

**PERFORMANCE AUDIT REPORT
OF
KHADIM-E-PUNJAB IMDADI PACKAGE
AUDIT YEAR 2018-19**

AUDITOR GENERAL OF PAKISTAN

PREFACE

Articles 169 & 170 (2) of the Constitution of the Islamic Republic of Pakistan read with Sections 8 and 12 of the Auditor General (Functions, Powers and Terms and Conditions of Service) Ordinance 2001, require the Auditor General of Pakistan to conduct audit of receipts and expenditure of the Federation, the Provinces and the accounts of any authority or body established by the Federation or a Province.

The Directorate General Audit (Climate Change & Environment) conducted the performance audit of Khadim-e-Punjab Imdadi Package 2014 during the audit year 2018-19 on test check basis with a view to report significant findings to the relevant stakeholders. Audit also assessed the economy, efficiency, and effectiveness aspects of the project activities. The Audit Report indicates certain actions which if taken will help organization in managing similar projects in future.

Audit findings indicate the need for adherence to the regularity framework besides instituting and strengthening of internal controls to avoid recurrence of similar violations and irregularities.

The Audit Report is submitted to the Governor, Punjab in pursuance of Article 171 of the Constitution of the Islamic Republic of Pakistan for causing it to be laid before the Provincial Assembly.

Dated: 14th July, 2020

S/d-
[Javaid Jehangir]
Auditor-General of Pakistan

EXECUTIVE SUMMARY

The Directorate General Audit (Climate Change & Environment) conducted an audit of Khadim-e-Punjab Imdadi Package 2014 during the month of October 2018. The main objectives of the audit were to check that cash compensation was managed with due regard to efficiency and effectiveness. The audit was conducted in accordance with relevant provisions of the Performance Audit Manual and the International Standards of Supreme Audit Institutions (ISSAIs).

During the first week of September 2014, heavy monsoon rains and floods across Pakistan led to the overflow of rivers Chenab and Jhelum. The heavy floods resulted not only in human casualties and displacement but also damaged major crops of the country over an estimated area of more than 1.38 million acres in major 16 calamity hit districts of the Punjab Province.

In wake of the damage and displacement of people caused by these floods, the Government of Punjab took initiative to launch “Khadim-e-Punjab Imdadi Package” through Provincial Disaster Management Authority, Punjab. Under this Imdadi package, financial assistance was provided in three categories to the flood affectees i.e. livelihood support program, crop damage allowance and house damage allowance. The project was implemented in two phases.

This project was first of its kind having no precedent, considering no expertise of such a huge project of cash compensation, which led to mismanagement of project. PDMA Punjab had sole ownership of Disaster Management subject in the province. The project was implemented by hiring a market-based consultant having no succession after completion of project to windup the project in a proper manner like preparation of information and record for audit purposes and to use the same for future guidance / lesson learnt. The project was conceived and implemented in haste without giving due time for planning and devising mechanism to complete the project in efficient and effective manner which caused serious gaps and lapses.

It was found that the basis of this mega project was different surveys i.e. House Damage and Crop Damage for identification of beneficiary. All the internal checks adopted and implemented by the project management were

dependent on the process of payment on soft data provided by the District Administration ignoring the fact that identification of eligible beneficiary was the key to the transparency and success of the project.

The project required extensive monitoring from the start to its completion but besides having SOPs for different monitoring mechanism; no such reports or record was available at any stage and at any level, showing serious lapses in execution of the project. As the project was cash based and involved diverse streams of funds from government, donations and accumulation of profit through banks, hence this project demanded high level of financial management expertise. However, no financial manager or Accounts Officer was available with the PDMA and the financial record of the project was inadequately maintained which raises serious questions.

This report recommends strengthening of PDMA by recruiting highly qualified personnel in HR, IT, finance and technical side to develop its expertise in managing disasters and building up of institutional memory despite hiring qualified staff on deputation basis. The PDMA may develop mechanism for lesson learnt so that in case of any future project of such magnitude the organization should have in-house capacity to deal with such project efficiently and effectively.

The record needs to be maintained as per prescribed manner and in proper form of all disaster management activities and project being undertaken by the PDMA as the maintenance of hard copies of record is the basic essence of transparency.

The District Administration is first line force to handle and manage all disasters, therefore, strong coordination between PDMA and DDMA may be established and the capacity building of all the DDMA's may be conducted.

1. INTRODUCTION

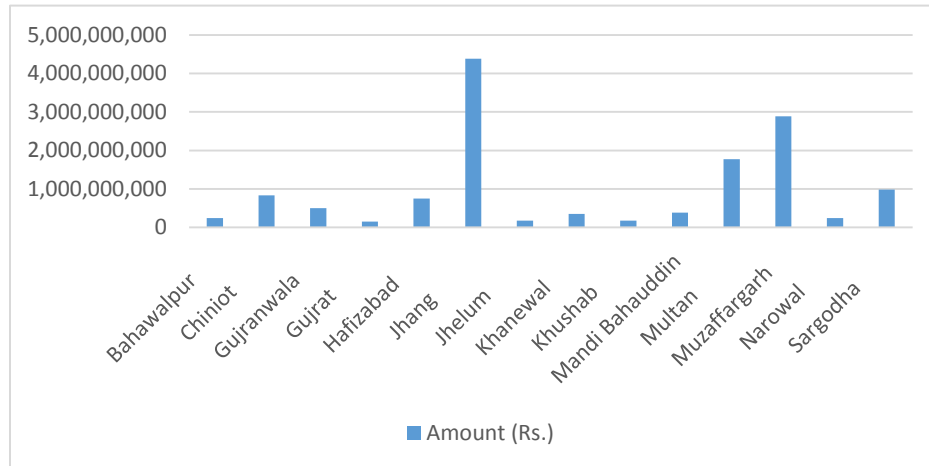

Provincial Disaster Management Authority (PDMA) was established in 2006 under National Disaster Management Ordinance, which was later on enacted by the Parliament in 2010. The PDMA is responsible for spearheading the Government of Punjab's response to a disaster. PDMA is a coordinating authority that provides a platform for all line departments to come together and strategize the preparedness and response to a disaster.

Punjab province was hit by extensive floods in River Chenab and Jhelum in 2014 during which all districts adjoining the two rivers were severely affected. It was estimated that around 2.4 million people were affected due to this natural calamity. Around 525,000 people were evacuated from the affected areas. Hence, there was involuntary displacement along with loss of life and property. The Government, therefore, decided to assist the affected people and a compensation package "Khadim-e-Punjab Imdadi Package" was launched. Under this Imdadi package, financial assistance was provided to the flood affectees into three categories i.e. livelihood support program, crop damage allowance and house damage allowance. The project was implemented in two phases. In the first Phase, cash compensation of Rs 25000 was paid to the beneficiaries of 16 districts. The second phase consisted of three components; House Damage, Crop Damage and Livelihood Cash grant. The detail of payment was as follows:-

House Damage	Crop Damage	Livelihood
Upto 40% Rs. 40,000	Rs. 10,000 per acre	Rs. 10,000 to
Above 40% Rs. 80,000	max up to 12.5 acre	Beneficiary(BISP)

The process of payment involved all major stakeholders including PDMA, DDMA, Banks, NADRA, BISP, PITB, Urban Unit. All these departments were involved to support PDMA in managing this mega project without any time delays. The flow of the process as well as the role and responsibilities of respective departments are at Appendix-I.

The total amount disbursed in both phases amounted to Rs 14.536 billion. District wise total disbursement (Phase I + Phase II) is given below:-

The major portion of disbursement was in the districts of Multan, Jhang and Muzaffargarh, which comes to 62% of the total disbursement.

2. AUDIT OBJECTIVES

Overall objectives of this audit were:

- i. Whether the cash compensation was paid to beneficiaries as per SOP?
- ii. Whether cash compensation was paid to the eligible beneficiaries efficiently?
- iii. To check the effectiveness of compensation package.
- iv. To evaluate internal controls in place for this project.
- v. To check that proper record of project activities was maintained.
- vi. To check that proper monitoring was in place for the complete process.

3. AUDIT SCOPE AND METHODOLOGY

A sum of Rs 16.132 billion was released to PDMA Punjab for cash compensation. This amount was distributed among 16 districts of Punjab. Out of 16 districts Multan and Jhang were selected as sample districts and audit was conducted on test check basis in accordance with the INTOSAI Auditing

Standards. The data of cash compensation was in soft form. Audit Command Language (ACL) was used to perform analysis, besides scrutiny of record with rules / regulations and best practices.

4. AUDIT FINDINGS

Based on the understanding of the project process as well as information / record provided by the PDMA, the audit applied procedures to identify gaps of the project. The audit findings were shared with the management of the PDMA on 9th April, 2019. The management was requested to submit their version in written form and to arrange a meeting to discuss the audit finding. But neither the replies were provided nor any discussion meeting was arranged till the finalization of this report. The audit findings are described in the following section.

4.1 ORGANIZATION AND MANAGEMENT

4.1.1 Non production of record

Section 14 (3) of the Auditor-General's (Functions, Powers and Terms and Conditions of Service) Ordinance, 2001 provides that any person or authority hindering the auditorial functions of the Auditor-General of Pakistan regarding inspection of accounts shall be subject to disciplinary action under relevant Efficiency and Discipline Rules, applicable to such person.

During the execution of Performance Audit of KPIP, various records was requisitioned from PDMA Punjab, DDMA Jhang and DDMA Multan. Audit noticed that PDMA maintained the soft record of the beneficiaries to whom payment was made. However, the hard copy of the record was not maintained as per prescribed manner. Moreover, the ancillary record of the project was also not maintained and the same was not produced to audit team for audit scrutiny despite repeated written and verbal requests. The detail of record is given below:-

- Submission of accounts to accounting offices
- Reconciliation with accounting offices
- Reconciliation of bank accounts
- Copies of Pay orders
- Copies of CNIC of the beneficiaries
- Acknowledgement of pay orders
- Hiring file of A.F. Ferguson for third party audit of KPIP project

- M&E Reports of the project
- Minutes of monitoring / steering committee meetings
- Third party validation report carried out by PITB
- Notification and minutes of District Review Committee
- Notification and minutes of District grievances redressal Committee
- Notification and minutes of District Monitoring Committee
- Notification and minutes of Disbursement center Committee
- Notification and minutes of District Sub Committee to verify the genuineness of causality / death cases.
- Notification of survey teams for house damage assessment
- Cash Book for the financial year 2014-15
- Cheque register of SDA for the FY 2014-15
- Paid vouchers of the amount expended during flood 2014
- Re-appropriations and surrenders of funds
- Vouched account submitted to Account office
- Reconciliation statement of funds with the Account office & PDMA
- Third party validation reports
- Monitoring Reports of the project
- Procurement frame work / process for transportation services, gifts and food
- Copies of CNIC of the beneficiaries
- Copies of survey forms

Non-maintenance of record is a serious lapse and is inefficiency on the part of the management. In the absence of the record in hard form, the transparency and authenticity of the payment raised serious question in handling such a huge project. The management should look into the issue to complete the record.

4.1.2 Non-observance of timelines

As per Standard Operational Procedure circulated vide Board of Revenue letter No. 397-2014/736/CR-I dated 7th November, 2014, the project was to be commenced from 10th November and ended on 25th November.

Audit observed that although the project was initiated with the intention to complete the disbursement of cash compensation before 25th Nov 2014 yet payments were being made until October 2015.

Audit is of the view that the project was launched for immediate relief to the beneficiaries but making payment beyond the timelines showed ill planning and inefficiency in carrying out the project. As the project was initiated in haste, the objective to complete the disbursement process in shortest possible time could not be achieved.

Audit recommends that management may look into the issues which hampered the efficiency of the project due to time overrun.

4.1.3 Unsecured information sharing channel

Email hacking is the unauthorized access to, or manipulation of, an email account or email correspondence.

During the execution of the audit it was observed that extensive communication was made across all the levels and with different departments. All the communication and sharing of data was made through email services e.g. Gmail, Yahoo etc. Such information sharing channel is susceptible to interception resulting in unauthorized disclosure and modification of data.

The data of this project was sensitive as the data was diverse having critical fields including CNIC, Contact No, Address, Family ID, Name, Father name etc. This data was shared over unsecured communication network.

Audit is of the view that sharing of sensitive data over public servers may compromise security. It is easy to be hacked or misused sensitive personal details of beneficiaries.

Audit recommends that management may look into the matter to develop its own web portal and servers for data sharing purposes.

4.1.4 Contract agreement with different partners without any legal vetting

Rule 20 of the Punjab Government Rules of Business 2011 requires that Law and Parliamentary Affairs department shall be consulted by other

departments on matters pertaining to substantive legislation and delegated legislation (rules, regulations, bye-laws, agreements and MoUs)

PDMA Punjab entered into agreements with different departments/partners like BISP, NADRA, and BOP etc. Audit observed that neither the department had its own legal wing nor these agreements were reviewed / vetted by any legal advisor.

Audit is of the view that while these contract documents were being drafted the legal advice was to be sought from the law department to avoid any legal complication at later stages.

Audit recommends that management may look into the matter.

4.1.5 Lack of capacity of PDMA to deal with such mega compensation project

As per the organogram of the PDMA there is no position specifically for Disaster Management (DRR Expert, DRM Specialist, GIS Specialist, Network Specialist, Geologist, Climate Change Specialist, and Forestry Specialist & Sector Specialistsetc).

Audit observed that the ownership of the project KPIP was with PDMA Punjab which had no capacity to deal with such specialized tasks. The execution of this kind of project required high level of expertise in project management and disaster management, whereas PDMA Punjab lacked on both level.

Audit found that PDMA hired a consultant from market who was solely responsible to undertake this project. After contract completion, there was no succession policy, therefore; the department was handicapped and dependent on the consultant. Due to this, PDMA management was unable to address the queries of audit.

Audit recommends that the management may look into the issue and enhance the capacity to plan, coordinate and control such mega project in future.

4.1.6 Lack of planning in the project

Para 1.2 of Manual for Development Projects states that it is understood to be a dynamic process, a method of analysis and thinking which may or may not

involve the preparation of comprehensive legally binding blueprint for socio-economic development. In essence, a plan is a package of economic and social policies expressed with quantified targets and objectives to be achieved during a laid-down period.

Planning is a vital tool for achievement of the desired objectives of the program. It identifies the key information that should be available to support and feed into the decision-making and design process on which programs are based.

During the scrutiny of record of KPIP, following weaknesses /gaps were observed in the project governance: -

- i. Lack of visibility relating to expected number of beneficiaries of the program
- ii. Lack of estimation of funds required and amount to be paid to each beneficiary
- iii. Absence of any monitoring program e.g. affects assessment of the program.
- iv. Lack of proper planning resulted in time overrun and the non-completion of the project effectively.

Audit is of the view that successful completion of such mega project required high level of planning before initiation. Lack of planning hampered the performance of the project.

Audit recommends that PDMA management may do an exercise of lesson learnt so that the problems were highlighted and the organization should improvise in future.

4.1.7 Lack of segregation of duties

As per para 2.3.2.8 of APPM, the accounting system shall include controls to minimize the risk of fraud and corruption. This includes segregation of duties, so that certain accounting functions should be performed by different officers.

During the scrutiny of record of KPIP it was observed that the same person performed following functions at PDMA i.e. consultant hired from open market: -

- i. Collection of survey data from district.

- ii. Compilation of data for sending to NADRA for verification.
- iii. Receipt of verified beneficiary data from NADRA.
- iv. Sharing of approved beneficiary data with BOP.
- v. Preparing debit advice wise list for sending to BOP.

Audit is of the view that non-segregation of duties and completion of whole cash compensation process i.e. collection of survey data to preparing debit advice raises serious question on the transparency and effectiveness of the project.

Audit recommends that the matter may be probed and corrective measures may be taken to avoid such lapse in future.

4.1.8 Lack of process design weakness

“Process are instituted in a program to ensure effective performance of various activities through mitigation of risk to achieve objectives relating to transparency, efficiency & effectiveness of operations and better funds management”.

During the scrutiny of record of KPIP, significant deviations as well as design weakness were identified. The survey performed for assessment of damage was inefficient and ineffective having following drawbacks: -

- i. Lack of clearly defined timelines for finalization of surveys
- ii. Incorrect, incomplete and duplicate survey data
- iii. Lack of attention to the key variables e.g. income level of the people, land area of house etc.
- iv. Lack of reliance on revenue records of Government of Punjab.

Audit recommends that management may look into the matter to avoid such gaps in execution of projects in future.

4.1.9 No data backup policy for KPIP records

As per Operational Procedure, following main record was to be prepared by the PDMA, BOP, NADRA, and District Administration.

Sr. #	Record to be prepared	Responsible Department
1.	Survey Forms with due Endorsement of DCO	District Administration
2.	Preparation of list of beneficiaries to be share with NADRA	District Administration
3.	Review and preparation a final beneficiary list and share with DCO for final scrutiny.	PDMA
4.	Pay order (copy of portion C will be retained and shall finally be transmitted to PDMA	BOP
5.	Record of progress of issuance and subsequent encashment of pay orders and further transmission to PDMA on daily basis	BOP
6.	Submission of consolidated report of all payment to PDMA	BOP

During the scrutiny of record, it was observed that no formal data / record backup for KPIP was documented and maintained by PDMA. All the communications made with different tiers within the organization and with the line department were made through emails. Major component of KPIP data was in soft form (MS Excel & MS Word). PDMA management made no data / record as backup.

Audit recommends that management may look into the gaps in the process.

4.2 FINANCIAL MANAGEMENT

4.2.1 Unauthorized expenditure of Rs 16,132 million

Finance Department Punjab placed Rs 10,000 million vide letter No. U.O. No. (R&E/PPB)8-2/2014-P-I dated 31.10.2014 with certain directions.

During the scrutiny of record, it was observed that Finance Department placed Rs 10,000 million in SDA of DG PDMA. Further, an amount of Rs 6,132 million was demanded later to meet the total cost of project (Rs.16, 132 million). A summary was required to be initiated for Chief Minister Punjab for grant of ex-

post facto sanction of release of funds of Rs. 16.132 billion and approval of expenditure. But the same was not done. Moreover, there was no PC-I for the project.

Audit is of the view that expenditure of Rs 16,132 million was incurred without approval of the competent authority.

Audit recommends that the ex-post facto approval may be obtained.

4.2.2 Noncertification of accounts of the amount expended on KPIP

Section 7 of the Auditor-General's (Functions, Powers and Terms and Conditions of Service) Ordinance, 2001 provides that the Auditor General shall on the basis of such audit as he may consider appropriate and necessary certify the accounts, compiled and prepared by Controller General of Accounts or any other person authorized in that behalf.

Finance department vide its advice dated 24.09.2014 placed funds of Rs 10,000 million in the Special Drawing Account of DG PDMA. Further, an amount of Rs 6.132 billion was also released. During scrutiny of the record it was observed that due to non-maintenance of record neither the pre-audit was carried out nor the record was produced to the audit team for financial audit of PDMA Punjab hence post audit was also not carried out. The payments were made throughout the project but said accounts were not certified by respective audit department.

Audit recommends that the matter be inquired and take disciplinary action against the person at fault.

4.2.3 Non-submission of adjustment accounts- Rs 16,132 million

Finance Department vide their U.O. No. (R&E/PPB)8-2/2014-P-I dated 24.09.2014 placed Rs 16,132 million for disbursement of cash grant to flood affectees with the condition that adjustment accounts with supporting vouchers/document shall be furnished to the Accountant General Punjab Lahore within a period of one month of the withdrawal of the Advance for the adjustment in the book of audit.

During the scrutiny of record of KPIP, it was observed that PDMA did not submit adjustment accounts to AG.

Audit recommends that action be taken against the persons for non-compliance of rules.

4.2.4 Non surrender of bank balances– Rs. 945.785 million

Rule 9(1) of Punjab Treasury Rules states that a Government servant may not, except with the special permission of the Government, deposit in a Bank moneys withdrawn from the Consolidated Fund or the Public Account of the Province under the provisions of Section VII of these rules.

Further, Rule 2.2 of Punjab Subsidiary Treasury Rule states that Account sanctioned under Treasury Rule 9 must be opened with an office of the State Bank of Pakistan or with a branch of a Bank acting as its agent, according to the convenience of the officer opening the account. Where there is no office of the State Bank of Pakistan or branch of a bank acting as its agent, an account may be opened with the Post Office Savings Bank or, with the previous approval of the Government, with any other bank.

During the scrutiny of record of KPIP, it was observed that a bank account titled “Chief Ministers’ Fund for Floods Relief” was opened with the Bank of Punjab to receive donations and funds from Provincial government to incur the project related expenditure. The project was initiated in September 2014. Although project, activities were concluded in 2015, yet the balance amount of Rs 945,785,925 was available with PDMA.

Audit is of the view that that the same was required to be surrendered to Provincial Government.

Audit recommends that unspent balance be surrendered to Government.

4.2.5 Non deposit of profit earned on KPIP funds

As per Finance Department GoPb letter no SO (TT)6-1/2012.Pt-II dated 16.09.2019. The finance department permitted of opening of donation account in the bank of Punjab titled “Chief Miniter’s Funds for Flood Relief.

During the scrutiny of record of KPIP, it was noticed that a bank account titled “Chief Ministers’ Fund for Floods Relief” was opened with the Bank of Punjab to carry out project activities. It was a profit bearing account and profit on available balance was credited into the account on first day of every month. The

analysis of banking record revealed that since opening of bank account an amount of Rs 216,724,357 was earned and credited into the bank account.

Audit is of the view that this amount (accumulation of profit) was over and above the budgetary allocation and without any authority by the Finance Department.

Audit recommends that the amount of profit be deposited into Government Treasury.

4.2.6 Expenditure out of donation amount- Rs 417.425 million

Rule 5 of Punjab Treasury Rules 1988 states that save as hereinafter provided in this Section, all moneys as defined in Article 118 of the Constitution, received by or tendered to Government Servants shall, without undue delay, be paid in full into the Treasury or into the bank and shall be included in the Consolidated Fund or the Public Account of the Province. Moneys received as aforesaid shall not be appropriated to meet departmental expenditure nor otherwise kept apart from the Consolidated Fund or as the case may be, the Public Accounts of the Province. No department of the Government may require that any such money be kept out of the Consolidated Fund or the Public Account of the Province

During the scrutiny of record of KPIP, it was observed that a donations of Rs 417,425,474 was received during the period i.e. 16.09.2014 to 09.02.2015 from general public. Audit observed that no budgetary cover was provided by Finance Department against this expenditure.

Audit is of the view that budgetary provision of the expenditure incurred from the donations amount was to be obtained.

Audit recommends that budgetary provision may be obtained from the Finance Department.

4.2.7 Blockage of Government fund due to non-encashment of cancelled pay orders - Rs 77.940 million

As per rule 2.10(a) of PFR Vol-I, in incurring and sanctioning expenditure from the revenues of the province the disbursing officers and sanctioning authorities should be guided by the fundamental canons of financial propriety and same vigilance should be exercised in respect of expenditure incurred from Government revenues, as a person of ordinary prudence would exercise in respect of the expenditure of his own money

During the scrutiny of record of KPIP, it was observed that an amount of Rs 77,940,186 was refunded because of unpaid and cancelled pay orders on 16.11.2017. Such huge amount of pay orders of beneficiaries was kept in the bank for over two years. This raised doubts on the transparency of identification of beneficiaries. It seems that process of compensation payment was flawed and huge number of wrong beneficiaries was identified who were not paid due to which the said amount remained parked in the bank.

Audit is of the view that the issue may be looked into and reasons for non-encashment of pay orders be identified.

Audit recommends that the matter may be probed to avoid such lapse in future.

4.2.8 Discrepancies in bank record

Para 6.3.4.2 of APPM provides that every DAO shall prepare a monthly reconciliation statement for expenditures and receipts.

During the scrutiny of bank record of KPIP, following major discrepancies were observed:

Sr. No	Date	Description	Rs. Million
1.	25.09.2014	Same day CLGS realized	1,000
2.	25.09.2014	Same day CLGS realized	9,000
3.	30.09.2014	Transfer to rtgs	2,500
4.	07.11.2014	Transfer	9,727.258

5.	07.11.2014	Transfer	1,000
6.	21.11.2014	Fund Trf	750
7.	06.02.2015	Transfer	137.030

Audit is unable to interpret the transactions in the bank statement. The amount mentioned on same sides has different accounting treatment. The bank statement is not in conventional Debit and Credit format which leads to confusing closing balance.

The matter needs identification of error and discrepancies.

4.2.9 Discrepancy in refund of funds to Government of Punjab - Rs 1,413 million

Para 6.3.4.2 of APPM provides that every DAO shall prepare a monthly reconciliation statement for expenditures and receipts

During the scrutiny of record of KPIP, it was observed that unspent balance of Rs 1,413.925 million was returned to Finance Department vide cheque no. 802465016 dated 22.05.2015. The bank statement showed that the same amount was received in the account instead of outward clearing. The banking record provided by the management was insufficient to complete audit of the money trail.

Audit is unable to interpret the transactions in the bank statement. The bank statement is not in conventional Debit and Credit format which leads to confusing closing balance.

The matter needs identification of error and discrepancies.

4.2.10 Irregular expenditure without obtaining vouched accounts

As per rule 2.20 of PFR Vol-I, as a general rule every payment, including repayment of money previously lodged with Government, for whatever purpose, much be supported by a voucher setting forth full and clear particulars of the claim.

During the scrutiny of record of KPIP District Jhang it was observed that sanctions of Rs 5,235,602 and Rs 7,583,822 dated 16.09.2014 were issued and

amount drawn to incur expenditure from SDA account. However, no adjustment / vouched accounts were obtained from concerned.

Audit is of the view that expenditure amounting to Rs. 12,819,424 (5,235,602 + 7,583,822) without any bills was non-compliance of rules and resulted in mishandling of funds released for the project.

Audit recommends that matter be inquired for non-compliance of rules.

4.2.11 Irregular transfer of fund into private bank account - Rs 2.5 million

As per rule 2.10(b) (5) of PFR Vol-I, no money is withdrawn from the treasury unless it is required for immediate disbursement or has already, been paid out of the permanent advance and that it is not permissible to draw advances from the treasury for the execution of works the completion of which is likely to take a considerable time.

During the scrutiny of record of KPIP district Jhang it was observed that an amount of Rs 2,500,000 was withdrawn from SDA of DCO and paid to System Network Administrator vide cheque No. A023396 dated 18.09.2014 without any immediate need.

The withdrawal of public money and further deposit into private bank account of Civil Servant is irregular and misuse of funds, which needs proper inquiry.

Audit recommends that matter be inquired for non-compliance of rules.

4.2.12 Non obtaining vouched accounts by DCO Jhang - Rs 46.100 million

As per rule 2.20 of PFR Vol-I, As a general rule every payment, including repayment of money previously lodged with Government, for whatever purpose, must be supported by a voucher setting forth full and clear particulars of the claim. As far as possible, the particular form of voucher applicable to the case should be used.

During the scrutiny of record of KPIP district Jhang it was revealed that DCO Jhang released funds to different departments / ACS as given below: -

Sr. No.	Department	Rs. Million
1.	District Sports Officer	0.9
2.	District Officer, Roads	2
3.	SNA	2.5
4.	Secretary, DRTA	8
5.	TMA	9.5
6.	DEO 1122	1.2
7.	AC AP Sial	2
8.	AC 18 Hazari	3
9.	AC Shorkot	4
10.	AC Jhang	3
11.	EDO Health	10
Total		46.1

Audit observed that no adjustment accounts were received from respective departments/Acs. This is a serious lapse of the management.

Audit recommends that matter needs to be inquired.

4.3 MONITORING AND EVALUATION

4.3.1 No post flood damage assessment

According to Revenue Department notification dated 09.09.2014 a committee was constituted for flood damages assessment 2014. The purpose of such survey was to check the sufficiency of relief measures taken by PDMA in response to disaster. The composition of the committee was as follows:

- Minister for Finance
- MPA
- SMBR
- Chairman P&D
- Secretary Finance
- Secretary Irrigation
- Secretary Health
- Secretary Communication & Works
- Secretary Live Stock & Dairy Development
- DG PDMA

During the scrutiny of record, it was observed that no post disaster damage assessment survey was conducted by the said committee to assess the damage and carry out relief activities according to Post Assessment Damage Survey.

Audit is of the view that in the absence of Post Assessment Damage Survey, the relief activities were carried out in haphazard manner and legitimacy of actual magnitude of disaster is questionable.

Audit recommends that matter needs to be inquired.

4.3.2 No pictorial / supporting data available

As per Operational Procedure, District Administration shall ensure preparation of video record, picture, movie CCTV coverage. Further, for the house damage and crop damage, a survey form was devised which was mandatory to be filled out and signed by the respective survey teams. For the purpose of this survey, special android phone along with android application was provided to survey teams for proper data and its validation. One of the most important component of those forms were to take the picture and video of House damage or crop damage as the case may be for authenticity of damage,

During the scrutiny of record of KPIP it was observed that no record of pictorial/video data in soft form or hard copy was available with the District Authorities as well as PDMA.

Audit is of the view that departure from the approved procedure occurred due to weak monitoring by the District Administration as well as PDMA that raises question mark on the transparency of the project.

Audit recommends that matter needs proper inquiry.

4.3.3 Non maintenance of basic survey record at DC level

As per PDMA letter dated 13.09.2014 a separate form for House damage and crop damage was devised with the instructions to depute as many survey teams as required. The composition of the team was as under:

- Team Leader (An officer not below the rank of BPS-14)
- Qanungo / Patwari
- Secretary Union Council
- Local Head Teacher

- Local Imam Masjid

The Revenue officer was required to carry out 50% inspection of the survey whereas Assistant Commissioner was required to carry out further 20% verification.

All the responsibility of survey data was vested in the district authorities i.e. its record keeping of hard copy of survey forms, validation of data and its reports and all other allied record.

Audit observed that no record of survey forms was maintained in the districts Jhang and Multan and made available to audit team. Audit found that only a list of beneficiaries was maintained but its source document i.e. Survey forms were not filled and maintained.

Audit is of the view that District Administration and PDMA dispensed from their basic responsibility as neither such record was maintained nor the PDMA called the same from the DCOs at any later stage. These missing links raise serious question on the authenticity of the data and needs proper inquiry.

4.3.4 Irregular payment of house damages

According to policy cash compensation has three broad categories i.e. House Damage, Crop damage and Livelihood Support Program. During test check of sample from districts Multan and Jhang it was observed that in Multan 1,950 beneficiaries of House damage have a damage percentage ranging from 0% to 10 %. Out of these 1,950 beneficiaries 1615 were paid in Phase-II amounting to Rs. 95.462 million (Appendix-II).

Audit is of the view that the house damage under 10% is negligible, whereas the beneficiaries were paid in full. This raised question on the effectiveness and transparency of the project as these beneficiaries were paid having no damage at all.

Audit recommends that matter needs proper inquiry.

4.3.5 Payment to unentitled beneficiaries paid in phase-I but left in phase-II – Rs 27.4 million

As per rule 2.33 of PFR vol-I, every Government servant should realize fully and clearly that he will be held personally responsible for any loss sustained by Government through fraud or negligence on his part.

During the scrutiny of record of KPIP it was observed that the project was carried out in two phases. In the Phase-I beneficiaries were paid Rs. 25,000. On the analysis of data of two districts it was found that 680 beneficiaries of District Jhang and 416 beneficiaries of District Multan were paid in phase-I. As a matter of Policy decision the beneficiaries paid in phase-I were to be included and to be paid in phase-II but the said beneficiaries were excluded in Phase-II. The amount of compensation of these two districts comes to Rs 27,400,000 (Appendix-III).

Audit is of the view that these were unentitled beneficiaries who were paid in phase-I but were not paid in Phase-II after conducting House Damage Survey / Crop Damage survey.

Audit recommends that matter needs proper inquiry.

4.3.6 Doubtful house damage survey / crop damage survey

As per rule 2.33 of PFR vol-I, every Government servant should realize fully and clearly that he will be held personally responsible for any loss sustained by Government through fraud or negligence on his part.

During the scrutiny of record of KPIP it was observed that in Jhang District initial survey of House and Crop damage was conducted in September 2014 and whole project was executed on the basis of said survey. Audit found that as per the PDMA letter dated 02.10.2014 the villages of district Jhang were still marooned in flood water at that time as reported by the District Coordination Officer.

Audit is of the view that conducting survey in the tehsils where flood water was stuck till October 2014 was not possible. This raised doubts on the authenticity of survey conducted during this period and the payments made on the basis of this survey.

Audit recommends that the matter needs to be probed.

4.3.7 No Monitoring and Evaluation of record

As per Para 8(a) of Summary to CM a Provincial Monitoring Committee comprising of following members to ensure that the compensation package is disburse to the genuine affectee of the floods only, in a smooth manner:-

- Minster of Food (Convener)
- Minster for Agriculture
- SMBR
- Chairman CMIT
- Chairman PITB
- DG PDMA
- Additional IG Police
- Retired Civil Servants

During the scrutiny of record of KPIP project it was observed that no report of Provincial Monitoring Committee could be produced to audit to verify that monitoring activity was conducted during the execution of project.

Audit is of the view that despite having such a high level monitoring committee no Monitoring report was generated which is serious lapse in a project of this magnitude.

Audit recommends that the matter needs inquiry.

4.3.8 TPV of crop damage not conducted/available

PDMA vide letter dated 24.10.2014 directed all the commissioners to conduct Third Party Validation (TPV) of crop damage assessment.

During the scrutiny of record of KPIP it was observed that record pertaining to TPV was not available with the districts and PDMA.

Audit is of the view that TPV was an internal check to verify the authenticity of crop damage survey, unavailability of such reports depicts that no such activity was conducted during the execution of KPIP raising question mark on the legitimacy on the payments made.

The matter needs inquiry.

4.3.9 No monitoring and evaluation mechanism at district level

As per mechanism of the project two committees at district level i.e. District Grievances Redressal Committee (DGRC) and District Monitoring Committee (DMC) were constituted. The purpose of DMC was to assess that proper procedure was adopted by district teams during carrying out surveys and supervise arrangements at disbursement centers to ensure both speed and convenience.

During the scrutiny of record of KPIP it has been observed that these district committees were redundant during whole process. No activity or monitoring reports were generated by DMCs to show the output of such committees.

Audit is of the view that lack of effectiveness of such monitoring teams resulted in wastage of public money.

4.3.10 Non availability of data validated by PITB

According to the minutes of meeting chaired by CM Punjab dated 27.10.2014, Chairman PITB was asked to carry out independent validation exercise regarding house and crop damage through IPOR.

During the scrutiny of record of KPIP it was observed that PITB was assigned the task to validate the data of house and crop damage but no such reports/record was available with the PDMA to show the compliance of such directives.

Audit is of the view that the lack of internal checks showed weak project management. This not only showed lack of commitment towards transparency but raises doubts / questions.

4.3.11 Beneficiaries de-notified but paid – Rs 74.353 million

As per rule 2.33 of PFR vol-I, every Government servant should realize fully and clearly that he will be held personally responsible for any loss sustained by Government through fraud or negligence on his part.

During the scrutiny of record of KPIP it was observed that different number of beneficiaries were recommended to be de-notified owing to different reasons i.e. name mismatch or unable to trace in spite of all efforts, but on

analysis of final payment record it was found that these beneficiaries were paid. The detail of which is given below:-

Sr. No	District	No. of Beneficiaries	Rs. Million
1.	Jhang	1283	38.960
2.	Multan	3303	35.393
Total			74.353

Audit is of the view that payment to the beneficiaries recommended to be de-notified was irregular and needs inquiry.

4.4 SUSTAINABILITY

4.4.1 Benefits of funds disbursed in a district / tehsil not given as structural reforms

As per rule 2.10(a) of PFR Vol-I, in incurring and sanctioning expenditure from the revenues of the province the disbursing officers and sanctioning authorities should be guided by the fundamental canons of financial propriety and same vigilance should be exercised in respect of expenditure incurred from Government revenues, as a person of ordinary prudence would exercise in respect of the expenditure of his own money.

During the scrutiny of record, it was observed that huge amount of public money was disbursed in the 16 districts of Punjab estimated to be over 14 billion in total. The total payments of Phase I & Phase II of two districts of Jhang and Multan are given below: -

Sr. No	District	Phase I	Phase II	Total Amount
1	Jhang	682.375	3,580.420	4,262.795
2	Multan	288.150	1,486.968	1,775.118

The comparison above shows that over Rs 4 billion were disbursed in district Jhang and over Rs 1.7 billion in the district Multan. Expenditure of this scale was given as recurring cost. Instead it was used for structural reforms of the district it would have brought lasting and fruitful results rather than cash disbursement.

Audit recommends that a sustainable comprehensive strategy may be devised to overcome such type of disaster in future.

5. RECOMMENDATIONS

As a result of the performance audit, the recommendations for the organization are as under: -

- i. The management may look into the issues highlighted by audit which hampered the efficiency of the project due to time overrun.
- ii. The management may develop its own web portal and servers for emails and data sharing purpose.
- iii. The contract agreements may be vetted by Law and Parliamentary Affairs department for better contract management.
- iv. The management may enhance the capacity to plan, coordinate and control such mega project in future.
- v. The management may conduct an exercise of lesson learned so that the problems highlighted leads to improvements in future.
- vi. Proper segregation of duties may be enforced during project management in future.
- vii. The management may look into the gaps for lessons learnt.
- viii. The financial discipline needs special attention for better and optimal funds utilization within the codal formalities.
- ix. The matters highlighted in the reports needs to be inquired to assess the negligence and its corresponding risk.

6. OVERALL ASSESSMENT

- i. **Relevance:** The Program was in line with Provincial Government's Sectoral Policies.
- ii. **Efficacy:** The project was not useful to manage risks from natural disasters and significant assets against disasters.
- iii. **Efficiency:** The project was far behind its deadline. The project was taken up with the view to complete the cash disbursement at earliest but the project lasted over six months beyond its completion date.
- iv. **Effectiveness:** Instead of providing opportunities for livelihood the

payment focused on temporary, relief through a fixed cash compensation which had no sustainable impact.

v. **Compliance with Rules:** Compliance with rules was non-satisfactory

vi. **Performance Rating of Project**

Un-satisfactory

vii. **Risk Rating of Project**

High

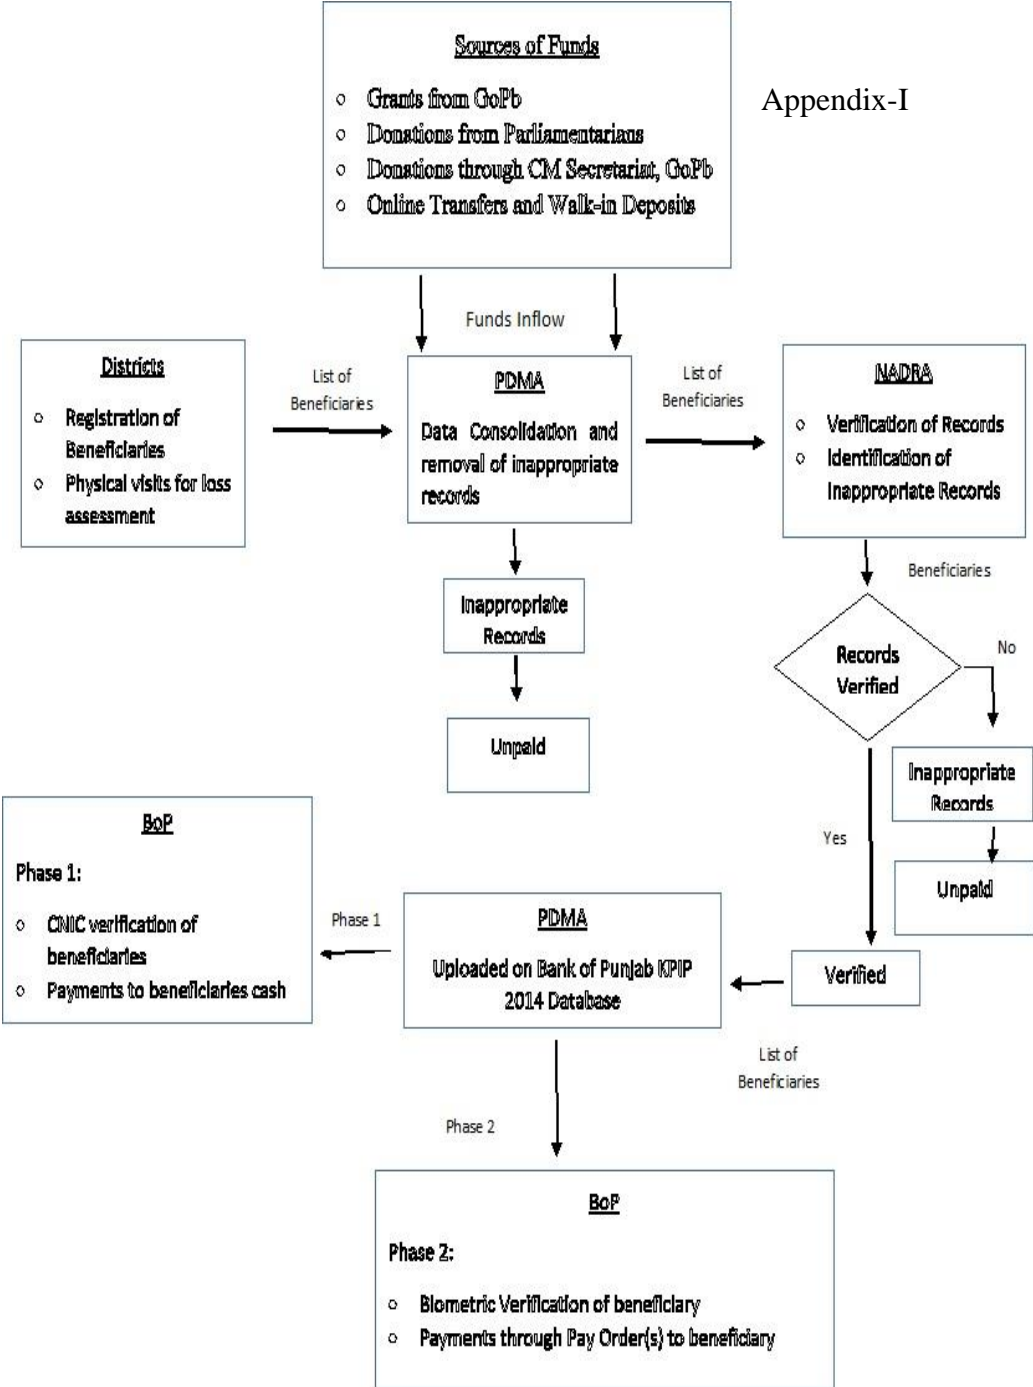

7. CONCLUSION

Government of Punjab through PDMA decided to assist the affected people of 2014 floods. Apart from the fact that PDMA had no expertise to manage such a mega project of cash compensation. The project was handled by consultant hired from market on contract basis, upon completion of contract agreement all the institutional memory rested with that one individual. Therefore, certain glaring deficiencies were noticed during the audit of the selected disaster hit areas on sample basis based on higher number of beneficiaries.

The processes and procedures were designed to maximize the level of transparency however all the internal controls and checks were placed on the payment of cash compensation. These controls were in place but identification of eligible beneficiaries should had been the focus and more checks like cross checking of surveys and reasonable time for identification etc should had been placed on it. A number of beneficiaries who were paid in phase-I were not paid in Phase-II. This was the major drawback and departure from assuring fairness and transparency.

After the performance audit, it was concluded by auditors that although PDMA Punjab tried to execute the project in a transparent manner but it did not carry out the efforts with the desired levels of efficiency and effectiveness. Strong monitoring was required during all phases of project besides sufficient time was to be allocated and given to the survey teams for identification of eligible beneficiaries. Moreover, with this magnitude of funds constructive measures were to be taken instead of cash disbursement.
