Quality Compliance Scorecard (based on ISSAI 140)

The purpose of ISSAI 140 - Quality control for SAIs is to assist SAIs to establish and maintain an appropriate system of quality control which covers all of their work. A major challenge facing all SAIs is to consistently deliver high quality audits and other work. The quality of work performed by SAIs affects their reputation and credibility, and ultimately their ability to fulfil their mandate. This scorecard will assist the AGP in determining whether the quality control standards as enunciated by ISSAI 140 are being effectively applied in FAOs led by respective DGs.

Note: Higher score means greater compliance and means the DGs have been effective in ensuring quality compliance in their respective FAOs. The scorecard comprises 40 questions which have been graded at 2.5 marks each to arrive at a total of 100. Depending on marks obtained, the performance of FAO will be judged/rated according to following table:

Sr. No.	Marks Obtained (out of 100)	Rating
