keep the balance of TDRs in line with the maximum investment limits of CAA (i.e., Rs 6 billion for A1 + rated banks).
- b. Rs 1,000 million TDRs encashed from M/s Bank Al Falah Limited so as to keep the balance of TDRs in line with the maximum investment limits of CAA (i.e., Rs 6 billion for A1 + rated banks).

This resulted in an investment beyond the prescribed limit in a single bank involving Rs 77,000 million.

Audit maintains that the investment of surplus funds beyond the prescribed limit in a single bank occurred due to weak administrative and financial control.

Audit pointed out irregularity in October 2023. The Authority replied that all the investments activities carried out by CAA Employees Pension Fund/Trust are in complete compliance of CAA Employees Pension Fund Investment Policy duly approved by the Trustees of CAA Employee Pension Fund Trust. The auditor erroneously highlighted the maximum limit of investment in Daily Product Account and applied it for TDRs investment. The limit of Rs 6 billion is for daily product investment in any A1+ rated bank (short term). For TDRs placement, the maximum placement limit is Rs 7 billion for A1+ rated banks (short term). The Table B, as referred by auditor above, also states the following under the Section (b) for preferred concentration limit:

“In case, any bank holds CAA Pension Fund TDRs investment and also has CAA Pension Fund daily product account, the total amount of placement should not be more than Rs 13.0 billion (A1+) and Rs 9.0 billion (A1) respectively.”

CAA Employees Pension Fund Trust has an investment of Rs 6 billion in a single bank, against the approved limit of Rs 7 billion, needless to say that the amount was invested within the approved limit.

Secondly, encashment upon maturity and exposure level in mentioned scheduled banks is purely a part of investment strategy under prevailing economic scenario rather than a Policy decision. All the investments carried out by Trustees of CAA, Pension Fund are in complete compliance of CAA, Pension Fund Investment Policy duly approved by CAA, Pension Fund/Trust Board of Trustees.

The reply was not tenable because the maximum limit of fund was required to be invested of Rs 6,000.00 million on balance of TDR account. Accordingly Sr. AD Finance (Pension) apprised and got approval from the competent authority vide Para 4.2 b and c of the said M-01 in the following manner:

- a. Rs 1,000 million TDRs encashed from M/s Habib Metropolitan Bank Limited so as to keep the balance of TDRs in line with the maximum investment limits of CAA (i.e., Rs 6 billion for A1 + rated banks).
- b. Rs 1,000 million TDRs encashed from M/s Bank Al Falah Limited so as to keep the balance of TDRs in line with the maximum investment limits of CAA (i.e., Rs 6 billion for A1 + rated banks).

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that inquiry may be conducted as to why certain banks were given undue benefit by depositing excess amount in their accounts in violation of the rules and responsibility may be fixed against the responsible individuals. Financial controls may be strengthened and an internal audit committee should be formed to oversee the decisions of the financial committee.

Note: The issue was reported earlier also in the Audit Reports for Audit Years 2019-20 and 2022-23 vide paras number 4.5.3(2019-20) and 4.4.1 (2022-23), having a financial impact of Rs 153,956.60 million. The recurrence of same irregularity is a matter of serious concern.

(DP 285)

4.4.4 Loss to Authority on account of payment of corporate tax on unrealized/unrecovered PCAA dues from M/s PIACL- Rs 42,400 million

Para 4.2 of the DG directive No. 05/2021 (establishment/ revamping of recovery cell) dated 31.08.2021 describes for old outstanding cases where the dues have exceeded 75% of security deposit/ advance, Recovery Cell shall immediately report such cases to DG, CAA and Addl. DG, CAA for approval of final recovery action.

During audit of the accounts of Finance Directorate, (HQ) Civil Aviation Authority Karachi it was noted that PCAA has recognized the receivable dues in its books of accounts as per applicable accounting standards and has also paid a significant amount of Rs 33.900 billion (approx.) on account of tax on unrealized dues from M/s PIACL.

Audit further noted that corporate tax of Rs 8.500 billion was paid by CAAP on unrealized/unrecovered PCAA dues from M/s PIACL.

Audit observed that no timely and effective steps have been initiated to recover/adjust the dues whereas the authority has paid Rs 33,900 million on account of tax of unrealized/unrecovered PCAA dues from M/s PIACL. This resulted in likely loss of Rs 42,400 million to Authority on account of payment of tax on unrealized/unrecovered PCAA dues from M/s PIACL.

Audit maintains that the loss occurred due to inadequate oversight mechanism in enforcing relevant financial rules.

Audit pointed out the loss in October 2023. The Authority replied that outstanding CAA dues piled up/raised up to the tune of Rs 184.674 billion as on 30.09.2023 (including freeze dues).

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends devising a mechanism for realization of PCAA dues from M/s PIACL to avoid loss on account of payment of tax on un-realized/un-recovered PCAA dues from M/s PIACL.

Note: The issue was also reported earlier in the Audit Report for Audit Year 2016-17 vide para number 3.4.15 having a financial impact of Rs 18,398.310 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 268 & 269)

4.4.5 Unauthentic payment without recording detailed measurement of work in Measurement Book - Rs 31,840.244 million

Civil Aviation Authority Order (CAAO) No.4-2 (revised) dated 31.12.2000 provides, CAA Board in its 89th meeting held on 26.06.2000 approved the adoption of Federal Government Rules and procedures for execution of works in CAA.

Para 208 of Central Public Works Accounts Code, payments for all work done are made on the basis of measurements recorded in the Measurement Book (Form-23) in accordance with the rules in Para 209 of CPWA Code. The Measurement Books should, therefore, be considered as very important accounting record. Para 209(b) states that all measurements should be neatly taken down in a Measurement Book.

Audit noted that CAA made payments for five projects against work done for Rs 31,840.244 million for the year 2022-23, as detailed below:

(Rs in million)

DP. No.	Name of Project	Contractor	Work-done
157	Reconstruction of rigid runway Faisalabad Airport	M/s Design & Engineering System Pvt. Ltd.	3,142.976
190	Expansion of Terminal Building at AIIAP, Lahore (up-gradation of Main Runway)	M/s CCECC – Matracon– Habib (JV)	8,789.851
	Expansion of Terminal Building at AIIAP, Lahore (Access Road Network)	M/s Sichuan-SCL (JV)	1,490.380
	Expansion of Terminal Building at AIIAP, Lahore (Parking Area)	M/s Izhar Const.	9,060.177

DP. No.	Name of Project	Contractor	Work-done
224	Const. of Greenfield Aerodrome for General Aviation Activities at Muridke	M/s Shaanxi Const. Eng. Group Corp Ltd-Umer Jan & Co. (JV)	1,413.015
237	New Gwadar International Airport Project	Various Packages	2,717.502
321	Reconstruction of Rigid Runway at Quetta International Airport for Operation of Aircraft up to ICAO Code 4E	M/s Umer Jan & Co Engineers and Contractors	5,226.343
		Total	31,840.244

Audit observed that payments of work done, price adjustments were made to the contractors without recording detailed measurements in the Measurement Books.

Audit maintains that veracity/authenticity of payment could not be verified due to non-maintenance of Measurement Books. The Authority adopted an irregular method of work measurement by dispensing with an approved and established method of permanent record keeping for all public sector infrastructure works and mandatory oversight of 100% work done certification by the Engineer Incharge and 10% test check by the Supervisory Engineer.

This resulted in unauthentic payment without detailed measurement/execution in the measurement books for Rs 31,840.244 million.

Audit pointed out the irregularity in August-September 2023. The Authority replied that the matter was taken up with the Ministry of Law and Justice and the Ministry vide letter dated 22.02.2021 has given its clarification on applicability of measurement book not to be binding on PCAA. In nexus to above the matter has been taken up with the Ministry of Planning & Development through Aviation Division vide letter dated 13.05.2023 for their candid opinion on the matter.

The reply was not tenable. Audit emphasized that the requirement of maintenance of Measurement Books in the prescribed format is as per rule being a permanent record and it should, therefore, be considered a very important record and be maintained very carefully and accurately as they may have to be produced as evidence in a Court of Law. The irregularity has also been repeatedly pointed out by Audit in the preceding Audits (Para 4.4.4 Audit Report 2022-23), but no policy decision was obtained from competent forum.

The matter was discussed in DAC meeting held on 15-16 January, 2024. The management of CAA apprised the DAC that in PEC Bidding Documents & FIDIC based Contracts, detailed measurements of items are made on measurement sheets and the same are duly attached with the abstracts of every IPC. The matter has also already been taken up with Ministry of Planning, Development & Special Initiatives through Aviation Division for their opinion on recording detailed measurements in the prescribed measurement book (MB) but the response is awaited.

Audit contended that MB has not direct relation with contract documents and informed the committee that Measurement Book, to be prepared in Form 23, is a control prescribed in applicable works code. It is an important and reliable record which can be presented in court of law as evidence. Accordingly, it follows a strict control whereby all books are serially numbered, machined-numbered pages and accounted for in a register showing name of officer to whom issued with date and its return after use. Entries are to be made continuously on real time execution basis with certificates of officers concerned. The entries made in MB cannot be erased and in case of any correction it has to be made under proper authentication by the officers concerned.

DAC directed the management of CAA to deliberate the matter regarding recording of MB at in-house/Board level in the light of audit contention and final stance be shared with Audit. The DAC further directed to approach Ministry of Planning, Development and Special Initiatives for their input.

Audit recommends that the department should justify the total cost of work done since the progress of work done and the amount of quantities utilized cannot be reasonably measured in the absence of detailed measurements. Audit recommends that responsibility may be fixed for violation of rules and corrective action may be taken.

Note: The issue was reported earlier also in the Audit Reports for Audit Years 2021-22 and 2022-23 vide para numbers 4.4.4 (2021-22), 4.4.4 (2022-23) having a financial impact of Rs 10,142.38 million. The recurrence of same irregularity is a matter of serious concern.

(DP.157, 190, 224, 237, 321)

4.4.6 Mishandling procurement case of Allama Iqbal International Airport, Lahore, Expansion of Terminal Building and Allied Facilities estimated cost - Rs 25,276.266 million

Rule 36 (viii) of the Public Procurement Rules 2004 states that, ‘after the evaluation and approval of the technical proposal the procuring agency, shall at a time within the bid validity period, publicly open the financial proposals of the technically accepted bids only. The financial proposal of bids found technically non-responsive shall be returned un-opened to the respective bidders.’

Planning & Development Directorate, CAA is responsible for the development of Airport Infrastructure which includes development of new airports and expansion/ modernization of existing airports.

Planning, designing & development of projects as per ICAO/FAA Standards,

Taking input from all directorates and compile Annual Development Plan (ADP) for budget allocation,

Hiring of Consultants for Design & Supervision of projects,

Preparation of PC-1 and obtaining approval from competent fora,

Deployment of Project Staff (In-house + hiring from the market),

Monitoring Project progress, handing/taking over & closures.

Audit noted that the letter of acceptance was issued in favor of M/s Sinohydro-Umer Jan (JV) on 14.03.2023 for the work “Allama Iqbal International Airport (AIIP), Lahore, Expansion of Terminal Building and Allied Facilities.

Audit observed that M/s NESPAK Consultant declared M/s Sinohydro-Umer Jan (JV) as “non-responsive” for the work because at the time of financial bid M/s Sinohydro – Umer Jan (JV) had not filled their financial bid on the original hard copy of BOQ. But the management of Planning & Development of PCAA did not agree with the recommendation of the Consultant and the Director P&D approached credible Law Firms for seeking legal opinion vide letter dated 15.02.2022. In response, two law firms also recommended disqualification of M/s Sinohydro-Umer Jan JV. Despite the above fact the letter of acceptance was issued in favour of M/s Sinohydro-Umer Jan (JV) by 14.03.2023.

The Final Evaluation Report was uploaded on the PPRA website by 15.03.2023 and the following day i.e., 16.03.2023 P&D Directorate issued formal notice to JS Bank Limited vide letter dated 16.03.2023 for Encashment of Bid Security of Rs 250.00 million provided by M/s Sinohydro-Umer Jan (JV).

Audit pointed out mishandlings procurement case in August 2023. The Authority replied that the Consultant's recommendation was not binding on the Procuring Agency and CAA declared M/s Sinohydro - Umer Jan (JV) as the lowest evaluated bidder in the best interest of the Authority. The Authority further replied that M/s Sinohydro-Umer Jan (JV) vide PCAA letter dated 10.02.2023 was requested for the extension of Bid validity and subsequent extension of Bid Security for the extended period. In response to PCAA letter, M/s Sinohydro-Umer Jan (JV) vide letter dated 20.02.2023 informed to communicate their decision before 08.03.2023 regarding extension in bid validity. However, no such decision was communicated which confirmed that the JV didn't extend the bid validity. Letter of Acceptance issued to M/s Sinohydro-Umer Jan (JV) on 14.03.2023 well within the bid validity period and asked to acknowledge the acceptance by 16.03.2023 failing which the Employer reserves all rights to invoke relevant clauses in accordance with the issued bidding documents and prevailing rules. When no such acknowledgment was provided by the JV till close of hours on 16.03.2023, relevant necessary actions including notice to encashment of Bid Security were taken by PCAA in line with the provision of issued bidding documents and prevailing rules

The reply was not tenable because the acceptance letter was issued to the firm, disqualified by the consultant M/s NESPAK and two law firms. Further, the final Evaluation Report was uploaded on the PPRA website by 15.03.2023 and just next day on 16.03.2023 formal notice was issued to bank for Encashment of Bid Security but the bank guarantee was not encashed. This resulted in mismanagement of the procurement case.

Audit maintains that due to mishandling, the procurement case was under litigation.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that a thorough investigation of the procurement case may be conducted as the department gave undue advantage to a contractor despite contrary advice by the consultant and two law firms. The process of procurement may be improved by forming a procuring committee where no single individual has the authority to overturn the decision of the whole committee.

(DP. 373)

4.4.7 Non-achievement of development targets due to non- utilization of development funds - Rs 23,174.510 million

Para 2.1 of Planning Commission's Guidelines for Project Management (August 2008) provides that policy of the Government of Pakistan is to efficiently utilize natural and economic resources of the country for socio-economic welfare of the people. This objective may be achieved only when development projects are planned and executed with vigilant management. Objective of development planning is to have projects implemented for the benefit and social uplift of the society. For achievement of stipulated targets and tangible returns, it is imperative to entrust management and supervision of the project during implementation stage to capable and competent persons of required qualifications, experience and caliber.

Audit noted during the scrutiny of record of Director Planning and Development Directorate Civil Aviation Authority HQ CAA Karachi that after re-appropriation in about 17 cases, the final funds approved for Annual Development Programme of 172 schemes come to Rs 30,439.368 million for the financial year 2023-24.

Audit observed that development fund of Rs 7,264.858 million was utilized during financial year 2022-23 against the ADP funds of 30,439.368 million approved and allocated for 172 ADP Schemes for the financial year 2022-23. In this way, a huge development fund of Rs 23,174.510 million which comes to 76.13% of the ADP allocation could not be utilized. The authority thus failed to achieve the development target despite availability of development funds. This leads to inefficiency towards achievement of development targets involving Rs 23,174.510 million.

Audit maintains that the non-achievement of the targets was due to non-adherence to the rules/regulations and weak internal controls.

Audit pointed out non-achievement of development targets in August, 2023. The Authority replied that several factors hindered utilization of ADP 2022-23. The main challenges included unstable/ uneconomical financial condition of the country, abnormal currency rate fluctuation, ban on opening of LCs by Government of Pakistan and litigation/court cases. These factors resulted in poor participation of bidders in many cases, specially where imported items were involved. In some cases, bidders quoted extremely higher price for such items to safeguard themselves against unstable economic conditions, hence bids were rejected.

The reply without documentary evidence was not acceptable. This is alarming situation that only amount of Rs 7,264.858 million i.e., 23.867% of Rs 30,439.368 million was utilized against the final approved 172 ADP schemes/allocation as on 30.06.2023.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that the authority should improve its planning department which should ensure complete utilization of development funds since the delay for any reason would ultimately cost the exchequer. An arbitration committee may be formed for early and timely resolution of disputes that could possibly hinder the progress of development projects. Furthermore, audit recommends further investigation in the matter for not achieving the development targets despite availability of funds and action against the responsible under intimation to audit.

(DP. 372)

4.4.8 Non-finalization of accounts and non-preparation of PC-IV and PC-V of completed works - Rs 20,944.340 million

Rule 45 of the Public Procurement Rules, 2004 (1) provides, except for defect liability or maintenance by the supplier or contractor, as specified in the conditions of contract, performance of the contract shall be deemed close on the issue of overall delivery certificate or taking over certificate which shall be issued within thirty days of final taking over of goods or receiving the deliverables or completion of works enabling the supplier or contractor to submit final bill and the auditors to do substantial audit. (2) In case of defect liability or maintenance period, defect liability certificate shall be issued within thirty days of the expiry of the said period enabling the supplier or contractor to submit the final bill. Except for unsettled claims, which shall be solved through arbitration, the bill shall be paid within the time given in the conditions of contract, which shall not exceed sixty days to close the contract for final audit.

Audit noted that CAA awarded four (04) works to different contractors which were completed from October 2019 to July 2022 involving expenditure of Rs 20,944.340 million, as detailed below:

(Rs in million)

DP No.	Name of Project	Amount	Date of Completion/ TOC
173	Reconstruction & Up-gradation of Main Runway (18L/36R) at AIIAP Lahore	8,789.825	29.07.2022
186	Passenger Terminal Building Expansion Project at AIIAP Lahore (Const. of Car Parking Area)	10,550.557	2021
296	Package-4A Airport Information Management System IIAP Islamabad	1,547.656	09.11.2020

DP No.	Name of Project	Amount	Date of Completion/ TOC
303	Construction of Airport Security Force camp phase-1 at IIAP Islamabad	56.302	15.10.2019
	Total	20,944.340	

Audit observed that since expiry of considerable time after completion, CAA did not finalize the accounts of the projects/works and PC-IV & PC-V has also not been prepared as required. Furthermore, assets i.e., vehicles, office and residence furniture and fixtures, laboratory and survey equipment, etc., procured against these works/projects were not taken on stock register. This resulted in non-finalization of accounts and non-preparation of PC-IV and PC-V of completed works for Rs 20,944.340 million.

Audit maintains that non-finalization of accounts and non-preparation of PC-IV and PC-V of completed works/projects occurred due to weak internal controls and poor assets management.

Audit pointed out the matter during August-November 2023. The Authority replied (DP. 173) that final TOC was yet to be issued in respect of the whole of the works. The Engineer will issue final payment certificate to the employer in accordance with the provisions of contract and subsequently will submit PC-IV.

In DP. 296, it was replied that the Engineer Representative (ER) of Package-4A was coordinating with the contractor for submission of Application of Final Certificate of Payment as per Clause 33.8 of the contract. Final Payment Certificate (FPC) will be processed and forwarded to the Employer by the ER, after completing contractual obligations.

In DP 303 it was replied that the main facility was handed over to end-user ASF, on Taking-Over Certificate and ASF was using the facility since operationalization of Airport and at the same time Contractor has executed remedial works.

The reply of the Authority was not tenable. The finalization of accounts of the project alongwith PC-IV was to be prepared as per Planning Commission guidelines after completion of all codal formalities. Further, accountal of assets (Stock/equipment) was not recorded in the CAA books of

accounts. A period of more than two year has been elapsed after TOC but the contractor neither submitted final statement nor the project management finalized the accounts of the project.

The matter was discussed in DAC meeting held on 15-16 January, 2024. CAA apprised that final bill has been received and finalization of accounts is under process. DAC directed to expedite the process and get the relevant record be verified by Audit (DP. 186). In case of DP. 173, CAA explained that Final TOC is yet to be issued. DAC directed the management of CAA that relevant record showing original date of start, stipulated date of completion, actual date of completion, reasons/ justification for delay, approved extension of time be verified from Audit. DP. 296 and 303 were not discussed in DAC meeting.

Audit recommends that the matter may be further investigated to fix responsibility, whether it be against the client, consultant, or the contractor and fines may be levied against the responsible party for delay in the finalization of the projects. If the delay is on part of CAA, the responsible officers may be held to task for causing unnecessary delays and costing the exchequer. Audit also recommends early finalization of accounts and taking over assets (Stock/equipment) in CAA books of accounts under intimation to Audit.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2020-21 and 2021-22 vide para numbers 4.4.1 (2020-21) and 4.4.2 (2021-22) having a financial impact of Rs 22,138.372 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 173, 186, 296, 303)

4.4.9 Non-recovery of outstanding dues against defaulters - Rs 19,135.094 million

Para 4.2 of the DG directive No. 05/2021 (establishment/ revamping of recovery cell) dated 31.08.2021 describes for old outstanding cases where the dues have exceeded 75% of security deposit/ advance, Recovery Cell shall immediately report such cases to DG, CAA and Addl. DG, CAA for approval of final recovery action.

During audit of the accounts of Finance Directorate, Civil Aviation Authority, Karachi it was noted that an amount of Rs 105,034.280 million has been realized against aeronautical billing of Rs 124,169.373 million during the financial year 2022-23. In this way the Authority could not realize of Rs 19,135.093 million (Rs 124,169.373 million - Rs 105,034.280 million) for the period from July 2022 to June 2023.

Audit observed that no timely and effective steps have been initiated to recover/ adjust the outstanding dues. Delay in recovery of the dues will result accumulation and at the end remained irrecoverable and recommends for write off action.

Audit holds that due to non-observance of the prescribed procedure an amount of Rs 19,135.094 million remained irrecoverable.

Audit maintains that non-recovery of aeronautical charges was due to inadequate oversight mechanism in enforcing relevant financial rules.

Audit pointed out non-recovery in October, 2023. The Authority replied as under:

M/s PIACL Rs 18,828.383 million

M/s PIACL failed to comply with the decision of ECC/Aviation Division. Moreover, PCAA is continuously following up the Airline for payment of its outstanding dues, in this regard, upon no positive response from the airline, PCAA further approached to the highest possible forum i.e., Aviation Division, Government of Pakistan for recovery of its dues.

Parking Charges Rs 29.083 million

A comprehensive mechanism for disposal of long parked aircrafts is under consideration with the management and outcome of which will be appraised to Government Audit, as and when effected.

Court Cases Rs 96.433 million

The court cases are vigorously being pursued by Legal Regulatory HQ, CAA.

Embassies Rs 171.331 million

The matter has already been taken up to Ministry of Foreign Affairs by Recovery Cell, HQ, CAA for recovery of outstanding PCAA dues, outcome will be shared to Audit as and when recovered.

Government & Others Rs 9.863 million

The matter is under active persuasion by Recovery Cell, HQ, CAA, as and when recovered will be apprised accordingly.

Authority has admitted the audit observation.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends suspension of services of defaulting parties. Furthermore, fines may be levied against the non-complying parties. A payment method may be devised in consultations with the defaulting companies for clearance of their dues in installments. Audit also recommends appropriate action under the provision of license agreements besides ensuring recovery of the outstanding dues.

(DP. 274)

4.4.10 Unauthentic award and execution of contract - Rs 8,166.212 million

Para 56 of CPWA Code, a properly detailed estimate must be prepared for the sanction of competent authority; this sanction is known as the Technical Sanction to the estimate and must be obtained before the construction of the work is commenced. As its name indicates, it amounts to no more than a guarantee that the proposals are structurally sound, and that the estimates are accurately calculated and based on adequate data.

Para-98 of CPWD Manual chapter VI states, “While preparing estimates the quantity surveyor should base the estimate on the schedule of rates in force, in the locality. For non-schedule item current market rates should be properly analyzed.

Audit noted during audit of the Project Director, New Gwadar International Airport Project (NGIAP), CAA Gwadar that a work “Power Supply System along Fence, Security Control & Monitoring System and Watch Tower (Package-I)” was awarded to M/s Qavi Engineers (Pvt) Ltd on 20.06.2022 at a bid cost of Rs 2,299.617 million and the total gross payment of Rs 1,050.147 million was made to the contractor during financial year 2022-23.

Audit further noted that the work “Construction of CAA residential Complex Cargo Building, and External Services at NGIAP (Package-II)” was awarded to M/s SCEGCL-N&B (J.V) on 24.11.2022 at a bid cost of Rs 5,866.596 million and the gross payment of Rs 1,230.327 million was made to the contractor during the financial year 2022-23.

Audit observed that the above mentioned contracts were awarded on the basis of non-scheduled item and based on market rates, whereas rate analysis duly supported with evidences of basic market rates was not forthcoming from the record produced to Audit. Audit further observed that work plan, detailed estimate, original Technical sanction and test reports (Soil, Steel & Concrete) were also not forthcoming from the record produced to Audit.

Audit is of the view that in the absence of the mandatory evidences regarding reasonability of market rate-based items, the payment stands unauthentic.

Audit holds that non- preparation of proper rate analysis resulted in unauthentic award and execution of work amounting to Rs 8,166.212 million (Package-I Rs 2,299,616,940 + Package-II Rs 5,866,596,025).

Audit pointed out the irregularity in September 2023. The Authority replied that rate analysis for Package-I & II had already been prepared by the M/s NESPAK and based on market rates which are available for verification.

The reply was not tenable as the rate analysis duly supported with evidence of prevailing market rates were not provided for verification till finalization of report.

The matter was discussed in DAC meeting held on 15-16 January 2024. DAC pended the para with the directions to the management of CAA to submit revised reply along with supporting record, revised TS, basis of rates/quotations, work plan, test reports, geo-tech report to Audit for evaluation.

Audit recommends that fresh estimates may be prepared for the projects as per CPWD code and it may be compared with the contract rates to calculate the actual discrepancy in the contract cost. The excess amount may be recovered from the contractor. Furthermore, Audit recommends that the matter may be investigated for fixing responsibility against the concerned officials.

(DP. 238)

4.4.11 Irregular expenditure due to non-revision of PC-I - Rs 3,608.507 million

Para 9.1 of Planning Commission's Guidelines for Project Management (August 2008) provides that after the approval of the project, the executing agency implements the Project according to the provisions of PC-I. There is no need for revision of PC-1 if completion cost is within the permissible limit of 15% of the approved cost and scope of the project as approved in the PC-I. According to para 9.2, during the implementation of project, if it is felt that there will be major change in the scope of work or increase in the approved cost by more than 15%, then the project has to be revised and submitted for approval by the competent authority. It is essential that the revised cost estimates are prepared in a realistic manner. As per para 9.3, the revised PC-I should provide reasons and justifications for revision in cost/scope of work.

Audit noted that Project Management Unit, CAA Lahore got executed works and incurred expenditure of Rs 14,581.727 million as under:

(Rs in million)

DP. No.	Name of Works	PC-I Cost	Agreement Cost	Expenditure	Excess	%age excess
185	Passenger Terminal Building Expansion Project at Allama Iqbal International Airport, Lahore (Const. of Car Parking Area)	5,023.220	5,903.940	7,709.557	2,686.337	53.48
165	Reconstruction & Up-gradation of Main Runway (18L/36R) at Allama Iqbal International Airport (AIIAP) Lahore	5,950.000	6,450.868	6,872.170	922.170	15.50
	Total	10,973.22		14,581.727	3,608.507	

Audit observed that the value of work done was increased from the admissible limit of 15 % from PC-I provisions and excessive expenditure of Rs 3,608.507 million was incurred without revision of PC-I as required. This resulted in irregular expenditure of Rs 3,608.507 million due to non-revision of PC-I.

Audit pointed out the irregularity during July-August 2023. The Authority replied that umbrella PC-I was approved for Rs 43.632 billion for the project Expansion of AIIAP Lahore whereas approved work done cost increase, in car parking package was approximately 6% of aforementioned total approved PC-I cost which was within prescribed limits. In other work, it was replied that revised PC-I was being prepared by the Consultant and subsequently would be presented to competent forum and would be shared with audit upon approval.

The reply was not accepted because under the component of car parking an excess of 53.48% was made. Moreover, payments were made beyond the permissible limit without approval of revised PC-I.

The matter was discussed in DAC meeting held on 15-16 January 2024 wherein the Committee directed DG CAA to review the project holistically in the light of irregularities pointed out by Audit and comprehensive report be shared with PAO and Audit. Further, DAC directed the management of CAA to provide following details in tabular form, regarding variations to Audit for verification:

PC-I cost	Component wise cost (Civil Works, others)	Item-wise detail of cost						
		Name of Item	Quantity	Rate	BOQ/No-BOQ	Justification	Price Escalation	Custom duty

Audit recommends investigation in the matter for making payments beyond the permissible limits, besides approval of the revised PC-I under intimation to Audit. Excess payments may be justified by the department and if found unjustified, recoveries may be made from the contractor while fixing responsibility against the concerned officials for allowing excess payments.

(DP. 165 & 185)

4.4.12 Unjustified transfer of PCAA's funds to PIACL bank account -Rs 4,000 million

Recovery Cell was established based on the decision of CAA Executive Committee in its 300th meeting held on 16.05.2019. The core responsibility of Recovery Cell is to exercise zero-tolerance

policy in respect of all current dues respective of the active parties. Recovery Cell has to ensure timely recovery of dues in co-ordination with respective Directorate.

During audit of the accounts of Finance Directorate, (HQ) CAA, Karachi, Audit noted that the PCAA transferred an amount of Rs 4,000 million to Pakistan International Airlines Corporation Ltd (PIACL) on 03.08.2023 as temporary financial aid.

Audit observed that such aid was made despite the fact that an amount of Rs 107,649.172 million was recoverable from PIACL on account of aeronautical dues and Rs 1,397.629 million as non-aeronautical on 30.06.2023. This resulted in unjustified transfer of PCAA's funds of Rs 4,000 million to PIACL.

Audit pointed out irregularity in October 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends justification for the irregular transfer of money from PCAA account to PIACL account. Strict financial controls may be implemented where transfer of significant amounts should be approved by the highest authority in the PCAA. Responsibility may be fixed against the relevant officers for the negligence on their part. Furthermore, the Ministry of Aviation should implement stern measures for reducing impaired amount of Rs 113,046.801 million which was increasing on day by day.

(DP. 288)

**4.4.13 Non-achievement of stipulated targets and tangible returns under approved Annual Development Programme -
Rs 3,490.80 million**

Para 2.1 of Planning Commission's Guidelines for Project Management (August 2008) provides that policy of the Government of Pakistan is to efficiently utilize natural and economic resources of the country for socio-economic welfare of the people. This objective may be achieved only when development projects are planned and executed with vigilant management. Objective of development planning is to have projects implemented for the benefit and social uplift of the society. For achievement of stipulated targets and tangible returns, it is imperative to entrust

management and supervision of the project during implementation stage to capable and competent persons of required qualifications, experience and caliber.

During audit of the record of Directorate of Communication Navigation Surveillance (HQ) CAA, Karachi it was noted that twenty (20) schemes duly approved from competent forum were included under ADP 2022-23 involving estimated cost of Rs 6,906.255 million.

Audit further noted that funds allocation against remaining eight (8) schemes valuing Rs 197.300 million were also made during the year against which, releases amounting to Rs 76.634 million were made up to 30.06.2023 i.e., 38.841%.

Audit observed that out of twenty (20) schemes, allocation of funds against twelve (12) schemes valuing Rs 3,490.80 million were also made but these schemes were not yet started, which means that the projects/ schemes were planned and undertaken without due diligence and the availability of financial resources. This shows that the Authority failed for timely procurement of these projects which were included /approved under ADP. Further, due to increasing trend of the prices of materials, services and foreign exchange conversion rate, the procurement cost will increase from the estimated cost abnormally. This resulted in non-achievement of stipulated targets and tangible returns due to non-procurement of works approved under ADP Rs 3,490.80 million.

Audit maintains that non-achievement of the targets was due to non-adherence to the Project Management Guidelines and weak internal controls.

Audit pointed out the non-achievement of the targets in August 2023. The Authority replied that most of the cases were either re-tendered or in process, while some were turned down by the competent authority. The reply of the Authority was not convincing because schemes were proposed in ADP 2022-23 without proper analysis, need and necessity. Further, the Authority could utilize only 1.109% of the ADP.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that investigation may be carried out to determine the reason why funds were demanded but not utilized by the PCAA. Inquiry may be made for abnormal delay in procurements of works and reduction in ADP schemes may be investigated for fixing the responsibility against the person(s) at fault.

(DP. 214)

4.4.14 Execution of the projects without feasibility studies and technical sanctioned estimates - Rs 11,569.00 million and irregular approval of schemes - Rs 2,872.00 million

Para 2.08 of Manual for Development Projects, 2021 issued by Planning Commission states that the PC-II approved by the relevant competent forum is required for the conduct of feasibility study, including technical investigations, market surveys and other studies. The requirement of a PC-II shall be mandatory for infrastructure projects, each costing Rs 500.00 million or above. Further, Para 7.25 of the Manual explains that the autonomous organizations whether commercial or non-commercial having Board by whatever name called, should be competent to sanction their development schemes with 100% self-financing with no government guarantee and involving less than 25% foreign exchange/foreign assistance subject to various requirements including constitution of Departmental Development Working Party (DDWP). In cases where foreign exchange is more than 25% of the total cost of the project, the approving forum will be Central Development Working Party (CDWP)/Executive Committee of the National Economic Council (ECNEC) irrespective of the cost of the project vide Planning Commission Notification No.20(1) PIA-I/PC/2019 Islamabad, dated 23.09.2019.

Further, as per Para 6.09 of Pak PWD Code Revised 1982), adopted by PCAA, a proper detailed estimate must be prepared for the sanction of competent authority.

Audit observed from the record of Communication, Navigation and Surveillance (CNS) Directorate, PCAA Karachi that:

Two schemes as detailed below were approved in Annual Development Programme (ADP) of PCAA without conducting feasibility study in violation of Planning Commission's guidelines:

Name of Scheme	Year	Estimated cost (Rs in million)		
		Local component	Foreign component	Total
Up-gradation of ATM/Voice Control and Communication System (VCCS) of	2021-22	680.000	1,520.000	2,200.000

Name of Scheme	Year	Estimated cost (Rs in million)		
		Local component	Foreign component	Total
Karachi and Lahore Area Control Centres (ACCs)			(69%)	
Provision /Replacement of Doppler Very High Frequency Omni Directional Range (DVORs)/Distance Measuring Equipment (DMEs) at Airports	2021-22	325.000	1,075.00 (77%)	1,400.000

An amount of Rs 4.829 million was spent till June 2021 against the scheme “Up-gradation of ATM/Voice Control and Communication System (VCCS) of Karachi and Lahore Area Control Centres (ACCs)” and no further progress was achieved during the year 2021-22. Subsequently, estimated cost of the scheme was enhanced to Rs 4,000.00 million, which included Foreign exchange component of Rs 2,255.00 million and got approved from the PCAA Board for the year 2022-23. Delayed implementation caused increase in cost.

Six (06) self-financing schemes amounting to Rs 2,872.00 million involving Foreign Exchange Component (FEC) of Rs 2,146.00 million were approved by PCAA Board for the year 2021-22 and 2022-23. Since the foreign exchange component for these schemes was in excess of 25% of the total project cost, therefore PCAA Board was not competent forum to approve the schemes and approval of CDWP was required in terms of Panning Commission’s Manual for Development Projects, as detailed below:

(Rs in million)

S. No.	Name of scheme	Local component	Foreign Component	Total	%age of Foreign component
1	Provision of ILS at PCAA Airports	180.00	720.00	900.00	80%
2	Provisioning/ replacement of digital voice logging system (DVLS) for ATC and flight inquiry recordings	46.000	21.000	67.000	31%
3	Provisioning/ replacement of High Power HF RT System	50.000	200.00	250.00	80%
4	Provisioning/ replacement of FIDS and allied components at airports	65.000	100.000	165.00	61%
5	Procurement of ATIS	60.000	30.000	90.000	33%
6.	Provision/ Replacement of Doppler Very High Frequency Omni Directional Range (DVORs)/ Distance Measuring Equipment	325.000	1,075.0	1,400.0	77%

S. No.	Name of scheme	Local component	Foreign Component	Total	%age of Foreign component
	(DMEs) at Airports				

Twenty-two (22) schemes (**Annexure-AB**) were approved in ADP involving Rs 6,169.00 million but cost estimates of the schemes were not technically sanctioned prior to entering into the tendering.

Audit pointed out the irregularity in January 2023. The Authority replied that:

Feasibility study was conducted on PC-II Proforma and working paper was submitted for consideration of PCAA Board with full justification and the reasons for procurement of DVOR/DMEs.

The delay in one scheme was caused due to nature & complexity of project and obtaining approval from the various fora.

The cases were submitted to Aviation Division for onward submission to Planning, Development & Special Initiatives Division for Ex-Post Facto approval to regularize the cases.

In one case estimate was got technically sanctioned from competent authority. In rest of the cases guidelines had been noted for compliance.

The reply was not tenable because the feasibility study dated 09.05.2022 in respect of DVOR/DMEs submitted by the Authority was a recommendation which has not been got approved from the competent forum (CDWP). Further, the provision of the scheme in ADP prior to approval from the competent authority was not justified. In other case (VCCS/ACCs), feasibility study was not carried out on the prescribed proforma. Moreover, the increase in the cost of a project was due to improper planning. Schemes involved foreign component more than 70% therefore these should have been forwarded to CDWP for approval before execution.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 28.08.2023, 18.09.2023, 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends evaluation of the whole procurement process to ensure that public money is utilized in the most fair and efficient manner. Lack of a feasibility study can result in wastage of public resources so in this case, the matter needs to be investigated to fix responsibility against the persons responsible besides taking effective measures to complete the project without further delay.

(DP. 38, 39, 41&42)

4.4.15 Loss to Authority due to non-execution of lease agreement and unauthorized occupation of land - Rs 2,647.471 million

Para A.1 of CAA Land Lease Policy-2019 provides that it is vital to effectively utilize PCAA land to achieve sustainable economic development, up gradation of aviation services, adoption of upcoming aviation technologies, etc.

Para D15.1 provides that the Lessee will not mortgage/ pledge/ alienate/ sub-lease any part or portion of the leased land. PCAA shall have the right to inspect the leased land periodically.

During audit of the record of Commercial and Estate Directorate, CAA, Karachi it was noted that several spaces of total area measuring 43,145.33 sq.yds. were allotted to M/s PIACL on thirty (30) years lease w.e.f 01.09.1976 which was expired on 01.09.2006.

Audit observed as under:

Since expiry of the lease, no further lease was executed between both the parties.

Till to date, several spaces of total area measuring 912,796.50 sq.yds. were under possession of M/s PIACL at Karachi against the initially allotted area of 43,145.33 sq.yds.

CAA raised bill for land lease period from 01.03.2023 to 29.02.2024 for yearly ground rent of Rs 2,647.471 million payable up to 10.03.2023 (including arrears as on 28.02.2023 and late payment surcharge). But no payment was made by M/s PIACL.

It seems that M/s PIACL is reluctant to execute lease agreement, pay dues of the Authority and occupied Authority's precious land (un-utilized/abandoned) without need and necessity as PIACL has shifted its main operational hub from Karachi to Islamabad and number of premises in possession of PIACL were in no use and lying abandoned. This resulted in loss to Authority due to non-execution of lease agreement and unauthorized occupation of land Rs 2,647.471 million.

Audit pointed out the loss in December 2023 but the Authority did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends that Authority should involve law enforcement agencies for possession of CAA land from PIACL on an urgent basis, repossession of abandoned/unused land may be the priority while other areas may be focused on later. Officials responsible for delay in repossession may be taken to task. The Authority may approach the court of law for execution of pending lease agreements and further loss to the exchequer may be avoided.

(DP. 388)

4.4.16 Non-inclusion of M/s PIACL bills of 40 lease spaces in ERP report - Rs 2,584.996 million

Recovery Cell was established based on the decision of CAA Executive Committee in its 300th meeting held on 16.05.2019. The core responsibility of Recovery Cell is to exercise zero-tolerance policy in respect of all current dues of the active parties. Recovery Cell has to ensure timely recovery of dues in co-ordination with respective Directorate.

As per para 1.7 of CAA Revenue Accounting Manual, the accounting system objectives for revenue charges are as follows:

Each time a charge arises, source of information must be generated. This information must be prompt, authentic and independently checked/verified.

The source of information must be properly controlled for completeness in order to minimize the possibility of revenue leakage.

The procedures will ensure that proper bills/ collection are raised as promptly as possible.

Steps will be initiated and continued for recovery of long overdue charges.

Bills and collection will be accurately recorded in the books of account.

Audit noted that Sr. Joint Director Finance JIAP, Karachi apprised to Sr. Joint Director Recovery Cell, HQ, CAA, Karachi, vide letter dated 31.03.2023, that M/s PIACL bills of 40 lease spaces, outstanding for Rs 2,584.996 million, were not included in Enterprise Resource Planning (ERP) report.

Audit observed that Recovery Cell did not take any action to resolve the above mentioned deficiency. This reflects that CAA books of revenue accounts did not present true and fair picture of outstanding dues.

Audit maintains that irregularity occurred due to weak internal and financial control.

Audit pointed out irregularity in October 2023. The Authority replied that the matter would be pursued with the formation concerned for inclusion of bills in ERP report.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends inquiry as to why such a significant amount was overlooked by the ERP committee. A board may be formed to investigate the matter, to determine why undue benefit was given to PIACL while determining their total recoverable dues. Forty lease spaces outstanding for Rs 2,584,996,133

may be included in ERP Report under verification with supporting documents to Audit. Responsibility may be fixed against individuals responsible for the exclusion of the recovery from the report.

(DP. 291)

4.4.17 Unauthorized occupation of 11,887 Square Yards CAA land since the year 2003 causing loss of revenue - Rs 2,370.743 million

Paras D2.1.1 and D3.5 of Land Lease Policy, 2019 provide that the lease of land shall be either through open auction, open bidding or calling tenders. Maximum 10% increase in awarded land may be allowed, if identified later on in the possession of lessee and the lessee shall be charged 100% of the assessed land price/value at the time of award of lease.

During scrutiny of the accounts of Jinnah International Airport Karachi for the financial year 2022-23, Audit noted that the lease deed for an area of 44,914 Square Yards effective from 19.09.2003 was entered into on 29.12.2005 between the Civil Aviation Authority and M/s UIG (Pvt) Limited, Karachi Pakistan (Ramada Hotel). During site survey in the year 2020, it was discovered that the Lessee was in unauthorized occupation of excessive land of 11,887 Square Yards.

Audit observed that:

Lessee has succeeded in occupation/lease of CAA land 11,887 Square Yards without open auction/competition.

Rent of open space from 19.09.2003 to 18.09.2023 is recoverable @ Rs 6.81 per sft for 106,983 sft (11,887 Square Yards x 09) for Rs 231,083,280 (106,983 sft x Rs 6.81 per sft x 12 x 20).

Premium at current market rate @ Rs 180,000 per Square Yard (FBR Notified rate) for 11,887 Square Yards for Rs 2,139.660 million is recoverable.

Audit maintains that unauthorized occupation of CAA land and loss of revenue of Rs 2,370,743,280 (Rs 231,083,280 + Rs 2,139,660,000) was due to poor assets management/negligence of CAA staff.

Audit pointed out the matter in November 2023. The Authority replied that in the matter of excess land measuring 11,887 sq yds under occupation, letters of displeasure were issued to the ex-CAA officials after conducting BOI as per CAA Board directives. The matter was then presented to CAA Board which

regularized the excess land under possession of the lessee on the same terms and conditions of the original lease. Moreover, recovery of premium and annual ground rent in respect of excess land was being recovered from the lessee from the date of initial allotment.

The reply was not accepted because as per Land Lease Policy of PCAA 2019 the lease of land was put to auction through open bidding or calling tenders. Recovery of premium on the rates of the year 2003 in the year 2023 was not justified and in contradiction to the land lease policy.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that the premium of land under unauthorized occupation may be recovered at current market/auction rate besides recovery of the Annual Ground Rent from the date of occupation.

(DP. 29 & 308)

4.4.18 Delay in procurement of bird repellent system compromising safety of aircrafts - Rs 2,118.000 million

Part 3 of the Airport Services Manual of the International Civil Aviation Organization describes the responsibilities of the national civil aviation organization as follows:

Birds and other wildlife on, and in the vicinity of, the airport may represent a threat to aircraft safety. In cases, this threat can be reduced by adapting the aircraft's schedule in favour of the wildlife, especially when the presence of wildlife is for a limited time. Reducing the presence of wildlife in aircraft flight paths can be achieved through ecological means such as habitat management or the dispersal or removal of hazardous wildlife. While the wildlife control programme will be airport-specific, the development of such nature and environmentally sensitive programmes should adhere to national environmental regulations.

Repellent and harassment techniques should be used to keep hazardous wildlife away from specific areas on or near an airport. The long-term cost-effectiveness of repelling hazardous wildlife does not compare favourably with habitat modification or exclusion techniques. Wildlife will return as long as the attractant is accessible. However, habitat modification and exclusion techniques will never rid an

airport of all hazardous wildlife. Repellent techniques are a key ingredient of any wildlife hazard management plan.

Para 2.1 of Planning Commission's Guidelines for Project Management (August 2008) provides that policy of the Government of Pakistan is to efficiently utilize natural and economic resources of the country for socio-economic welfare of the people. This objective may be achieved only when development projects are planned and executed with vigilant management.

During audit of the record of Directorate of Communication Navigation Surveillance (HQ) CAA, Karachi it was noted from the details of ADP Schemes for the year 2022-2023 that Scheme No. 1352N281- Bird Repellent System for PCAA Airports" for Rs 2,118.000 million was included in the ADP with completion period up to 30.06.2023.

Audit observed that the scheme was proposed to curtail significant threat to aircraft safety but no action towards procurement was initiated till 30.06.2023.

The delay in the procurement of the scheme within the targeted period occurred due to poor project management. Moreover, the delay in the project will increase risk of significant damages to aircrafts due to bird hazard/strike. This also impacts the cost of the scheme due to rapid fluctuation in the foreign exchange rates.

Audit holds that non-adherence of the Guidelines for Project Management and economic measures, caused delay in procurement of bird repellent system compromising safety of aircrafts for Rs 2,118.000 million.

Audit pointed out the delay in procurement in August 2023. The Authority replied that this project was not part of annual tasks & targets of CNS Directorate. ADP for the project was created on immediate basis with the approval of Director General, CAA on 05.04.2023. The requirement was considered immediate and operational in nature. Accordingly, tender action was initiated through logistics Air Navigation Services (ANS) on immediate basis as per directions of DGCAA. However, both bidders were technically disqualified owing to major non-compliances to technical specifications. Hence no abnormal delays were involved in the project.

The reply was not tenable because the scheme was introduced for immediate provision of bird repellent system at the PCAA airports to control aircraft accidents due to bird hazard. The tender was floated wherein two suppliers participated and both bidders were technically disqualified

owing to major non-compliances to technical specifications. The technical evaluation committee recommended that proper in-house feasibility study and presentation from potential suppliers may be conducted for preparation of technical/ operational specification. This shows that tender was floated without proper feasibility study for viability of system, acceptable technical and operational specification. Therefore, due to inadequate planning the scheme could not be materialized in the given time line i.e., 30.06.2023. Further, due to non-installation of bird repellent systems, safety of aircrafts is at risk.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that the responsible individuals may be held to task for their negligent attitude as they allowed the whole financial year to lapse before executing the procuring procedure. Their negligent attitude put hundreds of lives at risk and also made the authority liable to heavy damages. Audit also recommends implementing comprehensive bird control strategies that include both preventive measures (such as habitat management, waste management, and bird repellent systems) and reactive measures (such as wildlife hazard assessments and immediate response protocols).

(DP. 215)

4.4.19 Unauthentic and un-reconciled receipt of throughput charges - Rs 1,420.480 million

Civil Aviation Authority Order-06 (CAAO-06) implemented with effect from 20.05.2020, requires that the Airport Manager/Chief Operating Officer (COO) shall ensure that effective coordination & communication is made with all stakeholders involved in the process of collection of Cargo Throughput Charges (CTC) including Pakistan Customs, Ground Handling Agents (GHAs), Customs Agent Association and Airlines, etc. Daily reconciliation of CTC Collection with Delivery Report of all GHAs shall be carried out by the Cargo Manager/Officer incharge CTC/Team Leader CTC.

As per CAAO-06, a fortnightly CTC reconciliation report shall be developed/generated based on the data contained in FIRMS after integration with GHA data. This detailed report shall contain 3 important aspects of reconciliation (Bank Deposit Data, Firms data and Data provided by GHA's on real time basis). The final report shall be signed by Cargo Manager and countersigned by Revenue Manager & Airport Manager of the respective location. In case any discrepancy is identified after the reconciliation process, i.e., less amount charged or wrong cargo type entered, the Cargo Manager shall make efforts to rectify the same at the earliest. The fortnightly reconciliation report shall be emailed to Addl. Director Cargo, HQCAA.

During scrutiny of the accounting record of Cargo Section of APM JIAP, Karachi for the financial years 2022-23, Audit noted that CAA earned revenue of Rs 1,420,479,690 on account of cargo throughput charges.

Audit observed that there was no effective coordination & communication with Pakistan Customs, GHAs, Customs Agent Association and Airlines, etc. Daily and fortnightly reconciliation of CTC Collection with Delivery Report of all Ground Handling Agents was not carried out as required. No comparison of chargeable cargo weight as per Ground Handling Agents and actually charged by CAA, was available.

This resulted in unauthentic and irregular recovery of Rs 1,420.480 million on account of cargo throughput charges, which was due to weak financial controls and lack of oversight in the major non-aeronautical revenue area. Such shortcomings if probed could unearth leakage of CAA revenue worth millions of rupees.

Audit pointed out the matter in November 2023. The Authority did not reply. The similar issue relating to Islamabad International Airport was also reported in Audit Report for the year 2022-23 (Para 4.4.13) which was discussed in DAC meeting held on 10.03.2022 wherein after detailed deliberations, the DAC directed the Authority to get the daily reconciliation of weight with Ground Handling Agents, rates and other relevant record verified from Audit.

Audit recommends compliance of DAC's directive.

(DP. 312)

4.4.20 Non-resolving the issue of CAA aeronautical outstanding dues against the embassies - Rs 1,334.894 million

Para 4.2 of the DG directive No. 05/2021 (establishment/ revamping of recovery cell) dated 31.08.2021 describes for old outstanding cases where the dues have exceeded 75% of security deposit/ advance, recovery cell shall immediately report such cases to DG CAA and Addl. DGCAA for approval of final recovery action.

During audit of the accounts of Finance Directorate, (HQ) Civil Aviation Authority Karachi it was noted that the A/Additional Director Finance (Billing) has sent the Ministry of Aviation, Government of Pakistan Office Memorandum No.5-1/2021-AT-II dated 06.06.2023 to Recovery Cell for information and necessary action. Audit further noted that the Section Officer (AT-II) Ministry of Aviation has apprised to Secretary Ministry of Foreign Affairs Islamabad on the aforesaid Office Memorandum dated 06.06.2023, that the issue of outstanding dues accumulated against the concerned Embassies on account of services rendered by Civil Aviation Authority such as air navigation/housing charges still remained unresolved. The outstanding amount has inflated to the tune of Rs 1,334,894,426 as on 31.03.2023 against various embassies.

Audit observed that no record was found showing resolution of the issue of outstanding dues involving Rs 1,334,894,426 accumulated against the embassies concerned on account of services rendered by CAA.

Audit holds that due to non-observance of the prescribed procedure, the dues of Rs 1,334.894 million resulted in accumulation and remained irrecoverable.

Audit pointed out the matter in October 2023. The Authority replied that the matter has already been under consideration by Ministry of Aviation & Ministry of Foreign Affairs, and needs to be resolved at diplomatic level. Outcome will be intimated to Audit.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends for taking stern measure in order to resolve the issue of CAA aeronautical outstanding dues of Rs 1,334.894 million against the embassies.

(DP. 292)

4.4.21 Irregular award of different concessions without fair competition - Rs 1,172.016 million

Rule 4 of the Public Procurement Rules 2004, provides that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economic.

Rule 20 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

Audit noted that Airport Manager, Allama Iqbal International Airport, Lahore awarded and executed eight (08) concessions to different concessionaires during the financial year 2022-2023 for running of business at the airport for Rs 1,172.016.

Audit observed that APM Lahore awarded the concessions mostly to the sitting licensees with minor excess on the reserve price without open competitive bidding. The Authority should have opted for retendering process and avail maximum opportunity to fetch competitive rates but the retendering was not done.. This has resulted in irregular award of different concessions without fair competition of Rs 1,172.016 million.

Audit pointed out the irregularity in July 2023. The Authority replied that all commercial licenses were awarded through open tenders after wide publicity. Further, Rule 38B of the Public Procurement Rules 2004 allows acceptance of single bid.

The contention of the Authority was not acceptable because fresh tender was not floated to get fair and advantageous rates. Further, rule 38 of the Public Procurement Rules allows acceptance of single bid but only when condition including “financial conformance in terms of rate reasonability” holds true.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends formation of a fact finding committee to establish whether the concessionaire was granted undue benefit. Audit further recommends formation of a procuring committee to ensure that all procurements are in line with rules, the committee may be unbiased and have objective to ensure that no unfair advantage is given to any single contractor.

(DP. 201, 208)

4.4.22 Irregular award due to hiring of outsourced janitorial staff at higher rate than on retainership basis - Rs 19.266 million

Rule 4 of the Public Procurement Rules 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economic. Rule 20 provides that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

Audit noted that Airport Managers Allama Iqbal International Airport, Lahore, Bacha Khan Airport Peshawar and Quetta International Airport awarded and executed four contracts Service Level Agreement (SLA) for janitorial and cleaning services, O&M Services of E&M and Civil during financial year 2022-23 for a period of one year to three (03) years with total agreement cost of Rs 1,079.678 million.

Audit observed that APM, Lahore and Peshawar were running the janitorial and cleaning activities and O&M of Civil and E & M services through retainership with per janitor fee of Rs 25,000. Audit further observed that these services were outsourced through SLA at higher rates as compared to the cost incurred on the retainer-ship and consumables. It is pertinent to mention that the contract was awarded on a single bid, at an extraordinary higher cost up to 330% than the cost of retainership. This showed that the contracts were awarded to give undue benefits to the preferred contractors, causing huge loss to the Authority. This resulted in irregular award of contracts for Service Level Agreements on higher cost than of operations on retainership basis causing loss of Rs 19.266 million per month, as detailed below:

(Rs in million)

DP No.	Description of SLA	Period (year)	Monthly cost			Contract cost
			Retainer-ship	SLS	Diff.	
207	SLA for Janitorial Services at AIIAP	3	3.675	15.820	12.145	569.527
209	SLA for O&M of E/M at AIIAP	2	2.100	5.714	3.614	184.538
	SLA for O&M of Civil Staff at AIIAP	1		3.949		
259	SLA for Janitorial Services at BKIAP	3	3.673	4.248	0.575	152.921
329	SLA for Janitorial Services at QIAP	3	1.865	4.797	2.932	172.692
				Total	19.266	1,079.678

Audit maintains that irregular contracts at higher rates were awarded due to weak mechanism of financial controls.

Audit pointed out the irregularity in July/October 2023. The Authority replied that PCAA had taken up the process of retainer-ship in 2020. Previously services were hired from third party contractors for different operational needs including janitorial services. The decision of hiring of staff on fixed retainer-ship was taken by the competent forum i.e., executive committee and accordingly staff was hired on fixed fee and not against vacant positions but to fulfil the needs/ requirements in operational area.

The contention of the Authority was not tenable because total cost through retainer-ship including the cost of consumable material was less than the SLA Agreements. The Authority was required to rationalize the contracts cost.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends thorough investigation into the matter to determine why undue favour was given to contractors. Responsibility may be fixed against the concerned officials with strict punitive measures. Furthermore, contract may be dissolved for violation of rules and a fresh tender may be floated to find the most advantageous contractor.

(DP. 207, 209, 259, 329)

4.4.23 Non-recovery of outstanding dues on account of aeronautical charges - Rs 963.278 million

Pakistan CAA Revenue Accounting Manual- Revenue Recognition and recovery provides that at the end of each month, bank reconciliation and the outstanding report along with age analysis (showing the outstanding balances of operators/airlines) shall be sent to the Air Traffic (AT) Directorate HQ, CAA after approval by Additional Director Billing Branch HQ, CAA for further necessary action to recover the dues from operators/airlines. On submission of the said report, it shall be the responsibility of the AT Directorate for recovery of the outstanding dues which shall be authorized to take punitive action against defaulters in case of continuous default.

During audit of the accounts of Finance Directorate, (HQ) Civil Aviation Authority, Karachi it was noted that an amount of Rs 963.278 million was outstanding against U.S. Embassy for air force flight operations as on 30.06.2023.

Audit observed that no timely and effective steps were initiated to recover/adjust the dues of Rs 963.278 million. Delay in recovery of these dues resulted in accumulation, and in the end may remain irrecoverable.

Audit maintains that non-recovery of outstanding dues was due to inadequate oversight mechanism in enforcing relevant financial rules.

Audit pointed out non-recovery in October 2023. The Authority replied that the Billing Branch of CAA continuously raising invoices on account of aeronautical charges against the flights operated by U.S Government in Pakistan airspace/airports and owing to non-payment by U.S Government the dues accumulated to Rs 963.278 million.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that the matter may be taken up with the Foreign Office for further pursuance with the embassy concerned. The amount may be adjusted by the Foreign Office against any pending payments to the embassy concerned for settlement.

(DP.267)

4.4.24 Non-retrieval of encroached CAA land at old Airport Islamabad - Rs 956.450 million

Para D1.1 of Land Lease Policy, 2019 provides that PCCA felt the need to revise the existing land lease in light of vision of the National Aviation Policy to maintain financial self-sufficiency by revenue generation from land use.

Para D1.2 of the Land Lease Policy, 2019 states that PCAA owned land is not available for sale, however land may be exchanged with the prior approval of the PCAA Board. Airport aeronautical and non-

aeronautical development will be processed through grant of long-term lease subject to airport master plan, airport layout plan, airport business plan and the PCAA land use scheme as determined from time to time.

Audit noted during scrutiny of record of Airport Manager, Islamabad International Airport (IIAP), Islamabad that as per report of Estate Directorate, IIAP dated 28.11.2023, thirteen (13) commercial plots/land pockets measuring 09 kanal and 11.29 Marla valuing Rs 956.450 million (@ Rs 5.00 million per Marla approx.) owned by CAA, situated at Ex-Benazir Bhutto International Airport Islamabad were encroached and under unauthorized possession of different encroachers.

Audit observed that most of the commercial plots/land was encroached for last thirty years and three plots were encroached in 2020 and 2021. The management has not made efforts to vacate the CAA land.

Audit is of the view that these plots are situated in valuable commercial areas at Ex-BBIAP and PCAA should retrieve the land/plots from the unauthorized possession of encroachers and bring it in use as Land Lease Policy to earn revenue.

Audit maintains that non-retrieval of valuable commercial land/plots occurred due to mismanagement of the Authority.

Audit pointed out the non-retrieval of land/plots in December 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends that concerted efforts may be made to retrieve the land/plots encroached and use the same as per land lease policy of CAA.

(DP. 408)

**4.4.25 Non-settlement of outstanding dues against Government Agencies due to non-execution of License Agreement -
Rs 724.430 million**

As per DG CAA Directive No. 05/2021, Recovery Cell was established based on the decision of CAA Executive Committee in its 300th meeting held on 16.05.2019. The core responsibility of Recovery Cell is to exercise zero-tolerance policy in respect of all current dues of the active parties. Recovery Cell has to ensure timely recovery of dues in co-ordination with respective Directorate.

Para 4.3 of the DG directive No. 05/2021 (establishment/revamping of recovery cell) dated 31.08.2021 provides, that cases pertaining to outstanding dues of M/s PIAC and Government Agencies/Department are to be forwarded by Recovery Cell, with the approval of DG CAA, to Aviation Division for recovery.

Audit noted that the Recovery Cell, CAA, Karachi apprised to Director Commercial & Estate vide letter dated 08.11.2022 that, “during correspondence with locations, it revealed that mostly License Agreement/MoUs had not been executed with Government Agencies (as evident in enclosed Telex of AIIAP Lahore). The Recovery Cell has also requested the Director Commercial & Estate that locations may be directed to execute License Agreements/ MoUs in accordance with relevant clause of CAAO with Govt. Agencies forthwith to avoid any inconvenience. But, the data received from locations showed that no License Agreements had been executed with government department.

Audit observed that Recovery Cell of Directorate of Finance CAA, HQ, Karachi was unable to exercise zero-tolerance policy in respect of all current dues of the active parties/Government departments as required as it could not obtain the latest status for the execution of License Agreements with Government departments since November 2022 to October 2023.

Audit further observed that due to lack of co-ordination between Recovery Cell and respective OPI Director Commercial & Estates, the cases pertaining to execution of License Agreements with Govt. Departments were unresolved and the Recovery Cell was also not in a position to resolve the queries of Ministry of Aviation for settlement of outstanding dues against Government Agencies. This resulted in non-settlement of outstanding dues against Government Agencies due to non-execution of License Agreement with Government Departments involving Rs 724.430 million.

Audit maintained that the Recovery Cell had not taken effective steps to resolve the long outstanding issue for settlement of outstanding dues of Rs 724.430 million against the government departments.

Audit pointed out non-settlement of outstanding due in October 2023. The Authority replied that Recovery Cell had requested all APMs to update the present status of execution of License Agreements with Government departments and would be apprised to Audit as and when received.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that a fact finding committee may be formed to investigate the matter and identify relevant individuals who are showing a lax attitude in recovery of pending PCAA dues. Stern action may be taken against the responsible individuals as well as imposing fines on the defaulting departments. Licenses of defaulting departments may be suspended until the clearance of their dues.

(DP. 282)

4.4.26 Loss due to non-imposition and recovery of liquidated damages - Rs 645.057 million

Clause 47.1 of the agreement (Appendix-A to Bid special stipulation-08), if the contractor fails to complete the work within the stipulated time period, he shall render himself liable to pay liquidated damages equal to 0.08% of contract price for each day of delay in completion of work subject to maximum of 10% of the contract price stated in letter of Acceptance.

Audit noted that CAA, HQ, Karachi awarded a work “Reconstruction & Up-gradation of Main Runway (18L/36R) at Allama Iqbal International Airport (AIIAP) Lahore” to M/s China Civil Engineering Construction Corporation (CCECC)–Matracon Pakistan (Pvt.) Ltd.-Habib Construction Services (JV) at an agreement cost of Rs 6,450.568 million vide acceptance letter dated 07.08.2020 with completion period of 455 days. An amount of Rs 6,872.170 million was paid to the contractor upto 27th IPC.

Audit observed that the Authority technically qualified M/s CCECC-Matracon-Habib JV firm, having two (02) concrete pavers, as provided in Appendix-G to bid (one available in Pakistan and other in Nigeria). The contractor was required to provide both the pavers for execution of work of PQC slab in runway project at AIIAP Lahore. During execution of work both the pavers were not brought on site, as no entrance and exit passes of split form concrete pavers issued by airport security forces, were available/produced to Audit. Due to non-provision of required machinery at site the progress of the work was slow. In this regard, Audit observed the following:

1. Undue favour was extended to contractor as unjustified 1st EOT (w.e.f. 03.12.2021 to 02.03.2022) was granted instead of imposition and recovery of liquidated damages.

2. The Authority sustained loss due to payment of escalation in extended period.
3. Unjustified expenditure was incurred on account of consultant fee and operational expenses alongwith pay and allowances of CAA staff/work charge establishment.

Audit is of the view that in case of non-completion of works by the contractor in the given timeframe, the Authority was required to impose and recover liquidated damages from contractor @ 10 % of contract cost, which did not take place in the subject case. This resulted in non-recovery of liquidated damages of Rs 645.057 million (Rs 6,450.568 x 10%).

Audit pointed out loss during July-August, 2023. The Authority replied that Taking Over Certificate (TOC) for the Main Runway has been issued by The Engineer under Clause 48.2(c) of GCC but the final extension of time was yet to be determined by The Engineer, therefore, imposition of liquidated damages on the contractor or otherwise would be decided after determination and grant of final EOT by The Engineer. Two concrete pavers were also deployed by the contractor for concrete works in the sequential form.

The reply was not tenable because no documentary evidence in support of reply was produced to Audit regarding entry and exit of two (2) split form concrete pavers at site. The contractor could not complete the work within stipulated time period and main reason for this was non-provision/mobilization of requisite machinery as per Appendix-G at site, therefore liquidated damages should have been imposed on the contractor for non-completion of work timely and investigation for issuance of EOT.

Audit hold that interest of the government was not watched during execution of works. The JV firm did not provide the required machinery for timely completion of works at site.

The matter was discussed in DAC meeting held on 15-16 January 2024. After detailed deliberation DAC pended the para and directed DG CAA to review the project holistically in the light of irregularities pointed out by Audit and comprehensive report be shared with PAO and Audit for discussion in next DAC meeting.

Audit recommends formation of an investigation committee to determine the actual cost of delay. If the delay was on the part of the department then the concerned officials may be held to task but if the delay was caused by the contractor then liquidated damages may be imposed promptly. If any officials are involved in granting undue favour to the contractor then responsibility may be fixed against them.

4.4.27 Irregular payment on account of escalation beyond the PC-I provision - Rs 626.675 million

PC-I of the Project “Re-construction & Up-gradation of Main Runway at AIIAP, CAA Lahore” was prepared and approved by the CAA Executive Board for Rs 5,950.00 million excluding the component/provision of escalation. Therefore, no escalation was admissible to the contractor.

Audit noted that CAA, HQ, Karachi awarded a work “Reconstruction & Up-gradation of Main Runway (18L/36R) at Allama Iqbal International Airport (AIIAP) Lahore” to M/s China Civil Engineering Construction Corporation (CCECC)-Matracon Pakistan (Pvt.) Ltd.-Habib Construction Services (JV) at an agreement cost of Rs 6,450.568 million vide acceptance letter dated 07.08.2020 with completion period of 455 days. An amount of Rs 6,872.170 million was paid to the contractor upto 27th IPC.

Audit observed that the project authorities paid price escalation of Rs 626.675 million for the work “Construction & Up-gradation of Main Runway” up to IPC No.27 in violation of provision of PC-I. This resulted in irregular payment on account of escalation beyond the provision of PC-I 626.675 million.

Audit pointed out the irregularity during July-August 2023. The Authority replied that the Price Escalation was certified by “The Engineer” in accordance with clause 70.1 of the contract agreement. The payments were made to the contractor in order to comply with clause 60.10 of General Condition of the Contract. However, in order to cater this missing component in original PC-I, the Revised PC-I is under preparation by the consultant and the same would be processed for approval from competent forum. The department admitted the irregularity.

Audit maintained that the irregularity occurred due to violation of the provisions of approved PC-I.

The matter was discussed in DAC meeting held on 15-16 January, 2024. CAA explained that revised PC-I was under process. After detailed deliberation, the DAC directed the management of CAA to provide following information along with supporting record to Audit:

Reasons for non-inclusion of price escalation in original PC-I

Reasons for inclusion of price escalation in contract when it was not in PC-I

Basis/Calculation of price escalation in revised PC-I

If work has not been completed in stipulated period, status of EOT with justification

Whether price adjustment paid in extended period

Audit recommends investigation in the matter for making payments without provision in the approved PC-I, besides approval of the revised PC-I under intimation to Audit.

(DP. 170)

4.4.28 Non-recovery of non-utilization charges of Rs 601.128 million and illegal construction of hotel without obtaining NOC

Para D12.2 of PCAA Land Lease Policy, 2019 explains that if the lessee fails to complete the project for operation within the period given in lease deed or within the extended period as allowed by the Authority, the lessee shall be liable to pay a non-utilization charges of Rs 300 per square yard per month as delay penalty for a grace period of 60 days or/and before the notice for cancellation/termination of lease deed and resumption of land as stipulated in the lease deed.

Audit noted that Director Commercial & Estate, PCAA, HQs Karachi leased out six (06) acres of land at Karachi Airport to Pakistan Software Export Board (PSEB) for a period of thirty (30) years for establishment of IT Park for Rs 337.00 million in May 2008. Physical handing/taking over of land was done on 11.08.2015 and lease deed was executed on 01.10.2015. Time period for commencement and completion of construction stipulated under Lease Agreement was 01.10.2016 and 01.10.2019 respectively.

Audit observed that PSEB failed to start construction within stipulated time, but PCAA did not impose and recover non-utilization charges @ Rs 100 to Rs 300 per sq.yard per month amounting to Rs 200.376 million to Rs 601.128 million for the period 01.10.2016 to 30.06.2022. PSEB was also granted NOC for construction of boundary wall without recovery of non-utilization charges.

Audit further observed that correspondence between Chief Operating Officer/ Airport Manager, Allama Iqbal International Airport (AIIAP), Lahore and Director Airport Services (APS) indicated that management of Hotel Unicon (Royal Swiss) started construction without obtaining NOC from quarters concerned as highlighted in Annual Audit of AIIAP Lahore by Directorate of Airspace

and Aerodrome Regulations (DAAR). Compliance of observation raised by DAAR regarding illegal construction of Hotel Unicon (Royal Swiss) at AIIAP, Lahore without obtaining NOC.

This resulted in non-recovery of Rs 601.128 million and illegal construction of hotel without obtaining NOC.

Audit maintains that non-recovery of non-utilization charges and illegal construction of hotel without obtaining NOC from PCAA was due to weak internal and financial controls.

Audit pointed out the non-recovery in January 2023. The Authority did not reply in respect of PSEB, whereas with reference to illegal construction of Royal Swiss Hotel Lahore, it was replied that after verification from Google Earth Pro, the site (Royal Swiss Hotel) is situated at a distance of 2,877 feet from Runway Centre line (RWY 36R) and falls in Inner Horizontal Surface of AIIAP Lahore, where 147 feet is available.

The reply was not tenable because basic parameters as identified in inspection by DAAR were required to be cleared in advance and final clearance of the observation by DAAR was also not provided to Audit.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 28.08.2023, 18.09.2023, 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends formation of an inquiry committee to ascertain the facts of the matter and fix responsibility for delay of execution of the project. The responsible party may be held to task with early recovery of damages. Furthermore, fines may be imposed on the hotel for construction without NOC, and also on the officials responsible for enabling the construction by not taking any preventative action.

(DP. 27&107)

4.4.29 Excess expenditure due to execution of non-BOQ items without approval - Rs 507.712 million

As per CAA Delegation of Financial Powers, competent authority for approval of variation orders up to 5% of approved cost is Assistant Director General CAA.

Audit noted that CAA, HQ awarded a work “Reconstruction & Up-gradation of Main Runway (18L/36R) at Allama Iqbal International Airport (AIIAP) Lahore” to M/s China Civil Engineering Construction Corporation (CCECC)-Matracon Pakistan (Pvt.) Ltd.–Habib Construction Services (JV) at an agreement cost of Rs 6,450.568 million vide acceptance letter dated 07.08.2020 with completion period of 455 days. An amount of Rs 6,872.170 million was paid to contractor upto 27th IPC.

Audit observed that the Authority changed the scope of work and various non-BOQ items were got executed. Audit further observed that the non-BOQ items were executed without availability of rate analysis and detailed estimates. The Authority made payment to the extent of Rs 507.712 million as undue financial aid to the contractor.

Audit also observed that the payment for non-BOQ items was made to contractor without approval of variation/deviation statement from the competent forum. This resulted in excess expenditure due to execution of non-BOQ items of work for Rs 507.712 million.

Audit pointed out excess expenditure during July-August 2023. The Authority replied that the said project is governed by FIDIC conditions of contract which allows variations. Variation orders were issued by “The Engineer” strictly in accordance with contract agreement clause 51.1. Further, “The Engineer” certified payments of various works on provisional basis in accordance with clause-52.1. On receipt of specific approval of the employer, the variation order will be formally issued wherein the rates would attain the finality.

The reply was not tenable because the project management executed various non-BOQ items without preparation of rate analysis/ detailed estimates and approval of variation orders from the competent authority.

The matter was discussed in DAC meeting held on 15-16 January, 2024. The management of CAA apprised that The Engineer had certified payments of varied works on provisional basis, the variation order would be formally issued by the Engineer wherein the rates will attain the finality. After detailed deliberations, the DAC directed the management of CAA that rates be finalized on priority basis and be shared with Audit. DAC further directed CAA to develop a Composite Schedule of Rates (CSR) keeping in view the applicable standard specifications of runways and terminal buildings to form a basis of estimation to evaluate reasonability of rates in tender process.

Audit recommends investigation in the matter for making payments without approval of variation orders, besides justification/ regularization of the same from competent forum.

(DP. 171)

4.4.30 Loss due to award of Service Level Agreement for provision of operation & maintenance services - Rs 499.840 million

Rule 4 of the Public Procurement Rules 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economic. Rule 20 provides that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

Audit noted during scrutiny of record of Airport Manager IIAP, Islamabad that CAA awarded four (04) Service Level Agreements (SLA) for provision of civil, maintenance, janitorial and Motor Transport (MT) pool services during financial year 2022-23, with monthly cost of Rs 39.059 million.

Audit observed that these services were being executed through retainer-ship staff before entering into SLA. A comparative analysis of the cost of services being provided by the SLAs and retainer-ship staff revealed that monthly expenditure of Rs 13.129 was incurred on these services through retainer-ship whereas the same services were being outsourced through SLAs @ Rs 39.058 million per month which was three times higher as compared to cost on retainer-ship staff. In this way a monthly loss of Rs 25.929 million (Rs 39.058 million – Rs 13.129 million) is being sustained by the authority. This resulted in a loss of Rs 499.840 million (excluding the cost of Rs 27.300 million on account of consumable material) for the four service level agreements entered during financial year 2022-23.

Audit pointed out the loss in December 2023. The Authority did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends investigation into the matter to determine why the PCAA shifted from retainer staff to a contractor even though the retainer staff was more financially beneficial to the department. If the department fails to justify their decision then responsibility may be fixed against the concerned officials for making the decision.

(DP. 410)

4.4.31 Non-imposition of liquidated damages for slow progress and delay in completion of work - Rs 496.784 million

Clause 46.1 and 47.1 of the contract agreement for the work “Reconstruction of Rigid Runway at Quetta International Airport for Operation of Aircraft up to ICAO Code 4E” executed between CAA and M/s Umer Jan & Co Engineers and Contractors on 28.02.2020, provides that if the contractor fails to achieve the required progress of work and does not complete the work within the stipulated time period, he shall render himself liable to pay liquidated damages equal to maximum of 10% of the contract price stated in letter of Acceptance.

During scrutiny of the accounts of the Project Director, “Reconstruction of Rigid Runway at Quetta International Airport for Operation of Aircraft up to ICAO Code 4E” Audit noted that the work was awarded to M/s Umer Jan & Co Engineers and Contractors at contract cost Rs 4,938.756 million (Revised Rs 4,967.848 million) on 28.02.2020. The work was started on 05.05.2020, to be completed on 04.05.2022. However, the extension of time (EOT) was granted upto 28.02.2023, the work was substantially completed and TOC was issued on 30.05.2023. Further, EOT upto 30.05.2023 was under process of approval. The total value of work done upto 25th IPC was Rs 4,661.343 million.

Audit observed from the record that EOT was granted upto 28.02.2023 however the work was not completed in extended time period whereas, the work was substantially completed on 30.05.2023 without prior approval of competent Authority for extension in time period. Besides this, liquidated damages for slow progress of work and delay in completion of work, were required to be imposed against the contractor under provisions of the contract, which did not take place in the subject case. This resulted in non-imposition of liquidated damages for Rs 496.784 million (Rs 4,967.848 x 10%).

Audit maintains that non-imposition of liquidated damages occurred due to weak contract management.

Audit pointed out the non-imposition of liquidated damages in September 2023. The Authority replied that the project was successfully completed on 30.05.2023 within the determined EOT as certified by The Engineer. The runway with allied infrastructure has been successfully operationalized w.e.f 31.05.2023.

The reply was not convincing because the work was substantially completed and TOC was issued on 30.05.2023 i.e., beyond the approved EOT up to 28.02.2023.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends further investigation into the matter to determine if the delay was justifiable or not. In case the delay is unjustified, fines may be imposed on the contractor as well as responsibility be fixed against the concerned officers for non-imposition of damages on a timely basis.

(DP. 323)

4.4.32 Loss to authority due to allowing higher rates of item of work - Rs 494.780 million

Rule 10 (i) of GFR Vol-I provides that every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public money as a person of ordinary prudence would exercise in respect of expenditure from his own money.

Audit noted that CAA, HQ, Karachi awarded a work “Reconstruction & Up-gradation of Main Runway (18L/36R) at Allama Iqbal International Airport (AIIAP) Lahore” to M/s China Civil Engineering Construction Corporation (CCECC)–Matracon Pakistan (Pvt.) Ltd.-Habib Construction Services (JV) at an agreement cost of Rs 6,450.568 million vide acceptance letter dated 07.08.2020 with completion period of 455 days. An amount of Rs 6,872.170 million was paid to contractor up to 27th IPC.

Audit observed that 100% same specification item P-501 “Portland cement concrete pavement (700 psi flexural strength with all kinds of joint including dowel bar, sealant, cutting filling, etc.) as per drawing and as directed by engineer incharge” was measured and paid to contractor for main runway, taxiway, curve improvement and for turn in the same project at same location with different rates.

Audit further observed that being key value item of the work (sub head of pavement), the rate analysis of the item was not demanded by the Engineer/Employer from Contractor at the time of agreement and the same was not provided to Audit. The rate reasonability was not kept in mind at the time of award of contract.

Audit is of the view that the project management needed to convince the contractor to use the lower rates for whole item for Rs 20,007 instead of Rs 24,235. Application of higher rates resulted in loss to Authority of Rs 494.780 million.

Audit pointed out loss during July-August 2023. The Authority replied that before the submission of bid, all bidders were at liberty to quote their rates for items given in BOQ of bidding documents. Once, the bids were submitted by the bidders, the lowest evaluated bid was accepted by the Employer and the Contract was awarded accordingly. Subsequently, the Contract Agreement was signed between two parties, the Employer (PCAA) and Contractor M/s CCECC Matracon-Habib JV Construction. Hence, both parties were legally bound for full compliance. Therefore, quoted rates accepted by the Employer under no circumstances may be changed or vitiate during or until completion of this Contract. The item wise rates have been paid to the Contractor as per actual work done for each item of work.

The reply was not acceptable because execution of same specification item at same location in same project paid with different higher rates without preparation of rate analysis was not justified.

Audit holds that the Authority sustained loss due to weak technical and internal controls.

The matter was discussed in DAC meeting held on 15-16 January, 2024, wherein the DAC directed the management of CAA to verify the accuracy of the rates quoted by all bidders (both approved and rejected) for both items to ensure that due diligence was followed and get the same verified by Audit.

Audit recommends compliance of DAC's directive.

(DP. 169)

4.4.33 Excess payment to the contractor due to excessive quantities beyond the TS Estimate/BOQ - Rs 476.559 million

Para-209 (d) of CPWA Code provides that all payment for work done or supplies are made on the basis of quantities recorded in the Measurement Book. It is incumbent upon the person taking measurements

to record the quantities clearly and accurately. He would also work out and enter in the measurement book the figure for the contents or area column.

As per CAA Delegation of Financial Powers, competent authority for approval of variation orders up to 5% of approved cost is Assistant Director General CAA.

Audit noted that CAA, HQ, awarded a work “Reconstruction & Up-gradation of Main Runway (18L/36R) at Allama Iqbal International Airport (AIIAP) Lahore” to M/s China Civil Engineering Construction Corporation (CCECC)-Matracon Pakistan (Pvt.) Ltd.-Habib Construction Services (JV) at an agreement cost of Rs 6,450.568 million vide acceptance letter dated 07.08.2020 with completion period of 455 days. An amount of Rs 6,872.170 million was paid to contractor.

Audit observed during review of the interim payment certificates that some items of work were got executed, measured and paid up to 27th IPC in excess of the quantity provided in BOQ/estimate. The Authority did not get approved any variation/deviation statement. This resulted in excess payment of Rs 476.559 million due to excessive quantities beyond the TS Estimate/BOQ.

Audit pointed out excess payment during July-August 2023. The Authority replied that items of works have been carried out as per actual execution in accordance with the construction drawings. Further, the payments have been certified by The Engineer as per actual executed quantities in accordance with provision of contract agreement. However, increase or decrease of quantities will be regularized in final variation/ deviation statement.

The Authority accepted the audit observation and promised to provide the variation/deviation statement after its approval from the competent forum at the time of finalization of the project.

Audit holds that the excess payment was due to non-preparation and approval of variation statement from the competent authority.

The matter was discussed in DAC meeting held on 15-16 January, 2024. Audit informed the committee that TS ensures that proposal is sound and rates are based on accurate data. Excess quantities were executed beyond the TS which reflected that estimation was not properly done. The DAC directed the management of CAA to provide following details in tabular form regarding variations to Audit for verification and evaluation:

Name of item
Quantity
Rate
Justification of increase in BOQ/non-BOQ items.
Approval of the competent authority

Audit recommends investigation into the matter for making excess payment without approval of variation orders, besides justification/regularization of the same from competent forum.

(DP. 172)

4.4.34 Loss due to non-utilization of vacant commercial concessions/ spaces - Rs 403.852 million

Para D.3.6.1 of Civil Aviation Authority Commercial Policy provides that commercial concessions shall be disposed of through open competitive tender usually as per Single Stage-Two Envelope Procedure i.e., Technical & Financial Proposal/offer as outlined in Rule 36 (b) of the Public Procurement Rules, 2004), tender are to be invited/published three months prior to expiry of the existing concessions.

According to GFR 26, it is the duty of the departmental Controlling officers to see that all sums due to Government: are regularly and promptly assessed, realized and duly credited in the Public Account.

Audit noted that eight (08) commercial concessions/ spaces lying vacant in visitor gallery Level-II, in Passenger Terminal Building (PTB), IIAP CAA Islamabad.

Audit observed that these spaces/shops were vacant without any utilization. The management did not make efforts to lease out these vacant spaces/shops to earn revenue as per PCAA policy. This resulted in loss of Rs 403.852 million due to non-utilization of vacant commercial spaces/shops.

Audit maintains that non-utilization of valuable commercial spaces/shops at IIAP, Islamabad occurred due to deficient revenue recognition and weak financial controls of the Authority.

Audit pointed out the loss in December 2023. The Authority did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends that the department should form a committee for the timely leasing of all vacant spaces/land of the department for maximizing revenue generation. Negligence by the concerned officials has led to a significant loss to the exchequer, potentially warranting disciplinary action.

(DP. 411)

4.4.35 Irregular award of licenses without calling of open bids - Rs 377.508 million

Para 4-6 of Policy and Procedure for grant of business (Concessions) at Airports CAAO No. 11-4 dated 15.01.1990 provides that; all commercial licenses shall be disposed of through inviting tenders, after wide publicity in the newspapers. A License shall ordinarily be issued for a period of three years at a time. Action for inviting tenders must start at least three months before the expiry of the current period of a license so as to provide ample time for consideration at Headquarters and for retender if necessary.

Audit noted that Airport Manager, Faisalabad awarded contracts of the following licenses at Faisalabad Airport” for Rs 377.508 million per year for a period of five years:

S. No.	Licensee	License	Period (Years)	Period	Per month	Contract amount (Rs)
1	M/s Abdullah creative (Pvt) Ltd.	Coffee shop	05	01.04.2023 to 31.03.2028	1,048,856	12,586,272
2		Tuck shop	05	16.12.2022 to 15.12.2027	476,198	5,714,376
3		Car parking	05	16.09.2022 to 15.09.2027	2,686,244	32,234,928

S. No.	Licensee	License	Period (Years)	Period	Per month	Contract amount (Rs)
4	M/s Gerry's Dnata (Pvt) Ltd.	Ground handling agency office, check in counters	05	01.04.2022 to 31.03.2027	3,483,717	41,804,604
5	PIA	Airline service	05	01.03.2021 to 28.02.2024	9,984,817	119,817,804
6	Royal Air Pvt. Ltd	Ground handling agency office,	05	01.04.2022 to 31.03.2027	3,483,715	41,804,580
7	Sania Enterprises	Bag wrapping	05	01.06.2022 to 31.05.2027	4,643,684	55,724,208
8		Sweet shop	05	01.04.2023 to 31.03.2028	5,193,143	62,317,716
9		Gift & Flowers	05	18.04.2023 to 17.04.2028	458,639	5,503,668
Total					31,459,013	377,508,156

Audit observed that the CAA awarded/extended the licenses without any wide publicity/advertisement in violation of CAA license policy and the Public Procurement Rules. This resulted in irregular award of licenses without any advertisement valuing Rs 377.508 million.

Audit pointed out the irregularity in September 2023. The Authority replied that the concessions were awarded after wide publicity.

The reply was not accepted because evidence in support of reply was not provided to Audit for verification.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that the responsible officials may be held accountable for granting undue favor to certain individuals in awarding of licenses without open competition. A monitoring board may be formed at every airport under PCAA to ensure fair award of contracts through open competitive bidding to give a fair chance to every contractor to participate and avail the opportunity. The airport administration should investigate the matter for fixing responsibility.

(DP. 147)

4.4.36 Non-recovery of fine for non-utilization of leased out space and change of business title without approval - Rs 365.904 million

Para D 14.1 of CAA Policy and Procedure regarding grant of business (concession) at Airports (2019) provides that, it is the personal responsibility of the Airport Manager concerned to ensure that all the dues are realized from the licensees as soon as they become due.

Audit noted that lease agreement between CAA and M/s Makro Habib Ltd was executed on 03.08.2006 to “Establish an air-conditioned cash and carry warehouse as per Makro concept” in consideration of premium of Rs 217.95 million @ 1/3rd of the cost of land Rs 653.85 million and annual ground rent of Rs 21.79 million. Item No. 6 of Para-7 of the minutes of CAA Board meeting held on 03.06.2006 provides that the facilities may be operated with the lead name of Makro. Moreover, the para 6 (c) of tender conditions provides that all operations should function under one roof and under one brand name. The Lessee shall complete the construction and/or allied works of the Makro Mall to meet the purposes of this Lease, within a period of 18 months or such extended period as may be agreed upon by the parties, from the date of obtaining final approval of building plans from the Lessor and all required permissions from all concerned departments and authorities directly through the Lessor. The Lessee within a maximum period of 60 days of the signing of Lease agreement shall submit building plans for CAA approval which will be granted by CAA within 30 days of the date of submission of building drawings or return the plans within 30 days with objections/observations for remedial action by the Lessee. Failure to commence construction work within 3 months and/or complete within the given period in view the purpose of this Lease, shall either be subject to a penalty of Rs 100 to Rs 300 per squared yards per month as non-utilization charges as decided by the Lessor.

Audit observed that the title of Makro was changed to Metro without prior approval of the Authority. Moreover, CAA did not recover non-utilization charges for 19,360 square yards unutilized as approved by DG CAA @ Rs 300 per square yards per month up to March 2013 for Rs 365.904 million. The recovery letter was issued in April 2013 but further progress towards recovery and status of space utilization was not forthcoming from the record.

Audit pointed out the matter in November 2023. The Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends investigation to determine the cause behind unauthorized change of name of the project, for fixing of responsibility against the responsible officials. Audit also recommends prompt recovery of the non-utilization charges from the contractor with intimation to Audit.

(DP. 309)

4.4.37 Irregular enhancement of license period and non-finalization of selective concession agreement - Rs 356.85 million

Rule 4 of the Public Procurement Rules 2004 provides that Procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule 38 of *ibid* rules provides that (1) The procuring agency shall consider single bid in goods, works and services if it- (a) meets the evaluation criteria, ensures compliance of specifications and other terms & conditions expressed in advertisement or bid solicitation documents; (b) is not in conflict with any provision of the Ordinance; (c) conforms to the technical specifications; (d) has financial conformance in terms of rate reasonability: Provided that except unsolicited proposal, in case of pre-qualification proceedings single bid shall not be entertained. (2) The procuring agency shall make a decision with due diligence and in compliance with general principles of procurement like economy, efficiency and value for money.

Audit noted that Director Commercial & Estate PCAA Karachi granted a license 'Duty Free Shop' for five years from 24.10.2016 to 23.10.2021. The licensee 'Zainab Duty Free Shop' requested for an extension of one year up to 23.10.2022 @ US\$ 814,012 with annual increase and annual gross turnover fee ranging from 5% to 6%. After approval of reserve price of US\$ 1,251,384 by the Director General PCAA, tenders were floated on five different occasions but scrapped on the premise of having single bid.

Audit observed that:

Continuous rejection of tender process for five times between October 2021 to July 2022, provided opportunity to the existing licensee to retain possession of the site under the cover of clause 13 of license agreement.

Although, Deputy Director General identified the licensee as having outstanding dues, the Addl. Director General disregarded this and granted extensions.

In fourth bidding process held in June 2022, the bidding process was kept pending for 2 weeks to manage participation of another firm M/s DUFREY who had not even purchased the tender documents. Holding the bidding process in abeyance was not covered under rules.

Director General PCAA showed its concern on single participation of existing licensee while in many cases single existing licensee was allowed without re-tendering.

Repeated tendering (5 times) in national and international media also involved wasteful expenditure due to non-conclusion of tendering process.

This resulted in irregular implied grant of extension to existing licensee for Rs 356.85 million, which was a loss to Authority.

Audit maintains that irregularity occurred due to weak internal control.

Audit pointed out the irregularity in January 2023. The Authority replied that exemption was granted by the Federal Cabinet to M/s PIACL for non-deposit of 3 billing cycles. In case of M/s Serene Air, Director General CAA accorded the approval for payment in two monthly installments. M/s Fly Jinnah already maintained the required security deposit of Rs 100 million. M/s Air Blue and M/s Air Sial deposited the required amount in October 2023.

The reply was not accepted because recoveries were made in September, October and December 2023 instead of by June 2023. Moreover, recoveries made and exemptions granted by Federal Cabinet and DG CAA were not provided to Audit.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 28.08.2023, 18.09.2023, 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends formation of an inquiry committee to investigate why undue benefit was granted to the licensee at the expense of the department and punitive action against the responsible individuals.

(DP. 37)

4.4.38 Irregular/unauthorized payment on account of pay & allowances of officers/officials in excess to approved pay group sanctioned strength - Rs 340.500 million

Rule 4.04 of Civil Aviation Authority Service Rules provides, that actual staff strength of CAA, HQ and any unit of the Authority will at no time, exceed the sanctioned strength except with the prior approval of the Board.

Rule 23 of GFR (Vol-I) provides that every Government officer should realize fully and clearly that he would be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

Audit noted that Airport Manager Bacha Khan International Airport (BKIAP), Peshawar approved Establishment Pay Group Sanctioned Strength of 42 officers and 452 officials/staff. The total sanctioned strength across various cadres and pay groups with different strength was actually 494 officers and officials.

Audit observed during the review of the record being maintained in the HR Wing of Airport Manager Bacha Khan International Airport (BKIAP), Peshawar that the Authority deployed/deputed one hundred twenty five (125) officers/officials in excess in various cadres beyond the approved sanctioned strength of each cadre.

Audit further observed that Authority utilized 125 numbers in excess posts and incurred excess expenditure of Rs 340,500,000 without obtaining the approval for additional posts from CAA Board.

Audit is of the view that 125 officers/officials were deployed in excess than the approved pay group sanctioned which come to 152 % above of the approved pay group sanctioned strength without obtaining the approval of the additional posts from CAA Board. This resulted in unauthorized/irregular payment of Rs 340.500 million approx.

Audit maintains that excess deployment was made due to weak financial.

Audit pointed out irregularity in October 2023. The Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that the employment of excess officials be suspended until approval from the CAA board. Justification of excess employees may be provided to audit and their employment rationalized with facts and figures. Furthermore, responsibility may be fixed against the concerned officials for unauthorized hiring of staff.

(DP. 262)

4.4.39 Irregular acceptance of bid and award of work prior to evaluating eligibility and approval of competent authority - Rs 325.440 million

Para 65 of the Central Public Works Department Code provides that when the expenditure upon a work exceeds, or is found likely to exceed, the amount administratively approved for it by more than 10 percent, a revised administrative approval must be obtained from the authority competent to approve the cost, as so enhanced. Para 69 explains that revised estimate must be prepared when the sanctioned estimate is likely to be exceeded by more than 05 per cent.

During audit of the record of Directorate of Communication Navigation Surveillance (HQ) CAA, Karachi it was noted that an agreement was executed with M/s Pakistan Telecommunication Company Limited (PTCL) on 03.03.2023 effective from 01.04.2022 for online Nationwide Connectivity of PCAA 43 airports for a period of three (03) years at a project cost of Rs 325.440 million.

Audit observed that the CAA Executive Committee accorded approval, in its meeting held on 05.10.2021, for open tendering of the project for a period of three (03) years at an estimated cost of Rs 230 million. In compliance, tenders were called and contract was awarded to M/s PTCL on 03.03.2023 at bid cost of Rs 325.440 million which was 41.49% above the estimated cost as

approved by the Executive Committee. This shows that estimate was not structurally sound and that the estimates were not calculated accurately and based on inadequate data.

Audit further observed that revised administrative approval and revised estimate was not got approved prior to award of work. Moreover, eligibility of contractor having PEC registration/license in the relevant specialized code EE 07, EE 08 and EE 09 was neither provided in the tender inviting notice, tender document nor in technical evaluation criteria.

Audit holds that in the absence of such a mandatory requirement, the firm's technical qualifications cannot be verified because the work comprised telecommunications installation, external communication works and software engineering. This resulted in irregular acceptance of bid and award of work for Rs 325.440 million prior to evaluating eligibility and approval of competent authority.

Audit pointed out the irregularity in August 2023. The Authority replied that expenditure falls within the purview of Additional Director General, CAA in accordance with delegation of financial powers functional group-7 item-1. Due to complexity and criticality of requirement, the case was submitted to EC. Later on final approval for execution of contract was sought from Additional DGCAA. Since the requirement was comprised of services only, therefore, condition for registration from PEC was not included in RFP. However, the contractor has submitted copy of PEC registration/license.

The reply was not tenable because originally the scheme was administratively approved by the EC, which requires revised approval from the same authority in case the lowest bid cost deviates 15% (excess/less) than the estimate. As regard PEC registration the PEC guidelines clearly defines that no engineering work shall be operated except by an operator licensed as such by the Council. Further no documentary evidence regarding PEC registration/license was provided in support of reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends formation of a fact finding committee to inquire why contract for the work was awarded at a much higher cost than estimated, to a firm that was not even licensed by the Pakistan Engineering Council. The concerned officials may be held to task for their oversight, the terms of the contract revised or either dissolved for a more favorable contract.

(DP. 216)

4.4.40 Unauthentic receipt on account of fuel throughput charges without authentic/verified quantities of fuel sold to Aviation Customer for raising bills - Rs 238.723 million

Clause 4(a) of the Concession Agreement between PSO-APL JV provides that the Licensee shall pay to the Licensor, on monthly basis, the Fuel Throughput Charges @ Rs 1.3102 per liter sold to the Aviation Customers; such payment in respect of a month to be made by the Licensee up to 10th of the following month, whether the Licensee receives any bill or not.

Audit noted that CAA granted license to PSO-APL JV for providing fuel to and collect fees and charges from the Aviation Customers and to pay to CAA Fuel throughput Charges at the rate of Rs 1.3102 per liter on fueling the Aircraft of Aviation Customers. Payment in respect of a month is to be made by the Licensee up to the 10th of the following month, whether the Licensee receives any bill or not.

Audit noted that Civil Aviation Authority the 'Licensor' and Pakistan State Oil (PSO) and Attock Petroleum Ltd. (APL) Joint Venture (JV) entered into a concession agreement on 11.03.2015 for grant of the License so as to establish, operate and maintain a Fuel Farm and operate & maintain the Hydrant Refueling System at the Islamabad International Airport (IIAP) for a period of thirty years commencing from 17.03.2015.

Audit observed that PSO-APL JV provides details of sale of fuel on monthly basis to APM for raising bills regarding Throughput Charges. However, the details of sale of fuel provided by the PSO-APL JV was not supported with any date-wise/Airline-wise/Flight-wise authentic invoices, authentic Meter Readings. The acceptance of monthly fuel sale by the Estate Branch and raising of bill and receipt of Rs 238.723 million for the financial year 2022-23 on account of fuel through put charges @ 1.3102 per litre sold to aviation customers stands unauthentic/unverified.

Audit maintains that unauthentic receipt occurred due to weak internal and financial controls.

Audit pointed out the unauthentic receipt of fuel throughput charges in December 2023. The Authority replied that a committee comprising members of E&M, Estate, Airside, Internal Audit, and Finance was constituted for preparation of mechanism to verify/ inspect/cross check the bills submitted by Joint Venture (PSO & APL). The committee submitted its recommendations. A proposal based on the recommendations of the committee had been forwarded to HQCAA for approval of mechanism to be evolved for verification of bills submitted by the Joint Venture. The Authority in its reply has admitted the audit observation.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends that a third party financial audit of the books of account/ERP data may be carried out between CAA and JV to authenticate the actual quantity of fuel sold and receipt realized and recover the due amount.

(DP. 412)

4.4.41 Non-recovery on account of premium, annual ground rent and interest thereon - Rs 22.181 million

As per clause 11 (e) & (f) of General Tender conditions under CAA Land Lease Policy, CAA shall not allow any structural addition or alteration in the premises to the lessee without prior written permission. The lessee shall, abide by Civil Aviation Rules 1994 and all other applicable regulations and instructions.

Audit noted that Director Commercial & Estate Civil Aviation Authority Karachi executed a lease deed on 16.08.2012 for establishment of Petrol Pump Cum CNG Station at Jinnah International Airport, Karachi with M/s Total PARCO measuring 1,000 sq.yds. for thirty (30) years at the rate Rs 36,000 per sq.yd and handed over the site on 30.04.2013. A committee was constituted on 10.02.2016 to verify the earlier measurement of the space allotted to the lessee.

Audit observed that the lessee occupied 1,296.22 Sq. yds. land against the actual leased land of 1,000 Sq. yds., meaning thereby unfairly occupation of 296.22 Sq. yds land. Estate Officer proposed for charging of additional land from the lessee w.e.f. initial date of handing over of the site i.e., 30.04.2013 on the same rates and terms & conditions. Audit further observed that recovery of dues of excess land with interest was not recovered since 2016.

This resulted in non-recovery of Rs 22,180,954 on account of premium, annual ground rent and interest thereon as detailed below:

Particulars	Calculations	Amount (Rs)
Premium	296.22 sq. yards @ Rs 36,000 per sq. yard	10,663,920
Annual Ground Rent	Rs 10,663,920 x 1/30 x 9 years (2013 to 2022)	3,199,176
Sub-Total		13,863,096
Interest	10% per annum for 6 years (2016 to 2022)	8,317,858
Total		22,180,954

Audit pointed out the loss in January 2023. The Authority replied that upon identification of excess land, the case had been taken up with the competent authority i.e., CAA Executive Committee for decision and final action would be taken accordingly.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 28.08.2023, 18.09.2023, 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends investigation into the matter to determine the ground realities. The enforcement team of CAA may be empowered and improved to timely clear the illegal and unauthorized occupation of CAA land. If any legal cases are preventing CAA from reacquiring their land then the cases may be aggressively pursued for timely resolution of the matter. The services of the violating parties may be immediately suspended and fines levied for their unlawful occupation of PCAA land.

(DP 31)

4.4.42 Inadmissible payment of price escalation beyond the provision of PC-I - Rs 224.461 million

In the approved PC-I of the project “Construction of Greenfield Aerodrome for General Aviation Activities at Muridke” a sum of Rs 4,124.72 million was provided for land cost including all other descriptions of cost. In this component, the PC-I envisages no provision for escalation. Therefore, no escalation was admissible to the contractor.

Audit noted that Planning and Development Directorate, CAA Karachi awarded a work, “Construction of Greenfield Aerodrome for General Aviation Activities at Muridke”, at agreement cost Rs 1,784,623,902 to M/s Shaanxi Construction Engineering Group Corp Ltd- Umer Jan & Co. (JV) on 26.10.2021. Total value of work done was paid Rs 1,188,554,778 excluding escalation amount of Rs 224,461,635 up to IPC 10. Time of 12 months for completion of the project was allowed from the date of start.

Audit observed that the Project Director paid price escalation of Rs 224.461 million to the contractor of the work in violation of provision of PC-I.

Payment of escalation without provision in the approved PC-I resulted in inadmissible payment of price escalation of Rs 224.461 million.

Audit maintained that payment of escalation was made due to violation of provision of approved PC-I and weak internal and financial controls.

Audit pointed out inadmissible payment in July 2023. Authority replied that the original PC-I envisaged completion of project in six months, so provision for escalation was not added. During bidding, time period was not rationalized to 2 months, therefore, PEC clause of price escalation was added in bidding documents. All payments are being made as per clause of the contract and the same may be regularized through revision of PC-I.

The audit observation that payments were made beyond PC-I was accepted by the Authority, which may be regularized or recovered from the contractor.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit stresses regularization of the matter with documentary evidence.

4.4.43 Irregular provision of weightage factor in Appendix-C of bid of local currency for imported items impacting - Rs 200.889 million

Standard Bidding Documents of FIDIC provides that, the source of indices and the weightages or coefficients for use in the adjustment formula under clause 70 Appendix-C to bid (Local Currency) shall be, Fixed Portion/Non Adjustable, Un-skilled Labour, Cement, Diesel (HSD), Bitumen and Reinforcement (Steel).

Audit noted that Project Director, awarded the work “Reconstruction of Rigid Runway at Quetta International Airport for Operation of Aircraft up to ICAO Code 4E” to M/s Umer Jan & Co Engineers and Contractors at contract cost of Rs 4,938.756 million (Revised Rs 4,967.848 million) on 28.02.2020. The work was started on 05.05.2020 and to be completed on 04.04.2022. However, the Extension of time was granted up to 28.02.2023 further case of extension in completion up to 30.05.2023 was in process. Total value of work done up to 25th IPC was Rs 4,661.343 million. Audit further noted that as per Appendix-C to Bid (**Annexure-AC**) regarding source of indices and the weightages or coefficients are (55% fix and 45% variable) for use in the adjustments.

Audit observed that the cost of imported items component i.e., Air Field Lighting (AFL)/Electrical/NAVAIDs was Rs 1,080.972 million (revised cost as per VO-I) and the Authority provided weightage factor at 0.16 in Appendix-C to bid of Local Currency instead of specifying item wise weightage of the items based on Foreign Currency. Audit further observed that an amount of Rs 564.999 million was paid to the contractor as price adjustment out of which an amount of Rs 200.889 million (Rs 564.999*0.16/0.45) related to price adjustment against imported items.

Audit is of the view that the Authority formulated the Appendix-C to bid, which was against the PEC guidelines. This resulted in an irregular provision of weightage factor in Appendix-C of bid of local currency for imported items impacting Rs 200.889 million.

Audit maintains that the irregularity occurred due to non-adherence to PEC guidelines and weak internal controls.

Audit pointed out the irregularity in September 2023. The Authority replied that PEC standard bidding document Instruction to Bidders Clause IB 13, Sub Clause 13.1., states that “The unit rates and the prices shall be quoted by the Bidder entirely in Pak Rupees”.

The Authority used the PEC prescribed Standard Procedure and Formula for Price Adjustment, First Edition (March, 2009). Standard Procedure and Formula for Price Adjustment defined by PEC allows users to add, substitute or delete any element as deemed appropriate. Applicability Clause 6.1 is narrated as “Users of the formula may add, substitute or delete any element as deemed appropriate”. They would then decide on the weightages or coefficients for the elements” whereas Clause 10 is narrated as “This document will be applicable only for Price Adjustment in local currency (Pak Rs)”. Price Adjustment in foreign currency is not in purview of this document which, if applicable, it is submitted that the weightages in Appendix-C of the bidding documents were finalized with mutual agreement among the parties prior to the award of Contract. Airfield Lighting System (AFLS) imported items being an integral part of the Project with a significant cost was added keeping in view the uncertainty relating to dollar-rupee parity.

The reply was not accepted because, PEC Standard Procedure is applicable only for Price Adjustment in local currency. Price Adjustment in foreign currency was not in purview of the procedure. Further, weightage factor for imported items @ 0.16 was provided in Appendix-C to bid in Local Currency instead of specifying item wise weightage of the imported items based on Foreign Currency.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that the matter may be taken up with PEC for clarification.

(DP. 322)

4.4.44 Non-accounting of dis-honoured CAA receipt by the Bank - Rs 155.816 million

Rule 79 of Federal Treasury Rules provides that in the event of the cheques being dishonoured by the bank on presentation, the fact shall be reported at once to the tenderer with a demand for payment in cash, but the Government cannot accept any liability for loss or damage which may possibly occur as a result of delay in intimating that the cheque has been dishonoured. When Government dues which are payable by certain fixed date are paid by cheques, the person desiring to make such payment in this manner without risk must take suitable precautions to ensure that his cheques reaches the treasury or the receiving office at the latest on the working day preceding the

date on which the payment is to be made. Cheques received on the last day of payment of Government dues may be refused at the discretion of the officer to whom they are tendered and those received later will not be accepted.

Section-489 (after amendment) of the Pakistan Penal Code provides that dishonestly issuing a cheque, whoever dishonestly issues a cheque towards re-payment of a loan or fulfillment of an obligation which is dishonoured on presentation, shall be punishable with imprisonment which may extend to three years, or with fine, or with both.

As per HBL Bank statement (Bank Account No. 0064-00031411-03) for the period from 01.07.2022 to 30.06.2023, CAA bank deposits against different receipts for Rs 155,816,420 (**Annexure-AD**) were not cashed/cleared by the bank and were shown as returned.

Audit further observed that these non-cashed/dis-honoured transactions were not got corrected from concerned licensees and no penal action was initiated against such defaulters.

Audit holds that irregularity occurred due to weak internal controls.

This resulted in non-accounting of dis-honoured cheques amounting to Rs 155.816 million.

Audit pointed out the matter in November 2023. The Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends investigation for fixing of responsibility and disciplinary action against person (s) at fault, to discontinue practice of accepting cheques instead of pay order on account of dues besides corrective action.

(DP. 304)

4.4.45 Non-award/completion of defective work at risk and cost of the defaulting contractor - Rs 150.934 million

Board of Inquiry (BOI) conducted by Planning and Development, CAA Headquarters dated 27.04.2021 recommended that:

The responsibility towards damage of custom building is shared among contractor and designer of the project.

The content of financial expenditure to be incurred on the remedial measures should be recovered from the contractor and design consultant at the percentage of 38.5% and 61.5% as per 3rd part of forensic evaluation report.

Audit noted that a work, "Construction of Landside (Custom Building, & Cargo Agents Building at Islamabad International Airport, Islamabad" was awarded to M/s Amanat Hussain & Co (Pvt) Ltd at agreement cost of Rs 311.058 million on 16.11.2016. The work was started on 20.12.2016 to be completed up to 23.08.2017. The Contractor was paid Rs 204.451 million up to 14th IPC in May 2020.

Audit observed that recommendations of Board of Inquiry were not implemented and the defective work has neither been rectified nor effected recovery. Tentative summery of cost rehabilitation of custom building of defective work at IIAP Islamabad for Rs 150.934 million was made. As per record, the small piece of defective work was awarded in piece meal basis to M/s TS Engineering for Rs 11.650 million in February 2023. This resulted in non-award of defective work at risk and cost for Rs 150.934 million.

The matter was also discussed in the DAC meeting held on 03-05.01.2022. The DAC directed the Authority that recommendations of Inquiry Report be implemented at the earliest and defective works be got rectified and in case of failure, the works may be got executed at the risk and cost of the Contractor.

Audit pointed out the matter in November 2023. The Authority replied that the work was being executed at site in full swing at the risk & cost of Contractor and design Consultant in accordance with recommendation of BoI as per the blame apportioned on the Contractor and Design Consultant. Further, it is worth to mention here that the structural works are currently being executed through the specialist firm M/s TS Engineering.

The reply was not accepted because defective work being executed was awarded in piecemeal. Recovery of risk and cost amount from the defaulter contractor and consultant was also not made.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that the work may be completed on risk and cost and effect recovery from the defaulter contractor & consultant under verification to audit. Furthermore, the department should write to the PEC for debarring the licenses of the contractor and the consultant in case of non-compliance as well perusing legal cases against them. If the officials are found to favor the contractor and the consultant, they may be held to task.

(DP. 299)

4.4.46 Loss to Authority due to non-adherence of contractual obligation - Rs 147.843 million

Clause-5 of the lease agreement explains that if any part of the rent hereby reserved shall be in arrear or unpaid for one calendar month next after any of the sale days where on the same shall have become due whether the same shall have been demanded or not or if there shall have been in the opinion of the lessor any substantial breach by the lessee or by any person claiming through or under him of any of the covenants or conditions hereinbefore contained, then and in such case the lessor may, notwithstanding the waiver of any previous cause or right of re-entry, after giving 30 days written notice, enter upon any part of the premises hereby demised or of the buildings thereon in the name of the whole and thereupon the said premises and building shall remain to the use of and be vested in the Lessor and the Lessee shall peacefully vacate the same and this lease shall absolutely determine and the Lessee shall not be entitled to any compensation whatsoever.

Clause-6 explains that on the expiry of the tenure of the lease hereby created or on sooner determination of the lease in the event of substantial breach of any of the conditions as mentioned above, the lessee shall without delay peacefully vacate the premises and shall handover to the lessor free of all costs such building, inclusive of all fittings and fixtures etc., which may have been erected by the lessee on the said plot.

Audit noted during audit of the record of Commercial and Estate Directorate, (HQ) Civil Aviation Authority, Karachi that a lease agreement was executed for land measuring 10,325 Sq. yds to M/s Aviserv Pvt. Ltd. at JIAP, Karachi for establishment of flight kitchen

facility at the rate of Rs 1,350 per Sq. yds for a period of thirty (30) years commencing from 19.05.1994 to 18.05.2024 in accordance to CAA Land Lease Policy 1985. During 2005, CAA Board in its 109th Meeting held on 26.07.2005 considered and approved the request of M/s Aviserv Pvt. Ltd. regarding enhancement of ten (10) years in existing lease period culminating into 40 years commencing from 19.05.1994 to 18.05.2034 subject to payment of dues on account of Annual Ground Rent at the rate of 1/30th of the revised market value of leased land i.e., Rs 5,500 per Sq. yds., from 19.05.2004 and renewal conditions with no premium at the time of renewal/ approval of CAA Board was accordingly communicated to M/s Aviserv Pvt. Ltd. vide letter dated 25.08.2005.

Audit observed that CAA Board in its 118th meeting held on 16-17.01.2007 decided that time frame for construction of flight kitchen facility must be included in the lease agreement. The decision of CAA Board was accordingly communicated to M/s Aviserv Pvt. Ltd. vide letter dated 13.02.2007 alongwith a draft copy of addendum for execution. Upon which, M/s Aviserv Pvt. Ltd. Expressed their reservations vide letter dated 26.03.2007. Since then, neither the addendum has been executed nor M/s Aviserv Pvt. Ltd. paid revised amount of Annual Ground Rent at the rate of Rs 30,000 per Sq. yd for the third decade from 19.05.2014 to 18.05.2024 of lease period. Moreover, M/s Aviserv Pvt. Ltd., has also not started construction on the leased premises till date.

Audit further observed that the lessee did not start its business or construct building for the desired purposes since allotment to-date. However, the Authority issued notice for clearance of outstanding dues of Rs 147.843 million to the lessee on 09.11.2023, but the lessee failed to deposit the dues.

Audit maintained that due to non-adherence of the contractual obligation and weak financial/internal controls resulted in loss of Rs 147.843 million to the Authority.

Audit pointed out the loss in December 2023. The Authority did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends that the authority should utilize all the legal avenues available to recover its pending dues. In case of non-compliance, the authority should write to the concerned authorities for cancellation of the license of the contractor. Audit also recommends further investigation in the matter for fixation of responsibility, besides effecting recovery of the outstanding dues.

(DP. 391)

4.4.47 Inadmissible acceptance of price escalation liability and payment of price escalation beyond the provision of PC-I - Rs 142.33 million

Revised PC-I of the project “Upgradation of Main Runway (13L/31R) at Quetta International Airport for Operation by Aircraft up to ICAO Code 4E”, approved in October 2022 at a cost of Rs 6,287.244 million, included provision of Rs 565.00 million for price adjustment.

Standard procedure and formula for price adjustment formula 2009 provides that weightages of specified items each of the cost elements, having cost impact of five (05) percent or higher can be selected for adjustment. Cost elements of HSD and labour shall be included in the Price Adjustment formula irrespective of their percentage determined for a particular project, if these are applicable for that project.

Audit noted during scrutiny of the accounts of the Project Director, “Reconstruction of Rigid Runway at Quetta International Airport for Operation of Aircraft up to ICAO Code 4E” that the work was awarded to M/s Umer Jan & Co Engineers and Contractors at contract cost of Rs 4,938.756 million on 28.02.2020. The work was started on 05.05.2020, substantially completed on 30.05.2023 and TOC of the runway was issued on 30.05.2023. An amount of Rs 5,297.941 million was paid to the contractor through IPC No.25 (including Rs 636.597 million on account of price escalation vide EPC-11).

Audit observed that an amount of Rs 565.00 million was allocated under the head of account price escalation/de-escalation in Revised PC-I, whereas, the contractor claimed an amount of Rs 636.597

million on account of Escalation which was certified by the Project Management Consultant (PMC) and restricted the payment up to the provision of Revised PC-I, thereby leaving a balance of excess amount of Rs 71.597 million of escalation as liability.

Audit further observed that the authority developed in-admissible weightages of co-efficient in the bidding documents on items having cost impact of below five percent (5%) i.e., (Steel 2% & Bitumen 3%) for Rs 70.733 million in contradiction to above instructions as provided in the PEC adjustment formula 2009. This resulted in booking of escalation over and above the revised PC-I and inadmissible payment of price escalation amounting to Rs 142.330 million (Rs 71.597 + Rs 70.733).

Audit maintained that acceptance of price escalation over and above the revised PC-I and payment of escalation against in-admissible weightages of co-efficient for items Bitumen and Steel were due to non-adherence to revised PC-I, PEC instruction and weak financial and internal controls.

Audit pointed out the inadmissible payment in September 2023. The Authority replied that the provision of Rs 565.00 million for Price Adjustment was provided in the revised PC-I/Admin approval of the Project which was approved from CAA Board in October 2022 while the works were in progress and project was substantially completed on 30.05.2023. The cumulative value of Price Adjustment was valuing Rs 636.00 million but the payment has been made only as per available provision of PC-I/Admin approval i.e., Rs 565.00 million and the excess amount is booked as liability which was legally and contractually binding on part of the Employer to pay the contractor. As the final Bills and Final Escalations are in hand with the contract, re-appropriation to the Price Adjustment head of the Admin approval shall be carried once the final values are duly certified by the Engineer, and the payments shall accordingly be released.

The reply was not acceptable because the booking of liability on account of escalation over and above the revised PC-I cost and acceptance of escalation on Steel having cost impact of 2% and Bitumen of 3% was in contradiction to instructions as provided in the PEC adjustment formula 2009.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that the matter may be investigated and the responsible officials who paid above and beyond the price escalation formula may be held to task. Furthermore, Audit recommends recovery/adjustment of the excess amount paid to the contractor.

(DP. 324)

4.4.48 Unauthentic payment due to ill estimation and payment of non-BoQ item without approval - Rs 135.919 million

Para 56 of Chapter-2 of NHA Code provides that technical sanction means the order of the competent authority sanctioning a properly detailed estimate of the cost of a work of construction or repair proposed to be carried out by the Authority. Sanction accorded to the execution of a work by an officer of any other department is regarded merely as an administrative approval of the work. Technical Sanction is a guarantee that the proposal is structurally sound and that the estimates are accurately calculated and based on adequate data. It shall be issued on the basis of detailed estimates for the project as a whole, after administrative approval is accorded.

Audit noted that CAA HQ awarded a work “Reconstruction & Up-gradation of Main Runway (18L/36R) at Allama Iqbal International Airport (AIIAP) Lahore” to M/s China Civil Engineering Construction Corporation (CCECC)-Matracon Pakistan (Pvt.) Ltd.-Habib Construction Services (JV) at an agreement cost of Rs 6,450.568 million vide acceptance letter dated 07.08.2020 with completion period of 455 days. An amount of Rs 6,872.170 million was paid to contractor up to 27th IPC.

Audit observed that the Authority made payment to contractor for non-BOQ item “providing and laying of Needle punched polypropylene Geo textile (density 200 gsm)” for quantity of 230,340.458 SM @ Rs 590.08 per SM. Audit also observed that the contractor did not prepare and get approved rate analysis of the item on quotation basis and made payment for non-BOQ items to contractor without approval of variation/deviation statement from the competent forum.

Audit is of the view that the estimation of the engineering staff of the project was very poor because an important and costly item for runway construction was required to be included before start of the work. Expenditure incurred in violation of quoted rules resulted in unauthentic payment of Rs 135.919 million due to ill estimation.

Audit pointed out unauthentic payment during July-August 2023. The Authority replied that the said project was governed by FIDIC conditions of contract and the contract allows variations and variation orders were issued by The Engineer strictly in accordance with contract agreement clause 51.1. The Engineer certified payments of varied works on provisional basis in accordance with Clause-52.1. On receipt of specific approval of the Employer in accordance with clause 2.1, the Variation Order will be formally issued by The Engineer wherein the rates would attain the finality.

The reply was not accepted because estimate was not prepared on the basis of proper survey and actual requirement of site. Execution of very costly non-BOQ item without preparation of rate analysis and approval of variation/deviation statement was due to poor estimation.

Audit holds that the unauthentic payment occurred due to ill estimation of the technical staff and approval of same by The Engineers.

The matter was discussed in DAC meeting held on 15-16 January, 2024. DAC directed CAA that detailed reply explaining technical aspects, approval of variation order and rates, reasons as to why the lessons learnt in respect of polythene sheet de-bonding was not reflected in planning resulting in execution of non-BOQ item, be provided to Audit for evaluation.

Audit recommends investigation in the matter and fixation of responsibility for increase in the cost of project due to ill estimation and inclusion of such a technical item of work at later stage.

(DP. 181)

4.4.49 Irregular/unjustified payment due to non-assurance of procurements of material from the specified origin - Rs 129.900 million

Special Provision-18 Specifications of contract agreement stipulates that the contractor shall furnish all materials new and unused, standard first grade quality of the best workmanship and design. No inferior or low-grade materials, supplies or articles will be either approved or accepted. The contractor shall provide the manufacturer or supplier with complete information as may be necessary to secure compliance to this clause and in every case. The contractor shall submit samples of Materials, the Engineer shall check and approve such samples with reasonable promptness only for conformance with the design concept of works and all work shall be in in accordance with approved samples.

Audit noted that P&D PCAA, Headquarters Karachi awarded a work, “Construction of Greenfield Aerodrome for General Aviation Activities at Muridke”, at agreement cost of Rs 1,784,623,902 to

M/s Shaanxi Construction Engineering Group Corp Ltd- Umer Jan & Co. (JV) on 26-10-2021. Total value of work done paid was Rs 1,188,554,778 excluding escalation amount Rs 224,461,635 up to IPC 10. Time was allowed 12 months from the date of start.

Audit observed that Asphaltic Work under Sub Head Main Runway, Asphalt Base and Wearing Courses and other bituminous items were executed wherein bitumen of specified grade was used which was main component of these items. As per afore quoted provisions, origin of the bitumen was required to be vetted by the consultant in order to maintain quality assurance. When the assurance of the origin of bitumen material was requisitioned, it was not found in the record to ascertain the source and for assurance of invoices of bitumen was sale tax invoices. This indicated that contractor did not procure the material from the specified origin directly, therefore, quality cannot be assured and by virtue of this chances of failure of the asphaltic pavement cannot be ruled out

Non-adherence to provision of contract agreement caused irregular/unjustified payment for Rs 129.900 million.

Audit pointed out irregularity in July 2023. The authority replied that bitumen from National Oil Refinery has been used confirming to the Project Technical Specifications.

The reply of the Authority was not acceptable because the bitumen receipt was not for the specific project at Muridke.

The matter was discussed in DAC meeting held on 15-16 January, 2024. DAC directed the management of CAA to get the record showing date of execution of item, date of request for asphalt test with forwarding letter and test report verified from Audit.

Audit recommends conducting of engineering and chemical tests to determine the actual quality and origin of the bitumen. If the tests reveal that the bitumen falls below the established standard, recoveries may be made from the contractor and responsibility be fixed against the concerned officials.

(DP. 229)

4.4.50 Loss due to non-allotment of commercial spaces and irregular appointment of operational staff - Rs 123.194 million

Para C-5 of Policy & Procedure for grant of business license at PCAA Airports 2014 & 2019 provides that, Senior Manager, Commercial/Commercial Officers at the respective airports and in case of absence of such officer (s) at any airport, the respective Airport Manager(s) or an officer designated by him shall be responsible to carry out all commercial functions to enhance non-aeronautical revenue/ income of PCAA and add quality services for the passengers and meeters/greeters at all airports.

Establishment Division issued policy guidelines to regulate contract appointments in autonomous/semi-autonomous bodies vide O.M. No. 6/2/2000-R.3 dated 06.05.2022. As per para iii(b) of the above-mentioned O.M, vacancies may be advertised in the leading national and regional newspapers.

Audit observed from the record of Airport Manager, Multan International Airport that:

a) The agreement period of the concessions expired on different dates and sites were lying vacant from the date of expiry. The management did not make efforts for further award of concessions to enhance non-aeronautical revenue/income of PCAA. This resulted in loss of Rs 49.607 million (**Annexure-AE**) to the Authority due to mismanagement.

b) 281 individuals were appointed on retainer-ship/contract basis for various wings of the airport building for providing operational and non-operational services. The contract, initially for a period of two months, was repeatedly extended. This resulted in an unjustified payment of Rs 73.587 million during the financial year 2021-22.

Audit maintains that loss occurred due to weak internal control.

Audit pointed out the loss in March 2023. The Authority replied that the management floated tenders for the concessions since their expiry. However, due to COVID-19 and subsequent economic turmoil in the country PCAA has not been able to award the concession.

In the other case, it was replied that the retainer-ship appointment was made with the approval of PCAA Executive Committee on retainer-ship basis through job advertisement published in prominent newspapers of the country. Initially manpower was hired for 02 months as an interim arrangement mainly to fill in the gaps of the specialist functions. Extension beyond initial period was granted by HQPCAA being the competent authority.

The reply was not accepted because concrete efforts should have been made to award the concessions just after completion of previous contracts.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 28.08.2023, 18.09.2023, 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that the matter of appointment of retainer staff be investigated, the terms and conditions of their contract be formalized. Furthermore, audit recommends prompt action to award concessions of expired agreements to mitigate further losses.

(DP. 12 & 14)

4.4.51 Irregular/unjustified payment of Special Allowance without concurrence of Ministry of Finance - Rs 113.614 million

As per directions issued vide O.M No.F.1 (38)-IMP-II/88, dated 11.07.1988, financial matters including revision of pay and allowances, etc., cannot be decided without prior concurrence of the Finance Division. Further, Ministry of Defense issued instructions vide letter No.11-2/2002-PCAA dated 08.03.2007 that financial matters including financial implications particularly, increase in pay and allowances require prior clearance of the Finance Division. It is binding on the Authority to follow directives on the policy matters issued by the Federal Government under section of Civil Aviation Authority Ordinance 1982. Finance Division's O.M. No. F.4 (3)R-4/2011-Revision dated 04.08.2017 described that, "it is binding upon all the administrative Ministries/Divisions of Semi-autonomous, autonomous bodies/ corporations to ensure that any changes in the pay, allowances and privileges of executive/supervisory staff of the semi-autonomous, autonomous bodies corporations working under their administrative control, are processed in accordance with the Finance Division's O.M No.F.1 (1) Imp/94, dated 26.06.1999.

Audit noted during scrutiny of accounts of CAA that special allowance @ 20% to the employees and lump sum monthly pay package to Flight Inspector Pilots involving Rs 113.614 million was approved during the year 2021-22 without concurrence of Ministry of Finance in violation of instructions.

This resulted in irregular payment of Rs 113.614 million on account of Special allowance and monthly pay Package/salary of Regulatory Division Flight Inspector Pilots.

Audit pointed out irregularity in February-May 2023. The Authority replied that PCAA is a statutory body and as per the Section (04) & (27) of PCAA, Ordinance 1982, the Authority is competent to devise its own service regulations and the same are non-statutory in nature. The approval for Special Pay Packages for Flight Inspector Pilots was granted by PCAA Board.

The reply was not tenable because concurrence of Ministry of Finance through Ministry of Defence was mandatory prior to payments.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 28.08.2023, 18.09.2023, 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that the matter may be referred to Ministry of Finance for clarification, all future allowances be granted only with the prior approval of Ministry of Finance as per standard procedure.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2021-22 and 2022-23 vide para numbers 4.4.10, 4.4.12 (2021-22), 4.4.2 and 4.4.9 (2022-23) having a financial impact of Rs 16,311.64 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 04, 13 & 104)

4.4.52 Irregular award of work at higher rates - Rs 92.000 million

Public Procurement Rule 38 provides that, the bidder with the most advantageous bid, if not in conflict with any other law, rules, regulations or policy of the Federal Government, shall be awarded the procurement contract, within the original or extended period of bid validity.

Public procurement rule 04 provides that, Procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Audit noted that CAA management awarded contract for the work of safeguarding the acquired land around Kasana Dam, Project site near IIAP Islamabad to M/s Ilyas Construction Rawalpindi at a contract cost of Rs 148.214 million. Total payment up to 02nd IPC of Rs 24.260 million was

made to the contractor. The work was started on 08.11.2022 and to be completed within a maximum period of 280 days.

Audit further noted that two firms submitted their bids within the due date and time. The bid evaluation committee checked and corrected the two bids i.e., M/s Choudhery Construction Company as Rs 56.919 million and M/s Ilyas Construction Rawalpindi Rs 148.214 million. The first lowest bidder backed out from his quoted bid. Record of forfeiture of earned money and action of blacklisting M/s Choudhery Construction Company was not made.

Audit observed that bid of the 2nd lowest bidder was also defective as they included premium after the grand total in the form of bid. Instead of rejecting bids and re-tendering, the work was awarded to the second lowest bidder i.e., M/s Ilyas Construction at a bid price of Rs 148.214 million. Further the interim extension of time was given to the contractor up to 02.02.2024 without any solid reason. Due to EOT, the insurance period also did not cover the maintenance period. Insurance is effective from 08.11.2022 to 07.11.2023.

This resulted an irregular award of work at higher rate of Rs 92.00 million (First lowest quoted rate Rs 56.919 million-second lowest quoted rate Rs 148.214 million).

Audit pointed out the matter in November 2023. The Authority replied that two firms participated in bidding process, both bids were opened by Tender Committee. Rule 34, Re-Bidding Quote “if the procuring agency has rejected all bids under Rule 33, it may call for a re-bidding” Unquote but in this case CAA has not rejected all bids and work has been awarded to 2nd lowest bidder whose bid was responsive and rates were reasonable and workable. Premium amount was corrected by CAA prior to award of Contract and bid amount as compared Engineer estimate was only 1.10% above and rates were reasonable/workable and bid commensurate the bidding requirements, hence accepted. Earnest money of M/s Choudhery Construction Company has been forfeited hence blacklisting may not possible. Final fate of Extension of Time will be dealt at the time of Taking Over Certificate in accordance with contractual provisions. Contractor Insurance policy is intact up to 07.11.2024.

The reply was not accepted because despite defective bidding the work was awarded to 2nd lowest bidder. As regards other irregularities, the reply furnished was without documentary evidence.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends investigation in the matter for fixing of responsibility for violation of rules besides effecting recovery under intimation to Audit.

(DP. 302)

4.4.53 Irregular award of construction supervision consultancy on higher rate - Rs 91.842 million

Rule 4 of the Public Procurement Rules 2004 provides that, procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economic.

Approved PC-1 of the project Construction of Greenfield Aerodrome for General Aviation Activities at Muridke provides work outlay cost of Rs 2,406.603 million including all description of cost for the work. In this component, the PC-I envisages that an amount of Rs 45.921 million was provided for construction supervision through consultant which was 1.90 % of project cost.

Audit noted that Pakistan Civil Aviation Authority awarded consultancy service to M/s Osmani & Company Pvt. (Ltd) at agreement cost Rs 114,774,660 (Rs 22,932,000 for designing and Rs 91,842,660 for construction supervision accordingly) as lump sum remunerations for planning & designing Phase-I and construction supervision phase II of the Project “Construction of Greenfield Aerodrome for General Aviation Activities at Muridke,” costing Rs 1,784,623,902. Further, the Project Director paid Rs 111.519 million on account of consultancy fee to the consultant up to Invoice No. 19.

Audit observed that the Authority awarded the construction supervision for Rs 91.842 million which was 5% of total value of project cost Rs 1,784,623,902 which was more than 50% higher than the general practice as evident from PC-I provision of 1.90% and also same nature of work consultancy services for construction supervision of project (Reconstruction/Rehabilitation of Main Runway at AIIAP Lahore which was 0.5% of the project cost (Rs 36.080 million/ 6450.568%).

Audit further observed that planning & designing fee for Rs 22.932 million was also paid separately to the consultant for Muridke project which indicates

that the construction supervision remuneration was awarded much higher than general practice without any detailed working causing undue benefit to the consultant. This has resulted in irregular award of construction supervision consultancy on higher rate for Rs 91.842 million.

Audit maintained that irregular award was made due to weak internal and financial system of CAA.

Audit pointed out irregular award in July 2023. The authority replied that taking cognizance of rule 4 of the Public Procurement Rules, the bidding proceeding for consultancy engineering services for Muridke Aerodrome Project were invited under rule 36(b) & rule 3(C)–Least Cost of PPRA Regulations ‘Procurement of Consultancy Services Regulations 2010’. As a part of its scope defined the Request for Proposal” document, the consultant under Appendix-III, Section 6, Part Scope of services, sub -part Planning & Designing, axiom - ‘e’ was entrusted with “Preparation of PC-I proforma in light of contemporary Planning Commission guidelines. Therefore, award of consultancy contract (Letter of Acceptance dated 07.05.2021) precedes preparation of PC-I, which precedes award of construction work to contractor (26.10.2021).

Planning Commission in tandem with PPRA and PEC layout the procedure for appointing a consultant however, there’s no indicative yardstick available in these guidelines for extent and consultancy fee in contrast to cost of project.

The cost of works was unknown at the time of bidding whereas it may please be noted that only Phase-I of the works are launched as of now and the PC-I of the Phase-II of works is also in the pipeline. The Consultant shall perform services for both as already mentioned in his Contract Agreement. Therefore, comparison with current cost of tendered work is not worthy.

The reply of the Authority was not acceptable because only supervision fee of any project cannot be seen and provided @ 5% of contract cost other than designing fee. In this case design fee separate allowed therefore in previous practice maximum construction supervision of 2.5% was seen. At this stage matter may be investigated due to acceptance of high rate of supervision.

The matter was discussed in DAC meeting held on 15-16 January, 2024. DAC pended the para with the direction to management of CAA that matter may be examined by Deputy Director General (Works and Development), CAA and feedback be submitted to the PAO for the decision.

Audit recommends investigation and fixation of responsibility against the persons responsible for awarding the contract at higher rates. The consultant may be held accountable for approving a contract in violation of PPRA, and the Authority should seek arbitration with the consultant and resolve the issue.

(DP. 227)

4.4.54 Misprocurement through quotation and petty purchases - Rs 89.123 million

Rule-9 of the Public Procurement Rules, 2004 provides that, Limitation on splitting or regrouping of proposed procurement “Save as otherwise provided and subject to the regulation made by the Authority, with the prior approval of the Federal Government, a procuring agency shall announce in an appropriate manner all proposed procurements for each financial year and shall proceed accordingly without any splitting or regrouping of the procurements so planned. The annual requirements thus determined would be advertised in advance on the Authority’s website as well as on the website of the procuring agency in case the procuring agency has its own website”.

Rule 20 of the Public Procurement Rules, 2004 provides that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During scrutiny of accounts of Director Civil Aviation Training Institute Hyderabad, audit noted that Engineering Service Electro mechanical (E/M) Section and Civil Section CATI Hyderabad incurred an expenditure of Rs 5.890 million and Rs 35.797 million through quotation basis.

Similarly, Logistic Center (South & North), Civil Aviation Authority made procurement of goods and spares for Rs 47.436 million through quotations and petty purchases during financial year 2021-22.

Audit observed that the procurements were made in piecemeal on quotation basis instead of consolidated annual requirement keeping the amount of every supply order less than Rs 0.500 million in quotation and less than Rs 0.05 million in petty purchases to avoid the open tendering. Further the annual requirements were not determined for advertising in advance on the Authority's website as well as on the CAA's own website. This resulted in mis-procurement involving of Rs 89.123 million (Rs 5.890 million + Rs 35.797 million + Rs 47.436 million).

Audit pointed out the irregularity in December 2022 and May 2023. The Authority replied in case of DP-51 that the mechanism of procurement at Logistics Branch APS is devised and bifurcated on the principles laid by Public Procurement Rules and regulations, estimated cost of procurement is acquired from the local market of every approved procurement, if the estimated cost of procurement is greater than 0.1 million but within 0.5 million the method of RFQ is being adopted, only the cases in which estimated prices are less than 0.1 million are procured through petty purchases. The common use items are procured at locations while items which are not available at locations due to technical complexities are procured at logistics centers.

The reply was not tenable because quotations were invited through placement of RFQ on notice board which was placed inside the office premises. Further procurements through petty purchases were made just to other location to avoid the approval of higher authority. Therefore, transparency and open competition was not ascertained.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 28.08.2023, 18.09.2023, 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends fixation of responsibility and disciplinary action against the responsible under intimation to Audit.

(DP. 51, 93)

4.4.55 Non-recovery of Secured Advance - Rs 84.252 million

Clause – 60.11(a) – Particular conditions of contract provides that the contractor shall be entitled to receive from the employer secured advance against an indemnity bond acceptable to the employer of such sum as the engineer may consider proper in respect of non-perishable materials (excluding equipment/items pertaining to AFL system) brought at site but not yet incorporated in the permanent works. (b) the recovery of secured advance paid to the contractor under the above provisions shall be effected from the monthly payments on actual consumption basis.

Audit noted that CAA, HQ, awarded the work “Reconstruction & Up-gradation of Main Runway (18L/36R) at Allama Iqbal International Airport (AIIAP) Lahore” to M/s China Civil Engineering Construction Corporation (CCECC)-Matracon Pakistan (Pvt.) Ltd.-Habib Construction Services (JV) at an agreement cost of Rs 6,450.568 million vide acceptance letter dated 07.08.2020 with completion period of 455 days. An amount of Rs 6,872.170 million was paid to contractor up to 27th IPC.

Audit observed during review of the Interim Payment Certificates that the Authority made payment of Rs 950.096 million to contractor on account of Secured Advance up to IPC No. 27. The amount was paid to the contractor for purchase of material i.e., Lawrencepur Sand, Local Sand, Crush, Aggregate Base Course, Clean Aggregate for Econocrete, Stone Dust for Econocrete, Aggregate Base Course, Sub Base, Bitumen etc., whereas, the said advance was required to be paid on non-perishable items like steel and bricks, etc., instead of sand, aggregate base course, stone dust, etc., as per afore quoted contract provisions. Audit further observed that the work has been completed and runway is functional since July 2022 but the amount of secured advance given to contractor for non-perishable items is still outstanding. This resulted in non-recovery of secured advance from contractor of Rs 84.252 million (Rs 950.096 – Rs 865.844)

Audit pointed out less recovery during July-August 2023. The Authority replied that contractor has received secured advance in accordance with clause 60.11 of PCC against procurement of non-perishable items as per scope of work. However, portion of drainage works along secondary runway has been de-scoped and outstanding secured advance of steel for said drainage works will be recovered in the forthcoming IPC. Further, contractor’s payments of approximately Rs 1,000 million against work done, Performance Guarantee and Retention Money were available with the Employer to safeguard the interest of the Employer.

The reply was not accepted because secured advance was recoverable despite the work was completed at site.

Audit holds that non-recovery of the amount of secured advance from contractor shows undue favour to contractor despite lapse of sufficient time.

The matter was discussed in DAC meeting held on 15-16 January, 2024 CAA explained that secured advance of unconsumed steel due to de-scope of drainage work would be adjusted from next IPC. However, work done of Rs 1,000 million is yet to be paid to the contractor and retention money and performance guarantee is available with CAA.

After detailed deliberation, the DAC directed the management of CAA to make adjustment of outstanding secured advance from next IPC besides getting the record i.e., work plan, timelines for adjustment, actual adjustment, work done yet to be paid, de-scoped work with justification verified from Audit.

Audit recommends inquiry at an appropriate level for non-recovery of secured advance even after lapse of sufficient time, besides effecting the recovery at the earliest under verification to Audit.

(DP. 168)

4.4.56 Overpayment to contractor due to change in scope of work against the provision of PC-I - Rs 82.362 million

Para 9.6 of PC-I states that, the thickness of sand cushion for rigid pavement will be 300 mm (12inch). As per technical estimate and approved drawings of the project, the item of sand cushion was needs to be executed with the thickness of 300 mm. According to clause 9.6.1.7 of the PC-I, the Pavement Classification Number (PCN) for rigid pavement of main runway was reported as PCN 159/R/B/W/T.

Audit noted that CAA, HQ awarded the work “Reconstruction & Up-gradation of Main Runway (18L/36R) at Allama Iqbal International Airport (AIIAP) Lahore” to M/s China Civil Engineering Construction Corporation (CCECC)-Matracon Pakistan (Pvt.) Ltd.-Habib Construction Services (JV) at an agreement cost of Rs 6,450.568 million vide acceptance letter dated 07.08.2020 with completion period of 455 days. An amount of Rs 6,872.170 million was paid to contractor up to 27th IPC.

Audit observed that the Project Director measured and paid BOQ item No 152-4.7 “providing sand cushion under the Earthwork Bill No. 1” in Main Runway with a quantity of 133,090.294 Cu.m @ Rs 990 per Cu.m for Rs 131,759,392 up to 27th IPC after taking the thickness of the item as 990 mm against the provision of 300 mm. The said quantity was executed 167% above the provided quantity of estimate 49,896 Cu.m. Audit further observed that as per Project Director letter dated 12.06.2023, the PCN for rigid pavement of main runway is reported as PCN 216/R/B/W/T against the provided/required value in PC-I of 159/R/B/W/T.

Audit is of the view that the extra quantity of sand was used for the work without justification and was only to extend undue favor to the contractor. This resulted in overpayment due to change in scope of work against the provision of PC-I of Rs 82,362,351 (Rs 133,090.294 – Rs 49,896 x 900).

Audit pointed out overpayment during July-August, 2023. The Authority replied that this AIR-12 may please be clubbed with Audit Para No. 4.4.29 (2022-23) and PDP-63 (2020-23) because it is based on the same observation.

The reply was not tenable. Due to use of extra quantity of sand, the PCN value of runway was increased in conflict of PC-I design.

Audit held that the scope of specified work was unnecessarily changed without any cogent reasons and only for obliging the contractor.

The matter was discussed in DAC meeting held on 15-16 January, 2024. The management of CAA apprised that upon excavation, the soil was found severely water logged and was totally unsuitable to start the construction of main runway. Audit contended that substantial variation was due to design consultant fault. After detailed deliberation, the DAC directed the management of CAA that consultant be penalized for inadequate design work and blacklisted as per policy. Final action be shared with Audit. DAC further directed that to avoid conflict of interest, design consultancy and construction supervision consultancy services should not be assigned to the same firm and in future “the Engineer” should not be consultant.

Audit recommends compliance of DAC’s directive.

(DP. 176)

4.4.57 Less recovery of water charges - Rs 72.909 million

Clause-34.5 of special conditions of contract agreement provides that, the contractor shall make his own arrangement at his own expense for provision operation and maintenance of electric supply, reasonable supplies of raw and portable water and sewerage system at the site of works and his labour camps, staff residences and offices. The contractor shall pay all fees and charges (including bills) of whatsoever nature to the concerned departments in order to procure connections of the above facilities and thereafter using these facilities.

Condition No. 6 of CPWD form 7&8 of Pakistan Public Works Department provides that, water supply will be allowed by the department to the contractor from main line passing through areas where the work is required to be carried out and he shall pay the cost of water to the department at ½% of the total cost of work for drinking purposes and 1 % of the total cost of work involving use of water (i.e., for constructional purposes). The contractor will bear all charge for laying his water line from the mains to the site of his undergrounds tanks which he may require and construct for storage purposes at his own cost.

Audit noted that CAA HQ awarded following two works at Allama Iqbal International Airport (AIIAP) Lahore.

Audit observed that the Authority deducted water charges @ 1 % for construction works but ½ % charges for drinking water were not deducted. Undue favour was extended to the contractors in resulted in less r recovery of water charges of Rs 72.909 million as detailed below.

(Rs in million)

DP No.	Work	Work-done	Water charges @.5%
167	Reconstruction & Up-gradation of Main Runway (18L/36R) at AIIAP Lahore M/s CCECC-Matracon Pak. (Pvt.) Ltd.- Habib Const. Services (JV)	6,872.170	34.361
187	Passenger Terminal Building Expansion Project at AIIAP Lahore (Construction of Car Parking Area) M/s Izhar Construction (Pvt.) Ltd.	7,709.557	38.548
	Total	14,581.727	72.909

Audit pointed out less recovery during July-August 2023. The Authority replied in DP. 167 that water for drinking purpose has been arranged by the Contractor himself as required in the Clause-34.5 of Special Conditions accordingly the Engineer has made only deductions of water charges @ 1% for constructions works in certified IPCs. In DP-187 it was replied that as per direction of DAC meeting held on 15.01.2021 against DP-42 a recovery of Rs 25.9 million has already been made in IPC-27. Further, the matter is under dispute as the Engineer has given their decision in favour of the contractor under clause 67.1 of GCC being impartial under clause 2.6 of GCC on 24.08.2021. Moreover, the contractor vide his letter dated 06.07.2023 has also shown his intention to take the matter to Arbitration under sub-clause 67.4 of GCC. However, as per clause 26.3.1 special provision of the contract the contractor has managed temporary water supply for drinking purpose through his own resources and no supply line (water supply) of CAA was available at car parking project.

The reply was not tenable. No record in support of reply regarding supply/provision of water for utilization of drinking purpose for labour, offices of employer and the engineer was produced to Audit.

Audit maintained that less recovery of water charges was due to not following the relevant rules and weak internal controls.

The matter was discussed in DAC meeting held on 15-16 January, 2024. The DAC pended the para and directed to provide justification for evaluation by Audit and discussion in next meeting.

Audit recommends recovery on account of water charges under verification to audit. Furthermore, audit recommends proper measurement of water supply to ensure accurate calculation of water bill.

(DP. 167, 187)

4.4.58 Loss due to non-imposition and recovery of non-utilization charges - Rs 71.965 million

Clause 4 of Lease Deed executed between M/s Attock Petroleum and Civil Aviation Authority on 13.01.2012 for 30 years provides that “the lessee shall complete the construction and/or allied works to meet the purpose of this lease, within the specified period of two years from the date of signing of this indenture or during the specified extended period. Failure to commence construction work within 3 months or delay in launching/operation within specified period to two years or extended period as deemed fit

by the lessor in view of the purpose of this lease, shall either be subject to a penalty of Rs 100 to Rs 300 square yards per month as non-utilization charges as decided by the lessor or shall result in termination of lease and resumption of land by the lessor or shall result in termination of lease and resumption of land by lessor.

During audit of the record of Commercial and Estate Directorate, (HQ) CAA, Karachi it was noted that a lease agreement was executed for a plot measuring 1,500 Sq.yds, situated near Luxury Cinema at JIAP Karachi for the purpose of Petrol Pump Cum CNG Station with M/s Attock Petroleum on 13.01.2012 for 30 years.

Audit observed during examination of record that the lessee could not complete the construction and/or allied works to meet the purpose of lease, within the specified period of two years from the date of signing of this indenture or during the specified extended period. Audit further observed that construction work was not started within 3 months and launching/operation was also not started within specified period of two years. The Authority charged non-utilization charges (NUC) under the clause for the period 13.04.2014 to 12.01.2020 amounting to Rs 32.400 million which was also not recovered till to date. It was further observed from the file that the Authority also imposed an amount of Rs 39.565 million on account of surcharge and additional penalties, which were also not deposited by the lessee although the lessee is doing its business with full swing.

Audit maintained that the loss in the form of non-recovery of non-utilization charges and non-recovery of surcharge & additional penalties was due to weak internal control and monitoring, system within authority.

This resulted in loss on Rs 71.965 million

Audit pointed out the irregularity in December 2023. The Authority did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends further investigation into the matter for fixing of responsibility and for recovery of losses to the Authority.

(DP. 392)

4.4.59 Overpayment to the contractor due to allowing double lead for dismantled concrete material - Rs 66.470 million

Rule 10 (i) of GFR Vol-I provides that every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public money as a person of ordinary prudence would exercise in respect of expenditure from his own money.

Audit noted that CAA HQ awarded the work “Reconstruction & Up-gradation of Main Runway (18L/36R) at Allama Iqbal International Airport (AIIAP) Lahore” to M/s China Civil Engineering Construction Corporation (CCECC)-Matracon Pakistan (Pvt.) Ltd.-Habib Construction Services (JV) at an agreement cost of Rs 6,450.568 million vide acceptance letter dated 07.08.2020 with completion period of 455 days. An amount of Rs 6,872.170 million was paid to contractor up to 27th IPC.

Audit observed that the Project Director executed and paid a BOQ item “dismantling of existing 13" PQC slab including transportation outside airport limits for main runway, turn pad and overrun” for Rs 42,455,237 for a quantity of 85768.56 Cu. m @ Rs 495 per Cu. m. Audit further observed that the Authority measured and paid a non BOQ item “disposal of existing PQC material up to lead of 26 km (from outside airport limit to designated approved place karolghatti)” with a quantity of 85,768.156 Cu.m @ Rs 775 per Cu.m for Rs 66,470,321. Audit is of the view that as the transportation of dismantled material was included in BOQ item why did the Authority execute and pay a separate non-BOQ item for the same work. This resulted in overpayment to contractor of Rs 66.470 million.

Audit pointed out overpayment during July-August, 2023. The Authority replied that the engineer has certified payments of varied works on provisional basis in accordance with Clause-52.1 of GCC. On receipt of specific approval of the Employer in accordance with Clause 2.1 (ix) of PCC, the variation order will be formally issued by the Engineer wherein the rates will attain the finality. The same shall be then submitted to Audit for verification.

The reply was not accepted. The Authority paid separate non BOQ item for disposal of existing PQC slab whereas the cost of disposal of PQC slab was included in BOQ item.

Audit holds that the overpayment to contractor was due to weak technical controls.

The matter was discussed in DAC meeting held on 15-16 January, 2024. DAC directed the management of CAA that consultant be penalized for inadequate design work and blacklisted as per policy. Final action be shared with Audit.

Audit recommends compliance of DAC's directive.

(DP. 177)

4.4.60 Inadmissible payment of consultancy beyond the PC-I provision - Rs 65.598 million

Approved PC-I of the project "Construction of Greenfield Aerodrome for General Aviation Activities at Muridke" was provided at a cost of Rs 4124.72 million including land cost and all description of cost. In this component, the PC-I envisages that an amount of Rs 45.921 million was provided for consultancy supervision.

Audit noted that CAA awarded consultancy service to M/s Osmani & Company Pvt. (Ltd) at agreement cost Rs 114.774 million (Rs 22,932 million for designing and Rs 91.842 million for supervision accordingly) as lump sum remunerations for planning& designing Phase-I and Construction Supervision phase II of the Project "Construction of Greenfield Aerodrome for General Aviation Activities at Muridke", costing Rs 1,784.623 million.

Audit observed that the Project Director paid consultancy fee to the consultant as Rs 111.519 million up to Invoice no. 19 on account of the consultancy services for the work against the PC-I provision of Rs 45.921 million which was 142% excess than provision. This has resulted in inadmissible payment of Rs 65.598 million for consultancy beyond the PC-I.

Audit maintained that payment of consultancy over and above the PC-I was made due to weak internal and financial system of CAA.

Audit pointed out the inadmissible payment in July 2023. The Authority replied that all payments were made as per actual consumption of man-months for the deployed positions. The same would be regularized through revised PC-I by the end of next month. Furthermore, the consultancy contract was for a duration of 12 months, which was increased to 19 months i.e., 15.09.2023. This extension in time for completion of works propagated extension in services of PMC. Therefore, PMC under the mandates of SCC 6.3[b] was compensated for additional man-hours. Sum of Rs 45.921 million earmarked amid approved PC-I was exclusive for supervision as mentioned within cost summary of PC-I, moreover, the sum of Rs 45.921 was kept with six months in hindsight as duration of the project. Nonetheless, PMC had been instructed to revise the PC-I with instruction to rationalize the plausible supervision cost, which shall be put up to competent authority for approval.

The observation of audit is accepted by the Authority that payments were made beyond the PC-I, which may be regularized or recovered from the consultant.

The matter was discussed in DAC meeting held on 15-16 January, 2024. DAC pended the para with the direction to management of CAA that matter may be examined by Deputy Director General (Works and Development), CAA and feedback be submitted to the PAO for the decision.

Audit recommends that detailed report in the light of DAC's direction may be provided to Audit.
(DP. 226)

4.4.61 Overpayment to the contractor due to non-utilization of available earth - Rs 65.162 million

Addendum No.1, Item No.152.1.1 – Technical Provisions of Contract Agreement and NHA Specification provides that the quantities to be paid for shall be the number of cubic meters calculated on theoretical designed lines and grades and the ground levels as compacted in place. Measurement shall be made as under:

Formation from Borrow=Total Embankment Quantity (minus) Roadway Excavation Quantity (minus) Structural Excavation Quantity

Audit noted that Planning & Development Pakistan Civil Aviation Authority, Headquarters Karachi awarded the work, "Construction of Greenfield Aerodrome for General Aviation Activities at Muridke, at agreement cost Rs 1,784.623 million to M/s Shaanxi Construction Engineering Group Corp Ltd- Umer Jan & Co. (JV) on 26.10.2021. Total value of work done was paid Rs 1,188.554 million excluding escalation amount Rs 224.461 million up to IPC 10. Time was allowed 12 months from the date of start.

Audit observed that the Project Director measured and paid a BOQ item Formation of Embankment from Borrow Excavation in common material in Sub Head 3 Main Runway, Sub Head 04 Taxi Way Sub Head 5 Apron and sub Head Loop with the quantity of 528,061 CM @ 500 per CM with the amount of 264,030,500 up to 10th IPC. Audit further observed that the Project Director also paid the item (Excavation in foundation of building, bridges structure, etc., as non-BOQ item(provisional sum) with the quantity 130,325 @ 290 per cum Audit held that borrow material can only be utilized when Structural/Roadway Excavation material would not be available but in this case despite availability of the excavated material as Non BOQ item at site the borrow material was used and paid at higher rate and available material was not adjusted/decreased from the quantity of Formation of Embankment from borrow Excavation.

The department was required to measure and pay the quantity of Formation of Embankment from Borrow Excavation material after deduction of available excavated earth quantity 130,325 Cu.m. This resulted in overpayment to the contractor due to non-utilization of available earth Rs 65,162,500 (130,325 Cu.m x 500 per cu.m).

Audit pointed out overpayment in July 2023. The Authority replied that the mentioned excavated material in this Para was un-suitable to be used based on the CBR criteria (Min 3%). Third Party Test reports from renowned state owned facility are available for verification. Hence, the said material cannot be utilized for formation of Embankment. Since the excavated material did not conform the specification of BOQ item "Formation of Embankment from borrow excavation in common material with minimum 8% CBR material and minimum 95% compaction including cost of clearing, grubbing & compaction of natural ground" [lab results annexed], therefore the excavation was not used with formation of embankment. Moreover, under the premise of same clause the excavation was paid [provisionally] at the rate available within the BOQ item "Excavation in foundation of building, bridges and other structures, including dressing, refilling around structure with excavated earth, watering and ramming lead up to one chain (30 m) and lift up to 5 ft. (1.5 m), in ordinary soil" at a BOQ rate of Rs 290 per cu.m.

The reply was not acceptable because as per technical specification 152.1.1 if the excavated material was reused for formation of embankment, the item of excavation shall not be paid separately as mention in the reply, Thus, department was required to recover the excavated rate as Rs 290 per Cu.m.

The matter was discussed in DAC meeting held on 15-16 January, 2024 DAC directed the management of CAA to get the record showing date of execution of item, date of request for test with forwarding letter and test report of UET verified from the Audit.

Audit recommends compliance of DAC's directive.

(DP. 228)

4.4.62 Non-recovery of outstanding dues from airlines and licensees – Rs 60.055 million

Clause 3 (a) of License agreement provides that the licensee shall pay license fee in advance for the current month i.e., on the date of start of the business or possession of the premises is handed over to the licensee. Thereafter, the monthly license fee shall be paid in advance up to 10th of each month to which it relates. If, licensee fails to pay monthly license fee on due date, late payment surcharge thereon @ 5% shall be imposed. According to Clause 3(b) of agreements (standard form) for various licenses/concessions, if the license fee or any part thereof shall be in arrears for one month or more after the same has become due, whether demanded or not, the Airport Manager/Licensor may terminate the license agreement and the licensor or his authorized representatives may upon such termination enter into or upon the premises and take over the same without any right or remedy to the licensee or any obligation to the licensor.

Audit noted that the Airport Manager, Allama Iqbal International Airport, Lahore awarded licenses to different airlines and commercial concessionaries to run their business activities at AIIAP, Lahore.

Audit observed that the Airport Manager, AIIAP, Lahore could not recover CAA dues on account of rent, license fee and other charges from the license holders for the financial year 2022-23.

Audit further observed that actions required under the clauses of the agreements like notices of recovery, imposition of surcharge and termination of license agreements, etc., were also not taken. This resulted in non-recovery of outstanding dues from airlines and licensees of Rs 60.055 million (as per statement provided).

Audit maintains that recovery was not effected due to weak monitoring system and ineffective internal controls.

Audit pointed out non-recovery in July 2023. The Authority replied that an amount of Rs 5.950 million recovered out of Rs 60.064 million. However, efforts are being made for recovery of remaining amount.

The reply of the Authority was not tenable regarding effecting recovery of Rs 5,950,491 until verification.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends recovery of outstanding dues from the concerned Airlines.

(DP. 199)

4.4.63 Irregular/unjustified payment of Special Allowance - Rs 59.867 million

Directions issued vide Finance Division O.M No.F.1 (38)-IMP-II/88, dated 11.07.1988 provide that financial matters including revision of pay and allowances, etc., cannot be decided without prior concurrence of the Finance Division. Further, Ministry of Defense issued instructions vide letter No.11-2/2002-CAA dated 08.03.2007 that financial matters including financial implications particularly, increase in pay and allowances require prior clearance of the Finance Division. It is binding on the Authority to follow directives on the policy matters issued by the Federal Government.

Audit noted during scrutiny of accounts (Trial Balance) of Airport Manager Bacha Khan International Airport CAA Peshawar that an amount of Rs 59,867,196 on account of 20% special allowance was paid to the employees during the financial year 2022-23.

Audit observed that the CAA Management made payment of 20% Special Allowance of running basic pay. The payment of said allowance was made without concurrence of Ministry of Defense as well as Ministry of Finance in violation of codal obligations. This resulted in irregular/unjustified payment of Rs 59,867,196.

Audit maintains that irregularity occurred due to inadequate implementation of financial, administrative and internal controls.

Audit pointed out irregularity in October 2023. The Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends seeking concurrence of special allowance from Finance Division.

(DP. 255)

4.4.64 Overpayment due to measurement of excessive thickness of Granular/ Sand cushion as post bid change - Rs 54.555 million

Approved tender drawing X-Section states that granular material was to be executed as 600 mm.

Approved tender drawing of work 'Reconstruction of Main Runway of AIIAP, Lahore provides that granular material/sand was to be provided as 300 mm.

NHA specification item No 108.3.5 provides that where embankments are to be placed in water logged areas and which are inaccessible to heavy construction equipment, a special working platform shall be first established, consisting of a blanket of fill material placed on top of the soft layer. The material of the working table shall consist of normal or processed granular fill, obtained from borrow excavation. This material shall conform to the following specifications:

Percentage of Weight Passing: 100%

Sieve Description: Mesh Sieve, AASHTO T-27, 3 inch (75 mm)

108-4, The thickness of the working table as prescribed above shall be approximately 0.5 meter (500mm) unless directed otherwise by the Engineer, and the width shall be that of the embankment. The placement and compaction of the working table shall be carried out by use of light equipment, as directed by the Engineer.

Audit noted that Planning & Development Pakistan Civil Aviation Authority, Headquarters Karachi awarded a work, "Construction of Greenfield Aerodrome for General Aviation Activities at Muridke, at agreement cost Rs 1,784,623,902 to M/s Shaanxi Construction Engineering Group Corp Ltd- Umer Jan & Co. (JV) on 26.10.2021. Total value of work done was paid Rs 1,188,554,778 excluding escalation amount Rs 224,461,635 up to IPC 10. Time was allowed 12 months from the date of start.

Audit observed that the Project Director measured and paid sand cushion as granular material for a quantity 85,242 Cu.m @ 1,600 per Cu.m for Rs 136,387,908 up to IPC 10 for Sub Head Main Runway after taking thickness 1,000 mm instead of 600 mm in violation of tender drawing approved by P&D CAA, NHA specification and also violation of already approved project Reconstruction of Main Runway Lahore Airport.

Audit is of the view that the contractor quoted the high rate for granular material, subsequently the contractor executed the sand cushion which was cheap item and increased the thickness of sand for higher profit. This has resulted in overpayment of Rs 54,555,589 (85,242 Cu.m/ 1,000 mm x 600mm-85,242 @ Rs 1,600) due to measurement of excessive thickness of Granular/ Sand cushion as post bid change.

Audit maintained that overpayment was made due to violation of specifications and weak financial controls.

Audit pointed out the overpayment in July 2023. The Authority replied that the project was being carried out as per Project Technical Specifications and not as per NHA Specifications. Granular Backfill Material (Sand) was used as filter layer. Since the Project was located in paddy cultivation area, this thickness was AASHTO compliant. A good comparison is Lahore-Sialkot motorway and Muridke-Narowal road. Lahore-Sialkot Motorway is doing well because of additional sand layer but Muridke-Narowal is in tatter because of its absence. As highlighted by Audit the granular material pad shall conform to specification of 100% passing 3 inch [75mm] sieve , the sand used for this purpose conformed to this specification over and above to Item P-152 of Technical Specification sub-part 152.1.4 – For Sand cushion payment shall be made at the contract unit price per cubic meter.

The reply of the Authority was not acceptable because the engineer can allow the variation in quantity with minor percentage but cannot change the thickness without construction requirement because technical sanctioned estimate was approved by competent forum with 600 mm thickness of sand and also in a similar nature work construction of Lahore Main runway also utilized less thickness than Muridke project.

The matter was discussed in DAC meeting held on 15-16 January, 2024. DAC directed the management of CAA to conduct a Fact Finding inquiry at departmental level in the highlighted matter and report be shared with Audit through PAO.

Audit recommends review of the changed specification by the competent forum through investigation in the light of DAC's directive, and early recovery of overpaid amount under verification to Audit

(DP. 230)

4.4.65 Non-recovery of dues from occupants of CAA residential accommodations - Rs 53.422 million

Pakistan Aviation Authority Ordinance 2021 Para 5(g) defines the power of the authority to, 'operate, manage and maintain airports and aerodromes in an efficient and businesslike manner including provision of airport services and facilities such as—(viii) services and facilities for the operation of customs, immigration, narcotics control, public health and quarantine checks and control.' During scrutiny of the accounts of APM Jinnah International Airport Karachi for the financial year 2022-23, Audit noted that an amount of Rs 53,421,663 was outstanding/ recoverable from occupants of CAA accommodations at Jinnah International Airport, Karachi on account of water charges, house rent, electricity charges and repair maintenance charges.

Audit observed that most of the defaulters were from different departments like Customs, Metrological department, ASF, Health, etc. but the matter of recovery of dues was not taken up with the concerned departments despite accumulation of dues. This resulted in non-recovery of dues of Rs 53.422 million from occupants of CAA residential accommodations.

Audit maintained that dues were accumulated due to weak financial controls.

Audit pointed out the matter in November 2023. The Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends investigation for fixing of responsibility besides early recovery of dues under intimation to Audit.

(DP. 307)

4.4.66 Unauthentic provision of facilities by the Concessionaire of Common Use Passenger Processing System and Baggage Reconciliation System - Rs 252.700 million

Clause 4.12.3 of concession agreement for Deployment, Operations and Maintenance of CUPPS & BRS facility at PCAA airports (Islamabad International Airport, Jinnah International Airport Karachi, Allama Iqbal International Airport, Lahore, Bacha Khan International Airport, Peshawar, Multan, Faisalabad, Quetta International Airports) with M/s Reliance Aviation Tech Services Pvt. Ltd. (RATSPL), the licensee was required to furnish performance guarantee from AA+ rating scheduled bank for USD 75,000 valid up to 60 days after expiry of the term of the contract. As per clause 4.16, the licensee was to be penalized up to 10% of the monthly charges for default as explained in clause 4.16.2.

The services are provided to CAA stakeholders (i.e., airlines and GHAs) under the Operating Regulations issued by CAA against a specified per passenger service charge USD 1.25 per departing passenger excluding transit passengers, USD 0.625 per transit passenger. The Airport Managers on periodical basis will provide a Performance Appraisal Report for deployment and thereafter a service levels appraisal report as per Appendix-6 during the term.

Audit noted that CAA executed the agreement on 01.02.2019 for five years from the date of commencement. As per scope of the agreement for Deployment, Operations and Maintenance of CUPPS & BRS facility at PCAA airports, CAA is procuring services from, M/s Reliance Aviation Tech Services Pvt. Ltd. (RATSPL) against which CAA pays the following quoted per passenger charge to M/s Reliance Aviation Tech Services Pvt. Ltd., USD 0.66 per departing passenger excluding transit passengers, USD 0.33 per transit passenger.

During scrutiny of the accounts of APM Jinnah International Airport Karachi for the financial year 2022-23, Audit noted that the contract was in operation at the Airport.

Audit observed that the Airport Managers did not provide on periodical basis a Performance Appraisal Report for deployment and thereafter a service levels appraisal report. No penalty during the period under audit was imposed/recovered from the licensee. There is no evidence/certification on record that the licensee provided equipment valuing App Rs 252.700 million (**Annexure-AF**) as per BOQ.

Audit pointed out the matter in November 2023. The Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends investigation for fixing of responsibility, besides taking corrective action under intimation to Audit.

(DP. 306)

4.4.67 Irregular award of works in violation of the Public Procurement Rules - Rs 344.764 million

Rule-9 of the Public Procurement Rules, 2004 provides that save as otherwise provided and subject to the regulation made by the Authority, with the prior approval of the Federal Government, a procuring agency shall announce in an appropriate manner all proposed procurements for each financial year and shall proceed accordingly without any splitting or regrouping of the procurements so planned. The annual requirements thus determined would be advertised in advance on the Authority's website as well as on the website of the procuring agency in case the procuring agency has its own website.

Rules 29 (Evaluation criteria), states that procuring agencies shall formulate an appropriate evaluation criterion listing all the relevant information against which a bid is to be evaluated. Such evaluation criteria shall form an integral part of the bidding documents. Failure to provide for an unambiguous evaluation criterion in the bidding documents shall amount to mis-procurement

A. Airport Manager IIAP, CAA, Islamabad procured stationery items, tonners, general items for Airport Services (APS), for general use and E&M Items for Rs 31.352 million and civil material such as

paints, tiles, etc., for Rs 19.335 million through stereotype piece meal work orders awarded to selected suppliers mostly on the same dates, through quotations, keeping each work order below Rs 200,000 restricting the estimates within the competency of the Airport Manager, instead of a consolidated estimate awarded through open competition to achieve competitive/economical rates which was violation of the Public Procurement Rules. This resulted in irregular expenditure of Rs 50.687 million. (DP. 414)

B. During scrutiny of accounts of Airport Manager, Faisalabad International Airport, CAA, for the year 2022-23, Audit observed the following:

Service Level Contract agreement (SLA) for “Janitorial & Cleaning Services at Faisalabad International Airport was awarded to M/s OPL for annual cost of Rs 152.249 million 54.91% above the estimated cost. The bid of the same contractor was rejected previously of Rs 115.31 million being on higher side. (DP. 145)

Service Level Agreement (SLA) for “Repair & Maintenance of Civil work / facilities at Faisalabad International Airport” to M/s Sarmik (Pvt) Ltd., for annual cost of Rs 33.854 million who was disqualified in tendering process due to non-compliance of conditions of tender documents. (DP. 146)

Service Level Agreement (SLA) for operations & maintenance of E/M & motor transport facilities at Faisalabad Airport to was awarded to M/s IMCOTS Wullar (JV) at a cost worth Rs 92.928 million who got 10 out of 20 marks in technical evaluation. (DP. 149)

APM Faisalabad executed various repair and maintenance works through quotations/splitting worth Rs 15.046 million during 2022-23. (DP. 151)

This resulted in irregular award of works for Rs 344.764 million (Rs 50.687 million + Rs 294.077 million).

Audit maintains that the irregularity occurred due to violation of rules.

Audit pointed out the irregularity in September and December 2023. The Authority replied in DP. 146 and 149 that the bid in both contracts was favourable to CAA with reference to estimated cost. The approval for award was sought from CAA HQ. In DP. 151 and 414 the Authority replied that approval of Airport Manager was obtained for award of petty works being the competent authority.

The reply was not accepted because the work was awarded to the firm disqualified during bid evaluation. The Service Level Agreements were awarded to ineligible and incompetent contractors. Works were awarded through quotations/splitting to avoid tendering against the rules.

Audit recommends investigation into the matter and action against those responsible for violation of rules besides ensuring non-occurrence of such irregularities in future.

(DP. 145,146,149, 151&414)

4.4.68 Doubtful expenditure on account of purchase of land and building - Rs 46.429 million

The land acquisition Act, 1894 states that pursuant to a notice given under section 9 to the measurements made under section 8, and into the value of the land, and into the respective interests of the persons claiming the compensation and shall make an award under his hand of the true area of the land and the compensation which in his opinion should be allowed for the land.

Project Director, New Gwadar International Airport Project, Civil Aviation Authority, for the financial year 2022-23, it was noted that expenditure of Rs 46,429,454 was made for purchase of land and building.

Audit observed that accounts i.e., registry, complete file of purchase of land and building was not forthcoming from the record produced to Audit. In the absence of such an important record, the expenditure incurred stands doubtful. This resulted in doubtful expenditure of Rs 46.429 million on account of purchase of land and building.

Audit maintains that the irregularity occurred due to inadequate mechanism weak financial/internal control.

Audit pointed out doubtful expenditure in September 2023. The Authority replied that the land for the construction of desalination was purchased from the DC Office, Gwadar. The demarcation of the land has been completed at the site jointly by all stakeholders. The payment for the purchase of land was made to the Deputy Commissioner's Office, Gwadar as per estimate. The mutation of the land is under process in the DC office and as soon as the mutation is completed the record will be verified to audit.

The reply was not tenable as the land purchased had not been mutated in the name of CAA.

The matter was discussed in DAC meeting held on 15-16 January, 2024. DAC directed the management of CAA to expedite the process of mutation and develop the SOPs on the analogy of NHA if do not exist in CAA.

Audit recommends that record of land purchased may be mutated in the name of CAA, besides maintaining/updating the land record under intimation to audit.

(DP. 240)

4.4.69 Overpayment due to acceptance of higher rate of Granular/sand cushion - Rs 43.558 million

According to accepted and quoted rate by contractor of sand cushion for the work Reconstruction of Main Runway of AIIAP Lahore granular material/sand was provided as 300 mm @ Rs 990 per Cu.m.

According to NHA specification item No 108.3.5 where embankments are to be placed in water logged areas and which are inaccessible to heavy construction equipment, a special working platform shall be first established, consisting of a blanket of fill material placed on top of the soft layer. The material of the working table shall consist of normal or processed granular fill, obtained from borrow excavation.

Item 108-4 provides that the thickness of the working table as prescribed above shall be approximately 0.5 meter (500mm) unless directed otherwise by the Engineer, and the width shall be that of the embankment. The placement and compaction of the working table shall be carried out by use of light equipment, as directed by the Engineer.

Audit noted that Planning & Development Pakistan Civil Aviation Authority, Headquarters Karachi awarded a work, "Construction of Greenfield Aerodrome for General Aviation Activities at Muridke, at agreement cost of Rs 1,784.623 million to M/s Shaanxi Construction Engineering Group Corp Ltd- Umer Jan & Co. (JV) on 26.10.2021. Total value of work done for Rs 1,188.554 million excluding escalation amount Rs 224.461 million was paid up to IPC 10. Time was allowed 12 months from the date of start.

Audit observed that the Project Director measured and paid sand cushion as granular material quantity 85,242 Cu.m @ 1,600 per Cum for Rs 136,387,908 up to IPC 10 for Sub Head Main

runway. Audit further observed that the CAA has already been accepted and paid the rate of Sand cushion as Rs 990 per cum for the same nature of project (Reconstruction of Main Runway of AllAP Lahore) which was awarded in August 2020 and still in progress. While the project of Construction of Greenfield Aerodrome for General Aviation Activities at Muridke was also under the preview of Lahore Airport awarded on October 2021 after 01 year. Therefore the authority was required to accept the rate of sand cushion as Rs 1,089 per cum (990+10% premium approximately) instead of 1,600 per cum because both estimates are based on NHA specification & NHA CSR 2014. This shows that the department preferred the undue benefit to the contractor and paid non rationalized rate. This has resulted in overpayment of Rs 43,558,662 (85,242 cum 1600-1089) due to acceptance of higher rate of sand cushion.

Audit maintained that overpayment was made due to violation of specification and weak financial system of CAA.

Audit pointed out overpayment in July 2023. The authority replied that Project was being executed as per Project Technical Specifications and not as per NHA Specifications. The “granular backfill” item was available amid BOQ. The estimates for project were extracted from NHA CSRs. As per NHA CSR 2014 the rates for item 107d granular backfill for Lahore was Rs 1,732.70 therefore, the rates of Rs 1,600 per cu.m was accepted and paid under GCC 60.2 & 60.10.

The reply of the Authority was not acceptable because the same item was provided and paid in the BOQ of allied work Reconstruction of Main Runway of AllAP Lahore @ Rs 990 per Cu.m. Therefore allowing higher rate in the same nature of work was inadmissible.

The matter was discussed in DAC meeting held on 15-16 January, 2024. DAC directed the management of CAA to conduct a Fact Finding inquiry at departmental level in the highlighted matter and report be shared with Audit through PAO.

Audit recommends compliance of DAC’s directive.

(DP. 231)

4.4.70 Overpayment due to execution of item of works in excess of the approved quantities - Rs 41.527 million

According to Para 56 of CPWD Code, a properly detailed estimate must be prepared for the sanction of competent authority. This sanction is known as technical sanction to the estimate. As its name indicates it amount to no more than a guarantee that the proposal is structurally sound and that the estimate is accurately calculated and based on the adequate data.

Audit noted Project Director, New Gwadar International Airport Project CAA that the work “Power Supply System along Fence, Security Control & Monitoring System and Watch Tower (Package-I)” was awarded to M/s Qavi Engineers (Pvt) Ltd vide acceptance letter dated 20.06.2022 at a bid cost of Rs 2,299,616,940 and total gross payment of Rs 1,050.147 million was made to the contractor up to IPC-06 date 19.06.2023.

Audit observed that some items under the sub head Electrical work were measured in excess of the BOQ quantities between the range of 2% to 180 % more than the approved quantity of BOQ. This also indicates that technically sanctioned estimate was not structurally sound and based on inadequate data. This resulted in overpayment of Rs 41.527 million.

Audit holds that abnormal increase in the quantities was due to failure of internal control.

Audit pointed out overpayment in September 2023. The Authority replied that the quantities of BOQs are estimated and need detailed deliberations at the site after checking levels/measurements at the site. The net quantities measured at the site for both Packages are only paid to the contractor after getting them measured/verified by the consultant. The overall financial impact of Contract Price would be ascertained/ reviewed further under contractual provisions right at the time of submission of “Statement at Completion” by the contractor including variations.

The reply of the authority was not tenable as the items of the sub head electrical have been enhanced up to 180% of the BOQ quantities without any approval of variation order.

The matter was discussed in DAC meeting held on 15-16 January, 2024. After detailed deliberation, the DAC directed the management of CAA to share details of quantities of items with type, provision of BOQ and actual executed along with certificate of Engineer regarding execution as per site requirement to PAO for decision.

Audit recommends that the excess payment may either be justified/approved or recovered.

(DP. 242)

4.4.71 Irregular payment on account of rent of CAA accommodation in contradiction to the fundamental rules - Rs 34.068 million

Directions issued vide O.M No.F.1 (38)-IMP-II/88, dated 11.07.1988, financial matters including revision of pay and allowances, etc., cannot be decided without prior concurrence of the Finance Division. Further, Ministry of Defense issued instructions vide letter No.11-2/2002-CAA dated 08.03.2007 that financial matters including financial implications particularly, increase in pay and allowances require prior clearance of the Finance Division. It is binding on the Authority to follow directives on the policy matters issued by the Federal Government under section of Civil Aviation Authority Ordinance 1982.

During audit of the accounts of Human Resources Directorate, CAA Karachi, it was noted that CAA Executive Committee in its 304th meeting held on 17.07.2019 approved standard rent of all CAA residential accommodation for CAA employees at the rate of 50% of running House Rent Allowance plus 5% maintenance charges with immediate effect as per their entitlement of category of accommodation. Accordingly, House Rent of CAA Accommodation was paid to the employees of CAA during the year 2022-23 to the extent of Rs 34,067,796 under head 5101288 – House Rent CAA Accommodation.

Audit observed that according to CAA Service Regulations 2014 (Revised-2019), the approving authority to amendments in HRA and others allowances, was CAA Board. Therefore, payment of standard rent at the rate of 50% of running House Rent Allowance plus 5% maintenance require prior approval of the CAA Board. Further, as per Fundamental Rule-45 and 45-A, the allottee of Government accommodation will pay only normal rent at the rate of 5% of the emoluments whereas, the Authority paid 50% of the House Rent Allowance to the allottees of CAA accommodation which was against the fundamental rules. This resulted in irregular payment of Rs 34.068 million on account of rent of CAA accommodation in contradiction to the fundamental rules.

The matter was also discussed against Para 4.4.19/AR 2021-22 in the DAC meeting held on 03-05.01.2022 wherein DAC directed CAA to review the accommodation policy and recommendations be presented to CAA Board for subsequent concurrence of the Finance Division, Government of Pakistan. No progress towards compliance of DAC decision was made by CAA.

Audit pointed out the matter in November 2023. The Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that the matter may be taken up with the Finance Division for effect recovery of house rent from the employees who are in occupation of official residences.

Note: The issue was also reported earlier in the Audit Report for Audit Year 2021-22 vide para number 4.4.19 having a financial impact of Rs 56.148 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 313)

4.4.72 Overpayment to the contractor due to execution of non-BOQ item - Rs 33.840 million

CPWD code Rule 65 states that, ‘When the expenditure upon a work exceeds, or is found likely to exceed, the amount administratively approved for it by more than 10 per cent., or the limit prescribed in paragraphs 60 and 61, whichever is less, a revised administrative approval must be obtained from the authority competent to approve the cost, as so enhanced’

Rule 229 states that, ‘An advance payment for work actually executed may be made on the certificate of a responsible officer (not below the rank of Sub divisional Officer) to the effect that not less than the quantity of work paid for has actually been done, and the officer granting such a certificate will be held personally responsible for any overpayment which may occur on the work in consequence.’

Audit noted that CAA HQ awarded a work “Reconstruction & Up-gradation of Main Runway (18L/36R) at Allama Iqbal International Airport (AIIAP) Lahore” to M/s China Civil Engineering Construction Corporation (CCECC)–MATRACON Pakistan (Pvt.) Ltd. – Habib Construction Services (JV) at an agreement cost of Rs 6.450 millionmillion vide acceptance letter dated 07.08.2020 with completion period of 455 days. An amount of Rs 6,872.170 million was paid to the contractor up to 27th IPC.

Audit observed that as per agreement/BOQ of the project S. No. 14 “UPVC pipes and conduits for different cables for taxiway, runway, runway centerline and side row, etc., complete in all respects with all accessories” was provided for Rs 25.762 millionagainst which the Authority got executed and paid the work for Rs 28.145 million.

Audit further observed that the Authority measured and paid a non-BOQ item “providing and installation of UPVC cable ducts for main runway and taxiway crossing complete in all respects as per drawings” with a quantity of 12,538.152 linear meter @ Rs 2,699 per linear meter for Rs 33.840 million.

Audit is of the view that in presence of same item of work in estimate/BOQ there was no need for the Authority to get execute and pay a non- BOQ item. This resulted in overpayment of Rs 33.840 million to contractor due to execution of non-BOQ item.

Audit pointed out the overpayment during July-August 2023. The Authority replied that the shop drawings were issued by the engineer for AFL cable ducts across the main runway and taxiways. This varied item consists of multiple UPVC pipes and was not available in BOQ as per its drawing and requirement. Hence this non-BOQ item has been determined by the Engineer in accordance with clause 51.1 of GCC and its rate has been evaluated under clause 52.1.

The reply was not tenable. Execution of non-BOQ item in the presence of BOQ items without approval of rates was unjustified.

Audit holds that the overpayment to contractor was due to weak technical and internal controls.

The matter was discussed in DAC meeting held on 15-16 January, 2024 CAA explained that non-BOQ item UPVC pipes were required by the Engineer and varied item was paid on provisional rates till approval of the employer. However, non-BOQ item had been deducted finally. After detailed deliberation DAC directed CAA to provide record regarding final adjustment to Audit for verification.

Audit recommends compliance of DAC’s directive.

(DP. 184)

4.4.73 Unauthentic payment due to execution of below specification work - Rs 31.00 million

According to technical specification of item P-605 provided in BOQ, about joint sealing filler, the each shipment of lubricant shall be delivered to the jobsite in the manufacturer’s original sealed container. Each container shall be marked with the manufacturer’s name, batch or lot number and the date of manufacture and with certificate that the lubricant will meet the requirements. The compound shall be applied by means of pressure equipment that will force the sealing material to the bottom of the joint and

completely fill the joint without spilling the material on surface. For execution of work the joint sealants material must be of good quality.

Audit noted that CAA HQ awarded a work “Reconstruction & Up-gradation of Main Runway (18L/36R) at Allama Iqbal International Airport (AIIAP) Lahore” to M/s China Civil Engineering Construction Corporation (CCECC)-Matracon Pakistan (Pvt.) Ltd.-Habib Construction Services (JV) at an agreement cost of Rs 6,450.568 million vide acceptance letter dated 07.08.2020 with completion period of 455 days. An amount of Rs 6,872.170 million was paid to contractor up to 27th IPC.

Audit observed that the Project Director measured and paid a composite BOQ item P-501 “Portland cement concrete pavement (700 psi flexural strength with all kinds of joint including dowel bar, sealant, cutting filling, etc.) as per drawing and as directed by engineer incharge” to contractor for main runway, taxiway, curve improvement and for turn pad. The item also includes the execution of joint sealing in concrete work (rate of Rs 1,550 per linear meter was provided in BOQ for existing concrete).

Audit further observed that as per Director P&D letter dated 22.02.2022 regarding site visit that locally blended material of joint sealant was used with tin cans/pots and without specific machinery against specifications and authority directed that all payments in this regard be withheld. As per punch list revised on 16.03.2023, the list contained several observations for joint sealant issues.

Audit holds that as the said item was executed in shape of composite item so the quantity was needed to be taken for non-payment as per authority directions as 20,000 LM approx. from total quantity of item P-501. Non-following the directions of the Authority resulted in unauthentic payment for substandard work of Rs 31,000,000 (Rs 20,000 x 1,550).

Audit pointed out unauthentic payment during July-August, 2023. The Authority replied that the execution of joint sealant has been carried out strictly in accordance with drawings, technical specification and standards. Further, the contractor was liable to remedying defects which may arise during the defect liability period to the satisfaction of the engineer.

The reply was irrelevant. No action in the light of Director Planning and Development directive was initiated against the contractor and the engineer.

Audit holds that the irregularity was due to weak technical and internal controls.

DAC in its meeting held on 15-16 January, 2024 pended the para for discussion in next meeting with direction to CAA that detailed reply explaining technical aspects be provided to Audit for evaluation.

Audit recommends that action may be taken in the light of Director P&D under verification to Audit.

(DP. 178)

4.4.74 Non-concurrence of Finance Division prior to revision in pay packages and pension

Finance Division (Regulations Wing) letter No. F.4 (3) R-4/2011-Revision dated 31.10.2022 provides that no Division shall without previous consultation with the Finance Division, is authorized to issue any orders which will involve a change in the terms & conditions of service of Government servants, on their statutory rights and privileges, which have financial implications.

During audit of Human Resources Directorate, Civil Aviation Authority, (HQ) Karachi, Audit noted that Director Human Resource issued Admin Order No. 22/2022 dated 29.08.2022 with the approval of the DGPCAA to increase in net pension to PCAA pensioners who have retired/died till 30.06.2014 as below:

10% increase in pension w.e.f 01.07.2021

15% Increases in Pension w.e.f 01.07.2022 (after including the effect of 10% increases in pension w.e.f 01.07.2021

The above increases in pension will not be applicable to pensioners governed under PCAA Service Regulations 2014. DGPCAA also directed to release the pension of the PCAA employees, who have been retired on or after 01.07.2022 by deducting the previous increases as per Federal Government of Pakistan, Finance Division (Regulation Wing) Islamabad O.M dated 01.07.2022.

Audit observed that the Authority implemented the Federal Government notified rates of increases in pensions rates @ 15% during the year 2011, @ 7.55% during 2015 and @ 10% each during the year's 2016, 2017, 2018 and 2019 and ceases to exit (02) increases in pension for the years 2021 and 2022 although no increases in Pay & Allowances was made by the Authority during the last two years i.e., 2021 & 2022 which deprived the retired employees from such increases made by Federal Government. PCAA separate policy for pension was not forthcoming from the record. Audit holds that the act of stoppage of ibid four increments to the employees retired on or after

01.07.2022 and allowing two increments w.e.f 01.07.2021 and 01.07.2022 on net pension to PCAA pensioners who have retired/died till 30.06.2014 creates apprehension among the retired employees and also creates windows for litigation.

Audit further observed from Admin Order No.22/2022 issued on 29.08.2022 that DGCAA has sanctioned 10% increase in pension w.e.f. 01.07.2021 and 15% increase in pension w.e.f. 01.07.22 (after including the effect of 10% increase in pension w.e.f. 01.07.2021) but till date, concurrence of Ministry of Finance has not been obtained.

Similarly, PCAA Board in its 191st meeting held on 25.03.2022 approved the special pay & package for the Director Flight Standards (EG-09) and Flight Inspectors (EG-07) as under but the same was not forwarded to Finance Division for concurrence.

Position	Proposed Lump Sum Monthly Packages (Rs)
Director Flight Standards	1,400,000
Flight Inspectors	1,200,000
Flight Operations Inspector- General Aviation	750,000
Flight Inspector (Helicopter)	650,000

This resulted in irregular increase in pension and approval of special pay & package without concurrence of Ministry of Finance.

Audit is of the view that non-consultation with Finance Division prior to revision of pension and approval of special pay & packages as described above stands irregular.

Audit pointed out the irregularity in June & October 2023. The Authority replied that the management applied the Federal Government Pension Rules/ Regulations mutatis mutandis through its Service Regulations, 2000 and accordingly PCAA Employee's pension had been revised/ increased with the Federal Government increase in pension.

PCAA has been making payment of pension to pensioners who have retired after 01.07.2022 on provisional basis by withholding the previous five increases on analogy of Federal Govt. Final adjustment will be made in line with the decision of PCAA Board with regard to pension increase.

With respect to the Authority of PCAA Board, it is pertinent to mention here that the matter of Authority and Autonomy of PCAA Board has been discussed in PCAA Board's 187th Meeting held on 23.06.2021 wherein Additional Secretary Finance Division was also present as Board Member. The Board unanimously agreed that considering the interpretation of PCAA Ordinance 1982 by the Ministry of Law and Justice of April 2009 as well as the advice of Finance Division (Regulations Wing) of December 2011, the PCAA Board is fully competent to approve and implement the revision of pay scales and allowances of PCAA employees and does not require concurrence of Federal Government/ Finance Division.

The reply was not accepted because as per Finance Division regulations referred above, implementation of any change in pay & allowances as well as pension requires the prior approval of Federal Government.

The matter was discussed in DAC meeting held on 15-16 January, 2024. After detailed deliberation, the DAC directed that a comprehensive report be compiled and submitted on the matter based on:

Aviation Ministry inquiry
Court order
Senate Standing Committee directions

Audit recommends that the matter may be referred to Ministry of Finance for regularization.
(DP. 130, 140, 289)

4.4.75 Non-mutation of 2,409.94 acres of land in the name of Authority

Additional Director (Estates & Land Record) is responsible to provide adequate land for the purpose of airport, etc., he must ensure that the land is secure, mutated in the name of CAA, and free of litigation. In order to perform his duties, he must ensure proper acquisition of land as per Land Acquisition Act, 1894 or otherwise ensure proper processing of purchase of land through private negotiation. He must ensure, through his representatives, that there is no encroachment of CAA land.

Audit noted that Commercial and Estate Directorate, (HQ) Civil Aviation Authority, Karachi land measuring 25,573.12 acres is under the possession of Authority all over the Pakistan as evident from the details provided by the Estate Branch.

Audit observed that out of total land of 25,573.12 acres an area of land measuring 2,409.94 acres was not mutated in the name of Civil Aviation Authority till to date.

Audit holds that due to non-mutation of land the Authority compromise the risk of encroachment and litigations. This resulted in non-mutation of land measuring 2,409.94 acres in violation of rules and procedure.

Audit maintains that irregularity occurred due to weak internal controls.

Audit pointed out the non-mutation of land in December 2023. The Authority replied in DP. 301 that land measuring 4,072 kanals and 13 Marlas at Islamabad Airport had been mutated in the name of the authority. CAA was actively pursuing the case of transfer/mutation of remaining land measuring 1,075 kanals and 15 Marlas with Assistant Commissioner Fatehjang and progress regarding the same would be shared with Audit. In DP. 78, the Authority replied that the matter had been referred to HR Directorate, CAA for formulation of committee to deliberate/assess land requirement of Hyderabad Airport for operational or any other purpose. In other cases (DP. 6, 32, 202 and 385), the Authority did not reply.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 28.08.2023, 18.09.2023, 03.10.2023, 20.10.2023, 06.11.2023, 05.12.2023, 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that land measuring 2,409.94 acres may be mutated in the name of authority without wastage of time under intimation to Audit besides fixing responsibility upon the persons for such negligence.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2020-21, 2021-22 and 2022-23 vide para numbers 4.5.7 (2020-21), 4.4.3 (2021-22) and 4.4.49 (2022-23) having a financial impact of Rs 6,499.31 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 6, 32, 78, 202, 301 & 385)

4.4.76 Non-computerization of land record measuring 25,573.12 acres

As per amendment of Section 55 of Sindh Act No. XVII of 1967, in the said Act, in section 55, in sub-section (1), after clause (e), the following shall be added:

“(f) prescribing the forms of computerized record of rights including documents, records, data, information, communications, transactions, reports and maps in electronic, digital or computerized form.”

“Master plan & layout plan” means the approved scaled drawing of the airport, indicating current and proposed land use for each identifiable segment as approved and/or modified by the Authority from time to time;

Audit noted that Commercial and Estate Directorate, (HQ) Civil Aviation Authority, Karachi land measuring 25,573.12 acres is under possession of Pakistan Civil Aviation Authority all over the Pakistan as evident from the details provided by the Estate Branch.

Audit observed that out of the land measuring 25,573.12 acres some land was leased out to various concessioners for commercial purposes. Besides this, computerized record of rights including documents, records, data, information, communications, transactions, reports and maps in electronic, digital or computerized form has not been maintained in line with the Government policy. Moreover, "Master plan & layout plan" the approved scaled drawing of the airport, indicating current and proposed land use for each identifiable segment as approved and/or modified by the Authority from time to time also not prepared. In the absence of such an essential record, the Authority is unable to control over the encroachments and making master plan for commercialization of unattended land at the various airports for generation of non-aeronautical revenue.

Audit holds that non-adherence of the rules resulted in non-computerization of land record measuring 25,573.12 acres.

Audit pointed out the non-computerization of land in December 2023, but the Authority did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends that the Authority may adopt early measures to computerize the land record to ascertained factual status of the land for commercial purposes as well as actual area of land leased out to the concessionaires.

(DP. 386)

4.4.77 In-adequate mechanism for handling of cargo at the airports as well as inconvenience for the ground handling agents

Para 4.1.3 (National Aviation Policy 2023) Development of Cargo Village Facilities defines as under:

PCAA and Pakistan Aviation Authority (PAA) shall institute measures for development of modern cargo villages for efficient and quick transit of cargo, comprising the following:

A single-window clearing mechanism.

Warehousing facilities having automated storage and retrieval systems.

Offices for air services operators, freight forwarders, Customs, Government and regulatory bodies, ground-handling agents, insurance and banking Facilities.

Points for multi-modal transport, cold storage centers, mechanized transport of cargo, dedicated express cargo terminals with airside and landside openings.

Para A1 (Civil Aviation Authority Land Lease Policy 2019) explains that PCAA has been established to promote and regulate the civil aviation activities and to develop airport infrastructure within Pakistan to ensure safe, efficient, adequate, economical and properly coordinated air transport services. Airports owned and controlled by PCAA are mostly sited in cities, which are hub of diversified commercial activities. It is vital to effectively utilize PCAA land to achieve sustainable economic development, up gradation of aviation services, adoption of upcoming aviation technologies, etc.

PCAA is obligated under law to generate revenue to meet its increasing requirements of infrastructure development, maintenance, operational cost and management cost, etc. This Policy will encourage private sector participation for optimum commercial exploitation of landside at airports as per the approved airport plans with an assurance that such exploitation shall not adversely affect future airport infrastructure developments such as Cargo Village, etc.

Audit noted that Commercial and Estate Directorate, (HQ) Civil Aviation Authority, Karachi National Aviation Policy stipulates promotion of import and export through air cargo village facilities.

Audit observed that Air cargo village facilities have not been established by PCAA at the international airports which are hub of diversified commercial activities so far despite the facts that the National Aviation Policy 2019 & 2023 repeatedly emphasized for development of modern cargo villages for efficient and quick transit of cargo.

Audit holds that non-adherence of National Aviation Policies resulted in inadequate mechanism for handling of cargo at the airports as well as inconvenience for the ground handling agents.

Audit pointed out the irregularity in December 2023 but the Authority did not reply.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends that effective measures may be initiated to develop the modern cargo villages in line with the NAP-2023.

(DP. 395)

4.4.78 Unjustified delay in re-construction of runway for active flight operation

As per PC-I for reconstruction of runway at Jinnah International Airport (JIAP) Karachi, approved by CAA Board on 25.03.2022 for Rs 6,535.000 million, the airside infrastructure of JIAP requires to be improved. The existing secondary runway was in operation since 1961 and exceeded its design life. Being of vital importance the project was included in Annual Development Plan of CAA for the year 2022-22.

During scrutiny of the record of Director Planning & Development, CAA, Karachi, Audit observed that despite being a vital project, the execution was still not started in the financial year 2022-23.

Audit maintains that the runway which was operational even after expiry of its design life was not given priority of execution despite approval of PC-I and allocation of funds.

Audit is of the view that if timely action for re-construction (07L/25R) was taken, the Authority could save undue financial losses but also ensure availability of runway for sustained aircraft operations at JIAP for the next 25-30 years but shall also cater forecast traffic growth with for domestic and international flight operation.

Audit pointed out irregularity in August 2023. The Authority replied that design life and actual structural life of the pavement may change if the baseline assumptions changed during the operation. There are no operational losses to PCAA at JIAP since both runways are operational without any capacity constraints. The CAA Board in its 191st meeting held on 25.03.2022 approved PC-I for Rs 6,535.000 million and currently after successful bidding the contract negotiations are underway.

The reply was not acceptable. The life of airport pavements is an important matter which was not taken into account in letter and spirit. The execution of the project was still awaited.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that the matter may be taken up with Federal Aviation Administration (FAA), being international pavement structural specialists, for endorsing the stance of the Authority, besides concrete measures may be taken to take up the project execution at the earliest

(DP. 375)

4.4.79 Loss to Authority due to non-utilization of 37 kanal land acquired by the CAA millions of Rupees

The Objective of the Civil Aviation Land Lease Policy, 2019 states that, 'PCAA felt the need to revise the existing land lease in light of vision of the National Aviation Policy to maintain financial self-sufficiency by revenue generation from land use'

Audit noted that as per detail of land provided by Estate Branch of Airport Manager (BKIAP) Peshawar, that 37 kanal land situated in Sector C-1, C-3 at Hayatabad Phase-V Peshawar were laying vacant and unutilized since its acquisition from 1986.

Audit observed that authority paid huge amount for acquisition of land in 1986 but the subject land still lying vacant without any utilization. It was further observed through inspection report prepared by the Superintendent Estate Peshawar Airport that some individuals/ encroachers running the commercial activities on said vacant space and earning the revenue without permission of CAA.

Moreover, Chief Operating Officer had also written letters in 2021 and 2023 with inputs that some residential accommodations may be constructed for officers and staff to facilitate the CAA employees but no action was initiated by the Authority.

Audit is of the view that subject land was lying vacant in posh area because Hayatabad Phase-V was established and fully developed area and the land of CAA have very importance in the area. The department was required to construct the Married officers' quarters and Bachelor officers' quarters to save the House rent allowance /Hiring allowance or leased out the subject land to private parties to run the business and generate the CAA revenue. But the department left the land vacant. This resulted in loss of millions of Rupees to Authority due to non-utilization of 37 kanal.

Audit maintains that loss occurred due to weak internal and financial control system of CAA.

Audit pointed out loss in October 2023. The Authority replied that this office had already taken up the case with HQCAA for utilization of 37 acres of land located at phase VI Hayatabad Peshawar as pointed out by Audit Authorities for establishment of Married Officer Quarters (MOQs), Bachelor Officer Quarters (BOQs), Guest House, Community Centre and other amenities and facilities. In addition to this other viable options are also under consideration for utilization of said vacant land. The decision is still awaited from HQCAA, upon receipt of the decision/ outcome, Audit Authorities would be apprised accordingly.

The contention of the department was not acceptable because no solid steps were taken by the management for utilization of land while private peoples are utilizing the land for commercial purpose.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 08.12.2023, 19.12.2023 and 28.12.2023.

Audit recommends that authority should take concrete steps to save the CAA land and start the construction activities for the purpose the plots were procured besides fix the responsibility against the person(s) at fault who failed to watch the public interest.

(DP. 257)

CHAPTER 5

PAKISTAN PUBLIC WORKS DEPARTMENT AND ESTATE OFFICE

(MINISTRY OF HOUSING AND WORKS)

5.1 Introduction

A. (i) Pakistan Public Works Department

Pakistan Public Works Department (Pak PWD) is an attached department of the Ministry of Housing and Works (Housing and Works Division). As per Rules of Business 1973, Housing and Works Division is responsible for the development of sites, construction, furnishing and maintenance of Federal Government buildings, except those under the Defence Division and Ministry of Foreign Affairs. Exemption is also allowed to Ministry of Foreign Affairs for the maintenance of Foreign Office and its allied buildings.

Pak PWD is responsible for construction and maintenance works (Buildings and Roads) of the Federal Government. It is headed by a Director General. The Director General is assisted by a Chief Administrative Officer who deals with administrative matters. There are four Chief Engineers for North, South, West and Central Zones in the country. They are assisted by Superintending Engineers and Executive Engineers/Assistant Executive Engineers. The matters relating to planning are dealt by the Chief Engineer (Planning). The accounts of the Pak PWD are departmentalized. The Budget and Accounts matters are dealt with by the Director Budget and Accounts, who prepares the annual Appropriation and Finance Accounts. Divisional office is the basic accounting unit of the department and is headed by the Executive Engineer. All payments related to work done and supplies are made in the divisional offices.

Detailed estimates are prepared at the sub-divisional level and technically sanctioned by the Executive Engineers, Superintending Engineers or the Chief Engineers according to their competency. Pre-audit is carried out by the Divisional Accounts Officers on behalf of the Director Budget and Accounts, who is responsible for maintaining the accounts of the department. Divisional Accounts Officers are also co-signatory of the cheques with the Executive Engineers.

(ii) Estate Office

Estate Offices situated at Islamabad, Lahore, Karachi, Quetta and Peshawar are under the administrative control of the Ministry of Housing and Works. These offices deal with allotment of government-owned accommodations, properties, recovery of rent, etc., from the allottees/occupants. The Estate Office management includes Director General assisted by Director, Deputy Director and Joint Estate Officers at the four provincial offices. Grant 52 relates to Estate Offices.

B. Comments on Budget and Accounts (Variance Analysis)

(i) Pakistan Public Works Department

Grant 50- Civil Works

The Grant includes establishment budget for the regular employees of the Department and maintenance budget for office/residential buildings of the Federal Government. In addition, the expenditure on annual/special repair, utility charges of these buildings are met from this Grant. The Department also maintains V.I.P buildings such as Prime Minister’s House, Prime Minister’s Secretariat, State Guest House, etc. The position of the Grant for the last two years is summarized below:

(Rs in million)

	2022-23	2021-22
Final Grant	5,221.433	4,679.771
Actual Expenditure	6,154.790	5,446.010
Excess/Saving(-)	933.357	766.239
Percentage	17.87%	16.37%

Source: Appropriation Accounts for the year 2022-23

Supplementary Grant amounting to Rs 1,261,758,000 sanctioned after 15.5.2023 was not accounted for in the printed Appropriation Accounts. A sum of Rs 16,155,902 was added through re-appropriation of fund and a sum of Rs 69,650,000 was withheld during the year. After taking into account the said amount, the Final Grant worked out to Rs 6,429,696,000 and excess converted into saving of Rs 274,906,461 which is 4.28% of the Final Grant.

Grant 50 Federal Lodges

The Department is also responsible for the maintenance and running of Federal Lodges all over the country. At present, thirteen Federal Lodges located at Islamabad/Rawalpindi, Lahore, Quetta, Karachi and Peshawar are being maintained by the Department. These Lodges provide economical and quality lodging facilities to the officers of the Government and Members of the Parliament. Expenditure relating to the operation of these lodges is met from this Grant. The allotment and the expenditure for the last two years under this Grant is given below:

(Rs in million)

	2022-23	2021-22
Final Grant	144.565	111.000
Actual Expenditure	132.784	117.500
Excess/Saving (-)	(11.781)	6.500
Percentage	8.15%	5.85%

Source: Appropriation Accounts for the year 2022-23

A sum of Rs 10,521,693 was withdrawn through re-appropriation of funds. After taking into the account the said amount, the Final Grant worked out to Rs 134,043,607 against which the expenditure amounting to Rs 132,783,764 had been incurred hence saving of Rs 1,259,843 which is 0.94% of the Final Grant.

Grant 128 Capital Outlay on Civil Works

The Grant is meant for original works financed through Annual Development Programme (ADP) of the Works Division. In addition to Housing & Physical Planning Sector, Development Schemes of other Ministries/Divisions are included in this Grant. Position of allotment and expenditure of this Grant for the last two years is as follows:

(Rs in million)

	2022-23	2021-22
Final Grant	74,681.336	33,900.805
Actual Expenditure	101,280.304	21,532.447
Excess/Saving (-)	26,598.968	(12,368.358)
Percentage	35.61%	36.48%

Source: Appropriation Accounts for the year 2022-23

Supplementary Grant amounting to Rs 28,098,029,000 were sanctioned after 15.5.2023 was not accounted for in the printed Appropriation Accounts. A sum of Rs 20,583,716,000 was surrendered within target date and Rs 7,627,000 was withheld during the year after accounting for the said account, the Final Grant comes to Rs 102,771,738,000 and, excess converted into saving Rs 1,491,433,734 which is 1.45% of the Final Grant.

Deposit Works (Other than Grant Capital Outlay)

	2022-23 (Rs in million)
Deposit Receipt	822.738
Expenditure	822.738
Excess/Saving (-)	0
Percentage	0

Source: Expenditure statement provided by Pak PWD

(ii) Estate Office

Budget allocation and expenditure of Estate Offices for the year 2022-23 is tabulated below:

(Rs in million)

Final Grant	Expenditure	Excess/(Saving)	%
135.741	133.793	(1.948)	(1.4%)

Receipts

(Rs in million)

Head & Description	Estimated Receipt	Actual Receipt	Excess/(Shortfall)	%
C 02701 – Works Building Rent	800.000	886.501	86.501	10.81%

C. Audit Profile of Pak PWD

(Rs in million)

Sr. No.	Description	Total Nos	Audited	Expenditure audited FY 2022-23	Revenue Audited 2022-23	FY
1	Formations	58	42	105,276.060	72.92	

Audit Profile of Estate Office

(Rs in million)

Sr. No.	Description	Total	Audited	Expenditure audited FY 2022-23	Revenue/ Receipts audited 2022-23	FY
1	Formations	05	05	133.793	886.501	

Note: In addition to above, results of Audit of Estate Office Islamabad, conducted during 2022-23 have also been incorporated in this report.

5.2 Classified summary of audit observations

Audit observations amounting to Rs 188,938.829 million were raised in this audit report. This amount also includes recoveries of Rs 3,173.064 million, pointed out by the Audit. Summary of the audit observations classified by nature is as under:

Overview of audit observations

S. No.	Classification	Amount (Rs in million)
1	Irregularities	
A	HR related issues	386.304
B	Procurement related irregularities	12,888.113
C	Execution of works, contract agreement	166,894.769
D	Management of accounts/balances	7,792.762
E	Revenue management	929.102
2	Others	47.779
Total		188,938.829

Note: Amount of audit observations exceeds audited outlays due to issues like award of works which involve future spending, amount covering multiple previous years of spending, multiple reckoning of monetary impact in different audit observations pertaining to same transaction, etc.

5.3 Brief comments on the status of compliance with PAC's directives

Compliance position of PAC's directives on Audit Reports relating to Pakistan Public Works Department/Estate Offices are as under:

Year	Total Paras	No. of Paras Discussed	Compliance Made	Compliance Awaited	Percentage of Compliance
1985-86	06	06	01	05	16.67
1986-87	02	02	01	01	50
1987-88	09	09	01	08	11.11
	1 SAR	1 SAR	-	1 SAR	0

Year	Total Paras	No. of Paras Discussed	Compliance Made	Compliance Awaited	Percentage of Compliance

2009-10	09	09	04	05	44.44
2010-11	64	64	27	38	42.18
2013-14	77	77	16	61	20.77
2014-15	18	08	01	17	5.55
2015-16	39	39	04	35	10.25
2016-17	146	146	03	143	02
2017-18	82	18	0	18	0
2018-19	38	12	02	10	5.55
2019-20	57	11	1	10	9.09
2021-22	52	1	1	-	-

Note: Audit Reports for 2011-12, 2012-13, 2020-21 and Special Audit Reports for 2017-18 were not discussed by PAC till the finalization of this Audit Report. Audit Reports for 2014-15, 2017-18, 2018-19, 2019-20 and 2021-22 have been partially discussed.

5.4 AUDIT PARAS

Pakistan Public Works Department

5.4.1 Execution of works without non-duplication and O&M certificates, mutations of projects worth Rs 39,989.518 million

Para 7.22(a) of Pak PWD Code, 1982 provides that a consolidated completion statement should be prepared monthly of all completed works.

As per approval of the Cabinet Division regarding Sustainable Development Goals Achievement Programme (SAP), 2022, para 4(iii) (b &c) and (iv):

The Provincial Government and Federal Ministries/ Divisions will ensure that no executing agency has undertaken or is undertaking the same scheme(s) in the area.

Federal Executing Agencies will obtain NOC from the Provincial Governments/District Governments that they will bear Operation and Maintenance (O&M) and recurring cost of the schemes after completion.

Land for the purpose of development scheme(s), where applicable, shall not form part of the cost estimates of the scheme. In case private land is offered by the community, its mutation in the name of designated government agency shall be effected prior to execution of the scheme. In exceptional cases, land acquisition will be processed under the provisions of Land Acquisition Act, 1894, with approval of the Steering Committee.

Audit noted during scrutiny of accounting records of different Pak PWD Formations/Divisions that an amount of Rs 39,989.518 million was paid to different contractors against 2,955 works under the SDGs schemes during the financial year 2022-23 (**Annexure-AG**).

Audit observed that:

Non-Duplication Certificates were not obtained by the divisions before execution;

O&M certificates from provincial/district governments were not obtained by the concerned Federal divisions;

Mutation of land was not made in the name of Government (details of government or private land were not available in the record); and

Non-handing over of completed schemes to provincial government/TMA for operation and maintenance.

Audit maintains that these irregularities occurred due to weak enforcement of the prescribed operational, supervisory and regulatory controls.

Audit pointed out the irregularities during September- November 2023. Executive Engineers of Central Civil Division, Pak PWD, Gujranwala and Central Civil Division-I, Pak PWD, Lahore replied that provincial executing agencies were being approached for issuance of non-duplication certificate against all the schemes executed by Pak PWD. The certificates shall be produced to audit in due course of time.

The Department accepted the irregularity in the reply that all schemes were executed without obtaining the non-duplication certificate from other executing departments. This is a serious irregularity on the part of department but no action has been taken against the officials responsible.

The matter was discussed in DAC meeting held on 24.01.2024. Audit contended that Cabinet Division's instructions regarding obtaining Non-Duplication Certificate, NOC, O&M Certificate from Provincial Government/District Government concerned were not observed by the executing department. Further, if a private land is used in the project it should be mutated in favour of the government concerned, but status of land and its mutation was not made available to Audit.

Pak PWD explained that Non-Duplication Certificates and O&M Certificates are prerequisites which are ensured at the time of PC-I approval. Audit was not satisfied with the explanation as required documents were not provided.

The DAC directed the department to provide the requisite information to the Audit within 30 days on prescribed format:

Name of scheme	Cost of project	Non-duplication certificate/NOC issued by	O&M Certificate	Scheduled date of completion
1	2	3	4	5

Actual date of completion	Handing over of project (Done/efforts made)	Status of land (Government owned/Private), if private, status of mutation
6	7	8

Audit recommends obtaining in the earliest the requisite non-duplication certificates, O&M certificates and mutations of land. Furthermore, audit recommends taking disciplinary action for failing to perform official duties to obtain prerequisites for execution of works against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of execution of these SAP works at the 22 formations concerned. Projects Wing of the Planning Commission should proactively review the periodic PC-III reports to ensure timely compliance with prescribed prerequisites for executing SAP works contracts.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2021-22 and 2022-23 vide para numbers 5.4.2 (2021-22), 5.4.2 (2022-23) having a financial impact of Rs 3,058.20 million. The recurrence of same irregularity is a matter of serious concern.

(DP.16, 55, 67, 78, 80, 88, 118, 130, 168, 171, 188, 231, 244, 267, 277, 280, 296, 321, 334, 352, 391, 460, 462, 477, 479, 521, 547, 549 & 564)

5.4.2 Non-preparation of PC-IV and non-handing over of the completed projects worth Rs 36,853.345 million

Para 3.33 of Planning Commission's Guidelines for Project Management, 2008 provides that the final stage of the project is its completion. The project is considered to be completed/closed when all the funds have been utilized and objectives achieved, or abandoned due to various reasons. At this stage the project has to be closed formally, and reports to be prepared on its overall level of success, on a proforma PC-IV and forwarded to the Projects Wing of Planning Commission. Para 3.34 further provides that project closure involves handing over the deliverables to the concerned authorities, closing of suppliers' contracts, closure of bank account, releasing security money, staff and equipment and informing stakeholders of the closure of the project. However, the closure of the project may not be delayed on account of security money.

As per Pak PWD Code, 1982, paras 7.22 to 7.24, a consolidated completion statement in Central P.W.A. Form No. 45 should be prepared monthly of all completed works. This report should give a comparison and explanation of difference between the quantity, rate and cost of work executed and those entered in the estimate. On the completion of any work, a completion report or statement is required, such report or statement should be forwarded by the Divisional Officer to the Director Budget and Accounts.

Audit noted that various formations of Pak PWD awarded schemes to different contractors under the Global SDGs Achievement Programme (SAP) during the financial year 2022-23 and made payment of Rs 36,853.345 million against these works (**Annexure-AH**).

Audit observed that despite lapse of considerable time after completion of these schemes, Pak PWD did not finalize the accounts of the said projects and PC-IV and PC-V have also not been prepared for submission to Planning Commission as required. Further, the Department was required to hand over the completed schemes to District Administration/Authorities but the same was not done. This resulted in non-finalization of accounts and non-preparation of PC-IV and PC-V of completed works worth Rs 36,853.345 million.

Audit maintains that the irregularity of non-finalization of accounts and non-preparation of PC-IV and PC-V of completed works occurred due to weak enforcement of the prescribed operational, supervisory and regulatory controls.

Audit pointed out the matter during September - November 2023. Executive Engineer, Central Civil Division, Pak PWD, Jhang replied that C.P.W.A. Form 45 is used in cases where the actual expenditure is not in excess of the sanctioned estimates. Hence, completion report on Form C.P.W.A. 45 was not involved. Moreover, due to the non-provision of 2% O&M charges, the maintenance departments were reluctant to take over the schemes.

The reply was not acceptable. As per policy, Pak PWD was required to obtain NOC/non-duplication certification and O&M certificates before execution of schemes. They were not obtained and completed works were not handed over to maintenance departments (TMAs/District Governments) after preparation of completion reports. Release of security deposits before finalization of accounts of works needs justification.

Executive Engineer, Central Civil Division, Pak PWD, Gujranwala revealed that the project is not related with PSDP of Federal Government. The funds are released to Pak PWD for execution of works through their own funds of National Highways and Motorways Police (NHMP) as deposit work. All the four sub-heads of work have been physically completed, but contractor's account could not be finalized for want of approvals/completion of pending codal formalities. The same shall be finalized on receipt of approval of final weightages for price adjustment and extra/ sub-item statement by the competent authority. The relevant record shall be produced to audit in due course of time. The department submitted an interim reply and stated that accounts of the contractors are not yet closed due to certain codal formalities. Audit is of the view that building has already been under utilization of Motorway Police since 15.11.2021 without proper handing/taking over between the departments and despite the lapse of considerable time, the department has not completed the formalities so far.

The matter was discussed in DAC meeting held on 24.01.2024. The DAC directed the department to provide the PC-IV and documentary evidence of handing over of completed projects and information the following template to Audit within 30 days.

Name of scheme	Approved Cost of project	Actual Cost	Scheduled date of completion	Actual date of completion
1	2		3	4

Date of Handing over of project (If not, details of efforts made with dates)	PC-I status (Prepared/Not prepared)	Date of submission of PC-IV to authority concerned/Planning Commission
5	6	7

Audit recommends finalization in the earliest of the accounts (including inventory, punch lists and defects), PC-IV and PC-V of the completed works, and taking disciplinary action for failing to perform official duties in closing works' projects against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of execution of these SAP works at the 21 formations concerned. Further, Projects Wing of the Planning Commission should proactively review the PC-III, PC-IV and PC-V reports to ensure timely compliance with administrative instructions for closing SAP works contracts.

(DP.22, 36, 48, 69, 82, 167, 183, 205, 230, 245, 262, 282, 299, 336, 378, 464, 481, 495, 502, 523, 551, & 568)

5.4.3 Failure of Superintending Engineer to perform duty to inspect works in progress worth Rs 30,933.806 million

Para 4.08(iv) of Pak PWD Code, 1982 provides that it shall be the duty of the Superintendent Engineer to inspect the various works in progress within his circle and to satisfy himself that the system of management prevailing is efficient and economical. The SE shall spend 25% of his time on inspection of works. An inspection report shall invariably be issued by him to the Executive Engineer after each inspection and a copy of the report shall also be endorsed to his controlling office.

Audit noted that different formation of Pak PWD awarded various development schemes under the Sustainable Development Goals Achievement Programme (SAP) with the amount of Rs 30,933.806 million during the financial year 2022-23 (**Annexure-AI**).

Audit observed during the review of the accounts record of these schemes that Site Inspection Notes and Supervisory Site Reports were neither prepared nor placed in the record produced to audit. Audit further observed that Inspection Notes were not maintained by the Executive Engineer. In the absence of inspection, quality and specification of the works carried out by the Superintending Engineer/Executive Engineer were compromised which resulted in Un-authentic payment for works in progress worth Rs 30,933.806 million.

Audit maintains that non-carrying out of site verification by Superintending Engineer of PSDP and SAP works was due to weak enforcement of the prescribed monitoring and corrective controls by the senior management.

Audit pointed out the matter in September-November 2023. The Department did not reply.

The matter was discussed in DAC meeting held on 24.01.2024. Audit informed the Committee that it is a codal requirement that SE shall inspect the sites and issue inspection notes to the XEN. Site inspections are an integral part of quality assurance but site inspection notes were not provided to Audit to ascertain that this exercise was carried out. Pak PWD explained that site inspections were carried out regularly.

The DAC directed the department to submit the evidence of site inspections carried out by Superintending Engineer to the Audit for verification within one month along with summarized information in following tabular form:

Name of scheme	Cost of scheme	Date of inspection	Major actionable points/deficiencies	Remedial action taken
----------------	----------------	--------------------	--------------------------------------	-----------------------

			pointed out in inspection notes	

Audit recommends provision of notes of official inspection duties, besides strengthening of monitoring and corrective controls of the Department to improve performance of its supervisory functions.

(DP. 08, 51, 66, 114, 174, 204, 232, 285, 322, 335, 461, 478, 518, 548 & 554)

5.4.4 Unauthorized payments without approval of contract agreements for works - Rs 21,909.136 million

Para 7.12(c) of Pak PWD Code, 1982 provides that the agreement with the contractors selected must be in writing and should be precisely and definitely expressed.

Clause 33 of Instructions to Bidders (IB), provides that within 14 days from the date of furnishing of acceptable performance security under the conditions of contract, procuring agency will send the successful bidder the contract agreement in the form provided in the bidding documents, incorporating all agreements between the parties. The formal agreement between the procuring agency and the successful bidder shall be executed within 14 days of the receipt of contract agreement by the successful bidder from the procuring agency.

Acceptance of Tender by the Chief Engineers (South) provides that the agreement may be approved within two weeks from the date of issuance of acceptance letter.

Audit noted during the scrutiny of accounting records of different Pak PWD Formations/Divisions that payments of Rs 21,909.136 million were made to different contractors for the financial year 2022-23 **(Annexure-AJ)**.

Audit observed that the works were awarded to contractors without approval of contract agreements by the competent authority, i.e., Superintending Engineer/Chief Engineer, resulting in unauthorized payments amounting to Rs 21,909.136 million.

Audit maintains that the unauthorized payments occurred due to weak enforcement of the prescribed operational, supervisory and regulatory controls.

Audit pointed out the irregularity in August-November 2023. The Department only replied in DP. 497 that the agreements had been submitted for formal approval of the Competent Authority and Audit will be apprised when all the agreements had been formally approved. The Department thus admitted non-approval of agreements. Irregular payments without approval of agreements needs justification/clarification even after lapse of considerable time. Approved agreements need to be verified by Audit.

The matter was discussed in DAC meeting held on 24.01.2024 wherein Audit informed the committee that as per administrative instructions, formal approval of contract agreement by the competent authority (Chief Engineer/Superintending Engineer) is mandatory and second payment to the contractor is to be made only after formal approval of contract agreement. However, in most of the cases, formal approval of the contract agreement has not been made.

The DAC directed the department to provide the consolidated information to the PAO M/o H&W and Audit as under:

Name of scheme	Contract cost	Date of award	Date of drawing up of agreement	Date of submission of agreement to SE
1	2	3	4	5

Date of approval by SE/CE	Delay	Any correspondence between XEN and SE with dates	Amount paid before approval of agreement & No. of IPC
6	7	8	9

Audit recommends approval of the contract agreements by the competent authority in the earliest, and taking disciplinary action for failing to perform the said official duties against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the 24 formations concerned. Further, Planning Commission and

PPRA should strengthen their monitoring functions to ensure lawful award of public procurement contracts.

Note: The issue was reported earlier also in the Audit Reports for Audit Years 2019-20, 2020-22 and 2022-23 vide para numbers 5.5.4 (2019-20), 5.5.5 (2020-21), 5.4.1 (2022-23) having a financial impact of Rs 5,581.72 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 06, 31, 50, 77, 81, 106, 110, 162, 169, 186, 196, 199, 241, 253, 273, 289, 301, 320, 324, 332, 346, 353, 405, 454, 463,

480, 497, 506, 520, 550 & 569)

5.4.5 Irregular awards of works in violation of the Public Procurement Rules, 2004 of projects worth Rs 12,136.39 million

Rule 4 of the Public Procurement Rules, 2004 provides that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical. Further, Rule 20 provides that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works. Furthermore, Rule 50 states that any unauthorized breach of these rules shall amount to miss-procurement.

Rule 9 of the said Rules provides that a procuring agency shall announce in an appropriate manner all proposed procurements for each financial year and shall proceed accordingly without any splitting or regrouping of the procurements so planned. The annual requirements thus determined would be advertised in advance on the Authority's website as well as on the website of the procuring agency in case the procuring agency has its own website.

Audit observed that Executive Engineers of various Pak PWD Divisions awarded works valuing Rs 12,136.39 million in violation of the aforesaid Rules, as detailed below:

Non-announcement of results of bid evaluation/final bid evaluation report giving justification for acceptance or rejection of bids (DP. 64, 75, 455)

Procurement without advertising on PPRA's website as department could not produce evidence for uploading of schemes on PPRA website/ comparative statements authenticated by committee (DP. 112)

Limited competition due to qualification of only one bidder and disqualification of other bidders (DP. 139, 524)

Splitting in piecemeal and avoiding open competitive bidding (DP. 159, 161, 445, 505)

Division of works in small groups for tendering instead of consolidated tender (DP. 308)

Call of tenders of the works before sanction of estimates and release of funds (DP. 496)

Award of work without open competition and subsequent enhancement from Rs 9 million to Rs 45 million (DP. 513)

This resulted in irregular award of contracts worth Rs 12,136.39 million (**Annexure-AK**).

Audit pointed out the irregularity in October 2023. The Department did not reply.

Audit maintains that doubtful pre-qualification process and irregular award of works was due to weak enforcement of the prescribed operational, supervisory and regulatory controls.

The matter was discussed in DAC meeting held on 24.01.2024. The DAC directed the department to conduct Fact Finding Inquiry and submit the inquiry report to the Audit within 30 days. (DP. 159, 160, 513). The DAC further directed the department to provide breakup of works with nature, number of contractors engaged, dated requisitions, basis/evaluation of rates, registration of JV with SECP/PEC, basis of disqualification (PDP-524), bid evaluation reports, annual plans, tender registers, etc., to the Audit for verification. In case of DP. 308, a comprehensive report may be shared with Audit through PAO.

Audit recommends mitigation measures to review and recoup losses from these irregular awards of works, and taking disciplinary action for failing to perform official duties in awarding works' contracts against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of awards of these works at the 10 formations concerned. Further, Planning Commission and PPRA should strengthen their monitoring functions to ensure lawful award of public procurement contracts.

(DP 64, 75, 112, 139, 159, 160, 308, 445, 455, 496, 505, 513 & 524)

5.4.6 Unauthentic payments to contractors for materials without requisite lab test reports - Rs 11,561.03 million

As per Clause 19.3 of Specification - Special Provisions “Testing Laboratory Certificates”, the Engineer may accept a certificate from a commercial testing laboratory, satisfactory to him, certifying that the product has been tested within the period acceptable to the Engineer and that it confirms to the requirements of these specification.

According to paras 26 and 27, Additional Terms and Conditions, Tender Form CPWD-7 of Pak PWD, strength of cubes tested according to B.S.S. code shall be 3000 psi or 5000 psi as specified in the nomenclature of the items, in case of work cubes. Strength at 7 days should not be less than 70% of the above and if test show strength less than 90% after 28 days the work shall be dismantled and redone by the contractor at his cost. During the progress of the work, testing of the concrete work will be carried out by the executive Engineer, the result of such test should conform with the standard cube test.

Audit noted that various Executive Engineers of Pak PWD divisions awarded 952 works to different contractors under the Sustainable Development Goals Achievement Programme (SAP) and made payment of Rs 11,561.03 million against different items during the financial year 2022-23 (**Annexure-AL**).

Audit observed that these payments were made without obtaining lab test reports of such items of works as PCC, Tuff Paver, Steel, RCC works, etc. This resulted in an unauthentic payment of Rs 11,561.03 million without lab test reports.

Audit maintains that the irregularity occurred due to weakness of internal controls for sanctions and pre-audit of contractors’ bills.

Audit pointed out the unauthentic payment in September-November 2023. The Department did not reply.

The matter was discussed in DAC meeting held on 24.01.2024. Audit informed the committee that various tests required before payment to ascertain the quality of work, like strength test of concrete, compaction tests of earth and aggregate work, asphalt test corresponding to JMF ratio, etc., were not provided during audit. Pak PWD explained in certain cases that quality tests were obtained from UET and test checks were also exercised by AEE and XEN in the MBs and payment is made after lab tests. Audit contended that authentic test reports are to be provided clearly synchronizing the timelines of activity performed. Further, in one case (PDP 340), concrete test of tuff pavers have been provided during verification of record which indicated that in 31 works, yield strength was 5000 psi against the required strength of 7000 psi. Pak PWD explained that tuff pavers of 7000 psi are provided in Schedule of Rates whereas 5000 psi are adequate as per site requirement and therefore accepted. Audit stressed that rate of the item should have been adjusted according to the actual executed work if tuff pavers of 5000 psi are acceptable. DAC directed that due recovery in PDP-340 be made and be verified from Audit. In other

cases, DAC directed the department to submit division-wise evidence of lab test carried out as per laid down procedure/guideline to the Audit for verification.

DAC further directed that summarized information in following pattern may also be provided to Audit.

Name of Works	Cost	Item of work	Date of Measurements in MB	Nature of Tests performed
1	2	3	4	5

Date of submission of sample with evidence	Date of Lab Test Report	JMF approval status with date	Date of execution of bituminous item	Lab test report with covering letter
6	7	8	9	10

Audit recommends mitigation measures to review and recoup losses from these irregular payments without requisite lab test reports, and taking disciplinary action for failing to perform official duties in sanctioning payments requiring lab test reports against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of execution of these SAP works at the 16 formations concerned.

(DP. 05, 19, 34, 38, 85, 102, 105, 108, 163, 173, 304, 319, 340, 362 423, 439, 442, 465, 472, 483, 516, 560, 561 &563)

5.4.7 Wasteful expenditure due to non-completion within time or abandonment of works - Rs 4,966.113 million

According to the instructions contained in acceptance letters, additions/alterations are not allowed without prior approval of competent authority. The work must be carried out strictly in accordance with the approved drawings/design.

Rule 23 of GFR, Vol-I provides that every Government officer should realize fully and clearly that he will be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

Clause 3.4 of Contract for Engineering Consultancy Services states that the consultants are liable for the consequence of errors and omissions on their part or on the part of their employees in so far as the design of the project is concerned to the extent and with the limitations as mentioned herein below.

If the client suffers any losses or damages as a result of proven faults, errors or omissions in the design of a project, the consultants shall make good such losses or damages, subject to the conditions that the maximum liability as aforesaid shall not exceed twice the total remuneration of the consultants for design phase in accordance with the terms of the contract.

Audit noted that various formation of Pak PWD awarded different works to different contractors with stipulated time for completion and made payment against the work done under SAP and PSDP works during the financial year 2022-23 (**Annexure-AM**).

Audit observed that the contractors could only achieve physical progress of 08% to 50% of carpet road and flyover, respectively and thus failed to complete the work in stipulated period. A scrutiny of the record in one case further revealed that the contract agreement of the work had been closed without completion. On the recommendations of concerned Superintendent Engineer and Executive Engineer (and by the Chief Engineer (CZ) in some cases), contractors were paid huge amounts for work to be done but they abandoned the works before completion, causing wasteful expenditure. This resulted in wasteful expenditure of Rs 4,966.113 million due to incomplete execution of work.

Audit maintains that the irregularity occurred due to weak enforcement of the prescribed operational, supervisory and regulatory controls.

Audit pointed out the irregularity in September-November 2023. 08 formations did not reply. In DPs 380 and 388, the Department replied that the Project was unfunded since fiscal year 2017-18 and contractor did not mobilize at site so far. Further, the Department failed to encash the Mobilization Advance Guarantee and Performance Security within due date which caused some recovery made from the contractor security and amount of mobilization advance and balance of Rs 30.570 million are laying outstanding in DP 388 against the contractor. This reply was not accepted because the Department failed to take action against the contractor according to agreement clauses, and even joint measurement of executed works could not be made so far.

The matter was discussed in DAC meeting held on 24.01.2024. The directed as under:

DP-1 CCD Sialkot:

The DAC directed the department to workout way forward and a comprehensive proposal be made for implementation of project. The matter may be taken up with DC Gujrat for resolution of the impeding factors for early completion of the project.

DP-184 CCD Sargodha:

The DAC directed the department to take measures to expedite the works for completion and outcome be shared with Audit.

DP-274 CCD, Sahiwal:

The DAC directed the department to take suitable measures for arrangement of funds for completion of abandoned project.

PDP-294 PCD, Batkhela:

DAC pended the para as record of subject para has not been submitted to the Audit for verification and the officer concerned did not attend the DAC meeting.

PDP-331 CCD, Lahore:

DAC directed the department to provide detail of funds, status of mobilization advance, physical progress, etc., to Audit for evaluation.

PDP-342 CCD, Mirpurkhas:

The DAC directed the department to submit the comprehensive report including feasibility study/approved PC-II of the project to the PAO for appropriate decision.

Audit recommends funding and execution of the incomplete and abandoned works in the earliest to avoid further time and cost overruns, and taking disciplinary action for failing to perform official duties to timely complete works' execution against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the 10 formations concerned. Further, Projects Wing of the Planning Commission should proactively review the PC-III, PC-IV and PC-V reports to ensure timely funding, execution and closing of works contracts.

(DP. 1, 124, 184, 274, 294, 331, 342, 380, 388, 471 & 530)

5.4.8 Financial indiscipline through lapse of funds - Rs 5,766.408 million

Rule 95 of GFR, Vol-I provides that all anticipated savings should be surrendered to Government immediately as these are foreseen but not later than 31st May of each year in any case, unless they are required to meet excesses under some other unit or units which are definitely foreseen at the time.

However, savings accruing from funds provided through supplementary grant after 15th May shall be surrendered to Government immediately as these are foreseen but not later than 30th June of each year. No savings should be held in reserve for possible future excesses.

Para 4.6 of Planning Commission's Guidelines for Project Management, 2008 provides that the last date for surrendering of funds from a scheme is 31st May of each year. The surrender order must be communicated to AGPR and Finance Division with the approval of FA Organization of the respective Ministry/Division.

Audit noted that different Executive Engineers of Pak PWD were allocated funds under the SAP and PSDP works during the financial year 2022-23. The formations were required to fully utilize the allocated funds but, at the end of the financial year, they had an unspent balance of Rs 5,766.408 million that lapsed as per rules (**Annexure-AN**).

Audit observed that 15 formations failed to utilize or timely surrender funds allocated for execution of SAP and PSDP works, which lapsed as a result. This is financial indiscipline affecting developments works worth Rs 5,766.408 million.

Audit maintains that the irregularity occurred due to weak enforcement of the prescribed operational and supervisory controls.

Audit pointed out the financial indiscipline during September-November 2023. In DP 165, the Department replied that funds amounting to Rs 450.000 million for execution of development schemes under SAP (2022-23), District Gujranwala, were released from the Directorate of Budget & Accounts, Pak PWD, Islamabad dated 26.06.2023 and credited into PLA-I of Divisional Accounts dated 27.06.2023. Therefore, funds amounting to Rs 450.000 million were surrendered to Government along with un-utilized funds after completion of development schemes under SAP 2022-23 for six different constituencies. There is no financial indiscipline involved on the part of executing agency as pointed out by the audit.

In DP 389, the Department replied that detailed position of surrender/lapsed funds as on 30.06.2023 is as under:

Funds were credited into PLA-I of Divisional Accounts on 27.06.2023 (last working day of financial year 2022-23). Therefore, funds amounting to Rs 1,300.000 million were surrendered to Government for re-validation during the financial year 2023-24.

Expenditure amounting to Rs 4,485,497,545 has been incurred against release of funds amounting to Rs 4,500,000,000 under SAP 2022-23, leaving un-spent balance funds amounting to Rs 14,502,455.

Expenditure amounting to Rs 155,090,200 has been incurred against release of funds amounting to Rs 155,101,379 under PSDP 2022-23, leaving un-spent balance funds amounting to Rs 11,179.

Expenditure amounting to Rs 199,024,584 has been incurred against release of funds amounting to Rs 225,924,897 under Deposit Works of other Department, leaving un-spent balance funds amounting to Rs 26,900,313. Major portion of funds has lapsed, i.e., Rs 19,820,785, due to non-approval of tenders for NSPP/CSA and Rs 7,000,000 were released on 15.06.2023.

In addition, funds amounting to Rs 78.985 million were released on 12.06.2023. It was not possible to re-start the construction activities on abandoned work since 2017 and complete works worth Rs 78.985 million within last 10 days before close of fiscal year 2022-23, so re-appropriation was approved by the competent authority and funds amounting Rs 78.985 million were transferred to CCD, Pak PWD Sargodha on 27.06.2023.

In other cases, the Department replied that funds were released in June 2023 and lapsed due to inadequate time for tendering process and to avoid hasty expenditure.

The reply was not accepted as department failed to utilize the funds or surrender the same before close of financial year as per above rule.

DAC meeting was not convened by PAO despite requests made by Audit on 10.11.2023, 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends taking disciplinary action for failing to utilize or timely surrender funds allocated for execution of SAP and PSDP works against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the 10 formations concerned. Further, Pak PWD should strengthen its monitoring and corrective controls at the level of the senior management to prevent lapse funds in future.

(DP. 11, 95, 117, 166, 236, 265, 305, 316, 343, 350, 389, 418, 468, 486 & 552)

5.4.9 Unjustified expenditure on SAP Schemes without required formalities - Rs 4,068.292 million

As per approval of the Cabinet Division dated 13.06.2022 regarding SDGs achievement program the executing agencies will obtain NOC from the Provincial Governments / District Governments that they will bear Operation and Maintenance (O&M), and recurring cost of the schemes after completion. Mutation of Land (free of cost) would be made in the name of government before award of work.

As per general instruction of Chief Engineer (South) Pak PWD, Karachi for schemes under SAP for the year 2022-23 explains that No Objection Certificate, Operation & Maintenance Certificate and Non-duplicate Certificate may be ensured before issuance of Work Order.

Para 7.12 (c) of Pakistan Public Works Department Code, 1982 provides that the agreement with the contractors selected must be in writing and should be precisely and definitely expressed. Para 4.08(iv) of Departmental Code Pak PWD 1982 provides that it shall be the duty of the Superintendent Engineer to inspect the various works in progress within his circle and to satisfy himself that the system of management prevailing in efficient and economical.

As per PC-Is of the SAP schemes, the completed schemes were required to be completed and handed over to District Administration concerned.

Audit noted that following 04 Executive Engineers, Central Civil Divisions Pak. PWD awarded and executed 313 SAP schemes for Rs 4,068.292 million:

(Rs in million)

S. No	Reference to Para No.	Formations	No. of Schemes	Expenditure
1	Para 01 to 10 of LAIR	Executive Engineer, Central Civil Division Pak. PWD Larkana	135	1,847.657
2	Para 01, 02, 03, 04 &05 of LAIR	Executive Engineer, Central Civil Division Pak. PWD Nawabshah (SBA)	89	1,209.03
3	Para 05, 08, 09 &10 of LAIR	Executive Engineer CCD-I Pak PWD Karachi	19	499.750
4	Para 14&16 of LAIR	Executive Engineer Central E/M-II Pak PWD Karachi	70	511.855
Total			313	4,068.292

Audit observed that:

The works were executed without obtaining non-duplication certificates from the departments/agencies that no other executing agency has undertaken or is undertaking the same scheme in the area.

Operation and Maintenance Certificates from agencies responsible for maintenance of the schemes was not available in the record produced to Audit.

No record/detail of land was available in record produced to audit to authenticate the position that either the land was government owned, provided by the locals or purchased through land acquisition. Moreover, the mutation of land wherein the schemes were executed was also not available in record to authenticate the factual position.

The payments were made without approval/Signing of contract agreements by the competent authority, i.e., Superintending Engineers / Chief Engineer.

Site Inspection Notes, Supervisory Site Inspection Reports were neither carried out nor placed in the record produced to audit.

The completed schemes were not handed over and accounts were not finalized.

In all the cases, works were awarded in the last quarter of the financial year and were measured in full in the month of May-June 2023. Meaning thereby that the rendering award of contracts and work execution process was completed within a short span of 1-1/2 months.

This resulted in unjustified expenditure without required formalities for Rs 4,068.292 million.

Audit pointed out irregularity in December 2023, but the department did not reply.

The similar issue was discussed in DAC meeting held on 24.01.2024. The DAC directed the department to provide the requisite information to the Audit within 30 days on prescribed format:

Name of scheme	Cost of project	Non-duplication certificate/NOC issued by	O&M Certificate	Scheduled date of completion
1	2	3	4	5

Actual date of completion	Handing over of project (Done/efforts made)	Status of land (Government owned/Private), if private, status of mutation
6	7	8

The DAC further directed the department to provide the PC-IV and documentary evidence of handing over of completed projects and submit the evidence of site inspections carried out by Superintending Engineer to the Audit for verification within one month.

Audit recommends obtaining in the earliest the requisite non-duplication certificates, O&M certificates and mutations of land, and taking disciplinary action for failing to perform official duties to obtain prerequisites for execution of works against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of execution of these works.

5.4.10 Non-revalidation of performance securities in shape of bank guarantee/performance bond - Rs 2,684.472 million

Clause 10.1 of the Conditions of Contract, Part-II provides that the Contractor shall provide Performance Security to the Employer in the prescribed form. The said Security shall be furnished or caused to be furnished by the Contractor within 28 days after the receipt of the Letter of Acceptance. The Performance Security shall be of an amount equal to 10% of the Contract Price stated in the Letter of Acceptance. Such Security shall be in the form of (a) bank guarantee from any Scheduled Bank in Pakistan or (b) bank guarantee from a bank located outside Pakistan duly counter-guaranteed by a Scheduled Bank in Pakistan. As per Appendix-A to Bid, Ten percent (10%) of contract price stated in the letter of acceptance in the form of an unconditional and irrevocable bank guarantee from any Schedule Bank of Pakistan, valid up to the issuance of DLP is required.

Clause 23.2 of the same Conditions provides that the contractor shall insure the work together with material and plant for incorporation therein, to the full replacement cost up to the defect liability period. The contractor is bound to provide minimum 1% of tender cost as the insurance guarantee. Cost of such insurances shall be borne by the contractor.

Audit noted that Executive Engineers of various Pak PWD divisions awarded several works to different contractors.

Audit observed that the Performance Securities in the shape of bank guarantees/performance bonds provided by the contractors, as per contract clauses, had lost their validity period but they were not revalidated by the contractors because the works were in progress. Audit further observed that work insurance policies/ performance securities were neither obtained from the contractors nor effected by the department itself for the works. Clause regarding work insurance was not invoked in this situation, which is tantamount to giving undue benefit to the contractors. This resulted in non-obtaining of insurance policies/ performance securities for the works worth Rs 724.698 million and extending undue benefit of Rs 7.247 million (Rs 724.698 million x 1%) to the contractors as they saved built-in charges to maintain the insurance cover up to 1% of contract cost. Thus, in absence of valid performance securities and insurance coverage, prospects of successful completion of projects were jeopardized.

This resulted in non-revalidation of performance securities and non-obtaining of insurance policies worth Rs 2,684.472 million (**Annexure-AO**).

Audit maintains that performance bond and insurance were not obtained due to weak enforcement of the prescribed operational, oversight and regulatory controls.

Audit pointed out the irregularities in September-November 2023. The Department replied in DP. 12, 90, 175, 203, 222, 243 that the required performance securities were obtained. In DP. 453, the Department replied that an amount of Rs 2,213,000 was recovered from the contractor. In other cases the Department replied that the contractors were asked to furnish the required performance guarantees and the same would be verified from Audit.

The reply was not accepted because required performance guarantees with expiry date till the defect liability period were not obtained and verified from Audit.

DAC meeting was not convened by PAO despite requests made by Audit on 10.11.2023, 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends obtaining requisite performance securities and insurance policies worth Rs 2,684.472 million in the earliest, and taking disciplinary action for failing to perform official duties to obtain such security and insurance for execution of works against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the 16 formations concerned. Furthermore, Projects Wing of the Planning Commission should proactively review the periodic PC-III reports to ensure timely compliance with securities and insurance provisions of works contracts.

(DP. 12, 40, 46, 90, 119, 175, 185, 189, 190, 191, 201, 203, 222, 243, 249, 272, 453, 458, 469, 488, 528 & 567)

5.4.11 Unjustified advance payments without execution of work at site - Rs 2,382.334 million

According to Accounting Policy and Procedure Manual, para 4.2.5.1, a prescribed claim voucher form (bill form 4B) must be prepared by the incurring officer for supplies, services rendered and work done under a contract or other arrangement over the specified limit.

Para 208 of CPWA Code provides that, unless in any case the administration after consultation with Accountant General direct otherwise, payments for all work done are to be made on the basis of measurements recorded in the MB as a permanent record issued to supervisory officer to record date wise activity, mandatory tests at site.

Audit noted that 08 Executive Engineers of Pak PWD awarded various works to different contractors for Rs 2,382.334 million (**Annexure-AP**).

Audit observed that Divisional Officers made advance payments to contractors without work done. This resulted in unjustified advance payment without execution of work at site amounting to Rs 2,382.334 million.

Audit maintains that unauthentic payments were made due to weak enforcement of the prescribed operational, supervisory and pre-audit controls.

Audit pointed out unjustified advance payment in October-November 2023. The Department replied in DP. 2 that detailed measurements could not be recorded in the Measurement Books due to shortage of time as the funds were received on the last day of the financial year. In DP. 30, the record pertaining to expenditure of Rs 1,000.000 million was not available due to inquiry on the subject matter. In DP. 338, the Department replied that the works were executed on war footing basis. In other cases the department replied that the payments were made after actual execution of works. In DP. 293 (PCD, Pak PWD, Batkhela), the department did not reply.

The reply was not accepted because payments were made without recording detailed measurements in Measurement Books in violation of rules and in hasty manner. Non-availability of record in support of actual execution of work to the tune of Rs 1,000.00 million was not justified. It was merely an effort of concealment of facts regarding actual execution of works at site.

DAC meeting was not convened by PAO despite requests made by Audit on 10.11.2023, 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup losses due to advance payments without execution of works amounting to Rs 2,382.334 million, and taking disciplinary action for failing to perform official duty to not make such payments against officers concerned, that is,

Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the 08 formations concerned.

(DP. 02, 30, 293, 317, 338, 359, 425 & 557)

5.4.12 Excess payment beyond 15% of Technical Sanction Estimate without approval - Rs 2,053.787 million

Para 6.17 of Pak PWD Code provides that when the expenditure upon a work exceeds or is found likely to exceed the approved cost by more than 15%, a revised approval must be obtained from the authority competent to approve the cost, as so enhanced. Para 6.19 of the same Code also provides that revised estimate must be prepared where the sanctioned estimate is likely to be exceeding by more than 15%.

Audit noted that Executive Engineers of three (03) divisions of Pak PWD awarded different contracts to different contractors during the financial year 2022-23.

Audit observed that Divisional Officers paid the amount of work done against the agreement amounts beyond 15% of estimated amount without revision of Technical Sanction estimate ("TS estimate"). This resulted in an unauthorized payment for execution of works amounting to Rs 2,053.787 million.

Audit pointed out the irregularity in October 2023. In DP 260, the Department replied that it is revealed that the lowest bid calculated to Rs 520.821 million was most advantageous bid and approved by the competent authority against the TS estimate cost of Rs 413.721 million. Revised PC-I of the project amounting to Rs 772.522 million was approved by the competent forum of DDWP in its meeting held on 06.06.2022 but the project was not completed due to release of funds according to original approved cost of the project, i.e., Rs 452.910 million. Funds amounting to Rs 319.612 million were allocated/released according to revised PC-I during the financial year 2022-23. The revised estimate for technical sanction by the competent authority, i.e., the Chief Engineer (CZ), Pak PWD, Lahore is under process of approval and the same will be produced to audit in due course of time. There is no irregular expenditure involved due to non-revision of TS estimate as pointed out by the Audit.

In other para, the Department replied that the revised cost of the project has since been submitted to the NHMP for accord of approval by the competent forum of NHMP and release of funds. The revised estimate of the work shall be prepared on completion of work and submitted to the office

of the Chief Engineer (CZ), Pak PWD, Lahore for accord of technical sanction by the competent authority. The Audit office shall be informed in due course of time.

The reply is not tenable because works were awarded beyond the 15% permissible limit of TS Estimate and excess expenditure was incurred without approval/revision of TS estimates from the competent authority so far.

Audit holds that the excess payment beyond 15% of TS estimate without requisite approval occurred due to weak enforcement of the prescribed operational, supervisory and pre-audit controls.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends securing requisite approvals for the revised TS estimates in the earliest, and taking disciplinary action for failing to perform official duty to timely seek approval of revised TS estimates against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the 04 formations concerned.

(DP 141, 260, 376 & 377)

5.4.13 Irregular execution without conducting feasibility study (PC-II) of a project - Rs 1,446.224 million

Para 3.3 of Planning Commission's Guidelines for Project Management, 2008 provides that it is mandatory that the projects of infrastructure sector and production sector costing Rs 300.00 million and above should undertake proper feasibility studies before the submission of PC-I.

Audit noted that the Executive Engineer, CCD-IV Division Pak PWD, Islamabad awarded contract for Construction of Legal Facilitation Centre at Islamabad High Court to M/s City Traders Builders and Contractors at agreement cost of Rs 1,446.224 million. Total payment made to the contractor up to the 13th Running bill was Rs 792.773 million.

Audit observed that feasibility study of the project was not conducted which resulted in the entire BOQ being prepared on market rates, slow progress of work, variations and excess in quantities and execution of extra items without prior approval. The Department was required to sort out all

these strategic points well in advance in coordination with the concerned quarters to avoid time and cost overruns. This resulted in irregular award of work and execution of project of Rs 1,446.224 million because of non-preparation of mandatory feasibility study (PC-II).

Audit holds that feasibility study of the project was not conducted due to overall weak management on the part of Pak PWD.

Audit pointed out the irregularity in October 2023. The Department replied that PC-II was prepared and PC-I was submitted to CDWP who approved in its meeting dated 31.05.2021. The variations in quantities occurred as per actual which would be incorporated in the Revised PC-I.

The reply was not accepted because appointment of design consultant for the work under observation, feasibility study report/PC-II, working papers submitted to CDWP, detailed justification for variations from planned/approved scope of work were not produced in support of reply.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends provision of record of appointment of design consultant for the work, feasibility study report/PC-II, working papers submitted to CDWP and detailed justification for variations from planned/approved scope of work. Responsibility be fixed for defective planning and designing of the work.

(DP. 142)

5.4.14 Irregular payment for items without establishing Job Mix Formula (JMF), lab tests - Rs 1,161.715 million

Pak PWD Composite Schedule of Rates (CSR) 2022, Chapter 127 regarding Road and Runways contains separate item for bituminous road for carpeting and similar road and another item for runway pavement.

As per Standard Specification/engineering practice, a Job Mix Formula (JMF) for the asphaltic hot mix bitumen concrete pavement, mixture or mixtures to be used for the

project, shall be established jointly by the Engineer and the Contractor. Prior to final approval, the proposed job mix, with a bitumen content at the permissible upper percentage limit determined in JMF, shall be compacted and air voids in the mix shall not be less than two percent. The Contractor shall prepare a trial section before the start of work considering the prescribed procedure.

Audit noted that the Executive Engineers of five (05) divisions of Pak PWD awarded different contracts of Metaled Road works during financial year 2022-23, as detailed below:

S No.	DP. No.	Formation/Division	No of Works	Quantity executed in tons	Amount Paid (Rs in million)
1	24	CCD, Bahawalpur	02	811.600	104.074
2	83	CCD-III, Karachi	38	9879.000	595.026
3	100	CCD, Abbottabad	02	1955.45	26.747
4	466	CCD Hyderabad	15	16,216	199.51
5	484	CCD-II, Quetta	04	-	236.358
		Total	196		1,161.715

Audit observed that the Department measured and paid an item of work - i.e., providing and laying hot mix bituminous concrete runway pavement laid with mechanical paver and mixed in central mixing plant in required thickness and density rolled hot with different types of rollers complete as per specifications and job mix formula and design - without preparation and approval of Job Mix Formula (JMF) by the competent authority. Furthermore, neither source of the bitumen and invoices were available in office record, nor a single test for bitumen was carried out from the approved/independent laboratories, which was against the Pak PWD specification. This resulted in irregular payments due to execution of bituminous item without establishing Job Mix Formula and requisite lab tests amounting to Rs 1,161.715 million.

Audit maintains that the irregularity occurred due to weak operational, supervisory and pre-audit controls.

Audit pointed out the irregularity in October 2023. The Department replied that the Job Mix Formula for the asphaltic hot mix bitumen concrete pavement was established before production of hot-mix bituminous concrete. Lab test reports were obtained for these works.

The reply was not accepted because process of preparation and approval of JMF, source of procurement of bitumen and lab test reports were not produced to Audit for verification.

DAC meeting was not convened by PAO despite requests made by Audit on 10.11.2023, 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup losses due to payments for items without Job Mix Formula and lab tests amounting to Rs 1,161.715 million, and taking disciplinary action for failing to perform official duty to establish JMF and obtain lab test reports for works items against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the 05 formations concerned.

(DP. 24, 83, 100, 466 & 484)

5.4.15 Non-deposit of bid security of unsuccessful bidders in PWD account - Rs 1,032.054 million

According to Rule 44 of CPWA Code, the Divisional Officer is the primary disbursing officer of the division, and all realization and payment on Government account made by his subordinates are made on his behalf and on his responsibility. Further, as per Rule 63, when money is received by a Government Officer on behalf of Government, it should at once be brought to account in the Cash Book.

As per invitation for bids dated 03.11.2022, condition No. 07, all CDRs once received will be credited into the government account, and will be refunded through government cheques. According to condition No. 08, CDRs of 1st, 2nd and 3rd lowest bidders will be retained till acceptance of tender and will be refunded after acceptance of tenders.

Audit noted that the Executive Engineers of the various Divisions of Pak PWD awarded different schemes under Sustainable Development Goals Achievement Programme (SAP) to various contractors during the financial year 2022-23 (**Annexure-AQ**).

Audit observed that the Department failed to deposit in the PWD Accounts the earnest money amounting to Rs 1,032.054 million of the unsuccessful bidders (2nd and 3rd participants) who participated in bidding process. Instead, the same moneys were retained in chest and were released by hand instead of cheques. Violation of quoted rules resulted in doubtful process of tendering due to non-deposit of bid security into government account of Rs 1,032.054 million

Audit pointed out the irregularity in September-November 2023. In two cases (DP. 74 and 565) the Department replied that the bid security was deposited in government account and returned back to the unsuccessful bidders. In DP. 295 the Department did not reply. In other cases the Department replied that the bid security of unsuccessful bidders was returned back after announcement of first lowest/successful bidder.

The reply was not accepted because evidence of deposit of bid security in government account was not provided. Further, in other cases the procedure of deposit of bid securities of the participant bidders was not followed. The genuineness of the bid securities/CDRs were not verified through banks.

Audit maintains that the irregularity occurred due to weak enforcement of the prescribed operational, supervisory and accounting controls.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends taking disciplinary action for failing to perform official duty to deposit bid securities of unsuccessful bidders in government account amounting to Rs 1,032.054 million against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the 08 formations concerned.

(DP. 74, 182, 276, 295, 476, 494, 546 & 565)

5.4.16 Unauthorized payments for extra/substitute items without requisite approval - Rs 1,020.952 million

Para 6.09 of Pak PWD Code, 1982 states that a proper detailed estimate must be prepared for the sanction of the competent authority for each individual work proposed to be carried out. This sanction was known as the Technical Sanction to the estimate and must be obtained before the construction of work was commenced. As its name indicates, it amounts to no more than a guarantee that the proposal is structurally sound, and that the estimates are accurately calculated and based on adequate data.

As per condition of acceptance letter, no extra/substitute item should be allowed to be executed at site without prior approval of the competent authority. Further, additions/ alterations are not

allowed without prior approval of the competent authority. The work must be carried out strictly in accordance with the approved drawing/ design.

Audit noted that the various divisions of Pak PWD executed infrastructure projects/ works relating to construction of buildings, roads, street lights and solar during the financial year 2022-23.

Audit observed during the scrutiny of the accounts record that extra items of works were measured and paid to the contractors beyond the provision in TSE/BOQ without prior approval of the competent authority. This shows that detailed estimates of the works were not prepared after proper survey and keeping in view the requirement of the sites. Execution of extra/substitute items beyond the provision of TSE/BOQ resulted in unauthorized payment of Rs 1,020.952 million (**Annexure-AR**).

Audit maintains that the irregularity occurred due to weak enforcement of the operational, supervisory and pre-audit controls.

Audit pointed out the matter in September-November 2023. The Department replied that SAP is a community-based development programme and the work was executed as per requirements and in consultation with the local community to facilitate more inhabitants of the area within the approved cost.

The reply was not accepted as the estimation of the projects/ works was always based on adequate data and prepared after proper survey and keeping in view the requirement of the sites. Execution of extensive extra/substitute items proved poor estimation and non-compliance of agreement scope of work.

DAC meeting was not convened by PAO despite requests made by Audit on 10.11.2023, 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup losses due to unauthorized payment for extra/substitute items beyond the provision of TSE/BOQ amounting to Rs 1,020.952 million, and taking disciplinary action for failing to perform official duty to obtain approval for payment for extra/substitute items against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the 14 formations concerned.

(DP. 23, 25, 87, 92, 177, 187, 200, 227, 255, 318, 327, 381, 382, 395, 420, 428, 437, 450, 503 504, 515, 533, 536 & 538)

5.4.17 Unauthorized payment due to execution of excess quantities without approval - Rs 958.247 million

As per conditions 1 and 2 of the acceptance letters, the works should be executed strictly in accordance with the specifications/ standards stipulated in the agreements and no excess over the quantities given in the BOQ should be permitted in respect of all items of work.

Audit noted that the various divisions of Pak PWD awarded infrastructure projects/works relating to construction of buildings, roads and drinking water supply schemes during the financial year 2022-23.

Audit observed that Pak PWD formations paid for quantities of certain items of works in excess of the approved BOQ, estimate and revised PC-I of works amounting to Rs 958.247 million without approval of the competent authority. This resulted in an excess payment of Rs 958.247 million (**Annexure-AS**).

Audit maintains that the irregularity occurred due to weak enforcement of the prescribed operational, supervisory and pre-audit controls.

Audit pointed out the excess payment during October-November 2023. The Department replied that the extra items were cropped up as per site requirements and payments were made as per actual work done at site.

The reply was not accepted because major deviations in the agreed scope of work depicted that planning and estimation process was made without actual site surveys. Moreover, necessary approvals of such variations were not provided to Audit for verification.

DAC meeting was not convened by PAO despite requests made by Audit on 10.11.2023, 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup losses due to unauthorized payment for quantities in excess of specifications in TSE/BOQ/PC-I amounting to Rs 958.247 million, and taking disciplinary action for failing to perform official duty to obtain approval for such excess payments against

officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the 22 formations concerned.

(DP. 26, 41, 57, 59, 91, 98, 120, 129, 133, 136, 143, 158, 221, 223,
235, 246, 268, 281, 284, 287, 300, 311, 313, 328, 348, 349, 354,
357, 358, 363, 364, 368, 390, 400, 406, 422, 430, 526,529 & 531)

5.4.18 Non-recovery of liquidated damages due to non-completion of works on time - Rs 845.854 million

According to clause 47.1 of the Contract Agreement, liquidated damages @ 0.1% of contract price for each day of delay in completion of the work subject to maximum of 10% of contract price was to be charged for delay in completion of the work within stipulated period.

Audit noted that Executive Engineers of various Pak PWD divisions awarded different works to different contractors for Rs 8,458.541 million (**Annexure-AT**).

Audit observed that the contractors could not complete the works within stipulated period as stated in the Letter of Acceptance. The contractors were liable to pay liquidated damages amounting to Rs 845.854 million (Rs 8,458.541 million contract cost × 10%). Department neither granted EOT nor recovered liquidated damages from contractors for delay in completion of the said works.

Audit maintains that the irregularity occurred due to weak enforcement of the prescribed operational, supervisory and regulatory controls.

Audit pointed out the irregularity in September-November 2023. The Department replied that extension of time in most of the cases was already approved. The extension in time was mainly due to slow funding. In DP. 32 (CCD-II, Peshawar), the department replied that record was not available due to inquiry.

The reply was not accepted because extension in time on justified grounds with reference to year-wise break-up of budget demands/allocations, work plans, progress reports of works with planned

and actual physical and financial progress, completion reports, etc., were not provided in support of reply.

DAC meeting was not convened by PAO despite requests made by Audit on 10.11.2023, 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends early recovery of liquidated damages owed by the contractors amounting to Rs 845.854 million, and taking disciplinary action for failing to perform official duties to recover the said liquidated damages against the officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the 18 formations concerned. Further, Projects Wing of the Planning Commission should proactively review the PC-III, PC-IV and PC-V reports to ensure timely recovery of liquidated damages owed by the contractors.

(DP.32, 37, 39, 115, 116, 137, 176, 219, 290, 302, 360, 367, 401, 429, 434, 436, 441, 467, 485, 509, 535 &540)

5.4.19 Unjustified payment for items of works without recording location and date of execution - Rs 806.137 million

Conditions (i) (ii) & (viii) of the contract agreement/ acceptance letter provide that no excess over and above the quantities given in the BOQ shall be executed in respect of all items of work. The work should be executed strictly in accordance with specification/standard stipulated in the agreement and work should be executed according to agreement provision and field tests must be conducted as per requirement at site.

According to Para 209(d) of CPWA Code, all payments for work done or supplies are made on the basis of quantities recorded in the Measurement Book. It is incumbent upon the person taking measurements to record the quantities clearly and accurately. He would also work out and enter in the measurement book the figure for the contents or area column.

Audit noted that the Executive Engineers of three (03) divisions of Pak PWD awarded following development schemes during the financial year 2022-2023:

S No.	DP. No.	Formation/Division	No of Works	Contract Cost (Rs in million)	Up to date Exp (Rs in million)
1	18	CCD Bahawalpur	1	42.514	46.969
2	404	E&M Islamabad	169	182.274	169.255
3	470	CCD Hyderabad	26	740.568	589.913
		Total	196	965.356	806.137

Audit observed that the Department measured and paid for items of work without recording the exact locations and without exact date of measurement as per approved estimate/plan in 196 projects. Audit is of the view that funds were required to be utilized only for those locations/places against which funds were received. Therefore, utilization of funds other than approved locations and dates was not justifiable.

This resulted in an unjustified payment for items of works without recording location or dates of their use amounting to Rs 806.137 million.

Audit maintains that the irregularity occurred due to weak enforcement of the prescribed operational, supervisory and pre-audit controls.

Audit pointed out the irregularity in September-November 2023. The Department replied that the works were not carried out in unspecified and unknown locations. The execution of these works were duly verified by the Assistant Executive Engineer, Executive Engineer and site staff.

The reply was not accepted because items of work were measured without recording the exact locations and without exact date of measurement as per approved estimate/plan.

DAC meeting was not convened by PAO despite requests made by Audit on 10.11.2023, 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup losses due to unjustified payment for items without recording location or date of their execution amounting to Rs 806.137 million in 196 projects, and taking disciplinary action for failing to perform official duty to record such location and dates of use of items against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the 03 formations concerned.

(DP. 18, 404 & 470)

5.4.20 Non-preparation of rate analysis of non-scheduled items prior to award of contract - Rs 609.717 million

As per para 296 of CPWA Code, to facilitate the preparation of estimates, as also to serve as a guide in settling rates in connection with contact agreements, a schedule of rates for each kind of work commonly executed should be maintained in the division and kept up to date. It should be prepared based on the rates prevailing in each locality and necessary analysis of the rates for each description of work and for the varying conditions thereof should, so far as may be practicable, be recorded.

Audit noted that Executive Engineers of four (04) divisions of Pak PWD awarded following works under SAP comprised of scheduled and non-scheduled items for Rs 639.717 million:

S. No.	DP. No.	Formation/Division	No. of Works	Contract Cost	Amount involved (Rs in million)
1	73	E&M, Pak PWD Quetta	02	761.979	29.706
2	209	E&M-I, Pak PWD Karachi	04	85.393	85.393
3	396	Project E&M, Pak PWD, Islamabad	01	331.735	225.543
4	416	CEM-I, Pak PWD, Lahore	13	419.044	269.075
		Total	20	1,598.151	609.717

Audit observed that non-scheduled items were based on prevailing market rates whereas rate analysis duly supported with quotations were not found attached with the estimate. Audit holds that, in the absence of rate analysis, rates put in tender were unauthentic/ uneconomical. This resulted in non-preparation of rate analysis of non-scheduled items involving irregular payment for Rs 609.717 million.

Audit pointed out the irregularity in September-November 2023. The Department replied that the rate analysis of all non-scheduled items were prepared and got approved in the Technical Sanctioned Estimates.

The reply was not accepted because rate analysis, based on three quotations from the open market, were not produced in support of reply.

Audit maintains that the irregularity occurred due to overall weak management on the part of Pak PWD.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup losses due to non-preparation of rate analysis of non-scheduled items worth Rs 609.717 million and taking disciplinary action for failing to perform official duty to prepare such rate analysis against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works' execution at the 04 formations concerned. Further, Planning Commission and PPRA should strengthen their monitoring functions to ensure preparation of rate analysis of non-scheduled items prior to award of contracts.

(DP 73, 209, 396 & 416)

5.4.21 Payment of 3% contingency funds to contractors against work done instead of saving the same - Rs 569.037 million

According to bid acceptance letters issued by the Chief Engineer (CZ), Pak PWD, Lahore, para xv, all the Executive Engineers/Divisional Accounts Officers will ensure saving 3% for contingencies.

Audit noted that Pak PWD awarded PSDP and SAP schemes to contractors with different contract costs with completion period of 180 days during the financial year 2022-23.

Audit observed that an amount of Rs 18,650.613 million was paid to contractors for work done, including 3% contingencies, which was part of Rs 569.037 million TSE/PC-I against the released amount. According to codal instructions, the Divisional Officer was responsible for saving the 3% contingent amount but the same was utilized under the work done in violation of above instruction. This resulted in non-compliance with financial responsibilities amounting to Rs 569.037 million **(Annexure-AU)**.

Audit holds that utilization of contingencies amount occurred due to weak enforcement of the prescribed operational, supervisory and pre-audit controls.

Audit pointed out the irregularity in September-November 2023. The Department replied that the amount under sub-head “contingencies” of the PC-I/Engineer’s Estimates was incurred for execution of unforeseen works.

The reply was not accepted because the provisions of PC-I and engineer’s estimates were violated. The instructions of the respective Chief Engineer were also not observed.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup losses due to non-saving of contingency expenditure amounting to Rs 569.037 million and taking disciplinary action for failing to perform official duty to make such savings against the officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works’ execution at the 06 formations concerned.

(DP. 96, 233, 283, 307, 325, 347 & 355)

5.4.22 Non-surrendering of funds at year end and preventing their lapse - Rs 566.017 million

According to the policy guidelines of the Cabinet Division for SAP, “if scheme(s) is/are not started within two months of date of issuance of administrative approval, the funds will be immediately surrendered to Federal Government/Cabinet Division. The savings against schemes completed shall be surrendered immediately on completion, without waiting for closing of the financial year. No new scheme shall be entertained against savings of the originally funded schemes.”

Audit noted that Executive Engineers of four (04) divisions of Pak PWD kept an amount of Rs 303.627 million pertaining to SAP in non-lapsable account and transferred an amount of Rs 262.390 million to other divisions for the financial year 2022-23.

Audit observed in two cases that the funds of development schemes were released for SAP works. The department was required to complete the work within the financial year of award of works. But the department could not execute/ complete the works timely and retained the amount as unspent balances in PLA-IV. Audit further observed in two other cases that an amount of Rs 262.390 million was transferred to other divisions of Pak PWD in the last week of June, just to avoid their lapse. The resulted in unjustified retention of Rs 303.627 million in non-lapsable account and irregular transfer of funds to other divisions amounting to Rs 262.390 million.

Audit pointed out the irregularity in October 2023. The Department replied in DP. 103, 238 that funds were retained relating to ongoing schemes. In DP. 97 and 248, the Department replied that funds were surrendered instead incurring hasty expenditure.

The reply was not accepted because retention of lapsable development funds in two cases was violation of financial rules. Evidence of delayed release of funds and their in time surrender of funds was not provided to Audit.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup losses due to non-surrendering of funds and preventing their lapse amounting to Rs 566.017 million, and taking disciplinary action for failing to perform official duty to maintain financial discipline at year end against the officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the 04 formations concerned.

(DP 97, 103, 238 & 248)

5.4.23 Non-deposit of income tax deducted from payments to contractors into treasury - Rs 513.551 million

Section 153(1)(c) of Income Tax Ordinance, 2001 provides that every officer authorized to make payments on behalf of Government is required to deduct income tax @ 7.5% from payment of work done or services rendered and timely deposited into treasury at the end of every month.

Audit noted that various formations of Pak PWD department awarded different works of PSDP during the year 2021-23 (**Annexure-AV**).

Audit observed that the Department deducted income tax amounting to Rs 513.551 million (7.5%) from payments to contractors, while in some cases, income tax was not deducted giving undue favour to such contractors. Further, deducted tax was not deposited into the government treasury at the end of the month.

Audit maintains that irregularity occurred due to weak enforcement of the prescribed operational, supervisory and accounting controls.

Audit pointed out the irregularity in October and November 2023. The Department replied in DP. 123, 151 and 314 that the payments were made to the contractor without deduction of income tax due to tax exemption areas. In other eight cases, the Department replied that the deducted income tax was deposited with the income tax authorities.

The reply was not accepted because tax exemption certificates and computerized payment receipts with reference to deposited income tax were not provided in support of reply.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends early remittance to treasury of income tax deducted from payments to contractors amounting to Rs 513.551 million, and taking disciplinary action for failing to perform official duty to make such remittances against the officers concerned.

(DP. 45, 62, 113, 123, 151, 208, 314, 344, 433, 452 & 562)

5.4.24 Release of security deposit of contractors without completion statement/ report of works - Rs 398.511 million

According to Rule 284, GFR Vol-I, the percentage deductions from bills held as security in connection with contracts to execute works should not be refunded till the final bill has been prepared and passed.

As per paras 7.22 and 7.24 of Pak PWD Code, a consolidated completion statement in Central PWA Form No. 45 should be prepared monthly of all completed works. This report should give a

comparison and explanation of difference between the quantity, rate and cost of work executed and those entered in the estimate. On the completion of any work of which a completion report or statement is required, such report or statement should be forwarded by the Divisional Officer to the Director Budget and Accounts who shall, after verification of the figures, transmit it to the Superintending Engineer concerned. On the completion of a project, studies shall be conducted from the technical point of view by the Divisional Officer concerned in consultation with the Structural and Quantity Surveying Sections and an evaluation report shall be prepared for the evaluation of the work and the work procedure. These evaluation reports shall be utilized for future guidance.

Audit noted that different formation of Pak PWD released an amount Rs 398.511 million of security deposit of contractors for different schemes/works during 2022-23 without final accounts (**Annexure-AW**).

Audit observed that the contractors had completed the works/ development schemes up to 100% and payments were made accordingly but the Divisional Office did not prepare final accounts/ bills and completion statement of works for onward submission to higher authorities. Audit further observed that the Divisional Office released the securities of the contractors without finalizing the accounts of the works and without making any kind of adjustments. The evaluation reports of the works were also not prepared for future guidance in same type of works as per quoted rules. This resulted in unjustified release of securities of the contractors due to non-preparation of completion statements/ reports of works of Rs 398.511 million.

Audit maintains that irregularity occurred due to weak enforcement of the prescribed operational, supervisory and pre-audit controls.

Audit pointed out unjustified release of securities in October and November 2023. The Department replied that in certain cases (DP. 134, 146, 432) security deposit was released due to slow funding issue. In other cases, the security deposit was released against completed works.

The reply was not accepted because the security deposit was to be retained till expiry of the defect liability period after completion. Moreover, formalities of preparation of PC-IV, obtaining of non-duplication certificates and final bills of the works were also not fulfilled before release of security deposit.

DAC meeting was not convened by PAO despite requests made by Audit on 10.11.2023, 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup losses due to unjustified release of security deposits before completing prerequisite codal formalities amounting to Rs 398.511 million, and taking disciplinary action for failing to perform official duty to complete such formalities against the officers concerned.

(DP. 35, 134, 146, 247, 432 & 534)

5.4.25 Unjustified expenditure due to non-utilization of services of maintenance staff - Rs 386.304 million

As per para 2.03 of Pak PWD Code, 1982, the work charged establishment includes such establishment as is employed upon the actual execution, as distinct from the general supervision, of a specific work or of sub-works of a specific project or upon the subordinate supervision of departmental labour, stores and machinery in connection with such a work or sub-works. Further, the work charged staff shall not be engaged on any work unless provided for in the estimate as a separate sub-head of the estimate for that work.

Audit noted that Executive Engineers of three (03) divisions of Pak PWD, Islamabad are operating twenty-six (26) enquiry offices wherein 632 employees are deployed for providing maintenance services to government-owned accommodations and offices located at different places of Islamabad.

Audit observed that an expenditure of Rs 326.931 million was incurred up to June 2023 on account of salaries of maintenance staff without assigning any duty as no material was procured during the year 2022-23. Further, all repair and maintenance works of routine nature are being executed through private contractors and an amount of Rs 251.282 million was shown incurred on account of repair and maintenance works through contracts. This resulted in an unjustified expenditure due to non-utilization of services of maintenance staff amounting to Rs 326.931 million.

Audit pointed out the irregularity in October and November 2023. The Department replied that the salary of the regular maintenance staff could not be stopped due to no-fault at their part. If sufficient funds were released by Finance Division for maintenance, the material would have been purchased to carry out repair of government houses.

The reply was not accepted because Pak PWD did not plan any way forward for utilization of idle maintenance staff. Chances of ghost/absent employees due to no work were there

and condition of government owned houses has also been deteriorating day-by-day due to non-maintenance.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends that a comprehensive report may be prepared regarding formation-wise sanctioned and available strength of maintenance staff, daily attendance reports, list of ghost employees, maintenance complaints received, complaints attended with acknowledgements, break up of cost on purchase of material and salary expense, etc., and report may be shared with Audit.

Note: The issue was reported earlier also in the Audit Report for Audit Year 2021-22 vide para number 5.5.20, having a financial impact of Rs 115.026 million. The recurrence of same irregularity is a matter of serious concern.
(DP 164, 379 & 444)

5.4.26 Unjustified payment due to execution of additional works on already completed schemes - Rs 310.257 million

Rule 56 of CPWA Code provides that properly detailed estimate must be prepared for the sanction of competent authority, this sanction is known as the technical sanction to the estimate and, except in cases such as are referred to in paragraphs 58 and 75, must be obtained before the construction of the work is commenced. As its name indicates, it amounts to no more than a guarantee that the proposals are structurally sound, and that the estimates are accurately calculated and based on adequate data.

Sub-clause 43.1 of the General Condition of Contract provides that the works shall be completed on or before the date stated in Appendix-A to Bid. The bidder shall provide as Appendix-E to Bid the construction schedule in the bar chart showing the sequence of work items and the period during which he proposes to complete each work item in such a manner that his proposed programme for completion of the whole works and parts of the works may meet Employer's completion targets.

Audit noted that the Executive Engineer, Central Civil Division, Pak PWD, Gujranwala awarded the work "Pavement of Streets, Soling, System in 15 different areas of district Gujranwala" to the contractor on 24.10.2022 with agreement amount of Rs 497.368 million with completion period of 12 months. The total value of work done paid to the contractor up to the 8th running bill was Rs 310.257 million.

Audit observed that the original PC-I of the said work was approved for Rs 290.00 million on 20.05.2020. After completion of original scope of work, the additional scope was added and PC-I was revised to Rs 874.627 million and estimate was technically sanctioned by the Chief Engineer (CZ), Pak PWD, Lahore for additional scope amounting Rs 497.601 million without approved site plan and requirement. Audit is of the view that after completion of schemes as per original scope of work, the revision, by adding the additional scope on same schemes, was not justifiable because works/ schemes as per original scope had already been completed. This resulted in an unjustified payment of Rs 310.257 million.

Audit pointed out the unjustified payment during November 2023. The Department replied that the original PC-I was approved by the competent forum of DDWP for 15 different Union Councils with limited villages. According to demand of the local community members, the scope of work increased in the same villages as well as other villages falling under 15 Union Councils.

The reply was not accepted because works/ schemes as per original PC-I had already been completed and, after completion of schemes, the scope of same was enhanced without proper survey at site and without approved site plan and requirements and all work was executed against the defined and approved scope by DDWP.

Audit maintains that unjustified payment occurred due to weak enforcement of the prescribed operational, supervisory and regulatory controls.

DAC meeting was not convened by PAO despite requests made by Audit on 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup losses due to payments for additional works without approved site plan amounting to Rs 310.257 million, and taking disciplinary action for failing to perform official duties to prepare such site plan against the officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at Central Civil Division, Pak PWD, Gujranwala. Further, Projects Wing of the Planning Commission should proactively review the PC-III, PC-IV and PC-V reports to prevent unjustified additions to scope of works.

(DP. 256)

5.4.27 Irregular award of work through defective estimates – Rs 258.794 million

Para 56 of CPWA Code provides that properly detailed estimate must be prepared for the sanction of competent authority, this sanction is known as the technical sanction to the estimate and, except in cases such as are referred to in paragraphs 58 and 75, must be obtained before the construction of the work is commenced. As its name indicates, it amounts to no more than a guarantee that the proposals are structurally sound, and that the estimates are accurately calculated and based on adequate data.

As per Office Memorandum No. CEN/W-3/1647/7219 dated 04.10.2019, (Estimate No. CEN/152 of 2019-20), estimate was accorded technical sanction subject to following conditions: the Scope of work as specified in the technically sanctioned estimate shall not be changed without prior approval of the office; the Executive Engineer and Superintending Engineer shall personally ensure that the design and drawing are proper in order and approved by the competent authority concerned; the quantities as incorporated in the technically sanctioned estimate for any item/items of work shall not be enhanced/curtailed beyond 15% limit without prior approval of this office.

Audit noted that the Executive Engineer, CCD-III, Pak PWD Islamabad awarded the work "Construction of Model Addiction Treatment and Rehabilitation Center (MATRC), Humak" to M/s Ch. Mubarak Ali Contractor at agreement cost of Rs 258.794 million, which was 96.90% above on scheduled rate items and 11.50% above on non-scheduled rate items than the approved estimate/NIT amount for Rs 170.810 million.

Audit further observed that the estimate was prepared by adding premium of 50% to 60% on schedule rates. The bid was accepted at 96.90% above on schedule rates and work was awarded at higher rates to give undue benefit to the contractor.

Audit holds that the irregularity occurred due to overall weak management on the part of Pak PWD.

Audit pointed out the irregularity in November 2023. The Department replied that work was awarded 96.90% above on scheduled rate items and 11.50% above on non-scheduled rate items than the approved estimate of Rs 234.991 million.

The reply was not accepted because higher rates of more than 15% above the engineer's estimate were accepted without revision of PC-I/TS estimate.

DAC meeting was not convened by PAO despite requests made by Audit on 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup losses due to award of contract at a cost significantly greater than the approved estimate/NIT amount, and taking disciplinary action for failing to perform official duties to be financially vigilant in award of contracts against the officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at CCD-III, Pak PWD Islamabad. Further, DG, PWD Technical Wing should strengthen their monitoring controls to ensure proper evaluation of Engineer Estimates.

(DP. 440)

5.4.28 Advance payment to Pakistan Railways and Director FDA without vouched account - Rs 227.91 million

As per para 72 of CPWA Code, as a general rule, every payment, including repayment of money previously lodged with Government for whatever purpose, must be supported by a voucher setting forth full and clear particulars of the claim and all information necessary for its proper classification and identification in the accounts. The full name of the work as given in the estimate and other particulars specified in paragraph 198 or the head of account, to which the charges admitted on a voucher are debit able, or to which the deductions or other credits shown in the voucher are creditable, should be clearly indicated on it in the space provided for the purpose or in some prominent position.

Audit noted that Executive Engineers, CCD, Multan and Faisalabad made advance payments, respectively, to Pakistan Railways and Director FDA of Rs 180.660 million and Rs 47.250 million for construction of underpass at railway track and purchase of land during the financial year 2022-23.

Audit observed that the Department made payments amounting to Rs 227.91 million without obtaining details of the disbursement to the owner, utilization report and vouched account from the concerned. This resulted in unjustified payment credited in favour of Director FDA and Pakistan Railways without obtaining of vouched account amounting to Rs 227.91 million.

Audit pointed out the irregularity during October and November. The Department replied that the vouched account would be obtained and produced to Audit for verification.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup losses due to payment without obtaining details of the owners, utilization report and vouched accounts amounting to Rs 227.91 million, and taking disciplinary action for failing to perform official duty to obtain such prerequisite

for payments against the officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of these payments at the 02 formations concerned.

(DP 128 & 170)

5.4.29 Unauthorized excess payment of price escalation beyond the provision in PC-I - Rs 211.616 million

According to Part-I, clause-(A) 1 of the Procedure for Payment of Price Adjustment, the provisions for Price Adjustment shall be applicable to the projects to be executed. For the ongoing contracts, the existing provisions provided in the contract shall continue to apply, until and unless a mutually agreed amendment to the contract is signed by the parties to the contract, thereby incorporating a Price Adjustment clause, provided the Federal Government has issued such Notification from time to time for those contracts having no Price Adjustment provisions

Audit noted that Executive Engineers, CCD-IV and CCD-II divisions of Pak PWD, Islamabad and CCD, Pak PWD, Muzaffargarh awarded contracts for Construction of Legal Facilitation Centre at Islamabad High Court to M/s City Traders Builders and Contractors at an agreement cost of Rs 1,446.224 million; for capacity building of field offices for Election Commission at Jhelum with agreement cost of Rs 91.259 million; and construction of Musa Khail Taunsa Road-35km (Package-I,II & III) to M/s Habib Construction Co and M/s Sherjan Musal Khail & Sons during financial year 2022-23.

Audit observed that total amount of escalation/price adjustment paid to contractor was Rs 425.546 million whereas the portion of escalation fixed/approved in PC-I of the project was Rs 217.922 million, which is in excess of Rs 207.624 million. Furthermore, Audit observed that CCD-IV, Pak PWD, Islamabad paid escalation of Rs 101.008 million up to 13th bill against actual calculation of Rs 97.016 million, causing excess payment of Rs 3.992 million. This resulted in an unauthorized excess payment to contractor for price escalation beyond the approved provision in PC-I amounting to Rs 211.616 million, as detailed below:

DP	PC-I Provision (Rs in million)	Escalation paid (Rs in million)	Excess escalation (Rs in million)
149	38.679	101.008	62.329
161	Actual calculation up to 13 th bill 97.016	Paid 101.008	3.992

DP	PC-I Provision (Rs in million)	Escalation paid (Rs in million)	Excess escalation (Rs in million)
251	175.000	317.049	142.049
539	4.243	7.489	3.246
Total			211.616

Audit pointed out the irregularity in October-November 2023. The Department replied in DP. 149 that price adjustment would be revised after completion of work as per agreement. In DP. 251, the Department replied that the revised PC-I was in process. In DP. 539, the Department replied that the price adjustment was within the limits of approved PC-I. In case of DP. 161, the Department did not reply.

The reply was not accepted because justification for the excess payment of price escalation with reference to PC-I/contract provisions, basis of provisions in PC-I/contract agreement, work plans, measurements, etc., were not provided to Audit.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends recovery of Rs 211.616 million from contractors for undue excess payments of price escalation, and taking disciplinary action for failing to perform official duty to pay for price escalation as per PC-I against the officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of these payments at the 02 formations concerned.

(DP 149, 161, 251 & 539)

5.4.30 Overpayment due to non-deduction of sorting and stacking charges - Rs 195.176 million

According to item 28.01.11 of Pak PWD specifications, excavated material is required to be stacked near the site of the work and use in work. If stacking is not possible, then the quoted rate would be reduced by 50% and material obtained from excavation will be the property of Pak PWD. Serviceable material was to be stacked in place pointed out by Engineer in charge.

Further, the composite rate for an item of work excavation or cutting in hard rock by blasting including sorting and stacking the excavated stuff complete within lift of 5 feet and lead up to 100 feet was payable @ Rs 4,075.83% cft. Excavation or cutting in soft rock by blasting including sorting and stacking the excavated stuff complete within lift of 5 feet and lead up to 100 feet was payable @ Rs 2,034.35% cft.

Audit noted that the Executive Engineers, Central Civil Division, Pak PWD, D.I. Khan and Batkhela awarded various development schemes to contractors with different contract costs during the financial year 2022-2023.

Audit observed that the items of works “Excavation or cutting in hard & soft rock” were measured and paid as per quoted rates but neither the serviceable stone obtained from excavation by blasting was sorted, stacked and taken on stock for issuance to this work or any other work for utilization, nor the stacking charges @ 50% were deducted while making payment to contractors, amounting to Rs 195.176 million. This resulted in overpayment of Rs 195.176 million.

Audit pointed out the overpayment in November 2023. The Department did not reply.

Similar issue regarding non-deduction of sorting and stacking charges was discussed in DAC meeting held on 29.11.2023 wherein the DAC directed the department to recover the overpaid amount on account of sorting and stacking charges within 15 days.

Audit recommends recovery of Rs 195.176 million from contractors for overpayment due to non-deduction of stacking charges, and taking disciplinary action for failing to perform official duty to deduct such charges against the officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of these payments at the 02 formations concerned.

(DP 292, 297 & 555)

5.4.31 Unjustified payment due to lack of re-fixation of rates for excessive quantities in revised PC-I - Rs 188.701 million

As per clause 52.2 of the Contract Agreement, no change in the contract shall be considered unless such item accounts for an amount more than 2 percent of the contract price as stated in the letter of acceptance and the actual quantity of work executed under the item exceeds or fall short of the quantity set out in the bill of quantity by more than 30 percent.

Audit noted that Executive Engineer, Pak PWD, Faisalabad awarded a work “Construction of Bridge Over River Ravi at Mal Fatyana” to M/s Sh. Abdul Razzaq & Co (Pvt) Limited, with contract cost of Rs 1,189.153 million. The contract cost was revised up to Rs 1,910.737 million through 2nd Revised PC-I in 2019. Total value of work done paid up to 33rd running bill was Rs 1,117.675 million.

Audit observed that quantities of four (04) items of work were increased from 108% to 146% of the approved BOQ quantities, which was more than 30% of the item but the same were not considered for reconsideration of rates. Audit is of the view that items against which the contractor quoted rate much higher than the estimated rate was increased manifold and it was qualified for re-fixing of rate conditions. Therefore, the Department was required to make payment of these items after re-rating which was not done. This resulted in an unjustified payment due to non-re-fixing of the rates for excessive quantities amounting to Rs 188.701 million.

Audit pointed out the unjustified payment in October 2023. The Department replied that the consultant had not conveyed any reservations with regard to rates and quantities executed at site.

The reply was not accepted because re-fixation of rates as per provision of contract referred above were not followed.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends recovery after rerating of items from the contractor for being unjustified overpayment and taking disciplinary action for failing to perform official duty to re-fix the rates of excessive quantities as specified in the Contract against the officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works’ execution at Pak PWD, Faisalabad. Further, Projects Wing of the Planning Commission should proactively review the periodic PC-III reports to ensure re-fixing of rates for excessive quantities as specified in the Contract.

(DP. 178)

5.4.32 Execution of repair and maintenance without availability of requisite funds incurring liability - Rs 181.717 million

As per para 58 of CPWA Code, it is a fundamental rule that no work shall be commenced or liability incurred in connection with it until administrative approval has been obtained, a properly detailed design and estimate have been sanctioned, expenditure sanction has been accorded and allotment of funds made.

Audit noted that the Executive Engineer, CCD-III, Pak PWD, Islamabad executed repair and maintenance works during financial years 2020-21 to 2022-23.

Audit observed that an annual maintenance plan was required to be prepared and approved for seeking funds and their effective and efficient utilization. Audit further observed that the said formation executed repair and maintenance work of Minister's Enclaves, F-5/2, Islamabad for Rs 181.717 million without funds. Executive Engineer of the said formation has created a huge amount of pending liabilities in violation of the aforementioned guidelines for financial viability.

Audit pointed out the irregularity in November 2023. The Department replied that the expenditure on the residences in Ministers Enclave, was incurred as per available allocation. The liability of the contractor would be cleared on receipt of funds under supplementary grant.

The reply was not accepted because expenditure was incurred and liability created without availability of funds against the rules.

DAC meeting was not convened by PAO despite requests made by Audit on 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends taking disciplinary action for failing to perform official duty to undertake financially viable projects against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works' execution at CCD-III, Pak PWD, Islamabad.

(DP. 446)

5.4.33 Award of works without fair competition in the bidding process - Rs 112.080 million

Rule 4 of the Public Procurement Rules, 2004 provides that procuring agencies, while engaging in procurements, shall ensure that procurement brings value for money to the agency and the procurement process is efficient and economical, Rule-20 ibid states that procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

Audit noted that the Executive Engineer, Central Civil Division Pak. PWD Nawabshah, Shaheed Benazirabad (SBA) awarded 89 development schemes under Sustainable Development Goals Achievement Program (SAP) to different contractors at bid cost of Rs 1,273.57 million and incurred an expenditure of Rs 1,209.03 million during the financial year 2022-23.

During scrutiny of the tendering process of thirteen (13) development schemes for Rs 112.080 million out of 89, Audit observed that in nine (9) cases two bidders while in other four (4), single bidder participated in tendering process. M/s Ch. Iftikhar Ahmed & Co was awarded four (4) contracts, and M/s Salcon Construction was awarded three (3) contracts.

This indicated that a group of bidders gripped the whole process and impaired the objectivity of most competitive rates through open tendering and bringing value for money. This resulted in award of works without fair competition in the bidding process amounting to Rs 112.08 million.

Audit is of the view that lesser/ limited competition can result in higher prices and reduced efficiency, as there's less pressure on bidders to offer the most competitive rates.

Audit pointed out the irregularity in December 2023 but the Department did not reply.

The similar issue was discussed in DAC meeting held on 24.01.2024. The DAC directed the department to conduct Fact Finding Inquiry and submit the inquiry report to the Audit

within 30 days. The DAC further directed the department to provide breakup of works with nature, number of contractors engaged, dated requisitions, basis/evaluation of rates, bid evaluation reports, annual plans, tender registers, etc., to the Audit for verification.

Audit recommends that appropriate steps may be initiated to promote healthy competition, transparency, and fairness. Encouraging multiple bidders can enhance the overall effectiveness and efficiency of the tendering process.

(Para 09 of LAIR)

5.4.34 Non-adjustment/utilization of serviceable material - Rs 93.334 million

Para 6.09 of Pak PWD Code, 1982 states that a proper detailed estimate must be prepared for the sanction of the competent authority for each individual work proposed to be carried out. This sanction was known as the Technical Sanction to the estimate and must be obtained before the construction of work was commenced. As its name indicates, it amounts to no more than a guarantee that the proposal is structurally sound, and that the estimates are accurately calculated and based on adequate data.

Audit noted that the Department awarded different contracts under the PSDP and SAP schemes pertaining to construction of buildings and roads during the financial year 2022-23.

Audit observed during scrutiny of account records of different formations of Pak PWD that the contractors were paid items like excavation of earth, cutting of hard rock and scarifying sub base and base course without utilizing/ adjusting the serviceable material. This resulted in non-utilization/adjustment of serviceable material worth Rs 93.334 million (**Annexure-AX**).

Audit pointed out the irregularity in October and November 2023. The Department replied that the stone, earth, bricks, etc., obtained from excavation/dismantling were not re-usable and disposed of accordingly.

The reply was not accepted because evidence regarding surplus material disposal under orders of the Engineer incharge with site map/lead chart showing the disposal of the excavated/dismantled material were not provided in support of the reply.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends recovery of Rs 93.334 million from the contractors as adjustment for serviceable materials, and taking disciplinary action for failing to perform official duty to utilize/adjust serviceable materials against the officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the 06 formations concerned.

(DP. 135, 155, 157, 172, 228, 309 & 371)

5.4.35 Non-obtaining insurance coverage and non-recovery of premium @ 1% of contract cost - Rs 77.217 million

Clause 21.1.25 of the Agreement provides for insuring the works together with materials and plant by the contractor, who was also required to get third party insurance (including Employer's property) against liabilities for death of or injuries to any person or loss or damages to the property arising out of the performance of the contract and provide such evidence to the Employer prior to start of work. The bid rates shall be deemed to have included all such obligations required under the clause and no separate payment shall be made to the contractor for such insurance. In case of failure of the contractor to keep enforced any of the insurances required, the Employer was to effect and keep enforced the insurances by paying premium and recovery from the payments due to the Contractor.

Audit noted that the Pak PWD awarded various project/ works to different contractors involving agreement cost of Rs 7,721.775 million (**Annexure-AY**).

Audit observed that the department did not obtain the required insurance policies from the contractors. Insurances were not invoked which not only resulted in undue benefit to the contractors but also put the entire works, equipment, property and labour at risk. This resulted in non-obtaining of insurance coverage for the works valuing Rs 7,721.775 million and non-recovery of inbuilt cost of premium of Rs 77.217 million.

Audit pointed out the irregularity in September-November 2023. The Department replied that insurances were obtained as required.

The reply was not accepted because original insurance cover with evidence of insurance premium payments were not produced in support of reply.

DAC meeting was not convened by PAO despite requests made by Audit on 10.11.2023, 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends recovery of Rs 77.217 million as insurance premium from the contractors concerned, and taking disciplinary actions for failure to perform official duty to recover insurance premium under the Contract against the officers concerned.

(DP. 13, 52, 68, 194, 242, 427, 459, 475, 489, 532, 543 & 545)

5.4.36 Execution of works without appointment of consultant - Rs 70.808 million

According to para 2.3 of Planning Commission's Guidelines for Project Management, 2008, in case of mega projects, consultants should be appointed for preparation and supervision of work. Consultants should be associated from the stage of preparation of the project. Donor agencies generally insist on appointment of consultants in accordance with their own procedures. Government of Pakistan should endeavor to employ Pakistani consultants, who should work with devotion and responsibilities. In case it is not acceptable to a particular donor agency, we should insist that our local consultants should work jointly with foreign consultants at equal status and reasonable salary structure comparable with their counterparts, except for the top positions where foreign consultants may continue to operate.

Audit noted that the Executive Engineer, CCD-IV Division, Pak PWD, Islamabad awarded contract for Construction of Legal Facilitation Centre at Islamabad High Court to M/s City Traders Builders and Contractors at an agreement cost of Rs 1,446.224 million. Total payment made to contractor up to 13th Running bill for was Rs 792.773 million.

Audit observed that, as per approved PC-I of the project, the portion of consultant charges @ 4.25% was approved for Rs 70.808 million, whereas the Department executed the work without appointment of a consultant. Audit further observed that due to non-appointment of consultant, the project was implemented by the Department with a lot of variation, i.e., the entire BOQ was prepared on market rates, prequalification and tendering process was poor, execution of hard rock work/extra items was done without open tender, there was non-inspection of construction work activities, etc. This resulted in execution of project without appointment of project consultant for Rs 70.808 million.

Audit maintains that the irregularity occurred due to overall weak management on the part of Pak PWD, including its operational and supervisory controls.

Audit pointed out the irregularity in October, 2023. The Department replied that the work was supervised by qualified/ experienced engineers of the department. The cost of consultancy charges was saved.

The reply was not accepted because as per PC-I provisions, the work execution was to be supervised through independent consultancy firm.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup losses due to non-appointment of consultant as approved in PC-I, and taking disciplinary actions for failure to perform official duty to appoint the consultant against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works' execution at CCD-IV Division, Pak PWD, Islamabad. Further, Projects Wing of the Planning Commission should proactively review the periodic PC-III reports to ensure timely appointment of prescribed consultants for works contracts.

(DP. 152)

5.4.37 Acceptance of fake/bogus Call Deposit Receipts and award of work to non-responsive bidder - Rs 70.592 million

According to Instructions to Bidders, IB.15, each bidder shall furnish, as part of his bid, a Bid Security in the amount stipulated in the Bidding Data in Pak Rupees or an equivalent amount in a freely convertible currency. The Bid Security shall be, at the option of the bidder, in the form of Deposit at Call or a Bank Guarantee issued by a Scheduled Bank in Pakistan or from a foreign bank duly counter guaranteed by a Scheduled Bank in Pakistan or an insurance company having at least AA rating from PACRA/JCR in favour of the Employer valid for a period of 28 days beyond the Bid Validity date.

Audit noted that the Executive Engineer, CCD-IV Division, Pak PWD, Islamabad awarded contract for construction of Legal Facilitation Centre at Islamabad High Court to M/s City Traders Builders and Contractors at an agreement cost of Rs 1,446.224 million; Executive Engineer, CCD, Multan floated tenders for (03) schemes on 24.02.2023 in which M/s Yousaf Randhawa submitted call deposit receipts (CDRs) amounting to Rs 3.00 million with his bid; and Executive Engineer, CCD-V, Islamabad awarded contract for establishment of Cancer Hospital at PIMS, Islamabad to M/s M. Saleem & Co at agreement cost of Rs 1,995.960 million.

Audit observed during scrutiny of accounts record that:

Bidder M/s City Traders Builders and Contractors submitted CDR with bid of Rs 30.00 million bearing CDR No. 62777762 dated 23.04.2022 issued by Allied Bank Limited (0666), G-8 Markaz, Islamabad, which bank does not exist in G-8 Markaz. (DP. 140)

M/s Ch. Muhammad Yousaf Randhawa purchased tenders of said three works and submitted the tenders in division along-with CDRs of MCB amounting to Rs 6.350 million. The Department deposited all CDRs in National Bank of Pakistan for clearance on 02.06.2023. However, NBP Operation Manager informed the Department that CDRs of the contractor M/s Ch. Muhammad Yousaf Randhawa were declared bogus/fake. (DP. 127)

Tenders for the abovementioned work were invited on 21.10.2022 and participating bidders were required to furnish CDRs amounting to Rs 34,242,291 along with application as approved notice for inviting tender. M/s Friends Corporation Syndicate (Pvt.) Ltd. furnished a CDR bearing No. 2287897 having PO No.003227925 dated 11.11.2022 issued by the Bank of Punjab, Lahore. The State Bank of Pakistan lodges CDRs in outward clearing for collection as per laid down procedures and the instrument in question proved as fake as conveyed by the State Bank of Pakistan letter dated 21.11.2022. (DP. 225)

This resulted in unauthorized acceptance of fake/bogus CDRs submitted by contractor with bid and award of work to non-responsive bidder amounting to Rs 70.592 million (Rs 30 million +Rs 6.350 million +Rs 34.242 million).

Audit holds that award of work to non-responsive contractor and acceptance of fake/bogus CDR was due to weak enforcement of the prescribed operational and supervisory controls.

Audit pointed out the irregularity in October 2023. The Department replied in DP. 140 that DG Pak PWD debarred the contractor by imposing penalty. In DP. 127, the Department replied that the warning was issued to the contractor. As regards DP. 225, on being found fake the bidding documents were not issued to the respective firm and the case for further action was referred to Pakistan Engineering Council.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup losses due to acceptance of fake/bogus CDRs and award of work to non-responsive bidder, and taking disciplinary actions for failure to perform official duty to verify the genuineness of CDRs against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works' execution at the 03 formations concerned. Further, Planning Commission and PPRA should strengthen their monitoring functions to ensure lawful award of public procurement contracts.

(DP.140, 127 & 225)

5.4.38 Non-crediting of unclaimed security deposits to government revenue - Rs 62.886 million

Para 399 (iii) of Pak PWD Code states that balances unclaimed for more than three complete account years in the public works deposits account should be credited to Government as lapsed deposits.

Audit noted from accounts record maintained in office of the Executive Engineer, Central Civil Division-I, Pak PWD, Lahore that an amount of Rs 62.886 million of Cash Deposit of contractors as security were lying unclaimed as shown in the form CPWA-80 of Monthly Account of June 2023.

Audit observed that the said amounts of security deposits were not credited to Government revenue account as lapsed deposits. Audit further observed that Security Deposit Registers were not properly maintained as balances were not properly worked out at the end of each month/year. This resulted in non-credit of unclaimed security deposits of the contractors to revenue amounting to Rs 62.886 million.

Audit pointed out the irregularity in November 2023. The Department replied that three different references are under trial with NAB Court, Lahore against the then Officers / Officials and contractors of Central Civil Division No.I, Pak PWD, Lahore. The amount of security deposit is retained, whose contracts are involved in NAB references and some of them pertained to the running accounts of defunct people works programme (2008-13). However, the amount of security deposit is being sorted out and the actual amount of un-claimed security deposits shall be remitted to the DBA, Pak PWD, Islamabad for credit into

revenue receipt head of account. The audit office will be informed in due course of time. The Department thus admitted that unclaimed security deposits was being sorted out and shall be remitted to Government.

Audit maintains that the irregularity occurred due to weak enforcement of the prescribed operational, supervisory and accounting controls.

DAC meeting was not convened by PAO despite requests made by Audit on 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends remitting unclaimed security deposits to Government as lapsed deposits in the earliest under intimation to Audit, and taking disciplinary action for failing to perform official duty to timely deposit unclaimed security deposits into government account against officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at Central Civil Division-I, Pak PWD, Lahore.

(DP. 394)

5.4.39 Irregular payment for price escalation - Rs 59.956 million; overpayment for escalation for bricks - Rs 12.934 million

As per procedure for price adjustment laid down in Standard Procedure and Formula for Price Adjustment issued by Pakistan Engineering Council, also given in clause 70 of Contract, Part-D, the billed amount of the Works for each calendar month will be obtained from the checked bills submitted by the Contractor. In case the billed amount is for more than one month, the amount of the bill shall be segregated for actual work done in each month. As per Appendix-C to Bid, Note. 3, fixed portion shown here is for typical road project, employer to determine the weightage of fixed portion considering only those cost elements having cost impact of seven (7) percent or more on his specific project. As per Appendix-C to bid, the weightage of the bricks was provided as 0.05.

Audit noted that Executive Engineer, Central Civil Division, Pak PWD, Sargodha awarded the work "Construction of Regional Tax Office Sargodha (sub-head civil works)" to M/s Shalimar Construction Company for Rs 358.215 million. The total value of work done and escalation up to 7th running bill was Rs 277.289 million.

Audit observed that price escalation was calculated and paid on the average of cumulative work done of different month bills instead of individual month basis in clear violation of the said PEC rule. This resulted in unjustified payment of Rs 59.956 million.

Audit further observed that against BOQ provisions regarding bricks items, escalation for bricks was not admissible and variable factor of bricks was 0.05. But the authority paid escalation to contractor on bricks in violation of quoted rules. This resulted in overpayment of Rs 12.934 million.

Audit pointed out overpayment in October 2023. The Department replied that price adjustment would be revised after completion of work.

Audit holds that overpayment occurred were due to weak enforcement of the prescribed operational and supervisory controls.

DAC meeting was not convened by PAO despite requests made by Audit on 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends recovery of Rs 12.934 million from the contractor on account of unauthorized payment for escalation for bricks besides calculation of escalation on actual monthly work done, mitigation measures to review and recoup losses due to unjustified payment of price escalation on non-monthly basis, and taking disciplinary actions for failure to perform official duty to make correct payments against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works' execution at Central Civil Division, Pak PWD, Sargodha. Further, Projects Wing of the Planning Commission should proactively review the periodic PC-III reports to ensure correct payments for escalations as prescribed in works contracts.

(DP. 195)

5.4.40 Non-provision of contractual office and transport facilities to employer by contractors - for Rs 50.00 million

As per Special Provisions of Contract, clauses 6 to 8, with regards to employer offices and maintenance of employer office and vehicles, the contractor shall provide the facilities to be provided to the employer/engineer at free of cost and no payment shall be paid to contractor; all costs and connections with the special provision shall be borne by the contractor and included in the bid price; in case of failure to provide the facilities by the contractor, deduction/ recovery be made from contractor running bills. Further, according to clause 73.3, the contractors shall provide, operate and maintain one (01) No. vehicle (660 CC, Suzuki Alto AGS top variant, air-conditioned) for the exclusive use of the employer/engineer and

engineer representative to meet the transportation needs in connection with the project. The vehicle shall be new and of latest model as on the commencement date and registered in Islamabad in the name of Executive Engineer, Central Civil Division No. II, Pak PWD, Islamabad.

Audit noted that Executive Engineers, CCD-IV and CCD-II Division Pak, PWD, Islamabad awarded contract for “Construction of Legal Facilitation Centre at Islamabad High Court” to M/s City Traders Builders and Contractors at an agreement cost of Rs 1,446.224 million and construction of capacity building of the field offices of ECP, Attock and Jhelum to different contractors with cumulative agreement cost of Rs 82.235 million during the financial year 2022-23.

Audit observed that the contractors did not provide two (02) vehicles, facilities to the Employer and construct site offices, as per special provisions of the contract agreement. This resulted in non-provision of facilities to the employer by the contractor worth Rs 50.00 million.

Audit pointed out the non-provision of facilities in October-November 2023. The Department replied that the required vehicles and offices were provided by the contractors.

The reply was not accepted because record in support of reply was not provided.

DAC meeting was not convened by PAO despite requests made by Audit on 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends early recovery of Rs 50.00 million from contractors for non-provision of contractual office and transport facilities to the employer Department, and taking disciplinary actions for failure to perform official duty to obtain such facilities from contractors against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works’ execution at the two formations concerned. Further, Projects Wing of the Planning Commission should proactively review the periodic PC-III reports to ensure provision of contractual office and transports facilities to the employer Department by contractors.

(DP 153, 537)

5.4.41 Loss due to late payment of electricity and gas bills - Rs 47.779 million

According to Rule 10(i) and (ii) of GFR, Vol-I regarding standards of financial propriety, every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public moneys as a person of ordinary prudence would exercise in respect of expenditure of his own money. The expenditure should not be prima facie more than the occasion demands.

Audit noted during examination of accounts record for the financial years 2021-22 and 2022-23 of Store & Workshop Division, Pak PWD, Islamabad that utility charges (electricity and gas) of various government buildings such as Prime Minister's Secretariat, Supreme Court, Judges' Residences, Kohsar Block and Shaheed-e-Millat Secretariat are being paid by the Division.

Audit observed during scrutiny of the paid vouchers that electricity bills of various months were paid very late or a few days after due dates of the bills. These bills are required to be paid expeditiously in order to avoid late payment charges which were undue burden on the government exchequer. The utility bills were paid after due dates due to unjustified delay and mismanagement by the divisional authorities. This resulted in loss of Rs 47.779 million.

Audit maintains that late payment of utility bills occurred due to weak enforcement of the prescribed operational, supervisory and pre-audit controls.

Audit pointed out the loss in November 2022. The Department replied that delay in payment of surcharge was beyond the control due to delay in release of funds.

The reply was not accepted because efforts were not made to get the waiver of surcharge. Moreover, the record relating to demand and release of funds in support of reply was not provided.

DAC meeting was not convened by PAO despite requests made by Audit on 18.12.2023 and 03.01.2024.

Audit recommends taking disciplinary action for failing to perform official duty to timely deposit electricity and gas bills and incurring loss of Rs 47.779 million thereby against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of administration at Store & Workshop Division, Pak PWD, Islamabad.

(DP. 511)

5.4.42 Unauthentic payment of bitumen items without verification of source, sales tax invoices - Rs 40.188 million

As per clause 36.6 of particular condition of contract, the contractor shall, so far as may be consistent with the contract, make the maximum use of materials, supplies, plant and equipment indigenous to or produced or fabricated in Pakistan and services, available in Pakistan provided such materials, supplies, plant, equipment and services shall be of required standard.

As per Schedule E to Bid, the bidder shall provide a program in bar-chart showing the sequence of work items by which he proposes to complete the works of the entire contract. The program should indicate the sequence of work items and the period of time during which he proposes to complete the works including the activities like designing, schedule of submittal of drawings, ordering and procurement of materials, manufacturing, delivering, construction of civil works, erection, testing and commissioning of works to be supplied under the contract.

Audit noted that the Executive Engineer, Central Civil Division II, Pak PWD, Lahore awarded two works of "Construction of Carpet/PCC" for different roads as SAP schemes in districts Lahore and Sheikhpura.

Audit observed that the Divisional Office paid Rs 20.969 million (14,141,165+48.25% above) for an item "Hot mix bitumen" for 1st work and Rs 19.220 million (13,631,155 x 41% above) for 2nd work. However, source of bitumen was not confirmed to ensure the specified quality of the executed items. Audit further observed that the Department failed to obtain the sale tax invoices from the contractor for the quantity of the Bitumen that the contractor possesses. This resulted in unauthentic payment of the bituminous items without verification of source and obtaining sales tax invoices amounting to Rs 40.188 million. (Rs 20.969 million + Rs 19.219 million).

Audit maintains that the unauthentic payment occurred due to weak enforcement of the prescribed operational, supervisory and pre-audit controls.

Audit pointed out the irregularity in November 2023. The Department replied that sales tax invoices were not necessary as per Pak PWD specifications. Lab test reports were obtained for assuring quality of works.

The reply was not accepted because process of preparation and approval of JMF, source of procurement of bitumen and lab test reports were not produced to Audit for verification.

DAC meeting was not convened by PAO despite requests made by Audit on 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends taking disciplinary action for failing to perform official duty to obtain verification of source and sale tax invoices for payment of the bituminous items amounting to Rs 40.188 million against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works' execution at Central Civil Division II, Pak PWD, Lahore.

(DP. 326)

5.4.43 Non-deduction of material cost from the rate paid for soil aggregate - Rs 39.284 million

According to clause 28.2, General Conditions, PEC Standard Agreement, the contractor shall make his survey/ enquires regarding the suitable and nearest borrow areas for embankment, granular fill, sand, base and sub-base materials, etc., and shall apply to the Engineer for approval for the use of the borrow area. It will be the responsibility of the contractor to acquire the borrowed areas approved by the Engineer and pay for all royalties/ Malkana and all other costs of material.

As per clause 36.1 of Contract Agreement, all the materials, plant and workmanship shall be of the respective kinds described in the contract and in accordance with the Engineer's instructions. Further clause 36.6 provides that the contractor shall, so far as may be consistent with the contract, make the maximum use of materials supplies, plant and equipment indigenous to or produced or fabricated in Pakistan.

Audit noted that Executive Engineers of three (03) divisions of Pak PWD awarded different works to the contractors with different contract cost under SAP and PSDP schemes and paid for an item "making earthen embankment" in different quantities.

Audit observed that the Executive Engineers neither approved the borrow area reports made by the contractor from where the material would be obtained nor any record was available showing any payment (royalty) of material for making earthen embankment from borrow pit area and soil aggregate obtained for embankment by the contractor to the private owners. This indicates the material was arranged free of cost either from the borrow area or from the project site excavation, therefore, the cost of material, royalty and local taxes were liable to be adjusted/ decreased from the rate of the item because the contractor quoted their rate including material cost. Due to non-adjustment of the cost of material, an extra rate was paid to the contractor. This resulted in overpayment to the contractor without deduction of the cost of material of Rs 39.284 million.

Audit pointed out the overpayment in September-November 2023. The Department replied that payment was mad against the items of works provided in approved PC-I/TS Estimates.

The reply was not accepted because the rates of earthworks included royalty/malkana and no evidence for this cost component was obtained from the contractors.

DAC meeting was not convened by PAO despite requests made by Audit on 10.11.2023, 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends recovery of Rs 39.284 million from the contractors as overpayment due to non-deduction of cost of materials, and taking disciplinary action for failing to perform official duty to deduct the said cost of materials against the officers concerned, that is, Executive Engineers primarily responsible and Chief Engineers responsible for oversight of works' execution at the three divisions concerned.

(DP 17, 361 & 519)

5.4.44 Unjustified expenditure on repair of road as a SAP Scheme -Rs 35.827 million

According to para 2 on page 2 of the Director General PWD letter dated 17.05.2019, for SAP, only new schemes are to be identified under SAP as per its approved guidelines. There is no provision of rehabilitation/improvement/reconditioning of old schemes.

Audit noted that Executive Engineer, Project Civil Division, Pak PWD, Sahiwal awarded the work “repair of road from Faisalabad Okara Road Adda Fatah Pur to Chak Khan Muhammad Via Qaberstan Imam Shah Tehsil and District Okara” to M/s Mian Sajjad Haider for Rs 34.129 million under SAP in district Okara on 08.03.2023.

Audit observed that the Department paid total value of work done up to 2nd running bill amounting to Rs 35.827 million. As per directions of the Department’s own Director General, only new development works/schemes were to be executed under SAP but in this case the work of repair of road (pertains to operation and maintenance activity) was awarded to contractor as development scheme. Violation of official orders resulted in unjustified expenditure of Rs 35.827 million.

Audit pointed out the unjustified expenditure in October 2023. The Department replied that the scope of work consistent on overlay of base course which was not maintenance and repair work.

The reply was not accepted because the work under observation was maintenance type of work instead a new work.

DAC meeting was not convened by PAO despite requests made by Audit on 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends taking disciplinary action for failing to perform official duty to execute only new schemes under SAP against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works’ execution at Project Civil Division, Pak PWD, Sahiwal.

(DP. 269)

5.4.45 Wasteful expenditure on execution of high-rate item 1:4:8 instead of low-rate 1:6:12 for PCC 4” - Rs 30.81 million

According to Pak PWD Composite Schedule of Rates (CSR) 2022, item “Providing and Laying 1:6:12 (1 cement 6 sand and 12 coarse aggregate) cement concrete using graded stone ballast 2 inches (51 mm) and down gauge in foundation including leveling, compacting and curing etc., complete” was provided @ Rs 18,506 per % cft.

Audit noted that the Executive Engineer, Central Civil Division, Pak PWD, Bannu awarded two (02) works for construction of PCC Road/Streets in various places/ villages of Tehsil and District Lakki Marwat and North-Waziristan Tribal District as SAP schemes during the financial year 2022-23.

Audit observed that the Divisional Officer prepared estimate for PCC 4” (Sub Head PCC) and included the high-rate item “Providing and laying 1:4:8 (1 cement 4 sand and 8 coarse aggregate) cement concrete using graded stone ballast 2 inches (51 mm) and down gauge in foundation including leveling, compacting and curing etc., complete” @ Rs 27,877.27 P% cft. and paid quantity 123,264 cft. and 181,585 cft. However, in the CSR, 2022, an item “providing and laying 1:6:12 (1 cement 6 sand and 12 coarse aggregate) cement concrete using graded stone ballast 2 inches (51 mm) and down gauge in foundation including leveling, compacting and curing, etc.” was available @ Rs 18,506 P% cft., which was sufficient in the dry area, but the Divisional Officer included high-rate item which shows that overpayment occurred due non-execution of low-rate item. This inference is corroborated by the fact that other Pak PWD divisions like CCD, Faisalabad and CCD-II, Lahore are using item “Providing and Laying 1:6:12 (1 cement 6 sand and 12 coarse aggregate) cement concrete” under the 4” PCC. Further there was no evidence regarding execution of 1:4:8 (1 cement 4 sand and 8 coarse aggregate) because no test was done by the concerned.

Non-adherence to public interest in execution of works has resulted in wasteful expenditure on execution of high-rate item amounting to Rs 30.81 million

Audit pointed out overpayment in November 2023. The Department replied that the work was executed as per provision of PC-I/TS Estimate.

The reply was not accepted because rich specification of work involving higher cost was adopted in violation of the provisions of Pak PWD Schedule of Rates. Moreover, the execution of cement concrete with ration of 1:4:8 was not supported with test reports and check requests of the contractors.

DAC meeting was not convened by PAO despite requests made by Audit on 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends recovery of Rs 30.81 million from the contractors as overpayment against non-proven execution of high-rate item instead of low-rate item for PCC 4”, and taking disciplinary action for failing to perform official duty to choose low-rate rather than high-rate items for works

against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works' execution at Central Civil Division, Pak PWD, Bannu.

(DP 356, 365)

5.4.46 Loss due to payment of premium on non-scheduled items in award of contract - Rs 27.098 million

According to clause 10(i) of GFR, every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public funds as a person of ordinary prudence would exercise in respect of expenditure of his own money. The expenditure should not be prima facie more than the occasion demands.

Audit noted that the Executive Engineer, Central Civil Division, Pak PWD, Gujranwala awarded work for "Construction of Bridge at Zero Line for Kartarpur Sahib Corridor at Zero Line on Kartarpur Corridor, District Narowal, Punjab" to M/s MSK International with agreement cost of Rs 520.821 million. Audit further noted that the estimate of said project was based on Schedule of Rates 2012 for schedule items while non-scheduled items were based on analysis of rates prepared by the consultant on basis of prevailing market prices.

Audit observed that the competent authority approved tenders by accepting the premium, i.e., 25% above on earth work, 74% above on scheduled items and 39% above on non-scheduled items. Audit further observed that the Department paid non-scheduled items amounting Rs 69.483 million (Rs 60.746 + Rs 8.736 million) in IPC No. 9 and paid premium of Rs 27.098 million (Rs 69.483 million x 39%). Audit is of the view that the rate analysis of non-schedule items was prepared by the consultants were already on the higher side and further accepting and paying 39% premium on non-schedule items was not justifiable. This resulted in loss to the Department due to payment of premium on non-scheduled items of Rs 27.098 million.

Audit pointed out the loss during October-November 2023. The Department replied that the non-scheduled items were calculated to be Rs 71.315 million in the estimate technically sanctioned by the competent authority on 23.11.2021. The most advantageous bid was accepted by the competent authority according to prevailing market rates, i.e., 25% above on earth work, 74% above on schedule rates items based on CSR Pak PWD 2012 and 39% above non-scheduled items on 11.11.2021. The non-scheduled items are paid according to the rates accepted by the employer and no loss to government is involved as pointed out by the Audit.

The reply was not accepted because non-scheduled items were put into estimate after preparation of the analysis of rates on the basis of current market rates, including contractor's profit and all overheads. Therefore, allowing further premium on non-scheduled items was not justifiable.

Audit maintains that overpayment was made due to weak enforcement of the prescribed operational, supervisory and regulatory controls.

DAC meeting was not convened by PAO despite requests made by Audit on 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends mitigation measure to review and recoup loss of Rs 27.098 million from contractors due to unjustified payment of premium on non-scheduled items in tender approval, and taking disciplinary action for failing to perform official duty to avoid paying such premium against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works' execution at Central Civil Division, Pak PWD, Gujranwala. Further, Planning Commission and PPRA should strengthen their monitoring functions to ensure compliance with consultants' rate analysis for non-scheduled items in award of public procurement contracts.

(DP. 261)

5.4.47 Irregular and unjustified expenditure on luxury items as maintenance work on two residences – Rs 18.430 million

According to Rule 10(i) and (ii) of GFR Vol-I regarding standards of financial propriety, every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public moneys as a person of ordinary prudence would exercise in respect of expenditure of his own money. The expenditure should not be prima facie more than the occasion demands.

Audit noted that the Executive Engineer, PCD-II, Pak PWD, Islamabad awarded twenty-two (22) and ten (10) piecemeal works for Refurbishment and Rehabilitation for two houses, respectively, in Islamabad in the months of May-June, 2023, through notice board, keeping the amount of each work order/ estimate within Rs 500,000 to avoid open tendering, awarding works to the same contractor M/s Umar Ahmad, and making payment of Rs 18.430 million (Rs 10,673,858+ Rs 7,755,807).

Audit observed that the said expenditure was incurred for luxurious items under the cover of maintenance work. Further, the expenditure incurred on repair and maintenance of government houses was charged to PSDP fund No. 546 allocated under Demand No. 124-Capital Outlay on Civil Works for the year 2022-23 which was also unauthorized. Moreover, the maintenance cost was more than the capital cost of the house, which was not covered under rules. This resulted in unjustified and unauthorized expenditure of Rs 18.430 million.

Audit pointed out the irregularity in November 2023. The Department replied that the work was carried out in the official residences of federal secretaries and completion certificates as a proof of works were available.

The reply was not accepted because the expenditure was not justified with reference to authorization limit and actual expenditure against each residence besides previous repair maintenance works. The expenditure was incurred through piecemeal work orders.

DAC meeting was not convened by PAO despite requests made by Audit on 18.12.2023 and 03.01.2024.

Audit recommends mitigation measures to review and recoup loss of Rs 18.430 million due to unjustified expenditure on luxury items under the cover of maintenance work on two residences, and taking disciplinary action for failing to perform official duty to maintain financial integrity and discipline in awarding works against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works' execution at PCD-II, Pak PWD, Islamabad. Further, Planning Commission and PPRA should strengthen their monitoring functions to prevent misrepresentations in award of public procurement contracts.

(DP. 517)

5.4.48 Irregular execution and payment of items of work on already functional tubewell - Rs 17.951 million

BOQ item No. 01 is "Providing and fixing 2 inches dia 10 swg pipe with quantity of 7500 rft @ Rs 887 per rft for Rs 6.652 million" and item No. 02 is "Providing and fixing of submersible pumping set comparing of pumping machinery of 10-HP electric 3-phase @ Rs 1614080 for Rs 11.298 million" for all seven existing tubewells.

Audit noted that the Executive Engineer, Project E&M, Pak PWD, Islamabad awarded contract for “Solarization of Existing Seven (07) Tubewells in South Waziristan” to M/s Renewable Energy Private limited at agreement cost of Rs 32.725 million. Total payment was made to contractor for Rs 29.795 million up to 1st running bill.

Audit observed that the work was executed to substitute the energy source and to operate them through solar energy due to heavy load shedding and low voltage. The Department executed two (02) items of work “providing and fixing 2 inches dia sewerage pipe” and “providing and fixing of submersible pumping set” on already constructed and functional tubewell without providing the record and status of the previous pumping machinery installed. Further, no adjustment was made from contractor for dismantled pumping machinery. This resulted in irregular execution and payment of items of work on already constructed and functional tubewell amounting to Rs 17.951 million.

Audit pointed out the irregularity in October 2023. The Department replied that the tubewell bore already existed without pumping machinery which was made functional.

The reply was not accepted because evidence of previous execution of tubewell boring work without pumping machinery was not verified in support of the reply. Physical verification/site inspection report by Executive Engineer and Superintending Engineer was also not on record.

DAC meeting was not convened by PAO despite requests made by Audit on 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends recovery of Rs 17.951 million from the contractor as overpayment for items of work needing adjustment for installed items, and taking disciplinary action for failing to perform official duty to make the said adjustment against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works’ execution at Project E&M, Pak PWD, Islamabad.

(DP. 399)

5.4.49 Import of lift without contractual pre-shipment inspection and performance test or recovery thereof - Rs 3.00 million

According to clause 5.2 of Special Provisions of the Contract, pre-shipment inspection and performance test of all imported equipment shall be duly certified by one employer and one Engineer's representative prior to its shipment and the contractor/ supplier/ manufacturer shall arrange all such facilities, including traveling, boarding, lodging and visa expense for 02 persons. The pre-shipment inspections shall be one time for complete Lifts at its point of origin manufacture. In addition, the contractor shall provide daily allowance of US\$ 200/man day for out-of-pocket expenses to each of employer and engineer nominated for inspection. The daily allowance shall be provided at hometown before start of travel.

Audit noted that the Executive Engineer, Store & Workshop Division, Pak PWD, Islamabad awarded a work for "Replacement of Existing 01 Passenger Lift at Supreme Court of Pakistan Building Islamabad" to M/s Merin (Pvt.) Ltd. at contract cost of Rs 14.010 million. The contractor was last paid up to the 4th running bill for Rs 14.183 million.

Audit observed that the Department paid an amount of Rs 9.386 million as 70% of contract price to the contractor against the imported lift. The Departmental engineer was required to visit abroad for testing/inspection of "Lifts" at manufacturer's premises but neither the contractor arranged the visit for pre-shipment inspection and performance test nor the department deducted the inbuilt cost of the visit from the contractor's bill in violation of agreement.

This resulted in non-recovery of inbuilt cost of Rs 3.00 million approximately, on account of pre-shipment inspection and performance test of the lift.

Audit maintains that the irregularity occurred due to weak enforcement of the prescribed operational and supervisory controls.

Audit pointed out the irregularity in November 2023. The Department replied that pre-shipment inspection was not feasible due to restriction of international travel. However, the third-party evaluation was executed.

The reply was not accepted because no evidence in support of reply was produced.

DAC meeting was not convened by PAO despite requests made by Audit on 18.12.2023 and 03.01.2024.

Audit recommends recovery of Rs 3.00 million from the contractor as inbuilt cost of the contract for pre-shipment inspection and performance test, and taking disciplinary action for failing to perform official duty to undertake the said inspection or recover the cost thereof against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works' execution at Store & Workshop Division, Pak PWD, Islamabad.

(DP. 508)

5.4.50 Overpayment on account of sales tax on consultancy services - Rs 2.525 million

According to clause 1.7, Standard Form of Bidding Documents for Consultancy Contracts, unless specified in the SC, the Consultants, Sub consultants, and their Personnel shall pay such taxes, fees, and other impositions as may be levied under the Applicable Law.

Audit noted that the Executive Engineer, CCD-II, Pak PWD, Peshawar, awarded the contract for consultancy services for the project "Construction of Camp Office for Federal Shariat Court Peshawar" to M/s NESPAK with an agreement amount of Rs 9.192 million (design fee as 2.5% and supervision fee as 2.5% of cost of works of Rs 183.847 million). The total payment to the consultant up to 14th R/bill was Rs 18.521 million, including sales tax of Rs 2,524,789.

Audit observed that sales tax was included in bill in violation of contract agreement, as the contract agreement cost should be inclusive of all taxes. So unlawful payment of sales tax made to consultant resulting in overpayment of Rs 2.525 million.

Audit maintains that sales tax on service was added in bills in violation of consultancy contract agreement and this irregularity occurred due to weak enforcement of the prescribed operational, supervisory and pre-audit controls.

Audit pointed out the irregularity in October 2023. The Department replied that the record was not available due to inquiry.

DAC meeting was not convened by PAO despite requests made by Audit on 10.11.2023, 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends recovery of Rs 2.525 million from the contractor as overpayment against inbuilt sales tax cost of the contract, and taking disciplinary action for failing to perform official duty to not make overpayment to contractors on account of sales tax against the officers concerned, that is,

Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works' execution at CCD-II, Pak PWD, Peshawar.

(DP. 42)

5.4.51 Non-encashment of performance security bond on contractor's default - Rs 1.070 million

According to Clause 10.1 of the Agreement, the contractor shall provide a Performance Security in the prescribed Form. The said Security shall be furnished by the Contractor within 28 days after the receipt of Letter of Acceptance. The Performance Security shall be of an amount equal to 10 percent of the Contract Price in the currency of the Contract in the form of Bank Guarantee from any Scheduled Bank in Pakistan duly counter-guaranteed by a Scheduled Bank in Pakistan or an Insurance Company having at least AA rating from PACRA/ JCR. The cost of complying with the requirements of this sub-clause shall be borne by the contractor.

Audit noted that the Executive Engineer, Store & Workshop Division, Pak PWD, Islamabad awarded a work for "Replacement of Existing 01 No. Passenger Lift at Supreme Court of Pakistan Building Islamabad" to M/s Riaz & Sons at contract cost of Rs 10.701 million. The contractor failed to start the work despite lapse of considerable time. Consequently, Chief Engineer, on the recommendations of the XEN and SE, revoked the contract with the direction to retender the work.

Audit observed that Performance Security Bond of the said revoked work was not encashed within the validity period of the bond. This resulted in non-encashment of Performance Security Bond for Rs 1.070 million on default of the contractor.

Audit pointed out the irregularity in November 2023. The Department replied that case for encashment of performance security was initiated but the contractor went to court of law.

Audit holds that non-forfeiture of Performance Security Bond as per contract provisions occurred due to weak enforcement of the operational and supervisory controls.

DAC meeting was not convened by PAO despite requests made by Audit on 18.12.2023 and 03.01.2024.

Audit recommends taking disciplinary actions for failure to perform official duty to timely encash the overdue performance security bond against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works' execution at Store & Workshop Division, Pak PWD, Islamabad.

(DP. 507)

5.4.52 Irregular issuance of 1,275 measurement books without observing rules and instructions

Para 208 of CPWA Code states that payments for all work done and for all supplies are made on the basis of measurements recorded in Measurement Books, Form 23, in accordance with the rules in paragraph 209. The Measurement Books should, therefore, be considered as very important account records. All the books belonging to a division should be numbered serially and a register of them should be maintained in Form 92 in the divisional office showing the serial number of each book, the names of the sub-divisions to which issued, the date of issue and the date of its return, so that its eventual return to the divisional office may be watched. A similar register should also be maintained in the sub-divisional office showing the names of the Sub-divisional Officer and Sectional officers to whom measurement books are issued. Books no longer in use should be withdrawn promptly even though not completely written up.

Audit noted that at the office of Executive Engineer, Central Civil Division, Pak PWD, Bahawalpur, Head Clerk issued 1,275 measurement books to Sub-Division-I, II, III & IV. In this connection, following audit points need attention:

The measurement books were not properly issued to the concerned as per instructions given in the preface of each measurement book.

New measurement books were issued without 100% utilization of already issued MBs.

Not a single measurement book out of 1,275 MBs was received back from the concerned Officers/Officials.

500 new measurement books were purchased during financial year 2022-23 through quotations without genuine requirement.

Many measurement books are under custody of contractors instead of department.

Many measurement books are misplaced but no action was taken against the responsible staff according to rules.

Form-92 was not maintained because handing/taking over of measurement books was not on record.

Head Clerk issued letter dated 26.09.2023 to all Sub-Divisions for return of 900 measurement books issued up to 30.06.2023, but no single measurement book is returned back from the concerned Sub-Divisions.

In the light of the above irregularities, Audit observed that the Department fail to properly maintain the record of measurement books and measurement books were issued without following the rules and instructions which is a serious irregularity on part of the Department. This resulted in an irregular issuing of 1,275 measurement books without observing the relevant rules and instructions.

Audit pointed the matter during September-October 2023. The Department replied that 1275 MBs were issued and used against 722 works during the years 2016-17 to 2023-24.

The reply was not accepted because details of issuance of MBs, receipt back in Divisional Office and record of handing/taking over of MBs were not produced in support of reply

DAC meeting was not convened by PAO despite requests made by Audit on 10.11.2023, 05.12.2023, 12.12.2023, 18.12.2023 and 03.01.2024.

Audit recommends taking disciplinary actions for failure to perform official duty to properly maintain measurement books against the officers concerned, that is, Executive Engineer primarily responsible and Chief Engineer responsible for oversight of works' execution at Central Civil Division, Pak PWD, Bahawalpur.

(DP. 29)

Estate Offices

5.4.53 Non-recovery of outstanding rent from unauthorized/ defaulting occupants - Rs 856.957 million

Rule 16 of the Accommodation Allocation Rules, 2002 (AAR, 2002) provides that the accommodation shall not be sublet by the allottee. If an allottee is found guilty of subletting his accommodation the allotment shall be cancelled from the date of taking over possession of the house and he shall be charged monthly rent at the rate of one rental ceiling of his entitlement for the entire period. If an allottee or illegal tenant is a FGS, he shall be liable to disciplinary action for misconduct under the relevant rules or laws and such allottee shall be disqualified for future allotment of accommodation for five years. On becoming eligible for Government accommodation, his name shall be placed at the bottom of the GWL on that date, provided he applies.

Rule 15(2) of the same Rules provides that an allottee, on his retirement or expiry of contract period shall be entitled to retain the accommodation under his occupation for a period not exceeding six months, on payment of normal rent and this facility will be available to FGS once only.

Rule 25(4)(a) of the same Rules states that, in case of unauthorized retention of house beyond legally allotted period, rent equivalent to one rental ceiling of the category of his entitlement or the category of the house under occupation, whichever is more, shall be charged for each month for the entire period of unauthorized occupation.

Audit noted that Estate Offices did not recover an amount of Rs 856.957 million (**Annexure-AZ**) as outstanding rent from unauthorized occupants.

Audit observed that Estate Office, Islamabad vacated eighty-five (85) houses at Islamabad during the financial year 2021-22 because they were sublet to unauthorized occupants. In other cases, at Lahore, Peshawar, Quetta and Karachi formations of the Estate Office, it was observed that no strenuous efforts were made to pursue the recovery of outstanding dues from retired/in-service Federal Government Employees/ unauthorized occupants.

Audit maintains that subletting of government accommodations and non-pursuing the recovery/ disciplinary proceeding against the ex-allottees occurred due to non-adherence to the government rules and ineffective implementation of monitoring and corrective controls.

Audit pointed out the recovery in December 2022 and November-December 2023.

DP.01 & 10 were discussed in DAC meeting dated 20.12.2023 wherein Estate Office explained that recovery started from pension w.e.f. 01.07.2023. Ministry informed that matter regarding ICT Police was being pursued and ICT Police was directed to take final action by 10.01.2024. The DAC directed the department to expedite the recovery from unauthorized occupants of ICT Police and vacation of houses as already directed by PAC. DAC directed to ensure full recovery and get the record verified from Audit.

In other cases, DAC meeting was not convened by PAO despite requests made by Audit on 21.12.2023 and 31.12.2023.

Audit recommends recovery of Rs 856.957 million as outstanding dues from unauthorized occupants, securing vacation of sublet government accommodations, disciplinary action for misconduct against FGS allottees under Rule 16 of AAR, 2002 for indulging in sub-letting, fixing responsibility against officers concerned for failing to oversee government accommodations and strengthening of monitoring and corrective functions of the Estate Office to prevent sub-letting and unauthorized occupation in future.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2019-20, 2020-21, 2021-22 and 2022-23 vide para numbers 5.5.48 (2019-20), 5.4.17 (2020-21), 5.4.44 (2021-22) and 5.4.42 & 5.4.43 (2022-23), having a financial impact of Rs 3,255.94 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 01, 10, 36, 47, 54, 65 & 69)

5.4.54 Non-allotment of vacant government accommodation and non-recovery of rent from trespassers - Rs 24.623 million

Rule 23 of GFR Vol-I provides that every Government officer should realize fully and clearly that he will be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

Rule 25 (4)(b) of Accommodation Allocation Rules, 2002 provides that in case of trespassing or unauthorized occupation, rent equivalent to two rental ceilings of the category of his entitlement or the category of the house occupied, whichever is more, shall be charged for each month for the entire period of unauthorized occupation.

Audit noted that House No. 13/1-F (New 10/1F), Islamabad was trespassed by Dr. Aman Ullah Khan, Assistant Executive Director, Poly Clinic Hospital Islamabad for the period 30.11.2014 to 27.09.2018 as evident from the Estate Office dated 07.02.2019 under which notice for recovery of outstanding dues was served. Further, Estate Office, Islamabad vacated various government accommodations during 2021-22.

Audit observed in the first case that Rs 1.809 million of the said quarter was not recovered for unauthorized period. In the second case, Audit observed from the tracking reports of concerned Government accommodations that after vacation of these accommodations by the previous allottees the same remained un-allotted for a period from 09 months to 48 months. It meant that accommodations were trespassed by some ones instead of remaining vacant for such considerable period under the situation when about thousands of houses were being allotted to the FGE early in advance subject to vacation of the houses.

This resulted in loss to government due to non-allotment of vacant government accommodation and non-recovery of rent from trespassers of Rs 24.623 million (Rs 1.809 million + Rs 14.398 million + Rs 8.416 million).

Audit maintains that the loss occurred due to non-adherence to the government rules and ineffective implementation of monitoring and corrective controls.

Audit pointed out the loss in December 2022 and January and November 2023.

DP.02 & 04 were discussed in DAC meeting dated 20.12.2023 wherein the Department explained (DP.02) that court directed to consider the case and allotment was regularized by Ministry. Audit contended that allotment was regularized from 2018 whereas the accommodation was occupied since 2014. The Committee directed the department to submit the comprehensive case to the Competent Authority/Secretary H&W for review of the case. Outcome be shared with Audit. The department explained (DP. 04) that due to poor condition of accommodations, allottees are not willing to take the possession. The DAC directed that Ministry may take appropriate step for approval of PSDP scheme and release of funds for repair and maintenance of Government Accommodations. DAC directed to ensure full recovery and get the record verified from Audit.

In DP. 51, DAC meeting was not convened by PAO despite requests made by Audit on 21.12.2023 and 31.12.2023.

Audit recommends recovery of Rs 24.623 million from trespassers of government accommodations concerned, fixing responsibility against officers concerned for allowing such trespass and strengthening of monitoring and corrective controls of the Estate Office to prevent trespass in future.

(DP. 02, 04 & 51)

5.4.55 Non-recovery of interest of government accommodation from S&GAD, Government of Balochistan - Rs 16.968 million

As per Ministry of Housing and Works letter dated 21.10.2006, the Prime Minister approved the summary for transfer of 169 quarters of F.G. Colony, Sariab Road, Quetta to Balochistan Constabulary on payment of Rs 202 million. First installment of 25% was to be paid before handing over the quarters, whereas remaining payment was to be paid in three equal installments on yearly basis.

According to Para 02(ii) of the Agreement Deed prepared by the Estate Office, Quetta, interest @ 0.7% per month will be recovered from S&GAD, Government of Balochistan in case of failure to pay the installment.

Audit noted that Estate Office, Quetta did not finalize the agreement with S&GAD, Government of Baluchistan, despite the fact that all vacant quarters are already occupied by Balochistan Constabulary since 2010.

Audit observed that all 169 quarters are still under occupation of Balochistan Constabulary but neither Rs 202 million was recovered from S&GAD nor 0.7% interest was recovered from the provincial Government. This resulted in non-recovery on account of interest @ 0.7% per month for Rs 16.968 million for the period 2022-23 (Rs 202 million x 0.7% x 12 months).

Audit maintains that rent of quarters transferred to Balochistan Constabulary was not recovered as per Agreement Deed due to weak internal and financial controls.

Audit pointed out non-recovery in November 2023. The Department did not reply.

DAC meeting was not convened by PAO despite requests made by Audit on 21.12.2023 and 31.12.2023.

Audit recommends recovery of Rs 16.968 million from S&GAD, Government of Balochistan as prescribed annual interest for the financial year 2022-23 over the unpaid transfer price of government accommodations concerned. Audit also recommends recovery of the principal amount and earlier outstanding interest, fixing responsibility against Estate Office's officers concerned for not diligently pursuing recovery, and strengthening of recovery function of the Estate Office in general.

(DP. 44)

5.4.56 Non-recovery of rent/ advance rent from Shops and Petrol pumps worth Rs 16.502 million and non-implementation of Shops Rental Auction Policy

Ministry of Housing & Works issued Shop Rental Auction Policy 2017 dated 27.03.2017 conveying the policy guidelines for rental auction of shops owned by Ministry of Housing & Works at Lahore, Peshawar, Karachi and Quetta.

According to condition No. ii & iv of aforementioned policy, existing rents be enhanced @ 25% after every three years and should be a regular feature. The present occupants be given chance to accept enhanced rates by signing revised lease agreements with payment of one-year advance rent.

Para 26 of General Financial Rules, Volume-I provides that it is duty of the department controlling officers to see that all sums due to government are regularly and promptly assessed, realized and duly credited into Public Account.

Audit noted that Additional/Joint Estate Officers at Estate Office, Karachi and Peshawar did not recover Rs 16.502 million as rent/advance rent of shops and petrol pumps for the year 2022-23. Audit further noted that Shop Rental Auction Policy bearing various guidelines to be implemented for the auction and assessment of rent of shops under the jurisdiction/possession of Estate Offices, at different stations.

Audit observed that the monthly rent of shops and petrol pumps were not recovered on regular basis by the Estate Offices from different shop holders and the defaulters were also not served one month cancellation notice. Audit further observed that Additional Estate Officer, Estate Office, Peshawar did not implement the aforementioned policy in letter and spirit. Consequently, one-year advance rent of shops from the existing shop holders/allottees was not recovered besides signing revised lease agreements with payment of one-year advance rent.

This resulted in non-recovery of rent/ advance rent of shops and petrol pumps amounting to Rs 16.502 million and non-implementation of Shops Rental Auction Policy.

Audit is of the view that the aforementioned policy may be implemented without any further delay. Moreover, policy for recovery of outstanding liabilities may also be devised.

Audit pointed out the matter in November-December 2023. The Management of Estate Office, Karachi did not reply while Estate Office, Peshawar replied that rent recovery notices were issued as per interim order of Peshawar High Court. The Department admitted irregularity and agreed to recover the outstanding rent from the quarters concerned.

DAC meeting was not convened by PAO despite requests made by Audit on 21.12.2023 and 31.12.2023.

Audit recommends early recovery of outstanding rent/ advance rent of Rs 16.502 million, fixing responsibility on officers of Estate Office for not recovering the same in time, and strengthening of recovery function of the Estate Office in general.

(DP. 62, 63 & 70)

5.4.57 Non-recovery of rental ceiling from the allottee of non-entitled department - Rs 4.098 million

Rule 3(1) of the Accommodation Allocation Rules, 2002 provides that all married FGS in the Ministries or Divisions and their Attached Departments, except those maintaining their own pool of accommodation or funds for hiring of houses, shall be eligible for accommodation from the Estate Office.

Rule 24 of the same Rules provides that the Government may, at any stage, cancel the allotment made in violation of the rule in favor of Federal Government Servant including those made to the employees of non-entitled departments.

Para 26 of GFR, Vol-I provides that it is the duty of the departmental controlling officers to see that all sum due to government are regularly and promptly assessed realized and duly credited in the public account.

Audit noted that Additional/Joint Estate Officer, Lahore allotted a House No. 5-A, Wafaqi Colony, Lahore to Mrs. Noureen Ahmad Tarar, Deputy Director, Customs Department, Lahore on 25.10.2008, subject to vacation on rental ceiling basis being non-entitled department. Audit further noted that the possession of said house was handed over on 01.02.2010.

Audit observed that the Department neither recovered the rental ceiling from the allottee nor cancelled the allotment of the said house. This resulted in non-cancellation of allotment and non-recovery of rental ceiling from the allottee amounting to Rs 4.098 million.

Audit maintains that allotment in violation of rules was due to weak internal controls.

Audit pointed out non-recovery in September-October 2023. The Department replied that efforts were being made for recovery of outstanding dues from the allottee. The Department has accepted the audit observation and agreed to recover the outstanding dues. Audit stressed for early recovery of the outstanding amount as it has been accumulated since a long period.

DAC meeting was not convened by PAO despite requests made by Audit on 21.12.2023 and 31.12.2023.

Audit recommends early recovery of Rs 4.098 million as rental ceiling from the allottee under terms of allotment or securing vacation of the government accommodation concerned, besides strengthening of recovery function of the Estate Office.

(DP. 37)

5.4.58 Non-cancellation of accommodation due to double allotment and non-recovery of rental ceiling - Rs 3.827 million

Rule 17 of the Accommodation Allocation Rules, 2002 (“AAR, 2002”) provides that no FGS shall keep more than one accommodation at the same time in his possession. If a FGS is found in possession of more than one accommodation at the same time, the allotments of all the houses or flats in his possession shall be cancelled. He shall be charged rent at the rate of one rental ceiling per month of his entitlement for possessing any additional accommodation over and above his entitlement. He shall be liable to disciplinary action for misconduct under the relevant rules or laws. A FGS who is found guilty under sub-rule (4) shall be disqualified for any allotment in future, for ten years. On becoming eligible for government accommodation, his name shall be placed at the bottom of the GWL on that date, provided he applies.

Rule 26 of General Financial Rules, Vol-I provides that subject to any special arrangement that may be authorized by competent authority with respect to any particular class of receipts, it is the duty of the departmental controlling officers to see that all sums due to Government are regularly and promptly assessed, realized and duly credited in the Public Account.

Audit noted during scrutiny of record of Estate Office, Islamabad that House No. 2/8, Cat-III, I-9/4 was allotted to Mrs. Babra Zaheer (Assistant Director, BPS-17), an employee of Capital Administration and Development Division, on 29.06.2006, who occupied the house on 03.05.2006 and vacated it on 30.04.2020. Audit further noted that another Government accommodation, i.e., House No. 238-Type-E, G-6/2, also in Islamabad, was allotted to her on 26.07.2012 which was occupied on 01.08.2012.

Audit observed that the aforementioned officer retained two government accommodations for almost eight years, from 01.08.2012 to 30.04.2020. However, the Estate Office, Islamabad neither cancelled the double allotment during this long period nor recovered rental ceiling from her, which now amounts to Rs 3.827 million (93 months @ Rs 41,147 per month).

Audit maintains that double allotment was due to weak administrative, operational and monitoring controls.

Audit pointed out the recovery in December 2022 and January 2023.

The matter was discussed in DAC meeting dated 20.12.2023 wherein the Committee directed the department to conduct inquiry and submit Inquiry Report within 15 days. The compliance of DAC directives was not conveyed till finalization of the report.

Audit recommends immediate cancellation of both allotments, recovery of Rs 3.827 million from the FGS allottee as rental ceiling and disciplinary action against her for misconduct under Rule 17 of AAR, 2002 for indulging in double allotment, fixing responsibility on officers of Estate Office, Islamabad for allowing such double allotment, and strengthening of operational and monitoring controls of the Estate Office to prevent double allotments in future.

(DP. 12)

5.4.59 Unauthentic allotment to Federal Government Employees and non-recovery of house rent - Rs 2.456 million

Rule 6(6) of the Accommodation Allocation Rules, 2002 ("AAR, 2002") provides that if an allottee is transferred or sent on deputation to out-station to an eligible department, he shall carry his seniority with him and shall be allotted accommodation at the new station of his posting based on his date of entitlement to the class of accommodation.

Rule 7(1) of the same Rules states that the allotment of Government owned accommodation shall be made to the most senior FGS on GWL of a particular class or category of accommodation.

Rule 25(4)(b) of the same Rules provides that in case of trespassing or unauthorized occupation, rent equivalent to two rental ceilings of the category of his entitlement or the category of the house occupied shall be charged for each month for entire period of unauthorized occupation.

Audit noted that Estate Offices, Islamabad and Quetta allotted various Quarters to different allottees without reference to GWL and AAR, 2002.

Audit observed that allotments were made in absence of the requisite information about the employees, i.e., appointment letter, joining report, application for allotment, seniority in GWL, reference to AAR, 2002, pay slips, transfer orders, LPC, charge relinquishing/ assumption reports, etc. Due to such allotments, the Management of the Estate Offices not only allotted government accommodations to the said officials out of their turn but also usurped the rights of eligible government employees.

This resulted in unauthentic allotment of houses to federal government employees and non-recovery of house rent amounting to Rs 2.456 million.

Audit maintains that unauthentic allotment was made due to non-adherence to AAR, 2002 and ineffective operational and supervisory controls.

Audit pointed out unauthentic allotments in December 2022 and January/November 2023.

DP. 07 was discussed in DAC meeting dated 20.12.2023 wherein the Committee directed the department for cancellation/vacation of Un-authentic allotments. The compliance of DAC directives was not conveyed till finalization of the report.

In DP. 46, DAC meeting was not convened by PAO despite repeated requests made by Audit on 21.12.2023 and 31.12.2023.

Audit recommends cancellation of these allotments without requisite documentation and information, recovery of rental ceiling from such allottees for the entire period of allotment, fixing responsibility against officers concerned for allowing such allotments, besides strengthening of operational and supervisory controls to prevent such allotments in future.

(DP. 07 & 46)

5.4.60 Non-recovery of 5% House Rent - Rs 2.200 million

Rule 3(1) of the Accommodation Allocation Rules, 2002 ("AAR, 2002") provides that all married FGSs in the Ministries or Divisions and their attached department, except those maintaining their own pool of accommodation, shall be eligible for accommodation from the Estate Office.

Para 26 of GFR, Vol-I provides that, subject to any special arrangement that may be authorized by the competent authority with respect to any particular class of receipts, it is the duty of the department controlling officers to see that all sum due to government are regularly and promptly assessed, realized and duly credited in the Public Account.

Audit noted that Joint Estate Officer, Estate Office, Peshawar allotted various types of quarters/houses in Hayatabad Colony and Hassan Garhi Colony, Peshawar to the officials/officers eligible for the allotment of said quarters/houses on normal rent (5% deduction) from their pay.

Audit observed that the allottees of the houses were not being paid house rent @ 5% of their running basic pay on regular basis which leads to accumulation of recoverable amount.

This resulted in non-recovery of 5% house rent amounting to Rs 2.200 million.

Audit pointed out the matter in November-December 2023. The management replied that rent recovery notices had been issued to recover the outstanding rent. The Department admitted audit observation and agreed to recover the outstanding rent from the quarters concerned.

DAC meeting was not convened by PAO despite request made by Audit on 31.12.2023.

Audit recommends early recovery of Rs 2.200 million from defaulters of normal house rent of 5% on government accommodations, fixing responsibility against officers of Estate Office for not diligently pursuing recovery, and strengthening of recovery function of the Estate Office to in general.

(DP. 71)

5.4.61 Dubious allotments for transfer of seniority to Islamabad for change of allotment and non-recovery of rent - Rs 1.471 million

Rule 6(1)(2) and (3) of the Accommodation Allocation Rules, 2002 (AAR, 2002) provide that the applications for allotment of government accommodation shall be received on the application form. This form shall be forwarded to Estate Office under covering note by the Departments/Ministries of the applicant, certifying that the particulars given in the form are correct. The application for accommodation as and when received from an applicant, shall be acknowledged by the Estate Office by issuing a registration card.

Audit noted that the Joint Estate Officer, Quetta allotted four (04) different houses under Cat-III in 250 Colony, Quetta to different government employees. Audit further noted that Joint Estate Officer, Peshawar issued allotment letters to various government employees under Cat-II at Hayatabad Colony, Peshawar.

Audit observed that the Joint Estate Officers, Estate Office Quetta and Peshawar allotted the houses to the officers against the applications not forwarded by their Departments/Ministries in violation of the codal formalities. Facts indicated that allotments were only documentary to obtain benefit on other stations.

This resulted in dubious allotment of government accommodations for transfer of seniority to Islamabad for change of allotment leading to non-recovery of rent amounting to Rs 1.471 million.

Audit maintains that unauthorized allotments were due to weak operational and supervisory controls.

Audit pointed out the irregularity in November-December 2023. The Estate Office, Quetta did not reply while Estate Office, Peshawar replied that all allotments made on subject to vacation basis are cancelled in pursuance of the Judgment of Islamabad High Court.

The reply was not accepted because only cancellation letters did not serve the required action as many officers/officials got allotment at other stations in lieu of these anticipatory allotments. The Department is required to get cancellation of allotments of houses which were occupied by the officers in exchange of earlier allotments.

DAC meeting was not convened by PAO despite requests made by Audit on 21.12.2023 and 31.12.2023.

Audit recommends securing vacation of government accommodations from such dubious allottees, recovery of Rs 1.471 million as outstanding rent from them, fixing responsibility against officers of Estate Office for allowing such dubious allotments, and strengthening of operational and supervisory controls to prevent such allotment in future.

(DP. 48, 49, 50, 52 & 74)

5.4.62 Allotment of 108 houses to government servants in higher than prescribed category of accommodation

The Supreme Court of Pakistan (in CRP No.174/2012) directed the Ministry/ Department on 07.03.2013 to review all the allotments which have been made after passing the judgment dated 19.10.2011

in CP No.1498/2011 that in future all the allotment will be made strictly on the basis of GWL and relaxation of rules under Rule 29 A of the Allocation Accommodation Rules, 2002 (“AAR, 2002”) will not often be exercised and ensure that same is implemented in letter and spirit, and if any allotment has been made in violation of the directions earlier made in the above judgment, the same must be re-considered and dealt with in connection with the observations noted here in above immediately.

Rule 5(2) of AAR, 2002 provides that the allotment of A to I class of accommodation shall be made in accordance with pay scale of FGS as per entitlement and specification of house in each category.

Audit observed that Estate Office, Islamabad allotted 108 residences to Federal Government Servants over and above their scale and entitlement on their own request. The entitlement of government accommodation according to specification, scale, built up area was provided in the AAR, 2002 but the allottees of entitled/non-entitled department succeeded in getting the allotments on out-of-turn basis, one or two category above their entitlement. The officers of BPS-16 to 18 are enjoying the APO/GOR accommodation without assessment of CAT/Type from PPWD as prescribed for BPS-19 to 22 on payment of lesser rent. On the other hand, entitled officers are compelled to reside in lower category accommodation or live in the private hired houses and resultantly, Government has to pay the ceiling rent to the owner of private houses against their deprived entitled employees.

Moreover, Audit observed that an officer of BPS-18, having the post of Deputy Director and was suspended several times, authorized the allotments despite the fact that DG, Estate Office was authorized to approve these allotments. This reflects no check and balance in Estate Office due to an inefficient internal oversight mechanism.

Non-observance of fundamental rules and non-implementation of judgment of Apex Court in letter and spirit has resulted in loss of millions of rupees and usurpation of entitlements of other Federal Government Servants.

Audit holds that the irregularity occurred due to non-adherence to Accommodation Allocation Rules and weak internal controls.

Audit pointed out the irregularity in August 2023. The Department did not reply.

The matter was discussed in DAC meeting dated 20.12.2023 wherein DAC directed the Ministry to examine the issue of APO/GOR accommodations, category/rent assessment, changing of

accommodation and rectify the anomaly, if any, found and report thereon be provided to Audit. The compliance of DAC directives was not conveyed till finalization of the report.

Audit recommends cancellation of aforementioned illegal allotments, disciplinary action against both such FGS allottees and officers of Estate Office for allowing such allotments, and strengthening of operational and supervisory controls to prevent such illegal allotments in future.

(DP. 21)

5.4.63 Illegal allotments of government accommodation in violation of Accommodation Allocation Rules, 2002

Rule 15(2) of Accommodation Allocation Rules, 2002 provides that serving widow or serving legitimate children may be allotted the said accommodation provided he is eligible for the accommodation or becomes eligible for the said accommodation within one year of the event. In case the allottee expires within six months after retirement, his serving spouse or legitimate children may be considered for allotment provided all other conditions are met. Where the accommodation is of a class or category higher than his entitlement, he shall be allotted the first available accommodation in that class or category as the case may be, and shall not be dislodged and shall be charged normal rent till such time as the alternative accommodation of his entitlement has been made available to him.

During scrutiny of record of Estate Office, Islamabad, Audit observed that:

Mrs. Amber Sultana was appointed as Director (BPS-19) at the Federal Directorate of Education, Capital Administration and Development, Islamabad, on 13.09.2017 and offer letter for the allotment was issued on 31.1.2015 whereas her date of entitlement was 22.01.2018. Audit observed that there was no evidence of Mrs. Amber Sultana applying for government accommodation through the Estate Office. Furthermore, it was found that the allotment was issued out-of-turn.

Mr. Ali Waqar s/o Mr. Haque Nawaz was appointed as a Junior Draftsman in the Pakistan Bureau of Statistics, Gilgit on 27.02.2017, whereas he was granted the allotment of the house on 27.04.2023 that was occupied by his father who retired on 20.02.2015. This allotment was approved without acknowledging the significant gap of over two years and without addressing the need to recover for the unauthorized period of retention.

Mr. Shahid Jamil was allotted a residence on 06.10.2007, but he did not vacate the previous residence that was allotted to him after death of his father in 1985. More alarmingly, the same accommodation was once again allotted to Asif Jamil, his younger brother, without any payment of outstanding rent for the unauthorized occupation period by Shahid Jamil.

Audit maintains that the irregularities in the allotment process and the subsequent unauthorized occupancy have resulted in a questionable and unjustified situation.

Audit pointed out the irregularity in August 2023. The Department did not reply.

The matter was discussed in DAC meeting dated 20.12.2023 wherein DAC directed the department to examine the cases pointed out by Audit and cancel illegal allotments and get these accommodations vacated and disciplinary action against the officers/officials found at fault. The compliance of DAC directives was not conveyed till finalization of the report.

Audit recommends cancellation of aforementioned illegal allotments, recovery of outstanding dues from such allottees, fixing responsibility against officers of Estate Office for allowing such allotments, and strengthening of operational and supervisory controls to prevent such allotments in future.

(DP. 23)

5.4.64 Allotment of government accommodation as favour due to change of entitled category

The Supreme Court of Pakistan (in CRP No.174/2012) directed the Ministry/department on 07.03.2013 to review all the allotments which have been made after passing the judgment dated 19.10.2011 in CP No.1498/2011 that in future all the allotment will be made strictly on the basis of GWL and relaxation of Rules under Rule 29 A of the Accommodation Allocation Rules, 2002 ("AAR, 2002") will not often be exercised and ensure that same is implemented in letter and spirit, and if any allotment has been made in violation of the directions earlier made in the above judgment, must be re-considered and dealt with in connection with the observations noted hereinabove immediately.

Rule 7 of AAR, 2002 provides that the allotment of government owned accommodation shall be made to the most senior FGS on GWL of a particular class or category of accommodation.

Audit noted that Additional Estate Officer, Estate Office, Lahore maintained seven (07) GWLs for allotment of government accommodation category wise as:

S. No.	BPS	Entitlement category	Type of quarter
GWL-1	1 to 4	VI	H
GWL-2	5 to 10	V	FG
GWL-3	11 to 15	IV	E or ED
GWL-4	16 to 17	IV	D or ED
GWL-5	18	III	C
GWL-6	19	II	B
GWL-7	20	I	A

Audit observed that Additional Estate Officer, Estate Office, Lahore maintained GWL-3 and GWL-4 for category-IV and government accommodations were allotted under new category, i.e., “ED” type instead of E or D type quarters without observing the seniority of the allottees.

This resulted in allotment of government accommodation as favour due to change of entitled category.

Audit maintains that Estate Office, Lahore created new category “ED” in violation of AAR, 2002 and other allied rules.

Audit pointed out the matter in September-October 2023. The Department replied that, in old classification, E-type houses were allotted to BS-11 to BS-15 while D-type was for BS-16 and BS-17. Estate Office, Lahore has only 14 quarters of “D” type which were allotted to BS-16 and BS-17. As far the matter of allotment of “ED” to BS-16 and 17 was concerned, “ED” was allotted to BS-16 and BS-17 due to shortage of “D” type. Moreover, ED category was below the “D” type and not above category of entitlement of BS-16 and BS-17.

The reply was not accepted because Estate Office, Lahore allotted the government accommodations “ED-type” by maintaining separate GWLs for BPS-11 to 15 & BPS-16 to 17 against entitlement of E & D, respectively. Therefore, allotments under these categories seem in violation of merit/seniority.

DAC meeting was not convened by PAO despite requests made by Audit on 21.12.2023 and 31.12.2023.

Audit recommends maintaining GWLs in accordance with the AAR, 2002 and placing updated GWLs on the website of Department periodically so that the process of allotment may be fair and transparent. The judgment of the Supreme Court of Pakistan may also be adhered to strictly to strengthen the internal controls of the Department.

(DP. 39)

5.4.65 Unauthorized/illegal allotments by violating GWL and restoration of seniority

Rule 7 of the Accommodation Allocation Rules, 2002 provides that the allotment of government owned accommodation shall be made to the most senior FGS on GWL of a particular class or category of accommodation.

Rule 12 of the same Rules states that change from one accommodation to the other or exchange of accommodation between two allottees for same category of accommodation may be permitted by the Ministry of Housing and Works subject to production of a certificate from their employers to the effect that they are not expected to be retired or transferred during the next one year and other required documents as prescribed by Ministry of Housing and Works from time to time.

Rule 6 of the same Rules provides guidelines for restoration of cases in GWL. Ministry of Housing & Works constituted a Restoration Committee for judgment of cases of seniority restoration in GWL headed by Deputy Secretary (Estate). Committee decided in its meeting held on 25.08.2022, as per minutes and vide letter no. F-1(1)/2022-GWL/policy, and a Public Notice was issued on print media as on 14.06.2022 that no restoration case was to be entertained after 15.07.2022.

Audit noted that Estate Office, Islamabad issued allotment letters to various government employees beyond their entitled allocation as per the General Waiting List (GWL). Moreover, a substantial number of cases were restored.

Audit observed that, in 250 cases, allotments were made on out-of-turn basis and subsequently the accommodations were occupied by non-eligible individuals by depriving the deserving officers of their rightful turn as per the GWL. Audit further observed that, in 383 cases, restoration of seniority was carried out after the cutoff date as decided in meeting of Restoration Committee and in violation of restoration rules. Many cases were even restored without any record /evidence in computer cell of Estate Office and without obtaining approval from the restoration committee. This raised significant doubts about the fairness and transparency of the government accommodation allocation process.

This resulted in unauthorized/illegal allotments by violating GWL and restoration of seniority.

Audit holds that the irregularity occurred due to non-adherence to Accommodation Allocation Rules, 2002 and ineffective internal oversight mechanism.

Audit pointed out the irregularity in August 2023. The Department did not reply.

The matter was discussed in DAC meeting dated 20.12.2023 wherein (DP. 14), Audit apprised the Committee that allotments were made on the basis of suspected seniority/allotment at other stations. DAC directed that posting order and actual joining be got validated/checked from department concerned besides cross checking of record of respective Estate Offices, in all cases pointed out by Audit. The Committee directed that Inquiry Committee already constituted by M/o H&W under the chairmanship of DS (Estate) to investigate the suspected allotments issued in violation of rules shall also examine this issue in consultation with Audit and report be shared with Audit. In DP. 15, the Ministry explained that cut-off date was changed through public notice published in print media and cases of restoration were approved by Ministry after detailed examination by a committee. DAC directed that Ministry shall provide the record of restoration of seniority with basis, date of receipt of application, departmental letters, cases of other cities, list approved by Ministry, list of Estate Office, etc., to Audit for evaluation. In DP. 19, the Committee directed the department for cancellation/vacation of illegal allotments made on out of turn basis in violation of principle of seniority/rules and get the record verified from Audit. The compliance of DAC directives was not conveyed till finalization of the report.

Audit recommends a high-level inquiry by the Ministry of Housing & Works into all cases of seniority restoration or out of turn allotments, cancellation of illegal allotments and recovery of rent thereon, disciplinary actions against allottees and officers of Estate Officials involved in such illegal allotments, and strengthening of operation and supervisory controls to prevent such allotments in future.

5.4.66 Irregular allotments/possession and improper maintenance of General Waiting Lists and non-uploading of GWLs on website

The Supreme Court of Pakistan (in CRP No.174/2012) directed the Ministry/department on 07.03.2013 to review all the allotments which have been made after passing the judgment dated 19.10.2011 in CP No.1498/2011 that in future all the allotment will be made strictly on the basis of GWL and relaxation of Rules under Rule 29A of the Accommodation Allocation Rules, 2002 (“AAR, 2002”) will not often be exercised and ensure that same is implemented in letter and spirit, and if any allotment has been made in violation of the directions earlier made in the above judgment, must be re-considered and dealt with in connection with the observations noted hereinabove immediately.

Rule 6(1)(2) and (3) AAR, 2002 provides that the applications for allotment of government accommodation shall be received on the application form. This form shall be forwarded to Estate Office under covering note by the Departments/Ministries of the applicant, certifying that the particulars given in the form are correct. The application for accommodation as and when received from an applicant, shall be acknowledged by the Estate Office by issuing a registration card. Estate Office may place General Waiting Lists on the Web Site which shall be updated periodically. Estate Office may furnish periodically a hard copy of category-wise General Waiting Lists to the concerned dealing Sections of this Ministry.

Audit noted that Joint Estate Officers, Estate Office Peshawar and Quetta made numerous allotments and handed over possession of the accommodations during the financial year 2022-23 in colonies located at concerned stations. Audit further noted that category-wise General Waiting Lists (GWLs) were being prepared on loose computer sheets instead of updating the same on the Estate Office Website to ensure the transparency and compliance of the orders of Minister/Ministry of Housing & Works regarding computerization of record of Estate Office.

Audit observed that the GWLs prepared at present were vulnerable to change/modify easily at any time/stage. Audit further observed that the Estate Officer did not bother to do the needful even after issuance of directions by the Supreme Court of Pakistan/Federal Government and taking the issue in previous audit report.

Audit maintains that irregular allotments/possessions occurred due to non-adherence to the orders of Supreme Court of Pakistan and AAR, 2002.

Audit pointed out the irregularity in November-December 2023. The Estate Office, Quetta did not reply while Estate Office, Peshawar replied that allotments were made to senior most Federal Servants on their turn from GWL under rule 6 and 7 of AAR, 2002. Moreover, a request has been made to Estate Office, Islamabad (HQ) for grant of excess to category-II GWL. The reply was not accepted being an interim reply. Further, Additional/Joint Estate Officers, Estate Office, Peshawar and Quetta committed severe irregularity by issuing allotment letters under Cat-II without observing the General Waiting List.

DAC meeting was not convened by PAO despite requests made by Audit on 21.12.2023 and 31.12.2023.

Audit recommends maintaining GWLs in accordance with the AAR, 2002 and placing updated GWLs on the website of Department periodically so that the process of allotment may be fair and transparent. The judgment of the Supreme Court of Pakistan may also be adhered to strictly to strengthen the internal controls of the Department.

(DP. 43, 75, 76, 77 & 80)

CHAPTER 6

PAKISTAN HOUSING AUTHORITY FOUNDATION (MINISTRY OF HOUSING AND WORKS)

6.1 Introduction

A. Pakistan Housing Authority Foundation (PHAF) is a Public Company registered with Securities and Exchange Commission of Pakistan under Section 42 of the Companies Ordinance, 1984. Secretary Housing and Works Division is the Principal Accounting Officer of PHAF. The major objectives/services entrusted to PHA Foundation are as under:

Being one of the implementing arms of the Ministry of Housing and Works, PHA Foundation is mandated to provide shelter and to reduce the housing shortfall in Pakistan.

PHA Foundation provides low cost housing units to low and middle income groups of Pakistan on ownership basis. Since its inception in 1999, PHA Foundation has built several housing units for general public and Federal Government Employees in Federal and Provincial capitals to provide high quality and state-of-the-art buildings at low and affordable price.

In addition to Ground plus 3 building apartments, PHA Foundation has undertaken to construct high rise buildings. Construction of PHA-Maymar Towers in Karachi is first endeavor in this respect.

Regional offices have also been established in Lahore and Karachi to provide services to the allottees of the respective areas.

B. Budget and Accounts

The table below shows the position of budget and expenditure of PHA Foundation for the financial year 2021-22:

(Rs in million)

Nature	Original Budget	Final Budget	Expenditure	Excess/ (Saving)	% age
Non-Development (Operational)	569.008	569.006	698.407	129.401	22.74
Development	13,283.080	6,233.186	4,333.038	(1,900.15)	(30.48)
Grand Total	13,852.088	6,802.192	5,031.445	(1,770.75)	(26.03)

Source: Financial Statements 2021-22

Revenue for the Year 2021-22

(Rs in million)

Estimated Receipts	Revised Estimated Receipts	Actual	Surplus/ (Deficit)	% age
16,014.394	4,904.267	4,532.576	(11,481.82)	(71.69)

C. Audit Profile of PHAF

(Rs in million)

Sr. No.	Description	Total Nos	Audited	Expenditure audited FY 2021-22	Revenue/ Receipts audited FY 2021-22
1	Formations	1	1	5,031.445	4,904.27

Note: Audit conducted during Phase-II of Audit Plan 2022-23

6.2 Classified summary of audit observations

Audit observations amounting to Rs 31,654.408 million were raised in this audit report. Summary of the audit observations classified by nature is as under:

Overview of audit observations

S. No.	Classification	Amount (Rs in million)
1	Irregularities	
A	Works, Contract management	18,543.833
B	Management of accounts/balances	66.019
C	Revenue management	12,969.704.
2	Others	74.852
Total		31,654.408

6.3 Brief comments on the status of compliance with PAC's directives

Compliance position of PAC's directives on Audit Reports relating to PHAF is as under:

Year	Total Paras	No. of Paras Discussed	Compliance Made	Compliance Awaited	Percentage of compliance
2003-04	01	01	-	01	0
2007-08	01	01	-	01	0
2009-10	04	04	-	04	0
2010-11	02	02	01	01	50
2011-12	04	04	-	04	-
2013-14	08	07	01	07	12.5

Year	Total Paras	No. of Paras Discussed	Compliance Made	Compliance Awaited	Percentage of compliance
2015-16	18	09	-	09	-
2019-20	05	01	-	01	-

Note: Audit report for the year 2012-13, 2014-15, 2016-17 (SAR), 2017-18, 2018-19 and 2020-21 are yet to be discussed by PAC.

6.4 AUDIT PARAS

6.4.1 Execution of works worth Rs 14,451.078 million without obtaining IEE and EIA

Section 12 of Pakistan Environmental Protection Act, 1997 (PEPA, 1997) states that no proponent of a project shall commence construction or operation unless he has filed with the Federal Agency an initial environmental examination (IEE) or, where the project is likely to cause an adverse environmental effect, an environmental impact assessment (EIA), and has obtained from the Federal Agency approval in respect thereof.

Audit noted that Pakistan Housing Authority Foundation (PHAF) awarded the works for construction of housing units/apartments in I-12 and I-16/3, Islamabad. The work on the site started in 2016.

Audit observed that PHAF started execution of work on both projects without obtaining IEE and EIA as required by the above mentioned law. This resulted in irregular execution of works amounting to Rs 14,451.078 million.

Audit pointed out the issue in January 2023. The Foundation replied that matter of environment always was kept on priority and Foundation has observed Section 12 of PEPA, 1997 in letter and spirit. The work for preparing the EIA reports for I-16/3, I-12 Project was awarded on 06.03.2018. The Environmental Approval for I-16/3 & I-12 was issued on 23.02.2021 & 06.07.2022 respectively.

The reply was not tenable as the works/projects were awarded in 2016-17, whereas the Authority submitted EIA reports to Environmental Authorities on 25.09.2018 for approval and the required approvals were issued on 23.02.2021 & 06.07.2022..

DAC meeting was not convened by PAO despite repeated requests made by Audit on 14.06.2023, 20.10.2023, 06.11.2023 and 19.12.2023.

Audit recommends referring the matter under Section 21 of PEPA, 1997 as a complaint to the Environment Tribunal for imposing appropriate penalty on officers concerned for violating Section 12 of the said Act. Further, PHAF should strengthen its financial pre-audit controls to prevent commencement of projects without the requisite IEE or EIA.

(DP. 15)

6.4.2 Failure to meet target of revenue receipts from allottees - Rs 11,867.556 million

PHAF set out Revenue Receipts Target of Rs 15,744.927 million to be realized from the allottees of the housing units/apartments/flats during the financial year 2021-22.

Audit noted that PHAF collected only Rs 3,877.371 million of revenues from allottees in the financial year 2021-22.

Audit observed that PHAF fell short of its target revenue from allottees for the financial year 2021-22 by Rs 11,867.556 million, or 75.3%.

Audit maintains that irregularity occurred due to non-adherence to authority's rules and regulations and inadequate implementation of financial and internal controls.

Audit pointed out less realization of receipts in January 2023. The Foundation replied that the budget was revised and got approved in 49th BoD meeting held on 31.05.2022, according to which low receipts were only in 05 projects. According to revised budget, less realization of receipt came to Rs 757.430 million instead of Rs 11,867.556 million.

The reply was not tenable because the Foundation faced significant shortfall in meeting its target of revenue receipts for the year 2021-22.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 14.06.2023, 20.10.2023, 06.11.2023 and 19.12.2023.

Audit recommends inquiry to determine the reasons for shortfall in revenue collection. Possible reasons could be non-cancellation of allotment of defaulters, disinterest of public due to delay in completion of works/projects, and low-cost high-rise apartments building which can be vulnerable to earthquake. Inquiry should also identify steps that can be taken to improve the collection process.

(DP. 01)

6.4.3 Non-revalidation of insurance cover of projects - Rs 4,092.755 million

As per clause 21.1 of the contract agreement, the contractors were required to insure the work and equipment for an amount equal to contract amount plus 15%. The insurance cover was to be valid from start of the work until the date of issue of taking over certificate.

Audit noted that Managing Director/CEO, PHAF, Islamabad awarded projects of I-12 and I-16/3 during the year 2021-22 to various contractors.

Audit observed that the management of PHAF did not revalidate the insurance cover for the projects despite expiry of the insurance policies. The contractor's rates were inclusive of cost component of insurance premium. By non-insuring of works, not only PHAF's financial interest was put at risk but financial benefit was also given to the contractors on account of insurance premium. This resulted in non-revalidation of insurance coverage of projects worth Rs 4,092.755 million (**Annexure-AAA**).

Audit pointed out the irregularity in January 2023. The Foundation replied that the contractors of I-16/3 and I-12/1 projects of packages highlighted by the Auditor had already provided extended Contractor's All Risk Insurance (CAR) Policies.

The reply was not sufficient as the Foundation was required to recover the amount of premium of uninsured period from the contractors besides obtaining the revalidated insurance covers, which was not done.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 14.06.2023, 20.10.2023, 06.11.2023 and 19.12.2023.

Audit recommends recovering the amount of premium of uninsured period from the contractors. Further, Planning Commission should proactively review PC-III quarterly reports to ensure timely compliance with insurance provisions in public works contracts.

(DP. 14)

6.4.4 Non-cancellation of apartments due to not depositing the installments by the allottees - Rs 1,102.148 million

As per clauses 4.3 and 4.4 of the terms and conditions of allotment, apartments shall be cancelled in case of non-payment of three (03) consecutive installments, and cancellation notices will be issued after the default of three quarterly installments and after the issuance of third notice, allotment will be cancelled if the allottee fails to deposit the requisite amount within given date of third and final notice.

Board of Directors (BoD) of PHAF in its 35th meeting, approved the following policy:

The management shall decide about the allotment of cancelled apartments at G-11/3 and I-11/1, Islamabad and Shabbir Tow/Wafaqi Colony Lahore.

The officials shall be offered apartments in existing I-12 project and officers at proposed new block in I-12, Kurri Road, G-10 and upcoming projects.

The apartments shall be offered to PHAF employees on actual construction cost basis as per previous practice.

Audit observed that PHAF:

Launched a housing unit/apartments scheme in I-12, Islamabad comprising 3,200 units/apartments. Allottees of 291 apartments did not deposit their outstanding dues amounting to Rs 665.548 million since long, but their allotment was not cancelled by the management. (DP. 11)

Published notice for defaulters in I-16/3 project on 20.2.2022 against 74 apartments which were cancelled and re-allocated to general public on first come first serve basis. Re-allotment of these apartments to general public was in violation of aforementioned decision taken in 35th BoD meeting. The cancelled apartments were allocated to general public at the same cost on which they were offered on first allotment. This resulted in non-allotment of 74 apartments worth Rs 362.600 million (74 x Rs 4.9 million approximately) and loss of Rs 74.000 million (Rs 1.000 million per apartment). (DP. 6 & 7)

Audit pointed out the matter in January 2023. The Foundation replied that in DP.06, no quota was fixed for PHAF Employees at I-16/3 Project, Islamabad and after 49th meeting of Board of Directors held on 20.05.2022, 2% quota was reserved from cancelled apartments for PHAF

Employees. However, the BoD in its 51st meeting held on 02.11.2022 decided that only 1% quota should be reserved for PHAF Employees (BPS 1-16) against E type cancelled apartments. However, B type cancelled apartments will be allotted to General Public on First Come First Serve Basis. Therefore, 1% quota was observed and 09 E type apartments were allotted to PHAF Employees. In DP.07, additional cost of Rs 1.200 million for B type & Rs 0.700 million for E type apartments had been imposed, which would be collected from all the allottees including recently booked apartments. In DP.11, PHAF initiated cancellation process against those allottees who were defaulting three or more installments. As per cancellation process, three notices had been issued and a final notice in newspapers would be published soon after which the defaulters' allotments shall stand cancelled.

The reply was not tenable as the Foundation remained unable to collect outstanding dues from the allottees and accordingly no cancellation process was initiated against these defaulters. Further, additional cost of Rs 1.900 million imposed on B & E type apartments was also not collected till now. The Foundation was required to expedite the collection of outstanding dues and initiate cancellation process against the defaulters at the earliest.

Audit maintains that the irregularity occurred due to non-adherence to Foundation's rules and regulations and inadequate implementation of financial and internal controls.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 14.06.2023, 20.10.2023, 06.11.2023 and 19.12.2023.

Audit recommends expediting the collection of outstanding dues and initiating cancellation process against the defaulters at the earliest, besides fixing of responsibility against the persons involved in irregular allotments.

(DP. 06, 07&11)

6.4.5 Loss due to payment of taxes despite having tax exemption - Rs 74.852 million

According to Note 4.3 to the Financial Statements for the year ended 30.06.2022, the income of PHAF is exempted from tax as it is a government department in light of Ministry of Law, Justice and Human Rights O.M. No. 973/99-LAW dated 08.05.2000.

Audit noted that Managing Director/CEO, PHAF, Islamabad made payments of Rs 74.852 million on account of taxes (Note 23) on its other income in financial year 2021-22.

Audit observed that PHAF's management did not pursue the case of tax exemption vigorously. This resulted in loss of Rs 74.852 million to PHAF on account of payment of taxes despite having tax exemption.

Audit holds that the loss occurred due to non-pursuit of case by the legal section of the Foundation.

Audit pointed out the loss in January 2023. The Foundation replied that in order to avail the tax credit available under section 100C of the Income Tax Ordinance, 2001 inter-alia the foremost prerequisite is mandatory approval of the Commissioner (Inland Revenue) as defined under section 2(36) of the Income Tax Ordinance, 2001. Utmost efforts were made to get approval under Section 2(36) to avail 100% tax credit.

The reply was not tenable as the Foundation made no strenuous efforts to obtain tax exemption certificate in order to save the Foundation from financial loss.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 14.06.2023, 20.10.2023, 06.11.2023 and 19.12.2023.

Audit recommends that BoD may consider taking up the matter with the Federal Board of Revenue to get the tax exemption certificate.

(DP. 04)

6.4.6 Loss due to non-investment of surplus funds - Rs 66.019 million

As per Finance Division O.M. dated 02.07.2003, investment of surplus funds in non-government securities/Term Finance Certificates (TFCs)/shares was allowed.

Audit noted during scrutiny of PHAF Financial Statements for the financial year 2021-22 that an amount of Rs 489.037 million was shown in financial statements under the head “other income”.

Audit observed that as per above-mentioned O.M. of Finance Division, PHAF could have earned profit by investing these funds in non-government securities of Rs 66.019 million (Rs 489.037 million x 13.5% approx.).

Audit holds that non-investment of surplus funds was due to weak financial management.

Audit pointed out the issue in January 2023. The Foundation replied that head shown in financial statement “other income” comprised of transfer fee, documentation charges, cancellation charges, delayed payment charges, possession charges, membership fee and mainly interest amount being transferred quarterly of all PHAF bank accounts in the respective bank account and these funds are used for operational expenditures of foundation. PHAF is no profit no loss entity and does not get any grant or aid from Government/ PSDP, so no loss has been incurred by PHAF by not investing in instruments/securities.

The reply was not accepted as the Foundation failed to increase its income by investing surplus funds in non-government securities/TFCs/ shares, etc.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 14.06.2023, 20.10.2023, 06.11.2023 and 19.12.2023.

Audit recommends fixing of responsibility through fact-finding inquiry for non-investment of large surplus funds, besides taking immediate steps to appropriately invest these funds in non-government securities/TFCs/shares.

(DP. 09)

6.4.7 Non-installation of fire safety system in constructed housing units/apartments by PHAF

Para 4.1.18 of the Islamabad Capital Territory Building Control Regulations, 2020 states that provision of Pakistan Building Code Fire Safety Provisions, 2016 shall be followed. All drawings and certifications for fire safety provisions shall be in accordance with these codes. Certification of installed fire safety equipment shall be obtained from relevant Authority on yearly basis and will be posted in the building.

Audit observed during scrutiny of record that high-rise apartment buildings constructed by PHAF did not have any fire safety measures in place. This lack of fire safety measures poses a significant risk to the residents living in these buildings, as well as to the structures themselves. Audit holds that the Foundation's failure to include fire safety measures in the construction of these buildings is a clear violation of the ICT Building Control Regulations.

Audit pointed out the issue during January 2023. The Foundation replied that necessary action would be taken in this regard. Thus, the Foundation admitted non-installation of fire safety system and agreed to adopt the same in future.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 14.06.2023, 20.10.2023, 06.11.2023 and 19.12.2023.

Audit recommends that the Foundation should immediately adopt fire safety measures in accordance with the Pakistan Building Code Fire Safety Provisions 2016 to ensure the safety of the residents and the buildings.

(DP. 12)

CHAPTER 7

NATIONAL CONSTRUCTION LIMITED (MINISTRY OF HOUSING AND WORKS)

7.1 Introduction

A. National Construction Limited (NCL) was incorporated on 16.11.1977 under the Companies Act, 1913 later on replaced with Companies Ordinance, 1984 as unlisted public company. As per Schedule-II of Rules of Business 1973, Housing and Works Division is responsible for matters relating to NCL.

The principal activities of the Company are to carry out the business of construction as consultant, advisor, structural engineer, builder, architect, contractor, job contractor and designer and to engage in other allied activities. The authorized share capital of the Company is Rs 200.00 million.

B. Comments on Budget and Accounts (Variance Analysis)

Receipt and expenditure for the financial year 2021-22 is tabulated below:

(Rs in million)

Receipt/Income	Amount
Contract Revenue	354.842
Head-wise Expenditure (Development)	
Salaries & wages (Project establishment)	79.041
Material (Steel, Cement, Sand, Bricks, Crush, Pipes, Electrical Goods, Doors, Hardware, etc.) Consumed	145.417
Sub-Contractors' Services	68.127
Other Expenses (Overheads, etc.)	12.177
Total Development Expenditure	304.762
Head-wise Expenditure (Non-Development)	
Salaries	26.414
Gratuity expenses	0.363
Provident fund Contribution	0.900
Vehicles running maintenance	1.678
Rent and Utilities	1.097
Communication	0.650
Legal & Professional charges	1.030
Provision for doubtful debts	3.941
Auditors' remuneration	0.368
Others	1.558
Total Non-Development Expenditure	37.999
Grand Total (Expenditure)	342.761

Source: Financial Statements for the year 2021-22

C. Audit Profile of NCL

(Rs in million)

S. No.	Description	Total Nos	Audited	Expenditure audited FY 2021-22	Revenue/ Receipts audited FY 2021-22
1	Formations	1	1	342.761	354.842

7.2 Classified summary of audit observations

Audit observations amounting to Rs 2,212.746 million were raised in this audit report. Summary of the audit observations classified by nature is as under:

Overview of audit observations

S. No.	Classification	Amount (Rs in million)
1	Irregularities	
A	HR related irregularities	84.537
B	Procurement/award of work	244.221
C	Works execution, contract management	1,844.353
2	Other	39.635
Total		2,212.746

Note: Amount of audit observations is more than expenditure due to award related and performance-based issues in works execution.

7.3 Brief comments on the status of compliance with PAC's directives

Compliance position of PAC's directives on Audit Reports relating to National Construction Limited is as under:

Audit year	Total Paras	No. of Paras Discussed	Compliance Made	Compliance Awaited	Percentage of Compliance
1990-91	1	1	1	-	100%
1991-92	1	1	1	-	100%
1992-93	5	5	5	-	100%
1993-94	3	3	2	1	67%
1995-96	1	1	1	-	100%
1996-97	2	2	2	-	100%
1999-00	7	7	3	4	
2000-01	1	1	1	-	100%
2001-02	1	1	1	-	100%
2003-04	5	5	4	1	
2005-06	5	5	5	-	100%
2006-07	8	8	6	2	
2007-08	2	2	0	2	-
2008-09	4	4	3	1	-
2009-10	5	5	5	-	100%
2010-11	1	1	1	-	100%
2013-14	6	2	0	2	-

Note: Audit Reports for the year 2011-12, 2012-13, 2014-15, 2015-16, 2016-17, 2017-18, 2018-19, 2020-21, 2021-22 and 2022-23 are yet to be discussed in PAC.

7.4 AUDIT PARAS

7.4.1 Non-completion of on-going projects within stipulated period of time - Rs 1,844.353 million

Audit noted that National Construction Limited (NCL), Islamabad awarded following construction works/projects during the years 2016 to 2019 which were to be completed in the years 2018 to 2021, as per stipulated completion period mentioned in each contract, as detailed below:

S. No.	Name of Contract/Client	Date of Start	Actual Date of Completion	Contract Cost Rs in million	Work Done up to Dec. 2022 %Age
1.	Construction of 05 Cat-I Houses and 10 Cat-II Houses at KCI Chashma	April 2016	December 2017	118.363	87.964 75%
2.	Construction of 40 Cat-IV Houses at KCI Chashma	April 2016	December 2017	122.906	107.173 88%
3.	Construction of 50 Cat-V Houses at KCI Chashma	April 2016	December 2017	111.567	99.074 90%
4.	Construction of R&D Labs at Pakistan Institute of Engineering and Applied Sciences (PIEAS) Nilore, Islamabad	Mar 2018	June 2020	230.412	159.727 70%
5.	Construction of High Performance Computing (HPC) Labs, Nilore	June 2018	March 2019	182.044	129.458 72%
6.	Construction of Misc. Building & Residential Colony at Gilgit Institute of Nuclear Medicine, Oncology and Radiotherapy (GINOR), Gilgit	July 2019	September 2021	344.132	237.165 70%
7.	Construction of 168 B-Type Apartments, I-16/3, Islamabad	July 2016	January 2019	734.929	591.361 81%
	Total			1,844.353	1,411.92

Audit observed that the above-mentioned projects were still in progress despite expiry of completion period as per contract provisions which showed that the progress of NCL was far behind the work schedule already submitted to the client department. This resulted in non-completion of on-going projects of Rs 1,844.353 million within stipulated completion period.

Audit is of the view that NCL did not complete any project within completion period and company could face liquidated damages/delay charges due to delay in completion of the projects which may cause unnecessary financial burden on the company in addition to time overrun and cost overrun of the project. Moreover, the delay in completion of projects may affect the performance/rating of the company.

Audit pointed out the irregularity in March 2023. The company replied that the projects were not completed within time due to late decisions by the clients/consultants, unprecedented price hike and shortage of construction material. The extension in time up to 30.06.2023 was granted without liquidated damages. If liquidated damages were imposed on NCL then this would also be imposed on sub-contractors.

The reply was not accepted because the projects were still incomplete up to January 2024 which depicted the capacity and the ability of the company. Further, the status of EOTs beyond 30.06.2023 was not shared with Audit.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 20.10.2023, 06.11.2023 and 19.12.2023.

Audit recommends fixing responsibility through fact finding inquiry besides improving internal controls as well as enhancing project execution performance skills.

(DP. 01)

7.4.2 Irregular purchase of construction material due to splitting - Rs 153.021 million

Rule 9 of the Public Procurement Rules, 2004 provides that a procuring agency shall announce in an appropriate manner all proposed procurements for each financial year and shall proceed accordingly without any splitting or regrouping of the procurements so planned. The annual requirements thus determined would be advertised in advance on the Authority's website as well as on the website of the procuring agency in case the procuring agency has its own website.

Audit noted that NCL, Islamabad awarded twenty-three (23) contracts for purchase of construction material and made payment of Rs 153.021 million during the financial year 2021-22.

Audit observed that the works were awarded to different suppliers for purchase of construction material through splitting the work into small quantities even though the BOQ of the respective projects against which procurements were made showed much higher requirements of materials. The practice of purchase of construction material through multiple transactions/contracts not only involved extra human resources but also non-competitive rates. This resulted in irregular material supply contracts worth Rs 153.021 million.

Audit maintains that irregularity occurred due to weak internal controls.

Audit pointed out the irregularity in March 2023. The company replied that the material was procured as per site requirement and availability of funds.

The reply was not accepted because the procurements through piecemeal work orders limited the scope of tendering among the larger number of suppliers, which could have resulted in cheaper/competitive rates.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 20.10.2023, 06.11.2023 and 19.12.2023.

Audit recommends fixing responsibility through fact-finding inquiry for awarding the contracts in pieces for purchase of material instead of award as a whole. Further, Planning Commission and PPRA should strengthen their monitoring functions to ensure lawful award of public procurement contracts.

(DP. 07)

7.4.3 Irregular procurement of lifts without open tendering and change in specification during contract execution - Rs 91.200 million

Rule 12(2) of the Public Procurement Rules, 2004 provides that all procurement opportunities over three million Pakistani Rupees shall be advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

Audit noted that NCL, Islamabad awarded contract for "Providing & Installation of Passenger and Cargo Lifts" for the project "Construction of 168 B-Type Apartments, I-16/3, Islamabad" to M/s Riaz & Sons for Rs 91.200 million during the financial year 2021-22.

Audit observed that the bid was invited through invitation letter dated 7.02.2022 from two supplier/firms instead of open competitive bidding for the procurement process. M/s Riaz & Sons as lowest bidder quoted his rate for Orona (of Spain origin). However, in the BOQ/contract the specification of lift was mentioned as “Sami Round Doppler or approved equivalent”.

Audit maintains that instead of calling open bids, limited competition was carried out and contract was made for different make/made of lifts than as quoted by the lowest bidder. This resulted irregular procurements of lifts worth Rs 91.200 million without open tendering and irregular change in specifications.

Audit pointed out the irregularity in March 2023. The company replied that the client (PHAF) directed the consultants M/s SAMPACK for technical evaluation who approved two firms. Tenders were called from these two qualified firms.

The reply was not accepted because instead of calling open bids, limited competition was carried out and contract was made for different make/made of lifts than as quoted by the lowest bidder.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 20.10.2023, 06.11.2023 and 19.12.2023.

Audit recommends fixing responsibility through fact-finding inquiry for mis-procurement of lifts through invitation letter beyond three million rupees and changing specification therein. Further, Planning Commission and PPRA should strengthen their monitoring functions to ensure lawful award of public procurement contracts.

(DP. 08)

7.4.4 Non-approval of Service Rules and expenditure under head salary without approved sanction strength - Rs 43.074 million

According to Chapter II of Esta Code, appointments to an All-Pakistan Service or to a civil service of the Federation or to a civil post in connection with the affairs of the Federation, including any civil post connected with defence, shall be made in the prescribed manner by the President or by a person authorized by the President in that behalf. Further, a civil servant appointed to a post shall be entitled, in accordance

with the rules, to the pay sanctioned for such post, provided that, when the appointment is made on a current-charge basis or by way of additional charge, his pay shall be fixed in the prescribed manner.

Audit noted that NCL, Islamabad booked expenditure under head of account of salaries of 27 officers, 17 staff and 17 other Grade-IV staff for the financial year 2021-2022 amounting to Rs 43.074 million.

Audit observed that the Board of Directors (BoD) of NCL, Islamabad had not approved the service rules. The approval of sanctioned strength of 57 employees from any competent forum was not available on record. This resulted in unjustified/unauthorized expenditure in the head of salary without approved sanctioned strength of Rs 43.074 million.

Audit maintains that non-approval of service rules from BoD and unjustified expenditure was due to inadequate financial and internal oversight mechanism.

Audit pointed out the irregularity in March 2023. The company replied that service rules and sanctioned strength was duly approved by the BoD.

The reply was not accepted because approvals of BOD of the company as replied were not provided to Audit for verification.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 20.10.2023, 06.11.2023 and 19.12.2023.

Audit recommends fixing responsibility through fact-finding inquiry for disbursement of salaries without approval of sanctioned strength from the competent authority, besides strengthening of financial pre-audit controls to prevent payment of salaries to such officials in future.

(DP. 05)

7.4.5 Irregular expenditure on payment of daily wages from petty cash - Rs 41.463 million

As per paras 197 and 205 of CPWA Code, from the muster rolls the subordinate will prepare the labour reports, and from the measurement book he will check the bills and accounts of contractors

and suppliers. In Part III of the muster roll form, the progress of work done by the labour should be recorded in all cases where such work is susceptible of measurement. If the work is not susceptible of measurement a remark to this effect should be recorded.

Audit noted that NCL, Islamabad had drawn Rs 41.463 million (in the head of accounts of Petty Cash during the financial year 2021-22) as cash from bank and payments made to daily wages, etc., on Muster Rolls.

Audit observed that NCL made payments through Petty Cash for daily wage labourers, which was not recorded in the muster rolls and measurement books as required. The progress of work done, and labour reports were also not maintained as per rules. Furthermore, Audit observed that the record of cash payments by the Project Accountant through petty cash was unreliable due to not showing the progress of work done by labourers and susceptibility of measurement of work. This resulted in irregular expenditure due to payment of wages from petty cash amounting to Rs 41.463 million.

Audit maintains that unjustified expenditure was due to inadequate oversight mechanism and weak financial and internal controls.

Audit pointed out the irregularity in March 2023. The company replied that most of the payments were made through Project Accountants for wages, POL, day-to-day site petty expenses, etc. The Project Accountant was authorized as per NCL's financial rules to draw cash for onward payments.

The reply was not accepted because the works executed by daily wages was not recorded in the measurement books as required. The labour reports were also not prepared and progress of work done was not recorded.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 20.10.2023, 06.11.2023 and 19.12.2023.

Audit recommends fixing responsibility through fact-finding inquiry for utilization of petty cash for payment of daily wages, besides strengthening of financial pre-audit financial controls to prevent such payments in future.

(DP. 06)

7.4.6 Unreliable accounting of store/stock of machinery and equipment - Rs 39.635 million

Chapter 8 of GFR Vol-I stipulates detailed procedure the procurement's receipts, issue, custody and accounting of stores in government and semi-government departments and autonomous bodies. Regarding receipt of stores, rule 148 states that all materials received should be examined, counted, measured or weighed as the case may be, when delivery is taken, and a certificate to this effect shall be recorded by officer in charge. He is also required to give a certificate that he has actually received the materials and recorded them in the appropriate stock register. Rule 13 requires that each Head of the Department shall depute a senior officer to inspect the store at least once in a financial year to see that effective system of internal check exists for securing receipt and issue of stores.

Audit noted that financial statements of NCL, Islamabad disclosed net amount of Current Assets as Rs 892.405 million (Rs 39.635 million as stock/construction material) on 30.06.2022.

Audit observed that the management was maintaining loose stock inventory sheets for stores, spares tools and stock of construction material where only item name, quantity and amount of all type of store articles was entered without indicating quantity actually received in response to a tender or petty purchases order, its issue balance if any, obsolete or unserviceable items, their disposal if any, present existence/ location of the asset, etc. Further, the cost of all items in stock inventory sheets was not inserted in the amount shown in financial statements. Audit further observed that variation in the valuation of store and spares in the financial statements of 2020 to 2022 indicates that the statistics were not reliable or realistic. This resulted in unreliable accounting of store/stocks and stocks of construction material amounting to Rs 39.635 million (Rs 9.719 million + Rs 29.916 million) in current assets.

Audit pointed out the irregularity in March 2023. The company replied that the stock register was being maintained. Moreover, details of obsolete/unserviceable items were also maintained at project site for auction.

The reply was not accepted because stock registers were not being maintained and physical verification of stores, material was also not being carried out.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 20.10.2023, 06.11.2023 and 19.12.2023.

Audit recommends requisite corrective action as advised by a fact-finding inquiry to see:

Whether or not Stock Register/account is true reflection of all assets that physically exist;

Reasons for cost variance between Stock Register and financial statements;

Whether or not each asset bears a distinct number for identification; and

Whether or not effective controls exist to avoid any pilferage.

(DP. 03)

7.4.7 Loss to company due to ill management and non-renewal of PEC License during previous financial years

NCL was incorporated as a Public Company on 16.11.1977. As per Memorandum of Association of NCL, the main objective of the establishment of the Company was to take over, execute and perform all contracts in Pakistan which were being executed and performed by National Construction Ltd (Pakistan) Limited and also take over all the assets relating to the said contracts in Pakistan and all bank balances whether in credit or debit and all liabilities, obligations and personnel.

Audit observed during scrutiny of accounts record of NCL, Islamabad that the company was facing operating loss for the last five years which was alarming for the financial health of the company. A review of financial statements revealed that the contract revenue of the company was decreasing, and company was facing loss in the previous financial years.

Audit further observed that NCL's Pakistan Engineering Council license expired on 30.06.2018 which was renewed on 30.06.2023.

The reasons of loss to the NCL were as follows:

The company performance was in idol status and the management was enjoying facilities without work since 2016.

The company did not have the required number of Engineers, Technical staff and key personnel required as pre-condition of the PEC for the renewal of the license.

Non-participation in the bidding process and decrease in work done of running projects during previous years resulted in decrease in profit and eventually company suffered loss.

Existing projects were not completed in time.

Due to the factors explained above, NCL neither was engaged in new project/work nor had a working capital. This has resulted in a loss of billions of rupees.

Audit holds that the mismanagement was due to weak technical and internal controls and willful negligence by the company management and non-revalidation/renewal of PEC License of the company was due to weak and inefficient internal controls of the organization.

Audit pointed out the irregularity in March 2023. The company replied that consequent upon BoD meeting held on 13.12.2022, NCL was allowed to get its license renewed from PEC and maximum participation in tenders. NCL's license was renewed and it was on the path of revival now.

The reply was not accepted because physical progress of NCL against different development projects as contractor was not up to the mark. No record in support of PEC license renewal and revival of NLC was produced for verification.

DAC meeting was not convened by PAO despite repeated requests made by Audit on 23.06.2023, 20.10.2023, 06.11.2023 and 19.12.2023.

Audit recommends fixing responsibility through fact-finding inquiry for non-obtaining/ non-renewal of PEC license in time to avoid loss, besides corrective action to improve the management of the company to make it profitable and financially healthy.

(DP. 04)

CHAPTER 8

HIGHER EDUCATION COMMISSION (INFRASTRUCTURE DEVELOPMENT EXPENDITURE OF FEDERALLY CHARTERED UNIVERSITIES)

8.1 Introduction

A. Higher Education Commission (HEC), formerly University Grants Commission, was established through Higher Education Commission Ordinance 2002, for improvement and promotion of higher education, research, and development. The Commission is a corporate body having perpetual succession and a common seal with power, subject to the provisions of the Ordinance, to acquire, hold and dispose of property, both moveable and immovable. The Headquarters of the Commission is located at Islamabad. The Executive Director, HEC is the Principal Accounting Officer.

Directorate General of Audit Works (Federal), Islamabad is responsible for audit of infrastructure development (PSDP) expenditure of federally chartered universities/institutions under Higher Education Commission. Further, as per Auditor-General of Pakistan policy decision, issued vide letter No. AP&SS/C/Audit Jurisdiction/2015/106 dated 20.03.2015, the Directorate General of Audit Works (Federal), Islamabad has also been assigned the responsibility to comment upon the overall status of Federal Government Grants utilization by HEC on infrastructure development projects.

B. Comments on Budget and Accounts (Variance Analysis)

Budget allocation and expenditure relating to 154, Infrastructure Development Projects of PSDP of Universities/Institutes under Higher Education Commission, Islamabad for the financial year 2022-23 is as under:

(Rs in million)

Funds Allocation	Funds Released	Actual Expenditure	Excess/ (Saving)
43,428.907	43,373.116	43,357.573	(15.543)

Source: PSDP Utilization Report

The figures relating to 21 infrastructure development projects of 16 federally chartered universities under Higher Education Commission for the financial year 2022-23 is as under:

(Rs in million)

Funds Allocation	Funds Released	Actual Expenditure	Excess/ (Saving)
4,005.464	4,005.464	4,004.928	(0.536)

Audit evaluated overall performance of HEC with reference to utilization of development budget. Audit observed as follows:

During 2022-23 funds were not released to thirteen (13) ongoing projects despite allocation of Rs 2,483.950 million. Against these projects huge expenditure Rs 2,991.404 million had already been incurred up to June 2022. Non-release of funds against works in progress would certainly cause time/cost overrun.

During 2022-23 funds were released Rs 3,481.755 million for forty-five (45) projects against allocation Rs 10,345.173 million. Likewise, in nine (09) projects only Rs 110 million were released against allocated amount Rs 2,700 million. This shows slow progress in execution of these fifty-four (54) projects.

C. Audit Profile of HEC

(Rs in million)

S. No.	Description	Total Nos	Audited	Expenditure audited FY 2022-23	Revenue/ Receipts audited FY 2022-23
1	Formations	18	08	5,008.94	-

8.2 Classified summary of audit observations

Audit observations amounting to Rs 10,792.900 million were raised in this audit report. This amount also includes recoveries of Rs 529.147 million, as pointed out by the Audit. Summary of the audit observations classified by nature is as follows:

Overview of audit observations

S. No.	Classification	Amount (Rs in million)
1	Irregularities	
A	Procurement related irregularities	1,213.042
B	Execution of works, contract agreement	8,804.060
C	Management of accounts in commercial banks	775.798
Total		10,792.900

Note: Amount of audit observations exceeds audited outlays due to issues like award of works which involve future spending, amount covering multiple previous years of spending, multiple reckoning of monetary impact in different audit observations pertaining to same transaction, etc.

8.3 Brief comments on the status of compliance with PAC's directives

Compliance position of PAC's directives is as under:

Year	Total Paras	No. of Paras Discussed	Compliance Made	Compliance Awaited	Percentage of Compliance
2012-13	51	13	7	6	53.84
2013-14	14	14	02	12	14.29
2014-15	08	08	02	06	25.00
2015-16	09	09	01	08	11.11
2016-17	12	04	04	-	100
2017-18	11	11	09	02	81.81
2018-19	11	11	09	02	81.81

Note: Audit Reports for 2012-13, 2016-17 and 2018-19 were partially discussed while Audit Reports for the year 2019-20, 2020-21, 2021-22 and 2022-23 are yet to be discussed by PAC.

8.4 AUDIT PARAS

8.4.1 Approval of PC-I without conducting feasibility study leading to poor execution of works - Rs 4,203.985 million

As per Para 3.3 of Planning Commission's Guidelines for Projects Management, 2008, it is mandatory that the projects of Infrastructure Sector should undertake proper feasibility studies before the submission of PC-I. Separate provision has been made in the PSDP, under P&D Division for financing of the cost of feasibility studies of development projects and appointment of Project Directors at initial stage of project formulation. Based on the data and positive findings of feasibility study, PC-I is prepared and submitted for approval by the concerned forum.

As per para 2.33 of Planning Commission's Manual for Development Projects (December 2021), in general, expenditure on the establishment of new facilities (works, goods, and services) is regarded as developmental, while expenditure on ordinary maintenance and running of the existing facilities is treated as non-developmental and should be provided for in the non-developmental requirements of the respective government departments. As per PC-I approved by CDWP for project "Establishment of University of Baltistan Skardu" in April 2017 for Rs 1,747.307 million, there was no provision of expenditure on account of rent of buildings.

Audit noted that before approval of the above project, Karakoram International University (KIU) Skardu Campus was offering limited academic programmes. PC-I cost was revised to Rs 3,608.503 million with approval of CDWP on 01.06.2023.

Audit observed that feasibility study was not conducted before preparation of PC-I. The access road for the university did not exist at site, and it was also not included in PC-I due to non-conducting of feasibility study. This also signifies the need of proper feasibility study before preparation of PC-I and award of work accordingly. Audit further observed that the University hired three buildings on rent and all expenditures were being met from PSDP funds in violation of PSDP rules and regulations. An amount of Rs 500.00 million was released during financial year 2022-23, out of which Rs 234.777 million was spent for the payroll of university from PSDP funds instead of recurring grant of the university. The Chairman CDWP in its meeting in June 2023 also held it unjustified to pay salaries to the university staff out of development project which should be managed from the recurring budget. Another PSDP project titled "Strengthening of University of Baltistan Skardu" was approved in PSDP with cost Rs 595.482 million on 27.07.2021 for construction of Balti Museum (02 units) and girls hostel including boundary wall. This was omitted due to poor estimation of the earlier project and awarded as a separate project which also caused loss to Government due to rapid inflation.

Audit maintains that PSDP funds were allocated for establishment of the university, but the Management spent the funds of PSDP on payroll and other facilities of university instead of completing the said project. Due to this, project badly suffered and was incomplete even after expiry of five years. Further, the university was not yet established therefore, another project for its strengthening seems unjustified.

This resulted in approval of PC-I without conducting feasibility study, leading to poor execution of works amounting to Rs 4,203.985 million (Rs 3,608.503 + Rs 595.482 million).

Audit pointed out the matter in August 2023. The Management replied that the University of Baltistan was established in the light of Presidential Order 2016. Before establishment of University of Baltistan, KIU sub-campus was operational up to 2017 with 45 employees on strength. The PC-I of University of Baltistan, Skardu was approved with a cost of Rs 1,747.307 million in September 2017. University hired three buildings on rent for different faculties due to less space in existing building. The Authority accepted/approved payroll from Development Project until funds could be managed from recurring grant. PSDP project titled "Strengthening of University of Baltistan, Skardu" was approved in PSDP with cost Rs 595.482 million for construction of Balti Museum (02 units) and girls hostel including boundary wall which was not included in earlier project.

The reply was not tenable as the Management did not reply regarding non-conducting feasibility study and non-incorporation of access road in the approved PC-I. There was no provision in PC-I regarding establishing the university in rental buildings. Further, irregular provision of faculty salaries was made in PC-I.

The matter was discussed in DAC meeting held on 17.01.2024. Audit contended that non-preparation of feasibility study led to substantial variations including access roads and revision of PC-I from Rs 1,747.307 million to Rs 3,608.503 million. The management explained that global PC-II existed, however, access road was not provided in PC-I because access road was to be executed through local government project. The DAC directed the university management that a comprehensive report giving chronology of events of original PC-I and revised PC-I with scope variation and justifications, package-wise cost, dates of award, stipulated date of completion, actual date of completion, current financial and physical progress, provisions regarding establishment costs, etc., may be submitted to HEC M&E Division and final report along with supporting record, duly approved by Principal Accounting Officer/Executive Director be shared with Audit.

Audit recommends fixing of responsibility through fact-finding inquiry for not conducting feasibility study before preparation of PC-I, violations of PC-I and irregular payment of faculty salaries

from PSDP funds. Further, Planning Commission should proactively review PC-III quarterly reports to ensure compliance with the provisions of PC-I.

(DP. 23)

8.4.2 Non-insurance of work of Rs 2,017.034 million and non-recovery of premium there-against of Rs 11.443 million

Clause 21.1 of the contract agreement for the works, contractors were required to insure works, equipment and liabilities for death or injury to any person. As per Clause 25.3, in case of failure to do so the employer may effect and keep in force any such insurance, and pay any premium as may be necessary for that purpose and from time to time deduct the amount so paid from any moneys due or to become due to the contractor. The amount to be insured is contract amount plus 15%.

Audit noted that two universities, under the HEC approved PC-I for constructions of different works and awarded the works to different contractors for construction of academic block, administration block, main gate, Balti Museum, girl's hostel, and boundary wall, etc., for Rs 2,017.034 million.

Audit observed that in two cases (DP. 39 & 28), the Management neither obtained the insurance coverage nor it was invoked by the Project Directors to safeguard the interest of the department/university. Audit further observed (in case of DP.25) that the contractor provided insurance policy of the contract valuing Rs 589.116 million to the employer which was valid from 09.04.2021 to 08.04.2023. However, the work was not completed even in extended period and was still in progress, hence re-validated insurance policy was required to be obtained from the contractor which was not got done.

This resulted in non-obtaining of insurance coverage amounting to Rs 2,017.034 million and saving of inbuilt charges of Rs 11.443 million on such insurances by the contractors, as detailed below:

(Rs in million)

S. No.	DP. No.	Name of University	Amount	Remarks
1	25	University of Baltistan, Skardu	589.116	Revalidation case
2	28	University of Baltistan, Skardu	283.668	Without insurance policy
3	39	National University of Technology, Islamabad	1,144.250	Premium Rs 11.443 million
Total			2,017.034	

Audit maintains that non-obtaining of third-party insurance and non-revalidation of insurance was due to non-adherence to contract provisions and weak internal controls.

Audit pointed out the irregularities in August-September 2023. The Management replied in DP.25 that the contractor provided performance security bond of the contract valuing Rs 522.833 million to the employer which was valid up to 26.10.2023. This office requested Managing Director of M/s Aaj Sons Pvt. Ltd. for revalidation of insurance policy of Rs 589.116 million. In DP. 28 & DP.39, Management responded that contractors were being asked to provide insurance.

The Management admitted the Audit stance in all three (03) cases and assured to obtain works insurance from contractors and revalidation of insurance bond from insurance companies. Furthermore, performance security @10% of the contract amount could not be termed as an alternate of the insurance policy.

The matter was discussed in DAC meeting held on 17.01.2024. In case of DP. 25 and 39, DAC directed the university management that premium may be recovered from contractor for the period insurance remained ineffective. The insurance cover be got revalidated till the required extended period as per contract. Record regarding revalidation of insurance cover and recovery of premium may be verified from Audit. In case of DP. 28, DAC directed the management to obtain insurance cover from the contractor or effect it at its own in term of clause 25.5. DAC further directed the Head of University that

censure may be issued to the project officer/official responsible for not ensuring revalidation of insurance cover.

Audit recommends compliance of DAC's directive.

(DP. 25, 28 & 39)

8.4.3 Loss due to delay in completion of project and non-approval of revised PC-I in time - Rs 2,106.852 million

Para 2.9 of Planning Commission's Guidelines for Project Management, 2008 provides that project implementation agencies/ departments should seek the approval of the competent authority as soon as they consider change in scope of work or revision in cost. Sponsoring agencies should also anticipate likely delays. They should also fix responsibility for the delays. Those responsible for not undertaking forward planning and causing delays in implementation of projects should be taken to task. Para 8.8 explains the Role and Responsibilities of a Project Director/Manager that last but not the least is the role of a Project Director in completing the project without time and cost overrun.

During scrutiny of the record relating to the project "Establishment of Engineering Faculty of Karakoram International University (KIU) at Gilgit & Skardu" for the year 2022-23, Audit observed that the project execution was delayed from the year 2015 to 2023 involving cost overrun of Rs 2,106.852 million as detailed below:

(Rs in million)

S. No.	Name of Project	PC-I Cost and date	Revised cost and date	Excess
1	Establishment of Engineering Faculty of Karakoram International University at Gilgit	450.496 (04.03.2015)	1,351.268 (03.08.2023)	900.772
2	University of Baltistan, Skardu	436.528	1,642.608	1,206.080

S. No.	Name of Project	PC-I Cost and date	Revised cost and date	Excess
		(04.03.2015)	(14.12.2017)	
	Total	887.024	2,993.876	2,106.852

Audit maintains that delay in execution and completion of the project delayed the project benefits to the residents of Gilgit-Baltistan, besides extra burden on public exchequer.

Audit pointed out the matter in August/September 2023. The Management replied that original PC-1 of Rs 887.024 million for the project “Establishment of Engineering Faculty at Gilgit and Skardu campus” was approved in CDWP meeting held on 04.03.2015. Later on, KIU Skardu campus was merged with Baltistan University. On the directives of Minister P&D, KIU forwarded a revised PC-1 of Rs 1,642.608 million only for Establishment of Engineering Faculty at KIU. The work was award on 07.03.2018 at a cost of Rs 372.352 million. The work was started in April 2018. However, the local community of nearby village intervened and stopped the contractor to do any kind of civil work. KIU approached GB Government, who constituted a committee to resolve the issue. Meanwhile, the modified PC-1 submitted in December 2017 and recommended by HEC in light of which tender of civil work was awarded to the contractor of Rs 372.352 million was turned down in CDWP meeting held on 19.03.2018 and KIU was advised to utilize the existing funds within approved scope of work and submit modified PC-I. Later on, the local community in response to the local government anti-encroachment drive torched the under-construction boundaries. The matter was reported to HEC and Planning Commission of Pakistan. The contractor refused to continue the work under threatening environment. UET Peshawar assessed the torched building, and remaining work was awarded to new contractor on 29.06.2021. KIU again prepared modified PC-1 amounting to Rs 1,351.268 million and submitted to HEC on 21.12.2021. Finally, on 03.08.2023, the CDWP approved the revised PC-I. In the light of above facts, the project was delayed. The work at site was 78% completed and remaining 22% would be completed by 30.06.2024.

The reply was not tenable because civil work was awarded after two years, on 07.03.2018, from the date of 1st release of funds of Rs 285.00 million in 2015. Further, it was the responsibility of the Management to provide clear land for execution of work which was not done resulting in wastage of public money.

The matter was discussed in DAC meeting held on 17.01.2024. Audit contended that there was departure from project management standards which led to arbitration. The DAC directed the management that proper counter claims including LD, escalations be ensured in arbitration. The same may be pursued actively and final decision of the arbitration may be shared with Audit. DAC further

directed to provide work schedule of original contract, physical progress reflected in Monthly Progress Reports by PMU/consultants, EOT, justifications, corresponding payments against work done along with MB, rationale for difference, if any, mobilization advance status, termination of contract, difference between original and new contract with reference to cost and timelines, risk and cost factor, HEC Monitoring Reports on the project, VC Report, etc., to Audit for verification.

Audit recommends compliance of DAC's directive.

(DP. 30)

8.4.4 Unauthentic payments without recording detailed measurements of work in Measurement Book - Rs 847.676 million

As per Para 208 of Central Public Works Accounts Code, payments for all work done are made on the basis of measurements recorded in the Measurement Book (Form 23) in accordance with the rules in Para 209 of CPWA Code. The Measurement Books should, therefore, be considered as very important accounts record. Para 209(b) states that all measurements should be neatly taken down in a Measurement Book.

Audit noted that management of National University of Medical Sciences (NUMS), Rawalpindi, awarded a contract for construction of Nums Institute of Advanced Study and Research (NIASR) to M/s Sarhad Engineering and Electric Co. costing Rs 1,433.61 million w.e.f. 09.04.2022 to be completed on 09.04.2024 within 24 months. The contractor was paid Rs 847.676 million up to June 2023.

Audit observed that payments of work done, price adjustments were made to the contractor without recording detailed entries in the measurement books duly vetted by the authorized persons.

Audit maintains that veracity/authenticity of payment could not be verified due to non-maintenance of Measurement Books. The Authority adopted an irregular method of work measurement/record keeping by dispensing with an approved and established method of permanent record keeping for all public sector infrastructure works.

Non-maintenance of measurement book resulted in compromise of mandatory oversight and internal controls of 100% work done certification by the Engineer In-charge and 10% test check by the Supervisory Engineer.

This resulted in unauthentic payment without detailed measurement/execution in the measurement books for Rs 847.676 million.

Audit pointed out the matter in December 2023. The management replied that IPCs duly checked by site staff, Resident Engineer, PMU and Engineer Executives were maintained besides measurement books.

The reply was not accepted because detailed record entries on day to day basis with dimensions and calculations of quantities of different items of work were not being prepared. Unauthentic and unreliable computer based IPCs were being maintained against the provisions of rules.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends fixing of responsibility for violation of rules besides corrective action.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2021-22 and 2022-23 vide para number 8.4.3 (2021-22) and 9.4.1 (2022-23), having a financial impact of Rs 2,632.101 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 61)

8.4.5 Irregular construction of building work without prior approval of building plan from CDA - Rs 792.771 million

Para 2.2.2 of Islamabad Residential Sectors Zoning (Building Control) Regulations, 2020 provides that no building or structure shall be constructed or any additional/alteration made thereon except (a) with the prior approval of the Authority, and (b) Minor internal repairs; in accordance with the Building and Zoning Regulations, or instructions issued by the Authority in this behalf from time to time. Para 2.2.3 provides that any construction started/carried out without prior approval of the Authority shall be liable to be removed (partly or wholly) at the risk and cost of the owner and or fine as prescribed in the schedules/ annexure.

Audit noted that PC-I of Academic & Research Facilities and Girls Hostel at Quaid-e-Azam University, Islamabad was approved with original capital cost of the project for Rs 2,074.710 million with completion period of 36 months. The approved PC-I of the project was revised by CDWP in its meeting

held on 27.01.2023 with revised capital cost of Rs 3,686.734 million with revised completion period of 84 months. Total payment made to contractor under the project was Rs 792.771 million up to June 2023.

Audit observed that the Project Director started construction work under PC-I “Provision of Academic & Research Facilities and Girls Hostel at Quaid-e-Azam University, Islamabad” through different contractors without prior approval of Building Plan from CDA Islamabad as required under the aforementioned Building Control Regulations. This resulted in irregular construction of work without approval of building plan amounting to Rs 792.771 million.

Audit pointed out the irregularity in August 2023. The Management replied that the University was updating its master plan through the Consultant M/s NESPAK Pvt. Ltd. In this regard, the Government constituted a “Working Group” for the demarcation of university land and to resolve QAU land matters. After that, the University would submit its updated master plan including the mentioned buildings for approval to the CDA.

The reply was not accepted because the Building Committee had approved all components of the project, i.e., selection of site, construction activities of buildings design/drawings and renationalization of cost as per approved PC-I of the project without taking approval of layout plan/building plan from CDA Building Control, Islamabad. The Management was required to take up the matter with CDA about demarcation of total land area which was in the name of university.

The matter was discussed in DAC meeting held on 16.11.2023 wherein the Committee directed the University Management to provide details of efforts/correspondence made with CDA to Audit and pursue the case with CDA actively for early approval of building plans.

Audit recommends compliance of DAC’s directive regarding approval of building plans.

Note: The issue was also reported earlier in the Audit Report for Audit Year 2021-22 vide para number 8.4.1, having a financial impact of Rs 2,918.537 million. The recurrence of same irregularity is a matter of serious concern.

(DP. 01)

8.4.6 Irregular expenditure through Current Account instead of Assignment Account for Rs 619.979 million and non-surrender of PSDP development funds - Rs 101.81 million

As per Government of Pakistan, Finance Division, (Budget Wing), Islamabad the 17.09.2019, all payments shall be made through the pre-audit system of the Accountant General Pakistan Revenue (AGPR), or through Assignment Account procedures issued by the Finance Division. The funds in Assignment Account will be part of Consolidated Fund. Amounts remaining unspent at the close of financial year will appear as saving under the respective budget grant unless surrendered in time. Unspent amounts cannot be carried forward to next financial year.

Audit noted that Management of the National University of Medical Sciences, Rawalpindi, opened a Bank Account in NBP Shalimar Plaza, Rawalpindi vide Account No. 4153218789 on 01.08.2018 for “NIASR Project” under demand No.103 (PSDP). Audit further noted that HEC released funds Rs 245.13 million for Development of National University of Medical Sciences, Rawalpindi for NIASR Project.

The Management did not close the account after September 2019 and did not shift the balance in assignment account in violation of above cited Finance Division letter. Audit further observed that Rs 245.13 million PSDP funds were released to NUMS from 2018-19 to 2021-22 but expenditure of Rs 143.32 million (58% of releases) was incurred. Unutilized amount of Rs 101.81 million was not surrendered to Government. Furthermore, Audit observed that during the year 2022-23, an expenditure of Rs 619.979 million was incurred through current account instead of assignment account. This resulted in irregular expenditure of Rs 619.979 million without approval and non-surrender of PSDP funds Rs 101.81 million.

Audit pointed out the matter in December 2023. The management replied that the current account was opened as per HEC instructions and later in financial year 2020, the assignment account was opened.

The reply was not accepted because the maintenance of current account and making lapsable funds as non-lapsable was against the financial rules.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends fixing responsibility for irregularity.

8.4.7 Irregularities in procurement process of Lab/IT equipment - Rs 381.215 million

Rule 10 of the Public Procurement Rules, 2004 provides that the procuring agency shall allow the widest possible competition by defining such specifications that shall not favour any single contractor or supplier nor put others at a disadvantage. Further, any terms, specifications, standards, features, characteristics, and requirements prescribing the technical or quality characteristics shall be generic in nature and shall not include reference to brand name, model number, catalogue number, name or origin of the country or similar classification.

Rule 12(2) provides that all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

Rule 32 provides that no procuring agency shall introduce any condition which discriminates between bidders or that is considered to be met with difficulty. In ascertaining the discriminatory or difficult nature of any condition reference shall be made to the ordinary practices of that trade, manufacturing, construction business or service to which that particular procurement is related.

Audit noted that in five (05) cases the department awarded different works to different contractors and made payments accordingly for Rs 381.215 million, as detailed below:

S. No.	DP. No	Name of Formation	Subject	Amount Rs(in million)
1	18	Air University Islamabad	Irregular procurement of Lab Equipment due to acceptance of tenders selected item wise instead of complete package in BOQ	279.515

S. No.	DP. No	Name of Formation	Subject	Amount Rs(in million)
2	31 & 35	Karakoram International University Gilgit	Irregular procurement of Lab Equipment due to inappropriate evaluation criteria and non-observing wide circulation for the procurement process	79.673
3	48	NUTECH Islamabad	Unjustified/irregular procurement of library equipment	11.063
4	19	Air University Islamabad	Loss due to delay in procurement of lab equipment and award of work to the same contractor without competition	8.894
5	20	Air University Islamabad	Mis-procurement of lab equipment	2.070
Total				381.215

Audit observed the following:

Director P&D Air University, Islamabad issued tender documents for 120 items related to four (4) different engineering departments. Item-wise work orders were issued to four bidders instead of award on lump sum/whole items basis. This resulted in irregular procurement of lab equipment of Rs 279.515 million. (DP. 18)

The management of KIU invited tenders in February 2022. Audit observed that some items were awarded at higher rates due to disqualification of other firms who quoted lesser rates which resulted in irregular procurement of lab equipment of Rs 79.673 million. (DP. 31 & 35)

Deputy Director (Supply Chain Management) NUTECH, Islamabad conducted technical evaluation of two firms. One of them was declared disqualified and the financial bid of the other bidder was opened and accordingly work order was issued without obtaining further competitive rates. The Management should have opted for re-tendering process in order to get most competitive rates. As per Public Procurement Rules, in case of pre-qualification proceedings single bid shall not be entertained except unsolicited proposal. This resulted in unjustified/irregular procurement of Rs 11.063 million. (DP. 48)

Director A&D Air University, Islamabad firstly issued work order to M/s Professional System Pvt. Ltd. On 11.10.2018 costing US\$ 162,275 when the rate of Dollar was Rs 122.75. Secondly, again work order was issued to same contractor without open competition on 17.02.2021 and delivery of consignment was made on 03.03.2022 after lapse of one year when the rate of Dollar was Rs 177.56 which showed loss due to delay in procurement of lab equipment of Rs 8.894 million (Rs $177.56 - 122.75 = \text{Rs } 54.81 \times \text{US\$ } 162,275$). (DP 19)

M/s Form Factor (OEM) quoted rates for only one (S. No.12) item which was awarded to them. M/s Space Tech quoted rates in rupees while M/s Research Instrument & Measurement System quoted rates in US\$ where there was no competition. Rates for items quoted by M/s Space Tech, were not quoted by other two bidders while rates quoted by M/s Research Instrument were not quoted by other two bidders which showed clear cut collusive practice. Advertisement was not shared with Audit. No bidder participated in financial bid opening. This dubious financial evaluation resulted in irregular procurement of lab equipment of Rs 2.070 million and US\$ 165,305. (DP 20)

This resulted in irregularities in procurement process of Lab/IT equipment amounting to Rs 446.215 million.

Audit maintains that irregularities in procurement process occurred due to non-adherence to relevant rules and regulations.

Audit pointed out the irregularities in August-September 2023. The Management replied that:

In DP 18 and 20, the Management replied that the nature of each item was different. Therefore, complete package wise procurement of equipment from single vendor was not considered feasible.

In DP. 31 & 35, total estimated and approved cost was Rs 107.600 million and the total quoted rates of 1st lowest firm for items wise come to Rs 79.673 million and reasonable, therefore, supply order had been issued to supplier.

In DP 48, M/s Digital Data System was technically rejected by the user department as firm documents and specifications were not as per tender documents/ evaluation criteria.

In DP 19, vendor was willing to provide desired lab equipment on same terms and conditions with the best economic cost. The market price (internet based) of desired equipment quoted in 2021 was 2.3 times higher price quoted in year 2018. However, in order to proceed further vendor asked to reissue the purchase order with new dates as this was the requirement imposed by his OEM. Furthermore, OEM desired to address him as "micro sense a KLA company" in revised purchase order. Therefore, the required revised purchase order was issued accordingly as it did not have any financial procedural implications. LC was revised four (04) different times because of production delays due to the Covid-19 worldwide, fight unavailability due to Covid-19 and additional government clearances required by OEM at country of origin.

The replies were not accepted because:

If the nature of each item was different then Management was required to procure individually and department wise. DP (18)

The evaluation of rates was not prepared by the procuring agency before offering the bids and improper formulation was devised of specification for procurement which showed the BOQ as prepared with consultation with the supplier. Further, reasons of disqualification were also not intimated to rejected tenders/ bidders. (DP. 31 & 35)

In instant procurement, out of two firms one declared disqualified on technical grounds and accordingly its financial bid was not opened. No competition was there when Management accepted only one firm's financial bid. Therefore, it was required to retender which was not done. DP (48)

The Management gave no justification regarding non-imposition of penalty for non-delivery of equipment in 2018 and awarded the same work again to same contractor without open competition. DP (19)

The Management failed to share the advertisement and failed to invite for financial bid opening. The Management failed to justify the procurement procedure adopted for procurement of Lab equipment. (DP. 20)

The matter was discussed in DAC meeting held on 16.11.2023 wherein DAC directed that:

In DP. 18, documents including Assessment Report with re-valuation/comparison of item-wise and package-wise, market survey report, Authorized agents/distributors, record regarding price justification along with logical reasoning for new work order may be provided to Audit for verification.

In DP. 19 and DP. 20, HEC (M&E) Division should conduct a fact-finding inquiry and share the report with Audit along with supporting record for evaluation after approval of Executive Director.

The matter (DP. 35) was discussed in DAC meeting held on 17.01.2024. DAC directed the university management that a comprehensive report explaining reasons for disqualification, evaluation criteria regarding historical tracking of performance of bidders, evidence of past evaluation of performance showing action against disqualified bidder, whether specifications of items were generic or not may be submitted to HEC M&E Division and report duly approved by Principal Accounting Officer/Executive Director be shared with Audit. In DP. 31 DAC directed the university management to submit a certificate confirming that provided equipment are as per specifications and that procurement was made as per terms & conditions of the contract and the same may be provided to Audit. It may also be established that specifications were generic and not discriminative. In DP 48, DAC directed to get the record verified from Audit.

Audit recommends early compliance of DAC's directives.

(DP. 18, 35, 31, 48, 19 &20)

8.4.8 Irregular award of work/procurement due to excluding sub-component of work and offering financial bid to fewer pre-qualified contractors - Rs 551.287 million

Rule 16(3) of the Public Procurement Rules, 2004 provides that the procuring agency shall promptly notify each supplier or contractor submitting an application to pre-qualify whether or not it has been pre-qualified and shall make available to any person directly involved in the pre-qualification process, upon request, the names of all suppliers or contractors who have been pre-qualified. Only suppliers or contractors who have been pre-qualified shall be entitled to participate further in the procurement proceedings. The procuring agency shall communicate to those suppliers or contractors, who have not been pre-qualified, the reasons for not pre-qualifying them. Further, Rule 20 provides that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

Audit noted that Director A&D, Air University, E-9, Islamabad awarded the work “Construction of multi-story building under Phase-I in Sector H-11/2, Islamabad” for Rs 362.447 million to M/s Amanat Hussain.

Audit observed that Director P&D Air University, Islamabad did not adopt open procurement procedure in case of financial bidding from the pre-qualified contractors which was a clear violation of quoted rules. Audit further observed that the Management issued letter of invitation for financial bid to nine (09) contractors instead of eighteen (18) pre-qualified contractors. Out of nine (09), only four (04) contractors participated in the bidding process. M/s Amanat Hussain & Co. secured 1st lowest position. This was followed by issuance of doubtful invitation of financial bid letters without acknowledgment by the firms.

Furthermore, Audit observed that Project Director, Quaid-e-Azam University Islamabad awarded the work “Construction of Examination and Services Block”, (having PC-I cost of Rs 203.651 million) to the contractor with eligibility of Rs 200.00 million for Rs 188.846 million by excluding component of work of Rs 14.811 million. This resulted in irregular award of work for Rs 188.840 million by excluding the sub-component (external development) for Rs 14.811 million.

Audit maintains that irregular award of works to contractors was due to inadequate oversight mechanism and ineffective implementation of relevant rules.

Audit pointed out the matter in August 2023. The Management replied (DP. 13) that Air University has strictly followed Public Procurement Rules and PEC standard documents while processing prequalification of contractors and subsequently awarding contract without any favour. In DP. 6, the management replied that no favour was given to the contractors as almost

all the participating bidders including the lowest bidder, i.e., M/s Ali Ahmed Jan was registered in category-A which were entitled for contracts having cost more than Rs 200.00 million.

The replies were not accepted because (DP. 13) the Management was required to advertise for financial bidding from prequalified contractors instead of invitation through letters. Secondly the Management was required to invite financial bid from eighteen (18) prequalified contractors instead of ten (10). In case of DP. 6, letter dated 07.06.2021 stated that external development works were deleted from the original BOQ to keep the estimated cost of the buildings within the limit of Rs 200.00 million because the client had already floated tender to contractors of category-B being eligible for bidding against the works having value under Rs 200.00 million.

The matter was discussed in DAC meeting held on 16.11.2023 wherein DAC directed HEC (M&E) Division to conduct fact-finding inquiries in both cases and submit reports after approval of Executive Director to Audit along with supporting record for evaluation.

Audit recommends early compliance of DAC's directives regarding fact finding inquiry.

(DP. 13 & 06)

8.4.9 Non-recovery on account of risk & cost and liquidated damages from the flee contractors - Rs 225.019 million

Clause 27.2 - General Conditions of Contract provides that if the Employer has become entitled to the maximum reduction under Clause 27.1 for any part of the Works, he may by notice require the contractor to complete. Such notice shall fix a final time for completion which shall be reasonable. If the contractor fails to complete within such time, and this is not due to a cause for which the Employer or some contractor employed by him is responsible, the Employer may by further notice to the contractor either:

Require the Contractor to complete, or
May himself complete at the contractor's cost provided that he does so in a reasonable manner, or
Terminate the contract.

Audit observed that various packages of project "Construction of NUST Campus Quetta" were awarded to the M/s Zafaq Iqbal Gondal (ZIG) Private Limited and M/s International

Traders, respectively. A review of the record indicated that the said contractors failed to complete such works even after numerous and verbal notices issued by the management of NUST. The management neither recovered the cost of balance works nor blacklisted the defaulting contractors. The Performance Securities of defaulting contractors were also not en-cashed by the management of NUST, whereas, these securities were required to be en-cashed after default by the contractors.

This resulted in non-recovery on account of risk & cost and liquidated damages from the flee contractors for Rs 225.019 million (Recoverable from M/s ZIG for Rs 184.259 million + M/s International Traders for Rs 40.760 million as calculated by NUST project management).

Audit pointed out the non-recovery of risk & cost in December 2023. The University management replied that risk and cost amount would be recovered from the defaulting contractor.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends early recovery on account of risk & cost and liquidated damages from the flee contractors besides fixing the responsibility against the person(s) at fault.

(DP. 69)

8.4.10 Irregular award of work beyond the approved cost in the revised PC-I - Rs 205.502 million

As per para 4.05 of Manual for Development Projects by Pakistan Planning Commission of December 2021, for smooth implementation of projects, the following guidelines may be adhered to. While making the decisions to include projects in the PSDP, the PAOs should prioritize existing projects instead of suggesting new projects. If the cost of the project exceeds 15% of the approved budget at the time the contract is being awarded, PC-I will be revised immediately and should be submitted for approval of the competent forum. Planning and Development Division further clarified that the permission of 15% given by the ECNEC is in respect of the original cost and not the revised cost of the scheme.

As per revised PC-I of the project “Nums Institute of Advanced Studies and Research (NIASR)” dated 28.02.2022 for Rs 3,379.544 million, cost of civil work was provided for Rs 1,228.548 million.

Audit further observed that civil work of the project was awarded to M/s Sarhad Engineering & Electrical Company at agreement cost of Rs 1,433.160 million, which was 16.65% above the cost of civil works as provided in the revised PC-I. This resulted in irregular award beyond provision of revised PC-I for Rs 205.502 million.

Audit maintains that irregularity occurred due to weak financial controls.

Audit pointed out the matter in December 2023. The management replied that the delay was caused due to change of site, revised cost approval from CDWP and subsequent re-appropriation from HEC.

The reply was not accepted because revised approval of CDWP for award of work beyond the permissible limit of 15% was not obtained as required.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends fixing responsibility besides recovery of excess amount involved.

(DP. 54)

8.4.11 Non-imposition of liquidated damages for delay in completion of works, supply of goods - Rs 209.198 million

Clause 47.1 of Conditions of Contract Part-I provides that if the Contractor fails to comply with the Time for Completion, the Employer may, without prejudice to any other method of recovery, deduct the amount of such damages from any monies due or to become due to the Contractor. The payment or deduction of such damages shall not relieve the Contractor from his obligation to complete the Works, or from any other of his obligations and liabilities under the Contract. As per Appendix A to Bid, liquidated damages were to be imposed @ 0.10% for each day of delay in completion of the work subject to a maximum of 10% of Contract price stated in the letter of acceptance.

Further, clause 15.1 of General Condition of Contract for supply of goods (in DP 38) provides that if the supplier fails to deliver any or all of the goods or to perform the services within the period specified in the respective supply order, liquidated damages were to be imposed @ of 0.5% per week and maximum shall not exceed 10% of supply order which shall be issued under this contract.

Ministry of Planning, Development and Reforms letter dated 28.06.2016 provides that “Regarding frequent extension in the execution period of development projects it was agreed that extension in time period may also be approved by the approving forum of the project. However, the Secretary/PAO concerned may continue to extend the period of execution only once which will not be beyond the closing date of financial year.”

Audit noted in three (03) cases that Project Directors of different universities awarded different works to different contractors for Rs 2091.984 million.

Audit observed in two (02) cases (DP 12 and 21) that contractors failed to complete the works within stipulated period. Extensions of time were also granted but even after expiry of the entire completion time, the works were still in progress. Audit further observed in DP (38) that M/s Hum Scientific Instruments failed to deliver the lab equipment in time even after grant of one month extended period. Thus, the contractors rendered themselves liable to pay liquidated damages @ 10% of contracts cost amounting to Rs 209.198 million, as detailed below:

(Rs in million)

S. No.	DP. No.	Name of Formation	Contract Cost	L.D Amount @10% of contract cost
1	12	Air University South Campus, Islamabad	1,491.754	149.175
2	21	University of Baltistan, Skardu	522.833	52.283

3	38	Karakorum International University, Gilgit	77.397	7.740
		Total	2,091.984	209.198

Audit maintains that the non-imposition/non-recovery of liquidated damages was due to non-adherence to the contractual provisions.

Audit pointed out the matter in August-September 2023. The Management replied that:

In DP (12), the delays in project were mainly attributed to external factors beyond the control of the contractors. As per decision of the Government of Pakistan for approval of funds and compensation of the additional escalation, Pakistan Engineering Council has issued a notification dated 06.09.2022 to withhold implementation of the liquidated damages on the contractors and consideration of their cases of huge loss.

In DP. 21, no liquidated damages could be imposed on contractor because extension of time (EOT) was granted by the competent authority. EOT was given on the request of contractor when the progress of the work in administration block was 90%, Academic Block-1 85% completed and academic block 2 + Overhead Tank (OHT), pavements, roads 85% completed. The contractor was paid Rs 272.666 million against the agreement cost of Rs 522.883 million, which is 52.15% of the contract cost. Further, from December to February, temperature goes to 12-15 degree Celsius and during this period no activity (civil work) could be done. Moreover, emergency was declared by the local government because of aftershocks of earthquakes.

In DP. 38, the delivery of equipment was delayed due to the shipment import policy by the Government of Pakistan according to COVID-19, and accordingly extension up to 21.07.2022, had been granted to the contractor with approval of the competent authority with same terms and conditions. The contractor failed to deliver the equipment up to extended period and KIU Management had already deducted the liquidated damages @ 0.01% of delay days.

The replies were not accepted because:

In DP (12), there was no delay and less release of Rs 700 million and FEC Rs 250 million were released up to 2020-21 and works were awarded during this period. Secondly works were awarded after withdrawal of cancellation of plot by CDA. The Management was required to decide imposition of liquidated damages or grant of time extension but failed till July 2023, which reflected weak internal control system. Further, all escalations should also have been frozen on the stipulated date of completion of project. Therefore, escalations given during extended period without freezing the current rate should also be recovered accordingly.

In DP (21), while granting 2nd EOT, it was categorically mentioned that the administration block and academic block-1 was to be completed on 30.06.2023 and 15.08.2023 respectively but the contractor failed to achieve the committed target. Further, the progress of the work was already well behind the required pace. Moreover, financial progress was 52.15% which logically does not match with the physical progress of the work (i.e., 90%).

In DP (38), the Management was required to impose liquidated damages @ 0.50% which was not applied. Recovery may be made @ 0.50% per week and got verified from Audit.

The matter was discussed in DAC meeting held on 16.11.2023 wherein DAC directed the Management in DP (12) that record regarding extensions of period with detailed justification, clearly determining responsibility of contractor and employer in each case, requests made by contractor, detail of releases, work plans, physical progress, etc., need verification from Audit.

DP. 21 and 38 were discussed in DAC meeting held on 17.01.2024. In DP. 21 DAC directed the university management that a comprehensive report giving details of chronology of events, timelines, building/block-wise financial progress, corresponding physical progress, EOTs, justifications, may be submitted to HEC M&E Division for evaluation and final report along with supporting record, duly approved by Principal Accounting Officer/Executive Director, HEC be shared with Audit. In DP. 38, DAC directed the university management that proof for delay in opening of LC and other relevant record along with justification of LD of Rs 188,780 instead of Rs 1.701 million, may be provided to Audit for verification.

Audit recommends early compliance of DAC's directives.

8.4.12 Irregular cash withdrawal and payments – Rs 155.819 million

Under Article 170 of the Constitution, the Auditor-General can prescribe detailed policies and procedures and according to the “Accounting Policies and Procedures Manual” “ A facility provided by the banks which allows salaries and other employee related payments to be made directly into the bank accounts of those persons, without the need for an exchange of physical cash or cheques”.

Audit noted that NUMS (National University of Medical Sciences) Rawalpindi was operating Bank Account in National Bank of Pakistan at Shalimar Plaza Branch Rawalpindi for payments of expenditure for NIASR Project.

Audit observed that a sum of Rs 155.819 million was withdrawn during the period April 2019 to March 2023 and disbursed in cash instead of payments through cheques to vendors/ or beneficiaries. This resulted in unauthorized withdrawal of Government funds from bank in cash in violation of rules.

Audit maintains that irregularity occurred due to violation of financial rules.

Audit pointed out the matter in December 2023. The management replied that no cash withdrawal of funds was made and the amount highlighted comprised of crossed cheques of salaries.

The reply was not accepted because salary contracts, PC-I provision of these posts, recruitment process against these salary payments were not provided in support of reply.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends fixing of responsibility for violation of rules, re-checking of veracity of the payments made through cash from an independent board of inquiry besides non-occurrence of such irregularity in future.

(DP. 67)

8.4.13 Irregular payment of mobilization advance – Rs 49.750 million

Clause 60.12(a & b) of the Particular Conditions of Contract (Part-II) of the work “Construction of academic block (Establishment of Campus), NUTECH, Islamabad” awarded to M/s The Shelter on 02.06.2023, provides that an interest free Mobilization Advance @ 10% of the contract price stated in the letter of acceptance, less provisional sums, shall be paid by the Employer to the contractor in two equal installments/parts upon submission by the contractor of mobilization advance guarantee for the amount of the advance to be paid against each stage of mobilization in the specified form from a scheduled bank in Pakistan.

Audit observed that Project Director made payment to the contractor on account of mobilization advance amounting to Rs 49.750 million on 14.06.2023. The said advance was paid against the insurance bond issued by the United Insurance Co. Pvt. Ltd. valid from 13.06.2023 to 15.08.2023. Subsequently, the contractor submitted mobilization advance bank guarantee issued by Askari Bank Ltd. on 10.08.2023 with the condition, “the bank guarantee will become effective from the date when equal of Rs 49.750 million was received from you in our customer account”.

This resulted in irregular payment of mobilization advance against insurance bond and conditional bank guarantee amounting to Rs 49.750 million.

Audit pointed out the matter in September 2023. The Management replied that initially the contractor provided an Insurance Bond along with an affidavit, indicating that the bank guarantee would be provided as soon as it was received from the bank. As a prudent measure in the interest of the work and to prevent the lapse of funds in the month of June, mobilization advance of Rs 49.750 million was released to the contractor.

The reply was not accepted because Management made irregular payment of mobilization advance by accepting insurance bond instead of bank guarantee in violation of contractual obligation. Furthermore, the conditional bank guarantee was accepted.

The matter was discussed in DAC meeting held on 17.01.2024 wherein Audit contended that conditional bank guarantee was obtained. This implied that collateral was not arranged by the contractor from its own resources. Instead, the bank guarantee was obtained from the money provided by Government as advance, meaning thereby that the contractor saved financial charges for unconditional

bank guarantee and no safeguard was taken by the project management. The DAC directed the university management that unconditional bank guarantee be obtained and point-wise response to audit contention be given along with supporting record.

Audit recommends fixing of responsibility for irregular payment of mobilization advance besides recovery of financial charges for the period of default.

(DP. 40)

8.4.14 Unjustified payment of component of anchorage in brick work – Rs 78.876 million

According to contract agreement, item of work “P/L first class burnt bricks masonry in super structure walls at any height ... including P/F anchorage for support the fair face brick walls”. PC-I of the project provides Walls; 13½” thick external walls with façade of Lahori Face Brick /Lahori Gutka.

Audit noted that Project Coordinator International Islamic University Islamabad (IIUI) awarded four (04) works/contracts to various contractors at an agreement cost of Rs 1,727.438 million.

The Project Coordinator, International Islamic University Islamabad (IIUI) got executed the item of brick works in internal walls for Rs 78.876 million where the fair face bricks/Lahori gutka were not required to be executed, but the component of anchorage was not deducted for payment of this item. It is further added that the said item of brick work without anchorage was available in MES Schedule which was almost 6% less than rate of the item. So, at least 6% for cost of the item of brick work in internal walls should be deducted/not paid. This resulted unjustified/overpayment for Rs 78.876 million as detailed below:

(Rs in million)

Item No.	Item Description	Amount
4a	Providing and laying Burnt Brick including anchorage	25.213
-do-	-do-	23.222
-do-	-do-	23.006
-do-	-do-	7.435

Total	78.876
--------------	---------------

Audit pointed out the unjustified payment in November 2023. The project management replied that there were two types of anchorage tools, which were used in the brick masonry. One to support the external fair face bricks and second to anchor the brick masonry and columns. The two anchorages were confused with each other. One type of anchorage was used for the external and the other was used both in the external and internal walls. This misunderstanding created this objection.

The reply was not tenable as detailed record verification was involved to substantiate the management reply that anchoring was used to support the brick masonry with columns, otherwise recovery was to be made.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends fact finding inquiry for fixing responsibility besides recovery.

(DP. 82)

8.4.15 Overpayment against excessive quantities without approval from HEC – Rs 43.994 million

Clause 55.1 of Conditions of Contract, Part-II provides that the contract is an item rate-based contract with re-measurable quantities. The limit of variation is plus 5% of the quantities given in the BOQs. Quantities exceeding or decreasing more than 5% from the given quantities of BOQs will be evaluated by the Engineer by recalculating the quantities from the drawing issued for construction and will be issued a deviation order after approval from the employer. The contractor will assist the Engineer in making such deviation orders by providing the supporting documents including revised BOQs and quantity take-offs, justifications for increase or decrease in quantities, modification IFC drawings, shop drawing or any other conceivable documents required by the Engineer to make such changes in the existing contract.

Audit noted in three (03) cases that the Management awarded different works to different contractors for Rs 2,713.719 million.

Audit observed that in the following cases, Management of the Universities made payment of Rs 74.118 million against excessive quantities of items of works compared to those provided in BOQ/TSE and PC-I without approval of the Principal Accounting Officer.

(Rs in million)

S. No.	DP No.	Name of Division	Contract cost	Amount
	16	Air University South Campus Islamabad	1491.754	24.319
	34	Karakorum International University, Gilgit	587.273	19.675
Total			2,078.992	43.994

Audit maintains that irregularities occurred due to weak financial and internal controls.

Audit pointed out the irregularities in August-September 2023. The Management replied that:

In DP. 16, all deviations were managed through Engineer's approved Deviation Orders, supported by detailed verification processes and client oversight.

In DP. 34, the excess quantities identified by Audit were already included in revised estimate.

The replies were not accepted because no variation/deviation statements were got approved from the competent forum i.e. HEC.

The matter (DP. 16) was discussed in DAC meeting held on 16.11.2023 wherein DAC directed the University management in DP. 16 that complete record containing detailed justification, technical and financial approvals along with revised estimates may be provided to Audit for verification.

DP 34 was discussed in DAC meeting held on 17.01.2024. DAC directed the university management that appropriate action may be taken against the consultant for preparation of faulty design. Revised design along with review by technical committee and action taken against the consultant be shared with Audit.

Audit recommends for early compliance of DAC's directives.

(DP. 16 & 34)

8.4.16 Irregular execution/payment of an item of work in contradiction of PC-I – Rs 60.188 million

As per paras 6.11 of Manual for Development Projects (Revised 2019), issued by the Planning Commission of Pakistan, the physical and financial scope of a project, as determined and defined in the project document (PC-I), is appraised, and scrutinized by the agencies concerned before submitting it for approval of the CDWP or ECNEC. Once approved, the executing agency is required to implement the project in accordance with the PC-I provisions. It has no authority to change and modify any approved parameter of the project on its own.

PC-I of the project provides Walls; 13½” thick external walls with façade of Lahori Face Brick /Lahori Gutka.

Audit noted that Project Coordinator International Islamic University Islamabad (IIUI) awarded four (04) works/contracts to various contractors at an agreement cost of Rs 1,727.438 million.

The management of the University got executed parallel wall of “Lahori Gutka/Fair Face Bricks” to the external walls of the buildings and on outer surface of walls of internal courtyard of the buildings for quantity of 313,285.76 sft and paid to the contractors for Rs 60.188 million, whereas, as per PC-I this item was only to be executed on façade of external walls. This resulted in irregular execution of item of works amounting to Rs 60.188 million, as detailed below.

Item No.	Item Description	Quantity paid to date (sft)	Rate	Amount (Rs in million)	Reference
24a	P/F Lahori Gutka/Fair Face Brick	82,134	200	16.426	Statement at Completion 01.09.2022
5a	-do-	33,939	260	8.824	IPC No.11
5a	-do-	118,434	152	18.001	Statement at Completion
-do-	-do-	78,778.76	215	16.937	
Total		313,285.76		60.188	

Audit pointed out the irregularity in November, 2023. The project management replied that “The Engineer” of the project decides the quantities to be executed with the consultation of the employer. When the quantities were increased or decreased as per recommendation of The Engineer as per clause 51.1(a) of the General Condition of Contract, the same were approved by the Civil Works Component Committee of the IIUI. Then, the revised quantities were incorporated in the revised BOQ. There was a defined procedure which was strictly followed in the light of given parameters of Pakistan Engineering Council. Therefore, it was assured that all the work was executed as per Design given by the consultant and approved by the employer.

The reply was not accepted because the PC-I of the project did not provide Gutka work on outer surface of walls of internal courtyard of the buildings.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends by taking appropriate action regarding irregular execution of item of work beyond the PC-I provision.

(DP. 80)

8.4.17 Non-imposition of penalty for delay in delivery - Rs 8.596 million and irregular procurement of lab equipment - Rs 50.936 million

As per contract agreement between NUMS (National University of Medical Sciences, Rawalpindi) and suppliers, 1 to 10% per week penalty was required to be recovered for late delivery of lab equipment.

Audit noted that Management of the National University of Medical Sciences, Rawalpindi, procured lab equipment worth Rs 50.936 million from 2019 to 2023 for NUMS Institute of Advanced Studies and Research (NIASR) project from different contractors/ suppliers.

Audit observed that civil work of the project has been executed 50% and required date of completion is April 2024. Audit further, observed that from March, 2020 to June, 2023 lab equipment worth Rs 50.936 million was procured. Following shortcomings were noticed:

Warranty period expired before completion of building.

Performance bond expired but not revalidated for the maintenance period.

Utilization/activity reports were not shared with Audit.

Payment was made without verification of specification as per contract agreement. Only model number was mentioned on delivery which was not sufficient for authenticity of specification of items procured.

Audit further observed that suppliers/contractors failed to supply the items within stipulated time, but the project management did not impose penalty as per contract agreement for Rs 8.595 million, as detailed below:

(Amount in Rs)

S. No.	Suppliers Name	Amount Rs	Delivery period	Delivered on	Delay charges @10% / week
1	Sure Bio Diagnostic	5,045,000.00	12 weeks (up to- 28.02.20)	19.03.20	1,009,000
2	Chemical House	6,333,905.00	09 weeks (20.01.20)	04.03.20	3,166,952
3	Rays Technologies	8,839,935	09 weeks (30.01.20)	09.03.20	4,419,967
Total		20,218,840			8,595,919

This resulted in irregular procurement of lab equipment of Rs 50.936 million besides non-imposition of penalty for Rs 8.596 million.

Audit maintains that irregularity occurred in violation of contract agreement.

Audit pointed out the matter in December 2023. The management replied that the expenditure on lab equipment was made with planning to carry out the project activity without losing time. The equipment was procured after verification of specifications as per tender documents. The extensions in delivery period were given due to covid-19.

The reply was not acceptable being not supported with documentary evidence.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends fixing responsibility for violation of contract provisions besides corrective action.

(DP. 49, 50&51)

8.4.18 Irregular payment of price escalation - Rs 52.132 million

As per revised PC-I, Escalation cost for civil works will be effective @ Rs 6.5% for the fifth year of the implementation i.e., 2022-23.

Audit noted that management of NUMS, Rawalpindi awarded a contract for construction of NIASR to M/s Sarhad Engineering and Electric Co. for Rs 1,433.61 million on 09.04.2022, to be completed on 09.04.2024.

Audit observed that contractor was paid secured advance of Rs 90.544 million vide IPC No. 3 in June 2022. Audit further observed that price escalation of Rs 52.132 million was paid against the work done from April 2022 to April 2023 in violation of revised PC-I. This resulted in irregular payment of price escalation of Rs 52.132 million in addition to secured advance payments.

Audit maintains that irregularity occurred due to weak financial controls.

Audit pointed out the matter in December 2023. The management replied that NUMS paid the escalation as per PC-I.

The reply was not accepted because price adjustment was paid in addition to secured advance of Rs 90.544 million. Work plan, physical and financial progress of work, measurements, EOTs and final bill were not provided to Audit for verification.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends recovery of the amount involved.

(DP. 68)

8.4.19 Irregular award of additional work to the existing contractor instead of calling fresh tenders - Rs 51.785 million

Rule 12 (2) of the Public Procurement Rules, 2004 states that all procurement opportunities over three million Pakistani rupees should be advertised on the authority's (PPRA) website as well as in other

print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu. Moreover, Rule 20 states that procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

The Project Coordinator, International Islamic University Islamabad (IIUI), awarded and got executed additional work/items amounting to Rs 51.785 million to the same contractor. Audit is of the view that the authority discouraged the procurement process, and the work (extra items/additional work) were awarded to existing contractor to avoid open competition. Violation of quoted rules resulted in irregular award of additional work to the existing contractor without calling of fresh tenders for Rs 51.785 million.

Audit pointed out the irregularity in November, 2023. The project management replied that since the additional work under consideration was within the parameters defined by the Pakistan Engineering Council, therefore, did not need any retendering.

The reply was not accepted because procurements over three million were to be advertised on authority's website as well as in other print media having wide circulation. In this case, open competitive bidding was not made by the management.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends fixing responsibility against the person(s) at fault who awarded the additional work to the existing contractor without tendering/open competition.

(DP. 78)

8.4.20 Revalidation of performance security bond with lesser value - Rs 26.142 million

Clause 28.4 of the Contract for the work "Construction of Academic Block, Administration Block, Main Gate, Guard, under-ground water tank (UGWT) & External Development Works (Package-II) at University of Baltistan Skardu" awarded to M/s Aaj Sons Pvt. Ltd. on 26.10.2020, provides that if the bid of the successful bidder is seriously unbalanced in relation to the employer's estimate of the cost of work to be performed under the contract, the employer may require the bidder to produce detailed price analyses for any or all items of the bill of quantities to demonstrate the internal consistency of those prices with the construction methods and schedule proposed. After evaluation of the price analyses, the employer may require that the amount of the

performance security set forth in clause IB.32 be increased at the expense of the successful bidder to a level sufficient to protect the employer against financial loss in the event of default of the successful bidder under the contract.

Audit noted that the Bid Evaluation Report submitted by Consultants provides that the bid price of the contractor was 12.74% lower to T.S. estimate. The consultant recommended additional 5% performance guarantee due to imbalanced rates and advised to incorporate percentage of performance guarantee @ 15% in letter of acceptance. The same was made part of the contract agreement in line with the provisions of clause 52.3 of General Condition of Contract (FIDIC).

Audit observed that the contractor provided performance security from United Insurance Company for an amount of Rs 78.425 million which was valid up to 26.10.2022. Later on, the same was got extended for another period of one year, up to 26.10.2023, with liability guarantee restricted to Rs 52.283 million instead of 78.425 million. The risk coverage of the work and performance of the contractor was compromised by lowering the amount of bond by Rs 26.142 million.

This resulted in revalidation of performance security bond with lesser value of Rs 26.142 million.

Audit maintains that the performance bond was revalidated for a lesser amount due to weak internal and financial controls.

Audit pointed out the irregularity in August 2023. The Management replied that the contractor provided performance security bond from United Insurance Company for an amount of Rs 78.425 million which was valid up to 26.10.2022. Latterly, the same was got extended for another period of one year, up to 26.10.2023, with liability guarantee restricted to Rs 52.283 million on the basis of remaining work amount at that time.

The reply was not tenable as the contractor was required to submit revalidated performance security/guarantee of equal amount of the original performance security, i.e., 15% of the contract cost but the contractor submitted, and the Management accepted revalidated performance security @ 10% of the contract amount. The Management was required to obtain revalidated performance security equal to 15% of the contract cost.

The matter was discussed in DAC meeting held on 17.01.2024. The DAC directed the university management that revalidated performance security be obtained for full amount of Rs 78.425 million instead of Rs 52.283 million. DAC further directed that insurance premium of difference

of amount may also be recovered from the contractor for the extended period. Relevant record showing compliance be shared with Audit for verification.

Audit recommends compliance of DAC's directive.

(DP. 24)

**8.4.21 Undue favor to contractor due to mis-management in surveying process and changing the scope of works -
Rs 23.401 million**

As per advertisement published in Dawn News dated 03.05.2015, applications for pre-qualification were invited from architects and consultants for preparing the detailed master plan, designs of buildings and infrastructural development work. Advice on preparation of PC-I after having detailed design prepared would also be required from the selected firm. Latterly, consultancy work was awarded to M/s Nasir's Design in October 2016.

Audit noted that Director P&D Air University, Islamabad awarded a work "Construction of Administration Block" to M/s Amanat Hussain & Co. Pvt. Ltd. vide acceptance letter dated 30.04.2020 at agreed cost of Rs 362.447 million. Work was commenced on 01.07.2020 and completion date was 28.02.2022. The contractor was paid Rs 138.907 million up to 8th IPC till 30.06.2023. Audit further noted that Director P&D approved a variation order wherein the contractor was allowed to execute pile foundation instead of raft foundation as given in BOQ and also approved additional cost of contract for Rs 23.401 million.

Audit noted that Geo Technical Survey conducted by M/s BK Consultant in June 2017 did not report presence of high water table in soil. Later on, contractor reported on 18.09.2020 that sub-surface water was present in the excavated area. The Management again conducted Geo Technical Survey by the same consultant on 22.09.2020 for Rs 135,000 and M/s Geo Crest was also engaged to redo Geo Technical Investigation for this purpose for Rs 91,080. Both the firms reported sub-surface strata. The contractor submitted total estimate of Rs 55.161 million against preliminary pile design and, after negotiation, it came to Rs 50.282 million. The contractor eliminated the non-executed components in previous design amounting to Rs 27.275 million and got approved an additional cost of Rs 23.401 million from Director P&D.

Audit observed that only Geo Technical Investigation Survey was conducted from a local consultant who was hired without tendering procedure, while the consultant M/s Nasir Design, who was

hired after pre-qualification, was responsible to provide all facilities under one umbrella for preparing the detailed master plan, designs of buildings and infrastructural development work.

This resulted in undue favour to contractor due to mis- management in surveying process and changing the scope of works amounting to Rs 23.401 million.

Audit pointed out the matter in August 2023. The Management replied that the notion of bundling all aspects under a single consultancy contract was not a common industry practice. The Air University Procedural Board and relevant professionals were actively engaged in reviewing and assessing the issue of sub-surface change and possible solutions. The evaluation included considering the economic implications, design impact and potential delays associated with each option. After evaluating the cost and design impacts of the solutions proposed by the Geo Technical Consultant for the Admin Block, communication was made to the sponsor and monitoring agencies of the Planning Commission authorities, who reviewed the case in the progress review meetings. Geological challenges appearing at latter stage of the project during the construction of these buildings forced apprehensive and protective measures particularly for the Admin Block so as to ensure the successful completion of the project.

The reply was not accepted because due to ill planning, the first Geo Technical Investigation was not conducted properly resulting in additional cost impact of Rs 23.401 million due to pile/foundation design. Action was not taken against Geo Technical Consultant. On the other side, pile work was incorporated without competition which unduly benefitted the contractor.

The matter was discussed in DAC meeting held on 16.11.2023 wherein DAC directed the HEC (M&E) Division that a fact-finding inquiry may be conducted and report after approval of Executive Director be shared with Audit along with supporting record for evaluation.

Audit recommends early compliance of DAC's directives.

(DP. 14)

8.4.22 Irregular procurement of scientific equipment through quotations without open tenders - Rs 23.253 million

Rule 20 of the Public Procurement Rules, 2004 provides that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works. Further, Rule 12(2) provides that all procurement opportunities over three

million rupees should be advertised on the Authority’s website, as well as in other print media or newspapers having wide circulation.

Audit noted that PC-I of the project “Academic & Research Facilities and Girls Hostel at Quaid-e-Azam University, Islamabad” was approved with original capital cost of Rs 2,074.71 million with completion period of 36 months. The approved PC-I of the project was revised by CDWP in its meeting held on 27.01.2023 with revised capital cost of Rs 3,686.734 million with revised time of completion of 84 months. Total payment made to contractors was Rs 792.771 million up to June 2023.

Audit observed that the Management procured different type of scientific and lab equipment for Rs 23.253 million without calling for tender/open competition. The equipment was procured through direct contract from single suppliers. The details are as follows:

CV No.	Date	Name of contractor	Rs in Million
03	19.06.2022	M/s Pak Glorious Enterprises	3.425
05	16.09.2022	M/s Pak Glorious Enterprises	3.194
11	06.06.2022	M/s Med Lab Services	2.407
12	06.06.2022	M/s Rays Technologies	1.203
14	19.06.2022	M/s HA Shah & Sons	2.205
20	22.06.2022	M/s Raab Scientific Equipment	7.052
21	15.06.2022	M/s World Wide Solution	0.485
22	15.06.2022	M/s Pak Glorious Enterprises	1.250
30	22.06.2022	M/s SCI Tech Pvt. Ltd.	2.032
		Total	23.253

This resulted in irregular procurement of scientific and lab equipment without open competition for Rs 23.253 million.

Audit maintains that the irregularity occurred due to inadequate oversight mechanism for enforcing relevant rules and regulation and weak financial and internal controls.

Audit pointed out the irregularities in August 2023. The Management replied that all the mentioned scientific and lab equipment was of urgent need for the research students and have been purchased from the sole distributors in Pakistan for the respective equipment as per practice in vogue and as per provision in the Public Procurement Rules.

The reply was not accepted because the university admitted procurement of scientific equipment without tender/open competition. The university was required to advertise items of procurement in national newspapers as per Public Procurement Rules to obtain lowest rates by fair and transparent competition.

The matter was discussed in DAC meeting held on 16.11.2023 wherein DAC directed the University Management to provide complete record containing justification for procurement of specific brand item, certificate of sole distributor and import documents to Audit for verification.

Audit recommends early compliance of DAC's directives.

(DP. 05)

8.4.23 Unjustified payment of price escalation on additional items - Rs 21.697 million

As per clause 70.1 of the contract agreement, the amounts payable to the contractor, pursuant to clause 60.1, shall be adjusted in respect of the rise or fall in the cost of labor, materials, and other inputs to the works, by applying the prescribed formula prescribed. Price adjustment factor to be applied to the amount for the payment of the work carried out in the subject month, determined in accordance with Paragraph 60.1 (a), and with Paragraphs 60.1 (b) and (e), where any variations and day work are not otherwise subject to adjustment.

The Project Coordinator, International Islamic University Islamabad (IIUI), allowed and paid price escalation amounting to Rs 21.697 million (cost of additional item up to IPC-19 Rs 51.785 x 0.419 escalation factor) on additional items valued at market rates in contradiction of above referred contract clause. This resulted in unjustified payment of price escalation for Rs 21.697 million.

Audit pointed out the unjustified payment on of price escalation in November 2023. The project management replied that price adjustment paid on the additional items would be recovered/adjusted from the next/forthcoming IPCs of the contractor.

DAC meeting was not convened by PAO despite request made by Audit on 28.12.2023.

Audit recommends early recovery/adjustment of the amount.

(DP. 77)

CHAPTER 9
SINDH INFRASTRUCTURE DEVELOPMENT COMPANY LIMITED
(MINISTRY OF PLANNING DEVELOPMENT & SPECIAL INITIATIVES)

9.1 Introduction

A. Pursuant to the approval of PSDP Scheme i.e., “Green Line Rapid Transit System Karachi” by ECNEC on 04.12.2014, under the Prime Minister’s Directives, Ministry of Communications established Special Project Management Unit (SPMU) on 24.12.2014 to execute the project according to provision of the PC-I. Subsequently, the unit was changed into Karachi Infrastructure Development Company Limited (“the Public Sector Company”) incorporated under Companies Ordinance, 1984 on 02.06.2015 with the approval of the Prime Minister. The name of Company was further changed to Sindh Infrastructure Development Company Limited under section 32 of Companies Act-2017. It is based in Karachi to carry on the Business of Infrastructure Development, Expansion and Improvement, in line with Government Policy for Planning, Designing, Implementing, Constructing and Executing Infrastructure Development Projects in Karachi and Adjoining Areas and working under the Ministry of Planning Development & Special Initiatives.

B. Comments on Budget and Accounts (Variance Analysis)

The working results of the Company for the year 2022-23 are given below:

(Rs in million)

Particular	FY 2022-23	FY 2021-22	FY 2020-21
Service revenue net	47.957	136.806	42.983
Administrative expenses	(183.254)	(180.373)	(172.827)
Operating Profit/(loss)	(135.297)	(43.567)	(129.844)
Other income	209.374	162.765	139.553
Profit/(loss) after taxation	74.078	119.199	9.709

(Source: Annual Audited Accounts)

SIDCL engaged M/s Riaz Ahmad & Company Chartered Accountants for third party audit of the Financial Statements of SIDCL as at 30.06.2023 without concurrence of the Auditor-General of Pakistan as required.

Final budget allocation and expenditure incurred for the financial year 2022-23 of SIDCL was as under:

(Rs in million)

	Development	Revenue	Total
Budget	3,684.558	648.000	4,332.558
Actuals	3,184.558	632.350	3,816.908

C. Audit Profile of SIDCL

(Rs in million)

S. No.	Description	Total Nos	Audited	Expenditure audited 2022-23	Revenue/ Receipts audited FY 2022-23
1	Formations	01	01	3,184.543	632.350

9.2 Classified summary of audit observations

Audit observations amounting to Rs 23,572.463 million were raised in this audit report. Summary of the audit observations classified by nature is as follows:

Overview of audit observations

S. No.	Classification	Amount (Rs in million)
1	Irregularities	
A	Execution of works, contract agreement	23,572.463

S. No.	Classification	Amount (Rs in million)
Total		23,572.463

Note: Amount of audit observations exceeds audited outlays due to issues like award of works which involve future spending, amount covering multiple previous years of spending, multiple reckoning of monetary impact in different audit observations pertaining to same transaction, etc.

9.3 Brief comments on the status of compliance with PAC's directives

Compliance position of PAC's directives on Audit Reports relating to Sindh Infrastructure Development Company Limited is as under:

Year	Total Paras	No. of Paras Discussed	Compliance Made	Compliance Awaited	Percentage of Compliance
2016-17	05	02	01	04	20
2017-18	04	04	03	01	75

Note: Audit Reports for the years 2018-19, 2020-21, 2021-22 and 2022-23 are yet to be discussed in PAC.

9.4 AUDIT PARAS

9.4.1 Non-conducting of inspection, tests and non-finalization of accounts of completed works - Rs 16,316.434 million

As per paras 6.01-6.08 of Planning Commission Manual for Development Projects of December 2021, the project is completed or closed when all the funds have been utilized and objectives achieved or abandoned for any reason. At this stage, the project must be closed formally, and reports prepared on its overall performance and results achieved using the PC-IV proforma. This involves handing over the deliverables to the authorities concerned, closing of the supplier's contracts, closure of bank account, releasing security money, staff, and equipment as well as informing stakeholders about the closure of the project as per the last approved PC-I. The sponsors (PAO) will submit and certify closure of bank accounts and cash/accounts before consideration and approval of the PC-IV by the competent forum.

Clause 5.1 (a) NHA Code Volume II the Employer shall be organizing road condition and roughness surveys, ongoing/planned projects coordination, updating other road data through asset inventory, road structures surveys, traffic surveys, etc.

Audit noted that SIDCL awarded and got executed sixteen (16) works for a contract amount of Rs 15,073.79 million during the years 2015-16 to 2020-21. Payments of Rs 16,316.434 million were made against these works (**Annexure-AAB**).

Audit observed that the SIDCL did not conduct site inspections of these works during execution because no such system existed in SIDCL and no record of inspections was available in the record. Certain necessary tests at the progress stage such as compaction test of the earth work embankment, bitumen/asphaltic wearing course and hidden road structures were not made. Final inspections on completion and taking over were also not conducted.

Audit further observed that the accounts of these projects were not finalized and PC-IV & PC-V were not prepared for submission to Planning Commission as required. It is further added that assets i.e., vehicles, office and residence furniture and fixtures, Laboratory and Survey equipment procured from the above projects were also not taken on stock.

This resulted in non-inspection, non-conducting of tests and non-finalization of accounts and non-preparation of PC-IV and PC-V of completed works for Rs 16,316.434 million.

Audit pointed out the irregularity in November 2023. The management replied that quarterly progress/ financial report was being submitted to planning commission on regular basis. Apart from this, Monitoring Committee of SIDCL regularly inspects the site to review the quality of the work done. Furthermore, every quarter, meeting is held under the supervision of head of Planning Commission. Projects were at completion stage. The projects would be closed formally, and reports would be prepared on its overall level of success, on a proforma PC-IV and will be forward to the Projects Wing of Planning Commission.

The reply was not accepted because quality assurance tests required during execution were not conducted. The quality of executed works was, therefore, compromised. The works were complete since the year 2019 and 2020 but final bills were not yet paid besides PC-IV and PC-V were not submitted to Planning Commission as required.

DAC meeting was not convened by PAO despite requests made by Audit on 19.12.2023 and 31.01.2024.

Audit recommends taking disciplinary action against the person for failing to perform their inspection duties, finalization of accounts besides strengthening of monitoring and corrective controls.

(DP. 04&07)

9.4.2 Non-recording of details in the measurement books - Rs 4,700.69 million

Para 208, 209 of CPWA code provides that payments for all work done and for all supplies are made on the basis of measurements recorded in the Measurement Books. All measurements should be neatly taken down in a Measurement Book issued for the purpose and nowhere else. As all payments of work are based on the quantities recorded in the Measurement Book.

Audit noted that the Sindh Infrastructure Development Company Limited made an agreement to M/s Zhongtong Bus Holding Co, Ltd NHSR&C for supply of 80 Diesel Hybrid Buses at an aggregate cost of Rs 4,700.69 million.

Audit observed that these purchases were not recorded in the Measurement Book as a permanent record indicating all information i.e., name of supplier, nature of supplies, No. and date of order, cost of each item, etc.

This resulted in non-recording of details in the measurement books for Rs 4,700.69 million.

Audit holds that the violation of rules occurred due to weak internal controls.

Audit pointed out the irregularity in November 2023. The management replied that as per procedure, complete details of all buses including chassis number, bus number, engine number was available with SIDCL. Furthermore, nature of purchase did not involve any kind of measurement in Measurement Book.

The reply was not accepted because all payments of work done and supplies were to be based on record entries in the MBs which were not maintained by SIDCL against the rules.

DAC meeting was not convened by PAO despite requests made by Audit on 19.12.2023 and 31.01.2024.

Audit recommends fixing responsibility for violation of rules.

(DP. 10)

9.4.3 Unauthentic installation of Integrated Intelligent Transport System - Rs 2,111.802 million

As per clause-14.2(i) to 14.2.3 of the contract agreement, the contractor shall submit a time program (contractor;s Submittals) to the Authority within six (6) weeks after the effective date, which shall include detailed design of products and system specificaiton, procuremnt plan for local and imported items under the Products, the order in which the Contractor intends to carry the installation of the Products on Site, the sequence and timing of inspecitons and tests including operation and maintenance tests, detail of Contractor's Personnel including key persons and a supporting of general description of the methods which the contractor intends to adopt for the installation of the products.

Audit noted that Sindh Infrastructure Development Company Ltd. Karachi awarded the contract for Design Delivery, Installation, Operation and Maintenance and Transfer of Integrated Intelligent Transport System (IITS) in Package-A and Package-B and made payments of Rs 2,111.802 million as under:

Contract/date	Contractor/Amount	Payments up to 30.06.2023 Rs in million
Package-A dated 10.03.2021	M/s NRTC and Kentkart (JV) at agreement cost of Rs 2,477.550 million	1,635.725
Package-B dated 10.03.2021	M/s NLC-MGH-Wavetech (JV) for evaluated bid cost of Rs 774.253 million	476.077
	Total	2,111.802

Audit observed that the payments were made without contractor's submittals and manufacturer certificate regarding origin of the equipment and manufacturer warranty as required resulted in unauthentic installation of hardware equipment for Rs 2,111.802 million.

Audit pointed out the irregularity in November 2023. The management replied that as per the provision of the contract, SIDCL ensured through their IITS consultants and SIDCL's team that each hardware which will be manufactured, will go through System Design Specification (SDS) test in which contractor submitted detailed design which was reviewed by SIDCL IITS Consultants and after several iterations it was approved. After approval of SDS, contractor started first prototype model which was approved and vetted by IITS consultant (M/s BLIC and DCC from Germany and Pakistan) after performing several round of relevant tests. After approval, manufacturing of ITS equipment was started in bulk. It may please be noted that all products/Hardware have warranties. Warranties of the equipment, Procurement Plan, Certificates of the origin, System Design Specification (SDS), Factory Acceptance Test (FAT), System Acceptance Test (SAT) and Overall Acceptance Test (OAT) were obtained.

The reply was not accepted because process of selection of IITS equipment and documents as mentioned in reply were not shared with Audit for scrutiny. Present status of installation of equipment and their performance at site was also not replied.

DAC meeting was not convened by PAO despite requests made by Audit on 19.12.2023 and 31.01.2024.

Audit recommends fixing responsibility against those responsible besides strengthening of its internal control.

(DP. 03)

9.4.4 Unjustified payment on account of Facility Management Services - Rs 405.737 million

As per component-wise break-up of financial bid made part of the contract agreement (Annexure-C, D & E) for hiring of bus operators, signed between SIDCL and contractor M/s Security 2,000 and One Source Maintenance (Pvt.) Ltd Consortium, for Rs 40.287 million for Green Line and Rs 6.006 million for Orange Line facility management services for the Bus Rapid Transit System on 28.06.2021, the monthly bid price included expense of staff, insurance premium, installation of brand-new imported generator 1,000 KVA, consumption of fuel 2,100 litre, patrolling vehicles & 13 bikes and financial charges on bank guarantees, etc.

Audit observed that payments of Rs 405.737 million were made to the contractor up to June 2023 but no evidence was available in office record i.e., Bio-matric attendance of staff, receipt of insurance premium, installation of brand-new imported generator 1,000 KVA, consumption of fuel 2,100 litre, log books of patrolling vehicles & 13 bikes and detail of financial charges on bank guarantees. This resulted in unjustified payment on account of Facility Management Services for Rs 405.737 million.

Audit maintains that the irregularity occurred due to weak internal controls.

Audit pointed out the matter in November 2023. The management replied that all the requisite record not limited to Bio-metric Attendance of staff, insurance documents including receipts, provision of 1,000 KVA Generator, Log Books of Bikes and Vehicle Patrolling was available in SIDCL office. Cost breakup was not the part of Contract or the Financial Proposal, at any stage. Operator faced heavy deductions in terms of violations and unsuccessful services since commencement of its services which showed that SIDCL had a strong check and verification procedure of services desired in the Contract Agreement.

The reply was not accepted because documents as mentioned in reply, in support of expense of staff, insurance premium, installation of brand-new imported generator 1000 KVA, consumption of fuel 2,100 litre, patrolling vehicles & 13 bikes and financial charges on bank guarantees, were not shared with Audit for scrutiny.

DAC meeting was not convened by PAO despite requests made by Audit on 19.12.2023 and 31.01.2024.

Audit recommends fixing responsibility and taking disciplinary actions against responsible persons, besides strengthening its internal and financial control.

(DP. 12)

9.4.5 Overpayment due to inadmissible item of removal of debris - Rs 37.800 million

Clause 32.1 of General Condition of Contract for the work “Re-construction of Mangho Pir (North Bound Carriageway Road) from Jam Chakro to Banaras Chowk”, signed between M/s Jianguo Haitong Construction Engineering Co Ltd. JV and SIDCL at a cost of Rs 887.664 million on 28.12.2020, provides that during the execution of the works the contractor shall keep the site reasonably free from all unnecessary obstruction and shall store or dispose of any contractor’s equipment and surplus materials and clear away and remove from the site any wreckage, rubbish no longer required.

Audit observed that SIDCL allowed payment for a non-BoQ item “Removal of Debris” for 68,883.935 Cu.m @ Rs 548.75 per Cu.m for Rs 37.800 million which was not admissible as per above stated contract provision. This resulted in overpayment due to inadmissible item of removal of debris of Rs 37.800 million

Audit maintains that the overpayment was due to weak financial controls.

Audit pointed out overpayment in November 2023. The management replied that the material was being dumped on daily/weekly basis during execution of work and quantity of such material was increasing time to time. SIDCL approached District Administration through several letters and meetings, but no request was entertained. So it was decided to remove the debris for construction of road and to avoid unnecessary delays to the project.

The reply was not accepted because the contractor was responsible for site clearance at no cost to SIDCL.

DAC meeting was not convened by PAO despite requests made by Audit on 19.12.2023 and 31.01.2024.

Audit recommends recovery of Rs 37.800 million from the contractor on account of payment of inadmissible item of removal of debris and taking disciplinary actions for failure to perform official duty.

(DP. 02)

CHAPTER 10

FEDERAL BOARD OF REVENUE (FBR)

(CENTRAL ASIA REGIONAL ECONOMIC COOPERATION REGIONAL IMPROVING BORDER SERVICES (RIBS) PROJECT)

10.1 Introduction

A. The proposed project will remove the key bottleneck for movement of goods and people through Torkham, Chaman, and Wagha in Pakistan. As part of CAREC's initiative for trade facilitation, the project will help CAREC countries take advantage of more efficient trade routes through Pakistan, and reciprocally, encourage Pakistan to play a strategic role in creating a larger regional market for intra-CAREC and inter-CAREC trade. The expected impact of the project will be an increased value of export, import, and transit trade. The expected outcome will be reduced cross-border processing time for goods and cargos in Torkham, Chaman, and Wagha.

The output will be (i) border crossing point infrastructure and facility at Torkham, Chaman, and Wagha improved to the standard that meets users' demand for quality border crossing services; (ii) governance structure of national border point management regime and organizational design, management structure, financial and administrative procedures, and financial modeling for the Pakistan Land Port Authority (PLPA) produced and adopted; and (iii) knowledge and skills of border point operating agencies enhanced. ECNEC in its meeting dated 04.09.2015, approved PC-I of the project for Rs 31,686.2 million including Rs 26,049.7 million (i.e., US\$ 250.54 million) of loan from ADB.

Execution

FBR, awarded the Engineering Procurement and Construction (EPC) contract of "Central Asia Regional Economic Cooperation Regional Improving Border Services (RIBS) Project" for Torkham Border Crossing Point (BCP) to M/s National Logistics Corporation (NLC) at an agreement amount of Rs 16,471.574 million (Rs 12,281.393 million & USD 31,335,483 @ 133.72 = Rs 4,190.181 million) on 18.12.2018 and for Chaman BCP for Rs 18,610.201 million (Rs 12,576.501 million & USD 36,807,908 @ 163.924 =Rs 6,033.700 million) on 19.08.2019.

Construction works for Torkham Border Crossing Point contract commenced on 21.02.2019 with anticipated completion date 19.07.2022 (1,245 Calendar days). Construction works for Chaman Border Crossing Point are ongoing. Wagah BCP construction's contract is yet to be awarded.

B. Comments on Budget and Accounts (Variance Analysis)

Expenditure during the year 2022-23 is as under:

(Rs in million)

Description	Budget	Expenditure
Asian Development Bank Loan 3344	1,297.43	1,297.43
Asian Development Bank Loan 3345	5,263.57	5,263.57
GoP (Establishment charges, land, etc.)	1,844.96	1,844.96
Total	8,405.96	8,405.96

Source: Financial Statement of the project

C. Audit Profile of FBR Project

Audit scope in monetary terms for the year 2022-23 was as under:

(Rs in million)

S. No.	Description	Total Nos	Audited	Expenditure audited FY 2022-23
1	Foreign Aided Project	01	01	8,405.96

10.2 Classified summary of audit observations

Audit observations amounting to Rs 7,445.292 million were raised in this audit report. This amount also includes recoverable of Rs 2,443.663 million as pointed out by the Audit. Summary of the audit observations classified by nature is as under:

Overview of audit observations

S. No.	Classification	Amount (Rs in million)
1	Irregularities (Execution of works, contract agreement)	7,445.292

Note: Amount of audit observations exceeds audited outlays due to issues like award of works which involve future spending, amount covering multiple previous years of spending, multiple reckoning of monetary impact in different audit observations pertaining to same transaction, etc.

10.3 Brief comments on the status of compliance with PAC's directives

Audit of the infrastructure project of FBR was conducted first time for the year 2021-22. Audit Reports for 2021-22 and 2022-23 were not discussed by PAC till the finalization of this Audit Report.

10.4 AUDIT PARAS

10.4.1 Unjustified payment of prolongation cost - Rs 573.987 million

According to clause 8.2 of conditions of contract, the contractor shall complete the whole of the works, and each Section (if any), within the Time for Completion for the works or section (as the case may be) including:

achieving the passing of the Tests on Completion, and

completing all work which is stated in the Contract as being required for the Works or Section to be considered to be completed for the purposes of taking- over under Sub-Clause 10.1 [Taking Over of the Works and Sections)

Audit noted that the EPC contract of Regional Improving Border Services Project for Torkham was awarded to M/s NLC at agreement cost of Rs 16,471.574 million on 20.12.2018. Notice to commence the works was issued by the Engineer's Representative on 14.02.2019 and date of commencement was fixed as 21.02.2019. The completion period of the contract was 1,245 days up to 20.07.2022.

Furthermore, EPC contract of Regional Improving Border Services Project for Chaman was awarded to M/s NLC on 24.09.2019 and date of commencement was fixed as 30.09.2019. The completion period of the contract was 1,034 days up to 30.07.2022.

Audit observed that project authorities paid two prolongation cost claims for Rs 573.987 million (Rs 337.011 million in Torkham Contract + Rs 236.976 million in Chaman Contract) for Interim Extensions of Time on the grounds mainly due to non-availability of land in one case and in other case the contractor failed to complete the work within stipulated time period.

Audit holds that despite availability of sufficient land of 526.465 kanals, slow progress on the part of the contractor, the payment of prolongation cost was unjustified.

Audit pointed out the unjustified payment in September 2023. The management replied that the contractor submitted his Prolongation Cost Claims. The Engineer Representative, after a detailed evaluation of the contractor's claim determined that the contractor was entitled to a prolongation cost.

The reply was not accepted because the claims were not questioned through Dispute Review Board (DRB) and in Arbitration. No counter claim was lodged by the project management against the contractor. Prolongation cost was not supported with documentary evidence and detailed calculations.

The matter was discussed in DAC meeting held on 29.01.2024 wherein project management explained the reasons of delay leading to specific circumstances on the basis of Border-side/tribal area issues. To consider the above facts, Audit requested for provision of Consultant's progress report, chronology of land acquisition, correspondence/ deliberations with concerned quarters, details of claims, etc., for scrutiny.

The DAC directed the department to provide the same to Audit and FBR (PAO) within 15 days. The DAC also directed to provide detailed back up data of the claims /receipts determined by the Engineer.

Audit recommends that the matter be investigated for payment of unjustified claims besides taking disciplinary action against the person at fault and early recovery be made from the contractor.

(DP. 1&11)

10.4.2 Undue financial favour to contractor due to non-recovery of mobilization advance - Rs 689.574 million and USD 389,266

According to clause 14.2 (a) of the particular conditions of the contract agreement, recovery of mobilization advance shall be made in installments @ 20% of the amount of Interim Payment Certificate and first deduction shall start from fourth Interim Payment Certificate as agreed in Schedule of Payment, set forth in sub-clause 14.4. As per contract provisions, the mobilization advance was to be fully recovered up to June 2022.

Audit noted that the Project Director paid mobilization advance to M/s NLC against Regional Improving Border Services Projects at Torkham and Chaman in December 2018 and November 2019, respectively.

Audit observed that mobilization advance was not fully recovered and an amount of Rs 689.574 million and US\$ 389,266 was recoverable up to June 2023, as follows:

Project Sites	Total Mobilization Advance paid	Total Mobilization Advance recovered	Mobilization Advance recoverable
Torkham	Rs 1,842,209,017	Rs 1,245,410,344	Rs 596,798,673
Chaman	Rs 1,886,475,157 and USD 5,521,186	Rs 1,793,699,873 and USD 5,131,920	Rs 92,775,284 and USD 389,266
Total	Rs 3,728,684,174 and USD 5,521,186	Rs 3,039,110,217 and USD 5,131,920	Rs 689,573,957 and USD 389,266

This resulted in undue financial favour to contractor due to non-recovery of mobilization advance for Rs 689.574 million and USD 389,266.

Audit pointed out the matter in September 2023. The management replied that mobilization advance recovery was being made as per Contract provisions.

The reply was not acceptable. The stipulated dates of completion was expired but the recovery of mobilization advance was yet not made in full as required under the provisions of the contract.

The matter was discussed in DAC meeting held on 29.01.2024 wherein Audit informed that committee that conditional bank guarantee was obtained. DAC directed the project management to obtain the unconditional/irrevocable bank guarantee against the mobilization advance. The DAC also directed that the financial charges for the period of the default may be recovered from the Contractor and got verified from Audit within 15 days.

Audit recommends compliance of DAC's directive.

(DP. 5, 15&18)

10.4.3 Sub-standard below specification execution of civil structure/ building work - Rs 391.853 million

According to clause 4.1 contractor's general obligations, the contractor shall design, execute and complete the works in accordance with the contract, and shall remedy any defects in the works. When completed, the works shall be fit for the purposes for which the works are intended as defined in the contract.

The contractor shall provide the Plant and Contractor's Documents specified in the contract, and all contractor's personnel, goods, consumables and other things and services, whether of a temporary or permanent nature, required in and for this design, execution, completion and remedying of defects. The contractor shall be responsible for the adequacy, stability and safety of all site operations, of all methods of construction and of all the works.

Audit noted that the EPC contract of Regional Improving Border Services Project for Torkham was awarded to M/s NLC at agreement cost of Rs 16,471.574 million (Rs 12,281.393 million and US\$ 31,335,483 @133.72= Rs 4,190.180 million) on 18.12.2018 for a completion period of 1,245 days. Contract cost of work was revised after variation order for Rs 12,774.430 million and US\$ 32,808,663.

Audit observed that M/s Karsaz-Smith (Contractor and the manufacturer) conducted Joint Inspection of Torkham site in February 2023 and pointed out critical short comings of the building structure and evaluation with regard to radiation safety of cargo scanners. During execution of civil/structural works the recommendation of pouring methodology by OEM was not adopted/followed. Cracks were observed in the ramp. The alignment of pillars and walls was not accurate. The Security equipment provider M/s Karsaz and their OEM M/s Smith Detection clearly notify that if any impact on the scanner arises during installation, commissioning, testing and DPL period due to the construction work, the warranty of the scanner will not cover any damage and will be rendered void.

Further, the consultant instructed the contractor M/s NLC to rectify all defects and observations within 28 days failing which the payments already certified against the structural/building works will be adjusted in the subsequent IPCs.

This resulted in defective/sub-standard and below specification execution of civil work for Rs 391.853 million.

Audit pointed out the defective/sub-standard execution of civil work in September 2023. The management replied that M/s NLC rectified all the critical observations raised by M/s Karsaz who were verified the same during the subsequent visit. M/s Karsaz completed the installation of guide rails for the scanners after satisfactory rectification and compliance with the drawings. The equipment warranty for these scanners would be provided by NLC/OEM for one year after Taking over by the Employer and there would be no compromise on quality and safety by the Employer.

The reply was not accepted because rectification of defects as replied, were not supported with documentary evidence. Installation of scanners was still pending.

The matter was discussed in DAC meeting held on 29.01.2024 wherein the project management explained that audit observations have duly been addressed vide report of M/s Karsaz / Smith Detection. DAC directed the department to provide check requests and formal confirmation of rectification of critical issues to Audit and FBR/PAO within 15 days. DAC further directed to ensure that rectified works are as per specifications.

Audit recommends compliance of DAC's directive.

(DP. 2)

10.4.4 Non-imposition/recovery of liquidated damages due to delay in completion of works - Rs 1,754.089 million

Clause 8.7 & 14.15(b), Part-A Appendix to tender of particular conditions of contract provides, the delay damages for the works shall be 0.01% of the final contract price per day up to maximum 5%, in the currencies and proportions in which the contract price is payable.

Audit noted that the EPC contract of Regional Improving Border Services Project for Torkham was awarded to M/s NLC at agreement cost of Rs 16,471.574 million on 18.12.2018 for a completion period of 1,245 days and for Chaman Rs 18,610.210 million on 19.08.2019 for a completion period of 1,034 days. Torkham Contract cost of work was revised after variation order for Rs 12,774.430 million and US\$ 32,808,663.

Audit observed that the contractor could not complete the works within stipulated period and even in the extended period of 356 days and 315 days, respectively. Liquidated damages were, however, not imposed and recovered from the contractor for delay in completion of work.

This resulted in non-imposition/recovery of liquidated damages of Rs 1,754.089 million, as detailed below:

(Rs in million)

Project	Scheduled Progress up to June 2023	Actual Progress up to June 2023	Contract Amount	Liquidated damages @5% of contract amount
Regional Improving Border Services at Torkham	90.83%	68.36%	16,471.574	823.579
Regional Improving Border Services at Chaman	99.48%	73.77%	18,610.210	930.510
			35,081.784	1,754.089

Audit pointed out the matter in September 2023. The management replied that Engineer Representative approved extension of time without penalty keeping in view justified reasons for delay in completion of works.

The reply was not accepted because the justification for delay was not supported with progress reports, work programmes, land acquisition process (the main cause of delay) and contract provisions.

The matter was discussed in DAC meeting held on 29.01.2024 wherein the project management informed that since the extension of time for completion of project had been granted to the contractor i.e., M/s NLC, therefore, question for imposition of penalty is not warranted in the matter. However, Audit required provision of notification issued by the Project Director for extension in the time limit for completion of contracts beyond the original time frame, comprehensive justification with back up details of claims, consultants progress reports, etc. The DAC directed to provide the same to Audit within 15 days.

Audit recommends compliance of DAC's directive.

(DP. 03&13)

10.4.5 Unjustified payment due to non-installation of equipment - US\$ 51.784 million

Clause 7.4 provides, this sub-clause shall apply to all tests specified in the contract, other than the tests after completion (if any). The contractor shall provide all apparatus, assistance, documents and other information, electricity, equipment, fuel, consumables, instruments, labour, materials, and suitably qualified and experienced staff, as are necessary to carry out the specified tests efficiently. The contractor shall agree, with the engineer, the time and place for the specified testing of any Plant, Materials and other parts of the works.

Audit noted that the EPC contract of Regional Improving Border Services Project for Torkham was awarded to M/s NLC at agreement cost of Rs 16,471.574 million (Rs 12,281.393 million and US\$ 31,335,483 @133.72=4190.180 million) on 18.12.2018 for a completion period of 1,245 days and for Chaman Rs 18,610.210 million (Rs 12.576.501 million and US\$ 36,807,908 @163.924=Rs 6.033.7100 million) on 19.08.2019 for a completion period of 1,034 days. Torkham contract cost of work was revised after variation order for Rs 12,774.430 million and US\$ 32,808,663.

Audit observed that items of work “Fire Suppression, Plumbing, Electrical, Shipping and Delivery Equipment, Security Equipment & Installation of Cable & Management System” were purchased/imported, as detailed below:

BOQ No.	Item	Torkham Amount (US\$)	Chaman Amount (US\$)
1	Security equipment	13,306,300	13,267,500
2	Fire detection and alarm system	179,332	177,217
3	Access control system	6,929,868	6,929,867
4	IP CCTV System	1,615,215	1,581,646
5	Server Room	840,578	671,055

BOQ No.	Item	Torkham Amount (US\$)	Chaman Amount (US\$)
6	Cable and Management System	682,261	779,381
7	Voice Telephone Equipment	85,664	85,664
8	Wireless Access Point	71,502	71,502
9	Data Centre Equipment	498,538	498,538
10	Servers	286,648	286,648
11	Storage	639,371	639,371
12	Services	295,000	295,000
13	UPS	92,369	92,369
	Sub-Total	25,522,646	25,375,758
	NLC Premium	1,276,132	1,268,788
	Grand Total	26,798,778	26,644,546
	Amount paid	25,334,719	26,449,072

Audit observed following:

A sum of US\$ 51,783,791 (97% of the contract amount of US\$ 53,443,324) was paid against imported equipment to the contractor. Record was silent about physical installation and testing commissioning of equipment. Further, record regarding inspections & factory acceptance test reports was not provided to Audit. Therefore, the payment of imported equipment for US\$ 25,334,719 at Torkham and US\$ 26,449,072 at Chaman Border without testing, inspection and installation was unjustified.

Warranty/guarantee period of equipment was not available on record. Despite shipping/delivery of these equipment, installation was not done at site. Due to non-installation of the equipment at site, the equipment would be at risk of wear and tear and period of warranties was lapsed before installation and testing/commissioning.

Audit pointed out the matter in September 2023. The management replied that warranty of the imported equipment would start after installation and taking over by the employer.

The reply was not accepted because payments were made without installation, testing and commissioning of equipment. Moreover, warranty as replied was not produced to Audit for verification.

The matter was discussed in DAC meeting held on 29.01.2024 wherein the department explained that payment was made as per schedule. DAC directed the department to provide following documents/information within 15 days:

Payment schedule

Specific criteria for each milestone

Pre-shipment inspection and Factory Acceptance Test report along with invoices

Warranty/commitment of M/s NLC

Audit recommends that equipment be installed without further delay besides provision of required information/documents to Audit for verification.

(DP. 04&17)

10.4.6 Unjustified payment on account of price escalation without observing agreed payment schedule - Rs 1,490.939 million

Section 8 (Schedule of Payment) of contract agreement of ITTM Border Crossing Point (BCP) Chaman Part-1 Schedule of Milestone Payments, first IPC was to be paid in November 2019 and last IPC No. 24 to be paid in June 2022.

Standard Procedure and Formula for Price Adjustment issued by Pakistan Engineering Council, Islamabad states “The billed amount of the Works for each calendar month will be obtained from the checked bills submitted by the Contractor. In case the billed amount is for more than one month, the amount of the bill shall be segregated for actual work done in each month.”

Audit noted that the EPC contract of Regional Improving Border Services Project Chaman was awarded to M/s NLC for Rs 18,610.210 million (Rs 12,576.501 million and US\$ 36,807,908 @163.924= Rs 6,033.7100 million) on 19.08.2019 for a completion period of 1,034 days.

Audit observed that the authority made payment of price escalation amounting to Rs 1,490.939 million to the contractor up to June 2023. Audit further observed that price escalation was calculated and paid on cumulative work done basis of different month's bills instead of approved IPC's payment schedule Annexure-C as required under provisions of the contract agreement. This resulted in unjustified payment of escalation of Rs 1,490.939 million.

Audit pointed out the matter in September 2023. The management replied that price adjustment was paid as per provisions of contract agreement.

The reply was not accepted because the price adjustment was paid despite delay in completion of the project attributed to the contractor. Moreover, justification with reference to EPC contract and back up calculations of weightages of specified material were not furnished in support of reply.

The matter was discussed in DAC meeting held on 29.01.2024 wherein the Committee directed the department to re-visit the subject matter involved in the audit observations and submit a comprehensive report alongwith documentary evidence to the effect that payment was made on account of price escalation after determining the actual work done as per monthly IPCs to Audit and FBR within 30 days.

Audit recommends recovery of unjustified payment from the contractor besides fixing responsibility against the persons at fault.

(DP. 16)

10.4.7 Irregular payment from provisional sum without supporting invoices and procurement documents - Rs 540.561 million

Clause 13.5 of General Conditions of Contract of the work provides that each "Provisional Sum" shall only be used, in whole or in part, in accordance with the Engineer's instructions and the contract price shall be adjusted accordingly. The total sum paid to the contractor shall include only such amounts, for the work, supplies or services to which the Provisional Sum relates, as the Engineer shall have instructed. For each Provisional Sum, the Engineer may instruct, plant and

materials or services to be purchased by the contractor, for actual amounts paid (or due to be paid) by the contractor, and overhead charges and profit, calculated as a percentage of these actual amounts.

Audit noted that the EPC contract of Regional Improving Border Services Project for Torkham was awarded to M/s NLC at agreement cost of Rs 16,471.574 million (Rs 12,281.393 million and US\$ 31,335,483 @133.72=4,190.180 million) on 18.12.2018 for a completion period of 1,245 days. Contract cost of work was revised after variation order for Rs 12,774.430 million and US\$ 32,808,663.

Audit observed that certain items such as vehicles, CCTV Cameras, Bullet Proof Jackets, Jammers, Scanners, shifting of utilities and EMP, etc., were procured from provisional sum of the contract and made payment of Rs 540,561,236 but the supporting invoices, procurement documents, quotations, vouchers and accounts were not produced by the contractor. Further, the items procured were also not accounted for in the accounts record. This resulted in irregular payment of Rs 540.561 million to the contractor.

Audit pointed out the matter in September 2023. The management replied that Provisional Sum cost was included in the schedule of payment as mile stone payment and paid accordingly.

The reply was not accepted because provisional sum items were paid without evidence of actual expenditure (invoices, quotations, measurements etc.).

The matter was discussed in DAC meeting held on 29.01.2024. After detailed discussion, DAC directed the department to provide following information/documents to Audit within 15 days:

Breakup/detailed scope of PS items, as per contract agreement

Invoices/bid rates/schedule rates of PS items

Quotations in support of rates

Vouched account against relocation of site utilities

Measurement Books

Certification/verification of payment against PS items

Audit recommends compliance of DAC's directive.

(DP. 08)

10.4.8 Inadmissible payment of cost claim for external electrical connection - Rs 265.061 million

According to Employer's Requirements, the scope of work for Chaman Border Crossing Point (BCP) included three sources of power supply network namely National Grid, Solar Power and back-up Diesel Generator, the cost of which was included in the bid cost of the contract.

Audit noted that the EPC contract of Regional Improving Border Services Project Chaman was awarded to M/s NLC for Rs 18,610.210 million (Rs 12,576.501 million and US\$ 36,807,908 @163.924= Rs 6,033.7100 million) on 19.08.2019 for a completion period of 1,034 days.

Audit observed that the contractor M/s NLC claimed cost for external electrical connection at Regional Improving Border Services Project Chaman and a sum of Rs 265.061 million was paid on this account to the contractor.

Audit maintains that the separate payment of cost claim for external electrical connection for Rs 265.061 million was not admissible as the cost of power supply network was inbuilt and included in the bid rates quoted by the contractor. This resulted in inadmissible payment of cost claim of Rs 265.061 million.

Audit pointed out the inadmissible payment in September 2023. The management replied that the matter is under arbitration.

The reply was not accepted because Engineer Representative and DAB proceedings and decisions before the process of arbitration were not shared with Audit.

The matter was discussed in DAC meeting held on 29.01.2024 wherein DAC directed the department to pursue the case actively before Arbitration Panel in line with terms and conditions of the contract agreement and outcome be shared with Audit and FBR for evaluation.

Audit recommends recovery of the cost claim of Rs 265.061 million for external electrical connection despite inclusion of three sources of power supply network in the scope of work (Employer's Requirements).

(DP. 10)

10.4.9 Irregular/Unauthorized acquisition of land in excess than provision in the approved PC-I - Rs 135.533 million

Approved PC-I of the project provides “Development of Integrated Transit Trade Management Systems (ITTMS) under ADB’s Regional Improving Border Services Project” the land requirement for Torkham Border was 56 Acres. 12.8 Acres was owned by Army and remaining 43.2 Acres land owned by the local tribes was to be acquired through lease agreement.

Audit noted that the EPC contract of Regional Improving Border Services Project for Torkham was awarded to M/s NLC at agreement cost of Rs 16,471.574 million (Rs 12,281.393 million and US\$ 31,335,483 @133.72=4,190.180 million) on 18.12.2018 for a completion period of 1,245 days. Contract cost of work was revised after variation order for Rs 12,774.430 million and US\$ 32,808,663.

Audit observed that 526.465 kanal (65.81 Acres) at Torkham Border was acquired on lease in 2016 at annual lease of Rs 35.269 million (@ Rs 66,667 per kanal) with 5% increase every year for 99 years extendable for further 99 years. Audit further observed that 187.25 kanals (23.41 Acres) of land was also acquired at annual lease of Rs 68.942 million (@ Rs 368,182 per kanal) with 5% increase every year for 33 years extendable for further 33 years from different private land owners. Thus, the department acquired 46.01 Acres land in excess than provision in the PC-I which was irregular/unauthorized. This resulted in irregular/ unauthorized expenditure of Rs 135.533 million. (Lease amount of first year paid).

Audit pointed out the irregularity in September 2023. The management replied that the revised PC-I was in process.

The matter was discussed in DAC meeting held on 29.01.2024 wherein the department explained that the expense has been included in the revised PC-I to be regularized. DAC directed the department to get facts verified from Audit within 15 days and get the revised PC-I approved from competent forum and provide it to Audit for verification.

Audit recommends compliance of DAC’s directive.

(DP. 09)

10.4.10 Unjustified payment of cost claim for damages due to riots - Rs 17.220 million

Section 15 of the contract of Chaman Border Terminal provides, M/s National Logistics Cell is being awarded Project of Chaman Border Terminal due to prevailing law & order threat in the country in general and possible sabotage/terrorist activities by external sources, in particular, it is imperative to formulate a detailed security plan for safety of persons, works site and ground Installation at Chaman Border Terminal during the execution of project duly protecting the main supply route from Quetta onward.

Audit noted that the EPC contract of Regional Improving Border Services Project Chaman was awarded to M/s NLC for Rs 18,610.210 million (Rs 12,576.501 million and US\$ 36,807,908 @163.924= Rs 6,033.7100 million) on 19.08.2019 for a completion period of 1034 days.

Audit observed that the contractor claimed damages of Rs 17.220 million due to riots at border crossing point Chaman which occurred to plant and equipment and works as a result of local protestors attack on 29.11.2020 pursuant to GCC clause 17.3, Employer's Risks.

Audit is of the view that cost claims of Rs 17.220 million for damages due to riots was unjustified as the same was covered in the security plan for Rs 580.276 million already provided for in the contract keeping in view the law & order situation of the site. This resulted in unjustified payment of cost claim for damages Rs 17.220 million.

Audit pointed out the unjustified payment in September 2023. The management replied that Engineer Representative approved contractor's claim and payment was made accordingly.

The reply was not accepted because security arrangements was the responsibility of the contractor and Rs 580.276 million already provided for in the contract keeping in view the law & order situation of the site. The payment of Rs 17.220 million was beyond the contract provision.

The matter was discussed in DAC meeting held on 29.01.2024 wherein DAC directed the department to re-examine the cost of damages arises due to riots on the site and submit a detailed report along with documentary evidences including Engineer's determination and approval of client to Audit for verification within 15 days.

Audit recommends recovery of unjustified cost claim for
Rs 17.220 million.

(DP. 12)

CHAPTER 11

GWADAR PORT AUTHORITY
MINISTRY OF MARITIME AFFAIRS

11.1 Introduction

Gwadar Port Authority (GPA) was established under Gwadar Port Authority Ordinance 2002. Eastbay Expressway Project (a CPEC project) is being executed by GPA. ECNEC in its meeting on 11.01.2015 approved PC-I of the project “Construction of Eastbay Expressway of Gwadar Port” for Rs 14,061.79 million (EPC Construction cost Rs 13,800.557 million). Revised PC-I of the Project was approved by ECNEC in its meeting on 02.10.2019 for Rs 17,369.84 million (including FEC portion Rs 16,435.55 million).

Execution

The Project was awarded to M/s China Communications Construction Company Ltd.(CCCC) on 19.09.2017 at agreement cost of Rs 15,088.155 million. The work was started on 12.10.2017 and was to be completed on 11.10.2020. Extension of Time was granted up to 11.04.2022. Contract for Consultancy Services for the project management and supervision of Gwadar Eastbay Expressway was awarded to M/s Techno-Consultant International (Pvt) Ltd for Rs 89.975 million on 20.03.2015.

B. Comments on Budget and Accounts (Variance Analysis)

Expenditure during the year 2022-23 is as under:

(Rs in million)

Description	Budget	Expenditure
China Development Bank Corporation, Interest-free loan Account No.2016/1 (Civil Works)	101.700	101.700
GoP (Establishment charges, land, etc.)	55.600	52.598
Total	157.300	154.298

Source: Financial Statement of the project

An expenditure of Rs 52.598 million was incurred against releases of funds for Rs 55.600 million. Funds of Rs 3.002 million were lapsed (DP. 01)

Expenditure of Rs 52.598 million was incurred on project establishment charges despite the fact that the project was complete and stands handed over on 31.07.2022 (DP. 08)

C. Audit Profile of GPA Projects

(Rs in million)

S. No.	Description	Total Nos	Audited	Expenditure audited FY 2022-23	Revenue/ Receipts audited FY 2022-23
1	Foreign Aided Projects (CPEC)	01	01	154.298	-

11.2 Classified summary of audit observations

Audit observations amounting to Rs 16,925.963 million were raised in this audit report. This amount also includes recoverable of Rs 120.705 million as pointed out by the Audit. Summary of the audit observations classified by nature is as under:

Overview of audit observations

S. No.	Classification	Amount (Rs in million)
1	Irregularities	
A	Execution of works, contract agreement	16,225.963

Note: Amount of audit observations exceeds audited outlays due to issues like award of works which involve future spending, amount covering multiple previous years of spending, multiple reckoning of monetary impact in different audit observations pertaining to same transaction, etc.

11.3 Brief comments on the status of compliance with PAC's directives

Audit of the infrastructure projects of Gwadar Port Authority was conducted first time for the year 2020-21. Audit Reports for 2020-21, 2021-22 and 2022-23 were not discussed by PAC till the finalization of this Audit Report.

11.4 AUDIT PARAS

11.4.1 Unjustified payments against work done without recording detailed measurements in Measurement Books - Rs 16,105.258 million

Para 208 of CPWA Code provides that unless in any case, the administration after consultation with Accountant General, direct otherwise, payments for all work done are to be made on the basis of measurements recorded in the MB was a permanent record issued to a supervisory officer to record date-wise activity, mandatory tests at the site. In mega projects of highways, dams, buildings, runways, etc., it was a mandatory requirement for recording the measurements of works, supplies, stores, etc.

Audit observed that the management of the Project “Construction of Eastbay Expressway of Gwadar Port made payments of Rs 16,105.258 million against work done without recording detailed measurements in the MB.

This resulted in unjustified payments of Rs 16,105.258 million against work done without measurement books.

Audit maintains that violation of rules occurred due to weak internal controls.

Audit pointed out the irregularities in September 2023. Authority replied that Eastbay Expressway contract was a lump sum fixed rate contract and complete scope of work was covered under Employer’s requirements. Therefore, no item wise measurements were required.

The reply was not accepted because payments were required to be made by recording details in the measurement books.

The matter was discussed in the DAC meeting held on 27.12.2023 wherein DAC directed the project management to provide record to Audit for verification of detailed measurements with dates with reference to test reports, check requests of the contractor on the basis of which payments were made to the contractor.

Audit recommends early compliance of DAC’s directives.

(DP. 06)

11.4.2 Non-recovery of Income Tax - Rs 120.705 million

Federal Board of Revenue instructions and Income Tax Ordinance, provides deduction of income tax at source is applicable on all payments made to the contractor on account of work done. The applicable rate of income tax deduction at source was 8% in the case of a turnkey contract under section 152 (2A) (c) of Income Tax Ordinance, 2001.

Audit noted that the Project “Construction of Eastbay Expressway of Gwadar Port”, was awarded to M/s China Communications Construction Company Ltd.(CCCC) on EPC basis dated 19.09.2017 at agreed cost of Rs 15,088.155 million. The cost of revised PC-1 was enhanced up to Rs 17,370.07 million by including the scope of work of additional three bridges of Rs 1,017.103 million and including cost of local Component of Rs 934.49 million. The total value of work done paid Rs 1,508.816 million.

Audit observed that the project management did not recover income tax of Rs 120.705 million (8% of Rs 1,508.816 million) from the contractor.

Audit maintains that non recovery of income tax was due to weak internal and financial control.

Audit pointed out non-recovery in September 2023. Authority replied as per procedure IPC was being paid without income tax deduction and the contractor submits income tax payment challan against 7% income tax deposit as per contract. Income tax challan would be obtained from the contractor and produced to Audit. If the Contractor would be asked to pay 8% withholding tax instead of 7% then Contractor will claim 1% additional amount from GPA whereas GPA has no provision of this extra burden of expenditure.

The reply was not accepted because income tax was recoverable at prevailing rates at the time of payment.

The matter was discussed in the DAC meeting held on 27.12.2023 wherein DAC directed the project management to take up the matter of tax deduction with FBR with reference to audit observation and contract provisions for clarification. Income tax deposited by the contractor may be got verified from Audit.

Audit recommends early compliance of DAC's directives.

(DP. 04)

CHAPTER 12

THEMATIC AUDIT LAND ASSET MANAGEMENT - CDA

Thematic Audit of Land Asset Management in Capital Development Authority has been conducted by Directorate General of Audit Works (Federal), Islamabad during 2023-24.

The main purpose of the thematic audit is to improve organization's performance through critically reviewing its business processes to identify those risks which are hindering it from achieving its intended objectives. Results of thematic audits are as under:

1.1 Introduction/Background

Capital Development Authority (CDA), established under the CDA Ordinance promulgated on 27.06.1960, performs through an Executive Board, constituted by the Federal Government, under Section 6 of CDA Ordinance, 1960.

As per Ordinance CDA is authorized to acquire land for the purpose of:

- Acquisition of land for development of different sectors and schemes
- Possession of land and rehabilitation of affectees of the acquired land.

1.2 Establishing the Audit Theme

1.2.1 Reasons of selection

The selected theme is related to Sustainable Development Goals and Pakistan Vision 2025, as detailed below:

- Domestic Resource mobilization strategy

- Cities as source of growth
- Modernize infrastructure to harmonize growth
- Land-use planning
- Climate change impact
- Ownership and control over land
- Land degradation

1.2.2 Purpose

Theme incorporates an analysis of audit findings and the impact on operations of CDA/MCI. It will serve as a food for thought for the Policy makers. It is envisaged that the theme will be used by policy makers and implementing organizations to assess the effectiveness of the internal controls and operational management i.e., role and performance of the organizations, as well as, a guide for them in identifying appropriate solutions for inherent weaknesses.

The audit findings and recommendations provided with theme are intended as a guide for implementing agencies to assess and improve their performance. The possible benefits of the Audit Theme to the stakeholders are as follows:

- i. The Public Accounts Committee and the Public Administration can use the theme to inform the Parliament of the systemic weaknesses in the public sector that may require legislative changes.
- ii. The legislature and implementing arms can use the theme in the formulation of policies and procedures to ensure consistency, transparency and accountability.
- iii. Executive Board of CDA can direct investigations to determine how well their entities are addressing the risks identified in the theme.
- iv. Accounting Office may use the theme to develop internal controls and strengthen risk management processes.
- v. Internal auditors can use the theme to assist in choosing the operational areas to audit.

1.2.3 Scope

Planning and operational activities of Estate Wing of CDA during the year 2022-23 were subject to audit analysis.

The scope of audit covered analyzing strategic planning, policies, procedures, goals, achievements and surveys conducted by Estate Wing for the purpose of land management in Islamabad with following areas:

- Announcement of land award and implementation– Timeliness, rates, finalization of Built-up properties
- Possession of acquired land
- Mutation of land in favour of CDA
- De-notifying of land not to be acquired
- Allotment of land/Plots – Change of plots in developed sector, balloting process
- Payments to land affectees
- Lease of land for agro-farm, poultry and vegetable farms – Renewal of lease
- Acquisition of land – Land Sharing Policy - acquisition of land under Land Sharing Basis instead of cash compensation basis
- Package Deals
- Encroachment
- Genuineness of ownership documents
- Revenue Staff

2. Legal framework governing the theme

There are number of policy interventions, programmes, guidelines regarding Land Management, which are enumerated as under:

- Master Plan of CDA
- CDA Ordinance, 1960, Land acquisition in Islamabad is regulated mainly under sections 22 to 36 of the CDA Ordinance 1960
- Land Acquisition Regulations, 1961
- Islamabad Land Disposal Regulations, 2005
- CDA Land Acquisition and Rehabilitation Regulations, 2007 (Land Sharing Basis)

3. Stakeholders and Governmental organizations identified as directly/indirectly involved

CDA under Ministry of Interior, is directly involved in the activity covered in thematic audit.

4. Role of the organization

CDA is responsible to:

- Acquire and use land for the purpose of its function, land acquisition process including conducting of survey of land/Built-up Properties (BuPs),
- Make payment of land compensation,
- Allot plots to the land affectees, take timely possession of the acquired land and get mutation of land in the name of Authority ensuring that complete process is in accordance with the CDA Ordinance/rules/regulations/Standard Operating Procedure.

5. Organization's Financial Resources

CDA is an autonomous body having its own financial resources for its operations and accounting/payment procedures. However, Federal Government also provides funds on accounts of certain PSDP projects and maintenance of government buildings. Major resources of receipt of CDA include:

- Revenue generated from sale of plots, municipal receipts, sanitation receipts, environmental/horticulture receipts, property tax, water charges, conservancy charges, interest/markup, commercial receipts (rent from shopping centres, bus stands, parking areas), etc.,
- Grant-in-aid from federal government for development purpose through Public Sector Development Programme,
- Grant-in-aid from federal government for maintenance of specified government buildings (Maintenance Grant).

6. Field Audit Activity

6.1 Methodology

Audit methodology included data collection, determination of objectives and audit criteria, analysis/consultation of record, discussion with staff, site visits, etc. Following steps were involved:

- i. Understanding the auditee/activities;
- ii. Defining audit objectives;
- iii. Developing audit procedures;
- iv. Conducting audit as per audit procedures; questionnaire, performance measurement;
- v. Evaluating results;
- vi. Reporting.

6.2 Audit Analysis

6.2.1 Review of Internal Controls

The management of audited entity is generally not sensitized to the imperative of strengthening internal control environment within the organization. The present report has identified a range of irregularities indicating the systemic issues due to inadequate oversight mechanism or ineffective implementation of internal controls.

Audit emphasizes the need for addressing the systemic issues, which are instrumental in occurrence of every irregularity, through a detailed review of the internal controls.

The concerned Directorate has not been audited regularly by the Internal Audit Wing of CDA due to which possibility of the increasing of irregularities, leading to financial loss to the Authority, could not be ruled out.

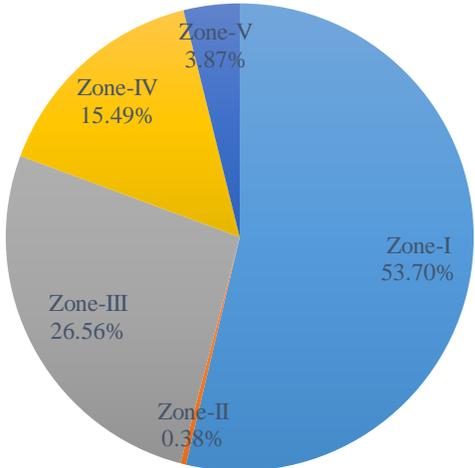

6.2.2 Critical Review

The total area of land acquired by CDA is 75,242.108 Acres. The Islamabad city is geographically divided into five zones:

- Zone-I (40,403.418 acres)
- Zone-II (283.510 acres)
- Zone-III (19,992.305 acres)
- Zone-IV (11,652.108 acres)
- Zone-V (2,910.207 acres)

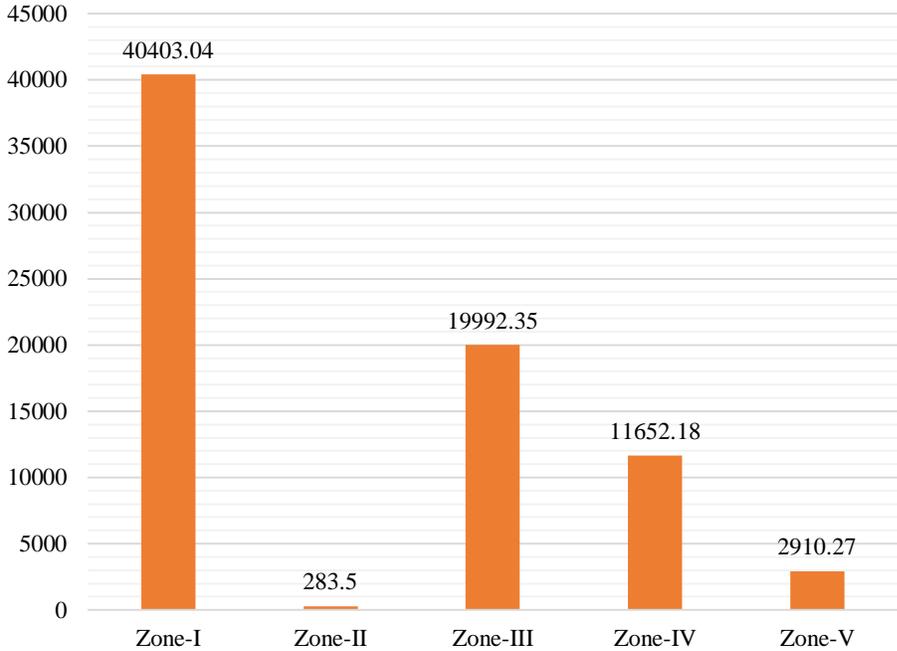

Zone-IV is the largest in area, while Zone-I is the largest developed residential area. Zone-I is distributed into sectors. Each residential sector is identified by a letter of the alphabet and a number, and covers an area of approximately 2 km × 2 km.

Pie-Chart showing CDA Land Zone Wise

■ Zone-I ■ Zone-II ■ Zone-III ■ Zone-IV ■ Zone-V

Bar Chart - CDA Land Zone-Wise in Acres

Audit observed that:

- i. CDA announced seven awards for acquisition of land measuring 52,942 kanal 14 marla costing Rs 43,574,174,000 during the period July 2006 to June 2016 in different villages of Islamabad as per detail given below. The acquired land was not mutated in the name of CDA as per requirement of awards since copies of mutations were not available in Land Directorate, CDA, despite the fact that CDA had paid compensation to the owners. Resultantly, CDA at the time of preparation of its financial statements, in accordance with International Public Sector Accounting Standards, would face difficulties to account for land as assets in the financial statements.

Directive No.	Nam of village	Date of award	total land	Rate Rs per Kanal	Cost of award (Rs)
616/DLR dated 25.04.2005	Lunda Mustal H-10	14.02.2007	49 K – 1M	700,000	34,335,000
1474/DLR dated 21.08.2008	Noon I-17, Kot Kolian I-17, Bajnial I-17, Narhala I-17, Lakhu I-17	15.01.2009	7971 K – 14 M	830,000	6,616,511,000
1473/DLR dated 21.08.2008	Noon, Bhadana Kalan, Sheikhpur, Jhangi Syedan	15.01.2009	8104 K – 10 M	830,000	6,726,735,000
757/DLR dated 13.09.2005	Siri Saral	31.01.2007	186 K – 13 M	620,000	115,723,000
888/DLR dated 08.05.2006 (for D-13, D-13 & F-13)	Bhekar Fateh Baksh, Siri Saral, Shah Allah Ditta, Pind Sangral, Dherak Mori, Maira Sumbal Jafar, Maira Sumbal Akku, Thallah Syedan	22.08.2008	21815 K	805,000	17,561,075,000
757/DLR dated 13.09.2005	Pind Sagral		58 K	710,000	41,180,000

Directive No.	Nam of village	Date of award	total land	Rate Rs per Kanal	Cost of award (Rs)
1337/DLR (C 13-14-15)	Sarai Madhu, Saria Khurbooza, Sagjani, Shah Allah Ditta	02.12.2008	14944 K - 9 M	835,000	12,478,615,000
	Total		52942 K – 14 M		43,574,174,000

- ii. Record keeping by Land & Rehabilitation Directorate of CDA was not up to the mark, having serious implications towards non-transparent process. Discrepancies were observed as under:
- Allotment register/Red entry registers were not properly maintained and in some cases, record entries of plots was tampered by cutting/using fluid without recording any reason and authentication.
 - Complete record was not computerized which enhanced the risk of double allotments and back date allotments of plots.
 - Creation and entries of new plots without revision/approval of layout plan.
 - Back Date Allotment entries of plots were made.
 - Handing/taking over charge of dealing Assistants and storekeepers was not properly maintained. Consequently, 695 files of allotment pertaining to various sectors were missing.
 - New files were reconstructed without approval by the Board/Chairman CDA.
 - Monthly inspection was not done by the Authority.

7. Significant Audit Observations

7.1 Unauthentic Built-up Property Award involving rehabilitation cost - Rs 835 million

Para 2 (vi, viii & xi) of CDA Land Acquisition and Rehabilitation Policy, 2007 (Land Sharing Basis), notified on 20.03.2008, defines that the Landless Affectee or Landless Dweller is a person who has a Built-up Property (BuP) in form of dwelling house on piece of land being acquired, and such land does

not belong to him or is not eligible for allotment of plot under land sharing formula otherwise. Provided that, he is a bonafide resident of the village being acquired, to be confirmed by any one of the following documents:

- a) Holder of Computerized National Identity Card (CNIC).
- b) Entry in the current Voter List of the village being acquired.
- c) Entry of his or his ancestor's name as tenant in the land record of the village on or before 31.12.2006 for last four consecutive Khasra Girdawari documents.
- d) Proof of two years old electricity connection in his or his parents' name, confirming the residence in the village from which he or she was being dislodged (required under BuP Award dated 17.08.2016).

Furthermore, Dwelling House is defined as a residential unit with constructed covered area of not less than 1,000 sft, and having all the features of a composite residential unit, like bedroom, toilet/bath, kitchen, compound wall, etc. However, the covered area of the dwelling house was reduced from 1,000 sft to 300 sft with the approval of CDA Board in April 2016 (as evident from para 3 of the BuP Award dated 17.08.2016).

The acquisition process of Built-up Properties (BuPs) in Sarai Kharbooza, Sangjani & Sarai Madhu (Sector C-15 & C-16) Islamabad was started as per Chairman CDA orders dated 01.10.2014. The Survey Report (Urdu Lists) of BuPs pertaining to the village Sarai Khurbooza (Sector C-15) Islamabad was completed by the Assistant Director Land/Tehsildar in July 2016 and survey contained 211 Havellies consisting of 504 BuPs. Deputy Commissioner CDA announced BuPs Award on 17.08.2016 of Sarai Kharbooza (falling under Sector C-15) and 167 BuPs out of 504 BuPs were considered eligible for rehabilitation benefits.

Audit observed that:

1. During survey process, the decision of the CDA Board regarding reduction of the area of dwelling house from 1,000 sft to 300 sft was misinterpreted and maximum number of affectees were accommodated by sub-dividing area of the Havellies keeping in view the minimum area of 300 sft per dwelling without considering the concept of composite unit (availability of baths and kitchens in the residents).

2. Land and Rehabilitation Directorate, CDA did not substantiate the eligibility of 167 landless affectees with reference to CNIC, voter list, last four Khasra Girdawari documents, satellite image of legal BUPs taken before acquisition of land, Khasra number, sketches of the structures and pictures of the dwelling houses, etc.

Due to this, the Authority may sustain a loss of approximately Rs 835 million (167 plots of size 25ft x50ft x Rs 5.00 million per plot) on providing rehabilitation benefits to 167 persons.

Audit recommends fact finding inquiry besides provision of documentary evidence in support of justified declaration of affectees in the light of CDA Land Acquisition and Rehabilitation Policy, 2007 and CDA Board orders to Audit for scrutiny.

7.2 Irregular payment of land compensation

Section 25 of CDA Ordinance, 1960, provides that subject to the other provisions of this Ordinance, the rules made there under, and the directions of the Authority, the Deputy Commissioner may, by order in writing acquire and land for the further purposes of this Ordinance. No order under sub-section (1) shall be issued except on the receipt by the Deputy Commissioner of specific directions from the Authority.

Section 26 of CDA Ordinance, 1960, provides that where any land is proposed to be acquired under section 25, the Deputy Commissioner shall cause the land (unless it has been already marked out) to be marked out and measured, and if no plan has been made thereof, a plan to be made of the same.

Building Control Rules, 2005 Chapter-II Zoning of ICT, Section-3 Delineation of Zones provides that the entire Islamabad Capital Territory shall be divided into five zones as delineated in the Master Plan wherein Zone-1 constitutes sectors up to the existing alignment of the G.T. road from the point of intersection of G.T. Road with Shahrah-e-Kashmir to the point of the Nicolson Monument inclusive of sector H-14, H-15, H-16, H-17, I-14, I-15, I-16, I-17. Building Control Rules, 2005 Chapter-III, Section-Development Strategies of Zones provides that the development of land in the zones shall be subject to the following conditions:

Unacquired Sectoral Areas: In these areas of Zone-1,

- (i) Land shall be acquired under a phased program and developed by the Authority in accordance with the land-use pattern spelled out in the Master plan;
- (ii) No sale/purchase of land which entails change in land use shall be allowed.

This provision was inserted with the intention to acquire the land directly from the original affectees by avoiding heavy cost in case of admissibility of sale/purchase of land of Zone-1.

Audit noted that the Deputy Commissioner, CDA, Islamabad announced award for acquisition of 16,076 Kanal 4 Marla (7971 K 14 M + 8104 K 10 M) land at flat rate of Rs 830,000 per kanal for sector H-16 & I-17 on 15.01.2009. These awards were announced in compliance of directives issued by Chairman, CDA.

Audit observed that Deputy Commissioner started process to acquire the land in accordance with CDA Board decision dated 11.11.2008. The Award dated 15.01.2009, described the following facts:

- Directive Nos. 1473 & 1474 dated 21.08.2008
- Sectors H-16 & I-17
- Villages: Noon, Kot Kolian, Bajnial, Narhala, Lakhu, Noon, Bhadana kalan, Sheikh pur, Jhangi Syedan
- Notice published in press on 02.09.2008 in The News, Pakistan Observer, Nawa-i-Waqt and Assas
- Date of hearing/disposal of objection: 30.12.2008 /13-14.01.2009

Audit further observed that some pieces of land were procured by the middlemen and were transferred in their names before the announcement of award i.e., 12-14.01.2009. Transfer of ownership of land was finally approved after 15.01.2009. Audit also observed that these middlemen managed to get the payment of compensation on priority basis and real affectees of owning up to 5 Kanal were not paid till date.

Audit holds that sale/transfer of ownership land after issuance of notices to land owners and publishing in press was irregular in term of Section-VI of Land Acquisition Act. This resulted in irregular payment of land compensation amounting to Rs 895,717,581 as under:

Name of purchaser/ middleman	Date of transfer (Inteqal)	Cost of land as per Revenue record (per kanal)	Rate announced (Rs per kanal)	Payment (Rs)
Bahria Town (Pvt.) Ltd. Rawalpindi	12.01.2009	Rs 100,000/ Rs 200,000	830,000	541,062,052
Usman Nawaz Khokhar	14.01.2009	Rs 100,000/ Rs 200,000	830,000	34,114,765
Global Utopia Housing Society	-	Rs 100,000/ Rs 200,000	830,000	137,281,209
Elite Estate Housing Society	-	Rs 100,000/ Rs 200,000	830,000	124,500,000
Try Tax Pvt Limited/ Bank of Punjab	-	Rs 100,000/ Rs 200,000	830,000	58,759,555
			Total	895,717,581

Audit recommends investigation and fixing of responsibility, taking appropriate action against the persons at fault and condonation of the irregularity by competent forum besides strengthening the administrative and internal controls.

7.3 Non-auction of cancelled agro-farming plots involving revenue - Rs 2,381.250 million

According to para 16 (4) of Islamabad Land Disposal Regulations, 2005 and para 2.1.4 of Islamabad Residential Sectors Zoning (Building Control) Regulations, 2005, the allottees shall have to develop agro-farms, agro-industries within three years from the date of possession or deemed possession whichever is earlier and non-conforming use of a building may render the owner and the occupant of the building/land liable to penalty and eviction from the building/land and the allotment/ conveyance deed of the plot may also be cancelled.

Inquiry report dated 24.06.2009 by the Commission appointed by the Chairman CDA, in compliance with the honorable Supreme Court of Pakistan orders dated 25.05.2009 provides that CDA had floated 610 poultry, vegetable, orchard and nursery schemes over an area of about 2,600 acres.

An incomplete unsigned list of 546 agro-farm plots was furnished by concerned Estate Management Officer, which does not provide the information of removal of irregularities. However, as per these lists, nine (9) plots, having approximate market value of Rs 2,381.250 million, were cancelled. **(Annexure-AAC)**

Audit observed that these plots were not put to re-auction. The occupation of plot by the previous allottees despite cancellation cannot be ruled out.

This resulted in non-provision of required information of removal of irregularities as observed in the survey besides non-auction of cancelled plots worth Rs 2,381,250,000, which needs justification besides corrective action.

Audit recommends inquiry for fixing responsibility against those responsible for inaction and early corrective action.

7.4 Non-cancellation of agro-farming plots due to violation of terms & conditions of the allotment - Rs 4,800.00 million

Condition No. 10 of the lease agreement of agro-farming plot provides that the allottee shall utilize the land only for the purpose for which it is allotted to him. In case of default, the allotment/lease will be liable to be cancelled with forfeiture of amounts deposited by the allottee and without payment of any compensation.

In compliance of the Honorable Supreme Court of Pakistan orders dated 23.07.2007 and 09.08.2007, CDA conducted a survey, and it was found that owners/allottees of twenty-four (24) agro-farming plots violated the terms and conditions of the allotment and failed to utilize the land for the purpose for which it was allotted to them.

Audit observed that CDA issued show cause notices to these allottees, but failed to take further action as per terms and conditions of the lease agreement including cancellation of plots.

Action regarding cancellation was required to be taken under CDA by-laws against allottees of 24 agro-farm plots (approximately valuing Rs 4,800 million @ Rs 200 million each) which were found in non-conforming use, but not a single allotment was cancelled. Further, CDA failed to utilize the land for the purpose, for which it was allotted to them.

This issue of violations in agro-farming plots has time and again been pointed out by Audit but CDA did not take corrective action.

Audit recommends inquiry for fixing the responsibility besides corrective action.

8. Conclusion

- i. There has been an issue of non-possession of land and non-mutation in the name of CDA despite payment of compensation.
- ii. CDA Land Record is not digitized. It enhances the risk of double and back date allotments of plots.

9. Recommendations

Audit recommends that:

- i. CDA should ensure mutation of land in its name.
- ii. CDA should digitalize all the land record.

CHAPTER 13

IMPACT AUDIT

DENGUE CONTROL PROGRAMME - CDA

The Impact Audit is aimed at determining impact of initiatives or programmes of an organization. It focuses on determining the output and outcome attributable to an initiative. The main purpose of the impact audit is to critically review the processes and outcomes to identify those risks which have hindered it from achieving its intended objectives. Impact Audit of dengue control programme of Directorate of Health Services (DHS), under Capital Development Authority (CDA)/ Metropolitan Corporation Islamabad (MCI) was conducted by Directorate General of Audit Works (Federal), Islamabad in December 2023.

1. Introduction:

Dengue is a vector-borne viral disease transmitted by mosquitos of the genus *Aedes* (*Aedes aegypti* & *Aedes albopictus*), which are widely distributed in subtropical and tropical areas of the world especially in urban and semi-urban areas. More than half of the world's population is at risk of dengue infection. Each year, an estimated 390 million dengue infection cases occur around the world of which 80% develop mild symptoms. Around 1% develop serious complications such as Dengue Hemorrhagic Fever (DHF) and Dengue Shock Syndrome (DSS), leading to about 22,000 deaths worldwide. Early identification and good clinical management can however, reduce the case fatality to less than 1%.¹¹

The first confirmed outbreak of dengue fever in Pakistan was reported in 1994, with sudden rise in cases and epidemic trend in Karachi in November 2005. Since 2010, Pakistan has been experiencing epidemic of dengue fever.

Dengue fever is now endemic to Pakistan, with seasonal peaks and with several outbreaks reported in 2010, 2017, 2019, 2020, 2021 and 2022. The dengue cases typically increase in September/October. The dengue cases were significantly higher in 2022 (between January and September) as compared to the same period during the last four years. WHO, in September 2022 reported 25,900 cases and 62 deaths thereof due to dengue virus.

¹¹ National Institute of Health (Centre for Disease Control), Ministry of National Health Services, Regulations and Coordination, Advisory No. F.1-22/Advisory/CDC/2023 dated 21.06.2023.

2. Overview:

Dengue fever claims many lives, every year, highlighting the need for maximum awareness campaigns to save lives besides providing standard guidelines and capacity building for planning and implementing preventive and control measures. No medicine is available to treat dengue. To minimize the chances of disease, the main areas of focus are vector control, case management and community awareness. Responding to the challenge, Ministry of National Health collaborated with WHO in the year 2008 to develop long term plan for dengue prevention and control within the Malaria Control Programme. Since June 2011, the activities of the Federal Ministry of Health devolved to the provinces. National Institute of Health (Centre for Disease Control – A National Focal Point for International Health Regulations) issues advisories for the Prevention and Control of Dengue Fever to all Provincial Health Departments, Healthcare Regulatory Bodies/ Commissions, Departmental Health Institutions, Public/Private hospitals, Health Service organizations/Health Directorates, etc. The Dengue Control Programme contains following broader components with the objective to make institutionalized and sustainable arrangements to combat dengue:

(a) Public Health Actions:

- i. Strengthening of disease surveillance – Timely detection of new cases, clusters and identification of hotspots to carryout case response activities
- ii. Integrated Vector Management – continuous identification, destruction and monitoring of mosquito breeding sites, preventing mosquitos from egg-laying habitats by environmental management, disposing of solid waste properly, covering and cleaning of domestic water storage on a weekly basis, applying WHO recommended insecticides, as vector control measures
- iii. Personal Protection – wearing long sleeved clothes, use of mosquito repellant, use of bed nets, use of mesh screens on windows
- iv. Risk Communications & Community Engagement – arranging health awareness sessions to sensitize community, dissemination of brochures, raising awareness in community through use of print, electronic and social media, improving community participation and mobilization for mosquito control activities at community level
- v. Monitoring & Evaluation – Active monitoring and surveillance of vectors to determine effectiveness of control interventions

(b) Laboratory diagnosis

- (c) Treatment/Clinical Management – Early recognition and understanding of the clinical problems and rational approach to case management and a good clinical outcome, initiate clinical management of suspected case in high endemic areas without waiting for laboratory result
- (d) Reporting – Preparation of a line-list for all the suspected cases with information (demographic, clinical, & risk factor), enter data in DHIS-2 and share with NIH

It is responsibility of the civic regulatory body and the local health authorities to control the spread of the dengue virus in its peak season. One of the key strategies is by prioritizing the strengthening of healthcare services, which serves as a cornerstone in the public sector.

The Directorate of Health Services was established in 1984 and it has been operating under the administrative control of the Metropolitan Corporation Islamabad (MCI). It has evolved into a network of 13 medical centers and 2 mobile units and delivers primary healthcare services to the residents of Islamabad within its municipal boundaries. However, financial arrangements are under Capital Development Authority (CDA). As per Schedule-II [Rule 3(3)] of Rules of Business, 1973 (amended up to 01.12.2021) CDA and MCI are under the administrative control of the Ministry of Interior (Interior Division).

The primary objectives of the Directorate of Health Services encompass the prevention of vector-borne diseases such as dengue and malaria through proactive measures, including larvicidal treatments, spraying initiatives, and fogging activities aimed at controlling disease vectors. Additionally, the Directorate strives to fulfill its mission by conducting educational outreach programs and awareness campaigns targeting the general public. By imparting knowledge and promoting preventive measures, the Directorate aims to empower the community to actively participate in disease prevention, fostering a healthier and more informed population.

The Impact audit had the following key objectives to:

- i. Determine whether DHS is effectively carrying out all larvicidal programmes, spraying, and fogging operations to prevent the spread of vector-borne diseases (malaria, dengue, etc.).
- ii. Determine if the Directorate adequately provides health education and awareness programmes to the general public for desired outcomes.

- iii. Assess whether active and passive surveillance/ monitoring and periodic reporting of Dengue Control programme is carried out.
- iv. Assess whether the capacity building of all primary healthcare workers/professionals is carried out through regular trainings.
- v. Determine on the basis of Human Resource Data/ sanctioned and available strength whether DHS is delivering as per approved plans and schedules.
- vi. Determine if the DHS has devised any strategy to ensure the timely availability of required quantities of Pesticides, Spraying machines, vehicles and allied equipment.
- vii. Evaluate if the DHS is following WHO standards for managing in dengue control programme.
- viii. Determine whether the DHS's resources are being used effectively to deliver desired results.

3. Scope and Methodology:

a. Scope:

The scope of the Impact Audit of dengue control programme under the Directorate of Health Services is as under:

- What was the approved plan of DHS for preventive measures, elimination of dengue virus growth and its larvae in urban areas of Islamabad as per mandate of DHS?
- Were any impact assessment studies carried out?
- Whether service delivery standards were followed by healthcare establishments on the subject matter
- What resources financial as well as human used during the dengue virus growth season to overcome this deadly virus? Particularly, door to door anti-dengue awareness campaign in the Federal Capital, and deployment of Entomologists in campaign during last five years (2019-2023)

b. Methodology:

Audit methodology included data collection, data analysis and evolution of the operations relating to anti-dengue control.

The data collection phase involved the systematic gathering of both qualitative and quantitative information. Various methods were employed, including a thorough review of relevant documentation related to the Directorate. Additionally, oral testimony was collected through discussions and meetings with staff/ workers at the Directorate and through a questionnaire, certain information was collected, and trend analysis was conducted.

Audit team obtained the information from the record of the Directorate and evaluated the entity's operations. Data was also collected through checklists, to evaluate the quality of service.

Finally, the collected data was analyzed and evaluated carefully against the predetermined audit objectives and criteria which were devised in line with the health interventions on the subject matter.

The absence of standardized benchmarks or impact standards for primary healthcare units operating in the Federal capital posed a considerable challenge in effectively measuring and comparing the Impact of the anti-dengue control programme. DHS had not developed a comprehensive operational framework containing clearly defined organizational objectives and impact indicators. This lack of a structured framework by the entity also posed challenges for Audit in precisely assessing the DHS's impact in relation to its established benchmarks. These limitations hindered the ability to conduct a comprehensive evaluation and make meaningful comparisons with the best practices on the subject matter. Consequently, it became challenging to ascertain the extent to which the anti-dengue control programme was effective.

4. Findings:

The audit findings are given in the following paragraphs:

4.1 Critical Review

The trends in Dengue cases in urban areas of Islamabad and measures adopted were evaluated which included expenditure incurred on Dengue control measures and the corresponding increase/decrease in the number of Dengue patients over a five-year period (2019-2023). The analysis aimed at providing insights into the effectiveness of control measures and their impact on both financial resources and public health outcomes.

The impact of Dengue control measures in Islamabad over the years is depicted in the following table:

Comparative Analysis of Dengue Cases

S. No	Year (Jan. to Dec)	Expenditure (Rs)	%Increase (Decrease) in Expenditure	Number of Dengue Cases	%Increase (Decrease) in Cases
1	2019	4,406,371	-	2,074	-
2	2020	6,575,291	49.22	15	(99.28)
3	2021	5,677,651	(13.65)	1,093	7186.67
4	2022	13,374,413	135.56	1,766	61.57
5	2023	13,711,577	2.52	880	(50.17)

Dengue Cases Overview:

The above table shows that the number of reported dengue cases varied throughout the period. There was a mix trend with a significant decrease of 99.28% in 2020. Subsequently, the cases rose to 1,093 in 2021 (7186.67%). The year 2022 witnessed an increase with a figure of 1,766 cases, followed by a notable decline to 880 cases in 2023 (50.17%).

Expenditure Overview:

The table reveals a significant increase in expenditure on dengue control measures over the years. In 2019, the expenditure stood at Rs 4.406 million and by 2023, it reached Rs 13.712 million, marking a substantial 211.7% increase. Notably, there was a drastic surge of 135.56% from 2021 to 2022, indicating a substantial financial commitment to dengue prevention.

4.2 Issues relating to Planning, Execution and Monitoring of Dengue Control Programme

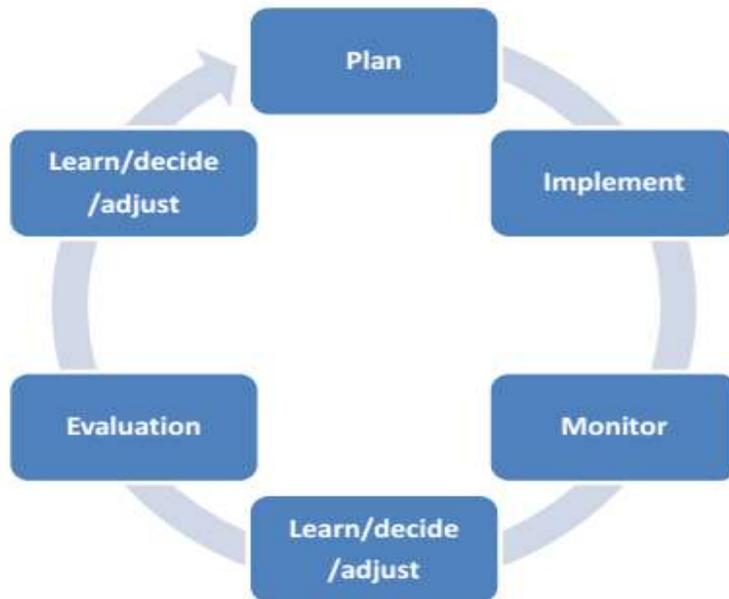

Chapter 5 of WHO Guidelines for Dengue Diagnosis, Treatment, Prevention and Control 2009, describes that the prevention of and response to dengue and other arboviruses involve developing and implementing preparedness plans. Establishing a comprehensive preventive schedule for anti-dengue measures throughout the year is crucial to effectively combat the spread of the virus. Below is a general guideline that can be adapted to local conditions and the specific epidemiological characteristics of the region. It is important to note that the schedule may vary based on factors such as climate, mosquito activity, and historical patterns of dengue transmission.

- i. January - February: Preparing for the Dengue Season (Community Awareness Campaigns)
- ii. March - April: Early Intervention and Vector Control Measures
- iii. May - August: Dengue Season (Intensified Vector Control and community engagement)
- iv. September - October: Post-Dengue Season Assessment (Epidemiological Surveillance, Community Feedback and Improvement)
- v. November - December: Planning and Readiness for the Next Year (Review and Planning, Capacity Building)

This preventive schedule should be viewed as a flexible framework that can be adapted based on the local context and the evolving nature of dengue transmission. Regular monitoring, assessment, and community involvement are crucial components of a successful anti-dengue program. An effective Plan/schedule of a programme and user-friendly M&E system will be designed, installed and implemented for Dengue Control Program at appropriate level. The major components of M&E system would be:

- Approved activity/schedule plan
- M&E framework to track progress of implementation
- Measureable and verifiable outcome and output indicators

Dengue Control Activity Cycle

Audit observed that the DHS neither installed and implemented nor designed an effective and user friendly monitoring and evaluation system. Further, Management failed to formulate the measureable and verifiable outcome and output indicators, as detailed below:

- No approved preventive schedule for the anti-dengue programme existed in the years preceding the current year (January to December).
- No effective system of monitoring & supervision at Sector level by Health Directorate Office Islamabad.
- Public Health Workers (PHWs) lacked training for indoor or outdoor teams supervision and counter checking
- Meetings on dengue control program along with the minutes to check dengue activities and issues

4.2.2 Non-promulgation of Dengue specific regulations

Para 3.3.2 of WHO Guidelines for Dengue Diagnosis, Treatment, Prevention and Control 2009, emphasize the process of advocacy through which groups of stakeholders can be influenced to gain support for and reduce barriers to specific initiatives or programme. Multiple strategies, often used simultaneously, are key to the success of any advocacy efforts. Strategies may include social mobilization, and administrative, legislative, regulatory, legal and media advocacy.

A number of legal issues are involved in Dengue Control Programme which requires in time legal actions for smooth functioning of the program. For this purpose Dengue specific regulations will be promulgated.

Audit observed that no regulations were promulgated. The Directorate of Health Services, CDA/MCI, Islamabad, did not advocate for the promulgation of anti-dengue regulations. Despite having a fully established legal directorate, the CDA neither enacted Dengue-specific regulations nor appointed law officers at various levels to fine and penalize violators.

4.2.3 Trainings

As per Para 2.2.5 of WHO Guidelines for Dengue Diagnosis, Treatment, Prevention and Control 2009, to ensure the presence of adequate staffing at all levels, the education and training of doctors, nurses, auxiliary healthcare workers and laboratory staff are priorities. Educational programmes that are customized for different levels of health care and that reflect local capacity should be supported and implemented widely.

Performance of staff is directly related to the technical capacity and skills of staff. For this purpose, following trainings may be included in this programme:

- Knowledge of vectors and transmission of disease for own care
- Develop capacities for effective recognition, clinical management and laboratory diagnosis of dengue
- Community activists and social mobilizers for community action
- Media & Communication personnel for better understanding of dengue prevention and control.

The record of the Director General Health Services, CDA/MCI, and Islamabad from 2018-19 to 2022-23 reveals that:

- there is lack of training of Officials & Teams regarding vector surveillance
- the Local Government was asked for training of staff but no schedule given yet
- the trainings of officers and staff to be conducted on urgent basis by Health Department Master Trainers.

4.2.4 Non Up-dation of Hot Spot Lists

As per Para 4 (a) of Advisory of NIH (Centre for Disease Control) states that identification of hotspots to carry out case response activities will strengthen disease surveillance against Dengue. According to the General Operating Procedures for the Prevention & Control of Dengue, there were defined hotspots, including godowns, areas with water ponding, hospitals, nurseries, factories, swimming pools, under-construction sites, tire storage areas, marriage halls, abandoned buildings, graveyards, hotels, service stations, garbage sites, mosques, workshops, parks, educational institutions, junkyards, dispensaries, and schools.

Audit noted that only the predefined hotspots outlined in the above criteria were considered, and these had not been updated. As a result, the audit concludes that numerous other hotspots were not included in the assessment. This oversight hinders the ability to comprehensively cover the highest level of the community, thereby impeding the maximum achievement of objectives and goals.

4.2.5 Non-Observing Environmental Management

As per Para 3.2.1 of WHO Guidelines for Dengue Diagnosis, Treatment, Prevention and Control 2009, environmental management seeks to change the environment in order to prevent or minimize vector propagation and human contact with the vector-pathogen by destroying, altering, removing or recycling non-essential containers that provide larval habitats. Such actions may be the mainstay of dengue vector control. Three types of environmental management are defined:

1. Environmental modification

Long-lasting physical transformations to reduce vector larval habitats, such as installation of a reliable covered water supply to communities, including household connections.

2. Environmental manipulation

Temporary changes to vector habitats involving the management of “essential” containers, such as frequent emptying and cleaning by scrubbing of water-storage vessels, flower vases and desert room coolers; cleaning of gutters; sheltering stored tyres from rainfall; recycling or proper disposal of discarded containers and tyres; management or removal from the vicinity of homes of plants such as ornamental or wild bromeliads that collect water in the leaf axils.

3. Changes to human habitation or behavior

Actions to reduce human–vector contact, such as installing mosquito screening on windows, doors and other entry points, and using mosquito nets while sleeping during daytime. The choice of approach may be effective, practicable and appropriate to local circumstances. Actual or potentially important container types that cannot be removed from the area may be dealt with in situation.

Audit observed that Environmental Management was not emphasized by the organization. Improvements in, and maintenance of, urban infrastructure and basic services contribute to the reduction in available larval habitats since large populations are often associated with poor water supply and inadequate sanitation and waste disposal services.

4.2.6 Thermal fogging instead of cold fogging - A cause of pollution and diseases

As per para Table 3.3 under Para 3.2.3 of WHO Guidelines for Dengue Diagnosis, Treatment, Prevention and Control 2009, the choice of insecticide formulation for space spraying in and around dwellings should be based on its immediate environmental impact and the compliance of the community. Only insecticide products with high flash points may be used for thermal fogging. Space spraying formulations are usually oil based, as the oil carrier inhibits evaporation of small fog droplets. Diesel fuel has been used as a carrier for thermal fogging agents, but it creates thick smoke, has a strong smell and creates oily deposits which may lead the community to reject its use.

The programme may be environmental friendly and having no adverse effect on environment rather due to Dengue programme interventions, the incidence of morbidity and mortality would be reduced as well as health hazards associated with this disease thus producing healthy nation. Reduction in incidence of Dengue disease would result in healthy clean and aseptic environment.

Audit discovered that in thermal fogging, High-Speed Diesel, among other substances, was utilized as detailed below:

S. No.	Financial Year	Diesel (For Fogging) Litre
1	2018-19	1,108
2	2019-20	5,092
3	2020-21	2,685
4	2021-22	8,303
5	2022-23	10,230
Total		27,418

According to medical experts, the direct inhalation of diesel fumes, combined with insecticides, has the potential to worsen conditions such as asthma or bronchitis, particularly among individuals with pre-existing respiratory ailments. Those most vulnerable to exacerbation include pregnant women, small children, and the elderly. Eye specialists also emphasized that diesel fumes can lead to irritation and itching on the skin and eyes. Prolonged exposure to such fumes could result in temporary swelling of the corneas. Therefore, cold fogging may be adopted to avoid pollution.

4.3.7 Non-conducting of research

As per Para 3.3.7 of WHO Guidelines for Dengue Diagnosis, Treatment, Prevention and Control 2009, operational research may be oriented to the priority needs of the programme in order to generate the evidence base for adaptation of strategies and interventions. This may include studies on ecology of the vector, the efficacy, effectiveness and cost effectiveness of the existing and promising new vector control methods, formative research on relevant cultural practices, and guidance for engaging communities in programme activities.

The following areas were not addressed by the organization:

a) Impact of awareness campaigns, b) Social / financial impact of Dengue, c) Control methodology, d) Environmental impact of insecticidal spraying, e) Knowledge, attitude and practices (KAP) regarding Dengue, f) Insecticide resistance, g) Disease dynamics, h) Vector dynamics, i) Agent dynamics, j) Any other aspect requiring research in Dengue.

Study of research articles revealed that fogging knocks down only the adult mosquito, and not the larvae that are the source of breeding. Larvicide measures, on the other hand, are recognized as an important intervention to prevent large-scale spread of dengue. Targeting adult mosquitoes offers temporary control and that, too, in limited settings and under ideal conditions. For example, in the case of outdoor fogging the mist most often does not attain the required concentration and reach in order to be effective. Pre-conditions like wind speed and direction as well as air temperature influence the concentration. Indoor fogging, on the other hand, is a challenge due to reluctance of residents/owners in allowing fogging into their premise. Besides the limitation of resources, there are practical limitations in covering all houses/premises across the city. The frequency of fogging is another determinant. It is recommended to be repeated after 3-4 days which is far from the reality across the city.

It was noticed that the dengue control programme had been implemented from 2018-19 to 2022-23 by DHS, Islamabad. Although entomologists and laboratory facilities were operational, no evidence of recorded operational researches or conducted activities was found.

4.3.8 Pesticides were purchased without the Lab test Reports

As per para 3.2.5 WHO Guidelines for Dengue Diagnosis, Treatment, Prevention and Control 2009, insecticides resistance must be considered as a potentially serious threat to effective dengue vector control.

WHO's kits for testing the susceptibility of adult and larval mosquitoes remain the standard method for determining susceptibility status of virus.

Pesticides are essential component for vector control to prevent the vector borne diseases like Dengue. Quantities of these chemicals have been calculated keeping in view the requirements of the districts given by the EDO office to the Director General Health Services Islamabad (DGHS). The WHO provided technical assistance in procurement of pesticides and case management.

Audit observed that that different kinds of pesticides about 12,626 liters were purchased during the years 2019-23 but no lab tests were conducted to check the quality of the pesticides for effective control:

S. No	Year	Qty Pesticides(Litre)
1	2019	704
2	2020	2,565
3	2021	1,563
4	2022	4,225
5	2023	3,569
Total		12,626

Conclusion:

Impact assessment of the dengue control programme revealed that there was a mix trend of reported cases during last five calendar years as under:

S. No	Year (Jan. to Dec)	Number of Dengue Cases	%Increase (Decrease) in Cases
1	2019	2,074	-
2	2020	15	(99.28)
3	2021	1,093	7186.67
4	2022	1,766	61.57
5	2023	880	(50.17)

Following are the main deficiencies in implementation of the programme:

- i. Lack of preparedness
- ii. Non-existence of regulations including environmental management in CDA in line with other Government organizations like Health Department Government of Punjab
- iii. Non-updation of hot spot list

Recommendations:

The key issues that have hindered the Directorate's ability to effectively achieve its objectives and need to be addressed for the future improvement of its impact, are as follows:

- i. **Improved Planning**

The DHS dengue control program should focus on developing robust planning strategies that align with their objectives and prioritize the healthcare needs of the population they serve. This will help in better resource allocation and effective service delivery.

ii. Standardized Operational Framework

Implementing a standardized operational framework will ensure consistency and efficiency in the service delivery.

iii. Systematic prevention works best

Instead of fogging, the focus may be on long-term preventive measures and creating awareness among people. The community has a very important role in play in controlling dengue by keeping private premises clean.

iv. Enhance Oversight Mechanism through regular monitoring

Establishing a proper oversight mechanism is crucial to ensure the delivery of quality healthcare services. Regular monitoring and evaluation may be conducted to identify areas of improvement and to ensure the provision of quality healthcare services.

v. Optimal Resource Utilization

The DHS should strive to optimize the utilization of available resources, including the healthcare workforce, medical equipment etc. Addressing the shortage of qualified healthcare workforce and ensuring the availability of essential pesticides supplies.

vi. Enhance Diagnostic Services of Laboratory

To ensure the optimal functionality of the lab and enhance diagnostic services, it is crucial to invest in the procurement of the latest equipment besides the recruitment of qualified personnel capable of performing laboratory functions.

AUDIT YEAR 2023-24**

AUDITOR-GENERAL OF PAKISTAN

DIRECTORATE GENERAL OF COMMERCIAL AUDIT & EVALUATION (NORTH & SOUTH)

Chapter-1

Aviation Division Cabinet Secretariat

Overview

The Aviation Division spearheads strategy, policy and oversight of all matters related to civil aviation. It has the primary focus on matters concerning civil aviation by virtue of its structural and human-resource oriented acumen. A developed civil air transport system is vital to economic development of a country. Important economic centers like trade and tourism rely on functioning of air transport system. This Division's activities hence are geared directly towards aviation and indirectly corroborating existing national economic growth plans. Aviation sector must thrive to some reasonable degree on its own terms. An entrepreneurial spirit and 'can-do' attitude among many other business values is encouraged.

The vision is to promote and regulate civil aviation activities and to develop an infrastructure for safe, secure, efficient, adequate, economical and well-coordinated civil air transport service in Pakistan. Three main drivers of control to pursue this vision are strategy, policy and oversight.

Aims & Objectives

1. To improve governance and oversight for the compliance of ICAO standards of aviation safety, security and efficiency.
2. To provide level-playing field for national airlines and liberalize aviation sector in the country by allowing market forces to determine the price, quality, frequency and range of air services options.
3. To follow suitable Public-Private Partnership (PPP) models for the operations, management and development of airports.
4. To develop a state-of-the-art infrastructure for the provision of safe and efficient air transportation.
5. To incentivize aviation sector for socio-economic growth.
6. To create conditions conducive for affordable general aviation activities, i.e. sports flying and inter-city air travel by private aircraft /air-taxi service/charters, etc.

Governing Laws and Policies

- Aircraft (removal of danger to safety) Ordinance, 1965
- Pakistan Civil Aviation Authority Ordinance, 1982
- Airport Security Force Act, 1975
- Civil Aviation Ordinance, 1960
- Carriage by Air Act, 2012

1.1 Pakistan International Airlines Corporation

1.1.1 Introduction

Pakistan International Airlines Corporation (PIAC) was incorporated on 18 April, 1956 under the Pakistan International Airlines Corporation Act, 1956 (PIAC Act, 1956). With effect from April 19, 2016, the Company has been converted from a statutory company into a public limited company by shares Pakistan International Airlines Company Limited through Act No. XV of 2016. As a result of conversion, its shares are quoted in Pakistan Stock Exchange. The principal activity of the corporation is to provide air transport services. In addition, the corporation is engaged in providing engineering and allied services to other airlines.

1.1.2 Comments on Audited Accounts

1.1.2.1 The working results of the Corporation for the period ended December 31, 2022 compared with December 31, 2021 are reflected hereunder:

(Rs in million)					
	2022	% Inc / (Dec)	2021	% Inc / (Dec)	2020
Revenue - net	172,038.13	99.61	86,185.39	(9.27)	94,989.39
Other operating income	6,275.63	(4.17)	6,548.79	(41.71)	11,235.15
Operating expenses	189,629.87	75.97	107,761.22	0.80	106,904.85
Operating loss	(11,316.11)	(24.69)	(15,027.03)	2108.85	(680.31)
Exchange Loss-Net	(25,229.81)	243.43	(7,346.43)	48.45	(4,948.84)
Loss before interest & tax	(36,545.92)	63.34	(22,373.47)	297.46	(5,629.16)
Financial charges	49,971.13	82.44	27,390.28	(7.85)	29,724.51
Loss before taxation	(86,517.06)	73.86	(49,763.75)	40.76	(35,353.67)
tax expenses	1,491.36	341.57	337.74	(147.51)	(710.86)
Loss after taxation	(88,008.42)	75.66	(50,101)	44.62	(34,642.81)

(Source: Audited Accounts 2021 & 2022)

Operating expenses increased by 75.97% as compared with previous year (2022: Rs 189,629.870 million 2021: Rs 107,761.220 million), registering increase of Rs 81,868.650 million in 2022 due to increase in aircraft fuel cost, maintenance & overhaul, flight equipment rental and landing & handling charges.

1.1.2.2 PIACL fleet was increased by 17.24% as compared with previous year (2022: 34 aircrafts, 2021:29 aircrafts), registering an increase of 5 aircrafts due to induction of A-320 aircrafts.

1.1.2.3 PIACL Human Resource was decreased by 4.53% as compared with previous year (2022: 8,162, 2021: 8,550) due to induction of Voluntary Separation Scheme (VSS).

1.1.2.4 Exchange loss increased by 243.43% as compared with previous year (2022: Rs 25,229.810 million 2021: Rs 7,346.430 million), registering increase of Rs 17,883.380 million in 2022 due to fluctuation in rupee dollar parity on regular basis.

1.1.2.5 Finance cost increased by 82.44 % as compared with previous year (2022: Rs 49,971.130 million 2021: Rs 27,390.280 million), registering increase of Rs 22,580.850 million in 2022 due to non-payment of previous loans (principal and markup) and acquiring of new finance at higher rates.

1.1.2.6 The working capital of corporation stood at negative standing of Rs 331,227.530 million which reflects deficiency of working capital to support business needs.

1.1.2.7 Net loss to asset ratio deteriorated to 56.79% in the year 2022 as compared to 34.23% in the year 2022 due to heavy operating cost along with exchange losses and finance cost.

1.1.2.8 The Corporation's current assets as on December 31, 2022 stood at Rs 49,366.09 million, and its current liabilities Rs 380,593.62 million, which casts doubts regarding the corporation's ability to meet its short-term debt obligations and therefore, continue as a going concern. The financial structure of the corporation was highly leveraged and its current ratio was 0.12% which showed that the corporation's current assets were not enough to cover its current liabilities.

1.1.2.9 Debt to asset ratio was 4.79:1 showing that business operations rely on borrowings which leads to risk of bankruptcy. The long-term debt of the corporation stood at Rs 362,054.670 million and total shareholder's equity of Rs (587,673.88) million as on December 31, 2022 which depicted heavily indebted financial structure.

1.1.2.10 Acid test ratio (Quick ratio) was 0.04:01 which reflected non-availability of sufficient quick assets to meet their current financial obligations.

1.1.2.11 Foreign and local stations did not achieve the revenue target and growth of the tonnage was also recorded at lower side in the year 2021 which resulted in non-realization of revenue amounting to Rs 609.639 million.

1.1.2.12 Actual revenue realized amounting to Rs 591.223 million against export based targets of Rs 1,002.072 million resulted in non-realization of cargo revenue of Rs 410.849 million at Sialkot station.

1.1.2.13 The management incurred an expenditure of Rs 2,045.990 million on closed stations during the year 2022 due to non-authorization by European Union Aviation Safety Agency (EASA) at Europe and UK which requires rationalization in terms of revenue earned.

1.1.2.14 The Board of Directors did not lay annual audited accounts in Annual General Meeting (AGM) on the scheduled date. Furthermore, it also did not approve the quarterly financial statements with the specified time despite obtaining the extension period for thirty (30) days as detailed below:

Year	Dates of lay in AGM	Delay in

	Name of Report	Due Date	Laid on	Extension	days	Expected loss due to penalty (Rs)
2022	Annual Audited Accounts	30.04.2023	17.06.2023	30 days	18 days	Rs 9,000,000 (Rs 500,000*18 days)
					Total	Rs 9,000,000

Year	Financial statement	Due Date	Approved by the Board	Extension	Delay in days	Expected loss due to penalty (Rs)
2022	1 st quarter	30.04.22	26.06.22	30 days	25 days	Rs 12,250,000 (Rs 500,000*25 days)

1.1.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	% age of compliance
1998-99	28	24	4	42, 43, 53, 72	86%
2001-02	31	16	15	74, 75, 77, 78, 79, 81, 83, 84, 85, 87, 90, 91, 93-94, 96	52%
2002-03	31	24	7	37, 38, 39, 40, 40.1, 40.2, 40.4	77%
2003-04	18	13	5	22, 23, 25, 26, 27	72%
2004-05	11	3	8	21, 22, 24, 25, 26, 27, 28	27%
2006-07	32	23	9	18,19, 20, 22, 24,25, 26, 28, 30	72%
2007-08	29	23	6	27,31,32,33,34,35	79%

2016-17	30	8	22	1.1.4.1, 1.1.4.7, 1.1.4.8, 1.1.4.30, 1.1.4.29, 1.1.4.19, 1.1.2.2, 1.1.2.4, 1.1.3, 1.1.4.12, 1.1.4.13, 1.1.4.15, 1.1.4.16, 1.1.4.17, 1.1.4.20, 1.1.4.22, 1.1.4.23, 1.1.4.24, 1.1.4.25, 1.1.4.26, 1.1.4.27, 1.1.4.28	27%
2017-18	49			1.1.4.2, 1.1.4.31, 1.1.4.23, 1.1.4.9	
2018-19	42	1	41	(1.1.4.1, 1.1.4.3, 1.1.4.9, 1.1.4.12, 1.1.4.18, 1.1.4.19, 1.1.4.20, 1.1.4.23, 1.1.4.27, 1.1.4.32 (remaining to be discussed in PAC))	2%
2019-20	18		18	1.1.4.1, 1.1.4.8, 1.1.4.9, 1.1.4.10, 1.1.4.11, 1.1.4.12 (remaining to be discussed in PAC)	0%
Total	411	148	171		36%

The overall compliance of PAC directives was not satisfactory which required attention of the management.

1.1.4 Audit Paras

1.1.4.1 Non-payment of taxes, duties and other obligations – Rs 131,579.930 million

According to Federal Excise Duty Act 2005, federal excise duty and advance tax collected from passengers under was required to be deposited into government treasury within 45 days from the date of deduction.

During audit of Pakistan International Airlines Corporation Limited (PIAC), finance department for the year 2022, it was observed that the management was not honoring its liabilities timely in respect of taxes and duties payable to the government organizations. The non-payment raised the obligations substantially and also affected its current liquidity position. The details of outstanding liabilities as on December 31, 2022 are as under:

(Rs in million)		
S#	Particulars	2022
1.	Collection on behalf of others	64,891.21
2.	FED-International Travel	11,344.25
3.	Income tax deductible at source	2,088.27
4.	Custom, federal Excise duty and sale tax	2,354.44
5.	Civil Aviation Authority	50,684.77
6.	PIA Investment Ltd	216.99

Total	131,579.93
--------------	-------------------

Audit is of the view that due to poor fund management and weak internal controls, the management failed to honor the liabilities on time, which was damaging to the financial, operational, and reputational standing of the Corporation.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. The management informed that the outstanding balances owed to both Pakistan Civil Aviation Authority (PCAA) and the Federal Board of Revenue (FBR). The Privatization Commission is currently considering these amounts as part of PIACL's ongoing financial restructuring and PIA will follow the decision of GoP on the outstanding liabilities. DAC directed to get resolved the matter at Ministry level and details of outstanding taxes and duties get verified by Audit.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Reports for Audit Year(s) 2022-23 vide para(s) number 1.1.4.22 having financial impact of Rs. 573.586 million and for Audit Year 2021-22 vide para(s) number 1.1.4.1 having financial impact of Rs 39,771.480 million. Recurrence of same irregularity is a matter of serious concern.

(DP No. 624 & 626)

1.1.4.2 Loss due to prolonged grounding of aircrafts – Rs 21,815.290 million

Clause 2.10.3.1 of Engineering and Maintenance Manual of PIAC states that PIA Engineering and Maintenance shall respect minimum maintenance requirements and ensure that all maintenance is carried out in conformance with the manufacturer's documentation / instructions.

During audit of Pakistan International Airlines Corporation Limited (PIAC), finance department for the year 2022, it was observed that PIAC aircrafts took an extended time in routine maintenance ranging from 44 to 239 days which resulted in substantial loss, as summarized below (Annex-5).

(Rs in million)					
Reg. No.	Delay x per day revnue loss	Grounding Loss	Lease exp	Total	Status
BMG	239 x 19.99	4,777.61	-	4,777.61	Owned
BGK	199 x 19.99	3,978.01	-	3,978.01	Owned
BMG	71 x 19.99	1,419.29	-	1,419.29	Owned
BHV	46 x 19.99	919.54	-	919.54	Owned
BGK	44 x 19.99	879.56	-	879.56	Owned
BLC	652 x 12.21	7,960.92	702.37	8,663.29	Leased
BMX	37 x 12.21	451.77	113.99	565.76	Leased
BLB	43 x 12.21	525.03	87.2	612.23	Leased

Total	20,911.73	903.56	21,815.29	
--------------	------------------	---------------	------------------	--

Audit is of the view that due to negligence of the management, extended delay occurred which resulted in operational and financial losses amounting to Rs 21,815.29 million which was unjustified.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. The management informed that the delays in these aircraft roll-outs were caused by a combination of unforeseen structural repairs, financial constraints, and payment issues affecting the ability to conduct timely maintenance and repairs. DAC directed to provide documentary evidence in support of financial constraint for repair abroad expenditures along with other relevant issues of prolong grounding of aircraft.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year(s) 2022-23 vide para(s) number 1.1.4.1 having financial impact of Rs. 38,404.440 million. Recurrence of same irregularity is a matter of serious concern.

(DP No. 619 & 620)

1.1.4.3 Non-recovery of various outstanding dues – Rs 10,260.084 million

Clause 2.02 of Credit Policy of Pakistan International Airlines Corporation (PIAC) states that, credit period may be up to 30 days (Government of Pakistan 60 days), financing cost @ 1.25% per month is to be added to all overdue credit for such period(s) (except Government of Pakistan) and all further credit on overdue accounts should be stopped until all past dues are cleared.

During audit of Pakistan International Airlines Corporation Limited (PIAC), Finance Department for the year 2022, it was observed that an amount of Rs 10,260.084 million (Annex-6) was outstanding against various parties as detailed below:

(Rs in million)			
S#	Account Head	Amount	Remarks
01	PAX Sale	6,774.720	Outstanding dues includes pending since last three (03) years or more.
02	Cargo Sale	698.140	
03	PEC	836.660	
04	Government	550.490	
05	PM General Receivable	55.240	
06	BSA-Cargo	734.270	
07	Others	132.800	
08	Speedex	157.990	Outstanding since 2020
09	M/o Religious Affairs	166.680	Outstanding since 2010-2022
10	M/s Oasis Travels	3.260	Penalty recoverable since 2020
11.	Air China	149.834	Non-billing of ground handling charges.
Total		10,260.084	
<i>(Source: General Ledger of PIAC)</i>			

Audit is of the view that the management was unable to recover a huge amount of Rs 10,260.084 million from various parties from various parties, which showed negligence and weak recovery mechanism.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024.

- a. The management informed that Pax outstanding amount is a result of the sale proceeds which are realized at the end of a sales period. Since, none of the agents have declared default in the last year; therefore, it will not be wrong to presume that the subject outstanding amount has been recovered.
- b. The management informed that the Cross Functional Team (CFT) has recommended that the matter be referred to HR for a formal investigation against the balance sum pending

recovery/reconciliation mentioned in the para and determined by the team as Rs 84.85 million or 46.02 % of the total outstanding amount i.e.Rs 184.448 million.

- c. The management informed that the subject outstanding amount is a result of disputed figures between MORA and PIA. These figures have been contested and a recent reminder for payment has also been sent to them. Further, it has been escalated to the ministry level for settlement.
- d. The management informed that in this regard the enclosed management approval was routed through all stakeholders and the same was approved in line with the Corporation Policy governed under Schedule of Powers. However, the case is still in litigation for pending claim whereby PIA had requested the previous amount.
- e. DAC directed the management to pursue the recovery.
- f. The management informed that as a result of closure of GSA agreement with the agent concerned, reconciliation was carried out by Finance and advised to station. The advised amounts were settled from the Commercial end.
- g. DAC directed the management to get verify the record with Audit.

Audit recommends implementation of the DAC directives.

(DP No.500, 501, 502, 503, 606, 607, 609, 618, 798 & 800)

1.1.4.4 Non-depositing of provident fund & markup – Rs 9,867.370 million

Section 218 of the Companies Act, 2017 states that all moneys or securities deposited with a company by its employees in pursuance of their contracts of service with the company shall be kept or deposited by the company within fifteen days from the date of deposit in a special account to be opened by the company.

During audit of Pakistan International Airlines Corporation Limited (PIAC), finance department for the year 2022, it was observed that the management failed to fulfill their contractual obligation by non-depositing the employee’s provident fund in a separate bank account on monthly basis. The said amount was not deposited within the stipulated time of fifteen (15) days to the provident fund account as required under the law. The details of deposit and interest are as under:

(Rs in million)	
Particulars	December 31,2022
Provident Fund	1,213.530
Accrued Mark up	8,653.840
Total	9,867.370

Audit is of the view that the management failed to formulate a strategy to pay off their provident fund liabilities and to protect the interests of their employees. This shows inefficiency, weak policymaking and poor financial management.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. The management informed that Audit has rightly pointed out that obligation on account of PF and Mark-up were not being paid regularly during past w.e.f year 2020, not only the obligations for the period were paid within stipulated time period but also the excess payments in lieu of past obligations were made to lessen the burden on corporation. DAC directed to share details of deposit made against the principal and interest in relation to provident fund and clear outstanding liabilities.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report for Audit Year(s) 2022-23 vide para(s) number 1.1.4.8 having financial impact of Rs. 11,342.290 million and for Audit Year 2021-22 vide para(s) number 1.1.4.4 having financial impact of Rs.15,772.249 million. Recurrence of same irregularity is a matter of serious concern.

1.1.4.5 Non-disposal of spare parts of retired aircrafts – Rs 8,566.720 million

Board Audit Committee (BAC) in its 70th meeting held on September 22, 2014 regarding the sale / obsolete inventory in the active stock rooms directed that the Board Audit Committee desired that management should take appropriate measures for disposal of surplus inventory.

According to principles of procurement enunciated in the PIAC's Procurement Manual, one of the five basic concerns that govern PIAC's procurement policies is to ensure that the funds are used to buy only those Products/Goods, Services, Works, Plant & Equipment and Information Systems which are needed to operate and maintain PIAC.

During audit of Pakistan International Airlines Corporation Limited (PIACL) supply chain management (SCM) for the year 2022, it was observed that the management had an inventory of spare parts of retired aircrafts valuing Rs 8,566.000 million since 2015 to 2021 which had not been disposed off in violation of BAC directives. The details are as under:

(Rs in million)			
S#	Aircraft	Retirement year	Amount
1.	B-747-300	2015	1,239
2.	C 707	-	199
3.	J747-200	2003	1,798
4.	CESSNA	-	8
5.	SA-310	2015	3,873
6.	WB-737	2013	1,449
Total			8,566.72

Audit is of the view that the management failed to dispose off spare parts of the retired aircraft valuing Rs 8,566.720 million showed negligence and inefficiency.

The matter was reported to the management on September 26, 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management informed that out of total inventory management disposed off inventory of Rs 3.85 billion. DAC directed the management to prepare a comprehensive plan to dispose off inventory and conduct a fact finding inquiry within 45 days ascertain the reasons behind inventory and availability of stock.

Audit recommends implementation of the DAC directives.

1.1.4.6 Non-adjustment of huge advances against suppliers – Rs 8,413.030 million

PIAC's Schedule of Powers state that, in order to cover anticipated financial losses, advances made against purchases, whenever allowed, must be backed by either a bank guarantee or suppliers' bank, letter of intent/undertaking to make good all financial losses in case of default.

During audit of Pakistan International Airlines Corporation Limited (PIAC), finance department for the year 2022, it was observed that the management did not recover / adjust advances provided to local and foreign suppliers as on December 31, 2022 as detailed below:

(Rs in million)		
S#	Description	Amount
1	Advances	
i.	Leased Rentals	4,431.37
ii.	Supplier	871.69
iii.	Others	189.77
	Total	5,492.83
2	Total Trade Deposits	2,920.20
	Grand Total	8,413.03

Audit is of the view that non-adjustment / recovery of advances and trade deposits for a longer time reflects weak internal controls and poor financial management.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. Management informed that adjustment and settlement of advance payment to suppliers for the purchase of various goods and services by the company is an ongoing process. The Lease and fuel suppliers which usually have a contract of minimum of 02 years therefore under the continuing agreement terms the ongoing settlement/issuance of advance is being followed as a normal course of action. DAC directed get the adjustments made and outstanding verified from audit.

Audit recommends prompt action for adjustments / recovery of the outstanding amount.

1.1.4.7 Un-reconciled balances with customers and banks – Rs 6,335.920 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan International Airlines Corporation Limited (PIACL), finance department for the year 2022, it was observed that an amount of Rs 6,335.920 million (Annex-7) was not timely reconciled by the management specially the issue of PSO receivables were major concern for PIA management as PSO time and again stopped the supply of fuel to PIA and the dispute between PSO & PIA was raised to the ECC, as detailed below:

(Rs in million)		
S#	Description	Un-reconciled Balances
1.	TGS-related Receivables	2.610
2.	PSO Receivables	6,258.990
3.	Bank Balances	94.320
Total		6,355.920

Audit is of the view that the management failed to perform due reconciliation along with full recovery of outstanding dues from relevant parties. This reflected poor credit control, which may potentially lead to credit losses.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024.

- a. The management informed the DAC that three invoices amounting to USD 18,000 pertaining to M/s Evelope Airline were outstanding since 2018/19 and further informed that adjustment equivalent to PKR Rs 2.61 million has been made in the books of PIA accounts. DAC directed to get the facts reconciled and share with audit.
- b. The management informed the DAC that the non-reconciliation of Rs 6,258.99 million is the difference due to the reason that PSO started adjustment of Late Payment Interest (LPI) out of Principal Payments made by PIA. PIA is making current payments to PSO. The ECC also directed to resolve the issue but no result has been achieved. DAC directed to get the reconciliation made with PSO at the earliest and share detail with Audit.
- c. The management informed the DAC that six bank accounts have been reconciled having material differences. DAC directed to share with audit, reconciliation report along with bank statement of reported bank balances.

Audit recommends implementation of the DAC directives.

(DP No. 610, 625 & 635)

1.1.4.8 Loss due to non-completion of aircrafts re-delivery – Rs 6,208.447 million

Clause 19.4 of lease between PIAC and M/s Asia Aviation Capital Limited states that (a) if lessor determines that Lessee has not fully complied with any of its obligations under this Agreement, Lessee will, at Lessor's option either:(i) immediately rectify such non-compliance and all Lessee's obligations under this Agreement will remain in force until such non-compliance has been rectified and in particular (without limitation) Lessee shall (A)continue to pay Basic Rent to Lessor (A) within 14 days of the Expiration Date, at 100%, (B) after 14 days of the Expiration Date but within 28 days of the Expiration Date, at 150% and (C) after 28 days of the Expiration Date, at 200%, of the daily equivalent of the Basic Rent then payable until the date such non-compliance shall have been rectified and Redelivery of the Aircraft shall have taken place and (B)not operate the Aircraft in flight operations unless such operations are consented to by Lessor and directly related to the Redelivery.

During audit of Pakistan International Airlines Corporation Limited (PIAC), finance department for the year 2022, it was observed that PIAC inducted two A-320 aircraft, AP-BLY and AP-BLZ, from Asia Aviation Capital Limited on dry lease in 2015. In September / October 2021, on completion of the lease period, both aircrafts were positioned at an EASA/FAA-approved maintenance facility in Jakarta. As per the lease agreement, the work scope of redelivery was maintenance and inspection of the aircrafts. However, redelivery of both aircrafts was still awaited due to non-maintenance and inspection on the part of management. It was also observed that the management incurred an amount of Rs 16.458 million on account of OCS to 21 aircraft engineers for the inspection of aircrafts. Non-completion of the redelivery arrangement on time resulted in heavy expenditure on account of rent and maintenance reserves as detailed below:

S#	Particulars	Period	USD	Rate	Rs in million
1	Maintenance Reserve Payments	Dec-2021 to June 2023	841,938	288	242.41
2	Maintenance Reserve Provision (Liabilities to Lessor)	Feb-2023 to July 2023	9,640,000	288	2,775.55
3	Double Rent	-	11,024,000	288	3,174.03
Total			21,505,938	288	6,191.99

Audit is of the view that the non-delivery of aircrafts and subsequent visits of the engineers were unjustified causing huge loss of the resources and denting the image of airline which reflected weak internal controls and poor financial management.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. The management informed the DAC that one aircraft has been delivered to PIACL and efforts were being made for delivery of another aircraft. DAC directed the management to verify the record from Audit.

Audit recommends implementation of the DAC directives.

1.1.4.9 Non-implementation of BoD directives against properties – Rs 2,613.379 million

Rule 4 (3) of the Public Sector Companies (Corporate Governance) Rules, 2013, the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Pakistan International Airlines Corporation Limited (PIAC), works department for the year 2022, it was observed that PIACL Board in its meeting dated April, 2021 decided that the matter of two disputed properties (i) PIA Football Ground, Karachi & (ii) Sambara Inn Hotel, Larkana were to be taken up with federal government through Aviation Division and Finance Division. BoD further directed that PIA should seek compensation equivalent to the present market value of both properties from the share of Sindh government's divisible pool of revenues awarded through National Finance Commission. However, the management failed to take any action as per BoD directives. The market value of the properties is as under:

S#	Name of Property	Area (Square Yard)	Market Value (Rs)
1	Football Ground Plot No.ST-4, KDA Scheme No.1	38,340	1,462,500,000
2	Sambara Inn Hotel Larkana	23,367	1,150,879,200
Total		61,707	2,613,379,200

Audit is of the view that the management was unable to secure the possession of the properties nor received any compensation which reflected gross violation of BoD's directives.

The matter was reported to the management in November, 2023. The irregularity was discussed in DAC meeting held on January 03 & 04, 2024. The management informed that both properties i.e., Football ground at Karachi & Sambara Inn at Larkana were disputed. Further, the case was presented in 56th BoD dated 29.4.2021 to take up the matter with Govt. of Pakistan through Aviation Division & Finance Division since, the matter is still under process. DAC directed the management to share the latest status of the disputed cases along with court orders etc. with Audit.

Audit recommends implementation of the DAC directives.

1.1.4.10 Non-transfer of shares to government in violation of Supreme Court of Pakistan – Rs 2,318.554 million

Honorable Supreme Court of Pakistan's judgment dated October 22, 2020 on Benazir Employees Stock Option Scheme (BESOS) states that that the Federal Cabinet was not competent to take decision dated 05-08-2009 approving the Scheme and the same is declared to be in violation of Article 154 of the Constitution thus, the total Shares 231,855,493 held in the name of PIA Employees Empowerment Trust

(PEET) may be transferred back to the Government of Pakistan (GoP) and the Trust may be closed. Furthermore, Para-16 the judgment of Supreme Court also states that irrespective of the objective of the Scheme, we are of the considered view that the matter of transfer of 12% shares of Government of Pakistan in dozens of SOEs and Government of Pakistan Shareholdings without any policy input by CCI, definitely fell outside the ambit of the authority.

During audit of Pakistan International Airlines Corporation Limited (PIACL), corporate secretariat for the year 2022, it was observed that Government of Pakistan (GoP) launched the Benazir Employee Stock Option Scheme (BESOS) for employees capable of permanent and contractual employees who were in employment of this entity on its launch date, completion of five years' vesting period on August 14, 2009. Under the scheme, PIAC Employees Empowerment Trust (PEET) was formed and 12% of the shares held by the Ministry of Defence were transferred to the trust and 231,855,493 shares @ Rs 10.00 amounting to Rs 2,318.554 million were allotted to 16786 employees of PIACL. However, as per judgment of the Supreme Court of Pakistan, the management failed to transfer BESOS shares to GoP.

Audit is of the view that non-transfer of BESOS shares to GoP reflects violation of Supreme Court of Pakistan's directives.

The matter was reported to the management on September 13, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. The management informed the DAC that a total of 231,855,493 shares previously held in the name of PEET were transferred back to the Government of Pakistan, in the name of Secretary Aviation Division w.e.f. October 13, 2023. DAC directed that management to share the detail with Audit alongwith accounting adjustment.

Audit recommends implementation of the DAC directives.

1.1.4.11 Revenue loss due to flights flown with zero load factors – Rs 1,680.744 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan International Airlines Company Limited (PIACL), cargo division for the years 2020-2022, it was observed from the outbound cargo load factor and revenue data for the months of January, June, July, August and December, 2022 that the flights had flown with zero and below 50% load factors as against the pay load available resulting in a revenue loss of Rs 1,680.744 million (Annex-8).

Audit is of the view that the management failed to sale the available load factor due to poor planning and marketing which reflected weak financial management and inefficiency on the part of management.

The matter was reported to the management in November, 2023. The irregularity was discussed in DAC meeting held on January 03 & 04, 2024. The management informed that PIA was a passenger focused airline in which flights were mounted based on passenger traffic market. DAC directed the management to

take necessary measures for improvement of the load factor and avoid zero load factors on outbound flights and share results with audit.

Audit recommends implementation of the DAC directives.

1.1.4.12 Irregular payment without validation of user department – Rs 1,669.860 million

Section 3.2.2 of Station Disbursement Manual, 2001 states that each invoice / bill / cash memo/cash receipt / statement / claim must be certified by the concerned officer and approved by Station Head.

During audit of Pakistan International Airlines Corporation Limited (PIAC), finance department for the year 2022, it was observed that the services of M/s HITIT are used by multiple departments and divisions. However, the finance department released payments against the services rendered amounting to Rs 1,669.863 million (US\$ 7,364,336 @ Rs 226.750) to M/s HITIT without getting due validation from the concerned user department.

Audit is of the view that payment against invoices without confirming the validity of services received and claimed charges was held irregular and unjustified.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. Management informed that on war footing, a committee has been formulated by CEO, PIA to determine facts, constraints and recommended a way-forward. This Fact-Finding Committee has been given 30 days to thoroughly review the process and submit their finding/way-forward. DAC directed to share report of fact-finding investigation on disbursement of payment to M/s HITIT with Audit.

Audit recommends implementation of the DAC directives.

1.1.4.13 Loss due to default by sales agents – Rs 1,356.459 million

Article 27 of Passenger Sales Agency Agreement (PSAA) states that Agents will be liable for any outstanding amounts in default and immediately upon notification of default, ticketing authority will be de-linked and held guarantee(s) will be encashed to cover the amounts in default.

Article 09 of Passenger Sales Agency Agreement (PSAA) states that the Agents shall be under obligation to submit sales reports and remittances on fortnightly basis in the following manner: - (1) Sales from 1st to 15th day of the month will be settled on 30th of the same month; Sales from 16th to the last day of the month will be settled on 15th of the following month.

During audit of Pakistan International Airlines Corporation Limited (PIAC), finance department for the year 2022, it was observed that various agents defaulted for not depositing the sales amount, which was required to be deposited fortnightly with PIAC. In default cases, the agents were allowed to sell the tickets beyond their prescribed limits or caps, due to which they defaulted. The details of defaults from 2014–2022 are given under:

(Rs in million)		
S#	Default Period	Amount
1.	Year 2014	278.553
2.	Year 2015	144.073
3.	Year 2016	20.618
4.	Year 2017-2022	913.215
Total		1,356.459

Audit is of the view that the management failed to recover the amount against defaulting agents despite the lapse of considerable time, which shows weak internal controls and poor financial management.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. Management informed that the amount will be reconciled with Audit. DAC directed to get the defaulted figures reconciled with Audit along with recovery made since 2014.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year 2022-23 vide para(s) number 1.1.4.48 having financial impact of Rs.25.014 million. Recurrence of same irregularity is a matter of serious concern.

1.1.4.14 Non-recovery from lessor and irregular award of contract without tendering – Rs 1,279.560 million

Article 17.4 of charter agreement signed between PIAC and M/s Hi-Fly on 14th April 2021 states that in case of a delay of more than 4 hours which is solely attributable to the carrier, the carrier shall bear related passenger compensations and/or welfare costs assumed by the charterer as a result of the delay (if any) up to a limit of 50% of the price of the affected flight.

Rule 12(1) of PPRA Rules, 2004 states that procurement over one hundred thousand rupees and up to the limit of two million rupees shall be advertised on the Authority's website in the manner and format specified by regulation by the Authority from time to time. These procurement opportunities may also be advertised in print media, if deemed necessary by the procuring agency.

During audit of Pakistan International Airlines Corporation Limited (PIACL), corporate planning for the year 2022, it was observed that the management entered into Air Charter Agreement (Wet Lease) with M/s Hi-Fly (Lessor) to perform charter flights at cost of USD 170,000 per rotation for a period of six months on 14th April 2021. Subsequently, M/s Hi-Fly Ltd operated 52 flights / rotations till September 17,

2021 and suspended its flights on 31st October, 2021 before time in violation of terms and conditions of the contract. As per charter agreement, in case of early termination of the agreement by lessor, M/s Hi-Fly was obliged to pay Rs 125.160 million (US\$ 240,000 & GBP 133,024) to PIACL which was not recovered till date.

Subsequently, in order to continue operations, management awarded contract for charter operation to M/s Jordan Aviation amounting to Rs 1,154.400 million (USD 7.215 million) without advertisement and obtaining competitive bidding. The management awarded the contract during the period from 22.09.2021 to 01.12.2021 (02 months 09 days) on number of rotation basis and paid USD 185,000 per rotation for 39 rotations.

Audit is of the view that non-recovery due to breach of contract by M/s Hi-Fly and award of direct contract to M/s Jordan Aviation in violation of PPRA Rules, reflected poor planning and weak financial management.

The matter was reported to the management in September, 2023. The irregularity was discussed in DAC meeting held on January 03 & 04, 2024.

- a. The management apprised that litigation in foreign courts would cost GBP 150,000 with minimum chances of success. DAC directed the management to expedite the recovery case through PIAC Legal Team besides exploring other possible options to recover the amount.
- b. The management apprised that after discussion with PPRA officials on the issue, PIA declared emergency through their forum and the tender was made after necessary approvals. DAC directed the management to provide the copies of approvals of tenders along with approvals of formation of Fora by the concerned Authority i.e. Principle Accounting Officer (PAO) to audit for the further scrutiny.

Audit recommends implementation of the DAC directives.

1.1.4.15 Non-receipt & in-ordinate delay in aircraft engines, auxiliary power units & aircraft parts – Rs 1,205.986 million

According to Repair Agreement, Appendix C (Warranty and Turn Around Time), Warranty GTCP 131-9A:

Work Scope	Turn Around Time (TAT)
Medium / Heavy Repair	30 Calendar Days
Minor Repair	20 Calendar Days

According to Article 6.1 (Turn Around Time) of Repair Agreement between Air France Industries (AFI) and PIAC, the service provider shall carry out and complete the engine shop visit required by each work order within a shop Turn Around Time (TAT) of eighty-five (85) days (in bare configuration + 5 days with QEC).

According to Chapter 3(1) of Purchase Manual of PIAC, Technical Acquisition is of two distinct categories viz. aircraft components and spares, and vehicles / machinery and other ground support equipment and their spares. The purchase order system for both is mechanized and is in accordance with the broad structure of ATA – 200 specifications.

Further, Chapter 7 states that most of items to be procured indigenously are for non-standard type of stores. Every requirement is, therefore, examined very closely before it is processed for procurement. C-Delivery Schedule Delivery requirements are specified. Delivery should not be much earlier than the actual requirements and sufficient time should be allowed in. keeping with the lead time required for procurement and production of items by the manufacturers. The delivery schedules should be such which can reason.

During audit of Pakistan International Airlines Corporation Limited (PIAC), finance department for the year 2022, it was observed that the management sent seven (07) aircraft engines and 03 Auxiliary Power Units (APU's) for repair abroad during the years 2019-2022, but their return was still awaited despite the lapse of more than three years. The summarized detail is as follows (Annex-9).

(Rs in million)				
S#	Description	No. of units	Sending period	Cost
1	Aircraft Engines	05	2019–2022	25.736
2	Aircraft Auxiliary Power units	03	2022	680.250
	Total			705.986

Furthermore, it was also observed that there was in-ordinate delay in receiving of the aircraft spare parts despite full advance payments to the foreign vendors. The details of total number of purchase order issued in 2017 to 2021 and delivered in 2022 are tabulated below:

S #	Total Number of purchase orders issued	Year of Purchase orders	Delivery period	Actual delivered	Late delivery periods
1.	11	2017	01 month	2022	05 years
2.	30	2018	01 month	2022	04 years
3.	190	2019	01 month	2022	03 years
4.	804	2020	01 month	2022	02 year
5.	3,806	2021	01 month	2022	01 year

Audit is of the view that non-receipt of aircraft engines and in-ordinate delay in receiving of the spare parts on time despite making 100% advance payments to the foreign vendors the delivery was received after many years was failure on the part of management which reflected poor internal controls.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024.

- a. The management informed that PIA was unable to release payments to Engine Service Providers and for APU's due to scarcity of funds. DAC directed to provide documentary evidence in support of financial constraint for repair abroad expenditures along with other relevant issues of non-receipt of engine and Auxiliary power unit.
- b. The management informed that orders were placed in different years but the supplier supplied parts within due dates and after receiving payments. DAC directed the management to provide relevant record to Audit for verification.

Audit recommends implementation of the DAC directives.

1.1.4.16 Irregular award and extensions of cafeteria services – Rs 821.149 million

Rule 12 (2) of PPRA Rules, 2004 states that all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority's website as well as in other print media or

newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

During audit of Pakistan International Airlines Corporation (PIAC) Supply Chain Management (SCM) for the year 2022, it was observed that the management awarded contract of cafeterias to M/s. Mujahid Brothers for PIA employees at Karachi at a total cost of Rs 78.670 million extendable for 01 year in 2021 by disqualifying 02 bidders on the basis of technical grounds i.e. lack of relevant experience and non-registration with EOBI and SECP. However, the rejected bidders had provided the required documents.

It was further observed that initially management had awarded the contract to M/s. Mujahid Brothers in 2013-14 which was being continuously extended on one or other reason and paid total amount of Rs 821.149 million for the years 2013 to 2020 in violation of rules.

Audit is of the view that the management extended undue favor to M/s. Mujahid Brothers by disqualifying other contractors on technical grounds and irregularly awarding contract for long period in violation of rules which was unjustified.

The matter was reported to the management on August 16, 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. DAC directed the management to conduct fact finding inquiry within 20 days and share with audit.

Audit recommends implementation of the DAC directives.

1.1.4.17 Irregular procurement on direct contract basis - Rs 772.123 million

Rule 12 (2) of PPRA Rules, 2004 states that all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

During audit of Pakistan International Airlines Corporation Limited (PIACL) supply chain management (SCM) for the year 2022, it was observed that the management in violation of the PPRA rule directly contacted a supplier namely M/s. Eastman Chemical Europe S.A.R.L. (Branch), Dubai for procurement of BP Turbo Oil No.2,380 at total quantity of 15,480 US Gallon at a unit price of US\$42.9 per gallon. Furthermore, M/S BP Middle East Dubai-UAE and M/S Solutia Chemicals India Pvt. Limited, two separate corporate companies which later merged/consolidated into Eastman Chemical Company, an American Company and during 2013, M/s BP Middle East Dubai-UAE was awarded the contract declaring Turbo Oil 2380 purchased from this company as a Propriety Item. However, in 2015, Solutia Inc. was awarded the contract of Turbo Oil 2380, and keeping in line with the previous trend, PIAC declared it as a propriety item.

Furthermore, it was also observed that the management awarded various contracts pertaining to TGS and Brand Department valuing Rs 40.036 million and Rs 52.551 million respectively without tender in violation of PPRA Rules.

Audit is of the view that award of contracts amounting to Rs 772.123 million without competitive process is a gross violation of rules.

The matter was reported to the management on September 26, 202. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024.

- a. The management informed the DAC that the Turbo-2380 oil was procured as Propriety item base and from authorized distributor. DAC directed the management that declaration of propriety item by committee along with certificate of authorized distributor provided to audit for verification.
- b. The management informed that all the contracts of TGS & Brand were awarded through prequalification basis. DAC directed the management to share the pre-qualification process with Audit for verification.

Audit recommends implementation of the DAC directives.

(DP No. 528 & 534)

1.1.4.180 Loss due to charging late payment interest by lessors - Rs 510.658 million (USD 2.042 million)

Article 5.7 of Aircraft Lease Agreement signed between PIAC (LESSEE) and LESSORS states that if LESSEE fails to pay any amount payable under the operative documents when due, LESSEE will pay to LESSOR, as supplemental rent (by way of liquidated damages as compensation for loss and increased risk and not as a penalty), interest calculated at the default interest rate on that amount, until and including the date of payment in full by LESSEE to LESSOR based upon actual days elapsed in an assumed year of 360 days and twelve months of 30 days each. Default interest will accrue at the default interest rate (as set forth on Schedule I) on a day-to-day basis and will be compounded monthly at the end of each calendar month. Default interest will accrue (a) in respect of amounts payable by way of indemnity in respect of expenses, taxes or other amounts arise, (b) in respect of damages arising due to the occurrence of an event of default from the date on which the loss to which such damages arise, and (c) in respect of all other amounts, from the applicable due date.

During audit of Pakistan International Airlines Corporation Limited (PIACL), corporate planning for the year 2022, it was observed that the management did not pay an outstanding amount of USD 7.76 million to lessors on time on account of lease rental charges of aircrafts. Resultantly, lessors charged late payment interest of USD 2.042 million. The detail of the same is as under;

(Amount in million)						
S#	Lessor	Aircraft Type	Outstanding Amount (USD)	Amount (PKR)	Late payment Interest (USD)	Amount (PKR)
1	Shikra	B777-200ER	4.90	1,225	2.006	501.636
2	ALAFCO	A320	2.86	715	0.036	9.022
Total			7.76	1,940	2.042	510.658

Audit is of the view that non-payment of outstanding amount on time by the management resulted in charging late payment interest by lessors of Rs 510.658 million which shows poor financial management.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management apprised the DAC that due to cash flow shortage and current financial position of the PIAC, delays in payments of rentals were incurred. DAC directed the management to expedite the payments of outstanding rental amount of lessors to avoid further imposition of interest payments.

Audit recommends implementation of the DAC directives.

1.1.4.19 Irregular award of contract to a technically disqualified bidder -

Rs 452.373 million

Rule 38 B (1) & (2) of PPRA, 2004 states that the procuring agency shall consider single bid in goods, works and services if it- (a) meets the evaluation criteria, ensures compliance of specifications and other terms & conditions expressed in advertisement or bid solicitation documents;(b) is not in conflict with any provision of the Ordinance; (c) conforms to the technical specifications;(d) has financial conformance in terms of rate reasonability: The procuring agency shall make a decision with due diligence and in compliance with general principles of procurement like economy, efficiency and value for money.

During audit of Pakistan International Airlines Corporation (PIAC) supply chain management (SCM) for the year 2022, it was observed that the management awarded contract for outsourcing of PIA Call Centre to M/s Pak Telecom Mobile Ltd at a total cost of Rs 452.373 million for three years w.e.f. 01.01.2021 to 31.12.2023 without financial conformance in terms of rate reasonability and without experience of providing services to aviation industry in violation of PPRA Rules.

Moreover, management issued letter of intent (LoI) to above bidder on 03.03.2021 stating that contractual period was three years commencing from 01.01.2021 to 31.12.2023. Accordingly, contract agreement was executed with retrospective effect i.e. 01.01.2021 after lapse of 03 months from the date of LoI.

Audit is of the view that awarding of contract to single bidder without confirmation of marketable rate and without having requisite experience was held irregular and unjustified.

The matter was reported to the management in October, 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management informed the DAC that contract was awarded to M/s. Pak Telecom Mobile Ltd as per PPRA rule 38(b) and in due process. DAC directed the management to provide the record of tender process along with LoI issued to Audit for verification.

Audit recommends implementation of the DAC directives.

1.1.4.20 Irregular purchase of property without obtaining NOC - Rs 391.431 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Pakistan International Airlines Corporation Limited (PIACL), corporate secretariat for the year 2022, it was observed that the management purchased property at Delhi (India) in the year 2005 at a cost of Indian Rupees (INR) 38,944,990 for Booking office. Later on, Reserve Bank of India filed a law suit in the year 2015 by taking a plea that the property was purchased without obtaining NOC from the Government of India. The matter has not yet resolved and the management closed its operations at the station in the year 2019. The current market price of the property was Rs 391.431 million (equivalent to INR 105,664,000).

Audit is of the view that the management failed to obtain NOC from the Government of India which reflects gross negligence.

The matter was reported to management on September 13, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. The management informed the DAC that no NoC was required at the time of purchase of property. The DAC directed the management to share the record with Audit pertaining to legal status/ lawyer's petition with the reason(s) that no NOC was required.

Audit recommends implementation of the DAC directives.

1.1.4.21 Irregular procurement of medicines - Rs 268.853 million

Rule 4 of PPRA Rules, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule 10 (1) of PPRA Rules, 2004 states that the procuring agency shall allow the widest possible competition by defining such specifications that shall not favour any single contractor or supplier nor put others at a disadvantage.

During audit of Pakistan International Airlines Corporation Limited (PIACL) supply chain management (SCM) for the year 2022, it was observed that the management procured medicines through brand names instead of formula based from all 33 participating bidders. Furthermore, un-registered wholesalers / distributors having less experience were also awarded the major contracts for supply of medicines (Annex-10).

Audit is of the view that the management extended undue favor to all suppliers which shows negligence and slackness. Thus, award of contracts amounting to Rs 268.853 stands irregular and unjustified.

The matter was reported to the management on September 26, 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management informed that the procurement was made as per PPRA rules and process of awarding contract was made through technical plus financial offers. DAC directed the management to provide the relevant documents along with justification and process for contract awarded as per PPRA to Audit for verification.

Audit recommends implementation of the DAC directives.

1.1.4.22 Unjustified write-off of receivables - Rs 260.670 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan International Airlines Corporation Limited (PIAC), finance department for the year 2022, it was observed that the management written off receivables amounting to Rs 260.670 million without providing any justification that on what account, these receivables were written off as no party-wise break up along with approval of the Board was provided to Audit. The detail is as under:

(Rs in million)			
S#	Description	Year	Amount
01	Write off	2021	252.080
02	Write off	2022	8.590
Total			260.670

Audit is of the view that written off against receivables in absence of relevant record and approval is held irregular and unjustified.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. The management informed that the matter pertains to PIAC Commercial department. DAC directed the management to share details of party-wise written-off along with approval of relevant authority.

Audit recommends implementation of the DAC directives.

1.1.4.23 Blockage of funds due to holding fund in dormant accounts – Rs 253.641 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Pakistan International Airlines Corporation Limited (PIAC), finance department for the year 2022, it was observed that funds were blocked in different banks at various international stations. These amounts remained un-utilized in dormant accounts since long with no return to the corporation. The details are as follows:

Bank Branch	Bank Account Number	Description (CURR.)	Closing Balance	Rate	Rs in million
Colombo	0010-000017808	LKR	360,273,766	0.65	234.177
Panjgur	1149-00143278-03	PKR	6,454,062	1	6.454
Dhaka	2622030494617	BDT	2,563,433	2.19	5.613
Dhaka	2622021001160	BDT	461,256	2.19	1.010
Speedex	0048-00373924-03	PKR	429,800	1	0.429
Bahrain	010-2660-7	BHD	10,981	542.6	5.958
Total					253.641

Audit is of the view that the amount lying idle in various bank accounts without realizing any return reflected gross negligence on the part of management.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. The management informed that they were in liaison with the HBL and UBL for the activation of accounts. DAC directed to activate the dormant accounts and share details with audit.

Audit recommends implementation of the DAC directives.

***1.1.4.24 Un-authorized extension of credit facility to defaulting agents -
Rs 202.66 million***

Clause 2.02 of Credit Policy of Pakistan International Airlines Corporation (PIAC) states that, credit period may be up to 30 days (Government of Pakistan 60 days), financing cost @ 1.25% per month is to be added to all overdue credit for such period(s) (except Government of Pakistan) and all further credit on overdue accounts should be stopped until all past dues are cleared.

During audit of Pakistan International Airlines Corporation Limited (PIACL), finance department for the year 2022, it was observed that the management extended undue favor by allowing credit facilities to cargo agents beyond their capping limits which resulted in default and subsequent non-recovery of dues as detailed below:

(Rs in million)				
S #	Name	Delay in payment days	Transactions after due date	Outstanding amount
01	M/s Leisure Cargo	899-1,051	12	181.2401
02	M/s Air Cargo Traders	214-883	17	19.53022
03	M/s Al Tayyar Travel	641-668	03	1.88567
Total				202.656

Audit is of the view that un-authorized extension in credit limits beyond capping and subsequent non-recovery of dues from agents reflected weak internal controls and poor financial management which was unjustified.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. The management informed that all options were exercised to recover dues including litigation against M/s Leisure Cargo including arbitration in ICC (International Court of Arbitration) and US\$ 5 Million have been recovered this exceeds the approval granted by the board of US\$ 500,000 for an out of court settlement. Further, an amount of Rs 21.46 million has been recovered from clients at serial no 2 & 3. DAC directed to get the full recovery verified from Audit.

Audit recommends implementation of the DAC directives.

1.1.4.25 Loss due to non-billing of ground handling service charges from other carrier – Rs 149.834 million

Agreement clause between PIAC and M/s Air China Limited stipulates that the handling company (PIAC) shall charge the carrier US \$ 2,420 for a single ground handling consisting of arrival and subsequent departure of aircraft A330-300 at agreed timing.

During audit of Pakistan International Airlines Company Limited (PIACL), cargo division for the years 2020-2022, it was observed that the management entered into ground handling agreement with M/s Air China Limited in the year 2008 and was renewed time and again. However, the management did not charge / bill of ground handling charges for the services rendered to M/s Air China Limited amounting to Rs 149.834 million.

Audit is of the view that non-billing of the ground handling service charges from M/s Air China Limited was a serious negligence on the part of management.

The matter was reported to the management in November, 2023. The irregularity was discussed in DAC meeting held on January 03 & 04, 2024. The management informed the DAC that from 2020 till August 2023, an amount of US\$ 623,198 was billed and settled by PIA. DAC directed the management to submit comprehensive reply within 15 days to Audit.

Audit recommends implementation of the DAC directives.

1.1.4.26 Under-utilization of cargo space – Rs 131.101 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan International Airlines Company Limited (PIACL), Cargo Division for the years 2020-2022, it was observed that the cargo agents booked cargo spaces on outbound flights in advance and later on canceled the bookings or utilized less cargo space against the allocation at various sectors thus causing loss of Rs 24.681 million to the corporation.

It was further observed that total cargo space available in the year 2022 was 278,585.5 freight ton kilometers and space utilized / booked was only 95,958.7 freight ton kilometers causing a loss of Rs 83.552 million with only 31% space utilization

It was also observed that the management approved adhoc rate / short deal at various stations for utilization of cargo space. This resulted in loss of revenue amounting to Rs 22.868 million.

Audit is of the view that the management failed to utilize maximum cargo space and approved adhoc rates / short deal to the agents unjustifiably which reflected poor planning and weak financial management causing losses to the corporation.

The matter was reported to the management in November, 2023. The irregularity was discussed in DAC meeting held on January 03 & 04, 2024.

- a. The management informed the DAC that non-availability of stock / supply from market as well less availability of pay load on flights due to passenger baggage & fuel uplift were the reasons, and there was no mechanism of penalties against cancellations; however, warnings were issued to the concerned agent(s).
- b. The management informed the DAC that passenger focused airline like PIA Cargo AFTK are not calculated on the basis of regions cargo market but rather calculated on the basis of available capacities of the aircrafts, moreover, directional imbalances in air cargo industry also severely effects the RFTKs or load factors.
- c. The management informed the DAC that the subject case is one of incident wherein very productive customer was compensated through ad-hoc rate. In considered case PIA was at fault and indemnity does not mean that airline exempted from claim. Adhoc rate was given to station as per their request based on their market requirement and with ad-hoc rates they divert other airlines business into PIA.

DAC directed the management to devise a policy / SoPs in the light of the audit observation. Further, CRC rate may be issued / approved on monthly basis and discouraged the adhoc rate practice in future.

Audit recommends implementation of the DAC directives.

(DP No. 490, 495 498 & 499)

1.1.4.27 Irregular procurement of store and spares – Rs 112.666 million

Rule 8 of PPRA Rules, 2004 states that within one year of commencement of these rules, all procuring agencies shall devise a mechanism, for planning in detail for all proposed procurements with the object of realistically determining the requirements of the procuring agency.

Rule 12 (1) of PPRA Rules, 2004 provides that all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

During audit of Pakistan International Airlines Corporation (PIAC), for the year 2022, it was observed that the management procured various items amounting to Rs 112.666 million without observing the following PPRA requirements:

S#	Description	Rs in million	Remarks
1.	Outside party (Repair) procurement	10.914	Procurement without planning
2.	Reactive parts procurement	16.547	
3.	SCM procurement	77.983	
4.	Store & spare parts	7.222	Procurement from non-pre-qualified vendors
Total		112.666	

Audit is of the view that the procurement was made in violation of PPRA rules which reflected negligence and slackness of the management.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management apprised that the stores and parts were procured by TGS due to delay in procurement through SCM to meet operational requirement. DAC directed the management that procuring stores and spares without adopting PPRA was violation and therefore could not be justified. Further, DAC directed to probe the matter.

Audit recommends implementation of the DAC directives.

(DP No. 566 & 567)

1.1.4.28 Recurring loss due to vacant properties abroad – Rs 59.821 million

Rule 5 (1) of the Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its power and carry out fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Pakistan International Airlines Corporation Limited (PIAC), works department for the year 2022, it was observed that the PIA owned (Pagri) a commercial property in Tehran, Iran as Booking Office which was idle for the last two decades. However, PIACL was incurring cost of US\$ 34,646 annually for its rent plus additional cost of maintenance as detailed below:

S#	Description	US\$ per year
1.	Rent plus additional cost of maintenance and upkeep	12,000
2.	Salary to local staff	18,000
3.	Rent of property	4,646
Sub Total		34,646
Total (34,646*Rs 250)		8,661,500

Furthermore, it was also observed that PIACL has two commercial properties in Amsterdam which were lying vacant since September 2013 due to offline status of the station. The management could not rent out / dispose off the properties and was sustaining losses as follows:

S#	Description	Expected Rental income per month	Total amount in 02 years (Rs)
1	PIA Town Office 17, Leidsetraat 1017 NT , Amsterdam	4,500	108,000
2	109 AbcoudeKoningVarem, Amsterdam	1,275	30,600
			138,600
Total (138,600*Rs 300)			41,580,000

It was also observed that a property at New York remained vacant for a period of 09 months and subsequently rented out at US\$ 5,700 per month which was below than the market rate of US\$ 7,000, causing a loss of Rs 9.580 million.

Period	Rent as per market rate (USD)	Actual Rent charged (USD)	Total Rental Loss (USD)	Total Rental Loss (Rs)
March, 2020 to June, 2021	7,000	5,700	20,800 (USD1,300*16 months)	Rs 3,640,000/- (USD20,800*Rs 175)
July, 2021 to December, 2022	7,000	5,500	27,000 (USD1,500*18 months)	Rs 5,940,000/- (USD27,000*Rs 220)
Total				9,580,000

Audit is of the view that due to non-renting / disposal of properties resulted in loss of Rs 59.821 million which reflected poor financial management and weak internal controls.

The matter was reported to the management in November, 2023. The irregularity was discussed in DAC meeting held on January 03 & 04, 2024.

- a) The management informed that the efforts to sell out the property were made in 2019 and advertisements were placed in newspaper but, no offer was received. DAC directed the management to share the record / documents with Audit and make efforts for renting / disposal of properties.
- b) The management informed that PIA owned total three (3) properties in Amsterdam and were vacant since 2013 due to closure of station. However, management rented out single property/ apartment at Van Neijienrodeweg Amsterdam, and was earning US\$ 1,700 per month during the year 2022. DAC directed the management to share the record/documents with Audit and make efforts for renting/ disposal of properties.
- c) The management informed that renovation work on NYC property was completed on July 2019 & rented out at USD 5,700 per month in March, 2020. Later on, reduced by USD 5,500 per month which is below market rent of USD 7,000 per month due to Covid 19. DAC directed the management to submit the revised reply and verify the facts to Audit.

Audit recommends implementation of the DAC directives.

(DP No. 543, 544 & 546)

1.1.4.29 Loss due to imposition of immigration fines / penalties - Rs 33.947 million

Clause 6, article 4 of Passenger Sales Agent (PSA) states that the duty of sales agent is to advise passenger concerning passport, health, currency, immigration and other regulations in force in countries to and through which they are to travel and ensure as far as practicable that such regulations are observed by all passengers. In case the passenger is found travelling on invalid documents at transit of destination and if a penalty is imposed on the principal, the loss shall be recovered from the agent.

During audit of Pakistan International Airlines Corporation Limited (PIACL), finance department for the year 2022, it was observed that the management paid an amount of Rs 33.947 million on account of immigration penalties and fines (Annex-11), but recovery against the responsible person(s) was still awaited.

Audit is of the view that due to weak internal controls, the management failed to recover immigration fines from the travel agents, which reflected undue favor to the agents.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. Management informed that the data is meaningless unless specific details with reference to time period and station it pertains to are provided. Audit contended that the details were shared in annexure. DAC directed to get the figure reconciled and recovery made be shared with Audit.

Audit recommends implementation of the DAC directives.

1.1.4.30 Unjustified payment of incentives to cargo agents - Rs 22.956 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan International Airlines Company Limited (PIACL), cargo division for the years 2020-2022, it was observed that the management approved adhoc rate / short deal at various stations for utilization of cargo space (Annex-12). This resulted in loss of revenue amounting to Rs 22.868 million.

Audit is of the view that the approval of adhoc rate / short deal reflected undue favor to the agents.

The matter was reported to the management in November, 2023. The irregularity was discussed in DAC meeting held on January 03 & 04, 2024. The management informed that due to intense competition from other airlines in cargo business and to retain and attract customers/ agents, PIAC provided incentives to the agents. DAC directed the management to devise a policy / SoPs in the light of the audit observation. Further, CRC rate may be issued / approved on monthly basis and discouraged the adhoc rate practice in future.

Audit recommends implementation of the DAC directives.

1.1.4.31 Irregular award of contract to a blacklisted supplier– Rs 18.511 million

Rule 19 (a) of PPRA Rules, 2004 states that blacklisted and henceforth cross debarred for participation in any public procurement or disposal proceedings for the period of not more than ten years, if corrupt and fraudulent practice as defined in these rules is established against the bidder or the bidders in pursuance of blacklisting proceedings; (b) blacklisted and henceforth cross debarred for participation in respective category of public procurement or disposal proceedings for a period of not more than three years, if the bidder fails to perform his contractual obligations during the execution of contract or breaches the contract due to his capacity and capability to perform or otherwise.

During audit of Pakistan International Airlines Corporation Limited (PIACL) supply chain management (SCM) for the year 2022, it was observed that the management awarded various contracts to M/s. Iqbal Shoe Company for supply of safety shoes who was already a blacklisted supplier as per PPRA on the basis for providing fake / forged documents. The details of purchased items are as under:

S#	PO#	Description	Quantity	Rate	Total (Rs)
1.	22041443	Safety Shoe	528	3,989	2,106,192
2.	22040687		570	2,495	1,422,150
3.	22041443		103	3,989	410,867
4.	21041834	Cabin Shoes	1300	3,748	4,872,400

Total cost plus GST @17% (Rs 15,821,871*17%=Rs 2,689,718.07)	18,511,589
---	-------------------

Audit is of the view that the award of contracts to a blacklisted supplier reflected negligence and gross violation of PPRA Rules, 2004. Thus, contracts amounting to Rs 18.511 million stand irregular and unjustified.

The matter was reported to the management on September 20, 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management informed that process for awarding of the contracts were made as per PPRA rules and all relevant documents were verified by the tender committee. Moreover, the supplier was a distributor of Bata Shoe Company for last 20 years and the contracts were awarded before the supplier was blacklisted by PSO as per PPRA Rules. DAC directed the management to get the process for awarding of contract verified from audit.

Audit recommends implementation of the DAC directives.

1.1.4.32 Loss due to theft of copper wire - Rs 16.245 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

According to PIA, Major Works Committee (MWC) meeting no. 153 held on 21-12-2022, PIACL lights were connected through copper conductors which township committee dismantled and submitted in store section for auction, and as per that approximately (7 tons) equal to 7,000 Kgs and cost millions of rupees.

During audit of Pakistan International Airlines Corporation Limited (PIACL) supply chain management (SCM) for the year 2022, it was observed that copper wire valuing Rs 16.245 million was missing from the store of PIA. Furthermore, Township management of PIAC dismantled all PIA old electric network and replaced copper wire approximately 07 tons (7,000 Kgs) and out of total wire, 06 tons (6,000 kg) was submitted in the presence of Security and Vigilance Department on 19-12-2022 (as per Store receipt) but the same was missing. Later on, wire having weight of 752 kgs was sold at Rs 2,065 per kg through auction and remaining quantity of 6,248 kgs (7,000 kgs-752 kgs=6,248 kgs * Rs 2,600 per kg) valuing Rs 16.245 million were missing / stolen from store.

Audit is of the view that missing / theft of wire caused a loss of Rs 16.245 million to the corporation which reflected negligence and slackness.

The matter was reported to the management on September 26, 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management informed the DAC that the copper wire was dismantled by PIA, township and sent to main store on approximate basis of 06 tons but the same was actually disposed off was only 01 Ton. DAC directed the management to conduct fact finding inquiry within 20 days and share with audit.

Audit recommends implementation of the DAC directives.

1.1.4.33 Irregular award of contract of rice due to alteration in financial bid - Rs 15.642 million

Rule 31 of PPRA, 2004 states that (1) no bidder shall be allowed to alter or modify his bid after the bids have been opened. However, the procuring agency may seek and accept clarifications to the bid that do not change the substance of the bid. (2) Any request for clarification in the bid, made by the procuring agency shall invariably be in writing. The response to such request shall also be in writing.

During audit of Pakistan International Airlines Corporation Limited (PIACL) supply chain management (SCM) for the year 2022, it was observed that the management awarded contract to M/s. Haneef Traders for procurement of rice (basmati & sella) at a rate of Rs 158 per kg amounting to Rs 15.642 million. The initial rate of M/s. Haneef Traders was Rs 182 per kg of basmati rice, however, after opening of financial bids, the rates were revised to Rs 158 per kg in violation of PPRA, rules.

Audit is of the view that acceptance of alteration in financial bid against already submitted financial bid was held irregular and unjustified. Hence, contract amounting to Rs 15.642 million stands irregular.

The matter was reported to the management on August 15, 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management informed the DAC that contract was awarded to M/s. Haneef Trader as per PPRA rule-38(A)-bid discount. However, the one supplier offered bid discount before opening of the financial offer and the same was qualified as lowest evaluated bid thereon management awarded the contract. DAC directed the management to conduct fact finding inquiry within 20 days and report of the same may be share with audit.

Audit recommends implementation of the DAC directives.

1.1.4.34 Extension of contract without getting bank guarantee - Rs 11.181 million

Clause 8.1 of contract agreement between PIAC and M/s Airport Limousine Services (Pvt) Ltd states that the Contractor Shall deposit in shape of Bank Guarantee/Pay Order a sum Rs 11, 181,808 (Eleven Million one thousand and eight hundred eight only) equivalent to 05% of the total contract value as interest free security deposit 15 days before the execution of this Agreement with Finance Manager head office payment PIACL. This agreement shall not enforce if the contractor failed to pay the security deposit within the time stipulated hereof.

During audit of Pakistan International Airlines Corporation (PIAC) supply chain management (SCM) for the year 2022, it was observed that the management awarded contract to M/s Airport Limousine Services (Pvt) Ltd for provision of transport services to cabin crew at Karachi, Lahore & Islamabad stations. However, extension of same was approved by the management without getting the bank guarantee in time and against expired bank guarantee amounting to Rs 11.181 million.

Audit is of the view that the management extended an undue favor to the service provider by extending contract without getting the revised bank guarantee.

The matter was reported to the management on August 15, 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management informed the DAC that the bank

guarantee was received during the initial period of contract and subsequently the extension was made but the bank guarantee was not renewed. DAC directed the management to conduct a fact finding inquiry to find out the reasons for not renewing the bank guarantee and fix responsibility.

Audit recommends implementation of the DAC directives.

1.1.4.35 Loss due to poor handling of baggage of passengers – Rs 8.459 million

Section 54 of S&D of PIAC on causing loss of revenue to the corporation states that any employee who causes or attempts to cause any loss or loss of revenue to the Corporation shall be liable to reimburse the loss caused by him and will also be liable to disciplinary action including dismissal from service.

During audit of Pakistan International Airlines Corporation Limited (PIACL), finance department for the year 2022, it was observed that the management incurred expenditure on account of mishandling of baggage Rs 8.459 million due to inefficient and ineffective monitoring and baggage control system and frequency of mishandling cases was on rising trend. The details are given below:

(Rs in million)			
S#	Description	Account code	Amount
1	Mishandling baggage claims	83102002	2.812
2	Carton Lost-Cargo (03 units)	83102002	0.667
3	Miscellaneous claims	83102002	4.980
Total			8.459

Audit is of the view that due to poor handling of baggage the organization was sustaining huge losses which resulted in financial and reputational damage to corporation.

The matter was reported to the management on September, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. The management informed the DAC that baggage mishandling is an unfortunate event that occurs frequently in the aviation industry, despite the airline's best efforts to prevent it. Airlines typically set aside a specific amount of money to reimburse passengers for any expenses or damages caused by the mishandling of their luggage. This practice is followed across the industry to reduce the impact of such incidents on passengers and to ensure that a high level of service quality is maintained. DAC directed to submit revise reply in 15 days along with documentary support for steps taken for improving baggage system.

Audit recommends implementation of the DAC directives.

1.1.4.36 Loss of revenue due to short collection of cargo rate – Rs 6.382 million

According to Commercial Rebated Cargo Rate 2022, ex Pakistan cargo rates for Toronto i.e. YYZ sector rates had been proposed / approved at USD 6.50 per KG.

During audit of Pakistan International Airlines Company Limited (PIACL), cargo division for the years 2020-2022, it was observed that the management approved ex-Pakistan Commercial Rebate Rate for

Toronto i.e. YYZ Sector at USD 6.5 Per Kg for the year 2022. However, during June, July & August 2022, cargo rates charged per kilograms were less than the approved rates from the shippers / agents during the peak travelling season. Consequently, the management received short collection amounting to Rs 6.382 million from YYZ sector (Annex-13). The brief summary is as under:

S#	Origin	Destination	Revenue loss (US\$)	Revenue Loss (Rs in million)
1	LHE	YYZ	13,989	3.022
2	ISB-KHI	YYZ	432.90	0.085
3	KHI	YYZ	12,427.50	2.635
4	ISB	YYZ	3,633.15	0.638
Total				6.382

Audit is of the view that the management failed to observe approved rates from agents which resulted in short collection of Rs 6.382 million. This reflects weak monitoring and control.

The matter was reported to the management in November, 2023. The irregularity was discussed in DAC meeting held on January 03 & 04, 2024. The management informed that approved CRC rate as quoted was USD 6.50 which was the 5% commissionable rate. The net commission rate stands at USD 6.18 (6.5 X 95%). DAC directed the management to devise a policy / SoPs in the light of the audit observation. Further, CRC rate may be issued / approved on monthly basis and discouraged the adhoc rate practice in future.

Audit recommends implementation of the DAC directives.

1.1.4.37 Irregular consumption of fuel – Rs 6.243 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Pakistan International Airlines Corporation (PIAC), technical ground handling services (TGS) for the year 2022, it was observed that the management entered into contract with PSO for provision of petrol & diesel at an in-house fueling point ground support equipment (GSEs). It was observed from the reports generated for fuel system and TGS online system discrepancies were noticed that fuel was issued for unserviceable / grounded equipment as detailed below:

S#	Fuel Type	Procured (Ltrs)	Consumed (Ltrs)	Difference (Ltrs)	Average Rate per Ltr (Rs)	Amount (Rs)
1	Diesel	280,000	252,346	27,654	197.39	5,458,623
2	Petrol	24,000	19,673	4,327	181.35	784,701

Total	6,243,324
--------------	------------------

Audit is of the view that management did not establish control over issuance of fuel causing losses of Rs 6.243 million that reflected weak internal controls over supply of fuel.

The matter was reported to the management on November, 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management apprised the DAC that due to provision of required record by another department, certain discrepancies were observed which were not correct. DAC directed the management to reconcile the data and share with Audit.

Audit recommends implementation of the DAC directives.

1.1.4.38 Irregular payment of endorsement allowance to aircraft engineers – Rs 5.896 million

According to Pakistan International Airlines Corporation (PIAC) Admin Order No.104/2006 and Admin Order No. 49/ 2009, payment of Endorsement Allowance shall be applicable for acquiring licenses of such aircraft which exists in PIA fleet, subject to the condition that, the aircraft engineer performs the duty on that particular aircraft for which the payment is made.

During audit of Pakistan International Airlines Corporation Limited (PIACL) supply chain management (SCM) for the year 2022, it was observed that five (05) aircraft engineers were posted on the administrative posts who were drawing endorsement allowance in violation of above rule as detailed below:

Rs in million						
S #	Name	P. No	Period	No. of months	Amount per month (Rs)	Total (Rs)
1.	Mr. Iftiqar Muhammad	44918	August, 2014 to December, 22	100	28,000	2.800
2.	Mr. Muhammad Shahid Saleem	44986	November, 21 to December, 22	13	24,000	0.312
3.	Mr. Usman Akhter	53017	January,17 to December,22	72	28,000	2.016
4.	Mr. Tahir Mehmood	54855	January,21 to August, 23	32	24,000	0.768
Total						5.896

Audit is of the view that the payment of endorsement allowance amounting to Rs 5.896 million without performing duties on particular aircrafts was irregular and unjustified.

The matter was reported to the management on September 26, 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management informed the DAC that the endorsement allowance was allowed as per latest notification issued by the PIA. DAC directed the management to provide latest notification for allowing endorsement allowance to aircraft engineers during administration postings to Audit for verification.

Audit recommends implementation of the DAC directives.

1.1.4.39 Irregular payment of fuel charges and non-deduction of tax – Rs 5.505 million

Clause 6.4 of agreement between PIACL and M/s Filly Transport Services states that the purchase of fuel, lubricants, spares and payment of wages to the drivers and other staff, maintenance and overhauling and ensuring validity of the insurance in respect of the vehicles provided by the contractor shall be the sole responsibility of the contractor.

Sindh Sales Tax Special Procedure (withholding) Rules, 2014 of section 2 stipulates that Public Sector Organization, including public corporations, state owned enterprises and regulatory bodies and authorities hereby specified as “withholding agents” for the purpose of deduction and deposit of tax.

During audit of Pakistan International Airlines Company Limited (PIACL), cargo division for the years 2020-2022, it was observed that the management awarded the contract to M/s Filly Transport Services for transport services. However, the management had been paying monthly fuel charges of Rs 137,936 against the services in violation of above agreement. The details are as under:

(Rs in million)				
S#	Contract Period	Months	per month Rs	Amount paid
1	01.12.2019- 30.11.2022	36	111,571	4.004
2	01.12.2022- 30.04.2023	5	111,247	0.556
3	01.05.2023-30.04.2026	4	137,936	0.551
Total				5.111

Furthermore, the management made payments to the contractor without deduction of sales tax amounting to Rs 0.393 million (Rs 7.861 million x 5%)

Audit is of the view that the management extended undue favor to the contractor by making payments of fuel charges and non-deduction of taxes which reflected negligence and slackness.

The matter was reported to the management in November, 2023. The irregularity was discussed in DAC meeting held on January 03 & 04, 2024. DAC directed the management to justify the matter and submit revised reply to Audit.

Audit recommends implementation of the DAC directives.

1.1.4.40 Loss on procurement of crockery items - Rs 3.411 million

Rule 04 of PPRA Rules, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan International Airlines Corporation (PIAC) supply chain management (SCM) for the year 2022, it was observed that the management procured various items in four (04) tenders instead of awarding the same in the first time tender which resulted in excess expenditure amounting to Rs 3.411 million (Annex-14).

Audit is of the view that management extended undue favor to the suppliers in awarding contracts which reflects poor procurement planning.

The matter was reported to the management on August 15, 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management informed the DAC that due to covid-19 periods, the bids were re-tendered more than twice due to restriction of food items in flight. Moreover, CAA wrote a letter to PIA to ban the food items in the flights. DAC directed the management to share the letter to audit and to re-submit the revised reply with justification for re-tendering process.

Audit recommends implementation of the DAC directives.

1.1.4.41 Non-deposit of unclaimed dividend into treasury - Rs 3.297 million

According to Section (244) (ii) of the Companies Act, 2017, where dividend has been declared by a company or Modaraba; which remain unclaimed or unpaid for a period of three years from the date it is due and payable. Further, Sub-section (2) If no claim is made before the company by the shareholder, certificate holder or the owner, as the case may be, the company shall after ninety days from the date of publication of notice under clause (b) of sub-section (1) shall— (a) in case of sum of money, deposit any unclaimed or unpaid amount to the credit of the Federal Government.

During audit of Pakistan International Airlines Corporation Limited (PIACL), corporate secretariat for the year 2022, it was observed that the management did not deposit the unclaimed dividend amounting to Rs 3,297,000 into the Federal Government treasury in violation of above rules. Furthermore, the management issued final notices to the approximately 16,200 shareholders for the settlement of unclaimed dividends on February 01 2018 but no response was received from the shareholders in compliance of the final notice.

Audit is of the view that the management failed to deposit the unclaimed dividend amounting to Rs 3.297 million with the Federal Government which reflects gross violation.

The matter was reported to management on September 13, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. The management informed the DAC that in compliance of sub-section 2 of Section 244 of the Companies Act, 2017 a letter was also sent to the Joint Registrar of Company Registration Office, Karachi requesting them to provide Bank Account details to deposit unclaimed amount and CDC Account number for transfer of physical shares. Response of which is yet to be received. DAC directed the management to pursue the matter vigorously.

Audit recommends implementation of the DAC directives.

1.1.4.42 Loss due to expired oil - Rs 2.835 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan International Airlines Corporation Limited (PIACL) supply chain management (SCM) for the year 2022, it was observed that the management unnecessarily procured oil AVGAS 100LL for operation of training aircraft AP-BBN for the PIA’s Shaheed Benazir Bhutto’s flying academy (SBBFA) during the year 2020 which was not utilized and expired in 2021 and disposed-off after getting approval from EPA Sindh.

Audit is of the view that due to poor planning and negligence the oil was expired causing losses of Rs 2.835 million.

The matter was reported to the management on September 20, 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management informed the DAC that request the process of sale the procured oil was made with CAA but they refused the same. DAC directed the management to provide the relevant record i.e. refusal letter of CAA for sale of oil along with revised reply with justification to Audit for verification.

Audit recommends implementation of the DAC directives.

1.1.4.43 Loss due to non-collection of airway bill charges– Rs 2.062 million

Clause 1.7 of the agreement between M/s Air China (Carrier) and PIAC (Ground Handling Company) states that Handler will send all Final Flight Manifest (FFM) & Full Airway Bill (FWB), Airway Bill (AWB) information of all AIR China Flight from Karachi. The Service shall be rendered by Handler (PIAC) at USD 5.00 Per Airway Bills (AWB).

During audit of Pakistan International Airlines Company Limited (PIACL), cargo division for the years 2020-2022, it was observed that as per above agreement, the management was required to charge US\$ 5.000 on each airway bill. However, the management charged screening charges @ Rs 2.500 per Kg of the item shipped instead of airway bill charges. The detail is as under:

S#	Year	Total No. of Airway bills	Rate Airways in US\$	per Bill	Amount to billed in US\$	Amount in Rs
		A	B		C (A*B)	D (C*Rs 305)
1	2023	398	5		1,990	606,950
2	2022	231	5		1,155	352,275
3	2021	723	5		3,615	1,102,575
Total						2,061,800

Audit is of the view that management failed to observe the agreement terms and condition which reflected weak internal controls caused a loss of Rs 2.062 million.

The matter was reported to the management in November, 2023. The irregularity was discussed in DAC meeting held on January 03 & 04, 2024. The management informed the DAC that we taking only Rs 2.50 per kg screening charges from Airline as per handling agreement. Further, USD 5.00 per airway bill is as advance / cargo sport charges and the PIA not providing any facility to Air China. DAC directed the management to revise the rate as per competitive rate of the other airline and revised the agreement of the clause 1.7 and working share with the Audit.

Audit recommends implementation of the DAC directives.

1.1.4.44 Non-blacklisting of prequalified contractors - Rs 2.000 million

Rule 19 of PPRA Rules, 2004 provides that, the procuring agencies shall specify a mechanism and manner to permanently or temporarily bar, from participating in their respective procurement proceedings, suppliers and contractors who either consistently fail to provide satisfactory performances or are found to be indulging in corrupt or fraudulent practices. Such barring action shall be duly publicized and communicated to the Authority.

During audit of Pakistan International Airlines Corporation Limited (PIAC), works department for the year 2022, it was observed that financial irregularity of over Rs 24.000 million was committed by manager works and works officer Lahore in April, 2016. Inquiry Committee recommended to blacklist the contractors involved. However, the management did not blacklist the contractors who were still enlisted in facilities management division as detailed below:

S#	Name of Contractor
1	M/s Malik Ismail & Co.
2	M/s Amjad Electronics
3	M/s Abdul Khaliq
4	M/s Al Rauf
5	M/s International Traders

Audit is of the view that the management failed to blacklist the above contractors which reflected gross violation and negligence.

The matter was reported to the management in November, 2023. The irregularity was discussed in DAC meeting held on January 03 & 04, 2024. The management informed that on April, 2016 financial irregularity of Rs 24.00 million committed by manager works and works officer at Lahore. During investigation both accused were proven guilty on February, 2019. Further, inquiry committee blacklisted the following contractors in the subject case. Malik Ismail & Co, Amjad Electronics, Abdul Khaliq, Abdul Rauf & International Traders. Moreover, prequalification of above contractors was held in 2021 and were

enlisted contractors in facilities management instead of blacklisting them. The management also informed that 01 contractor has filed case in the court of law.

The DAC directed the management to share inquiry committee report and take immediate action against the accused as per inquiry report and fix responsibly against the person(s) for non-blacklisting and further prequalifying. The progress report thereof may also be shared within (45) days to Audit and concerned Ministry.

Audit recommends implementation of the DAC directives.

1.1.4.45 Non-renewal of European Union Aviation Safety Agency (EASA) license

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Pakistan International Airlines Corporation Limited (PIACL), corporate secretariat for the year 2022, it was observed that PIACL Board did not take strenuous effort for renewal of license with regards to the lifting of ban on PIA aircraft for UK and Europe. Moreover, on requirement of European Union Aviation Safety Agency (EASA), PIA submitted deliverables mentioning therein the steps taken for the improvement of PIAs safety system. The same were accepted by EASA but, pointed out two primary issues: (i) safety management system & (ii) pilot licensing. The matter was still pending as neither any issuance of pilot licensing by Civil Aviation Authority (CAA) nor any safety management audit was conducted by the management.

Audit is of the view that the matter to resolve significant issue for renewal of license with regards to lifting of ban on PIA aircraft for UK and Europe was still pending on the part of management.

The matter was reported to the management on September 13, 2023. The management replied that PIACL Board has been attaching and giving utmost attention to the issue of license renewals and lifting of ban on PIACL flights to UK and Europe. The reply was not tenable because, PIACL Board could not resolve the significant issue for renewal of license with regards to lifting of ban on PIA aircraft for UK and Europe. The irregularity was discussed in the DAC meeting held on January 19, 2024. The DAC directed the management to share the deliverables and relevant record with Audit.

Audit recommends implementation of the DAC directives.

1.1.4.46 Irregular appointment of company secretary

According to Section 14 (4) of Public Sector Companies (Corporate Governance) Rules, 2013 states that, no person shall be appointed as the Company Secretary of a Public Sector Company unless he is a (c) Person holding a master degree in business administration or commerce or being a law graduate from a university recognized by the Higher Education Commission with at least five years relevant experience.

During audit of Pakistan International Airlines Corporation Limited (PIACL), corporate secretariat for the year 2022, it was observed that the management promoted Mr. Muhammad Imran (assistant

company secretary) as Company Secretary w.e.f. January 08, 2023 on probation for a period of three months subject to satisfactory performance of his service shall be confirmed as Company Secretary. The incumbent is Masters in (marketing) while, requirement of the said post was Master's degree in business administration or commerce with at least five years relevant experience.

Audit is of the view that the management extended an undue favor on the appointment on the post of Company Secretary without required qualification and relevant experience in violation of the rule and procedures.

The matter was reported to management on September 13, 2023. The irregularity was discussed in the DAC meeting held on January 19, 2024. Management informed that at the time of his appointment as Company Secretary, Mr Muhammad Imran was already working in the capacity of Assistant Company Secretary since 2019. Moreover, due to a ban imposed on external recruitment by the Supreme Court of Pakistan on PIA, no external hiring could be done in this case. The DAC directed the management to share the working papers for promotion of incumbent with Audit.

Audit recommends implementation of the DAC directives.

1.1.4.47 Undue favor to the supplier

Rule 4 of PPRA Rules, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan International Airlines Corporation (PIAC) supply chain management for the year 2022, it was observed that management awarded contracts of natural yogurt, instant dairy whitener, cooking oil, rice, fresh cream, mayonnaise and other food items to M/s Haneef traders at Karachi, Lahore, Islamabad, Peshawar and other stations. It was observed that management irregularly awarded contract of 80gm yogurt cup to M/s Haneef traders with total quantity of 1,105,000 at Rs 26,063,365. However, after lapse of three months he refused to supply same quantity on same rates and management again awarded the contract to M/s Haneef traders at higher rates. Similarly, management irregularly awarded contract of instant dairy whitener to same supplier at Rs 33.475 million by disqualifying M/s MAQ corporation on past complaints without evaluating provided samples. The management awarded contract of Mayonnaise to M/s Haneef Traders of Rs 53.276 million after re-tender as well as change of specification of mayonnaise with extra cost.

Audit is of the view that the management extended undue favor to M/s Haneef Traders and awarded contracts without merit in violation of rules.

The matter was reported to the management on September 26, 2023. The management informed that process for market survey was usually made before procurement of the all contracts. Moreover, contracts were usually made as per scrutiny of documents and relevant specifications. DAC directed the management to conduct fact finding inquiry within 30 days.

Audit recommends implementation of the DAC directives.

1.2 Skyrooms (Pvt.) Limited

1.2.1 Introduction

Skyrooms (Pvt.) Limited was incorporated as a private limited company on May 20, 1975. The company is a subsidiary of Pakistan International Airlines Corporation registered under the Companies' Ordinance, 1984 and listed on all stock exchanges of Pakistan. Until June 30, 1999, PIA holdings (Pvt.) Limited was the holding company. The company owns and manages "Airport Hotel" at Karachi. The registered office of the company is situated at Airport Hotel, Karachi.

1.2.2 Comments on audited accounts

1.2.2.1 The annual audited accounts are required to be provided to Audit for review each year. Contrary to this, the management failed to provide audited accounts of the organization for the years 2020 to 2023 despite a number of reminders.

Audit requires that the annual audited accounts of the years 2020 to 2023 be provided immediately and timely finalization be ensured in future, besides, fixing responsibility for non-finalization of annual audited accounts (**Annex-2**).

1.2.2.2 The working results of Skyrooms (Pvt.) Limited for the year 2019 as compared with those of previous years are given as below:

(Rs in million)							
	2019	%Inc / (Dec)	2018	%Inc /(Dec)	2017	%Inc / (Dec)	2016
Net Revenue	201.65	(36.24)	316.28	(4.62)	352.10	9.11	266.60
Cost of Sales	(184.63)	(21.15)	(234.15)	(4.84)	(300.38)	8.50	(241.70)
Gross Profit/Loss	17.21	(79.05)	82.13	(20.33)	62.72	36.82	24.90
Administration Exp.	(41.10)	(28.92)	(57.82)	(5.56)	(61.12)	7.15	(55.94)
Other income.	14.46	(9.96)	16.06	(66.73)	(20.18)	3,005.08	(4.08)
Financial Charges	(14.08)	8700.00	(0.16)	9,130.77	(0.003)	(80.50)	(0.18)
Profit before Taxation	(23.51)	(41.51)	40.20	(86.13)	(17.37)	68.27	13.52
Taxation	(2.01)	(83.24)	(11.99)	968.87	(3.63)	467.19	(21.79)
Net profit after Taxation	(25.53)	(9.46)	28.20	96.27	(21.00)	91.39	(20.11)
Accumulated Loss	(259.19)	10.93	(233.65)	23.86	(172.73)	13.84	(41.90)

(Source: Annual Audited Accounts)

1.2.2.3 Gross profit ratio deteriorated from 25.97% in the year 2018 to 8.53% in the year 2019, registering a decrease by 17.44%. This decline in gross profit ratio is due to higher decline in sale.

1.2.2.4 Net profit ratio was 8.92 % in the year 2018 which deteriorated to net loss ratio of 12.65%, registering fall by 21.57% in the year 2019. The decrease in net profit ratio was contributed due to heavy increase in finance cost.

1.2.2.5 Current ratio is 0.47:1 in the year 2019, showing weak liquidity position. The company current liability exceeds its current asset by Rs 179.120 million.

1.2.2.6 Debt ratio is 166.45% in the year 2019 which reflects heavy obligations on account of current as well as non-current liabilities.

1.2.2.7 The lease liabilities were increased by 100% amounting to Rs 108.071 in the year 2019. The liability is increased on account of application of IFRS 16 in the year 2019.

1.2.2.8 The company has accumulated loss of Rs 259.193 million and negative equity of Rs 215.556 million as on December 31, 2019. The reason for heavy accumulated loss is due to consistent business loss and re-measurement of defined benefit plan.

1.2.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	% age of compliance
2018-19	10	1	9	1.2.2.1, 1.2.2.2, 1.2.2.3, 1.2.2.4, 1.2.3, 1.1.2.1, 1.1.2.2, 1.1.2.3, 1.1.2.4 (remainig to be discussed in PAC)	10%
2019-20	1		1	1.2.4.1	0%
Total	11	1	9		9%

The overall compliance of PAC directives was not satisfactory which required immediate attention of the management.

1.2.4 Audit Paras

1.2.4.1 Expenditure without approval of the Board - Rs 625.034 million

Rule 7(1) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall establish appropriate arrangements to ensure it has access to all relevant information, advice and resources necessary to enable it to carry out its role effectively. Significant issues shall be placed before the Board for its information and consideration, in order to formalize and strengthen the corporate decision making process.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that the management submitted the post facto approval of the expenditure for the years 2020 and 2021 and budget for the year 2022 in Board of Director (BoD) meeting dated December 31, 2021. However, BoD deferred the above agenda items and directed to get a fresh approval after scrutiny and endorsement by the new Finance Manager. Therefore, total expenditure of Rs 625.034 million incurred by the management was done without getting formal approval from the Board. (Annex-15)

Audit is of the view that the expenditure of Rs 625.034 million was held irregular / unauthorized as it was without BoD's approval.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management explained the DAC that appointment of Finance Manager was made by PIA (Holding company) as Senior Accounts Officer and approval of estimate budget and expenditure for the year 2020, 2021 and 2022 would be placed in upcoming Board meeting. The DAC directed the management that appointment of Finance Manager and BoD approval may be provided to Audit for verification.

Audit recommends implementation of the DAC directives.

1.2.4.2 Loss of revenue due to vacant rooms - Rs 245.639 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Chief Executive is responsible for the management of the Public Sector Company and for its Producers in Financial and other matters, subject to the oversight and directions of the Board, in accordance with the ordinance and these rules.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that the management failed to rent out its available rooms to its maximum capacity and suffered a potential loss of Rs 245.082 million on account of rent. This reflects inefficiency and poor marketing management. (Annex-16)

Audit is of the view that management failed to harness the potential revenue of Rs 245.082 million due to its inefficiency.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management informed the DAC that total 310 rooms

exits in hotel out of which 106 rooms are operational and 108 rooms are non-operational and 109 rooms going to be on operational in the year 2024. The DAC directed the management expedite the position to fully operational of hotel rooms.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year(s) 2022-23 vide para(s) number 1.2.4.1 having financial impact of Rs. 176.600 million. Recurrence of same irregularity is a matter of serious concern.

1.2.4.3 Loss of revenue by charging lesser rates - Rs 162.441 million

Board of Directors (BoD) in its 78th meeting held on 18th July 2022 approved rates of Rs 50,000 per month per single occupancy room and Rs 80,000 per month for double occupancy room (PIAC Employees).

Board of Directors (BoD) in its 78th meeting held on 18th July 2022 approved rates of Rs 6,000 per room per night excluding taxes (Transit Passengers).

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that the management provided hotel accommodation (including meals) to PIAC employees and transit passengers at lower rates which even did not cover its operational cost. The hotel accommodation provided to PIAC employees was even without any agreement. The detail is under:

(Amount in Rs)					
Cost per month A	Room Rent/Pm B	Difference C (A-B)	No of Employees & Passengers D	Loss P.M E (C*D)	Total Loss F (E*12)
PIAC Employees					
5,157x30 = 154,710	25,000	154,710-25,000= 129,710	43	5,577,530	66,930,360
Transit Passengers					
5,258	4,000	1,258	17,841	-	22,443,978
PIAC officials, OCS and Cabin Crew					
5,258	4,000	1,258	10,297	-	51,814,504

5,258	5,000	258	10,297	-	21,253,008
Total					162,441,850

Audit is of the view that by providing accommodation at lower rates, the management suffered a revenue loss of Rs 162.441 million which was great burden on the organization.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024.

- a) The management informed the DAC that Airport Hotel facilitates those employees of PIA who are transfer from other stations to PIA head office Karachi and do not have residency in Karachi. SRL management notified the guest residing the guest in hotel but increase in price and high inflation across the country PIACL employees showed inability to pay the rent increase in monthly occupancy rates resultantly. SRL management hold the above mention rate till further order. The DAC directed the management that matter should be placed before BoD for further appropriate decision.
- b) The management informed the DAC that on completion of agreement in the year 2023 SRL management increase the rate of PIA for transit passenger 6,500 (excluding tax) in new agreement and implement Board Decision in true letter and spirit. The DAC directed the management to produce the relevant record to audit for verification.
- c) The management informed the DAC that SRL was in agreement with PIA effective from April 21ST, 2021 till April 20th, 2024 at a fixed rate of PKR 5,000 excluding SST. In compliance of agreement clause, SRL Management bound to continue it services on the same rates agreed upon. The DAC directed the management to submit revised reply and further directed to reasonable rate should be charged.

Audit recommends implementation of the DAC directives.

(DP No. 333, 334 & 341)

1.2.4.4 Non deduction / deposit of Sindh Sales Tax – Rs 142.704 million

Section 3(1), Schedule II of Sindh Sales Tax on Services Act, 2011 provides that the Services provided or rendered by persons authorized to transact business on behalf of others, is taxable @ 13%.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that the management did not deduct / deposit the applicable Sindh Sales Tax @ 13% on following items:

(Rs in million)				
S #	Name of Service provider	Services	Amount	SST @ 13%
1.	Civil Aviation Authority	Rent	137.814	17.915
2.	HBL	Rent	82.405	10.712

3.	M/s Health Factory International[Mineral water	1.231	0.160
4.	M/S Ghulam Nabi	Sweet Water	3.456	0.449
5.	M/s Universal Transport Services & Deals	Shuttle Service	5.752	0.744
5.	M/s Grant Thornton Anjum Rahman	Tax Consultant	3.651	0.474
6.	Various Suppliers	Scrap Material	13.214	3.038
7.	Hotel Services	Sales Tax Pax	-	108.029
8.	Hotel Services	Bed Tax Payable	-	1.181
Total				142.704

Audit is of the view that non-deposit of Sindh Sales Tax is a gross violation and loss to the national exchequer. The lapse indicated improper financial management & weak internal controls.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024.

- a) The management informed the DAC that the SCP dated September 05, 2022 upheld judgment of the Sindh High Court whereby it was held that the renting of immovable property is not defined in the Sindh Sales Tax on Services Act as taxable service regarding taxable services of renting of immovable property and many petitioners are moved to High Court against that levy as well.
- b) The management informed the DAC that the Honorable Supreme Court of Pakistan vide its judgment in dated September 05, 2022 upheld judgment of the Sindh High Court whereby it was held that the renting of immovable property is not defined in the Sindh Sales Tax on Services Act as taxable service. However, the Sindh Provincial Assembly has made certain amendments in the Act with retrospective effect regarding taxable services of renting of immovable property and many petitioners are moved to High Court against that levy as well. The DAC directed the management as per Sindh Sales Tax Rule should be deposited into government treasury and in future may be included in HBL billing.
- c) The management informed the DAC that as per rule SST/GST has been deducted from the supplier's bill. The DAC directed the management to produce the relevant record to audit for verification.
- d) The management informed the DAC that the external audit for the year 2021 is still in process and the adjustments for the said year are yet to be proposed by the auditors. The DAC directed the management to provide the trail of the tax to audit in detail and deposited in to government treasury.
- e) The management informed the DAC that SRL sold its own goods under auction which is not a 'Service' rather it is sale of goods under auction which is subject to sales tax under federal sales tax law and not under Sindh sales tax law. The DAC directed the management to produce the relevant record to Audit for verification

Audit recommends implementation of the DAC directives.

(DP No. 325, 329, 331, 342 & 344)

1.2.4.5 Non-adjustment / refund against tax authorities - Rs 142.626 million

Rule 5 (1) of the Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its power and carry out fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that an amount of Rs 142.626 million was refundable / adjustable from tax authorities as on December 31, 2022.

Audit is of the view that the management failed to refund / adjust the amount from tax authorities which showed inefficiency and poor financial management.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management explained the DAC that as per our Tax consultant, income tax could only be refundable / adjustable after the return of income filed on the basis of Audited Accounts after the finalization of audited accounts for the year 2020, 2021 & 2022. The DAC directed the management matter should be resolved within two months and share with audit.

Audit recommends implementation of the DAC directives.

1.2.4.6 Non-recovery from various parties - Rs 75.068 million

Clause 2.01 of the credit policy of Skyrooms (Pvt.) Limited states that the authority extending the credit is also responsible for its timely recovery whilst the finance department function is to ensure timely/proper accounting, reconciliation and providing an updated status of outstanding dues. Further; clause 2.03 states that credit period may up to a maximum of 30 days and financing cost @ 1.50% per month is to be added to all overdue credit for such additional period (s) till recovery.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that the management failed to recover an amount of Rs 75.068 million from various parties (Annex-17).

Audit is of the view that non-recovery of dues on time reflects inefficiency and poor financial management.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management explained the DAC that an amount of Rs 17,339,669 has already been recovered from different debtors and amount of Rs 8,109,340 is still outstanding because Shops (tenants) are in court cases Further management informed that an amount of Rs 12,622,419 has been recovered against Rs 49,608,823 and remaining amount is declared as doubtful debt and court cases. The DAC directed the management to provide relevant record to audit for verification as the recovery already made and pursue the remaining amounts vigorously.

Audit recommends implementation of the DAC directives.

1.2.4.7 Irregular procurement and withdrawal of cash – Rs 56.518 million

According to FBR notification no. F.4 (1) TP/2004-EC dated July 17th 2004, expenditure incurred under single account was inadmissible if it exceeds Rs 5,000 and not paid through cross cheque. Clause(1) of section 21 of the Income Tax Ordinance, 2001 has been amended to raise the limit to Rs 10,000 for the purpose of making payment through crossed cheque under a single account head.

Rule 9 of PPRA, 2004 states that a procuring agency shall announce in an appropriate manner all proposed procurements for each financial year and shall proceed accordingly without any splitting or regrouping of the procurements so planned. The annual requirements thus determined would be advertised in advance on the Authority's website as well as on the website of the procuring agency in case the procuring agency has its own website.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that management purchased various items amounting to Rs 19.598 million on cash basis and through open cheques and also withdrew cash / open cheques amounting to Rs 36.920 million for payment of salary and others without approval and supporting documents instead of issuing crossed cheques to the vendors in violation of above rules. The detail is as under:

S#	Year	Description	Amount (Rs)
01	2018	Cash withdrawal	13,654,827
02	2019	Cash withdrawal	23,265,904
Total			36,920,731

Audit is of the on cash basis and instead of crossed cheques amounting to Rs 56.518 was held irregular and might lead to embezzlement of resources.

view that procurement through open cheques

The matter was reported to the management in September 2023.

- a) The management explained the DAC that as per SRL ledger total procurement value on cash basis amount of Rs 979,174 in the year 2022. Average rate of purchasing on per day amount of Rs 2,682 per day and maintenance and food items purchase from local market is allowed up to amount Rs 5,000. The DAC directed the management to produce relevant record in detail with justification to audit for verification.
- b) The management explained the DAC that Skyrooms (Private) Limited started business of manpower provided to PIACL because M/s Fulcrum Pvt. Ltd left the tender of manpower services. All bank account numbers of PIACL Daily wages staff not handover to M/s Skyroom Private Limited. Mostly open cheques with names related to M/s Skyrooms Private Limited Manpower business and huge amount of open cheques are withdrawal cash from bank due to last date of Government Taxes and SESSI payment. The DAC directed the management to produce relevant record in detail with justification to audit for verification.

Audit recommends implementation of the DAC directives.

(DP No. 326 & 343)

1.2.4.8 Non-deposit of employee's provident fund - Rs 52.915 million

According to Section 218 (1) of Companies Act, 2017, Employees' provident funds and securities, all moneys or securities deposited with a company by its employees in pursuance of their contracts of service with the company shall be kept or deposited by the company within fifteen days from the date of deposit in a special account to be opened by the company for the purpose in a scheduled bank or in the National Saving Schemes, and no portion thereof shall be utilized by the company except for the breach of the contract of service on the part of the employee as provided in the contract and after notice to the employee concerned.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that the management did not deposit the employees' contribution of provident fund amounting to Rs 52.915 million in Provident Fund Account in violation of above rule despite deducting the amount from salaries of the employees regularly.

Audit is of the view that the management failed to deposit the compulsory provident fund amount which might lead to embezzlement of the provident fund.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management explained the DAC that skyroom contributing Employees Provident Fund on monthly basis and trying to reduce outstanding contributions by paying one current and one old balance to clear previous year's outstanding balances. The DAC directed the management to deposit the employee's provident fund current and old amount within six months and share with audit.

Audit recommends implementation of the DAC directives.

1.2.4.9 Irregular / un-justified re-tendering of contracts - Rs 33.050 million

As per terms and condition of SRL's instruction to bidders, if the firm withdrawn its offers or backs out from providing items won by the firm within validity period at any stage of contract finalization, the competent authority may place such firm under embargo for a period of six months, which may extend up to one year / forfeit the bid security.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that the management awarded contracts to various suppliers / bidders for procurement of different items amounting to Rs 33.050 million through competitive bidding process (Annex-18). However, contractors / suppliers failed to complete their contracts as per agreements and provided partial items. The management did not take action against the defaulting contractors and instead refunded the security deposit to the contractors and issued revised tenders.

Audit is of the view that the management failed to safeguard the interest of the company and did not take action against the defaulting suppliers / contractors. This reflects poor financial management and weak internal controls.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management explained the DAC that SRL

Management has awarded a contract of different items in 2022 and due various uncontrollable circumstances, external factors beyond control of Management these vendors / contractors / suppliers were unable to continue their contacts. Furthermore, as per agreement termination of the Agreement each party shall have the right to terminate the agreement at any time at its option upon given 60 days written notice to the other party with assigning any reason or cause thereof. The DAC directed the management to conduct fact-finding inquiry in the matter to ascertain the factual position.

Audit recommends implementation of the DAC directives.

1.2.4.10 Non-recovery of services charges - Rs 20.733 million

As per agreement dated 2nd December 2020 executed between PIAC and SRL for out source of manpower services, of qualified and experienced employees, managing their wages, hiring and replacement of the employees at Karachi and such other locations. The PIA shall reimburse the wages along with service charges to the service provider by 10th of each month. The agreement shall be valid for one year, term of agreement extendable for further two years subject to PIACL requirement and satisfactory performance of the service provider.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that in light of above agreement, management provided services of experienced staff to PIAC, managing their wages, hiring and replacement of the employee. Subsequently, SRL raised bill/invoice amounting to Rs 20.733 million which were not recovered from PIAC. The detail is as under:

Rs in million					
S#	Year	No of hired staff	Average pay Per staff (Rs)	Total salaries	Service charges @ 1.40%
01	2022	33,819	25,161	850.951	11.913
02	2021	36,000	17,500	630.000	8.820
Total					20.733

Audit is of the view that the management failed to recover the amount which indicates weak internal controls and poor financial management.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. Management explained the DAC that an amount of Rs 1,24,91,589 has been received by M/s Skyrooms Pvt. Ltd (Outsourcing Unit) from PIACL, on account of 1.4% commission as manpower provisioning service charges, during the year Jan-Dec 2022. Regarding FY 2021, details of 1.4% commission as manpower provisioning service charges, will be submitted in due

course of time. The DAC directed the management to provide relevant record to Audit for verification as the recovery already made and pursue the remaining amounts vigorously.

Audit recommends implementation of the DAC directives.

1.2.4.11 Manual cash / revenue collection from clients - Rs 5.829 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Chief Executive is responsible for the management of the Public Sector Company and for its Producers in Financial and other matters, subject to the oversight and directions of the Board, in accordance with the ordinance and these rules.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that management provided various services to different clients without maintaining proper record and partial payments were manually recorded without any reconciliation. It was also observed that bookings rates charged were not in accordance with the standard hotel rates. The details of manual receipts are as under:

Audit is manual and recording of reconciliation	Description	Rs in million	of the view that partial cash without might lead to
	Party space charges (Lawn)	0.220	
	Banquet Hall	0.570	
	Swimming Pool	1.175	
	Dining Hall – Cash	3.864	
	Total	5.829	

misappropriation.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management explained the DAC did not have any manual receipt of cash. SRL management collection from cash counter as per Cash Receipt (CR) it was system generated CR also this CR provided to our customer at the time of advance booking and at the time of payment of rooms rent, food from café fly and dining hall. Furthermore, all party booking advance payment cash or cheque received as per system generated CR. The DAC directed the management to produce the relevant record in detail to audit for verification.

Audit recommends implementation of the DAC directives.

1.2.4.12 Irregular award of contract without competitive bidding – Rs 4.187 million

Rule 12(1) of PPRA, 2004 states that procurement over one hundred thousand rupees and up to the limit of two million rupees shall be advertised on the Authority’s website in the manner and format specified by regulation by the Authority from time to time. These procurement opportunities may also be advertised in print media, if deemed necessary by the procuring agency.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that the management awarded contract for procurement of 95mm cable PVC 400 meters 4 core electric wire to M/s Hashim Traders amounting to Rs 4.187 million without competitive bidding.

Audit is of the view that award of contract without calling tender is a gross violation of PPRA Rules, 2004 and stands irregular and unjustified.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management explained the DAC that user department recommended procuring of cable electric wire on emergent basis as per PPRA rule 42 (c) 5 and (D) 3. Therefore, management obtained a quotation direct from recommended dealer and local dealer vendor's. The Central Purchase committee (CPC) decided that M/s Hashim Distributor is first lowest vendor, therefore procurement from the same vendor was allowed/approved on urgent basis and also approved by CEO PIA. The DAC directed the management establishment of fora and also approval from principal accounting officer (PAO) for procurement of cable wire and the same share with audit for verification.

Audit recommends implementation of the DAC directives.

1.2.4.13 Irregular / unjustified payment of festival allowance – Rs 3.893 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that the festival allowance was discontinued by the BoD in 2020 due to huge losses suffered by the organization. However, the same was paid to the permanent employees of Skyrooms on the occasion of Eid-ul-Fitr and Eid-ul Azha @ 33.33% of the current basic pay amounting to Rs 3.893 million during the year 2023.

Audit is of the view that payment of allowances without approval of BoD was held irregular as this was also highlighted by the external auditor in their qualified opinion.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management explained the DAC that SRL is in profit in the year 2023. Festival allowance was paid for only this year as per approval by CEO and incentive allowance was paid as per 78th BOD approval. The DAC directed the management to produce the relevant record to audit for verification.

Audit recommends implementation of the DAC directives.

1.2.4.14 Non-obtaining of performance guarantee - Rs 3.103 million

Rule 39 of PPRA Rules, 2004 states that where needed and clearly expressed in the bidding documents, the procuring agency shall require the successful bidder to furnish a performance guarantee, which shall not exceed ten percent of the contract amount.

As per letter of intent, Security Deposit is equivalent to 5% of the total contract value in the shape of “Pay Order” in the name of Sky room (Private) Limited.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that the management awarded contracts for various procurements without obtaining 5% performance guarantee amounting to Rs 3.103 million. (Annex-19)

Audit is of the view that the awarding of contract without obtaining performance guarantee is a gross violation of the provisions of PPRA Rules, 2004.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. Management explained the DAC that SRL received total amount of security deposit against the tender of Rs 3,103,469. But management received only 2% security deposit above each tenders. The DAC directed the management to conduct fact finding inquiry in the matter to ascertain the factual position.

Audit recommends implementation of the DAC directives.

1.2.4.15 Non-deduction of tax - Rs 1.755 million

According to Para 2 of Revenue Division SRO 660(1)/2007 dated June 30, 2007, the withholding agent shall deduct an amount equal to one fifth of the total Sales Tax shown in the Sales Tax invoice issued by the supplier and deposit the withheld amount in treasury.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that management did not deduct the one fifth of the general sales tax amounting to Rs 1.775 million at the rate of 17% on contracts awarded to various suppliers of Rs 48.036 million. (Annex-20)

Audit is of the view that the management failed to deduct the requisite tax in violation of above rules.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management explained the DAC that all suppliers are registered in FBR as tax payers and also deposited GST in Government treasury. The DAC directed the management to produce the relevant record to audit for verification and mechanism should be made to deduct SST/GST in future.

Audit recommends implementation of the DAC directives.

1.2.4.16 Non-preparation / finalization of annual accounts

Rule 10 of Public Sector Companies (Corporate Governance) Rules, 2013, states that every Public Sector shall, within one month of the close of first, second and third quarter of its year of account, prepare a profit and loss account for, and balance sheet as at the end of that quarter, whether audited or otherwise, for the Board’s approval.

During audit of Skyrooms (Pvt.) Limited (SRL) for the year 2022, it was observed that management did not finalize the annual audited accounts for the years 2020 onwards, which was in violation of statutory requirements.

Audit is of the view that due to non-preparation of annual audited accounts, fair and true picture of the affairs of the corporation could not be ascertained.

The matter was reported to the management in September 2023. The irregularity was discussed in the DAC meeting held on January 03 & 04, 2024. The management explained the DAC that annual audit accounts, management made efforts on this matter and finalization of Audit accounts on Fast track. In the month of February, 2024 will be completed all the previous year accounts. The DAC directed the management up to February 2024 accounts for the year 2020, 2021 and 2022 should be finalized and share with audit.

Audit recommends implementation of the DAC directives.

Chapter-2

Cabinet Division

Overview

The Cabinet Division's role is to facilitate Federal Cabinet, its meetings and official visits of delegations.

Aims & Objectives

2.1 Pakistan Tourism Development Corporation (Head Office) Rawalpindi

2.1.1 Introduction

Pakistan Tourism Development Corporation (Pvt.) Limited (the Company) was incorporated in Pakistan on March 19, 1977 under the Companies Act, 1913 (now Companies Ordinance 1984) as a public corporation limited by shares. Federal Government holds 99.75% of the paid up share capital of the Company. The Company also has deposited for shares of Rs 623.15 Million representing the grants received from the Federal Government for capital expenditure on specified capital project. The core objective of the Corporation is the promotion and development of tourism industry in Pakistan and to carry on business connected therewith in Pakistan and elsewhere.

The associated objectives are: -

- To develop and improve its hotels, motels and tourist information centers.
- To produce publicity and promotional material for distribution at home and abroad.
- To conduct promotional programs, activities and events for attaching tourists.
- To create awareness of tourist through private sector, missions abroad, PIA offices, tour operators, travel agents and hoteliers.

The Head Office of the Company is situated at Ground Floor of Kohsar Block, Pak Secretariat Islamabad.

The Corporation owns and controls the following subsidiaries:

- a. Pakistan Tours (Pvt.) Ltd.
- b. PTDC Motels North (Private)
- c. Associated Hotels of Pakistan
- d. PTDC Motels South (Private)

These financial statements have been prepared on going concern basis without any adjustment to assets and liabilities.

2.1.2 Comments on Audited Accounts

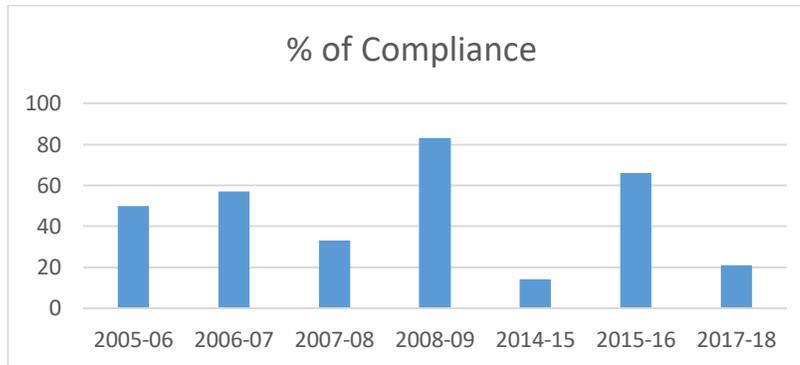

2.1.2.1 The annual audited accounts are required to be provided to Audit for review each year. Contrary to this, the management failed to provide audited annual accounts for the year 2021-22 and 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts for the years 2020-21 to 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*Annex-2*).

2.1.3 Compliance of PAC Directives

S. #	Audit Report	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	% of Compliance
1	2005-06	02	1	1	207	50
2	2006-07	07	04	03	203.2,203.3,203.4	57

3	2007-08	03	01	02	174,175	33
4	2008-09	06	05	01	224.1	83
6	2014-15	07	01	06	2.4.2.1,2.4.3,2.4.4.1, 2.4.4.2,2.4.4.3,2.4.4.4	14
7	2015-16	06	02	04	2.4.1, 2.4.2, 2.4.3, 2.4.4.1	66
8	2017-18	14	03	11	2.4.2.2, 2.4.2.3, 2.4.2.4, 2.4.2.5,2.4.2.6,2.4.2.7, 2.4.2.8,2.4.2.9,2.4.3, 2.4.4.1,2.4.4.2	21
Total		45	17	28		38

Overall compliance of the PAC directives was not satisfactory which needs to be improved.

2.1.4 Audit Paras

2.1.4.1 Wasteful expenditure due to accepting incomplete project namely Brand Pakistan - Rs 28.988 million

As per PC-1 of project, the following 04 components of the project were required to be completed:

1. Development of lyrics, melody, composition music etc. which should convey the essence of the theme and represent Pakistan culture and heritage.
2. Song must be with video background containing tourist attractions of Pakistan
3. Length of the song should be 3 to 4 minutes
4. Vocalist must be one of the famous national singers of Pakistan.

During audit of PTDC Islamabad for the years 2018-23, it was observed that the management awarded a contract for development of video film and musical score namely Brand Pakistan to M/s White Rice Communication valuing Rs 28.988 million vide agreement dated 03.02.2022 and the work was required to be completed within 60 days. The company delivered video film on 30.06.2021 and management paid Rs 28.988 million in March & June 2021.

Record revealed that the production company ignored components mentioned at Sr. No. 02, 03 & 04 as per PC-I. Thus, due to non-inclusion of main components in the Brand for Pakistan, incomplete product was delivered which was accepted by the management.

Audit is of the view that management should not have paid full amount due to delivery of incomplete / deficient product. Thus, the core objective i.e. promotion and development of tourism industry could not be achieved.

The matter was reported to the management on December 04, 2023. The management in its reply dated January 20, 2024 stated that all the deliverables were completed by the firm and payment of Rs 26.089 million was made to the firm after deduction of 10% LD charges i.e. Rs 2.898 million.

Reply of the management is not convincing as the deliverables were not as per required components of the project as mentioned in PC-1 which showed that management failed to achieve the objectives of the project.

DAC meeting was held on 25.01.2024 but the minutes of the meeting were awaited.

Audit recommends investigating the matter besides fixing responsibility thereof.

Para-7 (PTDC –2018-23)

2.1.4.2 Non deposit of income tax and irregular utilization of tax amount - Rs 7.506 million

According to Section-160 of Income Tax Ordinance, 2001 any tax that has been deducted under this ordinance shall be paid to the Commissioner by the person making the collection or deduction within the time and in the manner as maybe prescribed. Further in terms of provisions of Section-161 where the person having deducted tax under this ordinance fails to pay the tax to the Commissioner as required under Section-160 of the Ordinance, the person shall be personally liable to pay the amount of tax to the Commissioner. Section-191 further clarifies that any person whom without reasonable excuse, fails to comply with the obligation under Part-V of this chapter i.e. to collect or deduct tax and pay the tax to the commissioner shall commit an offense punishable on conviction with a fine or imprisonment for a term not exceeding one year or both.

During audit of PTDC Islamabad for the years 2018-23, it was observed that income Tax amounting to Rs 7.506 million for the financial year 2021-22 was deducted but the same was not deposited into government treasury despite lapse of two years. As per rules, the deducted amount was required to be deposited within seven days otherwise additional tax @ 24 % would be paid for the delayed period.

Audit is of the view that non-payment of tax to the tax authorities was an offense which deprived the public exchequer from Rs 7.506 million.

The matter was reported to the management on December 04, 2023. The management in its reply dated January 20, 2024 stated that objected payable tax had been adjusted against the amount forcefully taken by the FBR from the bank account of PTDC.

The reply is not convincing as the deducted amount was required to be deposited within seven days as per rules.

DAC meeting was held on 25.01.2024 but the minutes of the meeting were awaited.

Audit recommends investigating the matter besides fixing responsibility thereof; and the tax liability be cleared immediately.

2.1.4.3 Irregular appointment during ban period - Rs 3.390 million

According to Finance Division (Expenditure Wing) Office Memorandum No. 7(1) Exp. IV/ 2016-340 dated July 07, 2022 regarding Austerity Measures for Financial year 2022-23, there was complete ban on appointment of contingent paid/daily wagers staff except for development projects.

During audit of PTDC Islamabad for the years 2018-23, it was observed, that the management made the following appointments on daily wage basis during 2022-23 by paying an amount of Rs 3.390 million as per detail given below:

Sr. #	Name of employee	Designation	Date of appointment on daily wage	Per day remuneration (Rs)	Amount paid up to 30.09.23 (Rs)
1	Mr. Muhammad Asim	IT Officer	01.08.2022	4,000	1,068,649
2	Mr. Ikram Fareed	Cloud Engineer	01.08.2022	4,000	969,550
3	Ms. Nimra Shariq	Program officer	01.08.2022	4,000	1,351,962
					3,390,161

It was noticed that initially the services of said officers were hired against project, thereafter, they were hired on daily wage basis in violation of Govt. austerity measures.

Audit is of the view that the appointments made during ban period were irregular.

The matter was reported to the management on December 04, 2023. The management in its reply dated January 20, 2024 stated that the employees were appointed for a PSDP project. After expiry of said project, operation of E-portal and Mobile App; developed under the project, was required to be run for which the said three employees were re-hired on daily wages with the approval of Executive Committee and Governing body of Endowment Fund.

Reply of the management is not convincing as appointments were made during ban period in violation of Finance Division instructions.

DAC meeting was held on 25.01.2024 but the minutes of the meeting were awaited.

Audit recommends investigating the matter besides fixing responsibility thereof.

2.1.4.4 Irregular payment on account of additional increment - Rs 2.029 million

According to Finance Division O.M No.F.1(6) Imp/2000-392 dated June 18,2011, the advance increments for acquiring/possessing higher qualification will be admissible to those officials who have been promoted to higher posts on the basis of seniority cum fitness but were not allowed advance increments to those who possess the qualification prescribed for the said promotional post.

During audit of PTDC Islamabad for the years 2018-23, it was observed that management granted two advance increments to Mr. Asif Zaman Tourism officer vide letter dated 12.01.2023 w.e.f. 05.07.2007. The officer concerned requested for grant of two advance increment in consideration of his M.A degree from Karachi university in 2007 and accordingly management accepted his request and paid an amount of Rs 2.029 million to him. Payment of two advance increments after 17 years to the aforesaid officer was not covered under the rules, thus, held irregular.

Audit is of the view that undue favor was granted to the officer at the cost of Govt. exchequer and in violation of Govt. orders.

The matter was reported to the management on December 04, 2023. The management in its reply dated January 20, 2024 stated that two additional increments were paid under Union Agreement dated 31.3.1990 (duly approved by PTDC Board in its 46th meeting) according to which every employee who improved his qualification during service was entitle for this benefit.

Reply of the management is not convincing as the Corporation adopted Govt. pay scale for employees of BPS-1 to 16 and the scheme of advance increments was discontinued w.e.f 1.12.2001 vide Finance Division OM dated September 04, 2001.

DAC meeting was held on 25.01.2024 but the minutes of the meeting were awaited.

Audit recommends investigating the matter besides fixing responsibility thereof and effecting recovery.

Para-9 (PTDC –2018-23)

2.2 Printing Corporation of Pakistan (Pvt.) Limited

2.2.1 Introduction

Printing Corporation of Pakistan (Pvt.) Limited was incorporated on January 01, 1969 as a private limited company under the Companies Act, 1913 (now Companies Act, 2017). The entire shares of the Company are held by the Government of Pakistan. The registered office of the Company is situated at Khayaban-e-Suhrawardy, Islamabad.

The Company is principally engaged in the business of printing of government publications. Currently, the Company has the following presses:

1. PCP Printing Press Islamabad;
2. PCP Printing Press Lahore; and
3. PCP Printing Press Karachi.

2.2.2 Comments on Audited Accounts

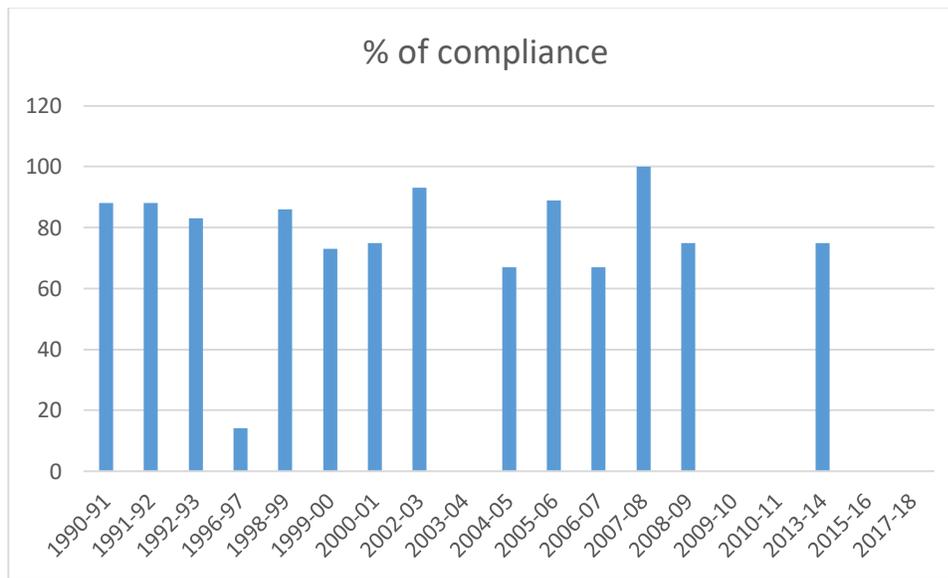

2.2.2.1 The annual audited accounts are required to be provided to Audit for review each year. Contrary to this, the management failed to provide audited annual accounts for the years 2020-21 to 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts for the years 2020-21 to 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*Annex-2*).

2.2.3 Compliance of PAC Directives

S. #	Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	% of compliance
1	1990-91	08	7	1	12	88
2	1991-92	08	7	1	8	88
3	1992-93	12	10	2	6, 10	83

19	2017-18	12	0	12	2.1.1, 2.1.2.1, 2.1.2.2,2.1.2.3, 2.1.2.4, 2.1.2.5, 2.1.2.6, 2.1.2.7, 2.1.2.8,2.1.2.9, 2.1.2.10,2.1.3	0
Total		146	85	61		58

Overall compliance of the PAC directives was not satisfactory which needs to be improved.

2.2.4 Audit Paras

2.2.4.1 Loss due to weak operational activities - Rs 621.61 million

According to Rule 4(3) of the Public Sector Companies (Corporate Governance Rules 2013), the chief executive of the Public Sector Company manages the organization, following the Board's oversight. Their duties involve implementing approved strategies and policies, ensuring proper safeguarding of funds and resources, and overseeing their economical and efficient utilization in accordance with statutory obligations.

During audit of Printing Corporation of Pakistan for FY 2020-23, it was observed that Corporation had been sustaining huge losses of Rs 621.61 million for last three years. Main reasons for such increase in the accumulated losses were increased in operational / sales / admin related expenditure. The printing was reduced and receivables were increased resulting in adverse liquidity position. Therefore, it is clear that due

to non-existence of business plan / marketing strategy to increase sales and control the expenditure, the accumulated losses kept increasing. No steps were taken by the management to ensure commercial viability of the Corporation, showing financial management.

The matter was reported to the management on October 23, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the reasons for heavy accumulation of losses and fixing responsibility on persons at fault.

Para 12 (PCP –2020-23)

2.2.4.2 Loss due to unsatisfactory job pendency reports – Rs 440.22 million

According to Para-10(i) of General Financial Rules, “Every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public money as a person of ordinary prudence would exercise in respect of expenditure of his own money.”

During audit of Printing Press Lahore of PCP for FY 2020-23, it was observed a huge amount on account of 75% advance was received against 564 jobs upto 2023 which was still outstanding despite lapse of more than 5 years. The management informed that the relevant material regarding pendency of jobs was not available for printing the outstanding orders/demands of various departments. The matter was taken up with the Head office for provision of printing paper but no reply was received.

Audit is of the view that due to pendency of jobs, the cost of jobs was increasing day by day which would ultimately result in conversion of profits into losses.

The matter was reported to the management on October 23, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends explanation for the unsatisfactory performance. Further, a detailed inquiry may be conducted at appropriate level with a view to dig out reasons for such huge pendency and its contributing factors. Steps may also be taken to strengthen the business plan.

Para 25 (PCP –2020-23)

2.2.4.3 Non-recovery of outstanding dues from various clients - Rs 129.29 million

According to Rule 38(1) of General Financial Rules, Vol-1, it is primarily the responsibility of the departmental authorities to see that all revenue or other debts due to government, which have to be brought to account, are correctly and promptly assessed, realized and credited to Public Account.

During audit of PCP, Islamabad for FY 2020-23, it was observed that an amount of Rs 129.29 million was outstanding against various departments since 2019-20. The management failed to recover the amount which showed negligence towards recovery of outstanding dues.

Audit is of the view that due to lack of financial control of the management and imprudent approach specifically to outstanding dues, PCP sustained loss of Rs 129.29 million.

The matter was reported to the management on October 23, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends immediate recovery of the amount involved from the respective departments.

Para 8(PCP –2020-23)

2.2.4.4 Irregular purchase of machinery – Rs 19.10 million

According to Delegation of Powers of PCP, the Managing Director is empowered to sanction purchase of machinery up to the extent of One million.

During audit of PCP, Islamabad for FY 2020-23, it was observed that the management purchased three machines of Rs 19.10 million vide Purchase Order No. dated 12.07.2023.

Audit is of the view that as the Managing Director's powers to purchase fixed assets and machinery was restricted upto one million while the subject purchase case was of Rs 19.10 million, hence the purchase was held irregular in Audit.

The matter was reported to the management on October 23, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends explanation of the reasons for irregular procurement and fixing responsibility thereof.

Para 5 (PCP –2020-23)

2.2.4.5 Wasteful expenditure on procurement of 109.500 metric ton (dark green) offset paper - Rs 14.44 million

According to Rule-5(5)(a) of the Public Sector Companies (Corporate Governance) Rules, 2013, the principle of probity and propriety entails that company's assets and resources are not used for private advantage and due economy is exercised so as to reduce wastage. The principle shall be adhered to, especially with respect to handling of public funds, assets, resources etc.

During audit of Printing Press Karachi of PCP for FY 2020-23, it was observed that the management incurred an amount of Rs 14.44 million on procurement of 109,500 Metric Ton (Dark Green) Offset Paper (20x30) 68 grams from M/s Arsam Puple & Paper Board Industries (Pvt.) Ltd. Sheikhpura. The price of one metric ton paper was Rs 131,900 and purchase order was issued on 17.12.2013.

Audit is of the view that the management incurred wasteful expenditure without proper planning, resulting into loss of Government revenue amounting to Rs 14.44 million. The material was still lying unused in the store.

The matter was reported to the management on October 23, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends corrective action in this regard may be taken. An inquiry may be conducted at appropriate level for recovery of wasteful expenditure incurred and fix responsibility thereof.

Para 15(PCP –2020-23)

2.2.4.6 Illegal occupation and loss due to non-recovery of house rent - Rs 13.22 million

According to Rule 5(5) of the Public Sector Governance Rules, 2013, the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders.

During the audit of Printing Press Karachi of PCP (Prescribed Companies and Corporate Securities) for FY 2020-23, it was found that retired employees retained allotted accommodations without paying rent. The audit suggests that if the management had timely vacated these accommodations after retirement and reassigned them to working employees, a recurring loss of Rs 13.224 million to the government exchequer could have been avoided.

The matter was reported to the management on October 23, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends corrective action in this regard may be taken. Also, conduct an inquiry at appropriate level to dig out reason for not taking proper timely action and fix responsibility thereof.

Para 18 (PCP –2020-23)

2.2.4.7 Wasteful expenditure on purchase of offset paper 68 gsm - Rs 10.16 million

According to Rule 38 B (2) of PPRA, “The procuring agency shall make a decision with due diligence and in compliance with General Principles of procurement like economy, efficiency and value for money.”

During audit of Lahore Press of PCP for FY 2020-23, it was observed that a huge quantity of paper reams; Green Offset Paper 68 GSM (20”x30”) 78.250 M. Ton amounting to Rs 10.165 million were purchased by the management ten years back vide letter dated 17.12.2013.

The audit identified shortcomings in the organization, including the absence of a need assessment before a purchase, disregard for economic factors, and neglect of unused paper for ten years. This resulted in blocked government funds, and the matter was not reported to the Head Office, leading to the wasteful expenditure of Rs 10.165 million.

The matter was reported to the management on October 23, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justification for violation of governmental instructions may be sought and fix responsibility thereof. The loss may be made good by affecting necessary recovery or otherwise.

Para 23(PCP –2020-23)

2.2.4.8 Irregular procurement of services for binding/printing work - Rs 6.60 million

According to Rule 4 of PPRA, 2014, “Procuring agencies, while engaging in procurement, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.”

According to PPRA Rules revised in 2023, “Open tendering for purchases more than Rs 500,000 will be conducted”. Further according to Rule-2(2) of Public Procurement Rules-2004, “all procurement opportunities over three million should be advertised on the Authority’s website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.”

The audit of Karachi Press Office for FY 2020-23 revealed irregularities in the procurement process for printing books for Allama Iqbal Open University. The management did not follow competitive bidding procedures, and the absence of open tendering led to a single quotation exceeding Rs 0.500 million in value. The procurement of services for binding and printing work amounting to Rs 6.60 million was deemed irregular by audit.

The matter was reported to the management on October 23, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to explain the reasons for irregular award of contract. Justify the reason/s besides fixing responsibility thereof.

Para 14 (PCP –2020-23)

2.2.4.9 Irregular expenditure by splitting the purchase orders - Rs 5.02 million

According to Rule 38 B (2) of PPRA, “The procuring agency shall make a decision with due diligence and in compliance with General Principles of procurement like economy, efficiency and value for money.”

According to PPRA 42 (b), “A procuring agency shall engage in this method of procurement only if the following conditions exist, namely: - (i) Where the value of procurement is more than one hundred thousand Pakistani Rupee but does not exceed five hundred thousand Pakistani Rupee, the procuring agency may engage in procurement through request for three quotations from GST registered firms, original equipment manufacturers or authorized dealers, without resorting to bidding. (ii) the object of the procurement has standard specifications; (iii) minimum of three quotations have been obtained; and (iv) the object of the procurement is purchased from the supplier offering the lowest price: Provided that procuring agencies are convinced of the inadequacy of the financial limit prescribed for request of quotations in undertaking their respective operations, they may approach the Federal Government for enhancement of the same with full and proper justifications.”

During audit of Lahore Press of PCP for FY 2020-23, it was observed that the management purchased certain stock items from different vendors by splitting the purchase orders.

Audit is of the view that as the management made purchases from different vendors in the years as specified above just to avoid open tendering by splitting the orders. Thus, an expenditure totaling Rs 5.02 million was held irregular in audit.

The matter was reported to the management on October 23, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends violation of Government instructions regarding purchases need justification and fixation of responsibility thereof.

Para 27 (PCP –2020-23)

2.2.4.10 Wasteful expenditure on acquisition of land measuring 12 kanal - Rs 1.60 million

According to Rule 5(5) of the Corporate Governance Rules 2013, the board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety.

During the audit of Printing Press Lahore of PCP for FY 2020-23, it was found that three industrial plots allotted in 1984 remained unutilized for 30 years. The management deposited Rs 1.600 million at the time of allotment, and in 2014, the land was valued at Rs 187.47 million by a private consultant. According to the audit assessment, the management's acquisition of the land resulted in substantial expenditures. However, due to poor planning and the failure to utilize the land, the corporation is facing continuous losses of millions of rupees each day.

The matter was reported to the management on October 23, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that violation of government instructions regarding acquisition of assets and their maintenance be justified; fix responsibility thereof and the loss may be made good by using the land for a useful purpose.

Para 26(PCP –2020-23)

2.2.4.11 Unnecessary issuing of NOC for printing work outside printing press resulting into loss of revenue - Rs 1.57 million

According to Rule 10 of the General Financial Rules, Vol-I, “in incurring and sanctioning expenditure from the revenue, the disbursing officers and sanctioning authorities should exercise the same vigilance in respect of expenditure incurred from Government revenue as a person of ordinary prudence would exercise in respect of the expenditure of his own money.”

During the audit of PCP in Islamabad for FY 2020-23, it was observed that the management issued 53 No Objection Certificates (NOCs) to various government offices and autonomous bodies under the Federal Government's jurisdiction. These NOCs were issued on blank requisitions without specifying the quantity of printing, resulting in a loss of Rs 1.574 million. The audit recommends an explanation for the frequent issuance of NOCs, proposing that instead of issuing 53 NOCs, the management could have forwarded the cases to the Cabinet Division.

The matter was reported to the management on October 23, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that the reasons for frequent issuance of NOCs may be explained and fix the responsibility of revenue loss.

Para 13 (PCP –2020-23)

2.2.4.12 Loss due procurement at higher rates - Rs 1.28 million

According to Rule-5 (5) of Public Sector Governance Rules, 2013, “The Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders.”

During the audit of PCP Islamabad for FY 2020-23, it was observed that the management issued a purchase order (No. PCP.1-2/2023-P&D/742, dated 17.03.2023) to M/s Z.A. Corporation, Lahore, for the purchase of 6,500 reams of White offset paper at Rs 4,967/ream. A sanction of Rs 9.78 million was granted for the delivery of 1,970 reams out of the total. However, it was noted that another firm, M/s Premier Paper Mills, Lahore, offered a lower rate of Rs 4,315.59 per ream. The reasons for not placing the order with the lowest bidder were not disclosed by the management. The audit asserts that due to an improper procurement process, the government incurred a loss of Rs 1.283 million.

The matter was reported to the management on October 23, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends explanation of the reasons of procurement at higher rates and fixation of responsibility thereof. Preparation of improper procurement plan also needs justification.

Para 4 (PCP –2020-23)

2.2.4.13 Loss due to non-achievement of revenue targets - Rs 1,184.18 million

According to Clause 2A (3), “The Public Sector Company shall not be regarded as conducting its business in a sound and prudent manner if it fails to conduct its business with due regard to the legitimate policy objectives and development targets of the Government.”

During audit of PCP, Islamabad for FY 2020-23, it was observed that the management failed to achieve its own annual set target of sales. Audit is of the view that the non-achievement of revenue targets due to ill planned management, improper utilization of available resources and non-existence of any market/sales plan is a failure on the part of the management which resulted in a loss of Rs 1,184.18 million.

The matter was reported to the management on October 23, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to reasons may be explained for failure of achievement of fixed revenue/sales target and fix responsibility thereof.

2.2.4.14 Improper management leading to non-appointment of CFO and CIA

According to Rule 13 of the Public Sector Corporate Governance Rules, 2013, (1) The Board shall appoint a chief financial officer, a company secretary and a chief internal auditor by whatever name called. (2) The appointment, remuneration and terms and conditions of employment of the chief financial officer, the company secretary and the chief internal auditor of Public Sector Company shall be determined with the approval of the Board. (3) The chief financial officer, the company secretary, or the chief internal auditor of Public Sector Company shall not be removed except with the approval of the Board.

According to Rule 22 (1) (4), there shall be an internal audit function in every Public Sector Company. The chief internal auditor, who is the head of the internal audit function in the Public Sector Company, shall be accountable to the audit committee and have unrestricted access to the audit committee. (4) The internal audit function shall have an audit charter, duly approved by the audit committee and shall work, as far as practicable, in accordance with the standards for the professional practice of internal auditors issued by the Institute of Internal Auditors Inc., (the global professional organization of internal audit profession)

During the audit of PCP, Islamabad for FY 2020-23, it was observed that the positions of Chief Financial Officer (CFO) and Chief Internal Auditor (CIA) have remained vacant for an extended period. The management of the Corporation during this time was characterized by a lack of formality. The audit asserts that the failure to appoint a CIA and CFO is in violation of Government instructions, casting doubt on the transparency of all transactions and associated expenditures.

The matter was reported to the management on October 23, 2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to investigate reasons for non-appointment of CFO and CIA and fix responsibility thereof. Also, devise measures that ensure similar situation may be avoided in future.

Chapter-3

Ministry of Commerce & Textile

Overview

Ministry of Commerce is contributing to the national economy through trade liberalization and facilitation, improving export competitiveness and reducing cost of doing business. It aims to achieve higher market access for Pakistani products in existing markets as well as new markets with ultimate aim of improving quality of life of the people of Pakistan.

Aims & Objectives

Commerce Division is assigned the following objectives:

- Imports and exports across customs frontiers
- Exports promotion
- Commercial intelligence and statistics
- Tariff policy and its implementation
- Anti-dumping duties, countervailing duties and safeguard laws
- Inter-Provincial trade
- Domestic Commerce
- Organization and control of Chambers and trade associations
- Law of Insurance and regulation and control of Insurance companies
- Administrative Control of Attached Departments/Organizations
- Selection of Trade Officers for posting in Pakistan's Missions abroad

Governing Laws and Policies

- Rules of Business, 1973
- Studies on Domestic Commerce
- OIC Ten Year Plan of Action for Science & Technology for the years 2016-25
- Export /Import Policy Order, 2009
- Trade Organization Ordinance, 1961

3.1 National Insurance Company Limited

3.1.1 Introduction

National Insurance Company Limited (NICL) was established under the National Insurance Act, 1976. Later on, it was registered as a Public Limited Company under Companies Ordinance, 1984 on March 31, 2000 and renamed as National Insurance Company Limited (NICL).

The Company is principally engaged in Non-Life Insurance Business of Public Property comprising of Fire, Marine, Aviation and Transportation, Engineering and Crops/Agriculture Insurance etc.

3.1.2 Comments on Audited Accounts

3.1.2.1 The annual audited accounts are required to be provided to Audit for review each year. Contrary to this, the management failed to provide audited accounts of the organization for the years 2018 to 2022 despite a number of reminders.

3.1.2.2 Audit requires that the annual audited accounts of the years 2018 to 2022 be provided immediately and timely finalization be ensured in future, besides, fixing responsibility for non-finalization of annual audited accounts (*Annex-2*).

3.1.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	%age of compliance
2004-05	3	2	1	4	67%
2010-11	11	8	1	2.1.4.1	73%
2011-12	15	3	12	3.1.3, 3.1.4.1, 3.1.4.2, 3.1.4.3, 3.1.4.4, 3.1.4.6, 3.1.4.7, 3.1.4.8, 3.1.4.9, 3.1.4.10, 3.1.4.11, 3.1.4.12	20%
2012-13	4	1	3	3.1.4.2, 3.1.4.3, 3.1.4.4	25%
2013-14	5	4	1	4.1.2	80%
2014-15	7	4	3	4.2.4.1, 4.1.4.2, 4.1.4.3	57%

2015-16	9	3	6	4.1.4.1, 4.1.2.1, 4.1.3, 4.1.4.2, 4.1.4.4, 4.1.4.5	33%
2016-17	11	3	8	3.1.4.6, 3.1.2.1, 3.1.3, 3.1.4.2, 3.1.4.3, 3.1.4.5, 3.1.4.6, 3.1.4.7	27%
2017-18	7	4	3	4.1.3, 4.1.4.3, 4.1.4.4,	57%
2019-20	2		2	3.1.4.1, 3.1.4.2	
Total	74	32	40		43%

The overall compliance of PAC directives needs improvement.

3.1.4 Audit Paras

3.1.4.1 *Outstanding claims due to delay in submission of survey reports – Rs 27,651.768 million*

Section 118 (1) of Insurance Ordinance, 2000 states that it shall be an implied term of every contract of insurance that where payment on a policy issued by an insurer becomes due and the person entitled thereto has complied with all the requirements, including the filing of complete papers, for claiming the payment, the insurer shall, if he fails to make the payment within period of ninety days from the date from which the payment becomes due or the date on which the claimant complies with the requirements, whichever, is later, pay as liquidated damages a sum calculated in the manner as specified on sub-section. (2) on the amount so payable unless he proves that such failure was due to circumstances beyond his control.

Section 47(4) of Insurance Rules 2017, states that every survey conducted by, and report given by, an insurance surveyor shall be conducted and given with due diligence and skill, and in good faith and the report shall be finalized as early as possible but within the period of ninety days.

During audit of National Insurance Company Limited (NICL), North Zone, Islamabad for the year 2022, it was observed that the management recorded number of outstanding estimated losses amounting to Rs 27,218.377 million in the subsequent years. Further record revealed that the date of loss belonged to the years between 2010 to 2022, but the surveyor's reports of mentioned period were still awaited. The detail of such cases is as under:

(Rs in million)		
S #	Description	Outstanding Claims

1	Fire Claims	2.320
2	Engineering Claims	27,107.234
3	Motor Claims	9.520
4	Marine Claims	58.900
5	Miscellaneous Claim	40.4030
Total		27,218.377

Furthermore, during the audit of NICL, Karachi for the year 2022, it was observed that various insurance claims amounting to Rs 433.391 million were lodged by the insured entities. However, the surveyors made noticeable delay in completing surveys. Subsequently, the claims could not be settled (Annex-21).

Audit is of the view that the management did not have any criteria for assessing the performance of the surveyors due to which inordinate delays were causing loss of business.

The matter was reported to the management on March 10, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that delays are attributed to clients who have not yet provided the relevant documents for claim settlement. The Claim department has been monitoring and pursuing the insured as well as the surveyors through every plausible means. Policy for assessing the performance of the surveyors is under progress and will be brought into consideration of concerned quarters for deliberations and after approval by the competent authority, the same will be brought into force. DAC directed the management to share the policy and take the action against the surveyors who failed to fulfill the obligatory responsibilities.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year 2022-23 vide para(s) number 3.1.4.10 having financial impact of Rs.49.045 million. Recurrence of same irregularity is a matter of serious concern.

(DP No. 32 &788)

3.1.4.2 Direct payment of premium to international underwriter and brokers – Rs 1,065.280 million (US\$ 6.658 million)

Clause (x) of Code of Corporate Governance for insurers, 2016, states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

During audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that Pakistan International Air Lines Corporation (PIAC) got the fleet insurance policy for the period of 2019-20 through NICL. Later on, the international underwriter and broker were issued notices of cancellation of fleet insurance policy due to non-payment of due premium to the insured i.e. PIAC. Therefore, to avoid any unpleasant situation, PIAC released US\$ 3.279 million directly to the insurance broker M/s Marsh Limited with the consent of NICL.

Furthermore, PIACL pursued PRCL/NICL in July, 2020 for releasing the 3rd installment which was duly released by PIACL on July 23, 2020. Due to non-payment of 3rd installment, the broker again issued cancellation notices of the insurance coverage of the fleet. By considering the facts, NICL did not act as required under these circumstances and PIAC had to pay installments directly to the international broker.

Audit is of the view that the management failed to manage the payment of premium in professional manner, which reflects weak internal controls.

The matter was reported to the management on October 23, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that to prevent the disruption of normal operations caused by the Notice of Cancellation, PIACL urgently arranged funds with the intention of remitting them directly to the reinsurer. The standard process involving PRCL would have entailed a potential delay of at least 30 days. Recognizing the time sensitivity and the risk of aircraft grounding, PIACL sought NICL's permission to remit the premium directly. NICL did not incur any adverse consequences from allowing PIACL to remit the premium directly to the Broker or the reinsurer. NICL received its retention premium along with the 1% Reinsurance commission directly into the NICL account. The DAC directed the management to place the matter before BoD for their concurrence.

Audit recommends implementation of the DAC directives.

3.1.4.3 Non-recovery of outstanding dues - Rs 165.000 million

Clause (x) of Code of Corporate Governance for Insurers, 2016, states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

During audit of National Insurance Company Limited (NICL) North Zone, Islamabad for the year 2022, it was observed that the management issued different policies to M/s Oil and Gas Development Company Limited (OGDCL) in subsequent periods and booked premium as receivable amounting to Rs 165.000 million which is still receivable. The details are as under:

(Rs in million)						
S.#	Policy No.		Period		Premium Booked	Outstanding Premium
			From	To		
1.	Cow	32/14	01.03.14	28.02.15	165.000	165.000
Total					165.000	165.000

Audit is of the view that non-recovery of the outstanding premium amount reflects ineffectiveness and weak recovery mechanism existing within the organization.

The matter was reported to the management on March 10, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that the Debit Notes were raised and forwarded to M/s OGDCL on September 21, 2023 for early release of outstanding payment. The DAC directed the management to expedite the recovery process.

Audit recommends implementation of the DAC directives.

3.1.4.4 Loss of premium due to insurance of public properties from the private insurance companies – Rs 94.595 million

Section 166 of Insurance Ordinance, 2000 stipulates that all insurance business relating to any public property or to any risk or liability appertaining to any public property, shall be placed with the National Insurance Company only and shall not be placed with any other insurer.

During audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that various private insurance companies had underwritten the insurance business of the public properties. However, as per Insurance Ordinance 2000, all public property or any risk or liability pertaining to any public property should be placed with NICL only whereas some of public companies were getting insurance risk from the private insurance companies.

Audit is of the view that the management failed to fetch the insurance business amounting to Rs 94.595 million from Public Sector Companies which reflected negligence and slackness.

The matter was reported to the management on October 23, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that that Potential and existing clients of NICL have been sensitized about the Insurance Ordinance, 2000 and consequences of non-compliance. Most of the entities take shelter behind Public

Procurement Regulatory Authority (PPRA) and award insurance to lowest bidder ignoring the Insurance Ordinance, 2000. The DAC directed the management to place the matter before PAC.

Audit recommends implementation of the DAC directives.

3.1.4.5 Excess payment of claims – Rs 80.000 million

Clause (x) of Code of Corporate Governance for insurers, 2016, states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

During audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that a claim was lodged by M/s. Sui Southern Gas Company Limited against the policy No.01-0170-5/2010 for the flood damages at 04 locations. Loss was assessed by the surveyor at Rs 375,496,096 and net claim was paid Rs 355, 496,096 after adjusting deductibles and others. Similarly, another claim of loss for flood damages at 4 locations was lodged, loss was assessed at Rs 256, 762,730 and net claim was paid Rs 119, 206,224 after adjusting deductibles and others. However, separate deductibles were not applied for each location; rather, claim losses of multiple locations were clubbed into single claim loss. The detail is as under:

(Rs in million)				
S#	Location	Deductible applicable	Deductible applied	Loss of deductibles
Claim No.K/F-065/2011				
1	Garhi Khairu	20		
2	Usta Mohammad	20		
3	Dera Allah Yar	20		
4	Suhbat pur	20		
	Total deductible to be applied	80	20	60
Claim No.K/F-023/2011				
1	Dadu	20		
2	Jacobabad	20		
3	Shikarpur	20		
4	Thatta	20		
	Total deductible to be applied	80	60	20
Total loss of deductibles				80

Audit is of the view that the management extended undue favor to the client by deducting less deductible from claims and caused loss to the company. Thus, excess payment of Rs 80.000 million was paid to insured.

The matter was reported to the management on October 23, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that policy excess in both the claims have been applied as per insurance policy guidelines and no undue favor was extended. DAC directed the management to provide the relevant record in the light of management's reply for verification.

Audit recommends implementation of the DAC directives.

3.1.4.6 *Non-recovery of outstanding rent from tenants – Rs 77.438 million*

Section 4(3) of Public Sector Companies (Corporate Governance), Rules, 2013 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance.

During audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that an amount of Rs 63.448 million was lying outstanding against the tenants. Moreover, an amount of Rs 13.990 million (AED 251,089) was also lying outstanding against the overseas tenants, of Liberty House, DIFC, Dubai (Annex-22).

Audit is of the view that non-recovery of outstanding amount reflects weak financial management and poor recovery mechanism.

The matter was reported to the management on October 23, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that entire amount of Rs 77.438 million have recovered. DAC directed the management to get the recovered amount verified from Audit.

Audit recommends implementation of the DAC directives.

(DP No. 787 & 790)

3.1.4.7 *Unjustified settlement of claim - Rs 42.987 million*

According to insurance policy No.2018/KB/FN/R/D/P0129 for Property damage and Business Interruption section 1(a) (i) all the property of as described in the policy schedule, interests or the property of other held in trust, for which the insured may have assumed responsibility.

According to policy schedule Sui, Kandhkot, Adhi, Gambat South and all other fields and locations across Pakistan.

Property excluded under sub section 1(a). Following properties are excluded from coverage;

(b) property in course of construction of erection or dismantling or undergoing testing or commissioning other than as provided elsewhere under the section 1; however, this exclusion shall not apply in respect of routine maintenance, overhaul, repair works or similar which may require testing and commissioning prior to restarting the plant; it is also understood that bringing up from shutdown shall not be construed as testing.

During audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that a claim dated 05.03.2019 was lodged by M/s. Pakistan Petroleum Limited (PPL) for loss of work in process at Bela West-X-1, Baluchistan, due to heavy rain in the region. As per survey report, the rain damaged the access road, causeway, culverts and all sorts of supplies and movement to the well site were stopped, thus, unable drilling operation at site. The claim was lodged against the policy issued for the period 01.10.2018 to 30.09.2019. The management appointed two surveyor M/s Joseph Lobo (Pvt.) Limited and M/s Ocean Surveyors (Pvt.) Limited on 19.03.2019 and 02.12.2019 respectively, for the assessment of loss. The surveyors submitted their report on 18.03.2021 with the loss assessment of Rs 42, 987,000 and the claim was settled for the same amount.

The insurance policy was issued in favour of PPL for Property damage and Business Interruption only and not for covering capital work in progress. Further, policy was issued for properties at Sui, Kandhkot, Adhi, Gambat South and all other fields and locations across Pakistan. However, the break-up of other fields and locations across Pakistan and break-up of the assets available there was not obtained from PPL (insured) at the time of issuance of policy. The same was obtained by the surveyors at the time of claim processing.

Audit is of the view that policy clearly indicated that property under construction was not covered. Further, in absence of break-up, accuracy of the sum insured was also doubtful as the company would have to rely on the client to provide item wise sum insured.

The matter was reported to the management in October, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that the insured (PPL) was issued insurance policy covering Property Damage and Business Interruption showing values of major locations, total of various small locations and total of various CWIP & Spares & Stores locations which are part of insurance policy. The DAC directed the management to provide the relevant record for verification from Audit showing the construction work either was covered under policy or not.

Audit recommends implementation of the DAC directives.

3.1.4.8 Procurement on splitting basis – Rs 32.838 million

Rule 9 of PPRA Rules, 2004 states that save as otherwise provided and subject to the regulation made by the Authority, with the prior approval of the Federal Government, a procuring agency shall announce in an appropriate manner all proposed procurements for each financial year and shall proceed accordingly without any splitting or regrouping of the procurements so planned. The annual requirements thus determined would be advertised in advance on the Authority's website as well as on the website of the procuring agency in case the procuring agency has its own website.

During audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that the management purchased following items amounting to Rs 32.838 million on splitting basis:

(Rs in million)		
S#	Items	Amount
01	I.T Equipments and Hardware	4.863
02	Computer Peripherals & Toners	5.905
03	Furniture and Fixture	3.749
04	Misc Building Items	18.321
Total		32.838

Audit is of the view that procurement of items on splitting basis reflects serious violation of PPRA Rules, 2004. Thus, procurements amounting to Rs 32.838 million was held irregular and justified.

The matter was reported to the management on October 23, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that tender published but could not be materialized and no procurement plan was prepared. The items were procured on need basis as and when requisitioned. The DAC directed the management to provide the related record in support of their contention for verification.

Audit recommends implementation of the DAC directives.

3.1.4.9 Irregular enhancement in allowances – Rs 28.829 million

Rule 5(5)(a) of the Public Sector Companies (Corporate Governance) Rules, 2013 states that the principle of probity and propriety entails that company's assets and resources are not used for private advantage and due economy is exercised so as to reduce wastage. The principle shall

be adhered to, especially with respect to handling of public funds, assets, resources and confidential information by directors, executives and employees and claiming of expenses

During audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that the management enhanced house rent allowance from 40% to 45% and utility allowance from 10% to 12.5% on running basic pay without the approval of the Board of Directors (BoD) amounting to Rs 28.829 million (Rs 20.880 million on house rent and Rs 7.9484 million on utility allowance).

Audit is of the view that the payment of allowances without the approval of BoD reflects gross violation. Thus, allowances amounting to Rs 28.829 million stands irregular and unjustified.

The matter was reported to the management on October 23, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that NICL was running without BoD since May 2021. Now the Board of Directors are in place same will be placed before the BOD for the ratification and necessary approval. The DAC decided that para will stand till the approval of BoD of NICL.

Audit recommends implementation of the DAC directives.

3.1.4.10 Settlement of claim in violation of policy – Rs 28.155 million

Section 5 of Insurance policy No. 2018/KB/B/SB/P/D/P0003 states that as per precedent to their right to be indemnified under this Policy, the assured shall, as soon as possible and in any event within 30 days after discovery by assured of any loss here under, give written notice thereof to the underwriters.

Section (c) of conditions precedent to liability of insurance policy No. 2017/KB/B/SB/P/D/P0003 dated; 11-05-2017 states that Joint Custody shall be established and maintained for the safeguarding of :- (i) Property while in safes or vaults (Property means cash and all other securities), (ii) All keys to safes and vaults and (iii) Codes, ciphers and test keys.

During audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that a claim dated 14.06.2018 was lodged by M/s. National Bank of Pakistan (NBP) due to fraud at NBP Serai Naurung, Bannu Branch. The Surveyors assessed the loss for Rs 16, 611,000 and the claim was settled for Rs 15.000 million. Furthermore, as per survey report, the incident of fraud was happened on 19-03-2018, while the insured intimated the loss on 14-06-2018 after a lapse of three (03) months.

Similarly an infidelity / fraud claim No. K/FG-30-02/2017 was lodged by M/s National Bank of Pakistan (NBP) due to cash embezzlement / misappropriation by the cashier for Rs 13.155 million at NBP remount depot branch, Sargodha region. M/s. Ocean surveyors private limited was appointed on 02.06.2017 which submitted the report on 04.04.2022 and assessed the loss for Rs

13.155 million. The internal inquiry conducted by NBP stated that the internal controls of the branch were weak and dual control over cash & vault activities was not observed, as the keys of cash and strong room were in the custody of head cashier.

Audit is of the view that the management settled the claim amounting to Rs 28.155 million in violation of agreements as the losses were not intimated within the specified time period and insured failed to maintain required internal controls.

The matter was reported to the management on October 23, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024.

- a. The management informed the DAC that upon enquiry, the insured informed that case was reported to FIA on 20/03/2018 and FIR was being awaited to be registered, as it was pre-requisite document to be submitted for insurance claim. FIA took longer than expected and FIR was registered later on 01/01/2020.
- b. The management informed the DAC that in the instant case head cashier committed fraud in collusion with operation manager, head cashier was terminated and operation manager was two steps downgraded and branch manager was also reprimanded.

The DAC directed the management to get verify the claim settlement process from Audit.

Audit recommends implementation of the DAC directives.

(DP No. 762 & 782)

3.1.4.11 Non-inclusion of EOBI contribution clause in contracts – Rs 26.813 million

Section 11(1) of EOBI Act, 1976 related to registration of Establishment states that Every employer shall, before the expiration of thirty days from the day on which this Act becomes applicable to the industry or establishment in respect of which he is the employer, communicate to the Institution the name and other prescribed particulars of the industry or establishment.

During audit of National Insurance Company Limited (North Zone), Islamabad for the year 2022, it was observed that the management awarded various contracts like Operation & Maintenance HVAC System, House Keeping & Janitorial Services, Guarding, Security & Fire Fighting Services, Maintenance & Services of Elevators etc. to different contractoRs However, clause (s) regarding EOBI contribution on behalf of their workers / labors / employees by the service providers was excluded by the management in the contract agreement. The service providers remained non-compliant in fulfilling obligatory responsibility of depositing EOBI contribution on behalf of their workers / labors /employees. The detail of such contracts is as follows:

S #	Contract Description	Name of Service provider	Rs in million
-----	----------------------	--------------------------	---------------

1.	Operation & Maintenance HVAC System	M/s Protech Solutions (Pvt) Ltd	7.952
2.	House Keeping & Janitorial Services	M/s United Human Resource Services	6.119
3.	Gaurding, Security & Fire Fighting Services	M/s Bahria Security Services	11.502
4.	Maintenance & Services of Elevators	M/s Ziafco Engineering & Contractor	1.239
Total			26.813

Audit is of the view that exclusion of relevant clauses of EOBI and other contribution(s) and non-deposition of deducted amount was a gross violation of Government instructions / orders. The management was bound to check that all the mandatory deductions have been complied by the service provider against all the employees deployed. Therefore, contracts awarded amounting to Rs 26.813 million stands irregular and un-justified.

The matter was reported to the management on March 10, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that most of the service providers / contractors registered with EOBI and also maintained their own employees Contribution record. Further, EOBI clause in contracts has been noted for future compliance. The DAC directed the management to take action against the contractors / suppliers who failed to deposit EOBI contribution on behalf of employees / workers and share the status with Audit.

Audit recommends implementation of the DAC directives.

3.1.4.12 Fraudulent payment of explosion claim - Rs 19.119 million.

Condition 5(a) of Insurance Policy No. KF-01-0093-1/2014 states that the insurance policy does not cover loss or damage occasioned by or through or in consequences of explosion.

Section 47(4) of Insurance Rule, 2017, every survey conducted by, and report given by, an insurance surveyor shall be conducted and given with due diligence and skill, and in good faith and the report shall be finalized as early as possible but within the period of ninety days:

During audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that a claim was lodged by M/s. Pakistan Petroleum Limited for loss / damage due to explosion of Pipeline at Bank, No.6 of Sui Gas Plant at Sui Gas Field, Baluchistan on 01-08-2014. According to Surveyor, the loss or damage in consequences of explosion was not covered in the subject policy; therefore, the loss was not payable. Upon refusal from Surveyor, the management informed the surveyor that explosion damage risk was covered under the schedule of

policy. The Surveyor revised the survey report on 11.08.2018 and the insured was paid Rs 16,878,116 as final payment.

Later on, the insured (PPL) on 07-01-2021 submitted that the loss was short assessed. Finally, surveyor recommended the cost of chemical valuing Rs 2,240,728. The claim file was reopened and additional claim of Rs 19,118,844 (Rs 16,878,116 + Rs 2,240,728) was paid to insured on 02.09.2022. Further, it was revealed that schedule of the policy (covering explosion damage) was allowed and signed between the parties on 03.10.2014 and policy was issued on 31.12.2014, five months after claim intimation.

Audit is of the view that inclusion of explosion damages clause in the policy schedule after intimation of loss reflects undue favor to the insured. Thus, payment of claim amounting to Rs 19.119 million stands irregular and unjustified.

The matter was reported to the management on October 23, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that NICL usually issue Hold Cover to its clients for continuance of insurance period and clause of explosion damage was already part of insurance coverage. Further, the survey report was delayed due to late submission of claim record by insured. The DAC directed the management that black list the surveyor and conduct internal inquiry regarding claim settlement and share with audit.

Audit recommends implementation of the DAC directives.

3.1.4.13 Irregular award of civil works in piecemeal – Rs 18.454 million

Rule 09 of PPRA Rules, 2004 states that a procuring agency shall announce in an appropriate manner all proposed procurements for each financial year and shall proceed accordingly without any splitting or regrouping of the procurements so planned. The annual requirements thus determined would be advertised in advance on the Authority's website as well as on the website of the procuring agency in case the procuring agency has its own website.

During audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that the management hired the services of thirty-five (35) contractors for the civil work carried out on different floors and parking area of NICL Building, Karachi. The management incurred expenditure of Rs 18.454 million (Annex-23) through petty transactions during 2022. No tender process was adopted and the whole work was executed by splitting the same to avoid tender process.

Audit is of the view that the award of contracts without tender valuing Rs 18.454 million is a gross violation of PPRA Rules, 2004.

The matter was reported to the management on October 23, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that all

work was initiated after completing the formalities/compliance with PPRA, Rules 2004. The civil works were initiated on need/requirement basis on different locations of NICL Building. The DAC directed the management to provide the relevant record to Audit for verification along with justification for execution of work on splitting basis.

Audit recommends implementation of the DAC directives.

3.1.4.14 Un-justified settlement of non-insurance period claim – Rs 15.000 million

As per conditions precedent to liability of insurance policy No. 2013/KB/B/SB/P/D/P0003 dated; 27.08.2013 section (c) Joint Custody shall be established and maintained for the safeguarding of Property while in safes or vaults. (Property means cash and all other securities).

(f) in addition to the normal audit of the books and accounts of the business by the assureds' independent outside auditor, the assured shall conduct a thorough internal audit, examination and review of internal controls at least once in a year at all premises and shall retained the record and working papers relating to such audit.

Section 47 (4) of Insurance Rule, 2017 states that every survey conducted by, and report given by, an insurance surveyor shall be conducted and given with due diligence and skill, and in good faith and the report shall be finalized as early as possible but within the period of ninety days:

During audit of National Insurance Company of Pakistan (NICL), Karachi for the year 2022, it was observed that an infidelity / fraud claim was lodged by M/s. National Bank of Pakistan for loss of Rs 353,245,800 due to fraud at NBP Airport Branch, Karachi during 2009-2013. The fraud was revealed on 14.03.2013 and reported to NICL on 09.04.2013. Surveyors assessed the loss for Rs 666.167 million during 2011 to 2013, out of which Rs 92.923 million pertained to policy period i.e. 2013 vide report dated 15.01.2021. According to report, accused collected the duties and taxes on behalf of Collector of Customs and did not deposit the amount in relevant bank accounts. The claim was settled for Rs 15.000 million. Following discrepancies were observed in settlement of claim:

- i. Insurance policy No.2013/KB/B/SB/P/D/P0003 was issued on 27.08.2013 while loss was intimated on 09.04.2013, almost four months before the issuance of policy, means, claim of NBP was entertained for non-insurance period.
- ii. Instances of unauthorized transactions in the said branch of NBP seems regular feature as evident from enquiry report.
- iii. Survey report was issued by the surveyors after a noticeable delay of seven years in violation of Rule.
- iv. Important documents like FIR, Final investigation report of FIA, Final copy of Challan, audited statement of loss, copy of court decision and proceeding made by the NAB authority so far in this case was not obtained from insured.

Audit is of the view that the policy was issued after four months of occurrence of fraud which reflected weak internal controls.

The matter was reported to the management in October, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that claim was paid taken into consideration all the facts. NBP have dismissed various employees found guilty in fraudulent act in collusion with others. Further the requirement of the documents i.e. final investigation report of FIA, final copy of challan, copy of court decision and proceeding made by the NAB have been dropped after legal opinion of Legal Counsel The DAC directed the management to get verify the continuity of the policy and claim settlement process from Audit.

Audit recommends implementation of the DAC directives.

3.1.4.15 Unjustified settlement of PSO claim – Rs 13.340 million

Section 55(1) of Insurance Rule, 2017 states that a proposal form provided to a prospective policyholder shall carry or contain a notice of his duty of disclosure stating the consequences of non-disclosure.

During audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that a claim was lodged by M/s. Pakistan State Oil Company Limited for loss due to damage of pipelines at PSO Sihala Depot, Rawalpindi. The claim was lodged against the policy dated 07.09.2017 issued for the period of 01.07.2017 to 30.06.2018. The management appointed joint surveyors M/s. Malcolm Gaskill Services and M/s. Dusam & Co (Pvt) Limited for assessment of loss. The surveyors submitted their report on 28.02.2019 which stated that PSO pipeline was punctured by the shovel machine of NHA contractor during excavation near PSO pipelines. The hit of excavation machine not only damaged the pipeline but also caused loss of 165,000 liters PMG (Premier Motor Gasoline) spilled away from the pipeline. Initially, the surveyors assessed the loss for Rs 1,130,600 for damage of pipeline only as the policy cover HSD and did not cover loss of PMG product in pipeline. The insured refused to accept the claim and argued that pipeline connecting Attock Refinery Limited to Sihala depot is used for transportation of both the product. Keeping in view the insured argument, the surveyors allowed claim to the extent of Rs 12,076,703 on 03.07.2020 after inclusion of loss of product. The insured (PSO) again disagreed with the surveyors due to lower rate applied for PMG. Later on, the surveyors revised his assessment on 22.03.2022 and increase the loss amount up to Rs 13,340,603 as full and final settlement of the claim. Following discrepancies were observed in the settlement of case required justifications:

- i) The loss of product (PMG) was not included in policy then why the same was allowed.
- ii) The insurance policy did not include such provision allowed damages caused by third party.
- iii) Despite knowing the fact that construction of bridge is in progress by NHA, PSO did not adopt security for the safety of pipeline.

Audit is of the view that claim department solely depend the surveyors for the genuineness and reasonableness of the claims without cross verification of the same from other sources.

The matter was reported to the management in October, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management explained that the product in pipelines insurance policy covers are used for transportation of same category of petroleum products. The product mentioned in the policy schedule was used for calculation of the sum insured, while the underlying product transported varies based on the requirements. The DAC directed the management to submit the revised reply along with a copy of letter of subrogation from NHA and policy coverage of product i.e. PMG (Premier Motor Gasoline) for verification.

Audit recommends implementation of the DAC directives.

3.1.4.16 Unjustified settlement of claim before issuing policy - Rs 7.946 million

Section 58(2) of Insurance Rule, 2017 states that an insurer may issue a cover note prior to the receipt of premium, in order to enable the intending policyholder to review the details and scope of coverage being offered. Provided that the cover note should not be for a period exceeding seven days in the case of motor business and beyond thirty days in all other cases and must be replaced with an insurance policy before expiry of such cover note, subject to receipt of premium by the insurer.

During the audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that a claim dated 16.07.2021 was lodged by M/s. Pakistan State Oil Company Limited (PSOCL) for loss for damage of 09 PSO retail outlets due to windstorm at Lakki Marwat. The Surveyors (M/s. Josheph Lobo (Pvt.) Limited and M/s. Dusam & Co (Pvt.) Limited) assessed the loss for Rs 7,946,623 for damage of 09 outlets. Further, premium was collected on 25.08.2021 and policy was issued on 16.08.2021, while, loss was intimated on 16.07.2021 which clearly indicated that the policy issued before receiving premium and after intimation of loss.

Audit is of the view that the management failed to act prudently in the settlement of claim which reflects negligence.

The matter was reported to the management on October 23, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that loss intimated during hold cover which was admissible under insurance policy. The DAC directed the management to verify the continuity of policy under hold cover from Audit.

Audit recommends implementation of the DAC directives.

3.1.4.17 Non-recovery of decreed amount – Rs 5.733 million

According to Section 19 (1) of the Financial Institutions (Recovery of Finances) Ordinance 2001, upon pronouncement of judgment and decree by Banking Court, the suit shall automatically stand converted into execution proceedings without the need to file a separate application and no fresh notice need to be issued to the judgment-debtor in this regard. Particulars of the mortgaged, pledged, or hypothecated property and other assets of the judgment debtor shall be filed by the decree-holder for consideration of the Banking Court and the case will be heard by the Banking Court for execution of its decree on the expiry of 30 days from the date of pronouncement of judgment.

During audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that M/s Searle Pakistan Limited was a tenant of NICL during the period from 1994 to 2020. The tenant was allowed 25% rebate until the vacation of the rented premises due to

non-availability of HVAC facility from 01.02.2010 to 15.08.2015. Thereafter, a civil suit was filed by the management in October, 2021 against the tenant for the recovery of outstanding rent arrears of Rs 6.882 million. The case was decreed in favor of NICL on May 21, 2023 with the judgment that defendant (M/s Searle Group) was liable to pay the amount of Rs 4.097 million to Plaintiff with 10 % interest per annum from March 2020 till its realization with deduction of 25% rent from 15.08.2015 to 15.03.2020 and Plaintiff was not entitled for recovery of an amount of Rs 2.780 million for the closure period of HVAC. The payment of interest @ 10% per annum, the cumulative total of which was Rs 1.636 million (Rs 0.409 per annum interest *4 years w.e.f March 2020 to October, 2023 was not recovered.

Audit is of the view that due to laxity, the management failed to recover the decreed amount of Rs 5.730 million (Rs 4.506 million rent and Rs 1.636 million interest) despite the lapse of considerable period.

The matter was reported to the management on October 23, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that since the Execution Application was filed timely and same is pending for final adjudication. Further M/s. Searle Pakistan Limited (defendant/judgment-debtor) has filed an appeal against the judgment and decree dated 31.05.2023, therefore, the proceeding on Execution No. 7 of 2023 was stopped till the final decision in the appeal. The DAC directed the management to pursue the case vigorously.

Audit recommends implementation of the DAC directives.

3.1.4.18 Unjustified payment of burglary / theft claim - Rs 4.322 million

Clause (x) of Code of Corporate Governance for Insurers, 2016, states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

During audit of National Insurance Company Limited (NICL) North Zone, Islamabad for the year 2022, it was observed that M/s Utility Stores Corporation (USC), Islamabad submitted a claim amounting to Rs 5.042 million on account of theft/ burglary accident at USC Warehouse (Daska) Sialkot Region on 07-05-2010. The management appointed joint surveyors, M/s S.U Malik & Co. and M/s Saifullah Sarim Engg. Services Pvt. Ltd. on 11.05.2010 to assess the loss. The joint surveyors submitted detailed /comprehensive survey report on 14.05.2012 and assessed a net loss amounting to Rs 1.963 million. Later on, the management appointed another joint surveyor M/s MSK Enterprises and M/s Haseeb Associates Pvt. Ltd on 02.11.2017 without any justification/ reasoning. The second surveyor assessed the net loss of Rs 4.322 million. On the basis of second survey report, management settled / paid the claim amounting to Rs 4.322 million.

Audit is of the view that the management extended undue favor to the client by appointing another surveyor without any justification and payment was made on the basis of second surveyor instead of 1st surveyor which resulted in excess payment of Rs 2.359 million on account settlements of burglary claim.

The matter was reported to the management on March 10, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that first joint surveyors applied under insurance rate and assessed the net loss Rs 1.963 million. However, M/s USC insured under declaration policy in which under insurance rate was not applicable. The surveyor failed to submit revised survey report till May, 2015. Subsequently, on the basis of second joint surveyor report, the management paid a claim of Rs 4.322 million. The DAC directed the management to get the facts verified from Audit. Further, delay was observed on the part of management and also observed that surveyor was not competent and directed the management to remove / blacklist the surveyor.

Audit recommends implementation of the DAC directives.

3.1.4.19 Unjustified settlement of marine claim – Rs 3.359 million

Section 58(2) of Insurance Rule, 2017 states that an insurer may issue a cover note prior to the receipt of premium, in order to enable the intending policyholder to review the details and scope of coverage being offered. Provided that the cover note should not be for a period exceeding seven days in the case of motor business and beyond thirty days in all other cases and must be replaced with an insurance policy before expiry of such cover note, subject to receipt of premium by the insurer.

During audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that a marine claim No.10/ 003-PC-21 dated 21.0.2020 was lodged by M/s. Peoples Steel Mills Limited for loss due to damage of consignment of 45 packages of CCM Revamping Project Machinery & Equipment imported from Tianjin (China) to Karachi. The ship arrived at KPT berth on 08.10.2020. However, debit note was issued on 16.10.2020 after the arrival of consignment from China, and policy No. 2021/KB/B/MI/D/PO190 was issued on 27.01.2021. After examination of claim, the Surveyors adjusted the loss for Rs 3,359,956. Further, open cover was issued on 27.02.1990 for only one year instead of 30 days as required under the above rule.

Audit is of the view that issuance of policy after intimation of loss on the basis of expired cover note is a violation of rule.

The matter was reported to the management on October 23, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management informed the DAC that marine open cover / open policy was issued to the insured to provide continuous insurance of shipments / cargo coverage. Open cover was issued on 27.02.1990 wherein all the terms and

conditions were agreed between the insurer and the insured. The DAC directed the management to revise the policy of open cover 1990 and discontinue the same.

Audit recommends implementation of the DAC directives.

3.1.4.20 *Non-finalization of annual audited accounts since 2018*

Rule (xxviii) (c) of Code of Corporate Governance for Insurers, 2016, states that the insurer shall insure that the annual audited financial statements are circulated, not later than four months from the close of the financial year.

During audit of National Insurance Company Limited (NICL), Karachi for the year 2022, it was observed that the annual audited from 2018 to 2022 were not prepared as per stipulated time period, provided by the Code of Corporate Governance Rules, 2016.

Audit is of the view that non-compliance of rules may affect true and fair picture of the company's financial statement for the stake holder(s).

The matter was reported to the management on October 23, 2023. The irregularity was discussed in DAC meeting held on January 12, 2024. The management explained in DAC meeting that BoD of the Company has been recently constituted in the month of Aug 2023 after the gap of almost 2.5 years. Resultantly, the Financial Statements could not be finalized since 2018 However, the Management is keen to address the subject issue and has taken number of initiatives in this regard which includes but not limited to. DAC directed the management to expedite the matter.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report for Audit Year(s) 2022-23 vide para(s) number 3.1.4.22 and for Audit Year 2021-22 vide para(s) number 3.1.4.20. Recurrence of same irregularity is a matter of serious concern.

3.2 Pakistan Re-Insurance Company Limited

3.2.1 Introduction

Pakistan Insurance Corporation was re-organized as Pakistan Re-insurance Company Limited (PRCL) under the Insurance Corporation (Re-organization) Ordinance, 2000 and incorporated on March 30, 2000 under the Companies Ordinance, 1984. The PRCL is a public sector company under the administrative control of the Ministry of Commerce, Government of Pakistan. The prime objective of the Company is the development of insurance as well as reinsurance business in Pakistan. The Company is a national reinsurer playing its role in the economic development of Pakistan. It provides reinsurance protection to the local insurance companies by way of treaty and facultative business.

3.2.2 Comments on Audited Accounts

3.2.2.1 The working results of the company for the year ended December 31, 2022 as compared to previous years is given below:

(Rs in million)					
Description	2022	%Inc/Dec)	2021	% Inc / (Dec)	2020
Gross premium	24,271	17.05	20,994	24.25	16,896
Net premium	7,929	5.60	7,226	7.72	6,708
Net Insurance claim	(4,312)	(14.13)	(3,778)	-3.72	(3,924)
Management expense	(1,528)	(109)	(729)	9.33	(666.78)
Commission paid	(1,026)	(5.99)	(968)	4.63	(925.195)
Underwriting profit/(loss)	1,652.02	(3.446)	1,682.81	119.77	765.719
Investment income	1,338.39	36.33	981.71	-5.91	1043.379
Rental income	126.643	21.33	104.38	25.13	83.419
Profit Before Tax	3,556	(1.605)	3,614	83.36	1,971
Taxation	(932)	(9.073)	(1,025)	76.72	(580)
Profit after tax	2,625	1.35	2,590	86.20	1,391

(Source: Annual Audited Accounts-2021)

Management expenses increased from Rs 729.000 million in the year 2021 to Rs 1,528.000 million in the year 2022, registering an increase by 109% due to increase in employees benefits cost, security service expense, travelling & conveyance expense and entertainment.

3.2.2.2 The insurance /reinsurance receivables stood Rs 13,686.203 million as on December, 2021 and Rs 17,393.375 million as on 31st December 2022, registering an increase of 27.08 % due to lesser recoveries.

3.2.2.3 The external auditors issued a qualified opinion that receivable and payable balances from various respective parties / insurance companies on account of the treaty business and facultative business, which includes a gross amount of Rs 16,792 million and a net amount of Rs 16,626 million. An amount due to other insurance companies includes an amount of Rs 40.11 million, which remained un-reconciled as of 31st December 2022. Due to pending reconciliations relating to the above balances, resultant adjustments, and consequential impact thereon, if any, on these financial statements remain uncertain.

3.2.2.4 The external auditors issued a qualified opinion. They noted a significant amount due from re-takaful participants on account of treaty and facultative re-takaful business, including a gross amount of Rs 423.435 million and a net amount of Rs 410.660 million, which remained un-reconciled as of 31st December 2022. Due to pending reconciliations relating to the above balances, resultant adjustments, and consequential impacts thereon, if any, on these financial statements remain unascertained.

3.2.2.5 Current ratio deteriorates from 3.5:1 in the FY year 2021 to 4.07:1 in the FY 2022 due to increase in short-term debt and decrease in current assets.

Formula	2022 (Rs)	2021 (Rs)
<u>Current assets</u>	63,315,332,437	46,348,937,649
<u>Current Liability</u>	15,525,015,227	12,916,703,382
Ratio	4.07:1	3.5:1

3.2.2.6 Equity ratio shift in deteriorating position to 22.61% in the FY 2022 from a preceding standing of 27.93% FY 2021.

Formula	2022(Rs)	2021 (Rs)
<u>Shareholder Equity</u>	14,321,407,662	13,072,194,616
Total assets	63,315,332,437	46,805,551,289
Percentage (%)	22.61	27.93

3.2.2.7 Debt ratio shift in deteriorating position to 77.57% in the FY 2022 from a preceding standing of 72.07% FY 2021 reflecting heavy obligation trend to asset.

Formula	2022 (Rs)	2021 (Rs)
<u>Total Liabilities</u>	49,533,537,615	33,733,356,673
Total assets	63,854,945,278	46,805,551,289
Percentage	77.57%	72.07%

3.2.2.8 Return to asset shift in deteriorating position to 12.41% in the FY 2022 from a preceding standing of 15.44 % in the FY 2021.

Formula	2022 (Rs)	2021 (Rs)

The overall compliance of PAC directives needs improvement.

3.2.4 Audit Paras

3.2.4.1 Revenue loss by excessive retrocession in foreign insurance companies – Rs 29,952.780 million (US\$ 203.110 million)

One of the main objectives of the Company is “To enhance Domestic retention capacity in the country in order to save valuable foreign exchange.”

Section (X) of the Code of Corporate Governance for Insurers, 2016 regarding Responsibilities, Powers and Functions of Board of Directors states that "The directors of an insurer shall exercise their powers and carry out their fiduciary duties with a sense of objective judgment and independence in the best interests of that insurer and its policyholders."

During special study of the Pakistan Re-insurance Company Limited (PRCL) for the years 2017 to 2021, it was observed that the management re-insured the business in foreign reinsurance companies without keeping in view the main objectives of the organization through which the outflow of dollar was to reduce from the country. The detail of foreign exchange outflow from country during last 07 years is at (Annex-24).

Thus, in last 06 years the average figure of net claim has not gone over 3.5 billion per year, even then the management paid major portion of the premium for retrocession to the foreign insurance companies through agents. As in 2021 gross premium of Rs 20,993.56 million, out of which an amount of Rs 13,767 million was paid to the foreign insurance companies, which is 65%, leaving retention of premium of Rs 7,225.62 million i.e. 35% of the total premium received by PRCL. This shows a major portion of the premium is paid to the reinsured companies. In some cases, the company is retaining as low as only 10% of the insurance as for instance in one insurance case of PIAC aviation & hull insurance, the share of PRCL was 10%, NICL 7.5% and rest 82.50% of the reinsurer (M/s Marsh broker).

Thus, the management has not appointed a Risk Assessing Manager due to which no proper decision for managing insurance risk is made nor the amount of foreign exchange is saved within the country, which caused deprived off revenue of more than Rs 29,952.780 million to PRCL in just 07 years. Had the company retained at least 60% of premium of Rs 54,753.600 million out of total premium of Rs 91,256.560 million, the Company could have saved an amount of Rs 29,952.78 million (Rs 54,753.600 million – Rs 24,801.160 million).

Audit is of the view that the management was not focusing on the main objectives of the company to save valuable foreign exchange after increasing equity of the organization, which shows not only slackness on the part of the management but also found involved in draining out of dollars from the country.

The irregularity was discussed in the DAC meeting held on August 21, 2023. The management informed the DAC that only retain such portion of risk which falls within its capacity determined as per the regulatory guidelines which is about 5 % of equity per risk. The risks which are beyond PRCL capacity are retroceded international market and keeping in consideration the basic principles of reinsurance i.e. 'risk management' and 'diversification'. The DAC directed that the management to satisfy the audit that the

quantum of business retroceded in the case of PIA was a consequence of PIA’s lease agreements for foreign air crafts and its own retention capacity as per SECP guidelines and make efforts to retain more risk.

Audit recommends implementation of the DAC directives.

3.2.4.2 Non recovery from various parties – Rs 11,845.043 million

Clause (x) of Code of Corporate Governance for insurers, 2016, states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

During audit of Pakistan Reinsurance Company Limited (PRCL) for the year 2022, it was observed that an amount of Rs 11,845.043 million was outstanding against following parities as on 31.12.2022.

(Rs in million)

S#	Description	Amount	Annex
1	Ceding companies	10,353.770	Annex-B5
2	Foreign non-resident companies	721.718	
3	Takaful participant holders	503.635	
4	Ceding companies under litigation (premium)	265.920	
Total		11,845.043	

Audit is of the view that non-recovery of from various parties amounting to Rs 11,845.043 million reflected weak financial management and poor recovery mechanism.

The matter was reported to the management on November, 2023. The irregularity was discussed in the DAC meeting held on January 17, 2024.

- a. The management explained that their dues from 01.01.2023 to 11.01.2024 for Rs 4,142 million, which is 82% of the total receivables of Rs 5,032 million were recovered, leaving a balance of Rs 901 million from companies carrying insurance business. The DAC noted efforts of the company to effect of 100% recovery of balances from NICL. However, it raised concern over the long outstanding dues from insurance companies specially those over 03 years and those with the delay of more than 01 to 02 years. DAC directed the management to get the recovery from NICL verified by the Audit. Further it might present to the Board a paper for making a representation to the SECP on improving recovery of dues receivables from private insurance companies. DAC further directed the management to regularly submit the recovery status to its Board indicating aging-wise the total amount recoverable at each Board meeting.
- b. The management informed that it has recovered an amount of Rs 498.77 million out of Rs 721.718 million in short period of nine months. It was further informed that PRCL recovered almost 70% of its outstanding balances from foreign non-resident companies. The DAC directed the management to provide evidence of recovered amount to Audit for verification.

- c. The management explained that PRCL had a net receivable from Insurance Companies amounting to Rs 516.457 million. Out of this receivable, PRCL has recovered Rs 464 million (89%). The DAC directed prepare a position on the subject to place before the Board and would take-up the matter with SECP for putting in place to affect a mechanism of recovery and further directed the management to proof the evidence of recovery of the outstanding amount of Rs 464 million to be verified by Audit.
- d. The management explained that insurance companies failed to perform its statutory duty to settle/pay PRCL dues/premium, resultantly suit was filed against these companies for the recovery of PRCL dues. The DAC noted that almost all cases were pending in the court of law. It was directed that the cases of stuck up recovery to be presented to the Board of Directors for its comprehensive review and strategy for recovery of receivables in such cases and pursue court cases with objectively.

Audit recommends implementation of the DAC directives.

(DP No.682, 695,696,691& 683)

3.2.4.3 Loss of revenue due to excessive retrocession – Rs 3,540.195 million (US\$ 17.700 million)

Clause (x) of Code of Corporate Governance for insurers, 2016, states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

The main objective of the Company states that to enhance Domestic retention capacity in the country in order to save valuable foreign exchange.

During audit of Pakistan Reinsurance Company Limited (PRCL) for the year 2022, it was observed that the management renewed the policy for retrocession against the reinsured business of aviation (PIA) with foreign reinsurance companies without aligning with the organization's main objectives (Annex-26). Moreover, the management was only retaining a premium of 5% to 6%, whereas NICL is retaining more than 10%, and the remaining premium is usually transferred to retrocession. Out of the total premium, only US\$ 1.507 million was calculated, with retrocession premium transferred to M/s. AGJ through an agent, valuing US\$17.700 million, which was more than 85%. Furthermore, the management had not appointed a Risk Assessing Manager, leading to the absence of proper decisions for managing insurance risk and saving foreign exchange. Due to such imprudent decisions, PRCL was deprived of revenue exceeding Rs 3,540.195 million (US\$17.700 million *Rs 200) against the renewal of existing policies.

Audit is of the view that the management failed to focus on the main objectives of the company to save valuable foreign exchange, even after increasing the equity of the organization which reflects slackness on the part of the management.

The matter was reported to the management on November, 2023. The irregularity was discussed in the DAC meeting held on January 17, 2024. The management explained that only retain such portion of risk which falls within its capacity determined as per the regulatory guidelines which is about 5 % of equity

per risk. The risks which were beyond PRCL capacity are retroceded international market and keeping in consideration the basic principles of reinsurance i.e. 'risk management' and 'diversification'. The DAC directed that the PRCL management to satisfy the audit that the quantum of business retroceded in the case of PIA was a consequence of PIA's lease agreements for foreign air crafts and its own retention capacity as per SECP guidelines and make efforts to retain more risk.

Audit recommends implementation of the DAC directives.

3.2.4.4 Non-payment of income tax – Rs 1,728.66 million

Section (x) of the Code of Corporate Governance for Insurers, 2016 states that the directors of an insurer shall exercise their powers and carry out their fiduciary duties with a sense of objective judgment and independence in the best interests of that insurer and its policyholders.

During special study on the accounts of Pakistan Reinsurance Company Limited (PRCL) for the years 2017 to 2021, it was observed that the management did not pay the income tax from 2010 to 2018. The detail is given as under:

S#	Year	(Rs in million)
1)	2018	353.612
2)	2017	0
3)	2016	223.912
4)	2015	0.772
5)	2014	412.724
6)	2013	9.342
7)	2012	127.326
8)	2011	97.770
9)	2010	20.748
Total		1246.206

The company also did not deduct and paid the income tax on commission paid to the ceding companies. The detail is given as under:

S.No	Year	Rs in million
1)	2016	182.699
2)	2015	39.541
3)	2014	260.214
Total		482.454

Hence, the management did not deduct and pay the amount of income tax on commission to the ceding companies.

The matter was reported to the management on November 19, 2022. The irregularity was discussed in the DAC meeting held on January 17, 2024. The management contended that payment was not made as the case was subjudice. DAC directed to pursue the case vigorously.

Audit recommends implementation of the DAC directives.

3.2.4.5 Irregular payment of insurance claim to third party instead of PIAC against settlement of PIAC crashed airplane- Rs 1,128.000 million (US\$ 7.050 million)

Section (x) of the Code of Corporate Governance for Insurers, 2016 states that the directors of an insurer shall exercise their powers and carry out their fiduciary duties with a sense of objective judgment and independence in the best interests of that insurer and its policyholders.

During special study of Pakistan Re-Insurance Company Limited (PRCL) for the years 2017 to 2021, it was observed that the Aircraft, ATR 42 AP-BHP of Pakistan International Airline Corporation was

skidded off runway at Gilgit Airport on July 20, 2019. The cause of accident as per report dated October 10, 2019 was over speeding due to which aircraft touched down beyond the normal landing point. The surveyor conducted the survey and management settled the claim of US\$ 7,800,000 less salvage offer of US\$ 650,000 and policy deductible US\$ 100,000 net settlement at US\$ 7,050,000. The share of PRCL was 10%, NICL 7.5% and rest 82.50% of the reinsurer (M/s Marsh broker).

As per procedure, PRCL had to receive 82.5%, US\$ 5,816,250 from M/s Marsh, to add his 10%, US\$ 705,000 and to pay to NICL for further payment to PIAC, but the management adopted procedure against the normal practice and paid the share to foreign broker directly instead of receiving its share thus restricted the dollar inflow of US\$ 5.80 million in Pakistan.

Audit is of the view that the management extended undue favour to the foreign broker, M/s March for allowing him to pay to third party M/s Clyde & Co instead of receiving amount from Lead Insurers and to onward payment to NICL and then to PIAC.

The matter was reported to the management on November 19, 2022. The irregularity was discussed in the DAC meeting held on August 21, 2023. The management informed the DAC that the policy holder (PIACL) had advised to remit PRCL share to legal counsel of re-insurance brokers i.e. M/s Clyde & Co. further, actual amount paid by PRCL was US\$ 715,000 (being 10%) to M/s NICL as advised by the insured i.e. PIACL. The DAC directed the management to provide the relevant documentary evidence showing transfer of funds/ flow chart to the accounts of PIACL.

Audit recommends implementation of the DAC directives.

3.2.4.6 Loss due to payment of tax penalty – Rs 880.000 million

Clause (x) of Code of Corporate Governance for insurers, 2016, states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

During audit of Pakistan Reinsurance Company Limited (PRCL) for the year 2022, it was observed that the management failed to file Sindh Sales Tax returns on services provided to insurance Companies for the years 2011 & 2012. Resultantly, Sindh Revenue Board (SRB) issued various notices for submission of tax amounting to Rs 3,242 million. The management filed an appeal with the Commissioner of Appeals, Sindh Revenue Board, and the Appellate Tribunal, which was rejected in February 2016. Subsequently, the management deposited an amount of Rs 2,573 million and additionally, an amount of Rs 880.000 million as tax penalty.

Audit is of the view that the management failed to submit tax returns on time which resulted in payment of tax penalty of Rs 880.000 million. This reflected weak financial management and negligence.

The matter was reported to the management on November, 2023. The irregularity was discussed in the DAC meeting held on January 17, 2024. The management explained that the court case is being actively pursued in Sindh High Court and last hearing was held on 21.11.2023. Furthermore, the notices for payment for 03 years included the penalty for earlier years for which payment notices were not received by PRCL. The DAC directed that management to follow up the case in the Sindh High Court.

Audit recommends implementation of the DAC directives.

3.2.4.7 Loss on investment in mutual funds and shares – Rs 399.865 million

Section 15 of Investment Policy 2021-22 of PRCL states that Fixed income instruments; the decision in investment in fixed income securities shall be based on fundamental credit analysis of securities;(c) attempt shall be made to invest in those securities that offer competitive returns vis-à-vis other similar investments in the market.

During audit of Pakistan Reinsurance Company Limited (PRCL) for the year 2022, it was observed that the management invested a sum of Rs 1,484.589 million in the mutual funds and Rs 147.073 million in shares. However, a loss of Rs 391.023 million and Rs 8.842 million respectively was sustained (Annex-27).

Audit is of the view that the management has been suffering losses from investments in mutual funds and equity due to non- divestment of funds from the pool of mutual neither funds nor invested them in other fixed-income securities which reflected poor financial management.

The matter was reported to the management on November, 2023. The irregularity was discussed in the DAC meeting held on January 17, 2024. The management explained that no loss was incurred in the investment as this was a diminution in the value of investment. The DAC directed that PRCL management would submit a report to the Audit explaining the compliance of current investments with the SECP regulations on investment of funds by insurance companies. Further the dividend received from the 03 banks to be get verified from the Audit.

Audit recommends implementation of the DAC directives.

(DP No. 700 & 701)

3.2.4.8 Irregular settlement of insurance claims without valid insurance policy - Rs 380.186 million

Section 58 (1) of Insurance Rules, 2017 states that Insurance policy not to be issued without receipt of premium, save as provided under sub-rule (2), (3) and (4) below, no insurance policy shall be issued where premium has not been received by the insurer.

Clause 01 of the acceptance Note stipulates "Submission of Premium closing particular (along with policy number) within 45 days and PPW (Premium payment warranty) within 30 days. and Clause 2 of the Acceptance Note mentions that " OGR (Original Gross Rate)/Leader's terms and original terms and conditions, failing which claim if any shall not be entertained."

During special study of Pakistan Re-Insurance Company Limited (PRCL) for the years 2017 to 2021, it was observed that the management settled the claim of the insured companies without insurance policy, which is violation of above Insurance Rules, 2017.

1. **M/s Soorty Enterprises:** An amount of Rs 128.098 million being 25% share of PRCL out of Rs 512.394 million was paid to M/s Soorty Enterprises without valid insurance policy with the PRCL, which is evident from the facts mentioned in the table below:

S #	Description	Date
1.	Date of Loss	26.07.2020
2.	Request Note by the EFU for policy	03.08.2020
3.	Policy Acceptance Note	04.08.2020
4.	Fire Brigade Department Report	05.08.2020
5.	Premium Payment Cheque (50001859) date	30.09.2021

- M/s Naveena Exports: The management settled the claim of M/s Naveena Exports amounting to Rs 136.324 million being 25% facultative share of PRCL out of Rs 545.296 million without valid insurance policy. 1st premium was paid after 1 and half year from the date of loss i.e. date of loss was 26 April, 2020 and date of premium payment was 30 September, 2021.
- Further, the management settled the claims of M/s Masood Textile Mills Ltd, M/s Interloop, M/s Kohinoor energy and M/s Denim International for Rs 115.764 million without valid insurance policy. Detail is annexed:

(Rs in million)								
S#.	Ceding company	Insured company	Date of Loss	Premium received by PRC		Claim paid/ settled by PRC		Date of Survey Report
				Cheque No.	Date	Amount	Date	
1.	Jubilee General Insurance Company	Masood Textile Mills Ltd.	26.05.18	1639187	1 st check as on 04.09.2018	1.615	24.6.19	19.01.19
2.	Adamjee Insurance Company Ltd.	Interloop.pvt. ltd.	19.06.17	1003553170	05.09.18	25.701	17.7.19	21.07.17
3.	Adamjee Insurance Company Ltd	Kohinoor energy ltd.	26.09.17	1003553170	05.09.18	3.031	17.7.19	08.04.19
4.	Habib Insurance Company	Denim International	15.6.14	8591280	20.12.14	85.415	21.08.17	26.12.16
Total claims settled						115.764		

Audit is of the view that the management extended undue favor for settlement of claim without insurance policy. Hence, the payment of Rs 380.186 million to the above companies is irregular and in violation of Insurance Rules.

The matter was reported to the management on November 19, 2022. The irregularity was discussed in the DAC meeting was held on August 21, 2023. The DAC directed the management to inquire the matter at Ministry level.

Audit recommends implementation of the DAC directives.

3.2.4.9 Top of Form Irregular award of contract on hiring of security guards – Rs 14.647 million

Rule 12 (2) states that all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

Rule 20 of PPRA Rules, 2004 states that save as otherwise provided hereinafter, the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Pakistan Re-Insurance Company Limited (PRCL) for the year 2022, it was observed that the management awarded a contract to M/s Frontier Constabulary (FC) Security Services amounting to Rs 14,647,632 per annum directly without inviting tender against the single quotation. The management hired the services of 22 security guards, 02 supervisors, 04 firefighting & 02 Lady searchers irregularly for the period from 01-07-2022 to 30.06.2023.

It was further observed that the NOC issued from the Home Department, Government of Sindh, the license of M/s. Frontier Constabulary Security Services (FCSS), Pvt. Limited was suspended and not renewed for the period of 2023 due to non-submission of relevant documents.

Audit is of the view that the management extended undue favor to the above security agency without observing the PPRA Rules, 2004.

The matter was reported to the management on November, 2023. The irregularity was discussed in the DAC meeting held on January 17, 2024. The management informed that only one (01) bidder, M/s Frontier Constabulary Security Services, submitted a bid, which was subsequently opened on 26.07.2022. It was apparent that the quoted rates were reasonable. The DAC directed that PRCL management shall seek opinion of Interior Division on the status of Frontier Constabulary, Security Services as a Public Sector Entity. However, Audit is of the view that management should have followed open competitive bidding rather than direct contracting which was irregular and action be taken as per rules.

Audit recommends implementation of the DAC directives.

3.2.4.10 Irregular settlement of insurance claims of insurers - Rs 9.969 million

Section 58 of the Insurance Rules, 2017 states that Insurance policy not to be issued without receipt of premium.- (1) Save as provided under sub-rule (2), (3) and (4) below, no insurance policy shall be issued where premium has not been received by the insurer.

According to Policy Rules/ Acceptance- Premium of Policy is not adjustable against the claim, if any. As per the most basic principle of insurance- utmost Good Faith-you have the duty of full and timely disclosure of all the material information, so if the provided information is not accurate or differs from the

leader term (if any), then this acceptance stands void hence claim, if any, arising out of this acceptance shall not be entertained.

According to Clause 5 of policy rules Submission of Premium closing particular (along with policy number) within 45 days PPW (Premium payment warranty) within 30 days (after issuance Debit notes, falling which claim if any arising out against this acceptance shall not be entertained).

During audit of Pakistan Re-Insurance Company Limited (PRCL) for the year 2022, it was observed that the management did not receive the premium in some cases or received the premium late, however, these claims were admitted and paid in violation of the policies. The details of the same are tabulated below:

(Rs in million)							
S#	Details of insurer	Details of claim	Policy Period of claim	Date of premium received	Date of loss	Date of claim	Claim amount
1.	M/s UBL Insurer	claim No. 20154 against Policy No.ACC-0589/2020	01.07.2020 to 30.06.2021	01.07.2020 to 30.06.2021	22.08.2019	22.08.2019	2.109
2.		claim No. 19662 against Policy No.ACC-0239/2020		29.06.2021	26.03.2020	26.03.2020	2.458
3.		claim No. 2022-05-000008.	01.01.2019 to 31.12.2019.	01.10.2019	26.03.2020	22.08.2019	3.962
4.	M/s. Adamjee Insurance	Insurance policy FC-0868/2020	08.10.2019 to 07.10.2020	Not received	22.08.2020	03.02.2021	1.44
						Total	9.969

Audit is of the view that the management extended undue favor to M/s UBL Insurer and M/s. Adamjee Insurance without having a valid policy and receiving the premium on time.

The matter was reported to the management on November, 2023. The irregularity was discussed in the DAC meeting held on January 17, 2024. The management explained that the claims were only booked and no payment was made in this regards. The DAC recommended that delayed payment and submission of claims without payments by insurance companies shall be taken up by PRCL under intimation to the Ministry of Commerce with the regulator (SECP) for devising an effective and transparent mechanism under intimation to Audit.

Audit recommends implementation of the DAC directives.

(DP No. 694 & 699)

3.2.4.11 Loss on account of delayed settlement of claims – Rs 4.773 million

Clause (x) of Code of Corporate Governance for insurers, 2016, states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

During audit of Pakistan Reinsurance Company Limited (PRCL) for the year 2022, it was observed that the management booked claims valuing US \$ 42,126.31 (Rs 3.857 million @ Rs 91.481 per \$) on various dates between 2010 to 2018. However, at the time of settlement of claims, the management paid Rs 8.630 million (US\$ 42,126.31 @ Rs 200.950) and sustained an exchange loss of Rs 4.773 million due to late reconciliation / settlement.

Audit is of the view that due to slow processing in the acceptance of retrocession on the part of management, an exchange loss of Rs 4.773 million was sustained.

The matter was reported to the management on November 24, 2023. The irregularity was discussed in the DAC meeting held on January 17, 2024. The management stated that in overall business which recording exchange rate of Rs 138.239 million under other income whereas the loss of Rs 8.63 million was realized in 04 cases. Audit was of the view that exchange loss of Rs 8.63 million occurred due to management's negligence. The DAC directed the PRCL management to get record verified of overall exchange gain of Rs 138.239 million against the all policies issued and reason of loss of Rs 8.630 million with Audit.

Audit recommends implementation of the DAC directives.

3.2.4.12 Appointment on fake degree – Rs 3.361 million

Cabinet Secretariat, Establishment Division (Management Services Wing) through its D.O. No. 6(28)2011-DG-II, dated March 08, 2011 informed that the Prime Minister has been pleased to direct that measures should be taken to authenticate degrees/certificates of all Federal Government employees of the respective Ministries/Divisions, their attached departments, subordinate offices and autonomous bodies under their administrative control. The verification process may be initiated by the respective Ministries / Divisions and Heads of autonomous / semi-autonomous organizations at their own, and it will be the responsibility of concerned Secretary and Head of the Department / Organization to have the degree/ certificates verified.

During audit of Pakistan Reinsurance Company Limited (PRCL) for the year 2022, it was observed that the management referred the degrees of 04 employees for verification on 20-10-2019 to Karachi University. Three (03) degrees were found genuine, whereas the degree of Ms. Shagufta Zubair (Assistant Claim) was declared as forged. Subsequently, a show-cause notice dated 25.11.2019 was issued to her on submission of fake degree of B.Com. Subsequently, a petition was filed in the NIRC court against the show-cause notice by the incumbent on whom a stay was granted on 24.03.2021. The case was still pending for recording evidence.

Audit is of the view that the management failed to verify the degree at the time of appointment which reflects negligence and undue favor. Resultantly, an amount of Rs 3.361 million on account of salary and other allowances was held irregular and unjustified.

The matter was reported to the management on November, 2023. The irregularity was discussed in the DAC meeting held on January 17, 2024. The management informed that the Court was granted stay in the case of Mrs. Shagufta Zubair, therefore, PRCL could not take any action. The last date of hearing was 12th December, 2023, (adjourned) the next date of hearing is 26.02.2024. After receipt of the decision in respect of the said case, PRCL will take up the matter for further necessary action. The DAC expressed its displeasure on status of court case and directed PRCL management to proactively defend the case in the court in view of the significant delay in its finalization. Further it was directed that PRCL remain vigilant in respect of its employee's related matters and take timely action, before employees can resolve to courts for obtaining stay of proceedings. Furthermore, legal options be sought for early vacation of stay order.

Audit recommends implementation of the DAC directives.

3.2.4.13 Non-recovery of liquidated damages & surrender performance security – Rs 2.456 million

Clause 6 of contract agreement between PRCL and M/s GCS (Pvt), Limited states that if the supplier fails to complete the delivery on the agreed timelines the Purchaser shall deduct from the invoice payable for the one-time cost of the project as liquidated damages, a sum equivalent to 0.05 percent of the Contract Price for each week of delay until actual delivery is made, up to a maximum deduction of 10% of the Contract Price. After which the purchaser may consider termination of the contract pursuant to GCC24.

During audit of Pakistan Reinsurance Company Limited (PRCL) for the year 2022, it was observed that the management awarded a contract to M/s GCS (Pvt), Limited for Data Centre Co-Location and Dr. Site Co-Location with Migration Services at PRCL at a total cost of Rs 23,919,160 on July 06, 2022. However, the supplier did not complete the contract in due time as per contract. Therefore, total amount of Rs 2,456,839 (Rs 64,923 LD and Rs 2,391,916 performance security) was not deducted by the management.

Audit is of the view that the management failed to deduct liquidated damages and encash performance security as per contract terms which reflects undue favour and negligence.

The matter was reported to the management on November, 2023. The irregularity was discussed in the DAC meeting held on January 17, 2024. The management explained that the cumulative amounting to Rs 2,456,839, comprising both the penalty and the performance security, has been duly approved by the competent authority to be confiscated/recovered. Further informed that contract in question was cancelled. DAC directed the management to get the record verified by the Audit.

Audit recommends implementation of the DAC directives.

3.2.4.14 Bottom of Form Irregular appointment of tax consultant – Rs 2.083 million

According to para 7(ii) of Govt. of Pakistan Finance Division letter No. F.3(10)Exp.II/94-Vol-I-68 dated 8th February, 2002, the Consultants should not be appointed for routine functions of an organization.

During audit of Pakistan Reinsurance Company Limited (PRCL) for the year 2022, it was observed that the management hired the services of a Tax Consultant M/s. Yousuf Adil, Chartered Accountant on retainer ship for a period of 03 years (September 2019 to September 2022) and paid an amount of Rs 1.106 million. Later on, the management hired the services of M/s. Grand Thornton for tax consultancy through a fresh tender at a total cost of Rs 1.067 million.

Audit is of the view that the management hired the services of the Consultants to perform routine functions amounting to Rs 2.083 million in violation of the rules. Despite the presence of the Chief Financial Officer (CFO) who could easily look after such affairs, hiring of Consultants was unjustified.

The matter was reported to the management on November, 2023. The irregularity was discussed in the DAC meeting held on January 17, 2024. The management explained that it was a common and established practice to enlist the services of tax consultants. The intricacies of tax regulations, which are subject to frequent changes, demand a specialized understanding that may not always be available within a

company's internal resources and consultant in question was engaged since 2010. The DAC recommended that the management will place the audit observation in front of the Board which may reconfirm the justification for engaging an external Tax Consultant or otherwise.

Audit recommends implementation of the DAC directives.

3.2.4.15 Bottom of Form Irregular appointment of Consultant – Rs 1.800 million

According to advertisement dated 21st October, 2022 Consultancy for Business Development Strategy Services wherein Master's in Business Administration from HEC recognized University/Institute in Finance, Economics, Business Development, Marketing or other related field of study as per provided job description. Foreign Qualification will be preferred and experience i.e. at least 05 years' experience in areas of finance/analytics, and business development in insurance or reinsurance related sectors. Out of 05 years' experience at least 2.5 years must be international markets other than Pakistan. Candidate possessing extensive international experience including Chinese reinsurance market will be given preference and age maximum 45 years of age on closing date of the application.

During audit of Pakistan Reinsurance Company Limited (PRCL) for the year 2022, it was observed that the management appointed Mr. Ali Zain Hirji as a Consultant (Business Development Strategy) by rejecting suitable candidate as detailed below:

S#	Name	Age (years)	Experience	Qualification	Year of Experience	Remarks
1.	Mr. Ali Zain Hirji	33	<ul style="list-style-type: none"> • Head of International in Brilliance Reinsurance from 2017 to 2021. • Broker in NDI insurance & Reinsurance from 2013 to 2017 	B.com 2012 MBA 2019	09	Appointed
2.	Ms. Naheeda Nawaz	45	<ul style="list-style-type: none"> • Manager underwriting in Salama Takaful Ins. UAE from February, 2016 to October, 2017. • Head of operation in Optima Ins. Broker UAE form January, 2015 to January, 2016. • Insurance Business Development Consultant in Dual Matrix Corporation London from August, 2013 to December, 2014. • Country Manager in Al-Futtain Willis UAE from February, 2012 to July, 2013. • Manager Underwriting NICL Lahore from July, 2001 to April, 2010. 	MSC 1999 ACCI 2005	15.6	Rejected

Audit is of the view that the management hired a consultant on favoritism basis having less experience than the rejected candidate. Thus, an amount of Rs 1.800 million (Rs 150,000 * 12 months) was irregular and unjustified.

The matter was reported to the management on November, 2023. The irregularity was discussed in the DAC meeting held on January 17, 2024. The management explained that the hiring of consultant for business development strategy was approved in 62nd meeting of HR Committee and the advertisement regarding Business Consultant was published in leading newspapers on 21st October, 2021. The DAC directed that PRCL management to produce relevant documents related to the experience of the successful candidates in relation to recruitment for the scrutiny of the Audit and get verify that the minimum required experience was met.

Audit recommends implementation of the DAC directives.

3.2.4.16 Irregular appointment of company secretary without advertisement and relevant experience - Rs 1.630 million

As per Section 14 (4) of Public Sector Companies (Corporate Governance) Rules, 2013 states that, no person shall be appointed as the company secretary of a Public Sector Company unless he is a

- (a) member of a recognized body of professional accountants; or
- (b) member of a recognized body of corporate or chartered secretaries; or
- (c) person holding a master degree in business administration or commerce or being a law graduate from a university recognized by the Higher Education Commission with at least five years relevant experience.

Further as per section 14 (5) of Public Sector Companies (Corporate Governance) Rules, 2013 states that, no person shall be appointed to the positions of the chief financial officer and company secretary unless he is fit and proper for the position.

Cabinet Secretariat (Establishment Division) letter dated 6th May, 2000, (iii) (b) stipulates that vacancies should be advertised in the leading national and regional newspapers (c) selection should be made through regularly constituted Selection Committees / Board.

During the audit of Pakistan Reinsurance Company Limited's accounts for the year 2022, it was observed management appointed Mr. Sumeet Kumar as Company Secretary in June 2023 under the Monetized Salary Policy (MSP), Scheme 2021 on a 01-year probationary period basis without advertisement and competitive process. Furthermore, the post of Company Secretary does not fall under the MSP Scheme, and the incumbent did not have the relevant experience i.e. five years of relevant experience as a Company Secretary.

Audit is of the view that the management appointed the incumbent as Company Secretary in violation of rules which reflected undue favor. Hence, payment on account of Pay & allowances amounting to Rs 1.630 million (04 months @ Rs 407,500 P.M pay) to the incumbent is irregular and unjustified.

The matter was reported to the management on November, 2023. The irregularity was discussed in the DAC meeting held on January 17, 2024. The management explained that combined the position of Company Secretary with an existing employee who was the senior most in Board Secretariat Department of PRCL and possessed the requisite qualification and experience as specified in the fit and proper criteria with approval of the competent authority i.e. the Board of PRCL. The DAC directed that the PRCL management to prove credential of the Company Secretary, and get verify by the Audit to ensure that the SECP fit and proper criteria was met in case of his appointment.

Audit recommends implementation of the DAC directives.

3.3 State Life Insurance Corporation of Pakistan

3.3.1 Introduction

State Life Insurance Corporation of Pakistan (SLIC) was incorporated on November 1, 1972 under the Life Insurance (Nationalization) Order, 1972, which has been replaced by Insurance Ordinance, 2000. The main objective of the Corporation is to engage in the life insurance business, to maximize the return to the policy holder economizing on expenses and increasing the yield on investment and to use the policyholders fund in the wider interest of the community.

3.3.2 Comments on Audited Accounts

3.3.2.1 The working results of the Corporation for the year 2022 as compared to those of the previous years are tabulated below:

Description	2022	% inc/ (dec)	2021	% inc/(dec)	2020
Premium revenue	244,392	50	162,623	36	119,519
Investment Income (net)	114,752	19	96,160	10	87,267
Net realized fair value gain/(loss) on financial assets	440	646	59	(72)	208
Net fair value gain on financial assets at fair value through profit or loss	(13,563)	58	(8,566)	-	603
Net rental income	713	72	415	(26)	560
Other income	37,772	75	21,560	27	17,019
Insurance benefits	175,695	79	98,364	51	64,938
Recoveries from re-insurers	(283)	190	(314)	43	(219)
Claim related expense	25	79	14	5	14
Net change in insurance liabilities (other than outstanding claims)	149,856	14	130,887	4	129,039
Acquisition expenses	22,709	13	20,021	20	16,617
Marketing and administration expenses	14,095	11	12,729	24	8,042
Total expenses	187,429	14	164,070	6	154,131
Finance cost	(997)	(37)	(1,582)	(27)	(2)
Profit before tax	20,641	120	9,380	60	5,921
Profit after tax	13,702	106	6,665	60	4,203

(Source: - Annual Audited Accounts-2021)

Administration expenses / net premium rate is 6.07% in the year 2022 registering decrease by 2.01 % as compared to previous year 2021 i.e. 8.08%. The increase in administration expense is due to increase in expenses including legal and professional charges, travelling expense and utility charges.

3.3.2.2 Acquisition expenses increased from Rs 19,995.160 million in the year 2021 to Rs 22,668.775 million in the year 2022 registering an increase 13.37%. The increase is due to rise in stamp duty cost in the year 2022.

3.3.2.3 Dividend pay-out ratio decreased from 24.77 % in the year 2021 to 11.55% in the year 2022, registering decreased by 13.22% which reflects lower tendency of paying dividend to shareholders.

3.3.2.4 Insurance/re-insurance receivables increased from Rs 37,430 million in the year 2021 to Rs 78,092 million in the year 2022 registering an increase of Rs 40,662 million i.e.108.63 %. This increase is due to rise in receivables from insurance contract holders.

3.3.2.5 Other loans and receivables increase from Rs 56,221.789 million in the year 2021 to Rs 65,281.569 million in the year 2022 registering an increase of 16.11%. The increase is due to rise in accrued investment income along with other receivables in the year 2022.

3.3.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	% age of compliance
1996-97	11	9	2	56&59,57(a)(b)	82%
1998-99	11	9	2	46,49	82%
2002-03	9	8	1	13	89%

				4.3.2.5, 4.3.3, 4.3.4.2, 4.3.4.3, 4.3.4.4, 4.3.4.7	
2016-17	8	2	6	3.3.2.1, 3.3.2.2, 3.3.3, 3.3.4.1, 3.3.4.2, 3.3.4.4	25%
2017-18	25	7	18	4.3.4.6, 4.3.4.19, 4.3.4.1, 4.3.4.21, 4.3.3, 4.3.4.2, 4.3.4.5, 4.3.4.8, 4.3.4.9, 4.3.4.11, 4.3.4.12, 4.3.4.13, 4.3.4.14, 4.3.4.15, 4.3.4.16, 4.3.4.17, 4.3.4.18, 4.3.4.20	28%
2019-20	6		6	3.3.4.1, 3.3.4.2, 3.3.4.3, 3.3.4.4, 3.3.4.5, 3.3.4.6	
Total	185	117	68		63%

The overall compliance of PAC directives needs improvement.

3.3.4 Audit Paras

3.3.4.1 Non-recovery & non-payment under Sehat Sahulat Programs – Rs 69,933.313 million

Clause 21.2 (a) of the Contract between Provincial Government and SLIC states that, if the government fails to pay any premium amounts or dues to STATE LIFE pursuant to this contract and not subject to dispute pursuant to clause 17 within 60 days after receiving written notice from State Life that such payment is overdue.

Clause 4.8 of agreement between SLIC & Health Department-Government of KPK on 01-07-2020 states that the Organization (SLIC) shall reimburse the health provider (hospital, nursing/maternity home) based on an agreed invoicing and payment system, which shall ensure timely payment to the providers as per the schedule agreed with the service provider. Further, clause 9.5 states that the organization (SLIC) shall ensure that healthcare providers under this agreement shall provide the health insurance services specified in this agreement to beneficiaries and policyholders on a cashless basis.

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that the management made insurance agreements for Sehat Sahulat Programs with Federal, Punjab and KPK Governments. According to agreements SLIC performed the direct services and be fully responsible and accountable to the clients for procurement and implementation of the health services. However, an amount of Rs 69,933.313 million was still outstanding as detailed below:

(Rs in million)		
Sehat Sahulat Program (Federal)		
SSP Phase-II	SSP Phase-III	

Billed	Received	Outstanding	Billed	Received	Outstanding	Total Amount
10,710.306	10,709.291	1.015	8,107.9847	-	8,107.984	8,108.999
Sehat Sahulat Program (Punjab)						
29,932.313	27,564.220	2,368.093	120,963.721	71,060.785	49,902.936	52,271.029
SSP Phase-III(KPK)						
			47,780.818	38,227.533	9,553.285	9,553.285
Total						69,933.313

Similarly, the management also entered into an agreement with Government of KPK on July 01, 2020 and Government of Punjab on December 29, 2021 for providing health insurance services to all NADRA registered families having permanent address of KPK and Punjab. The Health Department, KPK and Punjab should pay premium to the SLIC on an annual basis. However, an amount of Rs 24,771.308 million of claims of service providers were still pending as detailed below:

(Amount in Rs)				
Position as at 31-12-2022				
Project	No. of Patients	Claim Amount of Hospitals	Paid Amount to Hospitals	Un-paid Amount to Hospitals
KP100	1,685,014	42,347,470,780	32,764,906,671	9,582,564,109
SSP (Phase II)	1,246,700	29,181,123,274	26,357,469,621	2,823,653,653
SSP (Phase III)	2,004,939	43,922,451,820	31,557,360,725	12,365,091,095
Total				24,771,308,857

Audit is of the view that non-recovery of outstanding amount under Sehat Sahulat program from Federal & Provincial Governments and non-payment of claim to service providers (Rs 69,933.313 million – Rs 24,771.308 million = Rs 45,162.005 million) reflected weak financial management and poor recovery mechanism.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024.

- The management explained that the health division had diligently adhered to this contractual obligation by raising invoices in a timely manner upon the due date of premium payment. However, an amount of Rs 63,102 million has been collected.
- The management explained that the core issue of pending health claims from the previous year remains due to non-receipt of claim documents from hospitals.

The DAC directed the management to verify the documents from Audit.

Audit recommends implementation of the DAC directives.

(DP No. 581 & 582)

3.3.4.2 Non-deduction of sales tax – Rs 5,985.720 million

According to the Sindh Sales Tax on Services Act 2011, sales tax is payable on premium of life and health insurance policies.

Khyber Pakhtunkhwa Revenue Authority (KPRA) vide letter No.F.No. 7(10)/KPRA/ADC(HQ)/2021/12114M dated 29-07-2021 states that services of life insurance are taxable at the rate of 15% while health insurance services are taxable at a reduced rate of 1% vide Serial No.26 of the Second Schedule to the Khyber Pakhtunkhwa Finance Act, 2013 with effect from 01.07.2021.

During audit of State Life Insurance Corporation of Pakistan (SLIC) Principal Office, Karachi for the year 2022, it was observed that the management did not deduct sales tax amounting to Rs 5,985.720 million from insurer on their premium of life and health insurance policies.

Audit is of the view that non-deduction of sales tax reflects gross violation of rules.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024. The management informed that SLIC along with other life insurance companies has filed petitions before Sindh high Court and Lahore High Court against levy of sales tax on life insurance premium in Sindh and Punjab respectively. The DAC directed that management to expedite the case.

Audit recommends implementation of the DAC directives.

3.3.4.3 Non-recovery of premium (group & pension division) – Rs 3,218.567 million

Clause (x) of Code of Corporate Governance for Insurers, 2016 states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that an amount of Rs 3,218.567 million was outstanding against premium from different clients of Group & Pension Division as on 31.12.2022 as detailed below:

S#	Zone	1 to 6 months	7 to 12 months	1 to 2 years	2 to 3 years	Above 3 years	Outstanding amount (Rs)
1	Rawalpindi	16,425,191	20,966,653	11,387,312	541,194	426,345	49,746,685
2	Lahore	1,292,386,131	69,607,188	411,563	-	-	1,362,404,882
3	Karachi	1,524,799,029	91,258,857	83,241,459	73,524,620	26,605	1,772,850,569
4	Peshawar	928,106	7,594,404	-	25,043,294	-	33,565,804
Total		2,834,538,457	189,427,102	95,040,334	99,109,108	452,950	3,218,567,940

Audit is of the view that non-recovery of outstanding premium reflected weak internal control and poor recovery mechanism.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024. The management explained that Rs 2,963.627 million has been recovered. The DAC directed that management to verify the documents from Audit.

Audit recommends implementation of the DAC directives.

3.3.4.4 Encroachment of plots – Rs 1,172.380 million

Clause (x) of Code of Corporate Governance for Insurers, 2016 states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that the management had three (03) plots at various locations which had been encroached by the land grabbers as detailed below:

(Rs in million)			
S #	Location	Area	Market Value
1.	Dullah Khurd, Ferozabad, Lahore	299 Marlas	394.680
2.	Plot Yuhanabad, Lahore	27.5 Kanals	550.000
3.	Deh Thano, Memon Goth, Malir, Karachi	191,129 Sq.Yards	227.700
Total			1,172.380

Audit is of the view that the management failed to keep the effective control and possession over its properties and no legal action was taken against the encroached persons.

The matter was reported to the management on September 25, 2023. The management in its reply dated 22.11.2023 stated that the Chairman State Life by involving some high ups of christian community approached Chief Secretary Punjab for the amicable solution of the issue. Further, the suit No.143/2023 was filed against the land grabber name Mr. Zulfiqar Ali and another suit No. 113/2002 was filed against Haji Muhammad Akhtar and others. The reply of the management was not tenable because land/plot was still under the possession of land grabbers. Further, management still failed to demarcate the land to construct the boundary wall at Plot Yuhanabad, Lahore.

Audit recommends to probe the matter.

3.3.4.5 Non-recovery of rent from active tenants – Rs 384.730 million

According to deed of lease made between State Life Insurance Corporation (SLIC) and tenants that payment of rent and all other charges what so ever nature which the lessee (tenant) is obliged to pay under this deed of lease without any delay, deduction or set off what so ever.

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that an amount of Rs 384.730 million (Annex-28) was lying outstanding on account of rent and utilities as summarized below:

(Rs in million)					
Description	Opening Balance	Charged	Total	Received	Outstanding
Parking	31.66	13.71	45.37	10.65	34.72
Electric-206AA	56.64	271.70	328.34	251.82	76.53
Water	30.06	15.29	45.35	12.22	33.12
Rent from tenants	190.90	316.85	507.76	267.39	240.37
Total					384.73

Audit is of the view that non-recovery of dues shows negligence and poor recovery mechanism.

The matter was reported to the management on September 25, 2023. The management in its reply dated 22.11.2023 stated that the management recovered amounting Rs 186.350 million leaving outstanding balances of Rs 198.383 million. The reply of the management was not tenable because no documentary proof was provided to Audit for verification.

Audit recommends prompt recovery of outstanding amount.

(DP No. 587 & 588)

3.3.4.6 Loss of revenue due to non-renting out of vacant buildings – Rs 234.858 million

Policy Statement of draft Tenancy Policy 2020 of SLIC states that maximization rental income by effective recoveries, lease renewals and active follow-up of court cases. Renting of vacant spaces at reasonable / approved rates to reputable entities and to retain them by avoiding disputes of excessive rent increase over and above the market rates. Providing all such facilities as agreed in the lease agreement as a bona fide land lord.

According to Tenancy Policy (Real Estate Division) of State Life Insurance Corporation of Pakistan (SLIC), the spaces available for renting shall be rented out by advertising in national and local dailies for available spaces, display of banners / notices in particular building, through real estate agents / companies and through public relation of Tenancy officers & building in-charge.

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that an area of 543,652 sq.ft i.e. 36% of total available area of 1,513,363 sq.ft. was lying vacant at various buildings in Karachi which reflects that occupancy rate is very low. Resultantly, Corporation was deprived of rental income of Rs 234.858 million (Average Rs 36 per sq.ft x 543,652 sq.ft x 12 months) per annum.

Audit is of the view that the management failed to take efforts to rent out the vacated buildings, which deprived the Corporation from due monetary benefits.

The matter was reported to the management on September 25, 2023. The management in its reply dated 22-11-2023 stated that as a result of efforts, present position of the renting of spaces in Karachi as at 30-09-2023 was that the vacancy position has reduced from 36 % to 14.89%. The reply of the management was not tenable because management acknowledged the audit stances that 36% of total available area of 1,513,363 sq.ft. was lying vacant.

Audit recommends taking concrete efforts for renting out vacant spaces in line with tenancy policy.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year 2022-23 vide para(s) number 3.3.4.13 having financial impact of Rs.32.580 million. Recurrence of same irregularity is a matter of serious concern.

3.3.4.7 Imprudent investment in shares of companies - Rs 161.042 million

As per SLIC Investment policy 2017, Buy and hold share of fundamentally strong companies trading at 30% deep discount to their fair value, especially in depressed market subject to condition that total return on stock, dividend yield plus appreciation in price is at least equal to 3 years average of 6 months' treasury bills.

During audit of State Life Insurance Corporation of Pakistan (SLIC) Principal Office, Karachi for the year 2022, it was observed that the management held an investment of 8.711 million shares of 23 companies valuing Rs 161.042 million which were defaulted / suspended. Pakistan Stock Exchange (PSX) published a list of companies / securities in which trading was suspended under clauses 5.11 & 5B.14 of PSX Regulations along with reasons for suspension in which these companies were included. Furthermore, SECP had also passed orders for winding-up of these companies which depicts that there were very remote chances of recovery of invested amount (Annex-29).

Audit is of the view that the management failed to monitor the performance of the companies as per investment policy. Resultantly, corporation suffered a loss of Rs 161.042 million.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024. The management explained that Investment Division proposes to sell non-performing stocks once their market price exceeds or equivalent to its average holding cost. The DAC directed the management to take up the matter in Board by reviewing the investment policy.

Audit recommends implementation of the DAC directives.

3.3.4.8 Recurring loss due to excess deployment of officers / staff – Rs 153.720 million

Clause (x) of Code of Corporate Governance for Insurers, 2016 states that the directors of an insurer shall exercise their powers and carry out their fiduciary duties with a sense of objective judgment and independence in the best interests of that insurer and its policyholders.

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that total of 183 employees were posted excess against the approved sanctioned

strength which resulted in a recurring loss of Rs 153.720 million (Rs 70,000 approx. p.m. salary x 183 employee x 12 months) on account of pay and allowances (Annex-30).

Audit is of the view that the management did not follow the approved sanctioned strength of officers and officials at different stations which shows negligence and weak internal controls.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024. The management informed that in view of the decision of BoD in its 291st meeting held on 12.09.2022, the excess staff strength has been rationalized / rectified. The DAC directed the management to rationalized the staff strength at different stations/zones.

Audit recommends implementation of the DAC directives.

3.3.4.9 Non-recovery from various parties – Rs 123.851 million

Clause (x) of Code of Corporate Governance for Insurers, 2016, states that the directors of an insurer shall exercise their powers and carry out their fiduciary duties with a sense of objective judgment and independence in the best interests of that insurer and its policyholders.

Article 20 of Life Reassurance Treaty between State Life Insurance Corporation of Pakistan and Swiss Reinsurance Company, Zurich, Switzerland states that (2) Statement of the balance due as shown in the statement of account shall be made in accordance with the provisions set out in this Treaty. Alternatively, the balance may be set off against any other outstanding balances between the “Ceding Company (SLIC)” and the “Re-assurer (Swiss Reinsurance Company). (3) when the balance is due to the “Re-assurer” the “Ceding Company” shall apply to the exchange control authorities for remittance within 30 days of confirmation of the accounts by the “Re-assurer”.

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that an amount of Rs 123.851 million was outstanding against various heads (Annex-31). The brief summary is as under:

(Rs in million)		
S#	Account Head	Outstanding Amount
1	Others (CPF VRSS)	77.643
2	Re-insurance Company (Swiss Re)	46.208
Total		123.851

Audit is of the view that the due to in-effective financial management, the management failed to safeguard its assets and their subsequent adjustments / recoveries. This shows weak internal controls and poor recovery mechanism.

The matter was reported to the management on September 25, 2023. The management in its reply dated 22-11-2023 stated that inadvertently the electrical charges recoverable from tenants was incorporated in the code of 206AA CPF VRSS having Rs 77.643 million. The fresh code has been allotted and rectified as 206ER through necessary code correction is incorporated accordingly in the year 2023. Further, an

amount of Rs 34.958 million has already been recovered and Rs 29.143 million had also been adjusted from M/s. Swiss Re. The reply of the management was not tenable as no documentary evidences regarding rectification of code and recovered amount had been provided.

Audit recommends prompt recovery of dues besides provision of documentary evidence of the recovery made.

3.3.4.10 Non-mutation of property – Rs 110.308 million

Clause (x) of Code of Corporate Governance for Insurers, 2016 states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that the management did not have the title documents / mutation of the following property in the name of SLIC. The detail is as under:

Description / Name	Land Area	Market value as on 13.12.2021 (Rs in million)	Remarks
SLIC Building No.10 12, Bank Square, Sharahe Quaid e Azam, Lahore	25.07 Marlas	110.308	Title disputed

Audit is of the view that the land without the title mutation documents in the name of corporation reflected serious negligence and poor monitoring of assets.

The matter was reported to the management on September 25, 2023. The management in its reply dated 22-11-2023 stated that State Life took possession of SLIC No.10 bank square, Lahore and rented it out. The reply of the management was not tenable because legal title documents i.e. mutation was not provided.

Audit recommends to justify the matter.

3.3.4.11 Non-possession of the re-allocated plot – Rs 84.805 million

Clause (x) of Code of Corporate Governance for Insurers, 2016 states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that a plot was allotted to SLIC on 08-03-1987 from Estate Officer, Mirpur Development Authority (MDA). The building plan was submitted by the management to MDA which was not approved. The management filed a writ petition on 21-06-2000 in High Court of AJK for approval of building plan. The Court in its decision on 14-04-2021 admitted SLIC as lawful allottee and directed MDA for approval of plan. The management however, withdrawn its petition without any undertaking by the MDA or any directives from the High Court of AJK. In the meantime, a petition was filed by AJK Govt.

by stating that the said plot had already been cancelled. In response, SLIC filed a writ petition challenging the cancellation orders. Later on High Court, AJK dismissed the petition on 13-02-2013 on the ground of laches. Later on, Supreme Court of AJK through Civil Appeal dated 23-06-2022 announces its decision that the appellants are at liberty to choose any of the offered plots and MDA shall make arrangements for allotment of the selected plots. The MDA issued allotment letter to Zonal Chief, Mirpur Zone, SLIC in compliance of Supreme Court Judgment. However, the management failed to take the possession of the said plot to date.

Audit is of the view that despite the favorable decision of Supreme Court, AJK, the management failed to take possession of the offered plot for the last many years. Thus, there are chances of encroachment or financial loss of Rs 84.805 million.

The matter was reported to the management on September 25, 2023. The management in its reply dated 22-11-2023 stated that at present, the contempt petition of SLIC was pending for adjudication before the Supreme Court of AJK. The reply of the management was not tenable because SLIC failed to take the possession of the said plot as yet.

Audit recommends the management to follow the decision in the light of Supreme Court, AJK and occupy the offered plot without further loss of time.

3.3.4.12 Loss due to investment of funds at lower rates – Rs 71.950 million

Clause (3) of Investment Policy, 2017 of SLIC states that to minimize idle funds and undertake timely steps to optimize the investment return from the available funds.

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that the management participated in Treasury Bills auction on 12.01.2022 & 18-5-2022 and offered the bid at lump-sum amount of Rs 6.000 billion instead of breaking it into 4 to 6 slabs with different bids rates to State Bank of Pakistan (SBP). SBP rejected these bids as bids rates were higher than SBP cut-off rates. Resultantly, surplus / idle funds remained parked in same bank at very nominal rates which caused loss of Rs 71.950 million as detailed below:

(Amount in Rs)							
S#	Surplus funds	Auction date	Issue date	Bids offered by SLIC (%) D	SBP weighted Average (%) E	Funds invested in Banks (rates) F	Difference of Profit G (A*E-F*3/12)
	A	B	C				
1	6,000,000,000	12.01.22	13.01.22	10.45	10.37	9.5	13,050,000
2	2,000,000,000	18.05.22	19.05.22	15.00	14.42	13	7,100,000
3	2,000,000,000	18.05.22	19.05.22	15.10	14.70	13	17,000,000
4	5,000,000,000	18.05.22	19.05.22	15.15	14.74	13	34,800,000
Total							71,950,000

Audit is of the view that the management failed to act prudently and invested at higher rates offered by SBP causing loss of Rs 71.950 million due to parking of funds at lower rates.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024. The management explained that there could be a minor difference/margin existed between yield and price of T-Bills. It was not necessary to quote accurate bid price and bid yield because these were judgmental calls. The DAC directed the management to verify the documents from Audit.

Audit recommends implementation of the DAC directives.

3.3.4.13 Irregular appointment in violation of quota – Rs 43.680 million

Para 1 clause (X) of Cabinet Secretariat Establishment Division letter No.F.53/I/2008-SP dated 22nd October, 2014 states that Recruitment Policy for the Federal Services / Autonomous Bodies/ Corporation Regional / Provincial quota, Women quota, Minorities (Non-Muslim) quota and Disable Persons quota, or any other quota prescribed from time to time, should expressly and clearly be indicated against the vacant post(s) advertised.

Following quotas have been specified by the Federal Government for strict observance in direct recruitment:

i. Provincial & Regional Quota

Merit	Punjab	Sindh		Khyber PK	Baluchistan	Northern Areas/ FATA	Azad Kashmir
7.50 %	50%	Rural	Urban	11.5%	6%	4%	2%
		11.4%	7.6%				

- ii. 10% women, 5% minorities and 2% disabled person quotas have also been prescribed.
- iii. The Provincial /Regional quota if not filled will be carry forward till suitable candidates are available from the Province/Region concerned.
- iv. No “substitute” recruitment will be made.

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that the management directly appointed 05 officers at different posts on contract basis without observing provincial quota. Details of salaries paid is as under:

(Amount in Rs)

S#	No. of officers A	Amount per month (Rs) B	Total Amount (Rs) C (A*B*12)
1.	4	800,000	38,400,000
2.	1	440,000	5,280,000
		Total	43,680,000

Audit is of the view that the management failed to observe the Provincial / Regional quota in organization in violation of federal government rules. Thus, expenditure incurred on salaries amounting to Rs 43.680 million was held irregular and unjustified.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024. The management explained that there was one post against each position and advertisements were separately published, under the circumstances, selection was made against open merit quota. However, they would be adjusted against the respective provincial quota. The DAC directed the management to consider the Provincial / Regional quota organization wise.

Audit recommends implementation of the DAC directives.

3.3.4.14 Non-pursuance / recovery of decreed amount - Rs 40.761 million

Clause (x) of Code of Corporate Governance for Insurers, 2016 states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that the management filed a suit for recovery of rent of Rs 40.761 million against M/s. System Innovations (Pvt.) Ltd. in the High Court of Sindh, Karachi. In the year 2015, judgment was passed by the Court in favor of SLIC and issued decree against M/s. System Innovations (Pvt.) Ltd. However, after lapse of considerable time, no action was taken by the management to recover the decree amount of Rs 40.761 million.

Audit is of the view that non-pursuance / recovery of decreed amount was negligence and weak internal controls.

The matter was reported to the management on September 25, 2023. The management in its reply dated 22-11-2023 stated that SLIC filed Suit No.169/2015 for recovery of rent arrears amounting to Rs 40.761 million against the tenant which was pending in High Court of Sindh at Karachi for recording of ex-parte evidence of SLIC's witness. The reply of the management was not tenable because no strenuous efforts were made to recover the decree amount.

Audit recommends the management to pursue the matter.

3.3.4.15 Irregular appointments after the age of superannuation - Rs 27.981 million

Para 04 of Establishment Secretary's D.O. letter No.7/3/ 89-OMG-II dated 28.01.1989 entitled as 'Employment after Retirement- Policy and Procedure – Re-employment after Superannuation' states that re-employment beyond the age of superannuation in all cases requires the approval of the Prime Minister.

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that Mr. Mahmood Alam retired on 20.09.2022 serving as Divisional Head (Legal Affairs Division). He was re-employed on 21.09.2022 as AGM/DH-LAD on contract basis for the period of two years after next day of his retirement. Furthermore, Mr. Abdul Nasir retired on 16.10.2019 serving as Assistant General Manager (AGM), IT was also re-employed on 22.12.2019 to 22.06.2020 after 68 days of his retirement and again appointed on contract basis for a further period of one-year w.e.f 28.09.2022.

Audit is of the view that the incumbents were re-appointed without obtaining the approval of the Prime Minister of Pakistan. Hence, expenditure in respect of pay and allowances amounting to Rs 27.981 million (Salary Rs 718,120 per month *14 months = Rs 10.054 million and Rs 746,989 per month salary *24 months = Rs 17.927 million respectively) was held irregular and unjustified.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024. The management explained that Ministry of Law & Justice vide letter dated 03.03.2017 clarified that the Board of Directors quite rightly approved the appointment of the unit head operations as it was within the purview of and power of the Board. The DAC directed the management to verify its rules regarding re-appointment after age of superannuation to Audit.

Audit recommends implementation of the DAC directives.

3.3.4.16 Irregular award of incentives and bonuses - Rs 20.181 million

Clause (x) of Code of Corporate Governance for Insurers, 2016 states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that the Window Takaful Operations were started from February, 2021 and sustained losses of Rs 26.373 million and Rs 86.328 million during the years 2021 and 2022 respectively. Despite this poor performance, the management paid Rs 20.181 million as incentives and bonuses to its employees.

Audit is of the view that payment of incentives and bonuses despite making losses reflects poor financial management.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024. The management explained that it was in principle decided by the Board that since the existing bonus policy is based on the revenue, therefore, the divisions established after 2015 shall be given the bonus on the rating obtained by the non-revenue generating divisions. The DAC directed the management to verify the documents from Audit.

Audit recommends implementation of the DAC directives.

3.3.4.17 Non-formulation of Corporate Social Responsibility Policy - Rs 14.775 million

Clause 2 (1) & (2) of S.R.O.983(1)/2009, The Gazette of Pakistan Extraordinary Part II Securities and Exchange Commission of Pakistan, Islamabad dated 16-11-2009 states that every company shall provide descriptive as well as monetary disclosures of Corporate Social Responsibility activities undertaken by it during each financial year. Such disclosures shall be made in the directors' report to the shareholders annexed to the annual audited accounts.

Clause 3 of Corporate Social Responsibility (CSR) Voluntary Guidelines, 2013 by Securities and Exchange Commission of Pakistan states that Companies are encouraged to have a CSR Policy endorsed by the Board of Directors (BoD).

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that the management expensed out Rs 14.775 million under the head of CSR which was approved by BoD in its 291st meeting dated September 12, 2022 on the basis of its 182nd meeting dated May 24, 2005, which approved the Social Responsibility Fund and its mechanism. However, minutes of 182nd meeting of the BoD resolved that a Committee was required to be constituted to make suggestions regarding CSR related issues. Contrary to that, neither any Committee was constituted nor any disclosure was made in the directors' report to the shareholders.

Audit is of the view that expenditure incurred under CSR policy was irregular due to non-formulation of CSR policy.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024. The management explained that CSR policy is in process. The DAC directed the management to formulate the CSR policy.

Audit recommends implementation of the DAC directives.

3.3.4.18 Irregular procurements of medicines & equipment – Rs 14.775 million

Rule 42 (c) (v) of PPRA Rules, 2004 states that a procuring agency shall only engage in direct contracting in case of emergency, provided that the procuring agencies shall specify appropriate fora vested with necessary authority to declare an emergency.

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that the Chairman, SLIC approved Medical Relief Camps of State Life for flood affected areas on 02.09.2022. In this regard, the management procured medicines and other equipment amounting to Rs 14.775 million without calling competitive rates. The procurements were made under emergency basis without specifying the appropriate fora.

Audit is of the view that the management procured the items in violation of PPRA Rules, 2004. Thus, procurements amounting to Rs 14.775 million was held irregular and unjustified.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024. The management informed that reference was invited to PPRA Rule No. 42 c (direct contracting) (v) and in case of an emergency. The DAC directed the management to take ex-post facto approval from its Board.

Audit recommends implementation of the DAC directives.

3.3.4.19 Loss due to mis-appropriation of funds – Rs 11.672 million

Section 30 (1) (g) (v) of State Life Employees (Service) Regulations, 1973 states that an employee who is guilty of any other mis-conduct shall be liable to one or more of the following punishment; recovery from the employee of the whole or part of the amount of loss, if any sustained by the Corporation as a result of his misconduct or any other act.

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that an amount of Rs 11.672 million had been mis-appropriated and no action was taken against the responsible(s) as detailed below:

S#	Zones	Amount (Rs)
1	Sukkur Zone	7,224,895
2	Multan Zone	4,447,100
Total		11,671,995

Audit is of the view that the management failed to safeguard the assets of the corporation due to lack of effective monitoring system, resulted in mis-appropriation of fund of Rs 11.672 million.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024. The management explained that from Sukkur Zone 100% amount has already been recovered through NAB. However, in Multan Zone, tried to trace out the concerned agents. The DAC directed the management to take action against the responsible(s) and verify the status to Audit.

Audit recommends implementation of the DAC directives.

3.3.4.20 Irregular appointment of officers on bogus degrees – Rs 11.617 million

The Secretary, Government of Pakistan, Establishment Division vide his DO letter dated March 08, 2011 communicated the instructions of the Prime Minister states that measures should be taken to authenticate degrees/certificates of all federal Govt. employees of respective Ministries / Divisions, their subordinate offices and autonomous bodies under their administrative control.

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that degrees / certificates of the following officers were found fake / bogus during verification:

S#	Name of Officer & Designation	Name of Zone	Degree Certificate /	Remarks
1.	Mr. Fayyaz Mustafa (Assistant Manager)	Larkana Zone	M.A (Economics)	Bogus Degree
2.	Mr. Muzammil Ghafir Qureshi (Area Manager)	Lahore Western Zone	F.A.	Bogus Certificate
3.	Farhat Hussain (Area Manager)	Lahore Western Zone	M.A	Bogus Degree

Audit is of the view that the management failed to verify the degrees / certificate of the incumbents at the time of appointment which were found fake/bogus later on which reflects inefficiency, slackness and favoritism. Hence, expenditure in respect of salaries and allowances amounting to Rs 11.617 million is held irregular.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024. The management explained that Mr. Fayyaz Mustafa obtained stay order from Sindh High Court dated 19.07.2014. Mr. Muzammil Ghafir and Mr. Farhat Hussain punishments were reduced from dismissal down gradation. The DAC directed the management to take action against the officers/ officials and share the status to Audit.

Audit recommends implementation of the DAC directives.

3.3.4.21 Irregular / unjustified payment of commission – Rs 5.000 million

Clause (x) of Code of Corporate Governance for Insurers, 2016 states that the directors of an insurer shall exercise their powers and carry out fiduciary duties with a sense of objective judgment and independence in the best interests of that Insurer (company).

During audit of State Life Insurance Corporation of Pakistan (SLIC) Principal Office, Karachi for the year 2022, it was observed that the management issued various life policies to the policy holders having sum assured of Rs 70.904 million and paid commission of Rs 5.000 million against these policies. Later on, upon receipt of claims, it was discovered that the policies issued have serious shortcoming / deviations. The Zonal & Regional Committees repudiated the claim and recommended the recovery of commission from the entire field channel which was not recovered.

Audit is of the view that the management failed to act proactively during issuance of policies by ignoring the pre-defined guidelines which resulted in unjustified payment of commission of Rs 5.000 million.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024. The management explained that Zone pointed out that the commission to recover was Rs 3.757 million out of this Rs 2.586 million has been recovered. The DAC directed the management to verify the documents from Audit.

Audit recommends implementation of the DAC directives.

3.3.4.22 Non-recovery / adjustment of defalcated premium – Rs 3.424 million

State Life Insurance Corporation (SLIC) Chairman's circular No. PHS/PO/CIR/35/ 1999 dated: July 29, 1999 read with the circular dated: August 04, 2017 states that maximum time span for recovery of defalcated premium will be twelve (12) months, by all means.

During audit of State Life Insurance Corporation (SLIC) Principal Office, Karachi for the year 2022, it was observed that a policy holder Mr. Sohail Maqbool having policy No. 634007143 lodged a complaint of defalcated premium amounting to Rs 3.424 million (USD 11,412 @ Rs 300) pertaining to SLIC, Gulf Zone in the year 2022. However, defalcated premium has not been recovered / adjusted till date.

Audit is of the view that the management failed to implement the directives of Chairman, SLIC which resulted in non-recovery / adjustment of defalcated premium. This position reflects negligence and weak recovery mechanism existing within the organization.

The matter was reported to the management on September 25, 2023. The irregularity was discussed in the DAC meeting held on January 26, 2024. The management explained that an amount of Rs 1.774 million (USD 5,913.82 @ Rs 300) has been recovered within four months and the remaining amount USD 5,498.18 (Balance SAR 20,177) will be recovered from the concerned area commission in the due course. The DAC directed the management to blacklist the responsible and verify the documents from Audit.

Audit recommends implementation of the DAC directives.

3.4 Trading Corporation of Pakistan (Pvt.) Limited

3.4.1 Introduction

Trading Corporation of Pakistan Limited (TCP) was set up as a private limited company in July, 1967, registered under the Companies Act 1913 (now Companies Act 2017). - i. Acting on the directives of the Federal Government, TCP undertakes import of essential commodities to help ensure their availability to the common man at affordable prices. It intervenes in the market in the larger public interest to ensure fair price to public, as well as to preempt hoarding and profiteering.
- ii. Import of essential commodities in the emergent conditions.
- iii. Export of selected items of Public Sector Corporation, agencies, etc.
- iv. To perform innovative role of undertaking export of non-traditional items to non-traditional markets on experimental basis.

3.4.2 Comments on Audited Accounts

3.4.2.1 The working results of the Corporation for the year ended 2022-23 as compared to previous years are given below:

(Rs in million)					
Particulars	2022-23	% Inc / (Dec)	2021-22	% Inc / (Dec)	2020-21
Long term investment	10,439.41	2.33	10,201.41	2.10	9,991.495
Due from Govt. of Pakistan	159,230.36	96.29	81,116.98	11.48	72,766.063
Trade Debts	81,542.80	23.02	66,285.74	49.82	44,244.461
Prepayments & other receivables	17,746.17	11.59	15,902.89	6.01	15,001.459
Taxation – net	1,579.12	14.07	1,384.30	9.08	1,269.084
Commission Income	3,102.77	108.27	1,489.76	137.20	628.049
Administrative expenses	(1,590.38)	51.96	(1,046.92)	8.52	(964.699)
Other income	4,571.79	53.43	2,979.63	23.36	2,415.294
Profit before taxation	6,081.85	77.70	3,422.47	64.65	2,078.644
Taxation	(2,081.39)	94.07	(1,072.45)	84.65	(580.788)
Profit after taxation	4,000.65	69.09	2,365.99	57.96	1,497.856

(Source: Annual Audited Accounts 2022-23)

Due from Government of Pakistan (GoP) increased by 96.29% from Rs 81,116.98 million in 2021-22 to Rs 159,230.36 million in 2022-23 due to non-recovery and commodity imports.

3.4.2.2 Account receivable turnover in the year 2022-23 showed 0.012 times whereas last year 2021-22 the same was 0.009 times mainly due to increase the receivable from the Government of Pakistan (GoP) from Rs 81,116.98 million in 2021-22 to Rs 159,230.36 million in 2022-23.

3.4.2.3 Administration expenses increased by 51.96% from Rs 1,046.92 million in 2021-22 to Rs 1,590.38 million in 2022-23. The reason is that staff gratuity, provided fund and staff compensated expenses had been booked much higher side as compare to last year.

3.4.2.4 Commodity Finance under markup arrangements increased by 46.42% from Rs 172,374.240 million in 2021-22 to Rs 252,393.479 million in 2022-23. The government had accorded approval of credit limits or financing for import of commodity.

3.4.2.5 As disclosed in note Nos. 10.4 & 11.2 of financial statements, trade debts include receivables of Rs 10,601.176 million from various government institutions. The Company, as a result of the compilation and verification exercise by a third-party audit firm, has compiled the accounting records pertaining to receivables, however, the completeness of the underlying records could not be ensured. Further, responses from the debtors to the confirmation requests were not received by External Auditors and no movement / recoveries for more than six years (except an amount of Rs 166.300 million from Government of AJK), therefore, it's ageing and recoverability cannot be ascertained.

3.4.2.6 As disclosed in Note 13.1 to the financial statements, other receivables include Rs 13,141.24 million (including accrued mark-up and other charges of Rs 10,761.62 million till June 30,2023) from sugar mills on account of sugar not supplied by them. The Company had initiated legal action and also referred the matter to National Accountability Bureau (NAB). However, in the absence of management objective evaluation of probable outcome of the said legal action, recoverability of receivables from sugar mills cannot be ascertained.

3.4.2.7 The management invested Rs 9,000.003 million in Pakistan Investment Bonds (PIBs) for 10 years @ 8.75% annually. However, management maintained the position of the PIBs at lower rate rather than to swap the investment at higher rate. Detail of PIBs is tabulated below:

(Rs in million)										
S #	Instru-ment	Amount invested	Rate of Profit P.A	Period of invest-ment (yrs)	Date of invest-ment	Date of maturity as per given sheet	PIB rate 26.10.20 23 as per SBP websites for same tenure	Diff. of rate	No. of months involved	Loss of interest income
1	PIB	3919.539	8.75%	10	28.12.18	12.07.28	15.25%	6.5%	58	1,231.39

2	PIB	5080.464	8.75%	10	21.03.19	12.07.28	15.25%	6.5%	43	1,183.32
									Grand Total	2,414.71

3.4.2.8 The decision of the management to retain the funds in the PIB was not prudent and also did not consider the option of floating PIB rate at the time of investment. Thus, the corporation had to sustain a loss of Rs 2,414.71 million.

3.4.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	% age of compliance
1992-93	23	18	5	49, 50, 51, 52, 53	78%
1994-95	29	27	2	56, 60	93%
1996-97	24	14	10	44,49, 63-64, 66, SAR b-2, b-3, b-6, b-7, b8, b-9	58%
1997-98	14	9	5	32, 33, 34, 35, 37	64%
1999-00	14	13	1	49	93%
2000-01	11	10	1	10	91%
2003-04	11	10	1	15	91%
2004-05	3	1	2	15, 17	33%
2005-06	13	12	1	21	92%
2007-08	6	5	1	13.2	83%
2008-09	10	6	4	8.3, 9, 10, 11, 12	60%
2010-11	14	11	3	2.4.2.3, 2.4.4.3, 2.4.4.6	79%
2011-12	16	1	15	3.4.2.1, 3.4.2.2, 3.4.2.3, 3.4.2.4, 3.4.2.5, 3.4.2.6, 3.4.2.7, 3.4.3,3.4.4.1, 3.4.4.2, 3.4.4.3, 3.4.4.4, 3.4.4.5, 3.4.4.6, 3.4.4.7	6%
2012-13	16		1	3.4.4.1	0%
2013-14	16	6	9	4.4.2.1(A), 4.4.2.1(B), 4.4.2.1, 4.4.2.1 (C), 4.4.2.1 (D), 4.4.2.1 (E), 4.4.2.2, 4.4.2.7, 4.4.3	38%
2014-15	16	2	19	4.4.2.1, 4.4.4.1, 4.4.2.2, 4.4.2.3, 4.4.2.4, 4.4.2.5, 4.4.2.6, 4.4.2.7, 4.4.3, 4.4.4.2, 4.4.4.4, 4.4.4.5, 4.4.4.6, 4.4.4.7, 4.4.4.8, 4.4.4.9, 4.4.4.10, 4.4.4.11, 4.4.4.12	13%
2015-16	16	3	8	4.4.4.1, 4.4.4.2, 4.4.4.6, 4.4.2.1, 4.4.3, 4.4.4.3, 4.4.4.4, 4.4.4.7	19%

2016-17	16	3	9	3.4.2.1(a), 3.4.2.3, 3.4.4.1, 3.4.4.2, 3.4.2.1(b), 3.4.2.4, 3.4.3, 3.4.4.4, 3.4.4.5	19%
2017-18	16	4	7	4.4.4.8, 4.4.4.2, 4.4.4.3, 4.4.3, 4.4.4.5, 4.4.4.6, 4.4.4.7	25%
2019-20	1		1	3.4.4.1	0%
Total	285	136	36		48%

The overall compliance of PAC directives needs improvement.

3.4.4 Audit Paras

3.4.4.1 Non-settlement of borrowed funds and abnormal increase of markup – Rs 89,727.188 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Trading Corporation of Pakistan (TCP) HO for the year 2022-23, it was observed that the management obtained approval of the credit limit / commodity financing from the Ministry of Finance (MoF) and State Bank of Pakistan (SBP) against the commodity import. During the year, the management obtained credit facility of Rs 252,393.479 million for commodity operations. In every quarter, a significant amount of markup was accumulated as a liability to government. Detail is as under:

(Amount in Rs)			
Description(s)	2020-21	2021-22	2022-23
Amount utilized against the credit	141,263,048,000	172,374,248,000	252,393,479,000
Total markup year wise	9,697,876,000	20,639,564,000	59,389,748,000
Total markup (last three years)	89,727,188,000		

Audit is of the view that non-payment of its liabilities on time resulted in accumulation of huge liabilities risking the credibility of the organization.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The management informed the DAC that for early recoveries of previous receivables from various agencies, three categories had been envisioned. For fresh procurements respective procuring agencies i.e. USC, NFML, etc. would establish / obtain their own Cash Credit Limits (CCL) as per the approval of the MoF. The DAC directed that TCP take up the matter of speedy payment of outstanding amount with Finance Division and provide the assurance / confirmation of the outstanding balances i.e. (markup & principle) from the parties / customers.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year(s) 2022-23 vide para(s) number 3.4.4.5 having financial impact of Rs. 14,916.00 million. Recurrence of same irregularity is a matter of serious concern.

3.4.4.2 Non-recovery of dues from various parties – Rs 81,568.058 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that an amount of Rs 81,568.058 million was lying outstanding against various parties for a considerable period of time as on June 30, 2023. The detail is as under:

Name of Party	(Rs in million)
Utility Stores Corporation	29,729.993
National Fertilizer Marketing Limited (NFML)	12,281.303
Sindh Food Department	2,884.616
Punjab Food Department	5,429.019
Baluchistan Food Department	1,814.715
KPK Food Department	1,950.040
Pakistan (PASSCO)	25,726.960
Government of Gilgit Baltistan	1,252.029
Directorate General Procurement Army	185.404
Pakistan Navy	79.075
TCP Employees	0.064
Others	3.418
AJK Food Dept	231.422
Total	81,568.058

Audit is of the view that the management failed to recover dues of Rs 81,568.058 million which reflected weak financial controls and poor recovery mechanism.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The DAC appreciated the management on recovery made of Rs 22.700 billion from PASSCO which was subsequently verified by Audit and directed the management

to pursue the remaining recoveries of Rs 58,568.058 million from various entities vigorously and efforts might be shared with Audit.

Audit recommends implementation of the DAC directives.

3.4.4.3 Operational loss due to higher cost of sales than sales revenue – Rs 80,348.076 million

Rule 5 of the Public Sector Companies (Corporate Governance) Rules, 2017 states that the directors of a Board shall be persons who, in opinion of the Government, shall assist the Public Sector Company to achieve its principal objective and the Board shall accordingly exercise its powers and carry out its fiduciary duties with a sense of objective judgment and in the best interest of the company.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that the management incurred an operational loss of Rs 80,348.076 million due to higher cost of sales than sales revenue. The detail of loss is as under:

(Rs in million)		
S#	Description	Amount (as on 30.06.2023)
1.	Local sales on behalf of GoP	285,930.563
2.	Cost and expenses incurred on behalf of GoP	(366,278.639)
	Excess Cost than Sales	(80,348.076)
	% of Excess Cost than Sales	(28 %)

Audit is of the view that the management had not applied an efficient and economical process which resulted in loss of Rs 80,348.076 million.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The DAC noted that the para resulted due to a definitional issue. TCP does not sell the commodities itself rather supplies it to the concerned Ministry or agency. The commodities procured at the direction of ECC of the Cabinet. However, the Audit observation highlights the need to deal with the rising subsidy bill of the Federal Government on a war footing. DAC recommended that timely action might be taken up by TCP for settlement of its accounts.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year 2022-23 vide para(s) number 3.4.4.6 having financial impact of Rs 12,113.000 million. Recurrence of same irregularity is a matter of serious concern.

3.4.4.4 Non-recovery / adjustments of pre-payments and other receivables – Rs 29,082.469 million

Rule 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that the Chief Executive is responsible for the management of a public sector company and for its procedures in financial and other matters, subject to the oversight and directions of the Board. Responsibilities of CEO include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that an amount of Rs 29,082.469 million on account of pre-payments and other receivables have not been either adjusted or recovered by the management as detailed below:

S #	Description	Amount (Rs in million)
1.	Prepaid Expenses	1,505
2.	Receivable from Sugar Mills	13,141
3.	Receivable from Allied Bank	3,850
4.	Others	9,817
5.	Receivable from Export Agents	437.700
6.	Insurance Claim Receivable	120.245
7.	Due from Privatization Commission	110.386
8.	TCP Sports Club	0.199
9.	Refundable against various receivables	20.706
10.	Due from Custodian & others	10.870
11.	Receivable from Handling Agents	8.435
12.	Demurrage Charges	2.100
13.	Receivable on rice procured	2.899
14.	Others	1.929
Total		29,028.469

Audit is of the view that the management failed to recover / adjust an outstanding amount of Rs 29,042.469 million which reflects inefficiency and weak recovery mechanism.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The DAC directed the management should place the matter of writing off dues from Privatization Commission before the Finance / Audit Committee as per accounting principles. DAC further directed the management to pursue the court cases for recovery of outstanding amounts.

Audit recommends implementation of the DAC directives.

3.4.4.5 Import of urea having poor / inferior quality – Rs 6,187.912 million

As per contract between Trading Corporation of Pakistan and M/s Sinochem Fertilizer Co. Ltd, the physical condition of urea would be white, Free Flowing Granular.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that the management signed an agreement with M/s Sinochem Fertilizer Co. Ltd for import of 100,000 Mt Granular Urea (two lots of 50,000 each) at USD 500 per M.T on July 13, 2022. Second Lot having total Quantity 50,525 MT was loaded at TIANJIN Port, China with bill of lading dated 21.09.2022. The management appointed M/s COTECNA China, as Pre-Shipment Inspection Agency (PSIA) which in its report dated 21.09.2022 resolved that foreign material like steel scrap/ string of bags / bags fibers on the surface of cargo pile was found. The vessel arrived on 14.10.2022 at Karachi Port. The management appointed M/s. Joseph Lobo Pvt. Ltd as first Surveyor and then carried out the Joint Cargo Condition Survey as well. Both Surveyors gave remarks that the cargo was hard and lumpy and cargo was found with exceptionally compressed condition and with foreign material (cloths, PP bags & threads etc. mixed with cargo).

The PNSC vide email dated 15.09.2023 also intimated that most of cargo was caked / poor in quality, in order to Issue Clean Mate Receipt & B/L, TCP/ shipper to discharge all poor quality urea and to stop loading due to poor quality cargo. Further, the supplier vide email dated 17.09.2022 informed that all their cargo at Tianjin Port was railed in and stored in the warehouse in August. The shipper also unloaded some caked cargo at the load port and loading remained suspended on 15.09.2022 and 16.09.2022 which was resumed on September 17, 2022. The vessel of 22 days long voyage period from the Chinese Port to Karachi and the hygroscopic nature of cargo, it became lumpier and turned into stony. The matter was taken up with the supplier and supplier agreed to bear Rs 300 PMT as extra stevedore cost at loading port due to non-free flowing condition of the urea. Subsequently, the Stevedore i.e. M/s Ocean Maritime Pvt. Ltd claimed agreed charges i.e. 49,987.880 M/Tons @ Rs 300 M.T = Rs 14,996,364 through invoice dated November 04, 2022, an extra cost of Stevedoring & Handling Charges of Hard, lumpy & stony cargo.

The M/s. National Fertilizer Marketing Limited (NFML) who was a recipient party for receiving consignment informed the management vide letter dated October 18, 2022 that their monitoring Team at KPT also found out that the urea was in very hard, stone-like lumpy and in dirty condition and urea was not in free flow condition and contains other materials like cloth, iron, torn out bags etc which is not admissible to NFML since such urea is not preferred by farmers and could defy the objective of provision of subsidized Urea to the farmers.

Audit is of the view that the management imported urea in lumpy and stony condition which was against the tender specifications and no action was taken against the supplier. Thus, the payment of Rs 6,187.912 million on import of urea being poor in quality stands irregular / unjustified.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The management informed that PSQCA eventually certified that cargo was found free flowing and inconformity of standards and the same was also confirmed by M/s NFML which received the shipment. TCP also got internal inquiry conducted which verifies that the extra charges by the stevedore was not accepted by the TCP. DAC directed the management to submit

documentary proof of no extra payment / adjustment being made to supplier on account of dispatch money, dispatch money statement vessel wise, complete status of the L/C retired and payable and receivable status of the supplier i.e. M/s Sinochem, to Audit.

Audit recommends implementation of the DAC directives.

3.4.4.6 Loss due to procurement of half quantity of wheat at higher price – Rs 1,270.530 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that the Economic Coordination Committee (ECC) 09.05.2022 directed to tender for procurement of 3.000 MMT wheat. The Ministry of National Food Security and Research (MNFS&R) mentioned the modalities that import of wheat by adopting the option of G2G (2.00 MMT) and through international tendering process (1.00 MMT). Subsequently, the management, awarded the 1st international tender for 500,000 MT on CFR basis @ US\$ 515.40 PMT on May 28, 2022 with shipment period from June 15, 2022 to July 30, 2022. The management published 2nd International tender having 500,000 MT quantity of wheat on 21.06.2022 and received the bid of US\$ 439.40 PMT which was scrapped. The management published 3rd international tender for import of wheat 300,000 MT and the contract was awarded on 28-07-2022 at US\$ 404.86 PMT. It clearly reflected that that the wheat of 500,000 MT was procured when price was very high.

Further, the management vide letter dated May 25, 2022 requested the Ministry for a decision on the first tender quoted price i.e. USD 515.49 PMT, whereas, the Ministry recommended blanket approval of 3.00 MMT of wheat on need basis, depending upon the demand of the M/s PASCO and Provincial Government to build up strategic reserves and to stabilize wheat prices. The Ministry recommended the blanket approval of wheat import of 3.00 MMT which doesn't mean that the half of the total requirement i.e. 1.00 MMT under the international tender may be awarded in one go. It is pertinent to mention that the import was for the whole year requirement and not for urgent emergency situation.

Audit is of the view that the management without any urgency imported wheat at higher price which reflected negligence and weak planning. Thus, payment of wheat at a higher price, the national exchequer had to sustain a loss of Rs 1,270.253 million {500,000 MT @ (US\$ 515.49 PMT – US\$ 404.86 PMT) @ Rs 229.64 per US\$}.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The DAC noted that TCP fulfilled its responsibility by pointed out Ministry of National Food Security & Research (MNFS&R) that the market was bullish and that only urgent quantities may be procured. However, it's proceeded on the basis of clear directions by MNFS&R to procure the maximum quantity of 500 KMT. DAC recommends that the para may be placed before the PAC.

Audit recommends implementation of the DAC directives.

3.4.4.7 Irregular / unjustified commission charged on import of wheat – Rs 703.711 million

ECC of the Cabinet vide letter dated September 30, 2020 approved reduction of commission charges of TCP to 0.75% of the C&F value of imported wheat and sugar.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that the management charged commission @ 2% of Cost & Freight (C&F) of the landed cost of wheat in place of approved rate of 0.75% in violation of ECC decision thus, received excess commission of 1.25% causing a loss of Rs 703.711 million as detailed below:

S #	Tender date / open date	Qty. of Commodity (MT)	Price PMT in USD	Dollar rate as landed cost sheet	C&F price for insurance in Rs	@ 2% TCP Commission charged in the landed cost Rs	Excess Commission charged by TCP in Rs
1	07.07.2022	300,000	404.86	211	25,627,638,000	512,552,760	320,345,475
2	26.10.2022	120,000	373.00	230	10,294,800,000	205,896,000	128,685,000
3	25.07.2022	200,000	407.49	250	20,374,500,000	407,490,000	254,681,250
Total							703,711,725

Audit is of the view that the management charged commission in violation of ECC decision which stands irregular / unjustified.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The DAC directed the management to seek clarity for future rate of commission. A summary in this regard may be moved to ECC. Further, ECC reduced the commission rate @ 0.75 % of the C&F value of imported wheat and sugar without any condition.

Audit recommends implementation of the DAC directives.

3.4.4.8 Loss on procurement of urea at higher rates – Rs 590.625 million

Rule 5 of the Public Sector Companies (Corporate Governance) Rules, 2017 states that the directors of a Board shall be persons who, in opinion of the Government, shall assist the Public Sector Company to achieve its principal objective and the Board shall accordingly exercise its powers and carry out its fiduciary duties with a sense of objective judgment and in the best interest of the company.

During audit of Trading Corporation of Pakistan (TCP) HO for the year 2022-23, it was observed that ECC directed TCP on 24.11.2022 to explore other cheaper options for December as an alternative to the G2G offer made by M/s. SOCAR, for procurement of 35,000 MT of urea @ USD 685/MT (CFR) within the next twenty four hours, and “if that cheaper option becomes available, the same will be availed.” otherwise, the already available option by M/s. SOCAR at the rate of US\$ 685 (CFR) for procurement of 35,000 MT urea on G2G basis, as already approved by the ECC stands ratified. However, TCP made a correspondence on 14th November, 2022 with the ministry in which they mentioned that TCP approached

the 2nd lowest bidder in the tender, M/s Pacific International Trading who interested to supply urea to Pakistan from Muscat and could provide 90 KMT @ USD 610 /MT CFR in the 2nd and 4th week of December, 2022. The management did not consider the offer of M/s Pacific International and procured the urea from M/s Socar at higher rates. Thus, resulted in loss of Rs 590.625 million (US\$ 685-US\$ 610 = US\$ 75 PMT * 35,000 MT * Rs 225).

Audit is of the view that due to non-availing of lower rates offered by M/s Pacific International resulted in a loss to the corporation.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The management in its reply stated that the decision was taken to ensure availability of urea for the crop in December, 2022. however, in case there was no supply of fertilizer in December, the production of wheat – an essential food item, was to suffer. Furthermore, had the ECC decided in favor of the option no. 2 in total, the arrival of urea was to be made in January, 2023 (instead of December, 2022) which could cause immeasurable loss for the national economy on account of delayed Rabi Crop. The DAC directed the management to get the factual position verified from Audit.

Audit recommends implementation of the DAC directives.

3.4.4.9 Non-renting of godowns & non-recovery from tenants – Rs 345.770 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that, the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

Clause No.7 of Tenancy Agreement between TCP and tenants states that the monthly rent is payable, inclusive of all applicable taxes on rent. The rent shall be payable in advance by 5th day of each calendar month.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that the management did not rent out the vacant godowns at various locations. Out of total area of 6,366,859 sq.ft, only an area of 1,564,962 sq.ft (24.58%) was rented out which resulted in rental loss of Rs 288.113 million. It was further observed that an amount of Rs 57.657 million was outstanding against various godown tenants on account of rent and various taxes as on June 30, 2023 (Annex-32).

Audit is of the view that the non-renting of godowns and non-recovery against tenants reflected weak financial controls and poor recovery mechanism.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024.

- a. The management informed the DAC that in pursuance of BOD decision, three renting out notices have been hoisted on TCP's website as well published in national print media. As a result, TCP rented out space measuring 43,278 sq.ft at Pipri and Landhi Godowns. The DAC directed that TCP should make efforts for renting out of the three facilities.

- b. The management informed the DAC that an amount of Rs 8.830 million was recovered and TCP was pursuing the recovery vigorously in the court of law. The DAC directed the management to get verify the recovered amount of Rs 11.361 million from Audit and efforts be made to recover the remaining balance amount.

Audit recommends implementation of the DAC directives.

(DP No. 817 & 819)

3.4.4.10 Un-reconciled receivables / payables – Rs 289.066 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2017 states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that the management performs commodity operations i.e. (import/local procurement and export / local sale of urea, wheat, and sugar) on the directives of the Federal Government which provides subsidy on these procurements. However, the amount receivables / payables from various agencies remained un-reconciled to the tune of Rs 289.066 million since 2004 as detailed below:

(Rs in million)		
S #	Name of party	Amount
01.	USC	18.735
02.	NFML	(517.502)
03.	Sindh Food	86.405
04.	Punjab Food	19.586
06.	KPK Food	22.676
07.	AJK Food	22.675
09.	Army	43.396
10.	Navy	14.963
Total		289.066

Audit is of the view that non-reconciliation casts doubts on the financial statements of the organization.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The management in its reply stated that TCP was pursuing

respective agencies for reconciliation and payments of the outstanding amounts. It was pertinent to mention that TCP on the advice of MOF appointed independent audit firm for subsidy audit assignment. Furthermore, most recently a draft summary has been shared with MoC regarding recovery of full amount outstanding against various governments / agencies. The DAC directed the management for early reconciliation of receivables / payables from different entities and update would be shared with Audit on regular basis.

Audit recommends implementation of the DAC directives.

3.4.4.11 Loss due to import of wheat at higher rate – Rs 103.787 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2017 states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that the management invited tender for wheat procurement having quantity of 300,000 Metric Tons (M.T). The management awarded the tender @ USD 404.86 per M.T on July 21, 2022. However, just after 11 days, the management awarded another tender @ USD 407.49 Per M.T for 186,000 M. Ton 28.07.2022. Resultantly, the management sustained a loss of USD 2.63 per Metric Ton (USD 404.86 per M.T - USD 407.49 per M.T) as detailed below:

S#	Tender issued date	Tender opening date	Awarded Quantity (MT)	Quoted Rate in USD by bidders	Tender awarded date
1.	07.07.2022	18.07.2022	300,000	404.86	21.07.2022
2.	19.07.2022	25.07.2022	186,000	407.49	28.07.2022
	Difference of Rate in USD			2.63	
3.	Loss due to import at higher rate (186,000 MT X USD 2.63 PMT)			469,180	
4.	Loss in PKR (469,180 @ Rs 221.21 per USD) Rate based on average price of USD on the retirement date of LC			103,787,307.800	

Due to lack of planning by TCP, wheat was imported in the second tender at the higher rate as against the first tender.

Audit is of the view that due to imprudent planning, management suffered a loss Rs 103.787 million which reflected poor financial management.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The management informed the DAC that ECC directed to procure wheat in staggered manner. Further, TCP decided upon quantity based on availability of berthing, lifting capacity of M/s PASSCO and response of bidders in terms of quantity available in the market. Price

volatility of commodity is difficult to predict. There was only difference of USD 2.6 per metric ton between two different tenders. Audit is of the view that the management had the privilege of exemption by the PPRA Rules (5,13, 35, 38 & 40) to negotiate the quantity with the supplier and act accordingly on timely manner. DAC directed the management to provide relevant record to Audit for verification.

Audit recommends implementation of the DAC directives.

3.4.4.12 Loss on charging lower rent – Rs 19.392 million

As per practice, existing rate of rent of godowns being charged from the private parties was Rs 5.00 per square feet per month.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that TCP was handed over six (6) German and Japanese plants in Pipri godown along with one other godown at Landhi, Karachi by RECP in 1976. TCP advertised the tender and sold the six (06) Rice Mill Plants to three parties namely M/s Chappal Traders, M/s Conwill Pakistan and M/s Abu Bilal Trading. However, the customers did not lift their machinery and instead they were desirous of obtaining lease of the buildings wherein the rice mills were installed and purchased by them. TCP agreed to rent out the buildings with installed machinery at the rate of Rs 2.000 per square feet (per month) for a period of 12 years against the market rate of Rs 5.000 per sq.ft along with annual increment of 10% (Annex-33). The brief summary is as under:

S #	Customer	Area (Sq.ft) (A)	Difference of rent (Rs)
1.	M/s Chappal Traders	85,370.88	6,276,461
2.	M/s Conwill Pakistan	85,370.88	6,276,461
3.	M/s Abu Bilal Trading	93,025.48	6,839,227
Total		263,767.24	19,392,149

Audit is of the view that the management extended an undue favor to the tenants by charging lesser rates as compared to existing rates which reflected negligence and poor financial management. Thus, resulted in loss of Rs 19.392 million on account of rent.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The management informed the DAC that since the tenants / traders/ Rice exporters have to rehabilitate the rented godowns/ buildings at their own expenses therefore it was not justified to rent out the premises at the prevalent market rate of Rs 5 per sq. ft and were offered by the then management at a rental rate of Rs .2 per sq. ft with 10% increase annually. The DAC directed to hold fact-finding inquiry at Ministry level to ascertain the renting of godowns at discounted rates and sale of rice mill machinery at low prices, as asserted by the Audit.

Audit recommends implementation of the DAC directives.

3.4.4.13 Unjustified sale of rice mills without valuation & market survey – Rs 18.306 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that the management handed over six (6) German and Japanese (Rice Cleaning Plant (RCP) in Pipri Godown along with Rice Grading Plant at Landhi, Karachi installed by RECP in 1976. However, the sales were made without any revaluation for their prices from Valuators or Estate Agents, or comparative analysis of similar rice Plants, or price sought from original buyers or International / local market, to assess the value / price or knowledge about depreciation or gain on disposal. The details are as under:

S #	Party / Customer	Plant No.	Sale Price (Rs)	Sales Tax @ 16 & Income Tax @ 3.5% (Rs)
1	M/s Chappal Traders	RCP-1/1 & RCP ½	5,024,000	1,007,814
2	M/s Conwill Pakistan	RCP 1/3 & RCP ¼	5,000,022	1,003,004
3	M/s Abu Bilal Trading	RCP 1/5 & RCP 1/6	5,224,000	1,047,934
Total			15,248,022	3,058,752
Grand Total				18,306,774

Audit is of the view that sales activity without any valuation and formulation of Reserve Committee to assess the true / fair price of rice mills reflected negligence and undue favor. Thus, resulted in a loss of Rs 18.306 million to the entity.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The management in its reply stated that the TCP management not only disposed off the 40 years old machinery effectively through open tenders and rates offered by the bidders and sold out through proper transparent manner but also earned significant rental income accordingly. The DAC directed to hold fact-finding inquiry at Ministry level to ascertain the sale of rice mills without valuation & market survey, as asserted by the Audit.

Audit recommends implementation of the DAC directives.

3.4.4.14 Loss of interest income – Rs 13.740 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2017 states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that the management placed funds at various banks on account of Term Deposit Certificate for three (03) months. The management placed funds on split basis into the banks in TDRs on the same date with varied interest rates with each bank despite investment activity at the highest interest rate offered by the bank. Detail is as under:

Description(s)	Bank's Name

	JS Bank	Samba Bank	Soneri Bank Limited	Soneri Bank	Bank Al-Habib	U-Microfinance Bank	JS Bank	Samba Bank Limited
Amount invested (Rs in millions)	2,150	123.00	500	500	2,330	815	2,375	1,100
Interest Rate (%)	17.15	15.82	15.76	16.00	15.75	17.25	16.11	16.03
Date of investment	29.06.22	29.06.22	29.06.22	29.09.22	29.09.22	29.12.22	29.12.22	29.12.22
Difference from the higher (%)	-	1.33	1.39	-	0.25	-	1.14	1.22
Loss of income due to lower rate (Rs 13.74 million)	-	0.41	1.74	-	1.46	-	6.77	3.36

Audit is of the view that the management placed the funds in the banks without quotation basis which reflected weak financial management and lack of expertise in the investment activity. Thus, the management failed to earn a profit of Rs 13.740 million on account of interest income by investing at lower interest rate.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The management informed the DAC that TCP's placement of funds was as per approved investment policy criteria. DAC directed that management shall present all documents (Minutes of the meeting of where sealed quotations was opened and decided to the successful bidder, Bank statement of the last maturing investment and copy of roll over letters in terms of TDR issued in favor of banks) to the Audit for verification.

Audit recommends implementation of the DAC directives.

3.4.4.15 Irregular award of consultancy contract – Rs 9.100 million

Rule 4 of PPRA Rules, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule 10 (1) of PPRA Rules, 2004 states that the procuring agency shall allow the widest possible competition by defining such specifications that shall not favor any single contractor or supplier nor put others at a disadvantage.

Rule 32 of PPRA Rules, 2004 states that save as otherwise provided, no procuring agency shall introduce any condition, which discriminates between bidders or that is considered to be met with difficulty.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that the management awarded the contract of consultancy service for Human Resource Development to M/s A.F Ferguson amounting to Rs 9.100 million. Following irregularities were observed:

- The bids of two firms i.e. M/s A.F. Ferguson and M/s KPMG were found technically responsive. M/s A.F. Ferguson offered Rs 9.100 million and M/s KPMG Rs 8.305 million. However, M/s

KPMG (lowest bidder) was rejected as it stated that they will include in the bill any changes in Federal and Provincial Government levy and taxes on services in addition to our professional fees. Such clause is explicitly included in all bids, contracts and agreements to amplify changes in the tax structure.

- During technical evaluation, the bid of M/s Yousaf Adil was rejected due to not having registration with International Body. It was evident that the Accounting Body, ICAP has allowed auditing from its QCR ratings. The Professional Body's regulations cannot be overruled by TCP and is also discouraged by PPRA too. It is pertinent to mention that the same company i.e. M/s Yousaf Adil had been hired for tax consultancy services by the management. The requirement of registration with the International Body was discriminatory criteria in the tender.

Audit is of the view that the management extended an undue favor to the consultant in violation of PPRA Rules, 2004. Therefore, award of contract to M/s A.F Ferguson (2nd lowest bidder) amounting to Rs 9.100 million stands irregular and unjustified.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The management informed the DAC that the bid of M/s KPMG was rejected as it was a conditional bid and M/s. Yousuf Adil did not possess the required qualification with an internal legal body/forum/society and was accordingly disqualified by the Bid Evaluation Committee (BEC). The DAC directed the management to submit the record (approval of contract extension, reason of LC clause not included in the contract agreement, directives of the Federal government regarding to alter the MoA & AOA) from Audit.

Audit recommends implementation of the DAC directives.

3.4.4.16 Irregular appointment of Chief Internal Auditor – Rs 4.000 million

As per Cabinet Secretariat (Establishment Division) letter dated May 06, 2000, the contract appointment where justified, may be made for a period of two years initially, on standard terms including termination clause of one month's notice or one month's pay in lieu thereof. Extension may be made on two yearly basis.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that the management appointed Mr. Salimullah Khan, Chief Internal Auditor on contract basis for the period of five (05) years at a lump-sum monthly salary of Rs 400,000. Following irregularities were observed:

- The contractual appointment was made for five (05) years in contrast to a period of two (02) years initially and further extension of two (02) years mentioned above.
- As per offer letter, the incumbent was not entitled to draw any allowances, benefits and other facilities etc. However, he availed the facility of encashment of Rs 26,666 during his contract period.
- He was nominated for multiple trainings in contradiction of the offer letter terms and conditions.

- The management neither verified the credentials of the incumbent i.e. academic & experience certificates.
- Further, the incumbent had a six years' experience in M/s Hands (NGO) which was not relevant as per TCP working / operational functions.

Audit is of the view that the management extended an undue favor to the incumbent in its appointment. Thus, payment of Rs 4.000 million on account of pay & perks stands irregular and unjustified.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The management informed the DAC that appointment was made in accordance with requisite criteria. DAC directed the management to get the record verified from the Audit.

Audit recommends implementation of the DAC directives.

3.4.4.17 Irregular / unjustified appointment on deputation and absorption as Deputy Manager – Rs 2.644 million

As per TCP Recruitment Rules, 2003 (amended in 2021),

- By deputation of serving officers and staff from the Ministries / Departments of Federal or Provincial Governments, in case a Post cannot be filled in either through Promotion or direct recruitment.
- Recruitment / Promotion to all posts in TCP shall be made by the Chairman on recommendation of a Selection Board / Selection Committee.
- The seniority in the case of those employees who are on deputation but subsequently become the employees of the corporations and in the case of those deputations who are absorbed in the corporation after they are declared surplus in their parent office, shall be determined from the date they are absorbed in the corporation as direct recruit.
- All the newly appointed officers Grade VI to IX shall be placed on the probation for a period of two years which shall be extended for a further period of one year at the sole discretion of the competent authority.

During audit of Trading Corporation of Pakistan (TCP) (HO) for the year 2022-23, it was observed that, Mr. Taimur Khan, (Public relation officer) was posted as deputy manager on deputation in TCP on June 21, 2022 from NICL. The incumbent was absorbed as DM (Grade VII) on permanent basis on June 08, 2023. The incumbent stood at Serial no.18 in the seniority list. His salary was fixed Rs 166,485 per month. Audit observed following irregularities:

1. The management did not attempt to fill the post by promotion or through direct requirement and he was absorbed in TCP in 06 months without the recommendation of selection committee.

2. The incumbent should have been posted as Assistant as per TCP's hierarchy. After three (03) years of length of service; he may be eligible for next cadre i.e. Assistant Manager. However, the management posted him as Executive Officer i.e. equal to Assistant to Deputy Manager.
3. The incumbent was absorbed in TCP without being declared surplus by NICL.
4. He served the probation period for 06 months as against two (02) years, as per rules for newly appointed officers (Grade VI to IX).

Audit is of the view that the management extended undue favors to the incumbent during the whole process of deputation and subsequent absorption in TCP was irregular.

The matter was reported to the management on November 28, 2023. The irregularity was discussed in the DAC meeting held on January 16, 2024. The management in its reply stated that the deputation / absorption were made as per rules. The DAC directed the management to approach NICL to declare employee as surplus. Further, TCP share promotion / direct recruitment process initiated before deputation of incumbent in the TCP with Audit.

Audit recommends implementation of the DAC directives.

3.5 Pakistan Horticulture Development and Export Company

3.5.1 Introduction

Pakistan Horticulture Development and Export Board (PHEDB) was established under a notification dated August 05, 2002 issued by the Ministry of Commerce, which was subsequently incorporated on July 15, 2009 under Section 42 of the Companies Ordinance 1984, (now Companies Act, 2017) namely Pakistan Horticulture Development and Export Company (PHDEC). The main objectives of the company included economic welfare of all the stakeholders in the horticulture value chain and introduction of Pakistan to the high end international markets through strategic initiatives.

3.5.2 Comments on audited accounts

3.5.2.1 The working results of the Company for the years 2022-23 are given below:

(Rs in million)

	2022-23	% Inc /(Dec)	2021-22	% Inc /(Dec)	2020-21
Income					
Grant from Govt. of Pakistan	-		-		
Other income	248.639	105.21	121.162	8.34	111.838

(Source: Annual Audited Accounts)

The company's income, derived from a Government grant, amounted to Rs 103.959 million in the financial year 2017-18. However, no grants were received in the subsequent years, namely 2018-19, 2019-20, 2020-21, 2021-22, and 2022-23. It is worth mention here that no expenditures were allocated under the project and programs head. It is imperative to furnish comprehensive details on the utilization of the grant, including releases, project deliverables, and associated achievements, to audit. Additionally, explicitly justify the reasons why grant utilization was not presented in the financial statements for the year 2017-18.

3.5.2.2 Other income of the company increased from Rs 30 million during the year 2017-18 to Rs 248.639 million in years 2022-23. Other income comprises profits from T-bills, TDRs and Profit from cash balance kept in banks accounts. Moreover, an investment in Treasury bill stood at Rs 1,638.509 million as on 30th June 2023 and Rs 950.758 million as on 30th June 2022. To ensure a thorough evaluation of the prudence in treasury management complete record pertaining to investments in T-bills and TDRs, along with a year-wise determination of working balance limits, be provided to Audit.

3.5.2.3 The company maintained bank account No. 13006-8 at NBP Lahore, specifically designated for the Agri Business and Development and Diversification project, funded by the Asian Development Bank and the Ministry of Food, Agriculture, and Livestock, under the company's supervision. It is worthy to mention here that the Chartered Accountant firm qualified the accounts due to the inability to obtain any evidence regarding the details of transactions conducted through this account. Complete record related to the project, encompassing the

cashbook, bank statement, and a detailed account of expenditures incurred from the aforementioned account be provided. Furthermore, justify the reasons for not integrating the said bank account with the financial statements for the year ending on June 30, 2018.

3.5.2.4 The Company throughout the past six years, from 2017-18 to 2022-23, consistently maintained an average workforce of 13 employees. Notably, during this period, the company expended an average monthly rent of Rs 472,041 for office accommodation, accumulating a total rent payment of Rs 33.987 million over last six years. The hiring of costly rented accommodation with small number of employees needs justification.

3.5.2.5 The Chartered Accountant qualified the financial statements for the years 2017-18 to 2022-23 based on long-term loans and advances, which remained long outstanding with non-confirmation from the third party. The amounts carried are Rs 4.499 million for the year 2022-23, Rs 4.499 million for the year 2021-22, Rs 4.749 million for the year 2020-21, Rs 4.749 million for the year 2019-20, Rs 4.749 million for the year 2018-19, and Rs 9.207 million for the year 2017-18 respectively. Justify the reasons for non-recovery of these long term loans and advances, elucidating the efforts undertaken for recovery. Additionally, provide a comprehensive aging analysis of the advances.

3.5.2.6 The company sold property & equipment through auction during the financial year 2017-18 for Rs 7.066 million. Complete procedure adopted for auction of assets be furnished to Audit to ascertain the transparency in process.

3.5.2.7 The company has joint venture arrangements with M/s Durrani Associates, namely Pakistan Hortifresh Processing Private Limited, with a 50% profit-sharing ratio. According to the financial statements for the year 2016-17, the company provided an interest-free loan to the joint arrangement amounting to Rs 3.776 million. Since then, said loan has not been recovered until 2022-23. It is worth mentioning here that since the establishment of the JV arrangement, the company has not received any revenue share from the JV. This position needs to be justified, and strenuous efforts should be made to recover the loan amount. Furthermore, complete records regarding the establishment of JV arrangements should be provided to the Audit to ascertain the viability of the decision.

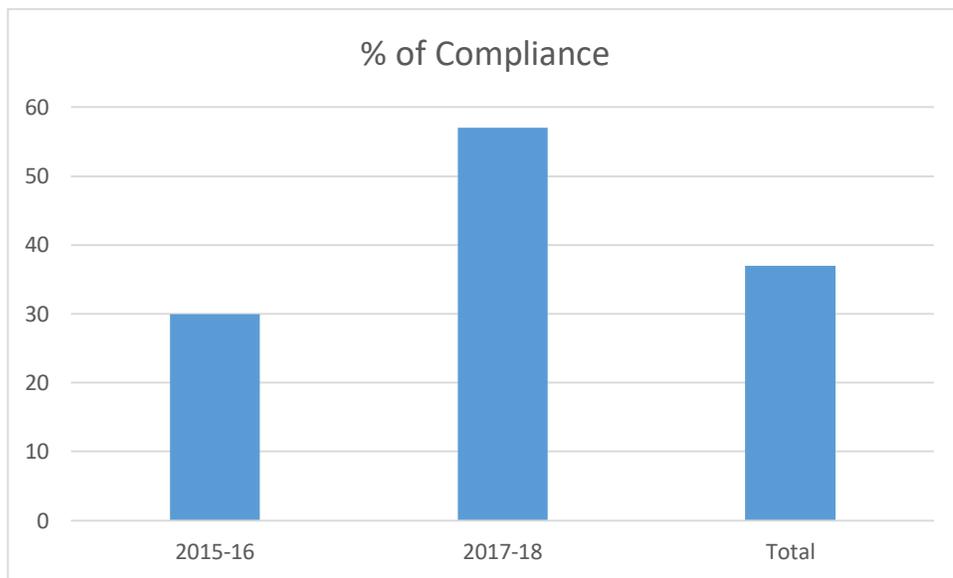

3.5.2.8 The company incurred an expenditure of Rs 11.797 million over the last six years (Rs 2,565,425 in the year 2022-23, Rs 1,648,697 in the year 2021-22, Rs 2,002,502 in the year 2020-21, Rs 1,312,345 in the year 2019-20, Rs 2,388,617 in the year 2018-19, and Rs 1,879,023 in the year 2017-18) under the head of Board Meeting Expenses. The annual performance evaluation of board members, as required by the Corporate Governance Rules, 2013, and the compliance report regarding the implementation of board's decisions, may be shared with the Audit to ascertain performance as well as the effective implementation of BoD's policies.

3.5.2.9 Total expenditure of the company increased by 36.29% to Rs 47.878 million in 2022-23 from Rs 35.130 million in the previous year. The major increase was under the heads salaries, wages and other benefits, travelling and conveyance, repair & maintenance and trade promotional expenses by 24.35%, 2,183%, 100% and 2,178% respectively to Rs 19.276 million, Rs 7.735 million, Rs 3.895 million and Rs 2.392 million. The abnormal increase under the said heads needs to be justified.

3.5.2.10 The company has enlisted the services of M/s Riaz Ahmad, Saqib, Gohar & Co. Chartered Accountants for the past six years, spanning from 2017-18 to 2023. It is worth mentioning that, according to Corporate Governance Rules, every Public Sector Company, excluding those in the financial sector, is required to rotate the engagement partner at least once every five years. However, this rotation has not been carried out by the management. The position needs to be justified.

3.5.3 Compliance of PAC Directives

S. #	Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	% of Compliance
1	2015-16	20	06	14	4.5.4.1, 4.5.4.2, 4.5.4.3, 4.5.4.5, 4.5.4.7, 4.5.4.8, 4.5.4.9, 4.5.4.11, 4.5.4.12, 4.5.4.13, 4.5.4.14, 4.5.4.15, 4.5.4.16, 4.5.4.17	30
2	2017-18	07	04	03	4.7.2.4, 4.7.2.5, 4.7.2.6	57
Total		27	10	17		37

Overall compliance of the PAC directives was not satisfactory which needs to be improved.

Chapter-4

Ministry of Defence

Overview:

The Ministry of Defence is an executive ministry of the Government of Pakistan, tasked to defend country's national interests.

Functions of MOD under Rules of Business 1973

The following main business have been assigned to the Defence Division amongst the other functions:

Defense of the Federation or any part thereof in peace or war including Army, Naval and Air Force of the Federation and any other armed forces raised or maintained by the Federation; and armed forces which are not the forces of the Federation but are attached to or operating with any of the armed forces of the Federation;

- 1- Civilian employees paid from defense services.
- 2- International Red Cross and Geneva Conventions in so far as they effect belligerents.
- 3- Pardons, reprieves and respites, etc. of all personnel belonging to the Armed Forces.
- 4- Administration of Military Lands and Cantonments Group.
- 5- National Maritime Policy.
- 6- Marine surveys and elimination of dangers to navigation.

Audit Profile of Ministry of Defence

(Rs in million)

Description	Total	Audited	Expenditure audited FY 2022-23	Revenue / Receipts audited FY 2022-23

Classified Summary of Audit Observations

Audit observations amounting to Rs 3,063.516 million were raised in this audit. This amount also includes recoverable of Rs 184.431 million as pointed out by the audit. Summary of the audit observation classified according to respective subject's nature is as under:

Overview of the Audit Observations

Sr. No.	Classification	Amount (Rs in million)
1	Non-Production of record	-
2	Reported cases of fraud, embezzlement and misappropriation	-
3	Irregularities:	
A	HR/Employees related irregularities	202.365
B	Procurement related irregularities	561.239
C	Management of accounts with Commercial Banks	0
4	Value for money and services delivery issues	2,260.594
5	Others	39.318

4.1 Heavy Mechanical Complex (Pvt.) Limited

4.1.1 Introduction

Heavy Mechanical Complex (Pvt.) Limited was incorporated in Pakistan under the Companies Act, 1913 (now Companies Ordinance 1984) in Jul, 1975. It is a wholly owned subsidiary of State Engineering Corporation.

Corporate Information

The Principal activities of the Company are to manufacture, supply and install machinery for cement, sugar, oil, gas and energy sector industries, to engineer, design, manufacture and supply cranes, boilers, defence and construction equipment and production of ferrous and non-ferrous metals, alloys, casting and forging. The principal place of business of the Company is situated at Hattar Road, Taxila.

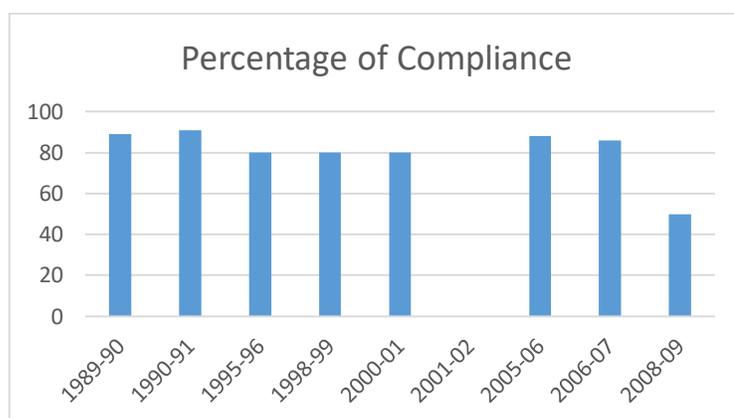

4.1.2 Comments on Audited Accounts

4.1.2.1 The annual audited accounts are required to be provided to Audit for review each year. Contrary to this, the management failed to provide audited annual accounts for the years 2015-16 to 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts for the years 2015-16 to 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*Annex-2*).

4.1.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Paras No.	Percentage of Compliance
1989-90	09	08	01	998	89
1990-91	11	10	01	787	91
1995-96	05	04	01	193	80
1998-99	05	04	01	268	80
2000-01	05	04	01	303	80
2001-02	03	0	03	298,299,300	0
2005-06	08	07	01	133.2	88
2006-07	07	06	01	108.3	86
2008-09	04	02	02	125.1,126	50
Total	57	45	12		79

The overall compliance with PAC directives was not fully satisfactory and needs improvement.

4.1.4 Audit Paras

4.1.4.1 Loss due to sale of products at cost lower than the actual cost of production – Rs 1,009.973 million

As per HMC policy the profit margin is fixed @ 10% of the cost price of product.

During audit of HMC for 2016-17 to 2021-22, a sample analysis of sale price vs. actual cost revealed that in 31 cases, the formation sustained a loss by selling products below the cost price in violation of policy which resulted in a total loss of Rs 1,009.973 million.

Audit is of the view that management should have maintained required profit margin.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends inquiring the matter besides fixing responsibility.

Para-2 (HMC – 2016-17 to 2021-22)

4.1.4.2 Wasteful expenditure due to non-completion of a PSDP funded projects – Rs 377.59 million

According to Planning Commission's Guidelines issued for implementation of projects under PSDP grants, the project is approved with a specific period completion. Efforts should be made to complete the project within the stipulated period to ensure flow of benefits well in time.

During audit of HMC Taxila from 2016-17 to 2020-21, it was observed that the PC-I of the projects titled "Establishment of Design Institute" and "Establishment of Turbine & Power Plant Equipment Manufacturing Facilities" were approved by the Planning Commission in January & May 2011 respectively with an original implementation period until 2014, later extended to February 2018. The Design Institute project had a PC-I cost of Rs 687.332 million, whereas, Rs 672.770 million was allocated by the Planning Commission out of which Rs 262.964 million was expended by June 2016. Moreover, the Turbine & Power Plant project, with a PC-I cost of Rs 21,543.10 million, had Rs 215.292 million allocated, and Rs 114.63 million was expended by June 2016. However, both projects were stopped, leading to a waste of Rs 377.59 million due to non-completion. The ECC approved the transfer of HMC to SPD/PAEC in June 2016, subject to the condition of self-financing without seeking support from the Federal Government.

Audit is of the view that management was required to complete the projects by utilizing its own resources.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends inquiring the matter besides fixing responsibility.

Para-1 & 5 (HMC – 2016-17 to 2021-22)

4.1.4.3 Loss due to non-recovery of dues from clients - Rs 504.098 million

According to Rule – 05 of the SECP Corporate Governance Rules, 2013 (Amended 2017), the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety.

During audit of HMC Taxila 2016-17 to 2021-22, it was observed that an outstanding amount of Rs 504.098 million remained uncollected from various clients for periods spanning one to over 20 years. The management failed to recover this amount, resulting in a provision of Rs 174.081 million for doubtful debts.

Audit is of view that the management should initiate legal actions to recover the outstanding amount from clients.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends inquiring the matter besides fixing responsibility.

Para-26 (HMC – 2016-17 to 2021-22)

4.1.4.4 Loss due to less recovery of electricity & gas charges from the consumers – Rs 248.850 million

According to Rule – 05 of the SECP Corporate Governance Rules, 2013 (Amended 2017), the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety.

During audit of HMC Taxila for the years 2016-17 to 2021-22 it was observed that electricity and gas were purchased at an industrial rate for supply to the HMC and its residential colony. However, the colony was not billed at the same rate, leading to a loss of Rs 128.776 million on electricity from January 2020 to June 2023 and Rs 120.074 million on gas, due to utilities being charged at domestic rates.

Audit is of the view that the management should install separate meters on quarters to avoid additional burdens on HMC and ensure accurate billing for electricity and gas consumption.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends inquiring the matter, fixing responsibility and effecting recovery.

Para-4 (HMC – 2016-17 to 2021-22)

4.1.4.5 Irregular award of consultancy service on single source basis – Rs 174.00 million and un-justified increase in rates – Rs 21.28 million

According to Rule – 12(2) of the Public Procurement Rules, 2004 “all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority’s website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu”.

During audit of HMC Taxila for the year 2016-17-2021-22 it was observed that the Water & Power Department, Gilgit Baltistan awarded an EPC/Turnkey contract to HMC included design, construction, designing of electromechanical works, manufacturing, testing, delivering, installing and commissioning of Naltar–III Hydro Power Project of 16 MW. Further it was observed that HMC awarded the consultancy services including design work and construction work to NESPAK at a cost of Rs 174.00 million on single source basis vide agreement dated 02.04.2016. The contract amount was also revised to Rs 195.28 million, reflecting an increase of Rs 21.28 million.

Thus, award on contract on single source basis was the cause of weak internal control.

Audit is of the view that management was required to award the contract in accordance with Public Procurement (PP) rules.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends inquiring the matter besides fixing responsibility.

Para-13 (HMC – 2016-17 to 2021-22)

4.1.4.6 Irregular award of contracts in violation of PPRA - Rs 220.985 million

According to the Rule-38 of PPRA Rules 2004, the bidder with the most advantageous bid, if not in conflict with any other law, rules, regulations or policy of the Federal Government, shall be awarded the procurement contract, within the original or extended period of bid validity.

During audit of HMC Taxila for the years 2016-17 to 2021-22, it was observed that various tenders were called for through advertisement for award of Electrical & Instrumentation Works to firms, following deficiencies were found;

1. M/s Green Industrial Solution, Lahore, quoted the lowest rates of Rs 40.95 million, Rs 22.125 million, and Rs 16.648 million (including GST) against three tenders. However, the purchase orders for these packages were issued to M/s ABB, who was 4th lowest with Rs 54.99 million in first tender, 2nd lowest with Rs 30.42 million in 2nd tender and 3rd lowest with Rs 16.648 million in 3rd tenders in violation of Public procurement rules.
2. Similarly, various store items were purchased from the 2nd lowest bidder, disregarding the 1st lowest rate which resulted in a loss of Rs 7.828 million.
3. In response of tender for award of work of Electrical & Instrumentation Works of 100 TPH Boiler in April, 2022, M/s Solution Engineering, Lahore, declared 1st lowest bidder at cost of Rs 68.54 million, was ignored on the plea that country of origin was not intimated. The work was awarded to 2nd lowest bidder M/s ABB Power Automation, Lahore, with an initial quote of Rs 77.10 million, later reduced to Rs 72.54 million.
4. In response of tenders for purchase of Steel Plates for project 100 TPH SM (Mirpur Khas) in December, 2020. Work order was awarded to 3rd lowest bidder namely M/s Loha Corporation at a cost of Rs 26.841 million within delivery period of 2 to 3 weeks by ignoring 1st and 2nd lowest bidders who quoted rate @ Rs 22.015 million and Rs 24.483 million respectively within delivery period of 8-10 weeks. However, the firm actually delivered the store in 5 weeks.

Non observance of Public Procurement rules was the cause of weak internal control.

Audit is of the view that the management was obligated to award the contract to the lowest bidders to ensure savings, in accordance with public procurement rules.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends inquiring the matter besides fixing responsibility.

Paras- 16,19, 23, 29, 35 and 36 (HMC – 2016-17 to 2021-22)

4.1.4.7 Irregular write off of loan along with markup - Rs 23.10 million

As per terms & conditions of loan sanctioned by the Federal Govt. to HMC, the loan carried interest @ 16% p.a. and is repayable in 10 yearly equal installments.

During audit of HMC Taxila from 2016-17 to 2021-22, it was observed that the Federal Government granted a loan of Rs 21.300 million to HMC in 1999, carrying an interest rate of 16% p.a. The loan, repayable in 10 equal installments of Rs 2.31 million each starting from June 2001, remained unpaid. In June 2016, the ECC of the Cabinet decided to transfer HMC to SPD/PAEC, along with its assets and liabilities, including the outstanding loan. Despite this, the Board of Directors, in its 120th meeting on June 12, 2018, decided to write off the loan, mentioning its longstanding status since 1999 and never claimed by Ministry.

Audit is of the view that the HMC Board's decision to write off the loan liability along with markup without consent of Federal Government is irregular.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends inquiring the matter besides fixing responsibility.

Para-17 (HMC – 2016-17 to 2021-22)

4.1.4.8 Irregular award of contract for procurement of store – US\$ 124,542 (Rs 21.919 million)

According to advertisement dated 12-09-2021 the tender was published for purchase of 32 M. Tons of Steel Profiles (A572 22.656 M. Tons + A36 9,157 M. Tons). Further, according to PPRA Rules – 42 (c) (iv) Repeat orders not exceeding fifteen per cent of the original procurement. In PPRA Rules, the repeat order means procurement of the same commodity from the same source without competition and includes enhancement of contracts.

During audit of HMC Taxila for the years 2016-17 to 2021-22 it was observed that tenders were issued on 12.09.2021 for the purchase of two items of steel profiles i.e. (Material A572 Gr. 50 - 22,656 kgs and Material A-36 - 9,157 kgs). In response, M/s Roots, the local agent of AGE Steel Limited Dubai UAE, quoted the lowest rates at US \$ 44,398 (A572 US \$ 1,412/M. ton and A36 US \$ 1,355/M. ton). It was further observed that management increased the quantity of both items significantly (195% and 133% increase, respectively) and placed an order for the enhanced quantity at US \$124,542, equivalent to Pak. Rs 21.919 million.

Audit is of the view that management's decision to award order for enhanced quantity exceeding 15% beyond the limit of repeat order was in violation of PPRA, hence was irregular.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends inquiring the matter besides fixing responsibility.

Para-15 (HMC – 2016-17 to 2021-22)

4.1.4.9 Irregular enhancement of rate after award of contract by Rs 9.350 million and loss due to supply of faulty store – Rs 11.055 million

As per the tender documents issued for the purchase of Seamless Tubes in various sizes, the bid format included third-party inspection charges.

During the audit of HMC Taxila for the years 2016-17 to 2021-22, it was observed that four contracts for the purchase of Seamless Tubes of different sizes were awarded to M/s Engineering Equipment, Islamabad at US \$35,824 (including inspection charges of US \$800) on 19.02.2021. The contract was on a CFR basis with a delivery period of 50 days, initially scheduled for 15.05.2021, and later extended to 04.08.2021. However, the supplier requested an increase of US \$55,000 at a rate of US \$13,500 in each case. Subsequently, revised purchase orders with the increased rates (without included inspection cost) were issued through a letter dated 25.05.2021. The store was dispatched by the supplier without a 3rd party inspection, leading to rejection by the inspection authority of HMC. The management requested the firm either to replace the store or pay the store's cost of US \$64,458, but neither the store was replaced by the firm nor the cost was returned.

Audit is of the view that management should have obtained store inspections from a third party, but this was not executed as required and received faulty store. hence held irregular. Furthermore, enhancement of rate @ 37% of the original value was unjustified.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends inquiring the matter besides fixing responsibility.

Para-12 (HMC – 2016-17 to 2021-22)

4.1.4.10 Loss due to auction of store below reserve/assessed price - Rs 30.379 million

According to Rule 05 of the SECP Corporate Governance Rules, 2013 (Amended 2017), the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety.

During the audit of HMC Taxila from 2016-17 to 2021-22, it was noted that store items auctioned in two lots through M/s Mohmand Brothers, Haripur, with an initial highest bid of Rs 23.558 million, were later enhanced to Rs 32.054 million. Despite an initial assessed value of Rs 62.497 million for Lot No. 01 and Lot No. 02, incorporating factors like obsolescence and wear & tear, a second assessment, without clear reasons, reduced the values to Rs 45.739 million. The subsequent sale at Rs 32.10 million resulted in a substantial loss of Rs 30.379 million.

Audit is of the view that management should have sold the store at the initial assessed value of Rs 62.497 million rather than the second assessed value, hence, held irregular.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing responsibility.

Para-8 (HMC – 2016-17 to 2021-22)

4.1.4.11 Irregular contract appointment and payment - Rs 18.138 million

According to HMC Employment Policy & Procedure given in HMC Employees Service Regulation 2020, all posts must be advertised in the national press and fully cover the terms and conditions regarding age, educational qualification and experience etc. specific to each post.

During audit of HMC for the years 2016-17 to 2021-22, it was observed that Brig. ® Hamid Mahmood as GM (Admn & HR) was directly appointed on contract basis for three years at HMC through a letter dated 19.02.2019, bypassing established procedures/rules. Later on, he was re-designated as Director (HR & Admin) w.e.f. 19.02.2019. Upon contract expiry in February 2022, SITECH extended it for an additional three years at a lump sum pay of Rs 370,000 (increased more than 42% without justification) vide letter dated 18.05.2022.

Audit is of the view that the officer's appointment, in violation of company policy, and the payment of Rs 18.138 million with an unjustified 42% increase in pay and allowance, held irregular.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing responsibility.

Para-33 (HMC – 2016-17 to 2021-22)

4.1.4.12 Loss due to imposition of LD charges by the clients – Rs 18.093 million

According to Clause – 5 & 9 of the agreement signed with the clients “in case of failure to deliver the consignment within specified delivery period, as agreed in the contract, the purchaser shall be entitled at his own option to recover liquidated damages levied at the rate specified in the contract agreement”.

During audit of HMC Taxila for the years 2016-17 to 2021-22 it was observed that in nine cases the management entered into agreement with the private parties for some specific jobs. In agreement, signed with the client, the delivery period was specifically mentioned and agreed that in case of late delivery beyond said period the client has right to recover the liquidated damages from the suppliers. In said cases the management failed to complete and deliver the job within scheduled time, due to which the client imposed penalty clause and deducted liquidated damages of Rs 18.093 million from the billed amount.

Audit is of the view that the HMC is running its business on commercial lines and the timely completion and delivery of job is the essence of business. But in so many cases the management failed to deliver the jobs within scheduled time due to which the client imposed late deliver charges upon HMC and accordingly deducted the amount from the billed amount which is a loss to the formation.

The matter was reported to management on 26.06.2023 but no reply was received till finalization of report.

The DAC meeting was not convened till finalization of this report despite request dated 29.11.2023.

Audit recommends that matter be probed at appropriate level to find the reasons of delay which caused loss to the formation; fix responsibility thereof; and make the loss good by affecting recovery from the person(s) at fault.

Para-22 (HMC – 2016-17 to 2021-22)

4.1.4.13 Non provision of auditable record – Rs 15.718 million

In Accounting “a voucher is a document normally issued by the accounts payable department to authorize payments. It can also be termed as a memorandum of liability to any organization. An accounting voucher can be seen as a written backup document for the payments done to the suppliers or creditors in any organization for the business conducted with the party”.

When a voucher is issued for payment, it implies that all these prerequisites of the control mechanism process are fulfilled, and the payment towards the supplier is good to go.

During audit of HMC for the years 2016-17 to 2021-22 it was noted that a sum of Rs 11.894 million was spent on stationery and printing charges, along with Rs 3.823 million on the purchase of fixed assets at the school of HMC from 2018 to 2020. Payment vouchers of assets and stationery/printing material was demanded by audit which was not provided. Furthermore, Chartered Firm, while certifying the accounts for the mentioned period, issued a qualified opinion on these expenditures due to the absence of relevant documents and evidence.

Audit is of the view that due to the absence of proper records and supporting evidence for the payments of Rs 15.718 million, the expenditure is considered not authentic.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing responsibility on non-provision of record.

Para-24 (HMC – 2016-17 to 2021-22)

4.1.4.14 Irregular award of contract on higher rate - Rs 11.705 million

According to Rule – 4 of the Public Procurement Rules, 2004 “procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical”.

During audit of HMC Taxila for the years 2016-17 to 2021-22 it was observed that tenders were issued in February 2021 for award of work of unloading & safe storage of material, erection/installation of Penstock, Steep liners for 48 MW Jagran-II Hydel Power Project. M/s Nimra & Co., Taxila, initially quoted the lowest rate of Rs 149.907 million, while M/s Akhtar Engineering Services, Islamabad, was the second lowest at Rs 156.693 million. Later, M/s Akhtar Engineering Services reduced their rate to Rs 148.907 million, and the lowest bidder also decreased to Rs 137.201 million on 20.04.2021. The SCM department proposed awarding the contract to the second lowest bidder at Rs 148.906 million, claiming the first lowest bidder failed to submit the required bid money. However, the A/CFO, HMC vide letter dated 03.06.2021 confirmed M/s Nimra & Co. had the lowest offered rate and submitted the bid money. Despite the Managing Director not approving the contract summary, the contract was awarded to 2nd lowest bidder M/s Akhtar Engineering Services, at their quoted rate of Rs 148.906 million, disregarding the lowest offer in the contract dated 23.07.2021.

Audit is of the view that management should award contract to lowest bidder which was not done. Hence, the company sustained loss of Rs 11.705 million (Rs 148.906 million – Rs 137.201 million).

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing responsibility.

Para-48 (HMC – 2016-17 to 2021-22)

4.1.4.15 Non provision of record of renovation work - Rs 8.103 million and loss due to non-deduction of withholding tax - Rs 486,190

As per Rules – 12(2) of the Public Procurement Rules, 2004, “all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority’s website as well as in other print media or newspapers having wide circulation.”

As per Income Tax rules, a 6% withholding tax on maintenance services should be deducted.

During audit of HMC Taxila for the years 2016-17 to 2021-22 it was observed that HMC runs three schools in its colony. A sum of Rs 8.103 million was expended on renovation of school buildings without advertisement. However, the management provided bills of only Rs 2.251 million showing adjusting advances for renovation. Bills for the remaining amount were not provided. Furthermore, some bills were unsigned or blank accompanied only by handwritten receipts without supporting documents. Additionally, Income Tax at a 6% withholding rate on maintenance services was not deducted from bills, resulting in a loss of Rs 486,190 to the treasury.

Consequently, the payment of Rs 8.103 million is deemed irregular, raising concerns about the potential for bogus claims. Additionally, the failure to deduct income tax resulted in a loss of Rs 486,190 to the treasury.

Audit is of the view that the management's procedure for renovation work did not comply with the rules and the non-provision of complete records is a serious lapse.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing responsibility.

Para-11 (HMC – 2016-17 to 2021-22)

4.1.4.16 Loss due to purchase of used steam turbine - US \$ 46,463 (Rs 7.434 million)

As per agreement signed with M/s Technoexponent for supply of Steam Turbine, the supplier was bound to supply brand new Steam Turbine.

During the audit of HMC Taxila from 2016-17 to 2021-22, it was observed that a Steam Turbine for a 140 TH Boiler was purchased from M/s Techno via a purchase order dated 30.09.2019. Subsequently, during the commissioning/installation, it was exposed that the turbine was used or second-hand. The QA Deptt. rejected the turbine due to visible cracks, significant porosity, and repairs at various points. Inspection documents provided by the supplier after four months were found to be tampered with. An inquiry committee constituted in September 2020, recommended disciplinary action against the Manager SCM and Head of QA Deptt., proposing a major punishment of "Removal from Service" for the concerned officers. However, no action was initiated. Thus, company sustained a loss of Rs 7.434 million.

Audit is of the view that management should have taken disciplinary action against concerned along with pursuing efforts to recover the losses incurred.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing responsibility and initiating actions to recover the incurred losses.

Para-30 (HMC – 2016-17 to 2021-22)

4.1.4.17 Non-recovery of rental charges from postal authorities – Rs 4.349 million

The HMC management vide letter dated 02.06.1971 allotted a shop No. 26 to Postal Authorities for establishment of Post Office. As per terms of said letter the shop was allotted for post office on rent free basis for one year i.e. up 31.05.1972 and thereafter the Postal Authorities were required to pay rent at agreed rate.

During audit of HMC Taxila from 2016-17 to 2021-22, it was observed that management had allotted Shop No. 26 (covering an area of 660 sq. ft.) to Postal Authorities for opening a Post Office via a letter dated 02.06.1971 on rent free basis for one year, ending on 31.05.1972. However, after the expiration, there was no proper rental agreement in place, and the Postal Authorities continued to use the shop without paying rent. The management officially notified rental charges at Rs 20/sq. ft. from December 2020 without formal agreement.

Thus, the audit calculated rental charges from 01.06.1972 to November 2020 on an approximate, conservative basis, resulting in loss of Rs 4.349 million to company.

Audit is of the view that the management was obligated to establish a formal agreement to determine the rent for the shop, rather than allowing it to be provided free of cost for an extended period.

The matter was reported to management on 26.06.2023 but no reply was received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that recovery of the outstanding rent may be made besides fix responsibility on the person(s) at fault.

Para-40 (HMC – 2016-17 to 2021-22)

4.2 Institute of Space Technology

4.2.1 Introduction

Institute of Space Technology is a statutory organization established under the Institute of Space and Technology Act, 2010 (Act No. XI of 2010), formerly Institute of Space Technology Ordinance, 2007 (Ordinance No. XLII, 2001 and the approval granted shall remain in force until it has been withdrawn under Rules 217 of Income Tax, 2002. The main objectives of the Institute is to promote and finance educational, research and development activities by facilitating the development of world-class degree awarding institute having a bearing on the socio-cultural economic needs of the country. The Institute is engaged in promoting space oriented activities with the help of both national and international experts.

4.2.2 Comments on Audited Accounts

4.2.2.1 The annual audited accounts are required to be provided to Audit for review each year. Contrary to this, the management failed to provide audited annual accounts for the years 2021-22 to 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts for the years 2016-17 to 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*Annex-2*).

4.2.3 Compliance of PAC Directives

There were no pending PAC directives for compliance.

4.2.4 Audit Paras

4.2.4.1 Loss due to non-recovery from unsuccessful employees in PhD studies - Rs 178.924 million

According to clause 5 of statutes and regulations of the Institute of Space Technology (IST) Islamabad every controlling officer is expected to exercise the same vigilance in respect of expenditure incurred from IST funds as a person of ordinary prudence would exercise in respect of expenditure of his own. As per clause 5(b), the expenditure should not be prima facie more than the occasion demands.

During audit of IST Islamabad for FY 2014-23, the management provided the detail of court cases filed by IST for recovery of Rs 178.924 million from different employees. Detail is attached as under:

Court Cases filed by IST for Recoveries				
Sr. No.	Reference	Amount (Rs)	Currency	Amount (Rs)

1	Dr. Faidad	277,835	PKR	277,835
2	Dr. Muhammad Umari Shahid	120,000	PKR	120,000
3	Mr. Sikandar Nawaz	198,514	PKR	198,514
4	Mr. Hamza Ghazanfar Toor	135,375	PKR	135,375
		51,552	USD @ (Rs 284.08 as on 29.11.2023)	14,640,768
		103,065	Aus Doller @ (Rs 188 as on 29.11.2023)	19,376,220
5	Mr. Wajid Minhas	611,731	PKR	611,731
		60,919	USD @ (Rs 284.08 as on 29.11.2023)	17,300,996
6	Mr. Hassan Abbas Khawaja	1,563,823	PKR	1,563,823
		70,564	GBP@ (Rs 360 as on 29.11.2023)	25,403,040
		47,409	USD @ (Rs 284.08 as on 29.11.2023)	13,464,156
7	Mr. Saad Ali Malik	81,376	PKR	81,376
		52,291	GBP @ (Rs 284.08 as on 29.11.2023)	18,824,760

		65,334	USD(Rs 284.08 as on 29.11.2023)	18,554,856
8	Mr. Bilal Aslam Ranjha	980,845	PKR	980,845
		153,263	USD @ (Rs 284.08 as on 29.11.2023)	43,526,692
9	Mr. Husnain Riz (2016)	3,863,341	PKR	3,863,341
				178,924,328

Audit observed that the employees concerned did not return to Pakistan to resume duties in the University, hence they were liable to deposit the amount of surety bond as per laid down conditions. The management failed to take appropriate action against defaulter employees which resulted into non-recovery of Rs 178.924 million.

Audit is of the view the aforementioned employees neither resumed duty nor deposited the amount against them due to which management sustained a loss of Rs 178.924 million.

The matter was reported to the management but no reply was received till finalization of report.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends recovery of the amount from the employees or the surety as per conditions of surety bonds and also initiate disciplinary proceedings against the defaulter employees as per rules.

Para-08 (IST-2014-23)

4.2.4.2 Irregular purchase of vehicles during ban period - Rs 37.680 million

According to Finance Division (Expenditure Wing) OM No.7(1) Exp-IV/2016-540 dated 26.07.2017 and O.M No.7(1) Exp-IV/2016-430 dated 06.08.2020, there shall be complete ban on purchase of all types of vehicles both for current and development expenditure excluding motor cycles.

During audit of IST Islamabad for FY 2014-23, it was observed that the management procured fifteen (15) vehicles amounting to Rs 37.680 million. Detail of purchased vehicles is as under:

Sr. No.	Bill	Date	Description	Amount (Rs)
1	GIL/963	21.04.2020	30-Seater No Air Condition (02)	14,000,000
2	PS15/AOR/PRB/IST	30.06.2015	Suzuki Bolan VX Euro-II (01) Suzuki Ravi Pickup Euro-II (01)	6,502,000

			Suzuki Cultus Euro-II (05)	
3	TGTM/IST-421-A/2020	20.05.2020	Toyota Corolla Altis at 1.6 (01)	3,338,000
4	24977	05.04.2017	HINO SkylinerDlx Coach with 63+1 Seats (01)	5,900,000
5	PRB/IST-01/RM/20/06-09	28.05.2020	Suzuki Cultus AGS (04)	7,940,000
		Total		37,680,000

Audit observed that the vehicles were procured during the period of ban imposed by the Finance Division. Audit is of the view that the purchase of vehicles during ban period was irregular and unauthorized.

The matter was reported to the management but no reply was received till finalization of report.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that responsibility may be fixed for the irregularity besides regularization from the Finance Division / competent authority.

Para-09 (IST-2014-23)

4.2.4.3 Wasteful expenditure on hiring of consultants and vendors - Rs 34.055 million and non-utilization of HEC grant for the procurement of SAP system - Rs 22.500 million

According to clause 13 of bidding documents, the supplier will provide performance bank guarantee equivalent to 10% of total order value within 14 days of signing of contract from scheduled bank of Pakistan. The performance bond shall be valid till the Guarantee / warranty period of particular supply. According to chapter 2 of Statutes & Regulations of Institute of Space Technology under clause 2 of accounting system and records, the institute will preferably use a computerized accounting system either from market or developed as per their needs.

During audit of IST Islamabad for FY 2014-23, it was observed that the management hired consultants / advisors and made payments of Rs 10.392 million on account of SAP implementation. The management also made payment of Rs 23.664 million to three vendors on account of cloud services and hard ware, SAP licenses and annual maintenance support and ERP implementation cost agreement. However, the management did not obtain performance guarantee from a vendor (M/s Excellence Delivered).

The management received grants of Rs 22.500 million from HEC for SAP implementation which were deposited into bank. Record revealed that SAP project was closed by competent authority but the amount of Rs 22.793 million was still lying in bank account as on 02.08.2021.

The audit observed significant problems with the implementation of the SAP Infrastructure Hardware System and the use of funds. The system remained unimplemented even after 11 years. Complete

financial records were absent, hindering the assessment of fund utilization. The expenses of Rs. 8.993 million were incurred after the closure of project.

Audit is of the view that the payment to the consultants and vendors without any achievement of the project was wasteful and loss to the public exchequer. Further, money was left unutilized over the years, alongside the failure to install the SAP system.

The matter was reported to the management but no reply was received till finalization of report.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the reasons for payments to consultants and vendors without any achievement and delays in SAP system procurement despite availability of funds. Additionally, any unauthorized expenditures from the HEC grant should be rectified through proper channels and approval.

Para-3, 4 & 5 (IST-2014-23)

4.2.4.4 Irregular award of Cafeteria contracts by direct contracting - Rs 19.800 million

According to Rule 12 (1) of PPRA 2004 states that Procurements over five hundred thousand Pakistani Rupees and up to the limit of three million Pakistani Rupees shall be advertised on the Authority's website in the manner and format specified by regulation by the Authority from time to time. These procurement opportunities may also be advertised in print media, if deemed necessary by the procuring agency:

During audit of IST Islamabad for FY2014-23, the management awarded contracts for Cafeteria Services by direct contracting to the following firms at fixed rate for the covered area of 27,400 sq. ft. The detail is as under:

Sr. No.	Firm	Contract period	Tenure Period	Rate per month (Rs)	Payment (Rs)
1	M/s Impression Event Management	13.11.2019 to 31.03.2022	28 months	600,000 (Lump sum) (28 Months *600,000)	16,800,000
2	M/s Daata Sweets	03.04.2022 to 30.06.2022	03 Months	Contract was awarded on trial basis.	0
3	M/s Abbasi & Co.	01.09.2022 to 30.06.2027	60 Months	300,000 (10 Months *300,000)	3,000,000
	Total				19,800,000

The audit revealed shortcomings in procurement and contract management, including direct contracting without competition for cafeteria services, violations of procurement regulations in payments to certain firms, and the re-awarding of a contract to a previously terminated vendor. These findings underscore deficiencies in transparency, compliance, and accountability within the organization's procurement practices, highlighting the need for corrective action to ensure fairness and efficiency in future processes.

Audit is of the view that the management awarded contract for cafeteria in violation of PPRA Rules, and undue favor was extended to the contractors which was irregular.

The matter was reported to the management but no reply was received till finalization of report.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to explain the reasons for award of contract on lump sum rates. Responsibility may be fixed on the person/s at fault for irregular award of contract.

Para-16 (IST-2014-23)

4.2.4.5 Irregular engagement of legal firm - Rs 14.571 million

According to Honorable Supreme Court vide PLD 2017 Supreme Court 121 (Para 24), where Government departments are strictly prohibited to engage Private Council and directed to utilize the service of Attorney General Office. Supreme Court also held that payment to Private Advocate would constitute financial impropriety by person who does on the behalf of Govt.

According to Law, Justice and Human Rights Division vide its letter F. No. 20 (1)87-LA dated 13.01.2010 clarified in its earlier instructions issued vide letter No. F.20(1) 87-

LA dated 22.11.2004 that no Legal Advisor, Advocate or Consultant shall be appointed or engaged by any department, in future, without prior approval of the Ministry of Law, Justice and Human Rights.

During audit of IST Islamabad for FY 2014-23, the management hired M/s International Legal Consultant (ILC) for a period of one year on 05.05.2012. The agreement was further extended for one year from 04.05.2013 to 03.05.2014. IST floated tender for appointment of legal firms on 23.04.2014 and selected M/s International Legal consultant again. The contracts were renewed till 20 November, 2023 and made payments on accounts of Legal and Professional charges Rs 14,571,187 during 2014-15 to 2022-23.

Audit observed that the engagement of M/s International Legal Consultant (ILC) was in violation of Supreme Court decision and without prior approval of Ministry of Law, Justice and Human Rights.

Audit is of the view that the hiring of the firm without fulfilling the codal requirements was irregular.

The matter was reported to the management but no reply was received till finalization of report.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that responsibility should be fixed on the person(s) at fault besides ex-post facto approval of law division be obtained.

Para-07 (IST-2014-23)

4.2.4.6 Loss due to non-functionality of Financial Information System (FIS) - Rs 5.7 million

Rule 38B (1) (d) of Public Procurement Rules, 2004 states that the procuring agency shall consider single bid in goods, works and services if it has financial conformance in terms of rate reasonability provided that except unsolicited proposal, in case of pre-qualification proceedings single bid shall not be entertained. The procuring agency shall make a decision with due diligence and in compliance with general principles of procurement like economy, efficiency and value for money.

During audit of IST Islamabad for FY 2014-23, it was observed that the management floated tender Notice on 01.11.2020 (Single stage – Two envelope bidding process) for the procurement of Financial Information System (FIS). In response to tender only one firm participated i.e. M/s Soft Consults with financial bid of Rs 5.736 million and work order issued on 12.02.2021.

The Audit observed that contracts was awarded without rate reasonability assessment, Financial Information System was non-functional, and approval of additional modules and establishment of a Service Level Agreement (SLA) lacked thorough evaluation, indicating potential inefficiencies and financial risks. These findings underscore the necessity for enhanced transparency, efficiency, and risk management practices within the organization.

Audit is of the view that due to non-functional of the FIS system, non-installation of the modules and payment made to the vendor without any achievement with regard to the project was wasteful and loss to the university.

Audit is also of the view that had the SLA and additional modules been added in the bidding documents, management would have fetched more competitive offers for the said procurement.

The matter was reported to the management but no reply was received till finalization of report.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that responsibility should be fixed on the person(s) for non-functional of FIS system and wasting of public money.

Para-06 (IST-2014-23)

4.2.4.7 Non-recovery of outstanding receivables from students – Rs 5.507 million

According to clause 5 of statutes and regulations of the Institute of Space Technology (IST), Islamabad every controlling officer is expected to exercise the same vigilance in respect of expenditure incurred from IST funds as a person of ordinary prudence would exercise in respect of expenditure of his own.

During audit of IST Islamabad for FY 2014-23, it was observed that an amount of Rs 5.508 million was receivable from students on account of fee and other charges as on June, 2022. The management created a provision for doubtful receivable of Rs 707,713 in their annual accounts for the year 2021-22. The annual accounts for the year 2022-23 along with aging were not provide to Audit to ascertain the actual position of receivable from students.

Audit is of the view that the management failed to recover the outstanding dues from students which reflected weak internal controls in the organization.

The matter was reported to the management but no reply was received till finalization of report.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to streamline the system of fee collection to minimize the chances of becoming bad debts besides effecting recovery.

Para-13 (IST-2014-23)

4.2.4.8 Irregular appointment of employees without verification of degrees - Rs 5.303 million

Government of Pakistan Cabinet Secretariat Establishment Division, (Management Services Wing) letter dated March 08 2011 describes that the Prime Minister has been pleased to direct that measures should be taken to authenticate degrees/ certificates of all Federal Government employees of the respective Ministries/ Divisions, their attached department's subordinate offices and autonomous bodies under their administrative control.

During audit of IST Islamabad for FY 2014-23, the management appointed 384 employees against various posts during 2014-15 to 2022-23.

Audit observed during sample based scrutiny of the personal files that degrees of the following employees had not been verified from the concerned issuing authority/ Higher Education Commission:

Sr.	Name of Employee	Designation	Date of Joining	Basic Salary	No. of Months upto Nov, 2023	Total Tentative Amount of Basic Pay (Excluding Allowances)
1	Tufail Sajjad Shah Hashmi	Lecturer (BPS-18)	01.09.2021	38,350	27	1,035,450

2	Amir Rahim	Lecturer (BPS-18)	19.02.2021	38,350	33	1,265,550
3	Muhammad Nadeem Yousaf	Lecturer (BPS-18)	27.08.2021	38,350	27	1,035,450
4	Farooq Ahmed	Additional Director (BPS-19)	31.12.2021	59,210	22	1,302,620
5	Abu Bakar Talal	Lab Engineer (BPS-17)	28.03.2022	30370	20	607,400
6	Saad Akram	Lecturer (BPS-18)	16.10.2023	56,880	1	56,880
		Total				5,303,350

Audit is of the view that non-verification / attestation of degrees of the said employees from respective Boards/ Universities/ HEC was in violation of Government instructions. Thus, payment of Rs 5.303 million on account of pay & allowances was held irregular.

The matter was reported to the management but no reply was received till finalization of report.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to ensure verification of degrees of all employees and responsibility be fixed on the person(s) at fault for violating the Government policy.

Para-22 (IST-2014-23)

4.2.4.9 Loss due to award of contract to second lowest firm - Rs 2.871 million

According to Rule 23 (1) of Public Procurement Rules 2004 states that procuring agencies shall formulate precise and unambiguous bidding documents that shall be made available to the bidders immediately after the publication of the invitation to bid.

During audit of IST Islamabad for FY 2014-23, the management published tender notice for Janitorial services on 27.07.2012. In response ten firms participated in the tendering process out of which 03 firms were technically and financially qualified on 10.08.2012. Consequently, the contract was awarded to M/s National Cleaning Services being lowest bidder and the contract was executed for the period from 15.05.2013 to 14.05.2014 and further extended till 14.05.2016.

The audit identified flaws in the procurement of janitorial services, such as the absence of security verification in bidding documents. Despite the lowest bidder's refusal to undergo security clearance, the contract was awarded to the next lowest bidder, leading to additional expenses and a significant financial loss. Payments were made for services not outlined in the bidding documents, and documentation regarding security clearance was missing. These findings underscore the importance of enhancing transparency, compliance, and efficiency in future procurement practices to mitigate such risks and losses.

Audit is of the view that management sustained loss due to improper bidding documents and award of contract to the firm without the security clearance.

The matter was reported to the management but no reply was received till finalization of report.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that responsibility may be fixed on the person at fault.

Para-02 (IST-2014-23)

4.2.4.10 Non finalization of annual accounts / financial statements for the years 2021-23

According to Section 29 (6) of IST Act 2010, the audit of the Institute is to be carried out by a reputed chartered accountant firm and audited financial statements should be submitted to the Auditor General of Pakistan every year.

During audit of Institute of Space Technology (IST), Islamabad for the years 2014-23, the management provided approved annual audited accounts till 2020-21.

Audit observed that the management failed to finalize its annual accounts for the years 2021-22 and 2022-23 which is clear violation of IST Act.

Audit is of the view that management was required to finalize its accounts timely to get the true and fair picture of the financial statements of the university accounts.

The matter was reported to the management but no reply was received till finalization of report.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the reasons regarding non-finalization of account and fixing responsibility on the person at fault.

Para-01 (IST-2014-23)

Chapter-5

Ministry of Defence Production

Overview:

This organization was established to meet the requirements of the Armed Forces through a cautious combination of procurement (local and import) and indigenous production of arms & ammunition with a continued effort to enhance the component of indigenous production and in the process, export surplus capacity of defence products to regional and friendly countries.

The mandate is actualized through Defence Production Establishments (DPEs).

5.1 Karachi Shipyard and Engineering Works Limited

5.1.1 Introduction

Karachi Shipyard and Engineering Works Limited (the Company) was incorporated on 18 May, 1957 as an unquoted Public Company Limited by shares under the Companies Act, 1913 (now the Companies Act, 2017), wholly-owned and controlled by the Federal Government. The Company is mainly engaged in ship-building, ship-repairing and general engineering activities. The registered office and its engineering workshops are situated at West Wharf, Dockyard Road, Karachi.

5.1.2 Comments on Audited Accounts

5.1.2.1 The working results of the Company for the financial year 2021-22 as compared with the preceding years are given below:

(Rs in million)

	2021-22	% Inc/ (Dec)	2020-21	% Inc/ (Dec)	2019-20	% Inc/ (Dec)	2018-19

(Source: Annual Audited Accounts 2021-22)

Financial cost increased by 1,317% to Rs 35.71 million in the year 2021-22 as compared to Rs 2.520 million in the year 2020-21, due to interest of government loan.

5.1.2.2 An amount due from customers (Ship Repair) increased by 14.93% to Rs 976.11 million in the year 2021-22 as compared to Rs 454.16 million in the year 2020-21. As it is an amount due from customers (General Engineering) increased by 244.26% to Rs 416.49 million in the year 2021-22 as compared to Rs 120.980 million in the year 2020-21.

5.1.2.3 Contract receivables 713.72% to Rs 2,250.26 million in the year 2021-22 as compared to Rs 276.54 million in the year 2020-21 due to non-recovery / non-adjustment from various contractors.

5.1.2.4 Sales Tax receivables increased by 29.97% to Rs 538.07 million in the year 2021-22 as compared to Rs 414.01 million in the year 2020-21 due non-recovery / non-adjustment from tax authorities.

5.1.2.5 Restricted accounts decreased by 59.41 % to Rs 475.38 million in the year 2021-22 as compared to Rs 1,171.12 million in the year 2020-21. This amount represents the grant received by the Company in

relation to Ship Lift and Transfer System (SLTS) and civil work from the GoP representing an allocation of Public Sector Development Program (PSDP).

5.1.2.6 Company received Cash Development Loan (CDL) of Rs 820.00 million during 2021-22 from the GoP under the PSDP fund. The terms and conditions of the loans were not finalized, which have been proposed by Ministry of Defence Production, but have not been endorsed by Ministry of Finance as yet. Under the proposed terms and conditions, the loan will be interest free and is repayable in four equal installments amounting to Rs 205.000 million per year. Contrary to above, the Company short term investment is Rs 1,421.580 million during the year 2021-22 as compared to Rs 1,050.000 million in the year 2020-21.

5.1.2.7 Advertisement and publicity expenses increased by 459.43% to Rs 33.51 million in the year 2021-22 as compared to Rs 5.99 million in the year 2020-21, due to substantial increase in relevant expenditures.

5.1.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	%age of compliance
2010-11	6	3	3	4.1.4.1, 4.1.2.1, 4.1.3,	50%
2011-12	8	2	6	5.1.2.5, 5.1.3	25%
2012-13	5	2	3	5.1.2.2, 5.1.3	40%
"2013-14 (Paras More Than 50 M)"	1	1			100%
"2016-17 (Paras More Than 50 M)"	2		2	5.1.4.4, 5.1.4.5	0%
2017-18	7	6	1	7.1.4.4	86%
2018-19	7		7	6.1.4.1, 6.1.4.2, 6.1.4.3, 6.1.4.4, 6.1.4.5, 6.1.4.6, 6.1.4.7	

Total	36	14	22		39%
--------------	-----------	-----------	-----------	--	------------

The overall compliance of PAC directives needs improvement.

5.1.4 Audit Paras

5.1.4.1 *Non-recovery of outstanding dues from different customers – Rs 6,385.179 million*

Rule 7 of Public Sector Companies (Corporate Governance) Rules, 2017 stipulates that the Board shall establish appropriate arrangements to ensure to enable it to carry out its role effectively. (2) For the purpose of sub-rule (1), significant issues shall, inter-cilia, include the following, namely: - (L) failure to recover material amounts of loans, advances, and deposits made by the Public Sector Company, including trade debts and inter corporate finances.”

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that an amount of Rs 6,385.179 million was lying outstanding against different customers.

Audit is of the view that the management failed to recover an amount of Rs 6,385.179 million from the above customers which reflects poor recovery mechanism.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management informed that after due verification by audit, outstanding amount was reduced to Rs.920.000 million. DAC directed to reduce the amount of para accordingly. DAC further directed the management that remaining amount may be recovered and verified by Audit on 'priority.

Audit recommends implementation of the DAC directives.

5.1.4.2 *Irregular procurement of Luffing Crane – Rs 1,595.601 million equivalent to USD \$7.980 million*

Rule 04 of PPRA, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule 11 of PPRA, 2004 states that all procuring agencies shall provide clear authorization and delegation of powers for different categories of procurement and shall only initiate procurements once approval of the competent authorities concerned has been accorded.

Rule 31(1) of PPRA, 2004 states that no bidder shall be allowed to alter or modify his bid after the bids have been opened. However, the procuring agency may seek and accept clarifications to the bid that do not change the substance of the bid.

During audit of Karachi Shipyard & Engineering Works (KS&EW) Karachi for the year 2021-22, it was observed that the management awarded a contract to M/s Shanghai Zhenhua Heavy Industries Company Limited, ZPMC (local representative M/s KARSAZ), valuing USD \$7,980,000 on May 30, 2022, for the procurement of two 60-ton Double Boom Level Luffing Cranes. This procurement did not align with the approved technical specifications, as per the Planning Commission's letter dated November 03, 2020, which clearly authorized the procurement of two 80-ton Luffing Cranes.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

5.1.4.3 Non-receiving of significant stores in transit – Rs 1,110.574 million

Rule 4(3) of the Public Sector Companies (Corporate Governance) Rules, 2017 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that huge number of stores amounting to Rs 1,110.574 million was lying in transit up to 30.06.2022.

Audit is of the view that the items of significant value should have been transported at KS&EW in time.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management confirmed that verification amount of Rs 23.399 million was pending and remaining amount was verified by the audit. DAC directed to reduce the amount of para accordingly and pursue the matter on priority basis.

Audit recommends implementation of the DAC directives.

5.1.4.4 Non-completion of construction work – Rs 1,046.680 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that the management awarded a civil works contract to M/s. ZKB & ZCL in October 2018, worth Rs 1,046.680 million. The contractor began some construction activities, with a completion deadline set for 2019. However, by that time, only 25% progress had been achieved. In December 2019, M/s. ZKB-ZCL requested an extension, which was granted until April 17, 2020. Despite the extension, the contractor's progress remained very slow until March 2020. The project was part of a National Level Program, and for the past two years, no progress has been made on the remaining construction, and the remaining work has not been assigned to another contractor. This suggests that management did not prioritize completing the project.

Audit is of the view that management did not take appropriate action against the contractor to ensure the completion of the assigned work and granted an unjustified extension until March 2020 and that LD charges should have been recovered.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management apprised that the work would be completed up to 30th June, 2024. DAC directed the management to submit revised reply w.r.t timeline of payment schedule. DAC further directed the management to get the record verified from Audit upon completion of the work.

Audit recommends implementation of the DAC directives.

5.1.4.5 Non-recovery of refundable sales tax – Rs 538.073 million

Section 10 of Sales Tax Act, 1990 states that Refund of input Tax: if the input tax paid by a registered person on taxable purchases made during a tax period exceeds the output tax on account of zero-rated local supplies or export made during the tax period, the excess amount of input tax shall be refunded to the registered person not later than forty-five days of refund claim in a manner and subject to such condition as the Board may, by notification in the official Gazette specify”.

During audit of Karachi Shipyard & Engineering Works (KS&EW) Karachi for the year 2021-22, it was observed that management has not recovered the refundable sales tax amount of Rs 538.073 million from the tax authorities as mentioned under section 10 of the Sales Tax Act, 1990. KS&EW is allowed under the Sales Tax Act 1990 as a Zero-Rated Sales Tax entity. For the shipbuilding and repairing ships KS&EW procures supplies / material / equipment from the suppliers for which they charged sales tax to KS&EW. Whereas KS&EW does not charge sales tax to its clients due to Zero-rating taxation. Therefore, the sales tax paid by the KS&EW is refundable under section 10 of the Sales Tax Act, which has not been refunded by tax authorities. This refundable sales tax amounting to Rs 538.073 million was outstanding as on June 30, 2022.

Audit is of the view that management failed to take serious efforts to recover its refundable sales tax. The management has not filed claims for the refund of sales tax in the due time.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management stated that after due verification by Audit, the amount of para was reduced to Rs 292.476 million. DAC further directed the management to get the record of remaining amount verified by Audit on priority.

Audit recommends implementation of the DAC directives.

5.1.4.6 Non-utilization of government grant – Rs 401.878 million

Rule 4(3) of the Public Sector Companies (Corporate Governance) Rules, 2017 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance.

During audit of Karachi Shipyard & Engineering Works (KS&EW), for the year 2021-22, it was observed that PSDP funds were released by the government during last many years on quarterly basis, but the funds amounting to Rs 401.878 million were neither utilized nor surrendered by the management. The detail of PSDP funds along with relevant files were called for from the management, but the management provided incomplete detail of funds and its utilization.

Audit is of the view that the management did not utilize the huge amount of PSDP Funds of Rs 401.878 million during the year 2021-22 which resulted in blockage of PSDP funds due to non-utilization.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management clarified that for opening of LC, there was a requirement of NBP to mark lien. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

5.1.4.7 Loss of income due to deduction of miscellaneous charges - Rs 306.991 million

Rule 7 of Public Sector Companies (Corporate Governance) Rules, 2017 stipulates that the Board shall establish appropriate arrangements to ensure to enable it to carry out its role effectively. (2) For the purpose of sub-rule (1), significant issues shall, inter-cilia, include the following, namely: - (L) failure to recover material amounts of loans, advances, and deposits made by the Public Sector Company, including trade debts and inter corporate finances.

During audit of Karachi Shipyard & Engineering Works (KS&EW), for the year 2021-22, it was observed from the contracts that the different invoices have been raised by KS&EW. The Director Munitions Production (Navy) has deducted as miscellaneous charges Rs 306.991 million from the invoices without any reasons. Hence, the management sustained a loss of Rs 306.991 million on the account of miscellaneous deduction.

Audit is of the view that the management sustained a loss on account of miscellaneous deduction amounting to Rs 306.991 million, without any apparent reason.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. DAC directed the management to pursue the matter on priority basis.

Audit recommends implementation of the DAC directives.

5.1.4.8 Non-collection of price variation claim – Rs 239.433 million

Clause 3.2 of contract agreement entails that Basic Contract Price (BCP) is calculated at current exchange of NBP i.e. 1 US\$ = PKR 151.40. The exchange rate of US\$ shall be ascertained on the day of release of each milestone payment and recorded. Any deviation from current exchange rate i.e. 1 US\$ = PKR 151.40 as recorded for foreign exchange portion of every milestone shall be compensated to either side with the last milestone payment. Any additional provision of funds in allocated Head shall be recouped by NHQ. Clause 4.2 entails that purchaser will make payments within 30 days of receiving respective invoice of the contractor. If payment is delayed more than 45 days, the excessive period beyond 45 days shall be added in grace period for delivery of the respective tug.

During audit of Karachi Shipyard & Engineering Works (KS&EW), for the year 2021-22, it was observed from the file of contract No. 1262/129/DMP (Navy) dated June 30, 2020 (SB-289) that the management executed a contract agreement with a Pakistan Navy for construction, trials and delivery of 02 x Pusher Tugs along with other deliverables at Rs 1,553.700 million (US\$ 10.260 million @ Rs 151.40) including taxes as per prevailing rates. However, management's letter to the Director Munitions Production (Navy) on February 01, 2023 reflected price variation claim payable after successful delivery of 03 x tugs for amounting to Rs 239.433 million. The variation claim of Rs 239.433 million was lying outstanding.

Audit is of the view that non-collection of price variation claim reflected weak follow up of recoveries.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management intimated that the price variation claim was under process. DAC directed the management to pursue the matter on priority basis.

Audit recommends implementation of the DAC directives.

5.1.4.9 *Non-encashment of performance bank guarantee – Rs 207.250 million*

Rule 4(3) of the Public Sector Companies (Corporate Governance) Rules, 2017 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that the management awarded contracts and hired various contractors and consultants for different projects. However, despite a considerable amount of time passing, more than two years, the assigned work was not completed as per the agreed timelines. The contractors and consultants failed to finish the work within the specified period. Surprisingly, the management did not take action to encash the performance bank guarantee, which amounts to Rs 207.250 million, despite this being a violation of the contract agreement. Further a payment schedule is as under:

(Rs in million)				
S. No.	Name of Contractor / Consultant	Schedule date of completion	Status of work	PBG value
1	IFS Research & Development Pvt. Ltd.	December 2019	Work in process	23.991
2	ZKB & ZCL	January 2020	Work stopped. Tasks not completed.	104.668
3	Ziauddin Ahmed & Company (Pvt) Ltd. (ZCL)	July 2020	Work stopped. Tasks not completed.	78.591
Total				207.250

Audit is of the view that the management did not promptly encash a substantial performance bank guarantee worth Rs 207.250 million from the mentioned contractors.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management confirmed that bank guarantee in respect of M/s ZCL was encashed. Other two projects were still ongoing and their BGs were intact. Based on the above justification, DAC directed to conduct fact-finding inquiry.

Audit recommends implementation of the DAC directives.

5.1.4.10 Loss due to non-recovery of late delivery charges – Rs 191.378 million

According to clause 8.1.1 of contract agreement 26th March 2021, 15% of the basic contract price (BCP) will be released through Letter of Credit against shipping documents of 1st material package (steel, aluminum & pipes), bill of lading, packing list and commercial invoice, 05% of this payment will be retained as retention money.

According to clause 27 of KS&EW's Store Department procedure, if an item is rejected after inspection, the supplier has three weeks to retrieve it. Failure to do so results in the DGM (Stores) notifying the supplier, with copies to Purchase and Account Department, about storage charges (at KS&EW rates) for uncollected rejected items.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that the management awarded a contract to M/s Swiftships LLC, USA, on March 26, 2021, for supply of a complete Kit of Material (KoM) for the construction of one Gun Boat at US \$ 8,231,315 equivalent to Rs 1,275.854 million (calculated at an exchange rate of US \$ 8,231,315 x Rs 155 per dollar). However, it was observed that during second shipment, the consignee (KS&EW) received a total of 181 steel plate materials (DH36) for the Gun Boat project, of which 163 plates were rejected by the inspection officer on April 7, 2022. Rejected materials were left unattended for over two months after rejection. The detail of the same is as under:

Date for Inspection	Description	Total quantity material	Rejected quantity material	Accepted quantity material	Remarks
07.04.2022	Shipment No.2 SB-293 (Gun Boat) steel plates	181 (steel plates)	163 (steel plates)	18 (steel plates)	Steel material (DH36) of gun boat has been tested however, steel plates do not meet the acceptance criteria.

Audit requested specific records and information through requisitions No. 43, 45 & 46 dated April 6th and 7th, 2023, which included the complete contract file with payment invoices, Material Inspection Reports for rejected steel materials related to the Gun Boat Project, the total amount released to Company for the first material package, and details of 5% retention money deduction. However, the management did not provide auditable records.

Audit is of the view that management did not impose the penalty of late delivery and non-recovery of LD & storage charges against defective materials which caused loss of Rs 191.378 million (15% of Rs 1,275,853,825).

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management intimated that the project was still ongoing and LD if any would be imposed on completion of the project. DAC directed the management to get the relevant record verified from the audit upon completion of the project.

Audit recommends implementation of the DAC directives.

5.1.4.11 *Non-recovery of advances and liquidated damages from the defaulting contractor – Rs 167.491 million*

Section 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Karachi Shipyard & Engineering Works (KS&EW), for the year 2021-22, it was observed that an agreement was executed on June 26, 2019 between KS&EW & M/s. Ziauddin Ahmed & Company (Pvt) Limited (ZCL) for project infrastructure up gradation of KS&EW, Package-I, repair / replacement of work shop steel valuing Rs 785.910 million. The completion time of the work was twelve months i.e. July 07, 2020. However, the work was not completed and the contractor defaulted. It was further observed that the management had already granted an advance amounting to Rs 167.491 million in June, 2019, which was not recovered / adjusted.

Audit is of the view that non-recovery of liquidated damages and adjustment of amount reflected inaction and resulted into compromised intended objectives of the project.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management apprised that relevant documents regarding recovered amount was provided to the audit for verification. Audit confirmed that an amount of Rs 36.148 million was outstanding. DAC directed to reduce the amount of para accordingly and to get the remaining amount verified by the audit on priority basis.

Audit recommends implementation of the DAC directives.

5.1.4.12 *Irregular award of ERP work & non-completion within specified period - Rs 152.332 million*

Clause 5.1 of contract agreement dated September 07, 2018, the Basic Contract Price (BCP) is US\$ 1,689,546 for the provision of software, implementation and Service Level Agreement. Further, clause 16.1 failure to deliver software / consultancy services according to the provision of this contract within prescribed delivery period or non-fulfillment of any other condition given in the contract will constitute default / failure on the part of the contractor.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the fiscal year 2021-22, it was observed that the management hired M/s Industrial & Financial System (IFS) Research & Development Pvt. Limited directly to implement ERP (Enterprise Resource Planning) software at KS&EW. The project was initially approved on July 26, 2016, and the contract was signed after a delay of two years, on September 07, 2018, with a total cost of US\$ 1.689 million. The project was required to be completed by December 2019, but it has not been completed yet.

The management has already paid an amount of US\$ 528,922, and upon payment of the remaining balance of US\$ 1,160,624, an exchange loss of Rs 152.332 million will be incurred. The detail is hereunder:

Dollar conversion rate in February 2020	Rs 154.20
Dollar conversion rate in May 16, 2023	Rs 285.45
Difference in (285.45 – 154.20)	Rs 131.25
Exchange loss (1,160,624 x 131.25)	Rs 152,331,893

Audit is of the view that non-completion of works resulted into loss of exchange in conversion rate of Rs 152.332 million was held irregular and unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management confirmed that the said work would be completed up to 30th June, 2024. DAC directed the management to complete the work by 31.01.2024 and get the relevant documents verified by audit.

Audit recommends implementation of the DAC directives.

5.1.4.13 Exchange loss due to collection in previous conversion rate – Rs 125.552 million

Clause 3.1 of contract No. 1262/58 dated 20.04.2015 between KSEW and Pakistan Navy states that the payment of Foreign Exchange (FE) portion of Basic Contract Price (BCP) shall also be made in equivalent at Pak Rupees at the prevailing conversion rate on the day of release of each payment.

Clause 16.4.1 of contract No. 1262/114/DMP(Navy) dated September 06, 2018 between KSEW and Pakistan Navy stated that Milestone payment for “start of Steel Cutting” will be released to KS&EW within 30 days upon submission of these documents (i) Original invoice (in triplicates) of KS&EW for related milestone. (ii) Milestone certificate for start of steel cutting.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that the management incurred a loss of Rs 125.552 million due to a delay in collecting the Foreign Exchange portion of the Basic Contract Price, which amounted to US\$ 57.016 million and Euro 2,687,500 million. According to the contract agreement, the Basic Contract Price should have been collected in Pakistani Rupees at the prevailing exchange rate on the day of each payment release.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management apprised that the case was under process. Pak Navy has confirmed availability of funds. The payment would be released. Based on the above justification, DAC directed the management to verify the relevant record by audit.

Audit recommends implementation of the DAC directives.

5.1.4.14 Loss of income due to payment of liquidated damages – Rs 90.345 million

Clause 16.1 of contract No. 1262/91/B/DMP (Navy) states that the total amount of Liquidated Damages on account of such delay shall not exceed 10% of the basic contract price provided delay is not more than 12 months of delivery of Tug. In case delay exceeds 12 months, then purchaser reserves the right to either cancel the contract on risk and expenses of the contractor or may adopt further course of action with mutual consent of Contractor.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that the Director Munitions Production (Navy) awarded a shipbuilding construction project to KS&EW. However, an amount of Rs 90.345 million was deducted from various KS&EW invoices as liquidated damages (LD) charges due to delays attributed to KS&EW's management. The detail is hereunder;

Contract No.	Invoice No. & dated	LD Amount (Rs in million)
1262/136/DMP(Navy)/602	4650 dt. 25.11.2022	16.403
1262/91/B/DMP (Navy)	P2021120004 dated 30.03.22 (USD 0.175 million equivalent to Rs 35.757 million (@ Rs 204.56)	35.757
1262/91/B/DMP (Navy)	P2021120004 dated 27.04.2022	38.185
Total		90.345

Audit is of the view that the management sustained a loss of Rs 90.345 million as liquidated damages due to delay in construction of ships.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. DAC directed the management to carry out fact finding inquiry and submit the report for the perusal of PAO within one month before its sharing with audit.

Audit recommends implementation of the DAC directives.

5.1.4.15 Irregular procurement of services contract – Rs 85.756 million

Rule 4 of PPRA Rules, 2004, states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical. Further, Rule 20 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that the management awarded a contract to M/s. Amcrop Gasco Joint Venture (AG-JV) for mechanical and electrical services, along with related civil works for the Ship Lift & Transfer System, valued at Rs 85.756 million through an agreement on August 08, 2021. However, the management did not comply the rule and award the contract without competitive process of bidding.

Audit is of the view that the management failed to employ the standard bidding process for competitive rates.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management confirmed that for approval has been obtained and shared with audit for verification. DAC directed for verification of record.

Audit recommends implementation of the DAC directives.

5.1.4.16 Non-imposition of liquidated damages – Rs 56.714 million

According to contract agreement between KS&EW and (M/s. IFS clause 15.1 dated September 07, 2018 (Para 5 of M/s. Continental Enterprises) (Para -6 of M/s WARTSILA) and (Appendix-A of M/s. ECR Tech) stated that any delay in service3s beyond the schedule will render the vender liable for damages @ 2% per week of the subject job not exceeding 10% of basic contract price.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that the management engaged various suppliers, contractors, and consultants for different services and projects. However, despite significant delays in completing the assigned work beyond the agreed-upon timelines, the management did not enforce the liquidated damages, amounting to Rs 56.714 million. Detail is as under:

S.#	Contractor / consultant	Contract Value	Date of completion	Actual date of completion	LD (Rs in million)
1.	IFS Research & Development	USD 1.689 million (168,955/- x 280)	December 2019	Under process till 31.05.2023	47.983
2.	Continental Enterprises	Rs 41.302	26.11.2021	03.01.22 (Delay 36 days) 41,301,770 x 2% x 5 weeks	4.130
3.	Wartsila	Rs 13.628	31.03.2019 (30 days)	29.11.2020 (13.628*8%)	1.090
4.	M/s. ECR Tech.	Rs 43.874	04.05.22	25.07.22 (Delay 80 days)	3.511
Total					56.714

Audit is of the view that non-imposition of liquidated charges reflected favoritism to the defaulting companies.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management apprised that the said para involved 4x contracts, (i) IFS Research and Development (h) Continental Enterprises, (iii) M/s Wartsila and (iv) M/s Esr tech and contracts at serial (i) & (ii) are duplicate which have already addressed, contract at serial (iii) & (iv) concerned force majeure was invoked due to

Covid-19 therefore, LD was waived off. DAC directed the management for verification of the relevant record by audit.

Audit recommends implementation of the DAC directives.

5.1.4.17 Irregular award of contract to non-registered sales tax contractors – Rs 48.441 million

According to Para 2(1)(3) of Sales Tax S.R.O. No.660(I)/2007 dated June 30, 2007, “All withholding agents shall make purchases of taxable goods from a person duly registered under the Sales Tax Act, 1990. Further, Rule-42 (c) (iv) of PPRA, 2004 states that repeat orders not exceeding fifteen per cent of the original procurement provided that the procuring agencies shall specify appropriate for a vested with necessary authority to declare an emergency.

During audit of Karachi Shipyard & Engineering Works, Karachi for the year 2021-22, it was observed that the management entered into various contracts for disposal / sale of scrap material with the non-registered sales tax contractors valuing to Rs 48.441 million. These contractors were awarded the contracts on different dates as tabulated below:

S#	Contract No.	Name of contractor	Amount (Rs)
1	SBST-6/DT-938/CA-1095	M/s Sami Brothers	45,581,760
2	SBST-6/DT-929/CA-1056	M/s Ahsan Aziz	1,975,000
3	SBST-6/957-967-972 & 950	Al-Mustafa Trading & M/s Muzaffar	884,786
TOTAL			48,441,546

Keeping in view of above, the management extended undue favour by awarding the contracts for disposal of scrap items to the non-registered sales tax contractors.

Audit is of the view that the awarding of contracts to non-registered sales tax contractors Rs 48.441 million is held irregular.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. DAC directed for verification of relevant record by audit.

Audit recommends implementation of the DAC directives.

5.1.4.18 Irregular procurement of spare parts and non-recovery of penalty charges for late delivery – Rs 41.301 million

Rule 04 of PPRA, 2004, states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that management procured spare parts of vessel from supplier M/s Continental amounting to Rs

41.301 million on November 01, 2021 with 26-day delivery time for supply. However, procurement was made with delay of more than 65 days.

Audit is of the view that the procurement was made without competitive bidding and circumstances did not warrant for direct contracting as there was no any emergency. Resultantly, the benefit of competitive rates and fair competition was compromised.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management informed that emergency requirement was communicated to audit. DAC directed for verification of relevant record by audit.

Audit recommends implementation of the DAC directives.

5.1.4.19 Granting of un-secured advance to the contractor – Rs 39.803 million

According to Clause-60.11(a), the contractor shall be entitled to receive from the Employer Secured Advance against an indemnity bond acceptable to the Employer of such sum as the Engineer may consider proper in respect of non-perishable materials brought at the Site Works.

During audit of Karachi Shipyard & Engineering Works (KS&EW), for the year 2021-22, it was observed that the management awarded a contract of civil works to M/s ZKB & ZCL in October 2018 valuing Rs 1,046.680 million and contrary to above clause paid an amount of Rs 39.803 million as un-secured advance to the contractor.

It was also observed that neither the amount was recovered nor the management initiated the legal action against the contractor.

Audit is of the view that management made unjustified advance to the contractor.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management apprised that said work will be completed upto 30m June, 2024. DAC directed for verification of relevant record by audit. DAC further directed to streamline the procedure for further purpose.

Audit recommends implementation of the DAC directives.

5.1.4.20 Loss due to non-transferring of title of properties – Rs 31.791 million

Rule 4 (3) of the Public Sector Companies (Corporate Governance Rules) 2013 states that the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Karachi Shipyard & Engineering Works (KS&EW) Karachi for the year 2021-22, it was observed that the management did not transfer the title deed in favour of the KS&EW despite lapse of significant time. Moreover, KPT directly deduct the Annual Ground Rent (AGR) of more than 30% of the total bill payment against work. KS&EW on completion of job receive the payment after deduction of

AGR without any contract agreement. The management paid Rs 31.791 million during the year to KPT on account of AGR irregularly.

Audit is of the view that non-transferring of title of land indicates that the management failed to safeguard company's interest. Hence, the payment of Rs 31.791 million and deduction the Annual Ground Rent (AGR) from the invoice bill against work without any agreement resulting loss to the company.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. DAC directed the management to pursue the matter on priority basis.

Audit recommends implementation of the DAC directives.

5.1.4.21 Irregular award of contract of hiring of mobile cranes and fork lifters – Rs 31.629 million

Rule 4 of PPRA Rules, 2004, states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule 20 of PPRA Rules, 2004 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Karachi Shipyard & Engineering Works (KS&EW) Karachi for the year 2021-22, it was observed that the management directly selected M/s Crescent Carriers Pakistan and M/s Crescent Syndicates for hiring of mobile cranes and fork lifters on monthly rental basis. The contract was signed on November 01, 2021 for a period of six months (extendable). The contractors submitted to following quotations:

S #	Equipment Name	Monthly Rental charges (Rs)
1	80 Ton mobile cranes	840,000
2	40 Ton mobile cranes	440,000
3	20 Ton mobile cranes	250,000
4	10 Ton fork lifter	290,000
5	05 Ton fork lifter	200,000
Total		2,020,000

It was further observed that:

1. There was a lack of a docking plan for SLTS awarding of the contract to M/s. crescent syndicate for hiring an 80-ton hydraulic mobile crane.
2. The GM (SR) mentioned that the crane requirement was initiated by SLTS, with limited knowledge within ship repair (SR) regarding its usage and the docking plan.

3. Despite KSEW's own cranes, SLTS currently lacked crane facilities.

Audit is of the view that awarding of contracts without competitive bidding and other requisites were in violation of Public Procurement Rules. Thus, payment of Rs 31.629 million was held irregular and unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management informed that in order to fulfill/complete the work, there was an extreme emergency duly approved by the Managing Director for hiring of mobile cranes and fork lifters. DAC directed the management to get the relevant record verified by Audit and adopt remedial measures in future.

Audit recommends implementation of the DAC directives.

5.1.4.22 Provision for doubtful trade debts – Rs 31.312 million

Section 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Karachi Shipyard & Engineering Works (KS&EW), for the year 2021-22, it was observed that management created a provision for doubtful debts (Account No. 391) amounting to Rs 31.312 million as on 30.06.2022.

Audit is of the view that due to non-initiating timely action for recovery, provision for doubtful advances was made. This reflected slackness of management.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management apprised that International Financial Reporting Standard-09 (IFRS-09) for the preparation of financial statements was applied as on 30th June, 2022 and accordingly recorded a provisional. Expected credit loss (ECL) amounting to Rs 31.312 million. The management further intimated that due to prompt realization of outstanding debts, substantial amount received in subsequent period resulting in to the reduction in ECL provision to Rs 21.02 million till to date. DAC directed the management to get the whole amount verified by the audit.

Audit recommends implementation of the DAC directives.

5.1.4.23 Irregular award of consultancy work – Rs 25.983 million

Rule 04 of PPRA, 2004, states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule 20 of PPRA, 2004 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that the management directly selected a foreign consultant, M/s Inros Lackner, for consultancy services related to the rehabilitation of Dry Docks 1 & 2. The consultant provided a quotation for reviewing the design and engineering services of the Dry Dock at a cost of Rs 25.983 million. The Managing Director approved this on November 30, 2017, and the services began on June 13, 2018. The management did not follow the proper procurement procedure.

Audit is of the view that awarding contracts without inviting a competitive tender process is irregular and unjustified. This matter needs to be clarified with supporting documents.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. DAC directed the management to submit revised reply and place the case before fora and to obtain the ex-post facto approval by the relevant authority and get the same verified by the audit.

Audit recommends implementation of the DAC directives.

5.1.4.24 Award of consultancy work in excess of PC-1 – Rs 24.720 million

According to revised PC-1 dated 03.11.2020 approved and proposed consultancy work capital cost in revised PC-1 was given @ 2.5% of Rs 7,017.724 million, which is Rs 175.28 million.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that the management awarded three (03) contracts for services and supervision of works to M/s. NESPAK amounting to Rs 200.00 million without calling tenders as required under the rules. The excess amount of consultancy work of Rs 24.720 million is a violation of aforesaid rule. The agreement of this work was executed in December 2021. The contract work and price are as under:

(Rs in million)			
Description of services	Amount as per PC-1	Actual contract amount	Payment of excess amount
Consultancy @ 2.5%	175.280	200.000	24.720

Audit is of the view that the excess amount of consultancy work from the approved PC-I was held irregular and unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management apprised that approval granted by Ministry was provided to audit. DAC directed the management to get the record verified by audit.

Audit recommends implementation of the DAC directives.

5.1.4.25 Irregular cash withdrawal instead of cross cheques – Rs 22.752 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that the management withdrew an amount of Rs 22.752 million in cash from NBP (PN Dockyard branch Karachi Account No. 3075346718) over a span of 6 months instead of cross cheques.

Audit is of the view that payments should have been made using cross cheques and the cash was withdrawn without any justification.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management intimated that tax has been deposited into revenue department and relevant treasury receipts were shared with Audit for verification. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

5.1.4.26 *Loss due to payment of escalation to the contractor for barrage project – Rs 20.370 million*

As per clause 7.1 of contract agreement dated June 2021, the total contractual cost is Rs 13,221,000/- however, the activities and value of work conducted from activity (1 to 4) is being projected for performance in nine months w.e.f. June 2021 to February 2021. Clause 7.2. Amount payable to contractor may vary i-a-w. the actual duration of performance on same rates. 7.3. 100% payment will be paid on pro-rata basis i.e. amount of work being performed according to contracted work. 7.4. The invoice(s) submitted should be verified by the employer site representative.

During audit of Karachi Shipyard & Engineering Works (KS&EW) Karachi for the year 2021-22, it was observed that an agreement was signed between KS&EW and M/s Bahria Dredging Company limited for “services of operations / handling of tug boat, caisson and bund wall works at SB site for Sukkur barrage project valuing Rs 13.221 million with the nine months’ completion time from June 2021 to February 2022. The subsidiary ledger mentioned the payment to M/s. Bahria dredging company was made a sum of Rs 33.591 million during the whole year 2021-22. Further, the management paid escalation charges Rs 20.370 million to the contractor.

Audit is of the view that the management extended undue favour to the contractor and allowed escalation to M/s Bahria dredging company limited amounting to Rs 20.370 million i.e., 40% escalation than the original contract amount of Rs 13.221 million. Hence, the payment of escalation is considered loss to the company.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management apprised that the relevant record was provided to audit for verification. DAC directed for verification of relevant record by audit.

Audit recommends implementation of the DAC directives.

5.1.4.27 *Loss due to unauthorized trade debts write off – Rs 16.224 million*

Rule 7 of Public Sector Companies (Corporate Governance Rules), 2017 stipulates that the Board shall establish appropriate arrangements to ensure it has access to all relevant information necessary to enable it to carry out its role effectively. Significant issues shall be placed before the Board for its information and for corporate decision-making process. Significant issues shall include failure to recover material amounts of load, advances and deposits made by the public Sector Company, including trade debts and inter-corporate finances.

During audit of Karachi Shipyard & Engineering Works (KS&EW), for the year 2021-22, it was observed that an amount of Rs16.224 million was outstanding against customers for last few years which the management had written off from the books of accounts. It was further observed that the matter was not intimated to the Board for authorization.

Audit is of the view that the amount could not be recovered due to weak internal controls and company sustained loss of Rs 16.224 million due to write off.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management apprised that as per recommendations of the inquiry committee, action have been taken. LD charges have also been regularized. Based on the above justification. DAC directed for verification of relevant record by audit.

Audit recommends implementation of the DAC directives.

5.1.4.28 *Award of work without competitive bidding – Rs 16.037 million*

Rule 4 of PPRA 2004, states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule 20 of PPRA, 2004 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that the management awarded a contract to M/s Orion Maritime Pvt. Limited on April 12, 2022 for the washing, grit blasting, sweeping, and painting work of PN FD-III without competitive bidding at Rs 14.192 million, excluding a 13% SRB Tax of Rs 1.845 million, amounting to Rs 16.037 million as stated in the minutes of approval. It was further observed that there was delay of 03 months from December 2021 to March 2022 in awarding the work, which was ultimately completed in May 2022.

Audit is of the view that award of work without competitive bidding reflected provision to the contractors.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management intimated that the client (Pak Navy) has

reduced the time frame from 180 to 120 days for completion of work therefore, the emergency requirement was emerged and relevant document have been provided to audit for verification. DAC directed the management to get the record re-verified by the audit.

Audit recommends implementation of the DAC directives.

5.1.4.29 Award of contract of dredging without tender – Rs 13.221 million

Rule 4 of PPRA, 2004 states that the procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical. Further, Rule 20 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Karachi Shipyard & Engineering Works (KS&EW) Karachi for the year 2021-22, it was observed that the management entered into contract agreement with M/s Bahria dredging company limited (BDCL) for “services of operations / handling of tug boat, caisson and bunder wall works at SB site for Sukkur barrage project without open tendering process. The contract agreement valuing Rs 13.221 million for period of nine months w.e.f. June 2021 to February 2022. The management obtained quotation on April 19, 2021 from M/s Bahria dredging for the services of work. In response, BDCL submitted quotation without original letter head and mentioning the date. Similarly, contract was awarded to after issuing the quotation period of (more than one month) i.e., on June 2021. However, it did not justify the emergency. The management had sufficient time period to obtain the open competitive bid instead of negotiated tendering. In addition, no documentary evidence showing employer (KS&EW) about their working schedule and completion thereon.

Audit is of the view that the management extended undue favour to the contractor by awarding amounting to Rs 13.221 million was held irregular / unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management apprised that the emergency requirement duly approved by the MD has been provided to the audit for verification. DAC directed for verification of relevant record by audit.

Audit recommends implementation of the DAC directives.

5.1.4.30 Un-justified award of work to the contractors on negotiated tendering – Rs 13.023 million

Rule 4 of PPRA Rules, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule 20 of PPRA Rules, 2004 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that contracts were awarded to following companies for various works amounting to Rs 13.023 million without competitive bidding:

S. #	Contractor's Name	Nature of works	Works awarded on	Contracts (Rs in million)
1.	M/s. ESA Engineers	For arrangement of local labor services for OEM assistance etc.	18.11.21	7.853
2.	M/s. Logic Unit	For uplift of offices, conference rooms comprising of paint etc.	20.10.21	5.170
Total				13.023

It was further observed that these works were awarded with a delay of more than 2 months and the work was also completed in more than 2 months against stipulated 18-days' deadline.

Audit is of the view that award of work without competitive bidding and non-imposition of LD against significant delay reflected favoritism to the contractors.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The Management clarified that an immediate docking of ship was requested by the client as the seal of ASD Thruster was broken and oil was being continuously leaking OEM also recommended for urgent docking of the vessel, therefore, extreme emergency was involved in the matter. The management also intimated that due to emergent visit of Chinese team, emergency was created to complete the work and documentary proof was provided to the audit for verification. DAC directed for verification of relevant record by audit.

Audit recommends implementation of the DAC directives.

5.1.4.31 Provision for loss on incomplete jobs – Rs 5.937 million

Rule 4(3) of the Public Sector Companies (Corporate Governance) Rules, 2017 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance. His responsibilities include implementation of strategies and policies approved by the Board,

making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that there was a provision for a loss on incomplete jobs amounting to Rs 5.937 million in the general ledger (under code 392) as of June 30, 2022. The audit requested Schedules of Accounts from the management through requisition No. 01 dated March 22, 2023, but despite four reminders, no records were provided.

Audit is of the view that these jobs should have been completed within the specified timeframe as non-compliance in time may entail liquidated damage charges.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management intimated that an amount of Rs 3.845 million had been got verified from the audit. DAC directed to get the remaining amount of Rs 2.092 million verified from the audit.

Audit recommends implementation of the DAC directives.

5.1.4.32 Irregular promotion of MTOs to Assistant Manager(s) – Rs 5.759 million

As per KSEW Service Rules for employees 2019: 1. Officers in technical cadre grade - ii 1.2. Assistant Manager (technical) including Assistant Manager drawing testing and Assistant Programmer and programmer shall be in this grade. Minimum of 50% of posts to be filled by direct recruitment of persons with BE or MSc or relevant equivalent qualification.

1.2.1. Minimum 20% to be filled-in by promotion of selected KS&EW employees with 3 (three) years diploma or equivalent qualification (B.Sc. in Mathematics, Physics, Chemistry or equivalent) and having not less than 6 (six) years' experience after diploma or equivalent qualification. The avenues for selection shall be all major business units of KS&EW.

2. Officers in non-technical cadre 2.1. Grade-i (a) Assistant Manager minimum 50% by promotion of selected persons from the grade of Senior Supervisor (SG)-cum-P.A. rest by direct recruitment (the above-mentioned percentage will not be applicable if sufficient persons do not qualify the test).

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that the selection committee promoted Management Trainee Officers (MTOs) to Assistant Managers (AMs) by granting waivers for candidates with less experience.

It was further observed that some positions were filled in different departments despite the fact that these departments had excess staff.

Audit is of the view that the promotions and appointments were made contrary to the established selection criteria. Hence, the payment of salary Rs 5.759 million was held irregular.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. DAC directed the management to obtain the approval of Board of Directors and get the same verified by the audit.

Audit recommends implementation of the DAC directives.

5.1.4.33 Irregular award of contract – Rs 5.684 million

Rule 4 of PPRA, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical. Further, Rule 20 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Karachi Shipyard & Engineering Works (KS&EW) Karachi for the year 2021-22, it was observed that the management invited tender for services of cranes dismantling of level luffing crane without press advertisement. The offers were invited through negotiated tendering by displaying on KS&EW notice board and the quotations were obtained through telephone. Two subcontractors submitted their quotations. The management assigned mentioned job to M/s. Crescent Transport Syndicate being the lowest bidder an amount of Rs 6.00 million. The management paid Rs 5.684 million to the contractor during the year 2021-22 against work job. Further, no documentary evidence of work completion certificate was found in the record file. However, the job was awarded to selective party without any urgency and benefit of competitive rates was not obtained. Thus, the process for services of cranes - dismantling of level luffing crane was made in non-transparent manners. The circumstances did not warrant invoking Rule 42(d), as there was not emergency or reasonable pretext. Resultantly, the benefit of competitive rates could not be properly ascertained due to negotiated tendering instead of advertisement.

Audit is of the view that the services of cranes-dismantling of luffing crane by the management through negotiated tendering and payment of Rs 5.684 million is held irregular and unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management apprised that work completion certificate and other relevant record has been provided to audit for verification. DAC directed for verification of relevant record by audit.

Audit recommends implementation of the DAC directives.

5.1.4.34 Award of work to a firm without any relevant experience – Rs 5.170 million

Clause 2.1 of tender documents dated November 04, 2021, objective of the tender - proposal and sealed quotations are invited for hiring of services to renovation of offices (comprising of paint / white wash / office furniture /- false ceiling / bathroom fitting / electric socket / LAN / Telecommunication equipment ACs for control environment) at KS&EW from well reputed suppliers / firms, which have the experience of subject work.

During audit of Karachi Shipyard & Engineering Works (KS&EW) for the year 2021-22, it was observed that the management entered into agreement on December 24, 2021 with M/s. Logic Unit for renovating offices, conference rooms, and related areas for Rs 5.170 million and signed the agreement on December 24, 2021. However, it was observed that this Company had no prior experience in this type of work. According to online verification, this company was categorized as a software and IT system development consultant, which didn't match the requirements stated in the tender document.

Audit is of the view that awarding the contract to an inexperienced contractor indicates non-transparent award of work without proper evaluation.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. DAC directed the management carry out fact finding inquiry and submit the report for the perusal of PAO within one month before its sharing with audit.

Audit recommends implementation of the DAC directives.

5.1.4.35 Irregular appointment of external auditors – Rs 4.484 million

According to Finance Division's O.M. No. F.3(1)-Inv.III/80-406 dated March 25, 1981, where appointments (of CA Firms) is to be made by the Federal Government, before submitting the name of the auditor(s) for approval of the Board of Directors, the institution should get the approval of Auditor General of Pakistan (AGP).

Rule 20 of PPRA, 2004 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Karachi Shipyard & Engineering Works (KS&EW), for the year 2021-22, it was observed that the management appointed a Chartered Accountant firm M/s BDO Ebrahim & Company for the audit of financial statements for the year 2020-21 & 2021-22 without competitive process and concurrence of Auditor General of Pakistan. The management paid an amount of Rs 4.484 million to the Chartered Accountant firm. During audit, file for appointment of Chartered Accountant (Audit Firm) was called for from the management, but no detailed record was produced to audit, despite four reminders.

Audit is of the view that hiring of services without competitive bidding and concurrence of AGP office is held irregular.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management apprised that the said appointment was made with the approval of the Board of Directors in 53rd Annual General Meeting. DAC directed to compliance the instruction of Auditor General Office.

Audit recommends implementation of the DAC directives.

5.1.4.36 Irregular expenditure on advertisement – Rs 4.278 million

According to Press Information Department (PID) letter No.18 (47)/2014-Advt dated October 13, 2014 some Ministries / Divisions / Department / Corporations / Autonomous and Semi-Autonomous bodies have been releasing their advertisement to newspapers through advertising agencies, by passing PID. The

competent authority i.e. DG/PIO has taken serious notices of such gross violation of GOP rules and deviation from the approved policy.

During audit of Karachi Shipyard & Engineering Works (KS&EW), for the year 2021-22, it was observed that the management spent Rs 4.278 million on advertising through private agencies, specifically M/s. HAWK Advertising & Communication and M/s National Advertisers Pvt. Limited. However, contrary to above guidelines, the advertisements were directly released to the Companies.

Audit is of the view that since prescribed procedure was not followed, the payment of Rs 4.278 million was held irregular and unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. The management clarified that being a self-resourced SECP approved company; therefore, the guidelines for advertisement through RID are not applicable on KS & EVV. DAC directed the management to submit revised reply and get the record verified from the audit.

Audit recommends implementation of the DAC directives.

5.1.4.37 Irregular promotion of manager without requisite service experience – Rs 3.538 million

As per rule 2.5 (b) of KSEW Service Rules for employees 2019, Deputy General Managers (Grade-V), Upon promotion from Manager with minimum of 06 years of service but with the recommendation of the concerned GM or when suitable persons are not available for promotion, upon direct recruitment of those possessing professional experience and qualification.

During audit of Karachi Shipyard & Engineering Works (KS&EW) Karachi for the year 2021-22, it was observed that management promoted Mr. Shoaib Ali from Manager to Deputy General Manager (Grade-V) before attaining the minimum of service experience of six (06) years as Manager. Further, the officer was promoted without observing the seniority list/merit & having deficient experience. The promotion within the officers' class was not strictly governed on merit basis in instant case i.e., seniority and length of service.

Audit is of the view that promotion without requisite criteria reflected favoritism to the individual. It reflects weak internal controls and HR management. Hence, expenditure on account of pay and allowance of Rs 3.538 million is held irregular.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. DAC directed the management to get the matter regularized by the Board and relevant record be verified by the audit. DAC further directed that such practice may not be repeated again in future.

Audit recommends implementation of the DAC directives.

**5.1.4.38 Irregular promotion of Manager (Admn) without requisite service experience
– Rs 2.337 million**

As per rule 2.5 (a) of KS&EW Service Rules for employees 2019, Manager - selected (grade-v) by promotion from manager having 03 years of service. Further, (3.2) No Employee will have a claim to be promoted to any particular post by virtue of seniority; Promotion shall only be made in accordance with the guidelines for promotion as per Annexure A. (3.3). The term ‘merit’, wherever prescribed in the criteria for promotion, includes professional (technical) qualification, efficiency, experience, previous record of service and general behavior.

During audit of Karachi Shipyard & Engineering Works (KS&EW) Karachi for the year 2021-22, it was observed that the management promoted Lt. Cdr. (retired) Saeed Ashraf from grade-IV to grade-V before attaining the service experience of three (03) years as required for promotion to next grade. Further, the incumbent got accelerated promotion despite having deficient experience. The promotion within the officers’ class was not strictly governed on merit basis in instant case i.e. seniority and length of service.

Audit is of the view that promotion without meeting criteria reflected favoritism to the individual. It reflects weak internal controls and HR management. Hence, expenditure on account of pay and allowance Rs 2.337 million is held irregular.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 20, 2023. DAC directed the management to get the relaxation and the matter be regularized from the Board of Directors during next Board Meeting.

Audit recommends implementation of the DAC directives.

5.2 Pakistan Ordnance Factories (POFs)

5.2.1 Introduction

POFs Board, Wah Cantt was established under the provisions of POFs Board Ordinance, 1961. POFs are governed by the Board of Directors, chaired by serving Army personnel.

POF's Board consists of six members including the Chairman. Other members are Financial Advisor Ordnance Factories (FAOF), Director Industrial & Commercial Relations (DICR) and Member Production Co-ordination (MPC), Joint.

The objective of POFs is to meet the Arms and Ammunition requirements of Pakistan Armed Forces during peace and war.

POFs main source of funds is regular budget from Ministry of Defence Production under grant. In addition to this, POFs also earn a small portion of revenue from export and local sales of Arms and Ammunitions and related products. For receipts from local and export's sales, POF is operating two public accounts funds as under:

- 1 Revenue, Debt and Remittance Fund (RD&R) for Civil Sales through WIL
- 2 Special Deposit Fund (SDF), for Export Sales.

Receipts and expenditure (variance analysis) for 2022-23

(Rs in million)

Total	228	156	72		68

The compliance of the PAC directives in recent years is not satisfactory which needs immediate attention of the PAO.

5.2.4 Audit Paras

5.2.4.1 Loss due to sale of electricity at self-generation cost/rates - Rs 232.675 million and non-recovery of WAPDA bills amount from consumers - Rs 1,488.434 million

Rule 10 of GFR provides that every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public moneys as a person of ordinary prudence would exercise in respect of expenditure of his own money. Further rule-26 of GFR provides that it is the primary responsibility of the departmental authorities to see that all revenues or debts due to governments which have to be brought to account are correctly and promptly assessed, realized and credited to the public account.

During audit of POFs Director Services for the years 2019-20 to 2021-22, it was observed that the management generated electricity through own Power House to meet the electricity requirement POFs, allied departments, private companies and residential areas of Wah Cantt. The self-generated electricity was sufficient to meet almost 95% requirement of POFs. However, to cater for the electricity need of other private industries, colonies/houses, the management purchased electricity from WAPDA. During this period, total available electricity was 404,994,570 units (Self-generated 304,189,521 units + purchased from WAPDA 100,805,094 units) out of which 377,016,238 units were consumed (i.e. POF 289,832,387 units + private area 87,183,851 units) while the rest units were declared as line losses.

Audit holds that the POF's own production was sufficient to meet its requirement. Thus, units provided to private users had to be charged on WAPDA rate. POFs charged WAPDA rate from private colonies/residents but private companies were provided electricity at self-generated rates which resulted into loss of Rs 232.675 million (Annex-34). Audit, further observed that management procured 100,805,049 units from WAPDA valuing Rs 2,866.401 million against which POFs recovered only Rs 1,377.967 million from the private colonies and commercial areas for utilization of 58,421,465 units. Thus the POFs sustained further loss of Rs 1,488.434 million.

Audit is of the view that electricity provided to private industries, be charged at WAPDA rates to avoid loss.

The matter was reported to the management on 15.08.2023, the management in its reply dated 15.12.2023 stated that the synchronizations of gas Gen sets with IESCO is a technical requirement to meet the abrupt requirements of factories and also to safe guard the gen sets during faults in the network.

The issue was discussed in DAC meeting held on January 02, 2024 wherein the Committee directed the management to get the relevant documents verified from the Audit. DAC further directed the management to streamline the procedure, work out the amount in consultation with Audit and due payment (WAPDA Rate) be obtained from the subsidiaries/consumers.

Audit recommends compliance of DAC directives.

Para-2 (Dir. Services – 2019-22)

5.2.4.2 Loss due to non-reporting / billing of excess units consumed - Rs 693.249 million

Rule-26 of GFR provides that it is the primary responsibility of the departmental authorities to see that all revenues or debts due to governments which have to be brought to account are correctly and promptly assessed, realized and credited to the public account.

During audit of POFs Director Services for the years 2019-20 to 2021-22, it was observed that POF Electrical Department (ED) submitted quarterly consumption report of electricity vs total available KWH/units (self-generation + Import from WAPDA) to CMA. The said reports revealed that the electrical department reported wrong figures of line losses by considering two percent (2%) of available units as allowable limit only. While, other surplus consumed units worked out after adjustment of actual consumption in different factories/departments was not considered as loss rather the same were adjusted against Estate Area. The record revealed that the actual loss on account of surplus units consumed was Rs 693.249 million against which the ED department reported loss of Rs 201.13 million. Thus, loss of Rs 492.12 million remained un-reported. The loss was due to utilization of electricity without installation of meters. Detail of actual loss sustained by the POF and reported is given as under:

Year	Reported million units consumed in Estate Area	Actual million units consumed in Estate Area	Loss (million units)	Loss on account of electricity reported to CMA (million units)	Actual Loss Million units	Average Composite Unit Rate (Self + WAPDA)	Loss Amount (Rs in million)
2019-20	53.181	47.164	6.017	2.582	8.599	22.180	190.726
2020-21	48.778	40.857	7.921	2.778	10.699	23.295	249.233
2021-22	57.757	47.383	6.374	2.945	9.319	27.18	253.290
Total	155.716	135.404	20.312	8.305	28.617	24.218	693.249

Audit is of the view that the concerned department concealed actual loss and only reported loss to the extent of allowable limit. Thus, due to consumption of extra units, the POF sustained loss of Rs 492.12 million.

The matter was reported to the management on 15.08.2023. The management in its reply dated 15.12.2023 was of the point that loss (units) was actual units consumed by official buildings/ barracks/flood lights of Golf clubs & Oval stadium/pumps/tube wells/filtration plants.

Plea of the management is merely a statement. The management was required to install meter at each location to arrive at loss amount.

The issue was also discussed in DAC meeting held on January 02, 2024 wherein the Committee directed the management to install meter at all locations, streamline the accounting procedures and get the relevant record verified from Audit.

Audit recommends to implement the recommendations of the DAC. Besides, investigate the reasons of non-reporting of actual losses, their reflection in Annual Accounts and write off from competent authority at Ministry level besides fixing responsibility and corrective measures be taken.

Para-4 (Dir. Services – 2019-22)

5.2.4.3 Non-recovery against export sales – Rs 84.44 million

According to Rule-26 of GFR “it is the primary responsibility of the departmental authorities to see that all revenues or debts due to governments which have to be brought to account are correctly and promptly assessed, realized and credited to the public account”.

During audit of POF Export Division for the years 2020-21 & 2021-22, it was observed that balance of Rs 84.442 million was lying outstanding on account of export sale proceeds against different parties since long.

Audit is of the view that the management failed to safeguard the entity’s interest to recover the long outstanding amount due against different export orders since long. Thus, non-recovery of Rs 84.44 million led to loss to the POF on this account.

The matter was reported to the management on August 26, 2023; the management in its reply dated 15.12.2023 agreed with Audit and stated that efforts were being made for the recovery of outstanding amount.

The issue was discussed in DAC meeting held on January 02, 2024 wherein the Committee directed the management to pursue the recovery.

Audit recommends compliance of DAC directives.

Para- 4 (Export Div. – 2020-22)

5.2.4.4 Loss due to less charging of rent by Wah Engineering College - Rs 55.651 million and non-deposit of government share into treasury - Rs 11.375 million

According to Policy guidelines on use of A-I land issued vide Ministry of Defense Production Division letter No. F-2/5/D-12/ML&C/99 dated 2nd April, 2008; the rent shall be charged in the light of 1980 Policy Guidelines i.e. @ 6% per annum of the existing revenue rate of the said land, notwithstanding the tenancy/rent agreements of the military authorities with users. 25% of the calculated rent will be deposited into Government treasury and 75% balance will be utilized by the respective Formation/establishment as per policy to be laid down by the respective Services Chief.

During audit of POF Institute of Technology (POFIT) for the years 2016-17 to 2021-22, it was observed that the management entered into an agreement with POF Welfare Trust dated 01.09.2004 for construction, establishment, running and maintaining an Engineering College with in the premises of

POFIT Wah Cantt. Accordingly, management rented out their buildings having covered area of 54,591 Sft. for a period of 33 years at the rate of Rs 6.50 per Sft. with 6% annual increase. The management also leased out its new building for Civil Lab measuring 11,523 Sft. at annual rent Rs 12.33 per Sft. with 6% increase annually w.e.f July, 2021.

However, it was observed that the management did not calculate the rent according to the policy guidelines on use of A-I land issued by the Ministry of Defence Production vide letter referred above which states that the rent shall be charged @ 6% per annum of the existing revenue rate of the said land. Audit observed that the rates being charged from the client was/is very low as compared to DC rates which caused loss of Rs 55.651 million to the formation.

Further, during the period from 2016-17 to 2021-22 rental charges of Rs 45.499 million were received by the POFIT but the management failed to deposit the government share @ 25% amounting to Rs 11.375 million of the rental charges into government treasury.

The matter was reported to the management on September 26, 2023; the management in its reply dated 15.12.2023 stated that Wah Engineering College (WEC) was working under the umbrella of POF Welfare Trust i.e. a Non-Profitable.

The issue was discussed in DAC meeting held on January 02, 2024 wherein the Committee directed the management to follow the A-1 land policy in letter & spirit and get the documents verified from Audit.

Audit recommends compliance of DAC directives.

Para-2 & 3 (POFIT – 2016-22)

5.2.4.5 Loss due to non-recovery of risk purchase cost from the defaulting firm – Rs 22.002 million

As per Clause - 4.3 of Purchase Manual of POFs and Clause 6.4 of Tender Enquiry, in case of failure of supplier to supply the store within original or extended delivery period, the un-supplied store will be purchased from elsewhere at the risk and cost of the supplier.

During audit of POFs SCM for the years 2018-19 to 2021-22 it was observed that the management awarded contract for procurement of four items of Ferrous Material to a firm with delivery period up to 31.12.2018 or earlier. The firm could not supply the said store even after final notice. The management took the action of risk and cost against the said defaulter firm and procured the requisite store from another firm at a higher price. After forfeiture of CDR, Rs 22.002 million were still recoverable from first contractor.

Audit is of the view that due to non-recovery of risk & cost amount from the defaulting firm, the formation was likely to sustain loss on this account.

The matter was reported to the management on 11.09.2023; the management in its reply dated 15.12.2023 was agreed with the facts highlighted by Audit and stated that case had been referred to the Legal Department and was under process.

The issue was discussed in DAC meeting held on January 02, 2024 wherein the Committee directed the management to pursue the case vigorously in the Court of Law.

Audit recommends compliance of DAC directives.

Para-8 (SCM – 2017-22)

5.2.4.6 Loss due to procurement of store at higher rates – Rs 18.049 million

As per Rules – 4 of the Public Procurement Rules, 2004 procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical. Rule 8 of PPRA, 2004 states that all procuring agencies shall devise a mechanism for planning in detail for all proposed procurement to determining the requirement of the procuring agency.

During audit of POF SCM for the years 2017-18 to 2021-22, it was observed that the management did not devised a plan / mechanism for all proposed procurement by determining its annual requirement. Due to non-planning/ determining annual requirement, POF purchased store at higher rates by floating subsequent contracts and sustained a loss of Rs 18.049 million.

Audit is of the view that the management was required to assess its annual requirement at year start and accordingly purchase the store by adopting proper purchase procedure through open tendering but in this specific case, the purchases were made in piece meal which caused loss to the formation. Further store was of routine nature for which sufficient funds were available but the management did not devise/plan a mechanism for all proposed procurement by determining its annual requirement under rule 4 & 8 of PPRA, due to purchase of store in piecemeal at higher rate, the POF sustained a loss of Rs 18.049 million.

The matter was reported to the management on 11.09.2023; the management in its reply dated 15.12.2023 stated that due to fluctuations in production targets/timelines, supplementary indents against the demand of different factories have to be raised. Purchase department is bound to materialize these supplementary demands as and when received.

The issue was also discussed in DAC meeting held on January 02, 2024 wherein the Committee directed the management to conduct a Fact Finding and submit its report for the perusal of PAO through administrative wing of MoDP within one month before sharing with the audit.

Audit recommends compliance of DAC directives.

Para-4 (SCM – 2017-22)

5.2.4.7 Loss due to theft of store (copper) - Rs 4.132 million

As per rule-23 of GFR, “Every Government officer should realize fully and clearly that he would be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence”.

During the Audit of a POFs Factory for the year 2019-20 to 2023, it was observed that a case of theft of copper occurred in March, 2022. As per record a Govt. vehicle driven by an employee was searched

at main gate of the factory and found that the vehicle was carrying three bundles of copper (68 kg). The theft attempt was made by the driver with the help of another employee. Both officials were suspended on 09.03.2022. The copper was procured from abroad during 1982-1987. The store was not entered in ledger/bin card even not taken on charge by the factory management.

A fact-finding inquiry was conducted which proved that the copper was placed in 96 x Packed wooden boxes out of which 56 x were found empty and probable net weight of missing material was 2,262.13 kg the value of which comes to Rs 4.132 million (approx.).

The Fact finding Inquiry Committee recommended a court of inquiry. The Court of inquiry committee mentioned that 35 x wooden boxes with 43.5 kg each, were found missing from the building and calculated that they had stolen 1,522.5 kg copper amounting to Rs 2.709 million. The findings of the Inquiry Committee were contrary to the findings of Fact Finding Committee who pointed out 56 missing wooden boxes with 2262.13 kg. On 09, March, 2023 Chairman, POF Board directed that criminal proceedings and disciplinary action be initiated against besides recovery of Rs 2.709 million from both the culprits.

Audit is of the view that the theft of the precious store was a serious incident and raised concerns about the security of the organization's assets and effectiveness of internal controls.

The irregularity was reported to the management on November 22, 2023. The management in its reply dated December 15, 2023 stated that recovery was under process and would be affected in due course of time.

The issue was discussed in DAC meeting held on January 02, 2024 wherein the Committee directed the management to complete the process immediately and get the relevant documents verified from the Audit.

Audit recommends compliance of DAC directives.

Para-3 (Sanjwal Fy-2019-23)

5.2.4.8 Loss due to in-efficient procurement of store – Rs 3.159 million

As per Rules – 4 of the Public Procurement Rules, 2004 procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of POF SCM for the years 2017-18 to 2021-22, it was observed that the management called tender for purchase of 8511 kg. steel tool vide dated 29.3.2019. As a result of open tendering M/s People Steel stood lowest with Rs 500 per Kg. accordingly, contract dated 7.11.2019 was awarded to the firm at his quoted rate.

In the meantime, the user department raised another Tender Enquiry dated 1.7.2019 for procurement of 15,000 Kg same Steel Tool. This time again M/s People Steel submitted its bid offering Rs 680 per Kg. The contract dated 7.11.2019 was awarded to the firm at his quoted rate.

Audit is of the view that rate of Rs 500 per Kg offered by the firm against TE dated 29.3.2019 was lowest as compare to rate of Rs 680 per Kg offered against TE dated 1.7.2019. The management was

required to include the quantity of later indent in 1st tender but two separate contracts were issued on same date due to which POF sustained loss of Rs 3.159 million (15,000 Kg x Rs 680 per Kg – Rs 500 = Rs 2,700,000 + GST Rs 459,000).

The matter was reported to the management on 11.09.2023; the management in its reply dated 15.12.2023 stated that procurements were made against two separate indents.

The issue was discussed in DAC meeting held on January 02, 2024 wherein the Committee directed the management to get the relevant record verified from Audit authorities within 3 x days but no record was provided for verification till finalization of report.

Audit recommends compliance of DAC directives.

Para-3 (SCM – 2017-22)

5.3 Pakistan Ordnance Clothing Factory

5.3.1 Introduction

Pakistan Ordnance Clothing Factory was established under the POFs Board Ordinance 1961 to meet the clothing requirements of Pakistan Armed Forces.

Receipts and expenditure (variance analysis) for the year 2022-23

(Rs in million)

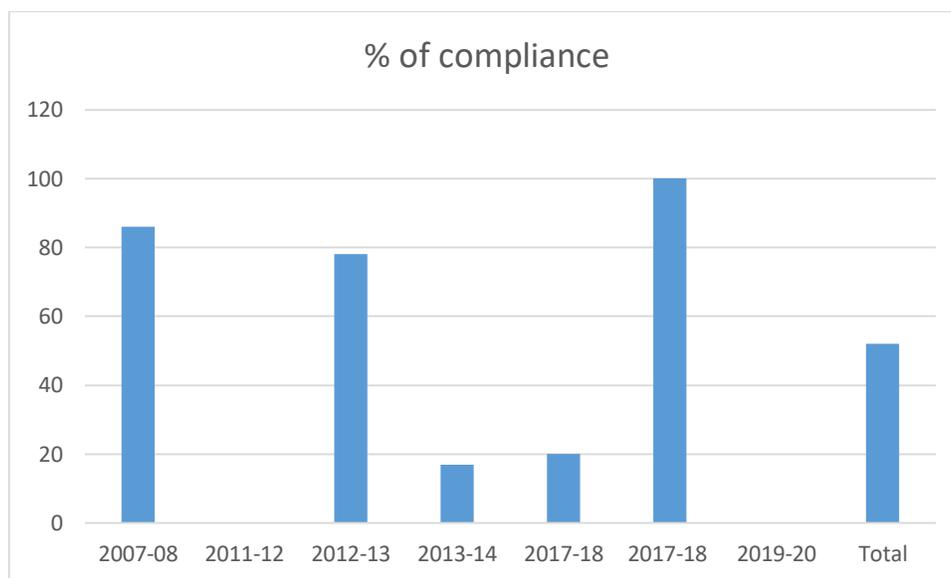

Sr. #	Head of Account	Budget Allocation	Expenditure	Excess/Less
1	Pay & Allowances	140.00	152.128	(12.28)
2	TPT & Misc. (Normal)	5.30	5.03	0.27
Revenue Works				
3	Civil Works	3.14	3.14	0
Common use items				
4	Indigenous Purchases	70.03	70.03	0
5	Salaries of casual manpower	194.00	18.21	175.79
6	Overtime	4.00	0.03	3.97
7	Store	115.73	85.72	30.01
8	Assistance package	6.08	6.08	0
	Total	538.28	340.52	197.76

5.3.2 Comments on Audited Accounts

5.3.2.1 Comments on audited accounts are included in the Commercial Appendix to Appropriation Accounts of the Defence Services for the year 2022-23.

5.3.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Outstanding Paras	% of compliance
2007-08	07	06	01	2.2.6	86
2011-12	02	0	02	5.3.2.1, 5.3.3	0
2012-13 (POCF CADS)	09	07	02	2.2.2, 2.2.5	78
2013-14	06	01	05	5.3.1, 5.3.2 & 5.3.2.1, 5.3.3,5.3.4.1,5.3.4.2	17
2017-18	05	01	04	7.3.1, 7.3.2, 7.3.3, 7.3.4.2	20
2017-18 (CADS)	08	08	00	-	100
2019-20	07	0	07	4.3.1, 4.3.2.1, 4.3.3, 4.3.4.1, 4.3.4.2, 4.3.4.3, 4.3.4.4,	0
Total	44	23	21		52

The overall compliance of PAC directives was not satisfactory and needs improvement.

5.3.4 Audit Paras

5.3.4.1 Un-justified execution of supply contract - Rs 283.296 million

According to Clause-III(1) of Memorandum of Association of M/s Wah Industries Ltd. (WIL) Wah Cantt, the objects for which the Company was established are "to enter into an agreement with Pakistan Ordnance Factories, Wah Cantonment, Pakistan, to secure appointments of the Company as sole selling

agents for the period and upon the terms and conditions as may be agreed upon and for sale and distribution of the products, which are presently in production or are capable of production by the Pakistan Ordnance Factories in Pakistan or elsewhere”.

During audit of Pakistan Ordnance Clothing Factory (POCF) Wah Cantt for the years 2021-22 and 2022-23, it was observed that since 2019-20 POCF had not contributed in export earnings of POF and there was also decreasing trend in civil production/sales. WIL management received order for supply of 1,752 Nos. Bullet Proof Jackets (BPJs) from Police departments. Instead of placing the order on POCF, after getting approval of Chairman POF Board, 2,300 BPJs were procured from a private from Lahore at Rs 283.296 million.

Main objective to establish the Pakistan Ordnance Clothing Factory (POCF) was to meet the garment requirements of Pakistan Defence Forces, LEAs (Law Enforcement Agencies) and IFDs (Inter Factory Demands) during war and peace alongwith utilization of the surplus capacity for commercial and export orders. The POCF was established with government investment and was running in losses due to the reasons of non-getting of production orders from Govt. departments / organizations. POCF had ultimate production capacity and work environment with professional work force to cope with each and every garment related production order.

Audit is of the view that the management of POCF was required to make efforts for getting orders at least from the subsidiary companies of POF. While, being a subsidiary company of POF, WIL management should approach POCF management to fulfill the supply order of Bullet Proof Jackets, as the factory was established to manufacture garments related items for Defense Forces and LEAs. So, negligence on the part of POCF / WIL management resulted in failure of getting order from WIL worth Rs 283.296 million.

Matter was reported to the management on September 10, 2023; the management in its reply dated December 15, 2023 admitted the facts highlighted by Audit and stated that due to urgent requirement, the order could not be placed on POCF.

The issue was discussed in DAC meeting held on January 02, 2024 wherein the Committee directed the management to get the relevant record showing time frame demanded by the client along with other documents, verified from Audit.

Audit recommends compliance of DAC directives.

Para-10 (POCF – 2021-23)

5.4 Wah Brass Mills (Private) Limited

5.4.1 Introduction

Wah Brass Mills (Private) Limited the Company) is wholly owned subsidiary of Wah Industries Limited which was incorporated on January 26, 2012 as a private limited company under the Companies Ordinance, 1984. The registered office of the Company is situated at Quaid Avenue, Wah Cantt.

Corporate Information

The principal activity of the Company is to manufacture and sale of Brass products. The Company is currently under final stage of upgrading its existing plant and machinery and after achieving the same they will have an installed capacity 24,000 MT per annum and actual capacity 19,200 MT per annum. The Company has started its operations from August 01, 2016.

5.4.2 Comments on Audited Accounts

5.4.2.1 The annual audited accounts are required to be provided to Audit for review each year. Contrary to this, the management failed to provide audited annual accounts for the year 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts for the year 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*Annex-2*).

5.4.3 Compliance of PAC Directives

There were no pending PAC directives for compliance.

5.4.4 Audit Paras

5.4.4.1 Irregular award of work at higher rates - Rs 48.389 million

According to ruling of E-in-C Branch GHQ Rawalpindi vide letter No. 2005/22A/Ruling %age/E2 dated 05.09.2014, revised ruling percentage for building works, external services and furniture has been approved by E-in-C provisionally without Schedule-B stores 49% and with Schedule-B stores 33% for Taxila station. According to ruling of E-in-C Branch GHQ Rawalpindi vide letter No. 2005/22A/Ruling %age/DP&W/E2 dated 11.09.2015, revised ruling percentage for year 2015-16 for building works, external services and furniture has been approved by E-in-C provisionally without Schedule-B stores 2% and with Schedule-B stores (1) % for Taxila station.

During audit of Wah Brass Mill for the year 2021-22, it was noted that the management awarded civil work to M/s Architectural & Civil Engineering Related Services through four different contract agreements in 2014-15 on item based rate (MES CSR) valuing Rs 248.672 million.

Audit observed that the management awarded all four contract agreements at 85% above on MES schedule of Rate 2009 and 25% above for non-schedule items. As per above mentioned ruling the management should have awarded contract agreements at 49% above the MES schedule of rates instead of 85% resultantly management sustained loss of Rs 48.389 million.

It is pertinent to mention here that the MES schedule of rates was revised on 28.08.2014 and management awarded the contract agreement mentioned at Serial No. 2, 3 & 4 at the MES schedule of rates 2009 plus 85% premium. It is worth mentioning here that the nomenclature of items of work used in the bill of quantities of all four above-mentioned contract agreements were changed, therefore, Audit was unable to trace and verify rates from the MES Composite Schedule of Rates 2009 & 2014.

Audit is of the view that the award of work in excess of the percentage in above mentioned ruling was irregular and the management sustained a loss of Rs 48.389 million by awarding contracts agreement over and above the definite ruling. It is further added that the management was required to award contract agreements mentioned at serial No. 2, 3 & 4 at PAR rates of CSR 2014 instead of 2009 with 85% premium, which showed undue favor was extended to the contractor.

The irregularity was reported to the management on August 21, 2023. The management in its reply dated December 15, 2023 stated that the civil work was done as per requirement of OEM which was duly supervised by foreign experts. BOQ/Items rates didn't fall in the ambit of MES schedule.

The issue was discussed in DAC meeting held on January 02, 2024 wherein the Committee directed the management to get the relevant record, complete in all respect, verified from Audit within 3 x days.

Audit recommends compliance of DAC directives.

Para-22 (WBM – 2021-22)

5.4.4.2 Irregular provision of gratuity in addition to provident fund scheme - Rs 32.483 million

In accordance with Finance Division (Regulation Wing) Memo No: F.15 (8) R-84 dated October 16, 1984 “it has come to notice of this division that in number of autonomous/semi-autonomous bodies and corporation etc. under the Administrative Control of the Federal Government, where pension scheme does not exist, the payment of Gratuity is allowed in addition to Contributory Provident Fund. The payment of gratuity cannot therefore be made part of the CPF Scheme, and as such should not be paid in addition to CPF contribution”.

During audit of Wah Brass Mill (Pvt.) limited for the year 2021-22, it was observed that Wah Brass Mill (Private) Limited, a subsidiary of WIL, was established under Company Act 1984

on February, 2017. The company extended gratuity scheme to its employees in addition to payment of contributory provident fund. A provision of Rs 32.483 million was made against payment of gratuity (Rs 13.617 million as on 30.6.2021 & Rs 18.866 million as on 30.06.2022). The benefit of provision of gratuity scheme in addition to the Contributory Provident Fund was clear violation of the Finance Division's instructions, referred above, thus, held irregular.

The irregularity was reported to the management on August 21, 2023. The management in its reply dated December 15, 2023 stated that the benefit was granted with the approval of Board.

The issue was also discussed in DAC meeting held on January 02, 2024 wherein the Committee settled the proposed draft para subject to verification of the Board's approval from the Audit within 3 x days, however, no record was provided to Audit for verification till finalization of this report.

Audit recommends compliance of DAC directives.

Para-3 (WBM – 2021-22)

5.4.4.3 Irregular award of contract to 2nd lowest bidder - Rs 11.440 million

According to PPRA rules 38 A “the procuring agencies may seek unconditional discount by incorporating the same in bid solicitation documents. The bidder may offer unconditional discount in percentage of their quoted price or bids, before opening of the financial proposal. The discounted bid price shall be considered as original bid for evaluation being an integral part of the bid. No offer of discount shall be considered after these bids are opened”.

During audit of WBM for the year 2021-22 it was noted that in response to the tender inquiry dated 27.09.2021 for procurement of Diesel Generator capacity 400 KVA, three (03) firms participated out of which two were technically qualified. Accordingly, financial bids of technically qualified bidders were opened on 09.11.2021 and M/s Greves Pakistan Ltd. Islamabad offered Rs 13.030 million while, M/s Synergy Corporation Karachi offered Rs 12.666 million and stood lowest. Afterwards the firms were approached to offer maximum discount, as a result the firms reduced their prices to Rs 11.440 million and Rs 11.260 million respectively.

The record revealed that the management did not consider the lowest offer and awarded the contract to 2nd lowest vide order dated 22.12.2021. Therefore, the procurement of Rs 11.440 million was termed as irregular which resulted in loss of Rs 180,000 to the Company.

Audit is of the view that rejection of 1st lowest bid and award of contract at higher rate after negotiations was against the norms of PPRA Rules as it defeated the element of economy and transparency.

The irregularity was reported to the management on August 21, 2023. The management in its reply dated December 15, 2023 stated that the supplier offered higher rate offered foreign assembled generator set (CBU) thus, the procurement was made from the bidder.

The issue was discussed in DAC meeting held on January 02, 2024 wherein the Committee directed the management to get the relevant record verified from Audit. The Committee further directed to take decision in future by clearly spelling out the requirements in relevant documents.

Audit recommends compliance of DAC directives.

Para-8 (WBM – 2021-22)

5.4.4.4 Loss due to inordinate delay in finalization of sale agreement – Rs 3.091 million

According to Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During the audit of Wah Brass Mills for 2021-22, a tender for selling 100 Metric Ton Copper ingots attracted M/s Zurich Metal UAE and M/s Al-Qammar Alabyad UAE with initial rates of USD \$10,058 and USD \$9,760 per M. Ton respectively. Despite negotiations, both firms refused to adjust their prices, prompting management to cancel and obtain rates from previous participants, ultimately awarding the contract to M/s Zurich Metal at USD \$9,890 per M. Ton.

The audit is of the view that failure to consider the highest bid in an open tender resulted in a loss of Rs 3.091 million (i.e. Last offer USD \$ 10,058 - current offer USD \$ 9,890 = USD \$ 168 x 100 M Ton conversion rate Rs 184/ USD \$), which could have been avoided with timely management decision-making.

The irregularity was reported to the management on August 21, 2023. The management in its reply dated December 15, 2023 admitted the facts highlighted by Audit and stated that LME prices of Copper and Zinc crashed.

The issue was discussed in DAC meeting held on January 02, 2024 wherein the Committee directed the management to get the relevant record verified from Audit and review the market conditions while determining the rates in future.

Audit recommends compliance of DAC directives.

Para-13 (WBM – 2021-22)

Chapter-6

Ministry of Energy (Power Division)

Overview

The Ministry of Energy, Power Division is a Government's Federal level ministry created on August 4, 2017, after the merger of the Ministry of Petroleum and Natural Resources with the Power Division of the Ministry of Water and Power (now renamed Ministry of Water Resources), respectively. The ministry has two divisions - Petroleum and Power. The Petroleum Division is headed by the Petroleum Secretary and the Power Division is headed by the Power Secretary.

Aims & Objectives

To ensure availability and security of sustainable supply of power for economic development and strategic requirements of Pakistan, and to coordinate the development of natural resources.

Governing Laws and Policies

- Power Policy 2002
- National Policy for Power Co-Generation by Sugar Industry
- Guidelines for setting up private power projects
- Guidelines for determination of tariff for independent power producers.
- NEPRA Mechanism for Determination of Tariff for Hydro Power Projects
- National Power Policy 1994
- National Power Policy 1995
- National Power Policy 1998
- RE Policy for Development of Power Generation 2006

Audit Profile of Ministry of Energy (Power Division)

(Rs in million)

S. No.	Description	Total	Audited	Expenditure audited FY 2022-23	/Receipts audited FY 2022-23

6.1 National Engineering Services Pakistan (Pvt.) Ltd.

6.1.1 Introduction

The Company was incorporated in 1973 under the Companies Act 1913 (now Companies Ord. 1984). The Government of Pakistan owns it and is engaged in providing engineering consultancy services through its Divisional Offices at Lahore, Islamabad, Karachi, Peshawar and Quetta in Pakistan and Masqat, Oman, Riyadh, Qatar and Kabul abroad.

6.1.2 Comments on Audited Accounts

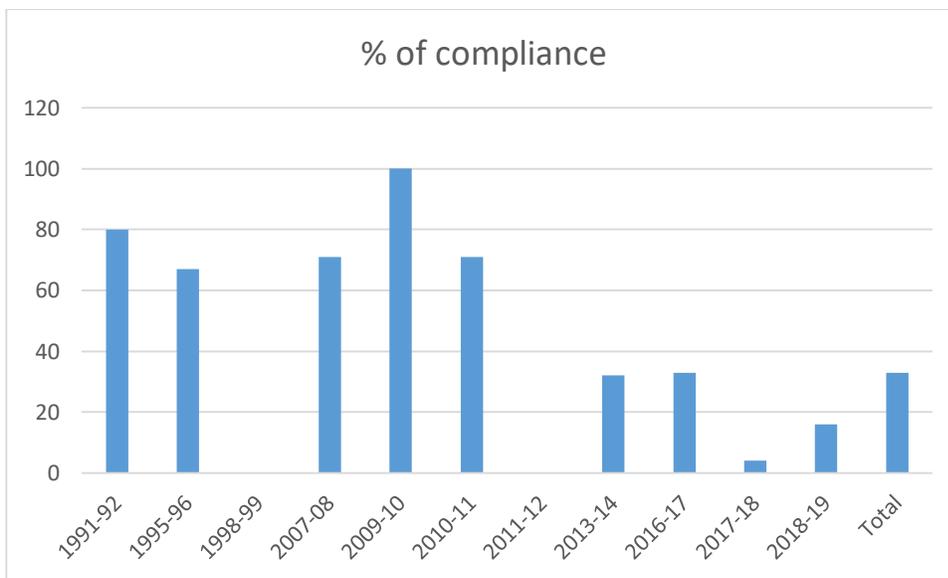

6.1.2.1 The annual audited accounts are required to be provided to Audit for review each year. Contrary to this, the management failed to provide audited annual accounts for the year 2019-20 to 2022-23 till December 31, 2023.

Audit recommends that the annual audited accounts for the years 2019-20 to 2022-23 be provided immediately and timely submission be ensured in future besides fixing responsibility for non-submission of annual audited accounts (*Annex-2*).

6.1.3 Compliance of PAC Directives

Total	162	54	108		33

Overall compliance of PAC directives was not satisfactory which needs to be improved.

6.1.4 Audit Paras

6.1.4.1 Loss due to poor performance and non-recovery of consultancy fee from subsidiary companies - Rs 5,139.516 million

According to Rule-5(5)(a) of the Public Sector Companies (Corporate Governance) Rules, 2013, the principle of probity and propriety entails that company's assets and resources are not used for private advantage and due economy is exercised so as to reduce wastage. The principle shall be adhered to, especially with respect to handling of public funds, assets, resources and confidential information by directors, executives and employees and claiming of expenses.

During audit of National Engineering Services of Pakistan (NESPAK) for the year 2022-23, it was observed that the management established three subsidiary companies in Musqat-Oman, Doha-Qatar and Riyadh-Saudi Arabia. The management was submitting bills to said companies against the work done and was bearing salary cost of NESPAK staff posted. These companies were not paying to NESPAK against the billing due to which these receivables were increasing year by year. Resultantly, the receivable from these subsidiaries had increased to Rs 4,502.971 million on June, 30, 2023. Further, audit observed that the performance of these subsidiaries was poor and all of them were generating losses which accumulated to Rs 636.545 million as on June 30, 2022.

Due to weak financial management, the performance of the subsidiaries remained poor and resulted into non-recovery of consultancy fee from these subsidiaries.

Audit is of the view that the management was required to enhance the performance of the subsidiaries and effect early recovery from these subsidiary companies.

The matter was reported to PAO and the management on October 09, 2023. The management in its reply stated that the entire matter pertaining to overseas companies including performance, receivables is currently under review by the sub-committee of BoD and Board of Directors of NESPAK.

DAC in its meeting held on January 05, 2024, recommended that the directives of Board of Directors pertaining to overseas offices should be shared with DAC and Audit.

Audit recommends compliance of DAC's directives.

Para-15 & 24 (Nespak-2022-23)

6.1.4.2 Loss due to incurring of extra expenditure on miscellaneous jobs – Rs 1,707.716 million

According to Project Control Estimates, profit @ 10% of the salary cost of the project was to be ensured.

During audit of NESPAK for the year 2022-23, it was observed that the management executed 56-jobs but did not focus to earn profit. Due to posting of unnecessary staff by management in these jobs, NESPAK sustained loss of Rs 1,707.716 million.

Due to weak HR management, the staff was posted in excess of actual requirement.

Audit is of the view that the management was required to deploy human resources keeping in view the requirements of jobs.

The matter was reported to PAO and the management on October 09, 2023. The management in its reply stated that an internal due diligence exercise is under process at organizational level to ascertain reasons for losses and avoid such instances in the future.

DAC in its meeting held on January 05, 2024 directed the management to place the matter before the appropriate forum for necessary action.

Audit recommends compliance of DAC's directives.

Para-4 (Nespak-2022-23)

6.1.4.3 Loss due to hiring of human resources without determining actual requirement - Rs 607.886 million

According to rule-5(5)(a) of the Public Sector Companies (Corporate Governance) Rules, 2013, the principle of probity and propriety entails that company's assets and resources are not used for private advantage and due economy is exercised so as to reduce wastage. The principle shall be adhered to, especially with respect to handling of public funds, assets, resources and confidential information by directors, executives and employees and claiming of expenses.

During audit of NESPAK for the year 2022-23, it was observed that the management deployed technical and non-technical human resources in excess of actual requirement of the projects which resulted into burden of 240,954 idle man hours on the company. This indicated that excessive human resources were charged to overheads which was additional financial burden and caused loss of Rs 547.665 million to the company. Further, the management posted twenty-five employees in office just from one day to maximum three months in a year. Thus, the payment of salaries to these employees valuing Rs 60.221 million was held unjustified.

Due to weak HR management, the company had to sustain loss.

Audit is of the view that the management was required to hire and post the employees on projects by determining actual requirement to avoid loss.

The matter was reported to PAO and the management on October 09, 2023. The management in its reply acknowledged idle hours in consultancy as necessary for maintaining a specialized pool of expertise and asserted that the demand of professionals having specific expertise could be generated in future on new projects. The management had been taking all necessary measures to reduce the idle hours by acquiring new projects.

DAC in its meeting held on January 05, 2024 directed the management that a policy pertaining to idle hours may be formulated and approved from the Board of Directors.

Audit recommends compliance of DAC's directives.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2018-19, and 2022-23 vide para numbers 7.1.4.23, 7.1.4.12, 7.1.4.16 and 7.1.4.38 having financial impact of Rs 395.410 million, Rs 237.813 million, Rs 53.860 and Rs 721.755 million respectively. Recurrence of same irregularity is a matter of serious concern.

Para-8 & 14 (Nespak-2022-23)

6.1.4.4 Non recovery of consultancy fee due to non-reconciliation - Rs 354.255 million

According to rule-5(5)(a) of the Public Sector Companies (Corporate Governance) Rules, 2013, the principle of probity and propriety entails that company's assets and resources are not used for private advantage and due economy is exercised so as to reduce wastage. The principle shall be adhered to, especially with respect to handling of public funds, assets, resources and confidential information by directors, executives and employees and claiming of expenses.

During audit of NESPAK for the year 2022-23, it was observed that the management provided consultancy services to M/s Rawalpindi Development Authority against the project namely Rawalpindi-Islamabad Metro Bus. The NESPAK raised invoices to client of Rs 1,138.939 million from time to time against the consultancy services out of which an amount of Rs 354.255 million was not paid by client due to non-reconciliation of billing submitted by NESPAK. The client constituted a committee for reconciliation of outstanding amount. The committee in its meeting held on January 19, 2022 reconciled that an amount of Rs 118.010 million was payable to NESPAK. Thus, management failed to recover the billing amount as well as reconciled amount from the client.

Due to weak internal controls, the management could not provide evidence for reconciliation of recovery.

Audit is of the view that the management failed to provide the relevant record to committee for reconciliation of billing amount.

The matter was reported to the management and PAO on October 09, 2023. The management in its reply stated that the delay is due to non-reconciliation with the client. However, the project management team is working diligently to resolve the issue.

DAC in its meeting held on January 05, 2024 directed the management to pursue recovery vigorously.

Audit recommends compliance of DAC's directives.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2013-14, 2015-16, 2016-17, 2017-18 and 2019-20 to 2022-23 vide Para numbers 18.1.4.14, 20.1.4.5, 20.1.4.7, 18.1.4.1, 8.13.4.7, 5.1.4.2, 6.1.4.3, 5.1.4.14 and 7.1.4.8 having financial impact of Rs. 61.290

million, Rs. 12.990 million, Rs. 574.460 million, Rs. 451.264 million, Rs. 8.238 million, Rs. 223.048 million, Rs. 550.297 million, Rs. 1,077.022 million and Rs. 260.905 million respectively. Recurrence of same irregularity is a matter of serious concern.

Para-16 (Nespak-2022-23)

6.1.4.5 Non receipt of outstanding consultancy fee from Foreign Regional Offices - Rs 149.725 million

According to rule-5(5)(a) of the Public Sector Companies (Corporate Governance) Rules, 2013, the principle of probity and propriety entails that company's assets and resources are not used for private advantage and due economy is exercised so as to reduce wastage. The principle shall be adhered to, especially with respect to handling of public funds, assets, resources and confidential information by directors, executives and employees and claiming of expenses.

During audit of NESPAK for the year 2022-23, it was observed that the Regional Offices Saudi Arabia, Afghanistan, Iran and Abu Dhabi completed various projects. All these Regional Offices except Afghanistan were closed but the outstanding amount of Rs 149.734 million was not recovered till date. An amount of Rs 118.540 million out of total recoverable amount pertained to Regional Office Afghanistan.

Due to weak internal controls, the management could not recover outstanding amount.

Audit is of the view that the management was required to take up the matter with clients for receipt of outstanding amount.

The matter was reported to the management and PAO on October 09, 2023. The management in its reply stated that the mentioned outstanding receivables pertain to overseas branch offices and are very old in nature. Thus, chances of their recovery is remote. Moreover, provision for doubtful debts has already been made in the books of accounts of NESPAK.

DAC in its meeting held on January 05, 2024 directed the management to place the matter before the appropriate forum for necessary action.

Audit recommends compliance of DAC's directives.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2016-17, 2018-19, 2020-21 and 2022-23 vide para numbers 18.1.4.2, 7.1.4.26, 6.1.4.5 and 7.1.4.3 having financial impact of Rs. 286.963 million, Rs. 53.210 million, Rs. 120.005 and Rs. 576.249 million respectively. Recurrence of same irregularity is a matter of serious concern.

Para-7 (Nespak-2022-23)

6.1.4.6 Irregular expenditure on hiring of vehicles without obtaining competitive bids - Rs 127.796 million

According to rule 12(2) of the Public Procurement Regularity Authority 2004, all procurement opportunities over three million rupees should be advertised on the authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu.

During audit of NESPAK for the year 2022-23, it was observed that the management incurred expenditure of Rs 127.796 million on account of hiring of the vehicles from 42 vendors. Hiring of vehicles was made without proper planning and by splitting the cost of hiring in order to keep cost of each hiring below the NESPAK prescribed financial limit of Rs 0.500 million to avoid tendering. Thus, the expenditure of Rs 127.796 million was considered irregular.

Due to weak procurement planning, PPRA Rules were not followed.

Audit is of the view that said services were hired on splitting basis without keeping in view the actual annual requirements in violation of procurement rules.

The matter was reported to the management and PAO on October 09, 2023. The management in its reply stated that hiring of vehicles on rental basis is practically very difficult to predict due to the nature of operations/materialization of projects in both urban and rural areas of Pakistan. Thus, the management pre-qualified vendors through quotations at competitive rates which are lower than open market rates. Moreover, the benchmark rates for hiring of vehicles were acquired through advertisement in 2019-20.

DAC in its meeting held on January 05, 2024 directed the management to advertise the requirement to obtain current market rates. The analysis of the same should be shared with audit and DAC in its next meeting for further direction.

Audit recommends compliance of DAC's directives.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2013-14, 2015-16, 2016-17, 2018-19, 2021-22 and 2022-23 vide Para numbers 18.1.4.9, 20.1.4.3, 18.1.4.5, 18.1.4.7, 18.1.4.9, 18.1.4.10, 7.1.4.10, 5.1.4.10, 7.1.4.4, 7.1.4.22, and 7.1.4.30 having financial impact of Rs 1.780 million, Rs 34.785 million, Rs. 369.377 million, Rs. 43.806 million, Rs. 9.736 million, Rs. 1.996 million, Rs. 13.710 million, Rs. 5.907 million, Rs. 8.132 million, Rs. 6.654 million and Rs. 30.070 million. Recurrence of same irregularity is a matter of serious concern.

Para-10 (Nespak-2022-23)

6.1.4.7 Non-recovery from clients due to inactive status of NESPAK in sales tax payer list - Rs 64.321 million

According to clause-35(1) of Punjab Sales Tax on Services Act 2012, every registered person (individual, Association of Persons, Company, Federal/Provincial/Local Government) shall furnish to the authority, not later than the due date, a true, correct and properly filled-up return in the form notified by the authority, indicating the tax due and paid during a tax period and such other information or particulars as may be notified by the Authority.

During audit of NESPAK for the year 2022-23, it was observed that the management provided consultancy services to two clients namely M/s National Power Parks Company and M/s Quaid-e-Azam Thermal Power Limited from 2015 to 2020. These clients withheld an amount of Rs 64.321 million from invoices of NESPAK on the plea that the Punjab Revenue Authority refused to adjust input sales tax against the payments already made to NESPAK. The matter was probed and found that the NESPAK was registered with Punjab Revenue Authority since 2012, but did not exist in Active Sales Tax Payer List of Punjab Revenue Authority due to non-filing of sales tax returns. Thus, due to non-submission of sales tax return, the NESPAK failed to recover the input sales tax against the payments.

Due to weak financial management, the company was deprived of input sales tax.

Audit is of the view that the management did not submit sales tax return in time resulting into deduction on account of sales tax.

The matter was reported to the management and PAO on October 09, 2023. The management in its reply stated that the Federal Board of Revenue (FBR) had condoned the same and the issuance of refund voucher is in process. As soon as it is completed, the amount withheld by the companies will be disbursed to NESPAK.

DAC in its meeting held on January 05, 2024 directed the management to pursue recovery vigorously.

Audit recommends compliance of DAC's directives.

Para-6 (Nespak-2022-23)

6.1.4.8 Loss due to non-recovery of consultancy fee from IDAP - Rs 36.936 million

According to clause 6.4 (b) of the contract, any amount due to the consultant shall be paid the client within 28 days in case of local currency and 56 days in case of foreign currency after consultant invoice has been delivered to the client.

During audit of NESPAK for the year 2022-23, it was observed that a consultancy agreement was signed between NESPAK and Infrastructure Development Authority of Punjab (IDAP) for construction supervision services of Lahore Knowledge Park with remuneration of Rs 36.936 million. The contract was signed on January 16, 2018 and the same had been completed since September, 2022. The management issued total fifteen number of invoices amounting to Rs

36.936 million but despite completion of all supervision work, the client failed to pay even a single invoice raised by NESPAK uptill September 2022.

Due to weak internal controls, the management could not ensure timely recovery.

Audit is of the view that no recovery even after completion of construction supervision services indicated poor financial management.

The matter was reported to the management and PAO on October 09, 2023. The management in its reply stated that an amount of Rs 15.664 million was pending in the book of accounts pertaining to the mentioned Job and efforts for recovery of the outstanding amount were underway.

DAC in its meeting held on January 05, 2024, directed the management to verify the record and to pursue the remaining amount vigorously.

Audit recommends compliance of DAC's directives.

Para-25 (Nespak-2022-23)

6.1.4.9 Loss due to inadequate consultancy services - Rs 33.805 million

According to Clause 3.1.1 of Consultancy Agreement, the consultants shall perform the services and carry out their obligations with all due diligence, efficiency and economy, in accordance with generally accepted professional techniques and practices, and shall observe sound management practices, and employ appropriate advanced technology and safe methods.

During audit of NESPAK for the year 2022-23, it was observed that the management provided consultancy services to client namely M/s Federal Government Employees Housing Authority (Bara Kahu Housing Scheme). The client raised deep concerns many times i.e. to study and purpose suitable solution, demobilization of machinery and sharing of confidential observations with contractor with the request to resolve the matter but the same was not expedited by the consultant. Thus, due to provision of inadequate/sub-standard consultancy services, the client withheld an amount of Rs 33.805 million.

Due to poor contract management, company failed to discharge its duties satisfactorily.

Audit is of the view that had the management provided consultancy services in professional manners, the NESPAK could avoid loss.

The matter was reported to the management and PAO on October 09, 2023. The management in its reply stated that the current project is still under process. Moreover, the delay in the project was due to the contractors' shortcomings which were pointed out to the client by NESPAK. The client is satisfied with the consultancy services provided by NESPAK and consultancy payments are also received on regular basis.

DAC in its meeting held on January 05, 2024 directed the management to pursue recovery vigorously.

Audit recommends compliance of DAC's directives.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2015-16, 2017-18, 2018-19, 2019-20 and 2021-22 vide para numbers 20.1.4.6, 8.13.4.10, 8.13.4.11, 7.1.4.19, 5.1.4.5 and 5.1.4.13 having financial impact of Rs. 10.712 million, Rs. 40.680 million, Rs. 4.504 million, Rs. 17.300 million, Rs. 26.956 million and Rs. 19.601 million respectively. Recurrence of same irregularity is a matter of serious concern.

Para-2 (Nespak-2022-23)

6.1.4.10 Loss due to non-revision of consultancy agreement - Rs 22.143 million

According to clause 6.6 of General Conditions of Contract, if, in the opinion of the Client, it is necessary to perform additional services during the currency of the contract for the purpose of the project, the Consultants, with the prior written authorization of the Client, shall carry out such additional services on the basis of the billing rates set out in the Contract. In case for any reasons these rates and prices are determined by both the Parties to be not applicable for said additional services, then suitable billing rates and the additional time, shall be agreed upon between the Client and the Consultant.

During audit of NESPAK Islamabad Office for the year 2022-23, it was observed that the management provided consultancy services to client namely PWD for projects under Access to Justice Program. The construction work was awarded to M/s Progressive Engineers & Contractor for valuing Rs 155.456 million by client. Later on, the client cancelled the construction agreement due to change in scope of work and awarded new contract with extended scope of work valuing Rs 2,185.762 million. Due to cancellation of construction agreement, the consultancy agreement was also required to be canceled and fresh consultancy agreement be signed as per scope of work along with revised rates of consultancy services. Contrary to that, the NESPAK did not revise contact with client despite enhancement in scope of work and continuously rendered the consultancy services. Thus, due to non-revision of consultancy agreement, the client refused to make payment of Rs 22.143 million against the service provided by the NESPAK.

Audit is of the view that if the management had taken up the matter with client immediately after revision of scope of work, the cost of consultancy services would have been received.

The matter was reported to the management and PAO on October 09, 2023. The management in its reply stated that the client has not refused to pay the additional design remunerations to the consultant (NESPAK), rather, the client had requested for negotiation of

revised design fee which had been increased manifold from the original one. Accordingly, it is expected that all pending payments would be received from the client after approval of revised PC-1.

DAC in its meeting held on January 05, 2024, directed management to pursue recovery vigorously.

Audit recommends compliance of DAC's directives.

Para-1 (Nespak-2022-23)

6.1.4.11 Loss due to deduction of sales tax by client in violation of agreement - Rs 10.383 million

According to clause 5.3 of general conditions of contract, after the date of this contract, there is any change in the applicable law which increases or decreases the cost of the services rendered by the consultants under this contract shall be increased or decreased accordingly.

During audit of NESPAK for the year 2022-23, it was observed that management made an agreement with Central Design Office, Azad Jammu & Kashmir having value of Rs 61.341 million for provision of consultancy services. The contract was signed on June 15, 2015. At the time of signing of agreement, the sales tax on services in AJK was not applicable. The AJK Government imposed sales tax on services w.e.f July 01, 2015. As per clause 5.3, the contract value was to be increased accordingly. However, the same was not allowed by client and made payments to NESPAK after deducting sales tax of Rs 10.383 million.

Due to non-revision of contract, the NESPAK sustained loss.

Audit is of the view that management was required to take up the matter with client immediately after imposition of sales tax by AJK Government.

The matter was reported to the management and PAO on October 09, 2023. The management in its reply stated that at the time of signing of agreement, the sales tax on service in AJK was not applicable and accordingly the value of sales tax was not included in cost of services by NESPAK. However, after a month the AJK Government imposed Sales tax on Services. The client did not amend the contract by incorporating a provision of Sales Tax in the agreement but rather made payments to NESPAK after deducted the value of sales tax. Despite the same, the project management team has been pursuing the client to resolve the issue and release NESPAK's unlawfully deducted amount.

DAC in its meeting held on January 05, 2024, directed the management to pursue recovery vigorously.

Audit recommends compliance of DAC's directives.

Para-11 (Nespak-2022-23)

6.1.4.12 Loss due to deduction of income tax at higher rates by the client- Rs 2.792 million

The assistant commissioner Inland Revenue E&C Unit-6 LTU Lahore has issued clarification vide letter dated November 21, 2019 to NESPAK that withholding tax rate on engineering services U/S 153(1)(b) of the income tax ordinance 2001 is 3% w.e.f July 01, 2019 the same circulated by NESPAK to all the concerned to ensure that the withholding of income tax from payments made by the clients in accordance with revised/reduced rate from 8% to 3% with effect from July 1, 2019.

During audit of NESPAK Karachi Office for the year 2022-23, it was observed that a consultancy agreement was signed between NESPAK & Karachi Port Trust. The management issued various invoices from December 2020 to April 2023 for collection of services fee as per agreement amounting to Rs 55.837 million inclusive of all applicable taxes. As per FBR clarification circulated above, the client was required to make payment after deduction of 3% income tax rates applicable on engineering services. But contrary to that the client made payment to NESPAK after deduction of income tax at higher rate of 8% instead of 3% which resulted into loss of Rs 2.792 (Rs 55.837 million x 5%).

Due to non-following of FBR rules, the excess tax was deducted.

Audit is of the view that deduction of income tax at higher rate despite clear instruction of FBR caused financial loss.

The matter was reported to the management and PAO on October 09, 2023. The management in its reply stated that the client (Karachi Port Trust) deducted Income Tax from NESPAK's Consultancy Services invoices at the rate of 8% instead of 3%. The management requested the client multiple times to provide reasons/justifications of deduction of income tax at higher rates which was violation of FBR, however the client did not give any reason for the same.

DAC in its meeting held on January 05, 2024 directed the management to place the matter before the client to ensure application of current law and get the refund from client.

Audit recommends compliance of DAC's directives.

Para-13 (Nespak-2022-23)

6.1.4.13 Irregular appointment of Health & Safety Expert Cum Social Development Officer - Rs 2.040 million

According to advertisement dated July 24, 2022 for the post of Health & Safety Expert Cum Social Development Officer, MSc/M. Phil in Environmental Engineering / Environmental Sciences / Social Sciences having verifiable experience from six to ten years after graduation in the field of occupational health, safety & environment (HSE) and social safeguard studies of

infrastructural development projects and knowledge about relevant legislations and guidelines pertinent to Pakistan and international funding agencies. Proficiency in report writing and use of relevant computer software will also be required.

During audit of NESPAK for the year 2022-23, it was observed that the management hired a Health & Safety Expert Cum Social Development Officer (Grade-09) with a monthly salary of Rs 0.170 million during December, 2022. It was noted that the MSc/M. Phil in Environmental Engineering/ Environmental Sciences/Social Sciences was required for said appointment. However, the appointed officer had foreign degrees in Biology and MSc. Degree in Agricultural Extension rendering him ineligible for the position, and thus his salary payment of Rs 2.040 million (Rs 0.170 million x 12 months) was deemed irregular.

Audit is of the view that the management should have made appointments in fair and transparent manner but the same was not done.

The matter was reported to the management and PAO on October 09, 2023. The management in its reply stated that the officer was hired on the basis of his M.Sc. agriculture degree which is a branch of Social Sciences as confirmed by the Director, Institute of Agriculture Extension, Education & Rural Development, University of Agriculture Faisalabad, which is an institute of Faculty of Social Science.

DAC in its meeting held on January 05, 2024, directed the management to get clarification from HEC regarding M.Sc. Agriculture degree being a branch of Social Sciences.

Audit recommends compliance of DAC's directives.

Note: The issue was also reported earlier in the Audit Reports for Audit Years 2013-14 and 2016-17 to 2022-23, vide Para numbers 18.1.4.1, 18.1.4.7, 18.1.4.8, 18.1.4.11, 18.1.4.13, 18.1.4.11, 8.13.4.2, 8.13.4.8, 7.1.4.1, 7.1.4.2, 7.1.4.4, 7.1.4.5, 7.1.4.9, 7.1.4.11, 5.1.4.9, 6.1.4.9, 5.1.4.15, 7.1.4.6 and 7.1.4.9 having financial impact of Rs. 9.880 million, Rs. 1.280 million, Rs. 7.200 million, Rs. 1.040 million, Rs. 5.270 million, Rs. 1.473 million, Rs. 147.180 million, Rs. 69.379 million, Rs. 10.700 million, Rs. 4.270 million, Rs. 14.520 million, Rs. 5.040 million, Rs. 3.900 million, Rs. 2.210 million, Rs. 5.188 million, Rs. 151.564 million, Rs. 157.260 million, Rs. 9.448 million and Rs. 10.050 million respectively. Recurrence of same irregularity is a matter of serious concern.

Para-17 (Nespak-2022-23)

Chapter-7

Ministry of Federal Education and Professional Training

Overview

Ministry of Federal Education and Professional Training was established in July 2011 in the wake of the 18th Amendment. Some of the Departments / Organizations previously under MOLM and MOE were placed under this Ministry. Supreme Court of Pakistan in its Judgment dated November 25, 2011, directed that because of insertion of Article 25-A in the Constitution, the Federal Government cannot absolve itself from the responsibility of providing education to its citizens.

In the light of Supreme Court Judgment, a Summary was moved to Prime Minister of Pakistan who was pleased to approve the renaming of Ministry as “Ministry of Education and Training” which was duly notified by the Cabinet Division on July 24, 2012. Subsequently, the Council of Common Interest (CCI) in its meeting held on November 8, 2012, endorsed the renaming of Ministry and approved its functioning with the subjects already assigned to it.

On the reorganization of Federal Secretariat, the Ministry renamed as Ministry of Education, Trainings & Standards in Higher Education vide Cabinet Division’s notification No. 4-8/2013-Min-I dated 07th June, 2013.

On June 19, 2014, Ministry has now renamed as Ministry of Federal Education and Professional Training vide Cabinet Division’s notification No. 4-10/2011-Min-I dated 19th June, 2014.

Aims & Objectives

- National cohesion on education policies and reforms, and focusing national attention on education issues
- Lead Educational Standard setting
- Leading programs of national importance to ensure equity and cohesion
- Leading international cooperation and coordination on education matters
- Integration of Religious Educational Institutions
- Collect, analyze and disseminate information on key education indicators including student learning assessments and education financing
- Manage, supervise and implement formal education in schools and colleges under ICT through the Federal Directorate of Education
- Registration & regulation of Private Educational Institutions in ICT and enforcement of relevant rules & regulations on the private education sector
- Lead coordination of academic evaluation across Pakistan, especially for quality in large scale student exams through the Inter Board Committee of Chairmen (IBCC).

Governing Laws and Policies

- Rule of Business 1973

Audit Profile of Ministry of Federal Education and Professional Training

(Rs in million)

S. No.	Description	Total	Audited	Expenditure audited FY 2022-23	Revenue /Receipts audited FY 2022-23
1	Formations	5	01		
2	Assignment Accounts (excluding FAP)				
3	Authorities /Autonomous Bodies etc. under the PAO		01		
4	Foreign Aided Projects (FAP)				

Audit observations amounting to Rs 481.594 million were raised as a result of this audit. This amount also includes recoverable of Rs 4.325 million as pointed out by the audit. Summary of the audit observation classified by nature is as under:

Overview of the Audit Observations

S. No.	Classification	Amount (Rs in million)
1	Non-Production of record	-

7.1 NFC Institute of Engineering and Technological Training (Pvt.) Limited, Multan

7.1.1 Introduction

The company was incorporated on June 26, 1984 as a Private Limited Company under the name “NFC Technical Training Centre (Pvt.) Limited”. Subsequently the name of the Company was changed to “NFC Institute of Engineering and Technological Training (Pvt.) Limited” on August 30, 1994. Later on, all assets, properties, rights and interests of whatever kind, used, enjoyed possessed, owned or vested in or held in trust by and liabilities legally against the company were transferred to NFC Institute of Engineering and Technology. This transfer was done in accordance with the provisions of NFC Institute of Engineering and Technology Multan Act, 2012 passed by the National Assembly on 8th October 2009 and by the Majlis-e-Shoora (Parliament) in its joint sitting on 5th April 2012 which was published in “The Gazette of Pakistan” on 8th May 2012 and recognized as Degree Awarding Institute. The Institute is engaged in educational and training programs leading to higher degree in the field of Engineering.

7.1.2 Comments on Audited Accounts

7.1.2.1 The working results of the Institute for the year 2022-23 as compared to the previous years is given below:

(Rs in million)

Particulars	2022-23	% Inc./ (Dec)	2021-22	% Inc./ (Dec)	2020-21
Income					
Tuition & training fee and other income	602.068	2.95	584.819	(2.57)	600.217
Expenditure					
Teaching	446.036	7.44	415.136	(0.89)	418.859
Training	7.262	8.71	6.680	(15.45)	7.901
Admin & general	117.600	9.38	107.512	(4.48)	112.56
Bank charges	0.340	(3.41)	0.352	35.38	0.26
Total Expenditure:-	571.238	7.85	529.680	(1.83)	539.58
Excess of income over expenditure	30.829	(44.09)	55.139	(9.07)	60.637

(Source: Annual Audited Accounts)

7.1.2.2 The income of the Institute increased by 2.95% from 584.819 million during 2021-22 to Rs 602.068 million during 2022-23. Whereas, the profit of the institute was decreased by

44.09% from 55.139 million during 2021-22 to Rs 30.829 million during 2022-23 which indicates that the institute failed to control its expenses. The decrease in profit despite increase in income may be explained.

7.1.2.3 Tuition fee under engineering head was decreased from 269.636 million during 2021-22 to Rs 237.022 million during 2022-23 registering a decrease of 12.10%. The decrease in Engineering Income indicates that the Institute is not focusing on its core operations i.e. engineering education. The decrease of engineering income needs justification.

7.1.2.4 Capital work in process under head Building were increased from Rs 24.788 million during 2021-22 to Rs 257.675 million during 2022-23 registering an increase of 939.52%. The detail of contract awarded, execution status and completion schedule may be shared with audit.

7.1.2.5 Plant & Equipment valuing Rs 39.484 million was shown in asset schedule during 2022-23. The detail of Plant & Equipment purchased along with purchase procedure may be shared with audit.

7.1.2.6 The deferred liability under head Government Grant was stood at Rs 13.267 million as on June 30, 2023. Two years earlier i.e. as on June 30, 2021, the said grant was stood at Rs 28.898 million. The purpose of grant and reasons for non-utilization of said grant during the year when it was received may be explained.

7.1.2.7 The accrued liabilities and other liabilities were stood at Rs 11.597 million and Rs 48.502 million as on June 30, 2023 respectively. There was no explanatory note in the accounts against these liabilities. The detail of said liabilities along with current status may be explained to audit.

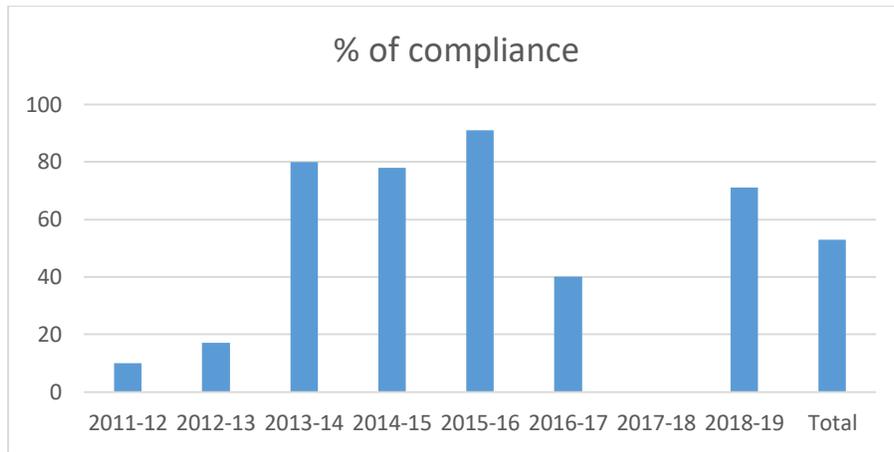

7.1.2.8 As per Balance Sheet income tax valuing Rs 23.514 million was recoverable during 2021-22 and the almost same stood at Rs 23.980 million during 2022-23 which indicates that the management was not pursuing the matter with FBR for early recovery of tax resulted blockage of funds. The matter may be pursued with FBR vigorously.

7.1.2.9 Current ratio of the company stood at 11.06: 01 times against a standard of 2:1 which means company failed to utilize its assets efficiently and blocked its funds in short term deposits. Management needs to revisit its current ratio and meet the standard of 2:1 by diversification of its portfolio to earn good return on its assets.

7.1.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No	% of compliance
2011-12	10	01	09	9.5.2.1,9.5.2.2,9.5.2.3, 9.5.2.4,9.5.2.5,9.5.2.6,	10

				9.5.2.7,9.5.2.8,9.5.3	
2012-13	06	01	05	9.4.2.1,9.4.2.2,9.4.2.3, 9.4.3,9.4.4.1	17
2013-14	05	04	01	8.23.2.3	80
2014-15	09	07	02	9.25.3,9.25.4.1	78
2015-16	11	10	01	8.24.3	91
2016-17	05	03	02	7.21.3,7.21.4.2	40
2017-18	06	0	06	10.20.1, 10.20.2.1, 10.20.2.2, 10.20.2.3, 10.20.2.4,10.20.3	0
2018-19	07	05	02	9.20.2.1,9.20.2.5	71
Total	59	31	28		53

The compliance of the PAC directives was not satisfactory which needs immediate attention of the PAO.

7.2 NFC Institute of Engineering and Fertilizer Research, Faisalabad

7.2.1 Introduction

The Company was incorporated on June 26, 1984 as a private limited company under the name “Fertilizer Research and Development Institute (Pvt.) Limited”. Subsequently, the name of the Company was changed to NFC Institute of Engineering and Fertilizer Research (Pvt.) Limited on January 15, 1998. The Company is engaged in educational programs leading to higher degree in the field of Chemical Engineering since 1998. Later on, it started disciplines of Electrical Engineering, Mechanical Engineering and Computer Sciences in 2003, 2004 and 2007 respectively. It is affiliated with the University of Engineering and Technology Lahore. The Company is also engaged in research and development activities with reference to fertilizer industry.

7.2.2 Comments on Audited Accounts:

7.2.2.1 The working results of the Institute for the year 2022-23 as compared to previous years are as under:

(Rs in million)

	2022-23	%Inc/ (Dec)	2021-22	%Inc/ (Dec)	2020-21
Income					
Tuition fee	287.672	2.13	281.678	(19.82)	351.314
Research income	2.559	(45.70)	4.713	21.00	3.895
Other income	45.122	30.65	34.537	(24.19)	45.555
Total Income	335.353	4.49	320.928	(19.92)	400.764
Expenses					
Teaching expenses	271.989	2.95	264.206	(0.06)	264.369
Research and development	12.815	(1.90)	13.063	2.56	12.737
Total Cost of Services	284.804	2.718	277.269	0.059	277.106
Administrative expenses	134.99	7.10	126.04	7.18	117.597
Total Expense	419.794	4.09	403.309	2.18	394.703
Profit before taxation/(loss)	(84.44)	2.50	(82.381)	(1,459.20)	6.061

(Source: Annual Audited Accounts)

The ‘Research Income’ of the Institute decreased by 45.70% from 4.713 million (2021-22) to 2.559 million in 2022-23. Whereas, teaching expenditure increased by 2.95% from 264.20 million (2021-

22) to Rs 271.989 million in 2022-23 and Administrative expenses increased by 7.10% from Rs 126.04 million (2021-22) to Rs 134.99 million in 2022-23 including vehicle running and maintenance cost increased by 165% from Rs 1.423 million (2021-22) to Rs 3.773 million in 2022-23, heating & lighting expense increased by 27% from Rs 29.947 million (2021-22) to Rs 38.089 million in 2022-23 and repair & maintenance increased by 147% from Rs 0.487 million (2021-22) to Rs 1.204 million in 2022-23. The disproportionate increase in expenditure as compared to income resulted increase in loss before taxation from Rs 82.381 million (2021-22) to Rs 84.44 million in 2022-23. The expenses of the Institute particularly the administrative expenses, need to be justified.

7.2.2.2 Short term investments made of Rs 180.00 million including 155.00 million in First Women Bank Ltd. and Rs 25.00million in The Bank of Punjab during 2022-23. Profit from this investment earned of Rs 24.424 million. Complete record of investment alongwith determination of working balance limit be provided to audit to ascertain the prudence of treasury management and transparency of investment process.

7.2.2.3 There is a negative cash generation of Rs 41.726 million from operating activities during 2022-23 which shows that operations of the institute are not generating enough cash and management is using investment income to meet its operational expenditure. Management is stressed upon to increase its cash flow from operations.

7.2.2.4 The management written off receivable loan of Rs 1.784 million from National Fertilizer Marketing Limited (NFML), Lahore during 2022-23. Detailed justification of write off the loan be provided to audit.

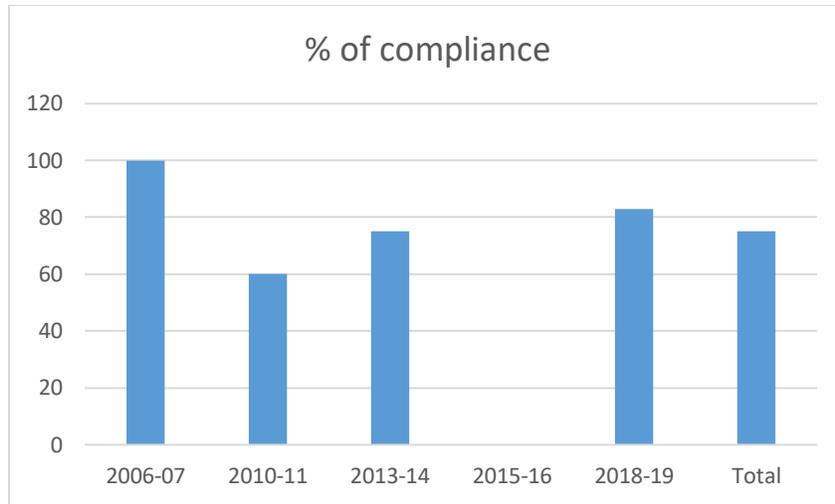

7.2.2.5 The Institute had established specific purpose funds namely Endowment Fund and Development Fund amounting to Rs 95.00 million and Rs 817.580 million respectively in order to commence Chemical Degree Classes in 1996. Institute had been investing these funds over the years. Detail of utilization of these funds may be provided to Audit to ascertain the prudence and transparency of investment process.

7.2.2.6 The Institute had been maintaining ‘employees provident fund’ trust having total balance of Rs 194.792 million. The accounts of said trust have not been audited since its establishment. Further, no actuarial valuation was carried out as required under International Accounting Standards-19 which needs to be justified. Complete breakup of expenditure and investments made out of trust funds along with annual audited accounts may be provided to audit.

7.2.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No.	% of compliance
-------------------	--------------------	------------------------	---------------------------	--------------------------	------------------------

2006-07	04	04	00	-	100

Total	20	15	5		75

The compliance of the PAC directives was not satisfactory which needs immediate attention of the PAO.

7.3 National Textile University Faisalabad

7.3.1 Introduction

The Government of Punjab with the help of leading textile industrialists formed an Institute of Textile Technology at Faisalabad in 1954. It was affiliated with University of Engineering and Technology, Lahore in 1965. Federal Government took over the administrative control of Pakistan Institute of Textile Technology, Faisalabad on July 01, 1976. It was renamed as “National College of Textile Engineering” in 1983. The management of the College was transferred to All Pakistan Textile Mills Association (APTMA) in September 1993. The College was upgraded as National Textile University (NTU) under National Textile University Ordinance, 2002 on November 15, 2002. It is controlled by the Board of Governors consisting of 17 members, 7 from APTMA, Vice-Chancellors LUMS and UET, Secretary Ministry of Textile Industry, Textile Commissioner, a representative from Government of Punjab, Khyber Pakhtunkhwa (KP) and Higher Education Commission.

The main purpose of the University is the promotion and dissemination of knowledge and technology in the textile sector, and to provide for instruction, training, research, demonstration and service in the said areas of learning. The Faisalabad Campus of the university is situated at Main Sheikhpura Road Manawala, Faisalabad and the Karachi Campus is situated at Street 2/1, Sector 30, Korangi Industrial Area Karachi.

7.3.2 Comments on Audited Accounts

7.3.2.1 The working results of the University for the year 2022-23 as compared to previous years are as under:

(Rs in million)

	2022-23	% Inc. / (Dec)	2021-22	% Inc. / (Dec)	2020-21
Income from grants:					
The grant from the Higher Education Commission (HEC) for recurring	343.256	28	267.663	(3)	274.791

Other comprehensive income/(loss)					
Total Surplus/(deficit) for the year	(156.709)	45	(108.184)	62	(66.766)

(Source: Annual Audited Accounts)

7.3.2.2 Textile cess decreased by 39% from Rs 6.007 million (2021-22) to Rs 3.665 million in 2022-23. Furthermore, income from Research, Innovation and Commercialization had also decreased by 39% from Rs 6.502 million (2021-22) to Rs 3.963 million in 2022-23. The abnormal decrease in textile cess and income from Research, Innovation and Commercialization be justified.

7.3.2.3 Revenue of the University has increased by 10% from Rs 1,122.404 million (2021-22) to Rs 12.39.565 in 2022-23. Whereas total expenditure increased by 15% from Rs 1160.867 million (2021-22) to Rs 1,340.729 million in 2022-23. The substantial increase of 5% in total expenditure as compared to revenue be justified to audit.

7.3.2.4 The total operating expenses increased by 20% from Rs 942.934 million (2021-22) to Rs 1,134.476 million in 2022-23. The major increase includes in Research & Survey by 17%, Communication by 25%, Traveling and transportation by 86%, Contribution, subscriptions and accreditation fee by 165%, Students expenses by 54% and Security Service Charges by 113% during 2022-23 as compared to previous year 2021-22. Provide justification alongwith supporting documents for such a huge increase in the operating expenditure.

7.3.2.5 Short term investments increased by 4% from Rs 213.900 million (2021-22) to Rs 221.900 million in 2022-23. Profit from this investment increased by 100% from Rs 34.466 million (2021-22) to Rs 69.045 million in 2022-23. Complete record of investment alongwith

determination of working balance limit be provided to audit to ascertain the prudence of treasury management and transparency of investment process.

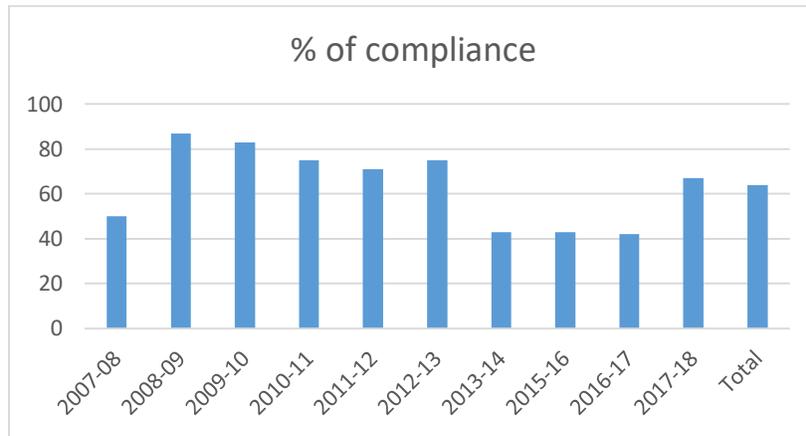

7.3.2.6 The University had received grant from HEC of Rs 11.419 million for procurement of equipment for research projects and PSDP grant for Karachi Campus of Rs 22.00 million in 2022-23. Complete Utilization of grant, releases alongwith terms and conditions be provided to audit.

7.3.2.7 The University had Rs 56.579 million under the head 'retention' and 'tender money' as on 30.06.2023. Complete record alongwith aging related to the retention money from contractors be provided to audit.

7.3.2.8 The University is in deficit since last 3 years. The deficit increased by 89% from Rs 76.744 million (2021-22) to Rs 145.318 million in 2022-23. The abnormal increased needs to be explained.

7.3.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras #	% of compliance
2007-08	02	01	01	172.2	50
2008-09	08	07	01	221.5	87
2009-10	06	05	01	233.5	83
2010-11	08	06	02	23.1.2.4, 23.1.3	75
2011-12	17	12	05	24.1.2.5, 24.1.2.6, 24.1.3, 24.1.4.1, 24.1.4.2	71
2012-13	04	03	01	24.1.3	75
2013-14	07	03	04	17.1.2.1, 17.1.2.3, 17.1.2.4, 17.1.3	43
2015-16	07	03	04	18.1.2.1, 18.1.2.2, 18.1.2.5, 18.1.3	43
2016-17	12	05	07	17.1.2, 17.1.2.1, 17.1.2.2, 17.1.2.3, 17.1.3, 17.1.4.1, 17.1.4.4	42
2017-18	18	12	06	4.6.3, 4.6.4.2, 4.6.4.3, 4.6.4.5, 4.6.4.6, 4.6.4.8	67
Total	89	57	32		64

The compliance of the PAC directives was not satisfactory which needs immediate attention of the PAO.

7.3.4 Audit Paras

7.3.4.1 Irregular investment of funds – Rs 213.900 million

According to Finance Division O.M. No. F.4(1)/2002-BR-11 dated 02.07.2003, investment of working balances/surplus funds be made subject to fulfillment of various requirements such as investment in A rating banks, competitive bidding process, investment exceeding Rs 10 million shall not be kept in one bank, setting up of in-house professional treasury management functions, formation of Investment Committee, employment of qualified investment management staff, utilization of services of professional fund managers approved by SECP, annual certificate of the Chief Executive of the organization, etc.

During audit of NTU, Faisalabad for the year 2019-22, it was observed that the management made investment in Short Terms Investment (TDRs) during the year 2019-20 to 2021-22 in different banks. Detail is as under:

Invested In	2019-20	2020-21	2021-22
TDR	80,000,000	60,000,000	213,900,000

Audit observed significant deficiencies in the organization's financial management practices, including the absence of approved working balance limits, non-compliance with competitive bidding processes, and the lack of an Investment Committee. These shortcomings highlight gaps in authorization, transparency, and risk management. Addressing these issues is essential to bolstering governance, transparency, and financial accountability, ultimately ensuring sound and responsible financial management within the organization.

Audit is of the view that investment in violation of the instructions of the Finance Division was irregular and unauthorized. The matter was reported to the management on December 05, 2023 the management replied that on the directive of DAC in its meeting held as on 10.03.2022, The BoG in its 42nd meeting held on 28.06.2022 Constituted investment Committee.

The reply is not cogent as the investment committee was composed on 26.07.2022. Hence investment was made in violation of Finance Division instructions.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that Government instructions regarding investment should be followed in letter and spirit.

Para-02 (NTU – 2019-22)

7.3.4.2 Irregular Construction work by NTU – Rs 194.215 million

According to clause 2(aa) of PEC Consulting By-Laws statutory notification S.R.O.809(I)/86 dated August 24, 1986,"consulting engineer" means any person, partnership, corporate body or any other legal entity which independently performs study, prepares reports, makes design, supervises construction or similar advisory activities in the engineering disciplines and is registered or licensed as such by the Council; further, as per clause 3(7), the individual consulting engineer or the sole proprietor of a partnership firm of consulting engineers shall give an undertaking to the Council that he is an independent consulting engineer and has no interest in construction and conflicting commercial, industrial and business activities which are likely to influence his professional independence and neutrality.

During audit of NTU, Faisalabad for the year 2019-22, the management of NTU executed civil works projects worth Rs 194.215 million.

The audit exposed significant shortcomings in the civil department and construction projects, revealing a lack of technical expertise in the Works Committee, insufficient staff to execute projects, and breaches in procurement and financial regulations. The absence of proper oversight and quality checks led to delays, cost escalations, and compromised project integrity. Urgent corrective measures are imperative to rectify these deficiencies, ensuring effective project management and regulatory compliance to safeguard NTU's reputation and resources.

Audit is of the view that in the absence of technical staff /engineers/ technical expertise and without supervision of consultant for execution and monitoring of civil works the expenditure incurred on civil works is irregular and unjustified.

The matter was reported to management on December 05, 2023 the management replied that the University hired the services of Engineering Consulting Firms for detailed planning, designing of the projects worth Rs 166.96 million out of the total projects amount of Rs 194.215 million as mentioned in the original para by the audit. Further, NTU had hired full time technical staff on a regular payroll.

Reply is not cogent in the absence of technical staff/engineering management hired consultant for planning and designing for few projects instead of supervision, execution and monitoring.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends fixing of responsibility against persons concerned for the lapses. Besides, strengthen the civil department of the NTU for better quality of the work.

Para-01 (NTU – 2019-22)

7.3.4.3 Irregular procurement of vehicles in violation of PPRA - Rs 26.500 million

According to Finance Division (Expenditure Wing) OM No.7(1) Exp-IV/2016-440 dated July 15, 2020, there shall be complete ban on purchase of all types of vehicles both for current and development expenditure excluding motor cycles, student buses, ambulances and firefighting vehicles. According to rule 42 (c) (vii), the procuring agency shall only engage in direct contracting if the purchase of motor vehicle is from local original manufacturers or their authorized agents at manufacturer's price.

During audit of NTU, Faisalabad for the year 2019-22, it was observed that the management purchased 01 Bus (63 Seater) and 02 Coasters (32 Seater) from the PC-I titled "Upgradation of Synthetic Fiber Development and application Center (SFDAC) and Plastic Technology Center (PTC) as sub Campus of National Textile University Karachi" amounting to Rs 26.500 million.

Audit observed that procurement was made in violation of Finance Division instruction dated 15.07.2020. Audit further observed that procurement was made by direct contracting with M/s Ghandara Industries Limited (GIL) in clear violation of prescribed procedure as defined in rule 42(c)(vii). As M/s Ghandara Industries Limited (GIL) were neither the local original manufacturer nor the authorized agent of a local original manufacturer but were a dealer of M/s Isuzu of Japan (a foreign manufacturer). No LD charges were deducted as the buses were delivered after two months of delivery date.

The matter was reported to the management on December 05, 2023 the management replied that the procurement of the Bus/Coasters was conducted under rule 42-C (VII) of PPRA Rules. According to Finance Division (Expenditure Wing) OM No.7(1) Exp-IV/2016-440 dated July 15, 2021, the purchase of student buses had been excluded as mentioned in the above said letter, hence the question of regularization for purchase of buses from austerity committee does not arise.

The reply is not convincing as the case for purchase of buses was initiated on 30.07.2020 and delivery period was extended to M/s GIL as ISUZU buses were delayed from Japan.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the reasons for the purchase of vehicles during ban period, fixing responsibility on the person (s) at fault besides, regularizing expenditure from the Finance Division.

Para-03 (NTU – 2019-22)

7.3.4.4 Irregular hiring/appointments of officers after superannuation and payment thereof - Rs 18.010 million

According to the Cabinet Secretariat (Establishment Division) Government of Pakistan O.M. No.4/2/90-R- 1-I dated December 05, 1990 and subsequent instructions issued through letters dated May 26, 1999 and December 04, 2007 the re-employment after the age of superannuation in the government, semi-government, autonomous bodies and semi-autonomous bodies was required to be made by obtaining the approval of Prime Minister.

During audit of NTU, Faisalabad for the year 2019-22, it was observed that the management hired the services of Dr. Tahir Hussain Shah, Professor (Consultant) and Mr. Ata Muhammad, Internal Auditor

after attaining the age of superannuation and paid Rs 18.010 million on account of pay and allowances. Detail is as under:

Sr. No.	Name / Designation	Grade	D.O.B	D.O.A	Pay Package (Rs)	Total Amount (Rs)
1.	Dr. Tahir Hussain Shah, Professor	21	21.12.1951	18.12.2017	292,500	3,510,000
			Extension	18.12.2018 to 17.12.2019	350,000	4,200,000
			Extension	18.12.2019 to 17.12.2020	350,000	4,200,000
			Extension	18.12.2020 to 17.12.2021	350,000	4,200,000
2.	Mr. Atta Muhammad, Internal Auditor	18	14.09.1960	(02.11.2020 to 30.06.2022 @ 100,000 per month)	100,000	1,900,000
Total						18,010,000

Audit observed irregularities in hiring superannuated officers, such as rule violations, absence of Prime Minister's approval, and non-advertisement of posts. Consequently, hiring officers beyond 60 years was deemed irregular and unauthorized. These findings underscore the necessity for corrective actions to uphold regulatory compliance and fairness in future hiring practices.

The matter was reported to the management on December 05, 2023, the management replied that as per clause 11(1) of the University Ordinance, The general supervision and control of the affairs of the University and the power to lay down the policies of the University, shall vest in a Board. As per clause 11(6)(h) of the University Ordinance, the Board has power to select and appoint all administrative and academic staff of the University. As per clause 32(2)(b) of NTU Service Statutes-2017, re-employment beyond the superannuation in all cases shall be subject to approval of the Board.

The reply is not plausible as re-employment after the age of superannuation in the government, semi-government, autonomous bodies and semi-autonomous bodies was required to be made by obtaining the approval of Prime Minister.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends to intimate the reasons regarding appointment of officers against the rules. Fix the responsibility on the person (s) at fault. Approval of Prime Minister for such appointments required to be obtained.

Para-13 (NTU – 2019-22)

7.3.4.5 Irregular procurement of IT/Misc. items - Rs 17.627 million

According to Rule 38B of Public Procurement Rules, 2004 states that Single responsive bid in goods, works and services.- (1) The procuring agency shall consider single bid in goods, works and services if it- (a) meets the evaluation criteria, ensures compliance of specifications and other terms & conditions expressed in advertisement or bid solicitation documents; (b) is not in conflict with any provision of the Ordinance; (c) conforms to the technical specifications; (d) has financial conformance in terms of rate reasonability provided that except unsolicited proposal, in case of pre-qualification proceedings single bid shall not be entertained. The procuring agency shall make a decision with due diligence and in compliance with general principles of procurement like economy, efficiency and value for money.

During audit of NTU, Faisalabad for the year 2019-22, it was observed that the management floated tenders for procurement of different items and incurred expenditure of amounting to Rs 19.866 million for the year 2019-22 (Annex-35).

Audit observed that management procured these items without obtaining rate reasonability from the market as required under rule 38(B). Audit also observed that routine practice of management was to place a certificate of rate reasonability signed only by a single person of the concerned department. The subject certificate does not fulfill the requirement of rate reasonability, proper proof of the same should be obtained from the market and certificate be signed by all the members of procurement committee. Further, the items procured were not included in annual procurement plan.

Audit is of the view that non-adherence to PPRA Rules, and entertaining the single bidder, without assessing the rate reasonability was irregular.

The management's response to the audit's concerns regarding procurement emphasized wide advertisement and market-competitive rates, asserting fair and transparent processes. However, the audit found shortcomings in adherence to PPRA rules, particularly in accepting a single bidder without rate reasonability assessment. Moreover, the explanation provided for the non-uploading of the procurement plan during the COVID-19 pandemic was considered inadequate in justifying the deviation from procurement regulations. These findings underscore the need for improved compliance and transparency in procurement practices within the organization.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the reasons for procurement without obtaining rate reasonability from the market and fixing responsibility.

Para-08 (NTU – 2019-22)

7.3.4.6 Loss due to non-recovery from unsuccessful employees in PhD studies - Rs 4.325 million

Board of Governors (BoG) in its 36th meeting held on 15.11.2019, approved to follow the conditions of the surety bonds. As per clause-3(vi) of the Surety Bonds submitted for study leave, in the event of breach of any terms & conditions on their part, not arising from their illness certified to the satisfaction of the university, the scholars bind themselves firmly to pay on demand a sum of Rs 1,000,000 (Rupees Ten Lacs) as liquidated damages and not as penalty to the university.

During the audit of NTU, it was found that management granted study leave for employees pursuing PhD degrees abroad. The leave, initially for 3 to 4 years, was extended upon request. However, after completing their studies, these employees neither returned to work nor submitted progress reports. Consequently, they faced potential liquidated damages of Rs 1.00 million each for breach of bond terms or failure to complete their studies as per detail given below:

Sr. No.	Name of Student	Designation	Date of Start of Program	Date of Completion of Program	Air Ticket & Insurance (Rs)	Amount of Surety Bond (Rs)	Total (Rs)
1	Maqsood Ahmed	Lecturer	05.09.2016	04.09.2021	0	1,000,000	1,000,000
2	Mubeen Aslam	Asstt. Professor	01.11.2016	31.10.2021	0	1,000,000	1,000,000
3	Shoaib Iqbal	Lecturer	23.09.2014	22.09.2018	325,094	1,000,000	1,325,094
4	Adeel Zulfiqar Rao	Lecturer	01.07.2015	-		1,000,000	1,000,000
Total					325,094	4,000,000	4,325,094

The employees concerned did not return Pakistan and resumed duties to serve the University, hence they were liable to deposit the amount of surety bond as per laid down conditions. The management also failed to take appropriate action against un-successful employees which resulted in non-recovery of surety bond amount.

Audit is of the view that the chances of recovery were remote as a considerable period had elapsed but neither the employees resumed duty nor management made concrete efforts for recovery of bonds amount.

The matter was reported to the management on December 05, 2023, the management replied that Mr. Adeel Zulfiqar Rao, Lecturer deposited whole liquidated damages. A letter had been addressed to Maqsood Ahmed, Lecturer. In response, he was agreed to pay liquidated damages. Further, the case of Mubeen Aslam had already been referred to the Inquiry Committee and proceedings were in process.

The reply is not persuasive as management failed to recover liquidated damages from candidates.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends recovery of the amount in question from the employees or the surety as per conditions of surety bonds and also initiate disciplinary proceedings against the defaulter employees as per rules.

Para-14 (NTU – 2019-22)

7.3.4.7 Irregular appointment of Senior System Analyst – Rs 2.688 million

Establishment Division vide its O.M. No. F.53/1/2008-SP dated 22.10.2014 circulated the Recruitment Policy for the Federal Services/ Autonomous Bodies/ Corporations. As per S. No. (i) and (ii) of the policy, the recruitment to posts in BPS-16 and above shall be made through the FPSC. As per S. No. (v), initial appointment shall be made strictly in accordance with the provisions contained in the Recruitment Rules of the post concerned. In the absence of Recruitment rules, Ministries / Divisions / Attached Departments / Subordinate Offices / Autonomous Bodies / Semi-Autonomous Bodies /

Corporations/ Companies / Authorities etc. are first required to frame the Recruitment Rules and lay down the eligibility conditions for such appointments. No recruitment shall be made in the absence of approved Recruitment Rules. As per S. No. (xvii), draft advertisement to be published for recruitment may be submitted to Establishment Division for routing of same to Ministry of Information, Broadcasting and National Heritage. No direct advertisement would be place by any organization.

During audit of NTU, Faisalabad for the year 2019-22, it was observed that the management advertised the post of Senior System Analyst dated 22.01.2017. Total 05 applications were received, out of 05 applicants, 03 were shortlisted for interview. Mr. Abdul Fawad was selected for the post and was issued offer of appointment on contract at a consolidated salary of Rs 45,000 (Lump sum) per month vide letter dated 30.05.2017 for a period of one year. The officer joined his duties w.e.f. 02.06.2017. The contract period was extended from 02.06.2018 to 01.06.2019 and 02.06.2019 to 01.06.2020 at a consolidated salary of Rs 49,532 per month and Rs 55,000 per month respectively. Later on, the services of the officer were converted on BPS contract retrospectively w.e.f. 02.06.2018 vide notification dated 10.12.2019 after approval by the BOG in its 36th meeting held on 15.11.2019.

The audit observed several irregularities in the appointment process, including violations of Establishment Division orders, lack of clarity in job advertisements regarding contract terms, absence of testing, deviation from prescribed criteria in score allocation, retrospective award of contracts, and incomplete experience certificates. These findings underscore significant deficiencies in recruitment practices, highlighting the need for corrective action to ensure compliance with regulations, transparency, and integrity in future appointments.

The matter was reported to the management on December 05, 2023, the management replied that the appointment was made as per the then in vogue policy of the University and duly approved by BOG. The Establishment Division OM referred by the Audit had not been adopted by the University through BOG hence, not applicable in the rule book of the University.

The reply is not tenable because NTU rules and regulation were contradictory to Establishment Division OMs. Besides NTU rules were not vetted by the Establishment Division.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that irregular appointment in violation of Govt. orders and award of BPS contract retrospectively should be investigated for fixing responsibility.

Para-15 (NTU – 2019-22)

7.3.4.8 Non forfeiture of earnest money form the supplier - Rs 0.712 million and non-obtaining of Performance Guarantee - Rs 2.522 million

According to tender documents, eligible firms should submit their bids along with 2% earnest money of the total quoted price in sealed envelope of financial bid in the shape of CDR/ Bank Draft in favor of NTU, Faisalabad drawn on Faisalabad. A per Tender document clause 7, an amount of 6% will be deducted as a performance guarantee from the bill and shall be retained for the period of two years. Two years will start from the date of installation (commissioning certificate issued by the technical committee

of NTU) or Bank Guarantee (from the scheduled bank of Pakistan) will also be accepted but it should be valid for two years.

During audit of NTU, Faisalabad for the year 2019-22, it was observed that the management of NTU floated tender for purchase and installation of Solar system (Turnkey Solution) having capacity of 495 KW, On-grid (Net Metering) of Rs 42.044 million with the approval of BoG in its 36th meeting held on 15.11.2019. In response to tender, 05 firms participated and all were technically qualified for financial bid opening.

Audit observed several irregularities in the contract award process. M/s Energy Solution, the lowest bidder, submitted a fake CDR of Rs 712,599 but faced no consequences from the management. The work awarded to 2nd lowest bidder i.e. M/s Creative was completed late without LD charges, and the contract lacked a performance security clause. Moreover, M/s Creative's registration with AEDB was not documented.

Audit is of the view that contracts were awarded in violation of rules/ criteria which was held irregular.

The management responded that M/s Energy Solution, the bidder with the fake CDR, was disqualified from the competition. The blacklisting committee recommended forfeiting the bid security of Rs 114,471.00 but the same couldn't be forfeited due to the fake CDR of Rs 712,599. The successful bidder, M/s Creative Electronics Pvt. Ltd., requested a time extension, which was approved and project completed within timelines i.e. 17.06.2022. The performance security was obtained as per the tender terms & conditions.

The reply is not convincing as management failed to forfeit the bid security and blacklist the firm despite irregularities. Moreover, the performance security should have been obtained before awarding the work.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fixing responsibility on the person at fault.

Para-10 (NTU – 2019-22)

7.3.4.9 Loss due to delay in procurement - Rs 1.095 million

According to rule 2(A) of Public Sector Companies (Corporate Governance) Rules, 2013, for the purposes of these rules, the following shall be the criteria for sound and prudent management of a Public Sector Company, which shall be bound to comply with it at all times namely:

(a) the business of the Public Sector Company is carried on with integrity, objectivity, due care and the professional skills appropriate to the nature and scale of its activities.

During audit of NTU, Faisalabad for the year 2019-22, it was observed that the management prepared cost estimates of Rs 700,000 for procurement of “Membrane Filtration Assembly” on 26.12.2019. A tender was floated on 29.12.2019 for purchase of subject item. Resultantly single bidder participated in the tender. Technical Committee evaluated technical requirements of the Membrane Filtration Assembly

and revised the specification. However, vendor had not participated in revised technical and financial bid. Subsequently, the management floated fresh tender dated 23.05.2020 and procured the same items in Rs 1.795 million instead of Rs 0.700 million.

Audit is of the view that due to mis-management in finalizing the specification of the item, loss of Rs 1.095 million was sustained by NTU.

The matter was reported to the management on December 05, 2023. The management replied that the tender was published on 26.12.2019 initially as per PPRA Rule 36(d). Single bidder participated in the tender with initial technical specification. While he did not participate in revised technical bid. The tender was canceled and re-tendered on 28.05.2021. The two bidders participated in the tender, and both qualified in initial, but one M/s Marjan Polymer qualified in the revised technical bid and the other bidder was disqualified technically. The initial specification was very generic, and the revised specifications were more wide range and specific to project.

The reply is not convincing as management failed to finalize the specification in time and sustained loss.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter and fix responsibility on the person(s) at fault for making procurement on higher rates.

Para-11 (NTU – 2019-22)

Chapter-8

Finance Division

Overview

The Finance Division deals with the subjects pertaining to finance of the Federal Government and financial matters affecting the country as a whole, preparation of annual budget statements and supplementary / excess budget statements for the consideration of the parliament accounts and audit of the Federal Government Organization etc. as assigned under the Rules of Business, 1973.

Moreover, Finance Division maintains financial discipline through financial advisors in organizations attached to each Ministry / Division etc.

Aims & Objectives

To pursue sound and equitable economic policies that put Pakistan on the path of sustained economic development and macroeconomic stability with a view to continuously and significantly improving the quality of life of all citizens through prudent and transparent public financial management carried out by dedicated professionals.

Governing Laws and Policies

- Rule of Business 1973
- General Financial Rules

8.1 House Building Finance Company Limited

8.1.1 Introduction

House Building Finance Company Limited (HBFCL) is the only housing finance institution in Pakistan, established in 1952 by the Government of Pakistan.

It was corporatized in 2007 and is now an unlisted public limited company. State Bank of Pakistan (SBP) and Government of Pakistan (GoP) jointly hold the capital of HBFC with 90.31% and 9.69% shareholding, respectively.

House Building Finance Company Limited (HBFCL) provides financing facilities for construction and purchase of houses through its deep-rooted and national footprint of 51 Branches, 7 Area Offices, 3 Regional Offices and the Head Office based in Karachi.

8.1.2 Comments on Audited Accounts

8.1.2.1 The working results of the Corporation for the year ended December 31, 2022 as compared with the preceding years are given below:

(Rs in million)

Description	2022	% Inc / (Dec)	2021	% Inc / (Dec)	2020
Net markup / interest income	3,193	39	2,302	(29)	3,249
Markup / interest expensed	(688)	244	(200)	1	(198)
Total non-markup / interest income	89	16	76	(44)	136
Total income	3,282	38	2,378	(30)	3,385
Total non-markup / interest expense	(1,636)	8	(1,520)	(190)	1,686
Operating expenses	(1,594)	7	(1,492)	(190)	1,658
Various reversal / (provision) made (net)	277	(35)	426	(240)	(304)
Profit/(loss)before taxation	1,908	49	1,282	(8)	1,390
Taxation	(430)	26	(342)	(195)	361
Profit/(loss) after taxation	1,478	57	940	(9)	1,029
<i>(Source: Annual Audited Accounts)</i>					

8.1.2.2 Markup / interest expenses were 244%, increased from Rs 200.063 million in 2021 to Rs 688.000 million in 2022 due to repurchase agreement of borrowing (Repo).

8.1.2.3 Dividend income decreased by 35% from Rs 1.217 million in 2021 to Rs 0.797 million in 2022 due to poor earnings of invested companies.

8.1.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	%age of compliance
1994-95	14	9	5	37, 38, 39, 41, 42	64%
1998-99	2	1	1	89	50%
1999-00	5	3	2	132, 135	60%
2000-01	5	2	3	101, 102, 103	40%
2001-02	5	4	1	95	80%
2002-03	3	2	1	56.1	67%
2003-04	14	8	6	41.4, 41.5, 41.6, 42, 43, 48	57%
2004-05	3	-	3	31	0%
2005-06	14	11	3	57, 58	79%
2006-07	5	4	1	38	80%
2007-08	8	3	5	43, 44(a), 44(b), 44(c), 44(d)	38%
2010-11	10	6	4	7.1.2.1, 7.1.2.3, 7.1.4.1, 7.1.4.4	60%
2013-14	12	1	11	6.1.2, 6.1.3.1, 6.1.3.2, 6.13.3, 6.1.3.4, 6.1.3.5, 6.1.3.6, 6.1.3.7, 6.1.3.8, 6.1.3.9, 6.1.3.10	8%
2015-16	7	1	6	6.2.4.2, 6.1, 6.2.2, 6.2.3, 6.2.4.1, 6.2.4.3	14%
2016-17	12	2	10	6.1.4.3, 6.1.4.6, 6.1.4.1, 6.1.2.1, 6.1.2.2, 6.1.3, 6.1.4.2, 6.1.4.4, 6.1.4.5, 6.1.4.7	17%
2019-20	2	2		6.1.4.1, 6.1.4.2	
Total	124	62	62		50%

The overall compliance of PAC directives was not satisfactory which needed improvement.

8.1.4 Audit Paras

8.1.4.1 *Non-achievement of disbursement & non-performing loan reduction targets – Rs 4,117.000 million*

Section 15(4) of Financial Institutions (Recovery of Finance) Ordinance, 2001, states that where a mortgager fails to pay the amount and after the due date given in the final notice has expired, the financial institution may, without the intervention of any Court, sell the mortgaged property or any part thereof by public auction and appropriate' the proceeds thereof towards total or partial satisfaction of the outstanding mortgage money.

During audit of House Building Finance Company Ltd (HBFCL) Head Office, Karachi for the year 2022, it was observed that the management failed to achieve disbursements and non-performing loan reduction targets amounting to Rs 4,117.000 million (Annex-36).

Audit is of the view that non-achievement of disbursement targets and non-performing loan reduction targets reflected negligence and poor financial management.

The matter was reported to the management in December 2023. The irregularity was discussed in DAC meeting held on January, 25, 2024.

- a. The management informed the DAC that the target set for CY'22 was the highest target ever set in history of HBFC, also the performance achieved during tenure was the highest of all performance of business in history of HBFC.
- b. The management informed the DAC the NPL reduction target (budget) for 2022 set by the management was 506 Million. Actual reduction at the end of 2022 was 393.5 Million. The increased target of 700 Million was internally set by the recovery department to get the maximum out of the recovery team and achieve results exceeding expectations.

DAC directed the management to provide aging and get verified the recovered amount.

Audit recommends implementation of the DAC directives.

(DP No. 712, 715 & 721)

8.1.4.2 *Borrowing beyond approved limit – Rs 3,963.000 million*

As per HBFCL Treasury Policy 2022 states that these limits may be restricted to PKR 200 million in unsecured limits and PKR 2 billion in repurchase or reverse repurchase transactions for financial institutions rated not below A minus by a SBP approved rating agency.

During audit of House Building Finance Company Ltd (HBFCL) Head Office, Karachi for the year 2022, it was observed that the management borrowed Rs 13,034 million from State Bank of Pakistan (SBP) on account of Repo through Open Market Operations (OMO) against the approved limit of Rs 2,000.000 million as detailed below:

Rs in million

S#	Date of Borrowing	Borrowing Amount	Approved limit	Excess
1	19-Aug-22	1,889	2,000	111
2	19-Aug-22	927		
3	16-Sep-22	500	2,000	1500
4	16-Sep-22	2,000		
5	16-Sep-22	2,000		
6	23-Sep-22	3,100	2,000	1,100
7	21-Oct-22	748	2,000	1,252
8	21-Oct-22	934		
9	21-Oct-22	936		
Total				3,963

Audit is of the view that management made excess borrowing of Rs 3,963.000 million in violation of rules which is irregular and unjustified.

The matter was reported to the management in December 2023. The irregularity was discussed in DAC meeting held on January, 25, 2024. The management informed that these transactions were executed under the treasury policy prior to the one approved on October 28, 2022. DAC directed the management to get the investment data verified in connection to SBP circular.

Audit recommends implementation of the DAC directives.

8.1.4.3 Non-recovery of loans & outstanding penalties - Rs 3,734.054 million

Section 15(4) of Financial Institutions (Recovery of Finance) Ordinance, 2001, states that where a mortgager fails to pay the amount and after the due date given in the final notice has expired, the financial institution may, without the intervention of any Court, sell the mortgaged property or any part thereof by public auction and appropriate the proceeds thereof towards total or partial satisfaction of the outstanding mortgage money.

During audit of House Building Finance Company Ltd (HBFCL) Head Office, Karachi for the year 2022, it was observed that a number of loans were sanctioned to various customers for purchase & construction of houses which were not recovered. Furthermore, penalties on late payment of loans were also not recovered (Annex-37). The details are as under:

S #	Description	Rs in million
1.	Defaulting customer of various regions	3,081.000
2.	Less recovery against the assigned targets	307.000
3.	Non-recovery from penalties	346.054
Total		3,734.054

Audit is of the view that the management failed to recover outstanding amount of Rs 3,734.054 million which reflected inefficiency and negligence.

The matter was reported to the management in December 2023. The irregularity was discussed in DAC meeting held on January, 25, 2024.

- a. The management informed that the observation is incorrect as the complete portfolio was reported as non-performing without analyzing the classification of the portfolio. The non-performing portfolio was 2.82 billion instead of 16.8 Billion.
- b. The management informed the DAC that accounts auction under Section 15 of FIO were properly mortgaged and the company did not have to face prolonged court proceedings in this regard, secondary collateral was a credit decision and the matter might be taken up with credit for decision. The NPL reduction target (budget) for 2022 set by the management was 506 Million. Actual reduction at the end of 2022 was 393.5 million.
- c. The management informed the DAC that Rs 23.000 million were recovered.

The DAC directed the management to provide the aging of the receivables and get recovered amount verified by Audit and pursue the recovery vigorously.

Audit recommends implementation of the DAC directives.

(DP No. 706, 713 & 728)

8.1.4.4 Irregular borrowing by using employees' funds – Rs 1,084.000 million

According to Section 218 (1) of Companies Act, 2017 Employees' provident funds, contributory retirement funds and securities, all moneys or securities deposited with a company by its employees in pursuance of their contracts of service with the company shall be kept or deposited by the company within fifteen days from the date of deposit in a special account to be opened by the company for the purpose in a scheduled bank or in the national saving schemes, and no portion thereof shall be utilized by the company except for the breach of the contract of service on the part of the employee as provided in the contract and after notice to the employee concerned.

During audit of House Building Finance Company Ltd (HBFCL) Head Office, Karachi for the year 2022, it was observed that the management made borrowings from invested securities by using Employees Gratuity, Contributory Provident & Pension funds in violation of above rules. The detail is as under:

Rs in million						
S#	Borrowed From	Borrowing Date	Maturity Date	Borrowing Amount	Rate (%)	Borrowing Settlement
1	G.F	08-Dec-22	09-Dec-22	185,059	17	185,144
2	C.P.F	08-Dec-22	09-Dec-22	633,924	17	634,215
3	E.P.F	08-Dec-22	09-Dec-22	182,763,099	17	182,847,057

4	E.P.F	08-Dec-22	09-Dec-22	33,133,367	17	33,148,588
5	C.P.F	09-Dec-22	12-Dec-22	634,215	16	635,073
6	G.F	09-Dec-22	12-Dec-22	185,144	16	185,395
7	E.P.F	09-Dec-22	12-Dec-22	33,148,588	16	33,193,454
8	E.P.F	09-Dec-22	12-Dec-22	182,847,057	16	183,094,539
9	E.P.F	12-Dec-22	13-Dec-22	183,094,539	17	183,177,809
10	C.P.F	12-Dec-22	13-Dec-22	635,073	17	635,362
11	G.F	12-Dec-22	13-Dec-22	185,395	17	185,479
12	E.P.F	12-Dec-22	13-Dec-22	33,193,454	17	33,208,550
13	E.P.F	13-Dec-22	14-Dec-22	33,208,550	16	33,223,107
14	E.P.F	13-Dec-22	14-Dec-22	183,177,809	16	183,258,106
15	E.P.F	14-Dec-22	15-Dec-22	33,223,107	16	33,237,898
16	E.P.F	14-Dec-22	15-Dec-22	183,258,106	16	183,339,694
Total				1,083,506,486		1,084,189,470

Audit is of the view that the management made borrowing settlement of Rs 1,084.000 million which reflects negligence and stands irregular and unjustified.

The matter was reported to the management in December 2023. The irregularity was discussed in DAC meeting held on January, 25, 2024. The management informed the DAC that HBFC was the custodian of all employees' fund and hold fixed income bonds of PKR 5.504 billion as of 8th Dec 2022 on behalf of all employees' funds. In our responsibility, we received funds of PKR 216.7 million resulting from coupon maturity on 8th Dec 2023 from GoP via SBP. Out of PKR 216.7 million, PKR 182.76 million resulted from securities held by Employees' Pension funds. HBFC treasury has been given a mandate by employees' fund trustee to manage its fund at the best possible return. Employees' fund accounts with schedule banks were paying 14.50% in the month of Dec 2022.

DAC directed the management to get verified the charter of demand and approval of trust.

Audit recommends implementation of the DAC directives.

8.1.4.5 Loss due to encroachment of land – Rs 121.121 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of House Building Finance Company Ltd (HBFCL) Head Office, Karachi for the year 2022, it was observed that actual covered area of Faisal Town Commercial, Lahore was 9.86 kanals but the

same was reported as 7 kanals due to encroachment 2.86 kanals equal to 1,730.3 sq. yd @ of Rs 70,000 per sq. yd amounting to Rs 121.121 million.

Audit is of the view that the management sustained a loss of Rs 121.121 million due to encroachment of land which reflects negligence and inefficiency.

The matter was reported to the management in December 2023. The irregularity was discussed in DAC meeting held on January, 25, 2024. The management informed the DAC that HBFC was allotted 200 kanal land for construction of houses in faisal town scheme out of which 09 kanals 17 marlas 47 sq ft. amenity plot was earmarked for a bus stop, mosque and shops. However, mosque was constructed by the area residents themselves, therefore; the available area of the plot as per physical is approximately 07 Kanals. The DAC directed the management to again take up the matter with LDA for removal of encroachment.

Audit recommends implementation of the DAC directives.

8.1.4.6 Increase in non-performing loans and cost – Rs 117.000 million

Duties and responsibilities of Group Head- Business & Operations include among others, monitoring the disbursements of loans of the branches in South, Central and North regions and monitoring key factors and drivers that influence business operational performance and develop strategies and recommend improvements to enhance the financial performance of the company.

Regional Head is mainly responsible to manage overall business, administrative and financial affairs of the region and achieve organization's objectives.

During audit of House Building Finance Company Ltd (HBFCL) Head Office, Karachi for the year 2022, it was observed that the management failed to achieve the assigned reduction of Non-Performing Loans (NPLs) targets in various branches despite incurring an expenditure of Rs 107.000 million. This also resulted in increase of NPLs amounting to Rs 41.000 million. The detail is as under:

Rs in million

Region	S#	Branch	Target	Achieved	% Achieved	Required NPLs	Total Cost
South	1	Karachi	147	(106)	(72)	41	11
Central	2	Multan	29	(14)	(50)	14	9
South	3	Khairpur	18	(8)	(47)	9	5
North	4	Islamabad	10	(7)	(67)	3	50
Central	5	Rahim Yar Khan	8	(5)	(61)	3	7
Central	6	Faisalabad	33	(30)	(92)	3	9
Central	7	Bahawalpur	4	(1)	(38)	2	7
Sub-total			248	(172)	(426)	76	98

Region	S#	Branch	Target	Increased	% increased	Required NPLs	
North	1	Peshawar Branch	-7	-2.7	-40	10	9
Central	2	Gujranwala Branch	31	-0.1	(0.4)	32	-
Sub-total			25	(3)	(40)	41	9
Grand Total			272	(174)	(467)	117	107

Audit is of the view that due to poor performance, not only the cost was increased but NPLs have also been increased which reflected negligence and weak financial management.

The matter was reported to the management in December 2023. The irregularity was discussed in DAC meeting held on January, 25, 2024.

- a. The management informed the DAC that expenses were incurred to refurbish and relocate branches for business potential in different locations, this expenditure was incurred for renovation and relocation project where branches were located in residential areas with extremely poor working conditions.
- b. The management informed the DAC that NPLs in Gujranwala branch reduced by Rs 15.59 million and in Peshawar branch reduced by Rs 4.32 million as of November, 2023. Audit contented that the cost was 61% of the reduced NPLs 174 million and management should find the reasons of loss making branches.

The DAC directed the management to rationalize the expenditure and efforts might be made to reduce the NPLs.

Audit recommends implementation of the DAC directives.

(DP No. 707 & 714)

8.1.4.7 Payment of dual rent for branches – Rs 0.909 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that The chief executive is responsible for the management of the public sector company and for its procedures in financial and other matters, subject to the oversight and directions of the board, in accordance with the ordinance and these rules.

During audit of House Building Finance Company Ltd (HBFCL), Karachi for the year 2022, it was observed that after the instructions of relocation of branches, rent was paid for more than one location in Khairpur city. The detail of rental payment is as under:

Name of Branch	Name of Property Owner	Date of Contract Execution	Renewal Due Date	Rent Per Month (Rs)	Payment already made till	Amount (Rs)
Khairpur (Old)	Mr. Ghulam Murtaza Suhag	September 1, 2022	July 31, 2023	28,118	July 31, 2023	309,298
Khairpur (New)	Mr. Amanullah Shaikh	December 29, 2022	December 28, 2032	50,000	December 28, 2023	600,000
Total						909,298

Audit is of the view that the management paid dual rental charges to branches which reflects negligence and slackness. Thus, expenditure incurred amounting to Rs 0.909 million was held irregular and unjustified.

The matter was reported to the management in December 2023. The irregularity was discussed in DAC meeting held on January, 25, 2024. The management informed the DAC that due to the prevailing economic conditions; the relocation and subsequent Renovation of Branch Office, Khairpur was put on hold by the Management as conditions were not favorable for business. The DAC directed the management to conduct fact-finding inquiry.

Audit recommends implementation of the DAC directives.

8.1.4.8 Irregular promotions of employees on fast track basis

Rule 5 (1) of the Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its power and carry out fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

According to HBFC Promotion Policy, 2019 dated 08-09-2020, (14) Promotion on Fast Track Basis up-to EVP (OG-7): 14.1 the mode of promotion on fast track will be used on exceptional basis for high potential officers and to retain the talent. Following criteria will be observed while recommending promotions on fast track basis: (a) the minimum service period in the current grade should be at least two yearly PMS/ PER reports. (b) The concerned group head shall submit a detailed report on the achievements of the officer to be considered for fast track promotion stating his/her key performance indicators (KPIs), contribution in achievement of departmental/ organizational objectives.

During audit of House Building Finance Company Ltd (HBFCL) head office, Karachi for the year 2022, it was observed that various officers were promoted on fast track basis despite being junior in the seniority list. The KPIs of all employees were incomplete as no grading was mentioned to reflect them as exceptional performers to justify their promotions on fast track. In fact, it was revealed that the assigned targets were not achieved by promoted employees. The detail of promoted employees on fast track basis is as under:

S#	Name of Employee	Promotion date	Promoted to Designation	Number in seniority list

1	Mr. Kazim Raza Bhayani	15.3.2023	SVP	7 th
2	Ms. Samina Naveed	15.3.2023	VP	16 th
3	Mr. Fakhar Abbass	15.3.2023	AVP	68 th
4	Mr. Hammad Hassan	15.3.2023	Manager	30 th

It was also observed that Mr. Kazim Raza Bhayani SVP was promoted on fast track basis despite his appointment and previous promotions were objectionable.

Audit is of the view that the management extended undue favor to the officers in their promotions which undermined the rights of other deserving employees.

The matter was reported to the management in December 2023. The irregularity was discussed in DAC meeting held on January, 25, 2024. The management informed the DAC that promotions of above mentioned officers were made in accordance with relevant rules & laws. Further, the appointment and promotion of Mr. Kazim Raza were made in accordance with policy. The DAC directed the management to provide the annual grading reports along with achievement of targets to Audit for verification. Further, matter regarding appointment and promotion of Mr. Kazim Raza place before the PAC.

Audit recommends implementation of the DAC directives.

(DP No.730, 727 & 731)

8.1.4.9 Unjustified revision of promotion policy

Rule 7 of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall also formulate significant policies of the Public Sector Company, which may include the following, namely:
- Human resource policy including succession planning.

Rule 12 (c) of Public Sector Companies (Corporate Governance) Rules, 2013, Human Resource Committee, to deal with all employee related matters including recruitment, training, remuneration, performance evaluation, succession planning, and measures for effective utilization of the employees of the Public Sector Company;

During audit of House Building Finance Company Ltd (HBFCL) Head Office, Karachi for the year 2022, it was observed that the management formulated a new policy titled as fast track promotion policy on 08-09-2020 in parallel with existing HR promotion policy issued on 16-11-2018. The comparison of both policies is as under:

Old promotion policy as on 16.11.2018					Revised promotion policy as on 08.09.2020	
No. of minimum & maximum years	3 to 5 years	Improvement in qualification (%)	Seniority (%)	Interview (%)	Designation	No. of minimum & maximum years

					Up to Manager	3 to 5 years
					AVP to EVP	4 to 6 years
					SEVP	On the recommendation of MD & approval from BoD
	PMS / PERs grading				On fast track up to EVP OG- 7	2 yearly PMS/ PERs reports
JOs OG-1	60	10	10	20	Same as Previous	
AM OG-2	60	10	10	20		
MGR OG 3	50	10	10	30		
AVP OG-4	50	10	10	30		
VP OG-5	50	-	10	40		
SVP OG-6	50	-	10	40		
EVP OG-7	40	-	10	50		
SEVP OG-8	40	-	10	50		

It is evident from the above table that in fast track promotion policy, two yearly service period PMS/PER reports were needed. These reports were prepared and submitted by concerned group heads on unidentified standards without establishment of sound SOPs. In addition to that, promotional parameters were vague. Only 10% weightage was given to improvement in qualification for OG 1 to OG 4. However, there was no percentage required for VP, SVP, and AVP to improve their qualifications and get certain weightage. Moreover, no regular promotions were made during last four years, only selected employees were being promoted on fast track irrespective of their true performance.

Audit is of the view that the fast track promotion policy was unequal and detrimental to the organization as it was favoring few employees.

The matter was reported to the management in December 2023. The irregularity was discussed in DAC meeting held on January, 25, 2024. The management informed the DAC that BoD was authorized to create or approve policies and the HR policy did not benefit particular employees. The DAC directed the management to place the policy before BoD for reassessment.

Audit recommends implementation of the DAC directives.

8.2 National Bank of Pakistan

8.2.1 Introduction

National Bank of Pakistan is a leading Commercial Bank established on November 8, 1949 under the National Bank of Pakistan Ordinance 1949 by Government of Pakistan (where Government of Pakistan is major shareholder as more than 75 % of total No of shares are owned by GoP). Bank Regions are: Far East / Asia Pacific, South Asia, Middle East, Central Asia, Europe & North America. The Bank operates with 34 Foreign Branches / Offices & 1,450+ Branches in Pakistan.

8.2.2 Comments on Audited Accounts

8.2.2.1 The working results of bank for the year ended December 31, 2022 as compared to previous years are given below:

(Rs in million)

	2022	% Inc /Dec	2021	% Inc /Dec	2020
Markup/Return /Interest earned	503,310	117.05	231,883	-10.06	257,811
Markup expense	386,474	187.80	134,285	-12.60	153,652
Capital gain & dividend income	6,193	-42.22	10,718	9.95	9,748
Profit after tax	30,410	8.58	28,008	-8.35	30,559
Bills payable	55,268	152.97	21,848	30.09	16,795
Borrowings	1,940,486	520.11	312,925	125.88	138,539
Deposits & other accounts	2,666,184	-11.69	3,019,155	37.36	2,198,049
Non-performing loans	205,300	3.72	197,938	15.55	171,294
Return on equity	12.68%	-6.07	13.50%	-21.51	17.20%

The markup/Return/interest earned by the Bank increased by 117.05%, from Rs 231,883 million in 2021 to Rs 503,310 million in 2022 due to high interest rates. Markup expense/payments has seen a drastic increase of 187.80% during 2022, from Rs 134,285 million in 2021 to Rs 386,474 million in 2022. This higher increase has overshadowed the interest earned, which is mainly due to payments to depositors at higher interest rates prevailing during 2022 and securities sold under repurchase agreements (Repo & Reverse Repo).

8.2.2.2 Capital gain & dividend income declined by 42.22%, from Rs 10,718 million in 2021 to Rs 6,193 million in 2021. This change is mainly due to weak economic conditions in the country, investments in non-dividend paying companies and less diversification of investment portfolio.

8.2.2.3 Bills payable of the bank reflected an increase of 152.97%, from Rs 21,848 million in 2021 to Rs 55,268 million in 2022, which shows NBP's liability on account of import LCs.

8.2.2.4 Borrowings of NBP increased by 520.11%, from Rs 312,925 million to Rs 1,940,486 million in 2022, this increase shows that NBP has entered into short term agreements and purchase securities from market for investment purpose.

8.2.2.5 Deposits & other accounts witnessed a decline of 11.69% during 2022, from Rs 3,019,155 million in 2021 to Rs 2,666,184 million in 2022; this major decrease is due to decline in deposits of financial institutions.

8.2.2.6 Non-performing loans of NBP has been increased by 3.72%, from Rs 197,938 million in 2021 to Rs 205,300 million in 2022. This is an indicator of slow or poor loan & recovery management.

8.2.2.7 Return on equity, a key performance indicator seen a decline of 6.07% in 2022, from 13.50% in 2021 to 12.68% in 2022, this decline is mainly due to decrease in surplus on revaluation of assets.

8.2.2.8 Debt to equity ratio has seen an increase of 1.70% in 2022; debt is 94.26% of equity in 2022 as compared to 92.56% in 2021, this is due to increase in overall debts of the bank.

8.2.2.9 Current ratio of the bank is 1.0493 times in 2022 as compared to 1.0802 in 2021. Decline of 0.03 times is due to increase in liabilities of the bank.

8.2.3 Compliance of PAC Directives

There were no pending PAC directives for compliance.

8.2.4 Audit Paras

8.2.4.1 *Loss due to defaulted loans against in-adequate guarantees – Rs 190,710.790 million*

Section 15(4) of Financial Institutions (Recovery of Finance) Ordinance, 2001, states that where a mortgager fails to pay the amount and after the due date given in the final notice has expired, the financial institution may, without the intervention of any Court, sell the mortgaged property or any part thereof by public auction and appropriate' the proceeds thereof towards total or partial satisfaction of the outstanding mortgage money.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management granted various types of loans to different borrowers, but failed to safeguard and recover advances/ loans of Rs 190,710.790 million (Annex-38) from the concerned parties. Resultantly, the management considered it as a loss and accordingly made its provision and might convert into write off.

Audit is of the view that the non-recovery of loans on time was poor financial management and violation of recovery policy causing huge losses to the organization.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that properties were mortgaged of all borrowers with NBP, some cases were under litigation. However, an amount of Rs 12,439.30 million has been recovered. The DAC directed to make efforts for early recovery, pursue the legal cases and auction the mortgaged property as per Ordinance.

Audit recommends implementation of the DAC directives.

8.2.4.2 Non-recording of contingencies / provisioning in respect of pensionary benefits to retired employees - Rs 89,700.000 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that employees of the Bank were getting pension in compliance with Federal Government instructions letter No.17(9) 17 XI/ 177 dated November 30, 1977. However, the management vide Circular No.371/1999, revised the formula for monthly gross pension of Bank employees, effective from January 01, 1999. After attaining the age of superannuation, the employees filed Writ Petitions before the Lahore High Court and the Peshawar High Court, praying for re-calculation of their pensionary benefits and increases and furthermore, for allowing the increases in their pension as per the increases allowed by the Federal Government to its employees in the year 2010 & 2011. The Lahore High Court decided the matter in favour of employees and also dismissed the Intra Court Appeals filed by Bank. The Honorable Supreme Court of Pakistan vide its judgement dated September 25, 2017 upheld the decision of the Lahore High Court. Later on, the Bank filed review petitions against the aforesaid judgment which was still pending.

Further, the management did not record the contingent liability / make provisioning in respect of pensionary benefits to retired employees amounting to Rs 89,700.000 million in Annual Report 2022.

Audit is of the view that non-recording of the contingent liability/ provisioning of pensionary benefits resulted into overestimation of assets and underestimation of liabilities which reflected poor financial management.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that based on opinion of the legal counsel, the bank believes that outcome of the case would be favourable. Accordingly, no provisioning was made. The DAC directed the management to pursue the case vigorously and clarification regarding recording of contingent liabilities may also be sought from SECP. Further, share the total legal and professional expenses incurred in respect of subject case since inception to Audit.

Audit recommends implementation of the DAC directives.

8.2.4.3 Loss due to granting financing / credit facilities to the company involved in fraudulent activities – Rs 23,866.381 million

Clause 9.12.5 of Chapter 9 of Credit Management Policy of NBP requires that an important component to be assessed in Credit investigation process. It involves determining respectability, reputation and commercial integrity of the borrower i.e. Borrower's relationship with the suppliers/ customer and

commitment towards satisfying the trade related obligations and debt repayment” and CPB clause 14.72 requires to discuss Major suppliers and Major Customers (buyers) in Credit Proposals.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management extended various financing / credit facilities without keeping in view the relevant prudential regulations while granting such facilities to M/s Hascol Petroleum Limited, without assessing its financial worth. The details of financing facilities extended by the Bank are given as under:

(Rs in million)				
S #	Finance Facility	Date of finance	Amount of Principal	Total outstanding with mark up as on 31.08.2022
1.	Term loan	09.03.2016	500.00	115.989
2.	Term loan	22.05.2018	1,050.00	853.261
3.	Term Loan	21.05.2018	600.00	422.811
4.	FPAD (forced payment against documents)	2016 to 2020	35,645.71	12,465.43
5.	Running Finance facility	18.10.2018	15,356.19	1,206.15
6.	Restructured term loan	22.06.2020	7,100.55	8,605.47
7.	Diminishing Musharakah		500.00	197.27
Total				23,866.381

Following irregularities were observed:

1. Personal and corporate guarantees held by NBP as security were removed and un-tagged without clearance/adjustment of loans in credit committee 613th meeting dated November 21, 2017.
2. SEVP, corporate banking group recommended and allowed routing of credit proposal through his own group instead of routing it through investment banking group.
3. Group chief CIBG recommended and allowed additional running finance facility of Rs 1,000 million vide credit committee meeting 613th dated November 21, 2017 HPL against the security of stocks and receivables that were already encumbered against LC lines.
4. Instead of reducing exposure, aggressive exposure was allowed to the company despite oil industry was facing many challenges in 2018 and decline in profitability of most of oil refineries and OMCs at that time including HPL, increased letter of credit facility from Rs 12,000 million to Rs 18,000 million on October 01, 2018.
5. Allowed charge up-gradation deferrals and opening of LC in presence of overdue FATR/FPADs (forced payment against documents).

6. Allowed restricting facilities i.e. conversion of short term facilities into long term facilities.
7. Allowed and converted defaulted LCs of Rs 8,000 million to long term loan and LC line was reduced to Rs 10,000 million from Rs 18,000 million.
8. Again allowed opening of LCs in presence of overdue to utilize full LC limit of Rs 18,000 million just lapse of about one month.
9. Condition of maintaining FPADs at the level of Rs 8,000 million for restricting was also relaxed.
10. Subsequently management filed a law suit No. B-47 of 2022 against the defaulter in the High Court of Sindh.

The FIA has submitted challan against 11 officers in the law Court, whereas 08 officers resigned from NBP before the case surfaced and received all end service benefits (Annex-39).

Audit is of the view that the management unjustifiably granted financing facilities and extended undue favor to the involved officers which needed to be probed at highest level.

The matter was reported to the management on October 23, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that disciplinary action against the concerned employees were under process and legal proceedings against the company were started. DAC directed to take action against the involved employees of NBP and pursue the legal case properly for recovery of amount and share inquiry report with Audit.

Audit recommends implementation of the DAC directives.

(DP No. 832 & 835)

8.2.4.4 Default of loan by sugar mills - Rs 23,348.040 million

Section 15(4) of Financial Institutions (Recovery of Finance) Ordinance, 2001, states that where a mortgager fails to pay the amount and after the due date given in the final notice has expired, the financial institution may, without the intervention of any Court, sell the mortgaged property or any part thereof by public auction and appropriate' the proceeds thereof towards total or partial satisfaction of the outstanding mortgage money.

During audit of National Bank of Pakistan (NBP) for the year 2022, it was observed that the management granted advances / loans of Rs 15,283.000 million to various sugar mills (Annex-40). However, management failed to recover the amount of loan from the above parties and the amount was shown as a loss. This indicated that the loans/advances were not properly secured as per prevailing policies of SBP which resulted in non-repayment of loan of Rs 23,348.040 million (principal Rs 15,283.000 million & interest Rs 8,065.040 million).

Audit is of the view that non-recovery of loans tantamount to gross negligence and weak financial management by the NBP authorities which resulted in massive loss to the bank.

The matter was reported to the management on November 06, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that efforts were being made to recover the amount from defaulted sugar mills. The DAC directed the management for early recovery of defaulted amount and pursue the case vigorously and also directed to place the para before PAC.

Audit recommends implementation of DAC directives.

8.2.4.5 Non-recovery of loan from the borrowers at NBP Hyderabad Region - Rs 18,079.65 million

Section 15 (4) of the Financial Institutions (Recovery of Finances) Ordinance, 2001 states that where a mortgagor fails to pay the amount as demanded within the period prescribed under sub-section (2), and after the due date given in the final notice has expired, the Financial Institution may, without the intervention of any Court, sell the mortgaged property or any part thereof by public auction and appropriate the proceeds thereof towards total or partial satisfaction of the outstanding mortgage money.

During audit of National Bank of Pakistan (NBP), Hyderabad Region for the year 2022, it was observed that management granted/renewed/enhanced financing facilities to the borrowers under various categories at NBP Hyderabad region, who defaulted in repayment of their loans of Rs 18,079.65 million. The detail is given as under:

S#	No of Borrowers	Category	Rs in million
1.	1940	Irregular	17,661.78
2.	145	Substandard	168.21
3.	504	Watch list	249.66

Total	2589		18,079.65
--------------	-------------	--	------------------

It was further observed that in some defaulted cases, the borrowers were near to default or defaulted and to the same borrower was granted another loan as enhancement / restructuring of the previous loan with opening of a new bank account in the same branch. This restructuring was done without recovery of previous loans in violation of rules.

Audit is of the view that non-recovery and subsequent restructuring of loans was irregular and against the rules to give undue favor to the selected borrowers.

The matter was reported to the management on November 06, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that enhancement in loan were made after recovery of previous loans and bank authorities were making efforts for recovery of outstanding loans. DAC directed the management to provide relevant record for verification and make efforts for early recovery of remaining amount.

Audit recommends implementation of DAC directives.

8.2.4.6 Loss due to allowing excess salary to the MTOs - Rs 17,500.000 million

Rule 5(1) of the Public Sector Companies (Corporate Governance) Rules, 2013 states that the directors of a Board shall be persons who, in opinion of the Government, shall assist the Public Sector Company to achieve its principal objective and the Board shall accordingly exercise its powers and carry out its fiduciary duties with a sense of objective judgment and in the best interest of the company.

During audit of National Bank of Pakistan (NBP) for the year 2022, it was observed that the management allowed salary to the Management Trainee Officers in excess of salary paid to the regular employees. The regular employees challenged the decision of management in High Court of Sindh, Sukkur which was decided in their favor. The management challenged the decision in the Supreme Court of Pakistan, which was also decided in the favor of regular employees. Subsequently, management opted for out of court settlement with the regular employees and had to pay an amount of Rs 17.5000 billion to the employees as difference of pay and allowances.

Audit is of the view that the management extend undue favor to the newly recruited officer, while fixation of salary beyond the minimum approved salary, which caused continuous burden on the Bank.

The matter was reported to the management on December 21, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that the enhanced salary was allowed as per advertisement and new structured posts. DAC directed to share the relevant documents with Audit.

Audit recommends implementation of DAC directives.

8.2.4.7 Loss to national exchequer due to loan default– Rs 17,200.570 million

Rule 5 (1) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the board shall exercise its power and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management granted two advances/ loans of Rs 10,302.350 million and Rs 6,898.210 million to M/s Tuwairqi Steel Mills Limited without observing the financial position of company and obtaining proper security against loans. In September, 2014 company defaulted in repayment of loan amounting to Rs 17,200.570 million.

Audit is of the view that the management failed to follow the policy of securing the advances and extended undue favor by non-recovering and non-filing of suit in the Court against the party. Thus, national exchequer sustained a loss of Rs 17,200.570 million excluding interest.

The matter was reported to the management on October 31, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC about the latest status of defaulted loans. The DAC directed to place the para before the PAC.

Audit recommends implementation of DAC directives.

8.2.4.8 Non-recovery of loan from borrowers of various categories – Rs 17,120.710 million

Section 15 (4) of the Financial Institutions (Recovery of Finances) Ordinance, 2001 states that where a mortgagor fails to pay the amount as demanded within the period prescribed under sub-section (2), and after the due date given in the final notice has expired, the Financial Institution may, without the intervention of any Court, sell the mortgaged property or any part thereof by public auction and appropriate the proceeds thereof towards total or partial satisfaction of the outstanding mortgage money.

During audit of National Bank of Pakistan (NBP) for the year 2022, it was observed that the management granted/renewed/enhanced financing facilities to the borrowers amounting to Rs 17,120.710 million (Annex-41) under various categories, the borrowers defaulted and repaying their loan not in time, due to which the same has been categorized as irregular and on watch list.

Audit is of the view that the management failed to pursue the cases of repayment of loans by the borrowers which reflects negligence and poor recovery mechanism.

The matter was reported to the management on December 06, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that this is regular portfolio and varies from time to time. DAC directed the management to recover the amount at earliest.

Audit recommends implementation of DAC directives.

8.2.4.9 Posting of suspicious entries in blocked head of account – Rs 9,338.050 million

Clause 2(a) of the agency agreement between State Bank of Pakistan and National Bank of Pakistan made on this day of 2022 states that:

- (a) To collect taxes, duties, fees, levies and receipts of whatever description or nomenclature [hereinafter referred to as "receipts"], of the Federal Government, Provincial Governments and District Governments;
- (b) To effect payments of Federal Government, Provincial Governments and District Governments;
- (c) To maintain separate counters at the designated branches dealing with Government receipts and payments wherever prescribed by the Bank and agreed by the National Bank.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi and special study of Role of NBP as agent of SBP for the years up to 2022, it was observed that the management at Shikarpur Branch collected government receipts and posted an amount of Rs 9,338.050 million from July 2021 to June, 2022 in the blocked head of chart of account. The detail is given as under:

Branch Name	BRCOD	ZAHEAD	ZPROV	Prov	Category	CAN	Total (Rs)
MB Shikarpur	61	B02105	FED	F	B AND C	11646205	9,388,054,241

As per Chart of accounts, the above head of account 'B02105' pertaining to "Sea Custom" was marked as blocked and non-functional. However, the management entered the collection and posted the amount into blocked head of account.

Audit is of the view that the chances of deliberate posting of entries of revenue collection in the blocked head of account reflects negligence and slackness.

The matter was reported to the management on October 24, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that blocked Head of account was not in the knowledge of branch, however the amount was transferred to the Federal Government account. DAC directed the management to provide relevant record for verification.

Audit recommends implementation of DAC directives.

8.2.4.10 Default of loan regarding import financing and investment – Rs 9,055.680 million

Rule5(1) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the board shall exercise its power and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management granted advances/loans amounting to Rs 5, 771.230 million to M/s ASG Metals for the purpose of import financing and investment during the years 2012 to 2021(Annex-42). However, the management failed to recover the amount of loan and the amount had been shown as loss

which indicated that the loans/advances were not properly secured. Further, the party continued default in repayment of loan and additional loans were granted without receiving the previous payments and party defaulted in repayment of loan Rs 9,055.68 million (Rs 5,771.230 million principal and Rs 3,284.290 million interest).

Audit is of the view that the management extended undue favor to the defaulted party by granting continuous loans against the SOPs thus causing massive losses to the bank.

The matter was reported to the management on November 01, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC about the latest status of defaulted on import financings. DAC maintained the para to be decided by PAC.

Audit recommends implementation of DAC directives.

8.2.4.11 Unjustified enhancement of HBF advance to employees - Rs 8,687.700 million

Rule 5 (5) of the Public Sector Companies (Corporate Governance) Rules, 2013 states that the Board shall establish a system of sound internal control, which shall be effectively implemented at all levels within the Public Sector Company, to ensure compliance with the fundamental principles of probity and propriety; objectivity, integrity and honesty and relationship with the stakeholders, in the following manner, namely:- (a) the principle of probity and propriety entails that company's assets and resources are not used for private advantage and due economy is exercised so as to reduce wastage."

During audit of National Bank of Pakistan (NBP) for the years 2022, it was observed that management of NBP granted House Building Finance advance at nominal markup rate to its employees and allowed frequent enhancement after every three years. Following irregularities were observed in HBF loan to the employees (Regular/contract):

1. House Building Advance was granted to the employees on nominal interest rate of just 3% against the SBP approved rate of 18%. In 2022 an amount Rs 57,918.000 million of HBA was outstanding against NBP employees on which NBP was charging less interest amount of Rs 8,687.700 million (18% - 3% = 15%).
2. HBA policy of government allows advance equal to 36 basic salaries of the employees, whereas the bank allowed 180 basic salaries of NBP employees.
3. The government of Pakistan has allowed maximum three times house building advance subject to clearance of previous HBF loan, whereas the bank is frequently allowing enhancement/revision of HBA after every three years/ on promotion without clearing previous HBF loan.
4. On enhancement of HBA, the property is revalued by the NBP evaluators and the evaluators mostly evaluate the value of property more than its revised enhancement entitlement. This indicates that the valuation of property is not properly made as per actual market value, as in one case while review, the value of property was Rs 500,000 in small town of Sindh in 2003 and it was revalued in 2022 for more than Rs 60,000,000, which seems illogical.

Audit is of the view that the management was providing undue favor to its employees which needed to be reconsidered.

The matter was reported to the management on December 13, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that follows the industry practice and HR policies in HBF loan. DAC maintained the para to be decided by PAC.

Audit recommends implementation of DAC directives.

8.2.4.12 Loss due to poor performance of groups -Rs 7,507.000 million

Section 4(3) of Public Sector Companies (Corporate Governance), 2013 Rules states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During the audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management changed the organizational structure and introduced various new groups but the performance of following groups in terms of profit / (loss) was declining. The collective loss of the 04 groups was Rs 7,507.000 million as detailed below:

Rs in million (As of 31.12.2022)

Group name	No. of Employees	Profit/(Loss) before Tax		
		2020	2021	2022
Inclusive Development Group (IDG)	633	(1,226)	(1,559)	(5,331)
Corporate and Investment Banking Group (CIBG)	161	(18,690)	(2,713)	1,926
International, Financial Institution and Remittance (IFRG)	82	(975)	(1,168)	(1,366)
Special Asset Management Group (SAMG) / Head Office	86	(9,418)	(6,744)	(2,736)
Total		(30,309)	(12,184)	(7,507)

Audit is of the view that due to poor financial management and weak administrative controls the above groups were making huge losses which needed to be justified.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC about the reasoning of losses in each group. DAC pended the para to be decided by PAC.

Audit recommends implementation of DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year 2022-23 vide para(s) number 6.2.4.1 having financial impact of Rs 70,087.670 million. Recurrence of same irregularity is a matter of serious concern.

8.2.4.13 Mismanagement of bank funds - Rs 5,793.000 million

As per the NBP document Finances/Bills General Instructions (Operation)

- i) The commodities pledged with the bank should be of current season and readily saleable.
- ii) Stocks pledged for more than six months is a symptom of watch list
- iii) The stocks pledged with the bank must tally with mucaddum / godown keeper's register, branch stock register and party stock register.
- iv) No withdrawal from stocks should be allowed without delivery order.

During audit of National Bank of Pakistan (NBP) for the year 2022, it was observed that M/s Omni group started acquiring financings from NBP since 2008 and a sharp rise in financings was seen during 2012 to 2017. The borrower made shortages of stocks, late repayments of principal / markups, and reported incidents of fraudulent activities. NBP financed cash finance pledge to the extent of Rs 5,793.000 million. It was noted that 90% of bank's funds were utilized in other businesses and only 10% of the financing was available for stocks. The total NBP financed cash pledge was Rs 5,793.000 million against the security of Rs 565.000 million.

Audit is of the view that despite negative reports of mucaddums and non-payment of loans management continued to extend undue favor to the defaulted party against the interest of bank which was irregular and unjustified.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC about the latest status of OMNI group defaulted loans. DAC maintained the para to be decided by PAC.

Audit recommends implementation of DAC directives.

8.2.4.14 Irregular restructuring and non-recovery of loan – Rs 4,212.810 million

Section 15 (4) of the Financial Institutions (Recovery of Finances) Ordinance, 2001 states that where a mortgagor fails to pay the amount as demanded within the period prescribed under sub-section (2), and after the due date given in the final notice has expired, the Financial Institution may, without the intervention of any Court, sell the mortgaged property or any part thereof by public auction and appropriate the proceeds thereof towards total or partial satisfaction of the outstanding mortgage money.

During audit of National Bank of Pakistan (NBP) for the years 2022, it was observed that the management restructured the loan of M/s JK Sugur Mill without prior approval of the Board of Directors of NBP. The detail of outstanding loans are as under:

S#	Name of Party	Type of finance	Principal Amount (Rs in million)

1.	JDW Sugar Mills	Demand Finance II	1,068.444
2.	JK Sugar Mill (Formerly AKT)	Demand Finance	1,360.227
3.	JK Sugar Mills	Cash Finance Pledge	691.168
4.	JK Sugar Mills	Demand Finance	1,092.975
Total			4,212.814

Audit is of the view that instead of taking legal action against the defaulter, the management restructured the loans irregularly thus causing losses to the bank.

The matter was reported to the management on December 12, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that Out of Rs 4,212.810 million, Rs 1,199.99 million was recovered as provided in bank statement of JK Sugar. DAC directed the management to get the recoveries verified from audit.

Audit recommends implementation of DAC directives.

8.2.4.15 Loss due to default in repayment of salary advances – Rs 1,827.05 million

Clause 6.1.3 of Credit Policy Manual of NBP defines clear exposure as Financing facility granted without securities including those granted against personal guarantees shall be deemed as ‘clean’ for the purpose of this regulation.

The employer undertaking while granting advance salary states that “we irrevocably undertake that the salary and all other employment related remuneration and payments, including settlements, retirement or end service benefits relating to this employee will only be paid through above stated NBP bank account till the employee has repaid all amounts outstanding and would not be transferred to any other bank/branch unless prior NOC/written confirmation is obtained from NBP Branch Manager/ authorized signatory at the above noted branch.”

During audit of National Bank of Pakistan (NBP) for the year 2022, it was observed that the management granted salary advances to the government/private employees from 2002 to 2022, out of which 9,632 employees defaulted in repayment of salary advances amounting to Rs 1,616.700 million. As per above undertaking, employer in addition to the borrower (employee) was bound to repay the loan granted to the employee of his department, as the loan was granted as ‘Clean’ i.e. on the personal guarantees as defined above. The borrowers were freely transferred and retired without settlement of dues, and the management failed to recover the amount of Rs 1,616.700 million from concerned employee/ department and no action was taken to recover despite undertaking from the employee as well as concerned Department (Annex-43).

It was also observed that the management granted salary advances to the government/private employees from 2012 to 2022 in different regions, out of which 572 employees were not repaying their installment of loan regularly against whom an amount of Rs 210.350 million was outstanding as on December 31, 2022.

Audit is of the view that the management failed to pursue the case of outstanding dues of salary advances properly, due to which the cases of such category 'sub-standard' turn into default/loss.

Audit is of the view that non-recovery of loans and advances was poor financial management and weak internal controls of the management which was unjustified.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that efforts were being made to recover the amount. DAC directed the management to recover the amount at the earliest.

Audit recommends implementation of DAC directives.

(DP No. 849 & 858)

8.2.4.16 Non-closure of branches on time caused outflow of foreign exchange - Rs 1,386.671 million

According to condition No.II of SBP letter No. SBPHOK-EPD-INVTTCR-NBP-204866 dated 24-04-2022, (II)The bank (NBP) shall immediately initiate the branch closure procedure, as approved by their BoD, and gather necessary approvals to finalize the closure of the Paris Branch with minimum possible time but before the end of September 2022.

According to Rule No.33 of Governance Framework for Bank Overseas Operations issued by SBP the bank shall conduct a cost benefit analysis of its overseas Representative Offices on periodic basis and shall consider closing those offices that do not provide any net financial benefit to bank. In cases where bank wants to continue those offices despite the fact that they do not provide any net financial benefit to bank, proper reasons & justifications should be recorded for such a decision at board level.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management operated various foreign branches in different regions which were loss making as detailed below:

(Rs in million)				
Particulars	Chittagong Branch	Baku Branch	Paris Branch	Total Loss
Total Assets	749.876	1,182.751	1,645.595	647.471
Total Liabilities	839.113	30.452	598.472	
Loss for the period	89.672	40.606	517.193	

It was also observed that in April 2022 due to continuous operational losses and stagnant operational status, management decided to close its Paris branch. SBP approved closure of Paris branch with the timelines of September 2022, but the same was not closed till December 2022. During this time, compliance requirements of Paris Central Bank were changed which required further injection of Euro 3.08 million equivalent to Rs 739.20 million (EURO 3,008,000 * Rs 240).

Audit is of the view that non-closure of bank branch on time caused additional outflow of foreign exchange which reflected negligence and poor planning.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024.

- a) The management informed the DAC that operational losses were incurred due to Covid-19 and penalties by regulators. DAC pended the para to be decided by PAC.
- b) The management informed the DAC that due to change in regulatory requirements in France, injection of EURO 3.08 million was inevitable. DAC directed the management to justify the delay in closure of Paris branch.

Audit recommends implementation of DAC directives.

(DP No. 853, 854 & 859)

8.2.4.17 Irregular grant of enhanced loan to the defaulter – Rs 1,327.360 million

Section 15 (4) of the Financial Institutions (Recovery of Finances) Ordinance, 2001 states that where a mortgagor fails to pay the amount as demanded within the period prescribed under sub-section (2), and after the due date given in the final notice has expired, the Financial Institution may, without the intervention of any Court, sell the mortgaged property or any part thereof by public auction and appropriate the proceeds thereof towards total or partial satisfaction of the outstanding mortgage money.

Sr. No. 14 of the sanction advice dated 10.07.2023 mentions that repayment of loan would be made from own sources in lump-sum.

During audit of National Bank of Pakistan, Hyderabad Region for the year 2022, it was observed that management granted/renewed/enhanced financing facilities to 3,673 borrowers under various categories at NBP Hyderabad region, who defaulted in repayment of their loans amounting to Rs 1,327.36 million during 2022. In most of defaulted cases, the management facilitated the defaulter by granting another enhanced loan with opening of new bank account while hiding its previous default account history.

Audit is of the view that non-recovery and subsequent enhancement of loans was irregular and against the rules to give undue favor to the selected borrowers.

The matter was reported to the management on December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that enhancement in loan were made after recovery of previous loans and bank authorities were making efforts for recovery of outstanding loans. DAC directed the management to provide relevant record for verification and make efforts for early recovery of remaining amount.

Audit recommends implementation of DAC directives.

8.2.4.18 Misappropriation by bank staff – Rs 1,125.870 million

According to clause 40 (b) of the National Bank of Pakistan Staff Service Rules, 2021, the act of Misconduct includes “theft, fraud, dishonesty, misappropriation, or embezzlement in connection with employer’s business or property”.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the employees of NBP committed frauds at various branches as detailed below”

- i. Following employees of Phulelli Branch Hyderabad, were found involved in fraud and parallel banking by issuing Term Deposit Receipts (TDR) and Call deposit Receipts (CDR) without recording in books of accounts, utilizing bogus check books with fictitious account numbers, Government payments. An amount of Rs 1,026.470 million was found misappropriated during the year 2020 to 2022.

S#	Name of Official	Description
1.	Mr. Noor Ahmed Chandio	OG-1/Head Cashier (Criminal negligence)
2.	Mr. Muneer Hussain	OG-I/Head Cashier (Criminal negligence)
3.	Mr. Altaf Hussain Gopang	OG-III/Operation Manager (Criminal negligence)
4.	Mr. Aftab Hussain Shaikh	OG-III/Operation Manager(Criminal negligence)
5.	Mr. Muhammad Ismail,	OG-1/Remittance Officer(Criminal negligence)
6.	Mr. Muhammad Asim	VP/Regional compliance & Control head (negligence)
7.	Mr. Muhammad Imran	AVP/Regional Manager Operation (Negligence)

- ii. Mr. Samiullah Memon & others embezzled /pocketed Rs 69.964 million of demand finance gold loan accounts of NBP Qasimabad Branch, RO Hyderabad. However, no recovery was made.

- iii. Mr. Umar Asghar Qureshi, VP and Mr. Usman Arshad, OG-II were involved in fraudulent activities at NBP Jinnah Colony branch and Peoples Colony branch, RO Faisalabad markup on demand finance gold through various fraudulent entries which caused loss of Rs 22.456 million to the bank.
- iv. Mr. Safdar Lashari (OG-II) withdraw Rs 6,978,297 fraudulently at Gulistan-e-Johar Branch Karachi. He managed to transfer the amount mostly to his brother's account from different account holders. The officer was dismissed/terminated from service on 25-05-2022 on the charge of unauthorized absence with advice to adjust all direct/indirect liabilities against him, his guarantor is liable to pay the same, failing which recovery suit will be filed against the employee as well as his guarantor. He was promoted from typist to OGIII & OG-II officer without fulfilling the criteria.

Audit is of the view that due to weak internal controls employees committed frauds/misappropriation which needed to be curbed and action be taken against the culprits.

The matter was reported to the management on December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that the incumbent were involved in misappropriation of funds and action was taken in light of investigations. DAC directed the management to provide relevant record and efforts be made to recover of fraudulent amount.

Audit recommends implementation of DAC directives.

(DP No. 851, 862, 870 & 877)

8.2.4.19 Irregular expenditure on various head of accounts - Rs 901.009 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that Finance Control Group failed to provide GLs / Subsidiary GLs of following operating expenditures amounting to Rs 901.009 million along with supporting documents/ vouchers etc. despite issuance of reminders.

(Rs in million)		
S#	Description	Amount
1.	Advertisement	204.311
2.	Furniture & fixture	6.290
3.	Janitorial services	98.00
4.	Retainer-ship fee	6.00
5.	Repair & maintenance other than HO	50.00
6.	Motor car fuel	25.00
7.	Repair & maintenance of vehicles	9.784
8.	Motor car taxes	66.504
9.	Outsource charges	112.480
10.	Professional & consultancy charges	82.00
11.	Rent paid on office premises	16.00
12.	Cafeteria	48.00
13.	Water tanker charges	11.00
14.	Sponsorships	22.640
15.	Security services	143.00
Total		901.009

Audit is of the view that non-provision of record was a serious lapse as audit could not examine the expenses and payments amounting to Rs 901.009 million.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that the GLs were provided to audit through email whereas physical voucher / record were available and could be inspected by audit. The DAC directed the management to provide all record to Audit without further delay.

Audit recommends implementation of the DAC directives.

8.2.4.20 Loss due to waiver/written off loan of sugar mill – Rs 742.88 million

Rule 5(1) of the Public Sector Companies (Corporate Governance) Rules, 2013 states that the directors of a Board shall be persons who, in opinion of the Government, shall assist the Public Sector Company to achieve its principal objective and the Board shall accordingly exercise its powers and carry out its fiduciary duties with a sense of objective judgment and in the best interest of the company.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management written off an outstanding amount of Rs 742.880 million of M/s Ansari Sugar Mills Limited (ASML). M/s ASML availed loan in 1990 and defaulted in September 1997. The recovery suit was filed for Rs 535.472 million, which was decreed in favour of NBP against guarantors/sponsoring directors of ASML. Later, sponsoring directors offered for out of court settlement of Rs 326.000 million against the principal outstanding of Rs 308.00 million, which was accepted and accordingly decree was set-aside in 2008 an additional finance facility of Rs 150.000 million and Rs 200.000 million was approved by the Credit Committee in its 192nd and 198th meeting held on 10-11-2008 and 30-12-2008, respectively.

The Special Assets Management Group (SAMG) submitted on January 29, 2009 for approval of settlement of total liabilities of Rs 956.437 million of ASML at Rs 213.551 million with waiver of Rs 192.532 million and reversal of Rs 550.354 million, which was approved by BoD in its 179th meeting dated March 18, 2009 and Rs 213.551 million to be settled by the client in cash after 10 years i.e. by January 31st, 2019 on terms specially, ASML to pledge DSC of Rs 72.000 million as additional security till the recovery of settlement amount and NBP to retain the 1st charge but release the pledge shares in lieu of additional security of DSC of Rs 72.000 million, to be kept under lien with NBP till recovery of entire settlement. However, an amount of Rs 742.880 million was written off despite decree in favor of NBP.

Audit is of the view that the management extended undue favor to the defaulter and waived of huge amount against the interest of the bank which was irregular and unjustified, which needed to be probed.

The matter was reported to the management on December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that recovery of Rs 213 million has been made in this regard. The DAC directed the management to provide the relevant record regarding write off and get the recovery verified from Audit.

Audit recommends implementation of DAC directives.

8.2.4.21 Payment of mandatory deductions to service provider without due diligence - Rs 708.798 million

According to clause 6 of service level agreement (SLA) executed between NBP and M/s Icon consultates private limited, service provider shall be liable/ responsible for all its liabilities on account of any regulatory or non-regulatory payments including but not limited to taxes, duties, charges, minimum wages gratuity, EOBI, social security, group life insurance, health insurance, indemnity & fidelity insurance, miscellaneous charges, uniforms, training or any other expenses / cost borne by the company. Record of all such paid taxes/ charges/ EOBI/ social security, etc. shall be providing by service provider to the concerned NBP representatives if and when required.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management awarded outsource services contract to M/s. Icon Consultants (Pvt.) Ltd in 2022, before award to this contract M/s Icon was providing outsource services to NBP since 2012. In compliance of rules management was paying monthly charges on account of EOBI, SESSI, group life insurance, and gratuity & indemnity & fidelity insurance to the contractor on monthly basis. However,

proof regarding deposition of deductions and registration of workers with authorities was not available with management. Detail of payment made to contractor is tabulated below:

Monthly contribution (Rs)					
No of HR deployed	Cost of Gratuity	GL Insurance Cost	EOBI Cost	SESSI/ PESSI Cost	Insurance Cost
1,211	2,500	100	1,250	1,800	125
Total of deductions of last one year = (Monthly deduction per resource Rs 5,775*1,211 No. of Resource*12 months= Rs 83.922 million)					
Estimated cost of Social Security contribution paid by the NBP since 2012(Amount in Rs)					
Monthly deduction per resource Rs 1,800*1,211 No. of Resource*12 months*10 years=Rs 261.576 million					

It was also observed that the management paid Rs 363.300 million gratuity to M/s Icon for third party employees. However, the contractor did not pay gratuity to the employees on expiry of service level agreement as detailed below:

Estimated cost of gratuity paid by the NBP since 2012(Amount in Rs)
Monthly deduction per resource Rs 2,500*1211 No. of Resource*12 months*10 years=Rs 363.300 million

Audit is of the view that non-transferring of benefits to the third party employees was a serious negligence on the part of contractor which bank authorities need to monitor strictly.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that NBP diligently follows and pays regulatory payments/ charges to service provider as per SLA. The service provider also assured that employees were also registered with EOBI/ SESSI etc. As far as gratuity is concerned, it is part of end service benefits and according to the OSP they have released the gratuity to those resources who have separated from the services. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

8.2.4.22 Inordinate delay in recovery of outstanding house building finance loan - Rs 449.662 million

Clause 6.0 of Staff Loan Policy of NBP states that if an employee resigns from the Bank's service or his/ her service is terminated/ dismissed for any reason whatsoever before complete recovery of the finance, the amount outstanding against him/ her shall be recovered in lump sum with mark-up before release of his end service benefits.

The branch manager/ operation manager of loan disbursing branch will initiate the process of loan recovery along with markup through legal action in case of default and, if needed, the assets recovery group will also take necessary action for recovery process.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management provided house building finance loan facility to its employees. The

entitlement amount of loan was ranging from 150 to 180 basic pays at the rate of 3% markup per annum against the mortgaged properties. It was also observed that amount of Rs 449.662 million was outstanding / recoverable from ex- / suspended/ terminated etc employees since many years. However, neither the management takes any action against the defaulters nor tried to recover the loan through disposal of mortgaged properties. (Annex-44).

Audit is of the view that non-recovery of outstanding loan from ex-employees reflected weak internal controls & poor financial management.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that most of the highlighted cases pertain to the staff who were dismissed from bank service and the bank has not released their end service benefits. Bank is making efforts for recovery / settlement of the loans. The DAC directed the management share the efforts/action taken for recovery of loan and expedite the recovery process under intimation to Audit.

Audit recommends implementation of the DAC directives.

8.2.4.23 Irregular payment made to the service provider - Rs 377.671 million

According to agreement executed between NBP and M/s Icon (outsource service provider), the service provider was liable to provide all such record to the concerned NBP representatives if and when required.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that management awarded a contract to M/s Icon for deployment of employees/ resources required by NBP at its various offices/ premises, etc. Audit requisitioned the record for examination which was not provided by the management as follows:

- i. Premises wise monthly attendance record of all outsourced employees for the last 2 years (soft/hard) and performance/ evaluation report of contractor.
- ii. Total amount paid on account of service wages plus additional services.
- iii. Detail of advance payments made to the contractor and onsite visit reports.
- iv. Original performance guarantee, equivalent to two percent (02%) of the gross payments along-with verification report.
- v. Rating of commercial bank who provided the performance guarantee.
- vi. Proof regarding deposition of taxes and other mandatory deductions.

Audit is of the view that non-provision of record was a serious lapse as audit could not examine the genuineness and actual deployment of resources.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that most of the record was provided to audit through emails. However, some record could not be provided as the

requisitioned record was available at regional offices/ branches/ other wings. The DAC directed the management to provide all relevant record to Audit for scrutiny/ examination.

Audit recommends implementation of the DAC directives.

8.2.4.24 Loss due to settlement with the defaulter – Rs 307.199 million

Section 15 (4) of the Financial Institutions (Recovery of Finances) Ordinance, 2001 states that where a mortgagor fails to pay the amount as demanded within the period prescribed under sub-section (2), and after the due date given in the final notice has expired, the Financial Institution may, without the intervention of any Court, sell the mortgaged property or any part thereof by public auction and appropriate the proceeds thereof towards total or partial satisfaction of the outstanding mortgage money.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed the management filed the case against M/s Cast-N-Link for recovery of defaulted amount Rs 272.675 million. The High Court of Sindh vide decision dated July 2015 decided the decree in favour of NBP. However, the management made out of court settlement with defaulter at Rs 80.000 million against total amount of Rs 272.675 million worked as on 30.04.2019. Balance amount of Rs 192.676 million was waived by the management. Resultantly, bank sustained a loss of Rs 307.199 million (Rs 192.676 million plus additional interest of Rs 114.523 million=Rs 272.675 million *14% * 3 years from 2019 to 2022).

Audit is of the view that sale of property at nominal rates on the discretion of defaulted buyer and waiver of huge amount reflects poor financial management and weak internal controls.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that due to long court proceedings, out of court settlement was done. DAC directed to place the para before PAC.

Audit recommends implementation of DAC directives.

8.2.4.25 Un-justified payment to employees / ex-employees for coverage of legal cost, bail security, TA/DA etc. for inquiries - Rs 109.130 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management allowed the payment of legal fee surety and other related incidental expenses in advance to the employees of NBP (up to Rs 5.000 million and above) whose names were included in FIA inquires to defend the cases. In case the employee was acquitted, the advance was not required to be returned. This was specially approved to favor the accused employees facing FIA inquiry in M/s Hascol Petroleum Limited case and Rs 109.130 million (Annex-45) was provided to the serving and ex-employees. The legal counsel had also

concluded that based on clause 65(1) of NBP bye-laws, there was currently no obligation on the bank to indemnify ex-President NBP, for any legal costs / expenses. Despite this, Board allowed the legal costs / expenses for investigation / court cases etc.

Audit is of the view that the provision of bank resources to the accused involved in frauds / forgeries was unjustified which needed to be stopped.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that the amount was paid to serving/ ex-employees on account of reimbursement of legal expenses related to the HASCOL matter and also obtained indemnity bond. The DAC directed to place the matter before PAC.

Audit recommends implementation of the DAC directives.

8.2.4.26 Irrational increase in remuneration of board members for attending board/committee meetings - Rs 104.000 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the Board of Directors (BoD) in its 344th meeting held on February 28, 2023 enhanced the Directors meeting fee from Rs 150,000 to Rs 400,000 for attending board / committee meetings. Besides, additional remunerations were also allowed to Chairman, Board such as seprate office facility with 5 secretarial staff (max. expenses up to Rs 2.0 million per month) and 2 security guards at residence. Conversely, board members of SBP and other state owned enterprises / corporations / companies allowed remuneration / package to its members for attending meetings, was lower in comparison to NBP as follows:

S#	Name of Organization	Board Meeting Fee (Rs)
1.	State Bank of Pakistan (Regulator of NBP)	80,000
2.	Pakistan Industrial Development Corporation	75,000
3.	Pakistan Re-insurance Co. Ltd	50,000
4.	Trading Corporation of Pakistan	50,000

Audit is of the view that enhancement of remuneration of BoD members was not rationalized which needed to be reconsidered.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that the State Bank of Pakistan, vide Regulation G-14 of the Corporate Governance Regulatory Framework (CGRF) has directed the banks to "pay reasonable and appropriate remuneration to their board members". Moreover, the Board Remuneration Policy, approved by the shareholders in EOGM held on July 27, 2020. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

8.2.4.27 Irregular grant of loan to the defaulting parties – Rs 77.378 million

Section 15 (4) of the Financial Institutions (Recovery of Finances) Ordinance, 2001 states that where a mortgagor fails to pay the amount as demanded within the period prescribed under sub-section (2), and after the due date given in the final notice has expired, the Financial Institution may, without the intervention of any Court, sell the mortgaged property or any part thereof by public auction and appropriate the proceeds thereof towards total or partial satisfaction of the outstanding mortgage money.

Sr. No. 14 of the sanction advice dated 10.07.2023 mentions that repayment of loan would be made from own sources in lump-sum.

During audit of National Bank of Pakistan (NBP), Hyderabad Region for the year 2022, it was observed that management granted enhanced Cash Finance (hypothecation) of Rs 75.00 million to M/s Kiran Fertilizer Shop in 2023. The borrower defaulted in repayment of previous advance of Rs 45 million granted in 2022 which was adjusted from new loan/advance.

It was also observed that management renewed/enhanced financing facilities under seasonal rice policy for the season 2022-23 & 2023-24 to M/s Badin cotton ginning pressing factory and oil mills amounting to Rs 34.105 million. The above borrower defaulted in repayment of running finance loan and other advance unjustifiably.

Audit is of the view that management extended undue favor to defaulting parties by allowing new loans which showed poor financial management.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that previous loans were cleared before sanctioned of next loans. The DAC directed the management to provide the relevant record for verification.

Audit recommends implementation of DAC directives.

(DP No. 867 & 869)

8.2.4.28 Delay in completion of project - Rs 76.212 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that SBP issued guidelines on compliance risk management vide circular dated August 09, 2017. The management advertised on August 31, 2019 and two firms participated in bidding process and found responsive, submitted financial proposals as below:

(Rs in million)			
Name	Bid amount	Standing	Remarks
M/s PWC	64.000	Lowest	Did not mention bid validity period
M/s EY	123.463	2 nd lowest	06 months bid validity period

Later on, the management scrapped the tender with the reason that bid validity period of six months was expired. However, the lowest evaluated bidder did not mention bid validity period. The management retendered the project on April 15, 2021 which was also scrapped with a view that audited financial statements were not submitted by the bidders as the statements were not required in EOI. The management retendered the project 3rd time on August 22, 2021. In response two responsive firms submitted bids as follows:

Rs in million			
Name	Technical Score	Financial Score	Financial Proposal
M/s KPMG	69.8	100	76.212
M/s EY	77.8	53	143.811

Finally, the management awarded the contract to M/s KPMG amounting to Rs 76.212 million and agreement was signed in July, 2022. The project was divided into 4 stages and the expected completion timelines of work were around 16 months i.e. December 2023. However, even not a single phase was completed till close of audit.

Audit is of the view that non-completion of important task on time resulted in escalation of cost and violation of SBP guidelines might result in penalties.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that the reasons to scrap the tender was well documented and completely based on the facts and entire task was anticipated to be finished by Q2 2024. The DAC directed to conduct fact finding inquiry at Ministry level.

Audit recommends implementation of the DAC directives.

8.2.4.29 Irregular payment of end benefits & non-recovery of loan / dead stock items from ex-employees – Rs 75.494 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that following officers were found involved in fraud case of Hascol. However, the management paid end service benefits to the following employees instead of taking disciplinary action.

Rs in million			
S#	Name	SAP ID	Amount
1.	Mehwish Hyder	5237	2.224
2.	Akbar Hassan Khan`	15266	4.529
3.	Syed Misbah Hussain	5241	1.850
4.	Hidayat Ali Shar	5116	13.101
5.	Azra Naila	21112	0.838
6.	Aneela Nokhaiz	19149	3.703
Total			26.245

It was also observed that Mr. Saeed Habib Ex- Executive Vice President (EVP) relived from Bank vide letter dated December 16, 2020. He was advised to hand-over bank's assets. However, loan / liability & fixed assets amounting to Rs 37.849 million were recoverable from him till date and no action was taken against him.

It was further observed that Ms. Rima Athar was appointed as Senior Vice President-Corporate & Investment Banking in November, 2014 without advertisement, qualification, age and relevant experience. Officer was found involved in the fraudulent activity of Hascol. A complaint was lodged against her leveling various allegations in the Senate of Pakistan, which was forwarded to NBP on 25th January, 2018 for taking necessary action till 9th February, 2018. However, she resigned on 29.01.2018 which was accepted by the President w.e.f 27.02.2018 and no action was taken against her. Thus appointment and pay & allowances of Rs 11.400 million were held irregular.

Audit is of the view that management failed to recover the assets and loan & liabilities from incumbents despite lapse of considerable time. Further, the management paid end service benefits despite the fact that incumbents were involved in fraud case. This showed weak internal controls and poor financial management.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that as per the

bank's policy, end service benefits of mentioned 6 employees were released after getting necessary approval and clearance. Further, there is no loan outstanding against the subject ex- officials. As far as end service benefits of Mr. Saeed Habib, Ex-EVP is concerned, HR has not yet released the same, however bank has received back the bank vehicle from Mr. Saeed Habib on 1.01.2024. The DAC directed the management to share the internal inquiry report on account of irregular disbursement of loan to M/s Hascol Ltd to ascertain whether the incumbents were involved or not. Further, the DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

(DP No. 875 & 893)

8.2.4.30 Loss due to default in repayment of loan – Rs 63.622 million

Section 15 (4) of the Financial Institutions (Recovery of Finances) Ordinance, 2001 states that where a mortgagor fails to pay the amount as demanded within the period prescribed under sub-section (2), and after the due date given in the final notice has expired, the Financial Institution may, without the intervention of any Court, sell the mortgaged property or any part thereof by public auction and appropriate the proceeds thereof towards total or partial satisfaction of the outstanding mortgage money.

During audit of National Bank of Pakistan (NBP), Hyderabad Region for the year 2022, it was observed that management granted demand finance-I of Rs 50.00 million on 11.11.2011 and demand finance-II of Rs 50.00 million on 29.11.2012 at markup 6 months KIBOR+5.25% to M/s S.S builders & developers for the period of 03 years and grace period of 03 months for the purpose of ‘development work of the project’ against the mortgage of 12 acres of property. It was also observed that the management granted advance for construction of housing societies to the Builders in contravention of CPM as there was no provision in the policy and builder had no any HDA License.

The borrower failed to repay its dues to the bank, nor did the bank take any action against the defaulter according to above provision of Ordinance, 2001. It is important to mention here that the Credit Officer visited the site on various dates in 2014, 2015 and 2016 and reported that “from the 1st day no any progress was found, hence the Bank’s funds go in vain”.

Audit is of the view that the management disbursed the loan to borrower irregularly and did not pursue the case vigorously. Thus, the Bank sustained a loss of Rs 63.622 million (principal amount + markup).

The matter was reported to the management on December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that some amount has been recovered and efforts are being made for remaining amount. DAC directed the management to provide the record for verification and efforts be made for remaining amount.

Audit recommends implementation of DAC directives.

8.2.4.31 Non-recovery of commission - Rs 45.103 million

As per Organizational Circular No. 05/2018) of NBP, Branch Manager (BM), key task is to establish localized control environment as first line of defense and maintain stringent or proactive internal control environment.

During audit of National Bank of Pakistan (NBP) Regional Office, Hyderabad for the years 2021 & 2022, it was observed that an amount of Rs 45.103 million was outstanding on account of commission receivable against various parties as on 31.12.2022 (Annex-46).

Audit is of the view that the management failed to recover the outstanding amount of Rs 45.103 million which indicates inefficiency, weak financial management and poor internal controls.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that majority of amount pertains to Pakistan Railway. DAC directed the management to submit revised reply along with recovery details.

Audit recommends implementation of DAC directives.

8.2.4.32 Delay in completion of renovation work - Rs 38.280 million

According to letter of award / agreement executed between contractor and bank the renovation work of main branch, Karachi was required to be completed before 03-12-2022 or within 180 days.

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management awarded a contract for renovation and refurbishment work of NBP main branch, Karachi to M/s Khan traders amounting to Rs 38.280 million on May 30, 2022. According to letter of award of work, the work was required to be completed before 03-12-2022 (180 days). However, the contractor did not complete the work till 5-12-2023 but the management did not impose the liquidated damages. Further, following record was also not provided to Audit.

- Fixed asset register of NBP-main branch before execution of repair & renovation work.
- Detail of assets / dead stock scrapped / sold out during 2021 & 2022 along with amount recovered at NBP-main branch.
- Detail of furniture & fixture available before repair work and its sales / scrap.
- Detail of marble available before repair work and its sales / scrap.
- Detail of advances made to suppliers/contractors and its adjustments.
- Schedule of payments and current status / progress (%) of repair & renovation work.

Audit is of the view that non-imposition of liquidated damages despite significant delays and non-provision of record was a serious lapse on part of management which needed to be justified.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that since commencement of the project work was delayed, due to various reasons beyond the control of management / contractor. The renovation work was completed during the month of January 2024 with no escalation of cost. The record regarding fixed asset register and scrap details were available in main branch Karachi. The DAC directed the management to provide relevant record for examination and verification.

Audit recommends implementation of the DAC directives.

8.2.4.33 Irregular fixation of pay & allowances of newly appointed officers - Rs 38.044 million

According to revision in Basic Pay in the 337th Board meeting and Circular No.07/2022 dated 23rd August, 2022 of the National Bank of Pakistan, the basic salary of EVP and SVP were as under;

Grade	Regular		Contract	
	Minimum (Rs)	Maximum (Rs)	Minimum (Rs)	Maximum v
Executive Vice President	185,000	687,000	219,000	1,041,000
Senior Vice President	110,000	462,000	142,000	685,000

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management appointed various executives on contract basis at the pay & allowances of Rs 38.044 million in excess of approved initial pay & allowances, which was unjustified (Annex-47).

Audit is of the view that the management extended undue favour to above officers while fixation of pay & allowances.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that pay was fixed within the pay range approved by the Board. The Audit contented that some specific stages/increments should be added in initial basic pay on basis of additional qualification and experience. The DAC directed the management to place the matter before BoD for review of pay & allowance to new appointees.

Audit recommends implementation of DAC directives.

8.2.4.34 Irregular disbursement of loan to employee without obtaining required documents - Rs 34.493 million

According to National Bank of Pakistan Staff Loans Policy, the property must be mortgaged in Bank's favor within a period of one month after registration of sale deed / transfer / lease / sub-lease with the concerned revenue record of rights / society. Bank's interest until mortgage of the property in favour of the bank, is covered through a guarantee of an Official of equal status or above. Mutation Certificate in the

name of the borrower will also be obtained. The funds are disbursed after the completion of following formalities: 1. Creation of mortgage / Bank's charge over the property, 2. Submission of Approved Building Plan; and 3. Mutation Certificate/Sale Deed/Transfer of property in the name of the borrower. All original documents of the property will be kept in the Bank's custody at the relevant branch.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management disbursed house building finance loan to Mr. Raza ur Rehman (SVP), amounting to Rs 34.493 million without obtaining required documents such as creation of mortgage / bank's charge over the property and without execution of mortgaged deed and obtaining of sale deed in violation of Staff Loan Policy.

It was also observed that lien in the record of rights against the properties was not marked in favor of National Bank of Pakistan / respective branch in RO Hyderabad (Annex-48).

Audit is of the view that disbursement of loan without obtaining required documents and non-marking of lien against the mortgaged properties reflected undue favor to the incumbents. Hence, disbursement of loan amounting to Rs 34.493 million stands irregular and unjustified.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that missing documents for employee having SAP IDs 5055, 26255, 5061 (Sr. No. 1, 2 & 4 in the table) have been collected, whereas as mortgaged deed of employee at serial No. 3 will be executed in due course as transfer deed is now collected. Further, out of 21 HBF Staff Loans, 15 have been marked with a lien and letters for confirmation of lien has been submitted for remaining 6 cases. The DAC directed the management to get the record verified from Audit and revised the para accordingly.

Audit recommends implementation of the DAC directives.

8.2.4.35 Irregular extension of contracts of secretary, board beyond 60 years - Rs 34.095 million

NBP Staff Service Rules 2021 states that no employee shall be re-employed in service beyond the age of 60 years except in rare and exceptional circumstances and with the prior approval of the Board.

Para 12.3. & 12.3 1 of HR Policy Booklet of NBP states succession planning will be an ongoing, continually readjusting process, a process that is woven into overall strategic plan. It focuses more broadly on ensuring that the right talent meets long-term organizational challenges, such as handling planned product and/or service changes, preparing for anticipating market changes, and so on. Furthermore, identification of Key Positions to achieve maximum benefits from a systematic succession planning program, the key management positions needs to identified, as defined by SBP and other potentially vulnerable positions i.e. the positions that are likely to be impacted the most by imminent employee retirements and departures, and are to be filled immediately or in the near future.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that management appointed Syed Muhammad Ali Zamin EVP / Secretary, Board retired on 30-07-2017 after attaining the age of 60 years. The management continuously extended his employment

contract for last six years in violation of above policy. It was also observed that the BoD meeting held on June 15, 2017, emphasized to identify suitable person(s) as his replacement and succession planning, which was not done at yet. The management did not fill the vacancy either through advertisement or another candidate was appointed internally.

Audit is of the view that the multiple extensions given after superannuation were unjustified and irregular.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that, BoD, from time to time, renewed/extended contract, keeping in mind, his experience and institutional knowledge which make him a critical resource. With regards to appointment/placement of internally available candidates for the said position Mr. Asad Saleem, EVP and Mr. Saleem Saleemi, SVP were placed in BoD office for continuity and succession planning. The DAC directed the management to provide the record for verification and avoid further extension in his contract.

Audit recommends implementation of the DAC directives.

8.2.4.36 Irregular conversion of termination into resignation and non-taking of disciplinary action - Rs 29.823 million

Clause 5.2 (a) of letter of appointment states that in the event that you are found guilty of misconduct after show cause notice and inquiry, the Bank may terminate this Contract. In the event of termination of the Contract under this clause, you shall not be entitled to receive any compensation or any other benefits as provided under this Contract.

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that an FIR was registered by FIA in inquiry pertaining to disbursement of loans to M/s Hascol petroleum limited against Syed Jamal Baquar, group chief and Syed Hasan Irtiza Kazmi EVP (CIBG). Subsequently, management terminated the services of both officers which were converted into resignations and were issued non-involvement certificate to them and they were paid end service benefits. (Annex-49).

Audit is of the view that the provision of end service benefits to the accused was serious negligence and favor to the incumbents which was irregular and against the law.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The decision of termination of contract into resignation of Mr. JB was approved by the BoD. Based on decision, management released his end service benefits, after getting legal opinion from the bank's legal division. The President terminated the employment contract of Mr. Kazmi on 24.05.2021. Later, on recommendations of GC-CIBG dated 27.05.2021, the President

converted his termination into resignation. Further, disciplinary action could not be initiated against incumbents as they left the Bank. The DAC directed the management to share inquiry report and place the matter before PAC.

Audit recommends implementation of the DAC directives.

8.2.4.37 Unjustified termination of legal head and non-recovery of advances - Rs 27.853 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of National Bank of Pakistan (NBP), Karachi for the year 2022, it was observed that the management appointed Mr. Aamir Zareef Khan, Executive Vice President (EVP) head of legal division on 22-02-2016 for period of three (03) years contract extendable for further three years. He was transferred and posted to corporate investment group (HO) on 26-12-2019 but he was directed to report to his junior officer in legal division. In July 2020, the management terminated his employment before completion of his contract without any reason. His termination was not as a result of any misconduct or unsatisfactory performance but was aimed to accommodate a junior officer in legal division. It was also observed that loan / liability & fixed assets amounting to R.27.853 million were recoverable from him till date.

Audit is of the view that the termination of the officer without any justification was irregular which might result in lengthy legal proceedings.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that transfer/ posting of Mr. Aamir Zareef to CIB Group was an administrative decision taken by the management in view of business needs of the Group and later on, his services were terminated simplicitor with immediate effect as per Clause 5.3 of his Employment Contract. With regards to two Legal Heads at same time in the Bank, it is submitted that the process of hiring another legal Head was started in May-2019 paving way for replacement of existing Legal Head. Upon joining in October-2019 and after getting familiar with the Bank's Legal Cases, AZ was transferred out to CIBG. Further, matter is also subjudice. The DAC directed the management to get the record verified from Audit and pursue the case vigorously.

Audit recommends implementation of the DAC directives.

8.2.4.38 Unauthorized lifting of pledged stock - Rs 19.990 million

As per CPM chapter No. 15 (15.3.1.5) Pledge/Hypothecated/Mortgages etc. will be inspected by CAD on surprise basis. However, periodic mandatory visits will be conducted by Branch Manager or Relationship Manager or delegates at least monthly /preferably fortnightly. Moreover, inspection on 'as & when needed' basis may also be carried out.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that an incident of lifting of pledged stock was reported, wherein the borrower lifted the stock without adjustment/repayment of cash finance loan of Rs 14.990 million.

Audit is of the view that lifting stocks without payment and loan adjustment was irregular and unjustified which reflected poor monitoring on part of branch manager and mucaddum.

The matter was reported to the management in December 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC about the legal and disciplinary action taken in this regard. DAC maintained the para to be decided by PAC.

Audit recommends implementation of DAC directives.

8.2.4.39 Unjustified increase in basic pay as special increase - Rs 18.088 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management unjustifiably increased the basic pay of few selected officers as a special case during the year 2022. This was in addition to yearly increase in pay (Annex-50).

Audit is of the view that provision of benefits to the selected officers was undue favor which resulted in discrimination with other employees. Thus, increase in pay as special case held irregular and unjustified.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that the subject employees were equipped with experience/ institutional knowledge which make them critical resource. In case of non-increase in the pay, they could have left the bank. Hence, on the basis of legal opinion and on recommendations of the concerned Group Chief with proper justification and after analyzing the existing salary ranges of the employees the pay was increased. Further, contract of employment also allowed negotiation of pay at the time of renewal of contract. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

8.2.4.40 Loss due to cash shortage & non-recovery of loan from cashier – Rs 17.660 million

As per 1.20 section of Code of Conduct of NBP, any employee found to be engaged in, attempting to, or conspiring as to fraud or theft of assets of the Bank or its clients, or attempting to engage in fraud or theft, may be subject to immediate dismissal and criminal prosecution, subject to the rules, regulations or law applicable thereto.

According to clause 7.5 (vi) Chapter 7, Staff Finances of HR Policy Booklet, 2018 of NBP, if an employee concerned resigns from bank`s service or his/her service is terminated/dismissed for any reason whatsoever before complete recovery of the finance, the amount outstanding against him/her shall be recovered in lump sum with interest before release of his end service benefits.

During the audit of National Bank of Pakistan(NBP) Head Office, Karachi for the year 2022, it was observed that Mr. Nadeem Haroon Jameel, OG-III / Universal Teller was placed under suspension on 08-

09-2020 on account of unauthorized absence & cash shortage Rs 12.302 million at NBP Khewra Branch, RO Jhelum. Furthermore, loans were also not recovered from him or his guarantor as detailed below;

(Rs in million)					
S#	Nature of Account	Date of loan	Advance	Recovered	Outstanding
1	House Building Finance	11.09.2020	4,885,898	534,026	4.351
2	Motor Car Finance	06.06.2017	1,300,000	293,327	1.006
Total					5.357

Audit is of the view that the management failed to implement effective internal controls, which resulted in non-recovery of Rs 17.660 million.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that an amount of Rs 12.301 million has been recovered. DAC directed the management to provide the relevant record for verification and efforts be made for recovery of remaining amount.

Audit recommends implementation of DAC directives.

8.2.4.41 Irregular award of contract by short and late receipt of performance guarantee - Rs 15.106 million

Clause 2 of Service Level Agreement for Miscellaneous & Engineering Support Services between National Bank of Pakistan and M/s ICON Consultants Private Limited (service provider) executed on 16th day of August 2022, states that the term of this Agreement is initially for a period of 36 months commencing from September 16, 2022 and expire on September 15, 2025.

Further, Clause 40 (a), (d) and (e) states that service provider shall be required to submit Performance Guarantee for which the Bid has been accepted, equivalent to two percent (02%) of the Gross Payments to be made over the contract period. Failure to comply and submission of Performance Guarantee constitute sufficient grounds for the annulment of the award and forfeiture of the Bid Security. In case of non-submission of Performance Guarantee within sixty (60) days after signing of the contract, the contract may be awarded to the next lowest bidder.

During audit of National Bank of Pakistan (NBP) Head Office Karachi for the year 2022, it was observed that the management awarded a contract amounting to Rs 1,133,014,032 to M/s ICON consultants private limited (outside service provider) for providing human resource for the period of 36 months (September 16, 2022 to September 15, 2025). The applicable performance guarantee (2%) of total gross amount was Rs 22,660,281. However, the management obtained performance guarantee of Rs 7,553,427 after delay of 300 days which required to be paid in 60 days.

Audit is of the view that less receipt of performance guarantee with delays showed weak financial management and poor internal controls which needed to be justified.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that Rule 40 of PPRA Rules 2004 allowed the procuring agency to negotiate special conditions with the successful bidder

with a view to streamline work processes and smooth completion/execution of the task. Hence, the management obtained the guarantee amounting to Rs 7.553 million on negotiation basis. The DAC directed the management to get recover the remaining amount from contractor without further delay and take action against the person(s).

Audit recommends implementation of the DAC directives.

8.2.4.42 Irregular appointment of relationship manager (corporate banking) - Rs 14.502 million

As per advertisement, the requirement for the post of Manager-Corporate Banking was:

Academic / Professional Qualification	Age Limit
MBA (Finance) / CA from a reputed Institute/ University recognized by HEC	Up to 30 years, also mention the place of domicile

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management appointed Syed Shamim Bukhari as Manager (Corporate Banking). He joined the bank on June 26, 2009 on contractual basis for a period of three (03) years at Rs 60,000 per month along with other benefits. Following irregularities were observed in his appointment:

- He was granted a waiver in age and qualification.
- His M.Sc degree from European Business School London neither was verified nor equivalency certificate was obtained from HEC and no domicile/ PRC was provided at the time of appointment.
- He was appointed by rejecting suitable candidates meeting the eligibility criteria.

It was also observed that his basic salary was increased from Rs 29,760 to Rs 59,000 as special case and management did not take disciplinary action on account of 61 days un-authorized absent from duty and regularized the same. Further, against the NBP rotation policy he was posted in financial control division since November 2015 and was frequently promoted as AVP, VP & SVP.

Audit is of the view that the management extended undue favours to the incumbent which was unjustified.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that relaxation in age and qualification of Mr. Shamim Bukhari, was approved by the President, in exercise of powers conferred upon by the BoD. At the time of appointment his MA degree was considered and his MSc Degree is being sent for verification. Moreover, he submitted Domicile after his appointment and as a special case, salary adjustment was given to him which was approved by the then President. The DAC directed to place the matter before the PAC.

Audit recommends implementation of the DAC directives.

8.2.4.43 Payment of pension funds to the unauthorized persons - Rs 14.090 million

Clause 28 of the National Bank of Pakistan Staff Service Rules-2021 regarding obligations of employees states that every employee shall serve the bank honestly and faithfully and shall maintain strict secrecy regarding the Bank's affairs of its constituents. He/ She shall use his utmost endeavors to promote the interest of the Bank, shall show courtesy, vigilance and attention in all that he comes across in performance of his official duties. Failure to maintain confidentiality will be a cause for dismissal.

During audit of National Bank of Pakistan for the year 2022, it was observed that the pension funds of Rs 14.09 million were transferred in the accounts of the persons, who were not authorized pensioners in Hyderabad region. The CNIC numbers of these persons were not available in the list of pensioners provided to audit. The above position indicates that there is no strong internal control system in the National Bank of Pakistan due to which the payment of pensioners is transferred to the accounts of irrelevant persons without any hindrance.

Audit is of the view that the management failed to enhance internal control to stop unauthorized pension payments.

The matter was reported to the management on December 19, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that NBP had taken up the matter with concerned office for provision of CNIC of pensioners. DAC directed the management to provide relevant record for verification.

Audit recommends implementation of DAC directives.

8.2.4.44 Fresh loan categorized as loss - Rs 13.063 million

According to SBP circular on Refinance Scheme for Payment of Wages and Salaries to the Workers and Employees of Business Concerns, part 7. Period of Financing and its Repayment stated that "In case the borrower fails to make repayment of the amount of installment as per the original repayment schedule, the PFI (Participating Financial Institution) will be entitled to charge normal rate of mark up on such overdue principal amount besides taking other actions to recover the same as are incidental to such defaults. In no case, the liability of PFI to repay to SBP BSC (Bank) the principal amount of refinance, or mark-up or any other charges or penalty thereon shall be dependent upon the recovery from the borrowers nor shall such liability be affected by any default on part of the borrowers."

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that State Bank of Pakistan (SBP) sanctioned various loans under SBP refinance schemes through NBP to support employment and prevent layoff of workers in the wake of Covid-19. Six (06) customers of NBP were allowed loan of Rs.160.000 million, out of which one loan has been categorized as loss. These loans were disbursed during 2020 to 2021, out of which loan amounting to Rs 13.063 million was categorized as loss.

Audit is of the view that categorization of any loan as loss in early stages on financings creates doubts that the said loan was irregularly disbursed, compliance requirements were not fulfilled while scrutinizing loan and customer modalities.

The matter was reported to the management in December 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that the loss has been recovered from SBP and recovery efforts are underway. DAC directed the management to provide evidence of recovery from SBP and pursue the outstanding more vigorously.

Audit recommends implementation of DAC directives.

8.2.4.45 Irregular payment of pay & allowances without rendering services -Rs 10.800 million

According to Clause 12.2 of NBP Deputation Policy approved by BoD dated 26.12.2013, all staff cost pertaining to deputationist i.e. salary, allowances, bonuses, benefits and perks including deputation allowance will be borne by the borrowing organization. Further, as per Clause 12.4 states that, the deputationist will draw pay in his/her own pay scale/pay range from his/her parent organization. The reimbursement claim will be lodge by the Bank within 15 days.

During the audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the service of Mr. Junaid Shafqat Sheikh, VP was required by National Counter Terrorism Authority, Islamabad (NACTA) on deputation basis as Director (BS-19) for a period of two (02) years. Following irregularities were observed in his deputation case:

1. The management paid an amount of Rs 10.800 million to the incumbent during deputation period which was in contradiction to Federal Government deputation policy.
2. Risk & deputation allowance of Rs 71,480 + Rs 39,570 p.m admissible at NACTA was continuously paid after repatriation to NBP.

Audit is of the view that payment of pay and allowance by the bank to the deputationist and allowance after repatriation held irregular and unjustified.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that that NBP's board has approved the deputation policy and payments on account of salary and other benefits is reclaimed from NACTA. DAC directed the management to get this fact verified from audit.

Audit recommends implementation of DAC directives.

8.2.4.46 Irregular appointment / up-gradation to the next higher grade on negotiated terms & conditions - Rs 9.333 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

Cabinet Secretariat (Establishment Division) letter dated May 06, 2000 stated that vacancies should be advertised in the leading national and regional newspapers.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management appointed / upgraded the following IT personals to the next higher grade on negotiated terms & conditions without observing codal formalities and competitive process.

S #	Name	Date of Joining	Grade	Appointed as	Monthly Salary (Rs)
1.	Raheel Iqbal	30.06.2017	VP	Senior Vice President	710,485
2.	Faheem Haider Naqvi	30.06.2017	OG-I	Assistant Vice President	343,983
3.	Muhammad Umair	30.06.2017	OG-I	Assistant Vice President	501,105
Total					1,555,573
Rs 1,555,573*6 months= Rs 9,333,438					

Audit is of the view that the appointment and upgradation of IT officers was unjustified and against the merit.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC, to retain the existing and experienced resources or to curtail the employee's turnaround, the Board of Directors' approved a policy for resources associated with core banking application upgrade specifically for the resources involved in the core banking application upgrade which entails renegotiation of contracts upon the renewal of contract of existing IT employees. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

8.2.4.47 Irregular appointment of litigation officers - Rs 9.250 million

The basic eligibility criteria for the position of Litigation Officer were minimum Bachelor's degree, preferably LLB/ LLM from a reputable HEC recognized University and minimum 04 years of relevant experience in handling recovery and litigation.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management floated an advertisement in March 2020 for the post of litigation officer for Karachi (OG-II / OG-I). After screening, management shortlisted 10 candidates against the 05 positions for final selection. Out of which, management appointed the following candidates without having relevant qualification of LLB/LLM:

S#	Name	Grade	Qualification	Total Experience	Expected Salary (Rs)	Salary per month (Rs)
1	Aijaz Ali	OG-II	MA & BA	13.3	140,000	82,000

2	Sheikh Zeesah Ali	OG-I	B.Com	14.6	130,000	78,000
3	Masood Zaman Khan	-	MA (IR) and BA	14.11	140,000	78,000
						238,000
Rs 238,000 *40 No of months (from September 2018 to December 2023=Rs 9.520 million)						

It was further observed that management rejected other suitable candidates with relevant qualification i.e. LLB/ LLM and extensive experience, demanding less salary.

Audit is of the view that the management ignored the suitable candidates and appointed the incumbent having irrelevant qualification and less experience than the rejected candidates was irregular and un-justified.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that eligibility criteria was set by the concerned Group, keeping in view the dynamics of the advertised position within the Bank. The selected candidates fulfill the minimum eligibility criteria and were found suitable by the interview panel. The DAC directed to place the matter before the PAC.

Audit recommends implementation of the DAC directives.

8.2.4.48 Irregular appointment as general manager and award of corporate grade to local based employee - Rs 6.392 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

According to Overseas Posting Policy, all local based employees are assigned functional titles only and not Corporate Grade i.e. VP/SVP/ EVP etc.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that the management advertised the position of General Manager (NBP Frankfurt Branch-Germany) internally vide circular dated 21-09-2021 and initiated the selection process whereby interviews were conducted by Overseas Posting, Selection & Review Committee (OPS&RC). However, no candidate was found suitable. Later on, the management appointed Mr. Qamar Hameed Khan (German National) as General Manager Frankfurt, Germany who was serving as Deputy General Manager, NBP Frankfurt, Germany on the basis of his association with the branch and on the recommendation of group chief (IFRG) & President NBP instead of competitive process i.e. advertisement and Selection Committee. Furthermore, upon his appointment as GM, 20% salary was also increased (US\$ 7,135 to 8,562). It was further observed that incumbent was serving as DGM, NBP Frankfurt, Germany (functional title). According to overseas posting policy, all local based (other than Pakistan) employees are assigned functional titles only and not corporate grade i.e. VP/SVP/ EVP etc. However, the board assigned him corporate grade of vice president

/ general manager by exempting to the existing policy, in order to exercise financial powers associated with the position Frankfurt, Germany.

Audit is of the view that the appointment of foreign national without competitive process was irregular and violation of laid-down criteria.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that position was advertised internally, however, no suitable candidate was found. Resultantly, on the recommendation of BHRRC, Board appointed him General Manager, Frankfurt, Germany. The Board also approved/ allowed corporate grade of Vice President to Mr. Qamar Hameed Khan to authorize him to exercise financial power. The DAC directed to place the matter before the PAC.

Audit recommends implementation of the DAC directives.

8.2.4.49 Unjustified placement of outsource employees - Rs 5.718 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that following outsourced employees of NBP were deployed at different offices of NAB and FIA since their appointment in 2012 and NBP were paying their salaries.

S#	Employee Name	CNIC	Designation	Location	Monthly Salary (Rs)
1.	Imtiaz Ahmed	45202-0689144-1	Office Attendant	FIA	34,036
2.	Mehreen Asim	42101-3820128-6	Data Entry Operator	NAB	34,036
3.	Muhammad Usman	42301-4716259-5	Data Entry Operator	NAB	34,036
4.	Naveed Ghouri	41304-2292384-1	Data Entry Operator	NAB	34,036
5.	Sikandar	42501-2074419-7	Data Entry Operator	NAB	34,036
6.	Syed Muhammad Waqas Jawed	42101-0295937-5	Data Entry Operator	NAB	34,036
7.	Mansoor Ahmed	45202-3230322-1	Processor	NAB	34,036
Total					238,254
Grand Total (Rs 238,254*24 months)					5,718,096

Audit is of the view that placement of services of outsourced employees at FIA & NAB offices at Banks cost reflected weak internal controls. Thus, payments of Rs 5.718 million on account of outsource employees held irregular & un-justified.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that the outsourced resources were placed at the disposal of NAB and FIA as per their request since 2012. The DAC directed the management to provide justification and SoPs for deployment of outsource staff and take up the matter with FIA / NAB.

Audit recommends implementation of the DAC directives.

8.2.4.50 Overstay of employees at foreign branches

Clause 1.8 of Overseas Posting Policy, 2022 of National Bank of Pakistan (NBP) states that for all overseas postings, the period of overseas postings of any Pakistan based employee shall be for a maximum period of three (03) years from the date of joining at Bank's overseas branch/office. The performance of the employee will be monitored after three years for extending the tenure of posting for another two years. The president / CEO will approve the recommendations for extending the tenure from 3 to 5 years. After completion of five years, employee will be repatriated except in retirement cases and after completion of three (03) years, the employee will be repatriated.

During audit of National Bank of Pakistan (NBP) Head Office, Karachi for the year 2022, it was observed that officers were posted at various foreign branches for initial period of three (03) years. Later on, the management extended the tenure of posting for another two years. However, following ten (10) officers were not repatriated after the completion of specified tenure (i.e. five years).

S #	Name	Grade	Present Place of Posting	Date of Posting
1.	Muhammad Rafiq	SVP	NBP JSC, Almaty, Kazakhstan	2-Dec-2016
2.	Muhammad Amin	VP	NBP Bishkek, Kyrgyzstan	26-Oct-2015
3.	Shaikh Ahtsham Ahmed	AVP	NBP Baku Branch, Azerbaijan	2-Nov-2017
4.	Muhammad Ismail	AVP	NBP Paris, France	20-Sep-2016
5.	Shaikh Muhammad Shariq	VP	NBP Beijing RO, China	3-Jan-2017
6.	Arif Hussain	AVP	NBP Osaka, Japan	13-Nov-2017
7.	Hafeez Ullah Memon	AVP	NBP EPZ, Karachi	28-Jun-2016
8.	Adnan	AVP	NBP Kabul, Afghanistan	5-Mar-2011
9.	Hyder Abbas	OG-I	NBP EPZ, Karachi	6-Jan-2018
10.	Syed Alim Hussain	OG-I	NBP EPZ, Karachi	9-Dec-2012

Audit is of the view that non-repatriation of officers after completion of time period was irregular and unjustified which reflected favouritism and weak internal controls.

The matter was reported to the management in December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that selection process has been started and up to 1st quarter of 2024 all employees will be repatriated. The DAC directed the management to discontinue the overstay practice in future and action may also be taken for immediate repatriation of employees under intimation to Audit.

Audit recommends implementation of the DAC directives.

8.2.4.51 Non-maintenance of proper record of performing loans

Section 15 (4) of the Financial Institutions (Recovery of Finances) Ordinance, 2001 states that where a mortgagor fails to pay the amount as demanded within the period prescribed under sub-section (2), and after the due date given in the final notice has expired, the Financial Institution may, without the intervention of any Court, sell the mortgaged property or any part thereof by public auction and appropriate the proceeds thereof towards total or partial satisfaction of the outstanding mortgage money.

During audit of National Bank of Pakistan for the years 2022, it was observed that total amount of performing loan was Rs 1,230,521.800 million as per annual accounts 2022. Audit requested the management to provide the party wise breakup of performing loans. However, management did not provide the requisite record despite issuance of requisitions, reminders and verbal requests.

Audit is of the view that the non-provision of record showed negligence on part of management.

The matter was reported to the management on December, 2023. The irregularity was discussed in the DAC meeting held on January 23 & 24, 2024. The management informed the DAC that the record was divided among different groups. DAC directed the management to provide relevant record for verification.

Audit recommends implementation of DAC directives.

8.3 National Security Printing Corporation (Pvt.) Limited

8.3.1 Introduction

National Security Printing Company (Private) Limited was incorporated in Pakistan under the Companies Ordinance, 1984 (now Companies Act, 2017) on April 18, 2017 and is wholly owned by the Government of Pakistan. The registered office and the factory are located at Jinnah Avenue, Malir Halt, Karachi. The Company is principally engaged in the printing of security documents on behalf of the Government of Pakistan, government agencies and private institutions.

8.3.2 Comments on Audited Accounts

8.3.2.1 The working results of the Company for the year ended June 30, 2021 as compared with the preceding years are given below:

(Rs in million)						
	2020-21	% Inc/ (Dec)	2019-20	2018-19	% Inc / (Dec)	2017-18
Sales	3623.109	1.06	3584.789	4,827.37	51.80	3179.986
Cost of Sales	(2,547.090)	16.16	(2192.723)	(2,927.21)	73.89	(1,683.341)
Gross Profit	1076.019	(22.70)	1392.066	1,900.16	26.95	1,496.645
Administrative Expenses	(436.386)	24.67	(350.017)	(272.29)	(38.50)	(442.789)
Other Expenses	(64.928)	(40.89)	(109.856)	(260.18)	57.16	(165.547)
Other income	740.795	(12.90)	850.546	707.124	188.15	245.399
Operating Profit	1315.500	(26.20)	1782.739	2,074.80	83.01	1133.708
Finance Cost	(672)	484	(115)	(209)	7578.18	(2.722)
Profit before Taxation	1314.828	(26.24)	1782.624	2,074.59	83.43	1130.986
Taxation	(352.227)	(39.79)	(585.002)	(547.699)	11.72	(490.247)
Profit after Taxation	962.601	(19.62)	1197.622	1,526.89	138.30	640.739

(Source: Annual Audited Accounts 2020-21)

Gross Profit rate decreased from 38.83% in the year 2020 to 29.70% in the year 2021, registering decrease of 9.13%. The decrease in gross profit ratio is contributed by relatively higher increase in cost of sale.

8.3.2.2 Operating Profit rate decreased from 49.73% in the year 2020 to 36.31% in the year 2021, registering decrease of 13.42%. The decrease in operating profit is due to increase in expected credit losses, administrative services expenditure along with salary and wages etc.

8.3.2.3 Net Profit rate decreased from 49.73 % in the year 2020 to 36.29 % in the year 2021, registering decrease of 13.44 %. The decrease in net profit is due to increase in expected credit losses, administrative services expenditure along with salary and wages etc.

8.3.2.4 Return on Asset Rate decreased from 12.94 % in the year 2020 to 8.83 % in the year 2021, registering decrease of 4.11 %. The decrease in return on asset is due to decline in Net profit in the year 2021.

8.3.2.5 Return on Equity Rate decreased from 16.94 % in the year 2020 to 11.35 % in the year 2021, registering decrease of 5.58 %. The decrease in return on equity is due to decline in Net profit in the year 2021.

8.3.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	%age of compliance
2019-20	2	1	1	6.2.4.2	
Total	2	1	1		50%

The overall compliance of PAC directives was not satisfactory which needed improvement.

8.3.4 Audit Paras

8.3.4.1 Irregular placement of funds – Rs 4,000.000 million

According to Finance Division office memorandum No.F.4 (1)/2002-BR.II dated 02.07.2003, the process of selection of Bank(s) for investment purpose should be transparent. Therefore, prior to placing deposits into a banks, under this new policy, and in case the total working balances exceeds Rs 10 million, the selection of the bank(s) as well as the terms of deposits would be approved by the concerned Board of Directors / Governing body on the basis of competitive bids from at least three independent banks / investment companies.

During audit of National Security Printing Company (NSPC) for the year 2021-22, it was observed that the management re-invested / rolloverd its funds of Rs 4,000.000 million in various banks without obtaining competitive rates as per rules. Details are as under:

S#	Name of Bank / investment institution	Investment made in the year 2021-22 (06 months)	Rollover for the 12 month) wef 03-02-2022

1	Bank Alfalah Limited	1,500,000,000	1,500,000,000
2	Bank Al-Habib Limited	1,500,000,000	1,500,000,000
3	Habib Bank Ltd	1,000,000,000	1,000,000,000
Total			4,000,000,000

Audit is of the view that roll over of funds without obtaining competitive rates were irregular and against the rules.

The matter was reported to the management in July 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that BoD had approved an investment policy whereby investment of surplus funds were made in accordance with its stipulations. Further, the management informed that it had complied with all relevant sections prior to investment in TDRs with respective banks and rates quoted by the banks were the maximum offered for investment in fixed term deposit. The DAC directed the management to provide relevant documents to Audit for examination.

Audit recommends implementation of the DAC directives.

8.3.4.2 Non-recovery of trade receivables – Rs 3,540.452 million

Rule 5 (1) of the Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its power and carry out fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of National Security Printing Company (NSPC) for the year 2021-22, it was observed that an amount of Rs 3,540.452 million was lying outstanding against various organizations on account of trade receivables as on May 31, 2023. Details as given below:

(Rs in million)	
Customer Name	Amount
Directorate General Immigration & Passport	2,472.948
Director General Pakistan Post	1,015.722
Election commission of Pakistan	51.782
Total	3,540.452

Audit is of the view that non-recovery reflected weak recovery mechanism within the organization.

The matter was reported to the management in July, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that an amount of Rs 2,847.398 million has been recovered and verified by the Audit. The DAC directed the management to provide relevant documents to Audit for verification and pursue the remaining amounts vigorously.

Audit recommends implementation of the DAC directives.

8.3.4.3 Irregular investment in Term Deposit Receipts - Rs 2,500.000 million

Section 3 (b) of Finance Division letter No.F.4 (1)/2002-BR.II Islamabad, dated: 02.07.2003 the process of selections of banks should be transparent. Therefore, prior to placing deposits with a bank under this new policy, and in case working balances exceed Rs 10 million, the selection of the bank as well as the terms of deposits will be approved by the concerned Board of Directors/Governing Body on the basis of competitive bids from at least three independent banks.

During audit of National Security Printing Company (NSPC) for the year 2021-22, it was observed that the management invested an amount of Rs 2,500.000 million in TDRs in various banks without the approval of Board of Directors (BoD) as detailed below:

(Rs in million)						
S#	Bank Name	Amount	Rate @	Tenure	Investment date	Premature date
1.	Bank Al-Habib Limited	1,500.00	10.75	06 months	31-01-2022	30-07-2022
2.	Habib Bank Limited	1,000.00	12.70	01 years	30-03-2022	30-03-2023
Total		2,500.00				

Furthermore, funds invested were more than Rs 10.000 million which required diversification to minimize risk.

Audit is of the view that management made investment without the approval of BoD and Finance Division, which was held irregular.

The matter was reported to the management in July 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that BoD approved an investment policy whereby investment of surplus funds was made in accordance with its stipulations. The DAC directed the management to share BoD approved investment policy with relevant documents reflecting management stance that the investment was made in accordance with investment policy.

Audit recommends implementation of the DAC directives.

8.3.4.4 Irregular sale of postal / non-postal stamps – Rs 1,123.770 million

According to instructions of Finance Division No.700/CCAO/91 dated 26.10.1991 under the existing formula vide para (8) sub para (vii) PPO representative were informed that CAO independently verifies the cost of ‘Postal Work’ and it should be acceptable to PPO.

The Board of Directors in its meeting held on October 13, 2021 directed the management to take up the matter for fixation of prices of postal/non-postal stamps with the mutual consent between NSPC and Pakistan post office and also directed to get approval from Chief Cost and Accounts officer (CCAO) of Finance Division Government of Pakistan.

During audit of National Security Printing Company (NSPC) for the year 2021-22, it was observed that in contravention to above Finance Division and BoD's directives, the management sold postal and non-postal stamps to Director General Pakistan Post Office (DGPPPO) amounting to Rs 1,123.770 million without getting approval of the Finance Division and without seeking verification of cost and fixation of price from Chief Cost and Accounts officer (CCAO) and this practice was followed since 2017-18.

Audit is of the view that sale of postal and non-postal stamps without determining / authentication of its cost was held irregular.

The matter was reported to the management in August, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The DAC directed the management to place the matter before BoD.

Audit recommends implementation of the DAC directives.

8.3.4.5 Non-installation of machines – Rs 310.940 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of National Security Printing Company (NSPC) for the year 2021-22, it was observed that a smart card manufacturing system for manufacturing E-DATA page for E-passports, was procured at a cost of Rs 1, 100.00 million in the year 2018 which was not installed till close of Audit. Due to non-installation of machine, the management acquired the services for personalization of ATM cards amounting to Rs 95.940 million from out source.

It was also observed that the management procured a screen printing machine including cost of Rs 31.220 million from M/s. Sacurai graphic systems corporation. The machine was delivered in March, 2019 and same was not installed till close of Audit.

Audit is of the view that the management failed to install machines despite lapse of considerable time which reflected negligence and poor financial management.

The matter was reported to the management in July 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that the matter was under process for installation of machines. The DAC directed the management to place the matter before PAC and BoD for appropriate decision.

Audit recommends implementation of the DAC directives.

(DP No. 82 & 85)

8.3.4.6 Irregular / unjustified payment to the suppliers – Rs 217.437 million (equivalent to Euro 1,105,419)

According to clause 15.1 of the agreement between M/s Muhlbauer GMBH & Co for the procurement of Smart Card Manufacturing System for Manufacturing of E-DATA page for E-Passports;

- c) 10% (Euro 5, 64,012) of total amount to be paid after successful completion of training of NSPC team.
- d) 10% (Euro 5, 64,012) of total amount to be paid upon the site acceptance certificate (SAT) signed duly by both parties.

As per clause 15.1 of the agreement between M/s Muhlbauer GMBH & Co for the procurement of laser perforator machine and inkjet printer for barcoding;

- c) 30% (Euro 420,364.725) of total amount to be paid after issuance of site acceptance test certificate (SAT).

During audit of National Security Printing Company (NSPC) for the year 2021-22, it was observed that the management procured the following machines and paid an amount of Rs 217.437 million in violation of payment terms and conditions of the agreement:

S#	Name of Machine	Contract Value	Payment	Remarks
1.	Smart Card Manufacturing System for Manufacturing of E-DATA page for E-Passports	Euro 5,640,129 equivalent to Rs 1,100.000 million	Euro. 874,219 (Euro 564,013 + 310,207) equivalent to Rs,172.153 million	10% payment without training & 50% of 10% part payment without Site Acceptance Certificate (SAT)
2.	Laser Perforator Machine and Inkjet Printer for Barcoding	Euro 1,401,215.75 equivalent to Rs 247.975 million	Euro. 231,200.60 equivalent to Rs 45.824 million	16.50% payment without Site Acceptance Certificate (SAT)
Total			Rs 217.437 million	

Audit is of the view that the payment of Rs 217.437 million to the supplier without obtaining training and without issuance of SAT certificate was held irregular and unjustified.

The matter was reported to the management in August 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The DAC directed the management to place the matter before PAC and BoD for appropriate decision.

Audit recommends implementation of the DAC directives.

(DP No. 83 & 95)

8.3.4.7 Non-payment of Sindh Workers Welfare Fund - Rs 159.991 million

According to section 5 (1) of the Sindh Worker's Welfare Fund Act 2014 (Sindh Act No xxxiii of 2015), every industrial establishment located in the Province of Sindh and the total income of which in any year of account commencing on or after the date of closing of account on or after 31st December 2013, in this behalf is not less than five hundred thousand rupees, shall pay to the fund in respect of that year.

Further, Section 5 (2) states that every industrial establishment, which is liable shall pay the amount due from it to the Sindh Revenue Board for the purpose of this Act.

During audit of National Security Printing Company (NSPC) for the year 2021-22, it was observed that an amount of Rs 159.991 million was payable to Sind Board of Revenue on account of Sindh Worker Welfare Fund as on 30.06.2022. The management was making provisions on yearly basis instead of paying the fund regularly.

Audit is of the view that the management failed to deposit the amount of fund timely in order to avoid any penalties by the Sind Board of Revenue.

The matter was reported to the management in July 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that workers welfare fund @ 2% of the taxable amount was duly incorporated in the financial statements and payment would be cleared after seeking tax advice from tax consultant. The DAC directed that the matter be pend till final decision.

Audit recommends implementation of the DAC directives.

8.3.4.8 Exchange loss due to delay in installation of machines - Rs 131.200 million

Rule 04 of PPRA, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of National Security Printing Company (NSPC) for the year 2021-22, it was observed that the management procured two machines i.e. smart card manufacturing system and laser perforation machine from M/s. Muehlbauer Id Services GmbH. at a contract price of Euro.5, 640,129 and Euro.1, 401,215 respectively including an installation cost of Euro.778, 686. The machines were received in September and October, 2019. However, even after the lapse of 4.5 years, the machines could not be installed. The installation cost of machines would increase with the passage of time as detailed below:

Contract price in Euro	Exchange rate in Sept- 2018 (Rs)	Existing Exchange Rate (Rs)	Difference in Exchange Rate (Rs)	Amount (Rs)
778,686	143.00	311.49	168.49	131,200,804

Audit is of the view that the machines were procured without proper planning and due diligence which showed poor financial management, resultantly corporation would sustain loss in shape of higher currency exchange rate.

The matter was reported to the management in July 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The DAC directed the management to conduct an internal inquiry in the matter and share the report with Audit.

Audit recommends implementation of the DAC directives.

8.3.4.9 Wasteful expenditure on purchase of stores and spares - Rs 81.651 million

Rule 4 of PPRA, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of National Security Printing Corporation (NSPC) for the years 2021-22, it was observed that the management procured spares & stores items of Rs 63.003 million and paper & ink valuing Rs 18.648 million. The said inventory remained unutilized as on 30.06.2022 and declared as obsolete which was also being showed as work in process.

Audit is of the view that due to ill-planning and lack of due diligence on part of the management, wasteful expenditure of Rs 81.651 million was incurred.

The matter was reported to the management in July 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that engineering stores was procured to keep machinery operational. These spare parts have been kept very carefully and are useful for a period of 20 years. The provision of General store having value Rs 14.000 million becomes obsolete

due to change of design of product. The provision of stock in trade regarding paper, ink and other raw material only used on need basis. The DAC directed the management to share the policy / SOP regarding purchase of stores, spare parts from manufacturer and declare obsolete for verification.

Audit recommends implementation of the DAC directives.

8.3.4.10 Irregular payment of additional duty allowances - Rs 42.864 million

Section 2.4 of common facilities and cost sharing agreement between PSPC and NSPC dated 18-05-2017 states that no rental, service fee or any other amount by whatever name called shall be charge by PSPC to NSPC for sharing the Facilities of Common and Administrative Nature with NSPC other than the recharge as mentioned in clause 2.3.

Section 2.3 states that PSPC shall recharge the common costs of running the facilities of common and administrative nature to NSPC on annual basis based on the common costs report.

During audit of National Security Printing Company (NSPC) for the year 21-22, it was observed that the management had been paying service fee for additional duty allowance @ 5% for officer, staff and workers and 10% to deputations on NSPC to M/s Pakistan Security Printing Corporation (PSPC) in violation of above mentioned agreement. The details of amount paid is hereunder:

(Amount in Rs)					
S#	Year	Officer @ 5%	Staff @ 5%	Deputatonist @ 10%	Total
1	2021-22	8,626,263	5,442,786	2,451,522	16,520,571
2	2020-21	8,662,367	5,530,769	-	14,193,136
3	2019-20	7,223,329	4,927,868	-	12,151,197
Total					42,864,904

Audit is of the view that payment of service fee against additional allowance for PSPC employees in violation of agreement stands irregular and unjustified.

The matter was reported to the management in July 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that additional allowance was being paid to its employees for the additional duties performing for NSPC and subsequently charged to NSPC in accordance with CFCS agreement. The DAC directed the management to provide relevant documents to Audit for examination.

Audit recommends implementation of the DAC directives.

8.3.4.11 Non-imposition of liquidated damages - Rs 21.960 million

According to terms and conditions 17 of the agreement between NSPC and M/s Muhlbauer GMBH & Co, the supplier shall pay to the buyer at the rate 2% per month or part of the month for the value of the

stores which the supplier have failed to deliver within the stipulated delivery period, provided that damages shall not exceed @10 of the total price payable under the purchase contract.

During audit of National Security Printing Company (NSPC) for the year 2021-22, it was observed that the management awarded a contract for supply of electronic data page for electronic passport contract price of Euro 1, 031,000 equivalent to Rs 183.780 million to M/s. Muhlbauer GMBH & Co on May 04, 2020. The supplier was required to supply goods within 08 to 20 weeks from the issuance of Letter of Credit (LC) dated 26-06-2020. However, the supplier provided consignment (300,000 sheets) in three shipments and final shipment was shipped on 10.09.2022 i.e. after delay of twenty-two weeks. The management did not impose penalty @10% per month on the supplier i.e. Euro 103,100 (equivalent to Rs 21,960,300).

Audit is of the view that the management granted undue favor to the supplier by not imposing the penalty despite making delay in delivery of consignment.

The matter was reported to the management in July, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that Purchase Committee had the authority to extend the delivery period on request of user department. The DAC directed the management to provide relevant documents to Audit for examination.

Audit recommends implementation of the DAC directives.

8.3.4.12 Dual payment of employer's contribution - Rs 21.441 million

According to Finance Division letter No. F.2 (14) IF. IV/91/Vo;II/151 dated 27.11.1993, Finance Division allow pensionary benefits to the employees of PSpC as per Government Pension Scheme with effect from 01.11.1993 in replacement of GPF, Gratuity and EOBI, subject to condition that the Labour Division have also no objection to the replacement of Employees Old Age Benefits Scheme by the Government Pension Scheme.

During audit of National Security Printing Company (NSPC) for the year 2021-22, it was observed that the management had been paying pension contribution to Pension Fund (established in PSpC) for NSPC employees. This pension fund is maintained in PSpC to pay pensions of NSPC / PSpC employees after retirement. The management paid an amount of Rs 18.562 million in employees' pension fund during the year. Furthermore, the management also paid an amount of Rs 2.879 million as EOBI contribution for permanent and 3rd party employees. The details are hereunder:

S#	Employers Contribution	Amount (Rs in million)
1.	Employer's contribution for pension fund	18.562
2.	Employer's EOBI contribution for permanent employees	01.015
3.	Employer's EOBI contribution for 3 rd party employees	01.864
Total		21.441

Audit is of the view that the payment of two pension benefits to the employees at the same time is a violation of Finance Division instructions which is held irregular and unjustified.

The matter was reported to the management in July 2023, but no reply was received. The irregularity was discussed in the DAC meeting held on December 06, 2023. The DAC directed the management that the matter may be referred to Finance Division for further clarification.

Audit recommends implementation of the DAC directives.

8.3.4.13 Non-payment of stamp duty - Rs 9.552 million

According to Section 15 of the Sindh Revenue Board (Amendment) Act, 2020 any instrument in the nature of memorandum of agreement made or entered into by contractor with Government, a Corporation, local body, local authority, commercial or industrial concern, whether singly owned or run through partnership, body registered under the Company Law, a cooperative society or any other organization to execute any work or to supply or to undertake cartage of stores and materials and to provide engineering consultancy services or any other services covered under above documents including a purchase order, work order, cargo bill, a railway ticket of ACC, a running rate contract and other levies and taxes pertaining to local bodies shall pay twenty paise for every hundred rupees or part thereof of the amount of the contract.

During audit of National Security Printing Corporation (NSPC) for the year 2020-21, it was observed that an amount of Rs 9.552 million was payable to Sindh Revenue Board (SRB) on account of Stamp Duty as on 30-06-2022. The management had been making provisions on yearly basis instead of paying the stamp duty regularly.

Audit is of the view that management failed to pay the duties and taxes in violation of above rules.

The matter was reported to the management in August 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that it compels all suppliers to pay the stamp duty through contract on non-judicial paper and accordingly pays stamp duty at applicable rates. Further management informed that stamp duty on purchase of paper has to be paid by M/s Security Papers Limited. The DAC directed the management to provide relevant documents to Audit for examination.

Audit recommends implementation of the DAC directives.

8.3.4.14 Irregular award of contract to 2nd lowest bidder - Rs 7.956 million

Rule 38 of PPRA Rules, 2004 states that the bidder with the lowest evaluated bid, if not in conflict with any other law, rules, regulations or policy of the Federal Government, shall be awarded the procurement contract, within the original or extended period of bid validity.

During audit of National Security Printing Company (NSPC) for the year 2021-22, it was observed that the management invited a tender for purchase of Fork Lifter. In response, two (02) bidders participated. The bid of first lowest bidder M/s. Akber Ali & Sons was rejected during technical evaluation having less speed. However, its offered speed was higher than the speed of M/s AL Majid Int Co as per catalogue specification. Despite that, the contract was awarded to the 2nd lowest M/s Al Majid International Co amounting to Rs 7.956 million. The detail is as under:

S#	Name of Bidders	Position	Offered (Rs)
1	M/s Akber Ali & Sons	1 st Lowest	7,056,210.00
2	M/s Al Majid Int. Co	2 nd Lowest	7,956,000.00

Audit is of the view that contract was awarded to the 2nd lowest bidder, which reflects favoritism and violation of PPRA, 2004. Thus, award of contract amounting to Rs 7.956 million is held irregular and unjustified.

The matter was reported to the management in August 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The DAC directed the management to provide relevant documents to Audit for examination.

Audit recommends implementation of the DAC directives.

8.3.4.15 Irregular award of contract on single stage one envelope procedure - Rs 5.406 million

Rule 37 (a) of PPRA Rules, 2004 states that single stage two envelope bidding procedure shall be used where the bids are to be evaluated on technical and financial grounds and price is taken into account after technical evaluation.

During audit of National Security Printing Company (NSPC) for the year 2021-22, it was observed that following tenders were awarded on the basis of single stage one envelope procedure despite the fact that technical evaluation for accepting the bids were carried out in these cases and where bids were to be evaluated on technical ground, single stage two envelope procedure had to be adopted:

S #	Bidder	Description	Date of technical evaluation	Bid price	Quantity	Contract price (Rs)
1.	M/s. Naveed Chemicals.	ISO Propyle Alcohol	14-06-2021	240.85 per ltr.	3,990 ltrs	1,124,361
2	M/s. Marium & Co.	MICR red bleed Ribbon	02-06-2021	6,100 per unit	600 units	4,282,200
Total						5,406,561

Audit is of the view that the management failed to adopt single stage two envelope procedure where bids were been evaluated on the basis of technical evaluation in violation of PPRA Rules, 2004.

The matter was reported to the management in August 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The DAC directed the management to provide reasons for contracts awarded to suppliers on the basis of single stage one envelope. DAC further directed the management to provide relevant documents i.e. sample rejected or not by laboratory to Audit for examination.

Audit recommends implementation of the DAC directives.

8.4 Pakistan Security Printing Corporation (Pvt.) Limited

8.4.1 Introduction

Pakistan Security Printing Corporation (Private) Limited was incorporated in Pakistan under the Companies Act, 1913 (now the Companies Act, 2017) and is wholly owned by the State Bank of Pakistan (SBP). The registered office and the factory of the Corporation are located at Jinnah Avenue, Malir Halt, Karachi. The Corporation is principally engaged in the printing of currency notes and prize bonds on behalf of State Bank of Pakistan.

8.4.2 Comments on Audited Accounts

8.4.2.1 The working results of the Corporation for the year ended June 30, 2023 as compared with the preceding years are given below:

(Rs in million)					
	2022-23	% Inc / (Dec)	2021-22	% Inc / (Dec)	2020-21
Sales	21,836.38	11.71	19,548.095	(0.66)	19,678.11
Cost of Sales	(17,775.09)	14.86	(15,475.543)	(1.82)	(15,762.849)
Gross Profit	4,061.30	(0.28)	4,072.552	4.02	3,915.263
Administrative Expenses	(857.23)	8.39	(790.864)	(6.32)	(743.85)
Other expenses	(502.11)	2.17	(491.426)	1,335.32	(34.238)
Other Income	1,527.48	58.91	961.207	41.04	681.50
Financial Cost	(3.28)	144	(1.343)	(27.52)	(1.853)
Share of profit from associates excluding dividend	725.96	(4.81)	762.677	(42.99)	1,337.861
Profit before taxation	4,952.12	9.73	4,512.803	(12.46)	5,155.403
Profit after taxation	3,073.97	(0.26)	3,081.888	(19.76)	3,840.679
Current Ratio	5.99	0.28	5.716	8.257	5.280
Debt Ratio	0.11	(9.80)	9.913	(3.682)	10.292
Equity Ratio	0.89	(0.01)	0.90	0.004	0.897
<i>(Source: Annual audited Accounts)</i>					

8.4.2.2 Other expenses increased by 2.17% to Rs 502.11 million in 2022-23 from Rs 491.426 million in 2021-22 may be justified.

8.4.2.3 Finance cost increased by 144% to Rs 3.280 million in the year 2022-23 from Rs 1.343.000 million in 2021-22.

8.4.2.4 Share of profit from associated has decreased by 4.81% to Rs 725.96 million in year 2022-23 as compared to previous year 2021-22 Rs 762.677 million which may be justified.

8.4.2.5 Administrative expenses & cost of sales increased by 8.39% & 14.86% respectively which needed to be justified.

8.4.2.6 Profit after taxation has decreased by 0.26% to Rs 3,073.97 million inspite of increase in sales in the year 2022-23 as compared to previous year 2021-22 Rs 3,081.88 million which may be justified.

8.4.2.7 Equity Ratio in the year 2022-23 stands at 0.89 showing slight declined position against preceding year value of 0.90.

8.4.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	% age of compliance
2002-03	4	3	1	67.2	75%
2007-08	5	2	3	49.2, 50	40%
2010-11	13	-	13	7.3.1, 7.3.2, 7.3.2.1, 7.3.2.2, 7.3.2.3, 7.3.2.4, 7.3.3, 7.3.4.1, 7.3.4.2, 7.3.4.3, 7.3.4.4, 7.3.4.5, 7.3.4.6	-
2013-14	7	4	3	6.2.2.1, 6.2.2.3, 6.2.2.5, 6.3.3	57%
2015-16	8	1	7	6.3.4.4, 6.3.2.2, 6.3.2.3, 6.3.3, 6.3.4.1, 6.3.4.2, 6.3.4.3, 6.3.4.5	13%
2016-17	6	1	5	6.2.2.1, 6.2.3, 6.2.4.1, 6.2.4.2, 6.2.4.3	17%
2019-20	5		5	6.3.4.1, 6.3.4.2, 6.3.4.3, 6.3.4.4, (6.3.4.5 DAC level)	0%
Total	48	11	37		23%

The overall compliance of PAC directives needs to be improved.

8.4.4 Audit Paras

8.4.4.1 Non deduction of sales tax – Rs 3,930.500 million

As per section 3(1) of Sales Tax Act 1990, subject to the provision of this Act, there shall be charged, levied and paid on tax known as sales tax at the rate of 18% of the value of (a) taxable supplies made by a registered person in the course or further of any taxable activities carried on by him (b) goods imported in to Pakistan. According to eleventh schedule sub-section of (7) of section (3): whole of the tax involved or as applicable to supplies on the basis of gross value of supplies shall be withheld by withholding agent.

During audit of Pakistan Security Printing Corporation (PSPC) for the year 2022-23, it was observed that the management printed bank notes & prize bonds having quantity of 3,753.700 million pieces valuing at Rs 21,836.382 million. However, the management did not deposit the applicable sales tax @18% amounting to Rs 3,930.500 million.

Audit is of the view that the non-deduction of sales tax was a serious lapse on the part of management which needed to be justified.

The matter was reported to the management on December 08, 2023, but no reply was received.

Audit recommends to probe the matter.

8.4.4.2 Non-recovery of outstanding dues – Rs 2,892.840 million

Rule 23 of GFR, provides that every government officer should realize fully and clearly that he will be held personally responsible for any loss sustained by Government through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other Government officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence.

During audit of Pakistan Security Printing Corporation (PSPC) for the year 2022-23, it was observed that an amount of Rs 2,892.84 million was outstanding balance against the trade debtors and associates as on June 30, 2023 are as under:

S#	Description(s)	(Rs in million)
1	Trade debtors (SBP)	2,843.26
2	Other Receivables Associated, SICPA	6.189
3	Other Receivables Associated, SPL	43.392
Total		2,892.84

Audit is of the view that non-recovery of outstanding amount reflects weak financial management.

The matter was reported to the management on December 08, 2023, but no reply was received.

Audit recommends early recovery of the outstanding amount.

(DP No. 915 & 927)

8.4.4.3 Non-maintenance of super orlof intaglio machine -Rs 1,438.000 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters. He is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Security Printing Corporation (PSPC) for the year 2022-23, it was observed that the management has two (2) super orlof intaglio machines for more than 15 years. Machine's production capacity has decreased from 10,000 sheets/hr to 7,000 sheets/hr due to wear and tear. It was observed that Board approved capital budget of Rs 1,438.000 million for complete overhauling of machine for the year 2022-23. However, no overhauling of the machine was carried out by the management despite allocation of huge amount.

Audit is of the view that due to non-maintenance of machine by the Corporation has decreased its production substantially which is causing losses to the organization.

The matter was reported to the management on December 08, 2023, but no reply was received.

Audit recommends to justify the matter.

8.4.4.4 Non-settlement of sales tax - Rs 292.000 million

Section 3(1) of Sales Tax Act 1990, subject to the provision of this Act, there shall be charged, levied and paid on tax known as sales tax at the rate of 18% of the value of – (a) taxable supplies made by a registered person in the course or further of any taxable activities carried on by him (b) goods imported in to Pakistan. According to eleventh schedule sub-section of (7) of section (3): whole of the tax involved or as applicable to supplies on the basis of gross value of supplies shall be withheld by withholding agent.

During audit of Pakistan Security Printing Corporation (PSPC) for the year 2022-23, it was observed that an amount of Rs 292.000 million of sales tax was recoverable as on June 30, 2023.

Audit is of the view that non-recovery / adjustment of sales tax reflected weak financial management.

The matter was reported to the management on December 08, 2023, but no reply was received.

Audit recommends to justify the matter.

8.4.4.5 Irregular procurement of various items - Rs 137.506 million

Rule 20 of PPRA Rules, 2004 stipulates that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Pakistan Security Printing Corporation (PSPC) for the year 2022-23, it was observed that the management purchased various items from suppliers without open competitive bidding on splitting basis during the year. The detail is as under:

(Rs in million)			
S#	Agency	Item	Amount
1	M/s Metro stores		95.727
2	M/s Al- Majid Co.	Various items	24.448
3	M/s H2O	Water	17.331
Total			137.506

Audit is of the view that the direct purchases without competitive bidding were irregular and unjustified.

The matter was reported to the management on December 08, 2023, but no reply was received.

Audit recommends to probe the matter.

(DP No. 924, 930 & 934)

8.4.4.6 Un-justified expenditure on gardening & poly culture forest - Rs 27.822 million

Rule 20 of PPRA Rules, 2004 stipulates that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Pakistan Security Printing Corporation (PSPC) for the year 2022-23, it was observed that the management incurred an expenditure of Rs 27.822 million on account of gardening & poly culture forest against its core business. The main purpose of PSPC was to achieve production targets of finished goods as per law & SoPs and not to promote the culture of forestry. Further, the expenditure was incurred without competitive bidding. The detail is as under:

S#	Description	Rs in million
01	Gardening	20.828
02	Poly culture forest	6.994
Total		27.822

Audit is of the view that an expenditure on gardening & poly culture forest was against its core business and in violation of rules.

The matter was reported to the management on December 08, 2023, but no reply was received.

Audit recommends to justify the matter.

8.4.4.7 Non-adjustment of advances – Rs 24.800 million

Rule 4(3) of the Public Sector Companies (Corporate Governance) Rules, 2013, states that the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters.

During audit of Pakistan Security Printing Corporation (PSPC) for the year 2022-23, it was observed that management did not adjust advance payments of Rs 24.800 million outstanding against various parties up to 30th June 2023.

Audit is of the view that no-adjustment of advance payment reflects weak financial management.

The matter was reported to the management on December 08, 2023, but no reply was received.

Audit recommends early adjustment of the advance payments.

8.4.4.8 Loss due to purchase of spare parts at higher rates – Rs 13.473 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Security Printing Corporation (PSPC) for the year 2022-23, it was observed that the management procured spare parts (technical items) from M/s UNO seisakusho Ltd. amounting to Rs 43.000 million and paid higher amount being proprietary item. However, the inventory record indicated that these items were not urgently required and sufficient stock of similar 720 items was available at PSPC store which was not utilized in time. It was further observed that the unit price quoted by the same supplier in 2023 was 43% (Rs 13.473 million) higher than the previously supplied items in year 2021.

Audit is of the view that procurement of such items which were already available in stock at higher rates was irregular and wastage of resources, which reflects weak inventory and financial management.

The matter was reported to the management on December 08, 2023, but no reply was received.

Audit recommends to investigate the matter.

8.4.4.9 Irregular payment of extra charges to contractor – Rs 8.651 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Security Printing Corporation (PSPC) for the year 2022-23, it was observed that the management issued work order to M/s Aneel for renovation of office building valuing Rs 29.600 million including extra charges on March, 2021. However, management again revised work order and paid another extra charges amounting to Rs 8.651 million. The details are as under:

Description	Work order dated 29.3.2021		Amended / revised work order		Remarks
	Total (Rs)	25,388,699	?	25,388,699	
Services of a construction for the renovation of office building	Extra charges (Rs)	4,211,300		8,651,300	No justification for extra charges and amend in work order.
	Grand total (Rs)	29,600,000		34,040,000	

Moreover, contractor failed to complete the job within stipulated period i.e. 29.8.2021 and was granted extension up to 30.11.2021. However, no job completion certificate was provided to Audit.

Audit is of the view that payment of extra charges to the contractor was irregular and un-justified.

The matter was reported to the management on December 08, 2023, but no reply was received.

Audit recommends to justify the matter.

8.4.4.10 Irregular award of consultancy work – Rs 7.061 million

Rule 20 of PPRA Rules, 2004 stipulates that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Pakistan Security Printing Corporation (PSPC) for the year 2022-23, it was observed that the management selected consultant M/s. National electronics complex of Pakistan (NECOP) for consultancy services for Integrated Security System (ISS) directly at cost of Rs 6.248 million exclusive of tax. Further, boarding / lodging and transport services shall be rendered to NECOP team by PSPC. Audit further, observed the following:

- The management negotiated with bidder and accepted the cost effective option for PSPC which incurred extra expenditure.
- Purchase committee on 29.05.2023 granted waiver of bank guarantee to M/s NECOM by extending undue favor.
- The management issued PO.No.25110 dated 30.05.2023, & completion schedule date was 20.09.2023.
- The management released 50% advance payment Rs 2.625 million on 15.06.2023.

Audit is of the view that the award of contract without invitation of tender was irregular and unjustified.

The matter was reported to the management on December 08, 2023, but no reply was received.

Audit recommends to justify the matter.

8.4.4.11 Irregular appointment without advertisement - Rs 5.709 million

Rule 20 of PPRA Rules, 2004 stipulates that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

As per guidelines / letter dated January 02, 2002 issued by the Auditor General of Pakistan in accordance with the provisions of section 15(1) of the Auditor General's (Functions, powers and terms and conditions of Service) Ordinance, 2001, the auditors should be appointed in consultation with Auditor General of Pakistan and rotated after every 5 years. Instructions were issued in compliance of Finance Division's letter dated March 25, 1981.

During audit of Pakistan Security Printing Corporation (PSPC) for the year 2022-23, it was observed that management appointed external auditor M/s KPMG & Co. and tax consultant, M/s A.F. Ferguson & Co. without advertisement. Further, concurrence of the Auditor General of Pakistan was also not obtained for appointment of external auditor.

Audit is of the view that appointment of external auditor and tax consultant without tender was held irregular.

The matter was reported to the management on December 08, 2023, but no reply was received.

Audit recommends to justify the matter.

(DP No.958 & 959)

8.4.4.12 Loss due to stolen / shortage of currency notes – Rs 5.000 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Pakistan Security Printing Corporation (PSPC) for the year 2022-23, it was observed that an incident for theft of currency was occurred at Samar Satta. The stolen amount was Rs 5.000 million. The management lodged Police case FIR No. 02/21 Police Station Sama Satta Bahawalpur, Punjab. Moreover, the management did not provide the inquiry report despite several verbal requests. However, the matter was still unresolved, which needs justification.

Audit is of the view that stolen / shortage of currency notes reflects negligence and slackness on the part of management.

The matter was reported to the management on December 08, 2023, but no reply was received.

Audit recommends to justify the matter.

8.5 State Bank of Pakistan

8.5.1 Introduction

State Bank of Pakistan (SBP) is the Central Bank of Pakistan and is incorporated under the State Bank of Pakistan Act, 1956. It is an autonomous institution. Under the provisions of the SBP Act, 1956, the general superintendence and direction of the affairs and business of the Bank rests with the Central Board of Directors. Through an amendment in SBP Act in 1994, the Central Board of Directors was enlarged and now consists of the Governor, Secretary Finance Government of Pakistan and seven directors nominated by the Federal Government. From these seven directors, one Director from each province is nominated while ensuring representation to agriculture, banking and industrial sectors.

Strategic objectives are:

- i. Broadening access of Financial Services.
- ii. Ensuring viability of the Financial Sector.
- iii. Maintaining Price Stability with Economic Growth.
- iv. Exchange and Reserve Management.
- v. Strengthening the Payment System.
- vi. Human Resources Development.
- vii. Information Technology Development.

8.5.2 Comments on Audited Accounts

8.5.2.1 The working results of bank for the year ended June 30, 2023 as compared to previous years are given below:

(Rs in million)					
Particulars	2022-23	% Inc /(Dec)	2021-22	% Inc /(Dec)	2020-21
Interest expense	147,668.48	143.7	60,596.15	15.0	52,695.37
Exchange (Loss) / Gain	(875,024.85)	1,310.8	(62,023.08)	(145.8)	135,327.77
Operating expenses - Bank note & Prize bond printing charges	17,775.05	14.9	15,475.54	(1.8)	15,762.13
Provision / (reversal) against other doubtful debts	896.12	138.1	376.38	(1,628.7)	(24.62)
Charge of credit loss allowance on financial instruments	213.33	11,211.1	1.89	(102.9)	(63.95)
General administrative and other expenses	42,741.50	13.9	37,535.47	28.0	29,320.54
Foreign Currency accounts and investments	1,590,147.39	(27.0)	2,178,557.20	(23.8)	2,858,844.8 1
Special Drawing Rights (SDRs) of IMF	5,380.67	(87.6)	43,460.78	(28.5)	60,771.01
Other Assets	35,029.91	(19.6)	43,563.28	20.1	36,275.43

(Source: Annual Audited Accounts)

8.5.2.2 Interest expense has significantly increased by 143.7% from Rs 60,596.15 million in year FY-2022 to Rs 147,668.48 million in FY-2023, mainly due to increase in interest expense on bilateral currency swap and SDRs, securities sold under agreement to repurchase and charges on allocation of SDRs of IMF.

8.5.2.3 Exchange loss has considerably increased by 1,310.8% from Rs 62,023.080 million in year FY-2022 to Rs 875,024.85 million in FY-2023, on account of loss on foreign currency placements, securities, IMF fund facilities and SDRs of IMF.

8.5.2.4 Operating expenses under bank note & prize bond printing charges has increased by 14.9% from Rs 15,475.54 million in FY 2022 to Rs 17,775.05 million in FY 2023 owing to increase in manufacturing cost

8.5.2.5 General administrative and other expenses have increased by 13.9% during year under review to Rs 42,741.50 million from Rs 37,535.47 million in previous year mainly due to increase in salaries and retirement benefits and employees compensated absences.

8.5.2.6 Foreign Currency accounts and investments have significantly declined by 27% from Rs 2,178,557.200 million in year 2022 to Rs 1,590,147.39 million in FY 2023 due to withdrawal of funds / investments from international fund managers by the management.

8.5.2.7 Other assets of the bank have significantly decreased by 19.6% to Rs 35,029.91 million during the FY 2023 from Rs 43,563.28 million in year 2022, mainly due to decrease in advances and deposits.

8.5.2.8 Provision for credit loss ratio has deteriorated slightly during the year representing an increase in credit risk of loans of the bank.

8.5.2.9 Return on equity has declined from 45.9% to 41.6% during the year representing a relative decrease on equity.

8.5.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	% of compliance
2005-06	13	11	2	73, 76	85%
2006-07	9	3	6	43.2, 43.3, 44, 45, 46, 47, 48	33%
2007-08	5	2	3	51.2, 52,53	40%
2008-09	5	4	1	63	80%
2009-10	6	4	2	68,69	67%
2010-11	12		12	7.4.1, 7.4.2, 7.4.2.1, 7.4.2.2, 7.4.2.3, 7.4.2.4, 7.4.2.5, 7.4.3, 7.4.4.1, 7.4.4.2, 7.4.4.3, 7.4.4.4,	
2013-14	24	1	23	6.3.2.1, 6.3.2.2, 6.3.2.3, 6.3.2.4, 6.3.2.5, 6.3.2.6, 6.3.2.7, 6.3.2.8, 6.3.2.9, 6.3.2.10, 6.3.3, 6.3.4.1, 6.3.4.2, 6.3.4.3, 6.3.4.4, 6.3.4.5, 6.3.4.6, 6.3.4.7, 6.3.4.8, 6.3.4.9, 6.3.4.10, 6.3.4.11, 6.3.4.12	4%
2015-16	15	1	14	6.4.4.3, 6.4.4.8, 6.4.2.1, 6.4.2.2, 6.4.2.3, 6.4.2.4, 6.4.3, 6.4.4.1, 6.4.4.2, 6.4.4.4, 6.4.4.5,	7%

				6.4.4.6, 6.4.4.7, 6.4.4.9	
2016-17	12	5	7	6.3.4.1,6.3.2.1, 6.3.3, 6.3.4.2, 6.3.4.3, 6.3.4.5, 6.3.4.8,	42%
2019-20	4	1	2	6.4.4.1, 6.4.4.3 (6.4. 4.4 DAC level)	25%
Total	105	32	72		30%

The overall compliance of PAC directives needs improvement.

8.5.4 Audit Paras

8.5.4.1 Disbursements of loan beyond validity period - Rs 90,310.706 million

According to SBP circular No. IH&SMEFD Circular No. 3 of 2020 dated 17.03.2020 to combat the impact of COVID-19, State Bank of Pakistan (SBP) introduced a time bound emergency support for hospitals & medical centers by providing refinance facility to develop capacity for treatment of infected patients of COVID 19, and the validity of this scheme was up to September 30,2020.

According to SBP circular No. IH&SMEFD Circular No. 1 of 2020 dated 17.03.2020 In order to support sustainable economic growth especially in the backdrop of challenges being faced by the industry in post-pandemic scenario, State Bank of Pakistan (SBP) has introduced Temporary Economic Refinance Facility (TERF). The facility will provide concessionary refinance for setting up of new industrial units. Validity period was 31.03.2021.

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was observed that State Bank of Pakistan allowed disbursements under two schemes, Refinance Facility for Combating COVID-19 (RFCC) and Temporary Economic Refinance Facility (TERF), beyond validity period. The detail is hereunder:

(Rs in million)			
Scheme	Amount Disbursed beyond validity	Validity Period	Period of Disbursements
RFCC	2,484.706	30.09.2020	2022
TERF	87,826.000	31.03.2021	
Total	90,310.706		

Case-wise data was requisitioned for above schemes to ascertain the grounds of these disbursements and reason for delay in disbursements (if any), but record was not provided.

Audit is of the view that the schemes which were marked by timelines and validity period should have been disbursed in the due course. Delayed disbursements and the same beyond validity period compromised objectives of schemes.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that the disbursement under TERF continued after March 31, 2021, for cases approved till deadline. In this regard, disbursements of Rs 398.000 billion has been made till June end, 2023 which may increase in future. DAC directed the management to re-verify the data to Audit.

Audit recommends implementation of the DAC directives.

8.5.4.2 Non-detection of irregular transactions in time - Rs 19,552.203 million

As per SBP Act section 4C (h), the functions of the Bank to achieve the objectives set forth in section 4B and as further described in this Act, shall be to license, regulate and supervise scheduled banks and financial institutions that fall under the domain of the Bank as further specified in this Act or any other Act;

During audit of State Bank of Pakistan H.O (SBP) for the year 2021-22, it was observed that M/s Energy Global International FZE (EGI) for promoting investments under the umbrella of BIT (Bilateral Investment Treaty) between the Government of Pakistan and Iran opened an account with defunct KASB and started its operations. The accounts were initially opened in EURO and Yen currencies, then on 14.12.2012, it was converted into Special Convertible Rupee Account (SCRA). It was further revealed from the records that beneficial owner and authorized owner of EGI is on OFAC (Office of Foreign Assets Control), USA list since 26.11.2008 on account of involvement in alleged illegal transactions as defined by OFAC (USA) and warned defunct KASB on the affairs of EGI. This illegal company continued its operations from 2008 up-till 14.12.2012, when SBP finally froze their accounts. Here it is worth mentioning that the illegal transaction continued for 4 years and remained unidentified till December 2012, the volume of transactions/investment in those fake/illegal accounts was up to Rs 19,552.203 million.

Audit is of the view that non-detection of irregular transaction in time reflected weak internal controls.

The matter was reported to the management in June, 2023. The management in its reply stated that the observation is beyond the scope of AGP audit. The reply is not tenable as specific reply was not provided.

Audit recommends for such a strong control system and fixing of responsibility on the person(s) at fault.

8.5.4.3 Shortfall of financing to women under Kamyab Jawan Youth Entrepreneurship Scheme - Rs 9,190.500 million

According to para 2(6) of IH&SMEFD Circular No. 21 of 2020 dated July 10, 2020, Government of Pakistan has taken measures to provide self-employed opportunities to unemployed youth. Among the key features of the program as approved by the Prime Minister, 25% of the loans under this scheme will go to the women borrowers.

During audit of State Bank of Pakistan (SBP) (HO) and BSC for the year 2021-22, it was observed that management did not take any action against the banks violating conditions of Kamyab Jawan SME lending program. Record reflected share of disbursed loans to women entrepreneurs was only 7% as against requirement of 25%. As a regulator, SBP did not take any action against those banks violating the rules. Detail of disbursed loans by commercial banks is as under:

Banks	Total amount disbursed	Amount disbursed to male	Amount disbursed to female	Amount disbursed to female (%)	Difference (Rs in million)	
					Less than 25%	Remaining amount
Commercial Banks	47,181	43,839	3,342	7	25-7=18	8,453.25
Islamic Banks	4,609	4,194	415	9%	25-9=16	737.25
Total	51,790	48,033	3,757	100		9,190.5

Audit is of the view that non-disbursement of the loans to women entrepreneur upto required share of 25% reflected negligence on part of commercial banks in promoting women entrepreneurship and SBP should have taken action against those banks.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. DAC directed the management to submit revised reply containing all facts and figures to Audit.

Audit recommends implementation of the DAC directives.

8.5.4.4 Loss of funds due to poor performance by fund managers - Rs 6,198.048 million

According to Section 23 (2) SBP Act, 1956, the Bank may appoint managers, custodians, and any other professional advisors for the effective management of foreign exchange reserves of the country.

During audit of State Bank of Pakistan (SBP) and SBP-Banking Services Corporation (BSC) for the year 2021-22, it was observed that management hired services of two fund managers on 01.07.2021 to invest public money/funds on its behalf. However, M/s. BNY Mellon as custodian of SBP submitted monthly statements of change in net assets to SBP and intimated that the fund was not managed in a profitable manner by both of the fund managers and net assets invested in the funds had decreased significantly. This resulted into loss of Rs 6,198.048 million approx. (Rs 2,362.602 million + Rs 3,835.446 million) (Annex-51).

Audit is of the view that fund managers failed to secure the interest of SBP and caused loss of Rs 6,198.048 million.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that M/s UBS reported realized gain of \$ 16.679 million (eq. PKR 2,969 million) in contrary to \$ 10.272 million (PKR 2,362.602 million) realized loss and M/s PIMCO reported realized gain of \$ 6.567 million (eq. PKR 1,169 million) in contrary to \$ 18.709 million (PKR 3,835.446 million) realized loss. DAC directed the management to re-verify the documents to Audit and place the matter to Board of Directors (BoD) for their decision and share the directives with Audit.

Audit recommends implementation of the DAC directives.

8.5.4.5 Loss due to allowing delayed concessionary loans ignoring real interest rates - Rs 1,038.730 million

According to SBP circular No. IH&SMEFD Circular No. 1 of 2020 dated 17.03.2020, in order to support sustainable economic growth especially in the backdrop of challenges being faced by the industry in post-pandemic scenario, State Bank of Pakistan (SBP) has introduced Temporary Economic Refinance Facility (TERF). The facility will provide concessionary refinance for setting up of new industrial units.

According to SBP circular No. IH&SMEFD Circular No. 03 of 2020 dated 17.03.2020, to combat the impact of COVID-19, State Bank of Pakistan (SBP) has introduced a time bound emergency support for hospitals & medical centers by providing refinance facility to develop capacity for treatment of infected patients of Covid-19 (valid upto 30th September, 2020).

During audit of State Bank of Pakistan H.O (SBP) & SBP BSC for the year 2021-22, it was observed that several concessionary loans were introduced to cater the impact of Covid-19 on the economy. In this regard SBP on the instructions of Govt. of Pakistan launched Temporary Economic Refinance Facility & Loans and Advances under Covid-19. The data regarding the disbursements during 2021-22 was called upon and analysis revealed that SBP kept on disbursing on the said schemes till June 2022. On the other hand, upon the normalization of world economy post Covid-19, significant upward movement in the interest rates was seen. Audit made a sample comparison in the interest rates that were allowed as per the schemes and interest rates at the time of disbursements of said loans which revealed that a huge benefit was transferred in the shape of discounted interest rates tabulated below:

Scheme Name	Loan Disbursed during June 2022 (Rs)	Interest rate on inception of scheme	Interest rate at the time of disbursement	Loss of interest income (Rs)
Covid-19 loans	700,183,511	3%	13.80%	75,619,819
TERF	10,944,434,550	5%	13.80%	963,110,240
Loss (3%-13.8) & (5%-13.8%) due to allowing low interest rates				1,038,730,059

Audit is of the view that the management should have devised a policy so that the loans disbursed after the normalization of economy could have adjusted as per the real interest rates prevailing at that time. Hence, the discounted rates not only benefitted the borrowers, the same constituted a loss, if taken at real terms. Ultimately the cost burden was taken by SBP.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that the deadlines were only for the approvals of TERF and RFCC, actual disbursements took place later and these facilities are fixed in terms of interest rates. DAC directed the management to re-verify the data to Audit.

Audit recommends implementation of the DAC directives.

8.5.4.6 Non-adjustment of advances of different dealers – Rs 975.615 million

Para 10 (iv) of Code of Corporate Governance Regulations, 2019 states that a system of sound internal control is established, which is effectively implemented and maintained at all levels within the company.

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was observed that approved dealers (AD) deposited a sum of Rs 975.615 million to SBP-BSC in respect of import advance payment /FE-25 export loan/advance payments of Hajj & Umrah organizers. However, such amount was not adjusted since long. Details are as under:

Accounts Statement Period 01-07-2021 to 30-06-2022			
Account No.	Title of Accounts	Description	Balance at period end (Rs)
02013999990057	RTGS CLR processing fee-refund-ads	Import Advance Payment\FE-25 Export loan/advance payments of Hajj & Umrah organizers	975,615,534

Audit is of the view that non-adjustment of advances of different banks since long caused increase in liability of SBP.

The matter was reported to the management on 21.06.2023. The management in its reply stated that after discussion with all internal stakeholders, SoP was devised for transfer of amount from this account to relevant income head. Accordingly, deposited amount was adjusted and stands regularized. However, the management did not provide any documentary evidence to audit for examination.

Audit recommends management may adjust the amount of advances as per SBP policy.

8.5.4.7 Loss due to allowing export refinance schemes without due diligence - Rs 615.000 million

Section (4) (3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

As per the objectives of SBP Export Refinance Schemes, this initiative will help exporters meet their working capital needs and incentivize them to bring in their export proceeds in a timely manner to help improve foreign exchange inflows in the interbank market.

During audit of State Bank of Pakistan H.O (SBP) & SBP BSC for the year 2021-22, it was observed that during 2015-16, management allowed M/s AFN Enterprises, a Yemen & Ethiopia - based exporter, loan facility under Export Refinance Facility (ERF) amounting to Rs 615.000 million without taking into account the fact that at the time of availing loan facility, both the countries were in state of war.

Subsequently, export contracts were cancelled and the exporter was unable to adjust/repay the loan already availed.

Audit is of the view that being a regulator and final authority of the ERF schemes, SBP should have devised a policy taking into account the ground realities and regional circumstances before allowing loans on such risky export contracts. The exporter did not execute export orders due to ongoing war in the region. Thus, allowing refinance scheme by SBP was not justified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that EFS is a performance based facility where exporters have to show export performance for financing availed and in case of failure, fine at prescribed rate was charged to exporters. It may be noted that no shipment had been made; there was no question of foreign exchange loss. DAC directed the management to re-verify the record / data to Audit.

Audit recommends implementation of the DAC directives.

8.5.4.8 Unjustified payment of property tax – Rs.558.309 million

According to section 99 of Cantonment Act 1924, exemption in the case of buildings (2) the following buildings and lands shall be exempt from any tax on property (f) any building or lands, used or acquired for the public service or for any public purpose, which are the property of [the Government], or in the occupation of [the [Federal] or any Provincial Government].

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was observed that SBP BSC possessed buildings in Rawalpindi, Hyderabad and Peshawar cantonment areas and paid property tax amounting to Rs 558.309 million despite the fact that government buildings were exempted off any tax on property.

Audit is of the view that payment of property tax was in violation of Cantonment Act 1924. Thus, payment of property tax was held irregular in audit.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that since Bank procured properties in Cantonment areas under lease agreements, the bank was obligated to fulfill and comply with all the terms and conditions of the lease including property tax obligations. Later on, SBP filed appeals before the Cantonment Board Authorities for consideration of property tax and upon their refusal, the SBP approached Court of Law. Three High Courts have ruled in favor of SBP except Sindh High Court (SHC). SBP had thus filed an appeal with Supreme Court of Pakistan against SHC. DAC directed the management to provide latest progress of the matter to Audit for examination.

Audit recommends implementation of the DAC directives.

8.5.4.9 Loss due to non-achievement of benchmark return by fund managers - Rs 503.114 million equivalent to USD 2.456 million

According to para (1.1) & (1.2) of investment agreement, the manager shall seek to achieve excess return relative to the Benchmark Index while seeking to protect principal. (1.2) The manager's performance

in the management of portfolio will be assessed at regular intervals by comparing the returns earned on the portfolio, both before and after fees, with notional returns on the benchmark index.

During audit of State Bank of Pakistan (SBP) and SBP-Banking Services Corporation (BSC) for the year 2021-22, it was observed that the following fund managers failed to achieve benchmark rate of return during the year. Detail is hereunder:

Fund Manager	Portfolio (USD)	Rate of return (%)	Benchmark Return (%)	Non-achievement of Benchmark return (%)	Loss (USD)
JPM	536,564,659	(3.07)	(2.73)	(0.34)	1,824,320
Black Rock	485,916,036	(2.86)	(2.73)	(0.13)	631,691
Total	1,022,480,695				2,456,011

It was further observed that SBP invested funds through fund managers at negative rate of return which further deteriorated and caused losses.

Audit is of the view that fund manager's failure to achieve at least benchmark rate of return resulted in loss of USD 2.456 million equivalent to Rs 503.114 million (1USD as on 30.06.2022=Rs 204.85).

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. DAC directed the management to place the matter to Board of Directors (BoD) for their decision and share the directives with Audit.

Audit recommends implementation of the DAC directives.

8.5.4.10 Non-recovery of loans against rozgar scheme - Rs 496.000 million

According to Refinance Scheme for payment of wages & salaries to the workers and employees of business concerns popularly known as SBP rozgar scheme. The financing was available for maximum of two years with a grace period of 06 months.

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was observed that SBP launched rozgar scheme on April 10, 2020, preventing layoff by financing wages and salaries of employees (permanent, contractual, daily wagers as well as outsourced) for a period of six months (April 2020-Sep 2020). Financing was available for maximum of two years with a grace period of 06 months. However, an amount of Rs 496.000 million was still outstanding from the debtors as the validity period of recovery under the scheme was 10th March, 2023. Details are as under:

(Rs in million)			
Validity of scheme	Tenor of scheme	Maturity date	Amount outstanding

April 2020-Sep 2020	Maximum 02 years and 06 month grace period	March 10,2023	496.0
---------------------	--	---------------	--------------

Audit is of the view that non-recovery from the defaulters showed weak internal controls.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that full amount was recovered. DAC directed the management to verify the recovered amount to Audit.

Audit recommends implementation of the DAC directives.

8.5.4.11 Unjustified payment of income continuation plan – Rs 423.000 million

As per section 5(1) of Public Sector Companies (Corporate Governance) Rules, 2017, the directors of a Board shall be persons who, in opinion of the Government, shall assist the Public Sector Company to achieve its principal objective and the Board shall accordingly exercise its powers and carry out its fiduciary duties with a sense of objective judgment and in the best interest of the company.

During audit of State Bank of Pakistan (SBP) and SBP-Banking Services Corporation (BSC) for the year 2021-22, it was observed that the management approved income continuation plan (ICP) for deceased employees of the Bank unjustifiably. In order to get the ICP approved by Board, management initially explained to the Board by drawing comparison with benefits provided to the deceased employee by the Federal Government. Management approved last drawn monetized salary of the deceased employee to their dependents on monthly basis for a period of 5 years or till the age of superannuation, whichever is earlier with a reduction of 10% every year. Pension to the dependents were already being provided by the bank under old monetized structure (OMS). A consultant hired to develop a comprehensive mechanism recommended the ICP on prospective basis, whereas management approved the same retrospectively with effect from January 2020, resulting in cash outlay of Rs 423.000 million.

Audit is of the view that approval of monthly income continuation plan by the bank is unjustified as no such facility is being provided by any Public Sector Entity (PSE).

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. DAC directed the management to verify Audit that on what date the proposal was send and no back date benefits were given and further, directed to place the matter to Board of Directors for their decision and share directives with Audit.

Audit recommends implementation of the DAC directives.

8.5.4.12 Loss on investments by external fund manager – Rs 263.996 million

As per Guiding Principles of Reserve Investment, subject to capital preservation and liquidity constraints, the reserves shall be invested with objective of maximizing risk adjusted returns.

During audit of State Bank of Pakistan (SBP) and SBP-Banking Services Corporation (BSC) for the year 2021-22, it was observed that management allocated US\$ 488.638 million to M/s. BlackRock. However, said fund manager incurred loss of Rs 263.996 million. The detail is hereunder:

S #	Booking Date	Amount (Rs)
1	8-Sep-21	3,527,052
2	23-Sep-21	(16,643,168)
3	28-Oct-21	(101,424,622)
4	26-Nov-21	(76,622,309)
5	27-Dec-21	(21,695,544)
6	27-Jan-22	116,934,895
7	23-Feb-22	(12,106,089)
8	21-Mar-22	(80,520,525)
9	25-Apr-22	53,735,829
10	30-May-22	(121,423,854)
11	23-Jun-22	(7,757,704)
Total		(263,996,043)

Audit is of the view that the losses on investment portfolio made by fund manager reflected that the investments were made without any due diligence on maximizing risk adjusted return.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. DAC directed the management to re-verify the documents to Audit and place the matter to Board of Directors (BoD) for their decision and share the directives with Audit.

Audit recommends implementation of the DAC directives.

8.5.4.13 Loss due to short sale by fund manager – Rs 261.263 million

According to para 6.4 of Investment Policy guidelines, 2020 for externally managed reserves, short selling of fixed income securities in the portfolio is not permitted.

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was observed that the bank allocated foreign reserves amounting to USD 488.638 million to fund manager, M/s. Black Rock, in July, 2021 to be invested in accordance with Investment guidelines. However, the said fund manager invested in securities through short sale. Resultantly, fund manager, incurred losses as detailed below:

Month	Loss (in USD)	Month	Loss (in USD)
June-22	44,092	Jan-22	36,975
May-22	218,866	Dec-21	41,854
Apr-22	178,583	Nov-21	107,049
Mar-22	304,863	Oct-21	117,221
Feb-22	92,206	Sep-21	133,632
Total			1,275,341

Audit is of the view that short sale by fund manager, being in violation of the investment guidelines resulted in losses amounting to US\$ 1.275 million equivalent to Rs 261.263 million (1US\$ = Rs 204.85).

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. DAC directed the management to re-verify the documents to Audit and place the matter to Board of Directors (BoD) for their decision and share the directives with Audit.

Audit recommends implementation of the DAC directives.

8.5.4.14 Unjustified grant of additional financial assistance package – Rs 150.670 million

As per section 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017, the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was observed that management unjustifiably granted financial assistance package to the dependents of employees in case of death in service. Such ex-gratia payments were equal to last drawn gross salary by deceased employee for each year of the remaining years of his service till superannuation or 10 years and monthly grant equal to 1/4th of last monetized salary of deceased till superannuation or 15

years. Monthly grant was to be revised annually to compensate for inflation as well. Thus, management paid an amount of ex-gratia payments (Rs 124.480 million) and monthly grants (Rs 26.190 million).

This was in addition to the benefits the bank was already providing to the dependents of deceased employee including monthly income continuation plan (ICP) at rate of last drawn monetized salary for a period of five years or till the age of superannuation, funeral grant, encashment of unutilized leaves, full medical facility for dependents, full waiver of house building advance and other advances, benevolent fund grant, payment of utility bills, petrol ceiling, rent ceiling for iddat period, education and marriage grant (for children), group term assurance / life insurance up to Rs 11.000 million, gratuity & provident fund.

Audit is of the view that management's decision to grant additional financial assistance package to the dependents of deceased employees is unjustified considering numerous financial assistance benefits already being provided by the bank.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. DAC directed the management to re-verify the documents to Audit and place the matter to Board of Directors (BoD) for their decision and share the directives with Audit.

Audit recommends implementation of the DAC directives.

8.5.4.15 Loss of rental income due to charging of nominal rent and non-vacation / non-renovation of flats – Rs 133.203 million

According to clause 6 of Residential Accommodation Policy, 2016 of SBP Banking Services Corporation, the rent for residential facility / accommodation owned by SBP/SBP BSC will be determined on market-cum need basis by a Committee consisting of officials from SBP and BSC and approved by the MD, SBP BSc. The rent so fixed shall be reviewed every third year, coinciding with the asset revaluation cycle. Further, an employee on allotment of accommodation will be required to pay the monthly rent @ Rs 8,000 for type C and Rs 4,000 for type D flats which may be revised from time to time.

Following are the year wise market rental rate (per sq. ft) of residential colony of State Bank of Pakistan situated at G-7/1 Islamabad.

Floors	Rate (per sq. ft) (Rs)					
	2017	2018	2019	2020	2021	2022
Ground	21.7	25.36	30.4	32	36	44
1st Floor	18.11	23.1	26.2	29.1	33.2	39.8
2nd Floor	14.49	20.2	21.7	26	28.9	36.2
3rd Floor	13.0	18.11	20.2	25	27.5	32.6

According to clause 8.2 of Residential Accommodation Policy, 2016 of SBP Banking Services Corporation, officers separating from the service of bank will be required to vacate the housing facilities within three months from date of retirement. In case of non-compliance, the bank will not release title documents of their properties mortgaged with the bank and withheld payment of Retirement Benefits, in accordance with the rules. The bank will also charge market rent from concerned on occupation of residential property beyond three months, in case the residential facility is not vacated within six months, the bank will initiate legal proceedings against the concerned.

During audit of State Bank of Pakistan, Banking Services Corporation (SBP-BSC), Islamabad for the years 2020-21 & 2021-22, it was observed that the management had been charging nominal rent of Rs 4,000 to 8,000 per month (per flat) from the allottees far below than the market rates which resulted in a loss of rental income amounting to Rs 120.840 million. It was also observed that the following retired employees did not vacate the residential accommodation till close of Audit and management failed to recover the market based rent from the occupants as per above mentioned policy which resulted in rental loss of Rs 3.531 million (Annex-52).

It was also observed that 77 flats were vacant out of 192, due to deteriorated condition of flats which resulted in loss of rental income against vacant flats amounting to Rs 8.832 million.

Audit is of the view that the management failed to recover the market based rent, get the flats vacated from the retired employees and failed to take concrete efforts to get the flats repaired and loss of rental income which showed favoritism and weak internal controls.

The matter was reported to the management on March 20, 2023. The irregularity was discussed in DAC meeting held on December 06, 2023.

- a. The management informed the DAC that Rent Review Committee was constituted by the MD-BSC. The committee already convened multiple meetings to identify basic factors pertaining to revision of rents. The DAC directed the management for revision of rates within one month.
- b. The management informed that Bank is looking into the option of initiating legal proceeding against the ex-employees residing illegally. DAC directed the management to recover the rent as per market prevailing rates, vacate the property and take legal action. Further, verify that retirement benefits and title documents of their properties mortgaged with the bank withheld or not.
- c. The management informed the DAC that no allotment requests are pending to date. The DAC directed the management to prepare policy for renovation / repair & maintenance and utilization of vacant flats.

Audit recommends implementation of the DAC directives.

(DP No. 35, 40, 43 & 51)

8.5.4.16 Unjustified benefits on account of waiver of leave preparatory to retirement - Rs 54.000 million

As per clause No. 7 of SBP Leave Policy, officers due for normal retirement on attaining superannuation age shall be required to compulsorily proceed on Leave Preparatory to Retirement (LPR) for period not exceeding 180 days (subject to available balance in a RLA/SLA). The management shall have the prerogative to decline or curtail the request for LPR due to exigencies of service in which case the officer will be entitled to encashment of LPR of the leave so declined/curtailed.

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was observed that LPR application of some Executive Directives have been declined on the grounds of exigencies of services despite the fact that the post of Executive Director carries huge perks & benefits and after allowing the waiver of LPR, employee receives monthly gross salary along with monthly LPR, this makes two monthly salaries. It was also being noticed that the no other employee was allowed this kind of facility/exemption in near past except E.Ds. Three cases of waiver on a sample basis are summarized as under:

(Amount in Rs)		
Name of Employee	Avg. Salary	Total impact of benefits
Mr. Qasim Nawaz	3,500,000	21,000,000
Mr. Muhammed Ashraf	3,000,000	18,000,000
Mr. Amjad Manzoor	2,500,000	15,000,000
Total		54,000,000

Audit is of the view that apparently the waiver of LPR look like providing benefits to some individuals, especially in recent times. This practice will only create financial burden on the bank and its exchequer.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that the Bank has the prerogative to decline or curtail the request for LPR due to exigencies of service in which case the officer will be entitled to encashment of the leave so declined / curtailed. DAC directed the management to place the matter to Board of Directors.

Audit recommends implementation of the DAC directives.

8.5.4.17 Loss of funds on account of imprudent forex swap transactions - Rs 51.549 million

Section 17 and 23 of the SBP Act 1956, states that State Bank of Pakistan, being the central bank of the country, is entrusted with the responsibility of managing the country's foreign exchange reserves. The Bank may appoint managers, custodians, and any other professional advisors for the effective management of foreign exchange reserves of the country.

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was observed that management executed forex swap (sold) deals at lower rates and Forex Swap (bought) deals on higher rates from different commercial banks on the same day. This resulted into loss of funds amounting to Rs 51.549 million. Further, in few transactions selling and buying was on same rates having no spread (Annex-53).

Audit is of the view that management granted undue favor to counter parties by selling funds at low rates and buying funds at higher rates on same day, causing a loss of Rs 51.548 million.

The matter was reported to the management in June, 2023. The management in its reply stated that SBP ensures that all swap transactions were executed as per prevailing (published) market prices of that day in accordance with the policy objectives of the central bank. The reply of the management was not tenable because such transactions caused substantial loss.

Audit recommends fixing responsibility on the person(s) responsible for loss.

8.5.4.18 Non-inclusion of EOBI contribution clause in contracts – Rs 46.421 million

Section 11(1) of EOBI Act, 1976 states that every employer shall, before the expiration of thirty days from the day on which this Act becomes applicable to the industry or establishment in respect of which he is the employer, communicate to the Institution the name and other prescribed particulars of the industry or establishment.

During audit of State Bank of Pakistan, Banking Services Corporation (SBP-BSC), Islamabad for the years 2020-21 & 2021-22, it was observed that the management awarded following contracts without inclusion of clause (s) regarding EOBI contribution. The service providers remained non-compliant in fulfilling obligatory responsibility of depositing EOBI contribution on behalf of their workers / labors /employees.

S #	Contract Description	Service provider	Amount (Rs)
1.	Janitorial services	M/s Outsiders	14.093
2.	Gardening & maintenance services	M/s SSKO	6.119
3.	Management services for AC equipment		0.897
4.	Currency contractor	M/s Mehmood & Co	25.317
Total			46.426

Audit is of the view that exclusion of relevant clauses of EOBI and other contribution(s) and non-deposition of deducted amount was a gross violation of government instructions / orders. Therefore, contracts awarded amounting to Rs 46.421 million stands irregular and un-justified.

The matter was reported to the management on March 20, 2023. The irregularity was discussed in DAC meeting held on December 06, 2023. The DAC directed the management to follow the law of land and include the clause and ensure that the payments were made to the institution prior to future payments to the contractors/ suppliers.

Audit recommends implementation of the DAC directives.

8.5.4.19 Irregular procurement of medicines – Rs 46.290 million

Rule 12(2) of PPRA, 2004 states that all procurement opportunities over three million Pakistani Rupees should be advertised on the Authority's website as well as in other print media or newspapers having wide circulation. The advertisement in the newspapers shall principally appear in at least two national dailies, one in English and the other in Urdu. Further, Rule 20 of PPRA, 2004 states that save as otherwise provided hereinafter, the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of State Bank of Pakistan, Banking Services Corporation (SBP-BSC), Islamabad for the year 2020-21 & 2021-22, it was observed that the management procured medicines from various suppliers / pharmaceutical companies / distributors amounting to Rs 46.290 million without tender (Annex-54).

Audit is of the view that the whole procedure of procurement of medicines stood irregular, non-transparent and in violation of PPRA Rules, 2004.

The matter was reported to the management on March 20, 2023. The irregularity was discussed in DAC meeting held on December 06, 2023. The management informed the DAC that similar para was discussed in PAC in its meeting held on October 06, 2021 where in the Committee directed to adopt complete process. In compliance to directives of PAC, direct procurement of medicines has been discontinued across Pakistan and open competitive bidding has been adopted. DAC observed that BSC Islamabad procured the medicines in violation of PAC directives. DAC directed the management to justify the delay in implementation of directives of PAC and share the current status.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year 2022-23 vide para(s) number 6.6.12.5 having financial impact of Rs.198.288 million. Recurrence of same irregularity is a matter of serious concern.

8.5.4.20 Irregular acquisition of services from Bloomberg - Rs 45.000 million

Rules 4 of PPRA, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule 20 of PPRA, 2004 states that, the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of State Bank of Pakistan, Banking Services Corporation (SBP, BSC) H.O for the year 2021-22, it was observed that the management obtained services from M/s Bloomberg Index Services Ltd by signing an agreement in 2004 without any competitive bidding in violation of PPRA rules, which was still continued.

Audit is of the view that hiring of services of Bloomberg without tender and for such lengthy period was not justified. Thus, payment of Rs 45.000 million is held irregular.

The matter was reported to the management in June, 2023. The management in its reply stated that contract with Bloomberg was of long term nature as it was one of the top most financial service provider, hence, its replacement was not easy. The reply was not tenable as procurement of services was in violation of public procurement rules.

Audit recommends that management may fix the responsibility on the person (s) at fault.

8.5.4.21 Loss due to unjustified excess expenditure on renovation of building – Rs 23.438 million

As per clause (2) license agreement dated 12-02-1997 between Government of Pakistan through the Law Secretary (Licensee) and the State Bank of Pakistan (licensor), the amount of expenditure incurred by the licensee on renovation/improvement of State Bank old building premises to make it suitable for housing branch registry of the Supreme Court of Pakistan will be adjusted against the yearly compensation charges payable to the SBP by the licensee. The charges incurred on renovation/improvement by the licensee may not exceed the amount of compensation charges of six years.

During audit of State Bank of Pakistan (SBP) and SBP-Banking Services Corporation (BSC) for the year 2021-22, it was observed that contrary to above, Housing Branch Registry Office of Supreme Court of Pakistan Nabha Road, Lahore had renovated the building and adjusted the amount of expenditure incurred on renovation/improvement of Rs 57.188 million (equivalent to nine years' compensation charges instead of adjustment of Rs 33.750 million i.e. six years' compensation charges payable to SBP). Thus, an amount of Rs 23.438 million was excess charged to SBP. Details are as under:

(Rs in million)			
No. of year	Period	Rent Receivable	Remarks
06	1997 to 2003	33.75	Rent to be adjusted
03	2004 to 2006	23.43	Excess amount of rent adjusted
09	1997 to 2006	57.18	Total adjusted amount

Audit is of the view that such adjustment of Rs 23.438 million from compensation charges to SBP was in violation of license agreement.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that Supreme Court of Pakistan informed the Bank that the amount of six years of compensation was insufficient for making payment against some of the works already done in the building and as such charges equivalent to nine years of compensation might be adjusted. The said request was agreed by SBP. DAC directed the management to place the matter before PAC.

Audit recommends implementation of the DAC directives.

8.5.4.22 Non recovery of service / compensation / rent charges from NADRA - Rs 20.961 million

According to Public Accounts Committee (PAC) directives vide meeting held in April 07, 2009, the PAO was directed to recover service charges from National Database and Registration Authority (NADRA) & Narcotics Control Department (NCD).

According to directives of Joint Secretary (IF) vide meeting held on July 31, 2012, it was decided that compensation charges @ Rs 7.000 per sqft will be paid by NADRA & NCD to State Bank of Pakistan (SBP) since occupation till 2003 and thereafter with enhancement as per provision of Rent Restriction Ordinance, 2000.

As per directives of Joint Secretary, Cabinet Division, Islamabad vide meeting held on February 22, 2018 it was decided that NADRA to initiate renegotiation with SBP and enter into a formal agreement directly with SBP on mutually agreed terms & condition including time frame for vacation of the building.

During audit of State Bank of Pakistan, Banking Services Corporation (SBP-BSC), Islamabad for the year 2020-21 & 2021-22, it was observed that National Database and Registration Authority (NADRA) occupied building of SBP-BSC, Islamabad since year 2000, without any agreement and payment of rent. The Ministry of Finance (MoF) convened several meetings to resolve the issue between SBP and NADRA in which it was decided that compensation charges @ Rs 7.00 per sq. ft will be paid by NADRA & NCD to SBP since occupation till year 2003 and thereafter with enhancement as per provision of Rent Restriction Ordinance, 2000. However, it was observed that Rs 20.961 million (124,770 sq. ft @ Rs 7.000 per sq. ft. @ 24 months) for the year 2020-21 & 2021-22 was not recovered by the management nor the space was vacated by NADRA till date.

Furthermore, it was also observed that the NADRA has been occupying the building of SBP-BSC, Islamabad since year 2000 without any agreement or consent of SBP.

Audit is of the view that the management failed to recover a hefty amount of outstanding from NADRA and neither had it vacated the premises despite the directives of PAC and Finance Division. Furthermore, no formal rent agreement has also been signed by the management with NADRA despite a lapse of considerable time.

The matter was reported to the management on March 20, 2023. The irregularity was discussed in DAC meeting held on December 06, 2023. The DAC directed the management to place the para before PAC.

Audit recommends implementation of the DAC directives.

(DP No 41 & 52)

8.5.4.23 Investment by fund manager in violation of Investment Policy of the Bank & subsequent loss – Rs 17.819 million

Para 2.1.1 (g) of Investment Policy of the Bank (year 2020) states that investment shall only be made in countries where the issuer, the guarantor and the ultimate parent company of risk is an OECD member country (as on 1st January, 2008) or Singapore.

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was noted that SBP fund manager made an investment of funds in a bond issued by M/s. Ali Baba Holdings. However, it was observed that the investment was irregular as ultimate parent country of risk was China, which was a non-OECD member country. This breach was not highlighted by M/s. Bank of New York (BNY) being primarily responsible for compliance of SBP investment policy guidelines.

It was further observed that there was loss of USD 86,985 equivalent to Rs 17.819 million (1USD=Rs 204.8467). The detail is hereunder:

SBP Fund Manager	Investment date	Total investment (USD)	Liquidated amount (USD)	Liquidation date	Loss (USD)
M/s. UBS	17.11.2021	1,326,806	1,239,821	17.05.2022	86,985

Audit is of the view that investment by fund manager in violation of Investment Policy of the Bank & subsequent loss reflected poor financial management / risk management.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. DAC directed the management to re-verify the documents to Audit and place the matter to Board of Directors (BoD) for their decision and share the directives with Audit.

Audit recommends implementation of the DAC directives.

8.5.4.24 Irregular award of internet infrastructure optimization contract - Rs 14.918 million

Rule 10 (1) of PPRA Rules, 2004 states that the procuring agency shall allow the widest possible competition by defining such specifications that shall not favour any single contractor or supplier nor put others at a disadvantage.

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was observed that management awarded a contract of internet infrastructure optimization to M/s. Wateen Solution (Pvt.) Ltd at Rs 14.918 million on 28-03-2022. However, it was observed that there was variation of specification. Details are hereunder:

Quantity Required	Required Specs (SBP bidding docs Dec, 2021)	Specs Supplied (Form-II of M/s. Wateen Solution Jan 7,2022)	Remarks
02	Type 1 Routers (Cisco Catalyst C 8300-1N1 S-6T Router)	Cisco C-8200 (Qty. 04)	Catalyst 8300 Series is built on an x86 System-On-Chip (SoC) multicore CPU system architecture (8 or 12 cores)
02	Type 2 Routers (Cisco Catalyst C 8200-1 N-4T Router)		Catalyst 8200 Series is built on an x86 System-On-Chip (SoC) multicore CPU system architecture (4 or 8 cores)

Further, the project was not completed as per schedule.

Audit is of the view that procurement of the routers was irregular as the same was not in accordance with the specs defined in the bidding documents. Further, management extended undue favor to supplier by non-imposing L.D of Rs 1.491 million on account of delayed supplies.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. DAC directed the management to physically verify the Audit that the installed equipment was same as per bidding documents.

Audit recommends implementation of the DAC directives.

8.5.4.25 Non-recovery of penalty – Rs 8.027 million

SBP approved M/s. Gatron Industries Ltd. request for Exchange Risk Cover under the following terms and conditions:

- i. Exchange risk coverage fee @ 5% per annum would be charged from M/s. Gatron Industries Ltd.
- ii. Fee will be payable by M/s. Gatron Industries Ltd. from the date of Letter of Credit.
- iii. One year fee is required to be deposited with SBP in advance by M/s Gatron Industries Ltd.

During audit of State Bank of Pakistan (SBP) and SBP-Banking Services Corporation (BSC) for the year 2021-22, it was observed that M/s. Gatron Industries Ltd. obtained three loans from M/s. Kreditanstalt Fur Wiederaufbau (KfW), a promotional bank of Germany. All three loan agreements were registered with State Bank of Pakistan. After obtaining these loans M/s. Gatron Industries Ltd. requested its bank to get approval of SBP for exchange risk cover for these loans. The SBP approved this request subject to above terms and conditions. However, M/s. Gatron Industries Ltd. failed to meet the terms and conditions of SBP's approval regarding exchange risk cover. Accordingly, SBP imposed penalty of Rs 8.027 million which was not recovered as yet.

Audit is of the view that non-recovery of penalty amount reflected weak internal controls.

The matter was reported to the management on June 21, 2023. The management in its reply stated that it relates to regulatory functions of the bank. The reply of the management was not tenable as recovery of penalty amount was reflected in bank's accounts, but the same was not recovered.

Audit recommends recovery on priority.

8.5.4.26 Non-completion of wireless LAN project - Rs 7.990 million

As per SBP document the urgency of the project is evident from the extract presented below:

“SBP senior management has to attend important online video conferencing meeting with higher officials; therefore, it is essentially required to procure the wireless LAN and associated equipment to address the performance issues”.

During audit of State Bank of Pakistan H.O (SBP) & SBP BSC for the year 2021-22, it was observed that a contract for supply, installation, maintenance and technical support of wireless LAN at SBP Lahore and Islamabad office was awarded to M/s GBM Pakistan Private Ltd. However, the company did not complete or even initiate the project till the completion of SBP's financial year.

Audit is of the view that the management extended undue favor to supplier by ignoring project completion schedule of supplies and implementation. Thus, the contract amounting to Rs 7.990 million was unnecessarily delayed and would ultimately involve more cost to SBP on its completion.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that multiple reminders were issued to the supplier but equipment was not yet received. DAC directed the management to impose liquidated damages on the supplier and verify to Audit.

Audit recommends implementation of the DAC directives.

8.5.4.27 Non-recovery of liquidated damages – Rs 5.067 million

Section 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that the chief executive (Governor, in case of SBP) is responsible for the management of the Public Sector Company and for its procedures in financial and other matters. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources

are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was observed that management awarded contracts for supply of items to different suppliers amounting to Rs 50.691 million. However, said suppliers did not supply the requisite items as per contract agreements in time. Details are as under:

(Rs in million)					
S#	Name of supplier	Description	Amount	Time required	Amount of L.D. @ 10%
1	M/s. Mansha Brothers	Supply and installation of IP Based CCTV	31.446	90 days (06-12-2021)	3.144
2	Ms/. Megaplus	Installation,maintenance & support of desktop IT equipment	4.327	20 weeks (14-04-2022)	0.432
3	M/s. Wateen Solutions	Infrastructure optimization	14.918	60 weeks (07-01-2022)	1.491
Total					5.067

Audit is of the view that management extended undue favor to above mentioned suppliers by ignoring the completion date of project / non-imposition of liquidated damages amounting to Rs 5.067 million.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. The management informed the DAC that delay in completion of the projects could not be attributed to the supplier's end. The late execution of the project would be dealt in accordance with the terms and conditions of the contract as and when operational acceptance payment invoice would be processed. DAC directed the management to verify the Audit that equipment was received and installed and the project was completed.

Audit recommends implementation of the DAC directives.

8.5.4.28 Unjustified ex-gratia payment to employees – Rs 4.00 million

As per section 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017, the Chief Executive (Governor, in case of SBP) is responsible for the management of the Public Sector Company and for its procedures in financial and other matters. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was observed that management made ex-gratia payment amounting to Rs 4.000 million to following officers/employees of Deputy Governor’s staff without any justification. Detail is as under:

S #	PIN	Name	Designation	Amount (Rs)
1	9111	Aqeel Ashraf Rana	Joint Director	800,000
2	7323	Asghar Khan	Joint Director	800,000
3	7846	Muhammad Mushtaq	Joint Director	800,000
4	5135	Abdul Sattar	Messenger	800,000
5	3959	Qamaruzzman	Head Messenger	800,000
Total				4,000,000

Audit is of the view that ex-gratia payment to employees by management was without any justification.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. DAC directed to pend the para.

Audit recommends implementation of the DAC directives.

8.5.4.29 Unjustified / wasteful expenditure on car rental services despite own vehicles – Rs 3.320 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2017, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of State Bank of Pakistan, Banking Services Corporation (SBP-BSC), Islamabad for the years 2020-21 & 2021-22, it was observed that the management had sixteen (16) different vehicles like Fortuner, Hilux, Corolla GLI, Altis Grande & Civic in their pool for official use. However, the management also hired the services of M/s Unique Travels on rental basis for pick/drop of SBP officers, such as Governor, Deputy Governors, Executive Directors, Directors, etc. and incurred an expenditure of Rs 3.320 million. Incurrence of such huge expenditure on car rental services in the presence of its own pool of vehicles was unjustified and wasteful.

Audit is of the view that the expenditure incurred on the procurement of car rental services amounting to Rs 3.230 million was unjustified and wasteful.

The matter was reported to the management on March 20, 2023. The irregularity was discussed in DAC meeting held on December 06, 2023. The management informed the DAC that in case pool cars of the office are already engaged, external transport facility is required for such proposes due to inflexibility in the schedule. The DAC directed the management to get verified visit wise record.

Audit recommends implementation of the DAC directives.

8.5.4.30 Non recovery of fire insurance claim – Rs 3.169 million

As per section 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017, the chief executive (Governor, in case of SBP) is responsible for the management of the Public Sector Company and for its procedures in financial and other matters. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was observed that the management did not recover fire insurance claim of Rs 3.169 million from M/s. NICL. An incident of fire occurred on June 15, 2022 on the first floor of SBP BSC Islamabad office. Subsequently, the management filed the claim with the insurer on Sep 09, 2022. However, said claim is still outstanding despite lapse of considerable time. Complete detail of damages claimed but not received by the Bank from M/s. NICL is as follows:

S. #	Description	Amount of claim (Rs)
1.	Main Cables & Wiring	982,300
2.	UPS Power & Supply	827,300
3.	False ceiling	40,000
4.	CCTV & Communication Cables	479,140
5.	Various Furniture	840,600
Total		3,169,340

Audit is of the view that non-recovery of fire insurance claim by the management from the insurer despite lapse of considerable time period tantamount to loss to the Bank.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 06, 2023. DAC directed the management to recover full amount of claim lodged to M/s NICL and verify the same to Audit.

Audit recommends implementation of the DAC directives.

**8.5.4.31 Re-appointment of Chairman Shariah Advisory Committee –
Rs 2.470 million**

Clause 5 (b) of Terms of reference (TORs) of Shariah Advisory Committee (SAC) states that the Chairman of SAC will be required to disassociate himself from other Islamic banking Institutions (IBIs) after first 3 year term. In case of not fulfilling this requirement, he may be reappointed only a member of SAC for the subsequent term.

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was noted that contrary to above rule the management approved Mufti Arshad Ahmed Aijaz as Chairman of SAC for 3 years in 2017-18 despite having his presence in various Islamic Banking Institutions (IBIs). SBP Board waived off that condition and re-appointed him again for next three years citing the reason that there was no other Shariah scholar of his caliber in Pakistan.

Audit requisitioned appointment files along with personal files of Chairman and members of SAC and expenditure on SAC meetings, which were not provided by the management despite various reminders.

Audit is of the view that management granted undue favor to the incumbent by appointing & re-appointing him as Chairman Shariah Advisory Committee (SAC) without his disassociation from other IBIs which caused conflict of interest. Hence, payment of Rs 2.47 million is held irregular.

The matter was reported to the management in June, 2023. The management in its reply stated that the agenda items presented at the SAC are on industry-wide matters and not for matters related to individual bank. Management's response was not tenable as there was conflict of interest and appointment was in violation of standing orders.

Audit recommends the management may duly appoint a new Chairman SAC.

8.5.4.32 Management's inaction against banking cartel resulting in costly Government borrowing

Section 25(1) of Banking Companies Ordinance, 1962, relating to Power of State Bank to control advances by banking companies, states that whenever the State Bank is satisfied that it is necessary or expedient in the public interest so to do, it may determine the policy in relation to advances to be followed by banking companies generally or by any banking company in particular, and, when the policy has been so determined, all banking companies or the banking company concerned, as the case may be, shall be bound to follow the policy as so determined.

During audit of State Bank of Pakistan (SBP) and SBP- Banking Services Corporation (BSC) for the year 2021-22, it was observed that after February, 2022 commercial banks unjustifiably increased spread margin on Government borrowings from 0.66% to 2.22% in March-22 and then again increased it to 3.21% in April, 2022 which resulted in interest payment of the Government exponentially. The trend of marginal spread is hereunder:

Auction Number	Auction Date	Maturity Date	Competitive Bids (Realized Value)	Cut-off Yield
614	22-Mar-22	16-Jun-22	209,725	11.999%
617	27-Apr-22	28-Jul-22	308,784	14.789%
618	18-May-22	11-Aug-22	193,575	14.499%
619	01-Jun-22	25-Aug-22	532,953	15.249%
620	15-Jun-22	8-Sep-22	666,268	15.250%
621	29-Jun-22	22-Sep-22	1,652,864	15.230%
Total Government borrowing at high bank's spread (Rs in million)			3,564,169	

Audit is of the view that SBP as regulator did not take any action against the banking cartel for charging higher interest rates on Government borrowing.

The matter was reported to the management in June, 2023. Management in its reply stated that the overnight interest rate remained close to SBP's policy rate and auction of government securities that entail government borrowing from domestic market, was a separate and independent activity. The management's reply was not tenable as commercial banks charged higher rates on Government borrowing and SBP could not safeguard the interest of Government being regulator of the banking industry.

Audit recommends that management may investigate the matter against commercial banks and financial institutions involved in banking cartel.

8.5.4.33 Foreign exchange manipulation by commercial banks

As per chapter 2 of the FE Manual issued by the SBP, banks are barred from charging more than a defined margin set by the SBP.

Section 4C(h) of the State Bank Act, 1956, states that one of the Bank to achieve the objectives set forth in section 4B and further described in (h) license, regulate and supervise scheduled banks and financial institutions that fall under the domain of the Bank as further specified in this Act or any other Act.

During the audit of State Bank of Pakistan H.O (SBP) & SBP BSC for the year 2021-22, it was noted that during year 2022, news circulated that commercial banks allegedly made unjustified profits of Rs 100 billion by manipulating forex market. Up to June, 2022, around 8 commercial banks were identified to have made exorbitant profits by exploiting the rupee fluctuation against the dollar and through huge spreads between the open market and interbank rates. SBP being a regulator penalized these banks by imposing penalty of Rs 290 million. The penalty was just 0.29% of the alleged forex manipulation. However, detailed record on the matter was not provided to audit.

Audit is of the view that involvement of commercial banks in forex manipulation affected local currency rupee depreciation and reflected weakness of the internal controls.

The matter was reported to the management in June, 2023. The management in its reply stated that this pertained to regulatory functions of the Bank and was beyond the scope of AGP audit. The reply was not tenable as it was irrelevant.

Audit recommends for more strong regulations and oversights by SBP, fact-finding and provision of detailed record to audit on the subject matter.

8.5.4.34 Unjustified disbursement of loans to the exporter under export finance scheme despite repetitive fines

According to Export Finance Scheme (EFS) Manual, Part-I is a transaction based facility in which Annual financial limits are allocated to Commercial Banks on revolving basis. Banks / ADs having EFS limits provide export finance to the exporters at pre-shipment and/or post-shipment stage on case to case basis against Letter of Credit/Contract for export of eligible goods. Indirect exporter/manufacture, who supply inputs to direct exporter can also avail the facility against Inland Letters of Credit/Standardized Purchase Order established by direct exporter. Part-II is a performance-based export financing facility. This means that based on the exporter's previous year's performance; i.e. export proceed realized through the export of eligible commodities, a revolving limit equivalent to 50% of that performance is fixed on annual basis.

During audit of State Bank of Pakistan, Banking Services Corporation (SBP-BSC), Islamabad for the years 2020-21 & 2021-22, it was observed that the management granted loan facility to the exporter M/s Kohinoor Textile Mills Ltd via different authorized dealers/ commercial banks. The exporter made different type of irregularities i.e. short shipment / late shipment, misreporting, delayed repayment etc. The details of different type of fines/ penalties imposed are at (Annex-55). It was evident that the exporter was penalized for fifty two (52) times for different loans cases due to misreporting/incorrect reporting / non-shipment/ delay in repayment / short shipment etc. despite the fact management continuously financing loans to the exporter under the subsidized scheme. Further, the rate of fines/ penalties charged to the exporter were very nominal.

Audit is of the view that despite repeated irregularities on part of exporter, the management continuously allowed export financing facility. This shows favoritism and weak controlling over the affairs of export.

The matter was reported to the management on March 20, 2023. The irregularity was discussed in DAC meeting held on December 06, 2023. DAC directed the management to revisit the policy of disbursement of loans to the exporters and issue warnings to exporter on non-compliance of SoPs.

Audit recommends implementation of the DAC directives.

8.6 Kissan Support Services (Pvt.) Limited

8.6.1 Introduction

Kissan Support Services is Private Limited Company established in 2006 as a subsidiary of ZTBL. The purpose of establishing this subsidiary was to provide support staff to ZTBL, undertake its non-core activities and carry out any business for its sustainability. 8.6.2 Comments on Audited Accounts

8.6.2.1 The working results of the KSSL for the year 2021 in comparison of the previous years are given below:

(Rs in million)

Description	2022	% Inc/ (Dec)	2021	% Inc/ (Dec)	2020
Revenue	147.24	27.50	115.51	(89.86)	1,137.50
Cost of services	121.51	(45.46)	222.79	(78.80)	1,050.73
Gross profit/(loss)	25.73	-	(107.28)	-	86.78
Administrative expenses	65.46	20.46	54.34	(2.49)	55.73
Operating profit/(loss)	(39.73)	(75.41)	(161.62)	-	31.05
Other income	118.09	44.68	81.62	(36.74)	129.02
Financial charges	-		-	-	5.33
Profit/(loss) before taxation	78.36	-	(80.00)	-	160.07
Taxation	23.916	58.59	15.08	-	(36.82)
Profit/(loss) after tax	54.44	-	(64.92)	-	123.24

(Loss)/Earnings per share	5.44	-	(6.49)	-	12.32
---------------------------	------	---	--------	---	-------

(Source: Annual Audited Accounts)

The working results of the Organization were satisfactory during the year under review. Revenue of the company increased from Rs 115.51 million in 2020-21 to Rs 147.24 million in 2021-22 registering an increase of 27.50% over previous year. The cost of services decreased from Rs 222.79 million in 2020-21 to Rs 121.51 million in 2021-22 registering a decrease 45.46%. Efforts be made to maintain the profitability trend in the years to come.

8.6.2.2 Administrative expenses increased to Rs 65.46 million in 2022 from Rs 54.34 million in 2021 showing an increase of 20.46%. Increase was particularly significant in salaries and allowances, repair & maintenance of motor vehicles expenses and traveling expenses. Efforts need to be made to control the expenses.

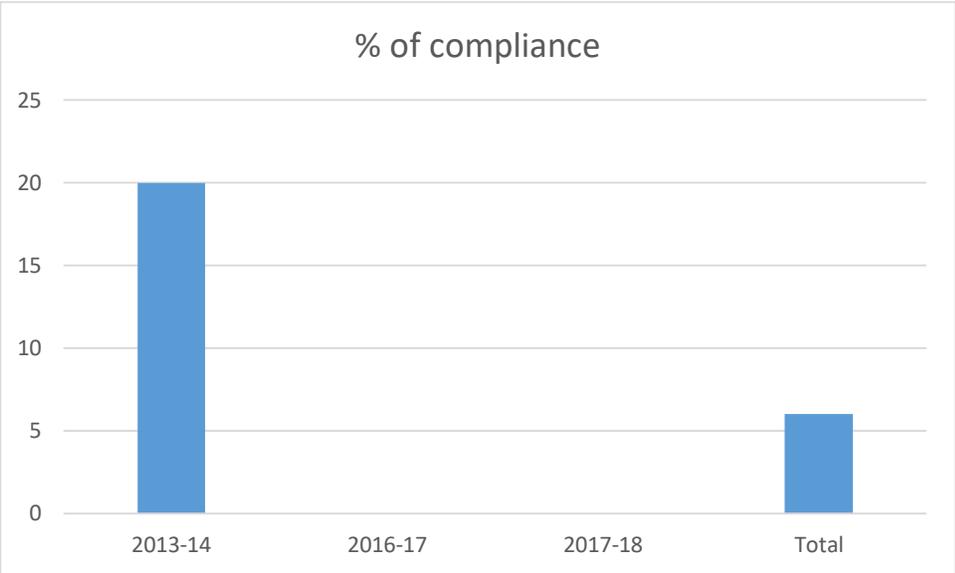

8.6.2.3 A sum of Rs 103.13 million is receivable from ZTBL since long. Steps may be taken to recover the amount.

8.6.2.4 A sum of Rs 3.18 million is recoverable from employees on account of EOBI contribution. Deduction may be affected from the salaries of employees for recovery of EOBI contribution.

8.6.2.5 Physical verification of assets valuing Rs 6.69 million as on December 31, 2022 was not conducted by an independent store verifier. Value of store assets, therefore, cannot be authenticated which needs to be explained.

8.6.3 Compliance of PAC Directives

Audit Year	Total Paras	Full Compliance	Partial Compliance	Pending Paras No	% of compliance
2013-14	05	01	04	6.7.4.2,6.7.4.3,6.7.4.4,6.7.4.1	20
2016-17	08	0	08	6.6.2.5, (6.6.1 & 6.6.2, 6.6.2.1, 6.6.2.2, 6.6.2.3,6.6.2.4, 6.6.2.6, 6.6.3)	-
2017-18	05	0	05	9.7.1, 9.7.2.1, 9.7.2.2, 9.7.2.3, 9.7.3	0
Total	18	01	17		6

Overall compliance of PAC directives was very poor which needs immediate attention of PAO.

8.7 Zarai Taraqiati Bank Limited

8.7.1 Introduction

In pursuance of Section-3 of Agricultural Development Bank of Pakistan (ADBP) (Re-organization and Conversion) Ordinance 2002, ZTBL was incorporated as a public limited company under the Companies Ordinance 1984 (now Companies Act 2017) on October 23, 2002. All assets, contract, liabilities, proceedings and undertakings of ADBP were transferred to and vested in ZTBL on December 14, 2002 at a total worth of Rs 870 million. Out of total issued shares of 1,252.24 million, 1,251.19 million are held by Federal Government, remaining shares are held by four Provincial Governments. The Bank's principal office is situated at 1-Faisal Avenue, Zero Point, Islamabad.

Main purpose of the Bank is to provide sustainable rural finance and services particularly to small farmers and low-income households to strengthen the rural and agricultural sector, mitigate poverty, capital market, and investment activities and other banking business. The Bank was disbursing loans of two categories i.e. production loans for short term and development loans for long-term purposes. The Bank was being operated through 31 Zones with a total number of 531 branches.

8.7.2 Comments on Audited Accounts

7.1.2.1 The operating results of the Bank for the year 2019 to 2022 are as follow:

(Rs in million)

	2022	% Inc / (Dec)	2021	% Inc / (Dec)	2020	% Inc / (Dec)	2019
Mark-up / return / interest earned	39,436.395	75.07	22,526.158	24.86	18,041.618	0.31	17,985.62

(Source: Annual Audited accounts)

7.1.2.2 The head mark-up / return / interest earned was increased by 2% the performance of the bank regarding Loans and advances was Rs 15,828.212 million as compared to Rs 15,561.244 million in 2021 rather focusing being its core function for advancing loans under different schemes to farmers whereas the bank focused on Investments by Rs 19,017.858 million as compared to Rs 4,597.748 million. On the other hand, balances with banks was also raised to Rs 2,135.540 million to Rs 1,093.722 million registering increase by 95%. Reasons for such a huge variations need to be investigated and explained besides to make serious efforts for its core functions.

7.1.2.3 According to Note 11.2 under the category of classification ‘Other assets especially mentioned’ Non-performing loan (NPL) portfolio an amount of Rs 13,616.010 million as compared to 2021 Rs 10,716.466 million registering an increase by 24%. This abnormal increase in NPL may be investigated under intimation to audit. Further, strong steps be taken to minimize the NPL.

7.1.2.4 According to Note 12.1.1 under the head capital work in progress ‘Others’ includes an amount of Rs 5.601 million on account of soil testing and other charges incurred at sites. The details of sites under the head may be provided to audit.

7.1.2.5 According to Note 15.2 includes amount recoverable from Federal Government on account of crop loan insurance premium amounting to Rs 2,411.656 million (2021: Rs 2,087.305 million), small livestock farmers premium amounting to Rs 383.57 million (2021: Rs 599.20 million) and animal tagging charges amounting to Rs 4.86 million (2021: Rs 4.75 million). However, as per the directives of the State Bank of Pakistan tagging charges earlier allowed for reimbursement have now been disallowed vide their letter dated April 27, 2016. Audit recommends Board to look into this amount and incorporate the adjusting entry for an appropriate adjustment.

7.1.2.6 According to Note 16.1 a contingency of an amount of Rs 297.149 million and Rs 54.828 million to the unconsolidated condensed interim financial statements for the year 2022 on account of minimum income tax levied by the Income Tax authorities and various tax refunds pertaining to assessment years 1991-92 to 2013-14 and assessment year 1999-2000 respectively.

Due to uncertainty of recoverability these have been disclosed as contingent asset. The Board is suggested to look in to the matter for appropriate solution/recovery.

7.1.2.7 According to Note 20.1.1 Loans & Advances Rs 1,852.758 million, Premises Rs 942,622.21 million, excluding Furniture & Fixture, and interest on assets was not realized since long. The management is stressed upon to take up the matter with higher forum for appropriate solution and realization of Assets and Liabilities related to Bangladesh. The Bank is accruing interest at the rate of 8% per annum on its loan and advances made in Bangladesh with contra increase in its liabilities relating to activities in Bangladesh as per Finance Division letter dated May 06, 1979. There was no evidence as to the existence, accuracy and completeness of aforesaid assets and liabilities, as the Bank has no control over these assets. Moreover, the current share capital of the Bank also includes shares subscribed and paid up by Former East Pakistan (currently Bangladesh) amounting to Rs 5.275 million (0.5275 million shares). Board should engage legal counsel to resolve this matter.

7.1.2.8 According to Note 25 regarding mark-up interest expensed has raised to Rs 24,899.603 million as compared to Rs 10,325.697 million in 2021 registering increase of expensed by 141%. The Board is suggested to look in to the matter for abnormal increase in expenses.

7.1.2.9 According to Note 28.1 Other Income 'Others' includes sale of scrap, sale of tender forms, recoveries against penalties imposed by SBP and private use of vehicles etc. However, in year 2022 the bank received an amount of Rs 34.508 million as compared to Rs 38.956 million in 2021. Bank from the fact that SBP's penalty reduced from Rs 75.00 million as of 30.06.2020 to Rs 37.00 million as of 30.06.2022. In addition to this audit observed that during the period SBP imposed penalties worth Rs 38.333 million on the Bank. Audit recommends that compliance with all the laws and regulations should be ensured to avoid further penalties.

7.1.2.10 According to Note 29 Other operating expenses raised to Rs 12,153.249 million from Rs 10,909.948 million as compared to year 2021 registering increase by 11.40%. Reasons for such a huge increase need to be investigated and explained.

7.1.2.11 According to Note 29.1.1 Post-retirement medical benefits and employees compensated absences are being operated as unfunded employee benefits under the head Medical includes post-retirement medical benefit amounting to Rs 1,207.603 million (2021: Rs 891.534 million) registering an increase by 27% respectively. However, the Bank has not maintained any funded plan to meet these liabilities. Audit recommends that the Bank should maintain a funded plan to meet the liabilities without facing liquidity problems.

7.1.2.12 According to Note 29.3 regarding Donation details of donations exceeding Rupees 0.5 million was Prime Minister Flood Relief Fund, Government of Pakistan 50.00 million, M/s Akhuwat Islamic Micro Finance, Lahore Rs 15.00 million, Narcotics Control / Canteen Store

Department,

Rs 20.000 million and NED University, Karachi Rs 0.600 million with total of Rs 85.600 million. The reasons besides approval with full justifications to the BoD may be provided to audit.

7.1.2.13 Outsourced services costs (refer Note35.1) an amount of Rs 1,379.414 million was spend on hiring of services from its subsidiary company Kissan Support Services (Private) Limited (KSSL) out of total number of 4,203 staff strength of Bank employees number of 3,296 (2021: 3,504) employees of KSSL, fully owned subsidiary of the Bank, were assigned to the Bank as at the end of the year to perform other than guarding and janitorial services. Audit recommends provision of Service Level Agreement (SLA) for engagement of staff for the banker's services.

7.1.2.14 Audit noticed a deficiency in IT system in respect of the reports generated from CDMs and CBAs in respect of bills payable are not reconciled at period end. As per management, the Bank is in the process of data migration and data cleansing in CDMs and CBAs. The efforts should be made to complete the task in stipulated time.

7.1.2.15 It was observed that during the period SBP imposed penalties worth Rs 38.333 million on the Bank. Audit recommend recovery and that compliance with all the laws and regulations should be ensured to avoid further penalties. Although it is appreciable that Bank from the fact SBP's penalty reduced from Rs 75 million as of 30.06.2020 focus of the BoD for ongoing effort and with the support/guidance may further reduce the penalties in years to come.

7.1.2.16 Agriculture Development Bank of Pakistan (ADBP) had been vested in Zarai Taraqati Bank Limited (ZTBL) through ADBP (Reorganization and Conversion) Ordinance, 2002. However, audit noted that the title of the freehold land in Badin and Lahore amounting to Rs 1.860 million has still not been transferred in the name of ZTBL. Audit recommends that the title documents of the land should be transferred in the name of ZTBL to avoid litigation.

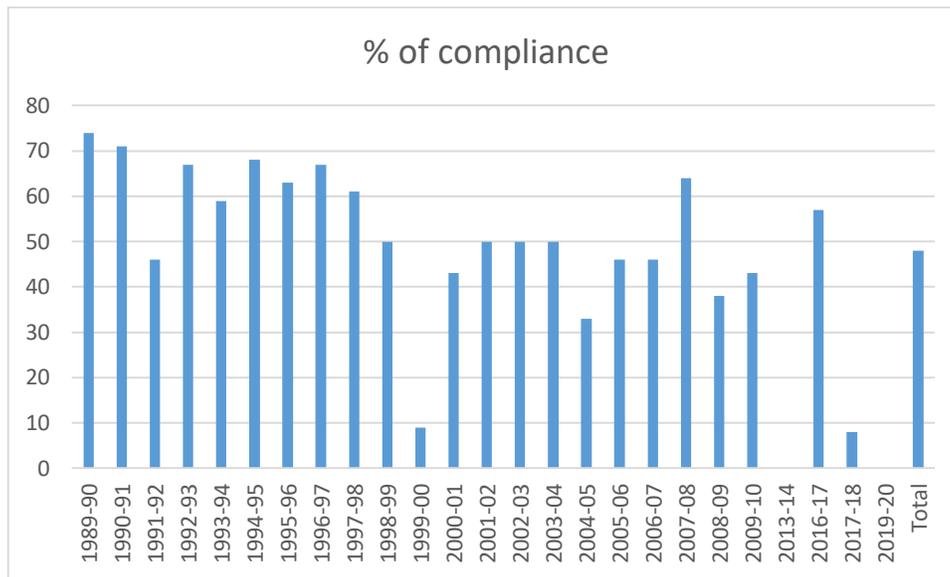

7.1.2.17 The yearly detail of loan cases which were written off during 2022 (Rs 1,830.031 million includes Principal written off Rs 914.573 million and Interest/ markup written-off / waived by Rs 915.458 million. Reasons for such huge loan written offs needs to be justified. Further, complete detail of loans written off under package may be intimated to audit along with cost benefit analysis of the loan /scheme.

Overall compliance of PAC directives was not satisfactory which needs to be improved.

8.7.4 Audit Paras

8.7.4.1 Non achievement of Targets - Rs 9,719.012 million

According to rule-4 (3) of the Public Sector Companies (Corporate Governance) Rules, 2013, the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance.

During audit of ZTBL for the year 2022, it was observed that Five Islamic Banking branches consistently failed to achieve targets totaling Rs 2,270.94 million for the last three years. Additionally, a model branch in Quetta fell short of its Rs 7,335.49 million target, and it only attracted 497 new customers instead of the set target of 35,360 over the last three years.

Furthermore, disbursement targets of Rs 56.353 million under different schemes pertaining to Karachi and Quetta zones were set and subsequently revised to Rs 43.122 million and targets of only Rs 1.148 million i.e. 2.67% were achieved.

The irregularity occurred due to weak internal control.

Audit is of the view that management should make effective efforts to achieve targets.

The management in its reply dated 12.01.2024 stated that surplus revenue of Rs 940.00 million was achieved against target in the year 2022. The reply is not tenable as it is top the revenue data is based by bank is based on country level data of branches not specific to concerned branches.

DAC meeting could not be convened till finalization of the report.

Audit recommends that reasons may be inquired for non-achieving the targets besides fixing responsibility.

Para-1, 16 & 18, 48 (ZTBL 2022)

8.7.4.2 Non-achievement of new customer targets of agri branches – Rs 9,548.44 million

According to rule-4(3) of the Public Sector Companies (Corporate Governance) Rules, 2013, the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance.

During audit of ZTBL for the year 2022, it was observed that the five zonal offices (Quetta, Karachi, Lahore, Peshawar and Gilgat) achieved new customer targets up to 2,496 out of a total of 45,070, indicating a low achievement of only 5.5% of the set targets.

Due to weak internal control, the targets for acquiring new customers could not be achieved.

Audit is of the view that management should do business or achieve targets as planned to boost up business.

The management in its reply dated 12.01.2024 stated that zonal offices were directed to accelerate efforts to achieve the planned targets. Reply is not tenable, as the set targets were not achieved accordingly.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that reasons for non-achieving of new customers' targets may be explained.

Para-8 (ZTBL 2022)

8.7.4.3 Loss due to increase in SAM defaulters and less recovery - Rs 9,179.00 million

According to Para-5.26 of ZTBL Credit Manual Vol-1 "Recovery of Loans", the loan should be recovered in installments as per terms and conditions mentioned in the sanction letter and relevant agreements. In case of default, action for recovery be taken procedurally.

During audit of ZTBL for the year 2022, it was observed that an increase in Special Asset Management (SAM) defaulter cases from 196,930 to 221,736 in 2021 and 2022 respectively, along with a rise in default amount from Rs 44,463.57 million in 2021 to Rs 53,642.51 million in 2022, attributed to less recovery of Rs 9,179 million than the set targets. Furthermore, 1,601 SAM defaulters did not repay even a single penny as well as three zones i.e. Quetta, Karachi and Lahore recovered only 16% outstanding amount.

Due to weak internal control, the targets for Special Asset Management (SAM) recovery could not be achieved.

Audit is of the view that due to constant increase in number of defaulters, the bank sustained a loss of Rs 9,179.00 million.

The management in its reply dated 12.01.2024 stated SAM defaulters increased due to flood as well as wide spread of COVID-19 which affected especially 119 ZTBL branches. The reply is not tenable, as recovery targets regarding SAM defaulter could not be achieved.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends that reasons for constant increase in the number of defaulters may be explained besides effecting recovery.

Note: The issue of less recover from SAM defaulters was also reported earlier in the Audit Report for the year 2021-22 vide Para No. 4.2.4.1 having financial impact of Rs 6,755.086 million. Recurrence of same irregularity is a matter of serious concern.

Para-14, 13 & 10 (ZTBL 2022)

8.7.4.4 Loss due to Poor performance of various zones- Rs 2,248.29 million

According to rule-4 (3) of the Public Sector Companies (Corporate Governance) Rules, 2013, the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance.

During audit of ZTBL for the year 2022, it was observed that 9 zones along with their 144 branches sustained a loss of Rs 2,248.29 million in 2022. The main cause of loss was the absence of assigned targets and inadequate monitoring by Business Divisions.

Due to weak internal control, branches sustained operational losses.

Audit is of the view that management should assign targets to these branches to earn profit to retain its viability.

The management in its reply dated 12.01.2024 stated that overall loss had been reduced to Rs 1,197.14 million leaving a balance of 9 zones i.e. Rs 1,051.15 million. The reply is not tenable, as balance recovery was required to be made in time.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends justifying non-assigning of targets.

Para-4 (ZTBL 2022)

8.7.4.5 Less recovery from non-performing loans - Rs 1,435.73 million

According to Para-5.26 of ZTBL Credit Manual Vol-1 "Recovery of Loans" the loan should be recovered in installments as per terms and conditions mentioned in the sanction letter and relevant agreements. In case of default, action for recovery be taken procedurally, as explained in Chapter-14.

During audit of ZTBL for the year 2022, it was observed that various branches could only achieve 22% of recovery targets i.e. Rs 407.935 million against Rs 1,843.662 million pertaining to Non-Performing

Loans (NPL) as detailed below:

(Rs in million)

	2022		
Zone/Branch Name	Target	Actual	%
Quetta (Annex-E1)	96.299	15.678	16%
Karachi (Annex-E2)			
Peshawar (Annex-E4)	1441.23	289.88	20%
Sub-Total	1843.662	407.935	22.13%
Total targets Missed		1,435.73	

The significant shortfall in achieving NPL recovery targets was cause of weak internal control.

The management in its reply dated 12.01.2024 stated that NPL recovery faced challenges due to COVID-19 pandemic and natural disasters, resulting in varying percentages of recovery across the zones. The reply is not tenable as the recovery position only improved in Peshawar Zone.

Audit is of the view that the loan should have been recovered as per its terms and conditions.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing the responsibility and effecting recovery.

Para-11 (ZTBL 2022)

8.7.4.6 Loss due to non-recovery from employees involved in fraud and forgery Rs 1,250.212 million

According to CGR (vi) of 2017 that the Board shall also develop and implement a policy on “anti-corruption” to minimize actual or perceived corruption in the Company.

During audit of ZTBL for the year 2022, it was observed that cases of fraud and forgery valuing of Rs 1,250.212 million were reported to SBP. Further, revealed that employees were involved in such cases due to fake land documents and management could not recover the such amount from concerned.

The irregularity involving fraud and forgery cases was the cause of weak internal control.

Audit is of the view that the bank should improve its internal control system to prevent fraud and

forgery incidents.

The management in its reply dated 12.01.2024 stated that employees had been dismissed from services under the rules and their terminal benefits had also been forfeited. The reply is not tenable as no recovery has so far been made.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing responsibility and effecting recovery.

Para- 4,6 & 8 (2006), Para- 2 (2012), Para- 18 & 32 (2020), Para-51 & 52 (2021), Para-39 (ZTBL 2022)

8.7.4.7 Irregular payment of bonus - Rs 548.975 million

According to Finance Division's (Regulation Wing) Government of Pakistan, O.M. dated November 30, 2001, autonomous/ semi-autonomous bodies/ corporations under the administrative control of ministries, require approval of Administrative Ministry and concurrence of Finance Division for payments of bonus to the employees. The disregard to Government policy will tantamount to financial irregularity.

During audit of ZTBL for the year 2022, it was noted that bonus of Rs 548.975 million was disbursed to the employees without approval from the Finance Division as well as evaluating performance of employees. Moreover, SBP imposed penalties Rs 38.333 million which was adjusted against different employees who were deemed negligence without actual recover the penalty amount from them. Thus, the payment of bonus and its adjustments is held irregular in audit.

Weak internal control led to the payment of bonuses without evaluating employees' performance and obtaining approval from the Finance Division.

Audit is of the view that approval of the Finance Division was required before payment of bonuses.

The management in its reply dated 12.01.2024 stated that bonus was disbursed with the approval of BoD on basis of Branch performance i.e. profit/loss. Reply is not tenable, as the instructions of Finance Division should have been followed in letter and spirit.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing responsibility thereof.

Para-37 (ZTBL 2022)

8.7.4.8 Irregular purchase of vehicles during ban period - Rs 116.889 million

According to Austerity Measures for the financial year 2022-23 vide Finance Division letter dated July 7, 2022. "there shall be a complete ban on the purchase of all types of vehicles from both current and development budget."

During audit of ZTBL for the year 2022, it was observed that the management purchased 45 vehicles of Rs 116.889 million in violation of directives of the Finance Division

Due to non-observance of austerity measures, irregularly was cause of weak internal control.

Audit is of view that management should observe austerity measures and get approval from finance Division.

The management in its reply dated 12.01.2024 stated that the said vehicles were booked with full payment before issuance of said circular. The reply is not tenable as the process was initiated during ban period.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing responsibility.

(Para-02 (ZTBL 2022))

8.7.4.9 Irregular recruitment process and unjustified pay & allowances - Rs 86.016 million

According to Para 1(b) of letter dated March 03 2015 of Establishment Division, the DSC would adjudge the application on the following criteria for selection. Score in the test may have % weightage where is the weightage of interview will be upto 30%. However, it will be upto the concern Ministry / Division / etc. to assign more weightage to the written test by rescuing the weightage assign to interview. The weightage for interview would be allocated by the member of DSC as under.

1. Chairman= 40%
2. Members (2) = 30% each

Further the DSC Would assess the applicant as under.

Relevant qualification / experience 30%

Knowledge / skill relevancy 40% and

Personality / interpersonal skill 30%

During audit of ZTBL for the year 2022, it was observed that appointments of Senior Executives and OG-III officers (250+ 6 employees) were recruited through third party i.e. M/s Open Testing System (OTS), in violation of said criteria, the management deviated from the standard 100-point scale for candidate assessment by allocating 50 points based on pre-interview qualifications and leaving the remaining 50 points to the discretion of the interview panel. Thus, the appointments and payment to officers of Rs 86.00 million was irregular.

Non observance of recruitment criteria was cause of the weak internal control.

Audit is of the view that the management should observe the criteria for the recruitment process in letter and spirit.

The management in its reply dated 12.01.2024 stated that the recruitment mechanism issued by establishment division was not applicable on Autonomous bodies/Semi-Autonomous Bodies/ Corporation /Authorities which have been created by a statute and respective boards. The reply is not tenable as bank was required to follow government instructions.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing responsibility.

Para-49 (ZTBL 2022)

8.7.4.10 Loss due to imposition of penalties by State Bank of Pakistan - Rs 37.263 million

According to rule-4(3) of the Public Sector Companies (Corporate Governance) Rules, 2013, the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance.

During audit of ZTBL for the year 2022, it was observed that the State Bank of Pakistan imposed penalties of Rs 37.263 million in violation of various rules, regulations and anti-money laundering rule.

Non observance of rules & regulations was the cause of irregularity.

Audit is of the view that management should follow rules and regulations in true letter and spirit to avoid imposition of penalty.

The matter was reported to the management on December 07, 2023,

The management in its reply dated 12.01.2024 stated that Board Risk Management Committee (BRMC) advised to take remedial measures to avoid imposition of SBP penalties. The reply is not tenable as the SBP imposed penalties against violations of various instructions.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends inquiring the matter, fixing responsibility besides effecting recovery.

Para-05 (ZTBL 2022)

8.7.4.11 Irregular appointment of officers - Rs 23.715 million

According to clause (ix) of Chapter 01 recruitment and selection, specific consideration may be given to the relevant post-qualification experience, which can be relaxed only in cases of exceptional qualification President may relax and determine the experience for a cadre or position as deemed appropriate.

According to clause 1.2 (b) vi of HR Manual 2017 of ZTBL that 'No person shall be appointed in service of bank having CGPA less than 2.5 or marks below 60% in Graduation degree/ post-graduation degree in profession discipline on the basis of which he is applying for position so advertised.

During the audit of ZTBL for the year 2022, it was observed that Mr. Hassan Raza was appointed as Vice President (law) on 16.10.2015 @ of Rs 80,000 per month through advertisement, Further, it was observed that experience for the said post was required 10 years whereas, he has possessed only six year experience. Thus, the payment of Rs 13.523 million up to 2023 was consequently considered irregular.

Similarly, Mr. Usman Ahmad Ranjha was appointed as Vice President (law) vide latter dated 09.09.2015 @ of Rs 80,000 per month along with 150 ltr POL despite. Additionally, it was observed that

he obtained 58% marks in LLM, falling short of the specified criteria of 60%. Furthermore, his salary was enhanced to Rs 100,000 during the probation period without terms. Thus, appointment, along with the payment of Rs 8.625 million on account of pay & allowances from 09.09.2015 to 06.05.2020, was deemed irregular.

The weak internal control was caused by deviating from established rules and criteria in the appointment of officers.

The management in its reply dated 12.01.2024 stated that experience certificates has been verified from ex-employer. Reply is not tenable as the experience was before the required degree and not relevant.

Audit is of the view that the management should ensure transparency in the recruitment process as per rules.

The matter was reported to the management on December 07, 2023.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing responsibility.

Para-31, 55 (ZTBL 2022)

8.7.4.12 Non recovery of ante-dated benefits on withdrawal of promotion –Rs 3.062 million

As per State Bank of Pakistan letter No.BSD-1/Bank/ZTBL/373194/2022 dated 12.12.2022 “it was observed that a few of recruitees (SR-2005) were promoted with retrospective effect by terming the same as compliance of the court orders, though these retrospective promotions were also a violation of bank’s own promotion policy.”

As per HR Department Letter dated 04.10.2022, the promotion was being granted only for the purpose of alignment of seniority and no financial benefit would be admissible.

During audit of ZTBL for the year 2022, it was noted that the retrospective promotion from VP to SVP was granted to two officers namely Mr. Wahidullah Khan and Mr. Mehboob Ur Rehman, on 13.05.2020 with backdated effect from 29.04.2016. The bank paid Rs3.062 million additional in salary and benefits.SBP took notice through a letter dated 12.12.2022. The retroactive promotion was later withdrawn on the directives of the Board of Directors vide letter dated 12.12.2023 and they have been instructed to refund/deposit all the excess financial benefits they had availed but no recovery so far has been made.

Audit is of the view that management should strictly adhere to rules and regulations before making promotions, ensuring compliance and preventing irregularities.

The management in its reply dated 12.01.2024 stated that the concerned officers have been directed to refund/deposit all the excess financial benefits, which is under process. Reply is not tenable as no recovery has so far been made.

The matter was reported to the management on December 07, 2023,

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends initiating the recovery process besides fixing responsibility.

8.7.4.13 Irregular promotion of Senior Vice President - Rs 1.136 million

According to clause (e) of Chapter 16 Promotions “Promotion of AVP and above shall be merit based. The officers will be interviewed and due weightage will also be given to PARs and qualification for determining the overall merit on fulfilling minimum eligibility criteria of length of service. Promotion will be made in the order of merit list”.

During audit of ZTBL for the year 2022, it was observed that a Departmental Promotion Committee meeting was convened to evaluate promotions from Vice President (VP) to Senior Vice President (SVP) for employees initially recruited under SR-2005. Mr. Hassan Raza (PP No. 125356) and Mr. Sayed Janane e Subhani (PP No.125561) were promoted from VP to SVP based on the DPC recommendations, out of a pool of 31 candidates. They were granted the highest marks in the interview despite several candidates having greater seniority and higher qualifications but they were not considered for promotion. The non-promotion of more experienced and qualified candidates was considered irregular, and similarly, the payment of Rs 1.136 million to promoted officers on account of pay and allowances was unjustified.

Non observance of promotion rules was the cause of weak internal control.

Audit is of the view that promotion was to be made in compliance of rules.

The management in its reply dated 12.01.2024 stated that M/s Hassan Raza and Syed Janne Subhani obtained the higher marks during interview and were promoted on the recommendations of the DPC. The reply is not acceptable as the marks obtained by these officers were not supported with the individual evaluation/marks sheet of interview committee penal.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends investigating the matter besides fixing responsibility.

8.7.4.14 Missing Loan case files across Pakistan

According to SOP (E), issued by Credit Administration Department Enterprises Risk Management Division Manual Version 1.0 dated 13.01.2022 that CAD hub will not receive loan files where any of the following documents are missing.

- i. Loan application form
- ii. Loan agreement
- iii. Security documents/charge creation certificate/pass book
- iv. CNIC copy
- v. Loan file is not scanned in SDMS or not legible in SDMS

During audit of ZTBL for the year 2022, it was found that various branches failed to submit their total portfolio to the CAD hub after completing projects.

Audit is of the view that 22,134 loan case files were either untraceable within the local branches or had not been transferred to the CAD hub. Management was required to provide the auditable record for

scrutiny, which was not done (Annex-56).

The management in its reply dated 12.01.2024 stated that the information through CA units from stakeholders for disbursement, loan case numbers, amount recovered and outstanding amount would be obtained. The reply is not acceptable as the total portfolio was not received.

No DAC meeting could be arranged by the PAO till finalization of this report.

Audit recommends inquiring the matter besides fixing responsibility.

Note: The issue was also reported earlier in the Audit Report for the year 2021-22 and 2022-23 vide Para No. 5.6.4.3 and No. 6.8.4.13 having financial impact of Rs 15.131 million and Rs 4.316 million respectively. Recurrence of same irregularity is a matter of serious concern.

Para-52 (ZTBL 2022)

Chapter-9

Ministry of Industries and Production

Overview

Ministry of Industries & Production (MOI&P)'s role is that of a facilitator in creating an enabling environment for industrial growth in the country.

Aims & Objectives

The objectives of MOI&P are to achieve efficient, sustainable and inclusive Industrial Development and to play the role of facilitator in industrial development and entrepreneurship through policy intervention, setting up Industrial Parks and Export Processing Zones for investors, skill development of human resource for industrial sector and socio-economic development of country with particular focus on SME development and promotion of traditional crafts of Pakistan.

Governing Laws and Policies

- Rule of Business 1973
- SME Policy, 2007
- Auto Development Policy 2016-21
- Fertilizer Policy, 2001
- Auto Industry Development Programme

Audit Profile of Ministry of Industries & Production

9.1 Export Processing Zones Authority

9.1.1 Introduction

The Export Processing Zones Authority (hereinafter referred to as “EPZA / the Authority”) was established by the Government of Pakistan on Feb 06, 1980 through Export Processing Zones Authority Ordinance, 1980. The main objective of the Authority is to plan, develop, manage and operate Export Processing Zones (EPZs) in Pakistan in order to invite / help foreign investors.

9.1.2 Comments on Audited Accounts

9.1.2.1 The annual audited accounts are required to be provided to audit for review each year. Contrary to this, the management failed to provide audited accounts of the organization for the years 2010-11 to 2022-23 despite a number of reminders.

Audit requires that the annual audited accounts of the years 2010-11 to 2022-23 be provided immediately and timely finalization be ensured in future, besides, fixing responsibility for non-finalization of annual audited accounts (*Annex-2*).

9.1.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	% of compliance
2000-01	1		1	194	-
2009-10	8	7	1	96	88%
2010-11	8	4	4	11.1.4.1, 11.1.4.2, 11.1.4.3, 11.1.4.5	50%
2013-14	1	1			100%
2014-15	22	1	21	9.1.4.2, 9.1.4.8, 9.1.4.11, 9.1.2.1, 9.1.2.2, 9.1.2.3, 9.1.3, 9.1.4.3, 9.1.4.4, 9.1.4.5, 9.1.4.6, 9.1.4.7, 9.1.4.9, 9.1.4.10, 9.1.4.12, 9.1.4.13, 9.1.4.14	5%
2015-16	3	1	2	8.1.2.1, 8.1.3	33%
2019-20	6	1	5	7.1.4.1, 7.1.4.2, 7.1.4.3, 7.1.4.4, 7.1.4.5	17%
2017-18				10.1.4.2	

2021-22	22		20	8.1.4.3, 8.1.4.10, 8.1.4.15, 8.1.4.20 (remaining to be discussed in PAC)	8.1.4.8, 8.1.4.6, 8.1.4.17,	
Total	71	15	54			21%

The overall compliance of PAC directives needs improvement.

9.1.4 Audit Paras

9.1.4.1 *Loss of foreign exchange earnings due to non-achievement of committed exports and zero export – Rs 103,946.150 million (Equivalent to USD 358.435 million)*

As per part H of Export Projections for five years of Application form of investors for setting up an industrial / trading unit an investor is required to mention committed annual export which must be maintained. The investors are bound to follow their commitments in case they retain the allocated land.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that management failed to get committed export targets achieved by various investors during the year. Out of 293 units at KEPZ, 220 units could not achieve committed export targets. The details of loss is as under:

Amount in USD million			
No. of investors	Committed export targets	Actual exports	Non-achievement of export target
220	461.00	102.565	358.435

Further, 106 units in KEPZ failed to export even a single product since their allotments i.e. year 2011-12.

Audit is of the view that non-achievement of committed exports and zero export by investors depicted the slackness on part of management, which eventually resulted in loss of foreign exchange earnings amounting to Rs 103,946.15 million (USD 358.435 million @ Rs 290).

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 01, 2024. Management informed the DAC that action against 106 units had been taken, out of which 12 were under litigation, 22 units had requested for sale of their units and remaining 72 units were under observation. DAC directed the management to submit revised reply.

Audit recommends the management to justify the matter.

(DP No. 644, 647 & 649)

9.1.4.2 *Non-approval of budget from the Federal Government –*

Rs 3,088.470 million

According to clause 22 of the EPZA Ordinance, in the month of January each year, the Authority shall submit to the Federal Government for approval a statement of the estimated receipts and expenditure in respect of the next financial year in such manner and form as may be prescribed.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that the management did not obtain approval of the Federal Government for the Statements of the estimated receipts and expenditure. The detail is as under:

(Rs. in million)		
S #	Description	Actual 2022-23
1	Total Revenue	4,012.410
	Total	4,012.410
2	Operating Expenditure	2,874.330
3	Capital Expenditure	51.140
4	Development Expenditure	163.000
	Total	3,088.470

Audit is of the view that the management violated the provision which reflects negligence and slackness. Thus, expenditure of Rs 3,088.470 million was held irregular.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 01, 2024. The management informed the DAC that public Sector enterprises has to submit their annual budget to their respective Board for approval before sending it to Federal Government. The Board was in active from September 2019 till its formation in February 2023 and as per EPZA Ordinance the Chairman EPZA is empowered to approve the routine affairs of the Authority or budgets subject to ex-post facto approval of EPZA Board of Directors. Therefore, no power has the right to contest the power of the Chairman given by the ordinance as irregular. The DAC directed the management to get its budget approved as per EPZA ordinance and copy of approved budget be furnished to Audit.

Audit recommends implementation of the DAC directives.

9.1.4.3 Irregular export in tariff area in excess of allowed limit – Rs 1,956.05 million (Equivalent to USD 6.745 million)

According to rule 228(5) of Custom rules 2001, the units established in the Export Processing Zone shall export only up to twenty percent of their total production to tariff area in Pakistan while eighty percent shall be exported to other countries.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that various investors were exporting in tariff area beyond the allocated limit of 20%. It was

observed that 21 investors exported products amounted to USD 9.749 million in tariff area, being in excess by Rs 1,956.050 million (Equivalent to USD 6.745 million @ Rs.290) beyond allowed limit and in violation of above-mentioned custom rule, which subsequently pointed towards the failure of management to monitor the trading activities or exports of the investors in accordance with rules and subsequent inaction against delinquents (Annex-57).

Audit is of the view that failure of management to monitor the exports of investors in accordance with rules has resulted in irregular exporting of products in tariff area beyond allocated limit.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 01, 2024. Management informed the DAC that cases of export in tariff area were allowed as per various circulars except one case, which was erroneously allowed and same would be adjusted in export of FY2023-24. DAC directed the management to take action against erroneously allowed case along with verification of record/facts from Audit.

Audit recommends implementation of the DAC directives.

9.1.4.4 Irregular export to tariff area beyond permissible limit – Rs 1,774.220 million (USD 6.118 million)

Section 228 (5) of Customs Rules, 2001 states that units established in Export Processing Zones shall export only up to 20% of their total production to tariff areas in Pakistan while 80% shall be exported to other countries.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that management did not take any action against four (04) investors involved in export of 100% of its production to tariff area in Pakistan against the allotted 20% of total exports as detailed below:

S#	Unit name	Amount in USD			
		2021-22		2022-23	
		Export to tariff	Export to abroad	Export to tariff	Export to abroad
1	Home Furnishing Ltd	2,282,317.72	0.00	1,357,519.54	0.00
2	Afuso Packaging & Printing Industry. (PH-II)	107,479.87	0.00	98,437.20	0.00
3	Eram Fashions (Pvt) Ltd.	80,570.00	0.00	329,800.00	0.00
4	Steel Vision (Pvt.) Ltd.,	1,278,832.65	0.00	582,560.30	0.00
	Sub Total	3,749,200.24	0.00	2,368,317.04	0.00
	Total	6,117,517.28			

Audit is of the view that exporting all its products to tariff areas in Pakistan depicts internal control weakness and slackness of management. Hence, exports amounting to Rs 1,774.220 million (USD 6.118 million @ Rs.290) stands irregular.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 01, 2024. Management informed the DAC that exports under mentioned cases did not fall under 80:20 ratio and were exempted, hence they were allowed by the Authority. DAC directed the management to verify the record from Audit.

Audit recommends implementation of the DAC directives.

9.1.4.5 Sale / Purchase of unit without obtaining NOC – Rs 1,440.000 million

Clause 235A of the Customs EPZ Rules, 1981 (S.R.O.450(I)/2001, Dated 18.6.2001) states that no transfer of ownership by an investor or industrial undertaking of its unit or cancellation of license shall be finalized by the Authority without prior issuance of NOC from the Collector of Customs.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that the management approved sale / purchase of M/s Casual Sportswear located on plot No. 1,2,3,4,14,15,16 & 17 measuring 8,000 square meter along with structure / building to M/s Ghanchi Recycling Limited as an industrial unit for manufacturing of denim garments, sports/fashion wear garments with committed export of Rs 1,440.000 million (US \$ 8.00 million per annum @ Rs.180) on July 13, 2021 without getting NOC from the Collector of Customs.

Audit is of the view that the management violated the rules in the sale / purchase of property which reflects gross negligence.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 01, 2024. The management informed the DAC that the amendment was made by the Customs Authorities without intimation to EPZA and same was also not officially communicated to the EPZA. The then management was unaware about it. Therefore, the case was processed and approved as per EPZA Rules. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.1.4.6 Unjustified approval of investment proposal and clandestine removal of duty-free goods – Rs 1,113.600 million (US \$ 4.80 million per annum)

According to clause 2 of approval of sale/purchase letter dated May 10, 2017 issued by M/s EPZA for setting up an industrial unit for manufacturing of cigarettes and allied tobacco products in REPZ with a committed export of US \$ 4.80 million per annum.

According to Custom EPZ Rules, if any importer fails to give proper account of the imported goods, the importer shall pay on demand an amount equal to the duties and taxes leviable thereon and shall also be liable to pay penalties imposed for such violation.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that M/s China Pakistan Tobacco Pvt. Ltd submitted an investment proposal at EPZ, Risalpur on 19-07-2017 for the category of warehouse/trading for tobacco products imports from China and export to potential market abroad. Whereas, case was approved as an industrial unit for manufacturing of cigarettes and allied tobacco products against the proposal submitted on May 10, 2017 with the export commitment of US \$ 4.80 million per annum. However, the said company was incorporated with the Securities and Exchange Commission of Pakistan (SECP) on May 26, 2017 and the investor did not submit any feasibility report showing manufacturing capacity / ability of Tobacco, plant/machinery, financial statements, factory layout, etc. Furthermore, the investor did not have license of brand name “CPT Cigarette”.

Later on June 20, 2019, Customs Mardan visited the site for inspection of imported goods and found that foreign origin goods lying in the premises and seals of the certain cans containing cigarette flavors were not intact (160 gallons out of 214 gallons of cigarette flavors were de-sealed containing water in it). Then, samples were referred to PCSIR Lab. Peshawar which confirmed that clandestine removal of original contents of cigarette flavors material from 160 cans. The broken seal containers were seized under section 168 of the Customs Act, 1969 and handed over to EPZA authorities. Thereafter, notice was served to the investor for punishable acts and for recovery of duty/taxes leviable on short goods.

Audit is of the view that approval was given of industrial / manufacturing instead of warehouse / trading for manufacturing of cigarettes and allied tobacco products and clandestine removal of duty-free goods poses a revenue loss for the government as duties and taxes have been evaded.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 01, 2024. The management informed the DAC that investor initially submitted an investment proposal with the company name M/s. China Pakistan Tobacco Company to set up an industrial unit. Later, on 19-7-2017, the investor submitted another investment proposal for trading activity on the same plot. Audit team only examined the matter of trading activity and didn't check earlier investment proposal for manufacturing. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

(DP No. 675 & 676)

9.1.4.7 Sale of unit without codal formalities – Rs 464.000 million (US\$ 2.000 million)

According to clause 2 of the EPZA guidelines for industrial units that the applicant shall attach the documents with the industrial sector proposal: 1. Description of manufacturing process, marketing arrangements etc. 2. List of plant, machinery, equipment 3. List of furniture and fixture 4. Articles/memorandum of association & 5. Partnership deed.

According to clause 2 of approval of sale/purchase letter dated September 27, 2016 issued by M/s EPZA for setting up a warehouse/trading and industrial unit cigarettes in KEPZ with a committed export of US\$ 2.00 million per annum.

During audit of Export Processing Zone Authority (EPZA) Karachi for the year 2022-23, it was observed that M/s Golden Cigarette Company Limited was approved as industrial unit for manufacturing of cigarettes at plot No 9 & 10, Sector C-V measuring 2,000 square meters vide letter dated 09-02-1999. Following irregularities were observed at the time of sale to M/s Ali Industries Pvt. Ltd:

- The unit was sold to M/s Ali Industries Pvt. Ltd in September, 2016 without obtaining NoC
- M/s Ali Industries Pvt. Ltd was not registered with the SECP at the time of sale.
- The company was incorporated on May 11, 2018 with the name of M/s S.M Ali Industries Pvt. Ltd instead of M/s Ali Industries Pvt. Ltd.
- Investor's import / export performance in last five year was Nil against the committed export of US\$ 2.00 million per annum.

Audit is of the view that the management extended undue favor to the investor which reflected negligence and slackness.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 01, 2024. The management informed the DAC that it was an inadvertent omission that SECP registration was not called for before executing License Agreement. However, investor was repeatedly asked to provide SECP registration vide letters dated 07.09.2017, 17.04.2018. The said name i.e. M/s Ali Industries was already registered in SECP, so they reserved the name M/s S.M. Ali Industries Private Limited. Then the investor submitted a request for change of name and was considered. Action against the unit regarding nil business activity was taken but investor has submitted undertaking for revival of business activity; therefore, time was granted. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.1.4.8 Non-recovery of outstanding dues from various investors – Rs 173.962 million

According to license agreement with various investors for rented out property, Annual Ground Rent of the allotted plots at the specified rates was required to be recovered in advance on every 10th of January and 10th of July each year. Similarly, the utilities bills were also to be recovered on due dates and in case of non-payment of two or three consecutive bills the utility services would have to be suspended in order to recover the outstanding balances and to avoid their heavy accumulation.

According to clause 31 of license agreement, the investor shall bound to pay (in addition to the rents hereby reserved) to the authority as it may direct all taxes, rates, assessments, duties, charges and impositions whatsoever now are, or during the said term shall be charges or imposed upon or be payable in respect of the demised land or any building, erection or structure or the plant, machinery, engines or other matters and things in relation to the investor’s factory or business, to be determined by any lawful authority.

During the audit of Export Processing Zones Authority (EPZA), Karachi for the year 2022-23, it was observed that an amount of Rs 173.962 million (USD 518,927) was outstanding against investors on account of Annual Ground Rent (AGR), Water & Electricity charges, change of name dues and workers’ pay (Annex-58). The brief summary is as under:

(Rs in million)

S#	Description	Outstanding (USD)	Outstanding (Rs)	Remarks
1	AGR	498,728.5	144,631,259	Outstanding Utility and Annual Ground Rent (AGR) from various Investors
2	Water Charges	379.4	110,029	
3	Electricity Charges	10,819.2	3,137,571	

4	Change of name	10,000.0	1,600,000	M/s EPZA on dt: May 25, 2018 requested M/s Ali Industries Pvt. Ltd. for submission of Articles/Memorandum of Association, (after 02 years of approval). Registration certificate of dt: May 11, 2018 with the name of M/s S.M Ali Industries Pvt. Ltd instead of M/s Ali Industries Pvt. Ltd was submitted. Then, EPZA demanded US \$ 10,000 vide letter dt: March 10, 2020 for change of name.
5	Workers' pays	-	24,483,000	Sale/purchase of M/s Casual Sportwear to M/s Ghanchi Recycling Limited vide letter dt: July 13, 2021 and Rs. 24.483 million on account of workers' pay was outstanding towards M/s Casual Sportwear (previous owner).
Total		519,927.1	173,961,859	

Audit is of the view that the management's failure to recover outstanding dues from various investors tantamount to internal control weakness and loss of revenue of Rs.173.962 million (USD 519,927.1).

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 01, 2024.

- a) The management informed the DAC that various cases of outstanding dues were under litigation and Take Over cases. Moreover, management recovered USD 3,920. DAC directed the management to make rigorous efforts for recovery of dues and follow up of litigation cases.
- b) The management informed the DAC that various cases of outstanding dues were under Sick/Closed and Litigation cases. Moreover, management recovered USD 24.14. DAC directed the management to make vigorous efforts for recovery and follow up of litigation cases and share the progress with Audit.
- c) The management informed the DAC that an invoice was raised on dt: 10th March, 2020 and investor had paid amount US\$ 10,000/- on dt: 01-09-2020. DAC directed the management provide the relevant record to Audit for verification.
- d) The management informed the DAC that investor has paid the said amount to employees. DAC directed the management provide the relevant record to Audit for verification.

Audit recommends implementation of the DAC directives.

(DP No.643, 648, 671 &672)

9.1.4.9 Tax evasion due to non-verification of credentials at the time of export to tariff area – Rs 138.559 million

Section 32(1) (a) of Customs Act, 1969 stipulates that, if any person, in connection with any matter of customs, makes or signs or causes to be made or signed, or delivers or causes to be delivered to an officer

of customs any declaration, notice, certificate or other document whatsoever, [knowing or having reason to believe that such document or statement is false] in any material particular, he shall be guilty of an offence under this section.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that investors of KEPZ namely, M/s. Steel Vision Pvt. Ltd and M/s. Royal Impex Pvt. Ltd having business of import and export of steel sheets were involved in tax evasions on various occasions. However, at the time of their export to tariff area, they mis-declared the wrong Pakistan Customs Tariff Code (PCT) in various export Good Declaration (GDs), thereby fraudulently declaring goods as of “Prime quality” as opposed to actual “Secondary quality” in order to evade and attract lower tax rates and custom duties. Detail of tax evasion by both investors is as follows:

Rs.in million				
Description (Rs in million)	M/s. Steel Vision		M/s. Royal Impex	
	Case-1	Case-2	Case-1	Case-2
C&F Value declared	103.771	44.494	49.434	179.516
Actual C&F value	128.821	45.848	56.773	198.043
Declared PCT number	7210.3090	7209.1610	7209.1690	7210.3090
Actual PCT number	7210.3010	7209.9090	7209.1610	7210.3010
Tax/duties actually payable	79.281	27.383	34.940	121.884
Tax/duties paid	49.613	12.442	11.353	51.521
Tax/duties evaded	29.668	14.941	23.587	70.363
Total tax evasion	138.559			

Audit is of the view that improper monitor mechanism to verify the credentials of GDs at the time of export to tariff area resulted in tax evasion by investor and subsequent loss to Government’s revenue.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 01, 2024. Management informed the DAC that it was responsibility of Customs to examine and evaluate the consignment and issue the assessment report as per GD file by the investor. EPZA had no access to examination. Moreover, said cases were allowed after court order. DAC directed the management to verify the record from Audit.

Audit recommends implementation of the DAC directives.

9.1.4.10 Revenue loss on account of electricity line losses – Rs 111.191 million

Rule 15(1) of EPZA Rules, 1981 states that the Authority shall undertake to provide infrastructure facilities such as electricity, water, gas, telephone and telex which are considered necessary for efficient industrial operations in a Zone, provided that the cost of providing such facilities shall be borne by industries set up in a Zone.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that there were huge line losses of electricity units accumulating to 3.460 million units amounting to Rs.111.191 million in various months of the year as detailed below:

Amount in Rs							
S. #	Billing Month	Total units charged by K-E	Amount paid by EPZA to KE	Total Units charged by EPZA	Total Amount received by EPZA	Loss (Units)	Loss (Amount)
1	Jun-22	5,844,226	197,156,476	5,391,218	150,468,426	453,008	46,688,049
2	Jul-22	5,225,760	163,891,238	4,426,330	143,648,450	799,430	20,242,788
3	Aug-22	5,008,901	209,426,985	4,653,462	198,099,139	355,438	11,327,846
4	Sep-22	5,218,945	194,226,085	4,700,905	177,596,115	518,040	16,629,971
5	Oct-22	4,882,872	118,830,849	4,589,719	113,696,772	293,153	5,134,077
6	Nov-22	4,580,604	105,508,936	4,142,946	102,716,109	437,658	2,792,828
7	Dec-22	3,961,003	104,021,764	3,773,586	104,412,012	187,417	-390,248
8	Apr-23	4,516,083	167,355,549	4,099,766	158,589,988	416,317	8,765,561
Total		39,238,393.62	39,238,394	1,260,417,882	35,777,932	1,149,227,012	3,460,462

Audit is of the view management's failure to control line losses had resulted in loss of Rs. 111.190 million. These distribution losses may have caused due to meter tampering and bypassing, false meter readings, faulty meters, and un-metered supply.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 09, 2024. Management informed the DAC that EPZA had one main distribution MDS station and eight DSs in KEPZ Phase-I, whereas six DSs in KEPZ phase-II as EPZA was working as a distributor / distributing the electricity to the investor through DSs. Moreover, in order to recover the loss of Rs. 111 million, EPZA issued the supplementary bills to the investors and the investors had taken the stay from the Court but the instance of the EPZA was not accepted by the Court. DAC directed the management to submit revised reply.

Audit recommends implementation of the DAC directives.

9.1.4.11 Unjustified imposition of water charges on fixed rate – Rs.110.403 million

Rule 4(3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Act and these rules.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that Karachi Water and Sewerage Board (KWSB) was charging fixed number of gallons of water unjustifiably. It was noted that the transmitter of electromagnetic water meter was stolen on 16-11-2021. Afterwards, it was observed that management had not procured the said transmitter till date. Due to absence of transmitter and faulty electromagnetic water meter, actual number of gallons of water could not be determined. Subsequently, KWSB charged EPZA with fixed number of gallons on a higher side. Detail of water charges imposed by M/s. KWSB is as follows:

S#	Billing month	Invoice month	Number of gallons	Amount (in Rs.)
1	Jun-22	Jul-22	22,871,860	8,508,340
2	Jul-22	Aug-22	22,871,860	9,263,111
3	Aug-22	Sep-22	22,871,860	9,263,111
4	Sep-22	Oct-22	22,871,860	9,263,111
5	Oct-22	Nov-22	22,871,860	9,263,103
6	Nov-22	Dec-22	22,871,860	9,263,111
7	Dec-22	Jan-23	22,871,860	9,263,111
8	Jan-23	Feb-23	22,871,860	9,263,111
9	Feb-23	Mar-23	22,871,860	9,263,111
10	Mar-23	Apr-23	22,871,860	9,263,111
11	Apr-23	May-23	22,871,860	9,263,111
12	May-23	Jun-23	22,871,860	9,263,111
Total			274,462,320	110,402,554

Audit is of the view that management's failure to secure its assets initially and subsequently non-procurement of said transmitter resulted in fixed and higher water charges by KWSB instead of actual consumption. Hence, audit considers payment on account of water charges by EPZA as unjustified.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 09, 2024. Management informed the DAC that it had invited bids for procurement of transmitter of electromagnetic water meter three times and same were cancelled due to various reasons. However, same was procured and installed in June, 2023. Moreover, management would adjust extra water bills with KWSB in future after monitoring the trend of utilization of water. DAC directed the management to get the water bills adjusted with KWSB within two months and verify the progress from Audit.

Audit recommends implementation of the DAC directives.

9.1.4.12 Delay in payment of contribution and imposition of penalty – Rs.108.842 million

Section 13(1) of chapter 3 of EOBI Act, 1976 states that if any employer fails to pay, on the due date, the contribution payable by him, the amount so payable by him shall be increased by such percentage or amount as may be prescribed, provided that in no case shall such increase exceed fifty per cent of the amount due. (2) Without prejudice to any other remedy, the amount of contribution due, together with the increase provided for under sub-section (1), may be recovered as arrears of land revenue.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that management voluntarily registered with Employees Old-Age Benefit Institution (EOBI) for

post-retirement benefits of employees in March, 2020 after getting approval from Board of Directors. A No Objection Certificate (NOC) was required as per EOBI Act. However, management applied for NOC from Ministry of Industries and Production (MoIP) after lapse of two years in March, 2022, which was duly issued by the MoIP in August, 2022. Subsequently, EOBI issued show-cause notice for payment of contribution amounting to Rs.74.024 million along with penalty of Rs.34.818 million for delayed payment. Management requested for waiver of penalty, which was not granted by EOBI due to want of any provision in their law. Resultantly, instead of paying the amount, management proposed to BOD for cancellation of EOBI registration in order to cover the delay.

Audit is of the view that delay on part of management for getting required NOC from ministry has resulted in imposition of penalty by EOBI amounting to Rs.108.842 million.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 09, 2024. Management informed the DAC that due to non-availability of Chairman, EPZA could not send the case to MOIP for issuance of NOC as demanded by EOBI. Moreover, management voluntarily opted for EOBI registration and employees were not ready to pay the penalty amount. Hence, management decided to withdraw from EOBI scheme. DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.1.4.13 Illegal removal of foreign origin fabric on fraudulent sub-contracting - Rs.79.072 million

Section 32A (1) related to fiscal fraud of Customs Act, 1969 states that if any person, in connection with any matter related to customs- (a) causes to submit documents including those filed electronically, which are concocted, altered, mutilated, false, forged, tempered or counterfeit to a functionary of customs; (b) declares in the [goods declaration] electronically filed customs declaration, the name and address of any exporter or importer which is physically non-existent at the given address; (c) declares in the [goods declaration] electronically filed customs declaration, an untrue information regarding payment of duties and taxes through self-assessment,] description, quantity, quality, origin and value of goods, he shall be guilty of an offence under this section.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that the management could not prevent the illegal removal of foreign origin fabric from KEPZ to tariff area. The owner of unit, M/s. Laiba Industries Pvt. Ltd, illegally removed the foreign origin fabric from KEPZ to tariff area on 25-11-2020 in the garb of dyeing purpose. Gate pass was issued in favor of M/s. Ahmed Dying showing the delivery / transportation of textile fabric weighing 20,700 kgs. Furthermore, M/s. Ahmed Dying was a fake company which did not exist. The illegally removed fabric was offloaded at a private godown M/s. United Enterprises which was later searched by Custom Authorities where fabric weighing 47,155kg was found, which was illegally removed from KEPZ through various gate passes. Subsequently, Custom authorities confiscated the fabrics and imposed penalty of Rs.1.000 million on the investor and CIF value of illegally removed fabric was Rs.79.072 million.

Audit is of the view that illegal and fraudulent removal of foreign origin fabric from KEPZ to tariff area through a gate pass issued on a fake company depicted control weaknesses.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 09, 2024. Management informed the DAC that it was the responsibility of the Custom Authorities to examine and approve sub-contracting and verify the company in tariff area from whom the work would be carried out. EPZA was only issuing the sub-contracting gate pass as per approval of Custom Authorities. The matter was now in customs court and sub judice. DAC directed the management to share progress of court proceedings with Audit.

Audit recommends implementation of the DAC directives.

9.1.4.14 *Illegal transportation of goods into KEPZ through fiscal fraud– Rs.56.773 million*

Rule 11(4) of Export Processing Zones Authority Rules, 1981 states that all imports into the Zones shall be paid for out of the importers own foreign exchange resources abroad without involving, either directly or indirectly, Pakistan resources. Moreover, Rule 9-A of EPZA Rules, 1981 states that if in the opinion of the Authority an investor has failed to carry out the purpose for which, or has not fulfilled the conditions of, the sanction accorded to him under sub-section (1) of section 11 of the Ordinance, it may, after giving him notice to show cause, cancel, revoke or withdraw the sanction.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that an investor M/s. Royal Impex Pvt. Ltd, was involved in tampering and submission of fabricated import documents for transportation of goods to KEPZA illegally. M/s. Muhammad Rizwan and Brothers imported iron and steel sheet in coils (CRC) from South Korea and paid the amount from Pakistan resources for import of consignment into Pakistan not in KEPZ (foreign territory). However, M/s. Royal Impex Pvt. Ltd, through mutual conspiracy with lawful importer / owner arranged manifestation of the cargo for KEPZ in their name while tampering the commercial invoice (under-invoicing) and packing list. Moreover, in order to conceal the legal importer, they also concealed LC details. Subsequently, Custom Authorities filed FIR against the investor. However, the management neither identified illegal transportation of imported goods into the KEPZ nor took any action against the investor. Detail of imported goods is as follows:

Description	USD	Rs. in million
C&F value (as per actual commercial voice)	420,193	56.773
C&F value of imported goods (as per tempered commercial voice)	390,179	49.434
Tempering/fiscal fraud	30,014	7.339

Audit is of the view that management’s failure to identify illegal transportation of imported goods into the KEPZ initially and subsequent detection of mis-declaration or tempering in import documents reflected serious internal control weaknesses.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 09, 2024. Management informed the DAC that it was responsibility of Customs to examine and evaluate the consignment and issue the assessment report as per GD file by the investor. EPZA had no access to examination and all Import documents were found correct without any tampering at the level of Authority. Moreover, said cases were allowed after court order. DAC directed the management to verify the record from Audit.

Audit recommends implementation of the DAC directives.

9.1.4.15 Loss of revenue due to tax and custom duty evasion – Rs.39.488 million

Section 32B of Customs Act, 1969 stipulates that, where any person has committed a duty or tax fraud, the Collector [or Director] may, with the prior approval of the Board, either before or after the institution of any proceedings for recovery of duty or tax, compound the offence if such person pays the amount of duty or tax due along with penalty as is determined under the provisions of this Act.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that the Government sustained losses of Rs.39.489 million due to tax and custom duty evasion by M/s. Laiba Industries on account of removal of foreign origin fabric amounting to Rs.79.072 million from KEPZ to tariff area as detailed below:

Tax/duties on goods	(Rs. in million)
Custom Duty@ 16%	12.651
Add. Customs duty @ 04%	3.163
Regulatory duty @2.5%	1.977
S. Tax @17%	16.467
Add. S. Tax @03%	2.906
Income tax @02%	2.325
Total	39.489

Audit is of the view that illegal removal of assorted foreign origin fabric by investor had resulted in loss of public exchequer on account of fraudulent evasion of taxes and duties.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 09, 2024. The management informed the DAC that the matter is in Court of Law. The Authority will take appropriate action after finalization of court case. The DAC directed the management to pursue court case vigorously and share progress with Audit.

Audit recommends implementation of the DAC directives.

9.1.4.16 Illegal storage of goods in neighbor's premises - Rs.26.078 million

Rule 9-A of EPZA Rules, 1981 states that if in the opinion of the Authority an investor has failed to carry out the purpose for which, or has not fulfilled the conditions of, the sanction accorded to him under

sub-section (1) of section 11 of the Ordinance, it may, after giving him notice to show cause, cancel, revoke or withdraw the sanction.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that M/s. General Tobacco Company illegally dumped goods in another investor's unit. Reviewing the custom report, it was noted that said investor imported 78 pallets of tipping papers weighing 49,260 kg amounting to Rs.26.078 million through Goods Declaration No. PQZI-EP-4622-28-08-2021 and PQZI-EP-6186-15-09-2021 during Aug and Sep 2021 and stored/dumped the goods illegally in premises of nearby inactive unit, namely M/s. Sitara Trading. After few days, said investor removed some of the quantity of dumped tipping papers from the Zone illegally. Later on, upon visit and investigation by Custom authorities, said investor denied importing the said items and filing of mentioned GDs by stating that his Custom user ID and password was misused and in the due course flew away out of the country during investigation by Custom authorities. Subsequently, custom authorities searched the premises of investor's neighbor, M/s. Sitara Trading and found and consequently seized 28 pallets of tipping paper weighing 14,535 kg valuing Rs.10.349 million. It was observed that EPZA did not cancel its license despite of illegal dumping of goods in other investor's premises and illegal removal of goods from the Zone.

Audit is of the view that management unduly favored the investor by not taking any severe action there against for his illegal actions of un-authorized dumping of goods in neighbor's premises without his consent and subsequent removal of goods from the Zone illegally.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 09, 2024. Management informed the DAC that examination, clearance, imposition of duties and taxes on the material rested with Custom Authorities and management was unaware of illegal movement of the consignment. Moreover, the case is under litigation. DAC directed the management to submit revised reply and enquire the matter while taking appropriate action against involved investor.

Audit recommends implementation of the DAC directives.

(DP No. 650 & 652)

9.1.4.17 Loss on account of water pilferage – Rs.19.164 million

Rule 2A (1) of Public Sector Companies (Corporate Governance) Rules, 2013 states that for the purposes of these rules, the following shall be the criteria for sound and prudent management of a Public Sector Company, which shall be bound to comply with it at all times namely (a) the business of the Public Sector Company is carried on with integrity, objectivity, due care and the professional skills appropriate to the nature and scale of its activities.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that the management could not prevent water losses amounting to Rs.19.164 million for 73.705 million gallons of water as detailed below:

Description	Number of gallons (in million)	Amount (Rs. In million)
Payment on account of water	274.462	110.403

Charge/collection of water	200.757	91.249
Water losses	73.705	19.164

Audit is of the view that management's failure to prevent and control water pilferage had resulted in loss of Rs.19.164 million due to leakages and theft at fire hydrants, faulty meter or absence of meters at various places, and pilferage in water lines.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 09, 2024. Management informed the DAC that due to non-functioning of electromagnetic water meter, KW&SB has raised /issued water billing to Karachi Export Processing Zone on the basis of pervious highest meter reading. Hence EPZA had issued the average bill to the KEPZ investors on the basis of enhanced billing of KWSB for which EPZA issued supplementary bill. Moreover, management would adjust extra water bills with KWSB in future after monitoring the trend of utilization of water. DAC directed the management to submit revised reply and get the water bills adjusted with KWSB within two months and verify the progress from Audit.

Audit recommends implementation of the DAC directives.

9.1.4.18 Enlistment of hospitals without competitive bidding – Rs.5.453 million

Rule 15 (1) of PPRA, 2004 states that a procuring agency, prior to the floating of tenders, invitation to proposals or offers in procurement proceedings, may engage in pre-qualification of bidders in case of services, civil works, turnkey projects.

Rule 20 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that amount of Rs.5.453 million was paid to following 11 hospitals on account of medical facility provided to employees without following due process of competitive bidding / prequalification:

(Amount in Rs)					
S. #	Name of Hospital	Year of enlistment	2020-21	2021-22	2022-23
1	Akhtar Eye Hospital	2013	198,050	253,800	644,350
2	Ashfaq Memorial Hospital	2013	353,724	288,022	154,562
3	Atia General Hospital	2013	301,427	1,163,985	868,115
4	Darul Sehat Hospital	2013	544,174	-	1,535,846
5	Qamar Dental Hospital	2013	-	105,500	141,200
6	Shamsi Hospital	2017	554,982	847,594	1,441,044
7	M S Karachi Dental Clinic	2013	233,100	405,700	187,650

8	Infinity Eye Care Centre	2017	196,300	240,480	8,000
9	T.O Clinic	2013	192,766	66,658	353,704
10	Anmol Dental Clinic	2013	93,300	259,100	74,900
11	Ibn-E-Sina Hospital	2013	425,414	230,849	43,823
	TOTAL		3,093,237	3,861,688	5,453,194

Audit was of view that management deprived the organization of competitive bidding process in violation of PPRA Rules, 2004. Thus, payment of Rs.5.4531 million was held irregular.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 09, 2024. The management informed the DAC that PPRA rules does not applicable for the enlistment of hospitals and hospitals were enlisted to give maximum facilitation of health to its employees where the majority of staff resides. Now EPZA had started the medical facility through insurance company and the first contract awarded to M/s. jubilee which was strictly compliance with PPRA Rules. The DAC directed the management to submit revised reply and get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.1.4.19 Inefficient procurement planning leads to non-completion of work on time - Rs.3.025 million

Rule 08 of PPRA Rules, 2004 states that all procuring agencies shall devise a mechanism, for planning in detail for all proposed procurements with the object of realistically determining the requirements of the procuring agency, within its available resources, delivery time or completion date and benefits that are likely to accrue to the procuring agency in future.

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23, it was observed that the management awarded the contract for Re-strengthening boundary wall at KEPZ Phase-I to M/s ANK Engineering on May 13, 2020 at the cost of Rs. 2,182,191 to be completed within 75 days from the date of commencement. However, the management vide letter dated March 31, 2022 cancelled the subject contract. Later on, the management re-tendered the same work to M/s Mehfooz Nabi Shaikh & Co. amounting to Rs.3,025,445 on August 29, 2022 with completion date 26.11.2022, but completed on 24.02.2023.

Audit is of the view that due to ill planning, work of 75 days took almost 03 years to complete despite issuance of tender twice which resulted in excess cost. Further, liquidated damages were also not imposed which reflects undue favor and poor planning. Thus, contract amounting to Rs.3.025 million stands irregular and unjustified.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 09, 2024. The management informed the DAC that work order issued to M/s ANK Engineering & Construction Company at Rs 2,182,191.70 on May 13, 2020. Contractor submitted letter that the site is not clear. Contractor was informed to start the work on April 12, 2021 but the contractor was not starting the work as he asked for escalation and change in rates due to fluctuation in market and

submitted rate analysis on 05.05.2021 which was on higher side. Then, contract was re-tendered and awarded to M/s Mahfooz Nabi Shaikh at Rs 3,025,445.00 on 29.08.2022. Work started from 31-8-2022 and completed on 24.02.2023 (90 days delay). The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.1.4.20 Non-appointment of Secretary

According to Finance Division O.M No. F.6 (49)-Imp. I/8 dated: 12th October, 1980, "it has been decided to include the Export Processing Zone Authority in the Management Grade for Senior Executives. Accordingly, the Chairman has been placed in Management Grade M-II and Members (Directors) in M-III".

During audit of Export Processing Zone Authority (EPZA), Karachi for the year 2022-23 it was observed that the management awarded additional charge of Secretary to Mr. Kazim A. Lashari (General Manager-Internal Audit) for three (03) months on November 27, 2019. His additional charge was further extended for three months or till the posting of regular Secretary, EPZA whichever is earlier on February 28, 2020. Thereafter, upon repatriation of Mr. Kazim A. Lashari to his parent department (PSM), additional charge was given to Mr. Nasir Hidayat Khan Lashari (General Manager-Engineering/Facilities) on June 30, 2020 and was further extended for three months or till the posting of regular Secretary whichever is earlier on February 19, 2021. He is still serving as Secretary, EPZA till date.

Audit is of the view that additional charge / posting of the Secretary to GM (Engineering/Facilities) without prior approval of Establishment Division and non-appointment since long was held unjustified and irregular.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 09, 2024. The management informed the DAC that EPZA had requested several times and sent different requisition of cadre officer for the posting as new. However, EPZA had recently forwarded the requisition of Mr. Ghulam Yaseen Sanghro and MOI&P had forwarded the same requisition to the Establishment Division vide letter dt. 02-01-2024 for the deputation of Mr. Ghulam Yaseen Sanghro at the disposal of EPZA. DAC directed the management provide the relevant record to Audit for verification.

Audit recommends implementation of the DAC directives.

9.1.4.21 Non-finalization of annual accounts

According to AGP letter dated August 02, 2007, the compliance of PAC directives be made by PAO in letter & spirit. The accounts should be prepared. The preparation of accounts is mandatory requirement and it could not be condoned by any authority forum.

During audit of Export Processing Zones Authority (EPZA), Karachi for the year 2022-23, it was observed that the annual accounts for the years 2010-11 to 2022-23 have not been prepared.

Audit is of the view that the management failed to finalize the accounts.

The matter was reported to the management in November, 2023. The irregularity was discussed in the DAC meeting held on January 09, 2024. The management informed the DAC that Authority has prepared and audited its annual accounts up to the financial year 2017-18 and the same have been approved by the EPZA BoD. And annual accounts of FY 2018-19 have been audited and waiting for final reports from CA Firm, the field audit of FY: 2019-20 is in progress. the Authority has prepared / drafted its annual accounts up to 2022-23 and the previous draft accounts up to FY: 2021-22 along with annual returns were submitted to Government Audit. After completion of audit and approval of annual accounts of the remaining period from BoD, the same will be furnished to Ministry of Industries & Production and Government Commercial Audit & Evaluation. The DAC directed the management for early finalization of all pending Authority's annual accounts and submit audited/finalized duly approved annual accounts within 03 months to Audit.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year(s) 2022-23 vide para(s) number 9.1.4.18 having financial impact. Recurrence of same irregularity is a matter of serious concern.

9.2 Pakistan Industrial Development Corporation

9.2.1 Introduction

Pakistan Industrial Development Corporation (Private) Limited (PIDC) was incorporated on January 01, 1985 under the Companies Ordinance 1984, now the Company's Act 2017. Pursuant to an order of Federal Government, the business, project properties and all the shares held by ex-Pakistan Industrial Development Corporation in the capital of the managed companies and subsidiaries were transferred from April 01, 1985. The primary aim of establishment of PIDC was to set up industries in such fields where the private sector was shy and where large amount of capital outlay with long gestation period was required. Secondly, the object was to set up industries in such areas, which were backward with a view to creating employment opportunities and removal of regional disparities.

9.2.2 Comments on Audited Accounts

9.2.2.1 The working results of the Corporation for the year ended June 30, 2022 as compared with those of the previous years are given as follows:

(Rs.in million)					
Particulars	2021-22	% Inc /(dec)	2020-21	% Inc/Dec	2019-20
Administrative expenses	356.23	63.7	217.63	9.8	198.19
Investment properties	128.40	(65.1)	367.39	3.8	354.01
Cash and bank balance	44.25	(35.0)	68.10	(80.9)	356.72
Unrealized gain on investment	1,893.49	(23.7)	2,480.43	(8.9)	2,722.24
Retention money payable	67.38	-	-	-	-
Trade and other payables	1,003.64	57.9	635.50	229.6	192.78
Advances from customers	4,321.74	-	-	-	-

(Source: Annual Audited Accounts)

9.2.2.2 Administrative expenses increased significantly by 63.7% from Rs 217.63 million in year 2021 to Rs 356.230 million in 2022 due to significant increase in salaries, wages, utilities, janitorial and security services.

9.2.2.3 Investment properties have drastically decreased by 65.1% from Rs 367.39 million in year 2021 to Rs.128.40 million in 2022 mainly due to transfer of land of Rs. 201.196 million during the year,

9.2.2.4 Cash and bank balance decreased by 35% from Rs. 68.10 million in 2021 to Rs 44.25 million in 2022 owing to significant decline in cash balance in saving accounts of banks.

9.2.2.5 Unrealized gain on investment decreased by 23.7% to Rs 1,893.49 million during the 2022 from Rs 2,480.430 million in 2021 due to decline in fair value of various investments.

9.2.2.6 Trade and other payables increased significantly by 57.9% during year under review to Rs 1,003.64 million from Rs.635.50 million in previous year due to increase in payables to provincial governments.

9.2.2.7 Current ratio of the company has deteriorated during the year due to charging of advances from customers.

9.2.2.8 Debt ratio of the company has declined during the year owing to significant increase in liabilities i.e. deferred government grant, trade payables and advances from customers.

9.2.2.9 Debt to Equity ratio of the company has degraded during the year on account of charging advances from customers and increase in trade payables.

9.2.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	%age of compliance
1994-95	74	71	3	67, 69, 70	96%
1997-98	74	73	1	180	99%
1998-99	20	17	3	137,138,141	85%
2006-07	5	4	1	94	80%
2008-09	4	3	1	104	75%
2013-14	4	1	3	8.1.2.1, 8.1.2.2, 8.1.3	25%
2015-16	8	1	7	8.2.4.1, 8.2.2.1, 8.2.2.2, 8.2.2.3, 8.2.2.4, 8.2.3, 8.2.4.2	13%

2019-20	4	2	2	7.2.4.1, 7.2.4.2,	50%
Total	199	178	21		89%

The overall compliance of PAC directives needed improvement.

9.2.4 Audit Paras

9.2.4.1 Non-utilization of industrial plots / land – Rs 8,789.000 million

As per clause 5 (b) and (c) of the Terms & Conditions binding on the applicant applying for the plot at Industrial Parks, the construction shall be completed within 18 months from the date of execution of agreement to sell and the project shall be completed in 24 months from the date of execution of agreement to sell.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that management allotted land since 2010-2021 for establishment of different industrial units. However, following 355 acres remained idle/unutilized since allotment as detailed below:

(Area in Acres)					
Name of Industrial Park	Total Area	No. of Allottees	Allotted Area	Operational plots	Idle plots
BQIP	930	42	408	199	209
KCIP	250	131	134	42	92
RIP	215	21	54	Nil	54
Total	1395	194	596	242	355

Audit is of the view that non-utilization of land reflects negligence and slackness on the part of the management.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that the primary responsibility of the Developer is the provision of infrastructure in the industrial parks, which is being adequately discharged by PIDC. However, the investment by industrialists is dependent on many other factors as well, including government industrial policies, tax regime, and overall economic environment etc. which are generally beyond the Developer's control. The DAC directed the management to get the progress verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.2 Non-execution of license agreement with allottees – Rs.5,775.095 million (268.280 Acres)

Clause 4.14 of the Terms & Conditions for plot of land at Bin Qasim Industrial Park (BQIP - Special Economic Zone states that after approval of the Building Plan, the Allottee shall thereafter be granted a License Agreement.

Clause 4.15 states that the License Agreement entered into will permit entry on the Plot and the commencement of construction of the Project. The Allottee and Pakistan Steel shall execute a License Agreement on a prescribe form.

During audit of Pakistan Industrial Development Corporation (PIDC) for the year 2021-22, it was observed that the management sold land to allottees of Bin Qasim Industrial Park (BQIP) and out of total sold land 268.280 Acres (Rs.5,775.095 million) consisting of 21 units/ projects are operational / under construction. According to terms and conditions plot of land, after approval of Building Plan, the allottees were required to be granted a License Agreement, this agreement permit to the allottee for entry on the Plot and commencement of construction of the Project. It was observed that 09 units are operational and 12 units are under construction. However, contrary to the above the PIDC/ PSM did not execute License Agreement with allottees despite the complete construction of plots (Annex-59).

Audit is of the view that management failed to execute the license agreement with allottees in violation of terms and conditions besides permitted the entry on the plots and also permitted for construction of Project without Agreement. This reflects weak internal controls and poor project management.

The matter was reported to the management in June 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. The management informed that now the project is being governed under the provisions of the Special Economic Act, 2012 which do not envisage a license agreement as such. The management further informed that the essential terms and conditions are contained in the allotment letters and approval letter of building plans. DAC directed the management to provide relevant record for verification.

Audit recommends implementation of the DAC directives.

9.2.4.3 Escalation of cost due to inordinate delay in completion of grid construction project - Rs.3,406.997 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that M/s NIP would enter into a separate O&M arrangement with KE as per practice to construct the Grid as a Sponsored Dedicated Distribution System (SDDS). M/s KE would be responsible to build and operate the project and charge NEPRA approved tariff from end-customers. The work would be performed by KE through an EPC contractor. Execution will commence in the financial year 2019-20 and will be completed in 2022-23. Original PC-I pertaining to “Construction of 132 KV Grid at BQIP” was approved in June, 2020 amounting to Rs 1,493.081 million including PKR 962.069 million.

However, due to recurring delays in the tendering process, the PC-I was revised two more times and finally the contract was awarded to M/s Barqtron for Rs 3,406.997 million instead of M/s K.E on June 23, 2022 with date of commencement July 07, 2022 and completion date October 06, 2023. The estimated completion period was 15 months, however as of June, 2023 less than 10% of the work was completed. The total cost now stands at Rs 5,087.661 million (USD @ Rs.286.510), the cost has increased by Rs 1,680.664 million in just over a year's time as on 30.06.2023 which reflected that the cost was increased up to 240% as compared to the original estimate.

Audit is of the view that the management took the matter upon itself to execute the project which led to delays and escalation of the cost of project despite having K-Electric who was an integral partner of NIP. Further, inordinate delay in completion of the project caused significant increase in cost of the project which reflected improper planning and weak financial management. Moreover, release of payment prior to signing of contract and services rendered was unjustified.

The matter was reported to the management in June, 2023. The matter was discussed in the DAC meeting held on December 13, 2023.

- A. The management informed the DAC that the preliminary process for the import of material and civil work is in progress. About 70% of the project cost pertains to imported plant & Machinery. However, procurement of foreign equipment was delayed due to government-imposed restrictions on the opening of foreign LCs by the contractor. In view of the above circumstances, the extension of time till June 30th 2024 has already been granted to the contractor by the Secretary Industries being the competent authority.
- B. The management informed the DAC that it is a PSDP project and, therefore, was deliberated in detail at the Ministry, and Planning Commission along with rationale justifications before approval. K-Electric put forth untenable demands which they were insisting on since the beginning and due to which the delay was caused in the first instance as well. It may be noted that the revised PC-I was prepared by the consultant and duly endorsed by the Ministry and then approved by the CDWP at a cost of Rs.3601.304m.
- C. The management informed the DAC that due process was followed at every stage and no irregularity has been done. M/s. Barqtron is the lead firm or bidder and M/s. Fast Cables is a joint venture (JV) partner of M/s. Barqtron. The advertisement clearly states that "The bidder/lead partner or main Contractor of Joint venture (JV) shall be an approved Contractor(s) of K-Electric for the past at least 03 years". The contract was awarded to M/s. Barqtron-Fast (Pvt) Ltd in June 2022 at a cost of Rs.3406m (not Rs.5000m). M/s. Barqtron was also registered in SECP in 2018. JVs are specific to a project and are normally registered after award, and at the time of bidding only a mutual JV agreement is submitted. The confusion regarding release of funds before signing of contract is apparently due to the dates on cheque which was 21.06.22 as the cheques were prepared in advance due to shortage of time, but handed over only after the verification of bank guarantee on 24.06.22. Partial network has already laid down to cater for the need of existing operation industries. The rest will be executed in accordance with colonization of the park. Power purchase

agreement and O&M agreement with KE, will be carried out in due course and is not mandatory at this stage.

The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

(DP No. 354, 359, 360 , 362 & 413)

9.2.4.4 Non-construction & operationalizing of Projects by allottees within specified period – Rs. 1,843.210 million

Clause 5.1 of the Terms & Conditions for plot of land at Bin Qasim Industrial Park/ Korangi Creek Industrial Park- Special Economic Zone states that the Project shall be completed in all respects and commissioned into operation within twenty-four (24) months from the date of execution of the License Agreement. The Project shall be deemed to be completed in terms of the above as and when PIDC approved of work done and issue a Certificate of Completion in respect of the Project to the Allottee/ Occupant of the allotted Plot of land.

Clause 5.2 states that should Project not be completed in twenty-four (24) months and a Certificate of Completion is not granted, the License Agreement may at the discretion of PIDC/ Pakistan Steel stand cancelled.

Clause 7.8 states that failure of the Applicant/ Allottee to meet the timelines provided for herein in respect of the payment schedule/ submission of building plan/ operation / construction may result in cancellation of the allotment /license/lease as the case may be and subsequent repossession of the plot of land by Pakistan Steel/ PIDC upon a refund of 90% of the amount paid to both Pakistan Steel and PIDC by the Applicant/ Allottee, without mark-up, after 90 days of such cancellation / repossession.

During audit of Pakistan Industrial Development Corporation (PIDC) for the year 2021-22, it was observed that management sold the land at Bin Qasim Industrial Park, Karachi to the allottees (Annex-60). According to above rules, the allottees were required to complete the Projects in all respects and commissioned into operation within twenty-four (24) months. In case of failure to complete the projects within 24 months License Agreement and allotment may be cancelled and subsequent repossess the plots from the allottees upon refund of 90% of the amount paid. However, the allottees did not complete and operationalize the projects within 24 months in violation of above terms & conditions. The management neither cancel the License Agreement/ allotment of plots nor imposed any penalty on account of delayed construction of projects:

Audit is of the view that management failed to take any action against the allottees who failed to construct/ operationalize the Projects within 24 months' period and also failed to impose penalty on account of delayed construction. This shows weak controls and undue favour to the allottees.

The matter was reported to the management in June 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. DAC directed the management to make all out efforts for early construction and operationalizing of industry and intimate the progress to Audit.

Audit recommends implementation of the DAC directives.

9.2.4.5 Irregular splitting and pooling of various items by the bidders – Rs 1,678.637 million

Rule 26(3) of PPRA 2004, states that the procuring agency shall ordinarily be under an obligation to process and evaluate the bid within the stipulated bid validity period. However, under exceptional circumstances and for reason to be recorded in writing, if an extension is considered necessary, all those who have submitted their bids shall be asked to extend their respective bid validity period. Such extension shall be for not more than the period equal to the period of the original bid validity.

Further, Rule 26 (4) (a) of PPRA 2004, states that bidders who agree to extension of their bid validity period shall also extend the validity of the bid bond or security for the extended period of the bid validity.

Point No. VI of Mandatory requirements given in Evaluation Report states Completion certificate of at least 01 project of infrastructure in any industrial zone of minimum 800 acres land, Certificate of performance for at least 02 in hand projects of infrastructure in any industrial zone of at least 450 M PKR Value and Annual Turnover should be at least 1,000 million.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the contracts for Package VII was awarded to M/s Kazi Nisar at a cost of Rs.799.903 million and for Package VIII work to M/s Haji Syed Ameer at a cost of Rs.878.734 million for construction of Roads, Drainage Network, Under Ground Water Tank, Sewerage System, Electrical Sleeves, Road Lightning, Rescue Building, Boundary Wall and Watch Towers in Phase-III of BQIP. However, following irregularities were observed:

- i. M/s Kazi Nisar failed to fulfil any of the three mentioned mandatory requirements as per Evaluation Report.
- ii. Bid Securities for extended period were not obtained from both bidders and Pre-Qualification of Contractors was also not done.
- iii. The Original Advertisement was for a single contract requiring services of a single construction firm, and didn't mention division of work in Packages VII & VIII.
- iv. A Corrigendum was published on December 17, 2021 just 04 days before original date of bid opening i.e. December 24, 2021 which states that Scope will remain same but work is divided in two packages.

Audit is of the view that the management extended undue favor as both contractors failed to meet mandatory requirements of the bidding documents and without extension of bid validity in violation of rules. Thus, contracts, amounting to Rs. 1,678.637 million stands irregular and unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in DAC meeting held on December 13, 2023.

- A. The management informed the DAC that the bid evaluation was duly conducted by the Consultant in which it was verified that M/s. KNA fulfilled all mandatory requirements as per RFP.

- B. The management informed the DAC that contracts for both the packages (VII & VIII) were awarded within extended bid validity period after vacation of Sindh High Court stay order.
- C. The management informed the DAC that it was decided to divide the work in two packages which is a normal practice. Its comparison with Sargodha Park (SIP) is not valid as SIP is hardly 10% of the size the BQIP. Contractors met all the mandatory criteria and other requirements. No irregularity has been committed in the award.

The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

(DP NO. 347 & 350)

9.2.4.6 Award of contract against eligibility criteria – Rs.1,678.637 million

Rule 26(3) of PPRA 2004, states that the procuring agency shall ordinarily be under an obligation to process and evaluate the bid within the stipulated bid validity period. However, under exceptional circumstances and for reason to be recorded in writing, if an extension is considered necessary, all those who have submitted their bids shall be asked to extend their respective bid validity period. Such extension shall be for not more than the period equal to the period of the original bid validity.

Further, Rule 26 (4) (a) of PPRA 2004, states that bidders who agree to extension of their bid validity period shall also extend the validity of the bid bond or security for the extended period of the bid validity.

Point No. VI of Mandatory requirements given in Evaluation Report states Completion certificate of at least 01 project of infrastructure in any industrial zone of minimum 800 acres land, Certificate of performance for at least 02 in hand projects of infrastructure in any industrial zone of at least 450 M PKR Value and Annual Turnover should be at least 1,000 million.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the contracts for Package VII was awarded to M/s Kazi Nisar at a cost of Rs.799.903 million and for Package VIII work to M/s Haji Syed Ameer at a cost of Rs.878.734 million for construction of Roads, Drainage Network, Under Ground Water Tank, Sewerage System, Electrical Sleeves, Road Lightning, Rescue Building, Boundary Wall and Watch Towers in Phase-III of BQIP. However, following irregularities were observed:

- i. M/s Kazi Nisar failed to fulfil any of the three mentioned mandatory requirements as per Evaluation Report.
- ii. Bid Securities for extended period were not obtained from both bidders and Pre-Qualification of Contractors was also not done.
- iii. The Original Advertisement was for a single contract requiring services of a single construction firm, and didn't mention division of work in Packages VII & VIII.
- iv. A Corrigendum was published on December 17, 2021 just 04 days before original date of bid opening i.e. December 24, 2021 which states that Scope will remain same but work is divided in two packages.

Audit is of the view that the management extended undue favor as both contractors failed to meet mandatory requirements of the bidding documents and without extension of bid validity in violation of rules. Thus, contracts, amounting to Rs. 1,678.637 million stands irregular and unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in DAC meeting held on December 13, 2023.

- A. The management informed the DAC that the bid evaluation was duly conducted by the Consultant in which it was verified that M/s. KNA fulfilled all mandatory requirements as per RFP.
- B. The management informed the DAC that contracts for both the packages (VII & VIII) were awarded within extended bid validity period after vacation of Sindh High Court stay order.
- C. The management informed the DAC that it was decided to divide the work in two packages which is a normal practice. Its comparison with Sargodha Park (SIP) is not valid as SIP is hardly 10% of the size the BQIP. Contractors met all the mandatory criteria and other requirements. No irregularity has been committed in the award.

The DAC directed the management to get the record verified from Audit.

Audit recommends investigation of the matter.

(DP No. 377, 406, 421)

9.2.4.7 Non-completion of infrastructure developments works – Rs 1,192.970 million

As per clause 2.1 of the agreement for Development and Management of Industrial Park on 13th July 2007 between Pakistan Steel Mills Corporation (Private) Limited and National Industrial Park Development and Management Company, NIP shall at its sole cost and expense and on the terms and conditions contained herein; (i) within a period of ten years from the date of this agreement develop, establish, cause to be constructed and completed an industrial park on the land and all related infrastructure and facilities (including permanent structures) for the purpose of the operation of an industrial park on the land.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that an agreement was signed between PSM and NIP on dated 13th July, 2007 and 930 acres of land, located at Deh Pipri, Bin Qasim Town, Karachi, was handed over by the Pakistan Steel Mills to National Industrial Park Development & Management Company (NIP) for rapid industrialization by establishing/developing new industrial estates and/or industrial parks. Project was to be developed/completed by July 2017 as per agreement between PSM & NIP. However, it was observed that infrastructure development has not yet been completed even after lapse of 16 plus years and an expenditure of Rs 1,192.970 million. It was further observed that out of 717 acres of saleable area, 408 acres were allotted to 42 allottees and since 2013, only 09 allottees (199 acres) had started operations after completing construction, rest of the plots on 208.984 acres' area remain unutilized till date.

Audit is of the view that non-development of infrastructure and committed facilities, despite incurring huge cost of Rs 1,192.970 million indicates poor planning and mis-management.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that the project had to be developed in 03 (three) phases and the last phase infrastructure development in underway, to be completed by June 2024. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.8 Non-submission of building plans by investors for construction of plots – Rs.602.528 million (132.764 Acres)

Clause 4.12/5.12 of Terms & Conditions for plot of land at Bin Qasim Industrial Park (BQIP)/ Korangi Creek Industrial Park- Special Economic Zone states that the allottees shall submit Building Plans / Drawings of the Project to PIDC for approval within 03 months from the issuance of the Site Plan.

Clause 7.8 / 8.17 states that failure of the Applicant/ Allottee to meet the timelines provided for herein in respect of the payment schedule/ submission of building plan/ operation / construction may result in cancellation of the allotment /license/lease as the case may be and subsequent repossession of the plot of land by Pakistan Steel/ PIDC upon a refund of 90% of the amount paid to both Pakistan Steel and PIDC by the Applicant/ Allottee, without mark-up, after 90 days of such cancellation / repossession.

Clause 4.16 states that in case payment of dues/ submission of Building Plans/ Drawings is not made as specified or such extended period at PIDC's discretion, the Provisional Allotment Letter shall stand cancelled.

During audit of Pakistan Industrial Development Corporation (PIDC) for the year 2021-22, it was observed that the allottees of the plots at Bin Qasim Industrial Park (BQIP) and Korangi Creek Industrial Park (KCIP) failed to submit building plans for construction of industrial units within 03 months from issuance Site Plans. In case of failure to meet the timelines, management was required to cancel the allotment and subsequent repossession of the plots besides deduction of 10% of total amount paid as penalty (Annex-61).

Audit is of the view that management did not pursue the matter as per terms and condition for allotment of plots which resulted into non cancellation of plots and non-recovery of 10% penalty amounting to Rs 602.528 million (Rs 6,025.283 million*10% = Rs.602.528 million). This reflects weak internal control and poor performance on the part of management.

The matter was reported to the management in June 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. DAC directed the management to vigorously pursue the allottees for early submission of building plans and construction of projects.

Audit recommends implementation of the DAC directives.

9.2.4.9 Award and execution of various consultancy works with irregularities - Rs.558.037 million

Rule 4 of PPRA, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule 20 of PPRA, 2004 states that save as otherwise provide hereinafter, the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the management awarded various contracts with multiple irregularities in award and execution (Annex-62).

Audit is of the view that irregular award and execution of various works compromised level-playing field to the competitors and value for money to the company.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that the consultants were hired as per the relevant PPRA rules. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.10 Unjustified variation in subsequent bid Rs. 446.70 million

Rule 04 of PPRA Rules 2004 states that the procuring agencies while engaging in procurement, shall ensure that the procurement are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule 26 (1) and (2) of PPRA, 2004 states that a procuring agency, keeping in view the nature of the procurement, shall subject the bid to a bid validity period and bids shall be valid for the period of time specified in the bidding document. Furthermore, Article 14.1 of the Bidding Documents states that the validity of bid is 90 days.

During audit on the accounts of the Pakistan Industrial Development Corporation (PIDC) Head Office Karachi, for the year 2021-22, it was observed that Contract for “Construction of 132 KV Grid at BQIP” was awarded to M/s Barqtron for an amount of PKR 3,406.997 (million). Moreover, the consultancy contract was awarded to M/s Barqaab on 23.07.2021 at a cost of 22.600 million with the agreement signed on 20.08.2021. M/s Barqaab then prepared following two estimates, first was prepared before 1st tender and 2nd was prepared after the opening of 2nd tender, as under:

S#	Project Estimate Date	Project Estimates (million)	Remarks
1	11.11.2021	3,030.549	Estimate prepared before opening of 1 st Tender
2	02.03.2022	3,601.304	Estimate prepared after opening of 2nd Tender

The consultant prepared 1st engineering estimate of 3,030.549 million for the Construction of 132 KV Grid at BQIP on 11.11.2021 based on which bids from the contractors were invited and the lowest bid received from M/s Barqtron-Fast JV was PKR. 2,960.30 (million) on 31.12.2021 which was in line with the engineering estimate and had bid validity period of 120 days. However, instead of accepting the said bid, revised tender was issued almost immediately without any fresh estimate. In the 2nd tender, the same firm M/s Barqtron-Fast JV submitted a bid of PKR 3,406.997 (million), 446 million higher than their first bid of PKR. 2,960.30 (million) submitted just 45 days earlier in the 1st tender, this resulted into a loss of 446.7 million for the corporation. Detail of bids submitted by M/s Barqtron-Fast JV:

S.#	Item	Date of Bid	Bidder	Total (million)
1	1 st Bid	31-12-2021	M/s Barqtron	2,960.30
2	2 nd Bid	05-02-2022	M/s Barqtron	3,407.00
3			Difference	446.70

Audit is of the view that enhancement of estimates in second bid was unjustified and irregular.

The matter was reported to the management in June, 2023.

The irregularity was discussed in DAC meeting held on December 14, 2023. The management informed the DAC that it is a PSDP project and, therefore, was deliberated in detail at the Ministry, and Planning Commission along with rationale justifications before approval. The cost was verified by the Ministry directly with KE who vide letter dated 01.03.2022 addressed to the Additional Secretary -I, quoted a Rs.4228 m which was significantly higher than the lowest bid of Rs.3406m. It may be noted that the revised PC-I was prepared by the consultant and duly endorsed by the Ministry and then approved by the CDWP at a cost of Rs.3601.304m. The DAC directed to conduct fact finding inquiry at Ministry level to ascertain: i. whether tendering was as per PPRA ii. Whether results were appraised to the MoI&P iii. Whether final tendering results were also disclosed and made part of the revised PC-I which was approved by the CDWP.

Audit recommends implementation of DAC directives.

9.2.4.11 Irregular Hiring of Consultant for Feasibility Study of Karachi Industrial Park– Rs.430.702 million

Rule 4 of PPRA, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule 42-C of PPRA states that, a procuring agency shall only engage in direct contracting if the following conditions exist, namely: - (i) the procurement concerns the acquisition of spare parts or supplementary services from original manufacturer or supplier (ii) only one manufacturer or supplier exists for the required procurement: (iii) where a change of supplier would oblige the procuring agency to acquire

material having different technical specifications or characteristics and would result in incompatibility or disproportionate technical difficulties in operation and maintenance: (iv) repeat orders not exceeding fifteen per cent of the original procurement; (v) in case of an emergency: (vi) when the price of goods, services or works is fixed by the government or any other authority, agency or body duly authorized by the Government, on its behalf; and (vii) for purchase of ***motor vehicle from local original manufacturers or their authorized agents at manufacturer's price.

During audit on the accounts of the Pakistan Industrial Development Corporation (PIDC) Head Office Karachi, for the year 2021-22, it was noted that M/s Surbana Jurong JV was awarded the contract for revised scope of work of "Preparation of Feasibility Study, PC-I, Detailed Designing & Construction Supervision of Karachi Industrial Park on 1500 acres of Pakistan Steel Mills Land" on June 07, 2022 at a cost of 430.702 million. Following irregularities were pointed out in the tendering process:

- i. Consultancy contract was awarded for various items of scope of work without approval of PC-1 whereas CDWP in its meeting held on June 04, 2021 had approved only Feasibility Study Component of the project.
- ii. Management cancelled the 1st bidding process and instead of fresh tender, revised RFPs having amended Scope of Work & Eligibility/Selection Criteria were shared with M/s Surbana Jurong & M/s Nespak.
- iii. Revised eligibility criteria were formed to suit the experience of M/s Surbana wherein more focus was put on intentional projects. This was to the disadvantage of other firms.
- iv. M/s Surbana failed to submit Completion Certificates in couple of Projects but was still declared technically qualified.
- v. The first financial bid of M/s Nespak was lower than that of M/s Surbana JV, the latter was technically unqualified due to non-meeting of multiple mandatory requirements.
- vi. Response time of 30 days for international tender was not given in both the bids.
- vii. The weightage given to Quality of 80% was higher than the usual limit of 70%, the weightage for cost should have been 30%.

S.#	Description	1st Bid Dec 2021	
		M/s Nespak	M/s Surbana Jurong
1	Bid Amount	531,434,385	589,607,783
2	Technical Marks	90.33	96.833

Audit is of the view that the management extended undue favour to M/s Surbana Jurong by setting tailor-made eligibility criteria which discouraged other competition and awarded it the contract despite of the firm not even meeting the mandatory technical criteria. The eligibility criteria were changed to restrict competition, and the scope of work was reduced to bring the bid of M/s Surbana in line or close to the figure of 400 million. The scope of work was, however, still too big and too complex to be included in just one tender.

The matter was reported to the management in June, 2023. The irregularity was discussed in DAC meeting held on December 13, 2023. The management informed the DAC that the overall lowest cost of the tender determines the successful bidder and not the individual cost elements. After pre-qualification, RFP was issued to prequalified parties in Dec 2022 and the bidders were invited to submit sealed technical and financial proposals. However, due to the higher bid significantly exceeding the project approved amount, some elements of the initial RFP were removed and fresh bidding was held again in February 2022 under revised scope. The DAC directed the management to conduct a fact-finding inquiry at Ministry level.

Audit recommends implementation of the DAC directives.

9.2.4.12 Irregular award of consultancy work - Rs.430.702 million

Rule 4 of PPRA, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the management awarded the contract for revised scope of work of "Preparation of Feasibility Study, PC-I, Detailed Designing & Construction Supervision of Karachi Industrial Park on 1500 acres of Pakistan Steel Mills Land" on June 07, 2022 at a cost of Rs.430.702 million to the Joint Venture of M/s Surbana Jurong (Lead Firm), M/s EA Consulting (JV Partner), M/s OMS (JV Partner) and M/s International Consulting Associates (JV Partner).

Following irregularities were observed:

- i. Despite a Grid already under construction in BQIP, the management unnecessarily included "Construction Supervision of Grid" in the scope of work.
- ii. The award of contract at Rs.430.702 million instead of CDWP approved cost of Rs.400 million.
- iii. Most of the employees shown in bidding documents submitted by M/s Surbana as theirs were actually employees of M/s SMEC or M/s Engineering General Consultants.
- iv. There is variation in data of employees submitted by M/s Surbana in 1st and 2nd proposal, the CVs submitted in the first proposal with undertaking are completely different in the second.
- v. M/s Surbana Jurong Private Ltd was formed in June 2015, however most of the projects given in the technical bid of the firm date back to the period before 2015.
- vi. It has been stated in the documents that M/s Surbana has worked as External Associate Consultant with M/s ESCP on the Quaid-e-Azam Apparel Park (QAAP) Project from 2017-18 (later renamed as QABP), however no such evidence was available.
- vii. As per the technical bidding documents, M/s Surbana did not have any experience of working in Pakistan on any industrial park of 1,000 acre or above independently.
- viii. No PEC, NTN, SRB and FBR registration and NOC from Ministry of Interior was available.
- ix. Signing of contract was done before verification of performance guarantee. Payment Cheques issued before submission of invoices and approval for payments was given after 2, 3 days. Advance Payment Guarantee and Performance Security Bonds were verified after the cheques had been issued.

Audit is of the view that the management extended an undue favor to the bidder which reflected poor internal controls.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13, 2023.

- A. The management informed the DAC that the design and construction supervision of Grid is an integral part of the project as utilities have to be provided at the time of allotment of developed industrial plots. BQIP is a separate project and its Grid would cater to its own long-term electricity needs, and a separate Grid for KIP is essentially required to be constructed within time.
- B. The management informed the DAC that CDWP approved the amount of Rs. 400 million for the consulting work. However, in the second round of bidding on 14.02.2022 the successful bid received was Rs.430.702m which is well within 15% variation.

C. The management informed the DAC that M/s Surbana Jurong (SJ) submitted PEC certificate of pre-registration at the time of pre-qualification and subsequently, SJ also submitted PEC certificate of registration after the award of the contract. SJ has submitted the evidence of registration with FBR, whereas SRB registration was also done accordingly after the signing of the contract. The firm is registered with SECP. Although the cheques have been issued, however, SJ got registered with SRB before clearance of the cheques. PEC issues certificates to foreign firms on project basis. In order to avoid the amount having lapsed, the guarantee was verified after handing over the cheques.

The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.13 Irregular award of contract to a foreign company without NOC – Rs.430.702 million

According to para 6(2) of PEC Consulting Byelaws Relevant to Registration of a Foreign Consulting Engineer; Foreign firms of consulting engineers shall get themselves registered as consulting engineers for specified projects which need expertise and specialized knowledge not available with Pakistani consulting engineers, shall join an association or joint venture with a Pakistani consulting engineer and in such an association or joint venture, the services to be rendered by the foreign firm of consulting engineer shall be limited to the expertise and knowledge not available with any Pakistani consulting engineer:

According to SECP's Rule 5 (1), 6(1), & 6(3) of Foreign Companies Regulations, 2018, every foreign company shall deliver the information and documents as mentioned in section 435 of the Act to the registrar as per Fnc. Form-II along with payment of fee. On registration of documents of a foreign company as filed under regulation 5, the registrar shall issue a certificate of registration of documents as per Fnc. Annexure-III. Subsequent to registration of documents, a foreign company shall be bound to obtain all necessary approvals from relevant authorities as per applicable laws.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the management awarded the contract for Preparation of Feasibility Study, PC-I, Detailed Designing & Construction Supervision of Karachi Industrial Park (KIP) on 1,500 acres of Pakistan Steel Mills Land on June 07, 2022 at a cost of Rs.430.702 million to M/s Surbana Jurong-JV. The firm was provisionally registered with SECP in 2018 as it was a Singapore based company which required to get clearance from Ministry of Interior before the start of business in Pakistan. The firm did not obtain a regular PEC certificate but had obtained a special PEC certificate for the KIP project only. Whereas, there was already sufficient knowledge and expertise available in Pakistan.

Audit is of the view that M/s Surbana Jurong did not have a requisite clearance from Ministry of interior and had obtained a project only PEC Certificate despite existence of such expertise already in Pakistan which was unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13, 2023.

- A. The management informed the DAC that Surbana Jurong is properly registered with SECP since 2018 to operate in Pakistan after fulfilling all due legal formalities under Section 435 of Companies Act 2017, and working on numerous projects.
- B. The management informed the DAC that the ‘1000-acre project in Pakistan’ was not the required criteria for the selection of a Project Consultant for Karachi Industrial Park (KIP). On the other hand, Surbana Jurong is a Singapore government-owned internationally renowned organization and has designed several large and successful parks in the regional countries including, China, India, Vietnam, Singapore, Indonesia etc. Secondly, the procurement of Project Consultancy services for KIP was processed as per PPRA rules through an open competitive bidding process. The bid award results were published on the PPRA website as per rules and no objection was raised by any party.

The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

(DP No. 378 & 383)

9.2.4.14 Irregular award of Contract at higher than BOQ rates – Rs.372.780 million

Rule 4 of PPRA, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the contract for Package VIII-BQIP Phase-III (Phase-III) was awarded to M/s Haji Syed Ameer at a cost of Rs.878.734 million for construction of Roads, Drainage Network, Water Supply Distribution Network, Sewerage Systems, Electrical Sleeves, and Road Lightning without taking into account the BOQ estimates. The detail is hereunder:

S#	Description	BOQ (Rs)	Bid Amount (Rs)	Excess	%	Remarks
1	Road Works	522,263,222	652,157,486	129,894,264	24.87	*No mention of Box Culvert in BOQ Phase VIII
2	Drainage Network	3,655,617	4,884,285	1,228,668	33.61	
3	Water Supply Network	34,121,008	49,137,805	15,016,797	44.01	*Price for Box Culvert has been added by M/s HSAB in the Bid
4	Electrical Sleeves	19,282,505	23,987,355	4,704,850	24.39	
5	Road Lighting	53,975,091	75,568,335	21,593,244	40.00	
	Total	633,297,443	805,735,266	172,437,823	27.22	

It was further observed that M/s Kazi Nisar was awarded contract of Package VII in BQIP development works at a cost of Rs.799.903 million for construction of Roads, Drainage Network, Under

Ground Water Tank, Sewerage System, Electrical Sleeves, Road Lightning, Rescue Building, Boundary Wall and Watch Towers without taking into account the BOQ estimates. The detail is hereunder;

Amount in Rs.						
S#	Item Description	BOQ	Bid Amount	Excess	%	Remarks
1	Road Works	122,219,694	157,877,948	35,658,254	29.17	*BOQ quantities are less 15% premium given on schedule items
2	Drainage Network	345,476	700,708	355,232	102.82	
3	Under Ground Water Tank	214,171,413	261,696,441	47,525,028	22.19	
4	Sewerage System	58,145,495	108,811,050	50,665,555	87.13	
5	Electrical Sleeves	3,136,782	6,158,400	3,021,618	96.32	
6	Road Lighting	12,457,148	16,807,913	4,350,765	34.92	*15% premium on similar schedule items was not given in Package VIII opened on the same day
7	Rescue Building	56,442,472	73,929,773	17,487,301	30.98	
8	Boundary Wall	64,698,019	85,054,546	20,356,527	31.46	
9	Watch Tower	4,289,099	7,756,586	3,467,487	80.84	
Total		535,905,598	718,793,365	182,887,767	34.12	

Audit is of the view that award of work at significant higher cost compared to the BOQ cost estimates was unjustified. The BoQs were not prepared on the basis of Government issued Composite Schedule of Rates (CSR). Thus, contracts amounting to Rs.372.780 million stands irregular and unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023.

- A. The management informed the DAC that Audit has taken Engineering estimate as BOQ rate. Bid amount is only 9% higher than the Engineering estimate which is within normal variances. Box culvert was omitted in the engineering estimate but was added later at the time of tendering by the consultant.
- B. The management informed the DAC that the contract was awarded to M/s Kazi Nisar Ahmed & Co (KNA) as per the bid amount of Rs.799.9 million which is only 14% above the engineering estimate. It is also informed that the tender for Package VII & VIII are based on MES-2021 for scheduled items and the non-scheduled items. Additionally, for non-scheduled items, market rates apply, and a premium/ruling is only applied to the MES Schedule rate at 15% on both packages VII & VIII.

The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

(DP NO. 366 & 435)

9.2.4.15 Non-payment of Sales Tax by Contractors/Consultants - Rs.323.835 million

As per Rule 3(3) of the Sindh Sales Tax Special Procedure (Withholding) Rules, 2014, “A withholding agent, other than a person or a recipient of 3[the taxable] services covered by clause (f) of sub-rule (2) of rule 1, shall deduct an amount equal to one-fifth of the total amount of sales tax shown in the sales tax invoice issued by a registered person and shall make payment of the balance amount to service provider...”

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that an amount of Rs 2,405.000 million was paid to contractors in different projects from 2019-2022, however sales tax amounting to Rs.323.835 million was not deposited in government treasury. Details are as follows:

S#	Project	Contractor/Consultant	Amount Paid	PST 16%	SRB 13%
1	Package 1-BQIP	KNA & Shangrilla JV	509,764,941	-	66,269,442
2	Package 2-BQIP	Haji Syed Ameer and Bros	531,867,499	-	69,142,774
3	Package 3-BQIP	KNA & Shangrilla JV	143,817,510	-	18,696,276
4	Package 5-BQIP	Gul Construction	37,953,055	-	4,933,897
5	Package 6-BQIP	Gul Construction	25,927,929	-	3,370,630
6	Package 7-BQIP	KNA	79,990,301	-	10,398,739
7	Package 8-BQIP	Haji Syed Ameer and Bros	296,311,464	-	38,520,490
8	KIP Consultant	Surbana JV	101,092,285	-	13,141,997
9	132 KV Grid BQIP	Barqtron Fast JV	310,170,100	-	40,322,113
10	RIP Dev. Work	Ghousia Engineering	368,992,430	59,038,789	
	Sub-Total			59,038,789	264,796,361
	Grand Total		2,405,887,514	323,835,150	

Audit is of the view that non-deposit of tax amount is a loss to the exchequer.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that SRB vide SRO Number 3-4/7/2013 dt. June 18, 2013 specifically exempts Sales Tax on the construction and development of SEZ under sub-clause iv of tariff 9824.0000 and the same is still in effect and applicable to all SEZ projects of PIDC. The DAC directed the management to get the exemption verified from SRB and share the same with Audit.

Audit recommends implementation of the DAC directives.

(DP No 401 & 412)

9.2.4.16 Irregular award of contract to the highest bidder – Rs.300.995 million

Rule 04 of PPRA Rules,2004 states that the procuring agencies while engaging in procurement, shall ensure that the procurement are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical. Rule 27 states that due to any reason, the procuring agency finds it necessary to extend such deadline, it shall do so only after recording its reasons in writing and in an equal opportunity manner. Further, Rule 38 states that the bidder with the lowest evaluated bid shall be awarded the procurement contract within the original or extended period of bid validity.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that tenders/bids were called on 18-07-2012 for pre-qualification of contractors/firms for development of infrastructure works at Sargodha Industrial Park with bids submission

date 13-08-2012. In response, 47 firms submitted technical bids out of which 19 firms were prequalified. The responsive bidders submitted the financial bids as detailed below:

S.#	Name of Firm	Bid Amount (Rs)	Ranking
1	M/S R M Gulistan Engineers	315,971,027	5 th
2	M/S Shalimar Construction Co.	344,164,368	6 th
3	M/S Ch. A. Latif & Sons	278,975,898	3 rd
4	M/S Progressive Int.	297,072,240	4 th
5	M/S Tayyab Manzoor	269,847,910	1 st
6	M/S Kiazen-Staco	272,787,941	2 nd

Later on the management awarded the contract to M/s Ch. Abdul Latif & Sons (3rd lowest bidder) by ignoring the first lowest bidder i.e. M/s Tayyab Manzoor.

Audit is of the view that the management extended an undue favor to the bidder which reflects weak internal controls. Thus, contracts valuing Rs.300.995 million stands irregular and unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13, 2023.

- A. The management informed the DAC that extension of the date of bid submission has been done according to PPRA rules. On request from prequalified contractors, the financial bid submission date has been extended from 7th March 2013 to 22nd March, 2013. Later on, based on the pre-bid meeting (held on 18th March 2013), the financial bid submission date has been extended again from 22nd March 2013 to 12th April 2013. Secondly, please note that the tender has been issued as a whole for all works i.e., Construction of Rigid Pavement, Sewerage Network and Water Supply Distribution. Therefore, procuring agency is bound to award the contract as a whole to the lowest evaluated bidder as per the Least Cost Basis Method as specified in the advertisement.
- B. The management informed the DAC that as per the submitted financial bids M/s Tayyab Manzoor quoted the lowest bid. After arithmetic corrections and evaluation done by Project Consultant, the bid amount of Rs 278,975,898 has been found lowest which was submitted by M/s Ch. A. Latif & Son.

The DAC directed the management to conduct a fact-finding inquiry and share the report with Audit.

Audit recommends implementation of DAC directives.

(DP NO. 397 & 394)

9.2.4.17 Irregular renting out of properties without rent assessment and formation of SOPs - Rs.292.052 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Industrial Development Corporation (PIDC) for the year 2021-22, it was observed that management rented out its following properties having 339,296 Sq. Ft. along with 04 antenna space without rent assessment from property valuers / surveyors. The spaces are rented out to the tenants on mutual understanding, without any market survey Furthermore, management also did not have any SOPs / Policy for Estate Department so that properties owned by PIDC be rented out as per laid down policy.

(Rs. in million)				
S#	Name of Property	Are (Sq Ft)	Yearly	Rental
			Income	
1.	PIDC House	207,262		206.485
2.	Finance & Trade Center	32,283		41.946
3.	KPT Godowns	87,426		32.951
4.	Dalmia Space	6,000		10.670
5.	Progressive Plaza	6,325		
Total		339,296		292.052
Source: Financial Statements for the year ended 30 June 2022				

Audit is of the view that renting out of properties without rent assessment / lower than market rates and without SOPs shows undue favour to the tenants and in-efficient utilization of resources which resulted into loss of rental income.

The matter was reported to the management in June 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. The management explained that market rates cannot be charged to existing tenants and their rent is increased annually as per agreed terms and conditions. DAC directed the management to take up with the Board the possibility of adjusting property rents as per market rates and share the decision of with Audit.

Audit recommends implementation of the DAC directives.

9.2.4.18 Unjustified enhancement in length of roads - Rs.218.643 million

Rule 4 of PPRA, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the contract for Package VII-BQIP (Phase-III) was awarded to M/s Kazi Nisar at a cost of Rs 799.903 million and the contract for Package VIII-BQIP (Phase-III) was awarded to M/s Haji Syed Ameer at a cost of Rs 878.734 million. BOQs of both the packages reflected that a total of 7.34 Km of roads were to be constructed by the two contractors at an aggregate cost of Rs 938,142, 430 (with average cost per Km of Rs. 127,797,343). However, as per PM BQIP, the total length of roads to be constructed in Phase-III was 5.63 Km as detailed below:

Length Requirement (As per data by PM BQIP)	Length Added in BOQ	Difference	Excess (Based on Avg Cost/Km of Rs. 127,797,343)	%

5.63	7.34	1.7108602	218,643,390	23.30
------	------	-----------	-------------	-------

Audit is of the view that there was unjustified excess length of work amounting to Rs 218.643 million, which reflects weak monitoring and slackness.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that the assumptions in the PDP are not correct, no excess length is added. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.19 Payments without construction of road - Rs.173.437 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that Package I, in Phase-II of Bin Qasim Industrial Park (BQIP) development work in 2019, was awarded to M/s Kazi Nisar-Shangrilla JV at a total amount of Rs. 529.99 million for construction of Main Carriageway Road. As per BOQ, length of Road to be constructed was 4.3766 Km amounting to Rs. 529.99 million while only 2.77735 KM ($63.5\% = 2.77735/4.3766*100$) of the road could be constructed, and the contractor was paid a sum of Rs.509.764 million which was around 96% of the total contract amount. An excess amount of Rs. 173.437 million was paid to the contractor, as detailed below:

Length of Main Carriageway Road to be constructed as per BOQ Quantity of Asphalt Wearing Course	4.3766 Km
Total Cost of Contract for Construction of Main Carriageway Road	Rs.529,990,747
Cost per Km (529,990,747/4.3766)	Rs. 121,096,455
Length of Main Carriageway Road Actually Constructed as per PM BQIP	2.77735 Km
Cost of 2.77735 Km	Rs. 336,327,241
Total Payments to Contractor	Rs. 509,764,941
Excess Payments to Contractor	Rs.173,437,700

Audit is of the view that excess payment to the contractor was held unjustified and irregular.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that the road constructed in Package - I as per the site is 4.286 km and paid accordingly. Package - I actually saved funds, hence no excess payment is made to the contractor. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.20 Irregular / excess payment to the contractor – Rs.128.427 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the management awarded the contract for revised scope of work of 'Preparation of Feasibility Study, PC-I, Detailed Designing & Construction Supervision of Karachi Industrial Park on 1,500 acres of Pakistan Steel Mills Land' on June 07, 2022 at a cost of Rs.430.702 million to the Joint Venture of M/s Surbana Jurong (Lead Firm), M/s EA Consulting (JV Partner), M/s OMS (JV Partner) and M/s International Consulting Associates (JV Partner). However, the management made extra / irregular payments amounting to Rs.128.247 million as detailed below:

S#	Description	(Rs.in million)	Remarks
1.	Mobilization Advance	54.404	Excess Payments
2.	Civil Works	24.583	Wrongly booked in Civil Works instead of Consultancy Services
3.	Future Deliverables	49.260	Excess Payment

Total	128.247	
--------------	----------------	--

Audit is of the view that the excess payment of Rs.128.247 million reflects undue favor and weak financial management.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 14, 2023.

- a) The management informed the DAC that Rs. 27.248m advance was paid as per the contract for design stage / pre-construction activities. Subsequently, the Consultant was further paid secure advance of Rs 49.260 million in view to avoid lapse of funds. However, out of the total additional advance of Rs 49.260 million we have already recovered/adjusted Rs 48.256 million against deliverables and only Rs.1.0 million is to be adjusted. The DAC directed to conduct fact finding inquiry at Ministry level to verify: i. Whether PEC guidelines prohibit advances to consultants. ii. Whether advance was duly secured. iii. Whether due adjustment of advance was duly made after receiving contractual deliverables.
- b) The management informed the DAC that the said payment has been paid against pre-construction activities i.e., Draft PC-I and Feasibility and NOT against civil work.

The DAC directed the management to get verified the record with audit.

Audit recommends implementation of the DAC directives.

(DP No. 352, 353 & 416)

9.2.4.21 Non-utilization of building - Rs.115.234 million

Rule 5 (1) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its power and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the building of CFTMC Nausheroferoz which completed in the year 2021 for Rs 115,234,957 was required to impart skill training to unemployed youth in furniture and woodwork. However, the building was being used as Site Office for NFIP till date. No equipment till date was purchased nor anyone employed for training related activities. Further, the site is located right in the middle of agricultural lands and there is hardly any tree or wood available in the vicinity.

Audit is of the view that non-utilization of building despite expenditure reflected negligence and wastage of public money.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that the required land for setting up CFTMC NF was allocated by PIDC in the Noushero Feroze Industrial Park (NFIP) project along the Main National Highway. Subsequent to the initiation of construction, which concluded in 2021, FP was closed down and its assets/resources were handed over/merged into PIDC under the directives of

the Federal Cabinet. Consequently, FP's facilities were transferred to PIDC in November 2021. PIDC is now actively engaged in revitalizing FP projects in a phased manner, starting from Peshawar and Sargodha centers. The DAC directed the management to get the progress verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.22 Abnormal increase in boundary wall cost - Rs.85.054 million

Rule 4 (3) of the Public Sector Companies Corporate Governance Rules, 2013 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Act and these rules.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that M/s Kazi Nisar was awarded contract of Package VII in BQIP Phase-III development works at a cost of Rs.799.903 million for construction of Infrastructure works, Office Building, Rescue Building, Boundary Wall and Watch Towers. However, cost per meter for construction of Boundary Wall given to the same contractor was Rs 19,828 where out of 7,705 meters, only 6,255 meters were constructed. In this tender, the contract for construction of Boundary Wall is again awarded to the same contractor at a per Meter Cost of Rs 51,032.730 which is 157.4 % higher than the previous per meter cost given by same contractor. The difference in per meter cost is detailed below:

Amount in Rs	
Total Cost of Boundary Wall in Package VII Excluding Taxes	73,997,455
Boundary wall to be constructed (Meter)	1,450
Cost per m Package VII	51,032.73
Cost per m in Package III by the same contractor	19,828
Difference in per meter cost	31,204.7
Increase (%)	157.4

Audit is of the view that the management awarded the contract for construction of Boundary Wall at a per meter cost of Rs 51,032.73 which was 157.4 % higher than the previous per meter cost of Rs 19,828 which reflected negligence and weak internal controls.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that the Packages-I & Package-VII tender dates are October 2018 and December 2021 respectively. Over a period of 3 years the price variation has been very significant, therefore, the prices quoted cannot be compared. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.23 Loss due to procurement of land for industrial park at higher rates- Rs.73.600 million

Rule 04 of PPRA Rules 2004, the procuring agencies while engaging in procurement, shall ensure that the procurement are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

Rule-38 states that the bidder with the lowest evaluated bid shall be awarded the procurement contract within the original or extended period of bid validity.

Rule 40 of PPRA Rules 2004 states that there shall be no negotiations with the bidder having submitted the lowest evaluated bid or with any other bidder: Provided that the extent of negotiation permissible shall be subject to the regulations issued by the Authority.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that press advertisement for purchase of 100 acres of land was floated for establishment of Sargodha Industrial Park in newspapers dated April 10, 2012. Terms and conditions were as under:

- The land should be within 20 KM of Sargodha city.
- The land should be situated on main road with an appropriate approach.
- All the utilities like electricity, sweet water, telephone and other facilities should preferably be available.
- The bidder should be in possession of land and ownership documents.
- Receiving and opening of bids was 27th April, 2012.

In response of advisement following bidders submitted their per acre rates:

S.#	Name	Area (Acres)	Location	Bid Amount Per Acre	Distance from City	Sweet Water	Electricity
1	Zubair Bhatti	100	Kandewal Road	1,600,000	15 Km	No	Yes
2	Qamar ul Islam	100	Khoshab Road	1,550,000	25 Km	Yes	Yes
3	Al-Hamd Estate	76	Chak 52, 53	775,000	12 Km	Yes	Yes
4	Al-Hamd Estate	60	Chowkira Road	1,100,000	15 Km	No	4 Km Away
5	Ghulam Rasool	100	Faisalabad Bypass Road	6,500,000	12 Km	No	Yes

It was observed that Mr. Zubair Bhatti had offered Rs. 1,600,000/ per acre, thereafter, he offered discounted rates after opening of bids @ Rs. 1,325,000/ per acre due to non-availability of sweet water and unsuitable underground water for human consumption and industrial use on his land. Later, the management issued letter of intent to Mr. Zubair Bhatti for purchase of land @ Rs. 1,325,000/ per acre, instead of M/s Al-Hamd estate which offered lowest rates @ Rs. 775,000/ per acre, resulting in a loss of Rs. 73.600 million. $*(1,325,000*100=132,500,000) -(775,000*76=58,900,000) =73,600,000/-$.

Audit is of the view that the management purchased industrial land in violation of PPRA Rules. As per terms and conditions, all the utilities like electricity, sweet water, telephone and other facilities should preferably have been available on or nearby the proposed land. However, the land that was bought had no access to sweet water and its underground water was unfit for both industrial and human usage. Additionally, M/s Al-Hamd estate, which was located 12 km from the city and gave the lowest prices at Rs. 775,000/per acre, was also close to power and sweet water. And, Mr. Zubair Bhatti, who offered Rs. 1,600,000/ per acre that was 15 Km's from the city and had no access to sweet water. Therefore, land was purchased in violation of PPRA rules.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that the land offered by M/s Al-Hamd Estate did not meet the criteria such as minimum area, road access etc. Therefore, it could not be considered as responsive offer. Furthermore, the selected land of M. Zubair Bhatti has proper connectivity in the shape of a metaled road and was better suited for provision of electricity and water etc. The DAC directed to conduct a fact-finding inquiry at the Ministry level.

Audit recommends implementation of DAC directives.

9.2.4.24 Unauthorized payment of bonus / eid grant - Rs.64.402 million

Finance Division (Regulations Wing) office letter No.F.3(5) R.12/80(R.14). Vol.H2201-54 dated 30th November 2001, reads as “... it has been observed that certain corporations are not following the Government instructions in letter and spirit and making payment of bonus to their employees without approval of Finance Division (Regulation wing).”

Para (iii) of Finance Division (Regulation Wing) OM. No. F.3 (5) R12/BOCR.14/2002-154 dated 18-03-2002 states that Managing Directors and members of Board of Directors will not be entitled to receive bonus.

During audit of Pakistan Industrial Development Corporation (Pvt.) Limited (PIDC) for the year 2021-22, it was observed that a sum of Rs.64.402 million was paid as bonus to officers / officials during the period as detailed below:

			Amount in Rs
Designation	Eid Grant Bonus	Performance Bonus	Total
CEO	600,000.00	435,000.00	1,035,000.00
CFO	282,855.00	219,213.00	502,068.00
General Manager	270,032.00	209,275.00	479,307.00
Deputy General Manager	173,768.00	139,014.00	312,782.00
CIA	224,640.00	179,712.00	404,352.00
Company Secretary	139,382.00	114,990.00	254,372.00
Deputy Managers (6)	272,904.00	201,528.00	474,432.00

Assistant Managers (8)	447,294.00	362,624.00	809,918.00
Officers'/officials'/staff	27,592,676.00	32,537,987.00	60,130,663.00
TOTAL	30,003,551.00	34,399,343.00	64,402,894.00

Audit is of the view that concurrence of Ministry of Finance and approval of administrative Ministry/Division was not sought. Hence, payment of Rs 4.145 million as Bonus and Eid Grant to the employees was held irregular and unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that Finance Division vide its letter dated 20-March-07 has confirmed that the Boards of Directors of Public Sector Companies have full financial powers over their own budgets as long as their decisions do not impact the Federal/Provincial budgets. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.25 Excess payment on account of excess quantity of asphalt - Rs.55.313 million

Rule 04 of PPRA 2004 states that the procuring agencies while engaging in procurement, shall ensure that the procurement are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the contract for construction of Roads in Package 2, Phase-II of Bin Qasim Industrial Park (BQIP) development work was awarded to M/s Haji Syed Ameer & Brothers at a cost of Rs 452.199 million in 2019. Details of excess quantity and amount is as under:

S#	Road	Length (Meters)	Width (Meters)	Design Thickness of Asphalt Wearing Course (Meters)	Volume of Asphalt Wearing Course Used (Cubic Meters)
1	AR 1	918.71	18.6	0.05	854.4
2	AR 2	1513.08	18.6	0.05	1407.16
3	AR 3	2420	18.6	0.05	2250.6
4	AR 4	689.33	9.3	0.05	320.53845
5	AR 5	1007.5	18.6	0.05	936.975
				Total	5769.67815

Description	Rs.
Total Volume of Asphalt Wearing Course Used (Cubic Meters)	5769.67815
BOQ Volume of Asphalt Wearing Course Used (Cubic Meters)	3512
Excess Volume of Asphalt Wearing Course Used (Cubic Meters)	2257.67815
Unit Rate of Asphalt Wearing Course per Cubic Meters	24,500
Cost of Excess 2257.67815 Cubic Meters	55,313,115

Audit is of the view that excess payment due to excess quantity was unjustified and held irregular.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that Audit has mistakenly included AR-02 and AR-04 to the calculation whereas these roads were not included in Package-II. Further there is no actual excess payment made. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.26 Irregular award of road contract at higher cost - Rs.47.497 million

Rule 4 of PPRA, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that M/s Kazi Nisar was awarded contract of Package VII in BQIP (Phase-III) development works at a cost of Rs.799.903 million for construction of Infrastructure works, Office Building, Rescue Building, Boundary Wall and Watch Towers. A total of 1.07742 Km of Road was to be constructed at a per Km cost of Rs. 168,499,822, whereas the same contractor was given the contract for constructing 4.38 Km of Roads in Package I at a per Km cost of Rs 121,002,454 which was 39% lower. The detail is hereunder;

Amount in Rs			
Cost per Km in Package I	Cost per Km in Package VII	Increase in Cost per Km	% Increase
121,002,454	168,499,822	47,497,368	39

Audit is of the view that award of work at higher cost was unjustified and staggering increase of 39% of per Km cost was also held irregular.

The matter was reported to the management in June, 2023. The matter was discussed in DAC meeting held on December 13, 2023. The management informed the DAC that the tender dates of Packages I & VII were October 2018 and December 2021 respectively. Over a period of 03 years the price variation has been very significant, therefore, the prices quoted cannot be compared. Secondly, the bids were not on per km basis. It may be noted that the BoQ items of roads for the two projects were also not identical. The tenders were awarded through bidding under PPRA and no irregularity has been pointed out. The DAC directed the management to get the documents verified by Audit.

Audit recommends implementation of the DAC directives.

9.2.4.27 Non-imposition of liquidity damages due to delay in completion of feasibility study - Rs.43.000 million

As per para C-2(iii) of PEC Bidding Instructions Single Stage – Two Envelopes (SSTE) Bidding Procedure, the amount of the Liquidated Damages for each day of delay in completion of the whole of the Works, or if applicable for any Section thereof, shall be a sum equal to 10 % of the likely cost of the Works divided by one-fourth of the number of days specified as completion time.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the management awarded the contract for preparation of Feasibility Study, PC-I, Detailed Designing & Construction Supervision of Karachi Industrial Park (KIP) on 1,500 acres of Pakistan Steel Mills Land on June 07, 2022 at a cost of Rs.430.702 million to M/s Surbana Jurong-JV. The agreement was signed on June 07, 2022 for completion of work by February 08, 2023. However, as of June 30, 2023, the report was not completed by the consultant.

Audit is of the view that management failed to impose liquidity damages of Rs.43.000 million on account of delay which reflected undue favor.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that the land belongs to PSM which required extensive jungle cutting for detailed survey and design. The contract for site clearing was awarded but the work was stopped due to interference from certain local encroachers. Currently, land clearance has resumed and M/s Surbana Jurong has re-initiated their work. Since the delay is not on part of the consultant, therefore no penalty is justified and no such provision is in the contract either. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.28 Variation of figures of contractor & consultant's report - Rs.39.797 million

Rule 4(3) of the Public Sector Companies (Corporate Governance) Rules, 2017 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that Package VI, in Phase-II of Bin Qasim Industrial Park (BQIP) development work in 2019, was awarded to M/s Gul Construction for a total amount of Rs.114.906 million for construction of Water Distribution and Sewerage Networks adjacent to Internal Roads. It was observed that there was variation in Work Done Figures in IPCs vs M/s Asian's Report in Package VI, as detailed below:

S. #	Description	Package VI (Rs)	Work Completion in terms of
-------------	--------------------	------------------------	------------------------------------

			contract value (%)
1	Work done as per IPCs I & II Paid excluding Mobilization Advance	14,856,546	-
2	Work done as per Pending IPC-03 Package VI submitted by M/s Gul	49,807,020	-
3	Total Work done as per IPCs submitted (1+2)	64,663,566	56.27
4	Work done as per Asian Report on work completed by M/s Gul in Packages VI	24,866,312	21.64
	Variation	39,797,254	35%

Audit is of the view that variation of figures up to 35% reflected negligence and slackness.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that the IPC # 1 & 2 were received by PIDC from the Consultant after their verification and accordingly Rs 14,856,546 against IPC # 1 & 2 were paid to the contractor as per the procedure. As per PIDC record, IPC-3 was neither received nor paid. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.29 Excess payment to contractors beyond BOQ/ unexecuted works - Rs.36.314 million

Rule 04 of PPRA 2004 states that the procuring agencies while engaging in procurement, shall ensure that the procurement are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that that the management awarded various contracts in excess of BoQ quantities as detailed below:

- Contract for Package III, in Phase-II of Bin Qasim Industrial Park (BQIP) development work in 2019, was awarded to M/s Kazi Nisar-Shangrilla JV at a cost of Rs.181.742 million. However, excess quantities in 08 items amounting to Rs.1.553 million were supplied by the contractors.

Excess payment to contractors beyond BOQ/ unexecuted works - Rs.36.314 million								
S.#	BOQ Items-Civil Works	BOQ			Total Work Done		Excess	
		Unit	Rate	Qty	Qty	Amount (Rs)	Qty	Amount (Rs)
1	Jungle Cutting	Sq.m	58	70,000	70818	4107444	818	47444
2	Excavation	Cu.m	550	5141	6024.442	3313443	883	485893.1
3	Cement Plaster 20 mm thick	Sq.m	510	42173	42192.49	21518170	19	9939.9
4	Moisture Protection of RCC surfaces using Industrial Bitumen Paint	Sq.m	178	8310	12716.97	2263621	4,407	784440.66
5	MS Gate	Sq.m	4670	108	114.58	535,070	7	30728.6
6	Removal of existing GI sheets	Sq.m	381	225	264.04	100599.2	39	14874.24
7	Fiber Glass Sheet Corrugated type 2 layer, one layer 450 GSM and second layer 300 GSM, thickness 2.4 mm to 2.7 mm approx.	Sq.m	4252	225	264.04	1122698	39	165998.08
8	Remove and provide/fabrication	R.m	2300	17	23	52900	6	13800

	and erection of office roof drain						
		Total					1,553,119

- Contract for Package III, in Phase-II of Bin Qasim Industrial Park (BQIP) development work in 2019, was awarded to M/s Kazi Nisar-Shangrilla JV at a cost of Rs 181.742 million. The contract consisted of three components Boundary Wall, Watch Towers and Rehabilitation Work. No watch tower could be constructed while a net total of Rs 133,053,915, Thus, an amount of Rs 7,538,333 was paid in excess to the contractor.
- Contract of Package V, in Phase-II of Bin Qasim Industrial Park (BQIP) development work in 2019, was awarded to M/s Gul Construction at a total amount of Rs.148.918 million for construction of Water Distribution and Sewerage Network adjacent to Main Road. However, management made an extra amount of Rs. 20.049 million to the contractor.
- Contract of Package VI, in Phase-II of Bin Qasim Industrial Park (BQIP) development work in 2019, was awarded to M/s Gul Construction for a total amount of Rs.114.906 million for construction of Water Distribution and Sewerage Networks adjacent to Internal Roads. However, a total of Rs.7.174 million was paid extra to the contractor for 933 meters of excess Water Supply pipping.

Audit is of the view that the management made excess payments amounting to Rs.36.314 million beyond BoQ and unexecuted work which reflected undue favor.

The matter was reported to the management in June, 2023.

- A. The management informed the DAC that the payment has been made on the basis of actual work done in compliance with the contractual provision as quoted above and well within 15%.
- B. The management informed the DAC that the total amount of boundary wall civil work as per contract / BOQ is 177,035,354/-, which includes 8 Nos of watch towers cost also. Due to inclusion of the watch tower cost, calculating boundary wall per meter cost in this way is not correct. Total amount paid to the contractor as per actual work done at site after verification from consultant and no excess payment was made.
- C. The management informed the DAC that the work has been done as per the drawing prepared by the Consultant. The actual work done at the site is also verified by the Consultant and is in accordance with the standard PEC contract condition. It is however submitted that such significant variance in estimation reflects on the poor work of the consultant i.e. M/s ZCL whose contract was not extended.

DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

(DP No. 387, 388, 419 & 433)

9.2.4.30 Purchase of land above PC-I provision – Rs.32.500 million

Rule 04 of PPRA, 2004 states that the procuring agencies while engaging in procurement, shall ensure that the procurement are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

As per PC-I pertaining to “Sargodha Industrial Park (SIP)”, the proposed Industrial Park was to be located at Chak#53 Shumali (North) close to canal about 07 Kms from Sargodha City center and set up over an area of 100 acres out of which 50 acres were to be developed in the first phase. A total of Rs.434 million was allocated under various heads including purchase of Land amounting to Rs.100 million.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the management purchased area of 100 acres land for Sargodha Industrial Park (SIP) at Sargodha City from Mr. Muhammad Zubair Bhatti on July 06, 2012 amounting to Rs.132.5 million against PC-I provision of Rs.100 million.

Audit is of the view that purchase of land beyond PC-I provision shows poor financial management. Hence, purchase of land in excess of PC-I stand irregular.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that the amount incorporated in PC-I was tentative and based on available data at that time. The land was procured by NIP through open competitive bidding. The DAC directed to conduct a fact-finding inquiry at the Ministry level.

Audit recommends implementation of DAC directives.

9.2.4.31 Irregular addition of drainage line in scope of work – Rs.27.000 million

Rule 42 © of PPRA states that a procuring agency shall only engage in direct contracting if the following conditions exist, namely: -

- i. The procurement concerns the acquisition of spare parts or supplementary services from original manufacturer or supplier:
- ii. Only one manufacturer or supplier exists for the required procurement:
- iii. Where a change of supplier would oblige the procuring agency to acquire material having different technical specifications or characteristics and would result in incompatibility or disproportionate technical difficulties in operation and maintenance:
- iv. Repeat orders not exceeding fifteen per cent of the original procurement;
- v. In case of an emergency:

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that M/s Kazi Nisar & Shangrilla JV were awarded two Packages (I & III) in BQIP Development Work Phase II. However, addition of drainage line in Scope of Package 1 was done by the Board without due process.

Audit is of the view that addition in scope of work without due process and approval is tantamount to direct contracting and therefore held irregular and unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that M/s KIA Motors Corporation is an important Operational Unit at BQIP on 100-acre land but was not yet connected with the sewerage network. As the process of hiring a new contractor as per PPRA had to take substantial time, therefore the board of directors after due deliberation unanimously approved an estimated cost of Rs. 27 million in Package-I contract M/s. KNA & Shangrila (JV) for the sewerage line for M/s. Lucky Motors Corporation”.

The DAC directed the management to conduct a fact-finding inquiry and share the report with Audit.

Audit recommends implementation of DAC directives.

9.2.4.32 Irregular award of security services contract – Rs.24.298 million

Rule 4 of PPRA, 2004 states that procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that tender for provision of security services for PIDC Head Office Karachi and Regional Offices at Lahore, Faisalabad & Sheikhpura was advertised on 06 June, 2022. Bids submission date was 20th June, 2022. The management awarded the contract to M/s Safety & Security Services @ Rs 1,012,446 per month for a period of one year extendable to two years on 26 July, 2022, whereas, M/s National Police Foundation was declared non-responding bidder on 26 July, 2022 despite the fact that before this tender security services were being provided by this company w.e.f 01-07-2021 and their further services were terminated on July 26,2022. Audit observed following irregularities:

1. Single stage-two envelope method of bidding was used. Financial proposals that were deemed technically non-responsive should have been returned to the respective bidders, unopened. However, M/s National Police Foundation's financial bids were opened.
2. According to the contract, a performance guarantee equal to two months of compensation had to be deposited within one week; however, that guarantee was deposited on January 31, 2023, six months later.
3. Registration of Security Guards was not with EOBI/SESSI.

Audit is of the view that tender process was not conducted in a transparent manner as mandatory requirements of the bidding documents were not met by the successful bidder.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that Audit overlooked the method used for bid evaluation was Quality cum Cost, with weightages of 70:30 mentioned in the RFP. Therefore, the award was as per PPRA. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.33 Non-recovery from Ex-CEO – Rs 17.734 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Pakistan Industrial Development Corporation (PIDC) for the year 2021-22, it was observed that Mr. Gul Muhammad Rind, an officer of Secretariat Group BS-22 was posted as CEO of PIDC in November 2009 for the period of three years. During his posting, he committed following multiple irregularities and received an amount of Rs.17.734 million which was irregular. The matter was highlighted in February 2014, however, despite lapse of around 09 years, the management did not take any action for recovery of irregular payment from Ex-CEO and officers/ officials of PIDC.

S #	Subject	Amount (Rs. in million)
1.	Irregular and unjustified fixation of pay	5.396
2.	Irregular payment of leave encashment	6.640
3.	Irregular sale of car to on book value	1.294
4.	Irregular payment of Bonus	2.684
5.	Irregular Establishment of NGO	1.720
Total		17.734

Finally, in August 2022, the management lodges a suite for recovery in the Court of XIIth Senior Civil Judge at Karachi, South. The case was lodge after around 8.5 years without attachment of any property of the Defendant (Mr. Rind).

Audit is of the view that the management failed to take any action for recovery of irregular payment against Ex-CEO / officers of PIDC. Further, the management extended undue favour to the Ex-CEO by not taking any action or putting the matter in the court of law without attachment of any property and after lapse of considerable time.

The matter was reported to the management in June 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. DAC directed the management to take opinion from reputed Law Firm regarding Civil and Criminal facts and submit to Ministry for onward submission to Law Division.

Audit recommends implementation of the DAC directives.

9.2.4.34 Irregular secured advance payment to contractors - Rs.15.923 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that excess advances in addition of mobilization advance were given to contractors as Secured Advance during Phase II- Development Works in BQIP as detailed below:

S#	Description	Contractor	Secured Advance Amount (Rs.in million)
1	Package 3	M/s Kazi Nisar & Shangrilla JV	7.4
2	Package 5	M/s Gul Construction	4.992
3	Package 6	M/s Gul Construction	3.531

Total	15.923
--------------	---------------

Audit is of the view that secured advance payments to the contractors reflected negligence and poor financial management.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that the secured advance was given in accordance with the clause 60.11 of the standard contract, and the recovery of Secured Advance paid to the Contractor has already been made from the subsequent bills. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.35 Overstay of Board Members beyond three years – Rs.13.250 million

Rule 3 A (1) of Public Sector Companies (Corporate Governance) Rules, 2013 states that a director, once appointed or elected under Section 180 or Section 178 of the Ordinance, shall hold office for a period of three years, unless he resigns or is removed in accordance with the provisions of the Ordinance.

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Pakistan Industrial Development Corporation (PIDC) for the year 2021-22, it was observed that following Chairman / Directors of PIDC Board overstayed beyond three (03) years in violation of Rules:

S#	Name	Position	Date of appointment	Status
1.	Mr. Ghulam Sarwar Khan	Chairman	26-06-2014	To date
2.	Mr. Muhammad Ishaq Butt	Independent Director	26-06-2014	-
3.	Prince Muhammad Isa Jan	-	26-06-2014	-
4.	Mr. Muhammad Ali	-	26-06-2014	-
5.	Mr. Rizwan Ahmed Bhatti	CEO, PIDC	09-08-2016	-
6.	Dr. Imran Ullah Khan	Non-ED	16-03-2018	02-03-2022
7.	Mr. Hashim Raza	-	15-01-2020	To date
8.	Brig. ® Shujah Hassan	-	19-08-2020	-
9.	Ms. Bushra Naz Malik	-	31-05-2016	-

Audit is of the view that non-transfer /removal of Chairman and Directors since 2014 shows undue favour and negligence on part of management.

The matter was reported to the management in June 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. The management accepted the audit point of view. DAC directed that the steps may be taken for reconstitution of Board through Ministry.

Audit recommends implementation of the DAC directives.

9.2.4.36 Loss of revenue due to non-renting out of vacant spaces – Rs.8.886 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the chief executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Industrial Development Corporation (PIDC) for the year 2021-22, it observed that an area of 10,525 sq.ft was lying vacant at PIDC Buildings in Karachi, resultantly, Corporation was deprived of rental income of Rs 8.886 million as detailed below:

S#	Location	Floor	Date of Vacancy	No. of Months	Area (Sq. Ft.)	Rate per Sq.Ft.	Total Amount (Rs)
1.	Finance & Trade Center	2 nd	Dec-2022	06	2,200	195.56	2,581,392
2.	Progressive Plaza	1 st	Nov-2022	07	6,325	107.17	4,744,951
3.	SCCP Dalmia Office	Ground	Nov-2021	19	2,000	41.06	1,560,280
Total				32	10,525	343.79	8,886,623

Audit is of the view that the management failed to take concrete efforts to rent out the vacated buildings / spaces, which deprived the Corporation from the due monetary benefits of Rs.8.886 million on account of rental income.

The matter was reported to the management in June 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. DAC directed the management to make vigorous efforts to rent out the vacant spaces and intimate the progress to Audit.

Audit recommends implementation of the DAC directives.

9.2.4.37 Irregular procurement of various items on splitting basis - Rs.8.821 million

Rule 9 of Public Procurement Rules, 2004 states that a procuring agency shall announce in an appropriate manner all proposed procurements for each financial year and shall proceed accordingly without any splitting or regrouping of the procurement so planned. The annual requirement so determined would be advertised in advance on the Authority's website as well as on the website of the procuring agency.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that various procurements amounting to Rs 8,821,243 including vehicles, office equipment, computers and chairs etc. were made by the management using quotations by splitting instead of bulk purchases using tender.

Audit is of the view that the management splitted the items to avoid tendering which reflected gross violation of rules.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13, 2023. The management informed the DAC that all the procurements made by PIDC/NIP during the year 2021-22 were procured on the basis of requirements received from various departments. Additionally, all the items mentioned in the below list are of miscellaneous nature, therefore, it is impossible to procure items of different nature from a single company/vendor through bidding. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.38 Irregular Award of Janitorial Services Contract – Rs. 5.749 million

Rule 27 of PPRA Rules states that the procuring agency finds it necessary to extend such deadline; it shall do so only after recording its reasons in writing and in an equal opportunity manner. Advertisement of such extension in time shall be done in a manner similar to the original advertisement.

Rule 31 (1) of PPRA Rules states that No bidder shall be allowed to alter or modify his bid after the bids have been opened. However, the procuring agency may seek and accept clarifications to the bid that do not change the substance of the bid.

During the audit of Pakistan Industrial Development Corporation (Pvt.) Limited (PIDC) for the fiscal year 2021–2022, it was observed that first bids were called for Janitorial Services on February 21, 2021. Last date of submission and opening was 9th March, 2021. All the 09 bids were subsequently revoked after opening without providing reasons/justifications in writing. Then, on March 14, 2021, re-tender notice was published wherein single stage-two envelope bidding procedure was adopted. Financial bids were opened on March 31, 2021 in which 04 bidders participated and M/s The House Keepers was awarded the contract for three years at a rate of Rs. 159,705 per month.

Audit observed following irregularities in procurement process:

- i. First tender bids were revoked without providing any justification. Prior to inviting rebids, the procuring agency is required to evaluate the grounds for rejection which wasn't done in this case.
- ii. The bid of M/s The Housekeeper was changed after it had been opened in violation of rules. The Bidder asked and agreed to accept 5.5% less than the rates it had stated in the financial bid. The bids were opened on March 31, 2021, but interestingly, the bidder had already received the service contract agreement on March 21, 2021.
- iii. Since the date was not stated on the technical evaluation summary, the audit was unable to determine when the technical evaluation was completed or whether it was new or the previous one.

Audit is of the view that tender process was not conducted in a transparent manner flagrantly violating PPRA rules.

The matter was reported to the management in June, 2023. The irregularity was discussed in DAC meeting held on December 14, 2023. The management informed the DAC that the procuring agency can reject some or all bid/offers as per PPRA rules. New tendering process was carried out, in which M/s House Keepers quoted 5.5% below rates. It is pertinent to mention here that technical evaluation was carried on 9-4-2021. Furthermore, the effective date of the Service Contract is 1-4-2021 rather than 21-3-2021. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.39 Irregular appointment of Manager (IT) - Rs.4.500 million

According to the advertisement dated 24-3-2020 for the post of Manager Information Technology (IT) the required qualification was BS in IT / related field with Microsoft server/ Specialist Certificate and 5-10 years' experience in Managing MIS/ IT Department of reputable organization.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the management appointed Mr. Faisal Ahmed Malik as Manager (IT)

on 26-06-2020 at a salary of Rs.125,000 per month along with other perquisites. However, the management rejected suitable candidates having relevant qualification / experience and appointed Mr. Faisal despite that he did not even possess the required qualification and experience. He was awarded 21 out of 25 marks in the qualification criteria.

Audit is of the view that management extended undue favor to the incumbent by appointing him as Manager IT without relevant qualification and by rejecting the other more suitable candidates. Thus, appointment of incumbent and payment of salary of Rs 4.500 million (Rs 125,000*36 months) stands irregular/ un-justified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13, 2023. The management informed the DAC that Mr. Faisal Malik had substantial experience working both nationally and internationally in the field of IT with a degree in BS (Electronics Engineering) from Sir Syed University of Engineering and Technology and specialized IT certifications (MS CP, MS Server Specialist). Since the profile of Mr. Faisal was in compliance with the prescribed criteria and he also got the highest marks in the interview, hence, he appeared to be the most suitable candidate for the position. It may be noted that engineering degrees are considered a more in-depth study of their respective fields. IT Infrastructure and IT electric devices/circuits are covered under electronics engineering also. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.40 Unjustified award of contract at exorbitant rates - Rs.4.134 million

Rule 4 of PPRA, 2004 states that the procuring agencies, while engaging in procurements, shall ensure that the procurements are conducted in a fair and transparent manner, the object of procurement brings value for money to the agency and the procurement process is efficient and economical.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that M/s Kazi Nisar was awarded contract of Package VII in BQIP Phase-III development works at a cost of Rs.799,903 million for construction of Infrastructure works, Office Building, Rescue Building, Boundary Wall and Watch Towers, disregarding the fact that the same contractor had not completed even a single out of 8 watch towers in Package III- Phase-II of BQIP. Further, in this tender the contract for construction of 8 watch towers is again awarded to the same contractor at a cost Rs 7,756,586 which is 114.12 % higher than the previous cost given by same contractor for same items. The difference in cost is hereunder;

Total Cost of 8 Watch Towers Package VII-Phase III	7,756,586
Total Cost of 8 Watch Towers Package III-Phase II	3,622,630
Difference	4,133,956
Increase in Cost %	114.12

Audit is of the view that the award of work was irregular as the contractor had not successfully completed execution of the work in another similar work and award of work in instant case was at exorbitant cost.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that Phase-II Package-III tender date is October 2018; and Phase-III Package-VII tender date is December 2021. Over a period of 3 years (2018 – 2021) there have been significant changes in the costs and comparing the two periods would not be logical. The watch towers were not completed in pervious package III because some area of Package-III boundary wall work could not be completed due to claim of land by Pakistan Railway inside BQIP area. As the issue took around 2 years to settle the remaining part was included in Package-VII. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.41 Irregular appointment of Assistant Manager (Estate) - Rs.3.440 million

According to the advertisement dated 02-08-2019 for the post of Assistant Manager Estate, the required qualification and experience was MBA / BE with minimum relevant experience of 10 years.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the management appointed Mr. Hamza Baloch as Assistant Manager (Estate) on 07-11-2019 at a monthly salary of Rs.80,000. Following irregularities were observed:

- He possessed less than two (02) years relevant experience against the required minimum of 10 years.
- He provided an MBA degree from Greenwich University but it does not offer “MBA in Finance” instead it offers MBA Business and Finance (B&F), this was highlighted by HEC.
- The year of passing of degree was 2013 while in declaration, the year of passing is 2007.
- Further, he has submitted an experience certificate w.e.f October 05, 2005 to November 10, 2007 as Finance Executive from Paragon City which is located in Karachi but during the said period, he was studying MBA in Finance from Greenwich University in Quetta as per his declaration. Also, Greenwich University Pakistan does not have any campus in Quetta.

Audit is of the view that management extended undue favor to the incumbent by without him having the required relevant experience. Thus, appointment of incumbent and payment of salary Rs.3.440 million (Rs.80,000*43 months) stands irregular / un-justified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that the position of Assistant Manager Estate was advertised on 02nd August, 2019 in compliance with the Government stipulated recruitment procedure and as per the requirements of the Company. The interview committee found Mr. Hamza Baloch to be the most suitable candidate for employment. It is important to mention here that the field of Industrial Estate Management is an exclusive niche and therefore there is a great dearth of candidates with the specific required experience of Industrial Estate Management. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.42 Irregular payment during stay orders of court – Rs. 3.319 million

Rule 4(3) of the Public Sector Companies (Corporate Governance) Rules, 2017 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the contract for Packages I, in Phase-II of Bin Qasim Industrial Park (BQIP) development work in 2019, was awarded to M/s Kazi Nisar-Shangrilla JV for a total sum of Rs. 529.990 million. It was noticed that said Package was substantially completed and taken over on 28.12.2021. Moreover, there was court's stay order on hiring of fresh contractor in BQIP in place from 22.12.2021 till 31.08.2022. However, upon inspection of record it came to light that IPC-7 amounting to Rs. 3,319,749 against work done was paid during the period of court's stay order in June 2022.

Audit is of the view that despite substantial completion and take over of the project by 28.12.2021, the contractor was paid Rs.3.319 million for work done as per IPC 7 during the period of court stay order, hence payment of Rs.3.319 million stands irregular and unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that the court stay order affected only two specific new packages VII & VIII of Phase III within the BQIP project, and as a result, those packages (VII and VIII) were not awarded to any contractors. The rest of the BQIP project Phase-II continued as per the contract agreements against which there was no Court stay. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.43 Un-justified and irregular appointment of Research Associates-Rs.2.095 million

Rule 5 of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Board shall exercise its powers and carry out its fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

Cabinet Secretariat (Establishment Division) letter dated 6th May, 2000, (iii) (b) vacancies should be advertised in the leading national and regional newspapers (c) selection should be made through regularly constituted Selection Committees / Board.

During audit of Pakistan Industrial Development Corporation (PIDC) for the year 2021-22, it was observed that Board Human Resource Committee (BHRC) in its meeting held on 27-06-2022 approved the setting up of a three-member Industrial Research & Analysis (IR&A) team / cell as proposed at an approximate monthly lumpsum remuneration of Rs 80,000-100,000/- each. Given the urgency, the CEO PIDC is authorized to immediately hire suitable candidates from the available HR database for a period of 3 months. PIDC shall simultaneously start the process of hiring for the positions through due process within 6-8 weeks at appropriate terms and conditions. The management hired the Research Associates with the justification for setting up PIDC IR&A Cell at Islamabad: that PIDC is undergoing a transformation and

one of its emerging roles after merger of NIP is to develop Industrial Zones on behalf of the Federal Government it was agreed that PIDC should also undertake Industrial Research Projects to provide support to the Ministry in policy making.

Later on, management appointed the following incumbents as Research Associates for a period of 3 months and subsequently rehired for period of one year extendable with mutual consent:

S#	Name	Salary	Period	Amount (Rs.)
1.	Mr. Ahmad Hafeez	90,000+ 32,377 (120-liter petrol cost)	08 months	979,016
2.	Ms. Maham Naeem	90,000+32,377 (120-liter petrol cost)	2 months	244,754
3.	Mr. Bilal Aftab	90,000+32,377 (120-liter petrol cost)	-	240,000
4.	Ms. Jawaria Anjum	62623+32,377 (120-liter petrol cost)	08 months	760,000
Total				2,223,770

Further, it was also observed that PIDC had a full fledged Research & Evaluation Department and during the period management conducted different/ above research/ feasibility on behalf of the MoIP through different consultants and paid huge amount to them ranging from Rs.2.5 million to Rs.0.45 million.

Furthermore, management appointed Ms. Jawaria Anjum as Research Associate vide letter dated 23 November 2022 without advertisement / Selection Committee / codal formalities / competitive process in violation of above rules.

Audit is of the view that management took an irrational decision for hiring of Research Associates and one of them without full filling codal formalities to accommodate the above incumbents at the cost of the Corporation despite having own Research Department. Thus, the Corporation sustained a loss of Rs 2.223 million on account of salary & allied benefits.

The matter was reported to the management in June 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. The management informed that on the request of the Ministry, three Research Associates from leading universities were hired and attached with Ministry on urgent basis for 03 months after Board approval. Subsequently, 1-year contracts were given through transparent advertisement process, but only one is currently working. The Chair showed displeasure and raise query that it was not in his knowledge that such resource is working under him. As far as Ms. Jawaria was also shortlisted and ranked No. 4 in the merit list. Subsequently, one of the RA resigned and she was offered the vacant position as the waiting candidate. DAC directed that research assignments may be shared with audit and Ministry.

Audit recommends implementation of the DAC directives.

9.2.4.44 Irregular appointment of external auditor - Rs.1.615 million

According to guidelines/letter dated January 02, 2002 issued by the Auditor General of Pakistan in accordance with the provisions of Section 15(1) of the Auditor General's (Functions, powers and terms and

conditions of Service) Ordinance, 2001, the auditors should be appointed in consultation with Auditor General of Pakistan and rotated after every 5 years. Instructions were issued in compliance of Finance Division's letter dated March 25, 1981.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that it was observed that management appointed audit firms namely M/s. BDO Ebrahim and M/s Baker Tilly without obtaining concurrence of the Auditor General of Pakistan. The details of payments are as under:

Description	Amount(Rs)
Audit of the financial statement for the year ended June 30 2020 (M/s BDO)	356,400
Paid against Audit of FY2021, Assurance Report, Review of COCG 2016, SUKUK payment and Audit of FY 2012 & 2013(M/s BDO)	540,500
Audit fee of NIP PF for year 2014, 2015 & 2016 (M/s BDO)	53,460
Audit of Financial Statements of "Aik Hunar Aik Nagar" for the year ended June-30, 2021 (M/s BDO)	207,900
Daily Allowance to Baker Tilly auditors for the half yearly review of PIDC for the period ending Dec31-2021. (M/s Baker Tilly)	24,800
Recording payment of professional fee for review of financial statements of PIDC for the period ended 31st Dec-2021. (M/s Baker Tilly)	432,000
Total	1,615,060

Audit is of the view that the appointment of external auditors without the concurrence of the Auditor General of Pakistan was held irregular and unjustified.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that PIDC is a Public Sector Private Limited Company, governed under the provisions of the Companies Act, 2017 and Public Sector Companies (Corporate Governance) Rules, 2013 PSC (CGR). In accordance with rule 21 of the PSC (CGR), the Audit Committee of the Board recommends the appointment of an external auditor to the Board of Directors and subsequently, the Board approves and recommends it to shareholders for final approval in the General Meeting. PIDC appointed external auditors in accordance with rule 23 of the PSC (CGR) which complies with the International Federation of Accountants (IFAC) Guidelines on Code of Ethics, as applicable in Pakistan. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.45 Irregular promotion of Ex-Assistant (NE-VII) as Assistant Manager

Rule 5 c (ii) of Public Sector Companies Corporate Governance Rules 2013 states that ensuring equality of opportunity by establishing open and fair procedures for making appointments and for determining terms and conditions of service. The Board may nominate a committee consisting of one of its

members or senior Executives for investigating, where necessary on a confidential basis, any deviation from the company's code of conduct.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that Mr. Saleem was promoted and later appointed as Assistant Manager Transport in 2015. Before the said promotion he was appointed in Grade VIII-NE on 01.04.2012 and had not yet completed 5 years in the existing grade required for promotion. The record reflected that the process of his promotion was hurriedly carried out by Ex-GM Admin Mr. Ashfaq Ahmed, the said Ex-GM Admin is currently in suspension in compliance of PAC directive on account of misconduct in affairs of PIDC during his tenure. A memorandum was issued on January 01, 2015 (Thursday) by GM (A&P) wherein 06 employees from Non-Executive Cadre including Mr. Saleem were offered promotion and were required to convey their acceptance within two days (On Friday). Subsequently only Mr. Saleem who was at no. 5 in that list gave his approval on the same day while the others didn't have enough time to respond.

Audit is of the view that promotion and appointment of Assistant Manager, at the age of 44 years having only passed Intermediate (E Grade) without any advertisement/due process and required service of 05 years in his previous Grade, was not in order.

The matter was reported to the management in June, 2023. The irregularity was discussed in DAC meeting held on December 14, 2023. The management informed the DAC that Mr. Muhammad Saleem was appointed as Naib Qasid on 19.10.1989 against the sanctioned vacant position. Hence, to fill up the vacant position of Assistant Manager (Transport), the most suitable person i.e., Mr. Muhammad Saleem was already available. Hence, he was promoted to Assistant Manager (Transport) with effect from 01.02.2015 since then he has been performing the duties of AM (Transport) satisfactorily. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.46 Irregular appointment and benefits allowed to Chief Financial Officer

Rule 14(2) of Public Sector Companies (Corporate Governance) Rules, 2013 states that no person shall be appointed as the chief financial officer of a Public Sector Company unless he is,

- a) A member of a recognized body of professional accountants with at least five years relevant experience, in case of Public Sector Companies having total assets of five billion rupees or more; or
- b) A person holding a master degree in finance from a university recognized by the Higher Education Commission with at least ten years relevant experience, in case of other Public Sector Companies.

Eligibility Criteria in the Advertisement:

1. FCA/ACA/FCMA/ACMA or equivalent
2. 15 years of relevant experience at large local or multinational companies
3. Some exposure of Public Sector Companies will be an advantage
4. Max Age 50 years

During audit of Pakistan Industrial Development Corporation (PIDC) for the year 2021-22, it was observed that the advertisement for the post of CFO PIDC was published in DAWN on 15.12.2019 and Mr. Saleem was selected as CFO by a special 133rd meeting of the Board of Directors who joined PIDC on 01.03.2019. The Advertisement was published without requisite details and the eligibility criteria did not match with required criteria of PSC Rules. Mr. Saleem at the time was over 50 years of age. Matter of his irregular appointment was later placed before BoD. Board in its 138th Meeting held on June 30, 2021 directed to advertise the position of CFO with an age limit of 55 years. Thus, he was re-appointed by extending the upper age limit to 55 years through advertisement published on 31.07.2021. The Interviews were conducted by 31st HR committee on October 4, 2021 instead of the Board. Three members were made part of the HR Committee on Special invitation who favoured re-appointment of the incumbent CFO. Record of his re-appointment was not provided to Audit. The excerpts of data were found in the file of recently hired Manager Finance.

Besides, following irregularities were also observed;

1. He availed irregular additional charge allowance by not assuming regular charge of CFO PIDC despite resignation of Ex-CFO on 12.01.2020 and issuance of his appointment letter on 15.01.2020. He resigned as CFO NIP on 30.01.2020 and assumed regular charge in PIDC on 01.03.2019.
2. He worked with Deloitte Yousuf Adil from 1990-1997. Since his appointment as CFO, the same firm has been appointed as Tax Consultant, Internal Audit Consultant and R&E consultant. One of the references in the declaration given by him is also a partner at Deloitte Yousuf Adil.
3. Since his appointment as CFO first in NIP in and later in PIDC, the management has started accepting performance securities issued by non-reputable insurance companies such as UIC and EWI. The contractor M/s Gul Construction, whose bank guarantee was later found to be forged, had sought performance securities from UIC for his two other projects which were also terminated by PIDC.
4. Mr. Saleem was given a 1.6 Altis Corolla beyond his entitlement category in NIP which he retained after leaving where he only served for 9 months. After joining PIDC he got a new Toyota Yaris-1300 cc car. The Corolla Altis was given to him on buy back against the rules that the car had to be in custody of the user for at least 5 years. The car still appears in the books of the company as an un-depreciated asset.

Audit is of the view that the management has extended undue favour to the incumbent first in his appointment and then by giving him irregular benefits such as higher than market salary, extra fuel and allowing retention of NIP vehicle.

The matter was reported to the management in June, 2023. The irregularity was discussed in DAC meeting held on December 14, 2023. The management informed the DAC that publishing advertisements anonymously is an allowed practice to avoid references and pressures. Furthermore, the transparency of the hiring process of the CFO was ensured by complying with the relevant recruitment policy and the rules which included the publishing of the advertisement, the submission of applications, shortlisting and conducting interviews. Public Sector Companies (Corporate Governance) Rules, 2013 only mentioned the basic criteria for the appointment of CFO and It is the prerogative of the PSC to set any additional criteria.

It's important to note that all recommendations from the committee meetings received subsequent approval from the Board. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.47 Irregular appointment, promotion and regularization of company secretary

According to Section 14 (4) of Public Sector Companies (Corporate Governance) Rules, 2013 states that, no person shall be appointed as the company secretary of a Public Sector Company unless he is a (c) Person holding a master degree in business administration or commerce or being a law graduate from a university recognized by the Higher Education Commission with at least five years relevant experience.”

The advertisement dated April 24, 2002 for Internship stated that the selected internees shall be offered internship for a period of six months to one year on fixed monthly stipend with no commitment for subsequent absorption in permanent cadre.

Clause No. 10 of the letter No. Per./Rectt. /Internees/05 dated Aug 30, 2002, stated that there is no assurance of your employment/appointment in regular cadre upon completion of your internship.

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that following irregularities were found in the appointment, promotion and regularization of Ms. Humaira Adil:

- i. She was initially appointed as an Intern for 6 Months in Chairman Sectt w.e.f. 02.09.2002.
- ii. She (an MBA) was appointed against an engineering vacancy in Executive Grade II.
- iii. Her contract was renewed for further four (04) years in addition to 02 already served with pay increases without seeking approval of the competent authority (01.07.2007 to 30.06.2009 for 02 years & again w.e.f 01.07.2009 to 30.06.2011 for further 02 years).
- iv. She was appointed as Deputy Manager PPME in E-III on contract basis on July 12, 2010 against the five years' experience required for promotion.
- v. Her services were regularized by BoD without mentioning of specific date for such regularization.
- vi. She was confirmed in Grade E-III as Dy. Manager PPME on July 12, 2011 and later promoted to Executive Grade E-IV as Manager PPME Division on the next day w.e.f. July 13, 2011. The post of Deputy Manager (PPME Grade III) held by her was upgraded to Grade IV w.e.f her promotion.
- vii. In compliance of DAC directives on Special Audit Report of PIDC for the year 2010-11 to 2012-13, she was reverted to Grade III and posted as Deputy Manager HR on March 31, 2021. However, recovery of excess payments made to her during the said irregular period is still pending. Further, the management in supersession of DAC directives restored her as Manager on same salary with back date promotion w.e.f 13.07.2015.
- viii. On June 03, 2019, she was re-designated as Manager (Corporate Affairs) besides working in CEO's Secretariat. On June 30, 2020, the charge of HR Department was given to her temporarily till the appointment of permanent Head of HR by the orders of CEO, Mr. Rizwan Bhatti. On the same day, she was notified to be Company Secretary w.e.f. 01.07.2020. She holds charge of three separate posts simultaneously.
- ix. The data provided by her in the declaration and data observed by Audit from her files is in contradiction to each other. In the declaration she has stated that she worked as Assistant Manager (Contract) PPME Dept PIDC w.e.f 02.09.2002 to 11.07.2010, however from her

- record it was observed that she was working as an internee from 02.09.2002 to 30.06.2005. After that she was hired as AM (Projects) w.e.f 01.07.2005 until her promotion on 12.07.2010.
- x. Further, as per her domicile, issued on 03-11-2010, the date of arrival in place of her domicile district Chakwal, Punjab was “Since Birth”. However, as per her declaration, she was born, educated and living in Karachi since birth (02.03.1977).
 - xi. The unnumbered resolution notifying her appointment as Company Secretary was not made part of the Minutes of the subsequent Board meeting. It was signed by only 5 out of the 11 board members. The Chairman BoD has also not signed the resolution.
 - xii. She also did not possess five years of relevant experience required for the post of Company Secretary. She did not possess a Master’s Degree from a HEC registered institution; instead she was an MBA (Finance) from Bahria Institute of Management and Computer Sciences. However, the said institute is not recognized by HEC.

Audit is of the view that internee extensions, conversion of internship slot into contractual appointment and subsequent appointment, regularization and promotion without meeting eligibility criteria and due process and variation of facts was not justified and are irregular. Further, the appointment of the Company Secretary was in violation of rules.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 14, 2023.

- A. The management informed the DAC that initially their internship was for six months which was extended upon recommendation of the department head, their internship was extended every 6 months as per the internship agreement till 2005 with the approval of the then CEO and Hon’ble Minister, IP&SI being Chairman, PIDC. In 2004, in the best interests of the organization CEO proposed the two internees (out of nine) working in the organization be inducted against the approved strength of two Assistant Managers in the PPME department. They were appointed as AM (PPME) on 1.7.2005 on contract basis. After serving for a period of more than 5 years in the capacity of AM (PPME) position, the services of Ms. Homaira Adil were regularized as DM (PPME) on a permanent basis in line with the Government policy to regularize the employees working on contract basis since 2007-08 after the endorsement/approval of the Board.
- B. The management informed the DAC that there was no false declaration submitted by Ms. Homaira Adil as she did not include the position-wise breakdown that she held at PIDC when she submitted the personal record form; rather, she just mentioned her present title at PIDC i.e. Assistant Manager (PPME) and the entire duration she had worked to date at that time. The domicile was issued on the basis of her permanent address mentioned on CNIC which was district Chakwal. Marital status and other particulars mentioned in the domicile were inadvertently filled on assumptions by the relevant office.
- C. The management informed the DAC that keeping in view the statutory nature, the Company Secretary’s position cannot be left vacant, before the retirement of Mr. Zahid-ur-Rehman Mughal, Ex Company Secretary on June 30, 2020, the management executed a succession plan and recommended Ms. Homaira Adil to the Board as the most suitable internal candidate and to avoid additional cost by employing new Company Secretary. She also meets the eligibility criteria and has 7 years of experience as Manager, Corporate Affairs. Resolution by Circulation for the appointment of Company Secretary was placed before the PIDC Board for approval and was

approved in its 135th meeting held on September 3, 2020 which was accordingly reflected in the minutes. Please note that the Resolution by Circulation was signed by directors including the Chairman which was subsequently, approved as stated above.

DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

(DP NO. 369, 370, 430 & 436)

9.2.4.48 Irregular appointment of Chief Internal Auditor

Rule 22 (2) of Public Sector Companies (Corporate Governance) Rules 2013, states that no person shall be appointed to the position of the chief internal auditor unless he is considered and approved as “fit and proper” for the position by the Audit Committee and unless he has five years of relevant audit experience and is a, -

- a) Member of a recognized body of professional accountants; or
- b) Certified internal auditor; or
- c) Certified fraud examiner; or
- d) Certified internal control auditor; or
- e) Person holding a master degree in finance from a university recognized by the Higher Education Commission.”

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that Mr. Naveed Rasheed was appointed as Chief Internal Auditor (CIA) in Grade E-V equivalent to DGM). Following irregularities were observed in his appointment:

- i. His total experience at Manager/Equivalent Grade was 2 years and 5 months which was less against the requisite criteria i.e. minimum 05 years of relevant experience in large local or multinational organization(s).
- ii. Instead of Board HR Committee, a two-member Committee comprising GM/HR & GM/Admin scrutinized/shortlisted the credentials and final selection Minutes were only signed by Chairman, BoD on 14.01.2020. He was extended undue favor by giving subjective and biased marking.
- iii. At the time of the interview, Mr. Naveed Rasheed was already serving as CIA, NIP which was in the process of merger with PIDC and he was also holding the charge of CIA, PIDC at the same time.

Audit is of the view that the management extended undue favour to the incumbent in the appointment which reflects negligence and slackness.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that although PIDC’s name was not mentioned in the advertisement, however, it was clearly advertised that the position is vacant in a large public sector organization. At the time of advertisement on 15 Dec 2019, the CIA had a total experience of more than 14 years in audit out of which, he had experience of 8 years in managing the internal audit department. In any case, he met the requirement of PSC (CG) Rules, 2013 i.e. minimum 5 years of relevant experience in internal audit. PSC CG Rules, 2013 only mentioned the basic criteria for the appointment of CIA and it is the prerogative of the PSC to set any additional criteria. Shortlisting is an administrative task, which was delegated by the Board HR committee to GMs according to rules and

practices at PIDC. Board meeting minutes are only to be signed by the Chairman according to Rule No. 6(3) of public sector Corporate Governance Rules, which states that “The chairman of the Board shall ensure that minutes of meetings of the Board are appropriately recorded by approving them under his signature.” The Board awarded the interview marks by considering his profile and responses during the interview. His most relevant experience in Real estate and Development projects was a plus point. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.2.4.49 Irregular appointments on various key positions

Rule 5 c (ii) of Public Sector Companies (Corporate Governance) Rules, 2013, states that, ensuring equality of opportunity by establishing open and fair procedures for making appointments and for determining terms and conditions of service. The Board may nominate a committee consisting of one of its members or senior Executives for investigating, where necessary on a confidential basis, any deviation from the company’s code of conduct;

During audit of Pakistan Industrial Development Corporation (PIDC), Head Office Karachi for the year 2021-22, it was observed that the process of hiring of employees was marred with irregularities as follows:

S.#	Name & Designation	Remarks
1	Mr. Aftab Shaikh Manager Technical	<ul style="list-style-type: none"> • Irregular appointment without Advertisement. Six people had appeared for the interview of Manager Technical, he was not one of them. He had applied for the post of CTO advertised on 17.02.2019. • Appointed as Manager Technical at a Salary of 180,000, his current salary as of 1.1.2023 is 273,312, an increase of 52% in 3.5 years. Also given a 1300 CC new car over and above the entitlement of his category. • The whole process of interview till joining took less than 10 days, the interview was conducted on 21.06.2019, appointment letter issued on 26.6.2019, accepted on 27.6.2019 and joined on 1.7.2019. • Experience certificate of PAF in his file is without proper letter head and stamped by Pak PWD Executive Engineer. • In his CV he has mentioned he was working as Deputy Director from 2006 to 2009 in PAF. But his last tenure at PAF, as per the CV, is AD (Works) from March 2014 to June 2016. • HR Head favoured him by giving following remarks in interview, " His profile is most suitable for the Manager Technical Position and his disposition is also good. As he has a military background, presentation and discipline are also up to mark. He is strongly recommended for the vacant position."
2	Mr. Faizan Khan AM Projects Supervision	<ul style="list-style-type: none"> • As per PEC record working simultaneously for contractor Haji M Ramzan as well as his job at PIDC. • The contractor is based in Punjab, interestingly Mr. Faizan has been looking after the Project Rachna Industrial Park which is also based in Punjab.
3	Mr. Zeeshan Manager R&E	<ul style="list-style-type: none"> • Non- Recovery of excess payment in light of DAC directives w.e.f 01.06.2012 to 24.07.2014. • PEC expired since 2002.

4	Mr. Abdul Khalique Estate Officer	<ul style="list-style-type: none"> • Date of advertisement is 02.08.2019. • Irregular appointment, undue favour given by committee members. • Mr. Khalique was unanimously recommended by all three members of the interview panel with following remarks: <ul style="list-style-type: none"> ○ Aftab Shaikh remarked, "He can be utilized for other jobs at KCIP"; ○ Javed Shaikh remarked," Can be utilized as Mechanical Engineer Also"; ○ Asghar Mustafa remarked," Khalique for lack of a better candidate is suitable for Estate Officer KCIP. He is an Engineer by education and has knowledge of estate office position but no relevant work experience. Technical Evaluation by Project Manager (KCIP) is that he can catch up quickly and get polished." • Irrelevant Degree and Experience. He is an engineer while the required degree was B.Com and 7 years of relevant experience which he didn't possess.
6	Vijay Kumar DM Accounts	<ul style="list-style-type: none"> • Date of advertisement is 03.03.2019. • An interview was held on May 18, 2019 attended by Rizwan Bhatti CEO, Saleem Ahmed CFO, Muhammad Afzal Chairman BoD. • The Committee unanimously approved the appointment of Vijay Kumar as Deputy Manager Accounts despite the fact that the said post was neither part of the advertisement, nor he had applied for it. • Further, Mr. Vijay didn't even possess the required degree of MBA Finance. He has MBA in Management and Administration. • Moreover, his experience too was short by 2 years as his service from June 2016 till date of application could not be verified as no experience certificate was available in his file pertaining to the period.
6	Asghar Mustafa HR and Admin Head	<ul style="list-style-type: none"> • Date of advertisement is 31.03.2019. An interview was held on May 18, 2019 attended by Rizwan Bhatti CEO, Saleem Ahmed CFO, Muhammad Afzal Chairman BoD. • The said Interview was for the posts of CTO, HR Head & Manager Accounts on the same day despite date of Advertisement being different in each case. • Mr. Asghar applied before the Ad was published on 31.03.2019. He seems to already know about the vacancy and applied on 27.03.2019. . • Undue favour in appointment given by interview panel. • Mr. Asghar has subsequently been involved in irregular hiring of people. • Involved in irregular disposal of assets.
7	Ms. Beenish AM Internal Audit	<ul style="list-style-type: none"> • Date of advertisement is 05.03.2017. • Irrelevant Degree and Experience. Not ACCA as required and did not have experience of working in accounting firms. She worked as lecturer and her last job was in Pakistan Stock Exchange (PSX). • She has done CIMA which is relevant for managerial accounting. ACCA are qualified internal auditors. • Worked as AM R&E and now as AM Corporate Department instead of his parent department of Internal Audit. • Overage at the time of appointment by almost a year. She joined in July 2017 when she was 36 (DOB is 17.6.1981). • Her CIMA was not complete at the time of application.

8	Wajid Shaikh AM Site BQIP	<ul style="list-style-type: none"> • Date of advertisement is 02.08.2019. Ad for the post was issued on Aug-02-2019 however in the file Ad dated 03.03.2019 is placed in which the experience criteria apparently favoured Mr. Wajid. • In his CV which was used for assessment by the Interview Panel he wrote that he worked for ECIL Consultants as Site Engineer from Jan 2009 to March 2010 however as per Experience Certificate submitted by him that period is covered by his brief stint as Trainee Engineer with Indusmen Corporation from 31st Jan 2019 to 30th June 2009. • As per original Ad, minimum 10 years of Site supervision for Industrial Infrastructure Works including 2 Years of design work was required. However, only part of his 3-year period with Indusmen (Feb 2011 to Jan 2014) is on an Industrial Project, the rest of his 7 year experience is not related to Industrial Infrastructure. • Out of 2 years design experience required, he only worked some portion of his 9 months with Techno (April 2010 to Jan 2011) as Junior Engineer on Designing. • His experience from April 2010 to Aug 2019 (Closing Date), it comes out to be 9 years and 4 months which is less than the total required of 10 years. • He only has partial 3 years of the total 10 years relevant required and only 6 months of design out of 2 required. That too is disputed and would need further proof. • He hasn't bothered to get his PEC renewed which has expired since Dec 2020. • Despite of his obvious lack of required experience and expertise, he was given 19 out of 20 marks for his work history by the Interview panel. • The remarks of the members of the interview panel were as follows: <ul style="list-style-type: none"> ○ Aftab Shaikh remarked, " Sufficient experience with consultant and contractor. Recommended for the post of AM (Project) at Site." ○ Javed Shaikh remarked, "Relevant Experience and technically sound, will be useful for project." ○ Asghar Mustafa Remarkd, " Wajid has the right technical know-how and skillset for the requirements.... is currently drawing a salary of Rs. 115,000 PM and is looking for a salary of 135,000 PM." • During interview he was given following 52 marks out of 60 in the categories of Emotional Stability, Intellectual Capability and Energy Drive. These marks are totally discretionary. Also, the category of Energy and Drive, in which he is given 18 Marks, is so arbitrary and subjective.
9	Mr. Mujahid AM HR	<ul style="list-style-type: none"> • Date of advertisement is 03.03.2019. • Irrelevant Degree. Required MBA HRM, he has MBA (Commerce & Economics).
10	Mr. Awais AM Admin	<ul style="list-style-type: none"> • Date of advertisement is 03.03.2019. • Doubtful MBA (B&F) degree and experience certificates. Both maybe sent for verification. • HEC verification only on photocopies not originals. • As per declaration he was working during 2008-11 while also doing MBA from 2008-10. • Experience certificates may be verified, degree may be sent to the university for verification. • No mention of discipline on the degree.

- | | |
|--|--|
| | <ul style="list-style-type: none">• Secured 83 marks in the interview, totally subjective interview criteria such as energy and drive.• Joined on 1.8.2019 @ Rs. 55,000 Gross Salary. His salary w.e.f 1.1.2023 is 101,190. Salary 84% increased in three years.• No proof that he worked in KE from 2011-15.• Involved in irregular disposal of assets along with HR Head. |
|--|--|

Audit is of the view that the appointments without taking into account eligibility and non-following of due process were unjustified irregular.

The matter was reported to the management in June, 2023. The irregularity was discussed in the DAC meeting held on December 13 & 14, 2023. The management informed the DAC that all the recruitments were made in accordance with the rules. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.3 Karachi Tools, Dies and Moulds Centre

9.3.1 Introduction

Karachi Tools, Dies and Moulds Centre (KTDMC) was incorporated in 2006 as a company limited by guarantee having share capital under Section 42 of the Companies Ordinance, 1984. The primary objective of the Company is to establish and run an Information Technology (IT) - based common facility centre primarily for improving the skills of engineers and designers, enhancing the quality of designing, engineering and manufacturing of local tools, dies and moulds. The Company is a wholly-owned subsidiary of Pakistan Industrial Development Corporation (PIDC).

9.3.2 Comments on Audited Accounts

9.3.2.1 The working results of company for the years ended June 30, 2022 as compared to previous years are given below:

(Rs. in million)					
	2021-22	% Inc / Dec	2020-21	% Inc / Dec	2019-20
Income	246.13	18.49	207.72	27.17	163.34
Other Income	12.16	61.07	7.55	(53.07)	16.09
Total Income	258.29	19.99	215.27	19.98	179.43
Direct Cost	(192.51)	16.81	(164.81)	24.52	(132.35)
Admin Expense	(36.08)	15.12	(31.34)	3.34	(30.33)
Total Expenses	(228.59)	16.54	(196.15)	20.58	(162.68)
Surplus/Deficit	29.70	55.36	19.12	14.21	16.74

(Source: Annual Audited Accounts)

9.3.2.2 Admin expenses increased by 15.12% to Rs 36.08 million during FY 2021-22 from Rs 31.34 million in FY 2020-21 due to increase in salaries and other expenses.

9.3.2.3 Tax refunds due from FBR increased by 14.07% to Rs. 83.145 million during FY 2021-22 from Rs.72.889 million due to non-recovery / non-adjustments from tax authorities.

9.3.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	%age of compliance
------------	-------------------------	---------------------	--------------------	-------------------------------	--------------------

2013-14	5	1	4	8.2.4.1, 8.2.2.2, 8.2.3	8.2.2.1, 20%
2015-16	7	3	4	8.4.2.2, 8.4.4.2, 8.4.4.3,	8.4.4.1, 43%
2018-19				9.4.4.1	
2019-20	1	1		7.4.4.1	100%
2021-22	4		4	8.2.4.2 (remaining to be discussed in PAC)	0%
Total	17	1	4		6%

The overall compliance of PAC directives needed improvement.

9.3.4 Audit Paras

9.3.4.1 *Disbursement of amount from a Lapsable Assignment Account in June – Rs 99.935 million*

General Financial Rule 96 states that it is contrary to the interest of the State that money-should be spent hastily or in an ill-considered manner merely because it is available or that the laps of a grant could be avoided. In the public interest, grants that cannot be profitably utilized should be surrendered. The existence of likely savings should not be seized as an opportunity for introducing fresh items expenditure which might wait till next year. A rush of expenditure particularly in the closing months of the financial year will ordinarily be regarded as a breach of financial regularity.

During audit of Karachi Tools, Dies & Moulds Centre (KTDMC) for the years 2020-22, it was noted that management received an amount of Rs. 100 million in December, 2021 for utilization on Establishment of High Tensile Sheet Metal Dies Manufacturing and Titanium Coating Setup at KTDMC. The project was approved by the Ministry on August 4, 2021 for completion in 24 months at cost of Rs.400 million. The amount was remitted for opening of Letter of Credit (LC) on 21-06-2022. The details of disbursement are as:

Detailed Object Code	Budget Rs.	Cheque No.	Date of Cheque	Payee's Name	Amount in Rs.
A09601 – Purchase of Plant & Machinery	95,000,000	A962602	21/06/2022	NBP LC Margin	95,000,000
A05270 – Others	5,000,000	A962603	21/06/2022	NBP LC Margin	4,935,744
TOTAL	100,000,000				99,935,744

It was observed from reconciliation statements, bank statement and cheques that total released budget was utilized / remitted on 21-06-2022.

Audit is of the view that funds were disproportionately expended in the month of June without proper planning at the end of financial year against the financial propriety.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 11, 2023. The management informed the DAC that Sanction was issued on December 02, 2021. Finance division released FE amounting 518,200 vide letter dated March 10, 2022. Approval for Import L/Cs was received from NBP vide letter March 30, 2022. The case was approved by SBP on June 14, 2022. Accordingly, the LC was issued June 23, 2022. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.3.4.2 Non-settlement of Advance Tax - Rs.83.145 million

Rule 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Karachi Tools, Dies & Moulds Centre (KTDMC) for the years 2020-22, it was observed that amount of Rs.83.145 million as Income Tax and Sales Tax was lying refundable / receivable from the tax authorities in respect of tax years 2017 to 2021. M/s KTDMC management also engaged services of tax consultant @ 2% of the refundable amount for recovery of tax refunds from tax authorities. However, no amount has been settled till date.

Audit is of the view that non settlement of tax receivables on time depicts incompetency on part of KTDMC management.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 11, 2023. The management informed the DAC that refund of tax year 2018 amounting to Rs.7.520 million out of Rs.8.609 million and tax year 2020 amounting to Rs.8.498 million out of Rs.9.555 million received respectively. The matter was also taken before the Federal Tax

Ombudsman and FTO ordered FBR to issue the refunds. In compliance, FBR released the tax refunds in respect of tax year 2019 and 2021, amounting Rs. 986,981 and 9,357,388 respectively. The DAC directed the management to pursue the matter of refund of advance tax with tax authorities.

Audit recommends implementation of the DAC directives.

9.3.4.3 *Non-deposit of funds in Gratuity Fund Account– Rs.50.787 million*

According to clause 218 (2) of Companies Act, 2017, where a Provident Fund, Contributory Pension Fund, Gratuity Fund or any other contributor retirement fund has been constituted by a company for its employees or any class of its employees, all money contributed to such fund, whether by the company or by the employees or by both or received or accruing by way of interest, profit or otherwise from the date of contribution, receipt or accrual as the case may be shall either be deposited i) In a National Saving Scheme, ii) in a special account to be opened by the company for the purpose in a scheduled bank.

During the audit Karachi Tools, Dies & Moulds Centre (KTDMC), Karachi for the year 2020-21- & 2021-22, it was observed that management did not deposit the Gratuity amount of Rs.50.878 million in Gratuity Fund Account as at 30-06-2022 (based on the actuarial valuation).

Audit is of the view that non-deposit of funds in Gratuity Fund Account reflected non-compliance of Corporate Governance Rules.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 11, 2023. The management informed the DAC that certain employees filed the Constitutional Petitions in the Honorable High Court of Sindh and claimed that they should be regularized and are deprived of retirement benefits. The estimated exposure would be Rs. 64.914 million as at June 30, 2023. However, after seeking opinion of the legal advisor, management is of the view that the said employees are not entitled for regularization and are only entitled for the benefits which have specifically been agreed upon through service agreements or appointment letter and not otherwise. Karachi. The matter is subjudice in court of law.

Audit recommends implementation of the DAC directives.

9.3.4.4 *Exchange loss due to delay in Letter of Credit (LC) - Rs.16.582 million*

Rule 4(3) of Public Sector Companies (Corporate Governance) Rules, 2017 states that, the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Karachi Tools, Dies & Moulds Centre (KTDMC) for the years 2020-22, it was observed that bids for supply, commissioning & installation of 3D Scanner Machine, CNC Machines & ZNC/CNC EDM 3 Meter were called through press advertisement dated 15-10-2021 from the national bidders. M/s Ultimate CAD Solutions Islamabad and M/s Dynamic Tooling Services Karachi were awarded

the contracts on January 18, 2022 and LCs were opened in June 2022 after lapse of five months of the award of contract which caused exchanges losses as tabulated.

Product	Offered Cost US\$	Dollar Rate in Rs. when Contract was Awarded (January 2022)	Total value in Rs. during month of January 2022	Dollar Rate in Rs. when LCs were opened (June 2022)	Total value in Rs. during month of June 2022	Exchange Loss in Rs.
	1	2	3(1*2)	4	5(1*4)	(3-5)
GoM 3D Scanner	104,400	177	18,478,800	209	21,819,600	(3,340,800)
CNC Machine (1 set)	85,720	177	15,172,440	209	17,915,480	(2,743,040)
CNC Machine (2 set)	163,280	177	28,900,560	209	34,125,520	(5,224,960)
ZNC/CNC EDM 3 Meter	164,800	177	29,169,600	209	34,443,200	(5,273,600)
Total	518,200	177	91,721,400	209	108,303,800	(16,582,400)

It was further observed that overall value of contracts awarded was US\$ 518,200, whereas LCs opened amount was US\$ 432,480. Hence, there was difference of US\$ 85,720/. It was noted that CNC Machine-1 set receiving record was not available. (Annex-63)

Audit is of the view that, due to negligence of the management the company suffered exchange losses of Rs.16.582 million on account of delayed procurements.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 11, 2023. The management informed the DAC that the case was approved by SBP on June 14, 2022. Accordingly, the LCs was issued on June 23, 2022. Further, LC of US\$ 85,720 (CNC Machine-I set) was not opened in 2021-22 due to the funds required for LC opening exceeded the fund released for the year 2021-22. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.3.4.5 Non imposition of Late Delivery charges - Rs 6.239 million

As per contract agreement between KTDMC & Suppliers, buyer shall have the right to claim from the supplier payment of percentage equal to one tenth of one percent of the price of each item of the supplies not timely delivered for each calendar day, of delay, provided, however, that the total claim of payment shall not exceed ten (10) percent of the price of such incomplete items, or without prejudice to the provisions.

During audit of Karachi Tools, Dies & Moulds Centre (KTDMC) for the years 2020-22, it was observed that Purchase Orders for supply/installation of machinery items were issued to following vendors as per details given below:

Name of Bidder	Item	Contract Value. Rs.	PO Date	Required to be Delivered On	Delivered On
M/s Dynamic Tooling Service	CNC Turning Centre	8,182,980	30-Apr-21	2-Aug-21	No delivery record found
	Cylindrical Grinder	3,852,810	30-Apr-21	2-Aug-21	25-Oct-21
	CNC ZNC EDM Machine	5,436,990	30-Apr-21	2-Aug-21	4-Sep-21
M/s Subhan Engineering	Shaper Machine	1,667,250	30-Apr-21	2-Jul-21	24-Sep-21
	Lathe Machine	1,521,000	30-Apr-21	2-Jul-21	5-Oct-21
M/s KTD Pvt Limited	Drill Machine Pedestal	620,100	30-Apr-21	2-Jul-21	3-Nov-21
M/S Jaffer Brothers	Granty Crane	10,794,000	03-Jun-19	31-Oct-19	22-Jan-20
M/s KTD Pvt Limited	SJ 20 CNC Turning Centre	9,435,000	10-Dec-21	28-Feb-22	25-Apr-22
M/s Ultimate CAD	GoM 3D Scanner	20,880,000	18-Jan-22	24-Apr-22	15-Oct-22
	Total	62,390,130			

However, above data revealed that machineries were not delivered within the agreed time period. Late delivery charges amounting to Rs.6.239 million was required to be imposed on the vendors but the same was not claimed / recovered.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 11, 2023. The management informed the DAC that for CNC Turning Centre, manufacturer did not receive export approval from his Govt. And for Cylindrical Grinder, CNC ZNC EDM Machine etc, manufacturer faced difficulties in finding the material due to COVID 19 and machines were delayed. Granty Crane, due to shifting of existing CNC machines delivery period of crane was extended. SJ 20 CNC Turning Centre, due to the congestion of the sea port, the delivery of the machine was delayed. GoM 3D Scanner, the case was approved by SBP on June 14, 2022; LC was opened on June 23, 2022. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.3.4.6 *Non-adjustment of advances from suppliers – Rs. 5.416 million*

Section 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2017, states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Karachi Tools, Dies & Moulds Centre (KTDMC) for the years 2020-22, it was observed that the management had created a provision for the recovery of its advances as doubtful from the current revenue pertaining to various suppliers amounting to Rs.5.416 million which reflects that the amounts of doubtful advances were on a very high side. The details are as under:

Description	Amount in Rs.
Impairment loss (Training)	2,754,332.00
Impairment loss (Manufacturing)	2,661,917.00
Total Advances	5,416,249.00

Year wise break up of doubtful advances were as under:

Year	Debt Rs.	Year	Debt Rs.
2010	182,479	2016	189,364
2012	46,978	2017	353,604
2013	257,697	2018	229,267
2014	273,638	2019	623,659
2015	275,397	2020	1,200,191
		2021	1,921,775

Audit is of the view that the due to in-effective financial management, KTDMC failed to adjustment / recover the outstanding amount, which resulted in creation of doubtful debts/credit losses and directly affected cash flow and working capital requirements of the KTDMC.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 11, 2023. The management informed the DAC that amount of Rs. 5.416 million stated does not pertain to advance from supplier rather the amount represents the Allowance for expected credit loss and does not represent actual unrecovered amount rather it is a provision for doubtful debt. The DAC directed the management to get the adjusted/recovered amount verified from Audit.

Audit recommends implementation of the DAC directives.

9.3.4.7 *Irregular payment of bonus-Rs.4.145 million*

According to Finance Division (Regulations Wing) office letter No.F.3(5) R.12/80(R.14). Vol.H2201-54 dated 30th November 2001, certain autonomous bodies /semi-autonomous bodies/corporations are not following the Government instructions in letter and spirit and making payment of bonus to their employees without approval of Finance Division (Regulation wing).

According to Finance Division (Regulation Wing),O.M.No.F.3(5) R.12/80(R-14) 2002-154 dated Mar 18, 2002, the Managing Director and Members of the Board of Directors of autonomous/semi-autonomous bodies/public corporations/ organizations are not entitled to receive bonuses.

During audit of Karachi Tools, Dies & Moulds Centre (KTDMC) for the years 2020-22, it was observed that during the year 2021-22 management paid an amount of Rs.4.145 million on account of performance award to the officers (including payment of Rs. 0.333 million to the CEO) and officials without concurrence of Finance Division.

Audit is of the view that management paid bonus in violation of above rules. Thus, payment of Rs 4.145 million was irregular.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 11, 2023. . The management informed the DAC that the performance award was approved by the Board and KTDMC is a public sector company. The DAC directed the management for verification of profit and Cash flow position of the company from audit and clarification from the Finance Division.

Audit recommends implementation of the DAC directives.

9.3.4.8 Non-disposal of vehicles - Rs.2.859 million

Rule 5(1) of the Public Sector (Corporate Governance) Rules, 2017 states that the Board shall exercise its power and carry out fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Karachi Tools, Dies & Moulds Centre (KTDMC) for the years 2020-22, it was observed that Board of Directors in its 54th meeting held on dated September 01, 2021 approved the disposal of vehicles amounting to Rs. 2.859 million. However, management failed to auction the vehicles till close of audit.

S#	Vehicle No.	Make	Purchase Date	Cost (Rs)
1	CT-9376	Suzuki Bolan	Aug-07	660,000
2	GP-5562	Suzuki Cultus	Aug-07	844,060
3	AVC-336	Suzuki Alto	2011	710,000
4	GA-1415	Suzuki Cultus	2011	645,841
Total				2,859,901

Audit is of the view that the management failed to dispose-off the vehicles in violation of BoD directives.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 11, 2023. The management informed the DAC that the vehicles mentioned at the serial # 3 & 4, i.e., AVC-336 & GA-1415 was disposed in September 2019. However, the advertisement for disposal remaining two vehicles has been published on dated October 8, 2023. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.3.4.9 Non-disposal of obsolete assets - Rs. 1.768 million

Rule 5(1) of the Public Sector (Corporate Governance) Rules, 2017 states that the Board shall exercise its power and carry out fiduciary duties with a sense of objective judgment and independence in the best interest of the company.

During audit of Karachi Tools, Dies & Moulds Centre (KTDMC) for the years 2020-22, it was observed that assets valuing Rs 1,768,308 were lying non-functional / obsolete since long and the same were not disposed off. The detail was as under:

S. No.	Asset Description	Cost Rs.
1	Furniture & Fixture	165,614
2	Computer Equipment	291,181
3	Electrical Equipment	667,824
4	Office Equipment	314,524
5	Plant & Machinery	329,165
	Total	1,768,308

Audit is of the view that non-disposal of these fixed assets caused a loss to the company.

The matter was reported to the management on March, 2023. The irregularity was discussed in the DAC meeting held on November 11, 2023. The management informed the DAC that all the items have been disposed Vide Tender dt: October 2021 and Tender dt: January 2023. The DAC directed the management to get the record verified from Audit.

Audit recommends implementation of the DAC directives.

9.4 Pakistan Institute of Management

9.4.1 Introduction

Pakistan Institute of the Management (PIM) was established in 1954 by Pakistan Industrial Development Corporation (PIDC) under the Ministry of Industries, Government of Pakistan. In Dec 1975, it was transferred to the Ministry of Industries and Production, Government of Pakistan and subsequently through SRO dated Nov. 15th, 1976 an autonomous Board of Governors was constituted to promote management development in the country. Its primary mission is to serve the growing and complex need of organizational managers to achieve managerial excellence. Toward this end, PIM seeks to contribute to the enhancement of the managerial skills through training consultancy and research.

9.4.2 Comments on Audited Accounts

9.4.2.1 The annual audited accounts are required to be provided to audit for review each year. Contrary to this, the management failed to provide audited accounts of the organization for the years 2012-13 to 2022-23 despite a number of reminders.

Audit requires that the annual audited accounts of the years 2012-13 to 2022-23 be provided immediately and timely finalization be ensured in future, besides, fixing responsibility for non-finalization of annual audited accounts (*Annex-2*).

9.4.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	% of compliance
2009-10	8	-	8	Annex-I Item-09, 94, 94.1, 94.2, 94.3, 94.4, 95, 96	-
2013-14	7	4	3	8.6.2.1, 8.6.3, 8.6.4.1	57%
2015-16	3	2	1	8.8.2.1	67%
Total	19	7	12		37%

The overall compliance of PAC directives was satisfactory.

9.4.4 Audit Paras

9.4.4.1 Loss due to discontinuation of EMBA program – Rs 84.000 million

Rule 4 (3) of the Public Sector Companies (Corporate Governance) Rules, 2013 states that, the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules. His responsibilities include implementation of strategies and policies approved

by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Institute of Management (PIM) Karachi for the year 2021-22, it was observed that the management started Executive Master of Business Administration (EMBA) program in 1998 in affiliation with Institute of Business Administration (IBA) in May 24, 1997. This was discontinued after a period of 6 years due to cancellation of affiliation by IBA in May 20, 2004. Later on in November 26, 2009 EMBA program was affiliated with Karachi University that lasted for only two semesters and again discontinued. On February 08, 2011 Sindh Assembly granted degree awarding status to PIM. However, classes could last only for ten months and had been suspended till date. During the period 1998 to 2011, management enrolled 783 students and earned revenue of Rs.195.75 million (Rs 250,000 per students * 783 students).

Audit is of the view that had minimum of 20 students been enrolled in a year, management could have earned revenue of Rs 84.000 million (Rs 350,000 x 20 = per year 7.00 million * 12 years).

The matter was reported to the management on April, 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. DAC directed that matter may be taken to board for decision whether case may be pleaded to HEC considering following factors, Positive cash flow (income & exp), Diversification & Managing Human Resource. Revised reply along-with relevant documents may be sent to Ministry in the light of board decision.

Audit recommends implementation of the DAC directives.

9.4.4.2 Irregular award of consultancy work for excellence award program – Rs 28.000 million

Rule 20 of PPRA Rules 2004 stipulates that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

Rule 23 of GFR states that every Government officer should realize fully that he will be held responsible for any loss sustained by the Government through fraud or negligence on his part.

During audit of Pakistan Institute of Management (PIM) Karachi for the year 2021-22 it was observed that management of PIM entered into an agreement amounting to Rs.28.000 million with Syed Zillay A. Nawab Rizvi, sole proprietor of Hashtag Consulting Solutions on December ,2018 for development and management of the Pakistan Management Excellence Award Program (PMEA). The agreement was signed by Mr. Muhammad Abid Hussain Sabri, Ex- Executive Director, PIM for a period of five years and payment of Rs.23.650 million was made till October 2020.

According to agreement, all the expense shall be initially borne by the PIM and will be paid back to PIM in one year. Mr. Syed Zillay A. Nawab failed to make the project self -sustained after lapse of one year whereas PIM continued financing till October 2020 on the directions of Ex-Executive Director of PIM. More over faculty members pointed out the un-satisfactory progress of the PMEA project in terms of high expenditure borne by PIM.

The record reflected that no tender was issued for the aforementioned project /work. Selection of M/s Hashtag Consulting Solutions was sole decision of Ex- Executive Director, PIM. The project was started without approval of the Competent Authority. The agreement was signed on simple paper instead of stamp paper through a color printer.

Audit is of the view that due to connivance, loose internal controls and negligence management sustained a loss of Rs 23,650,552. Furthermore, no serious efforts have been taken to recover the amount from the person involved till date which resulted in huge loss to the public exchequer.

The matter was reported to the management on April, 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. Management admitted that no tender was issued for this project and Hashtag Consulting Solution was selected without fair competition. Further explained that BoG was not properly brief about the PMEAs. DAC directed the management to conduct a fact-finding inquiry at Ministry level to identify the reasons for arranging the excellence award program and release of gratuity to Ex- director of PIM. Board minutes may be examined to identify the role of present ED regarding explanation of the case.

Audit recommends implementation of the DAC directives.

9.4.4.3 Loss of revenue due to non-conducting of Advance Management Program – Rs 27.00 million

Rule 4 (3) of the Public Sector Companies (Corporate Governance) Rules, 2013 states that, the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Institute of Management (PIM) Karachi, for the year 2021-2022, it was observed that the Institute offered Advance Management Program (AMP) for senior executives to increase their knowledge and improve analytical ability since 1962. The course was designed with the help of the Harvard Business School. PIM had trained over 1000 key Pakistani executives under this program since its inception. However, program remained discontinued from time to time. As it started in August, 1995 and remained continued till September, 1998. And after gap of twelve (12) years, through the AMP course in October, 2010, 26 participants were trained. Despite Board of Governors (BOG) directives in 39th meeting held on March 28, 2011, the AMP was conducted after a delay of five years in August, 2016. The program has not been conducted since last five years.

Audit is of the view that had minimum of 15 students been enrolled in a year, management could have earned revenue of Rs 27.00 million during last the five years from 2018 to 2022 (Rs 360,000 per participants * 15 participants = 5,400,000 per year * 05 years = Rs. 27,000,000).

The matter was reported to the management on April, 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. DAC directed the management to place the matter in next BoG

meeting and submit the revised reply to audit and MoIP in the light of Board decision regarding steps taken by the management to revamp the program.

Audit recommends implementation of the DAC directives.

9.4.4.4 Loss of revenue due to non-achievement of target of public training programs - Rs. 25.920 million

Rule 38(1) General Finance Rules states that it is the primarily responsibility of the department authorities to see all revenues or other debts due to Government which have to be brought to account are correctly and promptly assessed, realized credited to public account.

During the audit on the accounts of Pakistan Institute of Management (PIM) Karachi for the financial year 2021-22, it had been observed that during the year 2021-22 that the management conducted 297 public training/ courses out of 405 courses scheduled and remaining 108 courses were cancelled due to unknown reasons. Management also targeted to retain the 4,863 trainees but only 3,777 trainees got trained in the scheduled courses. Detail is as under:

Period	Training			Trainees		
	Trainings Targeted	Trainings Actual	Target Achieved	Trainees Targeted	Trainees Actual	Target Achieved
From Jul To Dec-21	226	163	72%	2,712	2,125	78%
From Jan To Jun-22	179	134	75 %	2,148	1,652	77%
Total	405	297	73%	4,860	3,777	77%

Audit observed that management achieved only 73% of the schedule targeted courses as well as they got the trainees only 77% against the expected target trainees. Due to dismissal performance to conduct the public courses and participation in such courses was lower side i.e. 77% against the target. it has been further observed that courses wise training cost record has not been maintained by the concerned management. Thus, the feasibility and the breakeven analysis of training courses could not be determined which is negligence on the part of management.

Audit is of the view that had minimum of 12 students for 108 courses been enrolled in a year, management could have earned revenue of Rs.25.920 million (108 * 12 participants =1,296 participants * Rs 20,000 = Rs.25,920,000)

The matter was reported to the management on April, 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. DAC directed the management to take corrective measures for achievement of targets.

Audit recommends implementation of the DAC directives.

9.4.4.5 Un-justified payment on account of house hiring-Rs.13.571 million

According to Federal Government Policy, vide OM No. F-2(3) 2003-policy dated July 31, 2004, Ministry of Housing & Works, Govt of Pakistan have issued a comprehensive policy along with scale wise rental ceiling of Government employees at the six specified stations subject to submission of necessary documents.

1. Willingness of the owner.
2. Copy of N.I.C. of the owner.
3. Copy of the drawing of the building.
4. Copy of the registration/allotment order.
5. An affidavit from the owner that his house has not been hired by any other person nor will be hired till such time it remains with the employee
6. Inventory list
7. Sub lease documents
8. Physical Inspection
9. Scrutiny of the case
10. Lease Agreement

During audit of Pakistan Institute of Management (PIM) Karachi for the year 2021-22, it was observed that management paid an amount of Rs.13.571 million on account of house hiring to their officers without submission of above documents, required for private or self-house hiring.

Audit is of the view that undue financial favor was extended by paying the house rent/ hiring to their officers amounting to Rs.13.571 million without following the prescribed rules & regulations.

The matter was reported to the management on April, 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. Management informed in DAC meeting that procedural lapses were highlighted by the Audit had been fulfilled. DAC directed that record may be provided to audit for verification in the light of contents of reply provided in the DAC working papers.

Audit recommends implementation of the DAC directives.

9.4.4.6 Non-recovery from various sundry debtors - Rs.13.300 million

According to Para-26 of the GFR, subject to any special arrangement that may be authorized by competent authority with respect to any particular clause of receipt, it is the duty of the departmental controlling officers to see that all sums due to Government are regularly and promptly assessed, realized and dully credited in the accounts.

During audit of Pakistan Institute of Management (PIM), Karachi for the year 2021-22, it observed that an amount of Rs.13.300 million under the head of sundry debtors was recoverable against the various debtors at 30th, June 2022. Some instances are as under.

S.#	Name of Party	Outstanding Amount (Rs)
01	Asian Continental (Pvt) Limited	27,000
02	Asia Poultry Feeds (Pvt) Limited	54,000

03	Al-Khidmat Welfare Society	81,000
04	Artistic Milliners (Pvt) Limited	682,400
05	Adamjee Dua Built (Pvt) Limited	21,000
06	Enar Petroleum Refining Facility	108,000
07	Fauji Fertilizer Company Ltd	179,200
08	Hi- tech Lubricants Limited	351,000
09	International Steels Limited	438,000
10	Institute of Chartered Accountants	216,982

Non recovery reflected negligence of the management and poor revenue management.

The matter was reported to the management on April, 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. PIM management informed that all outstanding payments have been fully recovered. DAC directed the management that complete relevant record (in all respect) may be provided to Audit for verification in the light of contents of reply provided in the DAC working papers

Audit recommends implementation of the DAC directives.

9.4.4.7 Appointment without advertisement on un-approved post - Rs.11.046 million

Cabinet Secretariat (Establishment Division) letter dated 6th May, 2000, (iii) (b) vacancies should be advertised in the leading national and regional newspapers (c) selection should be made through regularly constituted Selection Committees / Board.

According PIM's service rules para # 06 regarding appointment/ promotion (a) All initial appointments and promotions against sanctioned posts shall be made in consultation with Selection Committee constituted by the competent authority for the purpose in relation to each post or grade as the case may be.

During audit of Pakistan Institute of Management (PIM) Karachi for the year 2021-22, it was observed that management appointed Mr. Muhammad Ovais, as Head of Special Projects on contract basis for a period of one year, on March 09, 2017 without advertisement with monthly salary of Rs 120,000 per month on un-approved post. Detail of Salary paid to employee is as under:

S.No	Period	Per Month Salary	Total Months	Annually inc 10% (Approx)	Total Paid (Rs)
01	Mar,17 To Dec,17	120,000	10	-	1,200,000
02	Jan ,18 To Dec,18	120,000	12	134,400	1,612,800
03	Jan ,19 To Dec, 19	134,400	12	147,840	1,774,080
04	Jan ,20 To Dec, 20	147,840	12	162,624	1,951,488
05	Jan ,21 To Dec,21	162624	12	178,886	2,146,636
06	Jan ,22 To Dec,22	178,886	12	196,774	2,361,295
Total					11,046,299

It is worth mention here that there was no post of Head of Special Projects in PIM. As he was appointed on contract for a period one year. All the appointment rules and policies were neglected. The post of Head of Special Projects was not advertised. Besides, merit and qualification of the employee for the service grade was not competitive based as other candidates were not invited to show interest. This irregular appointment caused the loss of Rs. 11.046 million to the institute.

Audit is of the view that undue favour was extended to the employees at Corporation cost, which indicates weak internal controls in the institution.

The matter was reported to the management on April, 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. Management explained that previous management of PIM missed legitimate procedure of advertising the post that time. DAC directed the management to conduct a fact-finding inquiry at Ministry level regarding illegal appointment. Reference to be made to Law Division to take Input of Law Division through concerned Ministry on Continuation of service on un-approved post.

Audit recommends implementation of the DAC directives.

9.4.4.8 Hiring of services without competition -Rs 5.615 million

Rule 20 of PPRA Rules, 2004 states that the procuring agencies shall use open competitive bidding as the principal method of procurement for the procurement of goods, services and works.

During audit of Pakistan Institute of Management (PIM) Karachi for the year 2021-22, it was observed that management hired the services of M/s Bahria Travels Agency without entering in competition and paid an amount of Rs 5.615 million to the agency.

Audit is of the view that hiring of travelling services without tender stands irregular and unjustified. Hence, payment of Rs.5.615 million was also held irregular.

The matter was reported to the management on April, 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. Management explained that the selection procedure was conducted in a fully transparent manner, and there was no violation made during the selection of M/s Bahria Travels. DAC directed the management to provide the relevant record for verification in the light of Audit objection and contents of reply provided in the DAC working papers.

Audit recommends implementation of the DAC directives.

9.4.4.9 Payment on account of travelling allowance without requisite documents - Rs.5.609 million

According to Rule 10 of GFR, every officer authorized to incur expenditure from the public fund should observe high standards of financial propriety which include, the expenditure should not be prima facie more than the occasion demands and no authority should pass any orders which will be directly or indirectly to his own benefits.

During audit of Pakistan Institute of Management (PIM), Karachi for the year 2021-22, it was observed that the management incurred an expenditure of Rs 5,609,372 on account of official travelling of its officers' tours in contravention of rules and regulations. The following discrepancies were observed in sanction of amounts on account of tour programs:

- i. Travelling & Daily allowance bill were not prepared for TA/DA claim.
- ii. Purpose of visit was not shown to justify the tour program.
- iii. Approved tour program was not issued by the competent authority.
- iv. Certificate of their attendance in meeting/court were not available.
- v. Counterfoil of the boarding card was not found in the record.
- vi. No any authentic schedule of meetings was issued by competent authority.
- vii. There was no any proper office order for nomination of officer/official issued by the competent authority.

Audit is of the view that the payment of T.A/D.A without supporting documents was irregular.

The matter was reported to the management on April, 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. Management explained that schedule for courses was planned and announced around six months in advance. Each faculty member was nominated for each course and

everything was carrying out as per plan. DAC directed the management to provide the relevant record for verification in the light of contents of Audit objection and reply provided in the DAC working papers.

Audit recommends implementation of the DAC directives.

9.4.4.10 Irregular / unjustified expenditure by imprest money – Rs.4.085 million

According to para 8 (viii) of Pakistan Institute of Management (PIM) Rules of business, the Director may authorize an officer of the institution to maintain a permanent advance of not more than Rs 2,000.

During audit of Pakistan Institute of Management (PIM), Karachi for the year 2021-22, it was observed that contrary to above, the management incurred expenditure of Rs 4,085,110 on account of petty expenditure fixing and allowing advance payment of Rs 100,000 to Rs 150,000 as imprest money to Admin section.

Audit is of the view that utilization of fund beyond the prescribed limit was held irregular and unjustified.

The matter was reported to the management on April, 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. The management informed the DAC that imprest accounts are used only for small transactions, such as re-imbursement of food items and lunch purchased for trainees and other incidental expenses. DAC directed the management that to get approval of the competent authority for increase in imprest amount with concurrence of Finance Division and further directed that purchasing may be made in future by following the prescribed rules.

Audit recommends implementation of the DAC directives.

9.4.4.11 Non-adjustment of advances against expenses - Rs.2.854 million

According to Para 26 of the GFR, subject to any special arrangement that may be authorized by competent authority with respect to any particular clause of receipt, it is the duty of the departmental controlling officers to see that all sums due to Government are regularly and promptly assessed, realized and dully credited in the accounts

During audit of Pakistan Institute of Management (PIM), Karachi for the financial year 2021-22, it was observed that an advance of Rs 2,854,824 was outstanding against the persons / parties for the various purposes as on June 30,2022. Some instances are as under:

S#	Description	(Amount in Rs)
01	Nazir Hussain Shah	101,490
02	Branch office Lahore	849,132
03	Kaleem u din	59,100
03	Hammad Rashid	69,000
04	N&S Enterprises	143,749

Audit was of view that non-adjustment in time reflected weak resource management.

The matter was reported to the management on April, 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. DAC management informed that entire amount had been adjusted. DAC directed that relevant record may be provided to Audit for verification in the light of contents of reply provided in the DAC working papers.

Audit recommends implementation of the DAC directives.

9.4.4.12 Un-justified expense of POL, repair and maintenance on vehicles – Rs 2.674 million

According to Rule-15(i) and (ii) of Staff Car Rules, 1980 updated up to 2008 required that movement register and vehicle log book shall be maintained for each staff car Govt. vehicle in charge.

During audit of Pakistan Institute of Management (PIM), Karachi for the year 2021-22, it was observed that the management had ten (10) vehicles and incurred expenditure of Rs 2.061 million on POL and Rs 0.613 million on repair & maintenance of vehicles (Total = Rs. 2.674 million). Log books of the said vehicles were called for vide requisition # 07 dated February 1st, 2023 but the same were not provided to audit because these were not maintained.

Audit is of the view that in absence / non maintenance of movement register and vehicle log book, the misused/unauthorized journeys and POL misappropriation could not be avoided therefore entire expenditure on transportation stands irregular / unauthorized.

The matter was reported to the management on April, 2023. The irregularity was discussed in the DAC meeting held on November 30, 2023. The management informed the DAC that log books and movement registers of all vehicles are properly maintained. DAC directed the management that record may be furnished to Audit for verification in the light of contents of reply provided in the DAC working papers.

Audit recommends implementation of the DAC directives.

9.5 Pakistan Steel Mills Corporation (Pvt.) Limited

9.5.1 Introduction

Pakistan Steel Mills Corporation (Pvt.) Limited (PSM) was incorporated on July 02, 1968 as a Private Limited Company and is wholly owned by the Government of Pakistan. The Corporation was engaged in the manufacturing and sale of iron and steel products. Pakistan Steel Mills is the Country's largest Steel Industrial undertaking, now its operations have closed for the last four years.

9.5.2 Comments on Audited Accounts

9.5.2.1 The working results of the Company for the year 2021-22 as compared with those of the previous years are given below:

	2021-22	%Inc / Dec	2020-21 Revised	%Inc / Dec	2019-20
Sales-Net	3,998.92	150.64	1,595.50	191.98	546.44
Cost of Sales	(10,056.61)	13.13	(8,889.42)	40.01	(6,349.15)
Gross Profit/(Loss)	(6,057.69)	(16.95)	(7,293.91)	(25.70)	(5,802.71)
Distribution costs	(45.69)	(40.98)	(77.41)	(41.49)	(132.31)
Administration expenses	(4,156.47)	31.26	(3,166.50)	8.50	(2,918.47)
Other Operating Expenses	(1,475.30)	288.23	(380.01)	(21.24)	(482.47)
Finance Cost	(14,680.77)	11.80	(13,130.88)	6.85	(12,288.96)
Total expenses	(20,358.23)	21.50	(16,754.82)	5.89	(15,822.21)
Other Income	31,491.32	468.89	5,535.61	251.65	1,659.44
Profit (loss) before Tax	5,083.71	127.46	(18,515.13)	(7.25)	(19,962.52)
Taxation	2,065.08	985.74	(233.15)	(57.03)	(542.55)
Net Profit/ (Loss) after Tax	7,148.73	138.13	(18,748.28)	(8.57)	(20,505.07)
Accumulated losses	(206,068.35)	(5.67)	(218,455.51)	6.55	(203,239.15)
<i>(Source: Annual Audited Accounts)</i>					

Administration expenses increased from Rs 3,166.51 million in the year 2020-21 to Rs 4,156.47 million in the year 2021-22, registering an increase of 31.26%. The increase in administration expense is resulted due to rise in utility charges along with salaries, wages, benefits and staff welfare.

9.5.2.2 Finance cost showed an increase to Rs 14,680.770 million in the year 2021-22 as compared to Rs 13,130.880 million in the year 2020-21 registering an increase of 11.80%. This increase is due to having substantial charges of mark up on short term and long term financing.

9.5.2.3 Current ratio deteriorated from 0.08:1 in the year 2020-21 to 0.07:1 in the year 2021-22. The decline in current ratio reflects weak liquidity condition mainly caused by relatively higher increase in current liability.

9.5.2.4 Quick ratio was 0.039 which reflected weak liquidity position, contributed by relatively higher increase in current liability.

9.5.2.5 Chartered Accountant has given qualified opinion on the following basis:

- **Stock in trade and Stores, spares and loose tools**

Stores include amount of Rs.170.266 million in respect of stores in transit since last many years. The management has explained us that since the said spares are not be approved by the quality control, therefore, the said spares nature not yet been transferred to the stores. Also, we have not observed physical count of such stores.

- **Revision of Income Tax return**

The Corporation has filed its income tax return on provisional basis for the tax years 2016 to 2022 as the financial statements were not finalized and audited till the due date for the submission of tax returns. Since the audited financial statements are available now, the management should revise income tax returns on the basis of audited financial statements.

- **Contingencies**

The Corporation is involved in various litigations which involves significant claims if materialized. In the absence of confirmation from legal advisors and their opinion on the outcome of the cases, we are unable to satisfy whether provision is required to be provided against these litigations.

9.5.3 Compliance of PAC Directives

Audit Year	Total No. of Directives	Compliance reported	Compliance awaited	Breakup of compliance awaited	% age of compliance
1990-91	6	5	1	700	83%
1992-93	25	19	6	136, 137, 138, 140, 143, 145	76%

2019-20	3	-	3	7.9.4.1, 7.9.4.2, 7.9.4.3	0%
2021-22	15		15	8.7.4.6, 8.7.4.7, 8.7.4.9, 8.7.4.5, 8.7.4.10, 8.7.4.11	
Total	281	167	114		59%

The overall compliance of PAC directives needs improvement.

9.5.4 Audit Paras

9.5.4.1 Non-payment of outstanding liabilities – Rs 337,340.581 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013, states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that an amount of Rs 337,340.581 million was payable to various parties as on 30.06.2023 as detailed below:

	30.06.2023		(Rs. in million)
NBP LOANS			
Principal Amount	36,846,309		
Accrued Interest	56,814,114	93,660,423	93,660.423
SUBORDINATE LOANS		3,767,070	3,767.070
GOP LOANS		144,567,748	144,567.748
PAYABLE TO EMPLOYEES			
Gratuity	2,212,681		
Leave Encashment	661,397		
Provident Fund	9,266,091	12,140,169	12,140.169
DEFERRED TAX LIABILITY	37,625,708	37,625,708	
ACCRUED EXPENSES			
Natural Gas Bills	22,732,961		
Water Charges	2,438,100		
Payable to K-Electric	419,741		
Medical Expenses	312,671		
Salaries & Arrears	3,147,747		
Others	2,989,943	32,041,163	32,041.163
CREDITORS			
Import Creditors	4,602,302		
Local Creditors	98,156	4,700,458	4,700.458
Deposits and advances			

	Deposits	1,114,593		
	Advances	5,823,463	6,938,056	6,938.056
	OTHER LIABILITIES		1,899,786	1,899.786
	TOTAL		337,340,581	337,340.581

Audit is of the view that the management failed to pay liabilities on due dates which reflected negligence and poor financial management.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The DAC directed the management to dispose of the liabilities in due course. Further, directed to provide the revised reply to audit.

Audit recommends implementation of the DAC directives.

9.5.4.2 Non-payment of late payment surcharge – Rs 89,902.853 million

Rule 4 (3) of the Public-Sector Companies (Corporate Governance) Rules, 2013, states that, the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Pakistan Steel Mill (PSM) for the year 2022-23, it was observed that the management was unable to pay late payment surcharge amounting to Rs 89,902.853 million as detailed below:

(Amount in Rs)			
Sui Southern Gas Company Ltd			
S#	Actual Billing	Late payment surcharge (LPS)	Bill amount for the month June, 2023
1	91,313,890	48,624,327,890	48,715,641,780
2	44,300	40,689,573,020	40,689,617,320
Karachi Water & Sewerage Board			
3	-	497,594,811	497,594,811
Total			89,902,853,911

Audit is of the view that the management failed to make timely payment of late payment surcharges which reflects negligence and poor financial payment.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023.

- a) The management informed that the matter was decided as per Hadeed Welfare Trust deed. The De-Registration process has also been taken up with the Registrar of Trust, which is still pending. Audit contended that merger was irregular without due process of law i.e. de-registration. The DAC directed the management to inquire into matter and provide final audited accounts, registration of trust and the revised reply.
- b) DAC directed the management to make efforts to resolve the matter with KW&SB.

Audit recommends implementation of the DAC directives.

Note: The issue was also reported earlier in the Audit Report(s) for Audit Year 2022-23 vide para(s) number 9.4.4.8 having financial impact of Rs.408.713 million. Recurrence of same irregularity is a matter of serious concern.

(DP No. 486 & 487)

9.5.4.3 Non-recovery / adjustment of sales tax – Rs 3,377.660 million

Section 4(3) of Corporate Governance, 2013 Rules states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that an amount of Rs 3,377.660 million on account of Income Tax & Sales Tax Refund was not recovered / adjusted from the tax authorities for the year 2021-22.

Audit is of the view that non-recovery / adjustment of Income Tax & Sales Tax refund was poor financial management and slackness on the part of management which needed justification.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that it will be adjusted from time to time. At that time, an amount of Rs. 541.258 million has been adjusted. The DAC directed the management to expedite recovery / adjust and verify record to audit.

Audit recommends implementation of the DAC directives.

9.5.4.4 Non-recovery of outstanding dues of land – Rs 2,828.024 million

Rule 4 (3) of Public Sector Companies (Corporate Governance) Rules, 2013 states that the Chief Executive is responsible for implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that an agreement was signed between PSM and M/s. National Transmission & Dispatch Company (NTDC) for allocation of 75.5 acres of land to erect 500 KV D/C Transmission line to connect Lucky Power Plant with National Grid. M/s. NTDC was required to pay lease money, annual ground rent and Annual Right of Way Charges which was not paid as detailed below:

Description	Outstanding Amount (Rs)
Right of Way Occupancy Charges	763,960,306
Annual Right of Way Charges for the year 2021	15,279,206
Annual Right of Way Charges for the year 2022	16,807,127
Annual Right of Way Charges for the year 2023	18,487,840
Lease Money	1,980,824,000
Ground Rent for five years	32,665,718
TOTAL	2,828,024,197

Audit is of the view that M/s NTDC is operating its commercial business on the land of PSM but failed to pay legitimate dues since long which was against the agreement.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The Management informed that recovery of outstanding dues from M/s NTDC was being pursued. Hopefully, the dues will be recovered soon and agreement approved by BoD. The DAC directed the management that the efforts should be made for recovery of amount, lease agreement and inquiry report share with audit.

Audit recommends implementation of the DAC directives.

**9.5.4.5 Misstatement and material inaccuracy in financial statements –
Rs 1,513.817 million**

Rule 5 of the Public Sector Companies (Corporate Governance) Rules, 2013, states that the directors of a Board shall be persons who, in opinion of the Government, shall assist the Public Sector Company to achieve its principal objective and the Board shall accordingly exercise its powers and carry out its fiduciary duties with a sense of objective judgment and in the best interest of the company.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the Financial Statements of PSM for the year 2020 & 2021 were restated in the year June 30, 2022 due to misrepresentation which increased loss after taxation of Rs 1,513.817 million to the organization as pointed out the Chartered Accountants. The Corporation had wrongly classified:

- i. The investment property of Rs. 6,000 million.
- ii. Wrongly charged payment to creditor as exchange gain in other income of Rs.299 million and recorded an expense of Rs.107 million against the gas expense rather than adjusting with the liability.
- iii. The management revised electricity rates and hence restated the previous year balance of electricity expense amounting to Rs.1.3 billion.

Details of over-stated figures are as under:

S#	Description	As per audited financial statements	Effect of prior period	Restated amounts
		-----Rupees in 000-----		
01.	Effects of prior period error on financial statements for the year ended June 30, 2020			
	Property, plant and equipment	361,360,604	(6,000,000)	355,360,604
	Investment Property	35,453,275	6,000,000	41,453,275
	Revaluation Surplus	354,080,038	(6,000,000)	348,080,038
	Accumulated losses	(209,239,156)	6,000,000	(203,239,156)
02.	Effects of prior period on financial statement for the year ended June 30, 2021			
a.	Restatement in Balance Sheet of 2021			
	Interest / mark-up accrued on			
	Trade Creditor	(4,834,511)	(299,752)	(5,134,263)
	Gas Payable	(22,508,172)	107,720	(22,400,452)
	Payable to K-electric	(519,654)	(1,321,785)	(1,841,439)
	Accumulated losses	(222,941,696)	(1,513,817)	(224,455,513)

b.	Restatement in Profit and Loss			
	Other Income	5,835,365	(299,752)	5,535,613
	Cost of Sales	(7,918,174)	(971,252)	(8,889,426)
	Administrative expenses	(2,923,694)	(242,813)	(3,166,507)
	Loss after taxation	(17,234,465)	(1,513,817)	(18,748,282)

Audit is of the view that the management & External Auditor failed to perform their fiduciary duties which resulted in overstatement of profits during previous years with wrong conclusions for the stakeholders and subsequent losses to the organization.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that restatement/correction of prior year's error was provision in IAS-8

- restating the comparative amounts for the prior period(s) presented in which the error occurred; or
- if the error occurred before the earliest prior period presented, restating the opening balances of assets, liabilities and equity for the earliest prior period presented.

The DAC directed the management to inquire in the matters, provide revised reply and detail of variation of different heads to audit for verification.

Audit recommends implementation of the DAC directives.

9.5.4.6 Blockage of funds due to non-utilization of Government Grant – Rs 1,416.572 million

Rule 4(3) of the Public Sector Companies (Corporate Governance) Rules, 2013 states that the chief executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance. His responsibilities include implementation of strategies and policies approved by the Board, making appropriate arrangements to ensure that funds and resources are properly safeguarded and are used economically, efficiently and effectively and in accordance with all statutory obligations.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the government started the retrenchment scheme for the PSM employees during the year 2020. In order to retrench all employees of PSM an amount of Rs 18,743.113 million was released as full and final payment. However, it was noticed that an amount of Rs 1,416.572 million was neither utilized nor surrendered by the management. The detail was as under:

(Rs. in million)			
Bank Name	Branch	Account No.	Closing balance of NBP
NBP	Pakistan Steel Mills	3101516733	1,416.572

	Bin Qasim Branch, Karachi		
Total			1,416.572

Audit is of the view that non utilization / non-surrendering of huge of Rs 1,416.572 million was gross lapse on the part of management.

The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The management informed that some employees have approached the labour court against the scheme. After the decision of court, the retrenched fund will be utilized. Audit contended that funds placement was irregular and should be surrendered and take the matter with ministry. The DAC directed to pursue the case vigorously.

Audit recommends implementation of the DAC directives.

9.5.4.7 Non-recovery of various dues – Rs 1,161.628 million

Rule 4 (3) of the Public Sector Companies (Corporate Governance) Rules, 2013 states that, the Chief Executive is responsible for the management of the Public Sector Company and for its procedures in financial and other matters, subject to the oversight and directions of the Board, in accordance with the Ordinance and these rules.

During audit of Pakistan Steel Mills (PSM) for the year 2022-23, it was observed that the management failed to recover / adjust an outstanding amount of Rs 1,161.628 million as detailed below(Annex-64).

(Rs. in million)					
S. #	Description	Amount	S. #	Description	Amount
1.	Water	285.504	5.	Commercial rent of units	29.587
2.	Insurance claims	8.200	6.	NIP	478.05
3.	Tenants	18.825	7.	Debtors	120.963
4.	K-Electric	5.873	8.	K-Electric	214.626
		Total	1,161.628		

Audit is of the view that non-recovery / adjustment of amount under various categories indicated slackness and weak recovery mechanism.

- a) The matter was reported to the management on October, 2023. The irregularity was discussed in the DAC meeting held on December 27, 2023. The DAC directed that the management to recover the outstanding amount and provide the relevant documents to audit for verification. Further, directed the management to install individual meters rather than bulk purchase on fact track basis and to provide revised reply and action of loss should be intimated.
- b) The DAC directed the management to provide the relevant record of recovery to audit for verification.
- c) The management informed that an amount of Rs.2.283 million has been recovered till 30-09-23 on account of fee & funds of students. Educational institutions are strictly advised to recover the outstanding dues as per SOP. The DAC directed that in future make recovery from monthly salaries of employees on account of fees and provide relevant record of recovery to audit for verification.
- d) The management informed that an amount of Rs.5.873 million has been recovered from M/s K-Electric. The DAC directed to to verify the recovered amount.
- e) The subject amount is not correct Rs. 29.587 million. The correct figure is Rs. 94.173 million. The DAC directed the management to provide the relevant documents for recovery of Rs.17.705 million to audit for verification and recover the remaining amount.
- f) The management informed that the entire amount has been recovered. The DAC directed the management to provide the relevant documents to audit for verification.
